# MINOR IN APPLIED MATHEMATICS <br> Minor Requirements Worksheet <br> 2017-2018 Catalog 

Name: $\qquad$ Student ID:

NOTE: This checklist is not intended to replace advising from the major department. Students should consult with the major advisor to determine the appropriate sequence of courses. This checklist is to inform students of major requirements and course prerequisites only. CSULB Enrollment Services prepares the Academic Requirements Report, which is the official graduation verification.

Before adding any minors, students must check to see if this addition will affect CSULB's Timely Graduation for Undergraduate Students policy. Under this policy, students may earn up to $120 \%$ of the number of units required for the degree in their declared primary major. In addition, the policy requires that a student must file a Request to Graduate form with Enrollment Services by the time the student has completed $100 \%$ of the units required for the declared primary major. Any additional degree objectives (e.g., majors, minors, certificates, etc.) must be completed within the 120\% unit limit. For more information, see www.csulb.edu/registration-and-records/timely-graduation.

Many prerequisites require a "C" or better, please check the catalog for grade requirements.
The minor in Applied Mathematics is available to any student not majoring in Mathematics or Applied Mathematics. The student must complete 27 or more semester units as follows:
