GENERAL EDUCATION

CSULB General Education Requirements (51 Units Total)

- 51 units of General Education course work must include three units of work in U.S. History and three units in U.S. Constitution and American Ideals (required by Section 40404 of Title 5, California Administrative Code). A student who has met these requirements prior to enrollment at CSULB is exempt.
- Cross categorized courses may count in only one category, not both.
- Courses in the student's major department may not be used to satisfy G.E. requirements (per Policy Statement 91-00-revision 5/94). Exceptions are:
 1. Category A.
 2. Category B.1.a. for majors in the life science departments and in B.2 for majors in Department of Mathematics.
 3. Category C.1 and C.3 for majors in the Departments of Art and Music.
 4. Category D.1.a. for majors in the Department of History.
 5. Category D.1.b. for majors in the Department of Political Science.
 6. All Interdisciplinary Courses (I) in ALL categories.
 7. All Human Diversity Courses in all categories.
- Nine (9) of your 51 General Education units must be upper division and taken after you complete 60 units. Six (6) of the 9 upper division units must be interdisciplinary courses (I suffix). These 9 units must be completed at CSULB
- CSULB accepts a maximum of 39 certified General Education units from California community colleges.
- **Interdisciplinary Courses** - are required as a part of your General Education - breadth requirements. You must complete six units of courses with the "I" suffix in any of the categories specified. These units must be completed BEFORE graduation. Interdisciplinary courses are all upper-division courses: they fulfill six of the nine required at the upper-division level in the General Education requirements.
- **Human Diversity courses** - One 3-unit course (denoted with an (*), in this publication under 'General Education Course Listing'), must be completed BEFORE graduation. These courses occur in several categories as lower and upper division. Required for students under the 1993-94 and subsequent *Catalogs*.

Special Note on Program Planning:

In addition to courses to complete the General Education requirement, and the requirements of your major, you may have the opportunity to take a variety of elective courses. Careful choosing of courses may allow you to take courses which will count in several categories, thus freeing you to take more electives or to pursue a minor or a certificate program. You should seek the assistance of an academic advisor in planning a comprehensive program.

To aid you in the process of developing a meaningful and integrative program in General Education, the University offers these forms of assistance:

- Academic advising, including assistance with General Education throughout the year in the

Academic Advising Center and in departmental and college offices;

- A special listing each semester, in this publication of those courses which the faculty have specified as being appropriate for the General Education requirement in each category. Only courses specifically approved for General Education and listed in the *Schedule of Classes* for the semester in which you take the course may be used to fulfill General Education requirements
- A "Planning Your Academic Program" in this publication with information and suggestions on how to maximize your educational opportunities through General Education and the wise use of electives.
