

VISION

To build a dynamic, rigorous, and inclusive doctoral program that prepares leaders to make remarkable differences in the educational lives of others.

MISSION

To support dynamic, transformative, socially responsible leaders who engage others, value diversity, operate with academic integrity, and believe in people and their educational futures.

OUR GRADUATES

Graduates of the program are prepared to be educational leaders in Pre K-12 and postsecondary settings. The program is designed for working professionals who seek to further influence educational policy and decision making.

Pre K-12 specialization graduates are prepared for positions as principals, superintendents, lead teachers, and other school-site administrators.

Community college/higher education specialization graduates are prepared for critical positions at both 2-year and 4-year institutions as college presidents, student support service administrators, and other administrative leaders.
