

MINOR IN BIOLOGY

Minor Requirements Worksheet

2018-2019 Catalog

NOTE: This checklist is not intended to replace advising from the major department. Students should consult with the major advisor to determine the appropriate sequence of courses. This checklist is to inform students of major requirements and course prerequisites only; the [CSULB Course Catalog](#) takes precedence in any conflict. CSULB Enrollment Services prepares the Academic Requirements Report, which is the official graduation verification.

Before adding any minors, students must check to see if this addition will affect CSULB's [Timely Graduation for Undergraduate Students](#) policy. Under this policy, students may earn up to 120% of the number of units required for the degree in their **declared primary major**. In addition, the policy requires that a student must file a Request to Graduate form with Enrollment Services by the time the student has completed 100% of the units required for the declared primary major. Any additional degree objectives (e.g., majors, minors, certificates, etc.) must be completed within the 120% unit limit.

This minor may be combined with any major at CSULB except the B.S. in Biology (all options), B.S. in Microbiology, and B.S. in Marine Biology, or Minor in Microbiology. A minimum of 21 units is required for this minor.

All courses require a "C" or better in prerequisites.

Semester	Grade	Course #	Course Title	Prerequisites
		BIOL 211	Introduction to Evolution and Diversity (4)	<i>Pre/Corequisite:</i> CHEM 111A
		BIOL 212	Introduction to Cell and Molecular Biology (4)	BIOL 211 and CHEM 111A. <i>Pre/Corequisite:</i> CHEM 111B
		BIOL 213	Introduction to Ecology and Physiology (4)	BIOL 211 and 212 and CHEM 111B

The following courses do not meet any specific or elective requirements for this minor: BIOL 101, 153, 153L, 200, 200L, 201, 205, 205L, 207, 208.

UPPER DIVISION

Take a minimum of NINE units selected from upper division biology courses with at least one course selected from the 400 series. The nine units must include at least ONE course chosen from BIOL 312, 340, 350, and 370. Many of the upper division courses in biology also require either BIOL 260 or organic chemistry.

Semester	Grade	Course #	Course Title	Prerequisites

These courses do not meet any specific or elective requirements for this minor: BIOL 300, 301, 304, 305, and NSCI 492.
