# GENERAL EDUCATION

General Education is an important aspect of personal development. It is that part of your university program which encourages you to develop or improve such basic life skills as creativity, critical thinking, self-motivation, independence, an understanding of values, and a general philosophy by which to make decisions throughout life. Possession of these skills makes possible your continued personal growth and the further development of your creative and adaptive capabilities - qualities necessary for you to adjust to and influence a rapidly changing world. It is the basis for life-long learning, and it can increase your ability to be self-directing and to view learning as interrelated elements and not as isolated fragments. It is, in effect, a "survival kit" for the rest of your life!

At CSULB, courses approved for General Education credit provide:

- **Information:** The raw material for thinking, analysis, reflection, and discourse.
- **Methods of Inquiry:** Direction and practice in methodologies of the several disciplines.
- **Basic Skills:** The ability to analyze ideas and data, to relate these to other materials, to develop arguments both logical and cogent, to reach conclusions, and to present the results of these processes with clarity and style.
- **Qualities of Mind:** A respect for data and unpleasant facts; an appreciation of the arts; tolerance, commitment, a taste for learning; creativity, perpetual curiosity, and a sensitivity to ethical considerations.
- **Cultural Sensitivity:** Fosters respect with regard to matters of gender, race & ethnicity.

To aid you in the process of developing a meaningful and integrative program in General Education, the University offers these forms of assistance:

- Academic advising, including assistance with General Education throughout the year in the Academic Advising Center and in departmental and school offices;
- A special listing each semester, in this publication of those courses which the faculty have specified as being appropriate for the General Education requirement in each category. Only courses specifically approved for General Education and listed in the *Schedule of Classes* for the semester in which you take the course may be used to fulfill General Education requirements
- A "Planning Your Academic Program" in this publication with information and suggestions on how to maximize your educational opportunities through General Education and the wise use of electives.

Throughout, the University has tried to ensure that you have maximum freedom choosing specific courses, and it is hoped that your choices will be made on the basis of a well thought-out plan which incorporates the principles of breadth and coherence.

**Special Note on Program Planning:** In addition to courses to complete the General Education requirement, and the requirements of your major, and you may have the opportunity to take a variety of elective courses. Careful choosing of courses may allow you to take courses which will count in several categories, thus freeing you to take more electives or to pursue a minor or a certificate program. You should seek the assistance of an academic advisor in planning a comprehensive program.
