#### 244L. Machine Tools Laboratory (1)

Corequisite: ET 244. Laboratory exercises using conventional and non-conventional machine tools. Not open to students with previous machine tools experience. (Laboratory 3 hours.) Letter grade only (A-F).

### 250. Circuit Analysis I (2)

Prerequisite: PHYS 100B. Corequisite: ET 250L. Fundamentals of DC theory, units of measurements, systems of units. Current, voltage, resistance, Ohm's law, power, energy. Series and parallel circuits. Methods of analysis and selected topics. Network theorems such as superposition, Thevenin's, Norton's and Millman's theorems. (Lecture-Discussion 2 hours.) Letter grade only (A-F).

### 250L. Circuit Analysis I Laboratory (1)

Prerequisite: PHYS 100B. Corequisite: ET 250. Laboratory exercises will be conducted on AC and DC circuits using proto boards and power supplies, multi-meters, function generators, oscilloscopes and frequency counters. (Laboratory 3 hours.) Letter grade only (A-F).

### 252. Circuit Analysis II (2)

Prerequisites: MATH 120, ET 250, 250L. Corequisite: ET 252L. Study of circuit analysis techniques in AC, including network theorems, mesh and nodal analysis, transients, time domain and phasors, magnetic circuits, sinusoidal and non-sinusoidal wave forms, resonance circuits (series and parallel), filters (low-pass, high-pass, passband and bandstop). (Lecture-Discussion 2 hours) Letter grade only (A-F).

### 252L. Circuit Analysis II Laboratory (1)

Prerequisites: MATH 120, ET 250, 250L. Corequisite: ET 252. Laboratory exercises will be conducted on AC circuits using proto boards and AC power supplies, function generators, oscilloscopes, and frequency counters. (Laboratory 3 hours.) Letter grade only (A-F).

### 253. General Electricity (2)

Prerequisite: PHYS 100B. Corequisite: ET 253L. An overview of electrical/electronics principles and applications including instrumentation, power distribution, and digital electronics. Not open to ET students in the Electronics Option and the Computer Option. (Lecture - discussion, exercise 2 units.) Letter grade only (A-F).

### 253L. General Electricity Laboratory (2)

Prerequisite: PHYS 100B. Corequisite: ET 253. Laboratory exercises in basic electrical/electronics circuits and applications. Not open to ET students in the Electronics Option and the Computer Option. (Laboratory 3 hours.) Letter grade only (A-F).

### 255. Introduction To Digital Electronics (2)

Prerequisites: ET 250, 250L. Corequisite: ET 255L. Combinational logic utilizing Boolean algebra and the binary numbering system. This beginning course includes Karnaugh maps, truth tables, coding, switching circuits, converters and logic circuit elements. (Lecture-problems 2 hours.) Letter grade only (A-F).

### 255L. Introduction to Digital Electronics Laboratory (1)

Prerequisites: ET 250, 250L. Corequisite: ET 255. Laboratory exercises in basic logic circuits. Topics included are breadboarding, basic gates, and combinational circuits. (Laboratory 3 hours.) Letter grade only (A-F).

### 260. Solid-State Electronics I (3)

Prerequisites: ET 252, 252L. Corequisite: ET 260L. Analysis and design of solid-state electronic circuits using diodes, bipolar, uni-junction and field-effect devices. (Lecture-Discussion 3 hours.) Letter grade only (A-F).

### 260L. Solid State Electronics I Laboratory (1)

Prerequisites: ET 252, 252L. Corequisite: ET 260. Laboratory exercises in breadboarding and measurements of solid-state circuits utilizing all types of electronic measuring equipment. (Laboratory 3 hours.) Letter grade only (A-F).

### 264. Industrial Tooling (1)

Prerequisites: ET 170, 205L; corequisite: ET 264L. Design of tools for production. Typical tooling problems include working drawings and hardware. (Lecture-Discussion 1 hour.) Letter grade only (A-F).

### 264L. Industrial Tooling Laboratory (1)

Prerequisites: ET 170, 205L; corequisite: ET 264. Laboratory experiments in tool design in relation to mass part production. (Laboratory 3 hours.) Letter grade only (A-F).

### 286. Introduction to Object-Oriented Programming (2)

Prerequisites: ET 205, 205L; corequisite: ET 286L. Introduction to an object-oriented programming language (C++). Problem analysis and software development methodology. Emphasis on applications to technology (Lec-Discussion 2 hrs) Letter grade only (A-F).

### 286L. Introduction to Object-Oriented Programming Laboratory (1)

Prerequisites: ET 205, 205L; corequisite: ET 286. Introduction to an object-oriented programming language (C++). Problem analysis and software development methodology. Emphasis on applications to technology. Letter grade only (A-F). (Laboratory 3 hours.)

## Upper Division

### 301. Engineering Materials (2)

Prerequisites: ET 204, CHEM 111A; corequisite: ET 301L. Study of physical and mechanical properties and applications of engineering materials. Letter grade only (A-F). (Lecture-Discussion 2 hours.)

### 301L. Engineering Materials Laboratory (1)

Prerequisites: ET 204, CHEM 111A; corequisite: ET 301. Laboratory investigation and experiments in the application of engineering materials. Field trips. Letter grade only (A-F). (Lab 3 hrs.)

### 302. Industrial Electricity (2)

Prerequisite: PHYS 100B; corequisite: ET 302L. An overview of electrical principles and applications in electrical manufacturing industries including instrumentation and power distribution. Letter grade only (A-F). (Lecture 2 hours.) May not be used for credit for the ECET program.

### 302L. Industrial Electricity Laboratory (1)

Prerequisite: PHYS 100B; corequisite: ET 302. Overview of laboratory techniques in electrical engineering technology and applications in the industry. Letter grade only (A-F). (Laboratory 3 hours.) May not be used for credit for the ECET program.

### 303. Fundamentals of Environmental Technology (3)

Prerequisites: CHEM 111A, MATH 120, PHYS 100A. Fundamentals of the techniques and unit operations for pollution control of air, land, surface water and groundwater pollution, as well as design of conveyances for water and wastewater, with an emphasis on their application in an industrial setting. Includes fundamentals of hydrology and fluid flow in environmental engineering technology. Letter grade only (A-F). (Lecture-Discussion 3 hours.)

### 304. Applied Mechanics Strength of Materials (3)

Prerequisite: ET 204. Analysis of strength and rigidity of structural members in resisting applied forces, stress, strain, shear, moment, deflections, combined stresses, connections, and moment distribution. Letter grade only (A-F). (Lecture-Discussion 3 hours.)

### 307. Industrial Safety (2)

Prerequisites: Junior Standing. Survey of industrial safety administration, engineering and management. Emphasis is placed on the role of the first line supervisor in establishing and maintaining a safe, healthful work environment for employees. Introduction to supporting computer resources used in the safety field. Letter grade only (A-F). (Lecture-Discussion 2 hours)

### 309. Industrial Communications and Leadership (3)

Prerequisites: ET 205, 205L, English Composition. Principles, theories and concepts of industrial communications and management for engineering technology. Emphasis is placed on the primary management functions of planning, organizing, motivating, leading, controlling and staffing in a technical environment. Introduction to basic decision support models. Students also learn written and oral transmission and interpretation of technical information; communication forms and procedures of industry, with computer applications. (Lecture-Discussion, 3 Hours.) Letter grade only (A-F).

**311. Quality Engineering Technology (3)**

Prerequisites: ET 202, 202L, Junior standing. Quality engineering technology principles and practices in industry, including management concepts, inspection practices, costs of quality and testing. (Lecture-Discussion 3 hours.) Letter grade only (A-F).

**312. Statistical Quality Control (3)**

Prerequisite: ET 311. Statistical process control; including use of statistical methods for analysis and improvement of product quality, control charts, linear correlation; sampling procedures, stratification, cause and effect analysis, process capability and introduction to design of experiments. (Lecture-Discussion 3 hours.) Letter grade only (A-F).

**313. Quality Assurance, Inspection Measurement and Testing (2)**

Corequisite: ET 313L. Theory and application of inspection procedures, instrument calibration, precision measurements including theory and application of non-destructive testing of materials for quality control. Letter grade only (A-F).

**313L. Quality Assurance, Inspection Measurement and Testing Laboratory (1)**

Corequisite: ET 313. Laboratory experiments; instrument calibration including standards and precision measurements including the use of non destructive test equipment for quality control. (Laboratory 3 hours.) Letter grade only (A-F)

**319. Environmental Regulations and Compliance (3)**

Analysis of federal and local administration of environmental laws, including the National Environmental Policy Act of 1969 and litigation of that act in the courts. Special attention paid to California and comparison of the environmental regulation policies of California. Case studies of legislation and political conflict in the environmental issues, and regulatory compliance. (Lecture-Discussion 3 hours.) Letter grade only (A-F).

**320. Software Quality Assurance (2)**

Prerequisite: ET 205, 205L. Theory and practices of software Quality Assurance. Course emphasizes Government specifications such as DOD-STD-2167 and DOD-STD-2168. (Lecture-Discussion 2 hours.) Letter grade only (A-F).

**329. Environmental Study of Groundwater and Soils (2)**

Corequisite: ET 329L. Detection, analysis and control of groundwater/soil contamination involving the regulatory hierarchy, distribution network and subsurface formations. Basic tools and procedures utilized in compliance operations. (Lecture-Discussion 2 hours.) Letter grade only (A-F).

**329L. Environmental Study of Groundwater and Soils Laboratory (1)**

Corequisite: ET 329. Laboratory exercises in the techniques of detection, analysis and control of groundwater/soil contamination. Rules of compliance set by regulatory hierarchy, distribution network and subsurface formations. (Laboratory 3 hours.) Letter grade only (A-F).

**331. Environmental Auditing and Reporting (3)**

Concepts, methods and techniques of performing environmental operational audits. Duties and responsibilities of a regulatory auditor within the State and Federal hierarchy. State and Federal compliance forms and procedures in industrial manufacturing processes as required by regulatory agencies. Written and oral transmission and interpretation of compliance information and related resource networks. (Lecture-Discussion 3 hours.) Letter grade only (A-F).

**333. Solid Waste Technology (2)**

Corequisite: ET 333L. Survey of regulated hazardous and non-hazardous solid waste generated by common industrial processes. Topics include waste generation, storage, collection, transfer, transport, processing and recovery. Consideration of system performance, legislation, regulations and environmental impact. (Lecture-Discussion 2 hours.) Letter grade only (A-F).

**333L. Solid Waste Technology Laboratory (1)**

Corequisite: ET 333. Techniques of identification, measurement and assessment of solid waste. Focus on regulated hazardous solid waste from common industrial processes. Topics include waste generation, storage, collection, transfer, transport, processing and recovery. Consideration of system performance, legislation, regulations and environmental impact. (Laboratory 3 hours.) Letter grade only (A-F).

**335. Engineering Materials and Processes I (3)**

Corequisite: ET 335L. Examination of engineering materials and manufacturing processes including the study of: Phase diagrams; heat treatment; metal casting processes; welding and soldering; corrosion, powder metallurgy, electronic fabrication; tribology, friction, wear, lubrication; surface treatment, coating and cleaning. (Lecture - Discussion 3 hours) Letter grade only (A-F).

**335L. Engineering Materials Processes I Laboratory (1)**

Corequisite: ET 335. Laboratory exercises in engineering materials and manufacturing processes including the study of: Phase diagram; heat treatment; casting; metallography and electronic manufacturing processes. (Laboratory 3 hours.) Letter grade only (A-F).

**341. Solid State Electronics II (3)**

Prerequisites: ENGR 203, 203L, ET 260, 260L, corequisite: ET 341L. Miller's Theorem, integrated circuits, feedback, operational amplifiers, Fourier series, distortion, modulation, phase-locked loops, linear and non-linear circuits, and breadboarding. (Lec-Discussion 3 hrs) Letter grade only (A-F).

**341L. Solid State Electronics II Laboratory (1)**

Prerequisites: ENGR 203, 203L, ET 260, 260L, corequisite: ET 341. Laboratory exercises in design and measurement of various circuits using operational amplifiers, comparators, regulators, silicon controlled rectifiers, frequency mixers and phase-locked loops. (Lab 3 hours.) Letter grade only (A-F).

**350. Motors and Generators (2)**

Prerequisites: ET 252, 252L; corequisite: ET 350L. Study of electric rotating machinery, its theories, principles, design and applications in automation industries. (Lecture-Problems 1 hour.) Letter grade only (A-F).

**350L. Motors and Generators Laboratory (1)**

Prerequisite: ET 252 252L; corequisite: ET 350. Laboratory exercises in applications and design of rotating machines. Topics covered are DC machines, synchronous machines, servomotor, step motor, and control circuits. (Laboratory 3 hours.) Letter grade only (A-F).

**360. Control Instrumentation (2)**

Prerequisites: ET 260, 260L; corequisite: ET 360L. Application and basic design of analog and digital control instrumentation for industrial processes. Physical and electrical properties of thermal, mechanical and optical transducers with associated signal conditioning. (Lecture-Problems 2 hours.) Letter grade only (A-F).

**360L. Control Instrumentation Laboratory (1)**

Prerequisites: ET 260, 260L; corequisite: ET 360. Laboratory exercises in developing and measuring various control systems utilizing operational amplifiers, transducers, thermocouples, bridges, and various pressure devices. (Laboratory 3 hours.) Letter grade only (A-F).

**363. Kinematics of Mechanisms (3)**

Prerequisites: ET 170, 304. Mathematical and graphical approaches to analyze the motion of mechanisms, for further machine development, through studies of displacement, velocity and acceleration of mechanical elements. (Lecture-Discussion 2 hours, Activity 2 hours.) Letter grade only (A-F).

**365. Fluid Power and Control (2)**

Prerequisites: PHYS 100A, ET 302, 302L; corequisite: ET 365L. Fundamentals and application of hydraulic, pneumatic and vacuum power as used in current manufacturing plants. (Lecture-Discussion 2 hours.) Letter grade only (A-F).

### 365L. Fluid Power and Control Laboratory (1)

Prerequisites: PHYS 100A, ET 302, 302L; corequisite: ET 365. Demonstration and operation of fluid power systems. Design and selection of components for specific applications. Computer data acquisition and analysis. (Laboratory 3 hours.) Letter grade only (A-F).

### 386. Introduction to Microprocessors (2)

Prerequisite: ET 286, 286L; corequisite: ET 386L. Theory and concepts of programming, hardware configuration, and functional capabilities of microcomputer systems including peripheral devices. (Lecture-Problems 2 hours.) Letter grade only (A-F).

### 386L. Introduction to Microprocessors Laboratory (1)

Prerequisites: ET 286, 286L; corequisite: ET 386. Laboratory exercises in programming microcomputers. Topics included are number systems, microcomputer structure, mnemonic, binary code, peripheral devices operations, stand alone operations, and system operations. (Laboratory 3 hours.) Letter grade only (A-F).

### 387. Robot Programming and Mechatronics (2)

Prerequisites: ET 205, 205L; corequisite: ET 387L. Basic concepts of robot manipulators, robot kinematics, robot programming languages. Applications of industrial robots, machine vision systems. Basic concepts of mechatronic systems: combine hardware, software, interface, and system integration to make an intelligent system. Sensors and actuators for robotics and mechatronic systems. (Lecture-Problems 2 hours.) Letter grade only (A-F).

### 387L. Robot Programming and Mechatronics Laboratory (1)

Prerequisites: ET 205, 205L; corequisite: ET 387. Laboratory exercises in industrial and educational robot operation and applications. Laboratory exercises on mechatronic systems. Robot systems and their computer language instructions will be used. The experiments include teach pendant programming, high level language programming, workcell applications, continuous path programming. Letter grade only (A-F).

### 388. Technical Applications Using Programming Languages (2)

Prerequisites: ET 286, 286L; corequisite: ET 388L. Techniques for design and development of industrial programs that includes composite program design, module coupling, module strength, program testing, top-down structured programming concepts and tools, object oriented programming, and memory management. These concepts are investigated and examined for use in solving complex problems in engineering technology. (Lecture-problems 2 hours.)

### 388L. Technical Applications Using Programming Languages Laboratory (1)

Prerequisites: ET 286, 286L; corequisite: ET 388. Laboratory experience in techniques for designing and development of industrial programs such as composite program design, module coupling, module strength, program testing, top-down structured programming concepts and tools, object oriented programming, and memory management. These concepts are investigated and examined for use in solving complex problems in engineering technology. (Lab 3 hours.)

### 390. Applied Computer-Aided Design and Manufacturing (2)

Prerequisites: ET 170, 205, 205L; corequisite: ET 390L. Roll of the computers in the manufacturing process, application of CAD/CAM systems, hardware and software components for automation, part programming for manufacturing, computer controlled manufacturing equipment, simulation, programming the factory. (Lecture - Discussion 2 hours.) Letter grade only (A-F).

### 390L. Applied Computer-Aided Design and Manufacturing Laboratory (1)

Prerequisites: ET 170, 205, 205L; corequisite: ET 390. Use of microcomputer based hardware and software to solve 2D and 3D modeling problems. Computer automation software packages. Also includes part programming and CAD/CAM data exchange exercises. (Laboratory 3 hours.) Letter grade only (A-F).

### \*400. Industrial Wastewater Treatment (2)

Prerequisites: CHEM 111A, BIOL 211A, ET 303, 319; corequisite: ET 400L. Fundamentals of the characterization, minimization, treatment selection and design of industrial wastewater treatment systems. (Lecture-Discussion 2 hours.)

### \*400L. Industrial Wastewater Treatment Laboratory (1)

Prerequisites: CHEM 111A, BIOL 211A, ET 303, 319; corequisite: ET 400. Laboratory exploration of fundamentals of the characterization, selection and operation of industrial wastewater treatment systems. (Laboratory 3 hours.) Letter grade only (A-F).

### 407. Environmental Systems Safety and Emergency Management (3)

Prerequisites: ET 303, 311, 319. Emergency management and contingency planning in accordance with U.S. environmental regulations and international standards. Emphasis on training, preparedness, response and recovery. Concepts, methods and techniques of performing environmental operational systems audits in accordance with the International Standards Organization (ISO). (Lecture-Discussion 3 hours.) Letter grade only (A-F).

### 409. Senior Problems in ET (1-3)

Prerequisites: Senior standing in ET, consent of instructor. Advanced work of a technical nature within an area of specialization on an experimental or research basis. Letter grade only (A-F).

#### B. Electronics Technology

#### C. Manufacturing Technology

#### D. Quality Assurance

#### E. Computer Technology

#### F. Environmental Technology

### 410. Cost Engineering and Analysis (3)

Prerequisites: Economics course, Junior Standing. Introduction to the concepts of capital and operations budgets, capital acquisitions, economic evaluations of capital alternatives and factors of the time-value of money in industrial operations and construction industries. (Lecture-Discussion 3 hours.) Letter grade only (A-F).

### 418. Production Methods and Process Improvement (3)

Prerequisite: ET 410. Simplification and improvement of manufacturing operations through the use of production analysis tools for optimum production economy. Also included is the investigation of production automation applications for improving manufacturing process, quality and productivity. (Lecture-Discussion 3 hours.) Letter grade only (A-F).

### 419. Design of Experiments (3)

Prerequisite: ET 312. Advanced statistical analysis applied to quality functions. Comparative and single factor experiments. Factorial designs and multiple regression. (Lecture-Discussion 3 hours.) Letter grade only (A-F).

### 420. Reliability and Maintainability (3)

Prerequisites: ET 419. Principles and Practices of reliability; reliability analysis and design; testing for reliability. Maintainability concepts. (Lecture-Discussion 3 hours.) Letter grade only (A-F).

### 435. Engineering Materials and Processes II (3)

Prerequisites: ET 335, 335L. Corequisite: ET 435L. Application of engineering materials and manufacturing processes including: rolling; forging; extrusion and drawing; sheet-metal forming; manufacturing of plastics and composites; material removal processes and rapid prototyping. (Lecture - Discussion 3 hours.) Letter grade only (A-F).

### 435L. Engineering Materials and Processes II Laboratory (1)

Prerequisites: ET 335, 335L. Corequisite: ET 435. Continuation of ET 335L. Laboratory exercises in: welding processes; machining processes; metal forming; manufacturing of composite materials. (Laboratory 3 hours.) Letter grade only (A-F).

### 441. Theory of Electronic Control (3)

Prerequisites: ET 360, 360L. Procedures for the design, preparation, and evaluation of electronic systems that control manufacturing and production processes, simulation analysis for sensing, programming, and actuating operations. (Lecture-Discussion 3 hours.) Letter grade only (A-F).

#### 442. Computer Circuits (2)

Prerequisites: ET 255, 255L; corequisite ET 442L. Introduction to digital hardware design. Combinational/sequential logic circuits and systems and application of integrated circuits to logic controls. Programmable logic devices, Field-programmable gate array, Circuit synthesis, and analysis. (Lecture-Problems 2 hours.) Letter grade only (A-F).

#### 442L. Computer Circuits Laboratory (1)

Prerequisites: ET 255, 255L; corequisite ET 442. Laboratory study of digital computer circuits design and implementation. Standard designing and trouble-shooting procedures will be discussed. Topics covered are multivibrator, register, counter, decoder, arithmetic circuits, and memory. (Laboratory 3 hours.) Letter grade only (A-F).

#### 444. Telecommunications (3)

Prerequisites: ET 360, 360L. National Communication Network, decibels, transmission units, transmission lines, characteristic impedance, loading systems, lattice networks, PCM, Nyquist Criterion, Bessel functions, coaxial cable, fiber optics, microwave, impedance matching, and Smith chart. (Lecture-Discussion 3 hours.) Letter grade only (A-F).

#### 445. Microelectronics (1)

Prerequisites: ET 350, 350L; corequisite: ET 445L. Design, processing and applications of monolithic and hybrid microcircuits for analog and digital systems. (Lecture 1 hour.) Letter grade only (A-F).

#### 445L. Microelectronics Laboratory (1)

Prerequisites: ET 350, 350L; corequisite: ET 445. Laboratory exercises in the processing of thick-film and thin-film materials, ultrasonic and thermocompression wire bonding and laser resistive trimming. Practical application and equipment utilization is emphasized. (Laboratory 3 hours.) Letter grade only (A-F).

#### 447. Industrial Applications of Electronic Circuits (2)

Prerequisites: ET 341, 341L; corequisite: ET 447L. An in-depth study of the applications of important electronic circuit concepts in industry. Analysis of circuits and how they work in industrial applications. Techniques for troubleshooting of design circuits. Biomedical electronic circuits which have industrial applications are emphasized. (Lec-Discussion 2 hours.) Letter grade only (A-F).

#### 447L. Industrial Applications of Electronic Circuits Laboratory (1)

Prerequisites: ET 341, 341L; corequisite: ET 447. Laboratory exercises include constructing circuits which have important applications in industry. Troubleshooting methodology emphasized throughout. Assignments focus on biomedical electronic circuits which have industrial applications. (Laboratory 3 hours.) Letter grade only (A-F).

#### \*449. Environmental Air Quality (2)

Corequisite: ET 449L. Planning and evaluation of systems for management of air quality. Consideration of system performance, legislation regulations, environmental impacts and socioeconomic factors. Selected case studies. (Lecture-Discussion 2 hrs.) Letter grade only (A-F).

#### \*449L. Environmental Air Quality Laboratory (1)

Corequisite: ET 449. Techniques of measurement and assessment of air quality. Focus on measurement of regulated air quality health hazards. (Laboratory 3 hours.) Letter grade only (A-F).

#### 460. Electronics Project Design and Development (2)

Prerequisites: ET 341, 341L and senior standing; Co-requisite: ET 460L. This capstone course is open to Electronics Technology majors only. It involves individual or small group projects in applied electronics, with emphasis on laboratory practice or hardware/software solution to practical problems. This course will emulate the design and development process common to electronic and electrical products. Written reports and oral presentations are required. Letter grade only (A-F). (Lecture-Discussion 2 hours.)

#### 460L. Electronics Project Design and Development Laboratory (1)

Prerequisites: 341, 341L and senior standing; Co-requisite: ET 460. The course involves laboratory exercises in electronics project design and development. Topics covered include: product planning, implementation planning, proposal and approvals, prototyping, system integration, packaging, overall testing, and reporting. The course concludes with a formal demonstration, an oral presentation on the finished product and a written report on the final design. Letter grade only (A-F). (Laboratory 3 hours.)

#### 461. Management of Manufacturing Operations (3)

Prerequisite: ET 418. Application of analytical planning and control techniques to the resources of industry including the physical plant, equipment, personnel, inventories and supplies use in the production of products and services. (Lecture-Discussion 3 hrs.) Letter grade only (A-F).

#### 476. Environmental Impact (3)

Prerequisite: BIOL 306. Required components of environmental impact reports and assessments and the processes involved in their preparation. Special emphasis is placed on the biological portions of EIRs and impact on flora and fauna. (Lecture-Discussion 3 hours.) Letter grade only (A-F).

#### \*485. Environmental Assessment (3)

Definition and study of problems related to specific issues of environmental impact, mitigating solutions, costs, benefits and consequences. (Lecture-Discussion 3 hours.) Letter grade only (A-F).

#### 486. Data Structures (2)

Prerequisites: ET 388, 388L; corequisite: ET 486L. Data structures and applications. Choice and implementation of appropriate data structures for applications. Treatment of arrays, lists, stacks, queues, lined lists, trees, and assorted algorithms. Introduction to search and sorting. File organization techniques. (Lecture - Problems 2 hours.) Letter grade only (A-F).

#### 486L. Data Structures Laboratory (1)

Prerequisites: ET 388, 388L; corequisite: ET 486. Laboratory exercises in data structures and applications. A recursive programming language will be used. (Laboratory 3 hours.) Letter grade only (A-F).

#### 487. Introduction to Data Communications and Networking (2)

Prerequisites: ET 286, 286L, 386, 386L or equivalents; corequisite: ET 487L. Introduction to data communications fundamentals, peer-to-peer and client/server network models. Hardware and software technology, Protocols, networks, relational database technology, and security. Example applications, tools and development environments, Groupware, middleware. A design project and class presentation is required. (Lecture-discussion 2 hours.) Letter grade only (A-F).

#### 487L. Introduction to Data Communications and Networking Laboratory (1)

Prerequisites: ET 286, 286L, 386, 386L or equivalents; corequisite: ET 487. Laboratory and programming exercises introducing the students to data communications and Networking technology. Protocols, networks, relational database technology, and security. Applications using software/hardware tools and development environments. (Laboratory 3 hours). Letter grade only (A-F).

#### 488. Microcomputer Systems (2)

Prerequisites: ET 386, 386L; corequisite: ET 488L. Study of available microprocessors and microcomputer systems. Topics cover microcomputer architecture, software structure, assembly language, central processing unit, input/output, memory manipulation, and interfacing applications in Engineering Technology. (Lecture-problems 2 hours.) Letter grade only (A-F).

#### 488L. Microcomputer Systems Laboratory (1)

Prerequisites: ET 386, 386L; corequisite: ET 488. Laboratory experience in microcomputer architecture, assembly language programming, and interfacing applications in Engineering Technology. Topics covered are central processing unit function, memory organization, and input/output operation. Available microcomputer systems will be used. Applications in Engineering Technology. (Laboratory 3 hours.) Letter grade only (A-F).

#### 489. Computer Interfacing (2)

Prerequisites: ET 442, 442L, 488, 488L; corequisite: ET 489L. Study of theories and techniques that are used in peripheral control and interfacing. Topics covered are serial interfacing, Parallel interfacing, timing, handshaking, A/D converters, buffering, and UARTs. (Lecture-Discussion 2 hours.) Letter grade only (A-F).

#### 489L. Computer Interfacing Laboratory (1)

Prerequisites: ET 442, 442L, 488, 488L; corequisite: ET 489. Laboratory exercises in computer interfacing applications and design. Available computer system and its assembly language instructions will be used. (Laboratory 3 hours.) Letter grade only (A-F).

#### 491. Embedded Processors and Systems (2)

Prerequisites: ET 489, 489L; Corequisite: ET 491L. Embedded microprocessors, embedded systems, development concepts, principles, and applications. Hardware/software tradeoffs, interfacing issues, memory sizing, timing, code and power optimization issues. Application requirements, platform selection, RISC vs. CISC issues, co-processors vs. ASIC's. (Lecture-discussion 2 hours). Letter grade only (A-F).

#### 491L. Embedded Processors and Systems Laboratory (1)

Prerequisites: ET 489, 489L; Corequisite: ET 491. Laboratory exercises on embedded system development. Emphasis will be on application requirements, platform selection, interfacing, memory sizing, timing, code and power optimization. Use of development environments and evaluation boards. (Laboratory 3 hours). Letter grade only (A-F).

#### 492. Computer Controlled Industrial Systems (2)

Prerequisites: ET 286, 286L; corequisite: ET 492L. Concepts of computer-based control of industrial systems and data acquisition. Signals and measurements, noise, resolution, signal conditioning. Software and hardware for data acquisition and control. (Lecture - discussion, 2 hours) Letter grade only (A-F).

#### 492L. Computer Controlled Industrial Systems Laboratory (1)

Prerequisites: ET 286, 286L; corequisite: ET 492. Laboratory exercises on computer-based control of industrial systems and data acquisition. Software and hardware for data acquisition and control. Emphasis placed on object-oriented languages and creation of graphical user interfaces for data acquisition, display and control. (Laboratory, 1 hour) Letter grade only (A-F).

#### 494. Applied Systems Development Project (2)

Prerequisites: ET 386, 386L, 487, 487L; Corequisite: ET 494L. Systems development concepts, principles, and practices to a comprehensive systems development project. Hands-on approach is used to analyze, design and document a realistic system. Actual use of project management, interviewing, forms analysis, structured methods, behavioral dynamics, walk-throughs, report writing, and presentations. (Lecture-Discussion 2 hours.) Letter grade only (A-F).

#### 494L. Applied Systems Development Project Laboratory (1)

Prerequisites: ET 386, 386L, 487, 487L; Corequisite: ET 494. Laboratory exercises on applied system development. Emphasis will be on systems development concepts, principles, and practices to a comprehensive systems development project. (Laboratory 3 hours.) Letter grade only (A-F).

#### 496. Advanced Quality Systems and Analysis (3)

Prerequisites: ET 419, 420. Quality systems analysis and applications. Course includes in-depth case studies in strategic quality planning, organization and management, integrated product design, application of quality diagnostic techniques and advanced statistical problem-solving methods, product reliability and quality assurance. Students perform a comprehensive systems analysis team project covering and industry application using the continuous process improvement (CPI) methodologies. (Lec-problems 3 hours.) Letter grade only (A-F).

#### 497. Computer Network Technology (2)

Prerequisites: ET 487, 487L; Corequisite: ET 497L. Hardware and software technology as it relates to computer networking. LAN, WAN environments and access methods, Ethernet, ATM, Bridges, routers, gateways and intelligent hubs. Networking protocols. Security, Load balancing, and the use of simulation tools in designing networks. (Lecture-discussion 2 hours). Letter grade only (A-F).

#### 497L. Computer Network Technology Laboratory (1)

Prerequisites: ET 487, 487L; Corequisite: ET 497. Laboratory exercises using hardware and software technology related to computer networking. Internetworking laboratory, Ethernet, ATM, Bridges, routers, gateways, and intelligent hubs. Security, Load balancing, and the use of simulation tools. (Laboratory 3 hours). Letter grade only (A-F).

#### 498. Manufacturing Engineering Technology Capstone Project (3)

Group project involving analysis, design, tooling and production processes for product manufacture. Economic, market and capital requirements, manpower analysis. Written reports and oral presentations required. (Lecture 2 hours, Activity 2 hours.) Letter grade only (A-F).

### Instructional Support Technician

Bonnie Rice

The faculty of the Department of Family and Consumer Sciences seeks to prepare men and women to enter professions concerned with enhancing the quality of individual and family life in the context of the near environment. The following objectives have been articulated:

To prepare men and women to the highest standards for professions in Family and Consumer Sciences and related fields requiring a bachelor's or master's degree.

To prepare students for successful careers within the diversity of human relationships while enhancing their own physical, psychological, and emotional development through their lifespan.

To provide continuing education and post-master's study in professional fields of Family and Consumer Sciences.

To provide information to a diverse student population and the community about current services and career opportunities as well as the potential for emerging professional careers in a changing society.

To employ the most effective methodology and useful resources on the university campus and in the surrounding communities. Provide the best quality program within the structure of the CSU system.

To continue creative and scholarly research for the future growth of the profession.

To apply knowledge gained from research and study to serve the needs identified in the university and surrounding community.

## Accreditation

The Department of Family and Consumer Sciences is accredited by the American Association of Family and Consumer Sciences (AAFCS) (American Association of Family and Consumer Sciences, Council for Accreditation, 1555 King Street, Alexandria, VA 22314, phone: 703-706-4600). The Didactic Program in Dietetics and the Dietetic Internship are accredited by the American Dietetic Association (ADA) (Commission on Accreditation for Dietetics Education, American Dietetic Association, 216 West Jackson Boulevard, Suite 800, Chicago, IL 60606-6995, phone: 312-899-4872). The Preschool and Toddler Study Laboratories are accredited by the National Association for the Education of Young Children. The Child Development and Family Studies Program is approved by the National Council on Family Relations to offer a program leading to Provisional Family Life Education Certification.

The Department of Family and Consumer Sciences offers programs of study leading to the Bachelor of Arts, Bachelor of Science, Master of Arts, and Master of Science degrees.

Curricula are designed to provide a liberal arts education through study in the social and natural sciences, the humanities and the arts, and to offer specialized instruction based on these disciplines which will lead to professional careers in Family and Consumer Sciences and related fields.

Programs of study cover various aspects of the field: Fashion Merchandising and Design; Child Development and Family Studies; Consumer Affairs; FCS Education; Food Science; Gerontology; Hospitality Foodservice and Hotel Management; Nutrition and Dietetics.

Degrees and certificates available in the Family and Consumer Sciences Department include:

- Bachelor of Arts in Family and Consumer Sciences in the following option areas: Child Development and Family Studies; Communication; Consumer Affairs; Fashion Merchandising; and Textiles and Clothing.
- Bachelor of Science in Dietetics and Food Administration in the following option areas: Nutrition and Dietetics; Food Science; and Hospitality Foodservice and Hotel Management.
- Master of Arts in Family and Consumer Sciences
- Master of Science in Nutritional Science
- Master of Science in Gerontology (specific requirements are listed under Gerontology)
- Dietetic Internship
- Child Development Certificate
- Foodservice Systems Administration Certificate
- Gerontology Certificate (Specific requirements are listed under Gerontology)
- Home Economics Single Subject Teaching Credential (a 5th year of study is required.)

Information about Family and Consumer Sciences sponsored degrees and certificates are organized by degrees and options.

### Bachelor of Arts in Family and Consumer Sciences

The Department of Family and Consumer Sciences offers students a Bachelor of Arts degree in five option areas of study

- Child Development and Family Studies
- Communication
- Consumer Affairs
- Fashion Merchandising
- Textiles and Clothing

Requirements for all majors include a minimum of 120 units for the Bachelor of Arts degree. In addition to general education requirements (51 units), a minimum of 40 units in Family and Consumer Sciences must be completed, 24 of which must be upper division. Students transferring from another college or university will receive transfer credit in required courses if the course is equivalent to the course at this University and it is first accepted by the University.

Specific degree and certificate information as well as option requirements are as follows.

### Child Development and Family Studies

The field of Child Development and Family Studies (CDFS) strives to improve the lives of children and families. As an integrative and interdisciplinary specialization, Child Development and Family Studies incorporates information from a variety of disciplines. Our primary focus is on utilizing the preventive approach to assist individuals and families. Career options for professionals in the field of CDFS are wide-ranging. Many of our graduates pursue the following opportunities: family life educator; child life specialist; teen pregnancy counselor; domestic violence counselor; toy research and development professional; child development educator/administrator – infant and toddler care, preschool teaching, and school age programs; child development consultant; community resource and referral professional; parent educator; and corporate human services consultant.

### Option in Child Development and Family Studies (code FCS\_BA01) (120 units)

BIOL 205 or 309I; PSY 100; SOC 100 or ANTH 120; FCS 111, 132, 211, 214 and 414 or 215 and 415, 299, 311 or 314, 312I, 321, 411, 413, 492A or 492B or 3 units of 497 or second semester of 414 or 415, 499 plus 9 units of advisor approved electives. The student also must select with a Child Development and Family Studies advisor's approval 15 units from FCS 319I, 387, 402, 409, 410, 412, 416A, 416B, 417, 418, 419 or FCS courses not taken above. Each course on the student's program planner must be completed with a grade of "C" or higher. In addition, a course in which a grade lower than "C" is received must be retaken and successfully completed prior to enrolling in a course for which it is a prerequisite. A student receiving a grade lower than a "C" may proceed with other courses with the approval of the Child Development and Family Studies Area Coordinator.

## FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

### I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

### Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

- 1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.
- 2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.
- 3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).
- 4) You must complete all requirements for admission to impacted majors within the first 60 units.

### I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

### I didn't complete the exact list of courses shown. Can I still graduate on time?

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

### If I follow the plan, will I have all requirements for graduation completed?

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

## Minor in Child Development and Family Studies (code FCS\_UM06)

The Child Development and Family Studies (CDFS) minor offers the opportunity to take a concentration of courses focusing on children and families. By providing students with an aggregate of CDFS courses students will be better prepared to assume the duties within a variety of careers relating to children and families in an array of settings.

### Requirements

Students seeking a minor in CDFS must meet all prerequisite course requirements. In addition, students must maintain a "C" or better in all courses required for the minor. The minor requires 21 total units: nine units of core courses consisting of FCS 111, 312I, and 319I and 12 units selected from FCS 211, 214, 311, 314, 409, 410, 411, 412, 413, 414, 415, and 418. The minor in Child Development and Family Studies will not be available to Child Development and Family Studies majors.

## Child Development Certificate (code FCS\_CT01)

Child Development and Family Studies in the Family and Consumer Sciences Department provides an academic and professional background for working with children and families. It offers an interdisciplinary foundation in several areas that influence the life and education of children and families. Field-work opportunities where students have direct experiences with children and families in the community are provided.

The Certificate in Child Development must be earned in conjunction with the baccalaureate degree, master's degree or teaching credential in Family and Consumer Sciences or related fields. Courses offered for the certificate may be the same ones used to satisfy, where applicable, major, minor, credential, general education or interdisciplinary requirements.

### Requirements

1. Bachelor's Degree in Family and Consumer Sciences or related field;
2. 36 units distributed as follows:
  - Lower division (12 units): FCS 111, 132, 211, 214.
  - Upper Division (24 units): FCS 311 or 314, 312I, 411, 413, 414 or 415, 416A, 418.

Awarding of the Certificate in Child Development will be recommended by the Certificate Program Director upon successful completion of certificate requirements.

Interested students should apply to the Child Development Certificate Program Director, Dr. Richard Tuveson, Family and Consumer Sciences (562) 985-4487 or [tuveson@csulb.edu](mailto:tuveson@csulb.edu).

## Family Life Education Preparation

Family Life Education preparation is available in the Department of Family and Consumer Sciences. This preparation was introduced in response to a certification process developed by the National Council on Family Relations (NCFR). NCFR is the leading national organization for professionals concerned with promoting and enhancing the quality of family life. NCFR sponsors the only national program to certify family life educators.

Family life education provides skills and knowledge to enrich individual and family life. Family Life Education preparation is based on the suggested guidelines and content areas outlined by NCFR. According to NCFR, there are ten substance areas that constitute family life education. These include knowledge about how families work; the interrelationship of families and society; human growth and development throughout the life span; the physiological and psychological aspects of human sexuality; the impact of money and time management on daily family life; the importance and value of parent education; the effects of policy and legislation on families; ethical considerations in professional conduct; and a solid understanding and knowledge of how to teach and/or develop curriculum for what are often sensitive and personal issues.

After completing the recommended preparatory course work in this department, it is possible to get two types of certification from NCFR:

Provisional Certification from the National Council on Family Relations is available to students who complete the approved courses that correspond to the ten substance areas from an approved program, but without the minimum two years of work experience.

Full Certification from the National Council on Family Relations is available to students that graduate from an approved academic program and have completed at least two years of work experience as a family life educator. The work experience of the student has to be submitted, reviewed, and approved by an NCFR review committee.

This certification enables students to be employed in professional positions in family life education such as a parent educator, a family life educator in a private, government, or business setting, a coordinator for public policy issues affecting children and families, a research facilitator for projects focusing on children, adolescents, and families, a supervisor of curriculum and resource development in family life education, a bereavement counselor for children and families, a teen and adolescent counselor, a consultant to work with military families, a health care consultant, and work in a ministry setting.

According to NCFR the benefits of certification for the student include the following:

- Recognition of the high standards and criteria needed to provide quality family life education.
- Validation of the students' education and work experience.
- Completion of the *ten substance areas* of family life education.
- Acknowledgement of the preventive focus of family life education

Interested students contact the Family Life Education Coordinator, Dr. Nilufer P. Medora, Family and Consumer Sciences (562) 985-4488 or at medora@csub.edu

## FCS Education

A Bachelor of Arts degree in Family and Consumer Sciences, Option in Communication prepares students for careers in teaching youth and adults in various educational settings, as well as for positions in business, industry and government. Courses in the program focus on enhancing the quality of life for diverse individuals and families through assignments and activities that promote solutions to problems encountered in daily living. The Option in Communication meets the subject matter requirement for the Preliminary Single Subject Credential in Home Economics

Students who earn a Home Economics Single Subject Teaching Credential (code 140) will be prepared to teach in middle, junior, and senior high schools, and in adult or career and technical education programs and community colleges. Career opportunities also include positions in cooperative extension, government, and community service agencies; and education program specialist positions in business, industry, and government.

In addition to meeting the subject matter competence requirement for the Preliminary Single Subject Credential in Home Economics, prospective Home Economics teachers are also required to complete 44 units of professional preparation

in the Single Subject Credential Program, including student teaching. Students may begin the professional preparation courses as early as the junior year. With careful planning, it is possible to complete all of the credential program courses, except for student teaching, as an undergraduate. Courses may also be completed as post-baccalaureate student. Refer to the Single Subject Teacher Education section of this *Catalog* or the Single Subject Credential Program website ([www.ced.csulb.edu/single-subject](http://www.ced.csulb.edu/single-subject)) for a description of the professional preparation requirements, courses, and application procedures. Prospective students should consult the department's Family and Consumer Services Education Advisor early to plan their program.

*The Option in Communication is being revised to meet new state standards for subject matter competence for the Home Economics credential. When the revised program has been approved by the Commission on Teacher Credentialing, the new course requirements will be in effect and supersede current requirements.*

### Option in Communication (code FCS\_BA02) (120 units)

CHEM 100; ECON 100 and 101 or 300; ENGL 100,101 or 300 or 317; PSY 100; SOC 100 or ANTH 120; COMM 110; HSC 411B; EDSS 300H; FCS 111, 132, 154, 173, 223, 226, 235, 251, 253, 275, 296, 299, 312I, 314, 321, 322, 387, 488, 492D, 499, plus 12 units of one of the following concentrations: Child Development and Education Occupations FCS 214, 414, 416A, 416B; Fashion Design, Manufacturing and Merchandising FCS 155, 351, 355, 455; Food Service and Hospitality FCS 270, 375, 377, 474.

Candidates for the Home Economics Single Subject Credential must take professional education requirements.

#### Communication Courses

- 296. Applied Arts in Family and Consumer Sciences
- 299. Introduction to Family and Consumer Sciences
- 387. Consumer Technology
- \*486. Instructional Strategies for Family Consumer Sciences Professionals
- \*488. Developing Occupational Programs in Family and Consumer Sciences
- \*490. Special Topics
- 492D. Internship In Family and Consumer Sciences Education
- 497. Directed Studies
- 499. Professionalism and Leadership in Family and Consumer Sciences
- EDSS 300H. Introduction to Teaching Home Economics
- EDSS 450H. Curriculum and Methods in Teaching Home Economics
- EDSS 472A,B,C. Student Teaching
- EDSS 473. Student Teaching Seminar

### Consumer Affairs

Consumer Affairs provides students with a foundation in Consumer Advocacy, Personal Financial Management, and Housing Services. The program focuses on how businesses, government agencies, and community organizations interact with families and consumers. Career opportunities could include: consumer credit counselor, consumer protection agent, consumer educator, financial counselor, marketing

consultant, sales representative, customer service representative, paralegal, property manager, housing counselor, homeless coordinator.

### Option in Consumer Affairs (code FCS\_BA03) (120 units)

ACCT 201; ECON 100 and 101 or 300; ENGL 101, 317, 417, 418, or 419; FCS 223, 226, 228, 299, 312I, 321, 322, 387, 420, 422, 425, 426, 429, 486, 492C or three units of 497, 499; MKTG 300, 490; PSY 100; SOC 100; C/LA 250 or SOC 250, plus 9 units of advisor approved electives. Each course on the student's program planner must be completed with a grade of "C" or better. In addition, a course in which a grade lower than "C" is received must be retaken and successfully completed prior to enrolling in any course for which it is a prerequisite. A student receiving a grade lower than a "C" may proceed with other courses with approval of the Consumer Affairs Area Coordinator.

**FAQ Concerning Road Maps for Completion of Undergraduate Degrees**

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

**I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?**

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

**Must I take the courses in the semesters shown on the plan?**

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

- 1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.
- 2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.
- 3) For some majors it is essential to complete courses in the correct sequence. You must still complete a more advanced course until you have completed the prerequisite course(s).
- 4) You must complete all requirements for admission to impacted majors within the first 60 units.

**I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?**

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

**I didn't complete the exact list of courses shown. Can I still graduate on time?**

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

**If I follow the plan, will I have all requirements for graduation completed?**

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

**Minor in Consumer Affairs (code FCS\_UM01)**

Eighteen units as approved by a Consumer Affairs faculty advisor. Nine units of required courses include: FCS 223, 226, 322; and 9 upper division units selected from FCS 420, 422, 425, 426, and 429 are required to complete the minor.

The Minor in Consumer Affairs is available to any non-Consumer Affairs major.

---

**Consumer Affairs Courses**

---

- 223. Personal and Family Financial Management
- 226. Consumer Life Skills
- 228. Housing in Global Perspective
- 309I. The Consumer in the Legal and Economic Environment
- 321. Family and Consumer Resource Management
- 322. Family Housing and the Urban Community
- 420./520. Personal Finance for the Aging
- \*422. Housing Policies: Public and Private
- \*424. Independent Living for Disabled and Elderly Persons
- \*425. Personal Financial Planning Analysis
- \*426. Family Financial Problems
- \*428. International Housing
- 429./529. Consumer Protection
- 492C. Internship in Consumer Affairs

**Fashion Merchandising and Design**

A B.A. in Family and Consumer Sciences: Fashion Merchandising or Textiles and Clothing enables students to pursue careers in the design, production and merchandising of textile and apparel products and to meet individual and family textile and apparel needs. Career opportunities include: buyer-retailing, manufacturer's representative, product designer-pattern maker, store operations manager, stylist-fashion director, textiles (testing and evaluation) specialist.

Course requirements for a B.A. in Family and Consumer Sciences: Fashion Merchandising or Textiles and Clothing are:

**Option in Fashion Merchandising (code FCS\_BA04) (120 units)**

ACCT 201; CHEM 100 or 111A; ECON 100 and 101 or 300; HIST 131 or AH 115B; IS 233 or FCS 387; MKTG 300; PSY 100; SOC 100 or 142 or ANTH 120; FCS 154 or 252, 155, 251, 253, 258, 296 or ART 149; FCS 299, 321, 351, 353, 355, 450, 455, 456, 457, 486, 492E or 497 and 499; plus 9 units of advisor approved electives.

Each course on the student's program planner must be completed with a grade of "C" or better. In addition, a course which a grade lower than "C" is received must be retaken and successfully completed prior to enrolling in a course for which it is a prerequisite. A student receiving a grade lower than a "C" may proceed with other courses with approval of the Area Coordinator.

### Minor in Fashion Merchandising (code FCS\_UM02)

Eighteen units including FCS 155, 252, 455 or 457; 9 units, including at least 6 upper-division units, selected from FCS 251, 253, 351, 353, 355, 492E as approved by a Fashion Merchandising and Design faculty advisor. It is the student's responsibility to adhere to all prerequisites listed below. Several prerequisites fulfill general education requirements.

1. FCS 351, 355; MKTG 300, senior standing or, consent of instructor are prerequisites for FCS 455.
2. ECON 100 and 101 or 300 (fulfills G.E. Category D2b) and FCS 353, senior standing, or consent of instructor are prerequisites for FCS 457.
3. FCS 155, 251 (fulfills G.E. Category E), and 154 or 252 are prerequisites for FCS 351.
4. ELM passage, ACCT 201, FCS 155, and IS 233 or FCS 387, or consent of instructor are prerequisites for FCS 355.
5. FCS 455 or 457 is a prerequisite for FCS 492E.

The Minor in Fashion Merchandising is available to any non-Fashion Merchandising major.

### Option in Textiles and Clothing (code FCS\_BA05) (120 units)

CHEM 100 or 111A; ECON 100 and 101 or 300; HIST 131 or AH 115B; SOC 100 or 142 or ANTH 120; FCS 154, 155, 251, 253, 256, 257, 258, 296 or ART 149; FCS 299, 321, 352, 353, 354, 357, 387, 450, 452, 453 or 458, 454, 456, 457, 486, 492 M or 497, and 499.

Each course on the student's program planner must be completed with a grade of "C" or better. In addition, a course in which a grade lower than "C" is received must be retaken and successfully completed prior to enrolling in a course for which it is a prerequisite. A student receiving a grade lower than a "C" may proceed with other courses with approval of the Area Coordinator.

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

**I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?**

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

**Must I take the courses in the semesters shown on the plan?**

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

**I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?**

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

**I didn't complete the exact list of courses shown. Can I still graduate on time?**

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

**If I follow the plan, will I have all requirements for graduation completed?**

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

**Minor in Textiles (code FCS\_UM03)**

Eighteen units including FCS 155, 253, 353, 453, and 457; 3 additional units selected from FCS 450 or 492E. It is the student's responsibility to adhere to all prerequisites listed below. It should be noted that several prerequisites fulfill general education requirements.

1. FCS 155, 253, and CHEM 100 or 111A (fulfills G.E. Category B1b) are prerequisites for FCS 353.
2. FCS 353 is a prerequisite for FCS 453.
3. ECON 100 and 101 or ECON 300 (fulfills G.E. Category D2b) and FCS 353, senior standing or consent of instructor are prerequisites for FCS 457.
4. Completion of the 13-unit GE Foundation requirements, and ANTH 120 or SOC 100 or 142 (fulfills G.E. Category D2b) are prerequisites for FCS 450 (fulfills G.E. Category D2b and HD).
5. FCS 455 or 457 is a prerequisite for FCS 492E.

The Minor in Textiles is available to any non-Textiles and Clothing major.

---

**Fashion Merchandising and Design Courses**

---

- 154. Fundamentals of Apparel Production
- 155. Introduction to the Fashion Industry
- 251. Professional and Personal Apparel Selection
- 252. Analysis, Evaluation and Comparison of Ready-to-Wear
- 253. Introductory Textiles
- 256. Intermediate Apparel Production
- 257. Introduction to Apparel Flat Pattern
- 258. Fashion Merchandising and Design Practicum
- 351. Fashion Promotion and Sales
- 352. Computerized Apparel Flat Pattern
- 353. Intermediate Textiles
- 354. Analysis of Apparel Design and Tailoring
- 355. Fashion Merchandising Planning and Control
- 357. Advanced Apparel Flat Pattern
- 450. Cultural Perspectives of Dress
- \*452. Apparel Draping
- \*453. Quality Control in Fashion Merchandising and Design
- \*454. Experimental Apparel Design
- \*455. Global Perspectives in Fashion Merchandising
- 456. Historic Perspectives of Fashion
- 457. International Textiles and Apparel
- \*458. Fashion Product Development
- 492E. Internship in Fashion Merchandising
- 492M. Internship in Apparel Design

**Bachelor of Science in Dietetics and Food Administration**

The Department of Family and Consumer Sciences offers students a Bachelor of Science degree in three option areas of study:

- Nutrition and Dietetics
- Food Science
- Hospitality Foodservice and Hotel Management

Specific degree and certificate information as well as option requirements are as follows.

Requirements for the majors include a minimum of 131 units for Nutrition and Dietetics, 130 units for Food Science, and 126 units for Hospitality Foodservice and Hotel Management. The courses which will provide these units are determined by the option the student chooses. In addition to general education requirements (51 units), a minimum of 40 units in Family and Consumer Sciences is required, 24 of which must be upper division. Students transferring from another college or university will receive transfer credit in required courses if the course is equivalent to the course at this University and it is accepted by the University.

## Nutrition and Dietetics

Individuals choosing this option will concentrate their studies in the areas of nutritional science, medical nutrition therapy, community nutrition, food production and management of foodservice operations, chemistry, physiology, plus a variety of supporting course work in related disciplines. The Nutrition and Dietetics option with appropriate elective selection fulfills the American Dietetic Association (ADA) academic requirements for eligibility to apply for qualifying experiences required to become a Registered Dietitian. Career opportunities include: community nutrition programs, health clubs, private consulting, health and welfare agencies, program administration, health promotion, government agencies, hospitals and clinics, foodservice operations, public and private schools, research, and business and industry.

### Option in Nutrition and Dietetics (code FCS\_BS01) (131 units)

ANTH 412I or HCA 422I or GEOG 307I or H SC 420I; BIOL 207 or 342 and 342L; BIOL 260 or ED P 419 or H SC 403 or IS 310; CHEM 111A, 327, 448, 449; COMM 110; ED P 373I; ENGL 100; ENGL 101 or 317; HRM 361 or PSY 381; IS 233 or 300 or FCS 387; MICR 200; PSY 100; SOC 100; FCS 132, 173, 234, 235, 275, 299, 312I, 321, 331A, 331B, 332, 336, 436, 436L, 438, 461, 486, 3 units of 492K or 497, 499. Additionally, a minimum of 6 units of electives is selected in consultation with a Nutrition and Dietetics faculty advisor. Recommended electives include: FCS 375, 433, 439, 477, 492K, 497. If a stronger foundation in Chemistry is desired, CHEM 320A and 320B may be selected instead of CHEM 327. If a stronger foundation in Biochemistry is desired, CHEM 441A and CHEM 441B may be selected instead of CHEM 448.

Students who wish to take the Nutrition and Dietetics Option as a Pre-professional degree (e.g., medical, etc.) should check with the appropriate programs to verify specific requirements.

### The American Dietetic Association (ADA) Didactic Program in Dietetics

The ADA Didactic (Academic) Program in Dietetics (DPD) is designed to provide students with a foundation of knowledge and skills in dietetics that will enable them to perform successfully in a dietetic internship. The DPD is granted accreditation by the American Dietetic Association Commission on Accreditation for Dietetics Education, a specialized accrediting body recognized by the Council on Postsecondary Accreditation and the United States Department of Education. It is the responsibility of the student to consult with the ADA DPD Director to verify current ADA requirements to become a Registered Dietitian.

Students who choose to meet ADA academic requirements must select FCS 375 and FCS 477 as electives in their major.

Students must receive a grade of "C" or better in the DPD courses to receive verification of completion of the ADA program. Approval of a student's academic program by the CSULB DPD Director requires that the student complete courses FCS 477, 436L and 438 at CSULB.

### FOUR YEAR PLAN TO COMPLETE THE B.S. in FAMILY AND CONSUMER SCIENCES - OPTION IN NUTRITION AND DIETETICS (FCS\_BS01)

#### FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

#### I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

#### SIX YEAR PLAN TO COMPLETE THE B.S. in FAMILY AND CONSUMER SCIENCES - OPTION IN NUTRITION AND DIETETICS (FCS\_BS01)

128 Units Required Department of Family & Consumer Sciences

Semester 1		Semester 2	
Composition of COMM 110	3	COMM 110 or Composition	3

		GE Class	3
TOTAL UNITS	10	TOTAL UNITS	13

**Must I take the courses in the semesters shown on the plan?**

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

- 1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.
- 2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.
- 3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).
- 4) You must complete all requirements for admission to impacted majors within the first 60 units.

**I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?**

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

**I didn't complete the exact list of courses shown. Can I still graduate on time?**

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

**If I follow the plan, will I have all requirements for graduation completed?**

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

**Food Science**

The Food Science curriculum has an interdisciplinary focus which includes food science, food processing, sensory evaluation, nutrition, chemistry, and microbiology, plus a variety of supporting course work in related disciplines. All courses are designed to develop an understanding of the physical and chemical nature of foods and how it relates to the food industry and consumer safety. The food industry careers awaiting graduates offer diverse opportunities as the world supply expands with technological developments. Career options for professionals in the field of food science include: research and product development, food formulation and processing, consumer safety, sensory evaluation, quality assurance, government organization, and food ingredient sales and marketing.

**Minor in Food Science (code FCS\_UM04)**

Significant preparation for employment in the Food Science Industry may be developed through completion of this program of study.

Twenty-one units including FCS 235, 332, 338, 432, 435, 464; 3 units selected from FCS 492F or 3 units of FCS 497 as approved by the Food Science faculty advisor. It is the student's responsibility to adhere to all prerequisites listed below. Some of the prerequisites fulfill General Education requirements.

1. CHEM 111A (fulfills GE Category B1b) or 202 (fulfills GE Category B3) is the prerequisite for FCS 235.
2. CHEM 327 and FCS 235 and MICR 200 are prerequisites for FCS 332.
3. FCS 332 is the prerequisite for FCS 338 and 435.
4. CHEM 327 and FCS 332 are prerequisites for FCS 432.
5. FCS 332 and BIOL 260 or equivalent statistics are prerequisites for FCS 464.

The Minor in Food Science is available to any non-Food Science major.

## Hospitality Foodservice and Hotel Management

Hospitality Foodservice and Hotel Management furnishes students with the necessary background and expertise to excel as managers and leaders in the restaurant, foodservice, hotel, and lodging industries. The program of study provides a broad-based foundation in both academic and professional courses and includes hands-on practical experience. Career options include: restaurant manager, hotel manager, catering director, foodservice manager in a college, university, in-flight, healthcare, or corporate setting, manager in a motel or bed and breakfast facility, school foodservice director, manager in senior dining programs, stadiums or amusement parks, or as a food purchaser or broker.

### Option in Hospitality Foodservice and Hotel Management (code FCS\_BS03) (126 units)

ACCT 201; BIOL 205 or 207; CHEM 100 or 111A or 202; COMM 110; ECON 300 or 100 and 101; EDP 419 or IS 310 or MATH 180 or HSC 403 or SOC 250; ENGL 100; HRM 360 or 361 or PSY 381; IS 233 or 300 or FCS 387 ; MKTG 300; PHIL 160; PSY 100 or SOC 100; PSY 130 or PHIL 170 or ENGL 102; REC 141 or 225; FCS 132, 173, 176, 234, 270, 276, 299, 321, 336, 372, 375, 376, 378, 3 units of 379, 473, 474, 477, 486, 492J and 499. Additionally, a minimum of 7 units of pre-approved electives for professional enhancement is selected in consultation with a faculty advisor. Recommended electives include: ACCT 310; GEOG 352; GERN 400I; IS 301; REC 340I, 427, 462, 468, FCS 223 or 429, 312I or 319I, 331A or 433 or 439, 332, 379, 461, 464, 492J, 497; others as approved by advisor.

FCS 492J requires 800 hours of approved work experience as a prerequisite for this option. Field study hours in FCS 379 can be used toward meeting the 800 hours.

### FOUR YEAR PLAN TO COMPLETE THE B.S. IN FAMILY AND CONSUMER SCIENCES - OPTION IN HOSPITALITY FOODSERVICE AND HOTEL MANAGEMENT (FCS\_BS03)

126 Units Required Department of Family & Consumer Sciences

Semester 1		Semester 2

\*= Course to be taken 1st semester as major at CSULB

**FAQ Concerning Road Maps for Completion of Undergraduate Degrees**

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

**I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?**

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

**Must I take the courses in the semesters shown on the plan?**

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

**I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?**

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

**I didn't complete the exact list of courses shown. Can I still graduate on time?**

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

**If I follow the plan, will I have all requirements for graduation completed?**

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

## Minor in Hospitality Foodservice and Hotel Management (code FCS\_UM05)

Twenty-two units including FCS 173, 270, three units of 379 or 492J; 15 additional units selected from FCS 176 or 235, 275 or 276, 372, 375, 376, 378, 473, 474, and 477 as approved by a Hospitality Foodservice and Hotel Management faculty advisor.

The Minor in Hospitality Foodservice and Hotel Management is available to any non-Hospitality Foodservice and Hotel Management major.

## Foodservice Systems Administration Certificate (code FCS\_CT02)

The Certificate program in Foodservice Systems Administration is designed to provide those students pursuing the bachelor's degree in Dietetics and Food Administration, Business Administration, and other related fields with additional background in foodservice management, increasing their expertise at the management entry level. The program is appropriate for a variety of applications, including foodservice in restaurants, catering, hospitals, public schools, industrial foodservice, hotels and motels, airlines, and in governmental regulatory agencies.

The Certificate may be earned in conjunction with the bachelor's degree or awarded subsequent to obtaining the degree at CSULB. Courses taken to meet the requirements of the Certificate may be the same ones used to satisfy major, minor or General Education requirements, or the degree requirements of the participating departments.

### Requirements

1. A bachelor's degree in dietetics/food administration, business administration, or other related fields;
2. Satisfactory completion of the following courses:
  - A. Nutrition: FCS 132;
  - B. Food Preparation and Service: FCS 235, 275;
  - C. Foodservice Management: FCS 375, 477, 474, 492J;
  - D. Business Administration: ACCT 201, HRM 361, 362, 440, MGMT 300, MKTG 300;
  - E. Related Fields: CHEM 202 and 302, ECON 300.
3. Maintain a GPA of 2.5 in the courses of the program and overall;
4. Consultation with and certification of successful completion by the Director of the Program in the Department of Family and Consumer Sciences.

Courses taken under the Credit/No Credit grading option may not be applied to this Certificate program.

## Courses for Nutrition and Dietetics, Food Science, and Hospitality, Foodservice and Hotel Management Options

---

- 132. Introductory Nutrition
- 173. Applied Foodservice Sanitation
- 176. Fundamentals of Food Preparation in Hospitality Foodservice and Hotel Management
- 234. Orientation to Dietetics and Food Administration
- 235. Principles of Food Preparation
- 270. Introduction to Hospitality Foodservice and Hotel Management
- 275. Food Production Systems I
- 276. Food Production and Service in Hospitality Foodservice and Hotel Management
- 301. College Dining Services and Bookstore Administration
- 330. Dairy Science
- 331A. Fundamentals of Human Nutrition
- 331B. Fundamentals of Human Nutrition
- 332. Food Science
- 336. Cultural Aspects of Food and Nutrition
- 338. Introduction to Food Processing
- 339. Metabolic Functions of Nutrients.
- 372. Hotel and Lodging Management
- 375. Food Production Systems II
- 376. Customer Service Management in the Hospitality Foodservice and Hotel Industry
- 378. Legal Issues in Hospitality Foodservice and Hotel Management
- 379. Field Studies in Hospitality Foodservice and Hotel Management
- 430. Nutrition and Health
- 432./532. Food Analysis
- 433. Nutrition in the Life Cycle
- 435./535. Food Processing, Preservation and Packaging
- \*436. Advanced Nutrition
- \*436L. Nutritional Status Assessment Techniques
- \*438. Medical Nutrition Therapy
- 439. Nutrition and Aging
- 461. Community Nutrition
- 464./564. Sensory Analysis of Foods
- 466./566. Biochemical and Hormonal Adaptations to Physical Activity
- 469. Food Production Development
- 473. Beverage Management
- \*474./574. Cost Control in Hospitality Foodservice and Hotel Management
- 477. Foodservice Administration
- 492F. Internship in Food Science
- 492J. Internship in Hospitality Foodservice and Hotel Management
- 492K. Internship in Nutrition and Dietetics

## Gerontology Certificate (code FCS\_CT03)

A Certificate in Gerontology (24 units) may be earned in conjunction with the baccalaureate or master's degree. The purpose of this multidisciplinary program is to prepare specialists to work in the field of aging. Specific requirements are listed under Gerontology.

## Master of Arts in Family and Consumer Sciences (code FCS\_MAO1)

The Master of Arts degree in Family and Consumer Sciences is designed for students seeking a master's degree, or professional enhancement, or for those wishing to pursue further graduate study. The mission of the program is to educate students to become competent researchers and practitioners who are responsive to the complex and changing needs of diverse families and communities.

The main goal of the graduate program is to provide an opportunity for students to increase competencies and knowledge within their disciplines. In addition, the program gives students opportunities to develop professional leadership and administrative skills. Students are able to work collaboratively with individuals in other disciplines as well as diverse communities to improve the quality of life.

The focus of the curriculum is to promote an understanding of theoretical approaches to the study of the disciplines within the department and the application of theories to enhance the quality of life of individuals, families, and communities. All students will get a strong background in research methods. The advanced candidate selects either a thesis track or directed project track to facilitate a selected career path. Students can expect to:

- Gain professional leadership and knowledge,
- Develop scholarship and research abilities,
- Enhance professional development.

There are three specializations in the Master of Arts degree in Family and Consumer Sciences.

- Apparel Design and Merchandising
- Consumer Affairs
- Family and Consumer Sciences Education

Interested students should contact Dr. Mary Jacob, Family and Consumer Sciences Fall Graduate Coordinator at (562) 985-4516 or marjacob@csulb.edu or Dr. Wendy Reiboldt, Spring Family and Consumer Sciences and Graduate Coordinator at (562) 985-8250 or reiboldt@csulb.edu. On-line information can be found at [www.csulb.edu/~marjacob](http://www.csulb.edu/~marjacob).

### Admission

Prospective applicants must comply with University requirements for admission to graduate studies as outlined in the CSULB Catalog. Students must concurrently submit applications to the University Admissions and Records office and the Department.

### Admission Requirements to the Department

Admission to the Master of Arts in Family and Consumer Sciences is dependant upon approval by the Graduate Coordinator. The application requirements for prospective graduate students for the Master of Arts degree are

1. An undergraduate overall GPA of at least 3.0 and a GPA of at least 3.0 in the last 60 undergraduate semester units.
2. A copy of the application submitted to the University Office of Admissions and Records.
3. Official transcripts of your baccalaureate degree. (These are in addition to those transcripts required for general admission to California State University, Long Beach).

4. Three letters of recommendation (preferably from previous instructors).
5. Submission of official copy of Graduate Record Examination (GRE). A minimum score of 4 on the Analytical Writing section of the GRE (taken after October 2002) is required and is an acceptable substitution for fulfilling the Graduation Writing Assessment Requirement GWAR.
6. Additional materials that provide evidence of academic performance may be requested (at a later date) after review of applicant's file.
7. Approval of the Graduate Coordinator.
8. THE DEADLINES FOR RECEIPT OF APPLICATIONS TO THE DEPARTMENT GRADUATE COORDINATOR ARE MAY 1<sup>ST</sup> FOR FALL ADMISSIONS AND NOVEMBER 1<sup>ST</sup> FOR SPRING ADMISSIONS.

If the appropriate coursework is taken in the correct sequence, the Qualifying Examination is passed with a grade of B and the Thesis or Directed Project requirements are completed in a timely manner, the student may be able to fulfill the requirements for the Master of Arts degree and graduate in two years (six semesters). This also requires the student to take six units every semester including two summer semesters. The Master of Arts degree in Family and Consumer Sciences offers three emphases: Apparel Design and Merchandising, Consumer Affairs, and Family and Consumer Sciences Education.

### Prerequisites

1. A bachelor's degree with a major in Family and Consumer Sciences; or a bachelor's degree with a minimum of 24 units of upper division courses in Family and Consumer Sciences unless otherwise stated by the program area.
2. An undergraduate overall GPA of at least 3.0 and a GPA of at least 3.0 in the last 60 undergraduate units attempted. Students with less than a 3.0 GPA on the last 60 undergraduate units attempted, but who show promise in all other aspects, may be given special consideration after petitioning for admission into the program through the Graduate Coordinator.
3. Prerequisites for all courses carrying graduate credit must have been completed within seven years of taking the graduate courses. If the prerequisite is outdated, the prerequisite(s) must be repeated or credit obtained by examination.
4. Students deficient in undergraduate preparation must take courses to remove these deficiencies at the discretion of faculty in the specified subject matter area and the Graduate Coordinator. Courses taken to remove deficiencies or raise the GPA may not be included in the graduate program of study.

## Retention

1. Maintain a 3.0 or better grade point average in all graduate work completed at CSULB and all graduate work transferred to meet graduate requirements.
2. Pass the Qualifying Examination at the end of the first year of coursework with a grade of B. A candidate who has failed will be allowed to take the Qualifying Examination a second time and the department Graduate Coordinator should be contacted for specific procedures for the second attempt.
3. Continued satisfactory progress toward the degree objective.

## Advancement to Candidacy

1. Classified status.
2. Fulfillment of the GVAR
3. Minimum of 3.0 overall GPA and a 3.0 GPA average in all units undertaken for the approval program of study.
4. Complete EDP 419; FCS 511, 563, 605, 655A, and 696.
5. Pass the Qualifying Examination with a grade of "B" or better. This examination will test the ability of the graduate student to understand, analyze, integrate and apply information and concepts presented in the following courses: FCS 511, 563, 605, 655A, and 696.

A faculty committee will prepare the questions, administer and grade the Qualifying Examination. Students do not register for a course to take the Qualifying Examination

6. Approval of the Graduate Coordinator, and Associate Dean of the College of Health and Human Services.
7. Enrolled in the semester in which the Advancement to Candidacy takes place.

## Requirements

1. Completion of a minimum of 34 units of approved upper division and graduate courses with a minimum of 21 units in FCS.
2. Completion of EDP 419 and FCS 511, 563, 605, 655A, 696, 697, 692 or 698, and 9 units of Advisor approved courses in the area of specializations (Apparel Design and Merchandising or Consumer Affairs or Family and Consumer Sciences Education).
3. Completion of an oral presentation of the Thesis or Directed Project report.

---

## Family and Consumer Sciences Courses

---

- 502./402. Child and Family Law
- 511. Family Theories
- 515. Perspectives in Human Development
- 520./420. Personal Finance for the Aging
- 529./429. Consumer Protection
- 550. Cultural Bases of Textiles and Apparel Design
- 559. Dress and Interpersonal Behavior
- 561. Curriculum Development in Family and Consumer Sciences
- 563. Evaluation in Family and Consumer Sciences and Gerontology
- 592. Internship in Family and Consumer Sciences/Gerontology
- 597. Independent Study
- 605. Seminar in Administration of Family and Consumer Sciences/ Gerontology Programs

- 615A. Seminar in Child Development
- 655A. Literature Review and Research in Family and Consumer Sciences
- 655B. Apparel Product Development
- 692. Directed Project
- 696. Research Methods
- 697. Directed Research
- 698. Thesis

## Master of Science in Gerontology (code FCS\_MS02)

A Master of Science degree in Gerontology may be earned through the Department of Family and Consumer Sciences. This interdisciplinary program consists of 45 members of the Gerontology faculty interest group in 21 departments. Gerontology is the scientific study of the processes and phenomena of aging, including biological, psychological and sociological dimensions. Specific requirements are listed under Gerontology.

## Master of Science in Nutritional Science (code FCS\_MS01)

The Master of Science Degree in Nutritional Science offers 3 emphases: Clinical/Community Nutrition, Food Science, and Foodservice Systems Management. These provide an opportunity for students to:

1. Specialize in nutrition therapy/community nutrition, food science or hospitality foodservice and hotel management;
2. Complete a master's degree and the academic requirements to qualify for membership in the American Dietetic Association concurrently and become eligible to apply to the Approved Dietetic Internship;
3. Increase competence in food and nutrition subject matter in preparation for college teaching, research, graduate study beyond the master's degree and administrative positions in public and private agencies.

## Admission Criteria

Prospective applicants must comply with University requirements for admission to graduate studies as outlined in the CSULB catalog. Students must concurrently submit applications to the University Admissions and Records Office and the Department of Family and Consumer Sciences.

Admission to the Master of Science in Nutritional Science is dependent upon approval by the Graduate Coordinator. The applicant must submit the following materials to the Graduate Coordinator in the Department of Family and Consumer Sciences.

1. A copy of the completed application submitted to the CSULB Office of Enrollment Services.
2. Official transcripts of all undergraduate course work.
3. Three letters of recommendation with at least two from instructors who have direct knowledge of the applicant's scholastic ability and professional qualifications.
4. A bachelor's degree with an undergraduate overall GPA of 3.0 and a GPA of 3.0 on the last 60 undergraduate units attempted.

5. An official copy of the Graduate Record Examination (GRE) taken within the last 5 years. A minimum score of 900 on the Verbal and Quantitative sections and a minimum score of 4 on the Analytical Writing section of the general GRE (taken after October 2002).
6. THE DEADLINES FOR RECEIPT OF APPLICATIONS TO THE DEPARTMENT GRADUATE COORDINATOR ARE MAY 1<sup>ST</sup> FOR FALL ADMISSIONS AND NOVEMBER 1<sup>ST</sup> FOR SPRING ADMISSIONS.

### Prerequisites

1. Students may be admitted to the program under conditional status for several reasons. Students are responsible for meeting all conditional requirements to be removed from conditional status prior to enrolling in 500/600 level courses.
  - A. Students who need to bring their GPA up to 3.0 must achieve a GPA of 3.0 within one year of admission. The Graduate Coordinator, in consultation with the student and faculty advisor, will identify courses after evaluation of transcripts. Courses taken to raise the GPA may not be included in the graduate program of study.
  - B. The student who needs to fulfill the Graduation Writing Assessment Requirement (GWAR) must do so within one year of admission and must attempt to satisfy the GWAR the first semester of enrollment.
  - C. The student who needs to pass the Test of English as a Foreign Language (TOEFL) must do so within one year of admission.
  - D. The student who needs to complete prerequisite deficiencies must do so using a program of study developed with the specialization area faculty advisor and approved by the Graduate Coordinator.
2. Students from other disciplines will be required to complete prerequisite courses before enrolling in 500/600 level courses.
3. Prerequisites for all courses carrying graduate credit must have been completed within seven years of taking the graduate courses. If any prerequisite is outdated, it may be repeated or credit obtained by written examination. Specifically, basic biological science courses and foundation nutrition and food science courses are evaluated for currency. The department administers a proficiency examination covering the content of FCS 331A and 332 courses for students in all emphases who have not taken these courses or their equivalents within the past five years. In addition, FCS 331B course content will be included in the proficiency examination for students in the Nutrition Therapy/Community Nutrition emphasis. Any student failing to pass the proficiency examination with a grade of "B" or better must take the appropriate course for credit.
4. Entering graduate students will meet with the Graduate Coordinator to prepare a tentative degree program. In order to enroll in any graduate course, the student must complete all prerequisites and deficiencies and must obtain approval from the Graduate Coordinator.

### Advancement to Candidacy

1. Satisfy the general University requirements for Advancement to Candidacy.
2. Complete 9 units of graduate courses, including FCS 696.
3. Fulfill the Graduation Writing Assessment Requirement (GWAR).
4. Maintain a 3.0 GPA for all course work attempted as a graduate student.
5. Complete a Program of Study in consultation with a faculty advisor.
6. Approval by the Graduate Coordinator of Family and Consumer Sciences and the Associate Dean of the College of Health and Human Services.

### Requirements

1. Completion of a minimum of 34-39 units depending on concurrent completion of a dietetic internship.
2. An advanced statistics course: EDP 519 or H/SC 503 or KPE 590 or BIOL 563 or BIOL 565 or a course approved by the faculty advisor.
3. At least 18 units of 500/600 level courses in Family and Consumer Sciences.
  - A. Nutrition Therapy with Dietetic Internship (39 units): BIOL 342, FCS 530A, 530B, 531, 562, 591A, 591B, 696, 697, 692 or 698, and advisor approved specialization courses.
  - B. Nutrition Therapy without Dietetic Internship (34 units): BIOL 543, FCS 530A, 530B, 562, 655A, 696, 697, 692 or 698, and advisor approved specialization courses.
  - C. Community Nutrition with Dietetic Internship (39 units): HSC 500, FCS 530A, 531, 562, 563, 591A, 591B, 636, 696, 697, 692 or 698, and advisor approved specialization courses.
  - D. Community Nutrition without Dietetic Internship (34 units): HSC 500, FCS 530A, 531, 562, 563, 636, 696, 697, 692 or 698, and advisor approved specialization courses.
  - E. Food Science (34 units): FCS 530A, 532, 533, 535, 564, 592, 597, 696, 697, 698, and advisor approved specialization courses.
  - F. Hospitality Foodservice and Hotel Management (34 units): FCS 573, 574, 597, 655A, 696, 697, 692 or 698, plus 9 units of advisor approved specialization courses.
4. An overall GPA of 3.0 or better.
5. A written thesis or a Directed Project.
6. Oral presentation of the thesis or Directed Project report.

## American Dietetic Association (ADA) Accredited Dietetic Internship (DI)

The Department of Family and Consumer Sciences offers a combined Master of Science in Nutritional Science and DI supervised practice. This experience fulfills the registration eligibility requirements of the ADA to become a Registered Dietitian. Upon successful completion of the DI, the student will be eligible to write the Registration Examination for Dietitians.

The DI requires 1,093 hours total, with 928 hours of practice divided into four emphases: nutrition therapy, foodservice systems management, community and business/entrepreneurial nutrition. The Seminar in Dietetic Practice constitutes the remaining 165 hours of the DI. The supervised practice is conducted off campus at a variety of excellent facilities. Opportunities exist in acute and long-term health care sites, as well as in teaching, research, community and governmental agencies. Students will receive training in general dietetics with experiences that expose them to various specialty areas.

### Admission Requirements

1. Completion of the Didactic Program in Dietetics as stipulated by ADA with an original verification statement from a Didactic Director;
2. Earned baccalaureate degree;
3. GPA 3.0/4.0 scale required on the last 60 units of courses completed;
4. Related volunteer or work experience in the United States;
5. Graduate standing in the CSULB Master of Science, Nutritional Science program;
6. Application materials to Dietetic Internship Director by February 1<sup>st</sup> including three letters of recommendation, formal ADA application, a \$45 application fee, and copies of all college transcripts; and
7. Personal interview with Program Director and review committee.

### Program Requirements

Upon satisfactory completion of the Supervised Practice in Dietetics: FCS 591A, the Seminar in Dietetic Practice: FCS 591B, and completion of two of the three core graduate courses, FCS 531, 533, 562 or equivalent with a grade of "A" or "B", the student will be eligible to take the Registered Dietitian (R.D.) exam sponsored by the American Dietetic Association.

The 6 units of required graduate courses and a total of 2 units of FCS 591B are applicable toward the M.S. degree in Nutritional Science. Completion of the M.S. degree is not a requirement for completion of the Dietetic Internship. Students should contact the Dietetic Internship Director for complete details on this program at [www.csulb.edu/~gcf Frank](http://www.csulb.edu/~gcf Frank).

Career opportunities include: clinical dietitian; consultant; entrepreneur; community nutritionist; foodservice manager in hospitals, schools, universities, airlines, businesses; manager in restaurant, hotel, or lodging industries; researcher in the medical, food or nutrition industry, and government inspector in the food industry.

---

## Nutritional Science Courses

---

- 530A. Carbohydrates, Lipids and Proteins
- 530B. Vitamins and Minerals
- 531. Advanced Community Nutrition
- 532./432. Food Analysis
- 533. Recent Advances in Food Science
- 535./435. Food Processing, Preservation and Packaging
- 562. Contemporary Issues in Nutrition
- 564./464. Sensory Analysis of Foods
- 566./466. Biochemical and Hormonal Adaptations to Physical Activity
- 573. Current Topics in Hospitality Foodservice and Hotel Management
- 574./474. Cost Control in Hospitality Foodservice and Hotel Management
- 577./477. Foodservice Administration
- 591A. Professional Practicum in Dietetics
- 591B. Seminar in Dietetic Practice
- 635. Seminar in Food Science, Nutrition and Foodservice Systems Management
- 636. Nutrition and the Media

## Courses (FCS)

### Lower Division

- 111. Preschool Child (3)  
Behavior and development in early childhood, with emphasis on the interaction of parents, children and teachers. (Lecture-discussion 3 hours.) (CAN FCS 14)
- 132. Introductory Nutrition (3)  
Prerequisite: One of the Foundation courses (may be taken concurrently). Essential nutrients, their physiological functions and human needs during the life cycle; food sources as applied to selection of an adequate diet; problems encountered providing food to meet nutritional needs; food additives and consumer protection. Not open to students with credit in FCS 232. (Lecture-discussion 3 hours.) (CAN FCS 2.)
- 154. Fundamentals of Apparel Production (3)  
Analysis of the interrelationship of garment design and apparel construction. Application of theories and methods of apparel design to garment construction. Letter grade only (A-F). Not open to students with credit in FCS 254. (Lecture-discussion 2 hours, Laboratory 3 hours.) (CAN FCS 10)
- 155. Introduction to the Fashion Industry (3)  
Organization, structure and interrelationship of industries and services that comprise the business of fashion: terminology, designers, trade organizations and publications. Professional opportunities explored. Letter grade only (A-F). (Lecture-discussion 3 hours.)
- 173. Applied Foodservice Sanitation (1)  
Principles of sanitation and safety as applied to any restaurant or institutional foodservice facility. Includes the cause, control and investigation of food borne illnesses, sanitary practices with purchasing, receiving, storing and preparing food, principles of Hazard Analysis Critical Control Point (HACCP), sanitary maintenance of kitchen, dining room and all equipment, personal hygiene, vector control, and safety of the food handler. Letter grade only (A-F). (Lecture-discussion 1 hour.)

**176. Fundamentals of Food Preparation in Hospitality Foodservice and Hotel Management (3)**

(Recommended corequisite: CHEM 100, 202, or equivalent). This course covers the basic scientific principles related to various foods and food preparation methods from the perspective of the restaurant and foodservice industry. The fundamental skills and techniques used for handling and preparing foods to maintain quality and safety are covered. (Lecture-discussion 2 hours, laboratory 3 hours.) Letter grade only (A-F). Course fee may be required.

**211. Guiding Young Children (3)**

Prerequisites: PSY 100 or SOC 100 or FCS 111. Processes, techniques, models, research, and selected issues in child guidance as applied to 3-5 year-old children in family and community settings. Development of a personal approach to guidance based on current scientific research and theory concerning child development. (Lecture-discussion 3 hours.)

**213. Family, Community, and Young Children (3)**

Introductory study of young children and the influences of family, school and community on their development. Exploration of various cultural and social factors, focusing on the resources necessary to promote healthy growth and development. Students may not substitute this course for FCS 413. (Seminar 3 hours.)

**214. Environments for Preschool Children (3)**

Prerequisites: FCS 111 or consent of instructor. Introduction to preschool care-giving practices. Growth and development of preschool children relating to the classroom environment. Application of theories, models, and research to current preschool classroom practices. (Lecture-discussion 3 hours.) Letter grade only (A-F).

**215. Environments for Infants and Toddlers (3)**

Prerequisites: FCS 111 or consent of instructor. Introduction to infant and toddler care-giving practices. Growth and development of children from birth through three years of age relating to the classroom environment. Application of theories, models, and research to current infant and toddler classroom practices. (Lecture-discussion 3 hours.) Letter grade only (A-F).

**219. Stress, Coping and Resiliency for the Professional Educator (3)**

Prerequisites: ENGL 100. This course identifies stressors which diminish the effectiveness of the learning environment and place children at-risk for school problems. The Family Resiliency Model is utilized to examine critical family dynamics which affect children's emotional and psychological development. Stressors which spill over from the broader community (e.g., community violence, and natural catastrophes), as well as stressors which emerge from within the classroom (e.g., peer conflict, teacher-student conflict, and teacher-burnout are also examined). Practical skills are provided to future teachers to assist them in managing their personal stress, in developing effective communication and conflict management skills, and in creating a safe, competence-producing and cooperative learning environment. (Lecture-Discussion 3 hours.) Letter grade only (A-F).

**223. Personal and Family Financial Management (3)**

Prerequisites: Completion of G.E. Foundation courses. A functional approach to personal finance including budget systems, consumer credit, insurance, debt collection system, status obligation, accumulating reserves. Applicable for personal and professional use. (Lecture-discussion 3 hours.)

**226. Consumer Life Skills (3)**

Prerequisite: Completion of the G.E. foundation. Consumer life skills with an emphasis on practical applications in the marketplace. Includes the history of the consumer movement, consumer rights and responsibilities, financial wellness, consumer debt, consumer behavior, fraud, and consumer redress. (Lecture-discussion 3 hours.)

**228. Housing in Global Perspective (3)**

Prerequisites: Completion of G.E. Foundation courses. Family housing options and choices in urban and rural areas throughout the world viewed within the context of history, politics, culture, art, environment, geography, technology and economics. (Lecture-discussion, 3 hours.)

**234. Orientation to Dietetics and Food Administration (2)**

Role of the professional in dietetics and food administration; orientation to career opportunities in Food, Nutrition and Foodservice Systems Management; personnel and physical facilities, including equipment in health care and mass feeding programs. (Lecture-discussion 1 hour, activity 2 hours.)

**235. Principles of Food Preparation (3)**

Prerequisites: CHEM 100 or 111A or 202. Application of scientific principles in the preparation of selected food products with emphasis on the physical and chemical properties of food; methods and techniques of food preparation; factors that contribute to quality of prepared foods. (Lecture-discussion 2 hours, Laboratory 3 hours.) Course fee may be required. (CAN FCS 8)

**251. Professional and Personal Apparel Selection (3)**

Prerequisites: Completion of G.E. Foundation courses. Apparel selection for professional and personal needs based on design, culture and fashion. Wardrobe analysis and coordination; consumer clothing guidelines. (Lecture-discussion 3 hours.) (CAN FCS 20)

**252. Analysis, Evaluation and Comparison of Ready-to-Wear (3)**

Analysis of the quality of materials, design and construction in ready-to-wear garments and accessories; comparison of processes involved in manufacturing, concepts of sizing, principles of fit; aids in buying and selling. (Lecture-discussion 3 hours.)

**253. Introductory Textiles (3)**

A consumer-oriented approach to textile selection, use, and care. Provides a basis for a logical, consistent rationale in choosing apparel and interior textiles. Explores careers within the international textile industry. (Lecture-discussion 3 hours.) Letter grade only (A-F).

**256. Intermediate Apparel Production (3)**

Prerequisites: FCS 154, 155 or 251. Continuation of construction techniques used in apparel production with concentration on current fabrics and techniques used in contemporary ready-to-wear. (2 hours discussion, 3 hours laboratory.)

**257. Introduction to Apparel Flat Pattern (3)**

Prerequisites: FCS 154, 155 or 251. Introduction to the design concept as it applies to flat pattern manipulation. (Discussion 2 hours, Laboratory 3 hours.) Letter grade only (A-F).

**258. Fashion Merchandising and Design Practicum (3)**

Prerequisite: FCS 155 and consent of the instructor. A structured work/learning experience in the retail industry designed to develop competencies required for successful performance in retail management or other fashion related fields. Each student must obtain a fashion retail sales position by the first day of class. (Lecture-activity 3 hours.) Letter grade only (A-F).

**270. Introduction to Hospitality Foodservice and Hotel Management (3)**

Introduction to the hospitality foodservice and hotel industry and historical overview of the field. Careers in hospitality foodservice and hotel management are defined. Relationship of careers to the community and the foodservice and hotel/lodging industry are explored. Overview of the organization and current forces shaping foodservice and hotel operations. (Lecture-discussion 3 hours.)

### 275. Food Production Systems I (3)

Prerequisites: FCS 132 and 235. Factors which influence individual, family and quantity foodservice. Menu planning and food selection, preparation and service in relation to management of time, energy and money. Foodservice practices for regular meals and special occasions. (Lecture-discussion 2 hours, laboratory 3 hours.) Course fee may be required.

### 276. Food Production and Service in Hospitality Foodservice and Hotel Management (3)

Prerequisite: FCS 176. This course covers the fundamentals of planning, organizing, preparing, and serving of meals as applicable to the hospitality foodservice and hotel industry. Operations relative to the provision of quality food and beverage services are included. (Lecture-discussion 2 hours, laboratory 3 hours.) Letter grade only (A-F). Course fee may be required.

### 290. Directed Studies (1-3)

Independent study under the direction of a faculty member. Exploration and experience in areas which are not a part of any regular course. Letter grade only (A-F). (Seminar) May be repeated to a maximum of 6 units with different topics.

### 296. Applied Arts in Family and Consumer Sciences (3)

Applied arts in communicating design concepts for Family and Consumer Sciences professions. (Activity 3 hours.)

### 299. Introduction to Family and Consumer Sciences (1)

Must be taken during first semester as Family and Consumer Sciences or Dietetics and Food Administration major. Provides a general overview of Family and Consumer Sciences as a discipline of study and a profession. Examines historical and philosophical perspectives and considers issues, trends, and career opportunities within each option in the department. Letter grade only (A-F). (Lecture-Discussion 1 hour.)

## Upper Division

### 301. College Dining Services and Bookstore Administration (3)

Prerequisite: Consent of instructor. Academic and experiential learning in the management of college dining services and bookstore. An internship for student employees of Forty-Niner Shops, Inc.; 150 hours of work experience, 18 hours of classroom instruction.

### 309I. The Consumer in the Legal and Economic Environment (3)

Prerequisites: Completion of G.E. Foundation courses; completion of one or more Exploration courses; upper division standing. Combines the economic and ethical components of consumer issues with a critical analysis of relevant substantive aspects of consumer law. Incorporates an integrated coverage of the economic, legal, and regulatory environment of consumers in avoiding and resolving disputes regarding fraudulent transactions, financial matters, personal and real property contracts, torts, credit and investment issues, and family relationships. Team taught. Same course as FIN 309I. (Lecture-discussion 3 hours.)

### 311. Prenatal Development and Infancy (3)

Prerequisites: FCS 111 and upper division standing. Human development from conception through prenatal development, childbirth, the neonatal period, infancy and toddlerhood with emphasis on the various aspects of development and the environmental/social factors essential for human growth. (Lecture-discussion 3 hours.)

### 312I. Family and Personal Development (3)

Prerequisites: completion of the G.E. Foundation, one or more Explorations courses, and upper-division standing; PSY 100, SOC 100 or ANTH 120. Interdisciplinary introduction to the concepts underlying contemporary American family life and the influence of social and cultural conditions on human development. (Lecture-discussion 3 hours.)

### 314. The Older Child (3)

Prerequisites: FCS 111, and upper division standing or consent of instructor. Behavior and development in middle and late childhood and adolescence, with emphasis on individual and cultural differences. (Lecturer-discussion 3 hours)

### 319I. Family Stress and Coping (3)

Prerequisites: Completion of G.E. Foundation courses; ANTH 120 or PSY 100 or SOC 100 or consent of instructor. Examination of theories and research associated with stressors affecting family functioning throughout the lifecycle. Consideration given to both normative transitions and non-normative stressors. Emphasis on strategies to assist families to deal productively with stress and change. (Lecture-discussion 3 hours.)

### 321. Family and Consumer Resource Management (3)

Prerequisites: Completion of G.E. Foundation courses; upper division standing. Basic management principles applied to personal and family settings. The role of values, goal formation, decision-making, planning, implementing, and evaluation of managerial behavior in diverse family and cultural settings are examined. (Lecture-discussion 3 hours.)

### 322. Family Housing and the Urban Community (3)

Prerequisites: Upper-division standing. Critical analysis of family housing in the urban community including aspects of shelter, city and service providers. Sociological, psychological, legislative, economic and technical factors are investigated. Special attention is given to families of various structures and socioeconomic background (Discussion 3 hours.)

### 330. Dairy Science (2)

Prerequisites: FCS 132, 235. Study of dairy science from chemical microbiological quality assurance, processing techniques, nutritional values, and economic standpoints. Integration of recent technology as implemented to feature marketed dairy products both traditional and contemporary. (Lecture-discussion 2 hours.)

### 331A. Fundamentals of Human Nutrition (3)

Prerequisites: FCS 132, BIOL 207, CHEM 302 or 327 or equivalent. Nutritional needs with emphasis on the physiological and chemical foundation for these needs; factors influencing nutrient needs. (Lecture-Discussion 3 hours.)

### 331B. Fundamentals of Human Nutrition (3)

Prerequisites: FCS 331A. Nutritional needs with emphasis on changes through the life cycle. Introduction to dietary modifications in various pathological conditions. Introduction to nutrition assessment and nutrition education techniques. (Lecture-discussion 3 hours.)

### 332. Food Science (3)

Prerequisites: CHEM 327; FCS 235; MICR 200 or equivalent. Composition and structure of foods: chemical changes in foods that affect their color, flavor, texture, aroma, and nutritive quality during processing and preparation; techniques for food preservation. (Lecture-discussion 2 hours, laboratory 3 hours.) Course fee may be required.

### 336. Cultural Aspects of Food and Nutrition (3)

Prerequisites: PSY 100 or SOC 100 or ANTH 120 or equivalent; FCS 132. Cross-cultural study of food and nutrition. Factors such as religion, food supply and socioeconomic status are considered as they influence nutritional status and food intake in various populations throughout the world. (Lecture 3 hours.)

### 338. Introduction to Food Processing (3)

Prerequisites: FCS 332. Study of industrial concepts of food processing and technology. Discussion of processing raw agricultural commodities through the production phases to a final product acceptable to consumers. (The course may include limited visitations to food preparation sites.) (Lecture-discussion 3 hours.)

### 339. Metabolic Functions of Nutrients (1)

Prerequisites: CHEM 302, BIOL 207, and consent of instructor. Metabolic role of nutrients in the human body; practical application of nutrition to patient care. Open to Nursing Majors only. (Activity 2 hours.)

**351. Fashion Promotion and Sales (3)**

Prerequisites: FCS 155, 251, 252 or 154. Concepts, practices and procedures related to fashion promotion. Includes planning, directing and evaluating promotion activities such as visual merchandising, special events, publicity, and personal and non-personal selling. (Discussion 3 hours.)

**352. Computerized Apparel Flat Pattern (3)**

Prerequisites: FCS 256, 257 and 387. Use of computer aided design software for apparel pattern development. (Laboratory 6 hours.) Letter grade only (A-F).

**353. Intermediate Textiles (3)**

Prerequisites: CHEM 100 or 111A; FCS 155 and 253. Interrelationship of fiber, yarn, structure, fabric geometry and finishing treatments to the textile's appearance, comfort, durability and maintenance. (Lecture-discussion 2 hours, Laboratory 3 hours.) Letter grade only (A-F).

**354. Analysis of Apparel Design and Tailoring (3)**

Prerequisites: FCS 155, 251, 256 and 257. Analysis of traditional and contemporary processes in the design and production of tailored apparel. Application of apparel design and production process for couture, ready-to-wear, and individually produced garments. (Discussion 2 hours, Laboratory 3 hours.) Letter grade only (A-F).

**355. Fashion Merchandising Planning and Control (3)**

Prerequisites: ELM Passage, ACCT 201, FCS 155, FCS 387, or consent of instructor. Concepts, practices and procedures as well as calculations and computer applications as they relate to apparel retail profit. Includes inventory methods, operating statements and purchase planning procedures. (Discussion 3 hours.)

**357. Advanced Apparel Flat Pattern (3)**

Prerequisites: ELM passage, FCS 155, 251, 253, 256 and 257. Exploration of the total design concept as it applies to pattern manipulation. (Discussion 2 hours, Laboratory 3 hours.) Letter grade only (A-F).

**358. Fathers and Fathering (3)**

Prerequisites: PSY 100; SOC 100 or FCS 111. An overview of the psychological literature on parenting with an emphasis on fathers/fathering in the U.S. Focus on current literature and research regarding the perceived and changing roles of fathers, including ethnic fathers, in an effort to diminish stereotypes. (This course is for both men and women.) Same course as PSY 366.

**372. Hotel and Lodging Management (3)**

Prerequisite: FCS 270. Students will become acquainted with the organization and management of hotel and lodging facilities. The course covers the functions of various operational departments and how they interrelate. The importance of assuring quality guest service will be emphasized. Field trips may be required. (Lecture - discussion 3 hours.)

**375. Food Production Systems II (3) F,S**

Prerequisites: FCS 173 and 275. Facilities at various types of quantity food operations are utilized to provide students with production and operational experiences -- menu planning, costing, standardizing recipes, serving, merchandising, sanitation and safety. Field experiences include commercial and non-commercial settings, such as, hospitals, restaurants, hotels, school districts, universities, airlines, and senior foodservice systems. (Lecture - discussion 2 hours, Laboratory 3 hours.) Letter grade only (A-F).

**376. Customer Service Management in the Hospitality Foodservice and Hotel Industry (3)**

Prerequisites: FCS 270. Components of customer service management and guest relations in the foodservice and lodging industries are examined. Importance of quality customer service and its relationship to the success of operations in the industry will be covered. Field trips and off-campus activities required. (Lecture-activity 3 hours.) Letter grade only (A-F).

**378. Legal Issues in Hospitality Foodservice and Hotel Management (3)**

Prerequisite: Upper division standing or consent of instructor. The laws of foodservice and lodging are examined as they have evolved historically and as they exist today. Legal components of foodservice and lodging management will be covered. (Lecture discussion 3 hours.)

**379. Field Studies in Hospitality Foodservice and Hotel Management (1-3)**

Prerequisites: Upper division standing or consent of instructor. A structured experiential learning course designed to expand professional experiences and to enhance the development of competencies required for successful performance in hospitality foodservice and hotel management. May be repeated to a maximum of 6 units.

**387. Consumer Technology (3)**

Prerequisites: FCS 299 and upper division standing. The impact of consumer technology on the quality of life of individuals and families at home, in home-based work environments, and in professional environments. Computer application for consumers in family resource and household management, including problem solving and decision-making. Professional applications. Analysis of social, psychological, and economic impacts. Discussion 2 hours, Laboratory 3 hours.)

**402./502. Child and Family Law (3)**

Prerequisites: FCS 312I and upper division standing. Establishment, conduct, and termination of family relationships as well as the rights and duties of parties to non-marital family relationships will be examined. Topics include, the "Best Interest of the Child Rule," artificial insemination, property rights, adoption, child custody, domestic violence, support of children, spousal support, genetic testing, new trends in family law, and paternity. Letter grade only (A-F). (Lecture-discussion 3 hours.)

**409. Language, Learning and the Developing Child: A Cross-Cultural Perspective (3)**

Explores the communicative-linguistic, cognitive, physical, and socio-emotional development of the child from the prenatal to adolescent period across diverse cultures with an emphasis on language acquisition and the learning process. Letter grade only (A-F). Not open to students currently enrolled in the Liberal Studies program. Same course as LING 429, EDEL 429, and EDP 428.

**410. International Families: Families in Cross-Cultural Perspectives (3)**

Prerequisites: FCS 312I or consent of instructor. Designed to provide students with an in-depth understanding of cross-cultural diversities in families from varied nationalities. Information concerning similarities and differences which exists in such areas as dating and marriage customs, family structure and family forms from selected cross-cultural families will be considered. (Lecture-discussion 3 hours.)

**\*411. Individual Child Study and Guidance (3)**

Prerequisites: Upper division standing; FCS 311 or FCS 314 or HDEV 307I or PSY 361; or consent of instructor. Analysis and interpretation of theory, research, trends and techniques for the study and guidance of the individual child in family and community settings. (Lecture-activity 3 hours.)

**\*412. Family Interaction (3)**

Prerequisites: Upper-division standing, FCS 312I, or consent of instructor. Dynamics of interaction and communication in interpersonal relationships throughout the family life cycle. Experience with a variety of communication skills in small group settings. (Lecture-discussion 3 hours.)

**\*413. Child and Family in the Community (3)**

Prerequisites: Upper-division standing, FCS 312I, or consent of instructor. Study of cultural varieties and the needs of the contemporary American family in an urban community; analysis of current issues and problems; identification of and experience with

community resources and agencies. (Lecture-discussion 3 hours.)

#### **414. Fieldwork with Preschool Children (3)**

Prerequisites: FCS 111, 211, 214, or consent of instructor. Supervised teaching/learning experience with preschool children including development of skills for observation and assessment as well as curriculum planning, implementation and evaluation. May be repeated to a maximum of 6 units with assignments reflecting increasing levels of difficulty. (Lecture 1 hour, laboratory 6 hours.)

#### **415. Fieldwork with Infants/Toddlers (3)**

Prerequisites: FCS 111, 211, 214, or consent of instructor. Supervised teaching/learning experience with infants/toddlers, including development of skills for observation and assessment as well as curriculum planning, implementation, and evaluation. May be repeated to a maximum of 6 units with assignments reflecting increasing levels of difficulty. (Lecture 1 hour, laboratory 6 hours.)

#### **416A. Introduction to Administration and Supervision of Child Development Programs (3)**

Prerequisites: FCS 414 or FCS 415 or consent of instructor. Minimum and recommended standards and laws pertaining to housing, equipment, play space, adult/child ratio, health supervision and meal service for children's programs. Selection and supervision of personnel, program planning and directing. (Lecture-discussion 3 hours.)

#### **416B. Applications of Administration and Supervision of Child Development Programs (3)**

Prerequisites: FCS 416A or consent of instructor. Decision theory and its application, communication strategies, planning, operating and evaluating programs for young children. (Lecture-discussion 3 hours.)

#### **417. Premarital Intervention (3)**

Prerequisites: FCS 3121 or consent of instructor. Review of research on dating relationships and intervention programs designed for individuals or couples prior to marriage. Consideration of shyness, dating anxiety, intimacy, sexual decision-making, values clarification, self-disclosure, and conflict resolution. Emphasis on applying research to the development of programs to assist premarital individuals enrich their relationships. (Lecture-discussion 3 hours.)

#### **\*418. Parent Education (3)**

Prerequisites: Upper-division standing and at least 6 units of upper division child development and family studies or equivalent courses, or consent of instructor. Principles and techniques for working with parents in community and school programs. Assessment of needs and development of programs for adults in a variety of social and cultural settings. (Lecture-activity 3 hours.)

#### **\*419. Family Life Education (3)**

Prerequisites: Upper-division standing, FCS 413, or consent of instructor. Concepts, principles and paradigms on family life education will be explored. Contemporary issues confronting individuals and families will be addressed. The focus of the course is on planning, implementing, and evaluating family life education programs. Gender, ethnicity, and diversity issues as they relate to family life education will be stressed. Letter grade only (A-F). (Lecture-discussion 3 hours)

#### **420./520. Personal Finance for the Aging (3)**

Prerequisites: 400-level course in Consumer Affairs or consent of instructor. Provides an understanding of the operations of personal finance as applied to the aging population. Topics include public and private sources of income, living expense, public and private sources of assistance, personal budget systems, financial planning, legal rights of the aged affecting their personal finances, and financial counseling for the aging. Same course as GERN 420/520. (Lecture-discussion 3 hrs)

#### **\*422. Housing Policies: Public and Private (3)**

Prerequisites: FCS 322, upper division standing or consent of instructor. Federal, state, and local policies, programs and legislation concerning housing and urban development. Analysis of the housing industry and its influence on the consumer market. Letter grade only (A-F). (Discussion 3 hours.)

#### **\*424. Independent Living for Disabled and Elderly Persons (3)**

Prerequisite: FCS 321 or 322 or GERN 4001 or consent of instructor. Independent living concepts related to physically and/or functionally disabled adults. Personal, environmental and programmatic responses to disability and aging. Activities include individual and group projects and site visits to such locations as an adapted private home, an Independent Living Center, a "special clothing" manufacturer, and a multipurpose rehabilitation center. Letter grade only (A-F). Same course as GERN \*424. (Lecture-Activity 3 hours.)

#### **\*425. Personal Financial Planning Analysis (3)**

Prerequisite: FCS 223 or consent of instructor. Analysis and protection of personal and family resources; planning and forecasting goals; development of financial strategies utilizing insurance, investment, tax management, pensions, wills and trusts. (Lecture-discussion 3 hours.)

#### **\*426. Family Financial Problems (3)**

Prerequisite: FCS 223 or consent of instructor. Theory and practice in the diagnosis of family financial crises; selecting alternative solutions; constructing practical methods for the prevention of family financial problems. (Discussion 2 hours, laboratory 3 hours.)

#### **\*428. International Housing (3)**

Prerequisite: FCS 322 and upper division standing. Theories and solutions of family housing in urban and rural communities throughout the world. Letter grade only (A-F) (Discussion 3 hours.)

#### **429./529. Consumer Protection (3)**

Prerequisites: Upper Division course in consumer affairs or consent of instructor. Concepts of consumer protection with analysis of a myriad of resources available for individuals and families with consumer problems. (Seminar 3 hours.)

#### **430. Nutrition and Health (3)**

Prerequisite: Upper-division standing. Intensive study of nutrition including evaluation of current trends in food and nutrition. Designed for students in health education, elementary and secondary education, social service and other elective students. Not open to family and consumer sciences majors. (Lecture-discussion 3 hours.)

#### **432./532. Food Analysis (3)**

Prerequisites: CHEM 327, FCS 332 or equivalent. Application of scientific methods of food analysis. Consideration of the manner in which such variables as ingredients, proportions, and techniques in food preparation affect the quality of products. Experimental laboratory problems. (Seminar 2 hours, Laboratory 3 hours.) Course fee may be required. Letter grade only (A-F).

#### **433. Nutrition in the Life Cycle (3)**

Prerequisite: FCS 132 or 331A or equivalent. Nutrition throughout the life cycle. Interaction of physical, biological, cultural and psychological factors involved in assessing and maintaining optimal nutritional health. Community nutrition programs introduced. (Lecture-discussion 3 hours.)

#### **435./535. Food Processing, Preservation and Packaging (3)**

Prerequisites: FCS 332 or consent of instructor. Methods and technological aspects in food processing, preservation and packaging. Application of principles and assessment of nutritional and physical qualities. Evaluation of chemical additives in food products. Microbiological aspects of food safety and food plant sanitation. (Lecture - discussion 2 hours, laboratory 3 hours.)

**\*436. Advanced Nutrition (3)**

Prerequisites: FCS 331B, CHEM 448, 449 (may be taken concurrently). Metabolism of proteins, fats, carbohydrates, minerals and vitamins; interrelationship of nutrients; principles of determining nutritional requirements of individuals. (Lecture-discussion 3 hours.)

**436L. Nutritional Status Assessment Techniques (3)**

Prerequisites/Corequisites: FCS 436 and CHEM 449. Designed to provide training in nutrition assessment and nutrition counseling. Use of procedures for interviewing, counseling, and instructing patients/clients in various settings comparable to those encountered in dietetic practice. Includes laboratory methods for collection and interpretation of demographic, dietary anthropometrics, biochemical, and clinical data. Letter grade only (A-F). (Discussion 1 hour, Laboratory 3 hours, Clinical Practice 3 hours.)

**\*438. Medical Nutrition Therapy (3)**

Prerequisites: FCS 436, 436L (may be taken concurrently). Therapeutic nutrition. Metabolic changes in specific pathological conditions; dietary modifications used for treatment. (Lecture-discussion 3 hours.)

**\*439. Nutrition and Aging (3)**

Prerequisites: FCS 132 or BIOL 207 or consent of instructor. Nutritional needs as related to physiological changes that occur during aging. Factors that influence food intake and nutritional status of the elderly. Diet adaptation for chronic diseases commonly found in older people. Same course as GERN \*439. (Lecture-discussion 3 hours.)

**450. Cultural Perspectives of Dress (3)**

Prerequisites: Completion of G.E. Foundation courses; ANTH 120 OR SOC 100 OR 142 and upper division standing or consent of instructor. Factors influencing design of textiles and apparel, techniques of textile and apparel production, and human behavior in the selection of dress in societies and cultural groups are studied. Emphasis on symbolism of textiles and clothing designs as a communicative device for expressing social and cultural values. Impact of other cultures on western dress and impact of western dress on other apparel systems is included. (Seminar 3 hours.)

**\*452. Apparel Draping (3)**

Prerequisites: FCS 353, 354 and 357, or consent of instructor. Exploration of the total design concept as it applies to fabric manipulation. (Discussion 2 hours, Laboratory 3 hours.) Letter grade only (A-F).

**\*453. Quality Control in Fashion Merchandising and Design (3)**

Prerequisites: FCS 353. The use of target market characteristics, textile testing and product development to assure quality in products. (Discussion 1 hour, Activity 4 hours.) Letter grade only (A-F).

**\*454. Experimental Apparel Design (3)**

Prerequisites: FCS 352, 452 and 453. Exploration of clothing design and production through the experimental process. Individual investigation of the creative design process; evaluation of equipment; experiences with a variety of fabrics and techniques. (Discussion 2 hours, Laboratory 3 hours.) Letter grade only (A-F).

**\*455. Global Perspectives in Fashion Merchandising (3)**

Prerequisites: FCS 351, 355, and MKTG 300, senior standing or consent of instructor. Application of merchandising concepts for the budgeting, buying, promoting, and selling of fashion goods and apparel in global retail organizations. Letter grade only (A-F). (Discussion 3 hours.)

**456. Historic Perspectives of Fashion (3)**

Prerequisites: FCS 251, 253, HIST 131 or AH 115B. Social, political, economic, geographic and religious forces that affect styles of fashion from antiquity to the present day. Emphasis is on the relationship of historic styles to current fashion. Primary focus is on the fashion influences of the western world. (Seminar 3 hours.) Letter grade only (A-F).

**457. International Textiles and Apparel (3)**

Prerequisites: ECON 100 and 101 or 300, FCS 353, senior standing, or consent of instructor. International, political and economic issues relevant to the textile and apparel industries. Emphasis on understanding international aspects of the textile and apparel industries in the United States. (Seminar 3 hours.)

**\*458. Fashion Product Development (3)**

Prerequisites: Six upper-division units in apparel design and merchandising or consent of instructor. The process of designing and engineering fashion products to be serviceable, producible, salable and profitable for various consumer market segments. (Discussion 3 hours.)

**461. Community Nutrition (3)**

Prerequisites: Upper-division standing, FCS 331B. Survey of nutrition programs in the community. Techniques of program planning, implementation, management and evaluation (Lecture-activity 3 hours.) Letter grade only (A-F).

**464./564. Sensory Analysis of Foods (3)**

Prerequisites: FCS 332, BIOL 260 or equivalent statistics; consent of instructor. Principles and methods of analysis of sensory attributes. Applications, advantages and limitations of sensory methods using trained judges and consumer panels. Computer use of statistical data analysis and plotting. Statistical analysis, data interpretation and comparison with previous literature. (Discussion 2 hours, Laboratory 3 hours.) Course fee may be required.

**466./566. Biochemical and Hormonal Adaptations to Physical Activity (3)**

Prerequisites: Upper-division undergraduate or Graduate standing; KPE 301 or equivalent; CHEM 111A or its equivalent. Consent of instructor required for upper-division undergraduate students prior to registration. Study of the biochemical and hormonal changes that occur as a result of acute and chronic physical activity. Emphasis will be placed on the application of concepts to the development of exercise training programs. Upper-division undergraduate students register in FCS 466; graduate students register in FCS 566. Letter grade only (A-F). Same course as KPE 466./566. (Seminar 3 hours.)

**469. Food Production Development (1)**

Prerequisites: FCS 332, 338, 432 and 435 or consent of instructor. Industrial concepts of food product development, formulation and technology. The course will focus on the principles of new product development, identification of ingredient replacements and improvements. Development of a prototype, ingredient interaction, and the functions of different applications of newly created product in consideration of cost analysis. Letter grade only (A-F).

**473. Beverage Management (3)**

Prerequisites: FCS 275 or 276 or consent of instructor, senior standing. Overview of the beverage industry. Identification, use, and service of wines and other alcoholic and non-alcoholic beverages, with an in-depth analysis of the various elements of beverage operations including purchasing, control, merchandising, and bar management. Field trips required. (Discussion 3 hours.)

**474./574. Cost Control in Hospitality Foodservice and Hotel Management (3)**

Prerequisites: FCS 375 or consent of instructor. Financial management, including control of food, labor, supplies, equipment and other operational costs; principles and procedures used for controlling purchasing, receiving, storing, and issuing of food, beverage, and supplies; factors affecting quality and customer satisfaction; inventory and security management; utilization of computers in cost control; and analysis of financial reports in the hospitality foodservice and hotel industry. (Lecture - discussion 3 hours.) Course fee may be required.

#### 477./577. Foodservice Administration (3)

Prerequisites: FCS 375 or consent of instructor, senior standing. Principles of organization and administration in commercial and non-commercial foodservice operations are explored. Includes food purchasing, receiving, storage, inventory control, marketing, organizational management, human resource management, productivity, financial management, and quality management as they are applied to the foodservice industry. Field trips required. (Discussion 3 hours.)

#### 486. Instructional Strategies for Family and Consumer Sciences Professionals (3)

Prerequisite: Senior Standing. Must be taken in one of the last two semesters prior to graduation. Utilize the principles and concepts of each area of Family and Consumer Sciences in developing and implementing a variety of learning experiences appropriate for providing instruction to individuals or groups in informal education, business, government agencies, or other community settings. Letter grade only (A-F). (Lecture-Discussion 2 hours, Laboratory 3 hours.)

#### \*488. Developing Occupational Programs in Family and Consumer Sciences (3)

Prerequisite: EDSS 300H or teaching experience or consent of instructor. Utilizing knowledge and skills derived from the field of family and consumer sciences as a basis for offering occupational opportunities for youth and adults through planning programs in school and community. (Lecture-discussion 3 hours)

#### \*490. Special Topics (1-3)

Group investigation of selected topics. Topics will be announced in the *Schedule of Classes*. May be repeated to a maximum of 9 units. (Seminar 1-3 hours.)

- A. European Fashion Study Tour
- B. New York Fashion Study Tour
- C. Los Angeles Fashion Study Tour

#### 492A. Internship in Child Development and Family Studies (3)

Prerequisites: Student must be a Family and Consumer Sciences: Child Development and Family Studies major; have senior standing; have a 2.5 overall GPA or a 3.0 major GPA; approval of a faculty advisor in Child Development and Family Studies; and FCS 411, 413, and 414 or 415. Each prerequisite course must be completed with a grade of "C" or better. A course in which a grade lower than "C" is received must be retaken and successfully completed prior to enrolling in any course for which it is a prerequisite. A student receiving a grade lower than a "C" may proceed with other courses with approval of the Area Coordinator. Field experience of 120 hours in which the student assumes a pre-professional role in an agency, business or other community setting. Internship supervisors monitor and evaluate student work based on preestablished criteria stated in the internship contract. The preestablished criteria in the contract consists of objectives developed by the student in consultation with the supervisor. The objectives and the placement site must be approved by the student's faculty advisor and the internship coordinator. Students evaluate the internship at the end of the experience. May be repeated to a maximum of 6 units. (Seminar 3 hours.)

#### 492B. Internship in Family Life Education (3)

Prerequisites: Student must be a major in Family and Consumer Sciences in the option of Child Development and Family Studies; have senior standing; have a 2.5 overall GPA or a 3.0 major GPA; approval of a faculty advisor in Child Development and Family Studies; and FCS 319I, 412, and 413. Each prerequisite course must be completed with a grade of "C" or better. A course in which a grade lower than "C" is received must be retaken and successfully completed prior to enrolling in any course for which it is a prerequisite. A student receiving a grade lower than a "C" may proceed with other courses with approval of the Area Coordinator. Field experience of 120 hours in which the student assumes a pre-professional role in an agency, business or other community setting. Internship supervisors monitor and evaluate student work based on preestablished criteria stated in the internship contract. The preestablished criteria in the contract consist of objectives developed by the student in consultation with the supervisor. The objectives and the placement site must be approved by the student's faculty advisor and the internship coordinator. Students evaluate the internship at the end of the experience. May be repeated to a maximum of 6 units. (Seminar 3 hours.)

#### 492C. Internship in Consumer Affairs (3)

Prerequisites: Student must be a Family and Consumer Sciences: Consumer Affairs major; have senior standing; have a 2.5 overall GPA or a 3.0 major GPA; approval of a faculty advisor in Consumer Affairs; and FCS 321, 226, 422, 425, 429, or consent of instructor. Each prerequisite course must be completed with a grade of "C" or better. A course in which a grade lower than "C" is received must be retaken and successfully completed prior to enrolling in any course for which it is a prerequisite. A student receiving a grade lower than a "C" may proceed with other courses with approval of the Area Coordinator. Field experience of 120 hours in which the student assumes a pre-professional role in an agency, business or other community setting. Internship supervisors monitor and evaluate student work based on preestablished criteria stated in the internship contract. The preestablished criteria in the contract consists of objectives developed by the student in consultation with the supervisor. The objectives and the placement site must be approved by the student's faculty advisor and the internship coordinator. Students evaluate the internship at the end of the experience. May be repeated to a maximum of 6 units. (Seminar 3 hours.)

#### 492D. Internship in Family and Consumer Sciences Education (3)

Prerequisites: Student must be a Family and Consumer Sciences Education major; have senior standing; have a 2.5 overall GPA or a 3.0 major GPA; approval of a Family and Consumer Sciences Education faculty advisor. Each prerequisite course must be completed with a grade of "C" or better. A course in which a grade lower than "C" is received must be retaken and successfully completed prior to enrolling in any course for which it is a prerequisite. A student receiving a grade lower than a "C" may proceed with other courses with approval of the Area Coordinator. Field experience of 120 hours in which the student assumes a pre-professional role in an agency, business or other community setting. Internship supervisors monitor and evaluate student work based on preestablished criteria stated in the internship contract. The preestablished criteria in the contract consists of objectives developed by the student in consultation with the supervisor. The objectives and the placement site must be approved by the student's faculty advisor and the internship coordinator. Students evaluate the internship at the end of the experience. May be repeated to a maximum of 6 units. (Seminar 3 hours.)

#### 492E. Internship in Fashion Merchandising (3)

Prerequisites: Student must be a major in Family and Consumer Sciences in the option of Fashion Merchandising; have senior standing; have a 2.5 overall GPA or a 3.0 major GPA; have approval of a faculty advisor in Fashion Merchandising and Design; consent of the instructor; and FCS 455 or 457. Each prerequisite course must be completed with a grade of "C" or better. A course in which a grade lower than "C" is received must be retaken and successfully completed prior to enrolling in any course for which it is a prerequisite. A student receiving a grade lower than a "C" may proceed with other courses with approval of the Area Coordinator. Field experience of 120 hours in which the student assumes a preprofessional role in an agency, business or other community setting. Internship supervisors monitor and evaluate student work based on preestablished criteria stated in the internship contract. The preestablished criteria in the contract consist of objectives developed by the student in consultation with the supervisor. The objectives and the placement site must be approved by the student's faculty advisor and the internship coordinator. Students evaluate the internship at the end of the experience. May be repeated to a maximum of 6 units. (Seminar 3 hours.)

#### 492F. Internship in Food Science (3)

Prerequisites: Student must be a Family and Consumer Sciences: Food Science major; have senior standing; have a 2.5 overall GPA or a 3.0 major GPA; approval of a faculty advisor in Food Science; and FCS 331A and 332; FCS 432 is recommended. Each prerequisite course must be completed with a grade of "C" or better. A course in which a grade lower than "C" is received must be retaken and successfully completed prior to enrolling in any course for which it is a prerequisite. A student receiving a grade lower than a "C" may proceed with other courses with approval of the Area Coordinator. Field experience of 120 hours in which the student assumes a pre-professional role in an agency, business or other community setting. Internship supervisors monitor and evaluate student work based on preestablished criteria stated in the internship contract. The preestablished criteria in the contract consists of objectives developed by the student in consultation with the supervisor. The objectives and the placement site must be approved by the student's faculty advisor and the internship coordinator. Students evaluate the internship at the end of the experience. May be repeated to a maximum of 6 units. (Seminar 3 hours.)

#### 492G. Internship in Gerontology (3)

Prerequisites: Student must be a Gerontology Certificate candidate; have senior standing; have a 2.5 overall GPA or a 3.0 major GPA; approval of the Gerontology program director; and GERN 400I, ANTH 454, PSY 365 or HDEV 357I. Each prerequisite course must be completed with a grade of "C" or better. A course in which a grade lower than "C" is received must be retaken and successfully completed prior to enrolling in any course for which it is a prerequisite. A student receiving a grade lower than a "C" may proceed with other courses with approval of the Area Coordinator. Field experience of 120 hours in which the student assumes a pre-professional role in an agency, business or other community setting. Internship supervisors monitor and evaluate student work based on preestablished criteria stated in the internship contract. The preestablished criteria in the contract consists of objectives developed by the student in consultation with the supervisor. The objectives and the placement site must be approved by the student's faculty advisor and the internship coordinator. Students evaluate the internship at the end of the experience. May be repeated to a maximum of 6 units. Same as GERN 492G. (Seminar 3 hours.)

#### 492J. Internship in Hospitality Foodservice and Hotel Management (3)

Prerequisites: Student must be a major or minor in Hospitality Foodservice and Hotel Management; have senior standing; have a 2.5 overall GPA or a 3.0 major GPA; approval of a faculty advisor in Hospitality Foodservice and Hotel Management; and FCS 275 or 276 or 372, and 800 hours of approved work experience. Each prerequisite course must be completed with a grade of "C" or better. Field experience of 120 hours in which the student assumes a pre-professional role in an agency, business or other community setting. Internship supervisors monitor and evaluate student work based on preestablished criteria stated in the internship contract. The preestablished criteria in the contract consist of objectives developed by the student in consultation with the supervisor. The objectives and the placement site must be approved by the student's faculty advisor and the internship coordinator. Students evaluate the internship at the end of the experience. May be repeated to a maximum of 6 units. (Seminar 3 hours.)

#### 492K. Internship in Nutrition and Dietetics (3)

Prerequisites: Student must be a Family and Consumer Sciences: Nutrition and Dietetics major; have senior standing; have a 2.5 overall GPA or a 3.0 major GPA; approval of a faculty advisor in Nutrition and Dietetics; and FCS 275, 331B and 332. Each prerequisite course must be completed with a grade of "C" or better. A course in which a grade lower than "C" is received must be retaken and successfully completed prior to enrolling in any course for which it is a prerequisite. A student receiving a grade lower than a "C" may proceed with other courses with approval of the Area Coordinator. Field experience of 120 hours in which the student assumes a pre-professional role in an agency, business or other community setting. Internship supervisors monitor and evaluate student work based on preestablished criteria stated in the internship contract. The preestablished criteria in the contract consists of objectives developed by the student in consultation with the supervisor. The objectives and the placement site must be approved by the student's faculty advisor and the internship coordinator. Students evaluate the internship at the end of the experience. May be repeated to a maximum of 6 units. (Seminar 3 hours.)

#### 492M. Internship in Apparel Design (3)

Prerequisites: Student must be a major in Family and Consumer Sciences in the option of Textiles and Clothing; have senior standing; have a 2.5 overall GPA or a 3.0 major GPA; have approval of a faculty advisor in Fashion Merchandising and Design; have consent of the instructor; and FCS 452 or 454. Each prerequisite course must be completed with a grade of "C" or better. A course in which a grade lower than "C" is received must be retaken and successfully completed prior to enrolling in any course for which it is a prerequisite. A student receiving a grade lower than a "C" may proceed with other courses with approval of the Area Coordinator. Field experience of 120 hours in which the student assumes a preprofessional role in an agency, business or other community setting. Internship supervisors monitor and evaluate student work based on preestablished criteria stated in the internship contract. The preestablished criteria in the contract consist of objectives developed by the student in consultation with the supervisor. The objectives and the placement site must be approved by the student's faculty advisor and the internship coordinator. Students evaluate the internship at the end of the experience. May be repeated to a maximum of 6 units. (Seminar 3 hours.) Letter grade only (A-F).

#### 497. Directed Studies (1-3)

Prerequisites: Upper class standing, consent of instructor. Independent study under the supervision of a faculty member. Exploration and experience in areas which are not a part of any regular course. May be repeated to a maximum of 6 units.

**499. Professionalism and Leadership in Family and Consumer Sciences (2)**

Prerequisites: FCS 299, 321, 12 units of upper division course work in Family and Consumer Sciences. Must be taken in one of the last two semesters prior to graduation. Course covers professional practice of Family and Consumer Sciences and social responsibilities including ethical code of conduct. Trends and issues in Family and Consumer Sciences are examined in the context of public policy involvement. Students are encouraged to develop leadership in professional associations and are required to complete professional development activities. Letter grade only (A-F). (Lecture-Discussion 2 hours.)

**Graduate Level**

**502./402. Child and Family Law (3)**

Prerequisites: FCS 3121 and upper division standing. Establishment, conduct, and termination of family relationships as well as the rights and duties of parties to non-marital family relationships will be examined. Topics include, the "Best Interest of the Child Rule," artificial insemination, property rights, adoption, child custody, domestic violence, support of children, spousal support, genetic testing, new trends in family law, and paternity. Letter grade only (A-F). (Lecture-discussion 3 hours.)

**511. Family Theories (3)**

Prerequisite: FCS 412 or 413 or consent of instructor. Theoretical approaches to the study of the family; analysis of the process of interaction between the individual, the family and society with emphasis on current issues. (Seminar 3 hours.)

**515. Perspectives in Human Development (3)**

Prerequisite: FCS 411 or consent of instructor. Theory, trends and research toward maximum development of human potential as it applies to children in the family and community. (Seminar 3 hours.) Letter grade only (A-F).

**520./420. Personal Finance for the Aging (3)**

Prerequisites: 400-level course in Consumer Affairs or consent of instructor. Provides an understanding of the operations of personal finance as applied to the aging population. Topics include public and private sources of income, living expense, public and private sources of assistance, personal budget systems, financial planning, legal rights of the aged affecting their personal finances, and financial counseling for the aging. Letter grade only (A-F). Same course as GERN 520/420. (Lecture-discussion 3 hours.)

**529./429. Consumer Protection (3)**

Prerequisites: Upper Division course in consumer affairs or consent of instructor. Concepts of consumer protection with analysis of a myriad of resources available for individuals and families with consumer problems. Letter grade only (A-F). (Seminar 3 hours.)

**530A. Carbohydrates, Lipids and Proteins (3)**

Prerequisites: FCS 436, 436L, BIOL 260. Nutritional, metabolic and clinical aspects of carbohydrates, lipids and proteins. Current knowledge of interactions between macronutrients and assessment of needs. Letter grade only (A-F). (Seminar 3 hours.)

**530B. Vitamins and Minerals (3)**

Prerequisites: FCS 436, 436L, BIOL 260. Nutritional, metabolic and clinical aspects of vitamins and minerals. Current knowledge of interactions between micro- and macro-nutrients. Principles of nutritional status assessment and determination of needs. Letter grade only (A-F). (Seminar 3 hours.)

**531. Advanced Community Nutrition (3)**

Prerequisites: FCS 436 and 436L or 562; 461. Program planning and evaluation with emphasis on major nutrition-related public health problems. Students develop protocols for nutrition questionnaires, define a study sample and collect data. Skill development involves data analyses on computerized statistical packages, verbal and written communications. (Lecture-discussion 3 hours.) Letter grade only (A-F).

**532./432. Food Analysis (3)**

Prerequisites: CHEM. 327, FCS 332 or equivalent. Application of scientific methods of food analysis. Consideration of the manner in which such variables as ingredients, proportions, and techniques in food preparation affect the quality of products. Experimental laboratory problems. (Seminar 2 hours, Laboratory 3 hours.) Course fee may be required. Letter grade only (A-F).

**533. Recent Advances in Food Science (3)**

Prerequisites: FCS 432 or consent of instructor. New developments in food processing, techniques of food preservation and, chemical additives. Food and water sanitation. Methods of standardization, preservation, and evaluation of quality. Retention of nutritive value, flavor, appearance, and safety of foods. (Seminar 3 hours.) Letter grade only (A-F).

**535./435. Food Processing, Preservation and Packaging (3)**

Prerequisites: FCS 332 or consent of instructor. Methods and technological aspects in food processing, preservation and packaging. Application of principles and assessment of nutritional and physical qualities. Evaluation of chemical additives in food products. Microbiological aspects of food safety and food plant sanitation. (Lecture-discussion 2 hours, Laboratory 3 hours.)

**550. Cultural Bases of Textile and Apparel Design (3)**

Prerequisites: FCS 353, 450, 456, 457 or equivalents or consent of instructor. Factors influencing design and techniques of textile and apparel production in societies that create and use them. Symbolism of indigenous and adapted textile and clothing designs as a communicative device for expressing social and cultural values. May be repeated to a maximum of 6 units with assignments of increasing levels of difficulty. (Seminar 3 hours.) Letter grade only (A-F).

**559. Dress and Interpersonal Behavior (3)**

Prerequisites: Admission to the Fashion Merchandising and Design emphasis in the Family and Consumer Sciences graduate program or consent of instructor. Theories and methods of studying dress and interpersonal behavior. Theories and their relativity to dress include: social cognition, personal perception, self perception, attitudes and attitude changes, prejudice, interpersonal attraction, helping and hurting others, and social construction of gender. (Seminar 3 hours.) Letter grade only (A-F).

**561. Curriculum Development in Family and Consumer Sciences (3)**

Prerequisite: Field experience in Home Economics, Family and Consumer Sciences or a related area. Current philosophies and principles basic in the analysis and organization of curricular programs and materials. (Seminar 3 hours.) Letter grade only (A-F).

**562. Contemporary Issues in Nutrition (3)**

Prerequisite: FCS 436 or consent of instructor. Analysis of recent developments and current research in human nutrition. Topics include: nutrition through the life cycle; diet and dental health, athletic performance, human behavior, obesity, cancer; vegetarianism; practical application of scientific knowledge to diet management. (Seminar 3 hours.) Letter grade only (A-F).

**563. Evaluation in Family and Consumer Sciences and Gerontology (3)**

Prerequisites: Upper division or graduate course in statistics; FCS 696 (may be taken concurrently) or equivalent. Principles, design, and methods of program evaluation for use by Family and Consumer Sciences and Gerontology professionals. Selection and development of instrumentation for data collection and interpretation and methods of reporting. Letter grade only (A-F). (Seminar 3 hours). Same course as GERN 563.

**564./464. Sensory Analysis of Foods (3)**

Prerequisites: FCS 332, BIOL 260 or equivalent statistics; consent of instructor. Principles and methods of analysis of sensory attributes. Applications, advantages and limitations of sensory methods using trained judges and consumer panels. Computer use of statistical data analysis and plotting. Statistical analysis, data interpretation and comparison with previous literature. (Discussion 2 hours, Laboratory 3 hours.) Course fee may be required.

**566./466. Biochemical and Hormonal Adaptations to Physical Activity (3)**

Prerequisites: Upper-division undergraduate or Graduate standing; KPE 301 or equivalent; CHEM 111A or its equivalent. Consent of instructor required for upper-division undergraduate students prior to registration. Study of the biochemical and hormonal changes that occur as a result of acute and chronic physical activity. Emphasis will be placed on the application of concepts to the development of exercise training programs. Upper-division undergraduate students register in FCS 466; graduate students register in FCS 566. Letter grade only (A-F). Same course as KPE 566./466. (Seminar 3 hours.)

**573. Current Topics in Hospitality Foodservice and Hotel Management (3)**

Prerequisite: Graduate standing. A review and evaluation of recent developments and current issues in hospitality foodservice and hotel management. Topics related to operations management, customer service, human resource management, and strategic planning in the foodservice and lodging industries are examined. (Seminar, 3 hours.) Letter grade only (A-F).

**574./474. Cost Control in Hospitality Food Service and Hotel Management (3)**

Prerequisites: FCS 375 or consent of instructor. Financial management, including control of food, labor, supplies, equipment and other operational costs; principles and procedures used for controlling purchasing, receiving, storing, and issuing of food, beverage, and supplies; factors affecting quality and customer satisfaction; inventory and security management; utilization of computers in cost control; and analysis of financial reports in the hospitality food service and hotel industry. (Lecture - discussion 3 hours.) Course fee may be required.

**577./477. Foodservice Administration (3)**

Prerequisites: FCS 375 or consent of instructor, senior standing. Principles of organization and administration in commercial and non-commercial foodservice operations are explored. Includes food purchasing, receiving, storage, inventory control, marketing, organizational management, human resource management, productivity, financial management, and quality management as they are applied to the foodservice industry. Field trips required. Letter grade only (A-F). (Discussion 3 hours.)

**591A. Professional Practicum in Dietetics (11)**

Prerequisite: Admission to the American Dietetic Association (ADA) Dietetic Internship (DI) and consent of instructor. Supervised on-site practicum in selected field settings preparing the student to meet performance requirements to qualify for the dietetic registration examination. A total of 22 units of FCS 591A are required to complete the DI, with the maximum of 11 units per semester. Partial application toward the MS degree in Nutritional Science. May be repeated to a maximum of 22 units. Credit/No Credit grading only.

**591B. Seminar in Dietetic Practice (1)**

Concurrent enrollment in FCS 591A. Oral and written presentations, critical review of case studies and practices in the American Dietetic Association (ADA) Dietetic Internship (DI) field experience, FCS 591A Professional Practicum in Dietetics. A maximum of 2 units applicable to the M.S. degree in Nutritional Science. Letter grade only (A-F). May be repeated to a maximum of 2 units. (Seminar 1 hour.)

**592. Internship in Family and Consumer Sciences/ Gerontology (3)**

Prerequisites: Graduate standing and consent of instructor. Field experience in which student assumes a self directed responsible role in an agency, business or other community setting. May be repeated to a maximum of 6 units. Same course as GERN 592. (Seminar 3 hours.)

**597. Independent Study (1-3)**

Prerequisites: FCS 400 level course in area of study. Varied learning activities utilized to achieve competency related to family and consumer sciences not offered in regular course. Written report required. (Projects.)

**605. Seminar in Administration of Family and Consumer Sciences/Gerontology Programs (3)**

Prerequisites: FCS 696 or GERN 696 or consent of instructor. Application of administration, management and leadership theories to family and consumer sciences/gerontology programs. Concepts include structure of organizations, leadership styles, management techniques, methods of analyzing and evaluating business systems, management philosophies and performance evaluation procedures. Activities and assignments focus on organization theory, planning, decision making and control techniques, in relation to leadership and management skills needed for success as a family and consumer sciences/gerontology administrator. Same course as GERN 600. (Seminar 3 hours.)

**615A. Seminar in Child Development (3)**

Prerequisites: FCS 511 or 515, 696 or consent of instructor. Area of study will be announced in the *Schedule of Classes*. (Seminar 3 hours.) Letter grade only (A-F).

**635. Seminar in Food Science, Nutrition and Foodservice Systems Management (2)**

Prerequisite: Graduate standing. Presentation and description of advanced work in special fields of food science, nutrition therapy, foodservice systems management. Letter grade only (A-F). (Seminar 2 hours.)

**636. Nutrition and the Media (3)**

Prerequisites: Graduate standing, FCS 331A or equivalent. Students learn the basic skills for analyzing and communicating sound nutrition messages. Projects involve program planning to address major nutrition-related public health problems with community-based nutrition interventions using the media. Students translate nutrition research into messages to educate the public. (Lecture-activity 3 hours.) Letter grade only (A-F).

**655A. Literature Review and Research in Family and Consumer Sciences (3)**

Prerequisites: ED P 419. Critical analyses of the current professional literature, theory, practice and research. The research process including conceptualization of the problem, literature search and review. The legal and ethical aspects of research are stressed. (Seminar 3 hours) Letter grade only (A-F).

**655B. Apparel Product Development (3)**

Prerequisites: ED P 419, FCS 655A and 696. An introduction to the research and strategies needed to develop apparel products and services for culturally diverse consumer markets. (Seminar 3 hours.)

**692. Directed Project (1-4)**

Prerequisite: FCS 697. Students will acquire experiential skills at a potential employment setting such as a government agency, clinical/research institution or an industry site. The student will work directly under the guidance of an approved supervisor/preceptor at the site in conjunction with a faculty advisor. The student's practical experience will be directed toward identifying and solving problems or conducting research or designing, implementing, and assessing programs or recommending potential courses of action. Letter grade only (A-F).

**696. Research Methods (3)**

Prerequisite: Upper-division course in statistics. Methodological approaches to contemporary research issues in Family and Consumer Sciences. This course focuses on the design, development, and implementation of research projects. The course encompasses the tools and techniques of research and their application in the development of a formal research design. Topics covered include the scientific method, design and testing, qualitative and quantitative methods, survey research, data collection and analysis, research reporting and presentation. Required of all master's degree candidates in Family and Consumer Sciences and Gerontology. Letter grade only (A-F). (Seminar 3 hours.) Same course as GERN 696.

**697. Directed Research (3)**

Prerequisites: Advancement to candidacy. Student works under direct faculty supervision to complete a proposal for the thesis or directed project (thesis). Letter grade only (A-F).

**698. Thesis (1-4)**

Prerequisites: Advancement to candidacy, approval of department graduate committee. Planning, preparation and completion of a thesis related to the family and consumer sciences field. (Thesis)

**F**ilm and Electronic Arts is an innovative academic program which emphasizes both professional education and liberal arts, both theory and practice. Focusing upon the integration of media and the arts in our information society, as well as upon the impact of technology on our culture and the media themselves, the curriculum is designed to provide technical skills while developing a sound foundation in the arts and the humanities.

The faculty includes a diversity of expertise and interests which cross traditional media lines, resulting in ongoing discussion and experimentation while integrating the traditional film, audio, and video production modes. Theory and aesthetics are taught as an integral part of the development of production skills. Part-time lecturers include a variety of highly-qualified Los Angeles area media professionals.

### Admission Under Impaction

Applications to the major in Film and Electronic Arts exceed the number that can be accommodated by the Department's facilities and resources; therefore, this program has been designated Impacted by the California State University.

### Admission Requirements

To be eligible for admission to the major in Film and Electronic Arts, applicants must demonstrate the following prior to the semester for which the application is submitted: Applicants must have met requirements for admission to the university as a freshman or transfer student. Applicants must have a minimum grade point average of 3.0. The number of

applicants who can be admitted is limited by space availability. Eligible applicants will be selected for admission for admission based on cumulative grade point average.

Transfer students must apply to the University during the initial filing periods for fall or spring semesters.

Currently enrolled students who meet the requirements listed above must submit an Admission to the Upper-Division Major form to the Film and Electronic Arts Department by February 1 for the fall semester or October 1 for the spring semester.

### Supplemental Screening Criteria

1. During the first semester as a declared major, students must complete FEA 399 with a grade of "B" or higher. Students receiving a "C" in FEA 399 are allowed to retake the course once for purposes only of admission into the major. The "C" grade will remain in effect and no credit will be gained by taking the course twice. It will allow the student, however, to have a second chance for admission into the major if he/she is able to obtain a "B" or higher on the second try. A student receiving a "D," "F," "WU," or "U" in FEA 399 the first time will no longer be eligible for admission to the major, but will be allowed to repeat/delete that grade per university policy.
2. Students must also fulfill the Graduation Writing Assessment Requirement (GWAR) by the end of the semester in which FEA 399 is completed.

Students who fail to meet either of the supplemental screening criteria may not continue in the major and may re-apply only once in accordance with University policy regarding impacted majors.

### Bachelor of Arts Film and Electronic Arts

Two B.A. degree options are offered by the department: one in Film and Electronic Media (code FEA\_BA01) and one in Film and Video Production (code FEA\_BA02). Students in both options must complete all requirements, pre-requisites, and electives in residence at the upper division level.

#### Option in Film and Electronic Media (code FEA\_BA01) (120 units)

51 units required for the major.

Students are admitted to this option by virtue of meeting the Admission Requirements and Supplemental Screening Criteria listed above.

#### Requirements

1. Major screening course: FEA 399 with a "B" or better
2. Media Studies Core: FEA 300, 302, and 314
3. Media Practice Core (choose two courses from one of the following tracks for a total of 6 units):
  - A. *Management*: FEA 327, 373, 376, 420
  - B. *Writing*: FEA 303, 304, 404, 408
  - C. *Production*: FEA 307, 320, 337, 403
4. Culture, Media, and Politics (choose 3): FEA 310, 317, 318I, 380, 394, 412, 486I

5. International Media (choose 3): FEA 363, 364, 392A, 392B, 392C, 392D; only one of the following may be used to meet this requirement: FEA 454/ITAL 454, FEA 456/FREN 456, RUSS 428, SPAN 428
6. Electives: This requirement can be met with a sequence of elective courses in FEA. With prior advisor approval, certain non-FEA courses may be counted toward this requirement.
7. Senior Theory Course (choose 1): FEA 401, 402 or 430

**FAQ Concerning Road Maps for Completion of Undergraduate Degrees**

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

**I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?**

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

**Must I take the courses in the semesters shown on the plan?**

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

- 1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.
- 2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.
- 3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).
- 4) You must complete all requirements for admission to impacted majors within the first 60 units.

**I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?**

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

**I didn't complete the exact list of courses shown. Can I still graduate on time?**

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements: they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

**If I follow the plan, will I have all requirements for graduation completed?**

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

## Option in Film and Video Production (code FEA\_BA02) (120 units)

51 units required for the major.

Students meeting the requirements for admission to the major (completion of 56 units, including undergraduate GE requirements with a 3.0 average) may apply for admission into the production option by presenting a portfolio to the department during the second semester of their sophomore year or after. Admission to the option will be in Fall Semester only. Portfolios will be comprised of 1) a statement of purpose, 2) a critical analysis of a film or television show, 3) a sample of creative work (either writing, visual art or a short film or video) and 4) two letters of recommendation. After a favorable evaluation of the portfolio, prospective students are interviewed by FEA faculty to determine whether or not they will be admitted. Although a transfer student may apply to the FEA production option prior to learning whether or not they have been admitted to the university, they cannot be accepted into the option until they have been officially admitted to the university. The Film and Electronic Arts Department is not involved in the university admissions process.

Students admitted to this option are required to maintain a minimum 3.0 GPA average in all major course work in order to retain their place in the option. There is no probation period for students who fall below this minimum GPA. Students admitted to the option are also required to abide by the rules and regulations as specified in the FEA Department's *Policies and Procedures* handbook, which is available for purchase at the University Bookstore.

Junior Year Requirements: Take the following courses in the following sequence:

1. Fall Semester of Junior Year: FEA 399, 303, 309, 344, 415
2. Spring Semester of Junior Year:  
FEA 300 (may be taken prior to admission to the major);  
302; 304; 336

Senior Year Requirements:

3. Senior year students must select a two-semester track of specialization from the five available Tracks. (The Narrative Production Track is subject to a competitive admissions process based on a script submitted in the spring semester of the junior year by the student seeking admission.)

- A. Narrative Film Production: Fall: FEA 340;  
Spring: FEA 342
- B. Documentary Film Production: Fall: FEA 380, 381;  
Spring: FEA 382
- C. Cinematography: Fall: FEA 341; Spring: FEA 343
- D. Screenwriting: Fall: FEA 404; Spring: FEA 404
- E. Audio: Fall: FEA 307; Spring: FEA 320

Students work collaboratively across tracks and with students in the Film and Electronic Media Option to produce films for end of the year showcases.

In addition to choosing a two-semester track of specialization, students in their senior year complete the following requirements:

4. Culture, Media, and Politics (Choose two. Students in the Documentary Track chose one, in addition to FEA 380 which is required in that track.): FEA 310, 317, 318I, 380, 394, 412, 486I
5. International Media (All students choose two.): FEA 363, 364, 392A, 392B, 392C, 392D  
Only one of the following may be used to meet this requirement: FEA 454/ITAL 454 (Italian Cinema), FEA 456/FREN 456 (French Cinema), RUSS 428 (Russian Cinema), or SPAN 428 (Spanish Cinema)  
Production Courses. (Choose two production electives or enroll in a second track of specialization to complete this requirement.)
6. Production Electives (single track majors choose 2): FEA 307, 314, 320, 327, 337, 381, 403, 404, 405, 408, 492  
Note: Students in the Writing Track are encouraged to take FEA 403 and 405 to complete their production course requirements.

### FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

#### I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

#### Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

#### I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

#### I didn't complete the exact list of courses shown. Can I still graduate on time?

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

#### If I follow the plan, will I have all requirements for graduation completed?

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

## Courses (FEA)

### Upper Division

#### 300. History of Media (3)

Prerequisites: Completion of 13-unit General Education Foundation requirements. The development of film and electronic media in the United States. Letter grade only (A-F).

#### 302. Critical Study of Film (3)

Prerequisites: Major status, FEA 399 with "B" or better and fulfillment of the GEAR, or consent of instructor. Introduction to classical and critical theories of film analysis including Realism, Formalism, Classical Hollywood Cinema, Auteur Theory, the Art Film, and Structuralism. Letter grade only (A-F).

#### 303. Film and Electronic Media Writing (3)

Prerequisites: Major status, FEA 399 with "B" or better and fulfillment of the GEAR, or consent of instructor. Study of scripting and other writing skills unique to audio, video, and film. (Lecture-Discussion 3 hours) Letter grade only (A-F).

#### 304. Writing the Short Script (3)

Prerequisites: Major status, FEA 399 with "B" or better and fulfillment of the GEAR, or consent of instructor. For students in the Option in Film and Video Production must be taken concurrently with FEA 336. Scriptwriting with emphasis on adaptation and dramatic fiction. Letter grade only (A-F).

#### 305. Film History (3)

Prerequisites: Major status, FEA 399 with "B" or better and fulfillment of the GEAR, or consent of instructor. Historical development of the motion picture. Letter grade only (A-F).

#### 307. Audio Production (3)

Prerequisites: Major status, FEA 399 with "B" or better and fulfillment of the GEAR, or consent of instructor. Basic principles and techniques of audio production. (Act 4 hrs to be arr.) Letter grade only (A-F).

### 309. Cinematography (3)

Prerequisite: Admission to Option in Film/Video Production. Basic principles of cinematography and lighting. (9 Hours laboratory.) Letter grade only (A-F).

### 310. Media and Culture (3)

Prerequisites: Completion of 13-unit General Education Foundation requirement. An exploration of the ways that media create, pattern, shape, reinforce and/or change culture. A variety of viewpoints, derived from contemporary critical and cultural studies, highlight the relationship between and culture and its images.

### 312. Television Programming Symposium (3)

Discussion and analysis of creative problems in the television industry. Current local and network programs. Interviews with visiting executives, producers, directors, writers, performers and technicians. May be repeated to a maximum of 6 units, only 3 units may be used as credit toward major.

### 313. New Technologies in Film and Electronic Media (3)

Prerequisites: FEA 300. Study of developing technologies in film and electronic media production, distribution, and exhibition. Focus on economic, social, and policy issues raised by technological innovation and the impact of new technology on the industry. Letter grade only (A-F).

### 314. Theatrical Film Symposium (3)

Lectures and discussions of creative problems in the motion picture industry; current films; interviews with visiting producers, directors, writers, performers and technicians. May be repeated to a maximum of 6 units, only 3 units may be used toward the major.

### 316. Mass Media and Society (3)

Prerequisite: Completion of 13-unit General Education Foundation requirement. Theory and functions of the mass media in America. Enduring issues and unresolved problems of the media. Impact of mass culture on a mass-mediated society. G. E. credit only. Does not count toward units in the major.

### 317. Women in the History of U.S. Film (3)

History of women as they are represented, presented as images, or constructed in the development of U.S. film. Theory and analysis of film from a feminist perspective. Same course as W/ST 316.

### 318I. Theory of Fiction and Film (3)

Prerequisites: Completion of the G.E. Foundation, one or more Explorations courses, and upper-division standing. Examination of the narrative methods and conventions of American and British fiction and the methods and conventions of film; consideration of the relationships between the artistic structure of fiction and film; study of theoretical and practical approaches to fiction and film. Same course as ENGL 318I.

### 320. Sound Design (3)

Prerequisites: Major status. Examination of the basic aesthetic and technical principles of sound design for film and video production. Letter grade only (A-F).

### 325. Audio Activity (2)

Prerequisites: Major status, FEA 399 with "B" or better and fulfillment of the GEAR, or consent of instructor. Group and individual experience in audio production. Specific assignments determined in consultation with instructor. (80 Activity hours to be arranged.) May be repeated to a maximum of 4 units in different semesters. Credit/No Credit grading only.

### 327. Production Management (3)

Prerequisites: Major status, FEA 399 with "B" or better and fulfillment of the GEAR, or consent of instructor. Examination of the step-by-step process of budgeting and scheduling feature length motion pictures. Students will learn methods and procedures of breaking down a script, analyzing production elements, preparing a production board, scheduling principal photography, and preparing a comprehensive budget. (Lecture 3 hours; activity hours to be arranged.) Letter grade only (A-F).

### 328. Film and Video Lighting (3)

Prerequisites: FEA 309. Priority enrollment given to students in Film/Video Production Option. Examination of the basic aesthetic and technical principles of film and video lighting. Students will explore various creative lighting styles and techniques through lectures and practical exercises. Letter grade only (A-F).

### 335. University Television Activity (2)

Prerequisites: Consent of instructor. Experience in administration and production of video projects at the University Television facility. (Activity hours to be arranged.) May be repeated to a maximum of 4 units. Credit/No Credit grading only.

### 336. Beginning Film/Video Production (3)

Prerequisite: Admission to Option in Film/Video Production. Preparation for the advanced level of film and video production through research and exercises designed to develop essential filmmaking and videographic skills. (Production laboratory 9 hours.) Letter grade only (A-F). Course fee may be required.

### 337. Digital Arts Production (3)

Prerequisite: Major status or consent of instructor. This course is designed to further students' understanding of the techniques and concepts involved in the production of visual effects, computer animation, and interactive media. Through screenings, fieldtrips and hands-on production, students will explore the art and science of digital graphics, 2D compositing, and 3D animation. This exploration will culminate in the development of digital elements for a student production. May be repeated to a maximum of 6 units in different semesters. Letter grade only (A-F).

### 340. Advanced Film/Video Production (3)

Prerequisites: FEA 336 and approved enrollment in Advanced Narrative Production Track. Experience in the group production of original films and videos. Emphasis is on narrative short projects. Students are required to collaborate with the advanced cinematography students in FEA 341. (Production laboratory 9 hours.) Letter grade only (A-F). Course fee required.

### 341. Advanced Cinematography I (3)

Prerequisites: FEA 336 and approved enrollment in Advanced Cinematography Track. This course is designed to further the student's understanding of the art and craft of cinematography, especially lighting, exposure, composition, lenses, film stocks, video formats, filters, telecine and lab procedures. Students are required to shoot and crew on the advanced narrative projects produced in FEA 340. Letter grade only (A-F).

### 342. Advanced Film/Video Production II (3)

Prerequisites: FEA 340 and approved enrollment in Advanced Narrative Production Track. Experience in the post production and completion of original films and videos resulting in public exhibition. Emphasis is on picture editing. (Laboratory 9 hours.) Letter grade only (A-F). Course fee required.

### 343. Advanced Cinematography II (3)

Prerequisites: FEA 341 and approved enrollment in Advanced Cinematography Track. This course is designed to further the student's understanding of the art and craft of cinematography. Emphasis is on individual research into specific issues of film and video image making and the production of short film and video projects in support of that research. Letter grade only (A-F).

### 344. Directing (3)

Prerequisite: Admission to the Option in Film/Video Production. Theory and practical experience in the directing of narrative film. Emphasis on directing actors in fictional work. (Activity hours to be arranged.) Letter grade only (A-F).

### 355. Audio-Video-Film Activity (1)

Prerequisites: Major status, FEA 399 with "B" or better and fulfillment of the GEAR, or consent of instructor. Group and individual experience in areas of audio-video-film production, and broadcast education. Specific assignments determined in consultation with instructor. (Activity hours to be arranged.) May be repeated to a maximum of 2 units. Credit/No Credit grading only.

### 363. International Electronic Media Systems (3)

Prerequisites: FEA 300 or consent of instructor. Comparative analysis of internal and external electronic media systems with emphasis on their motives, origins, technologies, and programming. Consideration of political, economic, regulatory constraints, and the potential impact of new technologies. Letter grade only (A-F).

### 364. Global Electronic Media Communication (3)

Prerequisites: FEA 300 or consent of instructor. Study of international electronic media systems targeted toward other nations with emphasis on their cultural, economic, and political influences. Focus on the impact of new technologies on such cross border communication in the future. Letter grade only (A-F).

### 373. Electronic Media Programming (3)

Prerequisites: FEA 300 or consent of instructor. Principles and practices of programming for electronic media networks, television and radio stations, and local cable systems. Analysis of the relationship between programming, promotion, and profit. Letter grade only (A-F).

### 376. Film and Electronic Media Sales and Promotion (3)

Prerequisites: Major status, FEA 399 with "B" or better and fulfillment of the GVAR, or consent of instructor. Study of marketing, promotion, and sales among film distributors, production companies, program suppliers, broadcast networks, cable systems, local radio, television, and cable operators. Theory and application of media research principles, promotion strategies. Development of selling skills. Letter grade only (A-F).

### 380. Documentary History and Theory (3)

Prerequisites: FEA 300 and 302 or consent of instructor. A critical study of the history, methods, and aesthetics of documentary media production. A specific focus on problems of representation, objectivity, and personal style in both theory and practice. Course fee may be required. Letter grade only (A-F).

### 381. Directing the Documentary (3)

Prerequisite: FEA 336; Corequisite: FEA 380. An exploration of the theory and practice of documentary filmmaking. Emphasis on the relationship between documentary and fiction film. The production requirement will include shooting and editing a 5-10 minute documentary film/video. Letter grade only (A-F). (Laboratory 9 hours)

### 382. Documentary Digital Video Production (3)

Prerequisites: FEA 309 with a grade of "B" or better and FEA 380 (may be taken concurrently). Theory and practice of directing, shooting, and editing video documentaries and experimental video using digital video and post-production technology. Letter grade only (A-F). (9 laboratory hours)

### 392. International Cinema (3)

Prerequisites: FEA 300 and 302, or consent of instructor. Variable topics course which explores the domain of international cinema. May be repeated to a maximum of 6 units with different topics. Topics will be announced in the *Schedule of Classes*. Course fee may be required.

- A. European Cinema 1930-1960
- B. European Cinema 1960-1990
- C. Hispanic Cinema of the Americas  
Same course as SPAN 455
- D. Japanese Cinema
- E. Spanish Cinema  
Same course as SPAN 428

### 394. American Film Genres (3)

Prerequisites: FEA 300 and 302 or consent of instructor. Historical and critical examination of Hollywood film genres. Places genre analysis and theory within a sociocultural perspective including issues of gender and ethnicity. Genres to be covered include the Western, film noir, science fiction/horror, detective/gangster, the musical, war films, screwball comedy, and family melodrama. May be repeated to a maximum of 6 units with different topics in different semesters. Letter grade only (A-F).

### 399. Media Aesthetics (3)

Prerequisite: Major status. Study of aesthetic principles governing media productions. Emphasis on relationships between various art forms and development of critical vocabulary. Students must achieve a grade of "B" or better in order to maintain status as a major. Students receiving a "C" in FEA 399 may retake the course once for purposes only of admission into the major. The "C" grade will remain in effect and no credit will be gained by taking the course twice. It will allow the student, however, to have a second chance for admission into the major if he/she is able to obtain a "B" or higher on the second try. This policy applies retroactively to Fall 2000 to students who have taken the course once and received a "C". A student receiving a "D", "F", or "U" in FEA 399 the first time is not eligible for admission to the major, but will be allowed to repeat/delete that grade per university policy. Letter grade only (A-F).

### 401./501. Film Critical Theory (3)

Prerequisites: FEA 300 and 302 or consent of instructor. Study of contemporary theoretical models of film analysis and evaluation. Topics include: Structuralism, Feminism, Psychoanalytic Theory, Narratology, Cultural Studies, Postcolonialism, Queer Theory, and Post-modernism. Course fee may be required. Letter grade only (A-F).

### 402. TV Critical Theory (3)

Prerequisites: FEA 300 and 310 or consent of instructor. Examines television from an aesthetic and textual perspective. Specific interests include the distinctive ways that television produces its meanings, as well as the ways that critical analysis differs from quantitative mass communications approaches. Topics to be covered include semiotics, postmodernism, and feminism, as well as narrative, ideological, and psychoanalytic theories of criticism. Letter grade only (A-F).

### 403. Diverse Media: Writing and Production (3)

Prerequisites: Major status or consent of instructor. Advanced seminar and workshop in professional writing and production of projects in film, television, theatre, and diverse media. Working as a group, students will develop, write, produce, and exhibit creative works for both university and entertainment industry venues. This course provides a professional production experience covering various genres and formats, with projects varying from semester to semester. Students will learn professional writing and production, but will emphasize the roles of greatest personal interest. Letter grade only (A-F). May be repeated to a maximum of 6 units in different semesters.

### 404. Advanced Scriptwriting for Film and Electronic Media (3)

Prerequisites: FEA 303 or 304 with a "B" or better, or ENGL 405 or 407 with a "B" or better, or consent of instructor. Writing dramatic and comedic screenplays and teleplays. Includes study of produced models with emphasis on the creative process. May be repeated to a maximum of 6 units. Letter grade only (A-F).

### 405./505. Comedy Writing (3)

Prerequisites: FEA 303 or 304 with a "B" or better, or ENGL 405 or 407 with a "B" or better, or consent of instructor. Study of a variety of historical and contemporary models. Practice in the creation of print pieces; stand-up routines; scripts for television, film, and other media. Heavy focus on comedy as social, political, and technological criticism. Letter grade only (A-F).

**408/508. Writing the Screen Adaptation (3)**

Prerequisites: FEA 303 or 304 with a "B" or better, or ENGL 405 or 407 with a "B" or better, approval of the MFA (Screenwriting) Coordinators and Full Classified Status in the MFA (Screenwriting) Degree Program or Conditional of Classified Status or Full Status in the MFA (Creative Writing) Degree Program, or consent of instructor. Writing script adaptations, with a study of adaptation theory and successful adaptational models. Letter grade only (A-F). May be repeated to a maximum of 6 units. Same course as ENGL 408.

**412./512. American Television and African Americans (3)**

Prerequisites: FEA 300 and 310 or consent of instructor. Comparative examination of the depiction of African Americans in American network and syndicated television in a variety of types of programs. Letter grade only (A-F).

**415. Electronic Editing (3)**

Prerequisites: Admission to the Option in Film/Video Production or consent of instructor. Principles of non-linear editing in post-production. Letter grade only (A-F).

**420. Electronic Media: Labor and Management (3)**

Prerequisites: Major status, FEA 399 with "B" or better and fulfillment of the GWAR, and at least 12 units completed in the major, or consent of instructor. Study of management and labor in the changing field of telecommunications, with emphasis upon the manager's roles and functions in the labor intensive cable, film, radio, television and related industries. Letter grade only (A-F).

**430. Government Media Policy and Politics (3)**

Prerequisites: FEA 300 and 310 and additional 6 units in the major. Current issues, policies, and regulations affecting the cable, film, radio, television industries, including the impact of new technologies. Letter grade only (A-F).

**454. Italian Cinema (3)**

Historical and critical examination of Italian cinema. Letter grade only (A-F). Same course as ITAL 454.

**456. French Cinema (3)**

Historical and critical examination of French cinema. Letter grade only (A-F). Same course as FREN 456.

**457. Between Berlin and Hollywood: German Cinema (3)**

Acquaint students with the art of the medium, particularly as it is realized through the artist most responsible for its success or failure, in this case the director. Letter grade only (A-F). Same course as GERM 480.

**458. Russian Cinema (3)**

Prerequisites: Upper division standing. This course will focus on the socio-political and aesthetic aspects of Russian Cinema, delineating the following periods: Soviet Silent Cinema, Stalinist Cinema, Cinema under the Thaw, Cinema under Brezhnev and contemporary cinema. Letter grade only (A-F). Same course as RUSS 428.

**486I. Alternative Media (3)**

Prerequisites: Completion of the G.E. Foundation, one or more Explorations courses, and upper-division standing. Critical study of censorship and suppression of information in mainstream media by governmental and corporate entities. Focus on the importance of freedom of information and access to diverse viewpoints. Students select and research environmental, multicultural, peace, and other issues utilizing alternative media.

**490./590. Special Topics in Film and Electronic Arts (3)**

Major status or Conditional Classified Status in the MFA (Screenwriting) Degree Program or Conditional Classified or Full Status in the MFA (Creative Writing) Degree Program, or consent of instructor. Topics of current interest in radio-television-film selected for intensive development. May be repeated to a maximum of 9 units with different topics; only 6 units may be applied toward the B.A. Topics will be announced in the *Schedule of Classes*. Letter grade only (A-F).

**492. Internship (3)**

Prerequisites: Senior standing in major or consent of instructor. Students intern with cooperating media facilities. May be repeated to a maximum of 6 units. Credit/No Credit grading only.

**498./598. Advanced Seminar (3)**

Prerequisites: FEA 399 with a "B" or better and fulfillment of the GWAR, and senior standing in the FEA major, or Conditional Classified Status in the MFA (Screenwriting) Degree Program or Conditional Classified or Full Status in the MFA (Creative Writing) Degree Program, or consent of instructor. Intensive study of significant issues in film and electronic media. Letter grade only (A-F).

**499./599. Special Projects in Film and Electronic Arts (1-3)**

Prerequisites: Major status, FEA 399 with a "B" or better and fulfillment of the GWAR, or Conditional Classified Status in the MFA (Screenwriting) Degree Program or Conditional Classified or Full Status in the MFA (Creative Writing) Degree Program, or consent of instructor. Research into an area of special interest to the student, culminating in a research paper or production. Productions will be limited by equipment and facilities available during any term.

**Graduate Level****501./401. Film Critical Theory (3)**

Prerequisites: FEA 302 and 406/506 completed and an additional six units in film studies or consent of instructor. Study of contemporary theoretical models of film analysis and evaluation. Topics include: Structuralism, Feminism, Psychoanalytic Theory, Narratology, Cultural Studies, Postcolonialism, Queer Theory, and Postmodernism. Letter grade only (A-F).

**505./405. Comedy Writing (3)**

Prerequisites: FEA 303 or 304 with a "B" or better, or ENGL 405 or 407 with a "B" or better, or consent of instructor. Study of a variety of historical and contemporary models. Practice in the creation of print pieces; stand-up routines; scripts for television, film, and other media. Heavy focus on comedy as social, political, and technological criticism. Letter grade only (A-F).

**508./408. Writing the Screen Adaptation (3)**

Prerequisites: FEA 303 or 304 with a "B" or better, or ENGL 405 or 407 with a "B" or better, approval of the MFA (Screenwriting) Coordinators and Full Classified Status in the MFA (Screenwriting) Degree Program or Conditional of Classified Status or Full Status in the MFA (Creative Writing) Degree Program, or consent of instructor. Writing script adaptations, with a study of adaptation theory and successful adaptational models. Letter grade only (A-F). May be repeated to a maximum of 6 units.

**512./412. American Television and African Americans (3)**

Prerequisites: Major status, FEA 399 with a "B" or better and fulfillment of the GWAR, or consent of instructor. Comparative examination of the depiction of African Americans in American network and syndicated television in a variety of types of programs. Letter grade only (A-F).

**590./490 Special Topics in Film and Electronic Arts (3)**

Prerequisites: Major status or Conditional Classified Status in the MFA (Screenwriting) Degree Program or Conditional Classified or Full Status in the MFA (Creative Writing) Degree Program, or consent of instructor. Topics of current interest in film and electronic arts selected for intensive development. May be repeated for a maximum of 9 units with different topics. Only 6 units may be applied toward the B.A. Topics will be announced in the *Schedule of Classes*. Letter grade only (A-F).

**598./498 Advanced Seminar (3)**

Prerequisites: FEA 399 with a "B" or better and fulfillment of the GWAR, and senior standing in the FEA major, or Conditional Classified Status in the MFA (Screenwriting) Degree Program or Conditional Classified or Full Status in the MFA (Creative Writing) Degree Program, or consent of instructor. Intensive study of significant issues in film and electronic arts. Letter grade only (A-F).

**599./499. Special Projects in Film and Electronic Arts (3)**

Prerequisites: Major status, FEA 399 with a "B" or better and fulfillment of the GVAR, or Conditional Classified Status in the MFA (Screenwriting) Degree Program or Conditional Classified or Full Status in the MFA (Creative Writing) Degree Program, or consent of instructor. Research into an area of special interest to the student, culminating in a research paper or production. Productions will be limited by equipment and facilities available during any term.

**604A. Advanced Seminar in Screenwriting (3)**

Open to graduate students only and consent of instructor. Advanced seminar and intensive workshop in creative writing, reading, criticism, media history, and aesthetics. From a thematic basis, the course covers prose, poetry, and all formats and genres of omnimedia, leading students from text-for-print creativity to text-for-performance and screen/film/video art. Letter grade only (A-F).

**604B. Advanced Seminar in Screenwriting (3)**

Prerequisites: FEA 604A and consent of instructor. Advanced workshop in intensive thematic and creative consciousness, writing, criticism, media history, aesthetics, and instructional paradigms, as students write, workshop, revise, and complete a long-form screenplay. Letter grade only (A-F).

**604C. Advanced Seminar in Screenwriting (3)**

Prerequisites: FEA 604A and 604B, or consent of instructor. Advanced workshop in intensive and practical creative writing for collaborative media. A long-form screenplay is developed and drafted to completion by the class as a group, then submitted to industry professionals, and finally revised pursuant to creative commentary and business necessity. Letter grade only (A-F).

**604D. Advanced Seminar in Screenwriting (3)**

Prerequisites: FEA 604A, 604B, 604C, and consent of instructor. Advanced seminar and intensive workshop in creative writing, reading, criticism, media history, aesthetics, and the teaching of a creative writing curriculum. The course leads students to completion of their Thesis Project Proposals. Letter grade only (A-F).

Clyde D. Stollenberg

#### Associate Professors

Paul Frantz

Jasmine Yur-Austin

#### Assistant Professor

Peter Ammermann

#### Administrative Support Coordinator

Clara Bowman

For all degree requirements see Business Administration.

## Courses (FIN)

### Lower Division

#### 220. Introduction to Law and Business Transactions (3)

Introduction to law and the American legal system in today's business world. Special emphasis is given to contracts, sales, and commercial paper. An examination of the role and function of the judiciary, elements of civil and criminal lawsuits, and other emerging areas of the law, including alternative dispute resolution. Letter grade only (A-F).

### Upper Division

#### 300. Business Finance (3)

Prerequisite: IS 310 can be taken concurrently. An introductory course for all business majors, integrating computer applications and management information systems in the following areas of finance: (1) Time Value of Money, Risk, Valuation, Cost of Capital, Capital Structure; (2) Capital Budgeting; (3) Long-Term Financing Decisions; (4) Working Capital Policy and Management; (5) Financial Analysis and Planning; (6) Special topics including; Mergers, Bankruptcy, and International Finance. Letter grade only (A-F).

#### 309I. The Consumer in the Legal and Economic Environment (3)

Prerequisites: Completion of the G.E. Foundation, one or more Explorations courses: upper-division standing. Combines the economic and ethical components of consumer issues with a critical analysis of relevant substantive aspects of consumer law. Incorporates an integrated coverage of the economic, legal

and regulatory environment of consumers in avoiding and resolving disputes regarding fraudulent transactions, financial matters, personal and real property contracts, torts, credit and investment issues, and family relationships. Team taught. Same as FCS 309I. (Lecture-Discussion 3 hours.)

#### 310. Personal Finance (3)

Financial analysis planning and management for the individual. Topics include owning and financing a home, minimizing taxes, investing – goals and strategies, budgeting to match income and expenses, developing a savings plan, controlling expenses and credit usage, determining life, health, home and auto insurance needs, planning retirement. Letter grade only (A-F).

#### 320. Legal and Regulatory Environment of Business (3)

Prerequisite: FIN 220. An examination of the forms of business organizations, employment law, securities law, environmental law, anti-trust issues, and international transactions. A consideration of the social, cultural and economic influences on domestic and multinational corporations. Exploration of the relationship of government to business. Introduction to business ethics. Letter grade only (A-F).

#### 330. Insurance Principles (3)

Principles of risk-bearing and insurance; life and property-liability insurance needs of the individual. Types of carriers and insurance markets; organization and functions of carriers; industry regulation. Letter grade only (A-F).

#### 340. Real Estate Principles (3)

Overview of real estate markets, institutions and activities from the perspective of the decision makers involved in real estate development, financing and equity investment. The fundamental physical, legal, regulatory, economic, mathematical and taxation considerations influencing real estate decision and values are investigated. The real estate decision support areas of brokerage, property management, appraisal and counseling are examined. Letter grade only (A-F).

#### 350. Investment Principles (3)

Prerequisite: FIN 300. Investment markets and transactions; sources of investment information and advice; return vs. risk; margin trading and short selling; investment planning; investing in equities and fixed income securities; speculative tax-sheltered investments; gold and other tangibles; portfolio management. Demonstrations and use of microcomputer technology in the above areas, including accessing various databases available to the investor. Letter grade only (A-F).

#### 360. Capital Markets (3)

Prerequisite: FIN 300. Capital formation, rates, markets and institutions. Flow of fund analysis, intermediation, interest rate structures, risks and liquidity. Management of financial institutions.

#### 400. Financial Management (3)

Prerequisites: FIN 300 and ACCT 310 or 320, IS 301. An intermediate level course in financial management integrating computer applications and management information systems into the area of financial functions and decisions. The course is primarily a case study and requires use of the computer and appropriate software. The main areas of concentration are: cash budgeting, capital budgeting, business combinations and mergers, cost of capital, and international finance. Letter grade only (A-F).

#### 424. International Legal Environment of Business (3)

Prerequisite: FIN 320, IS 301. Study of the global environment in which international managers and investors function. Topics will include the form in which international businesses operate, such as subsidiaries and joint ventures, along with a discussion of how business operations are affected by treaties, and by the laws and policies of the several governments involved. Also, included are resolution of business and investment disputes, protection of property rights, the financing and taxing of international operations, and ethical responsibility issues. Letter grade only (A-F).

#### 425. Legal Aspects of Real Estate (3)

Prerequisite: FIN 340, IS 301. Basic principles of law of real estate as related to conveyances, titles, private and public restrictions on the use of land, escrows, community property and financial transactions. Letter grade only (A-F).

#### 450. Security Analysis (3)

Prerequisite: FIN 350, IS 301. Use of microcomputer technology to perform security analysis including bonds and the bond market, stocks and the stock market, security valuation, fundamental and technical analysis, portfolio management and risk-reward relationships. A review of the various microcomputer software programs available to perform all aspects of security analysis and portfolio management, including accessing and utilization of the numerous databases available to the investment analyst. Letter grade only (A-F).

#### 480. Derivatives and Futures Markets (3)

Prerequisites: FIN 300 and 350, IS 301. The study of futures markets includes an analysis of the exchanges, the operation of member firms, the mechanics of trading, the construction of a personal-risk profile analysis and the discussion of traditional decision variables, including the construction of a 2-asset portfolio. Included is a solid theoretical examination of the question of bias in futures prices, the theory of the price of storage, ledger and speculator behavior, and the stochastic nature of the futures prices. Letter grade only (A-F).

#### 490. International Finance (3)

Prerequisite: FIN 300; suggested, CBA 300; IS 301. International trade theories, international payments; currency value fluctuations and exchange rates; international capital markets; roles of developing countries; international institutions and multi-national enterprises. Individual research required.

#### 495. Selected Topics (1-3)

Prerequisite: Consent of instructor, IS 301. Topics of current interest in finance selected for intensive study. May be repeated to a maximum of 6 units. Topics will be announced in the *Schedule of Classes*.

#### 497. Directed Studies (1-3)

Prerequisites: Consent of instructor and Department Chair, on Dean's List and 3.0 GPA or higher in finance. Individual projects, study and research of advanced nature in finance.

#### 499A-B. Applied Portfolio Management (3-3)

Prerequisites: FIN 499A: FIN 350, 400, 450 (either or both FIN 400 and 450 may be taken concurrently), and consent of instructor and Department Chair, IS 301; FIN 499B: FIN 499A and consent of instructor and Department Chair. FIN 499A to be offered in Fall and accepted students must enroll in FIN 499B in Spring. Participation in the management of an actual investment portfolio. Research, monitor, and analyze securities and make buy and sell recommendations for a student-managed investment fund utilizing state-of-the-art computer software and on-line information data retrieval services. Contribute to the publication of a semi-annual report of the activities of the fund. Market, sector and firm analysis with individual and group presentations and outside research required. Letter grade only (A-F).

#### Graduate Prerequisite Course

#### 520. Legal, Regulatory, and Ethical Environment of Business (3)

Prerequisite: MBA standing required. Analysis of the legal and regulatory environment in which managers must operate. Review of the constitutional and judicial structures for resolving disputes, the effect of governmental and political policies, and the liability encountered by business in various defined areas of substantive law. Special attention is given to ethical issues faced by business in the domestic and global marketplace. Letter grade only (A-F).

#### Graduate Level

#### 501. Financial Management Concepts (3)

Prerequisite: MBA standing required. Financial theory, management and environment of the firm integrating computer applications, management information systems and cases to the following areas of finance: (1) Time value of money, risk, valuation, cost of capital, capital structure; (2) Capital budgeting; (3) Long-term fi-

ancing decisions; (4) Working capital policy and management; (5) Financial analysis and planning; and (6) specials topics including mergers, bankruptcy, and international finance. Letter grade only (A-F).

#### 524. International Legal Environment of Business (3)

Prerequisite: FIN 520. A study of the international legal environment in which multinational firms operate. Selected topics include treaties and laws, government policies, resolution of legal disputes, regulation of competition, enforcement of property rights and issues involving ethical responsibilities. Letter grade only (A-F).

#### 525. Estate Planning (3)

Prerequisite: FIN 520. Planning and administration of the disposition of property by wills, estates and trusts including use of life insurance, impact of federal and state taxes and special trust provisions and devices. Letter grade only (A-F).

#### 600. Seminar in Business Finance (3)

Prerequisite: MBA standing required. Financial theory and management: (1) Time value of money, risk, valuation, cost of capital, capital structure; (2) Capital budgeting; (3) Long-term financing decisions; (4) working capital policy and management; (5) Financial analysis and planning; (6) Special topics including mergers, bankruptcy, international finance. May be repeated to a maximum of 3 units. Letter grade only (A-F).

#### 620. Capital Budgeting (3)

Prerequisite: FIN 600. Theory of capital budgeting within the framework of the firm. Cost of capital determination and logic of expansion vs. growth, and equity financing vs. debt financing. Computer applications are required for this course. Letter grade only (A-F).

#### 624. Cyberlaw (3)

Coverage of foundation of e-commerce and public policy issues; study of the interaction of law with the globalized e-commerce environment; critical analysis of the legal, ethical, international and political aspects of technology as it relates to business; examination of issues of jurisdiction, intellectual property, electronic payment systems and contracting, online securities offerings, telecommunications mergers and acquisitions, privacy, security, and cybercrime. Letter grade only (A-F).

#### 630. Seminar in Financial Forecasting (3)

Prerequisite: FIN 600. Research projects in industry, individual company, product and commodity areas. Computer applications are required in this course. Letter grade only (A-F).

#### 650. Seminar in Investments (3)

Prerequisite: FIN 600. Selected problems in security analysis, portfolio planning, balance and adjustment as related to (1) individual circumstances of the investor, (2) specific market conditions, and (3) broader financial aspects of the economy. Presentation and interpretation of student reports on selected topics. Computer applications are required for this course. Letter grade only (A-F).

#### 690. Seminar in International Finance (3)

Prerequisite: FIN 600. Background in economics, accounting and finance, graduate standing in business administration. Covers real and monetary factors in the finance of international business, international capital markets, movement of funds and special problem areas. Letter grade only (A-F).

#### 695. Selected Topics (3)

Prerequisite: Consent of instructor. Topics to be announced in the *Schedule of Classes*. Topics change each offering. May be repeated to a maximum of 6 units with different topics. Letter grade only (A-F).

#### 697. Directed Studies (1-3)

Prerequisite: Consent of instructor. Individual study under the direction of the faculty. Letter grade only (A-F).

#### 699A-B. Applied Portfolio Management (3-3)

Prerequisites: FIN 699A: FIN 520, 600, 650; consent of instructor and Department Chair; FIN 699B: FIN 699A; consent of instructor and Department Chair. FIN 699A will be offered in Fall and accepted students must enroll in FIN 699B in Spring. Participation in the management of an actual investment portfolio. Research, monitor, and analyze securities and make buy and sell recommendations for a student-managed investment fund utilizing state-of-the-art computer software and on-line information data retrieval services. Contribute to the publication of a semi-annual report of the activities of the fund. Market, sector and firm analysis with individual and group presentations and outside research required. Letter grade only (A-F).

# GEOGRAPHY

## College of Liberal Arts

### Department Chair

Christine M. Rodrigue

### Department Office

Liberal Arts 4 (LA), Room 106

### Telephone

(562) 985-4977 / (562) 985-8432

### Website

<http://www.csulb.edu/geography>

### Faculty

#### Professors

James R. Curtis

Frank Gossette

Edward Karabenick (Emeritus, 2003)

Christopher T. Lee

Richard Outwater (Emeritus, 2003)

Christine M. Rodrigue

Joel Splansky (Emeritus, 2001)

Judith Tyner (Emerita, 2000)

#### Assistant Professors

Vincent Del Casino

Camille Holmgren

Christine L. Jocoy

Paul Laris

Dmitrii Sidorov

Suzanne P. Wechsler

#### Undergraduate Advisor

Paul Laris

#### Graduate Advisor

Christopher T. Lee

#### Internship Program Director

Suzanne P. Wechsler

#### Administrative Support Coordinator

Lisa Mikhail

Students desiring information should contact the department office for referral to one of the faculty advisors.

**G**eography focuses on the spatial organization of human and physical landscapes, the interactions between human society and the physical environment, as well as on the meanings that people bring to their place in the world. Geography sits at the nexus of the social and physical sciences, drawing from a range of theoretical and methodological approaches for understanding the world around us. We organize the major into three distinct areas of concentration – Human Geography, Environmental/Physical Geography, and Geospatial Techniques – as a way to structure the diverse approaches that geographers use in thinking about spatial relationships in geographic context. Students are required to focus within one of these concentrations at the undergraduate level.

Because of the diversity of the subject matter that it considers, geography offers a broad, liberal education, which is applicable to many careers. These include elementary, secondary, and college teaching; cartography; geographic information systems (GIS); computer mapping; regional, urban and environmental planning; natural resources management; business; government; travel and tourism, and the foreign service. The Geography Department offers the Bachelor of Arts and Master of Arts degrees, Geography Minor, and two certificate programs: Urban Studies and Geographic Information Science. Certain Geography courses are applicable to teaching credential programs; to the degree in Liberal Studies; and to certificate programs in Environmental, Urban, Asian, Latin American, and Russian and East European studies, and GIS. Students may obtain materials from the department describing the geography programs and courses recommended for career preparation or visit its home page at <http://www.csulb.edu/geography/>.

The Master of Arts degree in geography is designed for those wishing to expand their geographic competence beyond that expected of the bachelor's degree. The Master of Arts degree is becoming a common requirement for employment advancement and it provides the preparation necessary for success in geography Ph.D. programs at other universities. Candidates are responsible for observing the general requirements stated in this Catalog as well as the specific departmental requirements contained in the Geography Master of Arts Handbook.

## Bachelor of Arts in Geography (code GEOGBA01) (120 units)

### Requirements

The Geography major requires at least 45 units. These units are broken down into two broad categories:

Lower Division: 15 units required (GEOG 100 or 120, 140, 160, 200 and 280).

Upper Division: 30 units required, which must include at a minimum: GEOG 380, one Regional course, one course from each of the three following Concentrations – Human Geography, Environmental/Physical Geography or Geospatial Techniques – and an additional 12 units within one Concentration.

*Human Geography:* GEOG 301I, 307, 319I, 352, 381, 446, 452, 460, 465, 466, 467, 470.

*Environmental/Physical Geography:* GEOG 355I, 440, 442, 443, 444, 445, 455; 458 or, with approval, GEOL 339.

*Geospatial Techniques:* GEOG 400, 402, 473, 474, 475, 481<sup>†</sup>, 482, 484, 485, 486, 487A, 487B, 488.

<sup>†</sup> Only eligible to students concentrating outside Geospatial Techniques

*Regional Courses:* GEOG 304, 306, 308I, 309I, 313I, 314I, 315I, 316, 318, 320I, 326I.

### Additional Courses

The following courses may be included in the above concentrations with approval of the Undergraduate Advisor: GEOG 492, 494, 497.

**FOUR YEAR PLAN TO COMPLETE THE B.A. DEGREE in GEOGRAPHY (GEOGBA01)**

120 Units Required

Department of Geography

Semester 1		Semester 2	
University 100	1	Oral Comm or Composition	3
Composition or Oral Comm	3	GE Math or other GE Class	3-4
GE Math or other GE Class	3-4	Critical Thinking or other GE	3
GEOG 100 or 120	3	GEOG 140	3
GE Class	3	GE Class	3
Elective Class	1-3		
TOTAL UNITS	14-17	TOTAL UNITS	15-16

Semester 3		Semester 4	
Critical Thinking or other GE	3	GEOG 280	3
GEOG 160	3	GE Class	3-4
GEOG 200	3	GE Class	3
GE Class	3-4	GE Class	3
GE Class	3	GE Class	3
TOTAL UNITS	15-16	TOTAL UNITS	15-16

Semester 5		Semester 6	
Major Elective- Regional Class	3	GEOG 380	3
Major Elective- Human Geog	3	Major Elective- Geospatial Tech	3
Major Elective- Environ/Physical	3	Major Concentration Class	3
GE Capstone*	3	GE Capstone*	3
Elective Class	3	Elective Class	3
TOTAL UNITS	15	TOTAL UNITS	15

Semester 7		Semester 8	
Major Concentration Class	3	Major Concentration Class	3
Major Concentration Class	3	Major Elective (if needed)	3
GE Capstone*	3	Elective class	3
Elective class	3	Elective class	3
Elective class	3	Elective class	3
TOTAL UNITS	15	TOTAL UNITS	15

\* GE Interdisciplinary Capstones may count in GE and major - see advisor

**FAQ Concerning Road Maps for Completion of Undergraduate Degrees**

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

**I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?**

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

**Must I take the courses in the semesters shown on the plan?**

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

**I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?**

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

**I didn't complete the exact list of courses shown. Can I still graduate on time?**

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

**If I follow the plan, will I have all requirements for graduation completed?**

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

**Minor in Geography (code GEOGUM01)**

The Minor in Geography is available to any non-Geography major. The minor requires a minimum of 21 units consisting of GEOG 140, 160, and 280, and at least 9 units of upper division courses with at least one course selected from the 400 series.

## Certificate in Geographic Information Science (code GEOGCT01)

Director

Franklin Gossette

Associate Directors

Judith Tyner

Christopher Lee

Suzanne Wechsler

### Requirements

This program offers specialized training in a variety of the-oretical and applied geospatial techniques. The program is designed to provide experience in quantitative spatial analysis through GIS, working with remotely sensed imagery and field-derived data, and effective communication through maps. The certificate serves as a supplement to standard degree programs. It provides essential training for those seeking careers in the geospatial technologies in both the public and private sector.

A brochure describing the GIScience Certificate Program in greater detail is available in the Geography Department Office, LA 4-106, or on-line at [www.csulb.edu/geography](http://www.csulb.edu/geography).

### Certificate Requirements

1. A bachelor's degree, which may be earned concurrently.
2. Consultation with the certificate advisor in the Geography Department.
3. Thirty (30) units distributed as follows:
  - A. Core requirements (15 units): GEOG 380, 482, 473, 485/585
  - B. Specialization (12 units, selected from the following with the approval of Certificate Advisor): GEOG 400, 474, 475/575, 484/584, 487A/587A, 487B/587B, 488/588, 680, 494, 497, 697
  - C. Elective (3-4 units): Any course chosen from the Specialization courses listed above or the following: GEOG 381, 481, 492 (chosen with the approval of the Certificate Advisor); a course in databases, chosen with the approval of the Certificate Advisor; a course in graphic design, chosen with the approval of the Certificate Advisor; a course in surveying and mapping, chosen with the approval of the Certificate Advisor.

## Certificate in Urban Studies (code GEOGCT02)

The Urban Studies Program, housed in the Department of Geography, offers an education in the analysis of urban patterns, processes, and issues, and serves as an excellent supplement to standard degree programs. It offers essential training for those seeking both private sector and public sector careers or graduate study in fields concerned with the urban region, its development, characteristics, problems, and special communities.

Because urban issues cut across a variety of disciplines, the program takes an interdisciplinary approach. Each student participates in a small core of courses in Geography and Political Science but also assembles a distinctive mix of related courses from a variety of departments. The result is a customized program that provides essential information about the dynamics, form, and characteristics of urban regions while allowing a student to design an individualized program of study.

A brochure describing the Urban Studies Certificate Program in greater detail is available in the Geography Department Office, LA 4-106, or on-line at [www.csulb.edu/geography](http://www.csulb.edu/geography).

### Certificate Requirements

1. A bachelor's degree, which may be earned concurrently.
2. Consultation with the undergraduate advisor in the Geography Department.
3. 24 units distributed as follows:

Core requirements, 9 units: U/ST 3011 (same as GEOG 3011), GEOG 466 and 467 or POSC 327

Elective Courses, 15 units, to be selected from the following: AIS 319 (same as ASAM 319, B/ST 319, CHLS 319, W/ST 319); ANTH 416; ASAM 345; BIOL 303 (same as GEOL 303); B/ST 335, 452; DESN 367; FCS 322, 422, 428; GEOG 446 (same as U/ST 446); HIST 468, 469, 474I; POSC 327, 442; W/ST 432.

## Master of Arts in Geography (code GEOGMA01)

### Prerequisites

1. A bachelor's degree in geography; or,
2. A bachelor's degree with 24 units of upper division courses substantially equivalent to those required for a geography major at this University; or,
3. A bachelor's degree in a related discipline with 24 units of upper division courses in a combination of geography and approved courses in related disciplines,
4. Completion of introductory methods course,
5. An undergraduate GPA of 3.0 ("B") or better in geography, or alternative evidence of ability to do graduate work,
6. File with the department a declaration of intent to seek the master's degree in geography.

### Advancement to Candidacy

1. See the Geography Graduate Student Handbook;
2. See the general University requirements.

### Requirements

1. Completion of courses required to remove foundational and prerequisite deficiencies (see prerequisites above),
2. Fulfillment of the Graduation Writing Assessment Requirement (GWAR),
3. Completion of 30 units of approved upper division graduate courses. A minimum of 24 units of Geography courses. A minimum of 18 units of 500- and 600-level courses, which must include GEOG 586, 596, 696, 1 additional seminar, and 6 units of thesis (GEOG 698).

## Grouping of Geography Courses

The CSULB Geography Department encourages geography students to acquire a knowledge of the breadth of the discipline, to develop an understanding of the regional and systematic approaches to studying and applying the discipline, and to become proficient in the application of the methods of inquiry and analysis that are employed in the discipline. To facilitate the development of a prepared and well rounded geographer, Geography courses are grouped into: Regional Geography, Human Geography (Human or Environmental), and Geospatial Techniques Geography. Students are urged to complete courses in each cluster and to seek the advice of the undergraduate advisor and other faculty to identify courses that are best suited to meet their educational and career objectives.

---

### Regional

---

These courses examine the relationships among peoples, cultures, and their landscapes in specific areas of the world. There are no prerequisites for these courses; their broad scope provides the student with a better understanding and appreciation of the world in which we live. Thus, they are ideally suited for general education and liberal studies.

- 100. World Regional Geography
- 304. California
- 306. United States and Canada
- 307. Modernization in Global Perspective
- 308I. Africa South of the Sahara
- 309I. The Middle East and North Africa
- 313I. Southeast Asia
- 314I. South Asia
- 315I. East Asia
- 316. Europe
- 318. Russia and Its Neighbors
- 320I. Latin America
- 326. Pacific Island Area

---

### Human Geography

---

- 120. Geography of Human Diversity in the United States
- 160. Introduction to Human Geography
- 301I. Urban Life and Problems
- 319I. International Development
- 352. Geography of Travel and Tourism
- \*381. Maps and Civilization
- \*446 Land Use Planning
- \*452. Economic Geography
- \*460. Population Geography
- 465./565. Social Geography
- \*466. Urban Geography: Principles
- 467./567. Urban Geography: Metropolitan Problems
- \*470. Political Geography

---

### Environmental/Physical Geography

---

- 140. Introduction to Physical Geography
- 355I. International Environmental Issues
- 440./540. Land and Water Environments
- \*442. Biogeography
- 443. Watersheds: Processes and Management
- \*444. Climatology
- 445. Palaeoclimatology
- \*455. People As Agents of Environmental Change
- 458./558. Hazards and Risk Management

---

## Methods and Techniques

---

These courses develop skills in graphic and statistical communication and field analysis which are used within the various sub-fields of the discipline.

- 200. Introduction to Research Methods for Geographers
- 280. Introduction to Geospatial Techniques
- 380. Map Interpretation and Analysis
- \*400. Geographical Analysis
- 402.. Qualitative Geographic Analysis
- \*482. Thematic Map Design for Presentation and GIS
- \*473. Remote Sensing
- \*474. Introduction to Digital Image Processing
- 484./584. Advanced Concepts in Presentation Cartography
- 485./585. Introduction to Geographic Information Systems
- \*486. Field Methods in Landscape Analysis
- 488./588. Geographic Information Systems

---

### General

---

- \*492. Internship in Applied Geography
- \*494. Special Topics
- \*497. Directed Studies

---

## Geography Courses (GEOG)

---

### Lower Division

#### 100. World Regional Geography (3)

Prerequisite/Corequisite: One G.E. Foundation course. Through a spatial approach, World Regional Geography introduces students to the world's geographic realms and examines their cultural, population and political dynamics, resources and economic development, patterns of settlement and environmental elements. Same course as GEOG 100W. Not open to students with credit in GEOG 100W.

#### 100W. World Regional Geography (3)

Through a spatial approach, World Regional Geography introduces students to the world's geographic realms and examines their cultural, population, and political dynamics, resources and economic development, patterns of settlement and environmental elements. Same course as GEOG 100. Not open to students with credit in GEOG 100.

#### 120. Geography of Human Diversity in the United States (3)

Prerequisite/Corequisite: One G.E. Foundation course. This course examines America's Human Diversity from a geographic perspective. Four broad themes are considered: (1) the ways in which the social categories of race/ethnicity and gender/sexuality impact the spatial distributions of different people across the country; (2) the distinctive expressions of human diversity on/in the cultural landscapes of rural and urban United States; (3) the day-to-day spatial politics (i.e., social-spatial processes) that exclude/include different groups in different places; and (4) the patterns that emerge in a particular spatial context, southern California.

#### 140. Introduction to Physical Geography (3)

Prerequisite/Corequisite: One G.E. Foundation course. Systematic study of the physical environment with an emphasis on human-environmental interaction and perceptions of environmental hazards and resources. Not open to students who have completed GEOG 150. (CAN GEOG 2)

#### 160. Introduction to Human Geography (3)

Prerequisite/Corequisite: One G.E. Foundation course. Geographic aspects of culture, including the past and present social, political and economic factors that are related to man's perception, organization and use of his environment. (CAN GEOG 4)

#### 200. Introduction to Research Methods for Geographers (3)

Prerequisite: Not open for credit to those who already have completed a first course in statistics. An introduction to the scientific method in geography, with an emphasis on basic quantitative and qualitative techniques and their applications. (2 hours lecture, 2 hours laboratory).

### 250. Early World Historical Geography (4)

Prerequisites: Open only to Integrated Teacher Education Program (ITEP) students. This course uses the perspectives of history and geography to introduce students to the civilizations of Eurasia, Africa, and the Americas as they developed prior to European contact. To understand their origins and subsequent growth and development, special attention will be given to geographic and historical factors such as location and place, human/environment interactions, migrations, cultural and technological diffusion as well as the intensity of cross-cultural contact and exchange between cultures and civilizations over time. Same as HIST 250.

### 280. Introduction to Geospatial Techniques (3)

This course provides an introduction to geospatial techniques, which include geographic information science (GIS), cartography, global positioning systems (GPS), and remote sensing. Students will be introduced to the geographic concepts required for spatial analysis. (3 hours lecture.)

## Upper Division

General Education Category A must be completed prior to taking any upper division course.

### 301I. The Urban Scene (3)

Prerequisites: ENGL 100 and upper division status. Not open to students with credit in SOC 419. Review and analysis of the changing urban scene: urban life-styles; community patterns of land use and design; population trends; conflicts in the increasingly multicultural setting of the central city; housing and community development; suburban-central city relationships; human utilization of urban life spaces; examination of the views of landmark urbanists; and future trends. Same course as U/ST 301I.

### 304. California (3)

California's diverse natural and cultural environment with emphasis upon social and economic problems and the human response to environmental hazards.

### 306. United States and Canada (3)

Common social, economic and political interests of the major human use regions of the United States and Canada. Describes and interprets the culture patterns of each region in relation to the natural settings in which they have developed.

### 307. Modernization in Global Perspective (3)

Prerequisites: Completion of the G.E. Foundation, one or more Explorations courses, and upper-division standing. An exploration of the ways in which current psychological and material problems in modern society (both western and Third World) can be traced to a process of accelerating change which began with the advance of technology, the rise of capitalism, the abandonment of "old values," the increasing complexity of bureaucracy and a lowering of social barriers. Exploration of all facets of modernization utilizing films, discussions and readings (fiction and nonfiction).

### 308I. Africa South of the Sahara (3)

Prerequisites: Completion of the G.E. Foundation, one or more Explorations courses, and upper-division standing. Human and environmental settings of Africa South of Sahara and the ecological, cultural, demographic, economic settlement and political relationships that characterize them.

### 309I. The Middle East and North Africa (3)

Prerequisites: Completion of the G.E. Foundation, one or more Explorations courses, and upper-division standing. Human and physical settings of the Middle East and North Africa and the cultural, economic, settlement, and political relationships that characterize them stressing those factors which underlie the region's instability and global importance.

### 313I. Southeast Asia (3)

Prerequisites: Completion of the GE Foundation, one or more Exploration courses and upper division status. This course is a cross-cultural examination of the various characteristics and problems found across the region of: Southeast Asia. The specific foci will be: environmental and cultural patterns, the historical development of the spatial organization of society, demographic and other dynamics of social change related to issues of socio-economic and political development. Letter grade only (A-F).

### 314I. South Asia (3)

Prerequisites: Completion of the GE Foundation, one or more Exploration courses and upper division status. This course is a cross-cultural examination of the various characteristics and problems found across the region of: South Asia. The specific foci will be: environmental and cultural patterns, the historical development of the spatial organization of society, demographic and other dynamics of social change related to issues of socio-economic and political development. This course will satisfy an interdisciplinary capstone requirement. Letter grade only (A-F).

### 315I. East Asia (3)

Prerequisites: Completion of the GE Foundation, one or more Exploration courses and upper division status. This course is a cross-cultural examination of the various characteristics and problems found across the region of: East Asia. The specific foci will be: environmental and cultural patterns, the historical development of the spatial organization of society, demographic and other dynamics of social change related to issues of socio-economic and political development. Letter grade only (A-F).

### 316. Europe (3)

The human and physical patterns of Europe. Current cultural conditions and environmental problems.

### 318. Russia and Its Neighbors (3)

Systematic and regional study of the physical, economic and cultural geography of the countries of the former Soviet Union.

### 319I. International Development (3)

Prerequisites: Completion of the G.E. Foundation, one Explorations course, upper-division standing. Explores the nature of social, political, and economic development, as well as alternative developmental models. Assesses theories of development, including modernization, diffusion, dependency, and world systems. Compares and contrasts the historical and contemporary experiences of Europe, the U.S., and other "developed" areas of the world with the economic, social, and political challenges facing the governments and peoples of Asia, Africa, Latin America, and other "developing" regions. Same course as I/ST 319I.

### 320I. Latin America (3)

Prerequisites: Completion of the G.E. Foundation, one or more Explorations courses, and upper-division standing. Human and environmental characteristics of Middle and South America with a focus on the historical-cultural factors which shaped their present-day societies and the problems of population growth, resource utilization and economic development.

### 326. Pacific Island Area (3)

Regional synthesis of the physical and cultural geography of Australia, New Zealand and the island groups of Oceania.

### 352. Geography of Travel and Tourism (3)

Historical and contemporary spatial characteristics and dimensions of tourism activity. Tourism, destinations, travel patterns, environmental and economic impacts, and analysis of regional tourism patterns.

### 355I. International Environmental Issues (3)

Prerequisites: Completion of the GE Foundation, one Explorations course, and upper division standing. Examines the deterioration, destruction, maintenance and restoration of environmental systems and resources. Identifies and analyzes major environmental problems that have international dimensions. Investigates ongoing and potential efforts to resolve them. Same course as I/ST355I.

**380. Map Interpretation and Analysis (3)**

Interpretation and understanding of maps as graphic communication with particular emphasis on critical analysis, symbolization, scale, and projection. (Lecture, problems 3 hours)

**\*381. Maps and Civilization (3)**

Maps and Civilization is an interdisciplinary and cross-cultural examination of the role maps play in different cultures. It draws upon the disciplines of cartography, geography, history, art, and science. It looks at maps in both Western and non-Western cultures; both conventional and alternative cartographies; and mapping activities of both men and women. Letter grade only (A-F).

**\*400. Geographical Analysis (4)**

Prerequisite: GEOG 200 or any introductory statistics course or consent of instructor. Examination of advanced quantitative techniques commonly employed by geographers in analysis of spatial phenomena. Topics to be covered include multivariate statistical methods as models for geographical analysis. Emphasis on the application of these techniques in geographical research, including the use of computers (3 hours seminar and 2 hours laboratory).

**402. Qualitative Geographic Analysis (4)**

Prerequisite: GEOG 200, or consent of instructor. This course examines qualitative geographic methodologies and methods from a perspective of the various theoretical frameworks that geographers employ in their research. Students will be introduced to survey techniques, interview techniques, focus group techniques, textual analysis, participant observation, and ethnography. The course will include a hands-on research experience as well as a section on qualitative data analysis (four hours of discussion). Letter grade only (A-F).

**440./540. Land and Water Environments (3)**

Prerequisites: GEOG 140 and 380 or consent of instructor. (Undergraduates register in GEOG 440; graduates register in GEOG 540.) Landforms and related soil and water resources as physical components of the human environment. (Lecture-problems and field experience.)

**\*442. Biogeography (3)**

Prerequisite: GEOG 140. A course in biology is strongly recommended. Methods of mapping plant and animal distributions, spatial interaction with environmental limiting factors and man's role in temporal and spatial variation of ecosystems. (Lec-problems; field experience.)

**443. Watersheds: Processes and Management (4)**

Prerequisites: GEOG 140 or consent of instructor. This course will introduce basic principles of watershed hydrology, including hydrological processes, runoff behavior, and precipitation patterns, providing the context for evaluation of water quality such as nonpoint source pollution, water quantity such as flood and drought and water legislation. Laboratory and field exercises will include hydrologic data collection, processing and evaluation. (3 hours Lecture, 2 hours Laboratory.)

**\*444. Climatology (3)**

Prerequisites: GEOG 140. Descriptive and explanatory analysis of the elements and controls of climate. Climates of the world with emphasis on California and North America. (Lecture, problems 3 hours)

**445. Palaeoclimatology (4)**

Prerequisites: GEOG 444 or consent of instructor. A survey of the methods and techniques used to describe past climates and climate change and describe their impact on the natural environment with an emphasis on the last 2 million years. This course will examine the use of proxy records, such as marine and lacustrine sediment sequences, ice cores, tree rings, corals and documentary data, to reconstruct past climate. Means of dating past climatic events will also be reviewed. The possible causes of these events will be evaluated in relation to Earth's changing orbital parameters and to internal forcing mechanisms. (Lecture 3 hours, lab activities 2 hours.)

**\*446. Land Use Planning (3)**

Not open to students with credit in U/ST 446 Land Use Planning. This course provides an examination of urban land use planning from the perspective of professional urban planners. The course will focus on planning issues and responses in some of the following major areas: land use; coastal zone planning; resource planning; urban growth, speculation, and economics; design and aesthetic issues; planning parameters for residences, shopping centers; and industrial parks; revitalization of built-up core areas and transportation. Same course as U/ST 446.

**\*452. Economic Geography (3)**

Prerequisite: Consent of instructor. Location theory and its application to the study of the distribution of various economic activities, international and interregional changes in the spatial structure of economic activities and the role of these changes in international and regional development. (Lecture, problems.)

**\*455. People As Agents of Environmental Change (3)**

Spatial variations in environmental change as effected by humans. A systematic and regional analysis at both macro and micro levels. (Lecture 3 hours.)

**458./558. Hazards and Risk Management (3)**

Prerequisites: One earth science course (GEOG 140 or GEOL 102 or 190 or consent of instructor) and one social science course (e.g., GEOG 100 or 160 or consent of instructor). Provides a broad overview of hazards and disasters, whether natural or partly technological. This course emphasizes understanding of the physical and social dynamics that must interact to produce hazard, the spatial and temporal distributions of various hazards, and policy options for disaster preparation and loss reduction.

**\*460. Population Geography (3)**

Introduction to the geographic study of population. Includes growth and distribution of world population; results of changing births, deaths, and migration; variations in population composition; related problems such as food supplies and environmental deterioration.

**465./565. Social Geography (3)**

Prerequisite: GEOG 160 or consent of instructor. This course examines the geographies of society. Students are educated in the traditions of social geography from a historical perspective. Students investigate the various methodological and theoretical approaches that make up social geography. Topics can include a mix of the following: socio-spatial inequality, crime, housing, religious systems, medical and health geography, feminist geography, the geography of sexuality, the geography of race, and/or poststructuralist geography.

**\*466. Urban Geography: Principles (3)**

Examination of cities; their location, shape, structure and function. Selected world population clusters, theoretical and practical application of urban planning and the evolution of cities are studied. (Lecture-problems.)

**467./567. Urban Geography: Metropolitan Problems (3)**

Prerequisite: GEOG 466 or consent of instructor. (Undergraduates register in GEOG 467; graduates register in GEOG 567.) Geographic components of metropolitan problems and their solutions. Problems related to transportation systems, housing, evolution of ghettos, urban perception and behavioral patterns will be discussed in terms of theoretical and practically applied urban planning solutions. (Lec, problems 3 hrs.)

**\*470. Political Geography (3)**

Prerequisite: GEOG 100 or consent of instructor. Comparative study of the earth's politically organized regions and related systems. Varied approaches are explored, such as power analysis, genetic analysis and functional analysis of political units. Stress is upon political geographic concepts used in analyzing the viability of states and nations. (Lecture, problems.)

**\*473. Remote Sensing (4)**

Prerequisites: GEOG 200 or equivalent and GEOG 380 or consent of instructor. Interpretation and processing of remotely sensed imagery including acquisition or imagery, the electromagnetic spectrum, kinds of imagery, and digital method. (Seminar 3 hours; Laboratory 2 hours). Letter grade only (A-F).

**\*474. Introduction to Digital Image Processing (4)**

Prerequisites: GEOG 140 and 473 or consent of the instructor. Provides a background to the principles and concepts of digital image processing and the extraction of information from digital satellite data with focus various enhancement and extraction techniques, specifically, within the visible and near-infrared portions of the electromagnetic spectrum. (Seminar 3 hours; Laboratory 2 hours). Letter grade only (A-F).

**475. Geographical Applications in Remote Sensing (4)**

Prerequisites: GEOG 140, 160, 473, and 474. Focuses on remote sensing applications. Students will be introduced to sophisticated imagery and analysis techniques, as applied to weather and fire modeling, arid lands environmental problems, or the urban environment. (Seminar 3 hours; Laboratory 2 hours). Letter grade only (A-F).

**\*481. Geographic Information Science for Natural Sciences (4)**

Prerequisites: Junior/Senior/Graduate standing; GEOG 140 or BIOL 153 or 211B or GEOL 102. This course introduces the fundamentals of geographic information science and systems (GIS) to non-geography students. The course introduces the concepts of and develops skills in spatial reasoning and spatial thinking. Students explore the use of GIS for spatial query, problem analysis and decision support using examples tailored to biologic, geologic and ecologic applications. Previous course work or experience in GIS would be helpful but is not required. (2 hours of seminar, 2 hours of computer laboratory.)

**\*482. Map Design for Presentation and GIS (4)**

Prerequisites: GEOG 200 or equivalent and 380 or consent of instructor. Theory and techniques in the creation of thematic maps including design, generalization, and symbolization, with an emphasis on computer presentation methods. (Seminar 3 hours, laboratory 2 hours).

**484./584. Advanced Concepts in Presentation Cartography (4)**

Prerequisites: GEOG 140, 160, 473, AND 474. Prerequisites: GEOG 200 or equivalent; GEOG 380; and GEOG 482. Advanced theory and techniques for presentation cartography including communication, visualization, terrain representation, animation, and color. (Seminar 3 hours; Laboratory 2 hours). Letter grade only (A-F).

**485./585. Principles of Geographic Information Science (4)**

Prerequisites: GEOG 200 or equivalent; GEOG 380 and GEOG 482. Fundamental concepts in and techniques of geographic information systems are introduced, including problems of acquiring and processing machine-readable map data. (Seminar 3 hours; Laboratory 2 hours). Letter grade only (A-F).

**\*486. Field Methods in Landscape Analysis (4)**

Prerequisite: GEOG 380 or consent of instructor. Introduction to field techniques, including formulation of field plans, recording direct observation, field mapping, sampling techniques, interviewing, and organizing and evaluating data for presentation. (Lecture-discussion 1 hour, supervised field work 6 hours)

**487A. Applications of Geographic Information Science (GIS): Environment and Natural Resources (4)**

Prerequisites: GEOG 140; 485 or 585, 488 or 588 or consent of instructor. This course explores the use of Geographic Information Systems for spatial query, problem analysis, spatial modeling and decision support in natural resource analysis such as assessment of landslide hazard, fire hazard or site suitability assessment, natural resources management. This course is designed to introduce students who already possess a background in GIS to applications specific to resource assessment and management. The use of raster GIS is emphasized. (3 hours Lecture, 2 hours Laboratory.)

**487B. Applications of Geographic Information Science (GIS): Urban and Economic (4)**

Prerequisites: GEOG 485 or 585, 488 or 588 or consent of instructor. This course builds on introductory knowledge of Geographic Information Systems, spatial analysis and spatial data and focuses on urban and economic applications and analyses. (3 hours Lecture, 2 hours Laboratory.)

**488./588. Advanced Topics in Geographic Information Science (4)**

Prerequisites: GEOG 200 or equivalent; 380, 482, 485 or 585 or consent of instructor. Advanced concepts in geographic information systems and techniques are introduced and their applications in geography and related discipline explored (Seminar 3 hours; Laboratory 2 hours). Letter grade only (A-F).

**\*492. Internship in Applied Geography (3)**

Prerequisites: Geography major with upper division or graduate standing, prior geography coursework or equivalent recommended, and consent of instructor. Community-based placement to enhance professional preparation in applied geography. May be repeated to a maximum of 6 units; a second semester experience shall differ substantially from first semester experience. Undergraduates may elect Credit/No Credit or letter grading; letter grading only is required for graduate students. Student will work under faculty supervision.

**\*494. Special Topics (1-3)**

Prerequisite: Consent of instructor. Application of geographical concepts and methodology to selected contemporary problems. Themes will be announced in the *Schedule of Classes*. May be repeated to a maximum of 6 units with consent of department chairperson. May not be credited toward the major in geography without written department consent in advance of enrollment.

**\*497. Directed Studies (1-3)**

Prerequisite: Consent of instructor. Individually directed studies of special problems in geography. May be repeated to a maximum of 6 units with consent of department chairperson. May not be credited toward the major in geography without written department consent in advance of enrollment.

**Graduate Level**

**502. Qualitative Geographic Analysis (4)**

Prerequisites: GEOG 200, or consent of instructor. This course examines qualitative geographic methodologies and methods from a perspective of the various theoretical frameworks that geographers employ in their research. Students will be introduced to survey techniques, interview techniques, focus group techniques, textual analysis, participant observation, and ethnography. The course will include a hands-on research experience as well as a section on qualitative data analysis (four hours of discussion). Letter grade only (A-F).

**540./440. Land and Water Environments (3)**

Prerequisites: GEOG 140 and 380 or consent of instructor. (Undergraduates register in GEOG 440; graduates register in GEOG 540.) Landforms and related soil and water resources as physical components of the human environment. (Lecture-problems and field experience.) Letter grade only (A-F).

**543. Watersheds: Processes and Management (4)**

Prerequisites: GEOG 140 or consent of instructor. This course will introduce basic principles of watershed hydrology, including hydrological processes, runoff behavior, and precipitation patterns, providing the context for evaluation of water quality such as non-point source pollution, water quantity such as flood and drought and water legislation. Laboratory and field exercises will include hydrologic data collection, processing and evaluation. (3 hours Lecture, 2 hours Laboratory.)

**545. Palaeoclimatology (4)**

Prerequisites: GEOG 444 or consent of instructor. A survey of the methods and techniques used to describe past climates and climate change and describe their impact on the natural environment with an emphasis on the last 2 million years. This course will examine the use of proxy records, such as marine and lacustrine sediment sequences, ice cores, tree rings, corals and documentary data, to reconstruct past climate. Means of dating past climatic events will also be reviewed. The possible causes of these events will be evaluated in relation to Earth's changing orbital parameters and to internal forcing mechanisms. (Lecture 3 hours, lab activities 2 hours.)

**558./458. Hazards and Risk Management**

Prerequisites: One earth science course (GEOG 140 or GEOL 102 or 190 or consent of instructor) and one social science course (e.g., GEOG 100 or 160 or consent of instructor). Provides a broad overview of hazards and disasters, whether natural or partly technological. This course emphasizes understanding of the physical and social dynamics that must interact to produce hazard, the spatial and temporal distributions of various hazards, and policy options for disaster preparation and loss reduction.

**565./465. Social Geography**

Prerequisites: GEOG 160 or consent of instructor. This course examines the geographies of society. Students are educated in the traditions of social geography from a historical perspective. Students investigate the various methodological and theoretical approaches that make up social geography. Topics can include a mix of the following: socio-spatial inequality, crime, housing, religious systems, medical and health geography, feminist geography, the geography of sexuality, the geography of race, and/or poststructuralist geography.

**567./467. Urban Geography: Metropolitan Problems (3)**

Prerequisite: GEOG 466 or consent of instructor. (Undergraduates register in GEOG 467; graduates register in GEOG 567.) Geographic components of metropolitan problems and their solutions. Problems related to transportation systems, housing, evolution of ghettos, urban perception and behavioral patterns will be discussed in terms of theoretical and practically applied urban planning solutions. (Lec, problems 3 hrs) Letter grade only (A-F).

**575. Geographical Applications in Remote Sensing (4)**

Prerequisites: GEOG 140, 160, 473, and 474. Focuses on remote sensing applications. Students will be introduced to sophisticated imagery and analysis techniques, as applied to weather and fire modeling, arid lands environmental problems, or the urban environment. (Seminar 3 hours; Laboratory 2 hours). Letter grade only (A-F).

**584./484. Advanced Concepts in Presentation Cartography (4)**

Prerequisites: GEOG 200 or equivalent; 380 and 482. Advanced theory and techniques for presentation cartography including communication, visualization, terrain representation, animation, and color. (Seminar 3 hours; Laboratory 2 hours). Letter grade only (A-F).

**585./485. Principles of Geographic Information Science (4)**

Prerequisites: GEOG 200 or equivalent; 380 and 482. Fundamental concepts in and techniques of geographic information systems are introduced, including problems of acquiring and processing machine-readable map data. (Seminar 3 hours; Laboratory 2 hours). Letter grade only (A-F).

**586. Field Methods in Landscape Analysis (4)**

Prerequisite: GEOG 380 or consent of the instructor. Introduction to field techniques, including formulation of field plans, recording direct observation, field mapping, sampling techniques, interviewing, and organizing and evaluating data for presentation (Seminar 1 hour; Field Work 6 hours). Letter grade only (A-F).

**587A. Applications of Geographic Information Science (GIS): Environment and Natural Resources(4)**

Prerequisites: GEOG 140; 485 or 585, 488 or 588 or consent of instructor. This course explores the use of Geographic Information Systems for spatial query, problem analysis, spatial modeling and ecision support in natural resource analysis such as assessment of landslide hazard, fire hazard or site suitability assessment, natural resources management. This course is designed to introduce students who already possess a background in GIS to applications specific to resource assessment and management. The use of raster GIS is emphasized. (3 hours Lecture, 2 hours of Laboratory.)

**587B. Applications of Geographic Information Science (GIS): Urban and Economic (4)**

Prerequisites: GEOG 485 or 585, 488 or 588 or consent of instructor. This course builds on introductory knowledge of Geographic Information Systems, spatial analysis and spatial data and focuses on urban and economic applications and analyses. (3 hours Lecture, 2 hours Computer Laboratory.)

**588./488. Advanced Topics in Geographic Information Science (4)**

Prerequisites: GEOG 200 or equivalent; 380, 482, 485 or 585 or consent of the instructor. Advanced concepts in geographic information systems and techniques are introduced and their applications in geography and related discipline explored (Seminar 3 hours; Laboratory 2 hours). Letter grade only (A-F).

**596. Literature and Methods in Geography (3)**

Prerequisite: Consent of instructor. Proseminar in the methods, theory and techniques of geographic investigation with emphasis upon classical and contemporary literature. Letter grade only (A-F).

**600. Seminar in Regional Geography (3)**

Prerequisite: Consent of instructor. Regional methods of study common to geographic research, and their utilization in developing regional concepts. Letter grade only (A-F).

**640. Seminar in Physical Geography (3)**

Prerequisite: Consent of instructor. Physical/environmental issues and problems. May be repeated to a maximum of 6 units with consent of departmental advisor. Letter grade only (A-F).

**650. Seminar in Cultural Geography (3)**

Prerequisite: Consent of instructor. Systematic investigation of human occupancy in its varied environmental and regional settings. May be repeated to a maximum of 6 units with consent of department advisor. Letter grade only (A-F).

**666. Seminar in Urban Geography (3)**

Prerequisite: Consent of instructor. Geographic concepts and techniques of research applied to specific urban areas. May be repeated to a maximum of 6 units with consent of department advisor. Letter grade only (A-F).

**680. Seminar in Geospatial Science (3)**

Prerequisite: Consent of instructor. Application of geographic concepts and methodology to selected cartographic, GIS, remote sensing, and spatial analytic problems. May be repeated to a maximum of 6 units with consent of departmental advisor. Letter grade only (A-F).

**696. Seminar in Geographical Research Methods (3)**

Prerequisites: GEOG 596, graduate status in geography, and consent instructor. Critical survey of contemporary methodologies available for framing research in geography, emphasizing the connection between research models, research questions, and the selection and limitations of particular methods, techniques, and data. Letter grade only (A-F).

**697. Directed Research (1-3)**

Prerequisite: Consent of instructor. Research in geography supervised on an individual basis. Letter grade only (A-F).

**698. Thesis (1-6)**

Prerequisite: Consent of instructor. Planning, preparation and completion of thesis for the master's degree.

---

## Urban and Regional Studies Courses (U/ST)

---

### Upper Division

General Education Category A must be completed prior to taking any upper division course.

#### 3011. The Urban Scene (3)

Prerequisites: Completion of the G.E. Foundation, one or more Explorations courses, and upper-division standing. Not open to students with credit in SOC 419. Review and analysis of the changing urban scene: urban life-styles; community patterns of land use and design; population trends; conflicts in the increasingly multicultural setting of the central city; housing and community development; suburban-central city relationships; human utilization of urban life spaces; examination of the views of landmark urbanists; and future trends. Same course as GEOG 3011.

#### \*446. Land Use Planning (3)

Not open to students with credit in U/ST 490 Land Use Planning. This course provides an examination of urban land use planning from the perspective of professional urban planners. This course will focus on planning issues and responses in some of the following major areas: land use, coastal zone planning; resource planning; urban growth, speculation, and economics; design and aesthetic issues; planning parameters for residences; shopping centers, and industrial parks; revitalization of built-up core areas and transportation. Same course as GEOG 446.

Students desiring information should contact the Department Office for referral to one of the faculty advisors:

**T**he Geological Sciences includes the study of the solid earth, the hydrosphere, and the atmosphere. Within the broad field of Geological Science students may elect to take course work leading to professional careers in such areas as geohydrology, environmental geology, urban geology, engineering geology, petroleum geology, mineral exploration, and government service. The degree programs also prepare students for academic careers in schools or universities, although additional work is usually required for such careers. All Earth Science and Geology majors must contact the Department Office to obtain a Departmental Advisor prior to the first semester in residence.

The Geological Sciences Department participates in the Southern California Marine Institute. See the Ocean Studies Institute section of this *Catalog* for additional information.

## *Concurrent and/or Summer Enrollment at Another College*

Students who wish to take course work at a community or another college to meet curricular requirements while enrolled as undergraduates in the College of Natural Sciences and Mathematics must petition the appropriate Department for prior approval to earn credit for specific courses. This policy applies to concurrent enrollment or summer enrollment. University policy must also be complied with. See 'Concurrent Enrollment' and 'Transfer of Undergraduate Credit' in this *Catalog*. Courses not receiving prior approval will not be accepted for credit by the Department.

## *Facilitated Enrollment into Classes*

All entering students who declare a major in a degree program offered by this Department should participate in the College of Natural Sciences and Mathematics' Science Safari to Success (for first-time freshmen) or EONS (Enrollment and Orientation in the Natural Sciences and Mathematics; for transfer students) Program. These programs are held in June-July for those starting in the Fall Semester and in January for those starting in the Spring Semester. Department advisors will be available to provide an overview of the students' chosen baccalaureate degree program, to assist with academic advisement, to provide information on the many career opportunities available, and to aid students in enrolling in classes. Contact the Jensen Student Access to Sciences and Mathematics Center (FO5-109) or Department Office for additional information.

## **Bachelor of Science in Geology (code GEOLBS01) (124-132 units)**

The bachelor of science degree program is intended to provide a thorough background in the geological sciences for those planning to pursue careers in industry or to do graduate study. The program is designed with the conviction that, in an ever-changing and technologically-oriented industry and research environment, a student must have a strong geological background. As such, he/she needs a program that explores the fundamental geological processes, cultivates skills in integrative three-dimensional geological thinking, provides laboratory and field experience, and stimulates interest in the many subdisciplines of the geological sciences.

Within the broad field of geology, students may elect to follow any one of five emphases: General Geology, Petroleum Geology, Stratigraphy/Sedimentology, Geochemistry/Mineralogy-Petrology, and Structural Geology/Tectonics. Each student should contact the undergraduate advisor for assistance in planning the degree program.

Geology majors must receive a grade of "C" or better in all courses required for the major. A minimum of 124-132 units is required for the bachelor of science degree in the various emphases in geology. Emphases other than General Geology are based on the General Geology emphasis, but have structured electives and other variations from that plan. An additional course chosen with the consent of the undergraduate advisor may be recommended for individual emphases. Transfer students should fulfill, prior to transferring, the appropriate lower division curricular requirements as outlined in later sections.

Particular attention should be paid to fulfilling the lower division math, chemistry, physics, and biology requirements.

Lower Division: GEOL 102, 104, 240, 250, 273; MATH 122, 123; CHEM 111A,B; PHYS 151, 152; BIOL 200. Additional required courses for the various emphases are listed below.

Upper Division: GEOL 322, 341, 428, 433, 443, 450, 460, 461. Additional required courses for the various emphases are listed below.

1. General Geology (124 units): Six units of elective courses (normally at upper division) approved in advance by the undergraduate advisor.
2. Petroleum Geology (129 units): MATH 224; GEOL 420, 471.
3. Stratigraphy/Sedimentology (128 units): GEOL 364, 364L, 420, 424.
4. Geochemistry/Mineralogy-Petrology (132 units): MATH 224; CHEM 371A,B; GEOL 422.
5. Structural Geology/Tectonics (131 units): GEOL 430, 462;

**FAQ Concerning Road Maps for Completion of Undergraduate Degrees**

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

**I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?**

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

**Must I take the courses in the semesters shown on the plan?**

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

- 1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.
- 2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.
- 3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).
- 4) You must complete all requirements for admission to impacted majors within the first 60 units.

**I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?**

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

**I didn't complete the exact list of courses shown. Can I still graduate on time?**

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

**If I follow the plan, will I have all requirements for graduation completed?**

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

**FAQ Concerning Road Maps for Completion of Undergraduate Degrees**

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

**I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?**

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

**Must I take the courses in the semesters shown on the plan?**

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

- 1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.
- 2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.
- 3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).
- 4) You must complete all requirements for admission to impacted majors within the first 60 units.

**I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?**

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

**I didn't complete the exact list of courses shown. Can I still graduate on time?**

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

**If I follow the plan, will I have all requirements for graduation completed?**

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

### FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

#### I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

#### Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

#### I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

#### I didn't complete the exact list of courses shown. Can I still graduate on time?

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

#### If I follow the plan, will I have all requirements for graduation completed?

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

### Minor in Geology (code GEOLUM01)

The Minor in Geology is available to any non-Geology major.

Twenty units in geology courses that must include:

Lower Division: GEOL 102, 104, 240.

Upper Division: At least 9 additional units of geology approved in advance by the appropriate undergraduate Departmental Advisor.

### Bachelor of Science in Earth Science (code GEOLBS02) (128-132 units)

The Earth Science program prepares students to understand the natural environment, earth resources, land and ocean use, pollution, geology of the sea floor, and other areas of critical importance to present and future world problems. Career-oriented interdisciplinary emphases are offered in Geohydrology/Environmental Geology, Engineering Geology, Exploration Geophysics, and Marine Geology/Oceanography.

Earth Science majors must receive a grade of "C" or better in all courses required for the major. As outlined below, a minimum of 128 units is required for the various emphases in Earth Science.

Lower Division: GEOL 102, 104, 240, 250, 273; MATH 122, 123, 224; CHEM 111A; PHYS 151, 152. Additional required courses for the various emphases are listed below.

Upper Division: GEOL 322, 428, 433, 443, 460. Additional required courses for the various emphases are listed below.

1. Geohydrology/Environmental Geology (131 units): MICR 200; CHEM 111B; C E 205, 335, 336; GEOL 450, 461, 477; ES P 300I.
2. Engineering Geology (132 units): BIOL 200; CHEM 111B; C E 205, 345, 346, 445; MAE 373; GEOL 450, 477.
3. Exploration Geophysics (132 units): BIOL 200; MATH 247, 370A; PHYS 310, 340A, 402; GEOL 462; and 8 units selected in consultation with the undergraduate advisor.
4. Marine Geology/Oceanography (128 units): BIOL 200; CHEM 111B; GEOL 341, 364, 364L, 461, 465, 466, 496.

**FAQ Concerning Road Maps for Completion of Undergraduate Degrees**

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

**I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?**

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

**Must I take the courses in the semesters shown on the plan?**

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

**I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?**

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

**I didn't complete the exact list of courses shown. Can I still graduate on time?**

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

**If I follow the plan, will I have all requirements for graduation completed?**

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

**FAQ Concerning Road Maps for Completion of Undergraduate Degrees**

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

**I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?**

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

**Must I take the courses in the semesters shown on the plan?**

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

**I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?**

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

**I didn't complete the exact list of courses shown. Can I still graduate on time?**

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

**If I follow the plan, will I have all requirements for graduation completed?**

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

## Teaching Credential

### Requirements Related to a Geoscience Concentration

The Geosciences Concentration meets the subject matter competence requirement for the Single Subject Preliminary Credential in Geosciences (code 182). Prospective students should consult the Single Subject Science Education Advisor in the Department of Science Education early to plan their program.

In addition to meeting the subject matter competence requirement for the Preliminary Credential, prospective Geoscience teachers are also required to complete 44 units of professional preparation in the Single Subject Credential Program, including student teaching. Students may begin the professional preparation courses as early as the junior year. With careful planning, it is possible to complete many of the credential program courses, except for student teaching, as an undergraduate. Courses may also be started as post-baccalaureate student. Refer to the Single Subject Teacher Education section of this *Catalog* or the Single Subject Credential Program website ([www.ced.csulb.edu/single-subject](http://www.ced.csulb.edu/single-subject)) for a description of the professional preparation requirements, courses, and application procedures.

*The Geosciences Subject Matter Program is being revised to meet new state standards. When the revised program has been approved by the Commission on Teacher Credentialing, the new course requirements will be in effect and supersede current requirements.*

## Requirements

Lower Division: ASTR 100; BIOL 211A,B; CHEM 111A,B; GEOL 102, 104, 160, 273; PHYS 151, 152, MATH 122, 123.

Upper Division: GEOL 341, 443, 428, 433, 450; SCED 403.

## Master of Science in Geology (code GEOLMS01)

The Department of Geological Sciences offers a comprehensive program of courses coupled with appropriate thesis projects leading to the Master of Science in Geology. Within geology, students specialize in any of a number of sub-disciplines including engineering geology, environmental geochemistry, geology, hydrogeology, marine geology, mineralogy and petrology, paleontology, petroleum geology, sedimentology, stratigraphy, structural and field geology, and volcanology. In addition, a formal emphasis in geophysics is available. Students may include in their studies courses offered by other departments at CSULB, or courses at California State University Northridge and California State University Los Angeles; CSULB participates with both universities in a joint Master's program.

The objectives of the Master of Science in Geology are (1) to train individuals with the competence required by the geological profession for employment in industry and government agencies, (2) to enable promising students to attain a level of knowledge and research ability required for admission to Ph.D. programs at other universities, and (3) to provide course work and research experience necessary for students planning to teach geology at the community college level.

### Emphasis in Geophysics

The emphasis in geophysics is available for students wishing to specialize in the application of geophysical principles to the solution of problems in engineering geology, hydrogeology, structural geology, tectonics, petroleum geology, and mineral exploration. Students following this Emphasis are expected to have completed the equivalent of course work required for the B.S. in Earth Science, Geophysics emphasis, and additionally to complete M.S. requirements with a program of geophysical course work approved in advance by both the graduate advisor and a geophysics advisor. Appropriate B.S. programs which provide training suitable for completion of the M.S. in Geology, Geophysics Emphasis, include Civil and Electrical Engineering, Physics, Mathematics, and Geology in addition to Geophysics, although some deficiencies will exist in these alternate programs. Students should confer with the graduate advisor about this program.

## Departmental Resources

The CSULB Department of Geological Sciences is very well equipped for a wide variety of field, laboratory, and analytical research. Equipment and facilities include: an 1100 sf geochemistry clean lab with chromatography columns for trace element and isotopic studies, two HP gas chromatographs, a UV spectrophotometer, a CHN elemental analyzer, vacuum extraction lines for oxygen and carbon isotope studies of carbonate and silicate minerals, three X-ray diffractometers, petrographic thin section-making equipment and microdrill system, a fluid inclusion heating/freezing stage, a PIMA portable infrared spectrometer, a marine multi-channel seismic reflection system that includes a digital 24-channel hydrophone streamer and uniboom and sparker energy sources, a total station laser surveying system, a precision GPS receiver and processing software, a high-precision LaCoste-Romberg gravimeter, a land-based seismic reflection/refraction system with weight-drop energy source and 24-channel land seismic data acquisition system, two 8-passenger 4WD field vehicles, Linux workstations and SIOSEIS seismic data processing software, 3D subsurface visualization and mapping software for seismic and well logs (Kingdom Suite; 12-station network license), a 24-station computer lab (PC and Macintosh) with high-speed internet connection, laser printers, a digitizer tablet, a 42" HP color inkjet printer/plotter, GIS software (MapInfo and Arcview), desktop publishing and statistical software. The Department operates the Los Angeles Basin Subsurface Data Center, a well log and subsurface data repository with logs on 14,000 wells in southern California, and offshore seismic data. The Department also has access to three ocean-going research vessels, support staff, and dockside facilities of the Southern California Marine Institute (SCMI), a consortium of several California State University campuses, University of Southern California, and Occidental College.

## Admission to the Program

The basic requirement for admission to the graduate program is possession of a bachelor's degree or equivalent in geology or earth sciences comparable to degrees offered at CSULB. The student normally will be expected to have completed as an undergraduate acceptable work in certain basic lower division and upper division subjects. Lower division subjects include calculus, calculus-based physics, chemistry, biology, computer programming and statistics. Upper division subjects depend on the degree emphasis and sub-discipline to be followed by the student, and generally include (but may not be limited to) courses required by the corresponding undergraduate emphases. Students who are missing some of this course work may be admitted to the program but will be expected to remove deficiencies or present acceptable alternatives.

In addition to the above course work requirements, students are required to take the General test of the Graduate Record Examination and to submit three letters of recommendation prior to entry.

Prospective graduate students in the geological sciences, including CSULB graduates, must formally apply for admission to CSULB as described previously in this *Catalog* and must also apply directly to the Department of Geological Sciences. All applicants must submit the following documents directly to the Department no later than July 1 for the fall semester or December 1 for the spring semester to receive consideration for admission:

1. Department Application Form, available from the Department Office;
2. Official transcripts of all college level academic work including that done at CSULB, in addition to those transcripts required for general graduate admission to CSULB;
3. Three letters of recommendation from persons familiar with the applicant's academic performance and research potential;
4. Official reports of scores on the General test of the Graduate Record Examination.

A limited number of assistant/associateships are available to fund graduate studies in the Department of Geological Sciences. Applicants wishing to be considered for one of these positions must submit all application materials to the Department Office no later than July 1 for the Fall semester or December 1 for the Spring semester.

Students not meeting the Department's admissions standards or application requirements may be admitted on probationary status on a case-by-case basis. Those students will be expected to maintain the same high academic standards as fully admitted students. After two semesters, students admitted on probationary status will be re-evaluated for full admission to the Department.

## Initiation of Graduate Study

Students are responsible for all University and Department regulations governing master's degrees as outlined in this *Catalog*. The regulations governing the degree are those in effect at the time of advancement to candidacy. Until that time, students are governed by the most current *Catalog*. The advising of incoming graduate students is carried out by the graduate advisor, who explains the requirements of the program and carries out initial academic advising. It is required that the student arrange for this initial advising before or during his/her first semester.

All entering students must take GEOL 500 (Introductory Graduate Seminar) during their first Fall semester. This course consists of faculty-given seminars that introduce new students to the Department and to the faculty and their research. One purpose of this is to encourage the student to find a thesis topic and thesis advisor by the end of the second semester. This is done with the help of the graduate advisor once the student has chosen a sub-discipline or option in which to specialize.

Students are required to maintain a GPA of 3.0 or higher at all times. If at any time a student's GPA drops below 3.0, that student will immediately be placed on probation for a maximum of two semesters. If the student does not bring the GPA back up to 3.0 during the probationary period, he/she will not be allowed to continue as a graduate student in this Department. In order for a student to regain status in the Department after failing to maintain this academic standard, he/she must formally reapply for Department admission.

### Advancement to Candidacy

A student must have been advanced to candidacy before initiating formal thesis research necessary to complete the M.S. degree. Students are expected to be advanced by the end of their fourth semester. Students may petition the Department for an extension of the four semester time limit on a semester by semester basis. Students should be aware, however, that they are at risk of not receiving credit toward their graduate programs for research started or courses taken prior to advancement. Students must have fulfilled the Graduation Writing Assessment Requirement (GWAR) and have advanced to candidacy before they apply for graduation. Requests to graduate must be received during the preceding May for Spring/Summer graduation or preceding December for Fall graduation. Filings after the deadlines are not accepted.

Before advancement can proceed, a thesis topic, committee, and graduate program consisting of at least 30 units (see below) must be established by the student and the prospective thesis committee chair. In addition, the following requirements must be met:

1. Prior completion of all deficiencies or incompletes. This includes courses required in the undergraduate major for the emphasis in which the student is pursuing graduate research, as well as additional courses specified by the thesis advisor.
2. Completion of six units of graduate level courses with a 3.0 or higher grade point average and attainment of a 3.0 or higher grade point average in all upper division and graduate work attempted, as well as in courses to be listed in the student's graduate academic program (see below).
3. A passing grade in GEOL 500.
4. Satisfying the Graduation Writing Assessment Requirement (GWAR).
5. Successful completion of an oral qualifying examination given by the student's thesis committee, and acceptance of a written proposal for the thesis research. The student's thesis topic will be the subject of the examination.

Once the above requirements are met, advancement to candidacy proceeds with approval of the committee, graduate advisor, Department Chair and Associate Dean for Graduate Accountability in the College of Natural Sciences and Mathematics. After the student has been advanced, no course work in addition to that specified in the graduate program may be required of the student. In order for a student to change thesis director, topic, committee members, or courses in the graduate program, approval must be obtained. Under some circumstances this may mean that additional courses are required.

### Requirements of Graduate Academic Program

The graduate academic program consists of at least 30 units of courses and is finalized when the student advances to candidacy. Although courses that will eventually become part of the student's academic program may be taken before advancement, it is strongly recommended that students make up any undergraduate deficiencies first, and then advance as early as possible. The program proposed by the thesis committee chair and the student must be approved by the thesis committee, Graduate Advisor, Department Chair, Associate Dean for Graduate Accountability and Dean of Graduate Studies. Six units of GEOL 698 (Thesis) must be taken as part of the program. Directed Research, GEOL 697, may account for up to three units, but normally cannot be taken before the student completes 12 units of the graduate program with a grade point average of 3.0 or higher.

A minimum of 18 units of 500 or 600 level courses, including Thesis, must be completed; the remaining units (12 or less) may be 300, 400, 500, or 600 level courses, although courses at 300 level in the Department may not be used in the program. Units may be taken at other universities if suitable courses are not offered at CSULB. Appropriate courses from related areas in science, mathematics, or engineering may be substituted within limits with consent of the Department.

### Thesis Defense

All M.S. students are required to submit a thesis that conforms to the University and Department guidelines. The thesis should document the systematic study of a significant geological problem; evidence originality and critical, independent thinking; and conform to appropriate and accepted organization, format, and writing style. Each student should discuss thesis format with his/her thesis committee chair.

All M.S. students are also required to present the results of their research orally. With prior approval, this presentation can take one of many possible formats, including a departmental seminar, a presentation at a regional or national meeting, or a formal thesis defense. The student must schedule his/her presentation at least two weeks in advance, and with the approval of the thesis committee chair (and thesis director). The date of the presentation must precede the filing deadline for the semester in which the student plans to graduate.

## Courses (GEOL)

### Lower Division

#### 102. General Geology (3)

Prerequisites: Completion of or concurrent enrollment in a course that fulfills the A.1 GE requirement and three years of high school mathematics including algebra, geometry, and intermediate algebra (or MATH 10) or the equivalent. Broad based introductory study of geology. Includes the structure, composition, distribution, and modification of earth materials and also the elementary geologic history of the Earth. Not open to students with credit in GEOL 103 or 107. Concurrent enrollment in GEOL 104 or 105 recommended. (Lecture, demonstration 3 hrs.) (GEOL 102+104, CAN GEOL 2)

#### 104. Geology Laboratory (1)

Prerequisites: Completion of or concurrent enrollment in a course that fulfills the A.1 GE requirement and three years of high school mathematics including algebra, geometry, and intermediate algebra (or MATH 10) or the equivalent, and concurrent or prior enrollment in GEOL 102. Laboratory study of earth materials. (Laboratory 3 hrs.) Course fee may be required. (GEOL 104+102, CAN GEOL 2)

#### 105. Geology Field Laboratory (1)

Prerequisites: Completion of or concurrent enrollment in a course that fulfills the A.1 GE requirement and three years of high school mathematics including algebra, geometry, and intermediate algebra (or MATH 10) or the equivalent, and concurrent or prior enrollment in GEOL 102. Field trips to areas of geologic significance and field study of earth materials. May be repeated to a maximum of 3 units with consent of instructor. (Field trips, 6 days per unit.) Course fee may be required for bus trips.

#### 106. Earth Science for Teachers (4)

Prerequisites: Completion of or concurrent enrollment in a course that fulfills the A.1 GE requirement and three years of high school mathematics, including algebra, geometry, and intermediate algebra (or MATH 10) or the equivalent. Broad based introductory study of earth science, including geology, oceanography, meteorology, and solar system astronomy. Includes study of earth materials, elementary geologic history, ocean basins and coastlines, weather and climate, pollution and earth resources, geology of the planets, laboratory study of rocks and minerals maps, and simple scientific instruments. Discussion of the scientific method. Introduction to methods of teaching science to K-8 pupils. Letter grade only (A-F). (Lecture, demonstration 3 hours., laboratory 3 hrs., field trips.)

#### 160. Introduction to Oceanography (3)

Prerequisites: Completion of or concurrent enrollment in a course that fulfills the A.1 GE requirement and three years of high school mathematics including algebra, geometry, and intermediate algebra (or MATH 10) or the equivalent. Origin and extent of the oceans; nature of the ocean floor, cause and effect of currents, tides and waves; and life in the sea. (Lecture, discussion 3 hrs.)

#### 160L. Introduction to Oceanography Laboratory (1)

Prerequisites: Completion of or concurrent enrollment in a course that fulfills the A.1 GE requirement and three years of high school mathematics including algebra, geometry, and intermediate algebra (or MATH 10) or the equivalent; and previous credit or concurrent registration in GEOL 160. Field and laboratory study of the marine environment. Sea trips for experience in the use of oceanographic instruments. Analysis and interpretation of results. (Laboratory-field 3 hrs.) Course fee may be required.

#### 190. Environmental Geology (3)

Prerequisites: Completion of or concurrent enrollment in a course that fulfills the A.1 GE requirement and three years of high school mathematics including algebra, geometry, and intermediate algebra (or MATH 10) or the equivalent. Interrelationships between humans and hazards: landslides, floods, erosion, subsidence, volcanism, earthquakes, and seismic sea waves. Origin of resources and impacts of resource development: water, soils, and energy. Waste and waste disposal. (Lecture 3 hrs.)

#### 191. Air and Water Pollution (3)

Prerequisites: Completion of or concurrent enrollment in a course that fulfills the A.1 GE requirement and three years of high school mathematics including algebra, geometry, and intermediate algebra (or MATH 10) or the equivalent. Survey course dealing with the causes and nature of pollution of the air, groundwater, fresh water lakes and streams, and the ocean. Effects of air and water pollution on the environment. (Lecture 3 hrs.)

#### 240. Historical Geology (4)

Prerequisites: GEOL 106 or both GEOL 102, 104. History of the earth and evolution of animals and plants. (Lecture 3 hrs., laboratory 3 hrs., field trips.) (CAN GEOL 4)

#### 250. Introduction to Field Petrology and Geological Field Techniques (3)

Prerequisites: GEOL 102 with 104 or 105; or GEOL 106; all with grades of "C" or better. Corequisite: GEOL 240. Introduction to field petrology that includes the identification and description of igneous, sedimentary, and metamorphic rocks. Development of fundamental geological field techniques that includes the recording, collection, and interpretation of geological field data. Creation and interpretation of geological maps, writing technical reports, and construction of geological illustrations. Letter grade only (A-F). (Lecture 1 hour, weekend field trips.)

#### 273. Computer and Statistical Methods in Geology (4)

Prerequisites: GEOL 240, PHYS 151, MATH 123. An elementary background in computers is recommended. Introduction to statistical theory, computer programming, and the use of computer-based statistical and graphical packages as applied to problem-solving in the geological sciences. Letter grade only (A-F). (Lecture 2 hrs., laboratory 6 hrs., field trips.)

#### 280. Water Resources and Society (3)

Prerequisites: GEOL 102, 104. A grade of "C" or better in MATH 117, or four years of high school mathematics. Hydrologic, geologic, and other factors controlling groundwater and surface water occurrence, movement, quality, and contamination. Environmental effects of groundwater and surface water contamination. (Lecture 3 hours; field trips)

### Upper Division

#### 300I. Earth Systems and Global Change (3)

Prerequisites: Completion of the G.E. Foundation, upper division status, and CHEM 100 or CHEM 111A or GEOL 102 or GEOL 106 with a grade of "C" or better. Introduction to the interaction of the Earth's systems (biosphere, lithosphere, hydrosphere, cryosphere, and atmosphere). Exploration of the systematic links between life, oceans, climate, and the solid earth, and how these connections control climate change in the past, present, and future. The Earth Systems approach is used to understand important current issues confronting society regarding local and global climatic and environmental change. Letter grade only (A-F). (Lecture 3 hrs.)

#### 303. Coastal Systems and Human Impacts (3)

Prerequisites: Completion of the G.E. Foundation, one or more Explorations courses, and upper-division standing; BIOL 200; GEOL 102 or 160. Defines and describes natural processes impacting human activities in the coastal zone and how human practices influence natural processes. Topics include global warming, sea level rise, El Nino, port development, ocean outfalls and water quality, fisheries, and coastal erosion. May not apply units towards elective requirements of Geology and Earth Science majors. Same course as BIOL 303. Letter grade only (A-F). (Lecture 3 hrs.)

**322. Crystallography, Mineralogy and Optical Methods (5)**  
Prerequisites: GEOL 250; CHEM 111A. Corequisite or prerequisite: PHYS 151. Review of morphological and structural crystallography, crystal structure, chemistry, classification, origin, occurrence, and association of minerals. Analysis and identification of minerals by megascopic, qualitative, chemical, and instrumental means. Review of optical properties of minerals including basics of the nature of light. Use of petrographic microscope in mineral identification. Letter grade only (A-F). (Lecture 3 hrs., laboratory 6 hrs., field trip).

**339. Introduction to Geomorphology (3)**  
Prerequisites: GEOL 102 with 104 or 105; or GEOL 106; or GEOG 140. An introduction to the study of landforms and the processes that produce and modify them. Emphasis is placed on the mechanics of geomorphic processes and on the relationships between properties of earth materials and the forces applied to them by gravity, wind, ice, water, waves, and humans. Lectures address the conceptual basis of geomorphology; assignments are practical and empirical. Course is designed for majors in Geology, Geography, Biology, Anthropology, and Civil Engineering. Letter grade only (A-F). (Lecture 2 hrs., laboratory 3 hrs., field trips).

**341. Paleontology and Biostratigraphy (4)**  
Prerequisites: GEOL 240 and BIOL 200. Morphologic, systematic, and ecologic aspects of invertebrate fossils; methods and techniques in the collection, preparation, illustration, and description of fossils; uses of fossils in stratigraphic work; principles of biostratigraphy. (Lecture 3 hrs., laboratory 3 hrs., field trips.) Course fee may be required.

**364. Introduction to Geological Oceanography (2)**  
Prerequisites: GEOL 102 or 160; and CHEM 111A or MATH 122, or consent of instructor. Topography and structure of the ocean floor. Waves, currents, and tides as agents of sedimentation. Effect of geological processes on the sea floor environment. Tectonic and sedimentary history of ocean basins and continental margins. Shipboard techniques in marine geology. (Lecture 2 hrs.; sea trips.)

**364L. Laboratory in Geological Oceanography (1)**  
Prerequisite or corequisite: GEOL 364. Analytical and data collecting techniques in marine geology. Chart reading and navigation. Bottom and subbottom profiling. Sample collecting methods and their applicability. Laboratory analysis of bottom samples. Interpretation of data from geologically significant localities visited by research ship. (Laboratory 3 hrs.; sea trips.)

**370. Engineering Geology (2)**  
Prerequisites: MAE 172, CE 130. Earth processes and materials which influence the design, construction and operation of engineering works, construction materials. Not open for credit to geology majors. (Lecture 2 hrs., field trips.)

**\*420. Geowriting (3)**  
Prerequisites: Upper division or graduate standing in the College of Natural Sciences and Mathematics; ENGL 100 or equivalent; fulfillment of the GEAR and a course in geology; consent of instructor. Covers major types of scientific writing aimed at a scientific audience with emphasis on writing scientific content at an advanced level. Journal articles and abstracts will be covered in detail. Topics include handling descriptive scientific data, the distinction between data and interpretation, logic and argument, clarity of style, and writing for specific audiences. Requires extensive independent writing. Enrollment limited. Letter grade only (A-F). (Lecture 3 hrs.)

**422. Advanced Mineralogy (4)**  
Prerequisites: GEOL 322; CHEM 111B. Advanced study of minerals and their crystal structure with emphasis on non-silicate minerals of importance to sedimentary petrology and economic geology. Methods of study include physical and optical properties, flame and fusion techniques, and X-ray diffraction. Extensive training in optical mineralogy. Coverage of native elements through organic compounds. Lunar mineralogy. Review of gemology. Letter grade only (A-F). (Lecture 2 hrs., laboratory 6 hrs., field trip.)

**424./524. Sedimentary Petrology (4)**  
Prerequisites: GEOL 322 and 443. (Undergraduates enroll in GEOL 424; graduates enroll in GEOL 524.) Microscopic and macroscopic study of sedimentary rocks. Identification of grain types, textures, structures, and cements with emphasis on provenance, paleotectonics, paleoenvironmental reconstructions, and diagenesis. Letter grade only (A-F). (Lecture 3 hrs., laboratory 3 hrs.)

**428. Igneous and Metamorphic Petrology and Petrography (4)**  
Prerequisites: GEOL 322; CHEM 111A,B; PHYS 151, 152; MATH 122, 123. Characteristics of magmatic and metamorphic rock bodies and systems, including mineralogical and chemical aspects. Origin of fabrics, evolution of igneous and metamorphic rocks, modeling of magma genesis. Laboratory microscopic and hand specimen analysis of rocks, including fabric and mineral content. X-ray analysis of rocks. Letter grade only (A-F). (Lecture 2 hrs., laboratory 6 hrs., and field trips)

**430./530. Seminar in Structural Geology and Tectonics (3)**  
Prerequisite: GEOL 433. (Undergraduates enroll in GEOL 430; graduates enroll in GEOL 530.) Critical review of selected topics concerning the analysis, interpretation and origin of geologic structures, the mechanics of rock deformation and of large scale crustal deformation. (Lecture 2 hrs., laboratory 3 hrs.; field trips.)

**431./531. Tectonic Geomorphology (4)**  
Prerequisite: GEOL 433. (Undergraduates enroll in GEOL 431; graduate students enroll in GEOL 531.) Observation and analysis of Earth surface processes and the development of landforms and landscape. Study of the interaction between surficial processes and tectonic, biologic, hydrologic, climatic, and atmospheric processes. Emphasis on the study of tectonic generated landforms, evaluation of earthquake hazards, and geomorphic assessment. Methods and techniques to assess real problems in the study of landforms and applications to environmental hazards. Letter grade only (A-F). (Lecture 2 hrs., laboratory 6 hrs., field trips.)

**433. Structural Geology (5)**  
Prerequisites: GEOL 240, 250, 273, 322; PHYS 151, 152. Basic theory and principles of structural geology, orogenesis, and tectonics. Planar and linear structures in naturally deformed rocks. Faults and folds, their description, classification, interpretation, and kinematic and dynamic analysis. Field measurement, analysis and mapping of structures. Deformation, strength, fracture, and rheological properties of rocks. Letter grade only (A-F). (Lecture 3 hrs., laboratory 3 hrs., field trips.)

**443. Stratigraphy/Sedimentology (5)**  
Prerequisites: GEOL 240, 322, and 428. Introduction to sedimentology and stratigraphy, flow mechanics and sedimentary structures, laboratory and field methods for the description and classification of sedimentary rocks, depositional systems, sequence stratigraphy, subsurface stratigraphic methods, sedimentation and tectonics, and preparation of sedimentologic field reports. Letter grade only (A-F). (Lecture 3 hrs., laboratory 3 hrs., field trips.)

**450. Summer Field Geology (4)**  
Prerequisites: GEOL 428, 433, and 443. Four weeks of geological field mapping at a selected area. Preparation of geological reports of the field problems. (Lecture as needed, daily field work.) Course fee may be required.

**452. Advanced Topics in Marine Geology (3)**  
Prerequisites: GEOL 364, 364L. Corequisite or prerequisite: GEOL 460. Advanced course stressing field collection of data and samples, analysis of data in laboratory, and completion of report. Individual topics will be selected. Lectures on advanced topics in marine geology: structure and composition of oceanic lithosphere, continental margin structure and evolution, seismic stratigraphy, paleoceanography, critical events in world ocean history, and advanced sampling and geophysical techniques. Letter grade only (A-F). (Lecture 1 hr., laboratory 3 hrs., 5 days of sea trips.)

**\*460. Introduction to Geophysics (3)**

Prerequisites: PHYS 151, 152; MATH 123; and GEOL 273. Introduction to geophysics; principles and processes; methods of investigation. Letter grade only (A-F). (Lecture 2 hrs., laboratory 3 hrs., field trips.)

**\*461. Introduction to Geochemistry (3)**

Prerequisites: CHEM 111A,B and MATH 123. Abundance and migration of elements in the earth; chemical processes in the evolution of the earth and its crust including geochemistry of organic compounds. Letter grade only (A-F). (Lecture 2 hrs., laboratory 3 hrs.)

**\*462. Physics and Chemistry of the Earth's Interior (3)**

Prerequisites: GEOL 240, 428; PHYS 152. Structure and composition of the Earth's interior. Origin and evolution of the Earth. Review of geophysical data, petrologic analyses, and other types of evidence for Earth structure and compositional models. Letter grade only (A-F). (Lecture 3 hrs.)

**465./565. Physical and Chemical Oceanography (3)**

Prerequisites: CHEM 111B; PHYS 100B, and upper division standing in the College of Natural Sciences and Mathematics or Engineering. (Undergraduates enroll in GEOL 465; graduates enroll in GEOL 565.) Physical and chemical oceanography; the carbonate cycle; minor elements and micronutrient elements in sea water; water masses of the oceans; the physical concepts and interpretative theories related to ocean circulation. (Lecture 3 hrs.)

**\*466. Oceanography Laboratory and Ocean Studies (1)**

Prerequisite: Concurrent or prior enrollment in GEOL 465. Instruments and techniques in physical and chemical oceanography; sea trips to areas of oceanographic significance, water quality analysis and interpretation of oceanographic data. Not open to students with credit in GEOL 462. (Laboratory 3 hrs., sea trips.)

**\*471. Petroleum Geology and Well Log Analysis (4)**

Prerequisites: GEOL 240, 433, and 443. Application of geology to the exploration and production of petroleum, including the uses of both surface and subsurface techniques. Basic well logging techniques as employed in the petroleum (and other) industries, including data collection, reduction, interpretation, and integration among various logging methods as well as with surface geology and geophysical data. (Lecture 2 hrs., laboratory 6 hrs., field trips.)

**477./577. Hydrogeology (3)**

Prerequisites: GEOL 102, 104; CHEM 111B; PHYS 152; MATH 123. (Undergraduates enroll in GEOL 477; graduates enroll in GEOL 577.) Hydrologic, geologic, and other factors controlling groundwater flow, occurrence, development, chemistry, and contamination. Elementary groundwater flow theory. Well hydraulics. Letter grade only (A-F). (Lecture 2 hrs., laboratory 3 hrs.)

**486./586. Engineering Geophysics (3)**

Prerequisite: GEOL 460 (may be taken concurrently). (Undergraduates enroll in GEOL 486; graduates enroll in GEOL 586.) Applications of geophysical techniques to the solution of engineering geology and hydrogeology problems. Review of basic geophysical techniques, and identification and utilization of specialized techniques suitable for the solution of specific problems. Applications and case histories in hazardous waste site evaluations, actively subsiding areas, mapping of basement topography, sea water intrusion problems, mapping of the water table, groundwater contamination, and detection of subsurface cavities. Reading and discussion of research articles; preparation of geophysical feasibility studies in selected engineering environments. Letter grade only (A-F). (Lecture 2 hrs., laboratory 3 hrs.; field trips.)

**\*489. Current Topics in Geological Sciences (3)**

Prerequisite: Consent of instructor. Topics of current interest in the geological sciences selected for intensive development. Topics to be selected from such areas as (a) Volcanology, (b) Urban geology. May be repeated to a maximum of 6 units. Field trips may be required. (Lecture 2 hrs., laboratory 3 hrs.)

**\*490. Current Topics in Geological Sciences (1-3)**

Prerequisite: Consent of instructor. Topics of current interest in the geological sciences selected for intensive development. Topics to be selected from such areas as (K) Economic Mineral Deposits. May be repeated to a maximum of 6 units. Field trips may be required.

**496. Investigations in Geology and Other Earth Sciences (1-4)**

Prerequisites: Senior standing in geology, earth science or related fields, completion of an upper division course in geology or earth science in the area of the topics chosen and approval of the topic chosen by the Geological Sciences faculty. Supervised research in geology or the other earth sciences. Field trips may be required.

**Graduate Level**

**500. Introductory Graduate Seminar (1)**

Prerequisite: Graduate standing. An introduction to graduate policies and faculty research in Geological Sciences. Abstracts on faculty presentations will be required of all students. Course cannot be counted for program requirements for the M.S. degree in Geology. Credit/No Credit grading only. May be repeated to a maximum of 3 units. (Seminar 1 hr.)

**524./424. Sedimentary Petrology (4)**

Prerequisites: GEOL 322 and 443. (Undergraduates enroll in GEOL 424; graduates enroll in GEOL 524.) Microscopic and macroscopic study of sedimentary rocks. Identification of grain types, textures, structures, and cements with emphasis on provenance, paleotectonics, paleo-environmental reconstructions, and diagenesis. Letter grade only (A-F). (Lecture 3 hrs., laboratory 3 hrs.)

**530./430. Seminar in Structural Geology and Tectonics (3)**

Prerequisite: GEOL 433. (Undergraduates enroll in GEOL 430; graduates enroll in GEOL 530.) Critical review of selected topics concerning the analysis, interpretation and origin of geologic structures, the mechanics of rock deformation and of large scale crustal deformation. Letter grade only (A-F). (Lecture 2 hrs., laboratory 3 hrs.; field trips.)

**531./431. Tectonic Geomorphology (4)**

Prerequisite: GEOL 433. (Undergraduates enroll in GEOL 431; graduate students enroll in GEOL 531.) Observation and analysis of Earth surface processes and the development of landforms and landscape. Study of the interaction between surficial processes and tectonic, biologic, hydrologic, climatic, and atmospheric processes. Emphasis on the study of tectonic generated landforms, evaluation of earthquake hazards, and geomorphic assessment. Methods and techniques to assess real problems in the study of landforms and applications to environmental hazards. Letter grade only (A-F). (Lecture 2 hrs., laboratory 6 hrs., field trips.)

**537. California Geology (3)**

Prerequisites: GEOL 433, 450. Examination of recent theories concerning the evolution of California's geological provinces; geological, geochemical, and geophysical evidence for these theories. Letter grade only (A-F). (Lecture 3 hrs., field trips.)

**554. Environmental Geochemistry (3)**

Prerequisites: Graduate standing in geology, a course in instrumental analytical methods, and consent of instructor. Geochemical cycles. Human interference with cycles. Trace elements, health and agriculture. Clay mineral reactions. Groundwater chemistry. Reading and discussion of research articles; projects in environmental geochemistry. Letter grade only (A-F). (Lecture 3 hrs., field trips.)

**556. Organic Geochemistry (3)**

Prerequisites: CHEM 111B; GEOL 240. Exchange of organic matter among sediments, hydrosphere, and biosphere. Diagenesis and catagenesis and their effects on different types of organic matter. Origin of coal and crude oil. Thermal maturity of sedimentary rocks. Letter grade only (A-F). (Lecture 3 hrs.)

**565./465. Physical and Chemical Oceanography (3)**

Prerequisites: CHEM 111B; PHYS 152 or 100B, and upper division standing in the College of Natural Sciences and Mathematics or Engineering. (Undergraduates enroll in GEOL 465; graduates enroll in GEOL 565.) Physical and chemical oceanography; the carbonate cycle; minor elements and micronutrient elements in sea water; water masses of the oceans; the physical concepts and interpretative theories related to ocean circulation. Letter grade only (A-F). (Lecture 3 hrs.)

**570. Special Topics in Geology (1-3)**

Prerequisite: Consent of instructor. Investigation of selected topics in geology. May be repeated to a maximum of 6 units toward any single degree with different topics. Seminars with laboratories as appropriate. Letter grade only (A-F).

**575. Advanced Topics in Sedimentology (1-4)**

Prerequisites: Consent of instructor. Investigation of selected topics in sedimentology such as depositional facies analysis, basin evolution, coastal processes, fluvial processes, advanced stratigraphic analysis, and tectonics and sedimentation. Course content varies from year to year. May be repeated to a maximum of 4 units toward any single degree with different topics. Seminars with labs and/or field work as appropriate. Letter grade only (A-F).

**576. Practicum in Geohydrology (3)**

Prerequisite: Consent of the instructor; the student should have a fundamental understanding of aquifer mechanics, organic chemistry, stratigraphy, and geohydrology. Solution of actual problems in the areas of water supply and resource contamination. A combination of field techniques, problem approaches, and quantitative analysis will be used to solve comprehensive problems in a fixed period of time to simulate industry conditions. Letter grade only (A-F). (Seminar and field trips, 3 hrs.)

**577./477. Hydrogeology (3)**

Prerequisites: GEOL 102, 104; CHEM 111B; PHYS 152; MATH 123. (Undergraduates enroll in GEOL 477; graduates enroll in GEOL 577.) Hydrologic, geologic, and other factors controlling groundwater flow, occurrence, development, chemistry, and contamination. Elementary groundwater flow theory. Well hydraulics. Letter grade only (A-F). (Lecture 2 hrs., laboratory 3 hrs.)

**578. Groundwater Hydraulics (3)**

Prerequisites: GEOL 477/577; MATH 364A. Advanced treatment of groundwater flow through granular porous and fractured media; analytical solutions to groundwater flow problems; hydraulics of wells and aquifer parameter estimation. Letter grade only (A-F). (Lecture 3 hrs.)

**585. Advanced Gravity and Magnetism (3)**

Prerequisites: MATH 224; PHYS 152; GEOL 460. Advanced topics in the gravity and magnetic methods of geophysical prospecting. Letter grade only (A-F). (Lecture 2 hrs., laboratory 3 hrs., field trips.)

**586./486. Engineering Geophysics (3)**

Prerequisite: GEOL 460 (may be taken concurrently). (Undergraduates enroll in GEOL 486; graduates enroll in GEOL 586.) Applications of geophysical techniques to the solution of engineering geology and hydrogeology problems. Review of basic geophysical techniques, and identification and utilization of specialized techniques suitable for the solution of specific problems. Applications and case histories in hazardous waste site evaluations, actively subsiding areas, mapping of basement topography, sea water intrusion problems, mapping of the water table, groundwater contamination, and detection of subsurface cavities. Reading and discussion of research articles; preparation of geophysical feasibility studies in selected engineering environments. Letter grade only (A-F). (Lecture 2 hrs., laboratory 3 hrs.; field trips.)

**697. Directed Research (1-3)**

Prerequisite: Consent of instructor. Research on a specific subject in geology. Topic for study to be approved and directed by a faculty member in geological sciences. Letter grade only (A-F).

**698. Thesis (1-6)**

Prerequisite: Advanced to candidacy for M.S. in Geology, consent of Graduate Committee and graduate advisor. Either laboratory or field investigations, or both, for a total of six semester units to culminate in an approved thesis. Letter grade only (A-F).

- To provide professional field experiences in gerontology in order to enhance understanding of concepts, themes, and skills related to aging at various life stages, within different gender and racial/ethnic groups and among people with various abilities.
- To provide knowledge and skills necessary to plan develop and implement innovative programs to meet the needs of the State's vast and growing aging population.
- To explore aging-related professional values and ethics.

The Gerontology Program is enhanced by the Gerontology Faculty Interest Group, the Center for Successful Aging and a chapter of Sigma Phi Omega, the National Honor Society in Gerontology.

The Gerontology Faculty Interest Group is comprised of about 50 CSULB faculty members representing more than 20 disciplines. Members teach courses essential to the Gerontology Program, conduct gerontological research, and provide training and service. Lecturers and emeritus faculty members also are active in the Gerontology Program.

The Center for Successful Aging is part of a complex of Centers and organizations on the campus of California State University, Long Beach that are involved with aging-related issues. The Center for Successful Aging is a transdisciplinary academic/community partnership to promote collaborative innovations in education, practice, policy development and research related to aging, in a culturally diverse society.

Students in the gerontology program are eligible for membership in Sigma Phi Omega, the national academic honor and professional society in gerontology that recognizes the excellence of those who study gerontology/aging and the outstanding service of professionals who work with or on behalf of older persons.

CSULB is one of only a few California campuses to offer graduate programs to meet the State's need for educated, experienced and diverse professional gerontologists. To accomplish this goal, two programs of study are offered: A Master of Science in Gerontology and a Gerontology Certificate.

## Master of Science in Gerontology (code FCS\_MS02)

*Interested students should contact Dr. Barbara White at 562-985-1582 or bwhite@csulb.edu*

The Master of Science Degree in Gerontology is designed to prepare students with a thorough background in existing theory and research in gerontology, advanced principles of program management, and an enhancement to their baccalaureate preparation for their professional discipline. Students who complete the M.S. in Gerontology will accomplish the following objectives:

1. Acquire advanced education and professional training in gerontology in order to become administrators of state and federal programs, services such as senior centers and retirement homes, businesses, and intergenerational programs.
2. Enhance cultural competence regarding age, cohort, gender, race and ethnicity, and/or diverse abilities.

**G**erontology is the scientific study of the processes and phenomena of aging, including biological, psychological and sociological dimensions. Mission: The California State University, Long Beach, Gerontology Program is dedicated to 1) improving the lives of middle age and older individuals in California and around the world by preparing students to work with diverse older adults, families, service providers, businesses, educators, and legislators; 2) providing timely, high quality training, consultation and other services; and 3) conducting research designed to inform planning and implementation of activities that promote optimal well-being of older adults and their families.

The Gerontology Program's objectives are:

- To provide a flexible interdisciplinary curriculum that provides new and seasoned professionals with the competencies necessary for success in the field of aging.
- To provide experiential as well as didactic graduate education and professional training in gerontology for individuals planning to become professionals in public and private agencies.

3. Acquire expertise in planning, developing, implementing, and evaluating innovative programs to meet the needs of older persons.
4. Demonstrate the ability to conduct appropriate research.
5. Exercise sound professional judgment based on high ethical standards and expectations.

#### Admission Requirements

1. Complete the application form to be admitted to the university with graduate standing;
2. Send the following materials to the Gerontology Program, in addition to those sent to the Office of Enrollment Services:
  - a. Transcripts of all undergraduate and graduate work,
  - b. Three letters of recommendation reflecting academic potential, personal qualifications, sensitivity, motivation, and evidence of ability and motivation to work with older adults and professionals in the field of aging, and
  - c. A current resume,
  - d. A personal statement of interest in aging and career goals in the field.

Admission to the program is contingent on approval by the Gerontology Program Director.

#### Prerequisites

1. A bachelor's degree from an accredited institution.
2. Evidence of a 3.0 or better grade point average in all undergraduate work. Students with less than a 3.0 grade point average in the last 60 undergraduate semester or 90 quarter units attempted but with evidence of professional promise and experiential background may be admitted conditionally by action of the Program Director.
3. Successful completion of the following courses or their approved substitutes: a. GERN 400I; b. BIOL 401; c. PSY 365 or HDEV 357I; d. ANTH 454; e. An approved upper division statistics course.

#### Retention

1. Maintain a 3.0 or better grade point average in all graduate work completed at CSULB and all graduate work transferred to meet graduate requirements.
2. Continued satisfactory progress toward the degree objective.

#### Advancement to Candidacy

1. Satisfy the general University requirements for advancement to candidacy.
2. Fulfill the Graduation Writing Assessment Requirement (GWAR) (to be taken during the first term).
3. Complete a minimum of six units of graduate coursework.
4. Enroll during the semester or summer session in which advancement to candidacy takes place.
5. Obtain approval for one's individual program plan from the Gerontology Program Director and then from the Associate Dean of the College of Health and Human Services.

#### Requirements

*Thesis Option:* Completion of a minimum of 37 units, with at least 28 units of 500 and/or 600 series courses in Gerontology, including GERN 563, 592, 600, 610, 696, 697, and 698. A maximum of six units may be taken outside of the major.

*Directed Project Option:* Completion of a minimum of 37 units with at least 28 units of 500 and/or 600 series courses in Gerontology, including GERN 563, 592, 600, 610, 697, and 692. A maximum of six units may be taken outside the major.

#### Certificate in Gerontology (code FCS\_CT03)

*Interested students should contact Dr. Barbara White at 562-985-1582 or bwhite@csulb.edu*

The Certificate program is designed to train individuals as gerontology specialists within a major area of study. Alumni work in community programs, health services organizations, government agencies, and the private sector.

The Certificate in Gerontology may be earned in conjunction with a baccalaureate degree or awarded subsequent to earning a bachelor's degree. Up to six units of courses taken in the student's major department may be approved to satisfy certificate requirements as may general education and elective courses also used to complete the bachelor's degree.

#### Requirements

1. A bachelor's degree (may be taken concurrently).
2. 24 units distributed as follows: GERN 400I, ANTH 454, BIOL 401, PSY 365 or HDEV 357I.
3. A minimum of six units chosen in consultation with the Gerontology Program Director from a list of supporting courses.
4. Three units of independent study (GERN 497) on a topic related to gerontology.
5. Three units of approved field experience (GERN 492) in a gerontology setting.
6. Early consultation with, and approval by the Gerontology Director for, the individual program of study.
7. Apply for issuance of the earned Certificate at Enrollment Services the term before completion of the baccalaureate and/or Certificate.

Successful completion of the program will result in the Program Director's recommendation for issuance of the Certificate in Gerontology.

#### Courses (GERN)

##### 400I. Perspectives on Gerontology (3)

Prerequisites: Completion of the General Education Foundation, one or more Explorations courses, and upper-division standing. Multidisciplinary approach to the study of middle age and aging including physiological, psychological, and sociological aspects. Exploration of the effects of culture and of environment on the aging of individuals and groups. Examples of topics include history; demographics; normal and disease-based sensory, cognitive, and health changes; housing and long-term care issues; work, retirement, and income; frauds and scams targeting older adults; and public policy issues. (Lecturer-discussion, 3 hours.)

##### 420./520. Personal Finance for the Aging (3)

Prerequisites: 400-level course in Consumer Affairs or consent of instructor. Provides an understanding of operations of personal finance as applied to the aging population. Topics include public and private sources of income, living expenses, public and private sources of assistance, personal budget systems, financial planning, legal rights of the aged affecting their personal finances, and financial counseling for the aging. Same course as FCS 420./520. (Lecture-discussion 3 hrs)

**\*424. Independent Living for Disabled and Elderly Persons (3)**  
Prerequisite: FCS 321 or 322 or GERN 400I or consent of instructor. Independent living concepts related to physically and/or functionally disabled adults. Personal, environmental and programmatic responses to disability and aging. Activities include individual and group projects and site visits to such locations as an adapted private home, an Independent Living Center, a "special clothing" manufacturer, and a multipurpose rehabilitation center. Same course as FCS \*424. Letter grade only (A-F). (Lecture/Activity, 3 hours.)

**430./530. Aging and Dementia (3)**

Prerequisites: GERN 400I, HDEV 357I or PSY 365, or graduate standing, or consent of instructor. An examination of physiological, psychological, social and economic aspects of dementia and its impact on the individual, the family and society. Community resources, current research and policy issues are included, with a particular emphasis on Alzheimer's disease.

**\*439. Nutrition and Aging (3)**

Prerequisites: FCS 232 or BIOL 207 or consent of instructor. Nutritional needs as related to physiological changes that occur during aging. Factors that influence food intake and nutritional status of the elderly. Diet adaptation for chronic diseases commonly found in older people. Same course as FCS \*439. (Lecture-discussion, 3 hours.)

**469./569. Disability, Culture and Society: Issues and Social Intervention (3)**

Prerequisites: Senior or graduate status. This is a course using interdisciplinary work about disability as a social construct. Utilizing an oppressed group model, the course will examine society's policies and practices to understand the experience of disability. Includes historical and contemporary perspectives as well as future issues. Social and clinical intervention methods, and program and information resources are covered. Same course as REC 469/569 and S W 469/569. Letter grade only (A-F).

**\*474. Aging and Diversity in California (3)**

Prerequisites: GERN 400I, or consent of instructor. This is an experiential course in which students undertake projects that are meaningful to diverse California elders, that build long-term skills, and that are timely. Professionals in the field of aging discuss their career paths, their local aging networks, and how the diverse physical, social, economic, cultural and political climates of the State and region shape current aging-related events, trends, issues and programs. At least two off-campus field trips are required. (Lecture-activity 3 units.)

**\*482. Health Assessment of the Aging Client (3)**

Prerequisites: GERN 400I or equivalent and upper division standing or consent of instructor. Assessment of the physical, psychological and social status of the aging client as these factors affect health and well being. Course is designed to assist those working with the aging client in a variety of setting to identify actual or potential health related problems using a variety of tools and techniques. Same course as NRS\*482. (Lecture-discussion, 3 hours.)

**\*485. Mental Health and Aging (3)**

Prerequisites: GERN 400I, HDEV 357I or PSY 365, ANTH 454, and BIOL 401, or consent of instructor. Variations in the mental health status of older adults over time and within subgroups. Discussion of changing societal responses (e.g., how and why diagnoses and assessments of competence shift over time). Exploration of the most frequent mental health issues of older adults. Comparison of medical and non-medical therapeutic approaches to older adults' mental health issues. Two off-campus site visits required. (Seminar 3 hours.)

**492G. Internship in Gerontology (3)**

Prerequisites: Student must be a Gerontology Certificate candidate; have senior standing; have a 2.5 overall GPA or a 3.0 major GPA; approval of the Gerontology program director; and GERN 400I, ANTH 454, PSY 365 or HDEV 357I. Each prerequisite course must be completed with a grade of "C" or better. A course in which a grade lower than "C" is received must be retaken and successfully completed prior to enrolling in any course for which it is a prerequisite. A student receiving a grade lower than a "C"

may proceed with other courses with approval of the Area Coordinator. Field experience of 120 hours in which the student assumes a pre-professional role in an agency, business or other community setting. Internship supervisors monitor and evaluate student work based on preestablished criteria stated in the internship contract. The preestablished criteria in the contract consist of objectives developed by the student in consultation with the supervisor. The objectives and the placement site must be approved by the student's faculty advisor and the internship coordinator. Students evaluate the internship at the end of the experience. May be repeated to a maximum of 6 units. Same as FCS 492G. (Seminar 3 hours.)

**497. Directed Studies (1-3)**

Prerequisites: GERN 400I, ANTH 454, PSY 365, or HDEV 357I, upper-division standing and consent of program director. Independent study under the supervision of a faculty member. Exploration and experience supplementing and/or complementing regular courses. May be repeated to a maximum of 6 units.

**\*499. Special Studies (1-3)**

Group investigation of topics of current interest in gerontology. Topics to be announced in the *Schedule of Classes*. May be repeated to a maximum of 6 units with different topics.

**Graduate Level**

**520./420. Personal Finance for the Aging (3)**

Prerequisites: 400-level course in Consumer Affairs or consent of instructor. Provides an understanding of the operations of personal finance as applied to the aging population. Topics include public and private sources of income, living expenses, public and private sources of assistance, personal budget systems, financial planning, legal rights of the aged affecting their personal finances, and financial counseling for the aging. Same course as FCS 520./420. Letter grade only (A-F). (Lecture-discussion 3 hours.)

**530./430. Aging and Dementia (3)**

Prerequisites: GERN 400I, HDEV 357I or PSY 365, or graduate standing, or consent of instructor. An examination of physiological, psychological, social and economic aspects of dementia and its impact on the individual, the family and society. Community resources, current research and policy issues are included, with a particular emphasis on Alzheimer's disease.

**550. Social Policy and Aging (3)**

Prerequisite: GERN 400I, HDEV 357I or PSY 365, and ANTH 454 or consent of instructor. Major legislation and policies affecting older Americans. Analyses of policy information and change, kinds of data, and social forces that affect development and implementation of aging-related policies and legislation.

**563. Evaluation in Family and Consumer Sciences and Gerontology (3)**

Prerequisites: Upper division or graduate course in statistics; GERN 696 (may be taken concurrently) or equivalent. Principles, design, and methods of program evaluation for use by Family & Consumer Sciences and Gerontology professionals. Selection and development of instrumentation for data collection and interpretation and methods of reporting. Letter grade only (A-F). (Seminar 3 hours.) Same course as FCS 563.

**569./469. Disability, Culture and Society: Issues and Social Intervention (3)**

Prerequisites: Senior or graduate status. This is a course using interdisciplinary work about disability as a social construct. Utilizing an oppressed group model, the course will examine society's policies and practices to understand the experience of disability. Includes historical and contemporary perspectives as well as future issues. Social and clinical intervention methods, and program and information resources are covered. Same course as REC 569/469 and S W 569/469. Letter grade only (A-F).

**592. Internship in Family and Consumer Sciences/ Gerontology (3)**

Prerequisite: Graduate standing and consent of instructor. Field experience in which student assumes a self directed responsible role in an agency, business or other community setting. May be repeated to a maximum of 6 units. Same course as FCS 592. (Seminar 3 hours) Letter grade only (A-F).

**597. Independent Study (1-3)**

Prerequisites: Graduate standing and consent of instructor. Independent study under the supervision of a faculty member. Exploration or experience supplementing and/or complementing regular courses to meet student learning goals. Letter grade only (A-F).

**600. Seminar in Administration of Family and Consumer Sciences/Gerontology Programs (3)**

Prerequisite: FCS 696 or GERN 696 or consent of instructor. Application of administration, management and leadership theories to family and consumer sciences/gerontology programs. Concepts include structure of organizations, leadership styles, management techniques, methods of analyzing and evaluating business systems, management philosophies and performance evaluation procedures. Activities and assignments focus on organization theory, planning, decision making and control techniques, in relation to leadership and management skills needed for success as a family and consumer sciences/gerontology administrator. Same course as FCS 605. (Seminar 3 hours.) Letter grade only (A-F).

**610. Seminar in Current Issues, Trends and Research in Gerontology (3)**

Prerequisite: Completion of all core courses except GERN 696, 697 or 698 any of which may be taken concurrently. Students will undertake literature reviews and/or research to explore emerging issues, trends and research in the field of aging studies and/or update their information on the most current gerontological topics. (Seminar 3 hours.)

**692. Gerontology Directed Project (1-4)**

Prerequisite: GERN 697. The student will work directly under the guidance of faculty advisors and, where appropriate an approved supervisor/preceptor at a selected site, to complete a project of relevance to the field of gerontology. The experience will be directed towards identifying and solving a specific problem, designing/conducting research, developing/evaluating a program, or recommending potential courses of action for a program. Written report required. Letter grade only (A-F).

**696. Research Methods (3)**

Prerequisite: Upper-division course in statistics. Methodological approaches to contemporary research issues in Gerontology. This course focuses on the design, development, and implementation of research projects. The course encompasses the tools and techniques of research and their application in the development of a formal research design. Topics covered include the scientific method, design and testing, qualitative and quantitative methods, survey research, data collection and analysis, research reporting and presentation. Required of all master's degree candidates in Family and Consumer Sciences and Gerontology. Letter grade only (A-F). (Seminar 3 hours). Same course as FCS 696.

**697. Directed Research (1-3)**

Prerequisite: Advancement to candidacy, GERN 500 level courses in area of study, and GERN 696. Independent investigation of research problems under the direction of a faculty member. Letter grade only (A-F).

**698. Thesis (1-4)**

Prerequisite: GERN 697, advancement to candidacy. Planning, preparation and completion of a thesis under supervision of a faculty member. Approval of thesis committee. Letter grade only (A-F).

# GRADUATE DEGREES AND OTHER POST BACCALAUREATE STUDIES

Associate Vice President for Graduate and Undergraduate Programs  
Cecile Lindsay

Associate Deans for Graduate Studies

Holly Harbinger (Arts)

Marquita Grenot-Scheyer (Education)

Sandy Cynar (Engineering)

Dixie Grimmer (Health and Human Services)

Sharon Downey (Liberal Arts)

Henry Fung (Natural Sciences and Mathematics)

Director of MBA Program

H. Michael Chung

## Graduate Studies

Graduate study is primarily designed to inspire independence of mind and originality in the quest for knowledge, truth, and useful application. Candidates for a master's degree are required to demonstrate mastery in their chosen field of study either through independent research culminating in an acceptable thesis and/or through successfully passing a final comprehensive examination.

Graduate curricula are designed to provide each student with advanced study in a discipline. All courses listed in a master's degree program, including those outside the major field, must be graduate or upper-division courses approved by the student's graduate committee and department graduate advisor.

Proficiency of a student in any and all parts of a curriculum is ascertained by the faculty of the University. A favorable vote of the faculty is required for a student to receive a master's degree.

A student who plans to become a candidate for a master's degree must hold a bachelor's degree from an accredited institution or have completed equivalent academic preparation at a foreign university as determined by the appropriate campus authority. The student must have completed undergraduate course work substantially equivalent to that required at California State University, Long Beach in the discipline of intended graduate study, or must be prepared to undertake additional work to make up any deficiency. Most graduate degree programs are based upon preparation in the discipline at the undergraduate level. Undergraduate preparation is considered adequate if a candidate has met the upper-division requirements of this University for a bachelor's degree in the subject matter area of the master's degree program. Refer to specific departments for detailed requirements of each degree program.

The following graduate degrees are offered:

### Master of Arts Degree in:

Anthropology  
Art  
Asian Studies  
Communicative Disorders  
Dance  
Economics  
Education  
English  
Family and Consumer Sciences  
French  
Geography  
German  
Global Logistics  
History  
Interdisciplinary Studies  
Kinesiology  
Linguistics  
Music  
Occupational Studies  
Philosophy  
Political Science  
Psychology  
Religious Studies  
Spanish  
Speech Communication  
Theatre Arts

### Master of Business Administration

### Master of Fine Arts Degree in:

Art  
Creative Writing  
Dance  
Theatre Arts

### Master of Music

### Master of Physical Therapy

### Master of Public Administration

### Master of Public Health

### Master of Social Work

### Master of Science in Nursing/Master of Public Health

## Master of Science Degree in:

Aerospace Engineering  
Biochemistry  
Biology  
Chemistry  
Civil Engineering  
Computer Science  
Counseling  
Criminal Justice  
Electrical Engineering  
Emergency Services Administration  
Engineering  
Engineering Management  
Geology  
Gerontology  
Health Science  
Health Care Administration  
Interdisciplinary Studies  
Kinesiology  
Mathematics  
Mechanical Engineering  
Microbiology  
Nursing  
Nursing/Health Care Administration  
Nutritional Science  
Physics  
Psychology  
Recreation Administration  
Science Education  
Special Education

## Civil Engineer Degree

### Ed.D. in Educational Administration and Leadership

(awarded jointly with University of California, Irvine)

### Ph.D. in Engineering and Industrial Applied Mathematics

(awarded jointly with Claremont Graduate School)

## Certificate Programs and Graduate Study

Students, whether graduates of CSULB or of another accredited institution, may complete the requirements for and be awarded certificates while in graduate standing. Admission requires a bachelor's degree from an accredited institution, at least a 2.5 grade-point average in the most recently completed 60 units of course work, and fulfillment of the Graduation Writing Assessment Requirement (GWAR). Certificate programs are of two types: baccalaureate certificates which may be taken concurrently with or following the award of the baccalaureate degree, and graduate certificates which require post-baccalaureate standing. The baccalaureate certificates are listed in the "Undergraduate Programs" section of this catalog. The graduate certificates are listed below, with the department responsible for each certificate indicated in parentheses.

Graduate certificate programs require at least 18 units of course work, of which at least 12 units must be at the 500 or

600 level. Courses taken to fulfill the requirements for the master's degree may also be applied to certificate requirements, if the certificate program permits, but such overlap may not exceed 15 units. Courses in directed research, directed reading, internship, and independent study may comprise no more than 3 units of a graduate certificate program. Thesis and student teaching may not be used on the program. Extension and/or transfer credit may comprise no more than one-sixth of the course work used to meet graduate certificate requirements. A grade-point average of at least 3.0 must be maintained in the graduate certificate program's course work. All courses used to complete the requirements of a graduate certificate must be completed within a five-year period from the date of the initial course work.

If you wish to pursue a graduate certificate program, you should review the course requirements given in the department course listings of this catalog. You should notify the relevant department of your intention to pursue a certificate program as early as possible so as to receive early advisement on the program.

## Certificates

Career Guidance Specialist (Educational Psychology, Administration, and Counseling)  
Community College (Educational Psychology, Administration, and Counseling)  
Leisure Counseling (Recreation and Leisure Studies)  
Museum Studies (Art)  
Nurse Practitioner (Nursing)  
Physical Therapy Intern (Physical Therapy)  
Public Management Analyst (Public Policy and Administration)  
Public Sector Employer-Employee Relations and Personnel Management (Public Policy and Administration)  
Public Sector Financial Management (Public Policy and Administration)  
Systems Engineering (College of Engineering)  
Teaching English as a Second Language (Linguistics)  
Transportation Policy and Planning (Public Policy and Administration)  
Urban Executive Management (Public Policy and Administration)  
Waste Engineering and Management (Civil Engineering)

## Post-Baccalaureate Studies

Students with a baccalaureate degree who wish to continue their education for personal enrichment or to meet professional needs may do so at CSULB either as a post-baccalaureate student or as a graduate student. A post-baccalaureate student is one who has not declared a master's degree or a credential as an objective but who is nevertheless attending class and participating in academic work at the University beyond the baccalaureate degree. Post-baccalaureate students may only enroll through University College and Extension Services. A graduate student is one who has requested and received formal admission to a specific field of study that will lead to a graduate degree in one of the many disciplines available at CSULB.

Candidates for public school service credentials at the University are advised to familiarize themselves with the requirements for these programs. Descriptions of credential programs appear in the Credential Programs section of this *Catalog* and in the separate departmental sections of this catalog.

### Graduate and Post-Baccalaureate Admission Requirements

Graduate and credential applicants may apply with the objective of completing a degree, a credential, or a certificate program. Depending on the stated objective, CSULB will consider an application for admission in one of the three categories:

#### Graduate Standing — Conditionally Classified

To qualify for admission in conditionally classified graduate standing, a student must:

1. Hold an acceptable baccalaureate degree from an institution accredited by a regional accrediting association or have completed equivalent academic preparation in a foreign university as determined by an appropriate campus authority;
2. Have attained a grade-point average of at least 2.5 (A = 4.0) in the last 60 semester (90 quarter) units attempted;
3. Have been in good standing at the last college attended; and
4. Be accepted into a graduate degree curriculum on a conditional basis, subject to the requirement that any deficiencies must be remedied by additional preparation.

#### Graduate Standing — Classified

A student who meets the minimum requirements for admission as a graduate student, as specified in the preceding paragraph, may be admitted as a fully classified graduate student pursuing an authorized degree curriculum if the appropriate program authorities determine that he or she satisfactorily meets the professional, personal, scholastic, or other standards for admission to the graduate degree curriculum, including qualifying examinations that the appropriate program authorities may prescribe. Only those applicants who show promise of success and fitness will be admitted to graduate degree curricula, and only those who continue to demonstrate a satisfactory level of scholastic competence and fitness shall be eligible to proceed in such curricula.

#### Post-Baccalaureate Standing — Classified

In this status a student is eligible to enroll in a credential or certificate program, provided that such additional professional, personal, scholastic, and other standards, including qualifying examinations, as may be prescribed for the particular credential or certificate program by the appropriate campus authority, are satisfied.

#### Admission to the University

In order to be admitted to CSULB as either a post-baccalaureate classified student or as a graduate student, the applicant must meet the following requirements:

1. Have earned a baccalaureate degree from an accredited university or college;
2. Have been in good standing at the last institution attended;

3. Have at least a 2.5 grade-point average in the last 60 semester (or 90 quarter) units attempted, independent of when the baccalaureate was granted. The entire term in which the 60 semester (or 90 quarter) units began will be used in this calculation. Lower-division courses or courses taken in extension (except in adjunct enrollment at CSULB in the upper-division level), after obtaining the bachelor's degree, will be excluded from the calculation.

Students wishing to enroll in the University must follow the instructions supplied by the Office of Enrollment Services in the Admissions section of this *Catalog*.

NOTE: Graduating undergraduate CSULB students do not automatically continue as graduate students. They must apply under the same conditions as non-CSULB students. Once applications are received, they will be evaluated at appropriate offices. To be admitted to the University, a student must also be admitted to a specific program. The University does not admit post-baccalaureate students who do not have a degree, certificate, or credential objective. Provisional admission is granted to applicants anticipating their baccalaureate degree prior to registration but subsequent to filing the application. Proof of the baccalaureate is mandatory (final transcript must be on file) prior to the student's second semester of attendance. If it is not, provisionally admitted students will be prohibited from future enrollment until such proof is on file.

The student must request all institutions of higher learning attended (except for CSULB) to send an official copy of transcripts directly to the Office of Enrollment Services and to the department advisor of graduate studies. Transcripts presented to the Office of Enrollment Services by the student are not acceptable. Graduates of California State University, Long Beach must follow these same procedures when making application to a graduate degree program.

All graduate and postbaccalaureate applicants, regardless of citizenship, whose preparatory education was principally in a language other than English must demonstrate competence in English. Those who possess a bachelor's degree from a post-secondary institution where English is not the principal language of instruction must receive a minimum score of 550 on the Test of English as a Foreign Language (TOEFL) or 213 on the computer-based version of the TOEFL. Some programs may require a higher score.

#### Admission to a Department as a Graduate Student

In order to pursue a credential or master's degree, students must be accepted by the department or college offering the degree program. In some instances (see specific department listing) this process may require making a separate application to the department or college. Following review the department or college will determine whether or not a student meets its requirements for admission to its degree program. Departments or colleges that receive more applications from qualified students than the number of graduate spaces they have available will admit students in priority order based on the strength of candidates' qualifications.

On the other hand, if space is available, a student who is admissible to the University but who does not meet program requirements for admission may nevertheless be accepted as a conditionally classified graduate student by the department or college offering the program, subject to the proviso that all remaining admission requirements of the program must then be

fulfilled after enrollment. Only the Associate Vice President for Graduate and Undergraduate Programs or his/her designee is authorized to grant conditional admission to a student who does not meet University requirements, and such action will be taken only in rare and compelling circumstances.

### Special Action

In rare and compelling circumstances, an applicant who doesn't qualify for admission under the previous provisions may be admitted by special action if on recommendation of the appropriate faculty of the department/college concerned and in the judgment of the Associate Vice President for Graduate and Undergraduate Programs or his/her designee there exists acceptable evidence that the applicant possesses sufficient academic, professional, and other potential pertinent to her/his educational objectives to merit such action, as shown through aptitude scores, recent academic performance, and experiential background.

### Graduation Writing Assessment Requirement (GWAR)

As a requirement for advancement to candidacy, all graduate students must demonstrate competency in academic writing in English. Students must either submit evidence of having fulfilled this requirement elsewhere or attempt to fulfill it no later than the end of their first semester of matriculation at CSULB. All graduate students must fulfill this GWAR by one of the following:

1. Passing the Writing Proficiency Exam (WPE)
2. Passing another approved assessment of writing competence
3. Having fulfilled a GWAR as part of their baccalaureate degree(s) while matriculated at CSULB or at another CSU campus
4. Earning a CSULB-approved passing score on the writing portion of an approved standardized graduate admissions test, such as the Graduate Record Examination or the Graduate Management Aptitude Test

Students with degrees from non-CSU campuses must either provide proof of meeting the requirement with adequate scores on a CSULB-approved standardized graduate admissions test or attempt to satisfy the GWAR by the end of their first semester of matriculation at CSULB. Assessments of writing competence from non-CSU campuses will be evaluated by the GWAR Coordinator as a fulfillment of the GWAR on an articulation basis if possible, or on a case-by case basis if necessary.

Graduate students must satisfy the GWAR before they will be advanced to candidacy. (Advancement to candidacy requires satisfying the GWAR and satisfactorily completing six or more semester units in residence earning a 3.0 GPA or greater.) Graduate students must also visit their graduate faculty advisors in their first semester to determine if additional departmental or program writing requirements apply to their advancement to candidacy.

Students can register for the WPE at the Office of Testing and Evaluation Services, BH-216 (562) 985-4007, [www.csulb.edu/centers/tests](http://www.csulb.edu/centers/tests). Students must pay a fee each time they take the test to cover the costs of test administration and scoring. Students may attend free three-hour workshops one to two weeks prior to each WPE date indicated in the *Schedule of Classes* and may obtain information about these workshops from the Testing Office.

Students who need assistance to prepare for the WPE should contact WPE faculty advisors in the Learning Assistance Center Academic Services Building Room 012, (562) 985-5350 to determine if tutoring, WPE Preparatory Classes, or a special course like ENGL 301 A/B would be helpful. Students who do not pass by their second attempt must meet with a WPE faculty advisor in the Learning Assistance Center and subsequently provide evidence of following the advisor's recommendations before registering to take the WPE a third time.

It is the students' responsibility to insure that any passing scores they have earned on the essay portions of standardized graduate admissions tests are reported to the Office of Enrollment Services. It is also the students' responsibility to insure that their specific department or program receives up-to-date GWAR scores and information.

### Second Master's Degree

A graduate student who is currently enrolled in a master's program at CSULB must complete that master's program before enrolling in courses for another degree. A graduate student who already holds a master's degree from this or any other accredited institution but desires to become a candidate for a second master's degree in a different field is subject to the following regulations:

1. All admission requirements of the University and college or department must be met (all general regulations listed in the *Catalog* apply to the second master's degree);
2. Enrollment and approval of candidacy for the second degree will be granted only after the first degree has been completed and awarded;
3. All requirements for the new degree must be completed;
4. After awarding of the first master's degree, a minimum of 24 units of graduate residence credit must be earned at this University including the minimum of 500/600-series units mandated by the major department in which the student is earning the second master's degree;
5. No more than six units earned on the first degree may be applied to a second master's degree;
6. Prerequisites for an advanced course must be completed prior to enrollment in the advanced course. An instructor may disenroll a student who does not provide evidence of adequate preparation;
7. All prerequisites must be completed prior to application for candidacy;
8. Two master's degrees cannot be awarded concurrently;
9. The area or discipline in which the second degree is earned shall be designated on the transcript and a second diploma awarded.

### Graduate Study in the International Programs

Students planning to participate and receive unit credit toward a master's degree in an International Program should consult with the graduate advisor in the department of their major and college dean or director of graduate studies before entering the degree program.

Graduate students who have not been admitted to candidacy for a master's degree and who participate in the International Programs may, upon their return to California State University, Long Beach, petition to have six units earned as

resident credit in the International Programs included on their official student program for the master's degree. In no case may excess grade points earned in the International Programs be used to bring a grade-point deficiency at California State University, Long Beach to the required 3.0 (B) average.

Students admitted to candidacy for a master's degree who plan to participate in the International Program of Studies must obtain permission, prior to beginning their study abroad, to have units earned abroad applied toward satisfaction of their degree requirements. A candidate's petition to apply units earned abroad must be reviewed and recommended by the department offering the degree. The specific courses to be taken on the foreign campus, thesis research which is to be done abroad, or any other requirements such as examinations to be taken upon the student's return must be listed on the official student program. Usually no more than six units of credit may be transferred to apply toward the minimum 30 units for an advanced degree as a result of participation in the International Program of Studies, but a maximum of 12 units may be allowed by the Associate Vice President for Graduate and Undergraduate Programs or his/her designee in consultation with the University Graduate Council in a special case.

A copy of the candidate's graduate student program must be forwarded to the Resident Director for the foreign area, who must certify that any credit earned abroad is appropriate to meet graduate degree requirements.

Pending the faculty's evaluation of the student's work, a Report Delayed (RD) grade will be assigned in all courses in which work was completed abroad and which are offered to satisfy requirements toward an advanced degree.

### Change of Objective

Evaluation of credits transferred to the University is based in part upon the objective indicated on the application for admission. Candidates desiring a change in graduate objective to a discipline different from that indicated on the original application must reapply to the University. Reapplication requires the submission to the Office of Enrollment Services of a newly completed Graduate and Postbaccalaureate Admission form and payment of the associated fee. The proposed new graduate department or program will review the application and notify Enrollment Services of its decision. Students who are admitted to a new discipline must then seek approval of their official student program and advancement to candidacy, using the procedures indicated below under "The Program" and "Advancement to Candidacy." Students who are not admitted to a new discipline have the option of continuing to pursue their original objective.

The only exception to the procedures described in the preceding paragraph is for students seeking to change from one degree program to another degree program within the same discipline (for purposes of this regulation, all options offered by the College of Education are considered to be part of a single discipline). In such cases candidates must obtain a Petition to Change Objective from the Office of Enrollment Services, obtain the required department/program signatures, return the completed petition form to Enrollment Services, and then seek approval of their official student program and advancement to candidacy, using the procedures indicated below under "The Program" and "Advancement to Candidacy."

### Withdrawal from the Degree Program

If a student wishes to resume graduate study after withdrawal, the student must reapply to the University and request that the department or college initiate a petition to the Associate Vice President for Graduate and Undergraduate Programs or his/her designee to reinstate the student in his or her former graduate program. In the absence of an approved petition for reinstatement, the student must be readvanced to candidacy and the department or college may determine that the student's graduate program should be changed.

## University Regulations Governing the Master's Degree

### General

The following regulations apply to all graduate degree programs. Specific academic and curricular requirements of individual degree programs are given in the departmental listings of this catalog.

All regulations involving a calculation of grade-point average subsequent to admission to the University as a graduate student shall be based on the following common practices and standards.

"Cumulative Graduate Grade-Point Average" shall be calculated on all upper-division and graduate-level coursework attempted by a student at this University after completion of a baccalaureate degree.

Grade-point average standards calculated on the basis of a smaller range, grouping, or set of upper-division and graduate-level courses, for example, "courses in the major" or "courses taken since admission to the degree program," presuppose that the student has met the minimum standard for any larger range, group, or set, including the Overall Graduate Grade-Point Average.

1. A student pursuing the master's degree must maintain an Cumulative Graduate Grade-Point Average of 3.0 (B). Exceptions to the 3.0 (B) Cumulative Graduate Grade-Point Average may be made only on the recommendation of the departmental faculty offering the degree, the college dean or designee, and approval by the University Graduate Council.
2. At least a 3.0 (B) average must be maintained in the degree program.
3. No course with a grade lower than "C" may be applied toward the fulfillment of degree requirements.
4. Graduate students cannot repeat courses either for credit or to improve their grade-point average.
5. The individual course of studies (student program) for the master's degree must contain a minimum of 30 units in upper-division and graduate courses.  
Some degree programs require additional units. Please consult individual degree program requirements.  
A minimum of sixty percent of the units required for the degree shall be in the 500- and 600-level series and these shall be completed at this University, consistent with departmental requirements. Student teaching cannot be included in any master's degree program. All upper-division courses marked with an asterisk may be included in the master's degree programs of the department listing the course. With permission of the student's department gradu-

ate advisor, asterisk-marked courses may also be used on other graduate degree programs, when appropriate. Normally, other non-marked courses are not used.

6. A thesis and/or final comprehensive examination must be completed. A minimum of four and a maximum of six semester units shall be allowed for a thesis. Failure of the comprehensive examination or thesis requirement is failure of both options. Thus, a student failing the comprehensive examination may not proceed to the thesis option or vice versa. Once a student has completed a semester of enrollment towards fulfillment of either the comprehensive examination or thesis option, the student may not change from one option to the other without the approval of the faculty concerned, the department chair, and the appropriate dean or designee.
7. No fewer than 24 semester units shall be completed in residence at the University. The Associate Vice President for Graduate and Undergraduate Programs or his/her designee may authorize department/college approved substitution of credit earned by alternate means for a part of the residence requirement. Units, including continuing education or extension units, accepted by transfer for application toward the minimum units required for a master's degree cannot be used to fulfill the minimum unit requirements in the 500/600 series. This 500/600 unit requirement must be completed in the major discipline and in residence at this University.
8. All requirements of the degree program must be completed within seven years of the date the student program was initiated, i.e., the date (semester) when the earliest course appearing on the student program was completed. An extension of time beyond the limit may be granted by the Associate Vice President for Graduate and Undergraduate Programs or his/her designee if warranted by individual circumstances and if the outdated work is validated by comprehensive examination in the relevant course or subject field work, or such other demonstration of competence as may be prescribed by the department and/or college.
9. A graduate student who expects to receive a degree at the end of any semester or summer session must be enrolled during that semester or session and must complete the Request to Graduate Form well in advance. The appropriate request for Spring or Summer candidates must be filed by the preceding October 1; for Fall candidates, by the preceding March 1 at the Office of Enrollment Services. The names of candidates who file within these deadlines will appear in the Commencement Program published each Spring.

Note: Graduate Studies 700 may only be used to fulfill the enrollment requirement if the applicant has completed all degree program courses prior to the semester of graduation. An incomplete grade not otherwise resolved prior to graduation will automatically revert to the letter grade indicated on the "Requirements for Assigning an Incomplete Grade" form. A course with an unresolved grade of RP (Report in Progress) will remain on the transcript but will be removed from the student's program of study. Incomplete grades may not be resolved following graduation.
10. Proficiency of a student in all parts of a curriculum is determined by the faculty of the University. A favorable vote of the faculty is required for a student to receive the degree.

## The Program

A student must consult with the graduate advisor of the department or college to prepare a tentative degree program. After completing prerequisites and other requirements, the student must formulate an official student program and apply for advancement to candidacy.

The department will assign the student a faculty advisor who must be consulted about preparing a degree program. The advisor should have an official evaluation of the student's previous work from the Office of Enrollment Services, although transcripts provided by the student may be used to develop a tentative student program and discuss degree requirements. When the Office of Enrollment Services' evaluation and the results of tests are available, the faculty advisor can assist the student in drawing up a student program. This student program must be approved by the student's faculty advisor, the departmental graduate advisor, and college dean or director of graduate studies or, for Interdisciplinary Studies, the Associate Vice President for Graduate and Undergraduate Programs or his/her designee. The student program must list the following:

1. Courses required for removal of undergraduate deficiencies;
2. All courses taken prior to advancement to candidacy which are to apply toward the 30-unit minimum;
3. Required courses;
4. Elective courses.

The official student program, when approved, serves as the basis for the Office of Enrollment Services' graduation check which is required before the degree can be granted. Students who have not been advanced to candidacy are subject to all changes as published in the *Catalog*, Policy Statements, and certifications.

Graduate student programs may be revised as the student advances toward the degree. Such revisions must be recommended by the faculty advisor and approved by the departmental graduate advisor and the college dean or director of graduate studies or, for Interdisciplinary Studies, the Associate Vice President for Graduate and Undergraduate Programs or his/her designee.

## Advancement to Candidacy

Advancement to candidacy is the next step after achieving classified status and confers the equivalent of catalog rights on graduate students. Advancement to candidacy also signifies approval of a plan of study by the student's major department and college or, in the case of an Interdisciplinary Studies graduate student, approval by the Director of the Interdisciplinary Studies Program and Associate Vice President for Graduate and Undergraduate Studies or designee. The prerequisites to advancement to candidacy are:

1. Classified status;
2. Fulfillment of the CSULB Graduation Writing Assessment Requirement (GWAR). Information is available in Testing and Evaluation Services (Brotman Hall 216);
3. A minimum 3.0 overall grade-point average and a 3.0 grade-point average in all units undertaken for the student program (at least 6 units);
4. Enrollment in regular session.

All graduate students are required to advance to candidacy when the above prerequisites have been successfully completed. Advancement to candidacy is to occur at least one semester or summer session prior to the semester (session) in which the student expects to graduate. It must occur prior to a student filing the Request to Graduate form with the Office of Enrollment Services. Filing deadlines are the same as for baccalaureate degree candidates. A student must be enrolled in the semester or summer session in which advancement to candidacy takes place. All students must consult with their graduate advisor regarding advancement to candidacy as well as to determine any departmental requirements to graduate from the University.

An approved graduate student program remains in effect as long as a candidate is making satisfactory progress. To insure minimum satisfactory progress toward the degree objective, the student must enroll every fall and spring semester and complete all degree requirements within seven years after completion of the first course on the student program. See also information about Graduate Studies 700 later in this section. The student may not change the graduate major without filing a new application for admission. If admitted to the new discipline, the student must then follow the steps indicated above for obtaining approval of a new student program and advancement to candidacy.

A student entering military service after having been advanced to candidacy will not be considered as having withdrawn from candidacy, provided that the student is inducted, enlisted, or called to active duty during a semester in which enrolled or not more than one semester thereafter, and provided that the student enrolls for work toward a degree within one calendar year of the date of release from service.

Students who have been advanced to candidacy and absent themselves from the University on educational leave will be considered as not having withdrawn from candidacy for an advanced degree, provided the terms of the educational leave are fulfilled. Such students must reapply when returning to the university, but the application fee will be waived.

A department or college recommends a student for advancement to candidacy by forwarding a graduate student program for approval to the college dean or director of graduate studies or the Associate Vice President for Graduate and Undergraduate Programs or his/her designee. After the student's program has been processed and approved, a copy of the completed student program and a letter advancing the student to candidacy will be mailed to the candidate, with copies filed with the department or college and the Office of Enrollment Services.

A student must be enrolled in the semester or summer session in which advancement to candidacy takes place, and this must occur no later than one semester or summer session prior to completion of course requirements. Normally, a student is eligible and should file for advancement to candidacy after completing six units of graduate coursework for the graduate degree program with a 3.0 grade-point average.

### Election of Regulations

Graduate students advanced to candidacy will be held responsible for the regulations governing master's degrees in effect at the time of advancement or at the time the last requirement for the degree is met, whichever is more conducive

to the student's course of study. A change in master's degree objective or readmission to a graduate degree program following withdrawal requires that a new student program be filed under the current graduate policies as published in the latest edition of the *Catalog*.

### Educational Leave

Any registered student, undergraduate or graduate, in good academic standing may request an Educational Leave. Students requesting an Educational Leave shall complete an Educational Leave Form in the semester before the leave is effective, including an explanation of their reasons for seeking the leave and a statement of when they intend to resume academic work. The completed form is to be submitted for approval to the student's department chair (undergraduate) or graduate advisor.

The minimum initial leave will be one full semester; the maximum will be one calendar year. A student may request, in writing, in advance, an extension of the leave. Under no circumstances shall the total number of approved educational leaves exceed two, nor shall the duration of approved educational leaves extend beyond two calendar years.

Students returning from an approved educational leave are required to submit an application form but will not be required to pay another application fee. Students returning from an absence for which an educational leave was appropriate but not approved, in advance, must pay another fee.

Graduate students who plan to enroll for credit at another institution of higher education during the leave period must obtain prior approval from the department graduate advisor, department chair, and the college dean or designee for the transfer of course credit to the student's program.

The period of an educational leave is counted in the calculation of elapsed time under the regulations governing the maximum period for completion of degree requirements (seven years for graduate students).

For the period of an educational leave the student's rights under the Election of Regulations rule are preserved, maintaining the right of students to elect regulations as if they had maintained continuous attendance.

Students who fail to enroll in two or more consecutive semesters place themselves in jeopardy under the continuous enrollment provisions of the election of regulations rules. This includes the automatic loss of "advanced to candidacy (candidate)" status. Moreover, students who break residency and lose candidate status do not have a presumptive right to reinstatement of their candidacy. These students will be required to go through the process of readvancement.

An educational leave presupposes no expenditure of University resources or faculty and staff time in behalf of the student during the period of the leave. In addition, no computer facilities, no library privileges, and no student services are available to a student on educational leave.

### Comprehensive Examination

Each department or college requiring a final comprehensive examination determines the content of the examination. Such examinations may be written or oral or both. A faculty committee shall represent the department in preparing questions, administering, and reading the examination. Through the comprehensive examination, the faculty provides an opportunity for

the master's degree candidate to demonstrate analytic ability and knowledge of the discipline. Working with the department chair or dean of the college and the appropriate committee, the departmental graduate advisor usually assumes responsibility for scheduling the examinations and for selecting the other faculty members to participate.

Students may not enroll for courses in preparation for the comprehensive examination or take the comprehensive examination unless they have been advanced to candidacy for the master's degree or unless advancement to candidacy will occur in the semester in which the enrollment takes place.

During the first semester of residence, the graduate student should ascertain from the faculty advisor what preparation will be expected. Early in the final semester of study for the degree, the candidate should contact the departmental graduate advisor to make arrangements for taking the examination. The department or college will notify the Office of Enrollment Services whether the student has passed or failed the final comprehensive examination. A candidate who has failed will usually be allowed to take the final comprehensive examination a second time, and the departmental graduate advisor should be contacted for specific procedures for the second attempt. To award a candidate the master's degree for a particular semester, the results of the comprehensive examination must be reported to the Office of Enrollment Services prior to the end of the semester.

### Theses and Projects

A student may enroll for Thesis (course 698 or 699) only when that student has been advanced to candidacy for the degree or when advancement to candidacy will occur in the semester of initial enrollment in Thesis.

Theses and projects submitted in partial fulfillment of the requirements for a graduate degree at this University shall meet the following definitions established by the Trustees of the CSU.

A thesis is a written product of the systematic study of a significant problem. It clearly identifies the problem, states the major assumptions, explains the significance of the undertaking, sets forth the sources for and methods of gathering information, analyzes the data, and offers a conclusion or recommendation. The finished product evidences originality, critical and independent thinking, appropriate organization and format, and thorough documentation. Normally, an oral defense of the thesis will be required.

A project is a significant undertaking appropriate to the fine and applied arts or to professional fields. It evidences originality and independent thinking, appropriate form and organization, and a rationale. It is described and summarized in a written abstract that includes the project's significance, objectives, methodology, and a conclusion or recommendation. An oral defense of the project may be required.

Students are responsible for understanding the definition of a graduate thesis as outlined above and must follow the format guidelines prescribed by the University and department in which the thesis is completed.

### Thesis Committees

A student's thesis committee shall consist of at least three members qualified in the areas relating to the thesis. At least two shall be full-time faculty members at CSULB, one of whom

must be tenured or tenure-track. The chair of the thesis committee, including the chair of a committee for an interdisciplinary studies degree, must be a tenured or tenure-track faculty member from a department authorized to offer a graduate degree. The thesis committee must be approved by the appropriate department graduate advisor and the college associate dean or director of graduate studies. Normally the chair of the committee also serves as thesis director, but this is not necessarily so. The thesis director must be a person qualified in the specific area of the thesis, but need not be a tenured or tenure-track faculty member. The committee shall be responsible for the guidance of the student throughout the thesis effort. Any change in the composition of the committee requires justification and must be approved by the appropriate department graduate advisor and college associate dean or director of graduate studies.

Before agreeing to serve on a thesis committee, the prospective members will review the thesis topic and determine that they possess the requisite expertise to serve on such a committee, and that sufficient resources and materials exist and are reasonably available to the student to support such a study.

Thesis committee members will review the research competence of the thesis student before approving a thesis proposal.

Thesis committee members will advise and direct students in their thesis work and ensure that the thesis meets the standards and definition of a thesis specified above.

Thesis committee members will determine the grade to be awarded for completion of the thesis; and by signing the thesis signature page, thesis committee members certify that they have determined that the thesis meets the required standards of scholarship, format, and style of the discipline.

When the thesis committee includes a thesis director who is not the chair of the committee, this person may be identified on the thesis approval page as "Thesis Director."

### Thesis Committee Chairs

Thesis committee chairs will determine that the student has the proper preparation in terms of course work and research skills to pursue the proposed thesis.

In departments where this function is not carried out by graduate advisors, thesis committee chairs will advise the student in the selection of other members for the thesis committee, ensuring that the other members are appropriate to the proposed thesis effort.

Thesis committee chairs will be the major contact point with the student and will oversee the other committee members' work with the student.

Thesis committee chairs will assure that the editorial and format standards appropriate to the mechanical preparation of a thesis are followed.

Thesis committee chairs will establish guidelines for the student and timetables to be followed to ensure completion of the thesis in a reasonable time.

Thesis committee chairs will arrange for the oral defense of the thesis when required.

The thesis committee chair is responsible for canvassing the committee and reporting the grade agreed upon by its members. After the completed thesis has been reviewed by

the University Thesis Office for conformance with prescribed format criteria and the approval page has been signed by the committee and by the dean or department chair, as appropriate, the final grade will be submitted.

### Thesis Office

All theses must be acceptable for deposit in the University Library. The Thesis Office in the University Library will verify that each thesis meets the format criteria prescribed by the department or degree program and by the University and that it meets all University procedural requirements for theses. Students should consult the University Thesis Office for information, advice, and assistance on the mechanics of preparing a completed thesis and should purchase a copy of *Master's Theses and Projects: Guide to Style and Format* (copies of this guide can also be checked out from the reserve desk in the University Library). The Thesis Office also conducts periodic workshops on how to prepare a thesis at CSULB.

## Academic Probation and Disqualification

### Graduate Students

For purposes of determining eligibility to remain at the University, both quality of performance and progress toward the student's objective will be considered. Eligibility will be determined by use of grade points and grade-point average.

Students who are enrolled in a graduate degree program in conditionally classified or classified standing will be subject to academic probation if they fail to maintain a cumulative grade-point average of at least 3.0 (as defined earlier under General Regulations Governing the Master's Degree) in all units attempted subsequent to admission to the degree program.

Every graduate student who has been advanced to candidacy must maintain a cumulative grade-point average of 3.0 and a grade-point average of 3.0 in all courses applicable to the degree. Candidacy for an advanced degree may be revoked if a student's cumulative grade-point average falls below 3.0 at any time. Students who become subject to dismissal from an advanced degree program will be notified of the action taken by the college associate dean for graduate studies or the Associate Vice President for Graduate and Undergraduate Programs or his/her designee.

Graduate and post-baccalaureate students are subject to disqualification if within two semesters while on probation they fail to earn sufficient grade-points to be removed from probationary status. Disqualification will bar a graduate student from registering as a matriculated student at this campus. Furthermore, subsequent removal of GPA deficiencies by enrolling through UCES or at another university does not guarantee readmission to CSULB. A graduate student who has been disqualified must file a new application and be accepted by the department with the approval of the Associate Dean of the College.

### Other Post-Baccalaureate Students

A post-baccalaureate classified student who fails to maintain a cumulative grade-point average of 2.5 on all units attempted at the University will be placed on probation.

A student on probation who, prior to the beginning of the next term, fails to attain a cumulative grade-point average of 2.5 on all units attempted at the University will be disqualified.

A student who is disqualified because of scholastic deficiency may petition the appropriate program authority for readmission only after an absence of two semesters or upon successful completion of summer session courses which remove the grade-point deficiency.

Petitions for readmission must indicate the reason for requesting readmission and must include a statement of any academic work successfully completed since disqualification or of any other activity which gives evidence in support of the petitioner's belief that readmittance is warranted. An application for admission and required transcripts, as well as the petition, must be submitted to the Office of Enrollment Services before the dates established by the University for filing applications.

## Grievance Procedures

### I. Statement of Governing Principles

A. A graduate student may only file a grievance based on an alleged violation of specific University regulations or policies or accepted principles of due process and only if another specified remedy (such as the University Grade Appeal Policy in the case of all course grades) does not exist.

B. A grievance may not be filed on the basis of a graduate student's judgment of an instructor's or administrator's competence; such judgments are solely the province of the academic department involved or of the administrator's supervisor.

C. A grievance must be initiated within one calendar year of the alleged violation.

D. Graduate programs should make every effort to obviate the possible causes of a grievance in advance by developing clearly written statements of procedures and standards governing decisions that affect graduate students, such as admission into a program, dismissal from a program, administration of comprehensive examinations, selection for field experience, et cetera. Graduate programs should also have in place a mechanism, such as an appeals committee, to provide due process review at the local level when a graduate student so requests. Due process review is an evaluation of the procedures and standards followed in arriving at a decision; it should be conducted by qualified members of the faculty who were not involved in making the original decision. The purpose is not to second-guess the original decision, but rather to make certain that the appropriate procedures and standards were applied in a manner free of arbitrary, prejudicial, or capricious behavior.

E. Final decisions affecting graduate students should be made only on substantive grounds by the personnel who are most qualified professionally, namely the faculty offering a particular graduate program. When subsequent review shows that appropriate procedures or standards have not been followed in arriving at a decision affecting a graduate student, the preferred remedy is to remand the case back to the faculty of the graduate program for their reconsideration. An error in procedure should not become grounds for reversing a substantive decision. In the event that the faculty of a graduate program persist in a failure to follow appropriate procedures or standards, the Graduate Council will consider that situation as an indication that the program should be reviewed for suspension or discontinuance.

## II. Informal Resolution

A formal grievance may be filed by a graduate student only after the student has first sought to resolve the grievance by informal means. The graduate student should begin by contacting the chair or director of the program offering the degree, explaining the nature of the perceived problem, and requesting reconsideration of the decision. If the chair or director was directly involved in the original decision or denies the student an opportunity for due process review at the local level, then the student should seek informal resolution through the college's Associate Dean for Graduate Studies.

## III. Formal Resolution

A. If an attempt at informal resolution is unsuccessful, a graduate student may file a formal grievance with the Associate Vice President for Graduate and Undergraduate Programs or his/her designee. The grievance must be filed in writing within 30 calendar days of the time when informal resolution was unsuccessful. The grievance must include a full statement of the graduate student's evidence that a University regulation or policy or an accepted principle of due process was violated, as well as an explanation of the efforts made to seek informal resolution. The Associate Vice President for Graduate and Undergraduate Programs or his/her designee will verify that a good-faith effort at informal resolution was attempted by the graduate student and that no more than one year has elapsed since the alleged violation occurred.

B. If these conditions have been satisfied, the Associate Vice President for Graduate and Undergraduate Programs or his/her designee will forward the grievance to the Steering Committee of the Graduate Council.

1. If a member of the Steering Committee is a faculty member of the graduate program involved in the grievance, that member of the Steering Committee shall be replaced by another member of the Graduate Council, elected for that purpose, whenever the committee considers any matter related to the grievance.

2. The Steering Committee will forward a copy of the grievance to the chair or director of the graduate program, requesting that a written response be submitted to the committee within 20 working days of receipt of the grievance.

C. When the Steering Committee receives the written response to the grievance, it will determine whether there is sufficient evidence to render a summary judgment or whether the grievance merits further review. The Steering Committee may decide:

1. That there is not sufficient evidence of a violation of a University regulation or policy or an accepted principle of due process and dismiss the grievance; such a decision shall be final, unless further review is granted by the President.

2. That there is sufficient evidence of a violation of a University regulation or policy or an accepted principle of due process to warrant immediate remanding of the grievance to the graduate program, with explicit instructions concerning the violation that must be corrected during the graduate program's reconsideration of the case.

3. That the evidence in the case is such that further review is required; in such an instance the Steering Committee shall notify both the grievant and the graduate program in

writing of the additional evidence the committee wishes to see and whether that evidence should be provided in writing or in personal testimony before the committee.

D. If the Steering Committee seeks evidence by means of personal testimony, the meeting at which such testimony is presented shall be conducted in the manner of any other academic committee meeting and not as a formal hearing; both the grievant and the graduate program shall be given appropriate opportunities to present their views, but the meeting shall be conducted as an inquiry by the committee members, and not as an adversarial proceeding; there shall be no cross-examination.

E. All meetings at which the Steering Committee considers a grievance shall be closed to the public; the committee shall keep minutes of the meeting, but it need not tape-record its proceedings, nor shall a transcript be prepared.

F. When the Steering Committee is satisfied that it has obtained sufficient evidence to make a determination in the case, it shall make its decision in accordance with the provisions of Paragraph III.C.1 or III.C.2 above.

G. The Steering Committee shall report to the Graduate Council on the issues involved in the grievance and on its determination of the case, without identifying the graduate student who filed the grievance.

## Academic Credit

### Credit/No Credit Grading

A graduate student may take courses at the 100/200/300/400 levels under the Credit/No Credit grading policy; however, no course in which a grade of "CR" has been assigned may be used to fulfill the requirements for a master's degree, except that the grade of "CR" may be permitted for master's theses or projects to a maximum of six units when the individual department has specifically designated Credit/No Credit grading for the thesis/project course in the department and for field work, practicum, and/or internship courses.

For graduate students, courses at the 300/400/500/600/700 levels require "B" level proficiency to merit award of the "CR" grade; at the 100/200 levels "C" level proficiency or better is required for award of the "CR" grade.

The option of Credit/No Credit grading for graduate students on 100/200/300/400-level courses is subject to specific regulations of the individual departments regarding their graduate students and regarding the authorization for this option intrinsic to the approved course. Otherwise, no limitation exists as to the number of courses taken under this policy.

### Waiver of Course Requirement and Credit by Examination

No waiver of course requirements or credit by examination may be used to satisfy master's degree requirements. However, the following rules govern course waivers or credit by examination in satisfying prerequisites for admission to candidacy in any master's degree program.

Any candidate for a master's degree who believes that previous training has provided adequate preparation in a certain area may request a waiver from the department concerned.

A candidate may also apply for course credit by examination, but only for prerequisite courses and not to satisfy any of the requirements for the master's degree. Requests for such examinations must be made to the department concerned and approved by the department chair. Credit by examination is restricted to courses published in the current *CSULB Catalog*. Please see Credit by Examination in the General Regulations section of this *Catalog*.

All course credit by examination will be recorded as CR (Credit) and will not be included in calculation of grade-point averages; such credit may not be used to remove a grade of "D" or "F" in a course already attempted, nor may course credit by examination be granted for any course which is a prerequisite to one for which credit has already been received.

### Graduate Transfer Units by Extension

At the option of the college or department offering an advanced degree requiring a total of thirty units, up to six units of approved extension/continuing education or transfer credit is acceptable on graduate student programs. At the option of the college or department offering a graduate degree requiring a total of 30 units, this limit may be raised to 9 units of extension/continuing education credit if taken at CSULB. These limits may be increased further for graduate degrees requiring more than 30 units provided that (1) no graduate degree may be awarded by CSULB unless at least 24 units are taken in residence, and (2) no graduate student program may use either extension/continuing education or transfer credit to satisfy the requirement that at least 60 percent of the total units be taken at the 500 and 600 levels. Extension courses completed at campuses including California State University, Long Beach shall be acceptable within the six-unit transfer limit, provided the work can be properly evaluated and the course is acceptable as graduate work for an equivalent graduate degree on the campus where taught. Extension/continuing education and transfer course material shall be evaluated and approved by CSULB faculty teaching in the topic area in conjunction with the department graduate advisor and college associate dean or director of graduate studies. Final approval/disapproval shall be the responsibility of the Associate Vice President for Graduate and Undergraduate Programs or his/her designee.

Extension/continuing education credit may not be used to reduce the minimum units required in a discipline for a master's degree, that is, extension credit may be used to complete coursework required outside the discipline. Excess grade points earned in extension classes may not be used to offset a grade-point deficiency in the total graduate record.

Grades earned at another institution may not be used to offset grade-point deficiencies in courses taken at this University. However, grades of "C" earned at another institution in courses transferred to satisfy subject matter requirements for an advanced degree at this institution must be balanced by grades of "A" at this University to meet the required 3.0 ("B") overall average.

Credit earned by correspondence or by examination cannot be used to satisfy master's degree requirements.

### Graduate Studies 700

Every semester, graduate students must be registered in a course or in GS 700 or must have an approved educational leave. Registration in GS 700 is restricted to graduate students who have completed all course work, have been advanced to candidacy, and have departmental approval. Registration in a course or in GS 700 also is required in winter or summer session if that is when a student plans to graduate. Although no unit credit is added to the student's program or transcript, GS 700 is considered as one unit of concurrent enrollment credit for fee payment purposes, payable at University College Extension Services. Application forms are available from and must be approved by department graduate advisors. Registration in GS 700 is CR/NC only.

### Academic Load

Nine units per semester is a normal academic load for a full-time graduate student engaged in study toward a master's degree. If a candidate wishes to exceed this limit, it should be discussed with the departmental graduate advisor. The maximum load for graduate students working toward a master's degree is 16 units per semester. Students who are employed full-time should not exceed six units per semester.

Graduate students who wish to register for more than one unit of credit per week of attendance during the summer session must secure advance approval from the college associate dean or director of graduate studies. Petition forms and information may be obtained in the college offices.

### Honors

#### The Graduate Dean's List of University Scholars and Artists

The Graduate Dean's List provides for University recognition of its most outstanding graduate students. Candidates for this honor will normally have completed the coursework applicable to their graduate student programs at the University. The annual list is limited to one percent of the University's graduate enrollment. Those honored will be named in the Commencement Program and will receive a certificate from the Associate Vice President for Graduate and Undergraduate Programs or his/her designee.

#### Departmental Graduate Student Honors

In recognition of outstanding graduate student achievements, departments may honor graduating master's degree candidates by special recognition in the annual commencement ceremonies. Departmental graduate student honors are reserved throughout the University to two students (or a maximum of ten percent) from a department. Departmental graduate student honors are usually restricted to students not otherwise recognized by University or college awards. These honors are normally conferred for excellence in and contributions to the discipline, including outstanding seminar papers, artistic exhibitions, special achievements in field work and in University committees and functions, as well as participation in scholarly and professional organizations resulting from student research.

# HEALTH CARE ADMINISTRATION

*College of Health and Human Services*

Program Director

The Health Care Administration program has four major objectives: (1) to provide course work and related experience in order to prepare administrators, skilled in the application of organizational and managerial techniques, for the health care system; (2) to provide continuing education for health administrators in practice as well as others in administrative and leadership positions in the management and the delivery of health services; (3) to consult and to participate in community service activities which complement the instructional and research functions of the faculty and provide appropriate learning experiences for students; and (4) to conduct studies in the administration and operation of the health care delivery system which will contribute to development of faculty teaching abilities and overall professional growth.

The program is designed for the professional administrator or those who wish to become administrators within health care. Five programs are offered:

1. Master of Science in Health Care Administration
2. Certificate in Health Care Administration
3. Bachelor of Science in Health Care Administration
4. Master of Science in Nursing/Master of Science in Health Care Administration
5. Master of Science in Health Care Administration - Accelerated Program

The schedule of graduate and undergraduate course offerings is in the regular *Schedule of Classes*.

## Bachelor of Science in Health Care Administration (code HCA\_BS01) (120 units)

### Requirements for Admission

#### Prerequisites

1. All students must complete a minimum of 15 semester units or the equivalent in prerequisite preparatory courses for the major: ACCT 201, ECON 101 or 300, IS 233, SOC 250 (or equivalent) and BIOL 200 (or equivalent). Computer proficiency in word processing, spreadsheet, database and presentation software is expected. Business calculus (MATH 115) is recommended.
2. An overall grade point average of 2.0 or higher is required for entrance into the program. A minimum grade of "C" is required for each prerequisite course.

#### Requirements

1. Complete the requirements for General Education;
2. Complete the prerequisite courses;
3. Complete the major core course requirements: HCA 312, 340, 341, 353, 402, 410, 416, 450, 465, 480, HSC 150 and HSC 400;
4. Upper Division (required elective courses): A minimum of 9 additional units from the following: HCA 320, 422I, 438, 439, 440, \*451, 452, and 470I;
5. Complete the electives as needed, to total 120 semester units;
6. Fulfill the Graduation Writing Assessment Requirement (GWAR);
7. Each major course must be completed with a grade of "C" or better. A course in which a grade lower than "C" is received must be retaken and successfully completed prior to enrolling in any course for which it is a prerequisite. A student receiving a grade lower than a "C" may proceed with other courses for which it is not a prerequisite with approval of the Undergraduate Advisor.

## Master of Science in Health Care Administration (code HCA\_MS01)

The goal of the M.S. in Health Care Administration program is to prepare individuals to enter administrative positions in hospitals and ambulatory care centers, managed care, long-term care, and mental health settings as well as in multi-institutional system central offices, governmental health agencies, and other health related organizations. Students completing the M.S. in Health Care Administration will achieve the following objectives: (1) Demonstrate knowledge of the U.S. health care system and fundamental issues affecting the administration of health care services, (2) Demonstrate organizational and managerial knowledge and skills essential to administrative positions in health care services, (3) Demonstrate specialized knowledge and skills in a variety of functional areas in health care administration, including financial management, marketing, job analysis, compensation management, or public policy analysis, (4) Use ethical principles within admin-

istrative positions of responsibility in health care services, and (5) Demonstrate the ability to conduct studies in the organization, financing, administration, and operation of health care delivery systems. The program is designed for persons with a variety of undergraduate experiences who give evidence of interest and potential success in health care management and/or research.

### Admission Requirements

Each applicant should request that a copy of all college course work and GMAT scores be sent to the graduate adviser, Health Care Administration Program, in addition to the copies required by the Office of Admissions and Records. In addition, a current resume should be sent to the Program along with three letters of recommendation.

### Admission Criteria

1. Baccalaureate degree from an accredited institution;
2. Baccalaureate degree with a minimum of 12 units of course work to include: accounting and financial management, economics, information systems, and statistics;
3. An applicant must have an overall undergraduate grade point average of 3.0 or better. Those applicants with less than 3.0, but with acceptable evidence of professional potential shown through recent academic performance and experiential background, may be admitted by special action of the Program Graduate Committee;
4. Interview with member of faculty or preceptor may be required;
5. A current and complete resume including references;
6. Submission of scores on recent Graduate Management Admission Test (GMAT).

### Prerequisites

The following courses or their equivalent:

1. ACCT 201
2. ECON 101 or 300
3. Statistics
4. IS 233 (or equivalent)

Students should contact the Program director for a determination of deficiencies and required remediation.

### Requirements

1. Completion of graduate level course work in Health Care Administration: HCA 451, 502, 505, 510, 515, 517, 524, 530, 535, 550, 695 and HSC 500.
2. Completion of any one of the courses in site specialization: HCA 536, 537, 538, 539, 540, or 552.
3. Completion of an approved elective course.
4. Completion of a minimum of 45 units including Project and Internship HCA 580 and HCA 698.

### Advancement to Candidacy

Students will be instructed to apply for advancement to candidacy after:

1. Completion of 6 units of core course work that applies to the degree with an average grade of "B" or better,
2. Fulfillment of the Graduation Writing Assessment Requirement (GWAR), and
3. Approval of Program Director.

### Accelerated Program

The Master in Health Care Administration Accelerated Program (MSHCA AP) is designed to prepare working professionals for administrative positions in health care organizations which requires minimum three years of work experience and combines online and in-class instruction. The MSHCA AP program requires 45 credit hours consisting of 14 core courses and an internship experience of 3-credits, which may be substituted for HCA 599 Special Topics. The program offers foundation courses early and more advanced healthcare administration specific courses later in the Program.

### Accelerated Education Model

#### YEAR I

##### First Quarter - Fall

- Orientation No Credit
1. HCA 451
  2. HCA 505

##### Second Quarter-Winter

3. HCA 502
4. HSC 500

##### Third Quarter-Spring

5. HCA 524
6. HCA 515

##### Fourth Quarter-Summer

7. HCA 535
8. HCA 510

#### YEAR II

##### First Quarter-Fall

9. HCA 530
10. HCA 517
11. HCA 698 Project-Part I (1 unit)

##### Second Quarter-Winter

12. HCA 537
13. HCA 550

##### Third Quarter-Spring

14. HCA 698 Project-Part II (2 units)
15. HCA 695

##### Fourth Quarter-Summer

16. HCA 580
17. GS 700 [if students don't complete HCA 698 in time]

### Certificate in Health Care Administration (code HCA\_CT01)

The Certificate Program in Health Care Administration is comparable to a minor of 18 semester units and, with prerequisite course work, may require up to 24 semester units for completion. Components of the program include the forms of organization and operation of health care systems, human resources management, leadership and development, financial management, and marketing. The Certificate

may be combined with major programs from a variety of fields including, but not limited to, behavioral and natural sciences, humanities, health professions, business and public administration, and social work and is conferred as a post-baccalaureate certificate (or concurrently with the BS/BA). The courses taken for the certificate (with a grade of "B" or better) may apply toward the MS program at the discretion of the Program Director.

Health care administrators are usually prepared at the masters' degree level for job entry into upper management. There is, however, increased emphasis to prepare health care professionals to function as managers at other levels as well. Increasingly, physicians are also seeking preparation in the elements of management. These diverse groups use management skills in the health services and related fields. These include hospitals, nursing homes, health departments, health maintenance organizations, health planning and regulatory agencies, health management and review companies, group medical practices, health insurance firms, pharmaceutical and medical supply companies.

### Requirements

1. Admission to the University;
2. A bachelor's or advanced degree with transcripts (conferred or expected);
3. Consultation with the Program Director;
4. A minimum of 18 units is required and may include: HCA 312, 341\*, 353+, 402, 410 or the equivalent. At the graduate level HCA 502, 505, 510, 515, 530 or equivalent courses are considered for the Certificate Program.

\* Prerequisite: ACCT 201

+ Prerequisite: ECON 101

Course substitutions may be made at the consent of the Program Director.

### Master of Science in Nursing/Master of Science in Health Care Administration (code NRSGMC01)

The Department of Nursing and Health Care Administration Programs offer a concurrent Master of Science in Nursing and Master of Science in Health Care Administration dual degree available to qualified students who desire advanced preparation in the areas of nursing and health care administration with a practice focus as Advanced Practice Nurses in administration. The concurrent program leading to both degrees represents the core accreditation requirements of each degree. Coursework is integrated between the two degree programs each semester in order to provide an intense learning experience.

The philosophy of graduate nurse education is that the practice of nursing is constantly changing as health needs and health delivery systems are altered. Integral to nursing is an ability to work effectively and cooperatively with other disciplines. The joint Master of Science in Health Care Administration and the Master of Science in Nursing provides the opportunity for students to specialize as advanced practice nurses with emphasis in administration and increasing competence in designing, implementing, and evaluating programs in preparation for serving in various health organizations. An important career path for advanced practice nurses is as nurse executive in the variegated segments of the health care indus-

try including entrepreneurial activities. Courses are interdependent and have been structured to provide clinical depth in the areas of nursing and administration.

Each applicant should request that a copy of official transcript of all college course work be sent to the Nursing Department Graduate Advisor and to the Office of Admissions and Records.

### Admission Requirements

1. Bachelors degree in nursing or currently enrolled in accelerated RN to Masters program. Those nurses with Baccalaureate degrees in health related fields may be conditionally admitted.
2. Current license to practice as a registered nurse in California.
3. Admission to graduate standing at the University.
4. An upper division or graduate course in biostatistics (H/SC 403 or ED P 419).
5. Public Health Nurse Certificate, or eligibility for certificate in California.
6. An overall GPA of 3.0 or better; an upper division nursing GPA of 3.0 or better and a science GPA of 3.0 or better. Students who fall below these averages will be evaluated on an individual basis.
7. Submission of quantitative and verbal scores from the Graduate Record Examination (GRE) or the Graduate Management Admissions Test (GMAT).
8. Three letters of recommendation from persons with whom the applicant has worked and who has direct knowledge of the applicant's qualifications.
9. A separate personal statement of applicant's reasons for pursuing this field of study and comments about interests and experiences which are germane to career objectives.
10. Current professional resume describing the applicant's relevant experience.

### Advancement to Candidacy

A joint committee, consisting of Nursing and Health Care Administration faculty involved in the program, will review files and make a determination to advance the candidate to graduate status. Student criteria for advancement are as follows:

1. Satisfy the general University requirements for advancement to candidacy in Nursing and Health Care Administration;
  - A. fulfill the Graduation Writing Assessment Requirement (GWAR), and
  - B. have at least a 3.0 grade point average for all course work attempted as a graduate student.
2. Joint approval by the Department of Nursing and Health Care Administration and the Associate Dean in the College of Health and Human Services.

### Requirements for Completion

1. A minimum of 57 units of approved Nursing and Health Care Administration upper division and graduate level courses including:  
The Program of Study: NRSG 559, 560, 596, 680A, 680B, 680C, 680AL, 680BL, 680CL, 698, HCA 502, 505, 510, 515, 524, 530, 535, 550, 698.

2. An overall GPA of 3.0 or better in all courses.
  3. Directed project or a thesis.
  4. \*Graduate degrees obtained previously may be accepted toward meeting a portion of the unit requirements of the concurrent MSN/MSHCA degree program.
  5. If a student after entering the concurrent MSN/MSHCA program returns to a single degree program, all requirements for the single degree program must be met.
- \* 60% of units must be earned in residence.

## Courses (HCA)

### Lower Division

#### 202. Introduction to Health Care in America (3)

Prerequisites: Completion of GE Foundation requirements. This course examines the structure of the current health care system including the services, financing, political, and social forces that influence its organization. Contemporary health issues such as cost, quality, and access are introduced and discussed within the context of current health care organizations. Access and diagnostic/treatment differences of ethnic minorities including African American, Asian, Latino, Native American and other groups, as well as gender disparities including sexual orientation will be discussed. Letter grade only (A-F).

### Upper Division

#### 312. Health Personnel Management (3) S

Prerequisite/Corequisite: HCA 202 or HCA 402. The management of human resources in health care settings. Content includes principles and methods of personnel work such as employee recruitment, selection, retention, training, evaluation, wage and salary administration, and labor-management relations. (Lecture.) Letter grade only (A-F).

#### 320. Operations Management in Health Administration (3) S

Prerequisite: SOC 250 or PSY 110 or equivalent. Prerequisite/Corequisite: HCA 202 or HCA 402. The application of the concepts and methods of operations management to the health care organizational setting. Emphasis on planning and control in the management process. (Lecture.) Letter grade only (A-F).

#### 340. Legal Aspects of Health Administration (3) S

Prerequisite/Corequisite: HCA 202 or HCA 402. Focus on the nature, perspective and objects of the legal and legislative process. Provides skill in understanding legal terminology, legal reasoning and the tools of the law, with practical application of these principles and concepts to health care management and health policy decisions. (Lecture.) Letter grade only (A-F).

#### 341. Financial Management of Health Care Institutions (3) F,S,SS

Prerequisite: ACCT 201. Prerequisite/Corequisite: HCA 202 or HCA 402. Application of the concepts of financial management within health care organizations, to include financial planning principles, reimbursement procedures, governmental regulation and legal restraints. (Lecture.) Letter grade only (A-F).

#### 353. Marketing for Health Services Organizations (3) F,S

Prerequisite: ECON 101 or 300. Development of marketing strategies and analyses in a health care setting. Design of services to include pricing, communication, distribution channels, and client motivation and services. Letter grade only (A-F).

#### 402. The Health Care System (3) F,S,SS

The course focuses on the contemporary health care system to include its historical beginnings and the underlying social and biological forces which influence its organizational forms, financing and manpower requirements; issues and concerns molding its future such as the assurance of the quality of patient care and the regulation and control of the system. (Lecture)

#### \*410. Health Management and Organization (3) F,S

Prerequisite/Corequisite: HCA 202 or HCA 402. Concepts of organizing activities to achieve the goals of health care institutions. Effects of environment, technology, and human behavior on organizational design. Managerial processes include planning, decision-making, influencing, controlling required to operate and change health care organizations. (Lecture.) Letter grade only (A-F).

#### 416. Management and Information Systems (3) F,S

Prerequisite/Corequisite: HCA 202 or HCA 402 and IS 233 or equivalent. Evaluation of concepts, analysis and design of management information systems; management decision models, strategies for implementing system changes. (Lecture.) Letter grade only (A-F).

#### 422I. Global Issues in Health Services (3) F,SS

Prerequisite/Corequisite: HCA 202 or HCA 402. Completion of the G.E. Foundation, one or more Exploration courses and upper division standing. Contemporary problems in health service developed as an interrelated system. Rural health problems, issues of the elderly, rising costs and new technology presented with reference to industrialized and non-industrialized countries (e.g. Europe, Asia and North America, Africa and Latin America). Geographic, political, economic, historical and anthropological aspects of health; administration problems and issues will be analyzed. (Lecture.) Letter grade only (A-F).

#### 439./539. Management Challenges in Long Term Care (3)

Prerequisite/Corequisite: HCA 202, 402 or 502. Students will learn the managerial functions and skills essential to managing a wide array of long term care services and develop an understanding of today's management methods appropriate to multiple Long Term Care (LTC) settings with special emphasis on: 1) the difficulties faced by administrators and managers in developing an maintaining effective systems for providing efficient LTC services; 2) the organizational aspects of managing a workforce, patient and family relations, marketing and reimbursement along with current managerial challenges; and 3) delivering LTC within various institutional arrangements. (Lecture.) Letter grade only (A-F).

#### 450./550. Continuous Quality Improvement in Health Services (3)

Prerequisites: HCA 402 or 502, and HCA 465. Designed for the health care professional or administrator who is involved in or concerned about assurance of quality in health care. Course includes historical beginnings, state of the art, voluntary and governmental effort and proposed means to quality assurance. (Discussion) Letter grade only (A-F).

#### \*451. Economics of Health (3) S

Prerequisites: ECON 101 or 300. Analysis of health as an economic good. Health services as scarce resources. Use of tools of economic theory in study of special problems of health resources, markets, manpower shortages, non-profit enterprises, insurance programs and Medicare. Procedures stress individual studies and reports. Not open to students with credit in ECON 345 or ECON 445. Same course as ECON 445.

#### 452./552. Medical Group Practice Management (3) F

Prerequisite/Corequisite: HCA 202, 402 or 502; and HCA 450 or 550; and HCA 341 or 515. Overview of medical group management incorporating the basic functions of health care administration and applying them to the medical group practice setting with an emphasis on managed care delivery systems. Fundamental operation responsibilities of medical group administration today. (Lecture.) Letter grade only (A-F).

#### 465. Analysis and Evaluation of Health Care Services (3) F,S,SS

Prerequisite or Corequisite: HCA 202 or HCA 402 and Prerequisite: PSY 110 or SOC 250 or equivalent. Techniques of analysis and evaluation applied to health services with respect to organizing, staffing, financing and utilization. Emphasis on the analytic process, program evaluation, and report of findings. Letter grade only (A-F).

**470I. Latinas/Latinos: Health Status and Health Care Access (3)**

Prerequisites: Completion of the G.E. Foundation, one or more Exploration Courses, and upper division standing. This course is a critical interdisciplinary examination of the health status and health care access of Latinos in the United States. The primary objective of the course is to provide an overview of the policies, epidemiologic, and cultural factors that influence the etiologies of diseases within Latino subpopulations. This cross disciplinary approach will also be used to analyze the health care problems faced by Latino subpopulations that constrain efficient management of services and equitable delivery of health care. Letter grade only (A-F). Same course as CHLS 470I.

**480./580. Internship in Health Care Administration (3) F,S,SS**

Prerequisites: HCA 341, 353, 402, 410, 416, 465 and HSC 150. A minimum of 120 hours of structured work experience in a health care organization, under the direct supervision of a preceptor employed by the organization with guidance by the instructor. Students will receive coaching in resume and cover letter preparation, interviewing skills and professional development. Graduate students will study and report on the organizational structure, philosophy, problems and personnel relationships of the institution. May be repeated to a maximum of six units in different semesters. Letter grade only (A-F).

**490. Special Topics in Health Care Administration (1-3) F,S**

Topics of special interest in health care administration selected for intensive study. Topics will be announced in the *Schedule of Classes*. May be repeated to a maximum of 6 units with different topics. Letter grade only (A-F).

**499. Directed Studies (1-3) F,S**

Prerequisite: Consent of instructor. Independent study of special topics under supervision of a faculty member. May be repeated to a maximum of 4 units. In exceptional cases, may be repeated to a maximum of 6 units when approved by the Director of the Health Care Administration Program. Letter grade only (A-F).

**Graduate Level**

**502. The Health Care System (3) F,S,SS**

The course focuses on the contemporary health care system to include its historical beginnings and the underlying social and biological forces which influence its organizational forms, financing and manpower requirements; issues and concerns molding its future such as the assurance of the quality of patient care and the regulation and control of the system. Letter grade only (A-F). (Lecture)

**505. Organization and Systems of Health Care (3) F**

The analysis of operational activities and managerial functions essential to the health care delivery system will be examined and discussed. Special emphasis will be placed on the manager's role in developing and maintaining an effective system for providing health care services. The organizational aspects and managerial approaches of delivering health care services within various institutional arrangements will be discussed. Letter grade only (A-F).

**506. Epidemiology for Managers (1) W**

Analysis of patterns of health and disease and how these impact on health delivery in the U.S. and abroad. Planning health services based on distribution of acute and chronic disease in populations. (Seminar)

**510. Human Resources Management in Health Care (3) S**

Management of human resources in the health care system including human resource planning and staffing, training and development, performance appraisal, job design and analysis, and compensation. Letter grade only (A-F).

**515. Advanced Financial Management in Health Care (3) F**

Prerequisites: ACCT 201 or 500. Examination of the principles and practices of managing financial resources in health institutions. Evaluation of trends in the financing of health care and the influence of third-party payers on the financial decisions of health care administrators. Letter grade only (A-F).

**517. Advanced Healthcare Information Systems Management (3)**

Prerequisite: HCA 416, 502, 530 or consent of instructor. This course provides healthcare professionals with a broad overview of healthcare information systems and a close examination of the strategic and tactical business needs for the information technology (IT) required to deliver cost-effective, quality healthcare. Letter grade only (A-F). (Lecture/discussion)

**524. Advanced Legal and Ethical Aspects of Health Administration (3)**

Examination of the federal and state regulations of health care facilities, employees, patients and programs, emphasizing legal rights, privileges and duties of health care facility to patients and employees and other providers. Topics include malpractice and other liability rules, contracts, informed consent, end of life decisions, reproductive health issues, medical records, confidentiality and required disclosures will be studied from ethical and legal perspectives. Letter grade only (A-F).

**530. Strategic Planning and Marketing in Health Care (3) S, SS**

Prerequisite or corequisite: HCA 502. This course provides an understanding of strategic management and marketing enabling the student to lead the process of strategic planning in a health care organization. By conducting a strategic planning process, health care organizations are better able to cope with dramatic changes in technological, social, political, regulatory and competitive aspects of the health care market. Strategic management enables organizations to identify issues unique to them which hinder or promote organizational success. Through course reading, analyses of secondary quantitative and qualitative data, and presentation of case studies, students gain a thorough understanding of the process of strategic management. Letter grade only (A-F)

**535. Quantitative Methods for Health Administration (3) F**

Prerequisites: Statistics. Identify and apply appropriate quantitative and operations research techniques to problems in health care settings. Students will receive intensive exposure to decision theory and control systems, and have practical experience solving problems in resource allocation, procedural decisions, scheduling, forecasting, measurement, and cybernetic control. Letter grade only (A-F).

**536. Hospital Management (3) F**

Prerequisites: HCA 505. The goal of this course is to develop familiarity with the internal operations of acute care hospitals and skills in solutions of hospital operational problems. Hospitals will be analyzed by broad function and by specific departments. Cases, simulations and visits may be used. (Seminar 3 hours.)

**537. Managed Care (3)**

Prerequisites: HCA 402 or 502. The purpose of this course is to prepare people to enter the managed care field and to orient managers to the organization and administration of Health Maintenance Organizations, Preferred Provider Organizations and related enterprises. Both relationships to the health care marketplace and operational aspects of managed health systems will be covered. Guest lecturers from managed care organizations will participate in the course and students will be expected to develop an operational plan based on a real world situation. (Seminar 3 hours.)

**538. Long Term Care Management (3) SS**

Prerequisites: HCA 402 or 502. Long term care facilities, offering services to the aged and disabled, pose unique problems for managers within this industry. With the "graying" of America, emergence of debilitating illnesses such as AIDS, and focus on cost containment as a major health policy issue, managers in this sector of health must assume leadership roles in planning and adapting to this dynamic and expanding environment. This survey course will analyze the forces influencing the development of long term care in the U.S. and address specific organizational aspects that affect outcomes of services provided in long term care settings. Letter grade only (A-F).

**539./439. Management Challenges in Long Term Care (3)**

Prerequisite/Corequisite: HCA 202, 402 or 502. Students will learn the managerial functions and skills essential to managing a wide array of long term care services and develop an understanding of current management methods appropriate to multiple Long Term Care (LTC) settings with special emphasis on: 1) the difficulties faced by administrators and managers in developing an maintaining effective systems for providing efficient LTC services; 2) the organizational aspects of managing a workforce, patient and family relations, marketing and reimbursement along with current managerial challenges; and 3) delivering LTC within various institutional arrangements. (Lecture.) Letter grade only (A-F).

**540. Long Term Care in Action (3)**

Prerequisite: Undergraduate degree or consent of instructor. Southern California has many exciting programs that serve people of all ages with long-term health care needs. The purpose of this course is to give students and professionals opportunities to see a variety of settings that provide long-term care. During the semester, faculty and students will visit ten organizations that provide long-term care services in the greater Long Beach area. Students will be assigned readings pertinent to each field site and complete a profile for each type of service. Letter grade only (A-F). (Lecture activity).

**550./450. Continuous Quality Improvement in Health Services (3)**

Prerequisites: HCA 402 or 502, and HCA 465. Designed for the health care professional or administrator who is involved in or concerned about assurance of quality in health care. Course includes historical beginnings, state of the art, voluntary and governmental effort and proposed means to quality assurance. (Discussion) Letter grade only (A-F).

**552./452. Medical Group Practice Management (3) F**

Prerequisite/Corequisite: HCA 202, 402 or 502; and HCA 450 or 550; and HCA 341 or 515. Overview of medical group management incorporating the basic functions of health care administration and applying them to the medical group practice setting with an emphasis on managed care delivery systems. Fundamental operation responsibilities of medical group administration today. (Lecture.) Letter grade only (A-F).

**580./480. Internship in Health Care Administration (3)**

Prerequisites: HCA 502, 505, 510, 515, 524, 530, 535, 550. A minimum of 120 hours of structured work experience in a health care organization, under the direct supervision of a preceptor employed by the organization with guidance by the instructor. Students will receive coaching in resume and cover letter preparation, interviewing skills and professional development. Graduate students will study and report on the organizational structure, philosophy, problems and personnel relationships of the institution. May be repeated to a maximum of six units in different semesters. Letter grade only (A-F).

**590 Special Topics (1-3)**

Prerequisite: Consent of Instructor. Topics of current interest in the various fields of Health Administration and Health Services Management selected for special presentation. Topics will be announced in the *Schedule of Classes* each semester. Courses may be repeated to a maximum of 6 units with different topics in different semesters. Letter grade only (A-F).

**599. Directed Studies (1-3) F,S**

Directed study of a special topic to be taken under supervised independent study. May be repeated for a maximum 6 units with different topics in different semesters. Letter grade only (A-F).

**695. Integrative Seminar: Critical Analysis of the Health Care System (3) S**

Prerequisites/Corequisites: HCA 580, 698. The health care system will be critically analyzed within its organizational, financial, and personnel components to include the socioeconomic and political forces which bind the system. A systematic, ecological approach will be employed with emphasis on an advanced and critical analysis of the U.S. system. Special consideration will be given to the public policy determinations which have influenced the development of the system and relevant problems and issues. Letter grade only (A-F).

**698. Project (3) F,S**

Prerequisites: All 500-level courses, and consent of instructor. The student will investigate what is considered a major problem to the health care institution identified in the student's residency, research it in accordance with an accepted methodology, consider the characteristics of the organization, and recommend potential courses of action for the organization to take. May be repeated to a maximum of 6 units. Letter grade only (A-F).

The field of Human Development studies lifespan development within societal and cultural contexts. Accordingly, Human Development is interdisciplinary, examining development primarily from the perspectives of its component disciplines: Anthropology, Biology, Psychology and Sociology.

The Human Development Department offers a B.A. in Human Development and supervises the Human/Child Development concentrations in the Liberal Studies Program. The B.A. program is structured to provide students with: a broad knowledge of lifespan human development, specific expertise in processes and contexts that affect development, methods to evaluate research and theory within human development, and practice in the real-world application of knowledge gained in the program. Within these guidelines, the B.A. is flexible—students can choose courses that best fit their needs and goals.

Students choose from a wide variety of courses for their Foundation Area requirements. Foundation Area courses cover the components of Human Development—the biological, the psychological and the sociocultural. Students interested in gerontology, for example, may choose to take courses like the Biology of Aging, Introduction to Gerontology and Culture and Aging as their Foundation Area courses, while students interested in child development generally choose different courses for those requirements. Careful selection of Foundation courses can allow students to complete certificate programs (for example, the Gerontology or Child Development Certificates), while completing their major.

In addition to their academic training, Human Development students are taught to apply their knowledge through a course in Interpersonal Skills and a semester Practicum. For the Practicum, students typically volunteer in settings pertaining to their career goals. Because the career goals of our students vary, individual students usually are in different practicum sites, including: elementary schools, human resource management offices, senior centers, physical therapy units and various social service agencies.

The faculty of Human Development are active researchers, who regularly include interested students in their research programs. Students who are considering graduate school have the opportunity to work as research assistants on a variety of projects and can help present the findings of those projects at professional conferences. Research experience of this type enhances the likelihood that students will be accepted into the graduate program of their choice.

Human Development graduates pursue a variety of careers. At the B.A. level, many take positions in the social services and business. A substantial number of students enroll in Teaching Credential Programs, while others have gone to graduate school in: Applied Anthropology, Counseling, Criminal Justice, Developmental Psychology, Gerontology, Occupational Therapy, Physical Therapy, School Psychology, Social Work and other fields.

Human Development has an active student club, the Human Development Student Association (HDSA). The HDSA is open to all students enrolled in Human Development courses and has regularly scheduled meetings. Activities sponsored by the HDSA are diverse and include community service projects, sponsoring speakers and films and hosting student-faculty parties. HDSA activities are posted outside the Department Office.

More information on the Human Development Department can be obtained at the Department Office (PSY 205) and the department website. Students who wish to major in Human Development should seek early advising from the Undergraduate Advisor.

## Bachelor of Arts in Human Development (code HDEVBA01) (120 units)

### Requirements

Lower Division: ANTH 120, PSY 100, SOC 100.

Core Courses (27 units):

1. HDEV 250, 307I, 320, 357I, 360, 364, 402 or 403, 470;
2. Twelve units from the following list, including at least one course from each foundation area.

*Biological:* ANTH 318, 319, BIOL 309I, 401, H SC 420I, 421, 425I, 427;

*Psychological:* ED P 302, 305, FCS 311, 314, 411, GERN 400I, 485, HDEV 3001, 340, PSY 331, 332, 333, 336, 341, 351, 356, 370, 438, 463;

*Sociocultural:* ANTH 351, 413, 419, 421, 454, 475, ASAM 340, 381, B/ST 410, CHLS 340, 350, 415, FCS 311, GERN 400I, HDEV 300I, 340, LING 329, 379, SOC 320, 325, 335I, 345, 346, 423, 464, W/ST 401I, 420.

Students must earn a grade of at least "C" in all upper division major courses.

### FOUR YEAR PLAN TO COMPLETE THE B.A. DEGREE in HUMAN DEVELOPMENT (HDEVBA01)

120 Units Required

Department of Human Development

Semester 1		Semester 2	
University 100	1	Oral Comm or Composition	3
Composition or Oral Comm	3	GE Math or other GE class	3-4
GE Math or other GE class	3-4	ANTH 120 (GE D2)	3
PSY 100 (GE D2)	3	GE Class	3
GE Class	3	Critical Thinking or	
Elective Class	1	other GE class	3
TOTAL UNITS	14-15	TOTAL UNITS	15 -16
Semester 3		Semester 4	
Critical Thinking or other GE class	3	HDEV 250	4
SOC 100 (GE D2)	3	GE Class Lab Science	4
GE Class Lab Science	4	Elective Class	3
Elective Class	3	Elective Class	3
Elective Class	3		
TOTAL UNITS	16	TOTAL UNITS	14

Semester 5		Semester 6	
HDEV 307I (GE Capstone D2)	3	HDEV 360	3
HDEV 357I (GE Capstone E/HD)	3	HDEV 364	3
HDEV 320	4	GE Class/Masjor Elective	3
Major Elective	3	Elective Class	3
Elective Class	3	Elective Class	3
TOTAL UNITS	16	TOTAL UNITS	15
Semester 7		Semester 8	
HDEV 402 or 403	3	HDEV 470	4
Major Elective	3	Major Elective (if needed)	3
GE Capstone Class*	3	Elective Class	3
Elective Class	3	Elective Class	3
Elective Class	3	Elective Class	3
TOTAL UNITS	15	TOTAL UNITS	16

\*Two of the three required GE Interdisciplinary Capstone Classes are major requirements and can count in GE.

Third GE Capstone requirement can be taken as one of the upper division major elective courses if desired.

### FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

### I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

### Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

**I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?**

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

**I didn't complete the exact list of courses shown. Can I still graduate on time?**

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

**If I follow the plan, will I have all requirements for graduation completed?**

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

## Minor in Human Development (code HDEVUM01)

The minor in Human Development may be combined with any major at CSULB except Human Development and Liberal Studies, Track II-Human Development Concentration. The minor in Human Development offers students an opportunity to supplement their education with an interdisciplinary study of lifespan development within societal and cultural contexts.

### Requirements

A minimum of 7 courses, chosen in consultation with the Human Development Program Advisor, which must include:

1. ANTH 120 or PSY 100 or SOC 100
2. HDEV 250, 307I, 320, 357I, 360
3. One additional Human Development course chosen from HDEV 300I, 340, 364, 402, 403, 470.

All students in this minor must take at least 6 courses in Human Development. All students who complete another course as part of their major that is equivalent to a Human Development course (such as a statistics course equivalent to HDEV 250) must substitute another HDEV course for that one.

## Courses (HDEV)

### Lower Division

#### 180. Lifespan Human Development (3)

Prerequisite/Corequisite: ENGL 100 or equivalent. Introduction to the cognitive, social emotional and physical development of humans within their ecological niches. Differing worldviews (anthropology, sociology, psychology, and biology) will be used to compare and contrast developmental milestones and issues from conception to death.

#### 250. Elementary Statistics in Social and Behavioral Sciences (4)

Prerequisites: Knowledge of mathematical procedure usually covered in elementary high school algebra, eligibility for GE math. Not open to students with credit in ANTH 202, MATH 180, PSY 110, SOC 250 or C/LA 250. Introduction to descriptive and inferential statistics and their applications in social and behavioral science research; performance of statistical exercises by interactive computer. Emphasis upon knowledge of which statistical tests to use and how to interpret their results. (Lec 3 hrs, lab 2 hrs.) Same course as C/LA 250.

### Upper Division

General Education Category A must be completed prior to taking any upper division course except upper division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

#### 300I. Death and Dying (3)

Prerequisites: Completion of G.E. Foundation, upper-division standing, ANTH 120 or HDEV 180 or PSY 100 or SOC 100. This course will explore the social, cultural and individual aspects of the death experience. Death will be examined from historical, biological, legal, religious and ethnical perspectives. In addition, death work, aspects and meaning of the dying experience, survivorship, ritual and grief will be studied. All topics will be examined in light of life-span, cultural and gender diversity. Not open to students with credit in HDEV 400I.

#### 307I. Human Development: Childhood Through Adolescence (3)

Prerequisites: Completion of G.E. Foundation, upper-division standing, ANTH 120 or HDEV 180 or PSY 100 or SOC 100. Biological, psychological, and sociocultural aspects in the growth of the individual from conception through early adolescence will be considered. Relevant topics and theoretical issues will be treated in an interdisciplinary manner. Not open to students with credit in NRS 307.

#### 320. Research Methods in Human Development (4)

Prerequisites: ANTH 120, or PSY 100 or SOC 100, HDEV 250, completion of GE life science requirement. Research methods in human development. Includes methods and models from anthropology, biology, psychology and sociology as applied to research. (Lec 3 hrs, lab 2 hrs.) Letter grade only (A-F).

#### 340. Families and Work: Life Course Processes (3)

Prerequisites: Completion of G.E. Foundation, upper division status, PSY 100 or ANTH 100 or SOC 100. This course provides a framework for understanding families, work, and their changing relationship. It examines the historical transformations over time in Western societies, but especially in the U.S., in the nature of work and how these changes have helped to reshape family forms, relationships and processes.

#### 357I. Human Development: Adulthood Through Aging (3)

Prerequisites: Completion of G.E. Foundation, upper-division standing, ANTH 120 or HDEV 180 or PSY 100 or SOC 100. Biological, psychological and sociocultural aspects in the development of the individual from late adolescence or youth until death will be considered. Relevant topics and theoretical issues will be treated in an interdisciplinary manner. Not open to students with credit in NRS 357 and PSY 365.

#### 360. Cultural Foundations for Human Development (3)

Prerequisites: HDEV 250, 307I, 357I. Prerequisite or Corequisite: HDEV 320. This course examines the human life cycle from a global and cross-cultural comparative perspective. The course materials, primarily ethnographic and anthropological in nature, are concerned with how the phases of human development (and the transitions between them) are conceptualized and dealt with in a variety of sociocultural settings worldwide. Primary goals are to develop skills in discerning and accounting for both the differences and the similarities in how the world's peoples experience

and interpret the human life cycle, and to achieve an understanding of how culture shapes those experiences and interpretations at both individual and group levels. Not open to students with credit in HDEV 401.

**364. Interpersonal Skills in Human Development (3)**

Prerequisites: HDEV 3071 and 3571. Designed to develop interpersonal skills identified as necessary to have effective human relations. It includes a presentation of theory and research applicable to processes in interpersonal functioning and human relations. Didactic and experiential learning approaches. Not open to students with credit in HDEV 434B or ED P 434B.

**402. Development of Thought: Structure, Process and Cultural Influences Across the Life Span (3)**

Prerequisites: HDEV 320 plus 360 as prerequisite or corequisite. Readings and discussion focus on the examination of theories and current research on the development of thought focusing on biological underpinnings, psychological process and sociocultural constraints. Specific topics include memory, intelligence, cognition, problem solving, language and thought, literacy and educational implications. All issues will be examined from an interdisciplinary perspective across the life span.

**403. The Acquisition of Culture: Socialization in Cross-cultural Perspective (3)**

Prerequisites: HDEV 360, or an equivalent upper-level cultural anthropology course (e.g. ANTH 414, 415, 419, 420, 421) and consent of instructor. This course examines socialization as both a universal and culturally specific phenomenon. Topics explored include cross-cultural variations in ways of teaching and learning; socialization of children and of adult novices; socialization as a key aspect of social and cultural reproduction; and socialization as a source of innovation and change.

**470. Seminar/Practicum (4)**

Prerequisites: HDEV 250, 3071, 320, 3571, 364; and consent of instructor. The course provides for a sequence of observations and supervised participation with individuals in a variety of community agencies and/or educational settings. Practicum is supplemented by topical seminar discussions for two hours each week. (Seminar 2 hrs, practicum 6 hrs.)

**490. Special Topics in Human Development (3)**

Prerequisites: HDEV 3071, consent of instructor. Topics of current interest in human development selected for intensive study. May be repeated to a maximum of 6 units with different topics. Topics for a given semester will be announced in the *Schedule of Classes*.

**499. Independent Study (1-3)**

Prerequisite: Consent of instructor and Program Director. Student will conduct independent laboratory, field, or library research and write a report of the research. May be repeated to a maximum of 6 units.

Website

[www.csulb.edu/colleges/chhs/](http://www.csulb.edu/colleges/chhs/)

The College of Health and Human Services offers a wide range of programs at the undergraduate and graduate levels. Included within the College are eleven diverse departments, four programs, and twelve centers:

## Departments

Communicative Disorders

Criminal Justice

Family and Consumer Sciences

Health Science

Kinesiology and Physical Education

Nursing

Occupational Studies

Physical Therapy

Graduate Center for Public Policy and Administration

Recreation and Leisure Studies

Social Work

## Programs

Gerontology

Health Care Administration

Military Science (Army ROTC)

Radiation Therapy

## Centers

Bureau of Governmental Research and Services

Center for Career Studies

Center for Criminal Justice Research and Training

Center for Disability Studies and Scholarship

Center for Health Care Innovation

Center for Innovative Foodservices Technology

Center for Successful Aging

Child and Family Center

Child Welfare Training Center

Kinesiotherapy Clinic

Movement Science Laboratories

Senior University

## Goals

The College of Health and Human Services, as a professional College, is united by the following purposes:

- The academic and professional preparation of students for careers in their chosen field of specialization;
  - The development and maintenance of high standards of academic achievement for students;
  - The encouragement of critical thinking through rigorous academic and professional preparation; and
  - The conduct of ongoing research, training, and community involvement by faculty and students.
- To achieve these goals, the College seeks to create an environment at both the undergraduate and graduate levels that encourages student growth by providing:
- A broad educational experience in the liberal arts;
  - Specialized instruction leading to professional development and competence; and
  - Integration of academic and professional course work to develop the whole person.

## Degrees Offered

Bachelor of Arts:

Communicative Disorders

Family and Consumer Sciences

Kinesiology

Recreation

Social Work

Bachelor of Science:

Audiology

Criminal Justice

Dietetics and Food Administration

Health Care Administration

Health Science

Kinesiology

Nursing

Occupational Studies

Master of Arts:

Communicative Disorders

Family and Consumer Sciences

Kinesiology

Occupational Studies

Master of Science:

Criminal Justice

Emergency Services Administration

Gerontology

Health Care Administration  
 Health Science  
 Kinesiology  
 Nursing  
 Nursing / Public Health (concurrent degree)  
 Nursing / Health Care Administration (concurrent degree)  
 Nutritional Science  
 Recreation Administration  
 Master of Physical Therapy  
 Master of Public Administration  
 Master of Public Health: Community Health Education  
 Master of Social Work

### ***Certificates Offered***

Administration of Campus Recreation and Student Service Programs  
 Administration of Outdoor Recreation Resources  
 Administration of Travel and Tourism  
 Administration of Volunteer Services  
 Child Development  
 Community Physical Fitness  
 Food-Service Systems Administration  
 Gerontology  
 Health Care Administration  
 Kinesiotherapy  
 Leisure Counseling (graduate)  
 Nurse Practitioner (graduate)  
 Pre-Athletic Training  
 Public Management Analyst (graduate)  
 Public Sector Employer-Employee Relations and Personnel Management (graduate)  
 Public Sector Financial Management (graduate)  
 School Nursing Credential  
 Therapeutic Recreation  
 Transportation Policy and Planning (graduate)  
 Urban Executive Management (graduate)  
 Wilderness Studies

### ***Credential Programs***

Single subject credential programs are offered in Family and Consumer Sciences, Health Science, and Kinesiology and Physical Education. Students who plan to teach these subjects in the secondary schools are strongly advised to consult the Single Subject Advisor as early as possible in their studies, so that they fulfill subject matter preparation requirements while completing an undergraduate major.

Designated subject credential programs in Adult and Vocational Education are offered in Occupational Studies. Services credentials are offered in Communicative Disorders (Clinical Rehabilitative), Nursing (Health Service/School Health), and Social Work (Pupil Personnel – Child Welfare and Attendance).

### ***College Facilities***

The College of Health and Human Services is characterized by perhaps the greatest diversity of programs in the University. The eleven departments, four programs, and twelve research centers are housed within twelve buildings on campus. During the period 1992-94, the primary facilities received \$21,000,000 worth of renovation, including the addition of new equipment in laboratories. As a result, students

now have access to state-of-the-art classrooms, laboratories, and clinics with equipment matching that of business/industry. As a student, for example, you could visit our Communicative Disorders Speech and Hearing Clinic, Nursing Simulation Lab, or Physical Therapy Labs and Clinic. You could participate in a discussion on the importance of recreation in your life and the lives of others in a Recreation and Leisure Studies course; or a discussion of diet and nutritional needs in Family and Consumer Sciences; or a seminar on AIDS awareness in the Health Science Department; or a seminar on improvement of the quality of life for all people in the Social Work Department. You may choose to swim in our Olympic size pool or be tested in the underwater weight tank, while enrolled in a Physical Education class. The Department of Criminal Justice may walk you through the forensic investigation of a crime. Public Policy and Administration courses will offer you the opportunity to apply new knowledge, skills, and leadership techniques to the solution of public problems; while Occupational Studies could provide you with the competencies requisite for successful employment in secondary schools, community colleges, and adult programs.

As the second largest of the University's seven colleges, Health and Human Services is comprised of over two-thirds laboratory facilities which accommodate its many lab-intensive programs. These programs combine theory with exciting practical application in the campus laboratories, as well as many off-campus facilities through field work and internships.

### ***Professional Accreditation***

Programs in the College have been accredited by the following state and national accrediting agencies:

American Association of Colleges of Nursing, American Association of Family and Consumer Sciences, American Dietetic Association, American Physical Therapy Association, American Public Works Association (APWA), American Speech Language and Hearing Association, Association of University Programs in Health Administration, California Council on Parks and Recreation, California State Board of Registered Nursing, California Teaching Commission, Commission on Accreditation of Allied Health Education Programs, Council on Education for Public Health, Council on Social Work Education, National Association for the Education of Young Children, National Association of Schools of Public Affairs and Administration (NASPAA), National Commission on Accreditation for Teacher Education, National Commission on Accrediting Teachers Education and California Teaching Commission, National Recreation and Park Association Council on Accreditation, Western Institute of Nursing.

The College maintains an active involvement in the following organizations:

#### **Special Interest Clubs**

Archers, Army ROTC Association, Army ROTC Rangers (AROTC), California Nursing Student Association, Child and Family Associated Students (CAFAS, *Family and Consumer Sciences*), Criminal Justice Student Association, Foodservice and Hotel Management Association (*Family and Consumer Sciences*), Health Care Administration Forum, Health Science Graduate Student Association, Kinesiology and Physical Education Majors Club, National Student Speech-Language-Hearing Association (*Communicative Disorders*), Peer Health Educators, Pershing Rifles (AROTC),

Physical Therapy Student Association, Public Administration Student Association (PASA, *Public Policy and Administration*), Recreation and Leisure Studies Alumni Association (RALSAA), Recreation Society (*Recreation and Leisure Studies*), Social Dance Club, Society of Consumer Affairs Professionals (*Family and Consumer Sciences*), Sports Medicine Club (*Kinesiology and Physical Education*), Student Affiliates of the American Kinesiotherapy Association (*Kinesiology and Physical Education*), Student Association for Family and Consumer Sciences, Student Chapter of American Association of Family and Consumer Sciences, Student Dietetic Association (*Family and Consumer Sciences*), Student Food Science Society (*Family and Consumer Sciences*), Students Active in Community Health (*Family and Consumer Sciences*), Students in Fashion (*Family and Consumer Sciences*).

#### Professional and Honors Organizations

Alpha Phi Sigma (*Criminal Justice*), American College of Healthcare Executives, California Association for Health, Epsilon Pi Tau (*Occupational Studies*), Eta Sigma Delta (Hospitality Foodservice and Hotel Management, *Family and Consumer Sciences*), Eta Sigma Gamma (*Health Science*), Kappa Omicron Nu (*Family and Consumer Sciences*), Omicron Tau Theta (*Occupational Studies*), Phi Epsilon Kappa (*Kinesiology and Physical Education*), Pi Alpha Alpha (*Public Policy and Administration*), Recreation and Dance (CAHPERD), Sigma Phi Omega (National Academic and Professional Society in Gerontology), Sigma Theta Tau (Iota Eta Chapter, *Nursing*), Society of Consumer Affairs Professionals (*Family and Consumer Sciences*), Student Chapter of the American Association of Family and Consumer Sciences, Student Dietetic Association (*Family and Consumer Sciences*).

#### College and Departmental Organizations

African American/Black Committee (*Social Work*), Army ROTC Association, Asian Pacific Islanders Committee (*Social Work*), Associated Students of Social Work, California Nursing Student Association, Child and Family Associated Students (CAFAS, *Family and Consumer Sciences*), College of Health and Human Services Student Council, Criminal Justice Student Association, Food Science Society (*Family and Consumer Sciences*), Gay, Lesbian, Transsexual, Transgender Committee (*Social Work*), Health Care Administration Forum, Health Science Graduate Student Association, Health Science Student Association, Kappa Omicron Nu (*Family and Consumer Sciences*), Kinesiology and Physical Education Majors Club, Latino Student Network Committee (*Social Work*), National Association of Social Work Unit, National Student Speech-Language-Hearing Association (*Communicative Disorders*), Physical Therapy Student Association, Public Administration Student Association (PASA, *Public Policy and Administration*), Recreation and Leisure Studies Alumni Association (RALSAA), Recreation Society (*Recreation and Leisure Studies*), Social Work Alumni Association, Society of Consumer Affairs Professionals (*Family and Consumer Sciences*), Sports Medicine Club (*Kinesiology and Physical Education*), Student Association for Family and Consumer Sciences, Student Dietetic Association (*Family and Consumer Sciences*), Students Active in Community Nutrition (*Family and Consumer Sciences*), Students in Fashion (*Family and Consumer Sciences*).

## Courses (HHS)

### Lower Division

#### 100. Skills for Living (3)

This course is designed to provide students with the skills necessary to survive as new members of CSULB communities as well as enhancing quality of life. Specific topics include, but are not limited to, personal security, the criminal and civil justice systems, aging, consumer affairs, financial management, personal and family relations, nutrition, health maintenance and care, disease prevention, fitness, and the roles of work and leisure in one's life. (Lecture-discussion, 3 hours.) Team taught by College of Health and Human Services Faculty.

### Upper Division

#### \*374. Psychosocial Aspects of Disability (3)

Prerequisite: PSY 100. Survey of the psychosocial, emotional, and cultural reactions to disease and disability. Letter grade only (A-F). (Lecture/discussion 3 hours.)

#### \*401. Applied Anatomy I (3)

Prerequisite: BIOL 208, or equivalent. Advanced study of the structure and function of the neuromusculoskeletal systems with emphasis on the surface contour, myology and joint structure, and neurovascular supply. Includes dissection laboratory and provided materials. Letter grade only (A-F). (Lecture/discussion 2 hours, laboratory 3 hours.)

#### \*402. Applied Anatomy II (3)

Prerequisites: BIOL 208, or equivalent, HHS 401. A continuation of HHS 401, with an emphasis on the normal anatomy of the lower extremities, pelvis, and abdominal region. Letter grade only (A-F). (Lecture/discussion 2 hour, laboratory 3 hours.)

#### \*403. Tissue Mechanics and Aging (3)

Prerequisites: HHS 401, BIOL 341. Advanced study of tissue (bone, muscle, dense fibrous connective tissue, cartilage) mechanics and pathomechanics including use, disuse and aging with application to therapeutic procedures. Letter grade only (A-F). (Lecture/discussion 3 hours.)

#### \*460. Neuroanatomy (4)

Prerequisites: HHS 401, BIOL 341, 441 (concurrent). Investigation of human neuroanatomy with emphasis on the structure and function of the central nervous system (CNS), cranial nerves, and their connecting neural pathways relative to human function and movement. Neuroanatomical and vascular lesions will be discussed and correlated to common clinical conditions. Laboratory experiences will integrate brain and spinal cord specimens and models, and imaging techniques to lecture material. Letter grade only (A-F). (Lecture/discussion 3 hours, laboratory 3 hours.)

#### \*471. Pathology (3)

Prerequisite: BIOL 208. Advanced study of abnormal function as a result of disease. Including general pathology and selected pathologies encompassing cardiovascular, pulmonary, musculoskeletal, peripheral and central nervous system, and integumentary. (Lecture/discussion 3 hours.)

#### 492. Field Studies and Career Exploration (1-3)

Prerequisites: Consent of the instructor and a minimum GPA of 2.0. This course provides students with career-related experience by allowing them to participate in fieldwork assignments relating to their majors and intended professions. Students who qualify will participate in volunteer or paid assignments in private industries, non-profit organizations, or public agencies. In addition to this practical experience, students will attend a series of seminars designed to complement their field assignments by focusing on issues common to the work setting.

#### \*497. Independent Studies (1-3)

Prerequisites: Consent of instructor, and for human dissection, one general introductory anatomy course, HHS 401, and HHS 402. Independent projects in any area of physical therapy. Human dissection is available as a special study. May be repeated to a maximum of 6 units. Letter grade only (A-F).

Advising in the Department of History is available to all students interested in a major, minor, a teaching credential, or a special major combining History with another discipline. Students are strongly encouraged to see History Department advisors at an early stage in the development of their programs. Undergraduate majors should see History department staff to fill out a work sheet before meeting with the Undergraduate Advisor. Students interested in the M.A. program should contact History department staff for application information. Graduate students should see the Graduate Advisor (Nancy Quam-Wickham). Applicants for the Social Science Credential Single Subject Program must see Credential Advisors (Jane Dabel or Tim Keirn). All advisors maintain extended hours during the semester and are available at other times by appointment. The Department of History also hosts open advising days in the week prior to each new semester; call the Department for information.

### *History*

History is a discipline at the core of the liberal arts tradition. It seeks to preserve, extend, and reevaluate our study of the past and to connect it with the present. Students who specialize in History are typically those who plan to teach, practice law, or enter government service; however, History students also go into business, librarianship, foundation work, management of local history projects, and fundraising. Some history alumni have become successful writers.

Students contemplating graduate work in History on this campus or elsewhere should get advice early in their undergraduate careers from faculty in their fields of interest and should also give serious consideration to developing proficiency in a foreign language during their undergraduate tenure.

The History Department awards scholarships and prizes to outstanding undergraduate and graduate students, among which are:

- The Douglas McNeally Award
- The Stuart Bernath Award
- The Ebell-Heimberger Scholarship
- The Jack Chinski Award
- The Irv Ahlquist Scholarship
- The Elizabeth Neilsen Award
- The Hardeman Graduate Student Award

For further information about these awards, given annually, students should inquire at the Department office no later than the beginning of the spring semester. Undergraduate and graduate students are eligible for the Department's facilitator program for which they may earn units in the major; see Department staff for applications. Graduate assistantships and readerships are also frequently available to qualified graduate and undergraduate students. The Department also recruits outstanding students for Phi Alpha Theta, the national honor society for History students.

The Department of History offers graduate study leading to the Master of Arts degree. The candidate is responsible for observation of the general requirements stated in this catalog as well as specific departmental requirements listed in the M.A. brochure, available on request from the Department office.

## General Education Requirement in United States History

To fulfill State of California requirements, students must take three (3) units of U.S. history. This requirement can be met by HIST 172 or 173. Students who have taken U.S. history at another institution should check with the History Department before enrolling.

## Bachelor of Arts in History (code HISTBA08) (120 units)

### Requirements

Majors must take 47 units of history: 9 lower-division and 38 upper-division.

1. Core: 14 units. All majors must take HIST 301, 302, 499, and one history course that fulfills the gender, race, and ethnicity requirement (from a list of approved courses available from the Undergraduate Advisor). HIST 301 MUST be taken in the first semester of course work in the major. 301 is a prerequisite for 302, and both courses are prerequisites for 499.
2. Fields of emphasis: 18 units. All majors have the option of specializing in two or three fields. Option one: two fields of nine units each. Option two: three fields of six units each. The fields are:
  - A. Africa and the Middle East
  - B. Ancient and Medieval Europe
  - C. Asia
  - D. Latin America
  - E. Modern Europe (Including Britain)
  - F. United States
3. Breadth: 6 units. Majors must take six units in a field (or fields) of history outside of their fields of emphasis.
4. All majors must develop a portfolio (beginning with HIST 301) reflecting their work in the History major. The portfolio will be evaluated as one of the requirements in the senior seminar, HIST 499. Prerequisites for HIST 499 are completion of HIST 301, 302, and 18 units of upper-division work in the major.

NOTE: History majors are strongly encouraged to include the study of foreign language and literature in their programs. Students working for a single-subject credential in secondary education must consult with the College's secondary education advisor as to the applicable credential major requirements.

## FOUR YEAR PLAN TO COMPLETE THE B.A. DEGREE in HISTORY (HISTBA01)

120 Units Required

Department of History

Semester 1		Semester 2	
University 100	1	Oral Comm or Composition	3
Composition or Oral Comm	3	GE Math or other GE Class	3-4
GE Math or other GE Class	3-4	HIST 172 or 173 (GE D1a)	3
GE Class	3	GE Class	3
GE Class	3	GE Class	3
Elective Class	1-3		
<b>TOTAL UNITS</b>	<b>14-16</b>	<b>TOTAL UNITS</b>	<b>15-16</b>

Semester 3		Semester 4	
HIST 101 (GE A3)	3	HIST 131,132, 141, 161, 211, or 212	3
GE Class	3	GE Class	3-4
GE Class	3-4	GE Class	3
GE Class	3	Elective Class	3
Elective Class	3	Elective Class	3
<b>TOTAL UNITS</b>	<b>15-16</b>	<b>TOTAL UNITS</b>	<b>15-16</b>

Semester 5		Semester 6	
HIST 301	4	HIST 302	3
Major Core-Gender/Race/Ethnicity	3	Major Emphasis Class	3
Major Emphasis Class	3	Major Emphasis Class	3
GE Capstone Class*	3	GE Capstone Class*	3
Elective Class	3	Elective Class	3
<b>TOTAL UNITS</b>	<b>16</b>	<b>TOTAL UNITS</b>	<b>15</b>

Semester 7		Semester 8	
Major Emphasis Class	3	HIST 499	4
Major Emphasis Class	3	Major Emphasis Class	3
Major Breadth Class	3	Major Breadth Class	3
GE Capstone Class*	3	Elective Class	3
Elective Class	3	Elective Class	3
<b>TOTAL UNITS</b>	<b>15</b>	<b>TOTAL UNITS</b>	<b>16</b>

\*GE Interdisciplinary Capstone Classes may be able to count in GE and major. See catalog or major advisor.

\*\*Students may use HIST 172 or 173 to meet both the GE requirement (D1a) and a requirement for the major.

NOTE: History majors are strongly encouraged to include the study of foreign language and literature in their programs.

Students may complete the Specialization requirement by taking either three courses in each of two fields, or two courses in each of three fields.

Students wishing to pursue the Social Science credential in addition to the major must see a Social Science Credential advisor as many classes can count in the major, for GE and for the credential.

## FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

### I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

### Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

### I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

### I didn't complete the exact list of courses shown. Can I still graduate on time?

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

### If I follow the plan, will I have all requirements for graduation completed?

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

## Honors in History

Students with a major in history may be admitted to the History Department honors program (option of the University Honors Program) provided they have:

1. Completed at least 30 semester units of college- or university-level courses, including at least two history courses;
2. A minimum cumulative GPA of 3.3, and a 3.5 in history courses;
3. Submitted to the department honors committee chairperson two letters of recommendation from faculty members;
4. Received admission approval from the departmental honors committee.

Students who have the minimum GPA requirements established by the University Honors Program (3.0 overall and 3.3 in the major, but who do not meet History departmental GPA requirements above may petition the department honors committee for conditional admission to the Department Honors Program).

In order to graduate with Honors in history a student must:

1. Complete all regular requirements for the history major;
2. Complete 3 units in HIST 501;
3. Complete 3 units in HIST 498H: Honors Research;
4. Complete 3 units of HIST 499H: Honors Thesis;
5. Complete 6 units of additional course work chosen in consultation with the Department Honors Advisor; such courses normally will require two analytical papers or a research paper on a honors level of performance;
6. Complete UHP 499 Synthesis, as partial fulfillment of the University's requirement of 6 upper-division units;
7. Have at the time of graduation a cumulative GPA of at least 3.3 and a GPA of at least 3.5 in history.

Students admitted to the program must maintain a file in the University Honors Program which will include copies of proposals for 498H and 499H.

## Oral History Program

This Program, housed in the Department of History, is designed to teach and train history students in the use of materials that focus on largely unwritten sources. History majors, and social science credential students with a history concentration, are urged to take the one-unit workshop. Students in these workshops learn how to design an oral history project, and to conduct interviews. Workshops are especially helpful for students interested in local history, the history of the family, and communities whose written records have not been included in traditional historical materials.

## Minor in History (code HISTUM01)

A minimum of 21 units which must include:

Lower Division: A minimum of six units, which must include a six-unit sequence from the following: HIST 211 and 212, 131 and 132.

Upper Division: A minimum of 12 units, which must include at least six units in each of two areas as defined for the major.

## Minor in Jewish Studies (code HISTUM02)

The Minor in Jewish Studies consists of a minimum of 19 units. Jewish Studies encourages undergraduate students to acquire the academic breadth and depth to comprehend the major issues, themes, and concepts of a culture and heritage that has had a distinct impact on world civilization. The interdisciplinary minor consists of courses in a variety of disciplines, including literature, history, religion, geography, Hebrew language, and politics. Students will expand their understanding of the broader dynamics of the Jewish experience through different eras and geographic settings, both in Israel and the Diaspora.

### Requirements

1. Required core courses: HEBW 101A, HIST 369, R/ST 314;
2. Three units from the following elective courses: CWL 342, HIST 431, R/ST 311;
3. Six units from the following elective courses: GEOG 309I; HIST 304, 432, 389; POSC 367; R/ST 315.

## Minor in Latin American Studies (code HISTUM03)

The Minor offers students majoring in any subject an opportunity to supplement their education with a focus on the interdisciplinary study of Latin America. The minor's flexible program of study is ideal for students interested either in intellectual enrichment or professional development in their major. Courses used to meet this minor requirement may be counted also, where applicable, toward the General Education requirements, and the major or minor requirements of the cooperating departments.

### Requirements

1. The following are the requirements for the Latin American Studies minor:
  - A. The successful completion of two college intermediate level courses in Spanish, Portuguese or any other language appropriate to the student's area of concentration of the equivalent fluency as determined by the program advisor.
  - B. Consultation with the program advisor, including formal declaration of the minor, and application for graduation.
2. Completion of 21 units distributed as follows:
  - A. Core (Required of all students) 6 units. Choose from two disciplines: ANTH 323, 324; GEOG 320I; HIST 362, 364; POSC 358, 359; SPAN 445.
  - B. Electives: 15 additional units from the following disciplines. Students cannot duplicate courses taken in the Core: ANTH 323, 324, 345, 490\*, 495\*, CHLS 352, 380, 395, 400, 420, 490\*, 499\*; CWL 440, 499\*, ECON 490\*, 499\*; FEA 392C; GEOG 320I; HIST 362, 364, 366, 461, 462, 463, 466A, 466B, 466C, 490\*, 495\*, 498\*; POSC 358, 359, 497\*, 499\*; SOC 341, 490\*, 499\*; SPAN 341, 441, 445, 490\* 492, 495\* 550

\* The Latin American Studies advisor must approve Special Topics and Directed Studies courses in the area of Latin American Studies.

## Minor in Middle Eastern Studies (code HISTUM05)

The Middle Eastern Studies minor encourages undergraduate students to acquire a broad and interconnected understanding of the dynamics of Middle Eastern societies, cultures, and histories by taking courses in a variety of disciplines including History, Arabic language, Political Science, Geography, Art History, International Business, and Religious Studies. Students will expand their understanding of the major issues, themes, and concepts associated with a complex and diverse region as the Middle East.

### Requirements

A minimum of 18 units.

### Core Required Courses

Minimum twelve (12) units: At least three (3) units must be in History and four (4) units must be in Arabic.

HIST 431/531, 432/532; R/ST 331I; POSC 367; ARAB 101A, 101B.

### Elective Requirements

Students must take a minimum of six (6) additional units, selected with an advisor, from the following disciplines without repeating courses from the core. ARAB 101A, ARAB 101B, ART 465/565, CWL 104, and CWL 402/502, GEOG 309I, HIST 394, HIST 431/531, HIST 432/532, HIST 490, POSC 367, R/ST 331I.

Three (3) of these units may be taken from the following courses, which have a global and comparative perspective without repeating courses from core:

CBA 300; W/ST 401I; FCS 410; R/ST 102; HIST 495.

## Master of Arts in History (code HISTMA01)

### Prerequisites

1. A bachelor's degree with an overall 3.0 GPA in history, or with an overall 3.0 GPA, or
2. A bachelor's degree with 24 units of upper-division courses in history. These courses must be comparable to those required of a major in history at this University. Deficiencies will be determined by the graduate advisor after consultation with the student and after study of transcript records.

Advancement to Candidacy is a statement of how the student plans to complete all courses and requirements for the degree, including setting a date and a committee for the thesis or comprehensive examination. It is best done as early as possible and it must take place before the end of the semester preceding the examination. Students writing a thesis are advanced to candidacy at the time that they begin their thesis work.

### Requirements

1. A minimum of 30 units of upper division and graduate courses including at least 18 units from 500 and 600-level courses. Six units may come from other departments if they suit the student's program and are approved by the graduate advisor. All students must take HIST 501 and HIST 590. Twelve of the remaining units must come from among the following area offerings: 510A, 510B, 510C, 510D, 510E, 611, 631, 673, 682.

2. The student may select one or two fields of specialization distributed as follows:
- Alternative I. Single-field option. Fifteen units, including at least one class in the 510 series, in one of the following fields: Africa and the Middle East, Ancient/Medieval Europe; Asia; Britain; Latin America; Modern Europe (including Russia); United States. Those who take the single-field option must also take at least one 500-level course in a second field.
- Alternative II. Two-Field Option. A minimum of 9 units in each of two of the above geographical areas, including at least three units of 510 in each.
- The courses for Directed Study (695), Directed Research (697), and Thesis (698) may be applied to the 18 unit total only with the permission of the graduate advisor. A student may propose a field other than those cited above with the consent of the Graduate advisor and her/his graduate committee.
3. A reading knowledge of German, French, or other foreign language may be required, depending upon the candidate's program of study as recommended by her/his graduate committee.
4. A comprehensive written examination on one field, two periods or a comprehensive written examination on two fields or a thesis.

## Courses (HIST)

### Lower Division

#### 101. Facts, Evidence and Explanation (3)

Corequisite: ENGL 100. The course will address the following issues within historical or global contexts: distinguishing fact from judgement; understanding argument and inductive and deductive reasoning skills; investigating the relationship of language to logic and the problem of selecting evidence, including understanding points of view, bias and theoretical perspective; and differentiating belief from knowledge, by asking the question, "How do we know what we know?" We will investigate facts, evidence, and explanation by analyzing the content, dissemination, and absorption of information from a variety of printed and visual sources. (Not open to students with credit in HIST 201.)

#### 131. Early Western Civilization (3)

Corequisite: ENGL 100. The history of western civilization from its origins through the 16th century. Stresses society, culture, and political institutions of ancient Near East, classical world, the medieval West, and renaissance and reformation Europe. (CAN HIST 2)

#### 132. Modern Western Civilization (3)

Corequisite: ENGL 100. European society from the 16th century to the present. Stresses events and phenomena which reshaped the political, economic and social structures of the West and their impact throughout the world. Emphasis on the intellectual, social and psychological transformation of modern life. (CAN HIST 4)

#### 141. Jewish Civilization (3)

This introductory survey will trace the diversity and complexity of continuity and change of Jewish traditions from the biblical period to modern times across different regions. The course will explore the Jewish diaspora and inter-cultural and assimilationist contacts, among other things. Students will critically engage with Jewish source texts from various eras and regions.

#### 161. Introduction to Latin American Studies (3)

Prerequisite: Completion or concurrent enrollment in ENGL 100. This course offers an interdisciplinary overview of history, society, and culture in Latin America – Mexico, Central American, the Caribbean, and South America. It will examine the political, economic, social, and cultural conditions that have produced conflict, change, and continuity in Latin America over the last five hundred years. Letter grade only (A-F). Same course as SOC 161.

#### 172. Early United States History (3)

Prerequisite/Corequisite: Completion of one G.E. Foundation course and ENGL 100 or equivalent. Survey of the political, social, economic, and cultural development of the United States from discovery through reconstruction. Attention to the colonial era, establishment of the new nation, sectional problems, national growth, disunion, and reconstruction. Material may be covered chronologically or topically. Fulfills the general education requirement for U.S. history. Not open to students with credit in HIST 162A. (CAN HIST 8)

#### 173. Recent United States History (3)

Prerequisite/Corequisite: Completion of one G.E. Foundation course and English 100 or equivalent. Survey of the political social, economic, intellectual, and cultural development of the United States from reconstruction to the present. Focuses on different social groups and examines the experiences of both the powerful and those who want power in American society. The course may be chronological or topical, and covers such themes as immigration and movements of people; work and the economy; the emergence of women's and minority issues; politics, protest, and war; society and culture. (CAN HIST 10)

#### 211. World History: Origins to 1500 (3)

Prerequisite: Completion of GE Foundation requirements. A survey of the development of world civilization and major cultures from the Neolithic Revolution until the eve of the European conquest of the Americas. The civilizations of the Ancient, Classical, and Postclassical periods will be studied, emphasizing interaction between civilizations and major cultures. Topics will include the origins and role of universal religions; the examination of political, social, and gender structures in relation to economic and demographic development; and, the diffusion of culture and technology via migration, commerce, and the expanse of empire. (Not open to students with credit in HIST 111.)

#### 212. World Since 1500 (3)

Prerequisite: Completion of GE Foundation requirements. A survey of the origin and development of the modern world, tracing both regional histories and global interactions. Major themes include economic aspects of globalization; intellectual and cultural adjustments to modernity; modern imperialism, resistance to empire, and the birth of nations; and, the historical origins of the contemporary world. (Not open to students with credit in HIST 112.) (CAN 16)

#### 250. Early World Historical Geography (4)

Prerequisites: Open only to Integrated Teacher Education Program (ITEP) students. This course uses the perspectives of history and geography to introduce students to the civilizations of Eurasia, Africa, and the Americas as they developed prior to European contact. To understand their origins and subsequent growth and development, special attention will be given to geographic and historical factors such as location and place, human/environment interactions, migrations, cultural and technological diffusion as well as the intensity of cross-cultural contact and exchange between cultures and civilizations over time. Same as GEOG 250.

#### 290. Special Topics in History (3)

Prerequisite: Completion of GE Foundation requirements. Topics of current interest in History. Applicability to major requirements will be specified in description of individual topics, as announced in the Schedule of Classes. The course may be repeated to a maximum of 6 units with different topics in different semesters. Letter grade only (A-F).

#### A. World War II

## Upper Division Areas

NOTE: General Education Category A must be completed prior to taking any upper-division course except upper-division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

Course titles listed with an asterisk (\*) are available for graduate as well as undergraduate credit.

---

### GENERAL

---

#### \*301. Methodology of History (4)

Prerequisites: Required of all History majors in their first semester of work in the major. Introduction to historiography and methodological issues, skills and competencies exercises, research methods, research presentations, and peer review. Creation of student portfolio that will be used in remaining upper-division courses in the major and will be assessed in HIST 499 (Senior Seminar). Letter grade only (A-F). May be repeated to a maximum of 8 units.

#### \*302. Theory and History (3)

Prerequisite: HIST 301. Examination of the ways in which theory shapes historical writing and research. Will focus upon case studies, significant historical works, major schools of historical interpretation, and recent scholarly trends. Letter grade only (A-F).

#### 490. Special Topics in History (1-3)

Prerequisite: Consent of instructor. Topics of current interest in history selected for intensive development. May be repeated to a maximum of 6 units with different topics, but no more than 3 units may be used to satisfy the requirements for the major. Topics will be announced in the *Schedule of Classes*.

#### F. Women and War

Same topic as SPAN 493A and W/ST 490K.

#### \*494. Practicum in History (1-3)

Prerequisites: Consent of instructor and department chair. Field work in History, supplemented by reading and tutorials under the direction of a faculty member. Internships, small group discussion/teaching, and other assignments directed by a supervising faculty member. May be repeated to a maximum of 6 units, but no more than 3 units may be applied to the major in History.

#### \*495. Colloquium (3)

Prerequisites: HIST 301 and nine additional units of upper division History. Seminar level course exploring a specific historical field or issue chosen by the instructor; students will be expected to analyze and interpret primary and secondary sources in a paper that will be presented to the class. Part of core requirements for students declaring a major before summer 2001; students declaring a major after spring 2001 will be required to take History 499 as a core requirement, not 495.

#### A. Colloquium

##### O. U.S. in Vietnam

#### \*498. Directed Studies (1-3)

Prerequisite: Consent of instructor. Independent study under the supervision of a faculty member. May be repeated to a maximum 6 units.

#### 498H. Honors Research (3)

Research for and writing of a senior thesis under the direction of a departmental advisor.

#### 499. Senior Seminar (4)

Prerequisites: Completion of HIST 301, HIST 302, and 18 units of upper-division course work in History; at least two courses (six units) of which must be in the 499 seminar's area of concentration. Designed for graduating seniors, this course requires that students demonstrate baccalaureate-level mastery of historical processes and historical literature through: 1) submission of a portfolio representing continuing work in the major; 2) research and writing of a major paper, and 3) oral presentations. Not open to students who have not met the prerequisites listed above. Topic areas include: Africa and the Middle East, Ancient and Medieval Europe, Asia, Latin America, Modern Europe (including British), and United States. Letter grade only (A-F).

#### 499H. Honors Thesis (3)

Prerequisite: HIST 498H. Research, writing, and presentation of a senior honors thesis under the direction of departmental faculty advisor.

---

### INTERDISCIPLINARY COURSES

---

#### 303I. Rebels and Renegades (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. The 1930s and 1960s were decades noted for their political, social, and cultural creativity and turmoil. This course investigates youth involvement in social change and focuses on the following topics in US history: labor activity, civil rights, student action, issues of war and peace, the evolution of the women's movement, and the emergence of minority voices. The course looks at culture (particularly music, literature, and movies) in defining and reflecting these issues and addresses the question of why some decades are filled with social protest while other periods appear to be more politically passive. The class addresses the importance of these questions for the 1990s. Not available for credit in the minor.

#### 308I. Law and Civilization (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Exploration of law as an intellectual effort to define, direct, and administer human experience. Examination of theories of knowledge, language, meaning, mental processes, social organization, personal responsibility and freedom underlying legal analysis and decision-making in courts as well as in administrative/bureaucratic settings. Not available for credit in the minor.

#### 309I. Men and Masculinity (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Exploration of male roles from an interdisciplinary perspective focusing on men as workers, friends, lovers, and fathers. Consideration of the choices available to men under the impact of tradition, feminism, and a changing job market. Gender-oriented social and political movements. Letter grade only (A-F).

#### 310I. The Greek World (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. An interdisciplinary examination of major events and ideas in society and culture of ancient Greece with an emphasis on literature, the arts, and the historical forces at work. Topics include foundations of Greek culture, Minoan civilization, Homer and the Trojan War, mythology and religion, lyric poetry, the Persian Wars, the "Golden Age" of Athens, the Peloponnesian War, Hellenistic culture, and contributions of the Greeks to the modern world. Same course as CWL 310I.

#### 312I. Roman World (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. An interdisciplinary examination of major events and ideas in the society and culture of ancient Rome with an emphasis on literature, the arts, and the historical forces at work. Topics include genesis and growth of the Roman world, transition from Republic to Empire, imperial maturity, decay and decline, and the contributions of the Romans to the modern world. Same course as CWL 312I.

**400I. History of Western Scientific Thought (3)**

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. An interdisciplinary introduction to the history of science for both scientists and non-scientists. Evolution of the scientists' views of the means and ends of their own activities; the ways in which science is affected by and affects contemporary cultures.

**404I. Social History of Musical Life (3)**

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Social history of musical life, music publics, institutions, professions, and taste in Europe and the U.S. Not available for credit in the major.

**407I. Japan and the United States in the 20th Century (3)**

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Examination of relationships between Japan and the United States, emphasizing cultural, economic, and political conflict and cooperation.

**414I. Medieval World (3)**

Prerequisites: Completion of the G.E. Foundation, one or more Explorations courses, and upper-division standing. An interdisciplinary examination of major themes in medieval society and culture with emphasis on literature, the arts, and the historical forces at work. Topics will include the Roman heritage of the Middle Ages, pre/non-Christian culture, the so-called "dark ages," Romanesque and Gothic worlds, crusades and pilgrimages, commerce and cathedrals, and late medieval problems. Same course as CWL 414I.

**474I. The Urbanization of Modern America (3)**

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Survey of urban America from the colonial period to the present. Emphasis on the process of urbanization, urban problems, and politics.

---

**AFRICA AND THE MIDDLE EAST**

---

**\*391. The Making of Modern Africa, 1800-1939 (3)**

This course surveys the history of sub-Saharan Africa from the early 19th through the mid-20th centuries. We will study the rapid changes which destabilized many 19th century societies, the European conquest which followed, and the entrenchment of a colonial situation which robbed generations of Africans of their ability to control their own political and economic destinies. Our emphasis will be on how Africans themselves perceived these processes, how they adjusted to them, and the continuing relevance of these experiences today.

**\*392. Contemporary Africa, 1940-Present (3)**

The challenges facing Africa today can seem bewildering in their variety and complexity. In this course, we will examine the political, economic, social, and ecological conditions of the African continent by studying their historical genesis in the second half of the twentieth century. The main focus will be the difficulties that have been encountered in overcoming the legacies of colonialism in Africa.

**\*394. Middle Eastern Women (3)**

Prerequisites: Upper division status. In this course, we will explore a wide range of roles played by Middle Eastern women throughout history and seek to understand the multi-faceted thoughts and activities of women. By studying many different kinds of sources, both secondary and primary, including memoirs, biographies, traveler accounts, poetry, and film, we will look at women from different geographical and class backgrounds and discuss the most important issues related to women and gender in Middle Eastern history. This course will proceed in chronological order but will also have a strong thematic approach. While the focus of this course is on Muslim women, who are the majority in the region, the experience of minority women will also be addressed. Same as W/ST 394.

**431./531. The Middle East (Southwest Asia), 600-1700 (3)**

This course surveys the history of the Middle East (Southwest Asia) from 600-1700: from the rise of Islam to the eighteenth century, with an emphasis on the background and circumstances of the rise of Islam; the creation and development of the Islamic Empire; the rise of dynastic successor states and "gunpowder" empires; European encroachment; and, integration of the Middle East into the emerging world system. The course will focus on cultural, intellectual, social, economic, and political development and will situate the history of the region within its global context.

**432./532. The Middle East (Southwest Asia), 1700-Present (3)**

This course surveys the history of the Middle East (Southwest Asia) from 1700 to the present. The course will focus on modernization and reform; problems and impact of modernity and imperialism in social, political, and economic spheres; state building; nationalism; and, Islamic revivalism and will situate the history of the region within its global context.

**\*491. Modern and Contemporary Africa (3)**

Conquest of Africa by European states, contrasting colonial systems as they evolved, anti-colonial movements and progress towards self-government or independence, problems of economic and political development, and race tensions in areas of white settlement.

---

**ANCIENT AND MEDIEVAL**

---

**310I. The Greek World (3)**

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. An interdisciplinary examination of major events and ideas in society and culture of ancient Greece with an emphasis on literature, the arts, and the historical forces at work. Topics include foundations of Greek culture, Minoan civilization, Homer and the Trojan War, mythology and religion, lyric poetry, the Persian Wars, the "Golden Age" of Athens, the Peloponnesian War, Hellenistic culture and contributions of the Greeks to the modern world. Same course as CWL 310I.

**312I. Roman World (3)**

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. An interdisciplinary examination of major events and ideas in the society and culture of ancient Rome with an emphasis on literature, the arts, and the historical forces at work. Topics include genesis and growth of the Roman world, transition from Republic to Empire, imperial maturity, decay and decline, and the contributions of the Romans to the modern world. Same course as CWL 312I.

**\*313. Ancient Greece (3)**

Prerequisite: Completion of GE Foundation requirements. History of the Greeks and the Greek world from the earliest times to the Roman conquest.

**\*314. Roman History (3)**

Prerequisite: Completion of GE Foundation requirements. History of Rome and the Roman world from the Eighth Century B.C. to the Fifth Century A.D.

**\*316. Early Middle Ages (3)**

History of Western Civilization from the fall of the Roman Empire in the West to the Crusades. Germanization of the West, evolution of Christian institutions, Slavic expansion, Byzantinization of the Eastern Empire, Islamic civilization, Carolingian age, feudal and manorial institutions.

**\*317. High Middle Ages (3)**

History of Western Civilization from the Crusades to the end of the Middle Ages. Revival of trade, growth of towns and of capitalism, origins of modern political institutions, and medieval learning and art.

**\*318. Byzantine Empire (3)**

Political and social development of the Byzantine Empire from the 4th century A.D. to the fall of Constantinople in 1453; the cultural heritage of the Roman Empire in the eastern Mediterranean; religious controversies and the development of eastern Christianity; relations with Islam and medieval Europe.

**319. Women in the Ancient and Medieval West (3)**

Prerequisite: ENGL 100. An examination of the roles and experiences of women in Western Europe from prehistory to the sixteenth century. Students will be introduced to some of the basic problems and methodologies of women's history, and will be encouraged to question the interaction of "women's history" with "mainstream history." Themes to be covered include (but are not limited to): historical construction of gender roles, the relation of symbols of women with women's reality, the interaction of private and public life, women's access to power/opportunity, and the possibility of a "women's culture" during various historical periods. Same course as W/ST 312.

**341A. Foundations of Russia (3)**

Evolution of the state structure, diverse cultural patterns, and social structures associated with ancient Kiev Russia: rise of Moscow, origins of autocracy and serfdom; westernization and modernization as problems during the imperial period to 1801. Particular emphasis on social history.

**\*351. Medieval England (3)**

Analysis of English political institutions, society, religion and economy in the Anglo-Saxon, Norman, Plantagenet, and late medieval eras.

**414I. Medieval World (3)**

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. An interdisciplinary examination of major themes in medieval society and culture with emphasis on literature, the arts, and the historical forces at work. Topics will include the Roman heritage of the middle ages, barbarian culture, Romanesque and Gothic worlds, crusades and pilgrimages, commerce and cathedrals, and late medieval problems. Not available for credit in the major. Same course as CWL 414I.

---

**ASIAN**

---

**382A. Imperial China (3)**

Prerequisite: Completion of the GE foundation. Introduction to the classical civilization stressing the evolution of imperial institutions, the Chinese world order, and China's traditional cultural heritage. Same course as CHIN 382A

**382B. Modern China (3)**

Prerequisite: Completion of the GE foundation. Chinese society from the 17<sup>th</sup> century to 1949. Impact of imperialism, reform and revolutionary movements, the background of Chinese communism. Not open to students with credit in HIST 482B. Same Course as CHIN 382B.

**383A. Japan to 1850 (3)**

Prerequisite: Completion of GE Foundation requirements. Japan from prehistory to the nineteenth century; emphasis on social and cultural developments, the evolution of political institutions, and the development of early modern society.

**383B. Modern Japan (3)**

Prerequisite: Completion of GE Foundation requirements. Japan from 1850 to 1945; collapse of the Tokugawa bakufu and rise of the Meiji state; industrialization, social change, and protest; "Taisho democracy" and the Pacific War.

**\*384. Contemporary Japan (3)**

Japan since 1945; impact of Hiroshima and Nagasaki; American occupation of Japan; Japan's "economic miracle," social change and social criticism in literature and film; Japan's role in the contemporary world; conflict with the U.S.

**\*385. History of India (3)**

This is a survey of the history of the South Asian subcontinent from its historic roots, through the founding and consolidation of the great Mughal Empire, to the beginnings of Western imperialism and the establishment of the British Raj, ending with nationalism and the course of events in post-independence India, Pakistan and Bangladesh.

**\*386. History of Modern Southeast Asia: Colonial Era to the Vietnam War (3)**

This is a survey course in the political and cultural history of the peoples of modern Southeast Asia. After an overview of traditional civilizations, the history of modern Southeast Asia (from roughly 1815) will emphasize expansion of European influence in the political and economic spheres, the growth of nationalism and the process of decolonization in Southeast Asia, and the post-WWII configuration of the area. Both mainland Southeast Asia (Vietnam, Cambodia/ Kampuchea, Laos, Burma, Malaysia) and insular Southeast Asia (Indonesia, Philippines) will be surveyed.

**388. Contemporary China (3)**

China from 1949 to the present. The political, economic and cultural factors that shaped its continuity and change and the impact of its transformation on Greater China, including Hong Kong and Taiwan.

**405./505. Classical Japan (3)**

Japan from prehistory to the fifteenth century. Connections to other Asian cultures, the influence of Buddhism, and development of Japanese esthetics exemplified in literature and art; dynamics of centralized vs. regional power; civil vs. military authority.

**\*406A. Asian Women: East and Northeast Asia (3)**

Prerequisite: Upper division status. In this course, we will explore the diverse experiences of women in China, Japan, and Korea. By studying different kinds of sources, including memoirs, biographies, literature, film, as well as scholarly works by or about North and Northeast Asian women, we will examine how gender was historically constructed and discuss about women's various forms of resistance in this area. This course will proceed both chronologically and thematically. Major issues to be addressed include the discrepancy between gender norms and reality, women's agency in social change, women and the state, and the complex relationship between feminism and nationalism. Asian American women's experiences will also be discussed at relevant places throughout the course. At the end of the course, students are encouraged to critically reflect on some theoretical issues that have been discussed in the scholarship on women's history in general and North and Northeast Asian women's history in particular. Same courses as A/ST 406A and W/ST 406A.

**\*406B. Asian Women: South and Southeast Asia (3)**

This is an introductory course on the experiences of women in South and Southeast Asia. By studying kinds of sources, including memoirs, biographies, literature, film, as well as scholarly works by or about South and Southeast Asian women, we will examine how gender was historically constructed and how women's resistance took various forms in these areas. This course will proceed both chronologically and thematically. Major issues to be addressed include women's agency in social change, gender as a contentious site of nationalist discourse, the impact of colonization on women, and women's various forms of resistance. Same course as A/ST 406B and W/ST 406B. Letter grade only (A-F).

**407I. Japan and the United States in the 20th Century (3)**

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Examination of relationships between Japan and the United States, emphasizing cultural, economic, and political conflict and cooperation.

**409./509. Early Modern Japan (3)**

Japan from the mid-16th century to the end of the Tokugawa period in 1868; reunification, the growth of urban centers and transportation, economic growth; blossoming of political theory, and of popular culture.

**\*410. Chinese Emigration/Migration in Modern Period (3)**

The history of Chinese emigration/migration in the world with an emphasis on Chinese experiences in Southeast Asia, the Americas, and Western Europe. Examines major factors that have shaped Chinese emigration/migration in the modern period, as well as its impact on world history. By studying the interactions of people and social networks that operate within and across the boundaries of nations, it explores the implications of human migration for the development of the world, the fluidity and contested nature of "nation-states," "national identities," and "nationalism," as well as the political and economic interests invested in these concepts by their subscribers, who have either participated in migration or endeavored to curb it. Will proceed both chronologically and thematically.

**\*487. Film and Chinese History (3)**

Examines the complex relations between history and film. The questions to be asked include: How have films made in China been informed by changes in the country? In what ways can film constitute history and contribute to historical debates? What are the advantages and disadvantages of film in representing history? What are the complex issues related to the historical representation in a transnational film? It discusses both feature and documentary films, as well as films made in Hong Kong and Taiwan. Upon successful completion of this course, students will enhance their ability to read film texts critically and will appreciate the importance of studying history in this visually oriented era.

**\*488. The Chinese Revolution (3)**

Prerequisite: HIST 382B or consent of instructor. Theory and practice of revolutionary socialism in the People's Republic of China, historical and ideological background of the Chinese revolution, Mao and Maoism, politics, culture and society in China. Same course as CHIN 488.

---

**LATIN AMERICAN**

---

**362. Colonial Latin America (3)**

Prerequisite: Completion of GE Foundation requirements. Iberian preparation for overseas expansion, discovery and conquest in America, evolution of colonial institutions, dynamic 18<sup>th</sup> century developments, wars of independence.

**364. The Latin American Nations (3)**

Prerequisite: Completion of GE Foundation requirements. Political, economic, social and intellectual evolution of Latin America in the 19<sup>th</sup> and 20<sup>th</sup> Centuries.

**\*366. Latin American History and Literature (3)**

Latin American history through the novel and film; will integrate literature and the cinema with traditional historical materials in order to provide the student with a deeper understanding of the development of Hispanic America.

**\*461. History of Precolonial Mexico (3)**

History of Meso-America from prehistoric times to the Spanish conquest, emphasizing the study of the societies and the religious and intellectual life of people of ancient middle America.

**\*462. Mexico (3)**

Spanish conquest of Indian Mexico; settlement and exploration; colonial life and institutions; the achievement of independence from Spain; reform, foreign intervention, dictatorship in the 19<sup>th</sup> century; the Revolution of 1910 and after; contemporary Mexico.

**\*463. The Caribbean and Central America (3)**

History of the Caribbean Islands and Central America from European colonization to the present, with emphasis on Cuba and Central America. Economic, political and cultural development and relations with the United States.

**\*466. Topics in Latin American History (3)**

Selected topics in Latin American History, including: (a) Revolutionary Latin America analyzing various 20<sup>th</sup>-century revolutionary movements, their social, political and cultural causes, and their international impact; (b) Slavery, Peasantry and Aristocracy analyzing examples of black slavery, peasant societies, and elites from the 16<sup>th</sup> century to the present; (c) Comparative History: Argentina and Brazil, or other pairs of states; colonial beginnings, with emphasis on geographical, economic, social, ethnic, and vital institutional elements. May be repeated to a maximum of 9 units with different topics.

---

**MODERN EUROPEAN**

---

**\*304. The Holocaust (3)**

This course examines the attempted destruction of European Jews by Nazi Germany during the Second World War. Students will trace the roots of anti-Semitism in European history, the origins of Hitler's anti-Jewish assault, and the process from ghettorization to extermination. Other topics include the Jewish resistance inside Europe, the Western response during the war, and the world reaction fifty years after the Holocaust. Students will also explore how the Jewish tragedy is related to other crimes against humanity, including the massacre of Armenians, mass killing in Cambodia and Indonesia, and the issue of ethnic cleansing in Bosnia.

**332. The Age of the Renaissance (3)**

Analysis of the intellectual, cultural, political, religious, and social developments that took place during the period commonly known as the Renaissance (roughly 1350-1550), as well as an examination of the idea of "Renaissance" itself. Themes to be examined include: humanism and the world of arts and letters, civic humanism and politics, religion in the "Age of Reason," and the individual in society.

Examination and analysis of intellectual, cultural, political and economic features of 14<sup>th</sup>, 15<sup>th</sup>, and 16<sup>th</sup>-century Italian civilization. Particular emphasis on interplay between new configurations and notions of power and their unique Italian cultural manifestations.

**\*333. Reformation Europe (3)**

Examination and analysis of the "long 16<sup>th</sup> century," from the beginning of the Italian Wars (1494) to the Peace of Westphalia (1648). Emphasis on economic, institutional, intellectual and religious crises, and on their resolutions in the post-Reformation period.

**\*334. Early Modern France, 1589-1789 (3)**

Spanning French history from the reign of Henri IV through the commencement of the French Revolution, this course will explore the following themes: the expansion of royal authority and the challenges it faced during the 18<sup>th</sup> century; the functioning of the French economy and its growth through increased production, trade and colonization; geographic expansion; the impact of religion; development in the literary and visual arts as well as popular culture; the increasing social, political, cultural, and intellectual importance of Paris; the French Enlightenment; demographic changes, social class dynamics, and the rhythms of daily life: gender constructs and patriarchy; marriage, family life, birth, and childhood.

**\*335. The Shaping of Modern Europe (3)**

European political, social, economic and intellectual life from the Treaty of Westphalia (1648) to the French Revolution (1789). Emphasis on the rise of statism, the triumph of science and mechanistic philosophy, absolutist monarchs (e.g., Louis XIV), enlightened despots (e.g., Frederick the Great), and philosophers (e.g., Voltaire), and the crisis of traditional society.

**\*336. The French Revolution and Napoleon (3)**

End of the Old Regime and the French Revolution. Decline of the feudal monarchy, failure of enlightened despotism, the rise of revolutionary thought, French Revolution, and Napoleonic imperialism.

### 337. Europe in the Nineteenth Century (3)

This course focuses on a tumultuous century of revolution and reaction from the French Revolution to the outbreak of World War I. Topics included are industrialization and its repercussions; popular protest and mid-century revolutions; the rise of the bourgeois and liberal world and the political and social opposition to it; nationalism, including the unification of Germany and Italy; feminism, imperialism, and daily life.

### 338. Modern European Women's History (3)

European Women's History is an upper division course which investigates how European history has impacted on women and how women and women's issues have shaped historical events. Issues that the course will address include the nature, methodology, and approaches of women's history; the significance of the Enlightenment and French Revolution for women and the role women played in these events; the work women of all classes did, and how industrialization affected the position of women; women's role in and their relationship to 19th and 20th century wars and revolutions; women's health and sexuality; the role of the women in the family; women's socialization and education; the "Women Question" and attempts to remedy women's position; recent feminist theory; and a speculative look at the future of European women. Same course as W/ST 384.

### 339. Europe, 1890-1945 (3)

This course will explore the period in European history between the late nineteenth century (*fin de siècle*) and 1945 (the end of the Second World War). Amongst the themes that will be covered are political, social, economic, international, and cultural crises prior to 1914; the development of modern artistic trends; the First World War and its impact; challenges to democracy; economic collapse; the rise of the Fascists in Italy and Nazis in Germany; the Spanish Civil War; the Second World War, and the Holocaust.

### \*340. Europe Since 1945 (3)

This course examines the political, social, economic, and cultural development of Europe since the end of World War II. Themes will include the development of the Cold War, economic recovery, the rise of the welfare state, Eurocommunism, Gaullism, student unrest, national security and arms control, terrorism, the fall of communism and the transformation of East and Central Europe.

### 341B. Modern Russia (3)

Interaction with the West from 1801; era of great reforms and revolutionary movements; downfall of imperial Russia; establishment of the Soviet regime; chief political, social, economic and cultural developments in the Soviet era; role of the Soviet Union in world affairs.

### 343. Modern Eastern Europe (3)

Prerequisite: GE Foundation or consent of instructor. This course examines the events and forces that have shaped modern Eastern Europe from the emergence of nation states, to nationalism, world wars, fascism, Communism, conformity, dissent, and revolution. At the same time we will explore how and why the idea of Eastern Europe has changed over time, and the role of Eastern Europe both as a place and as an idea in the history of modern Europe.

### 346I. The European Cinema of Communism, Fascism, and Resistance (3)

Prerequisite: Completion of the GE Foundation, one or more Exploration courses, and upper division standing. This course will focus on European cinema of the twentieth century as a manifestation of totalitarian and ideological movements preceding, in-between, and following the two world wars. The ensuing and ongoing resistance movements will also be examined. Same course as RGR 346I.

### \*353. Tudor and Stuart England (3)

Social, cultural, religious, political, and dynastic history of England from 1485 to 1714. Renaissance and Reformation; Crown and Parliament; civil war and revolution; the pre-industrial economy; relations with Scotland, Ireland, Europe, and America.

### \*356. Georgian and Victorian Britain (3)

Social, cultural, religious, political, and constitutional history of Britain from 1714 to 1901. Changes in agriculture, commerce, industry, and population; Parliamentary democracy; Irish problems; relations with America, India, Europe, and the world.

### \*357. Recent Britain (3)

Social, cultural, economic, and political history of 20th century Britain. Governments and people; labor, party politics, and the welfare state; two world wars; problems with Ireland and Europe; the end of Empire; race relations; mass media and popular culture; contemporary developments.

### 400I. History of Western Scientific Thought (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. An interdisciplinary introduction to the history of science for both scientists and non-scientists. Evolution of the scientists' views of the means and ends of their own activities; the ways in which science is affected by and affects contemporary cultures.

### \*437. History of Germany 1871 to Present (3)

History of Germany from unification: the First World War, the Weimar Republic, the National Socialist Reich, and the post-war recovery.

### \*483. Women in Eighteenth-Century England and America (3)

Prerequisites: ENGL 100 and upper division status. Study of representations and realities of women's lives, 1688-1800, from an international and interdisciplinary perspective. Critical methodology of history and literature; analysis of literary and historical texts to explore women's experiences of law and economics; religion; education and culture; marriage, sex, and health; politics and revolution.

---

## ORAL HISTORY PROGRAM

---

### 402. Oral History Methods (1)

Through a series of workshops and through field experience, skills in oral history will be developed which will enable students to use oral history either for their own personal use in family history or for class projects. Credit/No Credit grading only. Same course as C/LA 485.

### 4980. Directed Studies in Oral History (1-6)

Prerequisite: Consent of instructor. Directed study on a research topic using the methodology of oral history. May be repeated to a maximum of 6 units. Same course as C/LA 498.

---

## UNITED STATES

---

### 300. The United States Past and Present (3)

Concentrating on the rise of the U.S. to its present position as a world power, this course will explore the contributions of various racial and ethnic groups and of both men and women to that process, as well as the effects of developing political, economic, and social institutions and values upon that process. (This course is an upper-division survey and may not be taken for credit in the United States field. It is for upper-division transfer students in lieu of HIST 172 and 173.)

### \*369. American Jewish History (3)

Both a chronological and a thematic approach to American Jewish History. Chronologically, covers the first Sephardic settlers, German Jews, Eastern European Jews, and recent migrants. Emphasis placed on the experiences these immigrants brought with them. Examples of major themes examined critically: assimilation, the transformation of traditions, American anti-Semitism, the branches of Judaism, mobility, Jewish women, American Jewish leadership of the Jewish Diaspora, Jewish/Christian relations, and the relationship of Jews with other minority groups. Letter grade only (A-F).

### 370. Chicano History (3)

Chicanos in the settlement and development of the Southwest and in contemporary U.S. society; Chicano experience as a U.S. minority group; emerging civil rights movement of La Raza. Letter grade only (A-F). Same course as CHLS 300.

### 371. Religion in American History (3)

A survey of the main currents of religion in the development of American civilization from the beginning of the colonial period to the present. Themes of Judeo-Christian heritage, proliferation of denominations, and new religions in an open environment. Awakenings and revivals, sectarian, communal, ecumenical, and social action movements are among the topics explored.

### \*372. United States: Colonial Period (3)

Discovery and settlement of the new world; European institutions in a new environment; development of colonial government, economy and social institutions; European dynastic rivalry and colonial America.

### \*373. United States: Age of Revolution (3)

Clash between British attempts to control and tax the colonies and colonial distaste for both; growth of an independent spirit; the American Revolution; problems of the new nation; the constitution.

### \*375. The United States Emerges as a Nation (3)

An analysis of the political, economic, social, and intellectual forces from the adoption of the constitution through the 1840s.

### \*376. United States: Civil War and Reconstruction (3)

Sectional rivalry, manifest destiny, mid-century divisive forces, Civil War and reconstruction.

### 377. The United States at War (3)

Since the discovery of "the new world," until the present time the United States has been engaged in a sequence of conflicts, wars, and military police actions. This course is designed to address and answer a variety of questions regarding how and why the United States goes to war. Topics for exploration include: Who were the Presidents going into and during each war? What were their political parties? What was the economic impact or impetus? What part did manifest destiny, the Monroe doctrine, and the cold war (the domino theory) of communism play? What about the issue of American nationalism? Do we go to war to protect ourselves, our image as a world power, as the result of an insult to our "national image," or for economic reasons? Is it the responsibility of the U.S. to be the watchdog for the world?

### \*378. United States History: 1877-1920 (3)

The development of the U.S. as an urban, industrial, multicultural society; progressive reform movements at the city, state, and national level; rise of U.S. as a world power; WWI.

### \*379. United States: Twenties, Depression, and World War II (3)

The conflict-ridden 1920s; the Depression years, and the beginnings of welfare democracy; the United States in World War II.

### \*380. United States Since 1945 (3)

The United States in the nuclear age: the development of the Cold War and its domestic ramifications, the "post-industrial" economy, the civil rights revolution, the rise of political dissent, the Watergate affair, the Reagan revolution, and after.

### 381. Asian American Women (3)

This course will explore the largely unwritten history of Asian American women. Using an inter-disciplinary perspective, we will look at not only secondary sources but also autobiographical, literary, and journalistic writings: oral histories, diaries, anthropological studies, psychological/clinical reports, and film to reconstruct the lives of Asian American women. We will examine how having been burdened by the triple oppression of gender, race, and class, Asian American women have been actively pursuing equality and dignity. Same course as ASAM 381 and W/ST 381.

### \*467. Long Beach History (3)

Survey of the history of Long Beach, California, 1890 to the present. Emphasis on local and regional politics, economic development, international trade, and the complicated roles of ethnic and racial diversity in a city with both an urban, and suburban, history.

### \*469. Ethnic Groups in Urban America: An Historical Examination (3)

An examination of the origin, migration, settlement and the assimilation problems of the various ethnic groups in major American cities since the late 19th century. Emphasis will be upon the economic, social, political, and educational problems encountered by different groups attempting to adjust to urban life.

### \*471. History of the Westward Movement (3)

Examination of the impact of American expansion on the West: Euro-American exploration and migration, ethnic conflict and conquest, gender and family roles on the frontier, environmental changes in the West, development of economic institutions, and urbanization of the region.

### \*472. History of the South (3)

The first half of the course offers a general examination of the Antebellum culture, traditions, and societal crisis. The second half offers an analysis of the modern South (post World War II) from the standpoint of political, economic and social change. Definite emphasis on roles and interactions of racial minority groups and women; insights into solidarity and conflict, and possible resolution of conflict.

### \*473. California History (3)

Survey of California from the 1500s to the present. Emphasis on migration, cultural diversity, and significant social, political, and economic developments.

### 474I. The Urbanization of Modern America (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Survey of urban America from the colonial period to the present. Emphasis on the process of urbanization, urban problems and politics.

### 477A./577A. American Cultural History (3)

Development of American way of life treated in terms of values, behavior and institution, themes of individualism, community, ethnic diversity and social reform.

### 477B./577B. American Cultural History (3)

Development of American way of life treated in terms of values, behavior and institutions, themes of individualism, community, ethnic diversity and social reform.

### \*478. Foreign Relations of the U.S. (3)

The course incorporates a global perspective and considers the influence of such issues as domestic politics, bureaucratic rivalry and decision-making, economics, ideology, race, and the role of special interest groups in the making of foreign policy. Same course as I/ST 478.

### \*479. U.S. Constitution: Origins and Early Development (3)

European sources of constitutional thought, colonial background, impact of the American Revolution, the framing period and the rise of a judicial approach to constitutional interpretation under the Marshall and Taney Courts. Emphasis throughout is on the evolution of constitutionalism as a working ideal in American thought and institutions.

### \*480. Law and Fundamental Rights in American History (3)

Selected variable topics on civil liberties issues addressing the historical development of constitutional guarantees in the areas of freedom of expression, privacy, church and state, due process, and equal protection.

### \*481. The Environmental History of Early America: 1500-1860 (3)

Prerequisites: ENGL 100 and upper division status. This course will explore the economic, social, and cultural developments of early America, from the eve of colonial settlement through 1860, from the perspective of environmental history. It will examine how different groups of people occupying the North American continent - Native Americans, Europeans, Africans (and the descendants of these groups) - defined their relationship with the natural world and how they attempted to manipulate it according to their economic needs and cultural values.

**\*482. Recent American Environmental History (3)**

This course examines the interaction between humans and the natural world in the United States from the late nineteenth century to the present. It considers such diverse topics as the impact of industrialization and urban growth on the American environment, the emergence of ecological consciousness and green politics, and the creation of the idea of Nature in American culture.

**485A. History of Women in the U.S. Early Period (3)**

Provides a survey of the roles and activities of American women from colonial period to 1850; variety of female life experiences; slavery, immigration; relationships to the family, economy and political movements. Only 3 units of 485A,B may be applied to a field of concentration in U.S. history for the major. Same course as W/ST 485A.

**485B. History of Women in the U.S. Since 1850 (3)**

Changing roles and status of women in economic and social change; suffrage movement; women in union movement and WW II; the decade of the sixties and the "second wave" of feminism. Only 3 units of 485A,B may be applied to a field of concentration in U.S. history for the major. Same course as W/ST 485B.

**\*486. History of Afro-Americans in the United States (3)**

Course offers the students a historical examination of the roots and culture of Afro-Americans from the Colonial era to the present. This upper division course is designed to study the transformation from slavery to freedom; segregation and racial conflict; emigration patterns, societal interactions, and participation of other ethnic groups and women.

**\*489. Topics in Legal History of the United States (3)**

Case studies in American law from colonial times to the present: English common law heritage, puritan and frontier influences, the legal profession, judicial traditions, formative stages in criminal law, torts and contracts, and modern trends in legal thought. May be repeated to a maximum of 6 units with different topics.

---

**WORLD HISTORY**

---

**349. The History of —Food (3)**

From the domestication of plants and animals in the Neolithic Revolution to the world-wide cultivation of new crops after 1500, securing reliable sources of sustenance has been central to political, economic, and military agendas. The meanings of food - its multiple roles in both religious rituals and secular festivals, its connection to issues of identity, its contested nature - all serve to underline the usefulness of studying food and human beings' complicated relationships with it throughout history.

**\*396. Contemporary World History (3)**

A global approach to the study of the twentieth century, with an emphasis on the historical origins of the contemporary world. Key themes include the changing nature of the global economy; the advance and retreat of empires; contending ideologies: liberalism, fascism, communism and nationalism; the role of the United States in world history; colonialism and post-colonialism; and the legacies bequeathed to a new millennium.

**435. History of the Francophone World (3)**

Commencing with a study of the origins and evolution of the French language, this course explores the methods by which France expanded its global presence and disseminated its culture in constructing the Francophone world. The themes to be covered include the process of French colonial expansion, the relationship between French colonialism and circumstances and events in France, justifications for and resistance to French overseas expansion, the impact of the colonial world on French culture, gender and colonialism, and French conceptions of race and identity.

**492./592. Proseminar in World History (3)**

Prerequisite: Consent of the instructor. Discussion and analysis of recently published historical works and materials from a world history perspective. May be repeated to a maximum of 6 units.

**Graduate Level**

**501. Theories and Methodologies of History (3)**

The development of history as a discipline, major schools of historical interpretation, and recent developments in analysis and theory. Emphasis will be placed on the interrelationships of history with other disciplines in the social sciences and humanities. Required of all graduate students. Letter grade only (A-F).

**505./405. Classical Japan (3)**

Japan from prehistory to the fifteenth century. Connections to other Asian cultures, the influence of Buddhism, and development of Japanese esthetics exemplified in literature and art; dynamics of centralized vs. regional power; civil vs. military authority.

**509./409. Early Modern Japan (3)**

Japan from the mid-16th century to the end of the Tokugawa period in 1868; reunification, the growth of urban centers and transportation, economic growth; blossoming of political theory, and of popular culture.

**510. The Literature of History (3)**

Reading and discussion of major works and intensive study of bibliography and bibliographical aids. Includes a comparative history component. Letter grade only (A-F). May be repeated to a maximum of 6 units in the same semester.

**A. Ancient and Medieval**

**B. Modern European**

**C. Literature of the Modern Middle East (Southwest Asia)**

**D. Latin America**

**F. United States**

**G. Asia**

**531./431. The Middle East (Southwest Asia), 600-1700 (3)**

This course surveys the history of the Middle East (Southwest Asia) from 600-1700: from the rise of Islam to the eighteenth century, with an emphasis on the background and circumstances of the rise of Islam, the creation and development of the Islamic Empire, the rise of dynastic successor states and "gunpowder" empires, European encroachment, and integration of the Middle East into the emerging world system. The course will focus on cultural, intellectual, social, economic, and political development and will situate the history of the region within its global context.

**532./432. The Middle East (Southwest Asia), 1700-Present (3)**

This course surveys the history of the Middle East (Southwest Asia) from 1700 to the present. The course will focus on modernization and reform, problems and impact of modernity and imperialism in social, political, and economic spheres, state building, nationalism, and Islamic revivalism and will situate the history of the region within its global context.

**577A./477A. American Cultural History (3)**

Development of American way of life treated in terms of values, behavior and institutions, themes of individualism, community, ethnic diversity and social reform. Letter grade only (A-F).

**577B./477B. American Cultural History (3)**

Development of American way of life treated in terms of values, behavior and institution, themes of individualism, community, ethnic diversity and social reform. Letter grade only (A-F).

**590. Topics in Comparative History (3)**

Prerequisite: Consent of instructor. Selected themes in history involving cross-cultural and comparative approaches. May be repeated to a maximum of 6 units. Letter grade only (A-F).

**592./492. Proseminar in World History (3)**

Prerequisite: Consent of the instructor. Discussion and analysis of recently published historical works and materials from a world history perspective. May be repeated to a maximum of 6 units. Letter grade only (A-F).

**595. Special Preparation (3)**

Prerequisite: Graduate standing; consent of Graduate Advisor. Special preparation for the M.A. examinations under faculty direction. May be repeated to a maximum of 6 units. Letter grade only (A-F).

**611. Seminars in Ancient and Medieval History (3)**

Prerequisites: Six units of upper division ancient or medieval history or consent of instructor. Selected topics in ancient or medieval history. May be repeated to a maximum of 6 units. Letter grade only (A-F).

**631. Seminars in European History (including Britain and Russia) (3)**

Prerequisite: Consent of instructor. Directed reading and research in the political, economic, social and cultural history of Europe. May be repeated to a maximum of 6 units. Letter grade only (A-F).

**673. Seminars in United States History (3)**

Prerequisite: Six units of upper division United States history. Selected topics in domestic or international affairs from colonial times to the present. May be repeated to a maximum of 6 units. Letter grade only (A-F).

**682. Seminars in East Asian History (3)**

Prerequisites: Six units of upper division Asian history or consent of instructor. Selected topics in East Asian history. May be repeated to a maximum of 6 units. Letter grade only (A-F).

**695. Directed Readings (1-3)**

Prerequisites: Consent of instructor. Readings on an individual basis. May be repeated to a maximum of 6 units. Letter grade only (A-F).

**697. Directed Research (1-3)**

Prerequisite: Consent of instructor. Research on an individual basis. Letter grade only (A-F).

**698. Thesis (1-4)**

Planning, preparation and completion of non-curricular work in history for the master's degree.

### Clinical Coordinator, Radiation Therapy

Cheryl Brady

### Advisor, Single Subject Credential

Dale W. Evans

### Administrative Support Coordinator

Jeni Wong

The Department offers undergraduate and graduate study in Health Education, and an undergraduate option in Radiation Therapy. For program information, students should contact the department office for referral to one of the faculty advisors: Director of Undergraduate Studies, Director of Radiation Therapy, Director of Graduate Studies or Single Subject Credential Advisor.

All Health Science majors and minors are responsible for requirements specified in the *University Catalog*. Students should meet periodically with either the Director of Undergraduate Studies, the Director of Radiation Therapy, or the Director of Graduate Studies. Faculty advisors will discuss and review the student's academic program, program re-

quirements and monitor academic progress. Students also have responsibility for keeping track of unit totals required for graduation and insuring that these requirements are met.

## *Program in Health Education*

Health education programs help participants enhance health, prevent disease and disability, as well as help improve the well-being of people in organizations, schools, businesses, and communities. The program focuses on environmental influences, which include the cultural and societal context in which health behavior occurs; it also emphasizes processes for developing and changing individual attitudes and behaviors toward health.

The focus of health education is on planned change. Individuals are encouraged to take responsibility for their own health and to assume responsibility for the health of their families and communities.

As our society continues to change, health problems are redefined. Future health advances will not only come from new technology, but also as the result of community, group, and individual actions. These factors will impact education, lifestyle, environment, and the organization and delivery of health services.

Brochures that describe each of the programs are available at the Health Science Department office.

Courses are designed to satisfy Health Science requirements for:

1. general education,
2. the baccalaureate degree major,
3. Single Subject Teaching Credential in Health Science,
4. Master of Science Degree with a Major in Health Science,
5. Master of Public Health Degree in Community Health Education.
6. Master of Science in Nursing/Master in Public Health

## Bachelor of Science in Health Science

The basic University requirements for graduation with a B.S. Degree in Health Science consist of:

1. completion of general education requirements,
2. completion of all courses identified on the Program Planner for the Option selected, with no grade lower than a "C" for each listed course or approved substitute,
3. completion of a minimum of 120 units, at least 40 units of which must be upper division. Upper division courses are numbered 300 to 499.

## Major Core Requirements

All Health Science majors must complete the required core. The core of the Health Science program contains five areas of competence: Statistics, Program Development, Professionalism, Health Services Organization and Health Promotion. All majors must complete at least one course from each competency area. Courses must be selected in consultation with an advisor.

## Option in Radiation Therapy (code HSC\_BS01) (135 units)

### Admission Under Impaction

The number of applicants to the Radiation Therapy Option exceeds the number that can be accepted. For this reason, the Radiation Therapy Option has been designated as impacted by the California State University. Applicants are subject to supplemental criteria in addition to the requirements for admission to the University. Admission is on a competitive basis and is determined on the basis of meeting all of the following supplemental criteria.

To be eligible for admission to the major in the Health Science Option in Radiation Therapy Technology, applicants must demonstrate the following prior to the semester for which the application is submitted: Applicants must have met requirements for admission to the university as a freshman or transfer student. Applicants must have completed the following prerequisite courses, each with a grade of C or better: BIOL 200, 207, and 208; MICR 101; H SC 200; MATH 199A; PHYS 100A and B; I S 233; and ENGL 102 (15 of these 35 units may be double-counted as General Education). Applicants must have completed a 40-hour observation period in a department of radiation therapy and an observation packet. Applicants must submit a supplemental application to the department by February 1 for the fall semester. The application must be accompanied by 3 letters of recommendation (at least one from a radiation therapist at the observation site noted below, and the others from either employers or instructors), a written personal statement, a summary of academic and work history, and documentation of the availability of transportation to clinical sites for the required internship. Applicants must participate in an interview with the Radiation Therapy Career Advisement Committee. The number of applicants who can be admitted is limited by space availability. Eligible applicants will be selected for admission on a space-available basis according to the faculty's judgment of their ability to succeed in the program.

To apply to the Radiation Therapy Option, students must meet all of the requirements listed above.

### Admission Under Impaction for Continuing Students

Students who indicate a Radiation Therapy Option major when they enter as freshmen will be assigned a pre-Radiation Therapy major code. Acceptance into the pre-major by the university does not imply or assure subsequent acceptance into the Option by the Department. Students who are not accepted into the Option cannot continue as pre-Radiation Therapy majors.

Prior to admission to the Radiation Therapy Option, continuing students must

1. Complete all of the basic criteria listed above
2. Complete HSC 200 Orientation to Radiation Therapy with a grade of "C" or better.
3. Submit Option Application by February 1.

### Admission Under Impaction for Transfer Students

Students must be eligible for admission to the university as transfer students and must apply for admission to the university no later than November 30 for admission the following fall. Students who are not admitted to the Option will not be admitted to the university unless they have listed a second choice of major on the application form.

Prior to admission to the Radiation Therapy Option, transfer students must:

1. Complete all of the basic criteria listed above
2. Schedule an appointment with the Radiation Therapy Program Director or Clinical Coordinator
3. Attend a group Radiation Therapy Orientation session
4. Submit by February 1 the Option application

The Radiation Therapy Option is designed for individuals who wish to pursue a professional preparation program leading to membership in the health care team using ionizing radiation in the treatment of malignant and some benign diseases. The Option is competency-based and integrates didactic courses and clinical experience to prepare entry level radiation therapists to become integral partners in the health care team and contributing members of the profession. On a daily basis, the registered radiation therapist is involved in:

1. Operation of sophisticated radiotherapeutic equipment to deliver prescribed doses of ionizing radiation for the treatment of malignant and some benign diseases.
2. Providing psychological and emotional support to patients who are dealing with the stress of their illness.
3. Providing education to the patient and their family about their disease and all aspects of treatment.
4. Observing patient progress and recognizing medical problems that require a physician's attention.
5. Constructing devices to aid in treatment positioning, beam modification, and treatment planning.
6. Calculation of doses and use of treatment planning computers to determine dose distributions.

Successful completion of the Option requirements allows the student eligibility to apply for licensure examinations at the state and national levels to practice as a registered radiation therapist.

This program is accredited by the Joint Review Committee on Education in Radiologic Technology (JRCERT, 20 N. Wacker Drive, Suite 900, Chicago, IL 60606-2901, phone 312-704-5300) and the State of California, Department of Health Services, Radiologic Health Branch.

### Required Radiation Therapy Option Courses

Students will take the following courses in sequence: HSC 150, 320, 310, 340, 341, 315, 492A (5 units), 492A summer (2 units), 470A, 445A, 330, 311, 403, 470B, 445B, 342, 415, 435, 492B summer (2 units), 492B (5 units), 316, 451, 455, 475, 475L, 480 and 465.

All Radiation Therapy courses must be completed with a grade of "C" or better. If a student earns a lower grade, the student must repeat the course and earn an acceptable grade before advancing to the next level of courses.

**FOUR YEAR PLAN TO COMPLETE THE BS IN HEALTH SCIENCE, OPTION IN RADIATION THERAPY (HSC\_BS01)**

133 Units Required Department of Health Science

\*Students are admitted to the major in fall semester only, and then must attend full time.

\*\*To complete the program in four years, students must take courses in the summers before the first and second year.

#### FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

#### I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

#### Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

- 1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.
- 2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.
- 3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).
- 4) You must complete all requirements for admission to impacted majors within the first 60 units.

#### I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

#### I didn't complete the exact list of courses shown. Can I still graduate on time?

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

#### If I follow the plan, will I have all requirements for graduation completed?

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

#### Option in Community Health Education (code HSC\_BS02) (120 units)

The Community Health Education option is designed for persons whose occupational objective is to serve as a community health educator with an official, voluntary, or corporate health agency.

Lower Division: BIOL 200, 205, and either CHEM 100 or 111A; MICR 101; an additional anatomy and physiology, BIOL or MICR course approved by department advisor; Spanish (3 units) or language approved by Department Advisor.

Upper Division: H SC 301, 400, 401, 402, 403, 405, 421, 430, 435, 440, 485; Three courses selected from the following: H SC 420I, 422, 423, 425I, 427, 429, 490, 499; one course selected from the following: FCS 132 or 430; one course selected from the following: PSY 351 or SOC 335I; one course selected from the following: SOC 320, 336, 462, 464; and one course selected from the following: COMM 334, 335.

**FAQ Concerning Road Maps for Completion of Undergraduate Degrees**

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

**I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?**

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

**Must I take the courses in the semesters shown on the plan?**

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

- 1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.
- 2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.
- 3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).
- 4) You must complete all requirements for admission to impacted majors within the first 60 units.

**I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?**

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

**I didn't complete the exact list of courses shown. Can I still graduate on time?**

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

**If I follow the plan, will I have all requirements for graduation completed?**

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

**Option in School Health Education  
(code HSC\_BS03) (120 units)**

The School Health Option is designed for persons who wish to become health science teachers in California middle/high schools. The program is approved by the California Commission on Teacher Credentialing and meets subject matter competence requirements for the Health Science Preliminary Single Subject Credential (code 130).

In addition to meeting the subject matter competence requirement for the Preliminary Single Subject Credential in Health Education, prospective Health teachers are also required to complete 44 units of professional preparation in the Single Subject Credential Program, including student teaching. Students may begin the professional preparation courses as early as the junior year. With careful planning, it is possible to complete all of the credential program courses, except for student teaching, as an undergraduate. Courses may also be completed as post-baccalaureate student. Refer to the Single Subject Teacher Education section of this *Catalog* or the Single Subject Credential Program website ([www.ced.csulb.edu/single-subject](http://www.ced.csulb.edu/single-subject)) for a description of the professional preparation requirements, courses, and application procedures. A student may enroll in the credential program prerequisite course, EDSS 300D, after completing 80% of the required lower division, upper division, and subject matter courses. Prospective students should consult the department's Health Science Education Advisor early to plan their program.

*The Health Science Subject Matter Program is being revised to meet new state standards. When the revised program has been approved by the Commission on Teacher Credentialing, the new course requirements will be in effect and supersede current requirements.*

**Requirements**

Lower Division: BIOL 200, 205; MICR 101; CHEM 100 or 111A, approved anatomy and physiology, BIOL or MICR course. PSY 100, Spanish (3 unit minimum) or language equivalent approved by HSC department advisor.

Upper Division: COMM 335 or approved upper division COMM course, EDP 302 or HDEV 307 or PSY 361, ETEC 444, FCS 132 or 430. Select one course from: ANTH 329, FCS 319, HSC 420I, PSY 378, SOC 320, 423.

Subject Matter Courses: HSC 210, 301, 401, 403, 421, 422, 423, 425I, 427, 430, 435, 440

## Option in Health Care (code HSC\_BS04) (120 units)

The Option in Health Care is designed for those individuals who have received certification and/or license from an approved allied health/health care program and desire a Bachelor of Science degree. The focus of this option is the development of professional skills for people whose goal is: (a) providing service, or (b) instructing in the health care setting.

### Admission Requirements

Once admitted to the University, students are required to complete the following prior to acceptance into the Health Care Option.

1. Obtain certification and/or license from an allied health/health care program from an institution that has been accredited by either a Committee on Post-secondary Accreditation (COPA) approved accreditation agency or the Committee on Allied health Education and Accreditation (CAHEA). Those individuals who do not have appropriate certification will be counseled by the Department of Health Science regarding where to obtain an appropriate accredited program, and, when possible, concurrent enrollment may be utilized;
2. Earn a minimum GPA of 2.0.

Lower Division: Completion of general education requirements to include: ENGL 100; one of the following: ANTH 120, SOC 100 or PSY 100; and minimum of 12 units in Natural Sciences, approved by department advisor equivalent to: BIOL 200, 205, MICR 101 and an additional anatomy and physiology, BIOL or MICR course approved by faculty advisor; either CHEM 100 or 111A, .

Upper Division: (39 units): Required Core: 15 units (three units from each area); courses must be selected in consultation with an option advisor:

- A. Statistics: H SC 403 or ED P 419;
- B. Program Development: H SC 430 and H CA 320, or H SC 455 and 316;
- C. Professionalism: H SC 451 or HCA 340;
- D. Health Organization: H SC 401 or 420I;
- E. Health Promotion: H SC 435 or HCA 402;

### Additional Coursework

H SC 400 and one of the following: HDEV 320 or H SC 405; one of the following: ANTH 353, FCS 430, H SC 424, or SOC 462; one of the following: POSC 329, or ECON 300;

An emphasis in either:

A. *Providing Services* (12 units): HCA 410, 465; one of the following: ED P 434B, H SC 421 or 492A/B and one of the following: ANTH 319, GERN 400I, 482, or NRSG 482; or

B. *Instructing in the Health Care Setting* (12 units): HCA 410, 465 and one of the following: H SC 492A/B (3 units), or ED P 432; and one of the following ED P 305, 434B or HSC 421.

## Minor in Health Science (code HSC\_UM01)

Twenty-four units as follows: H SC 301, 401, 430, 435, 440, and three courses from: H SC 400, 420I, 421, 422, 423, 425I, 427.

## Single Subject Credential in Health Science Education (code 130)

The Single Subject Teaching Credential in Health Science prepares one to teach health science in California middle/high schools. Requirements include: a) Bachelor of Science Degree in Health Science with a completion of the school health option from a program approved by the California Commission on Teacher Credentialing or BS/BA and a passing score on the SSAT/CSET in Health Science b) GPA of 2.75 on the last 60 semester units c) Professional education courses beyond the B.S. which begin with EDSS 300D: Introduction to Teaching Health Science d) student teaching in health science. See the Health Science Single Subject Advisor.

*The Health Science Subject Matter Program is being revised to meet new state standards when the revised program has been approved by the Commission on Teacher Credentialing, the new course requirements will be in effect and supersede current catalog copy.*

For additional information about teaching in California middle/high schools, see the Single Subject Teacher Education Program.

## Graduate Program in Health Education

Accredited by the Council on Education for Public Health (Council on Education for Public Health, 1015 Fifteenth Street, NW, Washington, DC 20005, phone: 202-789-1050).

In order to be admitted to the graduate program for study toward a degree, a prospective candidate must apply both to this department and the University. Contact the Director of Graduate Studies for current requirements.

## Master of Science in Health Science (code HSC\_MS01)

The Master of Science program is designed to provide students with:

1. intensive study of health education concepts, theories, and processes;
2. introduction to public health concepts and issues;
3. research methodology appropriate to the in-depth examination a health topic.

The graduate student is also prepared for a leadership role in a school or community setting and for admission to doctoral programs at other colleges and universities. Admitted graduate students must contact the Director of Graduate Studies for advisement early in their first semester of enrollment in order to develop an approved program of study.

## Admission Requirements

Applicants must apply both to the Department and the University. Applications are available from the Department office.

1. Each applicant must request a copy of official transcript(s) of all work be sent to the Graduate Director in the Health Science Department in addition to the transcripts required by the Office of Enrollment Services.
2. A bachelor's degree with a major in health education, which articulates with the course requirements for the same degree at California State University, Long Beach; or a bachelor's degree in a related discipline with a minimum of 21 units of upper division course work comparable to that required of the Health Science major at the University; or a bachelor's degree in a related discipline and willingness to make up any deficiencies in prerequisite Health Science courses. Prerequisites for all courses carrying graduate credit must have been completed within seven years of taking the graduate courses. If any prerequisite is outdated, it may be repeated or credit obtained by (1) written examination on the subject matter or (2) providing documented evidence of currency in the subject area.
3. An overall undergraduate GPA of at least 3.0. Students with less than a 3.0 GPA on the last 60 units of undergraduate units attempted, but who show promise in all other aspects, may be given special consideration after petitioning for conditional admission into the program through the Director of Graduate Studies.
4. Acceptance by the University as a student with graduate standing.
5. A maximum of 9 units of approved graduate work at the post-baccalaureate level may be credited to a student's program requirements upon Departmental acceptance to the graduate program.
6. Submission of the analytic, quantitative and verbal scores from the Graduate Record Examination (GRE) and a copy of the CSU graduate application to the Department.
7. Three letters of recommendation from persons with whom the candidate has worked and who have direct knowledge of the applicant's qualifications and potential as a community health educator.
8. A separate personal statement of reasons for pursuing this field of study and comments about interests and experience that are germane to career objectives. Submit a personal resume reflecting the applicant's education and relevant work experience.

### Advancement to Candidacy

1. Satisfy the general University requirements for advancement to candidacy:
  - A. fulfill the Graduation Writing Assessment Requirement (GWAR);
  - B. maintain at least a 3.0 average for all course work attempted as a graduate student;
  - C. complete H SC 500, 503, and 570;
2. Approval by the Director of Graduate Studies and the Associate Dean of Academic Programs of the College of Health and Human Services.

### Requirements for Completion of the Master of Science

1. A minimum of 43 units of approved upper division and graduate courses including:
  - A. 21 units of Health Science courses, which include HCA 502, H SC 500, 503, 570, 581, 696;
  - B. 18 units of electives in a specialty field;
  - C. 4 units of H SC 698;
2. A thesis with an oral exam.

### Master of Public Health

#### Option in Community Health Education (code HSC\_MH01)

The Master of Public Health in Community Health provides an opportunity for students to specialize in community health education and health promotion within the general context of Public Health, to increase competence in designing, implementing, and evaluating social behavior changes in program planning in preparation for serving in various health agencies, prepare for teaching at college and university levels and for administrative positions in public and private health agencies.

#### Admission Requirements

Applicants must apply both to the Department and the University. Applications are available from the Department office.

1. Each applicant must request that a copy of official transcript(s) of all work be sent to the Director of Graduate Studies (in addition to the copies required by the Office of Enrollment Services).
2. A bachelor's degree with a major in health education, which articulates with the course requirements for the same degree at California State University, Long Beach; or a bachelor's degree in a related discipline with a minimum of 21 units of upper division course work comparable to those required of the Health Science major at the University; or a bachelor's degree in a related discipline and willingness to make up any deficiencies in prerequisite Health Science courses. Prerequisites for all courses carrying graduate credit must have been completed within seven years of taking the graduate courses. If any prerequisite is outdated, it may be repeated or credit obtained by (1) written examination on the subject matter or (2) providing documented evidence of currency in the subject area.

3. An overall undergraduate GPA of at least 3.0. Students with less than a 3.0 GPA on the last 60 units of undergraduate units attempted, but who show promise in all other aspects, may be given special consideration after petitioning for conditional admission into the program through the Director of Graduate Studies.
4. Acceptance by the University as a student with graduate standing.
5. A maximum of 9 units of graduate work at the post-baccalaureate level may be credited to a student's program requirements upon Departmental acceptance to the graduate program.
6. Submission of a copy of the CSU graduate application and quantitative and verbal scores from the Graduate Record Examination (GRE) to the Department.
7. Three letters of recommendation from persons with whom the applicant has worked who have direct knowledge of the applicant's professional and academic potential as a health educator.
8. A separate personal statement of reasons for pursuing this field of study and comments about interests and experience that are germane to career objectives. Submit a personal resume reflecting the applicant's education and relevant experience.
9. At least one year's full-time (or equivalent) paid or volunteer experience in Health Education or a closely related health field. Preference will be given to those with greater experience and ability.

### Advancement to Candidacy

1. Satisfy the general university requirements for advancement to candidacy:
  - A. fulfill the Graduation Writing Assessment Requirement (GWAR);
  - B. maintain at least a 3.0 average for all course work attempted as a graduate student;
  - C. complete H SC 500, 503, and 570;
2. Approval by the Director of Graduate Studies and Associate Dean for Academic Programs of the College of Health and Human Services.

### Requirements

1. A minimum of 42 units of approved upper division and graduate-level courses including:
  - A. Core: HCA 502, H SC 500 or MICR 429, H SC 503 or BIOL 565 (4), 508, 528, 570, 581, 624, 625, 626, 696;
  - B. Electives at the 500/600 level;
  - C. H SC 585, a supervised internship experience (6 units)
2. A comprehensive written examination (see Department for guidelines).

## Master of Science in Nursing/Master of Public Health (code NRSGMN01)

The Departments of Nursing and Health Science offer a concurrent Master of Science and Master of Public Health degree available to qualified students who desire advanced preparation in the area of public health nursing with a practice focus on primary prevention, illness prevention, and health promotion. The concurrent program leading to both degrees represents the core accreditation requirements of each degree. Coursework is integrated between the two Departments in each semester in order to provide an intense learning experience.

The philosophy of graduate nurse education is that the practice of nursing is constantly changing as health needs and health delivery systems are altered. Integral to nursing is an ability to work effectively and cooperatively with other disciplines and community services to promote health. The Master of Science and Master of Public Health (Health Education Option) provides the opportunity for students to specialize in advanced practice public health nursing within the general context of the Masters of Public Health, to increase competence in designing, implementing, and evaluating behavior change programs in preparation for serving in various health agencies. The focal point in this curriculum is the Nursing Process, Epidemiological Process Model, and Population Based Theory complemented by behavioral science concepts. Courses are interdependent and have been structured to provide clinical depth in the area of advanced practice public health nursing.

Each applicant should request a copy of official transcript of all college course work be sent to the Department Graduate Advisor of Nursing in addition to the copies required by the Office of Admissions and Records.

### Admission Requirements

1. Bachelors degree in nursing or currently enrolled in accelerated RN to Masters program. Those nurses with Baccalaureate degrees in health related fields may be conditionally admitted.
2. Current license to practice as a registered nurse in California.
3. Admission to graduate standing at the University.
4. An upper division or graduate course in biostatistics (HSC 403 or Ed. Stat 419) and an ethics course (HSC 451).
5. Public Health Nurse Certificate, or eligibility for certificate in California.
6. An overall GPA of 3.0 or better; an upper division nursing GPA of 3.0 or better and a science GPA of 3.0 or better. Students who fall below these averages will be evaluated on an individual basis.
7. Submission of quantitative and verbal scores from the Graduate Record Examination (GRE).
8. Three letters of recommendation from persons with whom the applicant has worked and who has direct knowledge of the applicant's qualifications.

9. A separate personal statement of applicant's reasons for pursuing this field of study and comments about interests and experiences, which are germane to career objectives.
10. Current professional resume describing the applicant's relevant experience.

### Advancement to Candidacy

A joint committee, consisting of Nursing and Health Science faculty involved in the program, will review files and make determination to advance a candidate to graduate status.

### Student Criteria for Advancement

1. Satisfy the general University requirements for advancement to candidacy in Nursing and Health Science.
  - A. fulfill the Graduation Writing Assessment Requirement (GWAR)
  - B. have at least a 3.0 grade point average for all course work attempted as a graduate student
2. Joint approval by the Department of Nursing and Health Science, and the Associate Dean for Academic Programs of the College of Health and Human Services.

### Requirements

1. A minimum of 57 units of approved Nursing and Health Science upper division and graduate level courses including: HSC 500 or MICR 429; HSC 503 or BIOL 565; HSC 508, 528, 535, 570, 581, 624, 625; NRSNG 660B, 680A, 680B, 680C; NRSNG 680AL, 680BL, 680CL or HSC 626 (in lieu of one 3 unit 680L); NURS 696 or HSC 696; NRSNG 695 or HSC 697 or NURS 698
2. An overall GPA of 3.0 or better in all courses
3. Comprehensive written examination or directed project or a thesis
4. Graduate degrees obtained previously will be accepted toward meeting the unit requirements of the concurrent MSN/MPH degree program
5. If a student after entering the concurrent MSN/MPH program returns to a single degree program, all requirements for the single degree program must be met
6. Transfer units will not be accepted toward the concurrent MSN/MPH program.

## Courses (H SC)

### Lower Division

#### 150. Medical Terminology (1)

Development of a medical vocabulary emphasizing the building of terms utilizing prefixes, combining forms and suffixes. Includes symptomatic, therapeutic, diagnostic and operative terms for application in the interpretation of medical records as needed in Radiation Therapy. (Lecture-discussion 1 hour.) Letter grade only (A-F).

#### 200. Orientation to Radiation Therapy (3)

Orientation to the Option in Radiation Therapy, professional organizations, career opportunities, department structure, patient management, record keeping, and professional ethics. An overview of the role of radiation therapy in the treatment of cancer and the Radiation Therapist in the field of Radiology. 40 hours of clinical fieldwork required. Letter grade only (A-F).

### 210. Contemporary Health Problems (3)

Prerequisite: Completion of the 13 unit GE foundation requirements. Development of modern health knowledge, attitudes and behavior: includes family life-sex education, drug use and abuse, mental health, medical quackery and health frauds, common diseases such as sexually transmitted diseases, heart disease and cancer.

## Upper Division

### 301. Orientation to Health Science (3)

Overview of the philosophy of the Health Science Dept. Orientation to the degree requirements, career opportunities, and the theoretical and practical issues of health education as a profession. Must be taken prior to H SC 401 and 430.

### 310. Radiation Therapy Patient Care I (2)

Prerequisite: Admission to the Radiation Therapy Option Professional Preparation or consent of instructor. This course focuses on the role of the radiation therapist, communication, self care, basic patient care, patient assessments and examinations. Emphasis is on infection control, medical emergencies, care of patients with tubes, basic pharmacology and medication administration. Letter grade only (A-F).

### 311. Radiation Therapy Patient Care II (2)

Prerequisites: Admission to the Radiation Therapy Option Professional Preparation or consent of instructor, HSC 310. Continuing study of patient care in radiation therapy. This course focuses on the psychosocial aspects of cancer diagnosis, death and dying, patient education and intervention for treatment related sequelae. Includes an examination of local, state and national cancer resources. Letter grade only (A-F).

### 315. Seminar in Radiation Therapy I (2)

Prerequisites: Concurrent enrollment in HSC 492A, admission to the Radiation Therapy Option Professional Preparation or consent of instructor. Introduction to the clinical radiation therapy arena which includes: patient population and statistics, patient flow in the department, various components of a department, interdepartmental interactions and interactions with other departments, and the exploration and discussion of the various treatment modalities available. Letter grade only (A-F). (Lecture discussion, 2 hrs)

### 316. Seminar in Radiation Therapy II (2)

Prerequisites: Concurrent enrollment in HSC 492B, admission to the Radiation Therapy Option Professional Preparation or consent of instructor. Comprehensive analysis of case studies in the clinical setting. This will include a thorough review of a patient's history and treatment rationale. Letter grade only (A-F). (Lecture discussion, 2 hours)

### 320. Radiologic Techniques and Imaging Modalities (3)

Prerequisites: Admission to Radiation Therapy Option Professional Preparation or consent of instructor. Introduction to radiographic procedures, equipment, technique development, equipment maintenance as well as darkroom equipment, operation and film processing. An examination of the various modalities of radiologic diagnostic imaging. (Lecture-discussion 2 hrs, Lab 1 hr.) Letter grade only (A-F).

### 330. Topographic Anatomy (2)

Prerequisites: BIOL 207, 208, Admission to Radiation Therapy Option Professional Preparation or consent of instructor. Examination of external anatomic landmarks in relation to internal anatomy with emphasis on the effects of positioning on external landmarks, internal anatomic critical structures, and methods of avoiding or lowering radiation dose to these structures. Interpretation of port films and other diagnostic films is included. (Lecture-discussion 2 hr). Letter grade only (A-F).

### 340. Clinical Radiation Therapy (3)

Prerequisites: H SC 200, 320, Admission to Radiation Therapy Option Professional Preparation or consent of instructor. Rationale of radiation therapy treatments; construction of immobilization devices, contours, bolus, and positioning aids. Examination of simulation procedures, contrast media, film, treatment positioning, beam modifiers, patient monitoring, and radiotherapeutic machine operation. (Lec-discussion 2 hrs, Lab 2 hrs.) Letter grade only (A-F).

### 341. Clinical Radiation Therapy II (1)

Prerequisites: HSC 340, concurrent enrollment in HSC 445A, admission to the Radiation Therapy Option Professional Preparation or consent of instructor. Examination of site specific techniques used in radiation therapy. Focus will be on techniques used to treat cancers of the skin, head and neck, lung, esophagus, breast, gastrointestinal, kidney and bladder. Letter grade only (A-F). (Lecture discussion, 1 hour)

### 342. Clinical Radiation Therapy III (1)

Prerequisites: Concurrent enrollment in HSC 445B, admission to the Radiation Therapy Option Professional Preparation or consent of instructor. Examination of site specific techniques used in radiation therapy. Focus will be on techniques used to treat cancers of the reproductive system, central nervous system, eye, endocrine and major digestive glands, bone, soft tissues, blood, lymphatics and pediatric solid tumors. Letter grade only (A-F). (Lecture discussion, 1 hour)

### 400./500. Principles of Epidemiology (3)

Prerequisites: H SC 301 and 403. Application of epidemiologic procedures to the understanding of the occurrence and control of infectious and chronic diseases, mental illness, environmental health hazards, accidents, and geriatric problems. (Lecture 3 hours)

### \*401. Community Health Education (3)

Prerequisite: H SC 301 and H SC 430. Concepts of community health education with emphasis on community organization; application of these concepts to health education activities of official, voluntary and professional health agencies.

### \*402. Applied Concepts of Community Health Education (3)

Prerequisites: H SC 301, 430, 435. Identification and application of concepts unique to community health education: includes examination of theoretical foundations, marketing and promotion techniques, and application of health education strategies.

### \*403. Community Health Statistics (3)

Prerequisites: G.E. math and SOC 250 or PSY 110 or equivalent. Representative topics are descriptive statistics, sample designs, central tendency, and variability. Statistical tools for inferential analyses include hypothesis testing, statistical power, and parameter estimation. An introduction to bivariate analyses is provided. (Lecture 2 hours, Laboratory 2 hours)

### 405. Health Education Program Evaluation and Measurement (3)

Prerequisite: H SC 403 or equivalent. Design, use of standardized measurements, data collection, analysis, and reporting are used to develop evaluation skills to facilitate program management. Impact of activities aimed at producing behavior change in communities, organizations, groups and individuals will be examined. (Discussion 3 hrs)

### 411A. Health Science for Elementary Teachers (3)

Prerequisite: Upper-division standing. Corequisite: Current CPR Certification required. Contemporary teaching of health education in elementary schools; emphasizes drug use and abuse, human sexuality, community and human ecology (meets state credential requirement for health education). Not open to Health Science majors or minors.

### 411B. Health Science for Secondary Teachers (3)

Prerequisite: Upper division standing. Corequisite: Current CPR Certification required. Contemporary teaching of health education in secondary schools; emphasizes drug use and abuse, human sexuality, community and human ecology (meets state credential requirement for health education). Not open to Health Science majors or minors.

#### 415. Radiation Biology (2)

Prerequisites: BIOL 207, Admission to Radiation Therapy Option Professional Preparation or consent of instructor. An examination of: the effects of radiation at the cellular, tissue and organ levels; the cell survival curve, Linear Energy Transfer, (LET), Radiobiological Effectiveness, (RBE), radiation sensitizers and protectors; the effects of whole body acute radiation as well as the developing embryo; the radiobiological basis for radiation therapy treatments and fractionation. (Lecture-discussion 2 hours) Letter grade only (A-F).

#### 420I. International Health (3)

Prerequisites: Completion of the G.E. Foundation, one or more Explorations courses, and upper-division standing. Analysis of current health problems in the world; examination of contributing social, psychological, physical, legal and cultural factors; international programs for the improvement of world health; structure and functions of world health agencies and organizations.

#### 421. Health Behavior (3)

A survey of contemporary research on the health effects of human behavior. Special emphasis is given to current issues of health behavior, decision-making in contemporary society, values clarification and contemporary theories of behavior change (e.g., health belief model).

#### 422. Environmental Health (3)

An examination of the reciprocal relationship existing between man and his environment, with the emphasis directed toward the health related consequences of man's actions in the environment.

#### 423. Consumer Health (3)

Effective selection of health information, products and services; medical quackery and fraudulent health practices; laws and agencies protecting the consumer; health care delivery systems; and influences of corporate control on the consumer movement in contemporary society.

#### 424./524. Alternate/Complementary Health (3)

Prerequisites: Upper division standing. This course presents the philosophical, historical, clinical and scholarly aspects of complementary/alternative health (CAH) to promote health, prevent disease and treat illness. Emphasis will be placed on the efficacy of CAH in the U.S. A minimum of twelve modalities will be analyzed. (Lecture/demonstration/discussion 3 hours).

#### 425I. Human Sexuality and Sex Education (3)

Prerequisites: Completion of the G.E. Foundation, one or more Explorations courses, and upper-division standing. Recommended: PSY 100. Biomedical, sociological, and psychological aspects of human sexuality, the communication of sexual information, the implementation, content and evaluation of family life and sex education in the schools.

#### 427. Drugs and Health (3)

Prerequisite: Upper division standing. Study of psychoactive drugs with primary attention to alcohol, nicotine, caffeine, cannabis, hallucinogens, narcotics and other drugs; examination of trends, philosophical issues and behavioral practices associated with drug use and dependence. Includes physiological psychosocial, legal, historical, philosophical and political aspects; treatment-rehabilitation activities and programs; and drug abuse prevention education. Not open to students with credit in H SC 327.

#### 429. Stress Reduction (3)

Recognition of stress and its causes. Physical and mental symptoms of stress. Influences which reduce or create stress; methods of coping.

#### \*430. School Health Program (3)

Prerequisite: H SC 301. Intensive analysis of the philosophy, organization and legal aspects of the school health program. Includes school and community coordination for a team approach to health education for the school age individual.

#### 435./535. Health Promotion and Risk Reduction (3)

Prerequisites: H SC 421 or consent of instructor. Health promotion/risk reduction program content, development and implementation for use in corporate, hospital and public settings. Intended primarily for Health Science majors. (Discussion 3 hours)

#### \*440. Applied Concepts of Health Science (4)

Prerequisite: H SC 430. Identification and application of the concepts and modes of inquiry unique to the discipline of health science; development of appropriate curriculum based upon an analysis of individual, school and community needs and interests. (Lecture 3 hours; laboratory 3 hours)

#### 445A. Oncologic Pathology I (3)

Prerequisites: BIOL 207, 208, H SC 150, Admission to Radiation Therapy Professional Preparation or consent of instructor. Examination of oncologic pathology with emphasis on malignant neoplasia; specific attention is given to epidemiology, etiology, detection, diagnosis, staging, histopathology, metastatic pattern, treatment options and principles of radiation therapy treatments. Examines cancers of the head and neck, lung, breast, gastrointestinal tract, kidney, and bladder. (Lecture-discussion 3 hours) Letter grade only (A-F).

#### 445B. Oncologic Pathology II (3)

Prerequisites: H SC 445A, Admission to the Radiation Therapy Option Professional Preparation or consent of instructor. Continuation of 445A with specific attention given to cancers of the reproductive system, central nervous system, eye, skin, endocrine and major digestive glands, bone, soft tissue, blood, lymphatic system and pediatric solid tumors. (Lecture-discussion 3 hours) Letter grade only (A-F).

#### \*450. The Health Care Professional in the United States (3)

Identification of the role and function of the health care professional; legal aspects of health care delivery; factors influencing the quality of health care, problems from consumers' viewpoints; cultural influences; governmental involvement and current issues in health care; examination of health care in the United States.

#### \*451. Ethics Professionalism in Health Care (3)

Examination of professionalism and bioethics, and the process of making moral decisions; ethical issues; professional oaths and codes of ethics; health care ethics and the law.

#### 455. Quality Management in Radiation Therapy (1)

Prerequisites: HSC 470B, admission to the Radiation Therapy Option Professional Preparation or consent of instructor. A review of the principles of quality management with an emphasis on specific quality assurance tests in radiation therapy. Students will be given the opportunity to either perform or observe a demonstration of each quality assurance test. Letter grade only (A-F).

#### \*460. Health Care Program Development (3)

Examination of the process of health care, program development, identification of contemporary health care philosophy, needs, legal aspects, objectives and community involvement as related to program development; process of conducting a needs assessment; factors affecting development; regionalization; grantsmanship.

#### 465. Radiation Therapy in the Health Care Industry (3)

Prerequisite: Admission to the Radiation Therapy Option Professional Preparation or consent of instructor. Examination of the health care market with emphasis on current radiation therapy trends in the health care environment. This class will focus on various radiation therapy operational and budgetary issues, hospital and governmental accreditation, types of insurance and reimbursements. Letter grade only (A-F). (Lecture discussion, 3 hours)

#### 470A. Clinical Radiation Physics I (3)

Prerequisites: PHYS 100A,B; admission to Radiation Therapy Option Professional Preparation or consent of instructor. Nature and description of the structure of matter and energy; interactions of photons and gamma radiation; instrumentation and measurement of ionizing radiation, beam quality, and dose; percentage depth dose, tissue air ratios, treatment dose calculations. (Lecture-discussion 2 hours, Laboratory 2 hours) Letter grade only (A-F).

### 470B. Clinical Radiation Physics II (3)

Prerequisites: H SC 470A, Admission to Radiation Therapy Option Professional Preparation or consent of instructor. A continuation of H SC 470A with emphasis on electron beam characteristics and use in radiation therapy, brachytherapy, radioactive sources, implantation methods and dosimetry. An overview of hyperthermia, particle radiation and radiation protection. (Lecture-discussion 2 hours, Laboratory 2 hours) Letter grade only (A-F).

### 475. Treatment Planning – Dosimetry (2)

Prerequisites: H SC 470A,B, Concurrent enrollment in H SC 475L, Admission to Radiation Therapy Option Professional Preparation or consent of instructor. Examines the effects of treatment distance, field weighting, beam modifiers, irregular fields, tissue inhomogeneities and tissue compensation on dose. Dose calculations for external photon and electron beams. (Lecture-discussion 2 hours) Letter grade only (A-F).

### 475L. Treatment Planning – Dosimetry Laboratory (1)

Prerequisites: Concurrent enrollment in H SC 475, Admission to Radiation Therapy Option Professional Preparation or consent of instructor. Practical experience with clinical situations in regards to calculation of treatment time/monitor units, gapping, irregular fields, rotational and arc treatments. Use of isodose curves for hand dose summations and treatment planning computer for complex field arrangements. (Laboratory 3 hours) Letter grade only (A-F).

### 480. Advanced Radiation Therapy (2)

Prerequisites: Must be in final semester of Radiation Therapy Option Professional Preparation. Synthesis of previous didactic and clinical information; an in depth examination of current and future professional issues, technological advances and ethics; a look at professional preparation, organizations and continuing education. (Lecture-discussion 2 hours) Letter grade only (A-F).

### \*485. Internship in Health Education (3)

Prerequisites: H SC 401 and consent of instructor. Supervised observation and field experience in community health education as conducted by official, voluntary and professional health organizations.

### 490. Independent Studies in Health Science (1-3)

Prerequisite: Consent of instructor. Students will conduct independent library or laboratory research under the supervision of a faculty member and write a report of the investigation. May be repeated to a maximum of 6 units.

### 492A. Internship in Health Care (1-7)

Prerequisite: Consent of instructor. Supervised observation and field experience in community health and medical facilities. Student responsible for successful completion of clinical objectives applicable to area of observation. Letter grade only (A-F).

### 492B. Internship in Health Care (1-9)

Prerequisites: Consent of instructor. Supervised observation and field experience in community health and medical facilities. Student responsible for successful completion of clinical objectives applicable to area of observation. Letter grade only (A-F).

### \*499. Special Studies (1-3)

Group investigation of selected topics. Topics to be announced in the *Schedule of Classes*. May be repeated to a maximum of 9 units with different topics.

## Graduate Level

### 500./400. Principles of Epidemiology (3)

Prerequisites: H SC 301 and H SC 403. Application of epidemiologic procedures to the understanding of the occurrence and control of infectious and chronic diseases, mental illness, environmental health hazards, accidents, and geriatric problems. Letter grade only (A-F). (Lecture 3 hours.)

### 503. Advanced Community Health Statistics (3)

Prerequisite H SC 403 or equivalent. Analysis and interpretation of quantitative health education/public health data. Topics include expanded discussion of parametric techniques (e.g., hypothesis testing, confidence interval estimation, power functions, small sample sizes). Other topics include multivariate analyses, non-parametric tests, regression analysis. Use of computers required. Letter grade only (A-F). (Discussion, 3 hours)

### 508. Administrative Relationships in Health Education Programs (3)

Prerequisite: Undergraduate major in Health Science or related field. Introduction to administrative theory; investigation of administrative responsibilities and functions implicit in school health or other health education programs. Letter grade only (A-F).

### 516. Health Promotion in Organizational Settings (3)

Prerequisite: H SC 570. Exploration of health promotion programs in worksite settings, health services, business and industry. Assessment of the organizational climate for health promotion and principles for maintaining program viability and vitality. Strategies for developing and conducting health promotion programs in these settings. Letter grade only (A-F). (Discussion, 3 hours)

### 524./424. Alternate/Complementary Health (3)

Prerequisites: Upper division standing. This course presents the philosophical, historical, clinical and scholarly aspects of complementary/alternative health (CAH) to promote health, prevent disease and treat illness. Emphasis will be placed on the efficacy of CAH in the U.S. A minimum of twelve modalities will be analyzed. Letter grade only (A-F). (Lecture/demonstration/discussion 3 hours).

### 528. Advanced Environmental Health (3)

Prerequisite: H SC 422 or consent of instructor. Organization and methods for promoting human health by controlling environmental factors. Letter grade only (A-F).

### 535./435. Health Promotion and Risk Reduction (3)

Prerequisites: H SC 421 or consent of instructor. Health promotion/risk reduction program content, development and implementation for use in corporate, hospital and public settings. Intended primarily for Health Science majors. Letter grade only (A-F). (Discussion 3 hours)

### 570. Theoretical Concepts and Issues in Health Science (3)

Identification and analysis of current trends, philosophies and issues in health science. Letter grade only (A-F).

### 581. Curriculum Development in Health Education (3)

Prerequisites: H SC 430, 440. Principles of curriculum development; selection and evaluation of resource materials; theory and practice in measurement in health education. Letter grade only (A-F).

### 585. Health Education Internship (1-6)

Prerequisite: Consent of the instructor. Extended applied experience under guidance of faculty and preceptors in an approved health education practice setting. Letter grade only (A-F). (480 hours of field placement or the equivalent experience.)

### 590. Independent Study (1-3)

Independent research conducted under the supervision of a full-time faculty member resulting in a written report of the investigation. Letter grade only (A-F). May be repeated to a maximum of 6 units with different topics.

### 624. Seminar in Community Analysis and Program Planning (3)

Prerequisites: H SC 625 or consent of instructor. Process and techniques of community analysis and program planning. Letter grade only (A-F).

**625. Advanced Community Health Education (3)**

Prerequisites: H SC 401 and 485; or consent of instructor. Advanced study of educational and related theory applicable to the conduct of health education programs in community and other settings. Methods of promoting change; role as program and staff director and evaluation techniques. Letter grade only (A-F).

**626. Integrative Seminar in Public Health (3)**

Prerequisites: H SC 570, advancement to candidacy. Summative critical analysis of current methodologies, research, and practices in public health and health education in particular. Synthesis of coursework, internship, and other relevant experiences in the graduate program. Letter grade only (A-F).

**696. Research Methods (3)**

Prerequisites: Undergraduate major in Health Science or related field; undergraduate course in statistics. Introduction to research methodology in the area of Health Science. Letter grade only (A-F).

**697. Directed Studies (1-3)**

Prerequisite: Advancement to candidacy. Independent investigation of research problems in health education. Letter grade only (A-F).

**698. Thesis (1-3)**

Prerequisites: H SC 696, advancement to candidacy. Planning, preparation and completion of an approved thesis.

# INTERNATIONAL BUSINESS

## College of Business Administration

Director

Paul L. Frantz

Co-Director

Clyde Stollenberg

Phone

(562) 985-5072

(562) 985-5671

For core requirements please see the College of Business Administration section in this catalog.

### Bachelor of Science in Business Administration

#### Option in International Business (code FIN\_BS02) (120 units)

The objective of the international business option is to prepare students for the increasingly competitive and interdependent international business world with which they must cope. There is great and growing need for American business school graduates to be better informed about how to compete and do business outside the U. S. as well as in the U. S. market where much of their competition is from foreign firms. Students need to understand how international business practices and customs differ from those in the U. S. They need some familiarity with a language other than English as well as knowledge of culture and world geography.

#### Requirements

1. ACCT 465
2. FIN 490
3. MGMT 405 or 406
4. MKTG 480
5. Any one of the following courses: FIN 424, HRM 458, MGMT 405 OR 406 (whichever was not taken in satisfaction of requirement 3), or any "Short-Term Study Abroad" Special Topics courses and all courses in the "Doing Business Abroad" series.
6. Two years (4 semesters or 6 quarters) at the baccalaureate level of one of the following languages: Chinese, French, German, Italian, Japanese, Russian, or Spanish. Under individual, special circumstances, the Director of the International Business Option may approve a language other than those listed above to satisfy the language requirement for a degree in the option.
7. Choice of the language will determine the country or geographic area of the world about which the student must study a minimum of 2 courses (6 units).

These will be in lieu of 6 other elective units, and can be double counted as part of the student's general education requirement, if approved to meet GE requirements.

#### G.E. or Elective Courses

Select two courses (6 units), appropriate for your choice of language:

All Languages: ANTH 412I, POSC 371, 485, I/ST 317I, 318I, 319I, 355, LING 413, 425, 470, COMM 330, 452, W/ST 401I.

Chinese: ANTH 332, A/ST 301I, 310, 495I, CHIN 370, 301, HIST 382B, 406B, 488, POSC 362, R/ST 101B, 331I, 341I, 343, CWL 403.

### **FAQ Concerning Road Maps for Completion of Undergraduate Degrees**

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

#### **I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?**

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

#### **Must I take the courses in the semesters shown on the plan?**

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

#### **I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?**

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

#### **I didn't complete the exact list of courses shown. Can I still graduate on time?**

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

#### **If I follow the plan, will I have all requirements for graduation completed?**

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

## **Undergraduate Certificate in International Business (code FIN\_CT01)**

Phenomenal growth of multi-national companies has been apparent in recent years, with increasing internationalization of the business world. Multi-national firms, governmental agencies, and varied international organizations express heightened demand for management personnel with a broad, global perspective. The Certificate in International Business, Undergraduate Program, combines an undergraduate degree in business with additional training in the area of international business beyond that normally included in a traditional business program. The objective of the program is to enhance the scope and perception of the business student to include the international business environment.

Courses used to meet requirements for the Certificate in International Business may also apply toward College of Business Administration degree requirements.

### **Requirements**

1. A bachelor of Science degree in Business Administration.  
This requirement may be completed concurrently with certificate requirements;
2. Six of the following nine courses: CBA 300; ACCT 465; FIN 424, 490; HRM 458; MGMT 405, 406; MKTG 480 or 481.
3. A grade of "C" or higher will be required in each course completed;
4. The Certificate Program does not permit use of the Credit/No Credit option. Students with specific geographic areas of interest should consider development of language competence and cultural understanding relative to their area of interest concurrent with their Certificate Program. For additional information or for application to the program, interested persons may contact the Director of International Business Program.

University Academic Programs is the administrative designation for a group of University-wide academic programs that are interdisciplinary in nature. The Interdisciplinary Studies program offers students the opportunity to develop individualized cross-disciplinary majors utilizing courses from appropriate departments at California State University, Long Beach. Each student, with the help of department faculty advisors, must select courses and focus his/her major on the basis of a unifying issue, theme or topic called an area of concentration. The area of concentration must meet three criteria to be acceptable:

- First, the area of concentration must be interdisciplinary. This means the area of concentration must integrate and focus approaches and knowledge from at least two fields or disciplines. The principle of integration can be historical, regional, thematic or problem-focused.
- Second, the area of concentration must not replicate any existing major. The purpose of the Interdisciplinary Studies major is to create an individualized curriculum where no structure or formal program exists.
- Third, the area of concentration must be feasible. Each student's proposed program must be discussed with faculty advisors to ensure that the range and number of courses required will be available.

The student's role in the selection of the area of concentration is active not passive. The student must actively plan his/her program and cultivate relationships with assigned or chosen faculty. Furthermore, the student has the initial responsibility in shaping his/her program, with the guidance of the department advisors.

## Bachelor of Arts in Interdisciplinary Studies (code IDSCBA01) (120 units)

The Interdisciplinary Studies major for the Bachelor of Arts degree allows selected students to engage in an individualized baccalaureate program when legitimate academic and/or professional goals cannot be accommodated by existing academic programs or combinations of such programs (i.e., majors, minors, certificates). Acceptance into the ISP program is a privilege and not a right of CSULB students. Interdisciplinary Studies consist of a closely correlated program of study in two or more departments developed in conference with faculty members from the respective departments who have the academic and professional expertise necessary to support the individualized course of study.

The Interdisciplinary Studies Program is not a means of bypassing normal graduation requirements nor a means by which students may seek to graduate who have failed to gain admission to impacted programs nor to complete a degree major in which they are currently enrolled. Consequently, a candidate must apply for approval of an interdisciplinary Studies Program when:

1. At least one full year of academic work (30 units) remains to be completed to meet minimum graduation requirements;
2. At least 2/3 of the upper-division (300-400) units in the proposed course of study remain to be completed at the time the application is submitted for approval; and
3. The GPA in the current major is 2.0 or better. A higher grade-point average may be required if the major department in the Interdisciplinary Studies program of study is impacted or requires a higher GPA for transfer students.
4. An Interdisciplinary Studies program must be justified by legitimate career, academic, and/or professional goals commensurate with the broader mission of the University in baccalaureate education. Interdisciplinary Studies majors are considered on a case-by-case basis. Approval is determined on the basis of the academic merit of the proposed course of study, the proposal rationale, the applicant's potential for successful completion of the program, the potential application of the resulting degree, and the ability of the University to support the proposed program. It is the student's responsibility to provide a clear written statement of the goals for his or her program of study, and the reasons these goals cannot be accomplished using an existing major, or combination of major and other available programs, and or concentrations of course work.

### Procedures

1. To prepare for the initial interview:
  - A. Review the CSULB Catalog Interdisciplinary Studies Program requirements.

- B. Meet with the ISP Director and consider your reasons for deciding on an Interdisciplinary Studies Program major; including why a traditional major, double major, major and a minor, or other conventional educational pathway will not suffice. Discuss with the ISP Director what Disciplines/Departments you are interested in combining, and explain how this combination will:
- 1) Enhance your goals and objectives during your college education;
  - 2) Impact your career goals and objectives;
  - 3) Provide you with an opportunity to obtain skills and knowledge not otherwise available at CSULB through conventional programs and degree options.
2. Meet with the Department's Undergraduate Advisor, or in the absence of a Department Undergraduate advisor meet with the department chair from each prospective department to be included in the ISP special major. With the guidance of these individuals, create a tentative program of study, subject to the Director of ISP's approval.
  3. Draft a program of study with the assistance of the undergraduate advisors and/or chairs of the various departments you wish to combine. Arrange a meeting with the Department Undergraduate Advisor and the Department Chair of each of the departments you will be including in your program of study. With their guidance develop a list of courses (a program of study) that will constitute your special studies degree program. Once approved and signed by both the Department Undergraduate Advisors and Department Chairpersons, any subsequent change in this program of study will require the approval of the Department Undergraduate Advisors and the Director of ISP. Changes must be made using the official Program Addendum forms.
  4. Draft a three-to-four page proposal essay outlining the program of study you have created. State what you foresee will be the length of time you will need to complete your degree. Explain why no existing degree will assist you in terms of achieving your intended goals or propelling your future career.
  5. Return your program of study with all signatures to the Interdisciplinary Studies Director, along with your typed interdisciplinary studies proposal. Completed programs must be approved by the Interdisciplinary Studies Director and will be filed in the Interdisciplinary Studies Office and the Records Office. Be advised that pending final approval of your interdisciplinary studies program, you should proceed with the course work for your previously declared major or with General Education and elective courses. You should delay taking courses that will count only toward the fulfillment of your Interdisciplinary Studies Program until the semester following formal admission into the major. Thus, in the event you are not accepted into the Interdisciplinary Studies program, you will not have impeded your academic progress.
2. An Interdisciplinary Studies Program is based on a thematically cohesive core of classes involving significant work in two or more disciplines. A proposal must accompany the program and be signed by the faculty advisors when the program is submitted to the Interdisciplinary Studies Program Director for approval.
3. Interdisciplinary courses (1) taken to satisfy General Education requirements may be double-counted to meet Interdisciplinary Studies Program unit requirements, if the program consists of more than 48 units of credit.
  4. The maximum amount of course work that may be taken in one department is 60% of the total course work designated for the program.
  5. Students may need more than four lower-division courses to prepare for the upper-division courses in their major. However, no more than four of these lower-division courses will be counted in the official program.
  6. Students must maintain a 2.0 or better GPA in their program course work in order to remain in the major.
  7. Each Program course and prerequisite course must be completed with a grade of 'C' or better.

### Bachelor of Science in Interdisciplinary Studies (code IDSCBS01) (124 units)

The Interdisciplinary Studies major for the bachelor of science degree allows selected students to engage in an individualized baccalaureate program when legitimate academic and/or professional goals cannot be accommodated by existing academic programs or combinations of such programs (i.e., majors, minors, certificates). Acceptance into the ISP program is a privilege and not a right of CSULB students. Interdisciplinary Studies consists of a closely correlated program of study in two or more departments developed in conference with faculty members from the respective departments who have the academic and professional expertise necessary to support the individualized course of study.

The Interdisciplinary Studies Program major is not a means of bypassing normal graduation requirements nor a means by which students may seek to graduate who have failed to gain admission to impacted programs or to complete a degree major in which they are currently enrolled. Consequently, a candidate must apply for approval of an Interdisciplinary Studies Program major when:

1. At least one full year of academic work (30 units) remains to be completed to meet minimum graduation requirements.
2. At least 2/3 of the upper-division (300-400) units in the proposed course of study remain to be completed at the time the application is submitted for approval.
3. The GPA in the current major is 2.0 or better. A higher grade-point average may be required if the major department in the Interdisciplinary Studies program of study is impacted or requires a higher GPA for transfer students.
4. The GPA in the current major is 2.0 or better. A higher grade-point average may be required if the major department in the Interdisciplinary Studies program of study is impacted or requires a higher GPA for transfer students.

#### Requirements

1. An interdisciplinary studies major consists of a maximum of four lower-division courses (100-200) and a minimum of 28 units of upper-division courses (300-400) totaling a minimum of 40 units in the program.

5. An Interdisciplinary Studies program must be justified by legitimate career, academic, and/or professional goals commensurate with the broader mission of the University in baccalaureate education. Interdisciplinary Studies majors are considered on a case-by-case basis. Approval is determined on the basis of the academic merit of the proposed course of study, the proposal rationale, the applicant's potential for successful completion of the program, the potential application of the resulting degree, and the ability of the University to support the proposed program. It is the student's responsibility to provide a clear written statement of the goals for his or her program of study, and the reasons these goals cannot be accomplished using an existing major, or combination of major and other available programs, and or concentrations of course work.

#### Procedures

1. To prepare for the initial interview:
  - A. Review the CSULB *Catalog* Interdisciplinary Studies Program requirements.
  - B. Meet with the ISP Director and discuss your reasons for deciding on an Interdisciplinary Studies Program major; including why a traditional major double major, major and a minor, or other conventional educational pathway will not suffice. Discuss with the ISP Director what Disciplines/Departments you are interested in combining, and explain how his combination will:
    - 1) Enhance goals and objectives during your college education;
    - 2) Impact your career goals and objectives;
    - 3) Provide you with an opportunity to obtain skills and knowledge not otherwise available at CSULB through conventional programs and degree options.
2. Meet with the Department's Undergraduate Advisor, or in the absence of a Department Undergraduate Advisor meet with the department chair from each prospective department to be included in the ISP special major. With the guidance of these individuals, create a tentative program of study, subject to the Director of ISP's approval.
3. Draft a program of study with the assistance of the department Undergraduate Advisors and/or chairs of the various departments you wish to combine. Arrange a meeting with the Department Undergraduate Advisor and the Department Chair of each of the departments you will be including in your program of study. With their guidance develop a list of courses (a program of study) that will constitute your special studies degree program. Once approved and signed by both the Department Undergraduate Advisors and Department Chairpersons, any subsequent change in this program of study will require the approval of the Department Undergraduate Advisors and the Director of ISP. Changes must be made using the official Program Addendum forms.
4. Draft a three-to-four page proposal essay outlining the program of study you have created. State what you foresee will be the length of time you will need to complete your degree. Explain why no existing degree will assist you in terms of achieving your intended goals or propelling your future career.

5. Return your program of study with all signatures to the Interdisciplinary Studies Director, along with your typed interdisciplinary studies proposal. Completed programs must be approved by the Interdisciplinary Studies Director and will be filed in the Interdisciplinary Studies Office and the Records Office. Be advised that pending final approval of your interdisciplinary studies program, you should proceed with the course work for your previously declared major or with General Education and elective courses. You should delay taking courses that will count only toward the fulfillment of your Interdisciplinary Studies Program until the semester following formal admission into the major. Thus, in the event you are not accepted into the Interdisciplinary Studies program, you will not have impeded your academic progress.

#### Requirements

1. An Interdisciplinary Studies Program consists of a maximum of four lower-division courses (100-200) and a minimum of 36 units of upper-division courses (300-400) totaling a minimum of 48 units in the program.
2. An Interdisciplinary Studies Program is based on a thematically cohesive core of classes involving significant work in two or more disciplines. A rationale must accompany the program and be signed by the faculty advisors when the program is submitted to the Interdisciplinary Studies Program Director for approval.
3. Interdisciplinary courses (1) taken to satisfy General Education requirements may be double-counted to meet Interdisciplinary Studies Program unit requirements, if the program consists of more than 48 units of credit.
4. The maximum amount of course work that may be taken in one department is 60% of the total course work designated for the program.
5. Students may need more than four lower division courses to prepare for the upper division courses in their major. However, no more than four of these lower division courses will be counted in the official program.
6. Students must maintain a 2.0 or better GPA in their program course work in order to remain in the major.
7. Each Program course and prerequisite course must be completed with a grade of 'C' or better.

#### Master of Arts (code IDSCMA01) and Master of Science (code IDSCMS01) in Interdisciplinary Studies

The Master of Arts or Master of Science degree in Interdisciplinary Studies permits students to earn an interdisciplinary master's degree when their special needs or interests cannot be met by any existing CSULB graduate degree program. The Interdisciplinary Studies master's degree is not a degree divided between or among disciplines, but is a cohesive program of study, which integrates the methodologies, perspectives, and content of two or more disciplines. A master's degree in Interdisciplinary Studies must be justified by legitimate academic goals.

Acceptance of an applicant to an Interdisciplinary Studies master's program is based on such considerations as the academic merit and rationale of the proposed course of study, the applicant's potential for successful completion of a mas-

ter's program, the potential application of the degree towards the applicant's career and educational goals, and the ability of the University to support the proposed study with faculty, curricula, and facilities. Candidates should carefully assess goals before proceeding with this degree. The degree program is administered by the Dean of Graduate Studies through the office of the Interdisciplinary Studies Director, Academic Services, room 125.

### Prerequisites

1. A bachelor's degree from an accredited college or university
2. Submission of any standardized test scores (e.g., GRE, GMAT, etc.) or screening activities required by the identified major discipline, or primary department (Usually the department issuing the Master's).
3. An interdisciplinary master's program requires demonstration of potential for success in each of the disciplines relevant to the proposed degree work. The relevant Department Graduate Advisors, in consultation with the student will determine the appropriate prerequisite courses for each program; these are listed on the Prerequisite Sheet that accompanies the Application for a Master's Degree in Interdisciplinary Studies.
4. Students must meet the required GPA of their identified major discipline in the last 60 units of work completed at an accredited college or university and a 3.0 GPA in all prerequisite course work listed on the Prerequisite Sheet.
5. No more than 9 units of previously completed course work can be included in the program.
6. Students must maintain a 3.0 or better GPA in their program course work in order to remain in the major.

### Acceptance to the Program

Those students who meet all program and University prerequisites for graduate study and whose Interdisciplinary Studies master's programs have been approved by the Interdisciplinary Studies Director will be admitted as Classified graduate students in the Interdisciplinary Studies program. Students who have not met all program and University prerequisites but who demonstrate potential for their successful completion will be encouraged to complete their materials and resubmit during the immediately following full semester.

### Procedures

1. Check our Website: [www.csulb.edu/programs/iisp](http://www.csulb.edu/programs/iisp) to see if you might qualify for an Interdisciplinary Studies Program of study.
2. Make a formal application to the university for admission, and a separate application to the ISP Director.
3. Make an appointment for a preliminary interview with the Director of ISP in room 125 East Library. For this interview, prepare a written proposal three to four pages in length:
  - A. Identifying by title the interdisciplinary program of study in which you wish to engage (i.e., Interdisciplinary Studies Master's Degree in (30-space limit) and description;
  - B. Explaining why this course of study cannot be pursued within one department with electives from other departments;

C. Explaining how this program relates to your educational and career goals;

D. Indicating your background, both academic and experiential, for undertaking this study; and

E. After meeting with the Department Graduate Advisor from each of the relevant departments, develop a program of study of CSULB courses appropriate to your goals.

4. Make a second appointment to meet with the Interdisciplinary Studies Director. Bring your proposal for review and approval. If the proposal is found promising and University facilities can support the proposed program of study, the Interdisciplinary Studies Director will provide you with the forms and guidelines necessary to proceed with application to the program as outlined in item 5 below.
5. Complete the Student Program form for the Masters' Degree in Interdisciplinary Studies provided by the ISP Director, or downloaded from the website. Have each of the Department Graduate Advisors from the relevant departments sign this form indicating their approval of your program of study. Submit the proposal, the Prerequisite Check Sheet for the Master's Degree in Interdisciplinary Studies, the Student Program for the Master's Degree in Interdisciplinary Studies, to the Interdisciplinary Studies Director. These materials constitute the Application for a Master's Degree in Interdisciplinary Studies. These materials are reviewed by the Interdisciplinary Studies Director whose signature on the Student Program for the Master's Degree in Interdisciplinary Studies signals acceptance of an applicant to the program. Subsequent modification of an approved Student Program requires approval of the relevant department graduate advisors, and the Interdisciplinary Studies Director, on an official Change of Program form to be obtained from the Interdisciplinary Studies Director.

### Advancement to Candidacy

Advancement to candidacy is formally approved by the Assistant Vice President for Academic Affairs-Curriculum and Advising, of the Student Program for the Master's Degree in Interdisciplinary Studies. Graduate students are apprised of their advancement or failure to be advanced by the Dean of Graduate Studies. Any modifications to the Student Program after advancement to candidacy require the approval of the Interdisciplinary Studies Graduate Committee, the Interdisciplinary Studies Director, and the Dean of Graduate Studies on an official Addendum to Program form to be obtained from the Interdisciplinary Studies Director. Students must have advanced to candidacy at least one full semester prior to graduation, but should do so sooner.

In addition to university requirements, the student must have completed all program courses with no grade less than "C". Students must have fulfilled the Graduation Writing Assessment Requirement (GWAR) and should make an appointment with the Interdisciplinary Studies Director for Advancement upon completion of at least six units of 500 or 600 level courses.

The Interdisciplinary Studies Director will submit an Interdisciplinary Studies graduate student's program for advancement to candidacy when the following conditions apply:

1. Satisfactory completion of all prerequisite course work with a minimum 3.0 GPA (see item 3 in Prerequisites above) as well as any additional prerequisites (i.e., departmental qualifying exams);
2. Completion of a minimum of six units of graduate-level (500-600) program work with a 3.0 GPA;
3. Fulfillment of the Graduation Writing Assessment Requirement (GWAR);
4. Approval by the Interdisciplinary Studies Director of the completed Application for Thesis and Committee Form for thesis option programs;
5. Resolution of all incomplete grades (I) on the record;
6. A cumulative 3.0 GPA in all completed program work;
7. Current enrollment in University course work.

#### Requirements for the Master of Arts Degree

1. A minimum of 60% of the units required for the degree must come from the "major department" and be in the 500 and 600 level series. The number of units required for the degree shall be the number of units approved on the individual student's program (minimum 30 units).
  - A. No fewer than 18 units shall be at the 500-600 level to complete residency at CSULB. Extension 500-600 level courses are not acceptable on the Interdisciplinary Studies graduate program towards residency;
  - B. No more than 60% of total course work may be taken in any one department;
  - C. Where appropriate, a research methodology course taken in the area of focus must be included in the graduate Student Program;
  - D. No less than 15 units shall be completed within a primary department (The primary department is normally the degree-issuing department);
  - E. Up to six units of approved extension or transfer units may be used in fulfillment of the student's program of study. Nine units of extension credit may be used if all nine have been taken at CSULB. These limits may be increased further for degrees requiring more than 30 units that:
    - 1) at least 24 units have been taken in residence at CSULB; and
    - 2) no graduate student program may use extension or transfer credit to satisfy the requirement that at least 60% of the total units be taken at the 500 and 600 levels.
  - F. No more than three units of independent study in addition to Thesis on a minimum 30-unit program.
    - 1) Exceptions to this regulation are as follows:
      - a) Up to six units of independent study in addition to Thesis may be permitted in a minimum 30-unit program when the projected studies are not to be taken in the same department and when the focus of each projected independent study is clearly distinct from the other (as evidenced on the Independent Study Agreement); forms should be submitted with all other materials constituting the Application for a Master's Degree in Interdisciplinary Studies (see item 3, under Acceptance Procedures above), and when each independent study is justified by the student's graduate committee as programmatically essential;

b) In excess of six units of independent study in addition to Thesis may be permitted only in cases when an Interdisciplinary Studies graduate program exceeds the minimum 30 units; when the focus of each projected study is clearly distinct from any others; and when each study is justified by the student's graduate advisors as programmatically essential. Programs with more than six units of independent study will be referred to the Interdisciplinary Studies Advisory Board for final approval.

2. Successful completion of a Thesis or Comprehensive Exam. The selection of the Thesis or Comprehensive examination option will be made by the student, if such an option is available in the primary department identified in the Graduate Student Program of study. If no option is available, the student will comply with the culminating requirements of the major department.
3. Students electing to write a thesis must enroll for thesis credit in their major department (the primary department identified in their Graduate Student program of study);
4. Students opting to write a thesis must identify a thesis committee by the beginning of their second full semester of graduate study, complete a thesis proposal form, and submit it to the ISP director. The Thesis Committee must include a chair (from the primary department) and at least one representative faculty member from each of the disciplines included in the student's Graduate Program of Study. A thesis committee shall contain no fewer than three members, at least two of which must be tenure-track CSULB faculty. The chair of the committee must be a tenured, or tenure-track faculty member.
5. All requirements of the degree program must be completed within seven years of the date when the program was initiated (i.e., no course on the program at the time of graduation may be more than seven years old).

#### Requirements for the Master of Science Degree

The basic requirements and application procedures for the Master of Science in Interdisciplinary Studies shall be the same as the Master of Arts degree in Interdisciplinary Studies, however, it is frequently a requirement in programs that issue a Masters of Science degree to require a thesis. Students will follow the exit requirements of their major department (their primary department).

**T**he Center for International Education is under the division of Academic Affairs. Its mission is to stimulate, develop and administer programs and services in the international area.

The program priorities of the Center for International Education are as follows:

to strengthen the internationalization of the curriculum, involving the participation of all the University's colleges. Interdisciplinary courses have been developed to further

this goal. The infusion of existing courses with comparative approaches and non-western materials is being encouraged as well as the introduction of a number of issue-oriented international courses and several international studies emphases;

to render all services relating to the admission, counseling, academic life and success of international students attending CSULB;

to develop selective international educational linkages with institutions in other countries;

to assist CSULB students and faculty in participating in overseas opportunities;

### International Admissions

The International Admissions component of the Center for International Education assists academically eligible international students to apply for admission to the University, and advises them of CSULB's financial, immigration and English language requirements. Throughout the students' attendance, the International Admissions staff is involved in their registration, evaluation of transfer credit, changes of majors, and graduation checks. Students are also counseled regarding their field of study requirements, which vary at both the undergraduate and graduate levels. The International Admissions staff coordinates closely with the American Language Institute, International Student Services, Study Abroad Office, administrators, and faculty to support students in pursuing their educational objectives.

### International Student Services

Some 1,400 non-immigrant students, representing almost 90 countries, attend CSULB. The primary mission of International Student Services, a component of the Center for International Education, is to assist these students with their academic, personal, and cultural growth and development during their years at CSULB. This mission is accomplished through professional counseling and advising; assistance with Department of Homeland Security (DHS) regulations, paperwork processing, and documentation; student orientation activities; and assistance with registration. The ISS staff also serves as the University liaison with consulates, embassies, businesses, foundations, and community organizations concerning international students at CSULB.

In addition, the ISS staff works with international students, faculty, and members of the community to encourage and support international programs. International students are encouraged to participate in University and community programs. During the academic year, ISS staff works with the International Student Association, the International Peer Advisors, and the International Community Council of Long Beach to plan and organize cross-cultural events such as the Annual International Dinner and Culture Show, International Faire, and other major events. These groups add a special dimension to student life on campus by hosting various cultural events and providing leadership training opportunities for their members.

## English Proficiency Requirements for Admission

### Undergraduate Applicants

Each undergraduate applicant, regardless of citizenship, whose prior education was in a country where English was not the primary language of social, educational, and business interaction, must demonstrate English competency by receiving a minimum score of 173 on the Test of English as a Foreign Language (TOEFL), unless the applicant:

1. has proof of at least three years attendance at a secondary level educational institution in a country where English was the principal language of instruction.\* CSULB interprets "where English was the principal language of instruction" to mean that a school is located in a country where English is the native language (the daily medium of communication of the majority of residents is English), and that the students receive academic instruction in all subjects (except foreign language courses) at all levels of education in English\*, or
2. completed at least 60 transferable units from accredited U.S. community colleges and/or universities and a grade of "A", "B", or "C" in ENGL 100 or its equivalent\*, or
3. successfully completed CSULB's American Language Institute's Intensive English Program.

EXCEPTION: Applicants applying for Film and Electronic Arts, which requires a 213 TOEFL score, and Journalism, which requires a 250 TOEFL score, will not be waived from the TOEFL requirement.

\* For this exemption to remain valid, once having met the exemption, the student must not have left the U.S.A. for more than two years to reside or study in a country where English is not the predominant language of business, education and day-to-day societal functions.

### Graduate Applicants

Each applicant for graduate or post-baccalaureate studies, regardless of citizenship, whose prior education was in a country where English was not the primary language of social, educational, and business interaction, must demonstrate English competency by receiving a minimum score of 213 on the Test of English as a Foreign Language (TOEFL), unless the applicant:

1. Submits proof of having obtained a bachelor's degree from an accredited post-secondary institution where English was the principal language of instruction.\* CSULB interprets "where English is the principal language of instruction" to mean that a school is located in a country where English is the native language (the daily medium of communication of the majority of residents is English), and the applicant received academic instruction in all subjects (except foreign language courses) at all levels of education in English\*, or
2. Notification from CSULB's American Language Institute that the applicant has successfully completed the American Language Institute's Bridge to the University Program.

EXCEPTION: Applicants applying for Public Policy and Administration, which requires a 250 TOEFL, will not be waived from the TOEFL requirement.

\* For this exemption to remain valid, once having met the exemption, the student must not have left the U.S.A. for more than two years to reside or study in a country where English is not the predominant language of business, education and day-to-day societal functions.

## International Student Admission Requirements

The CSU must assess the academic preparation of foreign students. For this purpose, "foreign students" include those who hold U.S. visas as students, exchange visitors, or in other nonimmigrant classifications.

The CSU uses separate requirements and application filing dates in the admission of foreign students. Verification of English proficiency (see the section on TOEFL Requirement for undergraduate applicants), financial resources, and academic performance are all important considerations for admission.

CSULB encourages eligible international students to apply for undergraduate and graduate level studies. International students are defined as those who hold non-immigrant (student or exchange) visas. Application requests and questions should be directed to International Admissions, which is located in the Center for International Education (BH 201).

International students need to complete a different application process than U.S. students, and there are different application deadlines. The following documents are required:

1. International application form;
2. \$55.00 application processing fee;
3. Affidavit of support from financial sponsor;
4. Bank statement/letter from financial sponsor;
5. Proof of acceptable English proficiency (usually met by the Test of English as a Foreign Language);
6. Official academic documents and certified English translations;
7. ACT or SAT (required for student athletes and graduates of U.S. high schools);
8. GMAT (required for graduate business majors only);
9. Letters of recommendation (graduate level applicants).

Application deadlines vary. Applicants should check with the International Admissions office for deadline dates. Graduate applicants must check with their department for earlier deadlines.

Once all the documents are submitted to the International Admissions Office, eligibility for admission will be determined based on English proficiency and academic history, as well as other considerations. Graduate applications will be forwarded to the graduate departments for review by the graduate coordinators. Once admitted, international students will receive pre-arrival, arrival, and orientation information, and the appropriate immigration form and instructions on how to legally enter and/or remain in the U.S.

The Department of Homeland Security (DHS) requires that international students be aware of and follow DHS regulations to remain legally in the U.S. for the duration of their academic status. International students on "F" and "J" visas must be enrolled as full time students. Courses taken through the University College and Extension Services at CSULB or courses taken concurrently at other colleges nearby may only count toward full time status when approved in advance of course registration by the Center for International Education. Questions about DHS policies may be directed to the Center for International Education.

The Examination in English as a Second Language (EESL) is a placement test required of admitted graduate students

for whom English is a second language. Failure to take the EESL test will result in a registration hold placed on the student's record. Students may also be required to enroll in English as a second language course(s) based on performance on the test. Please contact International Student Services for more information about EESL requirements and exemptions.

### Study Abroad Office

The Study Abroad Office is located in the Center for International Education. Its mission is to assist CSULB students and faculty select and prepare for an educational experience in another country. This office administers exchange programs throughout the world, coordinates the London semester and Florence summer programs, provides advising services, maintains an overseas opportunities resource library, and sponsors special programs such as pre-departure workshops, information seminars, and speakers from off-campus.

### CSU International Programs (IP) System-wide

Developing intercultural communication skills and international understanding among its students is a vital mission of The California State University (CSU). Since its inception in 1963, the CSU International Programs has contributed to this effort by providing qualified students an affordable opportunity to continue their studies abroad for a full academic year. More than 15,000 CSU students have taken advantage of this unique study option.

International Programs participants earn resident academic credit at their CSU campuses while they pursue full-time study at a host university or special study center abroad. The International Programs serves the needs of students in over 100 designated academic majors. Affiliated with more than 70 recognized universities and institutions of higher education in 18 countries, the International Programs also offers a wide selection of study locales and learning environments.

The affiliated institutions are:

Information on academic course offerings available at these locations is in the International Programs Catalog which may be obtained from the Study Abroad Office in the Center for International Education (BH 201) or by writing to The California State University International Programs, 401 Golden Shore, Long Beach, CA 90802-4210 (562) 951-4790.

International Programs pays all tuition and administrative costs for participating California resident students to the same extent that such funds would be expended to support similar costs in California. Participants are responsible for all personal costs, such as transportation, room and board, living expenses, and home campus fees. Financial aid, with the exception of Federal Work-Study, is available to qualified students.

To qualify for admission to the International Programs, students must have upper division or graduate standing at a CSU campus by the time of departure. Students at the sophomore level may, however, participate in the intensive language acquisition programs in France, Germany, and Mexico. California Community Colleges transfer students are eligible to apply directly from their community colleges. Students must also possess a current cumulative GPA of 2.75 or 3.00, depending on the program for which they apply, for all college level work completed at the time of application, and have completed required language or other preparatory study where applicable. Selection is competitive and is based on home campus recommendations and the applicant's academic record. Final selection is made by the Office of International Programs in consultation with a statewide selection committee.

Additional information and application materials may be obtained from the CSULB Center for International Education by calling (562) 985-4106 or by writing to The California State University International Programs, 401 Golden Shore, Sixth Floor, Long Beach, California 90802-4210. Visit us on the World Wide Web at: [www.gateway.calstate.edu/csuienet/](http://www.gateway.calstate.edu/csuienet/).

Applications for the 2005-2006 academic year overseas must be submitted by February 1, 2005 (May 1 for Australia and New Zealand).

## CSULB Exchange Programs

In addition to the CSU International Programs, CSULB has developed exchange programs with outstanding universities in many parts of the world through cooperative linkage agreements. These agreements allow CSULB students to study for a semester or an academic year in a foreign institution while remaining enrolled at CSULB. A wide range of major fields of study may be accommodated in this program. So far, agreements have been signed with institutions in the following countries:

Argentina .....	University of Belgrano
Australia .....	University of Wollongong Deakin University
Austria .....	University of Salzburg
Cambodia .....	University of Phnom Penh
Chile .....	Universidad del Desarrollo
China .....	Beijing Language and Culture University Beijing Normal University, Qingdao University China Criminal Police College Dalian Institute of International Business Liaonig University Nanjing Normal University

For more information and eligibility qualifications, please see the staff in the Study Abroad Office or call them in the Center for International Education at (562) 985-8429.

---

## Courses (INTL)

---

### 400. Upper Division Coursework Taken at a Foreign University (1-4)

Advanced college level coursework completed at a foreign university under the auspices of a CSULB exchange program. Course content is planned in cooperation with CSULB faculty.

### 500. Graduate Level Coursework Taken at a Foreign University (1-4)

Graduate college level coursework completed at a foreign university under the auspices of a CSULB exchange program. Course content is planned in cooperation with CSULB faculty. Letter grade only (A-F).

## English Proficiency Requirements

For students who need English language training prior to enrolling at CSULB, the American Language Institute provides professional instruction in all four language skills: reading, writing, listening and speaking. Conditional admission to CSULB is available for qualified students. PLEASE NOTE: International students are subject to the same Graduation Writing Assessment Requirement (GWAR) and EPT/ELM requirements as are all CSULB students.

---

## Courses (ALI)

---

American Language Institute (ALI) courses are for non-native speakers of English. ALI courses are recommended for international students (students on F1 visas). ALP courses are recommended for all other non-native speakers of English.

### 145. American Language Advanced I (3)

Prerequisite: Non-native speakers who score 137 or below on the English Placement Test, or 500 or below on the Exam in English as a Second Language, and who have not taken equivalent writing courses in another department, are eligible for enrollment in this course. Counts toward elective credit for undergraduates. Does not count toward graduation but does count toward course load credit for graduates. A basic course in writing, offering intensive practice in every stage of the writing process from generating ideas to final proofreading. Reviews and teaches organizational strategies and includes strategies for paragraph and sentence development and for making appropriate word choices. Teaches conventional mechanics, spelling and the grammar of standard edited written English.

### 150. American Language Advanced II (3)

Prerequisite: Non-native speakers who score between 138 through 150 on the English Placement Test, between 501 through 550 on the Exam in English as a Second Language, or successful completion of ALI/ALP 145 with a grade of "C" or better. Counts toward elective credit for undergraduates. Does not count toward graduation but does count toward course load credit for graduates. Includes critical/analytical reading and expository writing with emphasis on longer essays. Analysis and practice of standard rhetorical modes of essay development.

## Bachelor of Arts in International Studies (code I/STBA01) (120 units)

The Bachelor of Arts in International Studies is an interdisciplinary degree program designed to provide a rigorous introduction to the complex interrelationships that exist among societies in the modern world. It combines the study of international relations, global and development issues and contemporary belief systems with a concentration on a major world area. In addition, the degree aims to equip students with the skills in language, analytical thinking, research, and economic literacy that are necessary for graduate study and careers in international fields. Further, students in the International Studies program receive direct exposure to an international environment

by participating in a foreign study program or an internationally related internship in this country. Because it is interdisciplinary, this program emphasizes the ways in which the expertise and methodologies of various disciplines contribute to the understanding and resolution of international issues.

The program provides a broad understanding of international issues and world cultures through exposure to the various methodologies of the social sciences and liberal arts. It offers pre-professional study for careers in government, communications, business, law, journalism, and international non-profit organizations. Students are encouraged to combine a major in International Studies with a second major or minor in a field appropriate to their career plans.

All International Studies majors are required to develop a program of study in consultation with the program advisor. This program should be balanced among the participating disciplines in order to help the student develop a coherent emphasis in a world region and/or a topical area. Majors should choose their foreign language, foreign study or internship experience, and senior seminar research project to reflect this emphasis. The program director also advises about post-graduate study.

### Requirements

A minimum of 45 units in a program approved by the International Studies advisor.

#### Requirements not included in major

*Economic Literacy*: (Units not included in total for major; may be fulfilled as part of General Education): ECON 100, 101; or, with prior permission of the International Studies Advisor, ECON 300.

*Foreign Language*: Three years of college level study or equivalent proficiency in a language appropriate to the program of study and geographic area concentration selected.

#### Major Requirements

Lower Division: (12 units): ANTH 120; HIST 212; GEOG 100 or 160; POSC 215 or 220.

Upper Division: A minimum of 33 units including:

*Cross-Cultural Communication*: 3 units, chosen from: ANTH 412I, 413; COMM 330.

*Basics of International Relations*: Select 6 units from the following: ECON 372; GEOG 470; HIST/I/ST 478; POSC 371, 378, 485.

*Development Studies*: 6 units, selected from: ANTH/GEOG 307I; ECON 465; GEOG 460; H/SC 420I; JOUR 312I; POSC 461I; I/ST 317I, 318I, 319I, 355I; SOC 350; W/ST 401I.

*Contemporary Belief Systems*: 3 units selected from: ANTH 305I; ECON 313; POSC 306; R/ST 383I; SOC 356.

#### *Area Concentration*

Choose 9 units from one of the following six areas:

*Asia*: A/ST 300I, 301I, 310, 495I; ANTH 332, 333, 335; GEOG 314I; HIST 382B, 383B, 384, 385, 386, 407I, 488; POSC 362, 363, 366.

*Latin America*: ANTH 323, 324; GEOG 320I; HIST 364, 462, 463, 466; CHLS 310; POSC 358, 359, 481.

Africa: B/ST 337, 380, 430, 460; GEOG 308I; HIST 391, 392.

North Africa and the Middle East: GEOG 309I; HIST 431; POSC 367; R/ST 331I, 315I.

Eastern Europe/Former Soviet Union: GEOG 318; HIST 341B; POSC 356, 357.

Western Europe: ECON 361I; FREN 440; GEOG 316; GERM 416, 380I, 410; HIST 337, 339, 357, 437; POSC 353; SPAN 430.

*Internship or Foreign Study*: (I/ST 492, 3 units) An internship or foreign study program related to the course of study selected, as approved by major advisor.

*Senior Research Seminar*: (I/ST 490, 3 units) As approved by the director of the International Studies program.

## Minor in International Studies (code I/STUM01)

The Minor in International Studies consists of a minimum of 21 units at least 15 of which must be upper division courses, together with at least two years of college level of study (or equivalent proficiency) in a language (other than English) relevant to the student's program of study in International Studies. No course in the department of a student's major may be used in satisfaction of the unit requirements for this minor except for ECON 100, 101, 300.

### Requirements

**Economic Literacy**: Three units selected from ECON 100, 101 or, with the consent of the International Studies advisor, upper division students may take ECON 300. (Units earned in satisfaction of this requirement may not be counted as part of the unit requirement in the minor.)

**Lower Division**: Six units selected from ANTH 120, HIST 212, GEOG 100 or 160, POSC 215 or 220.

**Upper Division**: Three units selected from the courses grouped under Cross Cultural Communication or from the courses grouped under Contemporary Belief Systems as those groups are defined for the Bachelor of Arts degree in International Studies.

Either six units selected from the courses grouped under Development Studies or six units selected from the courses grouped under Basics of International Relations as those groups are defined for the Bachelor of Arts degree in International Studies.

Six units selected from one of the geographic Area Concentrations defined for the Bachelor of Arts degree in International Studies.

### Courses (I/ST)

General Education Foundation must be completed prior to taking any upper division course except upper division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

#### 317I. Problems in International Social Conflict (3)

Prerequisites: Completion of the G.E. Foundation, one Explorations course, and upper division standing. An interdisciplinary, social-scientific analysis of the causes, human costs, and possible remedies of social conflict in the world today. Topics may include ethnocentrism, nationalism, globalization, trade and aid, economic development, poverty and inequality, the environment, war and civil unrest, and ideological, ethnic, gender, and religious conflict. Special attention to the spread of democracy, the emergence of global social movements, and new forms of civil society and social solidarity. Letter grade only (A-F). Same course as SOC 317.

#### 318I. Cases in International Social Conflict (3)

Prerequisites: Completion of the G.E. Foundation, one Explorations course, and upper division standing. An interdisciplinary, social-scientific analysis of the causes, human costs, and possible remedies of social conflict in the world today. Case studies will consider factors such as globalization; technology; economic development; trade and aid; population growth; immigration; ideological, religious, ethnic and gender conflicts;

war and civil unrest. Special attention to human rights, democratization, global citizenship, and environmental sustainability. Letter grade only (A-F). Same course as SOC 318.

#### 319I. International Development (3)

Prerequisites: Completion of the G.E. Foundation, one Explorations course, upper-division standing. Explores the nature of social, political, and economic development, as well as alternative developmental models. Assesses theories of development, including modernization, diffusion, dependency, and world systems. Compares and contrasts the historical and contemporary experiences of Europe, the U.S., and other "developed" areas of the world with the economic, social, and political challenges facing the governments and peoples of Asia, Africa, Latin America, and other "developing" regions. Same course as GEOG 319I.

#### 355I. International Environmental Issues (3)

Prerequisites: Completion of the GE Foundation, one Explorations course, and upper division standing. Examines the deterioration, destruction, maintenance and restoration of environmental systems and resources. Identifies and analyzes major environmental problems that have international dimensions. Investigates ongoing and potential efforts to resolve them. Same course as GEOG 355I.

#### 451. International Women's Movements (3)

Prerequisite: Consent of instructor. This course provides discussion of global women's movements and the issues they address. Issues include women and violence, war and militarism, economic and political inequalities, environment and development, labor issues, international tourism, global sex work and trafficking of women (Thailand). Case studies include Gabriela (Philippines) and Global Alliance Against Trafficking of Women (Thailand). The seminar format course will examine movements and issues through the reading of recent literature, and the writing of short essays based on readings. Requirements include in-class preparations, a course portfolio of short essays, and a term paper. Letter grade only (A-F).

#### 478. Foreign Relations of the U.S. (3)

The course incorporates a global perspective and considers the influence of such issues as domestic politics, bureaucratic rivalry and decision-making, economics, ideology, race, and the role of special interest groups on the making of foreign policy. Same course as HIST 478.

#### 490. Senior Research Seminar in International Studies (3)

Prerequisites: Senior status; consent of the International Studies advisor and instructor. Capstone research seminar primarily for senior-year International Studies majors. Classroom preparation for directed research by students on a topic of their choice integrating international economics, international politics, cross-cultural communication, development studies, contemporary belief systems, language skills, and a geographic area. Letter grade only (A-F).

#### 492. International Studies Internship/Foreign Study (3)

Prerequisites: Consent of I/ST advisor; completion of a minimum of 15 upper division units required for the major in International Studies. Internship with private organizations and governmental agencies with an international focus, international companies located in the US or abroad. A Study Abroad program with CSULB or other reputable university also meets this requirement. Work done under the joint supervision of the program sponsor and CSULB International Studies faculty. A final report is required. Credit grading only.

#### 493. Special Topics (1-6)

Prerequisite: Consent of instructor. Analysis of contemporary issues and problems in International Studies. Topics to be announced in the *Schedule of Classes*. Both grading options.

#### 499. Directed Studies (1-3)

Prerequisite: Consent of instructor. Individually directed studies of special problems in International Studies. May be repeated to a maximum of 6 units with consent of program director. May not be credited toward the major in International Studies without written department consent in advance of enrollment. Supervised. course. Letter grade only (A-F).

For all degree requirements see Business Administration.

## Courses (IS)

### Lower Division

#### 233. Introduction to Computer Systems and Applications (3)

An introduction to the use of the Internet and e-mail, Windows, word processing, spreadsheet, and database applications; basic computer literacy. Credit/No Credit grading only.

### Upper Division

#### 300. Management Information Systems (3)

Information systems concepts and components, contemporary organizational applications, development and management of information systems, and future trends in information systems and technologies. Computer-based team projects requiring the integration and application of conceptual and skills-oriented information systems knowledge in a business environment. Letter grade only (A-F).

#### 301. Business Communications (3)

Analysis of the principles of collecting, organizing, analyzing, and presenting business information. Written and oral communications involving problem solving in the business management process. Letter grade only (A-F).

#### 308. Knowledge Management (3)

Prerequisites: Completion of GE Foundation requirements. A broad introduction to the concepts, methods and practices of knowledge management. Information systems and management concepts are used to create workplace environments that encourage learning, innovation and positive change. Hands-on project requiring teamwork and community service. Letter grade only (A-F).

#### 310. Business Statistics (3)

Prerequisites: MATH 114. Application of statistics to business problems. Topics include data collection and organization, probability theory, measures of central tendency and dispersion, hypothesis testing and estimation, simple regression, and correlation. Use of statistical software. Letter grade only (A-F)

#### 320. Quantitative Analysis for Business Decisions (3)

Prerequisite: IS 310. Application of quantitative analysis and computer software for solving business problems. Topics include linear programming, integer programming, PERT and CPM, inventory control, queuing models, quality control, number basis, transportation and assignment models, and simulation. Use of computer software. Letter grade only (A-F).

#### 340. Business Application Programming (3)

Prerequisites: I S 300. Visual programming systems. Object-oriented programming (OOP). Simple concepts to advanced topics, including labels, buttons and text boxes, menus, dialog boxes and multiple forms, arrays, and drag-and-drop functions. Letter grade only (A-F).

#### 343. Business Programming (3)

Prerequisites: I S 300. This course introduces students to business computer programming. The C++ programming language will be used to familiarize the student with proper programming style and practice. Letter grade only (A-F).

#### 355. Introduction to Business Telecommunications (3)

Prerequisites: I S 300. Introduction to concepts and technology of telecommunications and networking in business and organizations. Basics of voice, data, image, and video transmission; fundamental of networking; use of Internet technology; telecommunication regulation and standards. Letter grade only (A-F).

#### 380. Database I (3)

Prerequisites: I S 300. Introduction to database requirements analysis and specification. SQL query formulation. Database implementation using relational database management system software, such as Oracle. Design of computerized business forms and reports. Letter grade only (A-F).

#### 385. Systems Analysis and Design (3)

Prerequisites: I S 300. Broad introduction to the concepts, methods, current and emerging practices of systems analysis and design. Topics include development process models, requirements analysis and system modeling, conceptual and physical design, systems implementation and maintenance, project management and teamwork, and the roles and responsibilities of systems analysts. Letter grade only (A-F).

#### 445. Internet Applications in Business (3)

Prerequisites: IS 301, 343. Design, management, and applications of Internet-based electronic business transaction systems. Special emphasis on Web home page design. Internet applications in functional areas including accounting, finance, marketing, and management. Intranet and groupware. Lecture, hands-on, software project, and case studies. Letter grade only (A-F).

#### 446. Web Development and User Interface Design (3)

Prerequisites: I S 301, 343. Theory and applications of Web page and user interface design using development tools such as Adobe Photoshop/Illustrator and FRONT PAGE HTML editor. Other issues such as Internet business opportunities, network security, home page maintenance, and cooperative computing will also be covered. Letter grade only (A-F).

### 455. Local Area Networks (3)

Prerequisites: IS 301, 355. Technology and system development of local area networks. Network requirement analysis, design, implementation, and operation from user and network administrator perspectives. Network server management, wide area network and Internet connectivity, and network security and control. Letter grade only (A-F).

### 456. Systems Integration and Security (3)

Prerequisites: IS 301, 355. Technology, application, operating system, infrastructure, and systems integration in internetworking and enterprise networking. Topics include interoperability, mobile system, multimedia, distributed and collaborative system, network management, fault tolerance, security and middleware, etc. Case studies and hands-on are employed. Letter grade only (A-F).

### 464./564. Network Modeling and Simulation (3)

Prerequisites: IS 301, 310, 355. Fundamentals of simulation methodology and its use in performance measurement and feasibility study of business models of real systems. Topics include: basic probability distributions, random number generation, model formulation, evaluating results, validations, waiting-line simulation, network fundamental, and computer network performance measurement via simulation, and use of computer software simulation packages. Letter grade only (A-F).

### 470. Decision Support Systems (3)

Prerequisites: IS 301, 310, 380. Use of information systems technologies to support decision making by managers. Emphasis is given to individual and group decision support systems, expert systems, and executive information systems.

### 480. Advanced Database Concepts (3)

Prerequisite: IS 301, 380. Advanced approaches such as object oriented, data warehousing, and client/server methods to database applications and development. Use of entity-relationship analysis to identify objects. Development of relational database systems for a business. Application software development project using cutting-edge database technology. Letter grade only (A-F).

### 483. Business Applications Using Java (3)

Prerequisites: IS 300, 301. This course is designed to deal with opportunities and challenges in developing the information superhighway. The features, tools and languages of the Web will be learned and its services assessed. The course will discuss how an organization develops new functions, new ways of reaching customers, and their impacts to the society. The focus will include: 1) getting students familiar with the tools and technologies underpinning networking; and 2) identifying and evaluating opportunities emerging in electronic business. Letter grade only (A-F).

### 484. Electronic Commerce (3)

Prerequisites: IS 300, 301. Although in its early infancy, Electronic Commerce is widely expected to bring comprehensive changes to life style and business transactions in the forthcoming decade with continuing technological breakthroughs. This course is to introduce some emerging concepts and practices in the field of on-line commerce via the Internet, which are shaping both consumer behaviors and business systems. Letter grade only (A-F).

### 485. Information Systems Project (3)

Prerequisite: IS 301, 380. A comprehensive systems project of moderate complexity for a client-server environment using a team approach for requirements analysis, system design, and prototype creation. Project planning and management techniques. Letter grade only (A-F).

### 495. Selected Topics (1-3)

Prerequisites: Consent of instructor and GPA of 3.0 or higher in major, IS 301. Topics of current interest in the field as announced in the *Schedule of Classes*. May be repeated to a maximum of 6 units with different topics.

### \*497. Directed Studies (1-3)

Prerequisites: Consent of instructor and Department Chair; student must be on Dean's List and have a GPA of 3.0 or higher in Management Information Systems. Individual projects, research, or study in the option.

## Graduate Level

### 550. Business Telecommunications Management (3)

Prerequisite: IS 602 or equivalent. Introduction to the technologies and applications of telecommunications and networking. Infrastructure planning and operation of organizational telecommunication networks. Management and control of Internet servers and mobile systems. Telecommunication regulation and standards. Letter grade only (A-F).

### 564./464. Network Modeling and Simulation (3)

Prerequisites: IS 601 and 550. Fundamentals of simulation methodology and its use in performance measurement and feasibility study of business models of real systems. Topics include basic probability distributions, random number generation, model formulation, evaluating results, validations, waiting-line simulation, network fundamental, and computer network performance measurement via simulation, and use of computer software simulation packages. Letter grade only (A-F).

### 580. Management Support Systems and Database Management Systems (3)

Prerequisite: IS 602 or equivalent. Management Support Systems (MSS) with special emphasis on database management techniques. Use of information and database techniques to support management decision making. Topics include individual and group decision support systems, groupware, expert systems, executive information systems, database management systems (DBMS), database analysis and design, database manipulation languages (SQL and QBE), and data warehousing. Hands-on projects on both MSS and DBMS. Letter grade only (A-F).

### 584. Electronic Commerce (3)

Prerequisite: IS 602 or equivalent. A comprehensive managerial-oriented examination of the development of various electronic commerce applications on the internet. Major applications include advertisement and marketing, customer service, stocks and commodities, trading, market and product research and standard business-to-business transactions. EDI implementation issues such as security and payment methods. Letter grade only (A-F).

### 601. Quantitative Methods for Managerial Decision Making (3)

Prerequisite: MBA standing required. Statistical analysis includes probability, estimation, hypothesis testing, forecasting and decision process. Management sciences include quantitative modeling, math programming, decision support systems and simulation applicable to various business functions. Computer software packages will be used as analytical tools. May be repeated to a maximum of 3 units. Letter grade only (A-F).

### 602. Management of Information Systems (3)

Prerequisite: MBA standing required. This course covers topics of management information systems including: foundation and infrastructure of information technology applied to strengthen competitiveness; effective utilization of strategic information systems, telecommunications, system development process, database concepts, electronic commerce, etc. to enhance organizations' operations. Letter grade only (A-F).

### 685. Internet/Intranet Application Development (3)

Prerequisites: IS 602 or equivalent and consent of instructor. Theory and applications of the Internet. Applications development using tools such as HTML and FrontPage. Use and development of Intranet applications in the Client/Server environment. Issues such as Internet business opportunities, network security, home page maintenance, Internet database interface and cooperative computing. Letter grade only (A-F).

### 695. Selected Topics (3)

Prerequisites: Graduate standing and consent of instructor. Topics to be announced in the *Schedule of Classes*. Letter grade only (A-F).

### 697. Directed Studies (1-3)

Prerequisites: Graduate standing and consent of instructor. Individual study under the direction of the faculty. Letter grade only (A-F).

## Minor in Jewish Studies (code HISTUM02)

The Minor in Jewish Studies consists of a minimum of 19 units. Jewish Studies encourages undergraduate students to acquire the academic breadth and depth to comprehend the major issues, themes, and concepts of a culture and heritage that has had a distinct impact on world civilization. The interdisciplinary minor consists of courses in a variety of disciplines, including literature, history, religion, geography, Hebrew language, and politics. Students will expand their understanding of the broader dynamics of the Jewish experience through different eras and geographic settings, both in Israel and the Diaspora.

### Requirements

1. Required core courses: HEBW 101A, HIST 369, R/ST 314;
2. Three units from the following elective courses: CWL 342, HIST 431, R/ST 311;
3. Six units from the following elective courses: GEOG 309I; HIST 304, 432, 389; POSC 367; R/ST 315.

## Bachelor of Arts in Modern Jewish Studies (code COLABA01)

The Consortial Bachelor of Arts in Modern Jewish Studies is an interdisciplinary major that consists of courses in a variety of disciplines, including literature, history, religion, geography, Hebrew Language, and politics. It will be taught in residence at CSULB when courses are available. When CSULB does not offer courses, they will be supplemented by a variety of distance-learning modalities offered through other CSU campuses.

Students will gain an understanding of Jewish civilizations as the result of interactions of Jewish culture, history, and religion within both societies where Jews have been the dominant majority (the first two Jewish commonwealths and modern Israel) and the minority. Students will explore the constants and diversity of the Jewish experience in different eras and geographical settings. They will be able to define the parameters of the Diaspora and its significance on both Jewish and non-Jewish life. They will understand the significant Jewish beliefs, ethics, philosophies, and religious texts. Students will comprehend the place and role of Israel and Zionism in Jewish life, politics, culture, and religion. They will understand the history of the Holocaust/Shoah and its impact on both the Jewish and non-Jewish worldviews. Students will also gain a basic comprehension of and proficiency in Hebrew.

### Requirements

A minimum of 43 units.

#### Core

Minimum 37 units. Introductory course (3 units) being developed; Language (4 units) Hebrew 101A, 101B, Culture and Society (9 units) C/LT 346, C/LT 349, course from other CSU campuses; History area (9 units) chosen from HIST 304, 369, 431, 432; Religion and Thought

The Department of Journalism offers undergraduate curricula in journalism and public relations. The Bachelor of Arts in Journalism is intended to educate for beginning competency and continued professional growth and achievement.

The Department of Journalism's curriculum embraces the current best practices in journalism education, including media convergence and the ability of advisers and students to craft meaningful, individualized programs. The departmental program is offered in a context of a broad liberal education that emphasizes liberal arts and sciences. These traditional areas remain the solid basis of professional education in journalism and mass communication here and elsewhere. The Department of Journalism is an institutional member of the Association of Schools of Journalism and Mass Communication.

Courses in the department prepare students to be newspaper or magazine writers, reporters and editors; photojournalists; internet, radio or television reporters and editors; and public relations practitioners in corporate, agency and public sectors of the economy.

Students should get in touch with the Department of Journalism office for referral to an appropriate faculty adviser for developing a study plan.

The Department of Journalism houses the campus newspaper, the *Daily Forty-Niner*, which serves a campus community of more than 33,000 students, the university faculty and staff and other constituencies. Also housed in the Department of Journalism are *Dig* magazine, *Online Forty-Niner*, *Dig Online*, and *Summer Forty-Niner*.

Broadcast journalism students work at KKJZ-FM 88, which is heard throughout southern Los Angeles County and northern Orange County. Students also work with Advanced Media Productions to produce a weekly cable television program. Advanced students are strongly encouraged to participate in the Department of Journalism's internship program. Within the limits of its resources, the department helps graduating seniors and alumni find professional positions.

## Bachelor of Arts in Journalism (code JOURBA08) (120 units)

### General Requirements

#### Computer Prerequisites to Entering Journalism Classes

All students entering journalism production classes must be familiar with at least one established word-processing program of the level of at least 40 words per minute.

#### Professional Skills

JOUR 120 and 311 are the basic writing and reporting courses for journalism, and are prerequisites for most upper-division skills courses in the department.

#### Residency Requirements

Transfer students must complete at least 50 percent of their upper-division journalism units at CSULB. Journalism courses

taken on another campus may not be substituted for CSULB journalism courses without the approval of the CSULB Department of Journalism.

#### Distribution of Units

Journalism majors may apply no more than 40 units of journalism courses toward the 120 units required for the degree of Bachelor of Arts. A minimum of 65 units must be in the traditional liberal arts and sciences – courses offered by the Colleges of Liberal Arts and the College of Natural Sciences and Mathematics.

With a minimum of 65 units of liberal arts, Journalism majors may elect up to 15 units outside journalism and liberal arts and sciences in courses that fall into other categories. Often these are in areas such as business, the arts or health. No more than 15 units in such areas may count toward the 120 units required for graduation. Students should meet with a journalism adviser before declaring the major, the minor or a minor concentration.

Journalism majors are required to have a minor or a minor concentration. Each CSULB department defines its own minor, and these vary between 18 and 24 units. The minor concentration is composed of 15 units, usually two lower-division and three upper-division courses, and it is selected in consultation with a journalism adviser.

Students interested in pursuing the Single-Subject Credential in English/Journalism should consult the teaching credential adviser in the Department of English.

#### Specific Requirements

This degree program requires a minimum of 33 and a maximum of 40 units in the major, of which six are lower division and 27 to 33 are upper division.

Lower Division: JOUR 110 and 120.

Upper Division: JOUR 311, 430, 431, 495, two courses chosen from among 312I, 315, 370, 412, 415, 418 and 494 and three courses chosen from among 300, 305, 316, 320, 321, 331, 340, 374, 380, 382, 420, 422, 424, 440, 471, 478, 480 and 482. In addition, students may take up to five additional units chosen from either of the preceding two lists and/or JOUR 490, 498 and 499.

In addition to the "C" average in the overall major and the "C" average in the upper division major at CSULB, both of which are required by the University, journalism majors must earn a "C" or better in each of these core courses: JOUR 110, 120, 311, 430, 431 and 495.

#### FOUR-YEAR PLAN TO COMPLETE THE B.A. in JOURNALISM (JOURBA08)

120 Units Required		Department of Journalism	
<b>Semester 1</b>		<b>Semester 2</b>	
University 100	1	Oral Comm or Composition	3
Composition or Oral Comm	3	GE Math or other GE Class <sup>3</sup> (or 4)	3
GE Math or other GE Class	3 (or 4)	Critical Thinking or other GE	3
GE Class	3	JOUR 110	3
GE Class	3	GE Class	3
Elective Class	1-3		
TOTAL UNITS	14-16	TOTAL UNITS	15-16

<b>Semester 3</b>		<b>Semester 4</b>	
Critical Thinking or other GE	3	Minor/Minor Concentration Class	3 (or 4)
JOUR 120	3	GE Class	3 (or 4)
GE Class	3 (or 4)	GE Class	3
GE Class	3	GE Class	3
Elective Class	3	Elective Class	3
TOTAL UNITS	15-16	TOTAL UNITS	15-17

<b>Semester 5</b>		<b>Semester 6</b>	
JOUR 311	3	JOUR 430	3
Major Elective	3	Major Elective	3
Minor/Minor Concentration Class	3	Minor/Minor Concentration Class	3
GE Capstone Class*	3	GE Capstone Class*	3
Elective Class	3	Elective Class	3
TOTAL UNITS	15	TOTAL UNITS	15

<b>Semester 7</b>		<b>Semester 8</b>	
JOUR 431	3	JOUR 495	3
Major Elective	3	Major Elective	3
Minor/Minor Concentration Class	3	Major Elective	3
GE Capstone Class*	3	Minor/Minor Concentration Class	3
Elective Class	3	Elective Class	3
TOTAL UNITS	15	TOTAL UNITS	15

\* GE Interdisciplinary Capstone may count in GE and major if selected

Some courses used to meet minor/minor concentration classes may also be used to meet GE requirements.

Journalism majors may apply no more than 40 units of journalism courses toward the 120 units required for the degree.

A minimum of 65 units must be in the traditional liberal arts and sciences. Majors are required to have a minor or minor concentration of at least 15 units. (2 lower division and 3 upper division classes).

#### FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

#### I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

### **Must I take the courses in the semesters shown on the plan?**

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

- 1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.
- 2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.
- 3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).
- 4) You must complete all requirements for admission to impacted majors within the first 60 units.

### **I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?**

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

### **I didn't complete the exact list of courses shown. Can I still graduate on time?**

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

### **If I follow the plan, will I have all requirements for graduation completed?**

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

## **Minor in Journalism (code JOURUM01)**

A minimum of 21 units including: JOUR 110, 120, 311, 430 and 431.

## **Courses (JOUR)**

### **Lower Division**

#### **110. Introduction to Mass Communications (3)**

Prerequisites/Corequisites: One GE Foundation Course. Origins, development and contemporary role of newspapers, magazines, radio, television, books, and films, and such related fields as advertising and public relations. (Lec, discussion 3 hrs.) (CAN JOUR 4)

#### **120. Writing Across the Media (3)**

Basic skills needed to write for the mass media and for public relations clients. The media industry is changing, and with these changes media professionals must be able to communicate using writing techniques and styles appropriate for different media. This course provides an introductory overview on news gathering and writing techniques used in the print media, in broadcast media, in online media and in preparation of materials for media professionals by public relations practitioners. The focus is on developing the ability to write news stories and to meet deadlines. The course includes a study of news sources, reporting and interviewing methods, law, ethics and responsibilities of the reporter. A grade of 'C' or better is needed to pass this course. Letter grade only (A-F). Lecture 2 hours, Laboratory 2 hours. (CAN JOUR 2)

### **Upper Division**

General Education Category A must be completed prior to taking any upper division course except upper division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

#### **300. Beginning Photojournalism (3)**

Techniques of photojournalism for newspapers, magazines, corporate communications and Public Relations. Course covers types of photos needed for all aspects of editorial photography, including lighting, use of filters, working with subjects and the photo picture page. Hands-on projects give students an opportunity to develop skills. \$30.00 materials fee for those using university supplies. (Lectures, demonstrations and practical assignments.) Letter grade only (A-F). Lecture 2 hours, Laboratory 2 hours.

#### **305. Media Design (3)**

Prerequisite: JOUR 120 with a grade of 'C' or better or consent of instructor. Designed to give students experience in the design of printed materials. Examines theories, principles and techniques of contemporary page design, especially of newspapers and magazines. Covers the historical roots of publication design and acquaints students with the use of photographs, illustrations, graphs, type and color in visual communication. Students gain hands-on experience with Macintosh computers and produce prototype-newspaper and magazine pages. Letter grade only (A-F). Lecture two hours, Laboratory 2 hours.

#### **311. Reporting and Information Gathering (3)**

Prerequisite: JOUR 120 with a grade of 'C' or better. Teaches students how to report, gather, process and transform information into meaningful messages. Students learn how to search for answers, critically analyze results, interpret what they find and communicate their conclusions to an audience in a meaningful form. They are introduced to the analytical process of organizing a search strategy and the hands-on search itself, which involves seeking sources in libraries public databases and personal interviews. The course includes instruction on media writing and editing skills. A grade of 'C' or better is needed to pass this course. Letter grade only (A-F). Lecture 2 hours, Laboratory 2 hours.

#### **312I. Global News Media (3)**

Prerequisites: Completion of the GE Foundation, one or more Explorations courses, and upper-division standing. An analysis of the world's news media with an emphasis on their structure, ownership, social and political roles, and the degree of government pressure and control. Particular attention is paid to economic, political and mass media globalization, and its effects on developing countries. Letter grade only (A-F).

### 315. Journalism as Literature (3)

Prerequisites: Completion of the G.E. Foundation, one or more Explorations courses, and upper-division standing. Set criteria for defining journalism and literature. Examines great journalistic work of the last 2,000 years, from Plato and Julius Caesar to Addison, Steele and Swift, through Twain, Stephen Crane, Mencken and Camus, to E. B. White, Updike, Didion and Tom Wolfe which have earned a place in literature.

### 316. Feature Writing (3)

Prerequisite: JOUR 120 with a grade of 'C' or better or consent of instructor. Feature writing covers the feature article for both newspapers and magazines. Discusses style, organization, human interest, use of quotes, leads and article ideas. Emphasis is on clear readable prose. Publishable articles may be submitted to the *Daily Forty-Niner* or *Dig Magazine*. Letter grade only (A-F). Lecture 2 hours, Laboratory 2 hours.

### 319A. News Reporting (3)

Course focuses on news reporting and writing, including study of different types of stories. Students work as staff writers on *Daily Forty-Niner* or *University Magazine*. Course may not be taken concurrently with JOUR 319B or JOUR 422. Letter grade only (A-F).

### 319B. Advanced Publication Writing and Reporting (3)

Course focuses on news reporting and writing, including study of different types of stories. Students work as staff writers on *Daily Forty-Niner* or *University Magazine*. Course may not be taken concurrently with JOUR 319A or JOUR 422. (Activity/Laboratory 9 hours) Letter grade only (A-F).

### 320. Reporting Public Affairs (3)

Prerequisite: JOUR 120 with a grade of 'C' or better or consent of instructor. News coverage of police, courts and city, county, state and Federal government. Study and practice in methods of investigate reporting. Letter grade only (A-F). Lecture 2 hours, Laboratory 2 hours.

### 321. Introduction to Broadcast Writing (3)

Prerequisite: "C" or better in JOUR 120. Teaches students broadcast news writing, reporting and production techniques. Students identify the differences between feature, hard news and profile stories. Students learn how to write a variety of balanced broadcast news story forms including on-cameras, voice-overs, voice-overs/sound-on-tape and package reports in detailed script format. Students learn how to select compelling visuals and sound bytes. They are also introduced to broadcast news values and selection criteria as well as resources available for education and assistance on the techniques and concepts they learned. Ethical, diversity and professional standards exercises are incorporated into the class. (Letter grade only (A-F). Lecture two hours, Laboratory 2 hours.)

### 324A,B. Photography for Publication (3,3)

Prerequisites: JOUR 120 and 300 (with a grade of "B" or better), or consent of instructor. Students with qualifying photo skills will comprise staff of the *Daily Forty-Niner* newspaper and *University Magazine*. Staffers will be responsible for photographic coverage of campus news and feature events for daily and special edition use. Photographers will practice techniques of newspaper photography through assigned stories as well as personally developed enterprise stories. Individual approach and skills are assessed daily, with staff efforts analyzed at weekly photo conference. Students must provide own camera. Course fee may be required. (Laboratory 6 hours)

### 325. Radio News Writing and Reporting (3)

Prerequisites: JOUR120 with a grade of "C" or better or consent of instructor. Techniques for information gathering, scripting, and selecting actualities for news and feature stories. Emphasis is on radio news writing.

### 331. Publication Editing and Makeup (3)

Prerequisite: JOUR 311 (may be taken concurrently). Study of methods in newspaper and magazine production and practice in preparing copy for periodical publication, including editing, proofreading, headline writing, using photographs and other display materials, handling news service copy, legal problems, ethical issues and page design. Letter grade only (A-F). Lecture 2 hours, Laboratory 2 hours.

### 340. Introduction to Online Journalism (3)

Corequisite: JOUR 120 with a grade of 'C' or better or consent of instructor. An introduction to the internet and the World Wide Web from the perspective of online journalism. Course will provide an introduction to the basics of online publishing and writing, and students will work with the tools and technologies available to create their own websites and will begin to write content for the online environment. Individual and group projects will include all stages in developing information websites. Letter grade only (A-F). Lecture 2 hours, Laboratory 2 hours.

### 370. Principles of Public Relations (3)

Public relations fundamentals: research, planning, communication and evaluation. Study of targeting special publics, the use of public relations tools, developing public relations programs and the importance of social responsibility. Letter grade only (A-F).

### 374. Written Communication for Public Relations (3)

Prerequisite: JOUR 370. Students learn to write a wide variety of internal public relations materials, including backgrounders, position papers, proposals, letters, memos, speeches and crisis communications plans. Students develop a crisis communication plan for a non-profit organization and as a service-learning project. Letter grade only (A-F). Lecture 2 hours, Laboratory 2 hours.

### 375. External Communication for Public Relations (3)

Prerequisites: JOUR 120 and 370. Students are exposed to the various techniques used in media relations and learn to write news releases, feature stories, media alerts, pitch letters, biographies, op-ed pieces, captions, and public service announcements. Students develop a comprehensive press kit for a nonprofit organization as a service-learning project.

### 376. Publications for Public Relations (3)

Prerequisites: JOUR 120 and 370. Students learn the theories and principles of layout and design and the most effective writing techniques for an array of publications. Students develop newsletters, brochures, corporate identification systems, advertisements, fliers, and online materials. All publications are created electronically, using various desktop-publishing programs. Students develop a brochure and newsletter for a nonprofit organization as service-learning projects. Letter grade only (A-F).

### 380. Advanced Photojournalism (3)

Prerequisite: JOUR 300 with a grade of 'C' or better or consent of instructor. Photographic reporting with a camera. In-depth study of photojournalism with emphasis on creation of photo story ideas, photo essays and feature photos: photo editing and layout as applied to newspapers and magazines. Course fee may be required. Letter grade only (A-F). Lecture 2 hours, Laboratory 2 hours.

### 382. Radio News Production (3)

Prerequisite: JOUR 321 with a grade of 'C' or better. Reporting, writing and editing news and feature stories for radio news program. Special emphasis is on radio production techniques. Letter-grade only (A-F). Lecture 2 hours, Laboratory 2 hours.

### 412. Theories of Mass Communication (3)

Prerequisites: JOUR 110 or consent of instructor. Contemporary theories of mass communication. An overview of the development of communication theory as it relates to the mass media. Evaluation of theories of the communication process through analysis of the original research upon which the theories were founded. Source, message and audience effects of the communication process. Letter grade only (A-F).

#### 415. Minorities and the Media

An analysis of the issues that pertain to minorities (ethnic, racial, national origin, gender, sexuality, physical and mental ability) and how they intersect with the mass media. Course covers the social, political and cultural implications of the representation of minorities by the mass media. It also discusses multiculturalism, and minority and diversity representation in newsrooms and other mass media companies. Letter grade only (A-F).

#### 418. Media History (3)

This course is intended to give students an overview of the development of the mass media. The course will build on chronological developments and show how events that occurred in the past influence later events. At the same time, the course will show how history develops along many dimensions, with individuals and groups sharing some experiences but many times coming up with very different interpretations of events based on their different pasts and worldviews. We will see how individuals' interpretation of past historical events has an effect on their sense of the present and what should occur in the future. Letter grade only (A-F).

#### 420. Investigative Reporting (3)

Prerequisite: JOUR 311 with a grade of 'C' or better or consent of instructor. Advanced course in investigative and interpretive reporting. Students will work in an editor-reporter relationship with instructor in researching and writing in-depth pieces on such complex issues as mass transit, air pollution, city government, poverty, crime, housing and drug abuse. Computer-assisted research and investigative and interviewing techniques will be stressed. Letter-grade only (A-F). Lecture 2 hours, Laboratory 2 hours.

#### 422. Senior Media Production (1)

Prerequisite: JOUR 120 and consent of Instructor. Required course for Daily Forty-Niner and University Magazine Editors. Credit/No Credit grading only. May be repeated for a maximum of 3 units in different semesters with consent of instructor.

#### 430. Law of Mass Communications (3)

Prerequisite: JOUR 120 with a grade of 'C' or better or consent of instructor. Principles and case studies of the law of the mass media with emphasis on constitutional guarantees, prior restraints, libel, contempt, privacy, taxation, licensing, shield laws, free press vs. fair trial and other laws affecting the news media. A grade of 'C' or better is needed to pass this course. Letter grade only (A-F).

#### 431. Mass Media Ethics (3)

Prerequisite: JOUR 120 with a grade of 'C' or better or consent of instructor. The study of ethical codes and value systems used in writing, producing and presenting news in the United States. Philosophical foundations of moral theory and various approaches to ethical decision making for journalists and other media practitioners. A grade of 'C' or better is needed to pass this course. Letter grade only (A-F).

#### 440. Writing for the Web (3)

Prerequisite: JOUR 120 with a grade of 'C' or better or consent of instructor. Focused on writing content for the Web, this course will help students sharpen their understanding of online journalism and the tools and techniques necessary for online publication. Students will learn and develop skills in computer-assisted reporting methods to conduct online journalistic research. Emphasis will be on generating content for online news, information and entertainment sources. Student will be encouraged to publish their own work both on a class website and in other professional venues. Letter grade only (A-F). Lecture 2 hours, Laboratory 2 hours.

#### 471. Public Relations Management and Campaigns (3)

Prerequisite: JOUR 370 with a grade of 'C' or better. Co-requisite: JOUR 374. This course is designed to acquaint students with the operation of a public relations agency. Students will work with others in an agency situation to develop a business proposal for an actual client involving a formal written plan and oral presentation. Students also serve as a public relations consultant and develop a public relations program for a nonprofit organization as a service-learning project. All assignments are designed to expand the student's skills in public relations problem-solving and critical thinking. Letter grade only (A-F). Lecture 2 hours, Laboratory 2 hours.

#### 478. Public Relations Case Studies (3)

Prerequisites: JOUR 120, 370, and two of the following: JOUR 374, 375, and 376. Case studies are used to acquaint students with the types of problems they will encounter when working in the profit and nonprofit sectors. Strong emphasis is placed on analytic planning, critical thinking, and programmatic skills. Students will develop a research study examining a public relations issue in-depth.

#### 480. Advanced Media Graphics and Photo Editing (3)

Prerequisite: JOUR 331 with a grade of 'C' or better or consent of instructor. Principles of picture selection for newspaper and magazine publication. Emphasis on preparing material – written and visual – for use as single picture or layout presentation. Course fee required. Letter grade only (A-F). Lecture 2 hours, Laboratory 2 hours.

#### 482. Television News Production (3)

Prerequisite: JOUR 321 with a grade of 'C' or better or consent of instructor. Scripting, voicing, shooting and editing news and feature stories for cablecast student program. Special emphasis on videography and editing. Letter grade only (A-F). Lecture 2 hours, Laboratory 2 hours.

#### 490. Special Topics in Mass Communications (1-3)

Topics of special interest in mass communications selected for intensive study. Topics will be announced in the *Schedule of Classes*. May be repeated to a maximum of 6 units.

#### 494. Research Methods in Mass Communications (3)

Prerequisite: Consent of instructor. Basic techniques of research in mass communication and mass media. Overview of theory building and hypothesis testing procedures as applicable to current problems in the mass communication field. Scientific methods, survey and experimental design, field studies, analysis of data. Letter grade only (A-F).

#### 495. Senior Seminar (3)

Prerequisite: JOUR 311 with a grade of 'C' or better or consent of instructor; senior status. Analysis of issues and problems in journalism and mass communication. This seminar for journalism seniors examines theoretical and applied issues related to the media. The material discussed centers on a general theme selected by the instructor. Discussion topics may include international communication, copyright, social responsibility, media ethics, free speech and journalism history, among others. A grade of 'C' or better is needed to pass this course. Letter grade only (A-F).

#### 498. Internship (3)

Prerequisite: For seniors only, by faculty recommendation, with consent of department chair. Work of an editorial or writing nature at least one full day a week with cooperating organization in the Los Angeles-Orange County area. Work at a TV, radio, production or public relations facility. Work edited and evaluated by supervisors of the participating public relations and media firms. Regular reports to faculty supervisor and scheduled meetings with supervisor on-campus to discuss progress and problems. Students should submit internship packet, available from the Department Office, then gain approvals above. Credit/No Credit grading only.

#### 499. Special Projects (1-3)

Prerequisite: Open to journalism major only. Advance approval of instructor; (permit required to enroll). Research in the field of journalism in broadcast, newspaper, magazine, public relations, advertising or other related fields. Students must meet once a week with instructor. May be repeated to a maximum of 6 units with different topics.

### Department Coordinator

Vacant

Students may contact the Department Office for information and referral to the appropriate Faculty Advisor, Undergraduate Coordinator, Graduate Coordinator, or Credential Coordinator.

The Department of Kinesiology's mission is accomplished by providing excellence in instruction, scholarship and service through a multidisciplinary approach that will foster the development and maintenance of behavior that is essential for a healthy lifestyle in ever changing demographics. The Department's programs offer a course of study for students wishing to prepare for professional careers or related disciplines in physical education teaching (Adapted, Elementary, and Secondary), athletic training, fitness-wellness, exercise science, kinesiotherapy, sport psychology and coaching. The programs have been developed from physiological, psychological, biomechanical, and sociological principles. The Department also serves the needs of students completing majors in other fields who find that certain aspects of kinesiology and physical education are important to their professional objectives and personal interests. In meeting the educational needs of these students, the Degrees, Certificates, and Minor available in the Department of Kinesiology include:

- Bachelor of Arts in Kinesiology in four options.
- Bachelor of Science in Kinesiology in four options.
- Master of Arts in Kinesiology in seven options.
- Master of Science in Kinesiology in three options.
- California Single Subject Preliminary Teaching Credential Programs in Physical Education (K-12)
- Adapted Physical Education Specialist Credential (K-12)
- Minor in Physical Education: Single Subject Credential Add-on
- Wilderness Studies Certificate
- Kinesiotherapy Certificate

The Department of Kinesiology, in addition to its Degrees, Certificates, and Minor, assumes the responsibility for the psychological, physiological, and sociological needs and interest of the college student through general education, interdisciplinary, and physical activity course offerings. Students enrolling in physical education activity courses assume responsibility for satisfactory health status appropriate to the class activity.

In addition to the degree requirements for the Bachelor of Arts in Kinesiology and the Bachelor of Science in Kinesiology, the Major must meet the following Department policies and requirements for University graduation:

1. Each major course and prerequisite course must be completed with a grade of "C" or better. A course in which a grade lower than a "C" is received must be retaken and successfully completed prior to enrolling in any course for which it is a prerequisite;
2. Upper division courses may not be waived by substitution or examination without Department petition and approval;

3. Current certification in First Aid (American Red Cross: Community First Aid & Safety or Emergency Response or Workplace Training: Standard First Aid or equivalent) and Cardiopulmonary Resuscitation (American Red Cross: Adult CPR or Adult, Infant & Child CPR or CPR for the Professional Rescuer; American Heart Association: Adult CPR or Adult, Infant & Child CPR or ACLS Provider or equivalent);
4. Department approval.
5. Bachelor degree Majors must also have Department clearance of lower division courses/activities and skill proficiencies.

## Bachelor of Arts in Kinesiology

Students pursuing a Bachelor of Arts degree in Kinesiology must complete lower division and upper division core courses and skill proficiency requirements plus courses in a specific area (Option). Students may select their area of specialization from one of the four Options described below. In meeting the requirements of this degree, the Department offers four specialized Options for study which permit students to develop a conceptual understanding related to human movement and to focus on preparation for one or more specific occupations. The student must demonstrate 1) physical skill proficiency, 2) knowledge of physical fitness, and 3) knowledge in the personal performance activity courses completed according to the lower division core requirements for specific Options prior to graduation. A minimum of 120 units are required for graduation.

### Physical Skill Proficiency

Each Bachelor of Arts Major is required to demonstrate physical skill proficiency at a 3.5 (1-5 scale) overall average level in fitness (KIN 263 or 343) and the personal performance activity courses required in each Option prior to graduation. Physical skill proficiency examinations are administered in the appropriate personal performance activity courses. Only physical skill proficiency scores in the range of a 2.0-5.0 are recorded and computed to determine a student's physical skill proficiency average.

### Option in Athletic Training (code KPE\_BA01) (120 units)

This option is designed for students interested in careers in the prevention/care of athletic injuries and the administration of athletic training programs in public and private schools, colleges, universities, and with professional teams. Students interested in pursuing certification by the National Athletic Trainers Association Board of Certification (NATABOC), should consult the Department Program Director for Athletic Training Education.

The Athletic Training Educational Program (ATEP) is currently in JRC-AT candidacy for CAAHEP Accreditation. Please be aware that candidacy does not guarantee the ATEP accreditation.

## Supplementary Criteria for Admission

In the California State University, an undergraduate major is designated as impacted when the number of applications received the first month of the filing period is greater than the available spaces. Such degree majors are authorized to use a pre-major code and supplementary admission criteria to screen applicants. The Option in Athletic Training is an impacted program and has the following supplementary admission criteria:

To be eligible for admission to the Bachelor of Arts in Kinesiology, Option in Athletic Training, applicants must demonstrate the following prior to the semester for which the application is submitted: Applicants must have met requirements for admission to the university as a freshman or transfer student. Applicants must have completed the following prerequisite courses, each with a grade of "C" or better: BIOL 207, BIOL 208, and PSY 100. Applicants must have completed KIN 207 (Prevention and Care of Athletic Injuries) with a grade of "B" or better. Applicants must have completed a minimum of 150 hours of athletic training experience. At least 100 of these hours must be attained by participation in a traditional athletic training setting under the supervision of a NATABOC-certified athletic trainer. A maximum of 50 of these hours may be attained in an allied clinical setting, such as sports medicine clinics, summer sports camps, sports performance facilities, hospital facilities, or dance performance centers. Applicants must submit a supplemental application to the CSULB Department of Kinesiology by February 1 for the fall semester or by October 1 for the spring semester. The supplemental application is available from the Kinesiology Department Office or the Kinesiology web site (<http://www.csulb.edu/kinesiology>). The supplemental application must be accompanied by 3 letters of recommendation; one letter must be from the athletic training setting noted above. The number of applicants who can be admitted is limited by space availability. Eligible applicants will be selected for admission based on cumulative grade point average.

### Requirements

Lower Division: BIOL 207, 208; PSY 100; KIN 207, 215, 263, and eight physical activity units distributed over a minimum of four activity categories:

*Aquatics:* KIN 125A, 125B, 237, 238;

*Combative:* KIN 106A, 149A;

*Dance:* KIN 185, 260;

*Individual/Dual Sports:* KIN 100A, 112A, 112B, 264, 265, 266, 267, 268;

*Wilderness Studies:* KIN 242, 244, 246A;

*Team Sports:* KIN 250, 253, 255, 257.

Upper Division: KIN 300, 301, 308A, 309, 310, 312, 315, 332I, 335, 363, 407; H SC 427; EDP 434B; Select one course from FCS 430 or H SC 210.

### Option in Adapted Physical Education (code KPE\_BA02) (120 units)

This option is designed for the preparation of students seeking a California Single Subject Preliminary Teaching Credential in Physical Education (K-12) with a specialist credential in adapted physical education. The emphasis is placed upon teaching public school physical education to students with disabilities in preschool through grade 12. The academic and professional course work is designed to provide students with philosophical, theoretical and applied concepts of teaching adapted physical education.

Lower Division: BIOL 207, 208; PSY 100; KIN 149A, 250, 253, 255, 257, 261, 264, 265, 266, 267, 268, 270; Select one course from 237, 238.

Upper Division: KIN 300, 301, 312, 315, 320, 332I, 335, 343, 370, 380, 387, 388, 427, 460.

A fieldwork, field experience or internship course requires current certification in First Aid (American Red Cross: Community First Aid & Safety or Emergency Response or Workplace Training: Standard First Aid or equivalent) and Cardiopulmonary Resuscitation (American Red Cross: Adult CPR or Adult, Infant & Child CPR or CPR for the Professional Rescuer; American Heart Association: Adult CPR or Adult, Infant & Child CPR or ACLS Provider or equivalent) prior to enrollment.

Completion of this option meets Commission on Teacher Credentialing requirements for subject matter competence for the Single Subject Credential in Physical Education. In addition to subject matter competence, prospective teachers must complete professional preparation through the Single Subject Credential Program. Refer to the Single Subject Teacher Education section of the Catalog for details. Note: The Option in Adapted Physical Education is being revised to meet new state standards for subject matter competence for physical education teachers. When the revised program has been approved by the Commission on Teacher Credentialing, the new course requirements for the Option in Adapted Physical Education will be in effect and supersede current requirements.

**FAQ Concerning Road Maps for Completion of Undergraduate Degrees**

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

**I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?**

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

**Must I take the courses in the semesters shown on the plan?**

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

- 1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.
- 2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.
- 3) For some majors it is essential to complete courses in the correct sequence. You must still complete a more advanced course until you have completed the prerequisite course(s).
- 4) You must complete all requirements for admission to impacted majors within the first 60 units.

**I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?**

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

**I didn't complete the exact list of courses shown. Can I still graduate on time?**

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

**If I follow the plan, will I have all requirements for graduation completed?**

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

**Option in Elementary School Physical Education (code KPE\_BA03) (120 units)**

This option is designed for the preparation of students seeking a California Single Subject Preliminary Teaching Credential in Physical Education (K-12). The emphasis is placed upon teaching public school physical education to students in grades K through 6. The academic and professional course work is designed to provide students with philosophical, theoretical and applied concepts of teaching elementary school physical education.

Completion of this option meets the subject matter competence requirement for the Single Subject Preliminary Credential in Physical Education (code 175). In addition to meeting the subject matter competence requirement for the Preliminary Credential, prospective Physical Education teachers are also required to complete 44 units of professional preparation in the Single Subject Credential Program, including student teaching. Students may begin the professional preparation courses as early as the junior year. With careful planning, it is possible to complete all of the credential program courses, except for student teaching, as an undergraduate. Courses may also be completed as post-baccalaureate student. Refer to the Single Subject Teacher Education section of this *Catalog* or the Single Subject Credential Program website ([www.ced.csulb.edu/single-subject](http://www.ced.csulb.edu/single-subject)) for a description of the professional preparation requirements, courses, and application procedures. Prospective students should consult the department's Physical Education Advisor early to plan their program.

*The Physical Education Subject Matter Program is being revised to meet new state standards. When the revised program has been approved by the Commission on Teacher Credentialing, the new course requirements will be in effect and supersede current requirements.*

**Requirements**

Lower Division: BIOL 207, 208; PSY 100; KIN 149A, 250, 253, 255, 257, 261, 264, 265, 266, 267, 268, 270; Select one course from 237, 238.

Upper Division: KIN 300, 301, 312, 315, 320, 332I, 335, 343, 370, 380, 460, 477, 483, FCS 430.

A fieldwork, field experience or internship course requires current certification in First Aid (American Red Cross: Community First Aid & Safety or Emergency Response or Workplace Training: Standard First Aid or equivalent) and Cardiopulmonary Resuscitation (American Red Cross: Adult CPR or Adult, Infant & Child CPR or CPR for the Professional Rescuer; American Heart Association: Adult CPR or Adult, Infant & Child CPR or ACLS Provider or equivalent) prior to enrollment.

## FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

### **I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?**

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

### **Must I take the courses in the semesters shown on the plan?**

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

### **I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?**

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

### **I didn't complete the exact list of courses shown. Can I still graduate on time?**

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

### **If I follow the plan, will I have all requirements for graduation completed?**

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

## Bachelor of Science in Kinesiology

Students pursuing the Bachelor of Science degree in Kinesiology must complete the course requirements and the physical fitness proficiency of each Option. Students may select their area of specialization from the Options described below. These Options develop a student who has an integrated conceptual understanding of the discipline and its relationship to human movement. Each Option focuses on foundation preparation for a specific occupation or graduate work.

### Physical Fitness Proficiency

Each Bachelor of Science Major is required to demonstrate a physical fitness proficiency at the minimum level of a 3.0 before graduation. The physical fitness proficiency examination is administered in KIN 263 Techniques of Fitness.

### Option in Exercise Science (code KPE\_BS01) (120 units)

This option is designed primarily for those students interested in careers in exercise physiology, biomechanics, or motor control/learning as well as those students contemplating graduate work in these areas or one of the health professions, e.g., physical therapy.

### Supplementary Criteria for Admission

In the California State University, an undergraduate major is designated as impacted when the number of applications received the first month of the filing period is greater than the available spaces. Such degree majors are authorized to use a pre-major code and supplementary admission criteria to screen applicants. The Option in Exercise Science is an impacted program and has the following supplementary admission criteria:

To be eligible for admission to the Bachelor of Science in Kinesiology Option in Exercise Science, applicants must demonstrate the following prior to the semester for which the application is submitted: Applicants must have met requirements for admission to the university as a freshman or transfer student. Applicants must have completed the following prerequisite courses, each with a grade of "C" or better: BIOL 207, BIOL 208, CHEM 111A, ENGL 100, MATH 112, PHYS 100A, and PSY 100. Applicants must show proof of current First Aid (Community) certification or CPR (Community) certification. Applicants must submit a supplemental application to the CSULB Department of Kinesiology by February 1 for the fall semester or by October 1 for the spring semester. The supplemental application is available from the Kinesiology Department Office or the Kinesiology web site (<http://www.csulb.edu/kinesiology>). The supplemental application must be accompanied by 2 letters of recommendation, preferably one letter from a natural sciences faculty member. The number of applicants who can be admitted is limited by space availability. Eligible applicants will be selected for admission for admission based on cumulative grade point average.

**Requirements**

Core Courses: BIOL 207, 208; KIN 300, 301, 312.

Lower Division: CHEM 111A, 111B; KIN 263; PHYS 100A, 100B, PSY 100.

Upper Division: KIN 405, 441, KIN 430 or 431; KIN 483 or BIOL 260; Select three courses from KIN 339I, 462, 465, 466.

Elective Courses: select 18 units (minimum 6 units from KIN) from the following courses: BIOL 200, 211A, 211B, 340, 341, 342 and 342L, 345, 401, 441, 442, 443, 445, 446; CHEM 327, 448; FCS 132, 331A, 331B; HHS 374, 401, 460, 471; H SC 150; KIN 315, 320, 339I\*, 363, 430\*, 431\*, 462\*, 465\*, 466\*, 471, 494, 495, 497.

\* If not taken as one of the major required upper division courses.

A fieldwork, field experience or internship course requires current certification in First Aid (American Red Cross: Community First Aid & Safety or Emergency Response or Workplace Training: Standard First Aid or equivalent) and Cardiopulmonary Resuscitation (American Red Cross: Adult CPR or Adult, Infant & Child CPR or CPR for the Professional Rescuer; American Heart Association: Adult CPR or Adult, Infant & Child CPR or ACLS Provider or equivalent) prior to enrollment.

**Option in Kinesiotherapy (code KPE\_BS03) (120 units)**

This option is designed primarily for those students interested in careers which provide therapeutic physical activities in rehabilitation settings including clinics, hospitals, schools, universities, convalescent homes and other private and public institutions. Students interested in certification by the American Kinesiotherapy Association (AKTA) must complete additional requirements. Please consult the Department Coordinator and the Kinesiotherapy Certificate Program for additional information.

**Supplementary Criteria for Admission**

In the California State University, an undergraduate major is designated as impacted when the number of applications received the first month of the filing period is greater than the available spaces. Such degree majors are authorized to use a pre-major code and supplementary admission criteria to screen applicants. The Option in Kinesiotherapy is an impacted program and has the following supplementary admission criteria:

To be eligible for admission to the Bachelor of Science in Kinesiology Option in Kinesiotherapy, applicants must demonstrate the following prior to the semester for which the application is submitted: Applicants must have met requirements for admission to the university as a freshman or transfer student. Applicants must have completed the following prerequisite courses, each with a grade of "C" or better: BIOL 207, BIOL 208, PSY 100, and KIN 210. Applicants must have completed PSY 200 with a grade of "B" or better. Applicants must have completed a minimum of 100 hours of observation or active participation in a therapeutic or rehabilitation setting. Applicants must submit a supplemental application to the CSULB Department of Kinesiology by February 1 for the fall semester or by October 1 for the spring semester. The supplemental application is available from the Kinesiology Department Office or the Kinesiology web site (<http://www.csulb.edu/kinesiology>). The supplemental application must be accompanied by 3 letters of recommendation, one letter must be from the therapeutic or rehabilitation setting noted above. The number of applicants who can be admitted is limited by space availability. Eligible applicants will be selected for admission for admission based on cumulative grade point average.

**Requirements**

Core Courses: BIOL 207, 208; KIN 300, 301, 312.

Lower Division: PSY 100, 200; KIN 210, 217, 263, and six physical activity units distributed over a minimum of four activity categories:

*Aquatics:* KIN 125A, 125B, 237, 238;

*Combative:* KIN 106A, 149A;

*Dance:* KIN 185, 260;

*Individual/Dual Sports:* KIN 100A, 112A, 112B, 264, 265, 266, 267, 268;

*Wilderness Studies:* KIN 242, 244, 246A;

*Team Sports:* KIN 250, 253, 255, 257.

**FAQ Concerning Road Maps for Completion of Undergraduate Degrees**

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

**I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?**

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

**Must I take the courses in the semesters shown on the plan?**

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

- 1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.
- 2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.
- 3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).
- 4) You must complete all requirements for admission to impacted majors within the first 60 units.

**I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?**

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

**I didn't complete the exact list of courses shown. Can I still graduate on time?**

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

**If I follow the plan, will I have all requirements for graduation completed?**

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

## Option in Sport Psychology and Coaching (code KPE\_BS04) (120 units)

The Option in Sport Psychology and Coaching has two Concentrations - one in Sport Psychology and one in Coaching. The course work for both concentrations is the same except for the elective courses. The Option is designed for students interested in careers in: 1) sport psychology; and 2) coaching outside the public school system (K-12), e.g., coaching professional athletes, coaching college athletes, coaching youth-sport athletes, and coaching in sport academies.

Core Courses: BIOL 207, 208; KIN 300, 301, 312.

Lower Division: FCS 132; KIN 263; PSY 100, 110, 200; and eight physical activity units to be distributed over a minimum of two activity categories:

*Aquatics:* KIN 125A, 125B, 237, 238;

*Combatives:* KIN 148A;

*Individual/Dual Sports:* KIN 264, 265, 266, 267, 268;

*Team Sports:* KIN 250, 253, 255, 257.

Upper Division: KIN 315, 332I, 335, 339I, 472, 475; PSY 333, 356.

Elective Courses for the Concentration in Sport Psychology: Select 15 units (minimum 6 units from KIN) from the following courses: HHS 374; H SC 427; KIN 471, 489B, 495, 497; PSY 141, 332, 370, 373, 475.

Elective Courses for the Concentration in Coaching: Select 15 units (minimum 6 units from KIN) from the following courses: ACCT 310; COMM 411; HRM 360; H SC 427; I S 240; KIN 489B, 497, 499; MKTG 300, 330; REC 321, 322, 324, 427.

A fieldwork, field experience, or internship requires current certification in First Aid (American Red Cross: Community First Aid & Safety or Emergency Response or Workplace Training: Standard First Aid or equivalent) and Cardiopulmonary Resuscitation (American Red Cross: Adult CPR or Adult, Infant & Child CPR or CPR for the Professional Rescuer; American Heart Association: Adult CPR or Adult, Infant & Child CPR or ACLS Provider or equivalent) prior to enrollment.

### FOUR YEAR PLAN TO COMPLETE THE B.S. IN KINESIOLOGY AND PHYSICAL EDUCATION - OPTION IN SPORT PSYCHOLOGY AND COACHING (KPE\_BS04)

120 Units Required Department of Kinesiology

Sport Psychology & Coaching majors are required to enroll in 15 units of electives from the approved list. A minimum of 6 of these 15 units must have a KIN prefix.

Students should enroll in a 4-unit GE Physical Science with lab at some point during the first four semesters.

**Option in Fitness (code KPE\_BS02) (120 units)**

This option is designed for students interested in careers in the fitness industry, e.g. fitness director, manager, program specialist, coordinators, personal trainer, or group instructors in corporate, commercial, YMCA, or other public/private facility.

Core Courses: BIOL 207, 208; KIN 300, 301, 312.

Lower Division: FCS 132; PSY 100; KIN 215, 263, and eight physical activity units distributed over a minimum of two activity categories:

*Aquatics:* KIN 125A, 125B, 237, 238;

*Combatives:* KIN106A, 148A, 149A;

*Dance:* KIN 185, 260;

*Fitness:* KIN 142, 151A, 152A, 198A;

*Individual/Dual Sports:* KIN 100A, 100B, 112A, 112B, 264, 265, 266, 267, 268;

*Wilderness Studies:* KIN 242, 244, 246A, 247A;

*Team Sports:* KIN 250, 253, 255, 257.

Upper Division: HSC 435; KIN 332I or 335, 339I, 363, 364, 367, 368, 405, 467, 469, 483, 489D.

Elective Courses: Select twelve units from the following courses: FCS 433, 439; HSC 421, 423, 429; KIN 207, 309, 315, 332I\*, 335\*, 462, 465, 495, REC 421, 423, 425, 427.

\* If not taken as one of the major required upper division courses.

A fieldwork, field experience, or internship requires current certification in First Aid (American Red Cross: Community First Aid & Safety or Emergency Response or Workplace Training: Standard First Aid or equivalent) and Cardiopulmonary Resuscitation (American Red Cross: Adult CPR or Adult, Infant & Child CPR or CPR for the Professional Rescuer; American Heart Association: Adult CPR or Adult, Infant & Child CPR or ACLS Provider or equivalent) prior to enrollment.

Students should enroll in a four-unit, Physical science lab course at some point during the first four semesters.

Major Elective must be chosen from the approved list in the Catalog.

#### FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

#### I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

#### Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

#### I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

#### I didn't complete the exact list of courses shown. Can I still graduate on time?

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

#### If I follow the plan, will I have all requirements for graduation completed?

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

#### Adapted Physical Education Specialist Credential (code 490)

This program is designed for students interested in the administration and implementation of physical activity programs for persons with disabilities. Completion of this credential authorizes the California Adapted Physical Education Specialist Teaching Credential.

#### Requirements

1. Bachelor's degree with a teaching major in Kinesiology;
2. Must be obtained concurrently or after completion of the Single Subject Physical Education Teaching Credential, K-12;
3. KIN 320, 387, 388, 427, 526, 546; ED P 350; Select two courses from CD 280; ED P 405, 526, 546, 564, 579B.

#### Minor in Physical Education Teaching (code KPE\_UM01)

The minor in Physical Education Teaching is available to any non-Kinesiology major. This minor is designed for those students who are striving for an additional credential. With completion of this minor, the University will recommend the additional credential in Physical Education.

#### Requirements

A minimum of 34 units as follows: BIOL 207 and KIN 301 or BIOL 208 and KIN 300; KIN 315, 343, 370, 380, 460, 483; EDSS 300P; Eight physical activity units including: KIN 237 or 238; 265; 250 or 257; 253 or 255; 264 or 268; 266 or 267; 270.

In addition to the above, each student is required to demonstrate skill proficiency at an average 3.5 level on a 5 point scale in KIN 343 and the 8 physical activity units completed to satisfy requirements for this minor. Only physical skill proficiency scores in the range of 2.0-5.0 are recorded and computed to determine a student's physical skill proficiency average.

## Concentration in Physical Education Elementary Teaching

### Requirements

A minimum of 21 units as follows: KIN 301, 312, 315, 370, 427, 476, 477.

## Concentration in Physical Education Coaching

### Requirements

A minimum of 20 units as follows: KIN 301, 207, 332I; a minimum of 11 units selected in consultation with appropriate Kinesiology Advisor from the following: KIN 312, 363, 475, 489B.

## Certificate Programs

The Department of Kinesiology offers two different certificate programs each of which is related to a special emphasis provided in the curriculum. All certificate programs are open to students enrolled in the University who meet general admission requirements as follows:

1. Completion of 30 hours of course work;
2. A minimum 2.75 GPA in all completed course work;
3. Admission application and approval by a faculty committee in the certificate program selected.

## Wilderness Studies Certificate (code KPE\_CT02)

This program is designed to develop leaders who can provide safe and challenging situations for individuals seeking self-fulfilling experiences in wilderness environments. The program of study will enable the student to acquire appropriate knowledge and skills, and to develop a personal philosophy reflecting understanding and concern for the protection of the environment and safety of participants in wilderness activities.

### Requirements

1. Certification in First Aid and Cardiopulmonary Resuscitation;
2. Completion of Log of Outdoor Experiences;
3. Course work (31-33 units as follows): BIOL 100, KIN 346, 448, REC 490 with advisement. The following coursework must be taken in consultation with the advising coordinator: select four courses from KIN 131, 153, 242, 244, 247A; select two courses from KIN 243A, 243C, 245, REC 430; select one course from KIN 141, 446, 497, 499; select one course from FCS 132, REC 407, 431, 433.

## Kinesiotherapy Certificate (code KPE\_CT04)

This program is designed to prepare the student to pass the American Kinesiotherapy Association (AKTA) Certification Test. AKTA certification will qualify the therapist to provide therapeutic physical activities in rehabilitation settings including clinics, hospitals, schools, universities, convalescent homes and other private and public institutions or in private practice. The student will complete the Kinesiotherapy Option in the undergraduate curriculum plus 27 additional units. Information concerning the certificate can be obtained from the Director of the Kinesiotherapy Program in the Department of Kinesiology.

Students seeking National Kinesiotherapy Certification need to complete the Undergraduate Option in Kinesiotherapy, the Undergraduate Kinesiotherapy Certificate, plus 12 post-baccalaureate Internship units with consensus of the Kinesiotherapy Advisor.

### Requirements

1. Admission application and approval by Director;
2. Completion of the degree requirements of the Bachelor of Science: Option Kinesiotherapy;
3. Specialization course work requires a "B" or better grade for AKTA Certification;
4. Course work: BIOL 401 or GERN 400I; H SC 210 or 411A or 411B or 427; KIN 210, 309, 320, 405 or 499, 427, 438/538, 488/588, 485, 489F; PSY 341.

## Graduate Program

Two degree programs are available to the student: Master of Arts degree in Kinesiology with seven Options and Master of Science degree in Kinesiology with three Options. The student may select the thesis/project track or the comprehensive examination track. The student who chooses the thesis/project track is required to complete a thesis or a project. The student who chooses the comprehensive examination track is required to take KIN 695. The minimum unit requirement for the MA degree major program is 30 units for thesis/project students and 36 units for comprehensive examination students. The minimum unit requirement for the MS degree major program is 33 units for thesis/project students and 39 units for comprehensive examination students.

### Admission Criteria

1. A bachelor's degree from an accredited institution with a major in Kinesiology/Physical Education; or
2. A bachelor's degree in another field with a minimum of 15 units of upper division courses in Kinesiology comprised of foundational courses needed for the tentative degree plan to be determined by the student's major advisor and approved by the Department Graduate Coordinator. All foundational coursework must be completed prior to Advancement to Candidacy.
3. An overall undergraduate GPA of 2.50 or better and an upper division Kinesiology/Physical Education major GPA of 2.75 or better;
4. A minimum cumulative score of 450 on the verbal, 450 on the quantitative and 3.5 on the analytical writing sections of the Graduate Record Examination.

### Advancement to Candidacy

1. Completion of the general University requirements for advancement to candidacy;
2. Fulfillment of the Graduation Writing Assessment Requirement (GWAR);
3. A graduate program must have approval of the student's advisor, Department Graduate Coordinator, and Associate Dean of Graduate Students, Research, and Faculty Affairs for the College of Health and Human Services.

## Master of Arts in Kinesiology

Seven Options are under the Master of Arts degree in Kinesiology and are described below. The core courses for thesis students are KIN 590, 696, and 698. The core courses for comprehensive examination students are KIN 590, 695, and 696.

### Option in Adapted Physical Education (code KPE\_MA04)

This option is designed to provide advanced preparation in adapted physical activity and the study of individuals with disabilities across the lifespan (preschool to adult).

#### Requirements

1. KIN 590 and 696;
2. Minimum of 12 units selected from the following: KIN 537, 538, 546, 638, and 697;
3. KIN 698 (4 units) for thesis/project students plus a minimum of 8 elective units;
4. KIN 695 for comprehensive exam students plus a minimum of 15 elective units.

### Option in Coaching (code KPE\_MA07)

This option provides an in-depth study in the scientific, mechanical, emotional, and methodological realms of coaching.

#### Requirements

1. KIN 590 and 696;
2. Minimum of 12 units selected from the following: KIN 524, 540, 551, 560, 562, 575, 630, and 633;
3. KIN 593 (3-6 units) required after advancement to candidacy;
4. KIN 698 (4 units) for thesis/project students, plus a minimum of 2-5 elective units;
5. KIN 695 for comprehensive examination students, plus a minimum of 12-15 elective units.

### Option in Motor Behavior (code KPE\_MA06)

This option is designed to provide advanced preparation in human movement from a behavioral perspective; this includes the examination of motor learning, control and development across the lifespan.

#### Requirements

1. KIN 590 and 696;
2. Minimum of 12 units selected from the following: KIN 540, 546, 630, 633, and 697 (3 units);
3. KIN 698 (4 units) for thesis/project students, plus a minimum of 8 elective units;
4. KIN 695 for comprehensive examination students, plus a minimum of 15 elective units.

### Option in Pedagogical Studies (code KPE\_MA02)

This option provides preparation in student design, instructional development, and evaluation to improve the supervision of skills and develop expertise in behavioral research methods.

#### Requirements

1. KIN 524, 525, 526, 590, 696, and 697;
2. KIN 698 (4 units) for thesis/project students, plus a minimum of 8 elective units;
3. KIN 695 for comprehensive examination students, plus a minimum of 15 elective units.

### Option in Sport Studies (code KPE\_MA05)

This option examines sport from the perspective of sociology, anthropology, history, psychology, and philosophy.

#### Requirements

1. KIN 590 and 696;
2. Minimum of 12 units from the following: KIN 573, 574, 577, 633, and 697 (3 units);
3. KIN 698 (4 units) for thesis/project students, plus a minimum of 8 elective units;
4. KIN 695 for comprehensive examination students, plus a minimum of 15 elective units.

### Option in Sport Management (code KPE\_MA03)

This option prepares individuals for careers in athletic administration and sports management. Upon completion of this program (36 units), individuals will be prepared to work in the sports industry in a variety of settings, including professional, intercollegiate, and interscholastic sports and sport-related businesses.

The program of study for this option is currently offered only through University and College Extension Services. Instruction in this option is presented in an accelerated cohort program format over 18 months.

#### Requirements

1. KIN 511, 512, 513, 514, 521, 577, 590, 591, 592A (6 units) and 696.
2. KIN 698 (4 units) for thesis/project students (Not available to students in the cohort format).
3. KIN 695 for comprehensive exam students.

## Option in Individualized, Program, and Generalized Areas (code KPE\_MA08)

These Options are designed to provide the student with curriculum activities that combine one or more option areas into a program of study. These Options are developed by the student with the advisement of a graduate faculty member and/or the Graduate Advisor. A statement of rationale for the proposal must accompany the program of study.

### Requirements

1. KIN 590 and 696;
2. Minimum of 15 units from 500 and/or 600 level coursework in KIN;
3. KIN 698 (4 units) for thesis project students, plus a minimum of 5 elective units (individualized);
4. KIN 695 for comprehensive examination students, plus a minimum of 12 elective units (generalized and program areas only).

## Master of Science in Kinesiology

Three Options are under the Master of Science degree in Kinesiology and are described below. The core courses for thesis/project students are KIN 580, 590, 696, and 698. The core courses for comprehensive examination students are KIN 580, 590, 695, and 696.

### Option in Exercise Science (code KPE\_MS01)

This option is designed to provide up-to-date theoretical principles and practical experiences in exercise physiology and biomechanics.

### Requirements

1. KIN 540, 550, 551, 552, 580, 590, 696, and either 594 or 697;
2. Select two of the following four courses or select 6 other units with advisor's approval: KIN 541, 562, 565, and 566;
3. KIN 698 (4 units) for thesis project students;
4. KIN 695 for comprehensive examination students, plus a minimum of 6 elective units.

### Option in Sport and Exercise Psychology (code KPE\_MS02)

This option is designed to prepare students for careers in sport and exercise psychology, in particular as athletic performance enhancements specialists and/or as researchers and teachers in academic settings.

### Requirements

1. KIN 572, 575, 580, 590, 633, 696 (18 units);
2. Two of the following courses: KIN 571, 573 or 574, 577, 630, 697 (6 units);
3. KIN 698 (4 units) for thesis students, plus a minimum of 5 units from PSY/E DP and/or additional KIN electives with advisor approval;
4. KIN 695 (3 units) for comprehensive examination students, plus 12 units from PSY/ED P courses and/or additional electives in KIN with advisor approval.

## Option in Sports Medicine and Injury Studies (code KPE\_MS03)

This option is designed to provide the student with an in-depth study in the many health-related problems related to individuals who are physically active.

### Requirements

1. KIN 540, 551, 560, 561, 562, 580, 590, 633, 696, and 697;
2. KIN 698 (4 units) for thesis/project students;
3. KIN 695 for comprehensive examination students, plus a minimum of 6 elective units.

## Kinesiology Courses (KIN)

### Activity Courses

#### 100-198. Physical Education Activity (1)

A broad range of physical education activities is offered. These are designed to provide an opportunity for students to meet their health, physical and recreational needs and interests. Maximum of 8 units may be applied toward the University graduation requirement. Students enrolling in physical education courses assume the responsibility for satisfactory health status appropriate for class activity. KIN activity courses may be offered at the beginning (I), intermediate (II), and advanced (III) levels. All classes are co-educational, any student may enroll in the activity courses offered by the Department of Kinesiology. Classes offered within areas are as follows:

#### Individual/Dual Activities (1)

- 100A. Archery. Course fee may be required.
- 102A. Badminton
- 104A. Bowling. Course fee may be required.
- 108A. Golf
- 112A,B. Racketball
- 114A,B,C. Tennis
- 145A. Gymnastics
- 152A. Yoga

#### Combative Activities (1)

- 106A. Fencing-Foil
- 107A. Fencing-Sabre
- 148A. Karate
- 149A. Self Defense

#### Aquatics (1)

- 121A. Sailing. Course fee may be required.
- 124A. Surfing
- 125A,B. Swimming
- 126A. Swimming Conditioning
- 133A. Windsurfing. Course fee may be required.

#### Fitness Activities (1)

- 142. Low Impact Aerobics
- 146A. Jogging
- 151A. Weight Training and Conditioning

#### Team Activities (1)

- 161A. Basketball
- 162A. Beach Volleyball
- 165A. Flag Football
- 166. Rugby
- 167A. Soccer
- 169A. Softball
- 172A,B,C. Volleyball

## Recreational Dance

183A. Recreational Dance Workshop

185. Social Dance

## Special Studies (1-3)

198. Special Activities

A. Aqua Aerobics

B. Triathlon Fitness

E. Individual Adapted Activities

\* See Physical Education professional courses for additional activities open to non-majors.

## Kinesiology Courses (KIN)

### Professional Courses

Kinesiology majors and minors will be given priority enrollment in classes required for the major. Selected courses are available to the general student body to receive credit toward general education requirements.

### Lower Division

#### 122. Introduction to Scuba Diving (2)

Prerequisite: Swim test. A general activity course designed for students who are interested in exploring the concept of becoming a Scuba Diver. It does not require any ocean dives, nor is Scuba certification issued upon completion. (Lecture 1 hour, Activity 2 hours.)

#### 143. Individual Conditioning (1)

A course designed to introduce the student to the activities, equipment, and techniques used in the development of conditioning programs tailored to one's individual needs. May be repeated to a maximum of 8 units.

#### 156. Sports Appreciation (3)

Prerequisite: One of the GE Foundation courses (may be taken concurrently). Introduction to the study of sport as a social institution in American society. Letter grade only (A-F) for Kinesiology majors/minors.

#### 157. Fitness for Living (3)

Prerequisite: One of the GE Foundation courses (may be taken concurrently). Analysis and implementation of the concepts related to exercise for health and fitness. Letter grade only (A-F) for Kinesiology majors/minors. (Lecture 2 hours, Activity 2 hours.)

#### 159. Aerobic Teacher Training (2)

Prerequisite: KIN 142 or equivalent. Instruction in organizing and teaching methodology of aerobic fitness concepts including movement principles, and exposure to a variety of activities applicable to aerobic teacher training. (Lecture 1 hour, Activity 2 hours.)

#### 189. Country Dancing (1)

Instruction and practice in various country dance forms including line dancing, two-step, waltz, contra dancing, round dancing, and mixers. This course is useful for lifelong fitness, socialization, and recreation. May be repeated to a maximum of 8 units.

#### 200. Psychological Skills for Peak Performance in Sport (3)

Introduction of psychological strategies and skills designed to help individuals overcome the barriers to optimal performance. Skills such as imagery, goal setting, cognitive restructuring, attentional focusing, arousal regulation, and coping presented. (Lecture, 3 hours)

#### 207. Prevention and Care of Athletic Injuries (3)

Prerequisites: KIN 210 or equivalent. Principles and techniques of the prevention and care of common athletic injuries. (Lecture 2 hours, Activity 2 hours.)

#### 210. Advanced Emergency Care (3)

Theory and practice of first aid for the injured. Successful completion of course requirements leads to the American National Red Cross advanced first aid and personal safety and community CPR certificate. Course fee may be required.

#### 215. Career Perspectives in Human Movement (1)

An overview of human movement including professional preparation and employment opportunities. Orientation to current programs and proficiency requirements. Students entering the Kinesiology major are required to enroll in this course their first semester of study.

#### 217. Introduction to Kinesiotherapy (2)

An introduction to the profession of Kinesiotherapy intended to provide the student with information regarding the history of the profession, its educational expectations, standards and scope of practice and a survey of the basic skills needed to enter this field of study. Letter grade only (A-F).

#### 237. Techniques and Analysis of Aquatic Skills (2)

Prerequisites: KIN 125A or 125B or consent of instructor, American Red Cross Community First Aid and CPR certifications or equivalent. Open to Kinesiology majors in the Adapted, Elementary, and Secondary Physical Education options. To maintain enrollment, students must pass the swimming proficiency examination that will be administered the first week of instruction. Instruction and techniques in individual aquatic skills, hydrodynamic and movement principles, and an exposure to a variety of learning procedures applicable to the development of aquatic skills. Letter grade only (A-F). (Lecture 1 hour, Laboratory 3 hours.)

#### 238. Water Safety Instructor (2)

Prerequisites: KIN 125A or 125B or consent of instructor, American Red Cross Community First Aid and Safety and Cardiopulmonary Resuscitation certifications or equivalent. To maintain enrollment, students must pass the swimming proficiency examination that will be administered the first week of instruction. Comprehensive analysis of principles of movement, organizational strategies utilized in presenting aquatic activities and advanced swimming skills in physical education classes. Includes an opportunity to qualify for the American Red Cross Water Safety Instructor certification. Letter grade only (A-F). (Lecture 1 hour, Laboratory 3 hours.)

#### 239. Lifeguard Training (2)

Prerequisites: American Red Cross Community First Aid and Safety or equivalent. Provide lifeguard candidates with the skills and knowledge necessary to keep the patrons of aquatic facilities safe in and around the water. (Lecture 1 hour, Laboratory 3 hours.)

#### 242. Backpacking (2)

An experiential examination and analysis in the judgment, knowledge, equipment and skills necessary to safe wilderness travel and living. (2-3 day field experience required.) Course fee may be required.

#### 243A. Winter Mountain Expedition (3)

Introduction to winter mountaineering skills; study of the mountain environment. (Activity 6 hours) (2-3 day field experience required) Course fee may be required.

#### 243B. Summer Mountain Expedition (3)

Instruction and extended experience developing the attitudes, judgment, knowledge and skills for safe mountain travel and living. Trip planning, logistics, navigation, mountain medicine, mountaineering techniques, safe and ecological camping will be learned and practiced while on a ten-day expedition. Throughout the wilderness expedition group process, leadership, problem solving and judgment all provide growth and experiential education opportunities that develop the successful wilderness traveler. Letter grade only (A-F). (Activity 6 hours) Course fee may be required.

**243C. Desert Expedition (3)**

Introduction to the skills, attitudes and knowledge required for safe use and enjoyment of desert areas. An interdisciplinary introduction to the meaning and significance of the desert. Trip planning, map use, methods of safe travel. Course includes field trip. Course fee may be required. (Activity 6 hours.)

**244. Kayaking (2)**

An experiential examination and analysis of the judgment, knowledge, equipment and skill development necessary to safe flat and whitewater kayaking. (2-3 day field experience required.) Course fee may be required. (Activity 4 hours.)

**245. Wilderness Water Expedition (3)**

Introduction to the skills, attitudes and knowledge required for safe use of varied types of wilderness waters. The skills and techniques of boat handling and trip planning. An interdisciplinary introduction to the study of waterways. (Activity 6 hours.) (2-3 day field experience required.) Course fee may be required.

**246A. Mountaineering (2)**

An experiential examination and analysis in the judgement, knowledge, equipment and skills necessary to safe mountaineering. Course includes field trip. Letter grade only (A-F). (Activity 4 hours.) Course fee may be required.

**247A. Techniques of Rockclimbing (2)**

Introduction to the basic skills, judgment and safety for technical rockclimbing. The skills and techniques of top roping, belaying rappels and self rescue. Course includes a field trip. Course fee may be required. (Activity 4 hours.)

**250. Techniques of Basketball (1)**

Open to Kinesiology majors and minors only. Instruction in individual and team skills and techniques utilized in the sport of basketball for successful performance. (Activity 2 hours.)

**253. Techniques of Soccer (1)**

Open to Kinesiology majors and minors only. Instruction in individual and team skills and techniques utilized in the sport of soccer for successful performance. (Activity 2 hours.)

**255. Techniques of Softball (1)**

Open to Kinesiology majors and minors only. Instruction and practice in catching, throwing, hitting, sliding, base running, and bunting. Comprehensive teaching of skills and techniques in softball. (Activity 2 hours.)

**257. Techniques of Volleyball (1)**

Open to Kinesiology majors and minors only. Instruction in individual and team techniques utilized in the sport of volleyball. (Activity 2 hours.)

**260. Fundamental Rhythms (2)**

Instruction and practice in fundamental rhythms involving folk and social dance forms. Designed for Kinesiology majors and minors, but open to all students. (Activity 4 hours.)

**261. Techniques and Analysis of Fundamental Rhythms (2)**

Open to Kinesiology Pedagogy Majors only. Instruction, practice and analysis of social and folk dances necessary for successful teaching of basic social and folk dances in the public schools. Includes instruction in the fundamental rhythms that are sequenced to make up the basic rhythm patterns of nearly all social and folk dances. Various floor pattern and rhythm variations are taught and analyzed in terms of their appropriateness for various age groups and skill levels. Letter grade only (A-F). (Activity 4 hours.)

**263. Techniques of Physical Fitness (2)**

Open to Kinesiology majors only or consent of instructor. Not open to Kinesiology majors in the pedagogy options. This course consists of instruction, practice, and evaluation in physical fitness. Cardiorespiratory, muscular strength and endurance, and flexibility activities will be emphasized within the course. Letter grade only (A-F). (Discussion 1 hour, Laboratory 3 hours.)

**264. Techniques of Golf (1)**

Open to Kinesiology majors and minors only. Instruction and techniques in individual skills and strategies for successful performance in golf. (Activity 2 hours.)

**265. Techniques and Analysis of Gymnastics (2)**

Open to Kinesiology majors and minors only. Techniques, instruction and comprehensive analysis of the principles of movement in gymnastics. Organizational strategies utilized in presenting gymnastics in Physical Education classes. Letter grade only (A-F). (Lecture 1 hour, Laboratory 3 hours)

**266. Techniques of Badminton (1)**

Open to Kinesiology majors and minors only. Instruction and techniques in the skills and strategies for successful performance in badminton. (Activity 2 hours.)

**267. Techniques of Tennis (1)**

Open to Kinesiology majors and minors only. Instruction, techniques and analysis in the concepts of teaching, coaching, and playing tennis. (Activity 2 hours.)

**268. Techniques of Track and Field (1)**

Open to Kinesiology majors and minors only. Instruction, techniques and analysis in the concepts of teaching, coaching, and performance in track and field. Letter grade only (A-F) (Activity 2 hours.)

**270. Professional Practices in Public School Physical Education (3)**

Prerequisite: Students must meet the University GE writing course requirement. Corequisite: Community CPR/First Aid/Safety or current certification. Open to Adapted, Elementary, and Secondary Option students in Kinesiology only. An introductory course designed to provide an overview of current professional practices in public school physical education. This course is the first course in a series of five sequential courses that Pedagogy Option majors take toward a Single Subject Physical Education Preliminary Teaching Credential. In this course, students begin the first phase of their Physical Education Student Assessment Portfolio (PE-SAP), which is used to assess the learning and progress in teaching throughout their coursework in the five sequential courses. Pedagogy Option students (Adapted, Elementary, Secondary) are required to take this course their first semester of their junior year or after completing 30 units of college course work. Letter grade only (A-F). (Lecture 2 hours, Laboratory 2 hours.)

**Upper Division****300. Biomechanics of Human Movement (3)**

Prerequisites: BIOL 208 or equivalent. Anatomical structure and function, and mechanical principles relating to human motion, including analytical application. (Lecture 2 hours, laboratory 3 hours.)

**301. Exercise Physiology (3)**

Prerequisites: BIOL 207 or equivalent 4-unit Human Physiology course with 3-hour lecture and 3-hour laboratory with grade of "C" or better or consent of instructor. Basic concepts of the physiology of muscular exercise with emphasis on the responses and adaptations of the circulatory system, the respiratory system, and skeletal muscles to the physical stress of acute and chronic exercise. (Lecture 2 hours, Laboratory 3 hours). Course fee may be required.

**304. Clinical Aspects of Athletic Training (3)**

Prerequisites: BIOL 207, 208; KIN 207. Open to Kinesiology majors in athletic training or consent of instructor. Principles and techniques of related clinical concepts applicable to the athletic training setting. Letter grade only (A-F). (Lecture 2 hours, Activity 2 hours).

**306. Medical Aspects of Athletic Training (3)**

Prerequisites: BIOL 207, 208; KIN 207. Open to Kinesiology majors in athletic training or consent of instructor. Principles and techniques of related medical concepts applicable to the athletic training setting. Letter grade only (A-F).

### 308A. Athletic Training Evaluation I (2)

Prerequisites: BIOL 207; KIN 207, 300. Open to Kinesiology majors in Athletic Training or consent of instructor. Theoretical concepts and clinical skills related the assessment of athletic injury and illness. The first semester of a two-semester sequence (KIN 308A and 308B). Emphasis is on the injury evaluation process, injury nomenclature, lower extremity, thoracic and lumbar spine, and cervical spine. Letter grade only (A-F). (Lecture 1 hour, Activity 2 hours)

### 308B. Athletic Training Evaluation II (2)

Prerequisites: BIOL 207; KIN 207, 300, 308A. Open to Kinesiology majors in Athletic Training or consent of instructor. Theoretical concepts and clinical skills related the assessment of athletic injury and illness. The second semester of a two-semester sequence (KIN 308A and 308B). Emphasis is on the thorax and abdomen, upper extremity, eye, face, head and neck, environmental, selected cardiopulmonary conditions, and selected general medical conditions. Letter grade only (A-F). (Lecture 1 hour, Activity 2 hours)

### 309. Developmental and Therapeutic Exercise (3)

Prerequisites: KIN 300, 301 or consent of instructor, Principles, techniques, and prescription of exercises for development or rehabilitation of the body. (Lecture 2 hours, Activity 2 hours.)

### 310. Therapeutic Approaches in Athletic Training (3)

Prerequisites: KIN 308A or 309 or consent of instructor. Open to Kinesiology majors in the athletic training option only. Theory and application therapeutic modalities and exercise rehabilitation commonly used in athletic training programs. (Lecture 2 hours, Activity 2 hours).

### 312. Motor Control and Learning (3)

Prerequisites: BIOL 207, 208; PSY 100. Basic concepts of the neuro-motor and psychological contributions in the control and acquisition of skilled performance. Letter grade only (A-F). (Lecture 2 hours, Activity 2 hours)

### 315. Motor Development (3)

Prerequisites: BIOL 207, 208; PSY 100 or equivalent. Developmental perspective of the factors which contribute to the acquisition of motor control from the period of infancy through adolescence. (Lecture 2 hours, Activity 2 hours)

### 320. Adapted Physical Education (3)

Prerequisites: BIOL 208. This course is designed to prepare Kinesiology majors to meet the physical activity program needs of persons with disabilities. Designed primarily to understand the etiology and characteristics of persons with mental, physical, emotional, sensory, health, learning and/or multiple impairments. When appropriate, be able to successfully integrate the disabled individual into the physical education mainstream. (Lecture 2 hours, Activity 2 hours).

### 332I. Sociocultural Dimensions of Sport and Human Movement (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Socio-cultural and psychological correlations to human movement.

### 335. Historical and Cultural Foundations of Sport and Kinesiology in America (3)

Prerequisites: Upper division standing. Open to Kinesiology Majors only. Survey of the history of sport and kinesiology. Historical identification of the cultural trends and functions of sport and kinesiology in America.

### 338I. Women in Sport (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Survey of women's historical and contemporary involvement with sport. The social, cultural and developmental implications of sports participation for women. Same course as W/ST 338I.

### 339I. Psychology of Sport Behavior and Athletic Performance (3)

Prerequisites: Completion of GE Foundation, PSY 100, and upper-division standing. Psychological dimensions of attitudes, behaviors, and performance in sport and exercise environments. Same course as PSY 339I.

### 343. Techniques and Analysis of Physical Fitness and Activity (2)

Prerequisite: KIN 270. Open to Kinesiology/Physical Education Pedagogy Majors and Minors only. Knowledge and understanding needed to plan and implement physical fitness and physical activity programs in the public school setting. Analysis of the development, maintenance, implementation, and self-assessment of physical fitness and physical activity. The activity component of the course includes fitness development that is designed to prepare the student for *FITNESSGRAM* assessments and the Department's Physical Fitness Proficiency Examination. Letter grade only (A-F). (Lecture 1 hour, Activity 3 hours).

### 346. Wilderness Emergency Care (2)

Prerequisites: One wilderness skill course or equivalent; KIN 210 or current certification in first aid and cardiopulmonary resuscitation. Techniques concerned with wilderness emergencies, including advanced first aid, cardiopulmonary resuscitation, search and rescue and emergency evacuation methods. (Lecture 1 hour, Activity 2 hours.) Course fee may be required.

### 354. Technology in Physical Education (3)

This course is designed to provide an overview of the use of technology applications in education, focusing on the application of technology in physical education. Specifically the development of word processing, spreadsheet, and presentation, documents, the use of video technology (analog and digital), development of web-based information, the use of internet related software and technologies, the creation of pdf documents, the use of personal digital assistants (PDAs) and the use of commercially produced education software. This course meets the computer technology requirement for the California Single Subject Preliminary Teaching Credential. Letter grade only (A-F). (Lecture 2 hours, laboratory 2 hours).

### 363. Theory and Analysis of Group Fitness Instruction (2)

Prerequisite: KIN 263. Open to Fitness Option students in Kinesiology only, or consent of instructor. Students in this course will learn to become effective group exercise leaders by understanding responsibilities of fitness leaders, principles of fitness, and leadership skill. Techniques for various group exercise activities will be taught. Letter grade only (A-F). (Discussion 1 hour, Activity 2 hours.)

### 364. Fitness for Adult Populations with Unique Health Considerations (3)

Prerequisites: KIN 301. Open to Fitness Option students in Kinesiology only, or consent of instructor. This course is designed to provide the students with scientific information regarding exercise testing and exercise prescription for adult special populations. Topics include pregnancy, diabetes, arthritis, stroke, respiratory disorder, coronary artery disease, hypertension, and obesity. Letter grade only (A-F).

### 367. Fitness and the Aging Process (3)

Prerequisites: KIN 301. Open to Fitness Option students in Kinesiology only, or consent of instructor. This course will provide knowledge in the area of fitness and the older adult. Topics will include scientific theories of aging, age-related changes that affect physical capacity, physical activity and its impact on the aging process, and physical activity programming for the older adult. Letter grade only (A-F). (Discussion 2 hours, Laboratory 2 hours.)

**368. Resistance Training for Fitness (3)**

Prerequisites: KIN 300, 301. Open to Fitness and Athletic Training Option students in Kinesiology only, or consent of instructor. Students in this course will learn the details of utilizing resistance training for fitness. The focus of the course will be on the proper execution of resistance exercises typically performed in the health club setting. In addition, students will learn to design resistance-training programs based on scientific principles for individuals interested in developing muscular strength and endurance for general health and fitness. Letter grade only (A-F). (Discussion 2 hours, Activity 2 hours.)

**370. Movement Theory and Practice of Elementary Physical Education (3)**

Prerequisite: KIN 270. A creative and movement oriented analysis of the components of basic movement with application to games, gymnastics, dance, aquatics, and developmental skills commonly experienced and/or taught in elementary school physical education programs. Principles, aims, and objectives of elementary physical education. Observation and practice in the teaching techniques used in elementary physical education. Designed for Kinesiology majors. (Lecture 2 hours, Activity 2 hours)

**380. Principles, Organization and Management of Secondary School Physical Education (3)**

Prerequisites: KIN 149, 237 or 238, 250, 253, 255, 257, 261, 264, 265, 266, 267, 268, 343, 370 or consent of instructor. Corequisite: EDSS 300P. Principles, organization and management of activities taught in secondary schools, includes basic organization and management strategies and fieldwork experience in public secondary school physical education. Letter grade only (A-F). (Lecture 2 hours, Activity 2 hours.)

**387. Physical Activities for the Disabled (3)**

Prerequisites: KIN 320, 427. Corequisite: KIN 489A. Adaptation of physical activities, equipment, and facilities for individuals with permanent disabilities affecting motor performance. (Lecture 2 hours, Activity 2 hours)

**388. Program Planning and Instruction in Adapted Physical Education (3)**

Prerequisite: KIN 387. Corequisite: KIN 489A. Emphasis on program planning and the development of teaching skills in Adapted Physical Education. (Lecture 2 hours, Activity 2 hours)

**405. Cardiopulmonary Aspects of Health-Related Exercise Programs (4)**

Prerequisites: KIN 210 or current First Aid and CPR certificates, KIN 301. Application of advanced exercise science concepts in the design and execution of cardiopulmonary exercise training programs for apparently healthy adults. Letter grade only (A-F). (Lecture 3 hours, Laboratory 3 hours)

**407. Management Strategies in Athletic Training (3)**

Prerequisites: Senior standing or consent of instructor. Open to Kinesiology majors in the athletic training option only. Professional issues, administration, and management strategies of athletic training programs.

**427./527. Physical and Motor Assessment (3)**

Prerequisites: KIN 315 or equivalent and KIN 320 or equivalent. Upper-division undergraduate or Graduate standing. Consent of instructor required for graduate students prior to registration. The course includes the selection, evaluation, administration and interpretation of various tests used in the physical and motor assessment practices of individuals with disabilities. The course is a requirement toward the Adapted Physical Education Specialist Credential. Upper-division students register in KIN 427; Graduate students register in KIN 527. Letter grade only (A-F). (Lecture 2 hours, Activity 2 hours)

**430. Motor Control Principles and Theory (3)**

Prerequisite: KIN 312 or equivalent. Study of the principles, models, and theories of human movement control with an emphasis on application to sport, physical education, human factors, and human performance. Instruction is directed toward understanding the research methods used to evaluate motor control, fundamental principles of motor control, theoretical propositions of human movement control, and applications to relevant movement-intensive settings. Letter grade only (A-F).

**431. Scientific Foundations of Locomotion (3)**

Prerequisites: KIN 300, 312. Instruction is directed towards understanding the influence of motor control theories, biomechanical principles, and constraints to human movement on locomotion. Letter grade only (A-F).

**438./538. Motor Dysfunction and the Exceptional Person (3)**

Prerequisites: A basic undergraduate course in Adapted Physical Education or its equivalent. Recognition, analysis, assessment and remediation of movement problems in a child with minor nervous system dysfunctions.

**441./541. Applied Biomechanics: Lifting and Work Capacity (3)**

Prerequisite: KIN 300 or equivalent (Trigonometry and PHYS 100A recommended). Study of the mechanical properties of bone, ligament, tendon and skeletal muscle. Development and description of selected biomechanical models with application to the evaluation of weight-lifting and rehabilitation exercises, as well as occupational lifting tasks. Critical analysis of methods used to test and evaluate strength. Letter grade only (A-F).

**448. Wilderness Studies: Leadership Practicum (3)**

Prerequisites or corequisites: KIN 346. Analysis and practice of the leadership and teaching techniques appropriate to the conduct of wilderness adventure programs. Course fee may be required.

**457. Applied Theory of Teaching Team Sports (3)**

Prerequisites: KIN 250, 253, 255, 257 or consent of instructor. Comprehensive analysis of the principles of movement, corrections of performance, and organizational strategies utilized in presenting team sports: basketball, flag football, soccer, softball, volleyball, floor hockey, speedball, and team handball. Letter grade only (A-F). (Lecture 2 hours, activity 2 hours.)

**460. Applied Theory and Analysis of Non-Traditional Physical Education Games and Activities (2)**

Prerequisites: KIN 370, senior standing, open to Kinesiology majors and minors only. Organization and management to effectively plan and implement a variety of non-traditional physical education games and activities such as cooperative games, problem solving activities, collaborative learning groups, and outdoor educational experiences. Letter grade only (A-F). (Lecture 1 hour, Laboratory 3 hours.)

**461. Applied Theory of Teaching Individual and Dual Sports (3)**

Prerequisites: KIN 237 or 238, 264, 265, 266, 267, 268, or consent of instructor; senior standing. Open to Kinesiology majors in the Adapted, Elementary, and Secondary Physical Education options. Comprehensive analysis of the principles of movement and organizational strategies utilized in archery, badminton, golf, paddle tennis, pickleball, racquetball, tennis, swimming, orienteering, and track and field. Letter grade only (A-F). (Lecture 2 hours, Activity 2 hours.)

**462./562. Advanced Strength and Conditioning (3)**

Prerequisites: KIN 300, 301. Study of biomechanical and kinesiological factors which are important in understanding the function and proper techniques for execution of a wide variety of standard and advanced weight training exercises. Physiological bases for strength training and adaptations caused by different training regimes are emphasized. Letter grade only (A-F).

**465./565. Clinical Exercise Electrocardiography (3)**

Prerequisites: BIOL 207, KIN 301, and/or consent of instructor. A study of the physiology and patho-physiology of the electrical activity of the heart. Instruction is directed toward pattern recognition of normal and abnormal resting and exercise electrocardiograms.

**466./566. Biochemical and Hormonal Adaptations to Physical Activity (3)**

Prerequisites: Upper-division undergraduate or Graduate standing; KIN 301 or equivalent; CHEM 111A or its equivalent. Consent of instructor required for upper-division undergraduate students prior to registration. Study of the biochemical and hormonal changes that occur as a result of acute and chronic physical activity. Emphasis will be placed on the application of concepts to the development of exercise training programs. Upper-division undergraduate students register in KIN 466; graduate students register in KIN 566. Letter grade only (A-F). Same course as FCS 466./566.

**467. Fundamentals of Personal Training (3)**

Prerequisites: KIN 368. Open to Fitness Option students in Kinesiology only, or consent of instructor. This course is designed to provide the student with the theoretical knowledge and practical skill needed to become a personal trainer. The course covers such topics as the business of personal training, client-trainer relationships, fitness and health assessments and exercise prescription. Letter grade only (A-F). (Discussion 2 hours, Laboratory 3 hours.)

**469. Fitness Management (3)**

Prerequisite: KIN 368. This course will provide knowledge in the area of management of fitness programs. Topics will include program development, personnel issues, financial and legal considerations, equipment purchasing, and marketing strategies for fitness programs. Open to Fitness Option students in Kinesiology only, or by permission of instructor. Letter grade only (A-F).

**471./571. Biofeedback Applications in Sport and Exercise Science (3)**

Prerequisites: Upper-division or graduate standing and consent of instructor. (Undergraduates register in KIN 471; graduates register in KIN 571.) Application of biofeedback in: 1) enhancing athletic performance; 2) in developing exercise and bodybuilding skills; and 3) preventing sport and exercise-related injuries. A written report is required for KIN 571 students. Letter grade only (A-F).

**472./572. Applied Sport and Exercise Psychology (3)**

Prerequisites: Upper division status and consent of instructor or graduate standing. Application of psychological skills and interventions to enhance athletic performance and exercise adherence.

**475./575. Psychology of Coaching (3)**

Current topics of psychological concern and application as related to athletic performance.

**476. Physical Education for the Elementary School Teacher (3)**

Junior Standing. This course provides Multiple Subject Credential candidates with the knowledge and experiences necessary to implement a quality physical education program based upon the California State Physical Education Framework. Course content is designed to meet each subdomain of the CCTC physical education content specifications. Laboratories provide experiences in a variety of skills including hula hoops, jump bands, flying discs, long and short jump ropes, health related physical fitness, active games, individual and team sports, lead-up games, stunts and tumbling and international games and dances. Implementation of the FITNESSGRAM Education and Assessment Program (the state mandated fitness test battery) and subject integration activities are included. (Lecture 2 hours, Activity 2 hours)

**477. Innovative Curriculum in Elementary School Physical Education (3)**

Prerequisites: KIN 370 or 476 or consent of instructor. Theory and application of elementary school physical education curriculum. Designed for students specializing in elementary school physical education programs. (Lecture 2 hours, Activity 2 hours)

**483. Measurement and Evaluation in Physical Education (3)**

Prerequisites: Senior Standing. Principles and techniques of construction, organization, administration, interpretation and evaluation of measuring devices used in Kinesiology. (Lecture 2 hours, Activity 2 hours)

**485. Neurological and Pathological Foundations for Kinesiotherapy (3)**

Prerequisites: BIOL 207, 208; KIN 300, 301, 320, 489F, or consent of instructor. Survey of neurological control of normal movement and the implications of various medical pathologies for rehabilitation. Emphasis on inflammatory processes, metabolic and vascular disturbances, traumatic injuries, nutritional deficiencies, neoplasms, degenerative conditions and congenital disorders as related to the practice of Kinesiotherapy. Letter grade only (A-F).

**487./587. Supervised Activity Instruction Experience (1-3)**

Prerequisite: Upper division or graduate standing and consent of instructor. (Undergraduates register in KIN 487; graduates register in KIN 587). Experience in the organization of and methods for the activity component of a course in kinesiology. A written report is required for KIN 587 students. May be repeated to a maximum of 4 units. Letter grade only (A-F). Restricted to major students only. Not open to graduate students who have previously earned KIN 487 credit in this course. (Conference 1 hour, Laboratory 2 hours per unit.)

**488./588. Clinical Basis of Kinesiotherapy (3)**

Prerequisites: Completion of Bachelor's degree in Kinesiology, Physical Therapy, Exercise Physiology, or Kinesiotherapy and admission into the Kinesiotherapy Certificate Program and successful completion of a course(s) in pathological and neurological foundations of rehabilitation or approval of the Director of the Kinesiotherapy Certificate Program. The theoretical foundations of clinical practice in Kinesiotherapy. Letter grade only (A-F).

**489. Field Work in Physical Activity Settings (1-3)**

Prerequisite: Completion of Kinesiology course requirements for the major Option in which field work is taken. Supervised practice in working with individuals or small to large groups in public or private agencies and schools. Credit/No Credit grading only. May be repeated to a maximum of 9 units.

**A. Fieldwork in Adapted Physical Education**

**B. Fieldwork in Athletic Coaching**

**C. Fieldwork in Athletic Training**

**D. Fieldwork in Fitness**

Additional Prerequisites: KIN 467, completion of 200 hours in a corporate fitness setting, 200 hours in a traditional fitness setting, and 100 hours of approved fitness experience. Open to Fitness Option students in Kinesiology only. Supervised fitness experience in working with individuals or small to large groups in public or private agencies.

**F. Fieldwork in Kinesiotherapy**

**G. Fieldwork in Motor Development**

**K. Fieldwork in Wilderness Studies**

Prerequisites: KIN 242, 244, 246 or 247, 243B or 243C or 245. Completion or corequisite of KIN 448, certification in CPR and First Aid, and consent of instructor. Supervised experience and practice in working with individuals and groups in public/private agencies and schools involved in wilderness activities. Students may enroll in 1-3 units of fieldwork. Each unit is equivalent to 40 hours of fieldwork assignment. A minimum of 120 hours are required for 3 units, of which at least 40 hours will be with the CSULB Wilderness Studies Program. The balance of the hours will be with public/private agencies.

#### 490A. Clinical Practicum in Athletic Training (2)

Prerequisites: Consent of instructor and Grade of "B" or better in KIN 207; satisfactory completion of CSULB ATEP Physical Exam Form and satisfactory completion of CSULB ATEP Technical Standards Form. Supervised clinical experiences in athletic training. Course is designed to provide students with formal instruction and evaluation in the Entry Level Athletic Training Clinical Proficiencies. This course requires the completion of a minimum of 150 hours of clinical experience performed under the supervision of an NATABOC Approved Clinical Instructor (Credit/No Credit grading only).

#### 490B. Clinical Practicum in Athletic Training (2)

Prerequisites: Consent of instructor and successful completion of KIN 490A; satisfactory completion of CSULB ATEP Physical Exam Form and satisfactory completion of CSULB ATEP Technical Standards Form. Continuation of laboratory and clinical experiences designed to provide students with formal instruction and evaluation in the Entry Level Athletic Training Clinical Proficiencies. This course requires the completion of a minimum of 300 hours of clinical experience performed under the supervision of an NATABOC Approved Clinical Instructor (Credit/No Credit grading only).

#### 490C. Clinical Practicum in Athletic Training (2)

Prerequisites: Consent of instructor and successful completion of KIN 490B. Continuation of laboratory and clinical experiences designed to provide students with formal instruction and evaluation in the Entry Level Athletic Training Clinical Proficiencies. This course requires the completion of a minimum of 300 hours of clinical experience performed under the supervision of a NATABOC Approved Clinical Instructor (Credit/No Credit grading only).

#### 490D. Clinical Practicum in Athletic Training (2)

Prerequisites: Consent of instructor and successful completion of KIN 490C; Continuation of laboratory and clinical experiences designed to provide students with formal instruction and evaluation in the Entry Level Athletic Training Clinical Proficiencies. This course requires the completion of a minimum of 300 hours of clinical experience performed under the supervision of an Approved Clinical Instructor (Credit/No Credit grading only).

#### 490E. Clinical Practicum in Athletic Training (2)

Prerequisites: Consent of instructor and successful completion of KIN 490D; Continuation of laboratory and clinical experiences designed to provide students with formal instruction and evaluation in the Entry Level Athletic Training Clinical Proficiencies. This course requires the completion of a minimum of 300 hours of clinical experience performed under the supervision of an Approved Clinical Instructor (Credit/No Credit grading only).

#### 494./594. Exercise Science Internship (3)

Prerequisites: Upper-division or graduate standing with a grade of "B" or better in KIN 300 for a biomechanics internship or KIN 301 for an exercise physiology internship or KIN 312 for a motor control and learning internship. Consent of instructor required prior to registration. Provides a minimum of 120 hours of practical experience in applying exercise science concepts in a fieldwork setting. The internship will provide such experiences as conducting the biomechanical/physiological exercise testing and/or leading the exercise training of selected subject populations such as patients undergoing cardiac rehabilitation, asymptomatic adults, and athletes. Upper-division undergraduate students register in KIN 494; Graduate students register in KIN 594. Letter grade only (A-F). May be repeated to a maximum of 6 units.

#### 495./595. Supervised Laboratory Methods (1-3)

Prerequisites: Upper division or graduate standing and consent of instructor. (Undergraduates register in KIN 495; graduates register in KIN 595.) Experience in the organization of and methods for a laboratory in kinesiology. Includes assisting students with their experiments and laboratory reports. A written report is required for KIN 595 students. Letter grade only (A-F). Restricted to Kinesiology major students only. Not open to graduate students who have previously earned KIN 495 credit in this course. (Conference 1 hour, Laboratory 2 hours per unit.) May be repeated to a maximum of 4 units.

#### \*497. Independent Study (1-3)

Prerequisites: Major or minor in physical education, senior status and consent of Kinology Department. Student will conduct independent library or laboratory research under the supervision of a faculty member and write a report of the investigation. May be repeated to a maximum of 6 units. Letter grade only (A-F).

#### \*499. Special Studies (1-3)

Group investigation of topics of current interest in kinesiology or athletics. Topics to be announced in the *Schedule of Classes*. May be repeated to a maximum of 6 units with different topics.

### Graduate Level

#### 511. Sports Marketing, Development, and Fund Raising (3)

Prerequisites: Graduate standing and a Baccalaureate Degree in Kinesiology/Physical Education or related field and admission to the Kinesiology Graduate Sports Management Program This course will provide students with an overview of sport marketing and basic marketing terminology, as well as concepts of sports marketing and the application of these concepts. Topics for discussion include sport sponsorship, sport licensing, employee relations, community relations, media relations, customer relations, image enhancement, and the use of the Internet in sports marketing. Letter grade only (A-F).

#### 512. Legal and Ethical Issues in Sport (3)

Prerequisites: Graduate standing; admission into the Kinesiology Graduate Sport Management Program. An examination of legal and ethical issues associated with problem-solving and decision-making in sport management. Letter grade only (A-F).

#### 513. Personnel and Facility Management in Athletics (3)

Prerequisites: Graduate standing admission into the Kinesiology Graduate Sport Management Program. An examination of the principles and practices associated with managing personnel and facilities in interscholastic, intercollegiate, amateur, and professional athletics. Letter grade only (A-F).

#### 514. Sport Finance

Prerequisites: Graduate standing; admission into the Kinesiology Graduate Sport Management Program. Financial management principles for use in interscholastic, intercollegiate, amateur, and professional sports. Special emphasis will be placed on understanding various means for controlling costs and increasing revenue in athletic organizations. Letter grade only (A-F).

#### 521. Foundations of Sport Management (3)

Prerequisite: EDSS 450P or equivalent, or teaching experience (including student teaching). A course in the management and supervisory philosophies; principles and practices of administering and supervising physical education and athletic programs in the public school system, including scheduling, budgeting, public relations, facility planning, liability, supervision of personnel, curriculum and evaluation; techniques of management and supervision as they apply to athletics and physical education at the secondary and college levels.

#### 523. Theory and Practice of College Teaching in Kinesiology (3)

Prerequisite: Graduate standing. This course is designed to enhance the teaching knowledge and skills of persons who aspire to become or are currently college and university instructors of kinesiology through an examination of the principles and techniques of adult education associated with the discipline. Letter grade only (A-F).

#### 524. Analysis of Teaching in Physical Education (3)

Analysis of teachers and teaching in physical activity environment: focus on developing observational competencies, analysis of research completed and future research designs.

#### 525. Instructional Design in Physical Education (3)

Prerequisites: Undergraduate major in physical education, EDST 300. A systems approach to designing instruction for the physical education program.

- 526. Applied Behavior Analysis in Physical Education (3)**  
Application of applied behavior analysis principles to physical education (sport) with particular emphasis on single subject research designs and behavior analysis in the physical education setting.
- 527./427. Physical and Motor Assessment (3)**  
Prerequisites: KIN 315 or equivalent and KIN 320 or equivalent. Upper-division undergraduate or Graduate standing. Consent of instructor required for graduate students prior to registration. The course includes the selection, evaluation, administration and interpretation of various tests used in the physical and motor assessment practices of individuals with disabilities. The course is a requirement toward the Adapted Physical Education Specialist Credential. Upper-division students register in KIN 427; Graduate students register in KIN 527. Letter grade only (A-F). (Lecture 2 hours, Activity 2 hours)
- 530. Neuromotor Control (3)**  
Prerequisites: Graduate standing, KIN 312 or equivalent. Study of the neurological and muscular contributions to the control of human movement with emphasis on application of concepts to sports, physical activity, and human factors. Instruction is directed toward understanding the fundamental principles of motor control. Letter grade only (A-F).
- 537. Physical Education for Special Populations (3)**  
Foundations in the organization and conduct of Adapted Physical Education.
- 538./438. Motor Dysfunction and the Exceptional Person (3)**  
Prerequisite: A basic undergraduate course in Adapted Physical Education or its equivalent. Recognition, analysis, assessment and remediation of movement problems in a child with minor nervous system dysfunctions.
- 540. Biomechanical Factors in Human Movement (3)**  
Prerequisite: KIN 300 or equivalent. Study of film, video and force plate data collection for human movement evaluation, including data smoothing techniques. Quantitative kinematic and kinetic analysis examples including gait, jumping and lifting activities. Comparison of 2D versus 3D analyses of movement activities. Letter grade only (A-F).
- 541./441. Applied Biomechanics: Lifting and Work Capacity (3)**  
Prerequisite: KIN 300 or equivalent (Trigonometry and PHYS 100A recommended). Study of the mechanical properties of bone, ligament, tendon, and skeletal muscle. Development and description of selected biomechanical models with application to the evaluation of weight-lifting and rehabilitation exercises, as well as occupational lifting tasks. Critical analysis of methods used to develop and test strength. Letter grade only (A-F).
- 546. Developmental Aspects of Motor Behavior (3)**  
Prerequisite: KIN 315 or equivalent. The study of major factors which contribute to the development of motor skillfulness from birth to maturity. Letter grade only (A-F).
- 550. Instrumentation in the Exercise Sciences (3)**  
Prerequisites: Graduate standing and KIN 301 or equivalent. Theoretical and practical analysis of instrumentation used in the exercise science laboratory. Concepts to be developed include basic fundamentals of scientific instrumentation, equipment validity and reliability. Instruments to be studied include those used in the assessment of cardiopulmonary functional capacity, body composition, muscular strength, and power. Use of personal computers in the laboratory will be emphasized. Letter grade only (A-F).
- 551. Advanced Exercise Physiology (3)**  
Prerequisites: KIN 301 or equivalent and BIOL 207 or equivalent. Advanced concepts in exercise physiology. Letter grade only (A-F).
- 552. Physiology of Exercise Testing and Training (3)**  
Prerequisites: KIN 301 or equivalent and BIOL 207 or equivalent. Study of the various aspects of health enhancement exercise programs (e.g., physiological assessment, physical training, weight control, and risk factor modification) for healthy individuals and patients with systemic diseases such as hypertension, coronary artery disease, and chronic airways obstruction. Letter grade only (A-F).
- 553. Environmental Aspects of Human Performance (3)**  
Prerequisites: Graduate standing; KIN 301 or equivalent with a grade of "C" or better or consent from the instructor. A study of the physiological responses and adaptations of humans to the environment during physical activity. Topics to be covered include: physical activity in the heat and cold, work in hypo- and hyperbaric environments, microgravity, and acute and chronic exposure to air pollutants. Emphasis will be placed on human physical performance and its limitations under various environmental conditions. Letter grade only (A-F).
- 560. Health Related Problems in Sport (3)**  
Prerequisites: KIN 207 and 301 or their equivalents and BIOL 207 and 208 or their equivalents. Examination of health problems related to engaging in vigorous physical activity. Letter grade only (A-F).
- 561. Musculoskeletal Injuries in Sport (3)**  
Prerequisites: KIN 207 and 300 or their equivalents and BIOL 208 or its equivalent. An in-depth study of the most prevalent musculoskeletal injuries occurring in sports activities, including mechanisms, tissue responses, and management procedures. Letter grade only (A-F).
- 562./462. Advanced Strength and Conditioning (3)**  
Prerequisites: KIN 300, 301. Study of biomechanical and kinesiological factors which are important in understanding the function and proper techniques for execution of a wide variety of standard and advanced weight training exercises. Physiological bases for strength training and adaptations caused by different training regimes are emphasized. Letter grade only (A-F).
- 565./465. Clinical Exercise Electrocardiography (3)**  
Prerequisites: BIOL 207, KIN 301, and/or consent of instructor. A study of the physiology and patho-physiology of the electrical activity of the heart. Instruction is directed toward pattern recognition of normal and abnormal resting and exercise electrocardiograms.
- 566./466. Biochemical and Hormonal Adaptations to Physical Activity (3)**  
Prerequisites: Upper-division undergraduate or Graduate standing; KIN 301 or equivalent; CHEM 111A or its equivalent. Consent of instructor required for upper-division undergraduate students prior to registration. Study of the biochemical and hormonal changes that occur as a result of acute and chronic physical activity. Emphasis will be placed on the application of concepts to the development of exercise training programs. Upper-division undergraduate students register in KIN 466; graduate students register in KIN 566. Letter grade only (A-F). Same course as FCS 566./466.
- 571./471. Biofeedback Applications in Sport and Exercise Science (3)**  
Prerequisites: Upper-division or graduate standing and consent of instructor. (Undergraduates register in KIN 471; graduates register in KIN 571.) Application of biofeedback in: 1) enhancing athletic performance; 2) in developing exercise and bodybuilding skills; and 3) preventing sport and exercise-related injuries. A written report is required for KIN 571 students. Letter grade only (A-F).
- 572./472. Applied Sport and Exercise Psychology (3)**  
Prerequisites: Upper division status and consent of instructor or graduate standing. Application of psychological skills and interventions to enhance athletic performance and exercise adherence.

**573. History of Sport in the U.S.A. (3)**

Prerequisite: KIN 335 or equivalent. An analysis of the history of American sport as it reflects the dominant themes in American society.

**574. Contemporary International Sport (3)**

Investigation of contemporary international sport in various world cultures.

**575./475. Psychology of Coaching (3)**

Current topics of psychological concern and application as related to athletic performance.

**577. Sport in U.S. Culture (3)**

Prerequisite: KIN 332I or equivalent. Analysis of physical activities in U.S. culture. Consideration of the relationships between sports and games and the factors of status, values, environment and cultural change.

**580. Computer Applications in Physical Education (3)**

Prerequisites: Graduate standing, consent from instructor. Introduction to computer hardware and software used in Kinesiology including DOS/Windows and Apple Macintosh operating systems. Topics include: hardware, operating systems, word-processing, spreadsheets, data exchange, presentation graphics/authoring tools, and video capture. Emphasis will be placed on integrating the use of hardware and software into a variety of Physical Education environments.

**587./487. Supervised Activity Instruction Experience (1-3)**

Prerequisite: Upper division or graduate standing and consent of instructor. (Undergraduates register in KIN 487; graduates register in KIN 587). Experience in the organization of and methods for the activity component of a course in kinesiology and physical education. A written report is required for KIN 587 students. May be repeated to a maximum of 4 units. Letter grade only (A-F). Restricted to major students only. Not open to graduate students who have previously earned KIN 487 credit in this course. (Conference 1 hour, Laboratory 2 hours per unit.)

**588./488. Clinical Basis of Kinesiotherapy (3)**

Prerequisites: Completion of Bachelor's degree in Kinesiology, Physical Therapy, Exercise Physiology, or Kinesiotherapy and admission into the Kinesiotherapy Certificate Program and successful completion of a course(s) in pathological and neurological foundations of rehabilitation or approval of the Director of the Kinesiotherapy Certificate Program. The theoretical foundations of clinical practice in Kinesiotherapy. Letter grade only (A-F).

**588L. Kinesiotherapy Clinical Training I Laboratory (6)**

Corequisite: KIN 588. Instruction and observation at the Long Beach Veterans Administration Medical Center.

**589. Kinesiotherapy Clinical Training II (3)**

Prerequisite: Satisfactory completion of KIN 588. The theory and practice of kinesiotherapy techniques in a medical center setting. 500 hours of instruction and observation at the Long Beach Veterans Administration Medical Center.

**589L. Kinesiotherapy Clinical Training II (3)**

Corequisite: KIN 589. Laboratory instruction and observation at the Long Beach Veterans Administration Medical Center.

**590. Statistical Analysis and Measurement in Kinesiology and Physical Education (3)**

Prerequisites: EDSE 421, EDSS 450P or 450W, KIN 483 or equivalent. Consideration of the logic and application of statistical inference, sampling theory, correlation, analysis of variance and design of statistical studies. Critical analysis of selected research publications. Required of all master's degree candidates. To be completed within first 12 units of 500-600 series courses.

**591. Field Studies in Sport Event Management (3)**

Prerequisites: Graduate standing; admission to the Kinesiology Graduate Sports Management Program. Focus on planning and development of interscholastic, intercollegiate, amateur, and professional sport-related events. Complete 15 hours of seminar and 120 hours of supervised practical experience in a sporting event setting. Letter grade only (A-F).

**592A. Sports Management Internship (3)**

Prerequisites: Bachelor degree with a major or minor in Kinesiology or Physical Education or an approved related major; KIN 521 or 685; approval of Intern Coordinator. A minimum of 20 hours per week for 16 weeks of supervised work experience in an approved sport management/administrative setting, jointly supervised by a University Faculty member and a supervisor from the assigned organization. May be in a paid or volunteer capacity. Note: 6 units in one semester may not be taken if student is full-time employed. May be repeated to a maximum of 6 units. Letter grade only (A-F).

**592B. Sports Management Internship (6)**

Prerequisites: Bachelor degree with a major or minor in Kinesiology or Physical Education or an approved related major; KIN 521 or 685; approval of Intern Coordinator. A minimum of 40 hours per week for 16 weeks of supervised work experience in an approved sport management/administrative setting, jointly supervised by a University Faculty member and a supervisor from the assigned organization. May be in a paid or volunteer capacity. Note: May not be taken if student is full-time employed. Letter grade only (A-F).

**593A. Coaching Internship (3)**

Prerequisites: Bachelor degree with a major or minor in Kinesiology or Physical Education or an approved related major; advancement to candidacy and approval of Intern Coordinator. A minimum of 20 hours per week for 16 weeks of supervised work experience in an approved coaching setting, jointly supervised by a University Faculty member and a supervisor from the assigned organization. May be in a paid or volunteer capacity. Note: 6 units in one semester may not be taken if student is full-time employed. May be repeated to a maximum of 6 units. Letter grade only (A-F).

**593B. Coaching Internship (6)**

Prerequisites: Bachelor degree with a major or minor in Kinesiology or Physical Education or an approved related major; advancement to candidacy and approval of Intern Coordinator. A minimum of 40 hours per week for 16 weeks of supervised work experience in an approved coaching setting, jointly supervised by a University Faculty member and a supervisor from the assigned organization. May be in a paid or volunteer capacity. Note: May not be taken if student is full-time employed. Letter grade only (A-F).

**594./494. Exercise Science Internship (3)**

Prerequisites: Upper-division or graduate standing with a grade of "B" or better in KIN 300 for a biomechanics internship or KIN 301 for an exercise physiology internship or KIN 312 for a motor control and learning internship. Consent of instructor required prior to registration. Provides a minimum of 120 hours of practical experience in applying exercise science concepts in a fieldwork setting. The internship will provide such experiences as conducting the biomechanical/physiological exercise testing and/or leading the exercise training of selected subject populations such as patients undergoing cardiac rehabilitation, asymptomatic adults, and athletes. Upper-division undergraduate students register in KIN 494; Graduate students register in KIN 594. Letter grade only (A-F). May be repeated to a maximum of 6 units.

**595./495. Supervised Laboratory Methods (1-3)**

Prerequisites: Upper division or graduate standing and consent of instructor. (Undergraduates register in KIN 495; graduates register in KIN 595.) Experience in the organization of and methods for a laboratory in kinesiology and physical education. Includes assisting students with their experiments and laboratory reports. A written report is required for KIN 595 students. May be repeated to a maximum of 4 units. Letter grade only (A-F). Restricted to Kinesiology major students only. Not open to graduate students who have previously earned KIN 495 credit in this course. (Conference 1 hour, laboratory 2 hours per unit) May be repeated to a maximum of 4 units.

**596. Practicum in Physical Education Pedagogy (3)**

Prerequisites: Graduate standing; admission to the Master of Arts Program in Pedagogical Studies. Students are required to evaluate their teaching and provide documentation that they are addressing all of the physical education standards for individuals ages 3-18 that have been established by the National Board for Teacher Certification (NBPTS). Students are also required to apply concepts associated with the physical education subdisciplines to instructional issues. Letter grade only (A-F).

**597. Independent Research (1-3)**

Prerequisites: Consent of Kinesiology faculty member and graduate advisor. Independent research under the guidance of a faculty member. Varied learning activities utilized to achieve competency related to Physical Education not offered in regular classes. Written report required. Letter grade only (A-F). (Independent Study)

**630. Seminar in Motor Learning (3)**

Prerequisites: KIN 312, 590 and 696 (may be taken concurrently). Identification and analysis of principles and concepts applicable to motor learning in physical education.

**633. Seminar in Sport Psychology (3)**

Prerequisites: KIN 332I or equivalent and PSY 100; teaching or coaching experience (including student teaching). Study of psychological theories and concepts and their relationship to human behavior in sport. Sport viewed in the context of the participant, the teacher/coach, the spectator and the entrepreneur.

**638. Seminar in Trends in Adapted Physical Education (3)**

Prerequisite: KIN 537 or 538, or equivalent. An examination and analysis of the current trends in Adapted Physical Education.

**685. Seminar in Athletics (3)**

Experience in the field. Special problems related to the administration of an athletic program including current issues and practices and supervised research in selected areas.

**695. Seminar In Professional Literature (3)**

Prerequisites: KIN 590, 696. Critical analysis and synthesis by comparative review of professional literature in kinesiology and physical education. Required of all candidates not electing thesis option.

**696. Research Methods (3)**

Prerequisite: Undergraduate major in Kinesiology, Physical Education, or related field. Methodological approaches to contemporary problems in Kinesiology; research design; and reporting. Required of all Master's degree candidates. To be completed within the first 12 units of 500-600 series courses.

**697. Directed Studies (1-3)**

Prerequisites: KIN 590, 696, advancement to candidacy. Research in an area of specialization under the direction of a faculty member.

**698. Thesis/Project (1-4)**

Prerequisites: KIN 590, 696, advancement to candidacy. Planning, preparation and completion of an approved thesis/project.

**699. Seminar in Selected Topics (3)**

Intensive study of salient problems of current professional importance to experienced physical educators. May be repeated to a maximum of 6 units with different topics. Topics to be announced in the *Schedule of Classes*.

### Professors

Luis Arroyo (Chicano and Latino Studies)

Roland E. Bush (Comparative World Literature)

Norma Stoltz Chinchilla (Women's Studies/Sociology)

Alejandra Cox Edwards (Economics)

Jim Curtis (Geography)

Larry N. George (Political Science)

José López (Chicano and Latino Studies)

Claire E. Martin (Romance, German, Russian Languages and Literatures)

Carlos Piar (Religious Studies)

José Sánchez (Film and Electronic Arts)

John Tsuchida (Asian and Asian American Studies)

### Associate Professors

Alicia Del Campo (Romance, German, Russian Languages and Literatures)

James Green (History)

Jayne Howell (Anthropology)

Raúl Reis (Journalism)

José Rodríguez (Communication Studies)

Victor Rodríguez (Chicano and Latino Studies)

### Assistant Professors

Margaret Costa (Kinesiology and Physical Education)

Grace Delgado (Chicano and Latino Studies)

Bonnie Gasior (Romance, German, Russian Languages and Literatures)

Liesl Haas (Political Science)

Gary Haytrek (Sociology)

Catherine Komisaruk (History)

Javier López-Zetina (Health Sciences)

Jill Pinkney Pastrana (Educational Psychology)

Anna Sandoval (Chicano and Latino Studies)

Carlos Silveira (Art Education)

## Certificate in Latin American Studies (code COLACT01)

Latin American Studies administers an interdisciplinary program which offers students interested in this field the opportunity to pursue courses leading to a Certificate in Latin American Studies. Courses used to meet this certificate requirement may be counted also, where applicable, toward the General Education requirements, and the major or minor requirements of the cooperating departments.

### Requirements

1. The following are the requirements for the Latin American Certificate Program:
  - A. A Bachelor's Degree with a major in a traditional discipline; may be completed concurrently with the certificate.
  - B. The successful completion of two college intermediate level courses in Spanish, Portuguese or any other language appropriate to the student's area of concentration.
  - C. Students must consult with and receive approval from the program advisor.
2. The instruction Program is comprised of 24 units which may be completed concurrently, distributed as follows:
  - A. CORE (Required of all students 6 units. Choose from two disciplines) ANTH 323, 324; GEOG 320I; HIST 362, 364; POSC 358, 359, SPAN 445
  - B. ELECTIVES: 18 units from the following disciplines. Cannot duplicate courses taken in the Core: ANTH 323, 324, 345, 490\*, 499\*; CHLS 352, 380, 400, 420, 499\*; CWL 440, 499\*; ECON 363, 490\*, 499\*; HIST 362, 364, 366, 461, 462, 463, 466, 490\*, 495, 498\*; FEA 392C; POSC 358, 359, 497\*, 499\*; SOC 341, 490\*, 499\*; SPAN (RGR) 341, 441, 445, 492, 550, 490\*, 499\*

\*Special Topics and Directed Studies courses in the area of Latin American Studies have to be approved by the advisor.

## Minor in Latin American Studies (code HISTUM03)

The requirements for a recently established interdisciplinary Minor in Latin American Studies can be found in this catalog in the sections describing the Departments of History and Romance, German, Russian languages and Literatures.

# LEGAL STUDIES

*College of Liberal Arts*

Director

Albie Burke (History)

Telephone

(562) 985-4458

## Certificate in Legal Studies (code COLACT03)

The Certificate Program in Legal Studies is designed for students who are interested in the study of law as a cultural product and as a field of critical inquiry. It is not a professional program in para-legal education. The certificate may be earned in conjunction with any baccalaureate degree and should be especially useful to those preparing for careers in government service, business, journalism and education. Courses taken in the program may be used to satisfy major, minor, other credential or general education requirements. No more than 12 units, however, may be in the candidate's major.

The Legal Studies Certificate may be earned concurrently with or following the award of the baccalaureate degree from CSULB or another accredited institution. See pp. 102 and 114.

### Requirements

Twenty-four total units distributed as follows:

1. Twenty-one units which must include HIST 308I and an additional 18 units from the courses listed below. The courses taken in the program must be from a minimum of three departments. The selection of courses is made by the student in consultation with an adviser in the program;
2. Project paper (3 units). To be written during the senior year under the supervision of a faculty member participating in the Certificate Program. The paper can be either an exploratory project (in which a subject is researched in a detailed and original manner) or an analytic effort (where fewer sources are used but the discussion of the material is developed more fully).

### Legal Studies Courses

ASAM 346; B/ST 332; CRIM 301, 351; ECON 355; FIN 220, 320; HIST 306I, 308I, 479, 480, 489; PHIL 352, 451I, 452I; POSC 311, 312, 318, 376, 412, 414, 419; SW 350; COMM 441I; WST 308.

Persons interested in the Program for Legal Studies should contact Dr. Albie Burke, Director, Department of History.

The College of Liberal Arts provides courses in the Humanities and Social Sciences for all university students, as well as for majors in its disciplines. The College is also responsible for much of the General Education required of all students and provides professional training in Journalism. Through the Liberal Arts, students acquire a fundamental understanding of social and individual behavior and of cultures and belief systems in the past and present. Communication, verbal and written, in English and other languages, and across cultures, is a fundamental emphasis throughout the curriculum. Liberal Arts disciplines also emphasize the acquisition and analysis of information and its use to understand and to help resolve complex social problems. The College of Liberal Arts is the center of the university's commitment to developing greater knowledge and understanding of international and multicultural issues in the contemporary world.

### *Degree programs offered*

#### Bachelor of Arts:

Anthropology, American Studies, Asian Studies, Asian American Studies, Black Studies, Business Economics Chicano and Latino Studies, Chinese Studies, Classics, Comparative Literature, Economics, English, Environmental Science and Policy, Geography, French, French Studies, German, History, Human Development, International Studies, Italian Studies, Japanese, Journalism, Philosophy, Political Science, Psychology, Religious Studies, Sociology, Spanish, Speech Communication, and Women's Studies.

#### Master of Arts:

Anthropology, Asian Studies, Economics, English, French, Geography, German, History, Linguistics, Philosophy, Political Science, Psychology (with options in general research and in industrial and organizational psychology), Religious Studies, Spanish, and Speech Communication.

#### Master of Fine Arts in English

#### Master of Science in Psychology

#### Certificate Programs:

American Indian Studies, Asian Studies, Asian American Studies, Black Studies, Japanese, Latin American Studies, Legal Studies in the Liberal Arts, Medieval and Renaissance Studies, Russian-East European Studies, Teaching English as a Second Language, Technical and Professional Writing, and Urban Studies

#### Minor Programs:

American Indian Studies, Anthropology, Asian Studies, Asian American Studies, Black Studies, Chicano and Latino Studies, Comparative Literature, Classical Studies, English (Literature, Language and Composition, Creative Writing, Teaching, or Special Option), French, Geography, German, Greek, History, International Economics, Italian, Jewish Studies, Latin, Latin American Studies, Linguistics, Medieval and Renaissance Studies, Middle Eastern Studies, Philosophy, Political Science, Public Administration, Psychology, Religious Studies, Russian, Sociology, Spanish, Speech Communication, and Women's Studies.

## Language Courses:

Arabic, Chinese (Mandarin), Cambodian (Khmer), French, German, Greek, Hebrew, Italian, Japanese, Latin, Russian, Spanish, and Swahili.

## Special Facilities

The College operates special facilities including archeology, geography, language, psychology, writing, and general computer laboratories.

## Student Activities

Most of the departments in the College of Liberal Arts have either a student association or honor organization which provides students with a program of activities. Students should contact the department of their major to inquire about the kinds of organizations available to them or contact the College Coordinator for Student Life and Development, Anna Nazarian (985-4181).

The College and Associated Students promote the College Student Council with its representation from each department acting as liaison between the College administration, faculty, and members of the College's student body. The Student Council provides a forum for the development of student leadership skills.

## Internships

The College of Liberal Arts offers internships with on- and off-campus cooperating organizations designed to provide students with practice in the field under supervision. Many individual departments also offer discipline-based internships for advanced students.

## Credential Programs

Single subject credential programs are offered in English, French, German, Spanish, Japanese, and Social Science. Students who plan to teach these subjects in the secondary schools are strongly advised to consult the Credential Advisor in the appropriate program as early as possible in their studies, so that they fulfill subject matter preparation requirements while completing an undergraduate major.

## Credential Advisors

Japanese - Dr. Hsin-Sheng C. Kao (985-7530)  
Social Science - Dr. Arlene Lazarowitz (985-4423)  
English - Kathleen DiVito (985-4220)  
French, German, Spanish - Dr. Griselda Sasayama (985-4319)  
Latin - Dr. Elaine Wida - (985-8660)

## Courses (C/LA)

### Lower Division

#### 190. Special Topics (1-6)

Topics of special interest in the liberal arts. Topics will be announced in the *Schedule of Classes* each semester. May be repeated to a maximum of 6 units with different topics in the same semester.

#### 195. Introduction to the Learning Community-Transition to College Success (1)

Prerequisite: Acceptance into the Learning Alliance Program. This course will provide members of the Learning Alliance with an introduction to the learning community in the College of Liberal Arts. Will address scholarly and academic research skill development, literacy in basic computer skills including e-mail and the Internet, methods to integrate the two disciplines featured in the paired courses, and how to develop a personal academic and life

plan. Students will be able to initiate their community volunteer and service learning requirement for the program. Letter grade only (A-F).

#### 230. The Home in Comparative Perspective (3)

Prerequisite: Completion of GE Foundation. In almost all contexts where one finds human communities one also finds some term that refers to "home." In this course we will explore how the term "home" has been deployed in a number of different historical, political, social, economic, and geographical contexts. Through analysis of primary documents, secondary texts, and original independent research, students will explore the complex and often contradictory meanings associated with the term "home" and how human beings understand the home in terms of their own being.

#### 250. Elementary Statistics (4)

Prerequisites: Knowledge of mathematical procedures usually covered in elementary high school algebra. Introduction to descriptive and inferential statistics and their applications in social and behavioral science research; performance of statistical exercises by interactive computer. Emphasis upon knowledge of which statistical tests to use and how to interpret their results. Not open to students with credit in ANTH 302, MATH 180 or PSY 110. (Discussion 3 hours, laboratory 2 hours.) Same course as HDEV 250.

## Upper Division

General Education Category A must be completed prior to taking any upper division course except upper division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

#### 305. British Life and Culture (3)

This series of lectures with follow-up discussion and written responses is a required part of the London Semester Program. The lectures are designed to offer in-depth information on a wide range of social, artistic, and intellectual issues relevant to contemporary England. Although the course is specifically geared to students participating in the London Semester Program, the materials covered are closely related to many topics covered in classes offered during the rest of the students' work on campus.

#### 314I. Introduction to Contemporary Europe (3)

Prerequisites: Completion of the G.E. Foundation, one or more Exploration courses, and upper-division standing. An interdisciplinary introduction to contemporary European cultures and related issues through a combination of travel and study. Students will be introduced to some principles and methods useful for analyzing cultures and their own interactions with them. Same course as RGR 314I.

#### 315I. Contemporary European Society (3)

Prerequisites: Completion of the G.E. Foundation, one or more Exploration courses, and upper-division standing. An interdisciplinary approach to understanding cultural and political developments in contemporary European societies. Although the study of history serves as the foundation of the course, the perspectives and methodologies of several other social science disciplines are an important component of the course. Same course as RGR 315I.

#### 485. Oral History Methods (1)

Through a series of workshops and through field experience, skills in oral history will be developed which will enable students to use oral history either for their own personal use in family history or for class projects. Same course as HIST 402.

#### 490. Special Topics (1-3)

Topics of special interest in the liberal arts for intensive study. Topics will be announced in the *Schedule of Classes* each semester. May be repeated to a maximum of 9 units with different topics.

#### 491. Special Topics (2)

Topics of special interest in the liberal arts for intensive study. Topics will be announced in the *Schedule of Classes* each semester.

**495. Social Science for Teachers (3)**

Prerequisites: Students must have completed all coursework in the Social Science Subject Matter Program. A capstone course for students in the Social Science Subject Matter Program, to be offered just prior to student teaching. Examination of issues in social science education in accord with topics highlighted in the California History/Social Science Framework. A grade of "B" or better is required for advancement to student teaching. Letter grade only (A-F).

**496A./596A. Interdisciplinary Research Seminar (3)**

Prerequisite: Consent of Instructor. Intensive reading and discussion of the literature, methods and current issues in an interdisciplinary topic in the humanities and social sciences. May be repeated to a maximum of 6 units with different topics in different semesters.

**496B./596B. Interdisciplinary Research Seminar (3)**

Prerequisite: CLA 496A/596A and consent of Instructor. An intensive research on an interdisciplinary topic in the humanities and social sciences. May be repeated to a maximum of 6 units with different topics in different semesters.

**498. Directed Studies in Oral History (1-6)**

Permission of faculty required. Directed study on a research topic using the methodology of oral history. May be repeated to a maximum of 6 units. Same course as HIST 498O.

**Graduate Level**

**590./490. Special Topics (1-3)**

Topics of special interest in the liberal arts for intensive study. Topics will be announced in the *Schedule of Classes* each semester. May be repeated to a maximum of 9 units with different topics in different semesters.

**596A./496A. Interdisciplinary Research Seminar (3)**

Prerequisite: Consent of Instructor. Intensive reading and discussion of the literature, methods and current issues in an interdisciplinary topic in the humanities and social sciences. May be repeated to 6 units with different topics in different semesters.

**596B./496B. Interdisciplinary Research Seminar (3)**

Prerequisite: CLA 496A/596A and consent of Instructor. An intensive research on an interdisciplinary topic in the humanities and social sciences. May be repeated to 6 units with different topics in different semesters.

## Bachelor of Arts in Liberal Studies (120 units)

The Liberal Studies major provides a rich, rigorous cross-disciplinary liberal arts program of study. There are three programs in the major: 1) The Integrated Teacher Education Program (ITEP) is for students intending to become teachers who wish to combine subject matter preparation for elementary teaching with coursework leading to a Multiple Subject teacher credential; 2) Track I is for students who seek subject matter preparation for elementary teaching as preparation for a post-baccalaureate credential program; 3) Track II is for students with more varied professional or career goals who prefer a sound generalist program to one requiring early specialization.

### General Education and the Liberal Studies Major

The General Education requirements for students majoring in Liberal Studies are unique. The Liberal Studies program is not only an approved major, but also an approved alternate general education program. In completing the Liberal Studies major, students concurrently satisfy their general education requirements. Students changing to another major from Liberal Studies, however, will be subject to the standard university General Education requirements and will want to consult the Academic Advising Center for G.E. advising.

## The Liberal Studies Program

The program of study for the Liberal Studies major is composed of two parts: a Core and a Concentration. There are three program tracks in Liberal Studies, each with its own Core and related Concentrations.

The Integrated Teacher Education Program (ITEP) combines the study of academic subject matter for elementary school teaching with professional preparation and student teaching. Successful completion of ITEP includes both a Bachelor of Arts degree and a Multiple Subject teaching credential.

Track I of the Liberal Studies program is designed for those students who wish to pursue a Bachelor of Arts degree to prepare them in the academic subject areas relevant to elementary and special education teaching. Track I is an approved pre-professional program of subject matter preparation consistent with the standards established by the California Commission on Teacher Credentialing.

Track II of the Liberal Studies program is designed for those students who seek a rich, non-specialized, multi-dimensional and cross-disciplinary course of study as a foundation for life-long learning, enlightened citizenship, and a wide range of academic and career opportunities.

## INTEGRATED TEACHER EDUCATION PROGRAM

### Bachelor of Arts in Liberal Studies (code L/STBA03)

### Multiple Subject Credential - Cross Cultural and Academic Development Emphasis (code 200)

The Integrated Teacher Education Program (ITEP) combines the study of academic subjects aligned to California standards for the K-8 curriculum with professional preparation courses and field experiences leading to a Multiple Subject Credential.

Upon successful completion of the program, students will receive both a Bachelor of Arts in Liberal Studies and a preliminary Multiple Subject Credential. The B.A. portion of the program satisfies the subject matter competence requirements of the California Commission on Teacher Credentialing (CCTC) for multiple subject teachers. Within the Integrated Teacher Education Program there are 107 units of required baccalaureate-level coursework and 28 units of credential-specific coursework.

Students who complete the Core and courses, who have completed at least 125 hours of approved Service Learning, and who meet all other University requirements, but who do not advance to the Credential portion of the program, will be eligible to receive a B.A. in Liberal Studies and may apply for admission to the post-baccalaureate Multiple Subject Credential Program.

There are multiple pathways to the teaching profession. ITEP is designed for students who begin their undergraduate education at CSULB or who transfer into the University in pursuit of both a baccalaureate degree as well as a Multiple Subject teaching credential. Prospective credential candidates

who already hold a bachelor's degree, or who need information about other pathways and options in teacher credentialing, should refer to the sections of this catalog which describe programs in Teacher Education, Single Subject Teacher Education, and Educational Psychology, Administration and Counseling. Further information about teacher preparation programs can also be obtained from the College of Education at (562) 985-9259 or by e-mail: [cedinfo@csulb.edu](mailto:cedinfo@csulb.edu)

### General Education and the Integrated Teacher Education Program

As with other Liberal Studies majors, students in the Integrated Teacher Education Program have unique General Education requirements. ITEP is not only an approved major, but an approved alternate general education program. ITEP students receive their General Education advisement within the Liberal Studies office. In completing ITEP, students concurrently satisfy their general education requirements. Students changing their major from ITEP to a major other than Liberal Studies, however, will be subject to the standard University General Education requirements and will want to consult the Academic Advising Center for G.E. advising.

### The ITEP Curriculum

The ITEP curriculum has two interrelated components. Students complete required coursework in the ITEP Core and they complete coursework in the methodology of teaching, including student teaching. Admission to this final, Credential portion of the program requires that students apply and be accepted into the Multiple Subject Credential Program at CSULB. In addition, a minimum of 125 hours of service learning, coordinated by the SERVE Program in the College of Education, must be completed prior to graduation.

### Admission Under Impaction

To be eligible for admission to the Liberal Studies Teaching Tracks, applicants must have met requirements for admission to the university as a freshman or transfer student. Eligible applicants will be admitted on the basis of cumulative grade point average and space available.

### Admission to the Multiple Subject Credential Program

Prior to enrollment in EDEL 300, ITEP students must be formally admitted into the Multiple Subject Credential Program (MSCP) at CSULB. Students should apply to the MSCP during the semester prior to enrolling in EDEL 300. Admission to the MSCP requires that the candidate: 1) purchase the MSCP for ITEP Handbook; 2) complete EDEL 200; 3) attempt the California Basic Educational Skills (CBEST) examination; 4) attain a cumulative grade point average of at least 2.67 or 2.75 in the last 60 units of study; 5) submit a portfolio which includes a SERVE evaluation as well as a typed personal statement describing why you have chosen teaching as a career, what you hope to accomplish as a teacher, and how you view the role of the teacher; 6) attend an interview panel; 7) submit a negative tuberculosis skin test or chest X-ray taken within the last three years. Note: The California Subject Examination for Teachers: Multiple Subjects (CSET) must be passed to advance to student teaching.

### The ITEP Core

A minimum of 107 units distributed in Areas I, II, III, IV, V, VI and VII. No Core classes may be taken credit-no credit.

### Area I: Language Studies (minimum 22 units)

Group 1. Composition in English: Choose one course from ASAM 100, B/ST 100, CHLS 104, ENGL 100

Group 2. Applied Composition: ENGL 309

Group 3. Oral Communication in English: Choose one course from COMM 130, 335

Group 4. Survey of Literature: Choose one course from ENGL 180, 184, 250 A or B, 270 A or B, 375

Group 5. Children's Literature: ENGL 481

Group 6. Language Acquisition: Choose one course from C D 329, ED P 454, LING 329

Group 7. Integration and Assessment: L/ST 400

### Area II: Mathematics (minimum 12 units)

Group 1. Probability and Activities-Based Statistics: MTED 105

Group 2. Real Numbers: MTED 110

Group 3. Higher Math: MTED 211

Group 4. Integration and Assessment: MTED 402

### Area III: Natural Science (minimum 15 units)

Group 1. Physical Science: CHEM 105, PHSC 112

Group 2. Earth Science: Choose from: GEOL 102+104, 106\* (\*GEOL 106 is the preferred course)

Group 3. Life Science: BIOL 200

Group 4. Integration and Assessment: SCED 401

### Area IV: History/Social Science (minimum 19 units)

Group 1. American History: Choose one course from HIST 172, 300

Group 2. California History: HIST 473

Group 3. American Institutions: Choose one course from POSC 100, 326\*, 391 (\*POSC 326 is limited to and only required of students who have met the U.S. Constitution requirement in a state other than California or through Advanced Placement credit and who must meet the Title V California State and Local Government requirement.)

Group 4. Multicultural Dimensions: Choose one course from AIS/ASAM/BST/CHLS/ 215, AIS/ ASAM/BST/CHLS/ WST 319, ANTH 421/LING 425

Group 5. World History/Geography: Take either HIST/ GEOG 250\*, or HIST 211+ GEOG 100 (\*HIST/GEOG 250 is the preferred course)

Group 6. Integration and Assessment: L/ST 471

### Area V: Arts and Humanities (minimum 15 units)

Group 1. Music: MUS 180

Group 2. Visual Art: ART 300

Group 3. Dance or Theater: Choose one course from: C/ LT 124, 324I, DANC 110, 179, THEA 113, 122, 124, 324I

Group 4. Ethics, Values and Beliefs: Choose one course from PHIL 100, 160, 160W, 203, 204, 305, R/ST 100, 202, 485

Group 5. Integration and Assessment: L/ST 404

### Area VI: Critical Issues in Teaching and Learning (minimum 17 units)

Group 1. Information and Technology Competencies: Choose one course from ETEC 110\*, 444 (\*ETEC 110 is the preferred course)

Group 2. Critical Thinking: Choose one course from: A/ST 190, COMM 131+131W, ENGL 102, HIST 101, PHIL 170, POSC 105, PSY 130

Group 3. Family and School Partnerships: EDP 355

Group 4. Child Development and Learning: Choose one course from: EDP 301, HDEV 307I

Group 5. Physical Education: KPE 476

Group 6. Health Science: H SC 411A

Area VII: Introduction to Elementary Education (Minimum 7 units)

Group 1. Teaching and Learning: EDEL 100, 200, 300

### Credential Coursework in ITEP

(Minimum 28 units)

1. Teaching and Learning Reading, K-8: EDEL 452
2. Teaching and Learning Mathematics, K-8: EDEL 462
3. Teaching and Learning Social Science in Diverse Classrooms, K-8: EDEL 472
4. Teaching and Learning Science, K-8: EDEL 475
5. Student Teaching in Diverse Classrooms: EDEL 482D

### Student Teaching in ITEP

As the final phase of the credential program, student teaching is a half-day for four days and a full day for one day per week for two semesters. All student teachers have one placement in a K-2 classroom and one in a 3-6 classroom.

A separate application is required to advance to student teaching. Applications for student teaching must be submitted in person to the Field Programs Office one semester prior to the first assignment. Application packets are distributed at the student Teaching Application meetings, which are held during the first two weeks of each semester. Dates, times, and locations are announced in methods courses, are posted throughout the ED1 and ED2 buildings and appear on the Department of Teacher Education Website well in advance of actual meeting dates. Deadlines for submitting applications to student teach are:

March 1—to begin student teaching in the Fall semester

October 1—to begin student teaching in the Spring semester

Students should note that these deadlines are firm. Late applications are not accepted.

Students must meet the following requirements to advance to student teaching:

1. Demonstration of subject-matter competence by passage of all three parts of the California Subject Examination for Teachers: Multiple Subjects (CSET: Multiple Subjects).
2. Passage of the California Basic Educational Skills Test (CBEST).
3. A negative tuberculosis skin test or chest x-ray valid through the completion of student teaching.
4. Proof of character clearance (fingerprint background check).
5. Completion of professional preparation courses (in the MSCP) with a grade-point-average of 3.0 in all subject-specific pedagogy (methods) courses with no grade lower than a "C."
6. Submission of a Student Teaching Application by the appropriate deadline.

## Asian Language BCLAD

### Requirements

The Bilingual Cross-Cultural Language and Academic Development (BCLAD) Emphasis authorizes teachers to work in dual language classrooms or where a language other than English is required for instruction, support, and communication with parents and other professional communication. The BCLAD Asian Language Emphasis is part of a six campus CSU consortium offering BCLAD preparation and certification in Cambodian (Khmer), Chinese (Mandarin or Cantonese), Korean, or Vietnamese. Courses are taken at CSULB and at other area CSU campuses.

Students seeking dual language certification in Asian Languages must complete the Language Studies Core. They also must fulfill the following additional requirements in one of the Asian language emphases (Mandarin or Cantonese, Khmer, Korean, Vietnamese):

1. Culture Emphasis (one of the following, 3 units):
  - Chinese: EWS 301, Ethnic Identity: Chinese Americans (Cal Poly Pomona)
  - Cambodian: ASAM 334, Cambodian American Experience (CSU Long Beach)
  - Korean: AAS 450, The Asian American Child and the Schools (CSU Northridge)
  - Or TED 495 Introduction to Korean Culture & Korean American Communities (CSU Dominguez Hills)
  - Vietnamese: ASAM 333 Vietnamese American Experience (CSU Long Beach)
2. Bilingual Pedagogy in the Language of Emphasis (one of the following, 3 units):
  - Chinese: EDEL 400 Proseminar: Curriculum and Teaching of Reading (CSU Los Angeles)
  - OR EDEL 452C Biliteracy: Teaching English and Chinese, K-8 (CSU Long Beach)
  - Cambodian: EDEL 452K, Biliteracy: Teaching English and Khmer, K-8 (CSU Long Beach)
  - Korean: EED 520K, Teaching Reading in the Elementary School (CSU Northridge) OR TED 515A, Bilingual Education: Reading, Language Arts and Content in the Primary Language (Korean) (Cal Poly Pomona)
  - OR TED 494S, Teaching for Biliteracy Development in Culturally and Linguistically Diverse Settings: Korean Bilingual Instruction (CSU Dominguez Hills)
  - Vietnamese: EDEL 452V, Biliteracy: Teaching English and Vietnamese, K-8 (CSU Long Beach)
  - OR EDEL 448 Methods & Inquiry for Vietnamese BCLAD Candidates (CSU Fullerton)

Note: Culture of Emphasis and Bilingual Pedagogy courses may be taken before admission to the MSCP. See the Coordinator of the Asian BCLAD Consortium for information.
3. Passage of BCLAD subtest #6 in Cantonese, Khmer, Korean, Mandarin or Vietnamese language (listening, speaking, reading, and writing).
4. Student teaching in Bilingual Classrooms EDEL 482E (8 units). This requirement may be used as a substitute for one semester of 482D.

## Spanish Language BCLAD

### Requirements

The Bilingual Cross-Cultural Language and Academic Development (BCLAD) Emphasis authorizes teachers to work in dual language classrooms or where a language other than English is required for instruction, support, and communication with parents and other professional communication. The BCLAD Spanish Emphasis is offered on campus or through the BCLAD in Mexico program.

Students seeking dual language certification must complete the ITEP Core in addition to these additional components for Spanish/English BCLAD:

1. Culture of Emphasis (one of the following, 3 units)  
CHLS 340 Latinos and Education, or CHLS 350, Latino Population in the US.
2. Bilingual Pedagogy of Emphasis (3 units): EDEL 452B, Teaching Reading in Spanish & English, K-8 (BCLAD).
3. Passage of BCLAD subtest #6 Spanish (4 parts: listening, speaking, reading and writing).
4. Student Teaching in Bilingual Classrooms: EDEL 482F (8 units), This requirement may be used as a substitute for one semester of EDEL 482D.

## Education Specialist ITEP

### Requirements

The Education Specialist ITEP Pathway allows students to work towards a Level I Education Specialist Credential while completing their MSCP ITEP requirements. Students should formally apply to the Education Specialist Credential program at the same time they apply to the MSCP as described earlier. Education Specialist ITEP students must complete all ITEP Core courses taking EDP 454 in Area I, Group 6 and EDP 301 in Area IV, Group 4. Education Specialist ITEP students must complete all MSCP ITEP Credential Coursework and requirements as well with the following exception: Students will complete only one semester of student teaching in a general education classroom instead of two.

Education Specialist ITEP students will then complete all Education Specialist Level I coursework and Field Study as listed below:

- Education of Exceptional Individuals EDP 350
- Foundations of Inclusive Education EDP 480
- Positive Strategies in Classroom Management EDP 405
- Assessment and Evaluation of Students with Disabilities EDP 564
- Curriculum and Instruction for Students with Disabilities: Literacy, Communication, Social, and Physical Education EDP 567
- Curriculum and Instruction for Students with Disabilities: Math, Science, and Life Skills EDP 569
- Advanced Field Study and Seminar: Education Specialist Credential in Mild/Moderate or Moderate/Severe Disabilities EDP 587 or 588B

## TRACK I (code L/STBA01)

### Admission Under Impaction

To be eligible for admission to the Liberal Studies Teaching Tracks, applicants must have met requirements for admission to the university as a freshman or transfer student. Eligible applicants will be admitted on the basis of cumulative grade point average and space available.

### Requirements

The minimum unit requirement for the Liberal Studies major, Track I, is 114 units which includes both Core and Concentration. The Track I program is both a major and an approved General Education program. This means that both General Education and major requirements are satisfied by completion of the Track I program.

The Track I Core consists of a minimum of 102 units distributed across six areas: I. Language Studies (minimum 22 units); II. Mathematics (minimum 9 units); III. Natural Sciences (minimum 14 units); IV. History and Social Sciences (minimum 24 units); V. Arts and Humanities (minimum 15 units) and VI. Learning and Well-Being (minimum 18 units). No course in the Track I core may be taken Credit/No Credit.

The Track I Concentration consists of 12-16 units of integrated course work with advisor approval. No course in the Track I concentration may be taken Credit/No Credit, and no course used to meet Core requirements may be counted toward the concentration.

In addition 120 hours of approved service-learning in an elementary or middle school must be completed prior to graduation as a means to learning about cultural diversity in the community, about current problems besetting students in the public schools, about successful intervention strategies for students needing special attention, and promotion of individual civic responsibility.

### Requirements

#### Service Learning

The way to earn the required 120 hours of Service Learning is participation in the SERVE (Service Experience for Revitalizing Education) program, which provides orientation and training in addition to school placements. To participate in SERVE, students must have a 2.0 grade-point average, current TB clearance, and be available for either 2 two-hour time blocks or 1 four-hour time block during public school hours over a 10 week period during the semester. For further information and the schedule for orientation and training sessions, contact the Liberal Studies office or SERVE office (ED1).

#### Track I Core

A minimum of 102 units distributed as specified in Areas I, II, III, IV, V and VI. No core classes may be taken Credit/No Credit  
Area I: Language Studies (minimum 22 units)

Group 1. Composition in English:

- a) Choose one course from ASAM 100, B/ST 100, CHLS 104, ENGL 100;
- b) ENGL 309

Group 2. Oral Communication in English:

Choose one course from COMM 130, 335

Group 3. Literature in English:

- a) Choose one course from CWL 100, ENGL 180, 250A, 250B, 270A, 270B;

b) Choose one course from ENGL 481, COMM 352

Group 4. Language Acquisition: Choose one from either a) or b):

a) C/D 329, EDP 454, LING 329;

b) CHIN 201, 202, FREN 201A, 201B, GERM 201A, 201B, ITAL 201A, 201B, JAPN 201, 202, RUSS 201A, 201B, SPAN 201A, 201B (Students with more advanced language competencies substitute appropriate higher level language courses for those listed here.)

Group 5. Integration and Assessment: L/ST 400

Area II: Mathematics (minimum 9 units)

Group 1. Real Numbers: MTED 110

Group 2. Higher Math:

Choose one course from MTED 211\*

(\*Students who choose a Math Concentration must take MTED 312 instead of MTED 211.)

Group 3. Integration and Assessment. MTED 402

Area III: Natural Sciences (minimum 14 units)

Group 1. Life Science: BIOL 200

Group 2. Physical Science: PHSC 112

Group 3. Earth Science: GEOL 102 + 104

Group 4. Integration and Assessment: SCED 401

Area IV: History and Social Sciences (minimum 24 units)

A. American History, Culture, Society

Group 1. U.S. History:

a) Choose one course from HIST 172, 300;

b) HIST 473

Group 2. American Institutions:

Choose one course from POSC 100, 391, \*326

(\*POSC 326 is limited to and only required of students who have met the U.S. Constitution/Government requirement in a state other than California or through Advanced Placement Credit and who must meet the Title V California State and Local Government requirement.)

Group 3. Multicultural Dimensions:

Choose one course from AIS 319, ANTH 421/LING 425, ASAM 319, B/ST 319, CHLS 319, W/ST 319

B. World History, Culture, Society

Group 1. Geography:

Choose one course from GEOG 100, 100W

Group 2. World History:

Choose one course from HIST 211, 212

Group 3. Cultural Anthropology:

Choose one course from ANTH 120, 314, 412I

Group 4. Integration and Assessment: L/ST 403

Area V: Arts and Humanities (minimum 15 units)

A. Visual and Performing Arts

Group 1. Visual Art and Music:

a) ART 300;

b) MUS 180

Group 2. Dance or Theatre:

Choose one course from CWL 124, 324I, DANC 110, THEA 113, 122, 124, 324I

B. Humanities

Group 1. Ethics, Values and Beliefs:

Choose one course from PHIL 100, 160, 160W, 203, 204, 305, R/ST 100, 202, 485

Group 2. Integration and Assessment: L/ST 404

Area VI: Learning and Well-Being (minimum 18 units)

Group 1. Growth and Development:

a) PSY 100;

b) Choose one course from EDP 301, HDEV 307I, PSY 361

Group 2. Health and Well-Being:

a) HSC 411A;

b) KPE 476

Group 3. Access to Learning:

a) Choose one course from: A/ST 190, ENGL 102, HIST 101, PHIL 170, PSY 130, COMM 131 + 131W, \*UHP 100 (\*UHP 100 is limited to students in the University Honors Program);

b) Choose one course from ENGL 337, ETEC 444, MTED 301

## Track I Concentration

A minimum of 12 units with advisor approval, at least 9 of which must be at the upper-division (300-400) level (with the exception of the Natural Science concentration) in one of the thematic programs of study identified below. No concentration course may be taken Credit/No Credit. No course used to fulfill a core requirement may be used to fulfill a concentration requirement.

Students must gain approval for a concentration and curricular plan. Normally the proposal is submitted before the student begins to take courses in the concentration. The proposal may be made in writing, or may be brought directly to a faculty advisor for approval. Subsequent modifications of the concentration curriculum must also be approved.

## Bilingual Spanish-English

Subject preparation for a Multiple Subject Credential with a bilingual, cross-cultural, language and academic development (BCLAD) emphasis requires students to demonstrate proficiency in a targeted language and understanding of the culture of a targeted group. This concentration focuses on the Spanish language and Latino culture to be consistent with the requirements of the BCLAD emphasis in the CSULB credential program. The primary focus of the concentration is development of language skills. Students with demonstrated language proficiencies in reading, writing and speaking at an advanced level may seek to substitute additional culture studies for required language classes. Prior to proposing this concentration or completing any course work toward it, students should meet with the Spanish undergraduate advisor who will be able to determine language proficiencies. (The following Core classes are highly recommended for students proposing this concentration: CHLS 319 in Area IV, A, Group 3; ANTH 412I in Area IV, B, Group 3; EDP 301 in Area IV, Group 1b.)

Complete 15 units from:

Area 1. Language Foundations (9 units): SPAN 300, 322

Area 2. Literary Analysis (3 units): SPAN 310

Area 3. Culture Study (3 units) from: CHLS 340, CHLS 350/SOC 340

## Cultures, Values and Beliefs

Focus is on humanistic study of cultural traditions, both Western and non-Western, and the values and beliefs that have shaped them. Insight will be gained into motivating and orienting ideas that have given meaning to individual lives and structured human relationships. Special attention is given to religious, philosophical and ethical perspectives. (No course used to meet requirements of the core may be used to meet the requirements of the concentration; no more than 3 units of lower division (100-200) course work may apply toward the concentration.)

Complete 15 units from:

### Area 1. Western Culture (3 units):

Choose from CLSC 310I, CWL 310I, 414I, HIST 310I, 323I, 335, 337, 339, 400I, 414I, 477A, 477B

### Area 2. Non-Western Cultures (3 units):

Choose from ANTH 321, 323, 324, 332, 333, 335, A/ST 300I, 301I, 393I, 495I, HIST 382A, 382B, 383A, 383B, 385, 431, 441, 461, RUSS 410I

### Area 3. Values and Beliefs/Western (3 units):

Choose from HIST 371, PHIL 100, 203, 204, 330, 342, 352, 361, R/ST 102, 383I, 391I, 425I, 482I, 485

### Area 4. Values and Beliefs/Non-Western (3 units):

Choose from AIS 335, ASAM 380, B/ST 353, PHIL 306, R/ST 103, 331I, 341I, 343, 344, 351

### Area 5. Ethical Values (3 units):

Choose from MICR 302I, PHIL 160, 160W, 363, R/ST 302I

## Health, Physical Education and Life Management

Provides students with a breadth and depth of knowledge, attitudes and behaviors that prepares them in the areas of health, physical education and fitness, mental health, family life and nutrition. The areas of emphasis include substance use and abuse, family life/health and sexuality education, nutrition, violence prevention (including child abuse and suicide prevention), physical activity and fitness, motor skills and stress management. (Credit in the concentration will be granted for either HSC 425I or FCS 419, but not both.)

Complete 15 units from:

### Area 1. Health (3 units):

Choose from HSC 421, 423, 425I, 427

### Area 2. Physical Education (3 units): KPE 477

### Area 3. Life Management (3 units):

Choose from FCS 132, 319, 419, REC 371

### Area 4. Additional Selected Study (6 units):

Choose from those listed in Areas 1 and 3 not completed.

## Historical Perspectives

Prepares students in the subjects identified in the History-Social Science Framework for California Public Schools which provides the rationale and coherence for this course work. Emphasis is upon historical perspective not only in terms of Western/American tradition, but also in terms of other world societies and peoples. (The following core courses are recommended for students choosing this concentration: HIST 111 in Area IV, B, Group 2; ANTH 314 in Area IV, B, Group 3 and AIS, ASAM, B/ST, CHLS or W/ST 319 in Area IV, A, Group 3.)

Complete 15 units from:

### Area 1. Peoples of the World (3 units):

Choose from ANTH 321, 323, 324, 332, 333, 335, GEOG 309I, 316, 318, 320I, 326

### Area 2. Ancient World Civilizations (3 units):

Choose from ANTH 313, 345, 347, A/ST 300I, HIST 313, 314, 316, 382A, POSC 301

### Area 3. U.S. Emerges as a Nation (3 units):

Choose from HIST 372, 375, 477A, 485A, W/ST 485A

### Area 4. California (3 units):

Choose from ANTH 322, 349, CHLS 300, GEOG 304, HIST 370, POSC 326

### Area 5. American Society Today (3 units):

GEOG 306, 466, HIST 380, 474I, W/ST 307I

## History/Social Science

In addition to deepening their knowledge of specific subjects in this area of study, students with a concentration in History/Social Science will be exposed to the specific modes of inquiry characteristic of such disciplines as history, anthropology and geography. Each student pursuing a History/Social Science Concentration will choose one of the following areas of emphasis: California Studies, United States Studies, or Global Studies. California Studies is most appropriate for 4<sup>th</sup> grade teaching, United States Studies for 5<sup>th</sup> or 8<sup>th</sup> grade teaching, and Global Studies for 6<sup>th</sup> grade teaching. Within each area of emphasis, each student will take one course in each of the following areas: 1) Anthropological Perspectives, 2) Historical Perspectives, 3) Social and Cultural Perspectives, 4) Geographic Perspectives.

Complete 12 units from:

### California Studies

#### Group 1: Anthropological Perspectives:

Choose one course from: ANTH 412I, ANTH 421/LING 425

#### Group 2: Historical Perspectives:

Choose one course from AIS 490, ANTH 349, ASAM 200, 220, 335I, C/LA 485, CHLS 300, 335I, HIST 370, 402, 462, 471, 482

#### Group 3: Social and Cultural Perspectives:

AIS 335, ANTH 322, ASAM 330, 331, 332, 333, 334, CHLS 352/SOC 341, POSC 323, POSC 326

#### Group 4: Geographic Perspectives: GEOG 120, 304

### United States Studies

#### Group 1: Anthropological Perspectives:

Choose one course from: ANTH 412I, ANTH 421/LING 425

#### Group 2: Historical Perspectives:

Choose one course from AIS 105, ANTH 347, ASAM 200, 220, 335I, B/ST 120, 190, 381, CHLS 300, 335I, 390I, ECON 360I, HIST 370, 372, 373, 376, 481, 485A, W/ST 485A

#### Group 3: Social and Cultural Perspectives:

Choose one course from AIS 335, ANTH 321, ANTH/W/ST 475, ASAM 330, 331, 332, 333, 334, 340, 345, 346, 347, 352, 370, 380, 381, B/ST 353, 400, 410, 420, 423,

424, CHLS 310, 340, 350, 415, ECON 300, HIST 381, 469, 471, 474I, 485B, 486, LING 470 POSC 323, 395I, 420, 423, 424, SOC 320, 325, 340, 345, 346, 423, 466, SW 423, W/ST 102, 308, 315, 318I, 320, 325, 381, 485B, 420, 430

Group 4: Geographic Perspectives:

Choose one course from GEOG 120, 306, 401, 466, U/ST 301I

### Global Studies

Group 1: Anthropological Perspectives:

Choose one course from: ANTH 412I, ANTH 421/LING 425

Group 2: Historical Perspectives:

Choose one course from ANTH 307I, ANTH 345, A/ST 300I, A/ST 301I, B/ST 200, 304, 430, 498, ECON 361I, GEOG 307I, HIST 211, 304, 362, 364, 382A, 382B, 383A, 383B, 385, 386, 391, 392, 396, 431, 432, 492, POSC 401, W/ST 402

Group 3: Social and Cultural Perspectives:

ANTH 314, 323, 332, 335, 351, A/ST 320, 393I, 495I, B/ST 337, 404, 460, CHIN 250, ECON 306I, HIST 406B, 466C, POSC 220, 371, 388I, 395I, SOC 350, 466, 494, W/ST 401I, 406, 410, 432

Group 4:

GEOG 160, 308I, 309I, 314I, 316, 319, 320I, 355, 455, 460, I/ST 319I, 355, POSC 358, 359, 362, 363, 366, 367

### Human Behavior

Provides an understanding of basic principles underlying human behavior. Why do people interpret, believe, feel, think and act as they do? Basic issues include: How people process information and how they organize what they learn into knowledge structures; processes in social learning; how people influence other people and individual differences in ability and personality that affect behavior. These principles will be applied to specific issues in courses selected from a broad range of disciplines. (Credit in the concentration will be granted for either PSY 351 or SOC 335I, but not for both.)

Complete 15 units from:

Area 1. Basic Principles (6 units):

Choose from ANTH 311I, PSY 351, 356, 370, SOC 100, 335I

Area 2. Application/Race and Ethnicity (3 units):

Choose from ANTH 419, ASAM 340, B/ST 310, 325, 410

Area 3. Application/Gender Roles (3 units):

Choose from ANTH 351, FCS 358, HIST 309I, PSY 352, 354, 366, SOC 325, W/ST 314, 325, 420

Area 4. Application/Social Environments (3 units):

Choose from ANTH 436, FCS 309I, 410, FIN 309I, HSC 421, POSC 428, PSY 381, SOC 320, 336

### Human/Child Development

Provides students with a background in the developmental issues of children, adolescents and adults within a family and social context. Specific areas focus on the intellectual and socio-emotional development of individuals from birth through aging and the effects of the near environment on their development. Factors which effect individual variability in growth and development such as gender, family, racial, ethnic and cultural

differences will be explored. (The following core courses are REQUIRED for students selecting this concentration: AIS, ASAM, B/ST, CHLS or W/ST 319 in Area IV, A, Group 3 and ANTH 120 in Area IV, B, Group 3.)

Complete 15 units from:

Area 1. Intellectual and Social Development (3 units):

Choose from EDP 305, FCS 314, PSY 463

Area 2. Adult Development (3 units):

Choose from GERN 400I, HDEV 357I, PSY 365, SOC 464

Area 3. The Child in the Family (3 units):

Choose from ASAM 340, B/ST 410, FCS 319, 412, 413

Area 4. Social Ecology of Child Development (6 units):

Choose from B/ST 420, CHLS 350/SOC 340, EDP 302, 350, 485/LING 485, FCS 411, 430, HDEV 360, NRSG 481I, SOC 345, SOC/SW 423

### Language Arts

Provides students with special appreciation for languages, literatures, and their relation to culture through study in three areas: Language perspectives, which involves the study of languages (and/or language) and their relationships to literary and cultural patterns; theory and/or criticism which provides the theoretical tools for the analysis and explanation of those relationships and language process which involves additional practice in the creative and technical aspects of producing linguistic products. (The following core classes are highly recommended for students selecting this concentration: COMM 335 in Area I, Group 2; ANTH 412I in Area IV, B, Group 3; PHIL 100, 160, 203, 204 or 305 in Area V, B, Group 1 and ENGL 200 in Area VI, Group 3a. No more than 3 units of lower division (100-200) course work may apply toward the concentration.)

Complete 15 units from:

Area 1. Language and Culture (3 units):

Choose from ANTH 413, 475, B/ST 180, ENGL 423, 426, LING 413, 423, 426, 363I, 470, COMM 309, 330, W/ST 475

Area 2. Language and Literature (3 units):

Choose from AIS 340, A/ST 320, B/ST 140, 343, CHIN 370, CLSC 191, CWL 403, 404, 410, 440, 453, ENGL 382, 431, FREN 335, 336, GERM 415, 416, JAPN 370, RUSS 310, SPAN 330, 341, W/ST 382

Area 3. Language/Theory and Criticism (3 units):

Choose from CWL 361, ENGL 318I, 384, 410, 484, PHIL 361, 484, R/ST 301, FEA 318I, COMM 300, 301, 306, 333, THEA 426

Area 4. Language and Process (3 units):

Choose from B/ST 450, ENGL 205, 206, 317, 405, 406, 417, COMM 331, 358, THEA 380

Area 5. Additional Selected Study (3 units):

Choose from ENGL 375, LING 472, COMM 355

### Language and Literacy

Students in the Language and Literacy concentration develop their knowledge of and appreciation for Literature while also engaging enhancing their ability to deal with literacy education through additional study of linguistics and culture.

Complete 12 units from:

Group 1. Exploring Literature:

Choose two courses from AIS 340, ASAM 260, 360, B/ST 340, 343, 346, CHIN 370, CHLS 205, CWL 100, 415I, ENGL 180, 250A, 250B, 270A, 270B, 363, 375, 382, 385, 386, 482, JAPN 370, W/ST 382

Group 2. Sociolinguistics and Schooling: LING/EDEL 379

Group 3. Language, Literacy and Culture:

Choose one course from: ANTH 413, 475, COMM 309, 330, 355, EDEL 430, 439, EDP 432, 439, 485, EDSE 439, ENGL 300, 327, 410, 435, 436, LING 327, 413, 470, 485, 486, W/ST 475.

## Language Other Than English

Provides opportunity for students to gain access to advanced preparation in reading, writing and speaking a selected language other than English. Provides insights into second language acquisition and the intimate relationships linking language, cognition and culture. Students select one language in which to complete the following requirements:

Complete 15 units from:

Area 1. Advanced Language Study (6 units):

Choose from CHIN 301, 302, FREN 312A, 312B, GERM 301, 302, ITAL 312A, 312B, JAPN 301, 302, RUSS 312, 399

Area 2. Conversation (3 units):

Choose from CHIN 490, FREN 214, GERM 305, ITAL 214, JAPN 311, RUSS 314, SPAN 314

Area 3. Literature (3 units):

Choose from CHIN 370, FREN 335, 336, GERM 415, 416, ITAL 490, JAPN 471, RUSS 310, SPAN 330, 341

Area 4. Additional Study (3 units):

Choose from CHIN 490, FREN 314, 411, 414, GERM 303, 401, ITAL 314, 490, JAPN 312, 350, 461, RUSS 499, SPAN 322

## Mathematics

Provides advanced study of mathematics consistent with the philosophy of the California Framework in Mathematics and Standards of the National Council of Teachers of Mathematics for the mathematics content taught through the middle grades. (The following core courses are REQUIRED for students choosing this concentration: MTED 312 in Area II, Group 2; MTED 301 in Area VI, Group 3b.) Students choosing the Mathematics Concentration must complete MTED 312 with a "C" or better grade prior to registering for MTED 402.

Complete 12 units from:

Group 1. Probability and Activities-Based Statistics: MTED 105 (must be completed prior to enrollment in MTED 402)

Group 2. History of Mathematics: MTED 315

Group 3. Number Theory and Algebraic Structures: MTED 320

Group 4. Functions, Models and Concepts of Calculus: MTED 325

## Natural Science

The two pathways in the Natural Science concentration provide students with fundamental skills and abilities to deal confidently with a wide variety of scientific viewpoints applied to various important issues, as well as concrete and significant examples of scientific thinking. Pathway A is a "breadth" pathway which is particularly appropriate for future K-5 teachers. In Pathway A students choose at least one course from three different groups. Pathway B is a "depth" pathway which is particularly appropriate for future teachers of grade 6-8 as well as for students who prefer a stronger emphasis on investigation and experimentation. In Pathway B students choose at least three courses from a single group.

Complete 12 units from:

*Pathway A – Breadth* – Choose coursework from EACH of the following groups:

Group 1. Earth Science:

Choose one course from: GEOL 160, 190, 240, 300I

Group 2. Life Science:

Choose one course from: BIOL 100, 153, MICR 101, 300I

Group 3. Physical Science:

Choose one course from: ASTR 100, CHEM 100, 111A, PHYS 100A

Group 4. Additional Coursework:

If necessary to reach 12 units in the Concentration, choose from GEOL 105, ASTR 100L, NSCI 309I, 375I or any additional class from those listed above.

*Pathway B: Depth* – Choose an option and take three courses in that option:

Earth Science Option:

Choose three courses from: GEOL 160, 190, 240, 300I, 341, GEOL/BIOL 303

Life Science Option:

Choose three courses from: BIOL 100, 153, GEOL/BIOL 303, MICR 101, 300I

Physical Science Option:

Choose three courses from: ASTR 100, CHEM 100, 111A, 111B, 202, 302, PHYS 100A, 100B

Additional Coursework:

If necessary to reach 12 units in the Concentration, choose from ASTR 100L; NSCI 309I, 375I, or any additional class from any other of the options listed above.

## U.S. Multicultural Studies

Students should learn from their earliest school years that our nation is composed of people whose backgrounds are rooted in cultures from around the world, and they should develop respect for the dignity of all people and ways of life. This concentration will help potential teachers to recognize that the history of community, state, region and nation must reflect the experience of men and women of different racial, religious and ethnic groups in our pluralistic society. (The following core course is REQUIRED for students choosing this concentration: AIS, ASAM, B/ST, CHLS or W/ST 319 in Area IV, A, Group 3. Courses selected should include all four major U.S. ethnic groups. No more than 3 units of lower division (100-200) course work may apply toward the concentration and no course used to satisfy a core requirement may be used to satisfy a concentration requirement.)

Complete 15 units from:

Area 1. Education in an Ethnic Perspective (3 units):

Choose from AIS 361, ASAM 310, B/ST 420, CHLS 340

Area 2. Multicultural Perspectives (3 units):

Choose from ANTH 412I, 421/LING 425, EDP 432/EDEL 430, FCS 336, HDEV 360, COMM 330, W/ST 401I

Area 3. Ethnic Studies (9 units):

No more than one course may be selected from 100-200 level courses and from any one department (courses cross-listed with CHLS will be considered CHLS department courses in this context). Choose from AIS 105, 106, 200, 320, 340, 420, ASAM 220, 340, 345, 370, 380, B/ST 110, 180, 370, 400, 410, CHLS 300/HIST 370, CHLS 310, CHLS 350/SOC 340, CHLS 352/SOC 341, CHLS 390I

## Visual and Performing Arts

Allows students to develop skills in responding to the arts as well as in creating and performing. Courses will examine the history of traditional Western fine arts as well as the role the arts play in another cultural tradition. All four components of the California Framework for the Visual and Performing Arts are addressed: Aesthetic perception, creative expression, arts heritage and aesthetic valuing.

Complete 15 units from:

Area 1. Perception, Expression, Heritage, Valuing (6 units):

ART 302 (Course no longer offered. See Liberal Studies director for substitution.), MUS 385

Area 2. Fine Arts History (6 units):

If a Theatre course was taken in the Core, include at least one Dance course here. Choose from AH 401, 408, 409, 410, 416, 417, 423, 424, 425, 426, 427, 436, 437, CWL 422I, DANC 110, 435I, MUS 363I, 364I, 393

Area 3. Multicultural and Ethnic Arts (3 units):

Choose from AIS 320, 420, AH 455, 456, 457, 466, 467, 468, 469, 470A/B, B/ST 346, 363, MUS 490

## TRACK II (code L/STBA02)

Students in this track complete a Core program (87 units minimum) and a Concentration (24-32 units). The Track II program is both a major and an approved General Education program. This means that both General Education and major requirements are satisfied by completion of the Track II program. A minimum of six units of interdisciplinary course work (courses with an I suffix) must be completed in the major—in either the core, the concentration or a combination of both. Course work used to meet the specific requirements of the core may also be used to meet the specific requirements of a concentration to a maximum of 12 units of such “double counting” or “overlapping.” (Although one course may satisfy two requirements at the same time, the units earned apply to the total units required for the degree only once.) Minimum units for the Liberal Studies major, Track II, could vary from 99-119 units depending on choice of concentration and potential for overlapping core and concentration requirements.

The Track II Core consists of a minimum of 87 units distributed across seven areas: I. Language and Communication Studies (minimum 18 units); II. Natural Science and Mathematics (minimum 18 units); III. National and World Citizenship

(minimum 18 units); IV. Social and Behavioral Science Foundations (minimum 9 units); V. Literary, Visual and Performing Arts (minimum 12 units); VI. Cultures, Values and Beliefs (minimum 9 units) and VII. Health Well-Being, Life-Management: (minimum 3 units). Only one course per core area may be taken Credit/No Credit within university maximum of 24 units overall and 12 at the upper division (300-400) level.

The Track II Concentration consists of 24-32 units of course work in a selected discipline. A minimum of 15 of the concentration units will be in upper division (300-400) course work with the exception of the Biology and Mathematics concentrations where only 12 upper division units are required. Only one concentration course may be taken Credit/No Credit.

## Requirements

### Track II Core

A minimum of 87 units as specified in Areas I, II, III, IV, V, VI and VII. Only one course per core Area may be taken Credit/No Credit within university limitations of 24 overall, 12 at the upper division (300-400) level.

Area I: Language and Communication Studies (minimum 18 units)

Group 1. Composition in English:

a) Choose one course from ASAM 100, B/ST 100, CHLS 104, ENGL 100;

b) Choose one course from B/ST 450, ENGL 101, 205, 206, 300, 317, 407, 417, 418, THEA 380

Group 2. Oral Communication in English:

Choose one course from COMM 110, 130, 132, 331, 334, 335

Group 3. Language and Critical Thought:

Choose one course from A/ST 190, ENGL 102, HIST 101, PHIL 170, PSY 130, COMM 131 + 131W, \*UHP 100

(\*UHP 100 is limited to students in the University Honors Program)

Group 4. Language Study Other than English:

Complete a two semester sequence in one language from CHIN 101, 102, 201, 202, FREN 101A, B, 201A, B, GERM 101A, B, 201A, B, GK 101A, B, 301A, B, ITAL 101A, B, 201A, B, JAPN 101, 102, 201, 202, LAT 101A, B, 301, RUSS 101A, B, 201A, B, SPAN 101A, B, 201A, B (This is not a proficiency requirement, but a requirement for one sequential year of language study beyond current level of mastery. Choose the language and level appropriate to prior preparation. If prepared for more advanced 300 level of study or higher, substitutions of higher level language courses for those above can be made.)

Area II: Natural Science and Mathematics (minimum of 18 units):

Group 1. Mathematics:

Choose two courses from MATH \*103, 112, 114, 115, 117, 119A, 119B, 122, 123

(\*MATH 103 is not open to students who have completed a higher math course or its equivalent.)

Group 2. Natural Sciences:

a) Choose one course from BIOL 200, 205, 207, 211A;

b) Choose one from ASTR 100+100L, CHEM 100, 111A, GEOL 102+104 or 105, PHYS 100A, 151, PHSC 112

### Group 3. Additional Study in Science or Math:

Choose two courses, at least one of which is at the upper division (300-400) level, from any of the courses listed in Area II, Groups 1 and 2 not completed, or from ASTR 370I, BIOL 153, 211B, 303, 309I, 401, CHEM 111B, C/LA /HDEV 250, ET 202, GEOG 140, GEOL 160, 160+160L, 190, 191, 240, 303, MATH 180, 224, 233, 247, 310, 341, 355, 370A, 380, MICR 101, 300I, 302I, NSCI 375I, PHSC 331, PHYS 100B, 152, HIST 400I, PSY 110, 346I, SOC 255 (For upper division work special attention is directed to the range of Interdisciplinary (I) courses offered in the College of Natural Sciences and Mathematics; these are highly recommended.)

### Area III: National and World Citizenship (minimum 18 units):

#### Group 1. Basic Studies:

- Choose one course from HIST 172, 173, 300;
- Choose one course from POSC 100, 391, \*326 (POSC 326 is limited to students who have completed a U.S. Government course in a state other than California or have Advanced Placement Credit in U.S. Government and must meet Title V state and local government requirements);
- Choose one course from ECON 300

#### Group 2. U.S. Diversity:

Choose one course from: AIS 319, ANTH 329, 419, ASAM 200, 319, B/ST 210, 319, 325, CHLS 319, 350, 352, POSC 323, SOC 340, 341, 346, W/ST 319

#### Group 3: National Citizenship:

Choose one course from B/ST 381, C/LA 492A, EDP 492, GEOG 301I, HIST 474I, 480, LING 472, POSC 210, 308, 327, 328, 420, 423, 424, 482, 486, PSY 375I, SOC 449I, COMM 441I, 442I, U/ST 301I

#### Group 4. World Citizenship:

Choose one course from ANTH 307I, 314, ECON 306I, GEOG 307I, 470, 478, I/ST 478, PHIL 351, POSC 215, 220, 306, 353, 371, 485, SOC 350

### Area IV: Social and Behavioral Science Foundations (minimum 9 units)

#### Group 1. Psychology/Sociology:

Choose one course from PSY 100, SOC 100, 142

#### Group 2. Geography/Cultural Anthropology:

Choose one course from ANTH 120, GEOG 100, 100W, 160

#### Group 3. History:

Choose one course from HIST 211, 212, 131, 132

### Area V: Literary, Visual and Performing Arts (minimum 12 units)

#### Group 1. Visual and Performing Arts:

Choose two courses from two different arts from AIS 320, ART 110, AH 113A, 113B, 115B, 115C, B/ST 155, 160, 363, CLSC 421I, DANC 110, 435I, MUS 190, 290, 363I, 364I, 490, THEA 113, 122, THEA/CLT 124, 324I

#### Group 2. Literature:

- Choose one course from B/ST 140, CHLS 150, CWL 100, 334, 336, ENGL 180, 184, 250A, 250B;
- Choose one course from AIS 340, B/ST 343, 346,

CHIN 370, CWL 330A, 330B, 342, 346, 403, 404, 415I, 430, 440, ENGL 270A, 270B, 363, 375, 382, 385, 386, FREN 335, 336, GERM 415, 416, JAPN 370, JOUR 315, R/ST 425I, SPAN 330, 341, W/ST 382

### Area VI: Cultures, Values and Beliefs (minimum 9 units)

#### Group 1. Western Tradition:

Choose one course from either (a) or (b):

- CLSC 310I, CWL/HIST 310I, 312I, 414I, HIST 335, 477A, 477B;
- HIST 371, PHIL 100, 160, 160W, 203, 204, 330, 352, 361, 363, R/ST 102, 383I, 482I

#### Group 2. Non-Western Traditions:

Choose one course from either (a) or (b):

- ANTH 321, 323, 324, 332, 333, 335, A/ST 300I, 301I, 393I, 495I, HIST 341A, 341B, 382A, 382B, 383A, 383B, 385, 386, 431;
- AIS 335, ASAM 380, B/ST 353, PHIL 306, R/ST 103, 331I, 341I, 343, 344, 351

#### Group 3: Additional Study (3 units):

Choose another course from those listed in Group 1a, 1b, 2a, and 2b not completed.

### Area VII: Health, Well-Being and Life Management (minimum 3 units)

Choose one course from ANTH 150, COUN 191, 357, FCS 132, 309I, 312I, FIN 309I, HSC 210, 420I, 421, 422, 423, 425I, 427, 429, HDEV 307I, 357I, KPE 157, NRSRG 481I, REC 220, 340I, SW 330, 331, SOC 461I, 462, 463, W/ST 101, 440

## Track II Concentration

A minimum of 24 units of which 15 must be at the upper division (300-400) level (with the exception of Biology and Mathematics where only 12 units at the upper division are required) from one of the disciplinary programs below. A maximum of 12 units of course work used to meet requirements of the core may be used to satisfy the requirements of the concentration. In such "double-counting," one course may satisfy two requirements but the units apply to total degree requirements only once. Unit requirements in some concentrations exceed the 24 unit minimum; no concentration requires more than 32 units. Only one course in a concentration may be taken Credit/No Credit.

### American Indian Studies

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

#### Area 1. Foundation Study (6 units):

Choose from AIS 105, 106, 200

#### Area 2. Selected Area Study (12 units):

Choose from AIS 320, 335, 340, 361, 420, 490, 497, 499

#### Area 3. Additional Support and Area Study (6 units):

Choose from courses in Areas 1 and 2 not completed or from: ANTH 321, 322, 347, 349, AH 456, 457, CHLS 420, HIST 372

### American Studies

Inactive, no new students admitted.

## Anthropology

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Lower Division Foundation Study (6 units) :

ANTH 110, 120

Area 2. Additional Lower Division Study (3 units):

Choose from ANTH 140, 170

Area 3. Upper Division Foundation Study (6 units):

ANTH 313, 314

Area 4. Biological Anthropology (3 units):

Choose from ANTH 318, 363, 435

Area 5. Sociocultural Anthropology (3 units):

Choose from ANTH 351, 413, 416, 421, 436

Area 6. Comparative Cultures (3 units):

Choose from ANTH 321, 322, 323, 324, 332, 333, 335, 345, 347, 349

## Art/Art History

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Foundation Study (9 units):

Choose three courses from AH 113A, 113B, 115B, 115C

Area 2. Principles and Practices (3 units):

Choose from AH 307, 308, 309, 435

Area 3. Western Art (3 units):

Choose from AH 401, 408, 409, 410, 416, 417, 423, 424, 425, 426, 427, 436, 437, 438, 439

Area 4. Non-Western Art (3 units):

Choose from AH 455, 456, 457, 465, 466, 467, 468, 469, 470A/B

Area 5. Additional Upper Division Study (6 units):

Choose from courses listed in Areas 3 and 4 not completed.

## Art/Studio

Special admissions deadlines apply.

Complete a minimum of 27 units with 12 at the upper division (300-400) level from:

Area 1. Foundation Study (12 units):

ART 131, 181, 182, 187

Area 2. Art History (3 units):

Choose from AH 437, 438, 439

Area 3. Selected Upper Division Study (12 units):

Choose from ART 316, 317, 328A, 328B, 354A, 354B, 355A, 357A, 357B, 370, 376, 378, 379, 381, 385, 387, 428A

## Asian American Studies

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Lower Division Foundation Study (6 units):

ASAM 200, 220

Area 2. Upper Division Foundation Study (7 units):

ASAM 345, 380

Area 3. Additional Selected Study (11 unit minimum):

Choose from ASAM 310, 330, 340, 370 490, 499

## Biology

Complete a minimum of 32 units with 12 at the upper division (300-400) level from:

Area 1. Lower Division Foundation Study (20 units):

BIOL 211A, 211B, CHEM 111A, 111B

Area 2. Selected Upper Division Study (12 units minimum):

Choose from BIOL 313, 316, 324, 328, 332, 413, 421, 423, 424, 425, 427, 439, 453, 490, 490L, 496

## Black Studies

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Introduction (3 units): B/ST 110

Area 2. History (3 units): Choose from B/ST 120, 121

Area 3. Selected Lower Division Study (3 units):

Choose from B/ST 155, 160, 200, 210

Area 4. Humanities (6 units):

Choose from B/ST 340, 343, 346, 450

Area 5. Social Studies (9 units):

Choose from B/ST 304, 325, 330, 332, 335, 337, 400, 410

## Chicano-Latino Studies

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Lower Division Foundation Study (9 units):

Choose from CHLS 100, 101, 150, 230

Area 2. Upper Division Foundation Study (9 units):

CHLS 300/HIST 470, 310, 350/SOC 340

Area 3. Culture Study (3 units):

Choose from CHLS 390I, 395, 420

Area 4. Social Inquiry (3 units):

Choose from CHLS 340, 352, 415, 421

## Comparative Literature

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Foundation Study, Breadth (6 units):

Choose from CWL 330A, 330B, 334

Area 2. Foundation Study, Depth (3 units):

Choose from CWL 430, 449

Area 3. Genre Study (6 units):

Choose from , CLSC 421I, CWL/THEA 124, CWL 232, 320I, CWL/THEA 324I, CWL 346, 405, 453

Area 4. Comparative Literary Study (3 units):

Choose from CWL 336, 403, 404, 440, 448, 452

Area 5. Literary Movements or Periods (3 units):

Choose from CWL 349, 431, 432, 437, 438

Area 6. Literature and the Other Arts (3 units):

CWL 250, CWL/HIST 310I, CWL 410, 412I, 451I

## Economics

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Lower Division Foundation Study (6 units): ECON 100, 101

Area 2. Upper Division Foundation Study (6 units): ECON 313, 360I

Area 3. Additional Selected Study (12 units): Choose an additional upper division upper division Economics classes exclusive of ECON 309 which may not be taken for concentration credit. (With Economics Debarment approval, ECON 300 and an upper division Economics course may be substituted for ECON 100 and 101).

## English/Creative Writing

Complete a minimum of 26 units with 15 at the upper division (300-400) level from:

Area 1. Foundation Study (8 units): ENGL 184, 270B

Area 2. Introductory Study (3 units): Choose from ENGL 205, 206

Area 3. Advanced Study (6 units): Choose from ENGL 405, 406, 407

Area 4. Additional Selected Study (9 units minimum): Choose from ENGL 375, 384, 385, 386, 459, 467A, 467B, 469, 474, 475, 476, 477A, 477B, 479, THEA 380

## English/Language and Composition

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Foundational Study (14 units): ENGL 184, LING 325, 420, 421

Area 2. Literature (4 units): Choose from ENGL 250A, 250B, 270A, 270B

Area 3. Additional Selected Study (6 units): Choose from the ENGL 300, 317, ENGL/LING 423, 426

## English Literature

Complete a minimum of 24 units with 15 at the upper division (300-400) levels from:

Area 1. Foundation Study (8 units): ENGL 184, 363,

Area 2. American Literature Survey (4 units): Choose from 270A, 270B

Area 3. British Literature (3 units): Choose from ENGL 451, 452, 453, 455, 456, 458, 459, 462, 463, 467A, 477A, 478

Area 4. American Literature (3 units): Choose from ENGL 474, 475, 476, 477A, 477B, 478

Area 5. Additional Selected Study (minimum of 6 units): Choose additional courses from those listed in areas 2, 3 and 4 above or from CWL 330A, 330B, ENGL 375, 384, 469, 479, 481, 482

## English/Technical Writing

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Foundation Study (7 units): ENGL 184, 317,

Area 2 Report Forms (6 units): Choose from ENGL 417, 418, 419

Area 3 Language Study (3 units): ENGL 320, LING 325

Area 4. Additional Selected Study (8 units): Choose from AH 307, 309, ET 300, ENGL 384, 405, 406, 407, ENGL/LING 423, ENGL 491, FEA 303, 380, 404, HIST 400I, IS 301

## French

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Foundation Study (12 units): FREN 312A, 312B, 314, 411

Area 2. Additional Selected Study (12 units): Choose additional courses in French. Lower division (100-200) courses are only appropriate if taken prior to FREN 312A or its equivalent.

## Geography

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Lower Division Foundation (9 units): Choose from GEOG 100, 140, 160

Area 2. Methods and Techniques (3 units): GEOG 380

Area 3. Systematic Geography [6 units: 3 from a) and 3 from b)]:

a) Choose from GEOG 460, 466, 470;

b) Choose from GEOG 440, 442, 444, 452, 455, 460, 466, 470 [No course used to satisfy a) may be used to satisfy b).]

Area 4. Regional Geography [6 units: 3 from a) and 3 from b)]:

a) Choose from GEOG 304, 306;

b) Choose from GEOG 304, 306, 309I, 316, 318, 320I, 326 [No course used to satisfy a) may be used to satisfy b).]

## German

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Foundation Study (15 units): GERM 301, 302, 401, 415, 416

Area 2. Additional Selected Study (minimum 9 units):

Choose additional courses in German. Lower division (100-200) courses are only appropriate if taken prior to GERM 301 or its equivalent.

## History

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Foundation Study (3 units): HIST 301

Area 2. Area Study (18 units):

Choose 6 units each from three different areas:

*World Area:* Choose from HIST 211, 212, 492;

*European Area:* Choose from HIST 131, 132, 313, 314, 316, 317, 318, 332, 333, 335, 336, 337, 339, 341A, 341B, 433, 437;

*British Area:* Choose from HIST 351, 353, 356, 357;

*Latin American Area:* Choose from HIST 362, 364, 462, 463;

*United States Area:* Choose from HIST 172, 173, 300, 371I, 372, 375, 376, 378, 379, 380, 469, 471, 472, 473, 474I, 477A, 477B, 478, 479, 480, 485A, 485B, 486, 489;

*Asian Area:* Choose from HIST 382A, 382B, 383A, 383B, 384, 385, 386, 406B, 407I, 488

Area 3: Additional Selected Study (3 units):

Choose an additional course from History Department offerings or from Area 2 courses not completed.

## Human Development

Students choosing this concentration must complete the following courses in the core program: ANTH 120, BIOL 205 or 207, PSY 100, or complete them as prerequisite units to the concentration and elective units toward the degree.

Complete a minimum of 26 units with 15 at the upper division (300-400) level from:

Area 1. Foundation Study (12 units):

HDEV 307I, 357I, 360, 402

Area 2. Foundation Methodologies (8 units):

HDEV/C/LA 250, HDEV 320

Area 3: Area Study (6 units):

Choose 6 units from one area:

*Biological Foundations Area:* Choose from ANTH 318, 319, BIOL 401, PSY 141;

*Psychological Foundations Area:* Choose from EDP 305, PSY 331, 332, 333, 336, 341, 351, 356, 370, 438, 463;

*Sociocultural Foundations Area:* Choose from ANTH 454, ASAM 340, B/ST 410, CHLS 350/SOC 340, FCS 312I, 412, 413, SOC 100, 320, 345, 464;

*Child Development Area:* Choose from FCS 311, 312I, 314, 411, 412, 413, 433;

*Gerontology Area:* Choose from BIOL 401, GERN 400I, SOC 464

## Italian

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Foundation Study (9 units): ITAL 312A, 312B, 314

Area 2. Additional Selected Study (15 units):

Choose additional courses in Italian. Lower division (100-200) courses are only appropriate if completed prior to ITAL 312A or its equivalent.

## Japanese

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Foundation Study (12 units):

JAPN 301, 302, 311, 312

Area 2. Additional Selected Study (12 units):

Choose additional courses in Japanese. Lower division (100-200) courses are only appropriate if completed prior to JAPN 301 or its equivalent.

## Latin American Studies

Complete a minimum of 26 units with 15 at the upper division (300-400) level from:

Area 1. Language Study (8 units): SPAN 201A, 201B

Area 2. Discipline Emphasis (6 units):

Choose 6 units from one department, a minimum of 3 units to be at the upper division (300-400) level, from: ANTH 323, 324, 345, HIST 362, 364, POSC 358, 359, 461I\*

(\*Only those semesters when content emphasizes Latin American development.)

Area 3. Breadth Study (6 units):

Choose 3 units each from two additional departments and courses listed in Area 2 or from GEOG 320I

Area 4. Additional Selected Study (6 units):

Choose six additional units from courses listed in Area 2 and 3 or from: HIST 462, 463, SPAN 314, 341, 430, 441, 445, 491, 492

## Mathematics

Complete a minimum of 27 units with 12 units at the upper division (300-400) level from:

Area 1. Lower Division Foundation Study (15 units):

MATH 122, 123, 224, 233

Area 2. Upper Division Foundation Study (6 units):

MATH 364A, 380

Area 3. Additional Selected Study (6 units):

Choose from MATH 310, 341, 355, 361A, 381

## Music

Students choosing this concentration must demonstrate piano proficiency equivalent to MUS 120B, voice proficiency equivalent to MUS 122A, instrument proficiency equivalent to MUS 125 or complete the equivalency courses as corequisite units to the concentration and elective units toward the degree.

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Foundation Study (7 units): MUS 300, 490

Area 2. Selected Historical Study (3 units):

Choose from MUS 363I, 364I, 393

Area 3. Additional Selected Study (minimum 14 units):

Choose from courses listed in Area 2 not completed or from MUS 300, MUS 460, 469, 492, 493, 495

## Philosophy

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Foundation Study (6 units):

Choose from PHIL 342, 363, 382

Area 2. Historical Focus (3 units):

Choose from PHIL 413, 414, 421, 422, 423, 424

Area 3. Movements and Perspectives (3 units):

Choose from PHIL 416, 417, 418, 419

Area 4. Additional Selected Study (12 units):

Choose additional courses from Areas 1, 2 and 3 not completed or from other departmental offerings.

## Psychology

Impacted Program. Special Admissions criteria apply.

Complete a minimum of 26 units with 15 at the upper division (300-400) level from:

Area 1. Lower Division Foundation Study (11 units):

PSY 100, 200, 110

Area 2. Basic Processes (3 units):

Choose from PSY 331, 332, 333, 336, 341, 342

Area 3. Personal and Social Processes (3 units):

Choose from PSY 351, 356, 361, 365

Area 4. Additional Selected Process Study (3 units):

Choose from Area 2 and 3 classes not completed.

Area 5. Applications (3 units):

Choose from PSY 310, 314, 346I, 352, 354, 359, 366, 370, 375I, 378, 381

Area 6. Additional Selected Study (3 units):

Choose an upper level (300-400) course from Areas 2, 3, and 5 not completed or from other departmental offerings.

## Religious Studies

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Foundation Study (6 units):

Choose from R/ST 100, 103, 202

Area 2. Western Religious Traditions (3 units):

Choose from R/ST 311, 312I, 314, 315I, 322, 331I, 471I, 472I, 485, 490

Area 3. Eastern Religious Traditions (3 units): Choose from R/ST 341I, 343, 344, 351

Area 4. Selected Upper Division Study (6 units):

Choose from Areas 2 and 3 not completed or from R/ST 301, 302I, 375, 376I, 383I, 425I

Area 5. Additional Selected Study (6 units):

Choose from courses in Areas 1, 2, 3 and 4 not completed or from ASAM 380, CWL 342, HIST 333, PHIL 330, R/ST 499

## Russian

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Foundation Study (9 units): RUSS 310, 312, 314

Area 2. Additional Selected Study (15 units):

Choose additional courses in Russian. Lower division courses are only appropriate if taken prior to RUSS 312 or its equivalent.

## Sociology

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Foundation Study (9 units): SOC 100, 142, 335I

Area 2. Statistics (3-4 units): SOC 255

Area 3. Ethnic and Gender Issues (3 units):

Choose from SOC 325/W/ST 325, SOC 340/CHLS 350, SOC 346, 426

Area 4. Deviance and Social Control (3 units):

Choose from SOC 345, SOC/SW 423, SOC 440, 441I, 448

Area 5. Social Change and Global Issues (3 units):

Choose from SOC 350, 420, 427

Area 6. Additional Selected Study (3 units):

Choose an upper level (300-400) from Areas 3, 4, and 5 not completed or from other departmental offerings.

## Spanish/Spanish American Literature

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Basic Language Study (6 units): SPAN 300

Area 2. Foundation Study (6 units): SPAN 341, 445

Area 3. Selected Literary Study (6 units):

Choose from SPAN 310, 441, 491

Area 4. Additional Selected Study (6 units):

Choose additional courses in Spanish.

## Spanish/Spanish Linguistics and Culture

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Basic Language Study (6 units): SPAN 300

Area 2. Foundation Study (6 units):

SPAN 425 (course no longer offered. See Concentration Advisor for substitution), 426

Area 3. Linguistics and Culture Selected Study (6 units):

Choose from SPAN 427, 430, 445

Area 4. Additional Selected Study (6 units):

Choose additional courses in Spanish.

## Spanish/Spanish Literature

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Basic Language Study (6 units): SPAN 300

Area 2. Foundation Study (6 units): SPAN 330, 430

Area 3. Selected Literary Study (6 units):

Choose from SPAN 310, 439, 491, 492

Area 4. Additional Selected Study (6 units):

Choose additional courses in Spanish.

## Speech Communication

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Lower Division Foundation Study (9 units):

COMM 130, 131 + 131W, 110

Area 2. Upper Division Foundation Study (9 units):

COMM 300, 301, 309

Area 3. Selected Upper Division Study (3 units):

Choose from COMM 331, 335

Area 4. Communication Contexts and Strategies (3 units):

Choose from COMM 330, 412, 432, 436, 437.

## Courses (L/ST)

### Upper Division

#### 400. Evaluating Literacy (3)

Prerequisites: Limited to students in the Liberal Studies major, Track I, who have completed all AREA I Core requirements with a "C" or better grade and fulfilled the GVAR, or consent of Program Director. Study of contemporary literacy theory and practice with focus on language, culture, literature, and development of literacy. Students will gain greater, more precise understanding of literacy assessment and its implications, determinations and effects as they are themselves assessed for language competencies. Letter grade only (A-F).

#### 403. Civic Issues and Values (3)

Prerequisites: Limited to students in the Liberal Studies major, Track I, who have completed all Area IV Core requirements with a "C" or better grade. Provides subject opportunities and experiential activities for students to learn to confront controversial issues, solve problems cooperatively, examine issues from multiple and dialogical points of view, and practice listening with understanding and empathy. Student literacy in the social sciences and ability to recognize and deal with the dynamics of a multicultural, multiethnic community will be assessed.

#### 404. Arts and Values (3)

Prerequisite: Limited to students in the Liberal Studies Major, Track 1, who have completed all Area V Core requirements with a "C" or better grade, or consent of Program Director. In a question-based format requiring integration of previous experience in the arts and humanities, students will explore the relationship between arts criticism and various broader values (historical, social, aesthetic, ethical). Typical questions to be addressed are: What establishes the parameters of arts criticism? How does a critic distinguish art from non-art, good art from bad? Who should criticize? What is the relationship between criticism and censorship? What shapes people's values in the arts? Competency in the arts will be assessed as the impact of religion, Enlightenment philosophy, modernism and multiculturalism on the arts and values and their relation to arts education are explored. Letter grade only (A-F).

#### 471. History/Social Science Content and Standards for Elementary Classrooms (3)

Prerequisite: Limited to Liberal Studies majors in the Integrated Teacher Education Program (ITEP), who have completed all Area IV Core requirements with a "C" or better grade. This course will provide a review, analysis and assessment of the content of the California State Social Science Curriculum for grades K through 8. The content of the California History-Social Science Framework will be examined in depth and aligned with the teaching methods and pedagogy taught in EDEL 471, and EDEL 473. This is a capstone course and students will be asked to explicitly demonstrate the breadth and depth of their subject-matter content mastery in the social sciences pursuant to the California State qualification for a Multiple Subject Teaching Credential. Assessment and inquiry will focus upon student literacy in the social sciences, integrating geographical perspectives with historical analysis, and facilitating student depth of knowledge and global perspective in California, Early American and Pre-Modern World history. Letter grade only (A-F).

**L**inguistics is the science of language. Linguistics majors study the nature of language, the similarities and differences among languages, the physical mechanisms of human languages (both spoken and signed), acquisition of languages, and socialization through languages. Areas include anthropological linguistics, psychological linguistics, sociolinguistics, and applied linguistics.

The Department of Linguistics at CSULB offers the BA Major and Minor in Linguistics, an Interdisciplinary CLAD Minor, a Certificate in Teaching English as a Second Language (TESL), and the MA with four Options: Special, General, Language and Culture, and TESL.

Students desiring general information should contact the department office. Advisors are available for individual appointments during the Fall and Spring semesters to assist students with information about degree requirements and about graduate study.

## Bachelor of Arts in Linguistics (code LINGBA01) (120 units)

The following are department goals for students receiving the BA in linguistics:

- Students will demonstrate knowledge of the fundamental architecture of language in the domains of phonetics and phonology, morphology and syntax, and semantics and pragmatics.
- Student will demonstrate knowledge of the variety of structures by which diverse human languages realize this architecture.
- Students will demonstrate knowledge of the social functions of language and the role of language as a cultural institution.
- Students will demonstrate knowledge of language variation, including historical change and dialect variety.
- Students will demonstrate skills in studying language structure and use.
- Students will demonstrate knowledge of how people acquire first and second languages and the implications for language instruction and educational policy.
- Students will demonstrate skill in critical evaluation of language research and policy.
- Students will experience the opportunity to apply linguistic knowledge in a community setting.
- Students will be able to identify applications of linguistics and related career opportunities such as education, translation and computational linguistics.
- Students will demonstrate proficiency in English and in at least one other language.
- Students will value life-long learning in the field of linguistics.

### Requirements

Lower Division: (6 units) LING 101, 170

Upper Division:

1. 12 units – LING 325, 329, 420, 421.

2. 24 units – Select eight (8) courses from LING 413, 423, 425, 426, 428, 433, 470, 472, 485, 490 or PSY 438. Students may substitute up to 6 units of relevant upper-division coursework from other departments, with permission of the Linguistics advisor.

### Language Requirement

Sixteen (16) units required. Four semesters (or their equivalent) of a language other than English, with either: (a) two semesters of an Indo-European language plus two semesters of a non-Indo-European language or (b) four semesters of any one language. Students with prior language experience can pass language requirement by examination or other evidence.

### Minor in Linguistics (code LINGUM01)

A minor in Linguistics consists of a minimum of 21 units, with at least one course selected from each of five subject area categories. Although not required for the minor, foreign language courses are recommended. In selecting courses,

students should be aware that some courses have prerequisites, including language proficiency.

Courses which are counted for a major may not also be counted for a minor, but students who have taken a course from any category as a part of their major may substitute an elective with approval of the Department Chair.

### Requirements

Select at least one course from each category:

*Category I Introduction:* ANTH 170, LING 363I;

*Category II Phonology:* CD 330, LING 420, FREN 414, GERM 303;

*Category III Syntax:* LING 421, FREN 411, GERM 401, SPAN 426;

*Category IV Psycholinguistics and Neurolinguistics:* EDP 454, LING 329, PSY 438;

*Category V Language, Culture, and Society:* ANTH 412I, 413;

Electives to a program total of 21 units selected from: any course listed above, CHLS 403; LING 423, 426; PHIL 484; SPAN 427, and variable/special topics courses on linguistics subjects offered through the participating departments. These topic courses are shown on an approved list available in the participating departments.

### Interdisciplinary Minor in Crosscultural Language and Academic Development Studies (code COEDUM01)

The minor comprises courses that integrate studies of culture, language, learning and the academic environment, and human development. It is an interdisciplinary program designed to support career objectives related to public education in Crosscultural Language and Academic Development. The minor consists of a minimum of 18 units selected with an advisor. Courses in the department of the student's major may not be used.

1. One course from each of the following areas (12 units):

*Culture:* ANTH 421/LING 425 or EDP 432/EDEL 430

*Language:* EDP 454 or LING/CD 329

*Schooling:* EDP/LING 485

*Development:* EDP 301, EDP 302, HDEV 307I, or PSY 361

2. Six additional units, selected with an advisor, from the following:

*Culture:* AIS 319; ASAM 319; B/ST 319; CHLS 319; W/ST 319; ANTH 329, ANTH412I, ANTH/LING 413, ANTH 419, ANTH 421/LING 425, ANTH/WST 475, CHLS/ASAM 335I, EDP 432/EDEL 430

*Language:* ANTH 170; CHLS 402; EDP 454; LING/CD 329, LING/ENGL 327, LING 325, 363I, 472, 486.

*Schooling:* AIS 361; ASAM 310; B/ST 420; CHLS 340; EDP 305, 350, 476.

*Development:* EDP 301, 302; HDEV 307I; PSY 361.

### Master of Arts in Linguistics

The program for the M.A. degree in linguistics is designed both for students who wish to pursue further graduate study and those seeking a terminal degree. The program seeks to blend theoretical and applied aspects of linguistics and draws from a variety of disciplines.

The M.A. degree in Linguistics offers three options and one concentration:

1. General Linguistics Option
2. Language and Culture Option
3. Teaching English as a Second Language Option
4. Special Concentration

Graduate assistantships may be available to qualified students.

### Prerequisites

1. A bachelor's degree with a 2.75 GPA for the most recent 60 units;
2. 21 units of undergraduate coursework as follows (can be taken at CSULB):
  - A. Fifteen (15) units in Linguistics; the following courses or equivalent: Introductory Linguistics (LING/ANTH 170 or LING 325), Language Acquisition LING 329, Phonology LING 420, Syntax LING 421, language variation (LING, 379, 413, 425, 426, 438 or 472), and
  - B. Six (6) units either in linguistics or a language-related field (such as TESL, rhetoric, literature in another language, cross-cultural communication, cognition, or artificial intelligence)

### Advancement to Candidacy

1. Satisfaction of the general university requirements for advancement to candidacy, including prerequisites, the Graduation Writing Assessment Requirement (GWAR), and GPA.
2. Completion of the foreign language requirement, either:
  - A. Two courses of a foreign language at the upper division level, or the equivalent, or
  - B. Two courses of an Indo-European language and two courses of a non-Indo European language, or equivalent.
3. Completion of six units of course work within the program, exclusive of any classes used to meet prerequisites.
4. Approval of the candidate's graduate program by the Chair, the Associate Dean for Instructional Programs of the College of Liberal Arts, and any other individuals identified by relevant university policy.
5. Advancement must take place no later than the semester before the student graduates.

### Requirements

1. A minimum of 30 units of approved upper division and graduate courses for the thesis path or a minimum of 33 units of approved upper division and graduate courses of the comprehensive examination path, including
2. A minimum of 21 units at the 500 or 600 level;
3. The completion of the five course core requirement for the degree;
4. The completion of requirements of one of the options designated in the program;
5. Completion of one of two culminating experiences:
  - A. A thesis and its accompanying oral defense and oral examination (LING 698, 6 units).
  - B. The comprehensive examination and its accompanying graduate paper (LING 697, 1 unit).
6. A GPA of 3.00 on all courses included in the program.

## Core

1. Two courses from the following three: LING 620, 625, 633.
2. One course from the following: LING 540, 610, 650.
3. One course from the following: LING/PSY 539.
4. One course from the following: LING 580/ANTH 570, LING 596.

### General Linguistics Option (code LINGMA02)

The option includes a 15-unit core and 12-18 units of additional selections, including general linguistics courses from the core, such that students take LING 620, 625, 633, 540, 610, 650 and LING/PSY 539. Additional courses selected with an advisor will total 33 units (including LING 698, 6 units) in the thesis pathway, or 34 units (including LING 697, 1 unit) in the comprehensive exam pathway.

### Language and Culture Option (code LINGMA03)

This option includes the 15 unit core, with LING 540 strongly advised in category 2; the specialization includes: LING 533/ANTH 530, ANTH 630, LING 540, and approved selections from LING/ANTH 413, LING 423, LING 425/ANTH 421, LING 470/ANTH/W/ST 475, LING 650, ANTH 560, ANTH 597; and 697 or 698 for the culminating experience.

### Teaching English as a Second Language Option (code LINGMA04)

The TESL option includes a 15 unit core, and either the Comprehensive Exam or Thesis Pathway.

*Comprehensive Exam Pathway:* (19 units) required: LING 486, 500, 561, 562, 593, and either Ling 460 or 575; plus 1 unit of comprehensive directed research, LING 697.

*Thesis Pathway:* (18 units) required: LING 486, 593, and two of the following: LING 500, 561, or 562; plus 6 units of thesis research, LING 698.

### Special Concentration (code LINGMA01)

This concentration is 12-18 units. Students electing this concentration must [1] consult with the Program Director or Graduate Coordinator about their proposal; [2] submit a written justification for the course of study they wish to take, including [3] a list of the classes which are proposed to meet the objectives of this special program. Both the written justification and the course list are subject to approval. Other requirements of the program (e.g. a five course core, GPA, culminating experiences, etc.) cannot be waived or altered by use of the special concentration.

Students wanting graduate credit for certain 400-level courses must consult with the Graduate Advisor before enrolling.

Courses with an I suffix are not available for graduate credit.

Note: Graduate students are required to register for the higher (500-level) course whenever a course has a double number. Students may not repeat courses by taking them under different prefix designations, numbers or titles unless the course description specifically permits.

## Certificate in Teaching English as a Second Language (code ENGLCT02)

The Certificate in Teaching English as a Second Language (TESL) is open to students from any field who desire training for teaching English to speakers of other languages. While the program may be begun as an undergraduate, at least 18 units must be completed as a post-baccalaureate student.

### Recommendations

Students are strongly urged to include foreign language study as a part of their undergraduate curriculum, particularly those wishing the Language Development Specialist Certificate in addition to the TESL Certificate. Students planning to teach in California schools (K-12) must also include appropriate credential requirements in their total program.

### Prerequisites

1. A baccalaureate degree with a GPA of 2.50 on the last 60 units.
2. One course in basic English linguistics.

### Requirements

1. Twenty-four units, including:
  - A. 20 taken in residence;
  - B. 18 taken as a graduate student;
  - C. 12 taken at a 500-600 level.NOTE: Categories (a-c) combined need only equal 24 units.
2. A GPA of 3.0 on all work included in the program.
3. Fulfill the Graduation Writing Assessment Requirement (GWAR).
4. Eight courses, one each in eight different categories:
  - A. One course in basic ESL Methodology, LING 486;
  - B. One course in cross-cultural communication, selected from LING \*425 (ANTH \*421) or ED P 573;
  - C. One course in Language Acquisition, selected from CD 329, LING 329 or ED P 454;
  - D. One course in intermediate English linguistics, selected from LING 420 or 421;
  - E. One course in testing and assessment, selected from CD 460 or LING 562;
  - F. One course in curriculum, selected from LING 500 or LING 561;
  - G. One course in specialized methodology, selected from CD 560, LING \*460, LING 575/ED P 578, ED P 576, LING 589/ED P 589);
  - H. Three units of a practicum (LING 593).

Students who have taken equivalent courses in the above categories but need units to complete certificate requirements may elect to take courses as advised.

Students wanting graduate credit for 400-level courses which have not been approved for graduate credit by the home department must consult with the Program Director or Graduate Advisor before enrolling. Courses with an "I" suffix are not available for graduate credit, but may be used for the Certificate if they were taken while the student was an undergraduate.

## Courses (LING)

### Lower Division

#### 101. Introduction to the World's Languages (3)

Prerequisite: ENGL 100. A general introduction to the important roles that the world's languages have played historically, socially, culturally and politically, especially involving contact between languages. The course considers the nature of language, how languages operate, how they may differ from each other, how they change over time, and how they are related to each other. The history of both the spoken and the written forms of language are considered.

#### 170. Introduction to Linguistics (3)

Prerequisite/corequisite: Any G.E. Foundations course. Nature of language; its relation to culture; language structure and processes of change; language universals, contrasts and relationships. Same course as ANTH 170.

### Upper Division

General Education Category A must be completed prior to taking any upper division course except upper division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

#### 325. Modern English Grammar (3)

Introduction to current descriptions of English grammar, with reference to structural and transformational models of American English as well as to traditional ones. Not open to students with credit in ENGL 325. Letter grade only (A-F).

#### 327. Essentials of the English Language (3)

Prerequisites: ENGL 100 or its equivalent. Introduction to the essentials of English language study for credential candidates, including the history of the English language, key models of English grammar, and a variety of applied topics ranging from semantics and dialect study to current research in the teaching of English. Same course as ENGL 327.

#### 329. Introduction to Language Acquisition (3)

Introduction to the study of the acquisition of first and second languages. Linguistic perspectives on the development of phonological, syntactic, semantic, and pragmatic aspects of language. The influence of developmental stages, and social and cultural factors on the individual. Same course as C D 329. Letter grade only (A-F).

#### 339. Linguistics for Crosscultural Academic Development [in Secondary School Settings] (3)

Principles of language structure, variation and usage for educators. Educational aspects of first and second language acquisition theories. Social and psychological influences on linguistic behavior in middle and high schools. Cultural and political issues affecting language attitudes, maintenance and shift. Letter grade only (A-F). Same course as EDSE 339.

#### 363I. Implications of Human Language (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. This course examines human language from the perspectives of linguistics, psychology, and communicative disorders. Topics include relationships between languages of the world, language acquisition, and the social meaning of language and dialect differences. The implications of language for the individual and her/his social experience are examined through the methodologies of these disciplines.

#### 379. Sociolinguistics and Schooling (3)

Prerequisite: LING 329 or equivalent. Study of language variation as it connects to standard language development in society and individuals. Analysis of key sociolinguistic concepts, such as: dialect, speech event, linguistic repertoire, language community, prescriptive and descriptive grammar. Analysis of verbal and written classroom language. Connection between variation and development in speaking, reading and writing. (Letter grade only (A-F).) Same course as EDEL 379.

#### \*413. Language and Culture (3)

Relation of language patterns to social life; problems of meaning in cross-cultural communication and language translation; practical application to business, government and religious contacts. Not open to students with credit in ANTH 440. Letter grade only (A-F). Same course as ANTH 413.

#### 420. English Phonology (3)

Prerequisites: Consent of instructor. Study of the phonology of American English, using articulatory phonetic, phonemic, and distinctive feature analyses. Not open to students with credit in ENGL 420 or 520. Letter grade only (A-F).

#### 421. English Syntax (3)

Prerequisites: ENGL 325 or consent of instructor. Study of the morphology and syntax of American English, using structural, transformational, and recent models. Not open to students with credit in ENGL 421. Seminar. Letter grade only (A-F).

#### \*423. Semantics (3)

Study of meaning in language. Same course as ENGL 423.

#### \*425. Education Across Cultures (3)

Cross cultural perspectives on education in modern society; problems in education of non-western peoples by those from western cultural backgrounds. Letter grade only (A-F). Same course as ANTH 421.

#### \*426. History of the English Language (3)

Development of the English language from its beginnings to the present day. Same course as ENGL 426.

#### 428. Applied Linguistics (3)

Linguistic research applied to the study and teaching of the English language. Not open to students with credit in ENGL 428/524. Letter grade only (A-F).

#### 429. Language, Learning and the Developing Child: A Cross-cultural Perspective (3)

Explores the communicative-linguistic, cognitive, physical, and socio-emotional development of the child from the prenatal to adolescent period across diverse cultures with an emphasis on language acquisition and the learning process. Letter grade only (A-F). Not open to students currently enrolled in the Liberal Studies program. Same course as EDP 428, FCS 409, and EDEL 429.

#### 431. Cultural and Linguistic Diversity in Schools (3)

This course surveys the multiple forms of diversity present in schools, including issues surrounding culture ethnicity, race, linguistics, faith, special needs, gender, sexual orientation, and socioeconomic status. Emphasis is on multicultural education, language minority education, and the promotion of learning for all students. The course treats concepts of culture, educational equity, social justice, anti-bias and anti-racist curriculum, stereotyping, and cultural and linguistic contact. An overview is provided of the history, policy and practices regarding cultural and linguistic minorities in the United States and the impact on education. Special focus is placed on educational initiatives to address the rich ethnic diversity of California schools. Models of English language development and bilingual education are examined. Letter grade only (A-F). Same course as EDEL 431 and EDP 431.

#### 433. Survey of Discourse Analysis (3)

An introduction to discourse analysis, the study of language structure from the viewpoint of its context of production. The place of discourse analysis in theoretical and applied linguistics. The structure of genres: conversation, narrative, exposition, and others; language in special settings: pragmatics and discourse; developmental issues. (Discussion) (Not open to students with credit in LING 530.) Letter grade only (A-F).

#### 441. Khmer Literacy for Khmer Speakers: Introduction (3)

Prerequisite: Fluent oral skills in Khmer. First of a 4-course sequence. Introduction to Khmer writing system. Practice in reading, decipherment, vowels, consonants and syllable combinations. Oral practice, honorifics, culturally appropriate interaction. Letter grade only (A-F). Same course as A/ST 441.

#### 442. Khmer Literacy for Khmer Speakers: Intermediate A (3)

Prerequisite: LING 441 or consent of instructor. Second of a 4-course sequence. Continued practice in Khmer writing system. Vocabulary development, reading and writing long sentences and simple text. Appropriate social and educational discourse. Letter grade only (A-F). Same course as A/ST 442.

**443. Khmer Literacy for Khmer Speakers: Intermediate B (3)**  
Prerequisite: LING 442 or consent of instructor. Third of a 4-course sequence. Contextual reading for comprehension, culture and grammatical knowledge. Development of oral skills, through discussion of content, role play and verbal critique. Letter grade only (A-F). Same course as A/ST 443.

**444. Khmer Literacy for Khmer Speakers: Advanced (3)**  
Prerequisites: LING 443 or consent of instructor. Fourth of a 4-course sequence. Composition and written translation. Preparation for BCLAD tests 5 & 6: Culture and Language of Emphasis. Reading authentic texts. Letter grade only (A-F). Same course as A/ST 444.

**\*460. TESL Composition (3)**

Prerequisites: Fulfillment of the GVAR. Introduction to the rhetoric and composition of students with limited English proficiency. Attention to both the general principles of composition, and the specific issues that face students and teachers in an ESL context. Letter grade only (A-F).

**\*470. Language and Gender in Cross-Cultural Perspective (3)**

Analysis of men's and women's communication in its social and cultural context; role of gender in interpreting conversational interactions in the U.S. and elsewhere; acquisition of gender differences; cultural dimensions of perceptions and stereotypes and their effect on communication. Letter grade only (A-F). Same course as ANTH 475, W/ST 475.

**472. Language and Discrimination (3)**

Survey and analysis of discrimination on the basis of language as component of racial, ethnic, gender, and class discrimination; focus on historical and contemporary examples; related analysis of bias toward so-called non-standard varieties of language; analysis of the language of racism and sexism. Letter grade only (A-F).

**\*485. Theoretical Foundations of Language Minority Education (3)**

Introduction to theoretical foundations of language minority instruction. Background on the historical and political context of the development of educational language policies. Same course as EDP 485. Letter grade only (A-F).

**\*486. Foundations of Language Minority Instruction: Practice (3)**

Provides a general introduction to practical foundations of language minority instruction and provides background on historical development and use of current methods and techniques for language learning strategies. Classroom observations in off-campus or on-campus bilingual and English-as-a-second-language classrooms. Letter grade only (A-F).

**490. Special Topics in Linguistics (1-3)**

Prerequisite: Consent of instructor. Investigation of topics of current interest and concern to students in linguistics and allied areas. Topics will be announced in the *Schedule of Classes*. May be repeated to a maximum of 6 units with different topics.

## Graduate Level

**500. Educational Linguistics (3)**

Prerequisites: Nine units of linguistics or consent of instructor. Graduate introduction to role of language and linguistics in contemporary education; analysis of context of language acquisition; attitudes toward multilingualism; language policies which set guidelines and expectations for instruction; cultural factors which influence language acquisition. (Discussion.) Letter grade only (A-F). Same course as ED P 577.

**533. Ethnography of Communication (3)**

Prerequisite: Graduate standing. Study of talk and other forms of communication from an ethnographic perspective. Emphasizes relevant methods and theories. Among the major topics presented from this perspective are language socialization, genres of speaking, intercultural communication, speech styles, strategic uses of language, and literacy. Letter grade only (A-F). Same course as ANTH 530.

**539. Language Acquisition (3)**

Prerequisites: Six units of linguistics or upper division psychology, or consent of instructor. Theory and research on the acquisition of first and second languages in children and adults. Psycholinguistic perspectives on the development of phonological, syntactic, semantic and pragmatic aspects of language. The interacting roles of developmental stages, cognitive processes, individual differences, social influences and the cultural context will be stressed. Same course as PSY 539. Letter grade only (A-F).

**540. Sociolinguistics (3)**

Prerequisite: Nine units of linguistics or consent of instructor. Study of the linguistic and social antecedents, correlates, and consequences of language variation in the individual and society. Integration of theoretical models and practical fieldwork. (2 hrs seminar, 3 hrs lab.)

**561. Second Language Curriculum Development (3)**

Prerequisite: LING 421 or consent of the instructor. Study of the content of second language instruction, from nongrammatical, communicative approaches to content-based instruction. The course will look at both K-12 and adult language instruction.

**562. Second Language Testing and Assessment (3)**

Prerequisite: LING 421. Testing and assessment of second language learners, including both standardized tests and teacher-developed modes of assessment. Letter grade only (A-F).

**575. Literacy and Linguistics (3)**

Prerequisite: Six units in linguistics or consent of instructor. This course provides a general introduction to the field of literacy studies from a linguistic and sociocultural perspective. Among the major topics presented are the relationship between oral and written language; the acquisition of literacy; biliteracy; the relationship between literacy and socioeconomic/sociocultural factors; and the impact of societal expectations regarding literacy. Pedagogical implications of these issues are explored. Letter grade only (A-F). Same course as ED P 578.

**580. Linguistic Field Methods (3)**

Prerequisite: An introductory linguistics course. This course introduces the student to the practical study of unfamiliar languages. Through the help of a native speaker of a non-European language, the student will learn how to write down the sounds of the language and how to determine the structure of the language. Letter grade only (A-F). Same course as ANTH 570.

**589. Adult Literacy and Language Diversity**

Prerequisites: 3 units from ED P 578/LIN 575; ENGL 510; ENGL 535; or from an instructor approved course in literacy studies or adult second language acquisition. A general survey of issues in adult and family literacy/biliteracy and native language literacy with special focus of the educational needs of language minority adults and their families; consideration of the relationship between theory, policy and practice with attention to the social economic and cultural characteristics of populations in need of literacy services. Letter grade only (A-F).

**590. Advanced Special Topics in Linguistics (1-3)**

Prerequisite: Consent of instructor. Advanced study of special topics of current interest and concern to students in linguistics and allied areas. Topics will be announced in the *Schedule of Classes*. May be repeated to a maximum of 6 units with different topics. Letter grade only (A-F).

**593. Practicum in TESL (3)**

Prerequisite: LING 486. Experience in teaching English as a second language supplemented by reading, research and advising. Students must be available to be assigned to regularly scheduled courses in TESL five hours per week, as well as meetings with the instructor. Letter grade only (A-F).

**595. Qualitative Research Methods (3)**

This course provides an introduction to the theory and application of ethnographic and qualitative methods in educational settings with special emphasis on applications for educational linguistics, educational anthropology, and research related to language arts instruction. It surveys the basic rationale for qualitative/ ethnographic inquiry as well as basic concepts and methods for applications in teacher-as-researcher approaches and for action research. Letter grade only (A-F). Same course as ED P 595.

**596. Research in Linguistics (3)**

Prerequisite: Advancement to candidacy for the M.A. in Linguistics. Principles and practice of quantitative and qualitative research design, analysis and reporting. Access to sources, evaluation of published research, application of tools. Letter grade only (A-F). (Seminar, 2 hours; Laboratory, 3 hours.)

**597. Directed Study in Linguistics (1-3)**

Prerequisite: Consent of instructor and advisor. Directed study on issues and topics in Linguistics. Not intended to replace available courses.

**610. Historical Linguistics (3)**

Prerequisites: LING 420 and 421 or equivalent. Advanced study of language change, language families, and language relationships using the methods of comparative linguistics. Two hours seminar, two hours laboratory. Letter grade only (A-F).

**620. Seminar in Syntactic Theory and Analysis (3)**

Prerequisite: LING 421. Theories and practices of selected views of syntax in contemporary linguistics. Topic may vary from semester to semester. (Seminar, 2 hours; Laboratory, 3 hours.) Letter grade only (A-F).

**625. Seminar in Phonetics and Phonology (3)**

Prerequisite: LING 420. Theory and practice of selected views of phonetics and phonology in contemporary linguistics. (Seminar, 2 hours; Laboratory, 2 hours) Letter grade only (A-F).

**633. Discourse and Grammar (3)**

Prerequisite: LING 421 or consent of instructor. This graduate course situates discourse analysis in linguistic theory and method, and focuses on the relationship of discourse and grammar. Examined are (1) the relationship of morphosyntactic devices and discourse context; (2) information flow and its relations to grammar; (3) the pragmatic motivation for grammatical systems; and (4) the relationship of grammar and genre. (Discussion) Letter grade only (A-F).

**650. Seminar in Bilingualism (3)**

Prerequisites: LING 420, 421 or consent of instructor. Advanced study of the degrees and kinds of bilingualism and bilingual situations which exist. Implications of such distinctions for linguistics and education will be covered. Letter grade only (A-F).

**697. Directed Research (1)**

Prerequisite: Advancement to candidacy for the M. A. in Linguistics. Research in linguistics on a topic connected with the Comprehensive Examination for the degree. Letter grade only (A-F). May be repeated to a maximum of 3 units.

**698. Thesis (1-6)**

Prerequisite: Consent of graduate committee. Planning, preparation and completion of a thesis in linguistics.

The Mechanical and Aerospace Engineering Department at California State University, Long Beach, offers a variety of programs to meet societal needs. At the undergraduate level the following programs are offered: Bachelor of Science in Aerospace Engineering (BSAE); Bachelor of Science in Mechanical Engineering (BSME); Bachelor of Science in Engineering (BSE) with options in Materials Engineering or Industrial-Management Engineering.

At the graduate level the following degree programs are offered: Master of Science in Aerospace Engineering (MSAE); Master of Science in Mechanical Engineering (MSME); Master of Science in Engineering (MSE) with an emphasis on Management Engineering, or a specialized interdisciplinary area meeting students' needs; and the Ph.D. in Engineering and Industrial Applied Mathematics (offered jointly with Claremont Graduate University). Additionally, the following post-baccalaureate certificate programs are offered: Certificate in Aerospace Manufacturing; Certificate in Heating, Ventilating, and Air-Conditioning (HVAC); Certificate in Industrial Plastics Processing and Design; and Certificate in Energy Conversion and Power Systems Engineering.

Students have the benefit of joining the student chapters of professional societies such as: the American Society of Mechanical Engineers (ASME); American Society of Heating, Refrigeration and Air Conditioning Engineers (ASHRAE); American Institute for Aeronautics and Astronautics (AIAA); Society of Automotive Engineers (SAE); Society of Petroleum Engineers (SPE); Society of Manufacturing Engineers (SME); as well as honor societies such as Pi Tau Sigma, which is housed in the MAE Department. As student members of these professional societies, students can attend local, regional, national and international meetings and conferences, participate in student paper contests, become eligible for society sponsored scholarships, interact with professionals from industry, and many other benefits.

## MECHANICAL ENGINEERING PROGRAM

### Undergraduate Program Goal and Educational Objectives

The goal of the Mechanical Engineering program at the undergraduate level is to graduate well-prepared entry-level professionals with an excellent education in the fundamentals of engineering sciences and design, and to provide them with the ability to apply their knowledge to translate ideas and plans into working engineering systems. This goal is achieved through the following educational objectives:

- Providing students with the opportunity to enter the profession of Mechanical Engineering, to pursue graduate studies, to commit to lifelong learning, and to continuing self-development.
- Providing students with a solid foundation in the areas of mathematics, basic sciences, computational skills, and a broad range of engineering sciences that are required for a contemporary mechanical engineer entering the profession.

- Training students thoroughly in methods of analysis, including the use of appropriate computer application software and other tools essential to develop engineering problem solving skills.
- Providing students with hands-on experience in planning, conducting, and analyzing results; and submitting formal reports on their experimental investigations.
- Providing opportunities for students to enhance their communication skills by means of formal writing, oral presentations, and world-class electronic media technology.
- Developing students' skills in the design process, including the ability to formulate problems, think logically and clearly, communicate effectively, synthesize information creatively, and function efficiently in a collaborative, teamwork environment.
- Providing the scope for co-curricular and extra-curricular activities which permit learning about the profession through involvement in professional societies, guest lectures, field trips, industrial employment, internships, active participation in national and international design competitions, and similar experiences.
- Instilling in students an understanding of the importance of their professional, ethical, environmental, and social responsibilities, and their role in the contemporary issues of our society.

## AEROSPACE ENGINEERING PROGRAM

### Aerospace Engineering Program Mission Statement

The mission of the Aerospace Engineering (AE) program is to fulfill the needs of students, of industry and government, and of the local, national, and global community in the area of aerospace systems engineering education and research.

The mission is implemented through the following objectives:

1. Provide undergraduate students with a comprehensive education for successful careers in aerospace engineering.
2. Provide graduate students with an education for the advancement of their careers and access to doctoral studies.
3. Provide an environment for students and faculty to engage in creative thinking and research in the areas of computational fluid dynamics, aero- and hydrodynamics, design and optimization, composite materials, manufacturing, and structural analysis and design.
4. Promote aerospace sciences and engineering at the University and the broader community.
5. Establish ties with national and international educational and research institutions in order to promote worldwide exchanges.

### Aerospace Engineering Undergraduate Program Educational Objectives

The goal of the undergraduate program is to produce well-rounded engineers who possess the skills required for a successful career in aerospace engineering. This goal is reached by:

1. Providing students with a comprehensive education in
  - 1.1 General Education, particularly communication in the English language and critical thinking, the physical universe, humanities and arts, social and behavioral sciences and history, and self-integration.
  - 1.2 Mathematics and basic sciences,
  - 1.3 General engineering topics and computer and software fundamentals, and
  - 1.4 Aerospace engineering topics (aerodynamics, aerospace materials and structures, propulsion, space environment and space systems, communications and avionics systems, orbital and flight mechanics, and stability and control).
2. Preparing students for careers in aerospace engineering by emphasizing
  - 2.1 Analysis and problem solving,
  - 2.2 Preliminary design, design for manufacturing and systems engineering,
  - 2.3 Teamwork, professionalism, economic fundamentals, commercial viability of projects and business cases, and communication skills.
3. Providing student projects, internship and research opportunities to expose students to the professional environment, to stimulate their creativity, and to foster lifelong learning.

### The Culture of Continuous Improvement

The Department of Mechanical and Aerospace Engineering continuously seeks input from its students, alumni, employers, community and industry leaders in order to improve its programs and ensure that students receive the best possible education and training. It is supported by a professional Advisory and Development Council (ADC). The council consists of outstanding engineers and executives from industry and government in Southern California. The role of the ADC is to form a liaison between the University and industry and to help the administration and faculty remain informed of modern engineering practices.

### ABET Accreditation

The Bachelor of Science in Mechanical Engineering and the Bachelor of Science in Aerospace Engineering are accredited by the Engineering Accreditation Commission (EAC) of the Accreditation Board for Engineering and Technology (ABET) (Accreditation Board for Engineering and Technology, Inc., 111 Market Place, Suite #1050, Baltimore, MD 21202, phone: 410-347-7710, website <http://www.abet.org>).

## UNDERGRADUATE PROGRAMS IN MECHANICAL AND AEROSPACE ENGINEERING

### Bachelor of Science in Mechanical Engineering (code MAE\_BS01) (135 units)

The realm of mechanical engineering is so extensive that training must be broad and basic, providing grounding in fundamentals which an engineer requires in order to gain competence in any specialized field. In view of this, the mechanical engineering curriculum includes ample foundation courses in mathematics, physics, chemistry, and design graphics. These are followed by courses in energy conversion, thermodynamics, fluid mechanics, mechanics and strength of materials, metallurgy, design, computer-aided design/ computer-aided manufacturing (CAD/CAM). The opportunity to further explore a particular area of interest is provided by additional elective courses in the senior year.

The laboratories of the department are provided with modern equipment for undergraduate instruction in the following areas: instrumentation and measurements, fuels and lubricants, materials and metallurgy, thermodynamics and heat power, vibration, design, and acoustics, strength of materials, design, CAD/CAM, control systems and manufacturing.

Several industry and professional society sponsored scholarships and internships are available to upper division mechanical engineering students. Further information is available in the department office.

#### Requirements

Lower Division: CHEM 111A; CE 205; EE 211, 211L; MATH 122, 123, 224; ENGR 101; MAE 172, 205, 272; PHYS 151, 152.

Upper Division: CE 335, 336, 406; ECON 300; MATH 370A; MAE 300, 305, 322, 330, 336, 337, 361, 371, 373, 375, 376, 409, 431, 459, 471, 472, 476, 490, to total at least 135 units.

#### FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

#### I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

**Must I take the courses in the semesters shown on the plan?**

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

- 1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.
- 2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.
- 3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).
- 4) You must complete all requirements for admission to impacted majors within the first 60 units.

**I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?**

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

**I didn't complete the exact list of courses shown. Can I still graduate on time?**

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

**If I follow the plan, will I have all requirements for graduation completed?**

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

**Bachelor of Science in Aerospace Engineering (code MAE\_BS02) (132 units)**

The curriculum is designed to supplement mathematics, science and basic engineering courses in order to give students the specialization needed in different areas of aerospace engineering. In addition to acquiring technical knowledge, graduates will have completed appropriate courses in communications and in humanistic social studies. The Mechanical and Aerospace Engineering Department is well equipped with state-of-the-art laboratories and computer facilities for undergraduate and graduate instruction.

**Requirements**

A grade of "C" or better must be achieved in all required courses listed below.

Minimum of 132 units required.

Lower Division: CHEM 111A; MATH 122, 123, 224; PHYS 151, 152; CE 205; MAE 101A, 172, 205.

Upper Division: ECON 300; MATH 370A; MAE 300, 305, 330, 333, 334, 350, 365, 371, 373, 374, 381, 390, 434, 440, 452, 453, 465, 478, 479, 481, 483, and 6 units of electives from the elective list below.

Electives: MAE 408, 422, 435, 451, 454 and 490A.

## Bachelor of Science in Engineering

### Option in Materials Engineering (code MAE\_BS03) (135 units)

Modern engineering applications in all fields require new materials with properties well beyond those obtainable with the alloys available years ago. New materials, such as composites, ceramics, polymers, semiconductors and their manufacturing processes, are needed for such diverse applications as air transports, undersea deep submergence vessels, magnetic and semiconducting devices. Scientific knowledge in this area has expanded recently at a rate comparable to that experienced by the field of electronics. The materials option is offered to meet the demand for materials oriented engineers.

Course work is directed towards the understanding of the properties of materials in terms of their atomic structure, and emphasis is placed on the behavior of materials in engineering applications. The laboratories have equipment for studies in this field and include facilities for the determination of crystal structure, microscopic and X-ray diffraction, and scanning electron microscope examination of solids, thermal and mechanical treatment and the determination of properties at low and high temperatures.

#### Requirements

Lower Division: CHE 200; CHEM 111A, 111B; CE 205; EE 211, 211L; MATH 122, 123, 224; ENGR 101; MAE 172, 205, 272; PHYS 151, 152.

Upper Division: CHE 415; CE 306; ECON 300; EE 320; MATH 370A; MAE 322, 330, 361, 371, 373, 374, 375, 409, 459, 490, plus approved engineering elective courses to total a minimum of 135 units.

For more information on admission to this program, please contact Dr. Jalal Torabzadeh, Undergraduate Advisor, Mechanical Engineering Program.

### Option in Industrial-Management Engineering (code MAE\_BS04) (135 units)

This is an interdisciplinary degree in which both the College of Business Administration and the College of Engineering provide courses which will enable the student to have a technical engineering background plus a good foundation in business and management practices. The option consists of the core engineering courses through the junior year with an addition of business courses in accounting, business law, management, inventory practices and operations research. The elective structure within this option is such that the student may specialize in either engineering, or a combination of both engineering and business.

#### Requirements

Lower Division: ACCT 201; CHEM 111A; CE 205; EE 211, 211L; FIN 200; MATH 122, 123, 224; ENGR 101; MAE 172, 205; PHYS 151, 152.

Upper Division: CE 306; ECON 300; FIN 320; IS 310; MATH 370A; MGMT 300; MGMT 411 or 412 or 413; MAE 305, 310, 322, 330, 371, 373, 376, 410, 459, 476, and approved electives to total at least 135 units.

For more information on admission to this program, please contact Dr. Jalal Torabzadeh, Undergraduate Advisor, Mechanical Engineering Program.

## Bachelor of Science in Engineering Technology

### Manufacturing Technology Option (code ET\_BS04)

For requirements, see the description in the Engineering Technology Programs section of this catalog.

### Quality Assurance Option (code ET\_BS05)

For requirements, see the description in the Engineering Technology Programs section of this catalog.

## Certificate in Aerospace Manufacturing (code MAE\_CT01)

Director: Hamid Hefazi

This Certificate Program is designed to give students and working aerospace engineers an educational opportunity to focus on the complex and dynamic issues related to aerospace manufacturing.

### Requirements

1. Required prerequisite courses or consent of the Program Director
2. Consultation with program director and preparation of a Program Planner.
3. Satisfactory completion of the required courses as listed below.
4. Fulfillment of the Graduation Writing Assessment Requirement (GWAR)
5. Completion of Bachelor of Science degree in an approved major. The certificate may be awarded concurrently with or subsequent to baccalaureate degree.

### Required Courses

The Certificate Program requires a minimum of 19 semester units: MAE 455, 456; ENGR 511, 574 and 3 units of approved graduate or 400-level engineering classes. Students should consult with the program director to assess any needed prerequisites.

## Certificate in Heating, Ventilating, and Air-Conditioning Engineering (code MAE\_CT03)

Director

Hamid Rahai

Faculty

Hamid Rahai, Reza Toossi and Jalal Torabzadeh

The 20-unit HVAC Certificate Program is designed to prepare engineering and science students for designing various HVAC systems and to familiarize them with HVAC equipment and their selection process.

With a proper choice of classes, you may also earn this Certificate in conjunction with your bachelor's degree. Contact the Department of Mechanical and Aerospace Engineering for more information.

### Requirements

1. Consultation with the Program Director and preparation of a Program Planner;
2. Satisfactory completion of the required courses, as listed below;
3. Approval of the special project and its satisfactory completion (MAE 491);
4. Completion of a Bachelor of Science degree in an approved major. The Certificate may be awarded concurrently with or subsequent to the baccalaureate degree.

## Required Courses

The HVAC Certificate Program requires a minimum of 20 semester units, as indicated below: MAE 330, 431, 438/538, 490E, 491, MAE 333 or CE 335; MAE 440 or CE 336

## Certificate in Industrial Plastics Processing and Design (code MAE\_CT02)

Director

Min-Ten Jahn

Professors

Mihir K. Das, Lloyd Hile, Min-Ten Jahn, and Hsien-Yang Yeh

The certificate program in Industrial Plastics Processing and Design is an interdisciplinary program sponsored by the Mechanical and Aerospace Engineering and Chemical Engineering Departments. Polymeric materials rank as second in tonnage use currently of all materials, and indications are that in the near future they may surpass metals in total usage. There is a definite need for personnel familiar with the processing and special design considerations necessary to properly make use of the special properties of this broad class of materials. The program permits a student to study in detail the industrial production processes, material testing procedures, economics of the polymeric industry and degradation of polymeric. All students in the program complete an individual project, consisting of the design of an item, choice of proper polymeric material for the particular application, choice of the processing operation and construction of the necessary molding tools and testing of the completed device. Contact the Department of Mechanical and Aerospace Engineering.

### Requirements

1. A bachelor's degree in engineering. The certificate may be awarded concurrently with the degree.
2. Satisfactory completion of 22 units minimum from the courses listed below: Polymeric Processing: CHE 200, 425; MAE 471 and either 472 or 476; and a minimum of 3 units in either CHE 490 or MAE 491. Properties of Polymers: MAE 373, 374, and 424/524.
3. Approval of the certificate committee for admission to the certificate program. An advisor will be appointed to you at that time.
4. The advisor's approval of your completion of the special project.

## Certificate in Energy Conversion and Power Systems Engineering (code MAE\_CT04)

Director

Jalal Torabzadeh

Faculty

R. Das, S. deSoto, H. Nour, H. Rahai, R. Toossi, and J. Torabzadeh

The 27-unit certificate program in "Energy Conversion and Power Systems Engineering" is an undergraduate program designed to prepare Electrical and Mechanical Engineering students to become proficient in the analysis and design of power generating systems, such as direct conversion, coal burning, hydraulic, nuclear, solar, wind, and various other types of power plants.

### Requirements

1. Consultation with program advisors in Electrical or Mechanical and Aerospace Engineering Departments and preparation of a program planner;
2. Completion of the following core courses: CE 335, EE 350, EE 452, MAE 330, 336, 431;
3. Completion of 9 units from the following list of elective courses: EE 453, 455, 458, 460, 550, 551, 552, 553; MAE 490, 538;
4. Completion of a Bachelor of Science degree in an approved major. This certificate may be awarded concurrently with or subsequently to baccalaureate degree.

## GRADUATE PROGRAMS

Admission to MSAE or MSME the graduate programs requires a minimum GPA of 2.7 in the last 60 units attempted.

### Master of Science in Mechanical Engineering (code MAE\_MS02)

The Master of Science in Mechanical Engineering is offered by the Department of Mechanical and Aerospace Engineering, College of Engineering.

Built on a broad and basic undergraduate instruction, the graduate level courses and the graduate degree, the Master of Science in Mechanical Engineering, develop competence in the fields of design and manufacturing, dynamics and controls, materials and composites, mechanics and Finite Element Methods, and thermal systems. Modern laboratories in CAD, fluid power and mechanics, heat power, control systems, manufacturing, plastics, design, thermodynamics, heat flow, metallurgy, and mechanical properties of materials are maintained for undergraduate and graduate instruction, and graduate research. Design rooms, laboratories within the other engineering departments, computer facilities, and machine shops supplement the mechanical engineering facilities.

Additional details may be found in the *Schedule of Classes*. For further information and complete degree requirements contact Mechanical and Aerospace Engineering Department.

### Admission Procedures

To be considered for admission, the graduate applicant must have earned a bachelor's degree from an accredited institution, have been in good standing at the last institution attended, and have a grade point average (GPA) of at least 2.7 for the last 60 semester units (90 quarter units) attempted. There is no separate department application, but applicants must submit a second set of transcripts to the department.

### Prerequisites

1. A bachelor's degree in mechanical engineering, engineering, or other appropriate discipline from an accredited college or university, with a minimum grade point average (GPA) of 2.7 in the last 60 semester units attempted.
2. Students must consult with the program graduate advisor prior to enrolling in any course for their program.
3. The Graduation Writing Assessment Requirement (GWAR) during the first semester in residence. Failure to attempt to fulfill the GWAR during the first semester will prevent registration in engineering courses in subsequent semesters.

Note: Before being admitted, a qualified student without a mechanical engineering degree must provide a written statement to the MSME graduate advisor that he/she understands that all deficiencies must be removed before attempting graduate-level courses.

### Requirements

#### PLAN I

Completion of a minimum of 30 units beyond the bachelor's degree in upper-division and graduate courses approved by the student's Department Graduate Studies Committee, including:

1. Eighteen units of 500- and/or 600-level courses in mechanical and aerospace engineering.
2. Six units of electives selected from approved upper-division or graduate courses from appropriate areas.
3. Completion of six units of MAE 698-Thesis, and submission of a written thesis.

#### PLAN II

Completion of a minimum of 36 units beyond the bachelor's degree in upper-division and graduate courses approved by the student's Department Graduate Studies Committee, including:

1. Twenty-four units of 500- and/or 600-level courses in mechanical and aerospace engineering.
2. Six units of electives selected from approved upper-division or graduate courses from appropriate areas.
3. Completion of six units of MAE 697 (Directed Research).

### Advancement to Candidacy

Students applying for advancement to candidacy must:

1. have completed all undergraduate deficiencies with grades of "C" or better;
2. have attained an overall grade point average of (GPA) or 3.0;
3. have completed at least 12 units applicable to the degree with a GPA of at least 3.0;

4. have fulfilled the Graduation Writing Assessment Requirement (GWAR). This requirement can also be met by presenting evidence that the student met the requirement while an undergraduate at CSULB or at certain CSU campuses;
5. and have their program of studies approved by the ME program's graduate advisor.

### Master of Science in Aerospace Engineering (code MAE\_MS01)

The Master of Science in Aerospace Engineering program has been created to educate graduate students in subjects relevant to the requirements of industry and in deductive reasoning which will benefit them and the community. This program is unique in its emphasis on practical applications and intimate interaction with the aerospace industry. It involves the most modern computational and experimental methods and provides the essential information permitting the students to acquire knowledge and skills of immediate practical importance. This knowledge is communicated in the courses listed below and used in the conduct of a thesis project to be carried out with participation from industry. Area Specializations include: spacecraft or aircraft systems engineering, computational fluid dynamics, and aerospace structures.

Both graduate and undergraduate programs benefit from the advice of an advisory committee made up of senior staff of aerospace companies, government agencies and universities.

Further information may be obtained from the Department of Mechanical and Aerospace Engineering.

#### Prerequisites

1. A bachelor's degree in an accredited curriculum in Aerospace or Mechanical engineering with a minimum grade point average of 2.70 in the last 60 (semester) units attempted. Applicants with lower GPA may be admitted subject to successful completion of appropriate deficiencies.
2. A bachelor's degree in engineering, mathematics, science or other appropriate discipline with the requirement that essential undergraduate prerequisites in engineering be satisfied.
3. Graduate students must consult with the graduate advisor for information concerning procedures and requirements for appropriate approval of their courses of study prior to enrolling in their graduate programs.

#### Advancement to Candidacy

Prerequisites for advancement to candidacy are:

1. Classified status.
2. An approved program of studies for the Master of Science in Aerospace Engineering.
3. Fulfillment of the CSULB Graduation Writing Assessment Requirement (GWAR).
4. Be enrolled in regular session.
5. Application for Advancement to Candidacy must be done prior to or concurrent with enrollment in MAE 698, Thesis.

### Requirements

#### PLAN I

Completion of a minimum of 30 units beyond the bachelor's degree in upper-division and graduate courses approved by the student's Department Graduate Study Committee, including:

1. Eighteen units of 500- and/or 600-level courses in mechanical and aerospace engineering;
2. Six units of electives selected from approved upper-division or graduate courses from appropriate areas;
3. Completion of six units of MAE 698, and submission of a written thesis.

#### PLAN II

Completion of a minimum of 36 units beyond the bachelor's degree in upper-division and graduate courses approved by the student's Department Graduate Study Committee, including:

1. Twenty-four units of 500- and/or 600-level courses in mechanical and aerospace engineering;
2. Six units of electives selected from approved upper-division or graduate courses from appropriate areas;
3. Completion of six units of MAE 697.

### Master of Science in Engineering (code COE\_MS01)

Admission to MSE graduate program requires a minimum GPA of 2.5 in the last 60 units attempted.

For requirements, see the description in the College of Engineering part of this catalog.

The Mechanical and Aerospace Engineering Department administers two emphases under the Master of Science in Engineering. The other prerequisites and requirements are the same as for the MSAE and MSME programs.

#### Management Engineering Emphasis

A special management perspective is required for the successful generation of technical products and services, and thus the Master of Science in Engineering: Program in Management Engineering is offered by the College of Engineering at California State University, Long Beach.

In order to plan, design, direct and control technical projects, technical managers must be capable of inspiring and developing professional personnel. They must be able to integrate planning, manufacturing and budgetary concerns of the project and be able to easily communicate with general management.

The Emphasis in Management Engineering primarily admits students with a traditional engineering background. It emphasizes the management of engineering-based endeavors and does not require undergraduate business courses as prerequisites for graduate work.

Well-suited for working students, graduate courses in management engineering are offered in the late afternoon and evening. An individualized program is developed according to each student's undergraduate degree, area of interest, or some well-defined industrial application; interdisciplinary approaches are encouraged.

The graduate program supports innovative thesis topics that enable the degree candidate to be knowledgeable about new applications and/or areas in management engineering.

The graduate Emphasis in Management Engineering at California State University, Long Beach seeks to:

- Provide industry and government with engineers who have essential management knowledge and skills.
- Provide engineers with career advancement opportunities in project management and the management of research, manufacturing and other technical enterprises.
- Educate engineers as managers who can effectively plan and implement technological projects.

### Ph.D. in Engineering and Industrial Applied Mathematics (code COE\_PH01)

For requirements, see the description in the College of Engineering section of this catalog.

---

## Courses (MAE)

---

### Lower Division

#### 101A. Introduction to Aerospace Engineering (1)

Role of various types of engineering specialties in the development of an actual aerospace vehicle product. Current social, ethical and environmental issues in Aerospace Engineering solutions. Life-long learning skills using resources from professional societies and Internet are also emphasized. (Lecture-problem 1 hour) Letter grade only (A-F).

#### 172. Engineering Design Graphics (3)

Graphics concepts and visualization. Graphic expressions using CAD software, emphasis on industrial practice involving part and assembly drawings for actual products, standards, tolerances, surface finishes, and other attributes on drawings, production drawings, projects involving complete design of systems and subsystems. (Lecture-problems 2 hrs., design laboratory 3 hrs.) (CAN ENGR 2) Letter grade only (A-F).

#### 205. Computer Methods in Mechanical Engineering (2)

Prerequisites: MATH 122; PHYS 151. Application of computer programming to engineering problem solving; structured approach to problems; input-output concepts for both numerical and graphical results. (Lecture-problems 1 hour, laboratory 3 hours) Letter grade only (A-F).

#### 272. Introduction to Manufacturing Processes (2)

Prerequisite: MAE 172. Comprehensive survey of modern techniques in manufacturing processes. Basic manufacturing processes; nature and properties of materials; production of metals; foundry, casting and heat treatment; welding, powder metallurgy (sintering), plastics, metrology; working of metals, press work; machine tool elements, numerical control; metal cutting and turning; drilling, boring, milling; shaping planning, sawing broaching; grinding, sanding; gears and gear-cutting, threads and thread-cutting. (Lecture-problems 1 hour, laboratory 3 hours.) Letter grade only (A-F).

### Upper Division

#### 300. Engineering Instrumentation and Measurement (2)

Prerequisites: MATH 224, PHYS 151, 152. Statistical analysis of experimental data, uncertainty analysis, various statistical distributions and test of goodness of fit, correlation coefficient and multivariable regression. Engineering instrumentation including different types of passive and active transducers, electronics for instrumentation, computer-based data acquisition systems, and experiments on pressure, temperature, and force measurements. (Lecture-problems 1 hour, Laboratory 3 hours). Letter grade only (A-F).

#### 305. Numerical Methods in Mechanical and Aerospace Engineering (3)

Prerequisites: MAE 205 and MATH 370A. Numerical methods applied to mechanical and aerospace engineering problems. Roots of linear and nonlinear algebraic equations. Solutions of simultaneous linear algebraic equations. Parametric notation of analytical curves and surfaces. Numerical interpolation and splines. Numerical integration and differentiation. Numerical solution of ordinary differential equations, initial-value problems, boundary-value problems. Individual and/or group projects. (Lecture-problems 3 hours.) Letter grade only (A-F).

#### 310. Safety and Reliability in Systems Design I (3)

Prerequisites: MAE 205; MATH 370A, or consent of instructor. Introduction to probabilistic design analysis; safety and reliability analyses and tools to assess the adequacy of the designs; identification of critical elements of the design and practical design guidance; compliance with the requirements. Coherent use of reliability concepts, tools, and reliability programs to produce reliable and safe system designs. Group projects involving the design of a reliable and safe "real-life" system. (Lecture-problems 3 hours.) Not open to students with credit in ME 390. Letter grade only (A-F).

#### 322. Engineering Materials and Materials Processes (3)

Prerequisites: CHEM 111A, MATH 123, MAE 172. Structure and properties of engineering materials. Phase and transformation diagrams. Heat treatments and mechanical processing. Manufacturing methods of metals, alloys, polymers, composites, ceramics, and semiconductors. (Lecture-problems 3 hours.) Letter grade only (A-F).

#### 330. Engineering Thermodynamics I (3)

Prerequisites: MATH 224, PHYS 151 or equivalent, and CHEM 111A or consent of instructor. Laws of thermodynamics. Properties of liquids, gases and vapors. Sources of energy and conversion to work. Introduction to heat transfer and psychrometry. (Lecture-problems 3 hours) Letter grade only (A-F).

#### 333. Engineering Fluid Dynamics (3)

Prerequisites: PHYS 151, MATH 370A. Fundamentals of fluid mechanics, formulation of the conservation of mass, momentum and energy for one-dimensional, finite and differential control volumes. Non-dimensional parameters. Pipe flow. External flow. (Lecture-problems 3 hours). Letter grade only (A-F).

#### 334. Aerodynamics I (3)

Prerequisite: MAE 333. Bernoulli's equation, incompressible, inviscid flow, flow around circular cylinder, two-dimensional, incompressible boundary layers, incompressible flow around thin airfoils. Panel methods. (Lecture-problems 3 hours). Letter grade only (A-F).

#### 336. Power Plant Design (3)

Prerequisite: MAE 330. Design of power production systems, including steam power plants, gas turbines and auxiliary power units. Survey of alternate power sources including wind, solar, geothermal, ocean thermal and biomass. Group and/or individual design projects. (Lecture-problems 2 hours, laboratory 3 hours.) Letter grade only (A-F).

#### 337. Thermal Engineering Laboratory (2)

Prerequisite: MAE 336. Thermodynamics, heat transfer and fluid flow property measurements, measurement of heating value of fuels, energy and performance analysis of thermal systems, including internal combustion engines, power and heat generating systems, refrigeration and air-conditioning systems, and heat exchangers. (Lecture-problems 1 hour, Laboratory 3 hours). Letter grade only (A-F).

#### 350. Flight Mechanics (3)

Prerequisite: MAE 371. Aircraft forces. Turbojets: level and other flights in the vertical plane, turning flight in the horizontal plane. Piston props: level and other flights in the vertical plane, turning flight in the horizontal plane. Performance analysis and comparisons of various aircraft. (Lecture-problems 3 hours.) Letter grade only (A-F).

**361. Materials and Properties Laboratory (1)**

Prerequisites: ENGL 100 or equivalent, MAE 300, 322, 373. Study of the effects of thermal processing and mechanical processing on the properties and microstructures of metals, alloys, and other materials. Determination of material properties using tensile test, torsion test, and beam test. Study of the statistical nature and reliability of test results. (Laboratory 3 hours) Letter grade only (A-F).

**365. Aerospace Structures I (3)**

Prerequisite: MAE 373. Mechanical behavior of aerospace materials. Torsion of thin walled section beams. Bending and torsion of advanced beams. Analysis of stiffened box beams. Load transfer in stiffened panel structures. Failure criteria of aerospace materials. (Lecture-problems 3 hours). Letter grade only (A-F).

**\*371. Analytical Mechanics II (Dynamics) (3)**

Prerequisites: CE 205, MAE 205 or CE 206. Newton's Laws and the principles of work and energy and impulse and momentum applied to the study of particle and rigid body motion. Engineering application with emphasis on plane motion problems. Individual and/or group projects involving in-depth numerical analysis. (Lecture-problems 3 hours.) Letter grade only (A-F).

**373. Mechanics of Deformable Bodies (3)**

Prerequisite: CE 205. Application of the principles of mechanics to the design of structural and machine members and connections; stress analysis of beams and columns. Properties and strength of engineering materials. Design projects. (Lecture-problems 3 hours.) Letter grade only (A-F).

**374. Mechanical Properties of Materials Laboratory (1)**

Prerequisites: MAE 373, ENGL 100 or equivalent. Physical and mechanical properties of engineering materials and their relationship to structural elements; accuracy of measurements; statistical analysis of experimental data; professional laboratory reports. (Laboratory 3 hours.) Letter grade only (A-F).

**375. Kinematics and Dynamics of Mechanisms (3)**

Prerequisites: MAE 272, 322, 371. Fundamentals of linkages, cams, gears and gear trains. Velocity and acceleration analysis of machines leading to dynamic loading of machine parts; dynamic analysis and balancing of rotating machines; internal combustion engine balancing. Individual design projects. (Lecture-problems 2 hours, laboratory 3 hours.) Letter grade only (A-F).

**376. Modeling and Analysis of Dynamic Systems (3)**

Prerequisite: MAE 371; MATH 370A. Modeling and analysis of dynamic systems including mechanical, electrical, electro-mechanical, and hydraulic systems. Use of complex algebra and Laplace transforms. Mathematical modeling of dynamic systems in state-space. Linear systems analysis in time and frequency domains. Introduction to feedback control systems. (Lecture-problems 3 hours.) Letter grade only (A-F).

**381. Fundamentals of Spacecraft Dynamics (3)**

Prerequisites: PHYS 152 and MAE 371. Space environments and their impact on spacecraft design. Space mission engineering. Spacecraft propulsion. Attitude dynamics and kinematics. Controls. Spacecraft attitude determination and control. (Lecture-Problems 3 hours). Letter grade only (A-F).

**390. Aerospace Engineering Seminar (1)**

Prerequisite: Upper division standing. Through exercises and projects, the students develop improved communications skills, both written and oral. The students are introduced to effective communication techniques and make oral presentations. Guest speakers from industry cover topics such as professional practice of engineering, social responsibilities of engineers, examples of ethical and legal issues, as well as the latest developments in Aerospace Engineering. Students write reports regarding these presentations, both from technical and communication point of views. (Seminar 1 hour). Letter grade only (A-F).

**408./508. Systems Engineering and Integration (3)**

Prerequisite: Senior standing or consent of instructor. Introduction to the tools and methods employed by systems engineers in the aerospace industry. Development of system functions, requirements, verification and validation, and interfaces in the context of integrated product teams and the product life cycle. Trade studies and risk management. Projects are assigned and written reports and oral presentations are required. (Lecture-Problems 3 hours). Letter grade only (A-F).

**\*409. Modern Computational Aspects in Mechanical Engineering (3)**

Prerequisites: Senior standing in engineering and consent of instructor. Computational aspects of various branches of Mechanical Engineering. Typical subjects covered are finite element analysis of structures, fluids, or heat transfer; boundary element analysis. May be repeated to a maximum of 6 units with consent of department. (Lecture-problems 3 hours.) Letter grade only (A-F).

**A. Finite Element Methods I**

Finite element methods for beam and truss elements. Systems of ordinary differential equations and their solution in a finite element formulation. Variational formulation of the finite element method. Static and dynamic analysis of complex structures idealized by truss-beam and plane stress elements. Rigid elements in an elastic environment. Automatic mesh generation for 1D, 2D, 3D structures via solid modeling using IDEAS. (Lecture-problems 3 hours.) Letter grade only (A-F).

**B. Introduction to Computational Fluid Dynamics and Heat Transfer**

Classification of partial differential equations and boundary conditions, finite difference and finite volume formulations, grid generation, stability analysis, numerical methods for inviscid flows, viscous laminar flows, compressible flows, conduction and convection heat transfer. (Lecture-problems 3 hours.) Letter grade only (A-F).

**410. Safety and Reliability in Systems Design II (3)**

Prerequisite: MAE 310 or consent of instructor. Application of the probabilistic design analysis and theory to real case studies of system design using safety and reliability tools and analysis to set design criteria, assess system design, determine failure modes and critical elements, provide practical design experience and demonstrate compliance with the requirements. Group and/or individual projects involving complete design of reliable and safe systems. (Lecture-problems 2 hours, laboratory 3 hours.) Letter grade only (A-F).

**422./522. Composite Materials (3)**

Prerequisite: MAE 373. Stress-strain relations for anisotropic materials. Classical lamination theory. Strength and failure theories for laminae and laminates. Micromechanics. Applications of composite structures. Additional projects will be required for MAE 522. (Lecture-problems 3 hours) Letter grade only (A-F).

**424./524. Engineering Principles and Properties of Plastics (3)**

Prerequisites: MAE 373. Nature of polymers, physical and mechanical properties of plastics. Polymerization reactions and production. Properties of co-polymers, polymer solutions. Visco-elastic properties of polymerics. (Lecture-problems 3 hours.) Letter grade only (A-F).

**\*425. Chemical and Electrochemical Manufacturing Processes (3)**

Prerequisites: MAE 322, 330; or CHEM 371A or consent of instructor. Theory of electrochemical processing. Electroplating and electroless plating solutions, processes and equipment. Anodizing and other surface treatments. Carburizing, nitriding atmospheres and equipment. Diffusion in solids. The effect of surface treatments on mechanical properties. Same course as CHE 435. (Lecture-problems 3 hours.) Letter grade only (A-F).

**430./530. Measurement Techniques in Fluid Mechanics and Heat Transfer (3)**

Prerequisites: MAE 330, CE 335. Experimental uncertainty, electrical transducers and pressure measurements, thermocouples and other temperature measurement devices, resistance bridges, amplifiers and filters, optical measurement devices, digital image processing, holography and laser doppler velocimeter. (Lecture-problems 3 hours.) Letter grade only (A-F).

**\*431. Heat Transfer Systems Design (3)**

Prerequisites: MAE 305, 330; CE 335. Analysis of heat transfer by conduction, convection and radiation. Investigation of steady state and transient heat transfer systems. Computer methods. Individual or group design projects involving real-life problems in heat transfer such as electronic packaging, heat exchangers, heat engines, refrigerators, and thermal systems analysis. (Lecture-problems 2 hours, laboratory 3 hours.) Letter grade only (A-F).

**\*434. Aerodynamics II (3)**

Prerequisite: MAE 334. Incompressible flow about wings of finite span. Vortex lattice method. Compressible flows, Subsonic and supersonic flows around airfoils and wings. Introduction to computational fluid dynamics (CFD). Aerodynamic design considerations. Projects are assigned and written reports and oral presentations are required. (Lecture-problems 3 hours). Letter grade only (A-F).

**435./535. Computational Fluid Dynamics I (3)**

Prerequisites: MATH 370A, MAE 333. Numerical methods for elliptic, parabolic, and hyperbolic equations, finite difference and finite volume methods, analysis of consistency, stability, and convergence, panel method, modeling and computation of boundary layer flows, computational methods for solving full potential equation, grid generation techniques, application to inviscid and viscous subsonic, transonic, and supersonic flows. (Lecture-Problems 3 hours) Letter grade only (A-F).

**438./538. Heating, Ventilating, Air Conditioning, and Refrigeration (3)**

Prerequisites: MAE 330, CE 335. Basic HVAC system calculations. Thermodynamics and psychometrics, design conditions and load estimating, residential and non-residential heating and cooling load calculations, energy estimating methods, duct and pipe sizing, and life cycle costs. (Lecture-Problems 3 hours) Letter grade only (A-F).

**440. Aerodynamics Laboratory (1)**

Prerequisite: MAE 334 or consent of instructor. Experimental techniques in aerodynamics, wind tunnel measurements, use of Pitot tube, hot wire and Laser Doppler Velocimetry systems, flow visualization techniques, calibration of transducers. Computer controlled data acquisition and analysis. Projects are assigned and written reports and oral presentations are required. (Laboratory 3 hours). Letter grade only (A-F).

**451./551. Aircraft Preliminary Design and Performance (3)**

Prerequisite: Consent of instructor. Complete aircraft preliminary design, including mission definition, applicable specifications, and regulations. Preliminary takeoff weight and weight empty for a specific mission. Aircraft geometric characteristics, including engine size, are developed. Detailed aerodynamic data are estimated and used to calculate aircraft performance. The design project is conducted in teams for MAE 451 and individually for MAE 551. (Lecture-Design Project 3 hours) Letter grade only (A-F).

**\*452. Propulsion (3)**

Prerequisites: MAE 330, 434. The simple gas turbine cycle. Heat exchange and reheat gas turbine cycles. Gas turbine components. Ideal and actual thrust development in gas turbines. Principles of rocket engines. Solid, liquid and hybrid fuel rockets. Thrust and control in rockets. Projects are assigned and written reports and oral presentations are required. (Lecture-problems 3 hours). Letter grade only (A-F).

**453./553. Stability and Control of Aerospace Vehicles (3)**

Prerequisite: MAE 350 or equivalent. Physical dependence of airplane stability and control characteristics on airplane configuration and flight condition. Equations for the static longitudinal, lateral and directional stability of airplanes. Neutral points, control effectiveness, trim in maneuvering flight. Configuration determinants. Transient modes. Additional Projects required for MAE 553. (Lecture-problems 3 hours). Letter grade only (A-F).

**454/554. Avionics Systems (3)**

Prerequisite: MAE 453. Avionics systems requirements definition and design. Systems used for guidance and navigation. Components of avionics systems (software, integrated circuits, devices, etc.). Integration of optics and electronics. Testing and certification. (Lecture-Problems 3 hours). Letter grade only (A-F).

**455. Aerospace Manufacturing Laboratory (1)**

Prerequisite: Senior standing. A design project is given and students are required to complete the design taking into account the manufacturing equipment, control and systems available. (Laboratory 3 hours). Letter grade only (A-F).

**456. Production Methods for Aerospace Manufacturing (3)**

Prerequisite: Consent of instructor. Survey of production processes, sequence of operations, equipment and facilities, methods, tools, plans and requirement of various aerospace products. Observation of an actual aerospace manufacturing activity. (Lecture-problems 3 hours). Letter grade only (A-F).

**457. Lean Manufacturing (3)**

Prerequisite: Senior standing. Fundamental makeup of a Lean Enterprise. Study of necessary ties to the customer and relationships both internal and external to the company as well as the leadership, which forms the foundation of a Lean Enterprise. Study of the mechanism of continuous process improvement, which is essential to sustained "Lean" operations. Case studies to accomplish value stream analysis and develop a Lean Enterprise improvement plan for student's own respective operations. (Lecture-problems 3 hours). Letter grade only (A-F).

**\*459. Professional Practice Seminar (1)**

Prerequisite: Senior standing or consent of instructor. The course covers professional practice of engineering, and social and moral responsibilities of engineers, including codes of conduct. Trends and outlook of national and local industries are examined in the context of future employment. Examination of ethical and legal issues, including intellectual property rights and regulatory codes and practices. Students are encouraged to participate in the activities of professional societies such as ASME, and attend professional seminars organized by them in order to instill the habit of life-long learning. The role of graduate studies in engineering and related fields are discussed in the context of professional development. The Industrial practices of teamwork and professionalism, including licensure, are emphasized. Students are strongly encouraged to take the FE (Fundamentals of Engineering, formerly EIT) Examination. Written reports and oral technical presentations are required. (Lecture-Problems 1 hour). Letter grade only (A-F).

**\*465. Aerospace Structures II (3)**

Prerequisite: MAE 365. Work-energy principles. Force method to trusses, beams, frames, and shear panels. Force method to thin-walled stiffened structures. Structural stability. Elementary aeroelasticity. Matrix methods of aerospace structural analysis. Application of finite element computer programs. Team projects are assigned and written reports and oral presentations are required. (Lecture-problems 3 hours). Letter grade only (A-F).

**\*471. Analysis and Design of Machine Components (3)**

Prerequisites: MAE 374, 375. Application of the principles of mechanics and physical properties of materials to the proportioning of machine elements, including consideration of function, safety, production and economic factors. Group and/or individual design projects of mechanical systems and/or subsystems. (Lecture-problems 2 hours, laboratory 3 hours.) Letter grade only (A-F).

### \*472. Design of Mechanical Engineering Systems (3)

Prerequisites: MAE 330, 373, 375; CE 335. Corequisite: CE 406. This is a capstone course giving a meaningful experience in the design of Mechanical Engineering Systems, integrating accumulated knowledge and skills of mechanical engineering and engineering standards. The design experience starts with the conceptual design, followed by literature review and analysis. It culminates in a final design that includes: drawings, manufacturing and assembly of the final product or a prototype. Emphasis is placed on identifying realistic constraints simulating practical, industrial situations with factors such as economics, environment, sustainability, manufacturability, life cycle, ethics, health and safety, social and political consequences, which affect design choices. Project results are presented in a final, formal report followed by an oral technical presentation to a peer group. Wherever possible, teamwork and interaction with practicing engineers is encouraged. (Lecture-Problems 2 hours, Design Laboratory 3 hours). Letter grade only (A-F).

### 474./574. Computer-Aided Manufacturing (3)

Prerequisites: MAE 322, 490A. Fundamental concepts in automation. High volume discrete parts production systems. Numerical control manufacturing systems. Computer process monitoring. Direct digital control. Group techniques. Flexible manufacturing systems. (Lecture-problems 3 hours.) Letter grade only (A-F).

### \*476. Mechanical Control Systems I (3)

Prerequisite: MAE 376. Feedback control systems in mechanical engineering. Modeling, analysis, and design. System performance and design criteria: stability, transient response, frequency response and compensation, root locus. Introduction to nonlinear control systems, state space analysis and design. (Lecture-problems 2 hours, laboratory 3 hours.) Letter grade only (A-F).

### 478. Aerospace System Design I (3)

Prerequisites or corequisites: MAE 434, 465, or consent of instructor; fulfillment of the Graduation Writing Assessment Requirement (GWAR). This two semester capstone design experience integrates the essential aspects of aerospace systems design. Each team of students is assigned a design project, to be completed in the two-semester course sequence. In this first semester course, from general specifications, the teams define the requirements and work through the complete design by the end of the second semester course (MAE 479). Design for manufacturing is emphasized. Regular design reviews (oral presentations and written reports) are essential components in grading. (Lecture-Design Project 2 hours, Laboratory 3 hours) Letter grade only (A-F).

### 479. Aerospace Systems Design II (2)

Prerequisite: MAE 478. This course is the continuation of Aerospace Systems Design I (MAE 478). The projects assigned in teams in MAE 478 are completed. Manufacturing is included when appropriate. Regular design reviews (oral presentations and written reports) are essential components in grading. (Lecture-Design Project 1 hour, Laboratory 3 hours) Letter grade only (A-F).

### \*481. Space Systems Engineering (3)

Prerequisite: MAE 381. A systems engineering approach to spacecraft design is presented. A look at the space industry. Spacecraft systems engineering and spacecraft subsystems. Power subsystem. Radiative and conductive heat transfer. Thermal control subsystem. Telecommunications. Command and data handling. Team projects including spacecraft subsystem design are assigned. Written reports and oral presentations are required. (Lecture-Problems 3 hours). Letter grade only (A-F).

### \*483. Space Flight and Orbital Mechanics (3)

Prerequisites: MAE 381. Particle dynamics. Circular orbits: stability, Lagrange points, tidal forces, gravitational resonance. Celestial mechanics. Bound and unbound orbits. Predicting orbital positions. Orbital transfers and the orbital rendezvous problem. Principles of rocketry. Projects are assigned and written reports and oral presentations are required. (Lecture-problems 3 hours). Letter grade only (A-F).

### \*490. Special Topics (3)

Prerequisites: Senior standing in engineering and consent of instructor. Selected topics from recent advances in mechanical and aerospace engineering. Course content may vary from semester to semester. May be repeated to a maximum of 6 units with different topics. (Lecture-problems 3 hours) Letter grade only (A-F).

#### A. CAD/CAM

Fundamentals of computer-aided design/computer-aided manufacturing (CAD/CAM). Creating, reading, and understanding databases for solid models. Assemblies and sub-assemblies. Design and analysis of mechanisms with linkages, gears, springs, dampers. Finite Element Modeling of parts, assemblies, and mechanisms. CAM, 3-axis milling, APT. Design optimization. Not open to students with credit in ME 405A. Letter grade only (A-F).

#### B. Robotics Principles

Major components of a robot and robotic applications. Translational, rotational motion and motion conversions. Modeling of mechanical systems and kinematic chains. Physical control elements, forces encountered, and sensors. Software and hardware considerations, including robot programming. Robot design examples. Not open to students with credit in ME 405B. Letter grade only (A-F).

#### C. Environmental Engineering and Atmospheric Science

The history, technology, control programs, and current regulatory developments relating to combustion generated air pollution. Topics include: thermodynamics and kinetics of combustion, flame structures, pollutant formations, emissions from automobiles and power plants, furnaces and incinerators, particulate, unburned hydrocarbons, oxides of nitrogen and carbon, control technologies, meteorological considerations, atmospheric processes, ozone layers, and air pollutant dispersion models. Not open to students with credit in ME 405C. Letter grade only (A-F).

#### D. Hybrid Electrical Vehicles System Design

The history, technology, and future of hybrid vehicles and the role they will play in the future. Students will be exposed to a wide range of topics related to advanced transportation and electric/hybrid vehicles. Students will also be involved in group projects which may involve testing, manufacturing, and modeling of various components for hybrid vehicles. Effects of aerodynamic forces, manufacturing considerations, energy management, ergonomics and economics on overall design of the vehicles are investigated. Not open to students with credit in ME 405D. Letter grade only (A-F).

#### E. HVAC Systems Design and Equipment

Prerequisites: MAE 330, CE 335. Design of air conditioning systems, the design process, occupant comfort, load calculations, components and control, all air systems, air and water systems, and all water systems. Not open to students with credit in ME 405E. Letter grade only (A-F).

#### F. Petroleum Engineering

Prerequisites: Senior standing in engineering or science. Overview of petroleum engineering operations, properties of petroleum reservoir rocks, single-phase and multiphase fluid-flow through porous media. Properties of reservoir fluids. Field trips. (Lecture-problems 3 hours) Letter grade only (A-F).

#### 491. Special Problems (1-3)

Prerequisite: Senior standing. Assigned topics in technical literature or laboratory projects and reports on same. Letter grade only (A-F).

### 495./595. Rapid Product Development (3)

Prerequisites: MAE 490A, 409A. Rapid product development using solid modeling features. Creating different design proposals for a specified development period. Manufacturing the design models (complex 3-D parts or mechanisms) via rapid prototyping. Simplified finite element analysis and optimization of different design proposals. Selecting a final design model. Quality control process via a 3-D scanner and data acquisition software for checking tolerances and dimensions of complex parts or assembled mechanisms. Product readiness for casting, mold flow analysis or machining via CAM. (Lecture-problems 3 hours.) Letter grade only (A-F).

### 499./599. Mechanical and Aerospace Engineering Seminar (1)

Prerequisite: Approval of undergraduate or graduate advisor. Seminars on topics of current interest in Mechanical and Aerospace Engineering and presentation of student/faculty research. May be repeated to a maximum of 3 units; only 1 unit of credit may be applied toward degree requirements. (Seminar 1 hour) Letter grade only (A-F).

## Graduate Level

### 501. Engineering Analysis I (3)

Prerequisite: MATH 370A. Differential equations, series solutions of differential equations (special functions), boundary value problems and characteristics function representation, Laplace transforms, Four analysis, partial differential equations, methods of formulating and solving problems in engineering for systems of differential equations and partial differential equations. (Lecture-problems 3 hours.) Letter grade only (A-F).

### 502. Engineering Analysis II (3)

Prerequisite: MATH 370A. Analysis of mechanical engineering problems by matrix theory and complex variables; numerical techniques. (Lecture-problems 3 hours.) Letter grade only (A-F).

### 505. Quantitative Methods for Engineering Managers (3)

Prerequisites: MAE 501 or 502 or equivalents. Concepts and methods for using quantitative approaches in engineering management decision-making. Various computer-based tools that can be used in management decision-making to provide the basis for the decision or to help validate decisions made using subjective approaches. Probabilistic methods, forecasting, various forms of the linear program model, network analysis, dynamic programming, Monte Carlo simulation and queuing models. The course is application oriented with sufficient theoretical background provided to effectively use the computer-based tools and properly interpret their results. Methodologies for formulating the problem are emphasized, so that the applicable quantitative techniques can be implemented. (Lecture-problems 3 hours) Letter grade only (A-F).

### 506. Management of Engineering Technology and Innovation (3)

Prerequisite: Graduate engineering standing. Analysis of the principles and theory of engineering administrative organizations, information systems, management functions, decision making tools, strategies and administrative policy formulations. (Lecture-problems 3 hours.) Letter grade only (A-F).

### 507. Engineering Project Management (3)

Prerequisite: Graduate engineering standing. Theory and philosophies of project management, principles of internal and industrial organization planning and control systems, motion in time study, industrial statistics, industrial research as aid to decision making. (Lecture-problems 3 hours.) Letter grade only (A-F).

### 508./408. Systems Engineering and Integration (3)

Prerequisite: Senior standing or consent of instructor. Introduction to the tools and methods employed by systems engineers in the aerospace industry. Development of system functions, requirements, verification and validation, and interfaces in the context of integrated product teams and the product life cycle. Trade studies and risk management. Projects are assigned and written reports and oral presentations are required. Additional projects required for MAE 508. (Lecture-Problems 3 hours). Letter grade only (A-F).

### 511. Advanced Manufacturing Management Systems (3)

Prerequisite: Consent of Instructor. Advanced management systems for Integrated Product Development (IPD) and Concurrent Engineering (CE); Quality, Productivity and Costs, with emphasis on Just-in-Time Manufacturing (JIT); Quality-Based Manufacturing Systems: TQM and ISO 9000; Customer Requirement and Quality Function Deployment (QFD); Design for Manufacturing and Assembly (DFMA) and other defect prevention systems, such as Poka-Yoke; Demand-Driven, "Pull" type manufacturing systems. "Lean Enterprise" concepts. (Lecture-Problems 3 hours.) Letter grade only (A-F).

### 512./612. Computer Aided Design in Mechanical Engineering (3)

Prerequisites: MAE 490A, 501, 502. (Master's students register in MAE 512 or 612; Ph.D. students register in MAE 612). Computer graphics in CAD/CAM. Includes geometrical transformations, viewing in three dimensions, modeling and object hierarchy, representation of 3D shapes, shading models and imaging databases and data transfer. (Lecture-problems 3 hours.) Letter grade only (A-F).

### 521. Engineering Metallurgy II (3)

Prerequisite: MAE 322. Properties and uses of structural steels: heat treatable steels; titanium alloys; nickel and cobalt base alloys; refractory metals; ultra high-strength steels; stainless steels; and metal matrix composite materials. Designing for fracture resistance. (Lecture-Problems 3 hours.) Letter grade only (A-F).

### 522./422. Composite Materials (3)

Prerequisite: MAE 373. Stress-strain relations for anisotropic materials. Classical lamination theory. Strength and failure theories for laminae and laminates. Micromechanics. Applications of composite structures. Additional projects will be required for MAE 522. (Lecture-problems 3 hours.) Letter grade only (A-F).

### 524./424. Engineering Principles and Properties of Plastics (3)

Prerequisites: MAE 373. Nature of polymers, physical and mechanical properties of plastics. Polymerization reactions and production. Properties of co-polymers, polymer solutions, visco-elastic properties of polymeric. Additional projects will be required from M.S. students. (Lecture-problems 3 hours.) Letter grade only (A-F).

### 527. Metals and Plastics Manufacturing Processes (3)

Prerequisite: MAE 322. Theory of metal forming and plastics processing. Includes metal forging and rolling, metal and plastics extrusion, plastics injection molding, casting. Discussion of appropriate manufacturing methods. (Lecture-problems 3 hours.) Letter grade only (A-F).

### 529. Structural Analysis of Composite Laminates (3)

Prerequisite: MAE 522 or consent of instructor. Beams, columns and rods of composite materials. Bending, vibration and buckling analysis of composite laminates. Shells of composite materials. Joining of composite material structures. (Lecture-Problems 3 hours) Letter grade only (A-F).

### 530./430. Measurement Techniques in Fluid Mechanics and Heat Transfer (3)

Prerequisites: MAE 330, 431, CE 335. Experimental uncertainty, electrical transducers and pressure measurements, thermocouples and other temperature measurement devices, resistance bridges, amplifiers and filters, optical measurement devices, digital image processing, holography and laser doppler velocimeter. Additional projects are required for MAE 530. (Lecture-problems 3 hours.) Letter grade only (A-F).

**531. Advanced Heat Transfer (3)**

Prerequisites: MAE 431, 501. Advanced topics in conduction and convection heat transfer, analytical and numerical solutions to multidimensional heat conduction equations in various geometries. Solutions to laminar and turbulent convective heat transfer problems. External and internal flows, free and forced convection, and mass transfer from external surfaces. Applications in thermal systems design. (Lecture-problems 3 hours.) Letter grade only (A-F).

**532. Combustion I (3)**

Prerequisites: MAE 336, 431. Fundamentals of combustion engineering: fuels; chemical thermodynamics and chemical kinetics; premixed and diffusion flames; ignition and extinction; Hugoniot curves; flammability and explosion limits; pollutant formation and control; applications in spark-, and charged-ignition internal combustion engines; gas-fired and oil-fired furnaces. (Lecture-Problems 3 hours.) Letter grade only (A-F).

**533. Gas Dynamics (3)**

Prerequisite: MAE 333 or equivalent. Isentropic flow, normal and oblique shocks, Prandtl-Meyer flow, shock expansion theory, method of characteristics, nozzle flow, flow in ducts with friction and heat transfer, solutions for the linearized potential equation with applications to wings and bodies, slender body theory, similarity rules, transonic flow, shock wave/boundary layer interactions. (Lecture-Problems 3 hours) Letter grade only (A-F).

**534. Transport Processes in Porous Media (3)**

Prerequisite: Graduate Standing in engineering. Fundamentals of mass, momentum and heat transfer through porous media; flow characteristics of porous structures; principles of single-phase and multi-phase flow in porous media; flow of immiscible and miscible fluids, hydrodynamic dispersion in porous structures, deterministic and stochastic modeling of flow in porous media. (Lecture-problems 3 hours.) Letter grade only (A-F).

**535./435. Computational Fluid Dynamics I (3)**

Prerequisites: MATH 370A, MAE 333. Numerical methods for elliptic, parabolic, and hyperbolic equations, finite difference and finite volume methods, analysis of consistency, stability, and convergence, panel method, modeling and computation of boundary layer flows, computational methods for solving full potential equation, grid generation techniques, application to inviscid and viscous subsonic, transonic, and supersonic flows. Additional projects will be required for MAE 535. (Lecture-Problems 3 hours.) Letter grade only (A-F).

**536. Statistical Thermodynamics (3)**

Prerequisites: MAE 330, 501 or equivalent. Fundamentals of statistical mechanics; quantum mechanics and statistics as applied to thermodynamics; behavior of gases and solids; chemical equilibrium. (Lecture-problems 3 hours.) Letter grade only (A-F).

**537. Advanced Fluid Dynamics I (3)**

Prerequisites: CE 335, MAE 431. Dynamics of ideal, real and compressible flows, potential flow, vortex flow, the Navier Stokes equations, integral and differential equations for laminar flow, exact solutions for laminar flow, steady and unsteady compressible flows. (Lecture-problems 3 hours.) Letter grade only (A-F).

**538./438. Heating, Ventilating, Air Conditioning, and Refrigeration (3)**

Prerequisites: MAE 330, CE 335. Basic HVAC system calculations. Thermodynamics and psychometrics, design conditions and load estimating, residential and non-residential heating and cooling load calculations, energy estimating methods, duct and pipe sizing, and life cycle costs. Additional projects required for MAE 538. (Lecture-Problems 3 hours.) Letter grade only (A-F).

**551./451. Aircraft Preliminary Design and Performance (3)**

Prerequisite: Consent of instructor. Complete aircraft preliminary design, including mission definition, applicable specifications and regulations. Preliminary takeoff weight and weight empty for a specific mission. Aircraft geometric characteristics, including engine size, are developed. Detailed aerodynamic data are estimated and used to calculate aircraft performance. The design project is conducted in teams for MAE 451 and individually for MAE 551. (Lecture-Design Project 3 hours) Letter grade only (A-F).

**553./453. Stability and Control of Aerospace Vehicles (3)**

Prerequisite: MAE 350 or equivalent. Physical dependence of airplane stability and control characteristics on airplane configuration and flight condition. Equations for the static longitudinal, lateral and directional stability of airplanes. Neutral points, control effectiveness, trim in maneuvering flight. Configuration determinants. Transient modes. Additional Projects required for MAE 553. (Lecture-problems 3 hours). Letter grade only (A-F).

**554./454. Avionics Systems (3)**

Prerequisite: MAE 553. Avionics systems requirements definition and design. Systems used for guidance and navigation. Components of avionics systems (software, integrated circuits, devices, etc.). Integration of optics and electronics. Testing and certification. (Lecture-Problems 3 hours). Letter grade only (A-F).

**563. Linear Finite Element Analysis (3)**

Prerequisite: MAE 409A. Finite element (FE) forms of differential equations. Boundary value problems, energy theorems, matrix displacement method, and finite difference method. Generation of FE stiffness, mass, and damping matrices. Isoparametric concepts. Dynamic response of damped elastic structures, modal and direct integration analysis. Automatic mesh generation via solid modeling using IDEAS, automatic adaptation to popular software such as: STRUDL, NASTRAN, ANSYS, and ABAQUS. FE fluid flow and heat transfer analysis. (Lecture-problems 3 hours.) Letter grade only (A-F).

**565. Advanced Aerospace Structures (3)**

Prerequisite: MAE 465 or consent of instructor. Application of energy principles and finite element method to aerospace structural components, plates and shells without stiffeners, structural dynamics, material and geometric nonlinear problems. FEA for composite structures, application to simple wings, finite element modeling techniques, application of finite element computer programs. (Lecture-problems 3 hours.) Letter grade only (A-F).

**567. Advanced Mechanics of Deformable Bodies (3)**

Prerequisites: MAE 373, 374, 471 or consent of instructor. Analysis of stress and deflection in unsymmetrical bending, shear center for beams, curved beams. Stress concentration, deformation beyond the elastic limit. Energy method; Castigliano's Theorem; Rayleigh-Ritz technique. (Lecture-problems 3 hours.) Letter grade only (A-F).

**568. Creep and Fatigue (3)**

Prerequisites: MAE 322, 373, or consent of instructor. Phenomena of creep and fatigue; effect on stress distribution in structural elements; buckling caused by creep; effects of space environment on fatigue; cumulative fatigue damage at normal and elevated temperatures. (Lecture-problems 3 hours.) Letter grade only (A-F).

**572. Structural Design Optimization (3)**

Prerequisite: MAE 373 or consent of instructor. Structural optimization using calculus of variations. Method of Lagrange multipliers, unconstrained and constrained optimization, fast reanalysis techniques, sequential approximate optimization, sensitivity calculations of structural response, variational sensitivity analysis, approximation techniques, optimal design of laminated composite materials, stacking sequence optimization of composite laminates using genetic algorithm. (Lecture-Problems 3 hours) Letter grade only (A-F).

**573. Advanced Control of Mechanical Systems (3)**

Prerequisite: MAE 476. Advanced topics in analysis and design of modern control systems in mechanical engineering. Topics include state space, Riccati equation, Liapunov equation, Linear Quadratic Regulator (LQR), Kalman filter. Introduction to multi-variable feedback systems, Linear Quadratic Gaussian (LQG), Loop Transfer Recovery (LTR), optimal control, robust control, H infinity control theory. Optimization via calculus of variations, Pontryagin's minimum principle. Control of distributed-parameter systems with applications to structural dynamics. (Lecture-problems 3 hours.) Letter grade only (A-F).

**574./474. Computer-Aided Manufacturing (3)**

Prerequisites: MAE 322, 490A. Fundamental concepts in automation. High volume discrete parts production systems. Numerical control manufacturing systems. Computer process monitoring. Direct digital control. Group techniques. Flexible manufacturing systems. Additional projects will be required from M.S. students in a wide-range of Engineering applications. (Lecture-problems 3 hours.) Letter grade only (A-F).

**575. Advanced Dynamics with Robot Applications (3)**

Prerequisites: MAE 371, MATH 370A. Detailed study of rigid body dynamics with emphasis on robot arm analysis. Three-dimensional kinematic analysis. Rotational and homogeneous transformations. Eulerian angles. Denavit Hartenberg representation. Kinematic chains. Recursive formulas. Euler's moment equations and gyrodynamic. Multi-body analysis. Lagrange's equations. Special topics. (Lecture-problems 3 hours.) Letter grade only (A-F).

**576. Engineering Vibrations I (3)**

Prerequisites: MAE 376. Fundamentals of mechanical vibrations, types of oscillatory motions. Single-Degree-of-Freedom (SDOF) and Multiple-Degree-of-Freedom (MDOF) systems. Free and forced vibrations, damping, vibration isolation, vibration measuring instruments, Modal analysis. Lagrange's equations. Introduction to Finite Element Method and modal testing. (Lecture-problems 3 hours.) Letter grade only (A-F).

**579. Engineering Acoustics (3)**

Prerequisites: MAE 376, 502. Theory and application of acoustical principles to generation, transmission, measurement and control of sound. (Lecture-Problems 3 hours.) Letter grade only (A-F).

**581. Space Vehicle Design (3)**

Prerequisite: Graduate engineering standing or consent of instructor. Space environments and their impact on spacecraft design. Space mission design. Payloads and communications. Integration of attitude determination and control, thermal, propulsion, configuration, telemetry, power, structures, and data handling subsystems. (Lecture-Problems 3 hours.) Letter grade only (A-F).

**582. Rocket and Spacecraft Propulsion (3)**

Prerequisite: Graduate engineering standing or consent of instructor. Thrust and specific impulse. Compressible flows. Detailed analysis of liquid, solid and hybrid propulsion systems. Includes propellants, injection systems, combustion and chemical equilibrium, thrust chambers, nozzles and plumes. Electro-thermal thrusters. Plasmas and electromagnetic thrusters. (Lecture-Problems 3 hours.) Letter grade only (A-F).

**583. Astrodynamics (3)**

Prerequisite: Graduate engineering standing or consent of instructor. Physical principles. Two-body and central force motion. Coordinate and time systems. Trajectory correction maneuvers. Position and velocity in conic orbits. Lambert's Problem. Celestial mechanics. Orbital perturbations. Numerical methods in orbital mechanics and mission analysis. (Lecture-problems 3 hours.) Letter grade only (A-F).

**585. Spacecraft Attitude Determination and Control (3)**

Prerequisite: MAE 501 or equivalent. Rigid-body dynamics. Control systems. Spacecraft attitude dynamics and control. Stabilization methods and maneuvers. Impact of flexible structures. (Lecture-Problems 3 hours.) Letter grading only (A-F).

**590./690. Advanced Topics in Mechanical and Aerospace Engineering (3)**

Prerequisite: Graduate engineering standing or consent of instructor. Selected topics from recent advances in mechanical engineering. Course content will vary from year to year. Topics will be announced in the *Schedule of Classes*. May be repeated to a maximum of 6 units with different topics. (Lecture-problems 3 hours.) Letter grade only (A-F).

**595./495. Rapid Product Development (3)**

Prerequisites: MAE 490A. Rapid product development using solid modeling features. Creating different design proposals for a specified development period. Manufacturing the design models (complex 3-D parts or mechanisms) via rapid prototyping. Simplified finite element analysis and optimization of different design proposals. Selecting a final design model. Quality control process via a 3-D scanner and data acquisition software for checking tolerances and dimensions of complex parts or assembled mechanisms. Product readiness for casting, mold flow analysis or machining via CAM. Additional projects will be required from M.S. students. (Lecture-problems 3 hours.) Letter grade only (A-F).

**599./499. Mechanical and Aerospace Engineering Seminar (1)**

Prerequisite: Approval of undergraduate or graduate advisor. Seminars on topics of current interest in Mechanical and Aerospace Engineering and presentation of student/faculty research. Additional assignments will be required from graduate students. May be repeated to a maximum of 3 units; only 1 unit of credit may be applied toward degree requirements. (Seminar 1 hour) Letter grade only (A-F).

**612./512. Computer Aided Design in Mechanical Engineering (3)**

Prerequisites: MAE 490A, 501, 502. (Master's students register in MAE 512 or 612; Ph.D. students register in MAE 612). Computer graphics in CAD/CAM. Includes geometrical transformations, viewing in three dimensions, modeling and object hierarchy, representation of 3D shapes, shading models and imaging databases and data transfer. Additional projects required for MAE 612. (Lecture-problems 3 hours.) Letter grade only (A-F).

**631. Thermal Radiation (3)**

Prerequisite: Consent of instructor. Fundamentals of thermal radiation, properties of matter, radiative exchange in enclosures, equation of transfer for radiative transfer in absorbing, emitting, scattering media, gas radiation, and solutions for gas flows. (Lecture-problems 3 hours.) Letter grade only (A-F).

**632. Combustion II (3)**

Prerequisites: MAE 501, 532. Advanced topics in combustion: conservation equations for multi-component reacting systems; detonations and deflagrations; laminar and turbulent flames; flammability limits; ignition and extinction, combustion and radiation and their interactions. (Lecture-problems 3 hours.) Letter grade only (A-F).

**633. Hypersonic Flow (3)**

Prerequisite: MAE 533. Hypersonic shock and expansion-wave relations, similarity concepts, Newtonian theory and modified Newtonian theory, nonlinear small-disturbance theory, blunt body flows, hypersonic viscous/inviscid interactions, aerodynamic heating, real gas effects, waveriders, atmospheric reentry. (Lecture-Problems 3 hours.) Letter grade only (A-F).

**635./735. Computational Fluid Dynamics II (3)**

Prerequisite: MAE 535. Computational methods for solving Euler and Navier-Stokes equations, implicit and explicit schemes, upwind differencing and artificial diffusion, multi-grid techniques and convergence acceleration, unstructured grid techniques, turbulence modeling, application to inviscid and viscous subsonic, transonic, and supersonic flows, inverse problems and aerodynamic shape optimization. (Lecture-Problems 3 hours.) Letter grade only (A-F).

**637. Advanced Fluid Dynamics II (3)**

Prerequisites: MAE 431, 501, 537. Transition to turbulent flow, wall bounded and free turbulent shear flows, numerical methods for turbulent flow, turbulence modeling. (Lecture-problems 3 hours.) Letter grade only (A-F).

**638. Engineering Calculation Methods for Turbulent Flow (3)**  
Prerequisites: MAE 537 or consent of instructor. Introduction to numerical methods for the solution of boundary-layer equations. Solution of two-dimensional internal and external turbulent boundary-layer problems. Unsteady flows, calculation of stability and transition. (Lecture-problems 3 hours.) Letter grade only (A-F).

**639. Turbulence (3)**  
Prerequisites: MAE 532, 537. Nature of turbulent flows, dynamics of turbulence, statistical description, homogeneous turbulence and spectral dynamics characteristics of turbulent shear flows. (Lecture-problems 3 hours.) Letter grade only (A-F).

**642. Aeroelasticity (3)**  
Prerequisites: MAE 533, 576, or consent of instructor. Deformations of airplane structures under static and dynamic loads. Natural modes and frequencies of complex airplane structures. Analysis of static aeroelastic phenomena. Fundamental concepts of unsteady aerodynamics. Flutter of swept wings. Dynamic response phenomena. Computational aeroelasticity techniques. (Lecture-Problems 3 hours.) Letter grade only (A-F).

**663./763. Nonlinear Optimized Structures (3)**  
Prerequisite: MAE 563, or consent of instructor. (Master's students register in MAE 663, Ph.D. students register in MAE 763.) Analysis and optimization of frame, plate, and shell structures with automatic mesh generation via solid modeling, using I-DEAS, with automatic adaptation to popular software such as: STRUDEL, NASTRAN, ANSYS, and ABAQUS. Sensitivity analysis. Generation and idealization of complex structures. Buckling analysis. Strength of structural elements, theory of yield and ultimate failure, stress concentrations. Non-linear stress analysis, non-linear material, large deflection, plastic deformation, non-linear buckling, composite structures. Thermoelasticity. Non-linear dynamic analysis, flutter analysis, random analysis. Required topics for Ph.D. students: advanced numerical methods for flutter and random analysis. (Lecture-problems 3 hours.) Letter grade only (A-F).

**669. Design of Composite Structures (3)**  
Prerequisite: MAE 522 or consent of instructor. Design concepts and guidelines of composite structures. Strength and stiffness design of composite laminates. Optimum design. Fatigue and creep of composite structures. Design of bolted and bonded joints. (Lecture-Problems 3 hours) Letter grade only (A-F).

**671. Random and Nonlinear Vibrations (3)**  
Prerequisites: MAE 576. Characterization and transmission of random vibration; failure due to random vibration. Classification of nonlinear problems; exact, graphical and approximate solutions, singular points, stability. (Lecture-problems 3 hours.) Letter grade only (A-F).

**672. Stress Analysis in Design (3)**  
Prerequisite: MAE 567 or consent of instructor. Modes of failure and failure criteria. Stability of mechanical models, elastic bars and frames by kinetic and energy approaches; design of columns, beam columns and framed columns. Plastic collapse and limit analysis. Experimental methods of stress analysis. (Lecture-problems 3 hours.) Letter grade only (A-F).

**673. Theory of Elasticity and Plasticity (3)**  
Prerequisite: MAE 567. Equations of the mechanics of elastic bodies. Plane problem. Bending, torsion, and extension of Prismatic Bodies. Three-dimensional problem. Propagation of waves in elastic media. Approximate methods. Theory of plasticity. (Lecture-problems 3 hours.) Letter grade only (A-F).

**675. Modal Analysis (3)**  
Prerequisites: MAE 576. A thorough coverage of modal analysis techniques. Digital signal processing, including Fast Fourier Transform, Hilbert Transform, Structural dynamics theory, complex modes, state space, damping, nonsymmetries, modal parameter estimation techniques, and application of modal measurement methods suitable for practical vibration analysis problems. (Lecture-problems, 3 hours.) Letter grade only (A-F).

**676. Engineering Vibrations II (3)**  
Prerequisites: MAE 576. Free, forced, and self-excited vibrations. Modal analysis of continuous systems, including exact and approximate solutions. Rayleigh's quotient, Rayleigh-Ritz, Galerkin, collocations, Finite Element Methods. Vibrations in rotating and reciprocating machines. Response of structures to random and shock loads. Transfer function and frequency response methods. Vibration control of discrete systems and flexible structures, including large space structures. (Lecture-problems, 3 hours.) Letter grade only (A-F).

**677./777. Digital Simulation in Engineering (3)**  
Prerequisites: MAE 490A, 409. (Master's students register in MAE 677 or 777; Ph.D. students register in MAE 777). Program bank at an engineer's workstation. 3D-modeling and animation of real structures. Multimedia; Rapid Prototyping; Optimization of heat transfer-, fluids-, electrodynamic-, and structural problem solutions. Internal structure of a program bank. Dynamic data structure-, program structure-, and secondary storage control-statements. Status and location information of dynamic arrays, support of graphical interactive dialog. Maintenance and modification of a program bank. (Lecture-problems 3 hours.) Letter grade only (A-F).

**690./590. Advanced Topics in Mechanical and Aerospace Engineering (3)**  
Prerequisite: Graduate engineering standing or consent of instructor. Selected topics from recent advances in mechanical engineering. Course content will vary from year to year. Topics will be announced in the *Schedule of Classes*. Additional projects required for MAE 690. May be repeated for a maximum of 6 units with different topics. (Lecture-problems 3 hours.) Letter grade only (A-F).

**691. Directed Studies (1-3)**  
Study of information in engineering and scientific literature on a current topic under the direction of a faculty member. Preparation of a written report based on this reading. Letter grade only (A-F).

**697. Directed Research (1-6)**  
Prerequisite: Graduate standing in Mechanical and Aerospace Engineering. Theoretical and experimental problems in mechanical and aerospace engineering requiring extensive research and analysis. Submission of a final report and its approval by an evaluating committee are required. May be repeated to a maximum of 6 units. Not open to students who are enrolled in MAE 698. Letter grade only (A-F).

**698. Thesis (1-6)**  
Prerequisite: Enrollment is limited to students advanced to candidacy or eligible for it. Department Graduate Advisor must be consulted and a Thesis Permission form submitted for each semester of enrollment. Planning, preparation, and completion of a thesis in mechanical and aerospace engineering. May be repeated to a maximum of 6 units. Not open to students who are enrolled in MAE 697. Letter grade only (A-F).

**735./635. Computational Fluid Dynamics II (3)**  
Prerequisite: MAE 535. Computational methods for solving Euler and Navier-Stokes equations, implicit and explicit schemes, upwind differencing and artificial diffusion, multi-grid techniques and convergence acceleration, unstructured grid techniques, turbulence modeling, application to inviscid and viscous subsonic, transonic, and supersonic flows, inverse problems and aerodynamic shape optimization. Additional projects required for MAE 735. (Lecture-Problems 3 hours.) Letter grade only (A-F).

### 763./663. Nonlinear Optimized Structures (3)

Prerequisite: MAE 563, or consent of instructor. (Master's students register in MAE 663, Ph.D. students register in MAE 763.) Analysis and optimization of frame, plate, and shell structures with automatic mesh generation via solid modeling, using I-DEAS, with automatic adaptation to popular software such as: STRUDEL, NASTRAN, ANSYS, and ABAQUS. Sensitivity analysis. Generation and idealization of complex structures. Buckling analysis. Strength of structural elements, theory of yield and ultimate failure, stress concentrations. Non-linear stress analysis, non-linear material, large deflection, plastic deformation, non-linear buckling, composite structures. Thermoelasticity. Non-linear dynamic analysis, flutter analysis, random analysis. Additional projects required for MAE 763. Required topics for Ph.D. students: advanced numerical methods for flutter and random analysis. (Lecture-problems 3 hours.) Letter grade only (A-F).

### 777./677. Digital Simulation in Engineering (3)

Prerequisites: MAE 490A, 409. (Master's students register in MAE 677 or 777; Ph.D. students register in MAE 777). Program bank at an engineer's workstation. 3D-modeling and animation of real structures. Multimedia; Rapid Prototyping; Optimization of heat transfer-, fluids-, electrodynamic-, and structural problem solutions. Internal structure of a program bank. Dynamic data structure-, program structure-, and secondary storage control-statements. Status and location information of dynamic arrays, support of graphical interactive dialog. Maintenance and modification of a program bank. Additional projects required for MAE 777. (Lecture-problems 3 hours.) Letter grade only (A-F).

### 795. Advanced Directed Studies (4)

Prerequisite: MS or equivalent and formally admitted to the Ph.D. program in Engineering and Industrial Applied Mathematics. Explorations of theoretical and experimental (if applicable) engineering problems in great depth with emphasis on mathematical modeling and analysis. Students must present the findings in a formal report. May be repeated to a maximum of 8 units. Letter grade only (A-F).

### 797. Advanced Directed Research (4)

Prerequisite: MS or equivalent and formally admitted to the Ph.D. program in Engineering and Industrial Applied Mathematics. Explorations of theoretical and experimental (if applicable) Engineering problems in great depth with emphasis on mathematical modeling and analysis. Students must present the findings in a formal report and a seminar. May be repeated to a maximum of 8 units. Letter grade only (A-F).

### 798. Doctoral Dissertation (4-12)

Prerequisite: Enrollment is limited to students formally admitted to the Ph.D. program in Engineering and Industrial Applied Mathematics who have passed the preliminary examinations and research tool tests on completion of at least 48 units of course work. A written dissertation proposal containing an outline of the research to be undertaken and references to relevant source material must be submitted. Only upon a positive recommendation may a student embark on a dissertation. Minimum of 4 units per semester. Letter grade only (A-F).

## Faculty

### Professors

M. Shafqat Ali (Emeritus, 2001)  
Joseph Bennish  
Linda H. Byun  
Samuel G. Councilman (Emeritus, 2004)  
Linda J. DeGuire  
Carl H. Dorn  
Morteza Ebneshahrashoob  
Yihnan David Gau  
Melvin D. Lax  
William G. Margulies  
Robert A. Mena  
Kent G. Merryfield  
James D. Stein  
Lindsay A. Tartre  
Robert C. Valentini  
Ngo N. P. Viet  
Derming Wang  
Saleem H. Watson  
Arthur K. Wayman  
Robert R. Wilson (Emeritus, 2001)  
William K. Ziemer

### Associate Professors

Bruce J. Chaderjian  
Norma A. Noguera  
YongHee Kim-Park  
Angelo Segalla

### Assistant Professors

Scott W. Crass  
Tangan Gao  
Eun Heui Kim  
Olga Korosteleva  
William L. Murray  
Florence A. Newberger  
Alan M. Safer  
Wen-Qing Xu

### Administrative Support Coordinator

Linda Dixon

### ELM Coordinator

Larry Brownson

### Undergraduate Advisor

Kent G. Merryfield  
Melvin D. Lax (Applied Math)  
Alan M. Safer (Statistics)

Honors in the Major Advisor  
Kent G. Merryfield

Credential Advisor  
Elementary: Lindsay A. Tartre  
Secondary: Angelo Segalla

Graduate Advisor  
Florence A. Newberger  
Alan M. Safer (Statistics)

Students desiring information should contact the Department Office for referral to one of the faculty advisors.

Mathematics is fundamental to all scientific knowledge, including not only the traditional natural sciences but increasingly the social and economic sciences. The increasing applicability of mathematical methods has been enhanced and accelerated by the development of the computer. Mathematics is also a vital aid to critical and philosophical thinking and, at least to some, a thing of beauty in itself.

The Department of Mathematics and Statistics offers instruction for students at all levels beyond high school mathematics. Its courses provide the computational and analytic skills needed for a variety of majors, as well as the advanced theoretical topics for specialists in mathematics. Its various degree options are intended to provide the student with the knowledge and techniques needed for scientific, management and statistical applications, and also the theoretical understanding needed for teaching, graduate study and lifelong professional growth. Beyond these, it hopes to instill a spirit of curiosity and healthy skepticism towards mathematical statements and results – a willingness to ask “is this true?” and “why?”, and to try to find the answers.

Students desiring information should contact the Department Office for referral to the appropriate faculty advisor: Undergraduate Advisor, Graduate Advisor, and/or Credential Advisor.

### *Concurrent and/or Summer Enrollment at Another College*

Students who wish to take coursework at a community college or other college to meet curricular requirements while enrolled as undergraduates in the College of Natural Sciences and Mathematics must petition the appropriate department for prior approval to earn credit for specific courses. This policy applies to concurrent enrollment or summer enrollment. University policy must also be complied with. See ‘Concurrent Enrollment’ and ‘Transfer of Undergraduate Credit’ in this *Catalog*. Courses not receiving prior approval will not be accepted for credit by the Department.

### Facilitated Enrollment into Classes

All entering students who declare a major in a degree program offered by this Department should participate in the College of Natural Sciences and Mathematics' Science Safari to Success (for first-time freshmen) or EONS (Enrollment and Orientation in the Natural Sciences and Mathematics for transfer students) Program. These programs are held in June-July for those starting in the Fall Semester and in January for those starting in the Spring Semester. Department advisors will be available to provide an overview of the students' chosen baccalaureate degree program, to assist with academic advisement, to provide information on the many career opportunities available, and to aid students in enrolling in classes. Contact the Jensen Student Access to Sciences and Mathematics Center (FO5-109) or Department Office for additional information.

### Undergraduate Degree Programs

The Mathematics and Statistics Department offers four undergraduate degree programs in mathematical sciences:

#### Bachelor of Science in Mathematics (code MATHBS01) (120 units)

The student in this program is required to take a selection of fundamental courses in algebra, statistics, and analysis. It is the most flexible program, in which the greatest number of electives may be chosen by the student. Elective upper division mathematics courses are available which meet the needs of students preparing for a variety of goals, including careers in industry and government, secondary teaching, and graduate study. Students who do not wish to complete the requirements for a declared option in applied mathematics or statistics may wish to elect courses in one or both of these areas as part of this degree program.

#### Requirements

Lower Division: ENGL 101 or 317; MATH 122, 123, 224, 233, 247; CECS 174; PHYS 151.

Upper Division: A minimum of 30 units of approved upper-division mathematics courses selected in consultation with a major advisor, to include MATH 341 or 347, 361A, 361B, 364A, 380 and 444 but not 370A or 370B. To allow flexibility, only 18 of the required 30 units are specified. Students should choose the remaining 12 units after discussing career goals and interests with an advisor. For additional information and to obtain an advisor, contact the Department Office.

#### FOUR YEAR PLAN TO COMPLETE THE B.S. in MATHEMATICS (MATHBS01)

120 Units Required Department of Mathematics and Statistics

Semester 1		Semester 2	
University 100	1	Oral Comm or Composition	3
Composition or Oral Comm	3	MATH 123 (GE B.2)	4

**FAQ Concerning Road Maps for Completion of Undergraduate Degrees**

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

**I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?**

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

**Must I take the courses in the semesters shown on the plan?**

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

**I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?**

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

**I didn't complete the exact list of courses shown. Can I still graduate on time?**

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

**If I follow the plan, will I have all requirements for graduation completed?**

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

## Option in Applied Mathematics (code MATHBS02) (120 units)

The student who is most interested in the applications of mathematics has a choice of two suboptions: the first concentrates on the applications in science and engineering while the second concentrates on the applications to economics and management. In both suboptions, courses are specified in the major areas of applied mathematics and in the field of application. This option prepares students for careers in business, industry or government or for graduate study.

### Requirements

*Suboption I:* Area of application in Science and Engineering

Lower Division: ENGL 101 or 317; MATH 122, 123, 224, 247; CECS 174; PHYS 151, 152; PHYS 254 or EE 211 or CE 205.

Upper Division: MATH 323, 361A, 361B, 364A, 364B, 380, 470. A minimum of 9 units from the following: MATH 381, 382, 423, 461, 463, 472, 479, 485. A minimum of 9 units from one of the following three groups:

- A. PHYS 310, 340A, 340B, 350, 410, 422, 450;
- B. EE 310, 370, 382, 411, 460, 482;
- C. CE 335, 359, 437, 438, 458; MAE 371, 373.

### FOUR YEAR PLAN TO COMPLETE THE B.S. in MATHEMATICS, OPTION IN APPLIED MATH (MATHBS02)

**Suboption I: area of concentration in science and engineering**  
120 Units Required Department of Mathematics and Statistics

Semester 1		Semester 2	
University 100	1	Oral Comm or Composition	3
Composition or Oral Comm	3	MATH 123 (GE B.2)	4

**FAQ Concerning Road Maps for Completion of Undergraduate Degrees**

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

**I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?**

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

**Must I take the courses in the semesters shown on the plan?**

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

- 1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.
- 2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.
- 3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).
- 4) You must complete all requirements for admission to impacted majors within the first 60 units.

**I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?**

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

**I didn't complete the exact list of courses shown. Can I still graduate on time?**

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

**If I follow the plan, will I have all requirements for graduation completed?**

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

**Option in Statistics (code MATHBS04)  
(120 units)**

This option provides students with a foundation in statistical methods. The courses required ensure that the student understands both how the techniques are mathematically derived and how they are applied. Statistical analysis is an essential part of any scientific investigation. It is a vital tool in monitoring the quality of products and services and in forecasting. This option prepares students for interesting and rewarding careers in industry, government, and for graduate study in statistics and other quantitative fields.

**Requirements**

Lower Division: ENGL 101 or 317; MATH 122, 123, 224, 247; CECS 174 and one of the following sequences:

- A. ECON 100, 101, (or ECON 300) or;
- B. BIOL 200, 205 or;
- C. Six units in a field other than ECON or BIOL in which approved upper division statistics courses are also taken.

Upper Division: A minimum of 31 units of upper division mathematics courses to include MATH 323, 361A, 380, 381, 382, 480 and 483 but not MATH 370A or 370B. Six additional units must be taken in fields outside mathematics; these must be approved by a statistics advisor. The following courses are approved statistics option electives: BIOL 456, 465, 467; ECON 411H, 420, 485, 486; GEOG 400; MKTG 470; PSY 315, 411; SOC 455.

TOTAL UNITS	9	TOTAL UNITS	10

NOTE: "Application Course (GE)" is ECON 100 or 101, or BIOL 200 or 205, or two courses in another department.

"Application course" is an upper division course in another department. See catalog for list of approved courses.

"MATH elective" is any upper division MATH course other than 370A.

## Option in Mathematics Education (code MATHBS03) (120 units)

This option is for students preparing to teach mathematics at the secondary school level. Completion of this Option meets subject matter competence requirements for the Single Subject Preliminary Credential Mathematics (code165).

In addition to meeting the subject matter competence requirement for the Preliminary Credential, prospective Math teachers are also required to complete 44 units of professional preparation in the Single Subject Credential Program, including student teaching. Students may begin the professional preparation courses as early as the junior year. With careful planning, it is possible to complete all of the credential program courses, except for student teaching, as an undergraduate. Courses may also be completed as a post-baccalaureate student. Refer to the Single Subject Teacher Education section of this *Catalog* or the Single Subject Credential Program website ([www.ced.csulb.edu/single-subject](http://www.ced.csulb.edu/single-subject)) for a description of the professional preparation requirements, courses, and application procedures. Prospective students should consult the department's Mathematics Education Advisor early to plan their program.

*The Mathematics Subject Matter Program is being revised to meet new state standards. When the revised program has been approved by the Commission on Teacher Credentialing, the new course requirements will be in effect and supersede current requirements.*

### Requirements

Lower Division: MATH 122, 123, 224, 233, 247; one of the following: ENGL 101 or 300 or 317; and one of the following sequences: PHYS 151, 152; or PHIL 170, 270; or eight units of a foreign language.

Upper Division: MATH 310, 341, 355, 361A\* or 364A, 380, 381, 410, 444; MTED 301, 411; EDSS 300M; and 3 additional upper division Mathematics units excluding MATH 370A, 370B. (\* denotes preferred course)

### FOUR YEAR PLAN TO COMPLETE THE B.S. in MATHEMATICS, OPTION IN MATH EDUCATION (MATHBS03)

120 Units Required Department of Mathematics and Statistics

Semester 1		Semester 2	
University 100	1	Oral Comm* or Composition	3
Composition or Oral Comm*	3	MATH 123 (GE B.2)	4
MATH 122 (GE B.2)	4	GE class	3
GE class	3	GE class	3
GE class	3	Critical Thinking or other GE class	3
TOTAL UNITS	14	TOTAL UNITS	16

\*Advisor's recommended course: COMM 130

Semester 3		Semester 4	
Critical Thinking or other GE class	3	MATH 247	3
MATH 224	4	MATH 233	3
Outside Sequence**	3 or 4	Outside Sequence**	3 or 4
GE class	3	MTED 301	3
Elective	1 or 2	GE class	3
TOTAL UNITS	15	TOTAL UNITS	15-16

\*\* "Outside Sequence" is PHYS 151-152 (B.1.b) or PHIL 170-270 (A.3) or 8 units of a foreign language (C.2.c)

Semester 5		Semester 6	
MATH 310	3	MATH 341	3
MATH 380	3	MATH 381	3
MATH 355	3	EDSS 300M	3
ENGL 317 or ENGL 300	3	GE class	3
GE Capstone course	3	GE Capstone class	3
TOTAL UNITS	15	TOTAL UNITS	15

Semester 7		Semester 8	
MATH 364A or 361A	3	MATH 410	3
MATH 444	3	MTED 411	3
MATH elective	3	Elective	3
GE Capstone course	3	Elective	3
Elective	3	Elective	3
TOTAL UNITS	15	TOTAL UNITS	15

NOTE: The MATH electives may be any 300 or 400-level MATH class not otherwise specified, except that MATH 370A may not be used toward the major.

If student takes both MATH 361A and 364A, then one of those satisfies elective requirement.

### FIVE YEAR PLAN TO COMPLETE THE B.S. in MATHEMATICS, OPTION IN MATH EDUCATION (MATHBS03)

120 Units Required Department of Mathematics and Statistics

Semester 1		Semester 2	
University 100	1	Oral Comm* or Composition	3
Composition or Oral Comm*	3	MATH 123 (GE B.2)	4
MATH 122 (GE B.2)	4	GE class	3

GE class or elective	3		
TOTAL UNITS	12	TOTAL UNITS	9

**FAQ Concerning Road Maps for Completion of Undergraduate Degrees**

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

**I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?**

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

**Must I take the courses in the semesters shown on the plan?**

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

- 1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.
- 2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.
- 3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).
- 4) You must complete all requirements for admission to impacted majors within the first 60 units.

**I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?**

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

**I didn't complete the exact list of courses shown. Can I still graduate on time?**

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

**If I follow the plan, will I have all requirements for graduation completed?**

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

## Honors in Mathematics

Students majoring in the B.S. in Mathematics (all options) who would like an enriched academic program that includes a thesis may complete the Honors in the Major program described here. A student may also complete General Honors through the University Honors Program, in which case the thesis requirement may be met through the Honors in the Major.

### Admission Requirements

Admission to the Honors in the Major program will be determined by the Honors in the Major Advisor.

1. Junior or senior standing with at least one year remaining before graduation.
2. Declared major of B.S. in Mathematics or any of its options.
3. Completion of MATH 122, 123, 224, 247, and at least two upper division MATH courses at the time of entry with grades of at least "C" in each course. Students may apply during the semester in which they expect to complete these courses.
4. GPAs of at least 3.500 in all courses in the major and in all upper division courses in the major at the time of application.
5. Submission of an application describing the student's academic background, reasons for applying, and willingness to commit to completion of the requirements, including a thesis.
6. Letter of recommendation from a CSULB faculty member familiar with the student's work and abilities.

### Graduation Requirements

1. GPA of at least 3.500 in all upper division courses in the major and in all courses in items 3, 4, and 5, below.
2. Completion of all requirements for the chosen option of the B.S. in Mathematics.
3. Completion of at least one of the following courses: MATH 347, 423, 451, 461, 463, 472, 479. These courses may be included among the upper division units for the major, in item 2, if allowed in the student's major.
4. Completion of at least three units of any combination of MATH 491 and/or MATH 496.

5. Completion of 3 units of MATH 498H, Senior Thesis-Honors.
  6. It is a requirement for this Honors in the Major program that the 6 units of MATH 491, 496, and 498H be in addition to the Mathematics Department course requirements for the B.S.
  7. Presentation of thesis results in a public forum. This forum could be at a meeting of a scientific or professional organization or a campus or departmental forum, subject to the approval of the Honors in the Major Advisor.
- Substitutions to this program must be approved by the Honors in the Major Advisor.

## Minor in Mathematics (code MATHUM01)

### Requirements

The Minor in Mathematics is available to any student not majoring in Mathematics or Applied Mathematics.

The student must complete 23 or more semester units as follows:

MATH 122, 123, 224, 247, and 9 units of upper-division mathematics courses to include MATH 361A but not 370A. The student may replace MATH 123 and 224 by MATH 222 and one more 3 unit upper-division mathematics course (excluding MATH 370A) not used to meet the above upper-division requirements.

## Minor in Applied Mathematics (code MATHUM02)

### Requirements

The Minor in Applied Mathematics is available to any student not majoring in Mathematics or Applied Mathematics.

The student must complete 27 or more semester units as follows:

Lower Division: MATH 122, 123, 224, 247

Upper Division: MATH 323, 364A or 370A, 380 and one course selected from MATH 364B, 381, 382, 423, or 470.

The student may replace MATH 123 and 224 by MATH 222 and one more course from MATH 364B, 381, 382, 423, 470 not used to meet the above upper division requirements.

## Minor in Statistics (code MATHUM03)

### Requirements

The Minor in Statistics is available to any non-Mathematics major. The student must complete 26 or more semester units by following one of two sequences:

*Sequence One:* MATH 122, 222, 247, 380, 381, and any three of the following: MATH 323, 382, 480, 483, 484, and/or 487.

*Sequence Two:* MATH 122, 123, 224, 247, 380, 381, and any two of the following: MATH 323, 382, 480, 483, 484, and/or 487.

## Master of Science in Mathematics (code MATHMS01)

### Prerequisites

1. A bachelor's degree in mathematics, or a bachelor's degree with a minimum of 24 upper division units in mathematics from an accredited college or university;
2. A grade of "C" or better in MATH 247, 361A-B, 364A and 444, or their equivalents. Deficiencies will be determined by the Graduate Advisor.

### Advancement to Candidacy

In addition to University requirements, the student must have completed all prerequisite courses listed above with no grade less than "C". Students must have fulfilled the Graduation Writing Assessment Requirement (GWAR) and should file for Advancement upon completion of at least six units (and no more than nine units) of the Program, with at least a 3.0 GPA.

### Requirements

1. A minimum of 30 graduate and approved (\*) upper division units in mathematics including:
  - A. Three of the following courses MATH 540A, 550A, 561A, or 562A.
  - B. Two additional courses selected from MATH 540B, 550B, 561B, or 562B.
  - C. An additional 3 units of 500 level mathematics courses.

2. Complete one of the following:

- A. Pass a comprehensive written examination in two areas of Pure Mathematics
- B. Subject to the approval of the Graduate Committee of the Department of Mathematics and Statistics, write a thesis in mathematics and defend it orally.

Specific requirements for passing of the comprehensive examinations can be found on the Mathematics and Statistics Department website at [www.csulb.edu/web/depts/math](http://www.csulb.edu/web/depts/math).

## Option in Applied Mathematics (code MATHMS02)

### Prerequisites

1. A bachelor's degree in mathematics, physics, or engineering, or a bachelor's degree with at least 24 upper division units in mathematics from an accredited college or university.
2. A grade of "C" or better in MATH 247, 323, 361A-B, 364A, and 380, or their equivalents. Deficiencies will be determined by the Graduate Advisor.

### Advancement to Candidacy

In addition to University requirements, the student must have completed all prerequisite courses listed above, with no grade less than "C". Students must have fulfilled the Graduation Writing Assessment Requirement (GWAR) and should file for Advancement upon completion of at least six units (and no more than nine units) of the Program, with at least a 3.0 GPA.

### Requirements

1. A minimum of 30 graduate and upper division units approved by the graduate advisor, and including:
  - A. MATH 463, 479, 563, 570 and 576.
  - B. At least 6 units of applied mathematics courses selected from MATH 423, 470, 485, 564, 574, 575, and 577.
  - C. At least three units selected from the courses in above section 1.B. not used to satisfy that requirement, or from MATH 364B, 381, 382, 461, 472, 480, 562A, 580, 581, 584 and 586.
  - D. At least 18 units of graduate mathematics courses (numbered 500 or above) *including* any such courses used to meet requirements (A), (B), and (C) above and including at least 15 units other than MATH 697 or 698.
2. Complete one of the following:
  - A. Pass a comprehensive written examination in two subjects of Applied Mathematics.
  - B. Subject to the approval by the Graduate Committee of the Department of Mathematics and Statistics, write a thesis in applied mathematics and defend it orally.  
Specific requirements for passing of the comprehensive examinations can be found on the Mathematics and Statistics Department website at [www.csulb.edu/web/depts/math](http://www.csulb.edu/web/depts/math).

## Option in Applied Statistics (code MATHMS03)

### Prerequisites

1. A bachelor's degree in mathematics, physics, engineering, or computer science, or a bachelor's degree with at least 24 upper division units in mathematics from an accredited college or university.
2. A grade of "C" or better in MATH 247, 323, 361A, 380, 381 or their equivalents.

### Advancement to Candidacy

In addition to University requirements, the student must have completed all prerequisite courses listed above, with no grade less than "C." Students must have fulfilled the Graduation Writing Assessment Requirement (GWAR) and should file for Advancement upon completion of at least six units (and no more than nine units) of the Program, with at least a 3.0 GPA.

### Requirements

1. A minimum of 30 graduate and approved (\*) upper division units in mathematics including:
  - A. MATH 580, 581, 590.
  - B. Four additional courses selected from MATH \*382, \*484, 582, 583, 584, 585, 586, 587, 593.
  - C. At least 18 units of graduate courses (numbered 500 or above) including any such courses used to meet requirements (A) or (B) above and including at least 15 units of graduate mathematics courses other than MATH 697 or 698.

2. Complete one of the following:

A. Pass a comprehensive written examination in two areas of statistics.

B. Subject to the approval of the Graduate Committee of the Department of Mathematics and Statistics, write a thesis in statistics and defend it orally.

Specific requirements for passing the comprehensive examinations can be found on the Department of Mathematics and Statistics website at [www.csulb.edu/depts/math](http://www.csulb.edu/depts/math).

### Option in Mathematics Education for Secondary School Teachers (code MATHMS04)

Option in Mathematics Education for Secondary School Teachers is designed for people holding a California Single Subject teaching credential in mathematics and teaching in middle, junior high, or high schools. This option will give students greater expertise in mathematics and mathematics education (curriculum, teaching, learning, assessment and research). The program includes a blend of courses from pure and applied mathematics as well as mathematics education, and also may include coursework from the College of Education.

#### Prerequisites

1. A bachelor's degree in mathematics or mathematics education, or a bachelor's degree with at least 24 upper division units in mathematics from an accredited college or university.
2. A California Single Subject Credential in mathematics
3. Coursework in mathematics should include MATH 247, 310, 341, 355, 380, and 361A or 364A or equivalent with a grade of "C" or better.

#### Advancement to Candidacy

In addition to University requirements stated elsewhere in this catalog, the student must have completed the prerequisites above and must have satisfied the Graduate Writing Assessment Requirement (GWAR). The Student must file for Advancement to Candidacy after completion of at least 6 units (and recommend filing before completing 9 units) of the Program of Study, with at least a 3.0 grade point average. The Student's Program of Study must be approved by the Mathematics Education Graduate Advisor, Mathematics & Statistics Department Chair, Associate Dean for Graduate Accountability in the College of Natural Sciences and Mathematics and Dean of Graduate Studies.

### Requirements for the Option in Mathematics Education for Secondary School Teachers

1. A minimum of 30 units of graduate level or approved upper division coursework which includes the following:

A. A minimum of 9 graduate or approved upper division units of mathematics (those marked by \* in the CSULB Catalog), including at least one 500 level mathematics course. If not previously taken for BS or credential, this course of study must include MATH 410 and 444 as a part of these requirements.

B. A minimum of 15 graduate units of mathematics education including:

1) MTED 511 and 512; and

2) At least 9 units in mathematics education chosen in consultation with the Mathematics Education Graduate Advisor from the following courses: MTED 540, 550, 560, 580, 590, 695

C. A minimum of 6 units of approved upper division or graduate electives from mathematics, mathematics education or approved College of Education courses, chosen in consultation with the Mathematics Education Graduate Advisor. If the student plans to teach at the Community College level she/he must take at least 18 units of graduate or approved upper division mathematics for parts A and C. If the student intends to do a thesis or project he/she must take EDP 520.

2. Complete one of the following three options:

A. Pass a comprehensive written examination in mathematics education and in one area of pure or applied mathematics;

B. Subject to the approval of the Mathematics Education Committee of the Department of Mathematics and Statistics, write a thesis in mathematics education and defend it orally (MTED 698);

C. Pass one comprehensive written examination in mathematics education or in one area of pure and applied mathematics and complete a project in mathematics education (MTED 697), subject to the approval of the Mathematics Education Committee of the Department of Mathematics & Statistics.

#### Mathematics Education Thesis

Students choosing the thesis option must consult with the Mathematics Education Graduate Advisor to select a thesis advisor. A thesis is then written in consultation with the mathematics education faculty advisor who will guide the student in choosing the thesis topic and supervise the process of writing the thesis. After a thesis topic is chosen it must be approved by the Mathematics Education Committee. A thesis committee of three faculty members, including the thesis advisor is then chosen to approve the final work. During the writing of the thesis, students must enroll in MTED 698.

## Mathematics Education Project

Students choosing the research project option must seek out a Faculty Advisor in mathematics education. A project is then written in consultation with the mathematics education faculty advisor who will guide the student in choosing a topic and supervise the process of writing the project report. After a project topic is chosen it must be approved by the Mathematics Education Committee. During the writing of the project report, students must enroll in MTED 697.

---

## Mathematics Courses (MATH)

---

Satisfying the Entry-Level Math (ELM) requirement (see "Undergraduate Programs" section of this *Catalog*) is a prerequisite for all mathematics courses and mathematics education courses except MATH 1 and 10. Please contact the ELM coordinator in the Department of Mathematics and Statistics for details regarding the ELM test score.

### Lower Division

#### 1. Elementary Algebra and Geometry (3)

Prerequisite: Appropriate ELM score. Topics include arithmetic review, elementary algebra, and some basic geometry concepts. Cannot be taken for credit toward a university degree. Credit/No Credit grading only. Not open to students who are exempt from the ELM or who have not yet taken the ELM but are required to do so. (Lecture 3 hrs.)

---

## Mathematics Courses (MATH)

---

#### 10. Intermediate Algebra (3)

Prerequisite: Appropriate ELM score. Topics include polynomial, rational, and radical expressions and equations; rational exponents; solutions and graphs of linear, quadratic, and rational inequalities; systems of linear equations; operations, inverses, and graphs of functions; logarithmic and exponential functions and their applications. Cannot be taken for credit toward a university degree. Credit/No Credit grading only. Not open to students who are exempt from the ELM or who have not yet taken the ELM but are required to do so. (Lecture 3 hrs.)

#### 101. Trigonometry (3)

Prerequisites: MATH 10 or equivalent. Trigonometric functions and applications. Complex numbers. Not open to students with credit in MATH 117 or 122. (Lecture 3 hrs.) (CAN MATH 8)

#### 103. Mathematical Ideas (3)

Prerequisites: Three years of high school mathematics, or the equivalent. Non-technical course surveying a variety of concepts in undergraduate mathematics. Topics will include elementary logic, algebra of sets, numeration systems, rational and real numbers, modular number systems, elementary combinatorics, probability and statistics. Not open to students with credit in any MATH course numbered greater than 103, or the equivalent. (Lecture 3 hrs.) (CAN MATH 2)

#### 112. College Algebra (3)

Prerequisites: Three years of high school mathematics or equivalent. Study of algebra including linear and quadratic equations and systems; matrices and determinants; theory of equations; polynomial, exponential and logarithmic functions and their graphs; permutations and probability. Designed for students majoring in a life or social science. Not open to students with credit in MATH 115, 117, 119A, 120, or 122. (Lecture 3 hrs.)

#### 114. Finite Mathematics (3)

Prerequisites: Three years of high school mathematics including algebra, geometry, and intermediate algebra (or MATH 10), or the equivalent. Combinatorial techniques and introduction to probability. Equations of lines and systems of linear equations, matrices, introduction to linear programming. Not open to students with credit in MATH 233 or 380. (Lecture 3 hrs.) (CAN MATH 12)

#### 115. Calculus for Business (3)

Prerequisites: Three years of high school mathematics including algebra, geometry, and intermediate algebra (or MATH 10), or the equivalent. Functions, derivatives, optimization problems, graphs, partial derivatives. Lagrange multipliers, integration of functions of one variable. Applications to business and economics. Emphasis on problem-solving techniques. Not open to students with credit in MATH 119A, 120 or 122. (CAN MATH 34) (Lecture 3 hrs.)

#### 117. Precalculus Mathematics (4)

Prerequisites: Three and one half years of high school mathematics including algebra, geometry, and intermediate algebra (or MATH 10) and one half year of trigonometry (or MATH 101), or the equivalent. Polynomial, rational, exponential, logarithmic, and trigonometric functions. Complex numbers, conic sections, graphing techniques. Not open to students with credit in MATH 122. (CAN MATH 16)(Lecture 3 hrs., Problem Session 2 hrs.)

#### 119A. Survey of Calculus I (3)

Prerequisites: Three years of high school mathematics including algebra, geometry, and intermediate algebra (or MATH 10), or the equivalent. Functions, limits and continuity, differentiation and integration of functions of one variable including exponential, logarithmic, and trigonometric functions. Graphing, optimization, parametric equations, integration by substitution and by parts, numerical integration. Applications to the life sciences. Emphasis on problem solving rather than theory. Not open to students with credit in MATH 115, 120 or 122. (CAN MATH 30) (Lecture 3 hrs.)

#### 119B. Survey of Calculus II (3)

Prerequisites: MATH 119A or 122. Functions of several variables, partial derivatives, optimization. First order differential equations, second order linear homogeneous differential equations, systems of differential equations. Probability, random variables, difference equations. Introduction to vectors, matrices, Gaussian elimination, determinants. Applications to the life sciences. Emphasis on problem solving rather than theory. Not open to students with credit in MATH 123 or 224. (CAN MATH 32) (Lecture 3 hrs.)

#### 120. Calculus for Technology (4)

Prerequisites: Three and one-half years of high school mathematics including one year of geometry, two years of algebra, and one semester of trigonometry, or the equivalent. Real and complex numbers and functions; limits and continuity; differentiation and integration of functions of one variable. Introduction to calculus of several variables. Applications to science and technology. Not open to students with credit in MATH 122. (Lecture 3 hrs., problem session 2 hrs.)

#### 122. Calculus I (4)

Prerequisite: A grade of "C" or better in MATH 117 or four years of high school mathematics including two years of algebra, one year of geometry, one half year of trigonometry, and one additional senior-level course. Limits. Continuous functions. Derivatives and applications including graphing, related rates, and optimization. Transcendental functions. L'Hospital's Rule. Antiderivatives. Definite integrals. Area under a curve. (Lecture 3 hrs., problem session 2 hrs.) (CAN MATH 18)

#### 123. Calculus II (4)

Prerequisite: A grade of "C" or better in MATH 122. Applications of the integral. Techniques of integration. Infinite series including convergence tests and Taylor series. Parametric equations. Polar coordinates. Introduction to differential equations. Not open to students with credit in MATH 222. (CAN MATH 20) (Lecture 3 hrs., problem session 2 hrs.)

#### 180. Statistics for Everyday Life (3)

Prerequisites: Three years of high school mathematics including algebra, geometry, and intermediate algebra (or MATH 10), or the equivalent. Exploratory data analysis, methods of visualizing data, descriptive statistics, misuse and manipulation of data in statistical analysis, probability, binomial and normal distributions, hypothesis testing, correlation and regression, contingency tables. (Lecture 3 hrs.) (CAN STAT 2)

### 222. Intermediate Calculus (4)

Prerequisite: A grade of "C" or better in MATH 122. Integration by parts and by partial fractions. Numerical integration. Improper integrals. Infinite series including series convergence tests and Taylor series. Vectors. Partial derivatives and directional derivatives. Double integrals. Introduction to differential equations. Enrollment restricted to CECS majors. Not open to students with credit in MATH 123. Letter grade only (A-F). (Lecture 3 hrs., activity 2 hrs.)

### 224. Calculus III (4)

Prerequisite: A grade of "C" or better in MATH 123 or 222. Vectors and three-dimensional analytic geometry. Partial derivatives and Lagrange multipliers. Multiple integrals. Vector calculus, line and surface integrals. Green's Theorem, Stokes' Theorem and the Divergence Theorem. (Lecture 3 hrs., problem session 2 hrs.) (CAN MATH 22)

### 233. Fundamental Concepts for Advanced Mathematics (3)

Prerequisite: A grade of "C" or better in MATH 123 or 222. Fundamentals of logic and set theory, counting principles, functions and relations, induction and recursion, introduction to probability, elementary number theory, congruences. (Lecture 3 hrs.)

### 247. Introduction to Linear Algebra (3)

Prerequisite: MATH 222 or prerequisite or corequisite: MATH 224. Matrix algebra, solution of systems of equations, determinants, vector spaces including function spaces, inner product spaces, linear transformations, eigenvalues, eigenvectors, quadratic forms, and applications. Emphasis on computational methods. (Lecture 3 hrs.) (CAN MATH 26)

### 297. Directed Study (1-3)

Prerequisite: Consent of instructor. Designed for students who wish to undertake special study, at the lower division level, which is not a part of any regular course, under the direction of a faculty member. Individual investigation, studies or surveys of selected problems.

## Upper Division

### 310. History of Early Mathematics (3)

Prerequisite/Corequisite: completion of, or concurrent enrollment in a 200-level mathematics course. History of mathematics through the seventeenth century, including arithmetic, geometry, algebra, and the beginnings of calculus. Interconnections with other branches of mathematics. This course has a writing component; it is strongly recommended that students enrolling in the course have completed the G.E. A1 requirement. (Lecture 3 hrs.)

### 323. Introduction to Numerical Analysis (4)

Prerequisites: MATH 222 or 224, and a course in computer programming. Numerical solution of nonlinear equations, systems of linear equations, and ordinary differential equations. Interpolating polynomials, numerical differentiation, and numerical integration. Computer implementation of these methods. (Lecture-discussion 3 hrs., problem session 2 hrs.)

### 341. Number Theory (3)

Prerequisites: MATH 123 or 222, and at least one of MATH 233, 247, 310; recommended, 233 or 247. Divisibility, congruences, number theoretic functions, Diophantine Equations, primitive roots, continued fractions. Students will be asked to write valid mathematical proofs. (Lecture 3 hrs.)

### 347. Linear Algebra (3)

Prerequisites: MATH 233 and 247. An in-depth study of linear transformations, vector spaces, inner product spaces, quadratic forms, similarity and the rational and Jordan canonical forms. Students will be asked to write valid mathematical proofs. (Lecture 3 hrs.)

### 355. College Geometry (3)

Prerequisite: MATH 247. Transformations, motions, similarities, geometric objects, congruent figures, the axioms of geometry, and additional topics in Euclidean and non-Euclidean geometry. Students will be asked to write valid mathematical proofs. (Lecture 3 hrs.)

### 361A. Introduction to Mathematical Analysis I (3)

Prerequisites: MATH 222 or 224, and MATH 233 or 247. Rigorous study of calculus and its foundations. Structure of the real number system. Sequences and series of numbers. Limits, continuity and differentiability of functions of one real variable. Students will be asked to write valid mathematical proofs. (Lecture 3 hrs.)

### 361B. Introduction to Mathematical Analysis II (3)

Prerequisite: MATH 361A. Riemann integration. Topological properties of the real number line. Sequences of functions. Metric spaces. Introduction to the calculus of several variables. Students will be asked to write valid mathematical proofs. (Lecture 3 hrs.)

### 364A. Ordinary Differential Equations I (3)

Prerequisites: MATH 222 or 224, and prerequisite or corequisite MATH 247. First order differential equations; undetermined coefficients and variation of parameters for second and higher order differential equations, series solution of second order linear differential equations; systems of linear differential equations; applications to science and engineering. (Lecture 3 hrs.)

### \*364B. Ordinary Differential Equations II (3)

Prerequisite: MATH 364A or 370A. Existence-uniqueness theorems; Laplace transforms; difference equations; nonlinear differential equations; stability, Sturm-Liouville theory; applications to science and engineering. (Lecture 3 hrs.)

### 370A. Applied Mathematics I (3)

Prerequisite: MATH 222 or 224. First order ordinary differential equations, linear second order ordinary differential equations, numerical solution of initial value problems, Laplace transforms, matrix algebra, eigenvalues, eigenvectors, applications. Not open for credit to mathematics majors. (Lecture 3 hrs.)

### 370B. Applied Mathematics II (3)

Prerequisite: MATH 370A. Arithmetic of complex numbers, functions of a complex variable, contour integration, residues, conformal mapping; Fourier series, Fourier transforms; separation of variables for partial differential equations. Applications. Not open for credit to mathematics majors. (Lecture 3 hrs.)

### 380. Probability and Statistics (3)

Prerequisite: MATH 222 or 224. Frequency interpretation of probability. Axioms of probability theory. Discrete probability and combinatorics. Random variables. Distribution and density functions. Moment generating functions and moments. Sampling theory and limit theorems. (Lecture 3 hrs.)

### \*381. Mathematical Statistics (3)

Prerequisites: MATH 247 and 380. Estimation and hypothesis testing. Maximum likelihood and method of moments estimation. Efficiency, unbiasedness, and asymptotic distribution of estimators. Neyman-Pearson Lemma. Goodness-of-fit tests. Correlation and regression. Experimental design and analysis of variance. Nonparametric methods. (Lecture 3 hrs.)

### \*382. Random Processes (3)

Prerequisites: MATH 247 and 380. Further topics in probability. Markov processes. Renewal theory. Random walks. Queueing theory. Poisson processes. Brownian motion. (Lecture 3 hrs.)

### 410. History of Modern Mathematics (3)

Prerequisites: MATH 247, 310 and at least three out of MATH 233, 341, 355, 361A, 380. The history of mathematics from the seventeenth century through the first half of the twentieth century. Development of calculus, analysis, and geometry during the time period. Other topics discussed may include the history of probability and statistics, algebra and number theory, logic and foundations. (Lecture 3 hrs.)

### \*423. Intermediate Numerical Analysis (3)

Prerequisites: MATH 247 and 323. Numerical solutions of systems of equations, calculation of eigenvalues and eigenvectors, approximation of functions, solution of partial differential equations. Computer implementation of these methods. (Lecture 3 hrs.)

#### 444. Introduction to Abstract Algebra (3)

Prerequisites: MATH 233 and 247 and at least one of MATH 341 or 347. Groups, subgroups, cyclic groups, symmetric groups, Lagrange's theorem, quotient groups. Homomorphisms and isomorphisms of groups. Rings, integral domains, ideals, quotient rings, homomorphisms of rings. Further topics in groups, rings and fields as time permits. Students will be asked to write valid mathematical proofs. Not open to students with credit in MATH 444A. (Lecture 3 hrs.)

#### \*451. Differential Geometry (3)

Prerequisite: MATH 364A or 370A. Structure of curves and surfaces in space, including Frenet formulas of space curves; frame fields and connection forms; geometry of surfaces in Euclidean three space; Geodesics and connections with general theory of relativity. (Lecture 3 hrs.)

#### \*461. Introduction to Complex Analysis (3)

Prerequisite: MATH 361A. Theory and applications of complex variables. Analytic functions, integrals, power series and applications. Not open to students with credit in MATH 562A. (Lecture 3 hrs.)

#### \*463. Multivariable Calculus (3)

Prerequisites: MATH 224, 247, and 361B. Topology of Euclidean spaces. Partial derivatives. Derivatives as linear transformations. Inverse and implicit function theorems. Jacobians, vector calculus, Green's and Stokes' theorems. Variational problems. (Lecture 3 hrs.)

#### \*470. Introduction to Partial Differential Equations (3)

Prerequisite: MATH 370A or 364A. First and second order equations, characteristics, Cauchy problems, elliptic, hyperbolic, and parabolic equations. Introduction to boundary and initial value problems and their applications. (Lecture 3 hrs.)

#### \*472. Fourier Analysis (3)

Prerequisite: MATH 364A or 370A. Theory of Fourier series and Fourier transforms with applications to Physics and Engineering. Square integrable functions and Parseval's and Plancherel's identities. Convolution. The Fourier transform in one and several dimensions, with applications to partial differential equations. Introduction to distribution theory, the discrete Fourier transform and fast Fourier transforms. (Lecture 3 hrs.)

---

### Mathematics Courses (MATH)

---

#### \*479. Mathematical Modeling (3)

Prerequisite: MATH 247; 364A or 370A; 323; and one additional upper-division mathematics course or consent of instructor. Application of mathematics to develop models of phenomena in science, engineering, business and other disciplines. Evaluation of the benefits and limitations of mathematical modeling. (Lecture 3 hrs.)

#### 480./590. Regression Analysis (3)

Prerequisites: MATH 247, 380; prerequisite or corequisite MATH 381. (Undergraduates enroll in MATH 480; graduates enroll in MATH 590.) Simple linear regression: estimation and inference, prediction, analysis of residuals, detection of outliers, use of transformations. Multiple linear regression: influence diagnostics, multi-collinearity, selection of variables, simultaneous estimation and inference, validation techniques. Use of statistical software for data analysis. Letter grade only (A-F). (Lecture 3 hrs.)

#### 483./593. Multivariate Statistical Analysis (3)

Prerequisites: MATH 381, prerequisite or corequisite MATH 480. (Undergraduates enroll in MATH 483; graduates enroll in MATH 593.) Potential topics include: discriminate analysis, principal components, factor analysis, cluster analysis, logistic regression, canonical correlation, multidimensional scaling, and some nonlinear techniques. Statistical software will be used. Letter grade only (A-F). (Lecture 3 hrs.)

#### \*484. Actuarial Science (3)

Prerequisites: MATH 381 or consent of instructor. The study of actuarial science using statistical techniques applied to risk management. Topics include: expected utility theory, individual risk models, compound Poisson distributions and processes, ruin probability and first surplus, stop-loss and proportional reinsurance, statistical survival distributions and life tables, life annuity, actuarial present values, and determination of premiums. Letter grade only (A-F). (Lecture 3 hrs.)

#### \*485. Mathematical Optimization (3)

Prerequisites: MATH 247 and at least one of MATH 323, 347 or 380. Linear and nonlinear programming: simplex methods, duality theory, theory of graphs, Kuhn-Tucker theory, gradient methods and dynamic programming. (Lecture 3 hrs.)

#### 487./587. Statistical Simulation (3)

Prerequisites: MATH 381 or consent of instructor. (Undergraduates enroll in MATH 487; graduates enroll in MATH 587.) Simulation modeling techniques; generation of discrete and continuous random numbers from given distributions; Monte Carlo methods; discrete event simulations, statistical analysis of simulated data; variance reduction; statistical validation; introduction to simulation languages; industry applications. Statistical packages such as SAS or MATLAB will be used throughout the course. Letter grade only (A-F). (Lecture 3 hrs.)

#### 491. Honors Seminar in Problem Solving (1)

Prerequisites: Consent of instructor. Challenging problems from many fields of mathematics, taken largely from national and worldwide collegiate and secondary school competitions. Students will be required to participate in at least one national competition. May be repeated to a maximum of 3 units. (Lecture-discussion 1 hr.)

#### \*495. Topics in Modern Mathematics (3)

Prerequisite: Consent of instructor. Topics of current interest from mathematics literature.

#### 496. Special Problems (1-3)

Prerequisites: Consent of instructor. Student investigations in mathematics, applied mathematics, mathematics education, or statistics. May include reports and reviews from the current literature, as well as original investigations. May be repeated to a maximum of 3 units. Letter grade only (A-F).

#### 497. Directed Studies (1-3)

Prerequisites: Junior or senior standing and consent of instructor. Readings in areas of mutual interest to student and instructor which are not a part of any regular course. A written report or project may be required. May be repeated to a maximum of 3 units.

#### 498H. Senior Thesis - Honors (3)

Prerequisites: Admission to Honors in the Major in Mathematics or to the University Honors Program, and consent of instructor. Planning, preparation, completion, and oral presentation of a written thesis in mathematics, applied mathematics, mathematics education, or statistics. Not available to graduate students. Letter grade only (A-F).

### Graduate Level

#### 540A. Abstract Algebra I (3) F

Prerequisite: MATH 444. Group theory including symmetric groups; group actions on sets; Sylow theorems and finitely generated abelian groups; ring theory including polynomial rings, division rings, Euclidean domains, principal ideal domains and unique factorization domains. Letter grade only (A-F). (Lecture 3 hrs.)

#### 540B. Abstract Algebra II (3) S

Prerequisite: MATH 540A. Modules; Field extensions; Finite fields; Splitting fields, Galois theory. Commutative ring theory including chain conditions and primary ideals. Topics of current interest. Letter grade only (A-F). (Lecture 3 hrs.)

**541. Elliptic Curves (3) F**

Prerequisites: MATH 341, 444, and consent of instructor; MATH 540A and 461 are recommended but not required. Fermat's method of descent; finite fields; Weierstrass normal form; integers and rational points on elliptic curves; group structures of rational points; Mordell's Theorem; and computation of examples. Selected additional topics may include congruent numbers, Certicom's public cryptography challenges, Lenstra's method of factorization, and the Birch/Swinnerton-Dyer Conjecture. Letter grade only (A-F). (Lecture 3 hrs.)

**550A. Topology I (3) S**

Prerequisite: MATH 361B. Fundamentals of point-set topology: metric spaces and topological spaces; bases and neighborhoods; continuous functions; subspaces, product spaces and quotient spaces; separation properties, countability properties, compactness, connectedness; convergence of sequences, nets and filters. Letter grade only (A-F). (Lecture 3 hrs.)

**550B. Topology II (3) F**

Prerequisite: MATH 550A. Further topics in point-set topology: local compactness, paracompactness, compactifications; metrizability; Baire category theorem; homotopy and the fundamental group. Topics may also include uniform spaces, function spaces, topological groups or topics from algebraic topology. Letter grade only (A-F). (Lecture 3 hrs.)

**560A. Functional Analysis I (3) F**

Prerequisites: MATH 247, 361B. Linear spaces, metric and topological spaces, normed linear spaces; four principles of functional analysis: Hahn-Banach, Open Mapping, Uniform Boundedness, and Closed Graph theorems; adjoint spaces; convergence in normed spaces, conjugate spaces, and spaces of operators; Banach Fixed Point theorem; Hilbert spaces; selected applications. Letter grade only (A-F). (Lecture 3 hrs.)

**560B. Functional Analysis II (3) S**

Prerequisite: MATH 560A or consent of instructor. Spectral theory of operators on normed spaces; special operators; elementary theory of Banach algebras; selected topics from applied functional analysis. (Lecture 3 hrs.)

**561A. Real Analysis I (3) S**

Prerequisite: MATH 361B. The theory of measure and integration, focusing on the Lebesgue integral on Euclidean space, particularly the real line. Modes of convergence. Fatou's Lemma, the monotone convergence theorem and the dominated convergence theorem. Fubini's theorem. Letter grade only (A-F). (Lecture 3 hrs.)

**561B. Real Analysis II (3) F**

Prerequisite: MATH 561A or consent of instructor.  $L^p$  spaces of functions. Holder's inequality. Minkowski's inequality. Norm convergence, weak convergence and duality in  $L^p$ . Further topics from convergence of Fourier series, measure-theoretic probability, the Radon-Nikodym theorem; other topics depending on time and interest. Letter grade only (A-F). (Lecture 3 hrs.)

**562A. Complex Analysis I (3) F**

Prerequisite: MATH 361B. (MATH 461 is recommended.) Axiomatic development of real and complex numbers; elements of point set theory; differentiation and analytic functions, classical integral theorems; Taylor's series, singularities, Laurent series, calculus of residues. Letter grade only (A-F). (Lecture 3 hrs.)

**562B. Complex Analysis II (3) S**

Prerequisite: MATH 562A. Multiple-valued functions, Riemann surfaces; analytic continuation; maximum modulus theorem; conformal mapping with applications, integral functions; gamma function, zeta function, special functions. Letter grade only (A-F). (Lecture 3 hrs.)

**563 Applied Analysis (3) F**

Prerequisites: MATH 361B. Hilbert Spaces,  $L^p$  spaces, Distributions, Fourier Transforms, and applications to differential and integral equations from physics and engineering. (Lecture 3 hrs.)

**564. Applied Nonlinear Ordinary Differential Equations (3) F**

Prerequisites: MATH 361B; 364A or 370A. Stability and asymptotic analysis, Perturbation methods, Phase plane analysis, Bifurcation, Chaos, Applications to science and engineering. (Lecture 3 hrs.)

**570. Partial Differential Equations (3) S**

Prerequisites: MATH 364A, 463, 563. Cauchy's problem; classification of second order equations; methods of solution of hyperbolic, parabolic, and elliptic equations. Letter grade only (A-F). (Lecture 3 hrs.)

**574. Stochastic Calculus and Applications (3) S**

Prerequisites: MATH 361B, 364A or 370A, 380. Review of probability theory. Markov processes. Wiener processes. Stochastic integrals. Stochastic differential equations. Applications to Finance and Engineering. (Lecture 3 hrs.)

**575. Calculus of Variations (3) S**

Prerequisites: MATH 563 and one of MATH 364A, 370A. Classical theory. Necessary and sufficient conditions for extrema of multiple integrals. Hamilton-Jacobi theory. Applications to eigenvalue problems. Direct methods. Pontryagin maximum principle. Principle of optimality. Letter grade only (A-F). (Lecture 3 hrs.)

**576. Numerical Analysis (3) F**

Prerequisites: MATH 323, 361B, 364A. Advanced numerical methods. Introduction to error analysis, convergence, and stability of numerical algorithms. Topics may include solution of ordinary differential equations, partial differential equations, systems of linear and nonlinear equations, and optimization theory. Letter grade only (A-F). (Lecture 3 hrs.)

**577. Numerical Solution of Partial Differential Equations (3) S**

Prerequisite: MATH 423 or MATH 576 or consent of instructor. A survey of finite difference methods for solving hyperbolic, parabolic, and elliptic PDE'S, with analysis of their accuracy, convergence, and stability properties. Topics include selected initial-value and boundary-value problems, characteristics, domain of dependence, von Neumann's method of stability analysis, the matrix method of stability analysis, and solution of large scale sparse linear systems by direct and iterative methods. Introduction to the finite element method. (Lecture 3 hrs.)

**580. Statistical Inference (3) F**

Prerequisites: MATH 381 or consent of instructor. Properties of a random sample, convergence in probability, the law of large numbers, sampling from the normal distribution, the central limit theorem, principles of data reduction, the likelihood principle, point estimation, Bayesian estimation, methods of evaluating estimators, hypothesis testing, decision theory, confidence intervals. Letter grade only (A-F). (Lecture 3 hrs.)

**581. Experimental Design and Analysis (3) F**

Prerequisite: MATH 381 or consent of instructor. The design of experiments to permit efficient analysis of sources of variation with application to quality assurance. Factorial and fractional factorial designs; block designs; confounding. Fixed and random effect models. Effects of departure from assumptions; transformations. Response surface techniques. Taguchi methods. (Lecture 3 hrs.)

**582. Time Series (3)**

Prerequisites: MATH 381. Topics include: moving averages, smoothing, Box-Jenkins (ARIMA) models, tests for nonstationarity, model fitting and checking, prediction and model selection, seasonal adjustment, ARCH, GARCH, cointegration, state-space models. Computer analysis using statistical packages such as SPSS and SAS will be used extensively throughout the course. (Lecture 3 hrs.)

**583. Survey Sampling (3)**

Prerequisites: MATH 381 or consent of instructor. Theory and practice of sampling from finite populations. Simple random sampling, stratified random sampling, systematic sampling, cluster sampling. Properties of various estimators including ratio, regression, and difference estimators. Error estimation for complex samples. Letter grade only (A-F). (Lecture 3 hrs.)

### 584. Statistical Quality Control (3) F

Prerequisite: MATH 381 or consent of instructor. An introduction to the methods of statistical quality control. Topics covered include control charts, acceptance sampling, process capability analysis, and some aspects of experimental design. (Lecture 3 hrs.)

### 585. Nonparametric Statistics (3)

Prerequisites: MATH 480 or consent of instructor. Alternatives to normal-theory statistical methods, analysis of categorical and ordinal data, methods based on ranks, measures of association, goodness of fit tests, order statistics. Letter grade only (A-F). (Lecture 3 hrs.)

### 586. Data Mining (3) S

Prerequisites: MATH 480 or consent of instructor. Basics of data mining algorithms with an emphasis on applications to industry. Prediction and classification techniques such as Multivariate Adaptive Regression Splines (MARS), Classification and Regression Trees (CART), neural networks, and other methods. Several software packages will be utilized. Letter grade only (A-F). (Lecture 3 hrs.)

### 587./487. Statistical Simulation (3)

Prerequisites: MATH 381 or consent of instructor. (Undergraduates enroll in MATH 487; graduates enroll in MATH 587.) Simulation modeling techniques; generation of discrete and continuous random numbers from given distributions; Monte Carlo methods; Discrete-event simulations, statistical analysis of simulated data; variance reduction; statistical validation; introduction to simulation languages; industry applications. Statistical packages such as SAS or MATLAB will be used throughout the course. Letter grade only (A-F). (Lecture 3 hrs.)

### 590./480. Regression Analysis (3)

Prerequisites: MATH 247 and 380, prerequisite or corequisite MATH 381. (Undergraduates enroll in MATH 480; graduates enroll in MATH 590.) Simple linear regression: estimation and inference, prediction, analysis of residuals, detection of outliers, use of transformations. Multiple linear regression: influence diagnostics, multi-collinearity, selection of variables, simultaneous estimation and inference, validation techniques. Use of statistical software for data analysis. Letter grade only (A-F). (Lecture 3 hrs.)

### 593./483. Multivariate Statistical Analysis (3)

Prerequisites: MATH 381, prerequisite or corequisite MATH 480. (Undergraduates enroll in MATH 483; graduates enroll in MATH 593.) Potential topics include: discriminate analysis, principal components, factor analysis, cluster analysis, logistic regression, canonical correlation, multidimensional scaling, and some nonlinear techniques. Statistical software will be used. Letter grade only (A-F). (Lecture 3 hrs.)

### 695. Seminar in Mathematics (3) F,S

Prerequisite: Consent of instructor. Presentation and discussion of advanced work, including original research by faculty and students. Topics to be announced in the *Schedule of Classes*. May be repeated to a maximum of 6 units. Letter grade only (A-F).

### 697. Directed Studies (1-3) F,S

Prerequisite: Consent of instructor. Research on a specific area in mathematics. Topic for study to be approved and directed by advisor in the Mathematics and Statistics Department. Letter grade only (A-F).

---

## Mathematics Courses (MATH)

---

### 698. Thesis (2-4) F,S

Prerequisite: Advancement to candidacy for M.S. in Mathematics and completion of at least one 500 and/or 600 level mathematics course. Formal report of research or project in mathematics.

---

## Mathematics Education Courses (MTED)

---

Satisfying the Entry-Level Math (ELM) requirement (see "Undergraduate Programs" section of this *Catalog*) is a prerequisite for all mathematics education courses.

### Lower Division

### 105. Activity-Based Probability and Statistics for Elementary and Middle School Teachers (3)

Prerequisites: Three years of high school mathematics including algebra, geometry, and intermediate algebra (or MATH 10), or the equivalent. Activity-based exploration of randomization, data representation, measures of central tendency and dispersion. Analysis of experiments requiring hypothesizing, experimental design and data gathering. Basic laws of probability and set theory, combinations, permutations, and simulations. Algebraic thinking will be used throughout the course. Enrollment limited to students seeking a Multiple Subject teaching credential and/or Authorization in Foundational Mathematics. Not open for credit to Mathematics majors. Letter grade only (A-F). (Lecture 2 hrs., activity 2 hrs.)

### 110. The Real Number System for Elementary and Middle School Teachers (3)

Prerequisites: Three years of high school mathematics including algebra, geometry, and intermediate algebra (or MATH 10), or the equivalent. Introduction to problem solving processes and strategies. Development and analysis of the structure and operations of the real number system. Concept and process development using appropriate models, manipulatives, and activities. Enrollment limited to students seeking a Multiple Subject teaching credential and/or Authorization in Foundational Mathematics. Not open for credit to Mathematics majors. (Lecture 2 hrs., activity 2 hrs.)

### 211. Geometry and Measurement for Elementary Teachers (3)

Prerequisites: "C" or better in MTED 110 and one year of high school geometry. Problem solving with particular focus on making tables and patterning, informal geometry, congruence, similarity, constructions, transformations, tessellations, and measurement involving both English and Metric units in 1, 2 and 3 dimensions. Computer language, such as Logo and/or geometry drawing utility, such as Geometer's Sketchpad, will be integrated into the course. Emphasis will be on hands-on modeling of real-world geometric situations. Enrollment limited to students seeking a Multiple Subject teaching credential and/or Authorization in Foundational Mathematics. Not open for credit to Mathematics majors. (Lecture 2 hrs., activity 2 hrs.)

### Upper Division

### 301. Computer Applications in Mathematics for Teachers (3)

Prerequisites: One year of high school geometry and one of MTED 110 or MATH 122. Course designed for pre-service or in-service teachers. Introduction to computer technology and its applications to mathematics classrooms; software evaluation; survey of teacher tools such as spreadsheets, databases, and the internet; e-mail, computer-based collaborative tools and applications using the Internet; mathematics using technology; introduction to programming; issues about computer and other technology use in the schools; integration of computer technology into the mathematics classroom. This course satisfies the California Level I teaching credential computer technology standard. Open for credit to Single Subject mathematics and Multiple Subject credential students only. (Lecture 2 hrs., activity 2 hrs.)

**311. Topics of Enrichment in Mathematics for the Elementary Teacher (3)**

Prerequisites: MTED 110 and either MTED 211 or MATH 122 or consent of instructor. Formerly MATH 311. Enrichment topics in mathematics for the elementary teacher, such as theory of arithmetic, numeration systems, elementary logic, mensuration, metric system, topological equivalence, probability and statistics and network theory. Not open for credit to mathematics majors. (Lecture 3 hrs.)

**312. Geometry and Measurement for Mathematics Specialists in Elementary and Middle Schools (3)**

Prerequisites: MTED 110 and one year of high school geometry. Focus on exploration, conjecture and justification of geometric relationships and applications that are relevant to teaching geometry through the middle grades. Topics include: problem solving, informal geometry, the nature of proof, introduction to non-Euclidean geometry, congruence, similarity, constructions, transformations, tessellations, and measurement involving both English and Metric units in 1, 2 and 3 dimensions. Technology involving a geometry drawing utility, such as Geometer's Sketchpad, will be used extensively in the course. Not open for credit to Mathematics majors. Letter grade only (A-F). (Lecture 2 hrs., activity 2 hrs.)

**315. History of Mathematics for Mathematics Specialists in Elementary and Middle Schools (3)**

Prerequisites: MTED 110, 312. Develops mathematics ideas throughout history with an orientation toward the various civilizations and cultures that contributed those ideas. The course covers the history of most areas of mathematics relevant to the K-9 curriculum, especially arithmetic, algebra, geometry, and their interrelationships. The cross-cultural view of mathematics will be emphasized. Also included are historical origins of more modern subjects such as statistics and probability, cryptography, and other applied mathematics. Letter grade only (A-F). Not open for credit for mathematics majors. (Lecture 2 hrs; activity 2 hrs.)

**320. Number Theory for Middle School Teachers (3)**

Prerequisites: MTED 105, 110. Concepts and justification involving basic properties of natural numbers, mathematical induction, Euclidean algorithm, and the Fundamental Theorem of Arithmetic. Topics include proofs and problem-solving with divisibility, primes and composites, and prime factorizations; congruence modulo  $n$  and  $p$  and other examples. Letter grade only (A-F). Not open for credit for mathematics majors. (Lecture 2 hrs; activity 2 hrs.)

**324. Algebraic Structures for Middle School Teachers (3)**

Prerequisites: MTED 105, 110. Properties of real and complex numbers, groups, rings, real and complex fields; polynomial equations and inequalities; polynomial, rational, radical, absolute value, exponential, and logarithmic functions; matrices and vectors. Letter grade only (A-F). Not open for credit for mathematics majors. (Lecture 2 hrs; activity 2 hrs.)

**325. Functions, Models and Concepts of Calculus for Mathematics Specialists in Elementary and Middle Schools (3)**

Prerequisites: MTED 110, 312. Functions, families of functions and ways to represent them, such as numeric, symbolic, graphical, verbal; sequences and sums. Intuitive development of the concepts of limit, continuity, derivative, integral and applications, including differential equations. Algebraic methods will be emphasized in the context of learning calculus. Technology will be used throughout the course, particularly graphing calculators. Letter grade only (A-F). Not open for credit for mathematics majors. (Lecture 2 hrs; activity 2 hrs.)

**402. Problem Solving Applications in Mathematics for Elementary and Middle School Teachers (3)**

Prerequisites: "C" or better in both MTED 110, either 211 or 312 or the equivalent and a course in Critical Thinking. Focusing on problem solving processes and strategies, will bring together and apply content from many areas of mathematics and make use of computer technology and/or graphing calculators. The course will illustrate problem solving as a framework for developing questioning strategies that foster understanding of algebra and geometry. Topics include real-world applications involving the real number system, algebra, number theory, geometry, measurement, probability and statistics. Enrollment limited to students seeking a Multiple Subject teaching credential or Foundational Mathematics. Not open for credit to Mathematics majors. (Lecture 2 hrs., activity 2 hrs.)

**403. Connections, Integration, and Reasoning in Mathematics for Teachers of Foundational Mathematics (3)**

Prerequisites: MTED 105, 110, 312, 315, 320, 324, 325, and 402. Examination, analysis, and integration of mathematics topics appropriate for teachers of Foundational Mathematics. Topics will include problem solving, hypothesis and justification, and mathematics connections and communication. Letter grade only (A-F). Not open for credit for mathematics majors. (Lecture 2 hrs; activity 2 hrs.)

**411. Topics and Issues in Secondary School Mathematics (3)**

Prerequisites: MATH 310, 341, 355, 380, 410, 444; EDSS 300M (MATH 410 and EDSS 300M may be taken concurrently), or consent of the instructor. Examination and analysis of topics and issues in the secondary school mathematics curriculum from an advanced standpoint. Topics will include problem solving, mathematical connections, mathematical structures, mathematical conjecture and proof, mathematical communication at various levels, use of manipulatives and technology, assessment alternatives. Instructional experiences involving mathematics required in college-age settings. Observation/interview experience involving mathematics required in non-educational settings. Portfolio assembly required. Intended for students preparing to enter the Single Subject Credential Program. (Lecture 2 hrs., activity 3 hrs.)

**495. Special Topics in Mathematics Education (1-3)**

Prerequisite: Consent of instructor. Topics of interest in Mathematics Education. May be repeated to a maximum of 9 units with different topics in different semesters. Letter grade only (A-F).

**Graduate Level**

**511. Mathematics Teaching and Learning (3)**

Prerequisite: Consent of instructor. Focuses on theories of mathematics teaching and learning. Also introduces students to key issues in mathematics and mathematics education. Historical development and contemporary views of various theoretical perspectives for the teaching and learning of mathematics, including the roles played by various mathematics and education organizations, and the use of standards. Letter grade only (A-F). (Lecture and Discussion, 3 hrs.)

**512. Curriculum and Assessment in Mathematics (3)**

Prerequisite: MTED 511 or consent of instructor. Focuses on theories of mathematics curriculum and forms of assessment. Introduces students to major philosophies, issues, resources and technologies pertaining to curricula and assessment of mathematics. Relevant histories and contemporary practices of the design and implementation of curriculum and assessment of mathematics. Letter grade only (A-F). (Lecture and Discussion, 3 hrs.)

**540. Algebra in the Secondary School Curriculum (3)**

Prerequisite: MTED 511; Pre- or co-requisite MTED 512 or consent of instructor. Current issues and topics related to algebra and algebraic thinking in state and national standards for the secondary school curriculum. Examination of current and experimental texts and curricula. Research on learning and teaching algebra and algebraic thinking. Common errors in algebra and possible remedies. Using algebra to mathematize situations. Relationship of algebra in the secondary school curriculum to modern algebra and its structures. Fundamental theorem of algebra. Letter grade only (A-F). (Lecture and Discussion, 3 hrs.)

**550. Geometry and Measurement in the School Curriculum (3)**

Prerequisites: MTED 511; pre or co-requisite MTED 512 or consent of instructor. Content, curriculum, state and national standards, and research related to learning and teaching geometry, spatial sense and measurement in K-12 schools. Also includes the role of justification and proof, applications and abstraction, tools and technology in geometry teaching and learning. Current issues relating to the teaching and learning of geometry and measurement. Letter grade only (A-F). (Lecture and Discussion, 3 hrs.)

**560. Analysis in the Secondary School Curriculum (3)**

Prerequisites: MTED 511 and MATH 361A; pre or co-requisite MTED 512 or consent of instructor. A careful development of the fundamental concepts of the calculus, functions and mappings, and related topics and proofs in real and complex analysis designed to develop in teachers of high school mathematics a mastery of those elemental ideas of mathematical analysis that relate to the high school mathematics curriculum. Current issues and techniques in the teaching and learning of high school mathematics related to mathematical analysis and highlighted by both mathematics education research and the mathematics frameworks will be examined in a spirit of studying elementary mathematics from an advanced standpoint. Letter grade only (A-F). (Lecture and Discussion, 3 hrs.)

**580. Probability and Statistics in the School Curriculum (3)**

Prerequisites: MTED 511; pre or co-requisite MTED 512 or consent of instructor. Content, curriculum and research related to learning and teaching probability and statistics in K-12 schools. Also includes the role of applications and abstraction, tools and technology in probability and statistics teaching and learning. Letter grade only (A-F). (Lecture and Discussion, 3 hrs.)

**590. Special Topics in Mathematics Education (1-3)**

Prerequisites: Consent of instructor. Advanced study of special topics in the field of mathematics education. May be repeated for a total of six units with different topics. Letter grade only (A-F). (Seminar 1-3 hrs.)

**695. Seminar in Mathematics Education (1-3)**

Prerequisites: Consent of instructor. Presentation of and discussion of advanced work in mathematics education. May be repeated for a total of six units. Letter grade only (A-F). (Seminar 1-3 hrs.)

**697. Directed Studies in Mathematics Education (1-3)**

Prerequisites: MTED 511, 512; EDP 520; Advancement to Candidacy; consent of instructor. Research project in mathematics education. Letter grade only (A-F).

**698. Thesis in Mathematics Education (1-4)**

Prerequisites: MTED 511, 512; EDP 520; Advancement to Candidacy; consent of instructor. Research in mathematics education culminating in a formal report. Letter grade only (A-F).

Martine van Elk (English)

The Center for Medieval and Renaissance Studies sponsors activities that explore the complex culture of the Middle Ages and the Renaissance. It sponsors a regular lecture series featuring speakers from on and off campus. Occasionally special seminars are held to commemorate a person, place, or event of significance from these periods; recent topics have included Richard III, Florence and Rome 1200-1600, The Sensual Culture of Venice, 1066 And After That, and La Felicissima Armada. The Center also offers courses on a wide range of medieval and Renaissance issues, supports faculty research both here and abroad, and is associated with most of the local and national societies relevant to research in these fields.

In addition, the Center has established an interdisciplinary program which offers students interested in these periods the opportunity to pursue a course of study leading to a Certificate in Medieval and Renaissance Studies. Courses which are used to meet the certificate requirements may be counted, where applicable, toward the General Education requirements, the major, and minor requirements.

Interested students should apply to Directors, MHB 512, or to members of the supporting faculty for further information.

## Minor in Medieval and Renaissance Studies (code HISTUM04)

The Minor offers students majoring in any subject an opportunity to supplement their education with a focus on the interdisciplinary study of the Middle Ages and the Renaissance. The Minor's flexible program of study is ideal for students interested in intellectual enrichment and professional development in their major. Students should contact the program director prior to or during the first semester of taking classes towards the Minor.

The Minor consists of a minimum of 21 units selected in consultation with the program director in addition to demonstrated competence in a foreign language appropriate to the area of concentration. The 21 required units include 12 units of core classes in History, Literature, and Art History, along with 9 electives chosen from the courses in these disciplines as well as from Music, Political Science, Philosophy, Religious Studies, RGLL, and Theatre.

### Core Requirements

1. Six units of one of the following combinations: HIST 316 and 317; or HIST 317 and 332; or HIST 332 and 333.
2. Three units of an upper-division course in Literature: CWL 349 †, 414I, 422I, 430, 431, 432, 449 †; ENGL 363, 432, 451, 452, 453, 461, 462, 463, 468, 469 †, 483, 498 †; FREN 470, 471, 472, 490 †; GERM 415, 498 †; GK 490 †; ITAL 335, 437, 490 †; LAT 490 †; SPAN 330 †, 446 †, 490 †, 493 †.
3. Three units of an upper-division course in Art History: AH 408, 409, 410, 423, 424, 425, 497 †, 498 †.
4. Nine additional units chosen from the courses listed above (without repeating the required core) and the following: HIST 318, 334, 351, 353, 400I, 409, 414I, 431, 495 †, 499 †; MUS 360, 400R, 400S; PHIL 413, 490 †; POSC 493 †, 497 †; RGR 450I; R/ST 314, 331I, 459, 471I, 472I, 490 †; THEA 321, 490 †.  
† courses that can only count towards the minor if the topic is relevant to medieval and Renaissance studies.

## Certificate in Medieval and Renaissance Studies (code CLSCCT01)

### Requirements

1. A bachelor's degree with an approved major. (Certificate may be completed prior to the completion of the B.A. requirement or while in the process of working toward an advanced degree).
2. Consultation with and approval of the program by a faculty advisor.
3. Intermediate level language proficiency on the college level, including a course in medieval or Renaissance literature of the language. It is expected that the language selected will be Latin, but with the consent of the advisor, Anglo-Saxon, French, German, Italian, Spanish, or Greek may be substituted.
4. Twenty-four units selected from the following courses.  
Students should elect to concentrate in either the medieval or Renaissance period.

A. Required courses (12 units): one of the following sequences for six units: HIST 316 and 317, 317 and 332, or 332 and 333. One of the following literature courses for three units: CWL 431, 432, 531, 532; ENGL 451, 452, 453, 552, 553, 554. One of the following Art History courses for three units: AH 408, 409, 410, 423, 424, 425, 508, 509, 510, 523, 524, 525.

B. Nine units selected from the following courses (without repeating the required core): AH 408, 409, 410, 423, 424, 425, 497†, 498†; CWL 349†, 414I, 422I, 430, 431, 432, 449†; ENGL 363, 432, 451, 452, 453, 462, 463, 468, 469†, 483, 498†; FREN 470, 471, 472, 490†; GERM 415, 498†; GK 490†; HIST 316, 317, 318, 332, 333, 334, 351, 353, 400I, 409, 414I, 431, 495†, 499†; ITAL 335, 437, 490†; LAT 490†; MUS 360, 400R, 400S; PHIL 413, 490†; POSC 493†, 497†; RGR 450I; R/ST 314; 331I, 459, 471I, 472I, 490†; SPAN 330†, 446†, 490†, 493†; THEA 321, 490†. Graduate courses: AH 508, 509, 510, 523, 524, 525, 597†, 598†; CWL 530, 531, 532, 549†, 550†; ENGL 550, 551, 552, 553, 554, 562, 568, 583†, 652, 653, 681†, 683†; FREN 570, 571, 572, 590†, 604†, 688†; GERM 511†; HIST 509, 510†, 531, 611†, 631†; MUS 561; PHIL 513, 590†, 630†, 690†; R/ST 559, 590†; SPAN 538, 546†, 550, 590†, 593†; THEA 690†.

C. Three units of directed research on a medieval or Renaissance topic in any of the following courses: AH 495, 496, CWL 499, ENGL 499, FREN 499, GERM 499, GK 499, HIST 498, ITAL 499, LAT 499, MUS 499, PHIL 499, POSC 499, R/ST 499, SPAN 499, THEA 498. Graduate courses: AH 595, 596, ENGL 598, 697, FREN 697, GERM 599, 697, HIST 695, 697, PHIL 697, POSC 599, 697, R/ST 697; SPAN 599, THEA 694.

† With an approved Medieval or Renaissance topic; certain special studies topics may be repeated for credit with approval.

## Management Courses (MGMT)

---

### 300. Principles of Management (3)

Prerequisite: Recommended: IS 310. Analysis of principles and theories of management, organization theory, planning and control techniques. Consideration will be given to management of the overall organization and the production/operations systems of organizations. Letter grade only (A-F).

### 326. Management and Society (3)

Issues of concern to business managers in dealing with the social environment. Analysis of business responsibility to stockholders, employees, customers, the government, and society. Issues include: profits, consumerism, product safety, pollution, government regulation, and social accountability. Letter grade only (A-F).

### \*405. International and Comparative Management (3)

Prerequisites: MGMT 300, IS 301. Analysis of the functions of management in international business; comparative management studies, and the impact of the environment on management performance. Letter grade only (A-F).

### 406. International Business Policy (3)

Prerequisite: MGMT 300, IS 301. An integrative course designed to provide insight into the scope, complexity, and problems of formulating and implementing multinational strategies and policies. Will integrate such areas of study as international economics, economic development, international marketing, international finance, and multinational planning, organization, and control.

Will also cover such topics as framework of international transactions, economic and political integration, the competitiveness of countries, relations with host societies, and country studies. Cases and research projects will be used extensively. Letter grade only (A-F).

### \*410. Materials Management (3)

Prerequisites: MGMT 300, IS 301. Analysis of basic frameworks for managing material flows into, within, and out of organizations. Study of inventory models for independent demand items, material requirement planning, and distribution systems. Heavy emphasis on learning supported by MRP II tools and other computer resources. Letter grade only (A-F).

### 411. Production Planning (3)

Prerequisites: MGMT 300, IS 301. Analysis of demand management and production planning problems. Study of forecasting tools and techniques using available computer resources. Concepts of aggregate planning, master scheduling, and capacity planning will be examined using the framework of an MRP II system. Letter grade only (A-F).

### 412. Production Control (3)

Prerequisites: MGMT 300, IS 301. Analysis of tools and techniques for scheduling, controlling, and evaluating manufacturing activities at the shop-floor level. Shop order release, dispatching, priority control, queue management, and input/output monitoring will be simulated using MRP II software. Job sequencing and scheduling techniques will be examined and available software and simulations employed. Just-in-time production, Kanban control, and optimized-production-technology (OPT) will be presented. Letter grade only (A-F).

### 413. Managing Quality for Productivity (3)

Prerequisites: MGMT 300 and recommended IS 310, IS 301. Analysis of the relationship between productivity and quality. Examination of the quality-assurance function, statistical quality control, and lot inspection. Study of the relationship between productivity improvement, product quality, and manufacturing strategy. Letter grade only (A-F).

### 414. Purchasing Management (3)

Prerequisites: MGMT 300, IS 301. Analysis of functions, principles, and tools of purchasing management. Study of the relationships of purchasing to other management functions. Use of MRP II systems to simulate purchasing decisions, monitor performance, and track costs. Letter grade only (A-F).

### 421. Entrepreneurship and New Venture Creation (3)

Prerequisites: MGMT 300, IS 301. Learn how to start a new business. Be an entrepreneur in a free enterprise environment, or an entrepreneur in an existing organization. You will use state-of-the-art theory to plan and evaluate business startups. You will test your ideas with successful entrepreneurs and will learn how to do your own business plan. Letter grade only (A-F).

### 425. Business Strategy and Policy (3)

Prerequisites: ACCT 310 or 320, MGMT 300, MKTG 300, FIN 300, fulfillment of the GVAR, IS 301. Designed to integrate and apply knowledge theories and techniques derived from the study of business disciplines. The case method and business simulations are used to formulate business strategies and plans. Written reports are required. Letter grade only (A-F).

### 426. Management and Information Systems (3)

Prerequisites: IS 300, 301. Evaluations of concepts for evaluation and design of decision support systems, management decision models, socio-technical strategies for implementing information system changes. Letter grade only (A-F).

**\*430. Project Management (3)**

Prerequisite: MGMT 300, IS 301. Describes how ideas are selected for projects and how the projects are implemented. It explores the role of the project team member, the project manager, and the various ways projects can be organized and planned. The project implementation tasks of budgeting, scheduling, monitoring and controlling are explored including computerized network models and project management software packages. Final project analysis and termination are addressed. Letter grade only (A-F).

**\*454. Organization Theory (3)**

Prerequisite: MGMT 300, IS 301. Examination of the design and adaptation of organizations. Tools for analysis and design are developed from the general principles and theory of organization and the forces from inside and outside the organizations that help to shape it. The structure of organization is explored from many perspectives and functions. The organization is viewed as a goal implementation device, a system of authority, a political system, and an information and coordination device. Cases and computer simulations of real business and non-profit organizations may be used as appropriate. Letter grade only (A-F).

**455. Managerial Decision Making Processes (3)**

Prerequisites: MGMT 300 and either HRM 360 or 361, IS 301. Managerial decision making is presented as a complex process that involves setting objectives, identifying and evaluating alternative courses of action, choosing and implementing the decision, and controlling results. Recent research is used to explain the influence of task, people, organization, and environment on the decision process. Helps students become better decision makers by improving their understanding of decision making processes. Letter grade only (A-F).

**495. Selected Topics (1-3)**

Prerequisites: GPA of 3.0 in Management courses, plus consent of instructor, IS 301. Topics and issues of critical importance to Management. Topics for each semester are announced in *Schedule of Classes*. Focus on the development of critical thinking, writing, and speaking skills. May be repeated to 6 units. Letter grade only (A-F).

**497. Directed Studies (1-3)**

Prerequisites: Consent of Instructor, Department Chair, and 3.0 GPA or higher in Management courses. Individual projects, research, and study of advanced nature in Management. Letter grade only (A-F)

**Graduate Prerequisite Course**

**500. Business Policies, Operations and Organizations (3)**

Prerequisite: MBA standing. Recommended preparation: IS 310 or 410. Theory and philosophies of administrative organizations systems, information systems, management functions, decision making, strategy and policy formulation, operations planning, and control systems. Letter grade only (A-F).

**Graduate Division**

**510. Management for Engineers (3)**

The transition of the engineer to manager; planning and organizing technical activities; selecting and managing projects, selecting and managing teams, techniques of control and communication. Not open to MBA students. Letter grade only (A-F).

**511. Project Management (3)**

Theory and philosophies of project management. The problems of assembling an effective team and the control issues, techniques, and tools appropriate for the preproject proposal stage to program conclusion are examined. Not open to MBA students. Letter grade only (A-F).

**512. Engineering Management Information Systems (3)**

Study of the development and management information systems used by middle and higher management of technological and scientific organizations in the control of many facets of their function. Not open to MBA students. Letter grade only (A-F).

**513. Cases in Engineering Management (3)**

A course that permits application of newly acquired technical skills. It involves cases from engineering, technical or scientific programs of industrial firms or government agencies. The cases may be from new ventures as well as mature firms in both product and process development. Not open to MBA students. Letter grade only (A-F).

**541. Industrial Logistics (3)**

Prerequisites: MBA standing, plus MGMT 500 or equivalent. Systems analysis and synthesis of the general logistics system containing the marketing, production, and transportation activities. Emphasis placed on definition of system components of outputs, activities and inputs and the specification and quantification of the major functional relationships interrelating these components. Letter grade only (A-F).

**542. Enterprise Structure and Operation (3)**

Prerequisites: MBA standing and MGMT 500 or equivalent. Systems analysis and synthesis of the general enterprise system composed of the logistics, money, information, talent and decision sub-systems. Emphasis on the examination of the components of each of the sub-systems and how they interrelate in the operation of the total enterprise. Systems approach of defining outputs, activities and inputs is used as the vehicle for analysis. Letter grade only (A-F).

**543. International Business Policy (3)**

Prerequisites: MBA standing, plus MGMT 500 or equivalent, 9 hours recommended of 500/600 level courses in the area of international business. Analysis of current theory and principles of international business management pertaining to problems of formulating policy and developing strategies and tactics in the multinational corporation; case studies, readings, logistic analysis and research report. Letter grade only (A-F).

**645. Seminar in Management Policy and Problems (3)**

Prerequisites: MBA standing plus MGMT 500 or equivalent. History of management thought, business organizations, strategies and policies, executive control; managerial problems. Letter grade only (A-F).

**646. Seminar in Managing Mergers and Acquisitions (3)**

Prerequisites: MBA standing, plus MGMT 500 or equivalent. Examination of the reasons for continuing trend of mergers and acquisitions, examination of the m and a process (formulate, locate, investigate, negotiate, and integrate). Other topics include coordination and integrations across business boundaries, exploiting synergies, strategic vs. operating focus, hierarchical structure of combined companies, learning transfer, and the rationalization of shared activities. Letter grade only (A-F).

**647. Seminar in Management Planning and Control Systems (3)**

Prerequisites: MBA standing, plus MGMT 500 or equivalent. Analysis of planning and control systems in management. Cases and problems will be examined. Letter grade only (A-F).

**695. Selected Topics (3)**

Prerequisites: MBA standing. Topics to be announced in the *Schedule of Classes*. May be repeated to a maximum of 6 units with different topics. Letter grade only (A-F).

**697. Directed Studies (1-3)**

Prerequisites: MBA standing, consent of instructor. Individual study under the direction of the faculty. Letter grade only (A-F).

---

**Human Resources Management Courses (HRM)**

---

**360. Organizational Behavior (3)**

An overview of the dynamics of human behavior in organizations and implications for managing people at work. Topics include motivation, personality and attitudes, human perception, groups and teams, norms, power and politics, conflict, learning, communication, job design, organizational culture, organizational change, leadership and cross-cultural issues. Letter grade only (A-F).

### 361. The Human Resource Function (3)

An overview of human resource functions that are designed to attract, motivate, develop and retain employees. Topics include human resource planning, job analysis, recruitment, selection, placement, appraisal, compensation and benefit administration, training and development, communications, labor management relations and the international environment. Discussion, case studies and student presentations are used to develop critical thinking and problem-solving skills. Letter grade only (A-F).

### \*440. Collective Bargaining (3)

Prerequisite: HRM 361, IS 301. Examination of the roles of management, labor and government in structuring work environments. Nature of the process of negotiation and conflict resolution in organizations. Letter grade only (A-F).

### \*445. Compensation Administration (3)

Prerequisite: HRM 361, IS 301. Compensation and benefits management is viewed as an integrating human resource management process. Emphasis is on the development and administration of equitable compensation and benefit programs which will retain a productive workforce. Examined are job analysis and evaluation, pay structures, salary surveys, individual compensation, incentive, systems and benefits administration. Discussion, case studies, simulations. Letter grade only (A-F).

### 446. Leadership and Motivation in Organizations (3)

Prerequisite: HRM 360, IS 301. Critical examination of the determinants of effective leadership and successful methods of motivating employees to achieve organizational goals. Special attention given to identifying appropriate styles of leadership and methods for developing and applying leadership skills. An interactive class using case studies, research, and simulation exercises. Letter grade only (A-F).

### \*458. Managing Organizational Culture and Cultural Diversity (3)

Prerequisites: HRM 360 or HRM 361, IS 301. Examines the impact of diversity, culture, and ethnic origin on the work experience, and is designed to better prepare individuals to meet the challenge of cultural diversity in organizations. Attention is given to how language, gender, race, tradition, education, economic structure, and organizational philosophy interact to create a set of rules for acceptable behaviors in complex organizations. Open dialogue, debate, outside research, and group presentations. Letter grade only (A-F).

### 460. Current Issues in Human Resource Management (3)

Prerequisite: Either HRM 360 or HRM 361; IS 301. Critical examination of current and emerging issues concerning the management and development of people and organizations. Interactive course involving discussion, projects, and outside research. Topics include motivation, leadership, job performance, hiring, compensation, planning, selection, staffing, training, performance appraisal, careers, and quality of work life. Letter grade only (A-F).

### \*462. Labor-Management Relations (3)

Prerequisite: IS 301. Overview of the principles and practices influencing labor-management relationships. Development, aims, structure, and functions of labor and employer organizations; the collective bargaining process; labor law and governmental intervention; impasse resolution; unions and minorities; employee organizations in government and professional sectors; comparative international systems. Letter grade only (A-F).

### \*463. Organizational Training and Development (3)

Prerequisite: HRM 360 or HRM 361, IS 301. Review of the field of training and development including learning theory, training needs assessment, design and delivery of training and development programs, evaluation, and program management. Includes career development and organizational development. Case studies, research, simulation exercises, and student presentations. Letter grade only (A-F).

### \*465. Personnel Selection and Appraisal (3)

Prerequisite: HRM 361, IS 301. Critical examination of theories and techniques guiding personnel selection and appraisal processes. Students develop expertise in determining staffing

needs, conducting job analyses, writing job descriptions, developing recruitment strategies, affirmative action plans, and designing resumes. Attention is given to designing effective appraisal systems and conducting productive performance appraisals. Cases and simulations. Letter grade only (A-F).

### 497. Directed Studies (1-3)

Prerequisites: Consent of instructor and Department Chair, and 3.0 GPA or higher in human resources management courses. Individual projects, study and research of advanced nature in human resources management. Letter grade only (A-F).

## Graduate Level

### 510. Behavioral Science for Engineers (3)

Prerequisites: MBA standing. Examination of the individual, groups and organizational structure designs, and interpersonal relationships that are peculiar to managing and directing professionals. Emphasis on managerial applications of Behavior Science concepts and research findings. Not open to MBA students.

### 652. Seminar in Human Resources Management (3)

From a general manager's perspective, an examination of those decisions and actions that impact upon managing people. Problems of productivity, employee commitment, employee development, employment law, and compensation are considered. Processes emphasized include staffing, training, and development, performance appraisal, counseling, leadership and motivation, reward systems, participation and delegation, and discipline. Discussion, cases, simulations, and presentations. Letter grade only (A-F).

### 654. Seminar in Negotiation and Conflict Management (3)

An examination of various forms of opposition interactions within organizations. Focuses upon interpersonal, intragroup, and intergroup conflict by distinguishing between functional and dysfunctional conflict, identifying sources and causes of conflict, and examining alternative styles and methods of conflict management. Discussion, cases, simulations, and presentations. Letter grade only (A-F).

### 655. Seminar in Motivation and Organization Change (3)

Develops students' understanding and skills in two central parts of organizational life: human motivation and organizational change. Both traditional and modern theories of work motivation and change are reviewed, analyzed, and applied. Primary issues include: 1) the psychology and management of motivation, 2) the psychology and management of organizational change and development, and 3) management skills, policies, and organizational characteristics that facilitate the creation of genuinely motivating and flexible organizations. Letter grade only (A-F).

### 657. Seminar in Leadership Skills (3)

Intended to: 1) develop the student's leadership abilities and 2) examine the effectiveness of numerous approaches to leadership, including both traditional and modern approaches, from both managerial and psychological viewpoints. Leadership assessment and self assessment are included to aid diagnosis and understanding of one's own and others' leadership styles and abilities. Personality, situational factors, group processes, followership, and implications for leadership training are discussed. Letter grade only (A-F).

### 697. Directed Studies (1-3)

Prerequisites: MBA standing, consent of instructor. Individual study under the direction of the faculty. Letter grade only (A-F).

## Courses (MKTG)

### Upper Division

#### 300. Marketing (3)

Recommended preparation: ECON 200 or 201 or 300. Interdependence of elements in the firm's marketing system. Relation of marketing system to other activities in the firm. Firm's role in domestic and world marketing environments. Economic and social effects on marketing. Human behavior as it affects marketing, marketing communications, marketing information systems, marketing management problems and their solutions.

#### 310. Retail Concepts and Policies (3)

An overview of the retail system. Retail decision making emphasized in relation to the following areas: store operation and management; merchandise assortment and pricing; store location and layout; advertising and sales communication; consumer analysis; retail information systems; retail accounting and control.

#### 330. Mass Marketing Communications: Advertising (3)

Principles and practices of advertising. Social and economic importance of advertising and its relation to modern business organization; importance of an advertising plan; preparation of advertisements, copy and layout, media planning and application of information technology.

#### 410. Services Marketing (3)

Prerequisite: MKTG 300, IS 301. Applies marketing management techniques, marketing strategies, and processes for service evaluation and service quality improvement to the marketing of services in both profit and nonprofit organizations. Topics include the unique characteristics of services marketing, the management of services, the evaluation of service quality, techniques for service improvement, services marketing in global environments, and the use of marketing techniques to achieve service breakthroughs. Entrepreneurial and career opportunities in not-for-profit and profit oriented service organizations will also be explored. Letter grade only (A-F).

#### 420. Sales Management (3)

Prerequisite: MKTG 300, IS 301. Managing the sales force; sales analysis; forecasting techniques; account and territory management; negotiations; integrating the personal computer into the sales function; computer simulation of the decision process in sales management.

#### 430. Promotion Strategies (3)

Prerequisite: MKTG 300, IS 301. Management of the promotional mix. Behavioral and data-based foundations for promotional strategies; budgeting; allocation of promotional resources; media models; integration of promotional strategies into the marketing mix; applications of information-based technologies and tools for analysis.

#### 437. Internet Marketing (3)

Prerequisites: MKTG 300 suggested, IS 301. The course covers Internet history; Internet technology and appliances; consumer behavior (domestic and International) on the Internet; business models; advertising and promotions; website design; pricing; and marketing research using the Internet. Quality and service are emphasized. News and recent developments in e-commerce are a focus of the class. Letter grade only (A-F).

#### 465. Business To Business Marketing (3)

Prerequisite: MKTG 300, IS 301. Analysis of industrial products, markets, institutions, and strategy. Comparison with consumer marketing. Emphasis on business-to-business negotiations and promotions. Integration and application of information technologies.

#### 470. Marketing Research (3)

Prerequisites: MKTG 300, IS 301, 310. Fundamentals of marketing and industrial research as an aid to problem-solving in business. Familiarization with current industry research efforts. Data collection, interviewing, and report-generation software. Analysis of data. Project, instrument and sampling designs.

#### 480. International Marketing (3)

Prerequisite: MKTG 300, IS 301. The study of marketing systems and marketing operations in various countries and multinational market groups. Impact of foreign environments and information technologies. In-depth international marketing studies and formulation of appropriate strategies.

#### 481. International Marketing Management (3)

Prerequisites: MKTG 300, 480, IS 301. MKTG 481 provides students with a problem solving approach to assessing and exploiting global marketing opportunities. The course focuses on developing a strategic marketing plan for entering/maintaining foreign markets. The course will be taught as a special topics seminar. Letter grade only (A-F).

#### 490. Consumer Behavior (3)

Prerequisite: MKTG 300, IS 301. Application of psychological, sociological, anthropological, and economic theories to the understanding of consumer behavior. Consideration of personality, attitudinal, group, social class, subcultural, and demographic factors. Application of these theories to marketing strategy.

**492. New Products/New Services (3)**

Prerequisite: MKTG 300 or consent of instructor, IS 301. Entrepreneurship; innovation management; the process and strategy of new product or services marketing; developing a business plan for a product or service introduction.

**494. Marketing Management (3)**

Prerequisites: MKTG 300, IS 301; senior marketing majors or consent of instructor. Strategies and techniques in marketing management. Application of prior material from marketing curriculum to problems and cases. Emphasis on problem identification and solution. Letter grade only (A-F).

**495. Selected Topics (1-3)**

Prerequisites: Consent of instructor and a GPA of 3.0 in marketing, IS 301. Topics of current interest in marketing selected for intensive study. May be repeated to a maximum of 6 units. Topics will be announced in the *Schedule of Classes*.

**497. Directed Studies (1-3)**

Prerequisites: Consent of instructor and Department Chair, on Dean's List and a 3.0 GPA or higher in marketing. Individual projects, study and research of advanced nature in marketing.

**668. Seminar in Consumer Behavior (3)**

Prerequisite: MKTG 500. Topics in the behavioral sciences as they apply to marketing. Application of psychological, sociological, anthropological, and economic theories and models to the understanding of buyer behavior and the development of marketing strategy. Letter grade only (A-F).

**669. Seminar In Strategic Planning (3)**

Prerequisite: MKTG 661. The role and use of marketing research and information systems as the basis for development and implementation of marketing strategy. Case studies and/or class projects required. Letter grade only (A-F).

**695. Selected Topics (3)**

Prerequisites: MBA standing, consent of instructor. Topics to be announced in the *Schedule of Classes*. May be repeated to a maximum of 6 units with different topics. Letter grade only (A-F).

**697. Directed Studies (1-3)**

Prerequisites: MBA standing, consent of instructor and Department Chair. Individual study under the direction of the faculty. Letter grade only (A-F).

**Graduate Prerequisite Course****500. Marketing Concepts (3)**

Prerequisite: MBA standing required. Overview of the decision process in marketing. Consideration of functional areas and their interaction with the total operations of the firm. Application of information technology to the development of marketing strategy and planning. Letter grade only (A-F).

**Graduate Level****610. Seminar in Services Marketing (3)**

Prerequisite: MKTG 500. Supplements Marketing 500 by focusing on problems and strategies specific to service businesses. Problems commonly encountered in service businesses (such as inability to inventory, difficulty in synchronizing demand and supply, difficulty in controlling quality) are addressed. Strategies used by successful services marketers to overcome these difficulties will be discussed. The emphasis is on services in general rather than on any particular industry. However, concepts are illustrated using cases, examples, and exercises in diverse service industries such as banking, health care, retailing, financial planning, consulting, professional services, and communication. Letter grade only (A-F).

**661. Seminar in Marketing Policies (3)**

Prerequisite: MKTG 500. The solving of practical, profit-oriented problems in marketing. Sophisticated case analysis and discussion. Application of marketing principles and technologies, including information systems, databases, behavioral theories, and management techniques. Letter grade only (A-F).

**663. Seminar in Advertising Policies (3)**

Prerequisite: MKTG 500. Discussion and analysis of advertising situations, objective setting, creative strategies, media strategies and models, and evaluation. Applications of mass communication theories and marketing databases. Letter grade only (A-F).

**665. Seminar in Marketing Research (3)**

Prerequisites: MKTG 500 and IS 601. The role of research in the solution of marketing problems. Research methods in collecting, analyzing, and interpreting information for business use. Survey and experimental approaches included. Case studies and/or class projects required. Letter grade only (A-F).

**666. Seminar in International Marketing (3)**

Prerequisite: MKTG 500. Analysis of problems and opportunities in international marketing operations. Consideration of entry strategies, competitive strategies, domestication, and nationalization problems. Use of marketing information systems to evaluate opportunities and threats in foreign markets. Letter grade only (A-F).

# MILITARY SCIENCE

*College of Health and Human Services*

Master Sergeant Carl Halbert

Major Bart Lawrence

Website

[www.csulb.edu/org/armyrotc](http://www.csulb.edu/org/armyrotc)

The Army Reserve Officers Training Corps (Army ROTC) program offers leadership and management training to CSULB students which consists of courses taught by Army personnel. This dynamic four-year program of instruction develops the mental and physical abilities of students in preparation for positions of leadership with the military and civilian communities. Students may enroll for academic elective credit without incurring any military service obligation. The curriculum includes military leadership and management courses; courses which provide an awareness of the heritage of the U.S. Military; the Armed Forces' role in national defense strategy; professional military subjects; and military ethics. The program is oriented towards preparing the student for a military career. Students desiring to attain a highly sought-after commission as a Second Lieutenant in the U.S. Army must meet eligibility requirements and complete the Military Science/Army ROTC (Reserve Officer Training Corps) Advanced Course. To be eligible for the Commissioning Program, a student must be enrolled full time (12 units) at CSULB, have at least two years remaining as a university student, be physically qualified, complete the advanced course and graduate prior to reaching their 31st birthday.

## *Financial Assistance*

Many opportunities for financial assistance are available to students. Three areas of opportunities are: ROTC cadets who sign a contract for Advanced Phase, students who earn an ROTC scholarship, and cadets who train with Reserve or National Guard units. ROTC cadets who sign a contract to participate in the Advanced Course of ROTC receive a \$350 - \$400 a month allowance. Highly competitive two-, three-, and four-year ROTC scholarships are available. The scholarship provides payment of full tuition, books, supplies, and the \$250 - \$400 a month allowance for the duration of the scholarship. Students interested in scholarship competition should contact the Military Science Program at the time of application to the university. Reserve or National Guard training provides two additional sources of financial assistance: approximately \$150 a month for one weekend drill and approximately \$145 a month tuition assistance from the Army Reserve or National Guard "New GI Bill" benefits.

## *Equipment and Uniforms*

All necessary equipment, uniforms and textbooks for participation in the Military Science/ROTC program are furnished to the student by the United States Government free of charge. Title to this property, other than expendable items, remains with the government. Students entering into active commissioned service after graduation are granted a special \$200 uniform allowance.

## *Four-Year Program*

The four-year program curriculum is divided into two parts. The Basic Course is primarily for freshmen and sophomores, and the Advanced Course is for junior and senior level students. In special cases, the Advanced Course is available to students working towards graduate degrees.

## *Basic Course*

The Basic Course is a one to two-year period where students may, without obligation, investigate the ROTC Program and the military as a full- or part-time career. Students may enter and leave during any semester. The curriculum for the Basic Course is consists of the lower division courses listed below. To become an ROTC cadet during the Basic Course requires the student be registered for a Military Science class, completion of an ROTC enrollment form (obtained at the Military Science Department, Technology Education, Room 108), and an interview with the ROTC Enrollment Officer. Because this course is for students to examine the ROTC Program without obligation, participation in ROTC activities is encouraged but not mandatory. Advancement into the Advanced Course is accomplished either by successfully completing the Basic Course classes, completing ROTC Summer Basic Camp or completing any military basic training program.

## *ROTC Leaders Training Course*

One method to qualify for the Advanced Course is to successfully complete the challenging 30-day ROTC Summer Basic Camp. Students normally attend Basic Camp between their second and third academic years. It is important that potential transfer students who plan to participate in the two-year ROTC program make their intentions known directly to the Military Science Program no later than May of the year they plan to register at the university even though this date may precede the date of their final acceptance by the university.

The government will provide a transportation allowance to and from Basic Camp and the student will also receive approximately \$600 during the 30 days. All equipment, uniforms, room and medical care are furnished free while at camp. No military obligation is incurred as a result of attendance. It is recommended though that the student be committed to pursuing a career in the military either in an active or reserve capacity.

## **Basic Training**

Outstanding students who have successfully served on active duty, regardless of the branch of service, are qualified to enter the Advanced Course. Also, students who have been, or are members of Reserve or National Guard units and have completed basic training are qualified for the Advanced Course. Students may be required to take certain lower division classes even after enrollment in the Advanced Course.

## **Leader Development/Assessment Course**

The Advanced Course is a two-year period where ROTC cadets receive advanced leadership and management training. The cadets receive many hours of hands-on, practical leadership experiences to prepare them for a military career or a management position in the civilian sector. To become a cadet in the Advanced Course a student must complete the Basic Course, or ROTC Summer Basic Camp, or Basic Training. The cadet must also make a commitment to attend all required training activities and sign a contract to accept a commission in the United States Army. In return for the student's commitment, the Military Science Department will provide \$350 - \$400 a month, classroom instruction, real leadership opportunities, and continuous feedback on each cadet's leadership progress. A 32-day summer training camp, between the two years of the Advanced Course, will be provided for assessing and developing each cadet's leadership abilities. All equipment, uniforms, room, board, and medical care are furnished free while at this camp. The cadets will also receive pay at the rate of one-half of Second Lieutenant's basic pay. Upon successful completion of the Advanced Course and graduation from the university, the cadet will be eligible to be commissioned as a Second Lieutenant in the United States Army.

## **Required Related General Education Subjects**

1. Written Communications  
(Category A) ENGL 100
2. Human Behavior  
(Category D) POSC 100
3. Computer Literacy
4. Mathematical Reasoning  
(Category B) MATH 103 or 110

## **Courses (MS)**

### **Lower Division**

#### **101. Foundations of Officership (1)**

The purpose of this course is to introduce cadets to issues and competencies that are central to a commissioned officer's responsibilities. These initial lessons establish a framework for understanding values, leadership, and officership. Additionally, the semester addresses "life skills" including fitness and time management. The M S 101 course is designed to give students accurate insight into the Army Profession and the officer's role within the Army. Subject topics include: The Army Profession, Personal Development, Physical Well-being, Leadership, Values and Ethics; setting the stage for M S 102 – Basic Leadership. ROTC cadets who sign up for this course must also register for M S 101L. Letter grade only (A-F).

#### **101L. Leadership Laboratory (1)**

Prerequisite: Accepted as a cadet in the Army ROTC Program; Corequisite: M S 101. This course is designed to assist students, with no prior military background, in their transition from a civilian into a cadet. Provides the individual with the skills necessary for them to become an integral member of an Army team. The student will be a member of a squad and receive instruction on small unit tactics. The cadet will be exposed to the Army values and selected critical individual military skills. The cadet will become familiar with the Army leadership techniques and receive basic leadership experiences and assessments. Credit/No Credit grading only.

#### **102. Basic Leadership (1)**

Prerequisite/Corequisite: M S 101 or consent of instructor. This course expands upon the fundamentals introduced in the previous course by focusing on communications, leadership and problem solving. "Life skills" lessons in this semester include: problems solving, goal setting, interpersonal communication skills, and assertiveness skills. Provides students with interesting lessons yielding immediately useful skills. The course also gives accurate information about life in the Army, including the organization of the Army, employment benefits, and work experiences of junior officers. Subject topics include: Communications, Reasoning, Personal Development, and The Army Profession. ROTC cadets who register for this course must also register for M S 102L. Letter grade only (A-F).

#### **102L. Leadership Laboratory (1)**

Prerequisites: Enrolled in M S 102 concurrently and accepted as a cadet in the Army ROTC Program. Credit/No Credit grading only. (Activity 2 hours.)

#### **201. Individual Leadership Studies (2)**

Prerequisites: M S 101, 102 or concurrent enrollment in M S 102. This course employs the principles of action, experiential, and discovery learning. Students, with one or two dedicated instructors, face challenging physical and mental tasks. Students pick their own leaders, ensuring that all get to serve as leaders, and decide how to solve each problem and accomplish each task. Upon completion, the instructor serves a facilitator for the students' own analysis of the event. The instructor influences the student's analysis as little as possible, but may ask questions that steer the students' toward certain topics. Topics of concern include, but are not limited to: personal development, goal setting, communication, problem solving, decision making, leadership, teamwork, group process (roles, interpersonal dynamics, etc.), stress management, physical fitness, and application or relation of lessons to officership and officer duties. ROTC cadets who register for this course must also register for M S 201L. Letter grade only (A-F).

#### **201L. Leadership Laboratory (2)**

Prerequisite: Accepted as a cadet in the Army ROTC Program; Corequisite: M S 201. Credit/No Credit grading only. (Activity 4 hours.)

#### **202. Leadership and Teamwork (2)**

Prerequisite: M S 201 or consent of instructor. This course continues to employ the principles of action, experiential, and discovery teaming. Students, with one or two dedicated instructors, face challenging physical and mental tasks. Students must apply the leadership doctrine learned in M S 201 during challenging situational exercises. As in M S 201, upon completion of the task, the instructor serves as a facilitator for the students' own analysis of the event. The instructor influences the student's analysis as little as possible, but may ask questions that steer the students' toward certain topics. Topics of concern include, but are not limited to: personal development, goal setting, communication, problem solving, decision making, leadership, teamwork, group process (roles, interpersonal dynamics, etc.), stress management, physical fitness, and application or relation of lessons to officership and officer duties. ROTC cadets who register for this course must also register for M S 202L. Letter grade only (A-F).

#### **202L. Leadership Laboratory (2)**

Prerequisite: Accepted as a cadet in the Army ROTC Program; Corequisite: M S 202. Credit/No Credit grading only. (Activity 4 hours.)

## Upper Division

### 301. Leadership and Problem Solving (3)

Prerequisites: M S 202 and consent of instructor. This course is designed to enable a student with no prior military or cadet experience to quickly learn essential cadet knowledge and skills necessary for the integration into the cadet battalion and successful performance of key cadet tasks. Students are introduced to the Leader Development Program that will be used to evaluate their leadership performance and provide them developmental feedback for the rest of their cadet years. To prepare them for their responsibilities in teaching and participating in Military Science and Leadership labs, students are next taught how to plan and conduct individual and small unit training, as well as basic tactical principles. Following these important introductory modules, the course turns to a four-week study of reasoning skills and the military-specific application of these skills in the form of the Army's troop leading procedure. The term concludes with a detailed examination of officership, which culminates in an officership case study designed to enable the cadet to examine the Officer Corps and the Evolution of the United States Army from Vietnam into the Twenty-First Century. ROTC cadets who register for this course must also register for laboratory in M S 301L. Letter grade only (A-F).

### 301L. Leadership Laboratory (1)

Prerequisite: Accepted as a cadet in the Army ROTC Program; Corequisite: M S 301. This course will allow the student to serve in various leadership positions in the military chain of command at squad, platoon, and company levels. Cadets will routinely be responsible developing and executing unit plans and orders; training other students in basic skill; building teamwork among small units of students; executing small unit tactics; and preparing for Advanced Camp training and evaluation (conducted in the summer between junior and senior year). The cadet will be expected to internalize the Army values and master selected critical individual military skills as well as master the Army leadership and instructional techniques. Cadets will be routinely evaluated on their leadership skills. Credit/No Credit grading only.

### 302. Leadership and Ethics (3)

Prerequisites: M S 301 and consent of instructor. This course is designed to continue the development of students as leaders by presenting instruction in the three foundational areas of leadership, interpersonal communication, and values and ethics. The leadership module contains an examination of Army leadership doctrine followed by lessons that expand on key leadership concepts and provide feedback for cadet leadership self-development efforts. Next, students turn their attention to the topic of interpersonal communication in a variable-length module. These lessons address general communication theory as well as written and spoken communication skills. The highlight of the communication module is the opportunity for students to present an information briefing and lessons that focus on values, ethics, ethical decision-making, consideration of others, and spiritual needs. ROTC cadets who register for this course must also register for laboratory in M S 302L. Letter grade only (A-F).

### 302L. Leadership Laboratory (1)

Prerequisite: Accepted as a cadet in the Army ROTC Program; Corequisite: M S 302. This course will allow the student to serve in various leadership positions in the military chain of command at squad, platoon, and company levels. Cadets will routinely be responsible developing and executing unit plans and orders; training other students in basic skill; building teamwork among small units of students; executing small unit tactics; and preparing for Advanced Camp training and evaluation (conducted in the summer between junior and senior year). The cadet will be expected to internalize the Army values and master selected critical individual military skills as well as master the Army leadership and instructional techniques. Cadets will be routinely evaluated on their leadership skills. Credit/No Credit grading only.

### 401. Leadership and Management (3)

Prerequisites: M S 302 and consent of instructor. This course concentrates on training, management, leadership, and ethics and begins the final transition from cadet to lieutenant. The course focuses students, early in the year, on attaining knowledge and proficiency in several critical areas they will need to operate effectively as Army officers. These areas include: The Army's training management system, coordinating activities with staffs, and counseling skills. The introduction of these subjects early in the senior year has the added benefit of preparing students to lead the cadet battalion throughout the remainder of the year. While the proficiency attained in each of these will initially be at the apprentice level, students will continue to sharpen these skills as they perform their roles as cadet officers in the ROTC battalion and as new lieutenants after commissioning. At the end of this semester should possess the fundamental skills, attributes, and abilities to operate as competent leaders in the cadet battalion and confidently shoulder the responsibilities entrusted to them. ROTC cadets who register for this course must also register for M S 401L. Letter grade only (A-F).

### 401L. Leadership Laboratory (2)

Prerequisite: Accepted as a cadet in the Army ROTC Program; Corequisite: M S 402. Credit/No Credit grading only. May be repeated to a maximum of 4 units. (Activity 4 hours.)

### 402. Officership (3)

Prerequisites: M S 302 and consent of instructor. This course focuses on completing the transition from cadet to lieutenant. The course starts with an examination of unit ethical climate and the commander's role as the moral anchor of the unit. Following this is a module on military law and leadership. The next module reinforces previous instruction on the organization of the Army and introduces how we organize for operations from the tactical to strategic level. This is followed by instruction on administrative and logistical management that focuses on the fundamentals of soldier and unit level support. At the core of this semester is the Advanced Course's Capstone Exercise. This multi-lesson exercise directly reinforces all modules from this term, and also incorporates and reinforces many learning objectives from modules throughout the entire curriculum. The Capstone Exercise requires cadets, both individually and collectively, to apply their knowledge to solve problems and confront situations commonly faced by junior officers. Upon completion of this course the cadets will be prepared to shoulder the responsibility of being a commissioned officer in the United States Army. ROTC cadets who register for this course must also register for M S 402L. Letter grade only (A-F).

### 402L. Leadership Laboratory (2)

Prerequisite: Accepted as a cadet in the Army ROTC Program; Corequisite: M S 402. Credit/No Credit grading only. May be repeated to a maximum of 4 units. (Activity 4 hours.)

### 411. U.S. Military History (3)

Prerequisites: ROTC cadets who register for this course must also register for M S 401L or 402L. The evolution of the art of war from The Hundred Years War through the Napoleonic era to the American Civil War and the wars of the twentieth century. Emphasis is placed on the changing nature of warfare as nations adjust to social, political, economic and technological developments. Analysis focuses on causation, the interrelationship of events as warfare evolved over the ages, operational and logistical aspects of military history, and the role of society in warfare. Letter grade only (A-F).

### 497. Independent Studies (1-3)

Prerequisites: Consent of Program Director and prior approval of topic. Individual studies with faculty supervision in an area of Military Science specialization. Limited to a maximum of 3 units per semester. May be repeated to a maximum of 6 units. Letter grade only (A-F). (Discussion-Laboratory.)

#### Applied Music

Chi Asada, Piano; Jim Atkinson, French Horn; John Barcellona, Flute; Marian Bodnar, Voice; Robin Buck, Voice; Andrea Byers, Violin; John Campbell, Bassoon; Marvlee Cariaga, Voice; Deborah Carnahan, Clarinet; Michael Carney, Percussion; Raynor Carroll, Percussion; Shun-Lin Chou, Piano; Axel Clarke, Percussion; Cecilia Coleman, Jazz Piano; Robin Cox, Composition; Charley Davis, Trumpet; Marcia Dickstein, Harp; Randy Drake, Percussion; Brad Dutz, Percussion; Jerry Epstein, Viola; Ronald Eschete, Guitar; Dave Evans, Trumpet; Brian Farrell, Voice; Rob Frear, Trumpet; David Garrett, Cello; David Gerhart, Percussion; Helen Goode Castro, Clarinet; Valentina Gottlieb, Piano; Michael Grego, Clarinet; Michele Grego, Bassoon; John Hayhurst, Viola; Christine Helferich, Voice; Michael Higgins, Guitar; Carolyn Hove, Oboe; Joan LaRue, Trumpet; Bruce Lett, Jazz Bass; Phillip Levy, Violin; Greg Maldonado, Violin; Eric Marienthal, Saxophone; Loren Marsteller, Euphonium and Trombone; Kathleen Martin, Voice; Shigemi Matsumoto, Voice; Marjorie McMillin, Voice; James Miller, Trombone; Timothy Morrison, Trumpet;

Richard Naill, Cello; Betty Olsson, Voice; Kevin O'Sullivan, Percussion; Norm Pearson, Tuba; Elisabeth Pehlivanian, Voice; Leo Potts, Saxophone; Jeff Reynolds, Bass Trombone; Craig Richey, Piano; Linda Rose, Violin; Katharin Rundus, Voice; Cathy Segal-Garcia, Vocal Jazz; Francis Senger, Bass; Joe Stone, Oboe; Kimiyo Takeya, Violin; Jonathan Talberg, Voice; Darrin Thaves, Flute; Mark Uranker, Piano; Rena Urso-Trapani, Flute; John Van Houten, Tuba; Althea Waites, Piano; Henri Venanzi, Opera; Adriana Verdier de Vas Romero, Composition; Chan Ho Yon, Violin; David Young, Bass.

#### Administrative Coordinator

Debi Scroggins

Students desiring information should contact the department office for referral to one of the faculty advisors: Undergraduate Advisor, Music Education (credential) Advisor or Graduate Advisor.

The undergraduate music curriculum provides programs for the student: who wishes to become a professional musician; who wishes to enter the teaching profession; for whom music is part of a general education; or who is intending to pursue an advanced degree in music.

All entering freshmen and transfer students are required to take a theory placement test and performance audition which are regularly administered in Spring and late Fall and are also available at the beginning of registration week each semester. Each entering student should inquire at the Music Office for dates and details. In addition, new students are required to meet with the advisor prior to registration.

Each music major must declare a specialization in some performance area (voice, piano, or other orchestral instrument), develop ability in this area, appear in student recitals, and demonstrate progress to the satisfaction of the faculty. NOTE: Due to admissions limitations, the department is no longer providing instruction in acoustic guitar. A limited number of jazz guitar students will be admitted each year.

All undergraduate music majors are required to pass a screening examination in applied music on their primary instrument or voice before advancement to upper division applied study. This upper division screening exam (UDSE) will cover repertoire that is determined by each applied area. Specific information regarding the test may be obtained in the music office or from the advisor. The exam will be administered at a regular jury after four (4) semesters of applied study, however transfer students may elect to take it earlier. Failure to pass the exam will result in automatic suspension of all music departmental scholarship aid and continued applied study at the lower division level through university extension (a fee is required). The exam may be repeated.

Each student must pass a piano proficiency examination regardless of the performance area (piano majors excepted). Detailed information may be obtained in the Music Office.

Participation in a major performance organization (MUS 100/300) is required of each music major each semester. The performance ensemble must be approved by the department. Undergraduates are also required to register for Music Forum (MUS 110) every semester in residence to a total of 7 units.

The Department of Music offers graduate study leading to the Master of Arts or Master of Music degrees. The candidate should arrange for counseling with the graduate advisor through the department office. Special placement examinations or auditions are required to validate qualifications for graduate work in music.

All general requirements of the University must be met in addition to departmental requirements listed below. California State University, Long Beach is an accredited institutional member of the National Association of Schools of Music (NASM) (National Association of Schools of Music, 11250 Roger Bacon Drive, Suite 21, Reston, VA 20190, phone: 703-437-0700).

## Bachelor of Arts in Music (code MUS\_BA01) (120 units)

### Requirements

The BA requires 120 units, 24 upper division in the major. Music history and literature (MUS 190\* [section by advisement], 160, 360, 374, 490\* - \*counts towards GE); music theory (MUS 141A-B; 142A-B; 240, 241, 341, 342); Major Performance Organization (MUS 100 [lower division] or 300 [upper division]) one unit each semester in residence – the performance ensemble must be approved by the department; keyboard proficiency [completion of the piano proficiency examination (equivalent to MUS 220B)]; Music Forum (MUS 110) each semester in residence to a total of 7 units; Applied Music: 129/329 or X129/X329 for 8 units; Senior Recital (MUS 423A) or (MUS 428).

#### FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

#### I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

#### Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

**I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?**

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

**I didn't complete the exact list of courses shown. Can I still graduate on time?**

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

**If I follow the plan, will I have all requirements for graduation completed?**

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

## Bachelor of Music

The B.M. requires a minimum of 72 music units including the core and one area of specialization called an option. Options include Music History and Literature, Composition, Instrumental Music (Music Education), Choral-Vocal Music (Music Education) and Performance. Admission to the option is determined by audition and approval of the chair of the department. Application for admission to the option should be submitted no later than the beginning of the junior year, and significant progress must be demonstrated during the remaining two years. A Bachelor of Music degree requires a minimum of 132 units.

### Core Requirements – Music Education: Instrumental Music and Choral-Vocal Music Options

*Music History and Literature:* MUS 190\* (section by advisement), 160, 360, 374, 490\*, (\* counts toward GE).

*Music Theory:* MUS 141 A-B, 142 A-B, 240, 341, 342.

*Major Performance Organization:* MUS 100/300, one unit each semester in residence.

*Keyboard Proficiency:* successful completion of departmental piano proficiency examination (equivalent to MUS 220B); MUS 110 (taken each semester in residency to a total of seven units); senior recital (MUS 423A).

### Option in Instrumental Music (code MUS\_BM04) (132 units)

Completion of this option meets the subject matter competence requirement for the Single Subject Preliminary Credential in Music (code 170). In addition to meeting the subject matter competence requirement for the Preliminary Credential, prospective Music teachers are also required to complete 44 units of professional preparation in the Single Subject Credential Program, including student teaching. Students may begin the professional preparation courses as early as the junior year. With careful planning, it is possible to complete all of the credential program courses, except for student teaching, as an undergraduate. Courses may also be completed as post-baccalaureate student. Refer to the Single Subject Teacher Education section of this *Catalog* or the Single Subject Credential Program website ([www.ced.csulb.edu/single-subject](http://www.ced.csulb.edu/single-subject)) for a description of the professional preparation requirements, courses, and application procedures. Prospective students should consult the department's Music Education Advisor early to plan their program.

*The Music Subject Matter Program is being revised to meet new state standards. When the revised program has been approved by the Commission on Teacher Credentialing, the new course requirements will be in effect and supersede current requirements.*

#### Requirements

Core: MUS 129/329 or X129/X329 (must be taken for 8 units), 286, 326, 125T, 419, 484, and 485. Option: MUS 125V; elect 5 additional courses from MUS 125A, B, C, D, E, and/or F; 382A, 382B, 425, 480, and 482.

### Option in Choral-Vocal Music (code MUS\_BM01) (132 units)

Completion of this option meets the subject matter competence requirement for the Single Subject Preliminary Credential in Music (code 170). In addition to meeting the subject matter competence requirement for the Preliminary Credential, prospective Music teachers are also required to complete 44 units of professional preparation in the Single Subject Credential Program, including student teaching. Students may begin the professional preparation courses as early as the junior year. With careful planning, it is possible to complete all of the credential program courses, except for student teaching, as an undergraduate. Courses may also be completed as post-baccalaureate student. Refer to the Single Subject Teacher Education section of this *Catalog* or the Single Subject Credential Program website ([www.ced.csulb.edu/single-subject](http://www.ced.csulb.edu/single-subject)) for a description of the professional preparation requirements, courses, and application procedures. Prospective students should consult the department's Music Education Advisor early to plan their program.

*The Music Subject Matter Program is being revised to meet new state standards. When the revised program has been approved by the Commission on Teacher Credentialing, the new course requirements will be in effect and supersede current requirements.*

## Requirements

MUS 129/329 or X129/X329 (must be taken for 8 units); 286, 326, 125T, 419, 484, 485, 125F; elect 3 additional courses from MUS 125A, B, C, D, and/or E; 273A, 273B, 273C, 422, 426, 483A, and 483B.

## Core Requirements – Performance, Composition and History and Literature Options

*Music History and Literature:* MUS 190\* (section by advisement), 160, 360, 374, 490\*, (\* counts toward GE).

*Music Theory:* MUS 141A-B, 142A-B, 240, 241, 341, 342.

*Major Performance Organization:* MUS 100/300, one unit each semester in residence (keyboard majors only take maximum 4 semesters).

*Keyboard Proficiency:* successful completion of departmental piano proficiency examination (equivalent to MUS 220B); MUS 110 (taken each semester in residency to a total of 7 units); senior recital (MUS 423A) or senior composition recital (423B) or senior thesis (423C) or senior project (423D), by advisement.

## Option in Performance (code MUS\_BM05) (132 units)

### Requirements

*Individual instruction:* (MUS 129, 229/429, or X129, X229/ X429) required each semester in residence with an achievement of senior level on major performance medium. A Junior Recital (MUS 323) is required of all students.

*Piano:* MUS 200 or 201/400 or 401 (5 units); 277, 427, 477A-B, 492A-B. Electives: four units chosen from the following courses: 273A, 273B, 273C, 326, 428, 434A-B, 436, 460 and 467.

*String Instruments:* MUS 200 or 201/400 or 401(4 units); MUS 326, 425; choose six units from: 428, 460, 467, 471, and 493.

*Wind Instruments:* MUS 200 or 201/400 or 401(4 units, 2 of which must be either woodwind or brass chamber music); MUS 326, 425; choose six units from: 428, 460, 467, 471, and 493.

*Percussion:* MUS 200 or 201/400 or 401(4 units, 2 of which must be percussion ensemble); choose six units from: 428, 460, 467, 471, and 493.

*Voice:* MUS 273A, 273B, 273C, 326, 426, and 434A or 434B; choose one class from 428, 460, 467, 469, and 471; Choose an additional two units from MUS 436, 434A or 434B. Completion of Department of Music Foreign Language Examination in French, German or Italian (may be waived by completion of 101B level course in French, German or Italian).

*Opera:* MUS 273A, 273B, 273C, 326, 436, 473, and THEA 262; two units of MUS 330 or 331 required as part of eight-unit activity requirement; choose two courses from the following: MUS 469, 3-unit theatre elective, 2-unit dance elective (DANC 111A or 113A). Completion of Department of Music Foreign Language Examination in French, German or Italian (may be waived by completion of 101B level course in French, German or Italian).

*Jazz Studies:* At least 4 units of Jazz Ensemble 201/401; MUS 271, 370, 371, 372, 393, 474. Students in jazz studies whose primary performance medium is woodwinds will be required to take a minimum of 6 units in saxophone, 2 units in clarinet, 2 units in flute, and 4 units consisting of further study in saxophone, clarinet or flute for a total of 14 units in applied music. Prior to the senior project, each student must pass the UDSE on saxophone, clarinet and flute.

## Option in Composition (code MUS\_BM02) (132 units)

### Requirements

MUS 129 or 129X to be taken each semester in residence until successful completion of the departmental upper-division screening examination in applied music (a minimum of 4 units is required). MUS 244A-B, 344 (to be taken concurrently with 329X), 423B, and 23 units to be chosen under departmental advisement as follows: 20 units to be selected from MUS 271, 329X (may be repeated multiple times), 370, 371, 372, 411, 441, 442, 443, 444 (repeatable, and taken concurrently with 329X), 455, 456, 457, 495F, 497, and THEA 449. At least 3 of the 20 units to be selected from MUS 370, 455, 456, and 457. Three units to be selected from MUS 200B, 326, 375, 393, 400B, 415, 422, 425, 447, and 474.

## Option in History and Literature (code MUS\_BM03) (132 units)

### Requirements

MUS 129 or X129 to be taken each semester in residence until successful completion of the departmental upper division screening examination in applied music (a minimum of four units is required); MUS 496 (Research Methods); 460; 423C; elect 14 units chosen from: MUS 363I, 364I, 375, 393, 428, 467, 468I, 469, 471, 478, 492, 493, 400R, 400S (Collegium may be repeated). Completion of Department of Music Foreign Language Examination in French, German, or Italian (may be waived by completion of 101B level course in French, German, or Italian).

## Minor in Music (code MUS\_UM01)

### Requirements

A minimum of 18 units, 9 of which must be upper division (300- and 400-level courses). Specific courses are required. A degree plan must be prepared in conference with the department advisor prior to beginning this program.

## Master of Arts in Music (code MUS\_MA01)

The Master of Arts degree in Music provides academic concentrations in Musicology, Music Theory, and Music Education.

### Prerequisites

1. A Bachelor of Arts degree with a major in music, a Bachelor of Music degree, or a bachelor's degree with a minimum of 24 units of upper division courses in music comparable to those required of a major in music at this University;
2. The student must request all institutions of higher learning attended to send official copies of transcripts directly to the Office of Admissions and Records and another set to the Department of Music Graduate Advisor. Transcripts presented to the Admissions Office by the student are not acceptable. Graduates of California State University, Long Beach must follow these same procedures when making application to the Master of Arts in music program;
3. All applicants are required to complete the Department of Music Graduate Placement Examination before they register for courses applicable to the Master of Arts degree. (Under special circumstances, a student may take the examination during the first semester in which he or she is registered in courses applicable to the degree.) Applicants for all options of the M.A. degree must present samples of their scholarly writings in music for review by the Graduate faculty. Applicants for the musicology concentration must show evidence of reading and translation ability in one foreign language (French or German);
4. A GPA of 3.00 or better in upper division Music courses. Students who do not meet the 3.00 GPA requirement or specified balance within the required 24 units of upper division music but who possess outstanding or unusual qualifications that promise a significant contribution to the Master of Arts program may petition for a special review from the Department Graduate Committee.

### Advancement to Candidacy

The prerequisites for advancement to candidacy are the same as those for the Master of Music.

### Requirements

1. Completion of a minimum of 30 units of approved upper division and graduate courses with at least 24 units in the major. (The program may not include more than six units of transfer graduate credit);
2. Core Courses required by all Master of Arts students. 13-15 units; MUS 696 (should be taken the first time it is offered during the student's residency); MUS 541; one course from MUS 561, 562, 563, 564, 565; MUS 698 (for 4-6 units, dependent upon concentration).
3. Additional courses for Musicology concentration: 3 units from MUS 561, 562, 563, 564, 565 (other than one taken in core); 6 units elected from MUS 547, 561, 562, 563, 564, 565, 566, 569, 571, 576, 578, 592, 593 (not taken in core); 6 units of music electives (students in this concentration are strongly encouraged to elect theory as well as performance classes, especially Collegium Musicum and New Music Ensemble). Thesis is taken for 6 units in this concentration.

4. Additional courses for Music Theory concentration: MUS 542; 6 units from MUS 541 (may be repeated), 547, 640 (may be repeated); 6 units of electives (students in this concentration are strongly encouraged to elect additional history, composition and performance classes, especially New Music Ensemble and Collegium Musicum). Thesis is taken for 6 units in this concentration.
5. Additional courses for Music Education Concentration: MUS 581, 588; 4 units chosen from MUS 526, 554, 575, 580, 582, 585, 587, 594, 595, 680; 5-7 units of electives (students in this concentration are encouraged to elect performance and conducting classes). Thesis is taken for 4-6 units in this concentration, dependent upon project.
6. An oral defense of the thesis, recital, or project (MUS 698).

## Master of Music Degree (code MUS\_MM01)

The Master of Music degree program provides professional concentrations in Composition, Conducting-Instrumental, Conducting-Choral, Jazz Studies, Opera Performance and Instrumental/Vocal Performance.

### Prerequisites

1. A Bachelor of Music degree, or a Bachelor of Arts degree with a major in Music or a bachelor's degree, from an accredited institution, with a minimum of 24 upper division units of music comparable to those required at this University;
2. The student must request all institutions of higher learning attended to send official copies of transcripts directly to the Office of Admissions and Records and another set to the Department of Music Graduate Advisor. Transcripts presented to the Admissions Office by the student are not acceptable. Graduates of California State University, Long Beach must follow these same procedures when making application to the Master of Music in music program;
3. All applicants are required to complete the Department of Music Graduate Placement Examination before they register for courses applicable to the Master of Music degree. (Under special circumstances, a student may take the examination during the first semester in which he or she is registered in courses applicable to the degree);
4. Criteria according to concentration:
  - A. *Composition*: submission and approval of a portfolio of representative original scores and evidence of baccalaureate-level competency as required in the Bachelor of Music Composition Option;
  - B. *Conducting*: successful completion of a conducting examination and approval by the conducting faculty;
  - C. *Performance/Jazz Studies*: Performance-Opera; Jazz Studies; and Instrumental/Vocal: an audition both at a performance level and with a repertory on an instrument or in voice acceptable to the faculty of the specific performance medium.

- A GPA of 3.00 or better in upper division Music courses. Students who do not meet the 3.00 GPA requirement or specified balance within the required 24 units of upper division music but who possess outstanding or unusual qualifications that promise a significant contribution to the Master of Music program may petition for a special review from the Department Graduate Advisory Council.

### Advancement to Candidacy

- Satisfy all the general University requirements, including fulfillment of the Graduation Writing Assessment Requirement (GWAR);
- Remove all undergraduate deficiencies, which were determined by the departmental Graduate Placement Examination and/or the Dean of the College of the Arts;
- Pass the Department of Music Qualifying Examinations;
- Submit an approved project or thesis proposal, and a graduate degree program approved by the student's Thesis Committee, the Graduate Advisor, Department Chair, and the Dean of the College of the Arts;
- GPA of 3.0 or higher.

### Requirements

- General requirements for all majors: Completion of a minimum of 30 units of approved upper division and graduate courses with at least 24 units in the major. (The program may not include more than six units of transfer graduate credit);
- Core curriculum (13 units) MUS 541, one course from MUS 561, 562, 563, 564, 565, 566 (Jazz Studies concentration only; MUS 513); MUS 696 (should be taken the first time it is offered during student's residency); MUS 698.
- An oral defense of the thesis, recital, or project (MUS 698).

### Master of Music Concentrations

*Composition:* 2 units of MUS 529X or 629X, taken concurrently with MUS 544 and MUS 545; 9 units to be chosen under departmental advisement from the following courses: MUS 510, 511, 512, 515, 516, 520, 522, 525, 529X (may be repeated multiple times), 542, 543, 545, 547, 555, 556, 557, 574, 595F, 597, 640; at least 3 of the 9 units to be selected from: MUS 555, 556, 557. Two units of electives selected by advisement.

*Conducting – Instrumental:* 2 units of MUS 500, 600, or 601; 4 units of 529W or 629W; select by advisement two courses from MUS 520, 525, 680; 5 – 6 units of electives selected by advisement.

*Conducting – Choral:* 2 units of MUS 500, 600 or 601; 4 units of 529W or 629W; 519 (must be taken twice); 573, 575; 4 units of music electives by advisement.

*Jazz Studies:* 3 units selected from MUS 515, 574; 9 units selected from MUS 510, 511, 512, 516, 517, 525, 529 or 629 (section by advisement), 601A, 601B, 601C, 601D, or 601E; 2 units of electives.

*Opera Performance:* 4 units for MUS 529Q or 629Q; 2 units of MUS 530; 526, 536, 573; 5 units of electives chosen by advisement. Students in this concentration are strongly encouraged to take MUS 569.

*Instrumental Performance:* 4 units of MUS 500, 530, 600 or 601; 4 units of MUS 529 or 629 (section by advisement). Keyboard Specialization: 4 units of MUS 529A-B; 5 units of electives selected by advisement (MUS 577A-B, 600G, 600U strongly encouraged.) Other instrumental specializations: 9 units of electives chosen by advisement.

*Vocal Performance:* 2 units of MUS 500, 530, 600, or 601; 4 units of MUS 529 or 629 (section by advisement); MUS 573; choose 4 units from MUS 526, 534A, 534B under advisement; 5 units of electives chosen by advisement.

### Teaching Credentials

Students seeking a degree in Music Education refer to the Instrumental Music and Choral-Vocal Music options under B.M. degree. All students entering the credential program after August 31, 2003 will be following the SB2042 credential program and should consult the Single Subject Credential Program requirements in this catalog. For further information consult with the Department of Music credential advisor.

### Music Performance

Opportunities to participate in various instrumental and vocal ensembles are available to all students regardless of major. Before enrolling in a performing group, students should apply to the director of the organization in which they wish to participate. Music performance courses may be repeated; up to 8 units of credit in MUS 100 or 300 may be counted toward a bachelor's degree. Simultaneous enrollment in more than one organization is permitted.

### Courses (MUS)

#### Lower Division

#### 100. Major Performance Organization (1)

Prerequisite: Consent of instructor. May be repeated to a maximum of 8 units. (3-5 hrs reh)

- B. Symphonic Band
- C. Wind Symphony
- D. Women's Chorus
- E. Forty-Niner Chorus
- F. University Choir
- G. Chamber Singers
- J. Symphony Orchestra

#### 110. Music Forum (1)

Recital attendance and performance on principal instrument or voice. Required of undergraduate music majors each semester, except for semester enrolled in MUS 423A, for a maximum of 7 units. Credit/No Credit grading only.

#### 119. Group Piano for the Non-Major (1)

A group piano setting designed for the student interested in learning to play the piano for enjoyment. Repertoire and technical exercises for dexterity will be emphasized. Simple chord progressions and improvisational skills will also be taught. Knowledge of reading music preferred but not required. May be repeated to a maximum of 2 units. (2 hrs lab)

#### 120A-B. Class Piano (1, 1)

Technique, tone production, rhythm, sight-reading, interpretation and keyboard facility. (2 hrs lab)

#### 122A-B. Class Voice (1-1)

Fundamental techniques of singing, tone production, voice placement, breathing, diction, repertoire, and song interpretation. (2 hrs lab)

### 125. Instrumental Methods (1)

Class instruction in applied music. Class instruction in applied music and technology. Limited to music majors and minors. Letter grade only (A-F). (2 hrs lab)

- A. Single Reeds/Flute
- B. Double Reeds
- C. Brass
- D. Percussion
- E. Strings
- F. Guitar
- T. Music Technology
- V. Voice Class for Instrumentalists

### 129. Individual Instruction for Music Majors (1)

Open to music majors only. Private lessons in their major performance medium. Application must be made to the Chair of the Department of Music during the semester prior to registration. Registration subject to departmental approval. May be repeated to a maximum of 4 units.

- A. Baritone/Tuba
- B. French Horn
- C. Trombone
- D. Trumpet
- E. Harpsichord
- F. Organ
- G. Piano
- J. Percussion
- K. Double Bass
- L. Cello
- M. Viola
- N. Violin
- O. Guitar
- P. Harp
- Q. Voice
- R. Bassoon
- S. Clarinet
- T. Flute
- U. Oboe
- V. Saxophone

### 130. Opera (1)

Prerequisites: Consent of instructor. Performance of excerpts and complete works for the lyric theatre; solo and ensemble coachings; intensive language and diction training; preparation and performance of entire role in original language; additional areas include stage management, scheduling, costuming, set construction. (3 hrs or more lab)

### 131. Music Theater (1)

Prerequisite: Consent of Instructor. Performance of musical theater works and operas. Additional areas include stage management, scheduling, costuming, and set construction. ((2 hrs reh)

### 140. Basic Music Theory (2)

Notation and reading of music. Written, aural and performance experience with scales, intervals, chords, and melodies. Provides essential background for more advanced courses in music theory. Course fee required.

### 141A. Musicianship I (2)

Corequisite: MUS 142A. Study of the basic skills of music reading, ear training, and sight-singing including melodic and harmonic dictation through modulation and chromatic harmony. Computer assisted instruction is available. Course fee required.

### 141B. Musicianship II (2)

Prerequisite: MUS 141A or satisfactory score on theory placement test. Corequisite: MUS 142B. Study of the basic skills of music reading, ear training, and sight-singing including melodic and harmonic dictation through modulation and chromatic harmony. Computer assisted instruction is available. Course fee required.

### 142A. Harmony I (3)

Corequisite: MUS 141A. Beginning principles of part-writing, to include modal counterpoint, concepts of chord progression, chord prolongation, and analysis in diatonic and chromatic tonal music.

### 142B. Harmony II (3)

Prerequisites: MUS 141A & 142A or satisfactory score in theory placement test. Corequisite: MUS 141B. Principles of part-writing, to include modal counterpoint, concepts of chord progression, chord prolongation, and analysis in diatonic and chromatic tonal music.

### 160. History of Music: Baroque/Classic (3)

Prerequisite: MUS 190. Chronological survey of music and musical styles from 1600 to 1750 with selected readings, recordings, and scores for in-depth study. Primarily for music majors and minors, but open to others who can read music. Letter grade only (A-F).

### 180. Exploring Music (3)

Prerequisite or Corequisite: A General Education Foundation course. Fundamentals of music and essentials of music listening. Basic performance skills in singing and playing music. Not open to music majors. Letter grade only (A-F).

### 190. Listener's Approach to Music (3)

Prerequisites or corequisites: ENGL 100 or another General Education Foundation course. Non-technical course open to all students. Materials, forms and styles of music with extensive listening.

### 200. Chamber Music (1)

Prerequisite: Consent of instructor. May be repeated to a maximum of 8 units. (2 hrs or more rehearsal)

- A. Brass Ensemble
- B. New Music Ensemble
- C. String Ensemble
- D. University String Quartet
- E. University Wind Quintet
- F. University Brass Quintet
- G. Piano Ensemble
- K. Performance
- L. Brass Chamber Music
- M. Percussion Ensemble
- N. Steel Drum Orchestra
- O. Woodwind Chamber Music
- P. String Chamber Music
- R. Collegium-Vocal
- S. Collegium-Instrumental
- T. Saxophone Ensemble
- U. Directed Accompanying
- W. Varsity Band
- X. World Percussion Group
- Y. World/Traditional Music Performance
- Z. University Percussion Quartet

### 201. Jazz Ensemble (1)

Prerequisite: Consent of instructor. May be repeated for a maximum of 8 units with different topics in the same semester. (3 hours or more rehearsal)

- A. Jazz Ensemble I
- B. Jazz Ensemble II
- C. Jazz Combos
- D. Vocal Jazz Ensemble I
- E. Vocal Jazz Ensemble II

### 220A-B. Class Piano (1-1)

Continuation of 120A-B. (2 hours laboratory.)

### 229. Individual Instruction for Music Major (2)

Open to performance majors only. Private lessons in their major performance medium. Application must be made to the Chair of the Department of Music during the semester prior to registration. Registration is subject to departmental approval. May be repeated to a maximum of 8 units.

- A. Baritone/Tuba
- B. French Horn
- C. Trombone
- D. Trumpet
- E. Harpsichord
- F. Organ
- G. Piano
- J. Percussion
- K. Double Bass
- L. Cello
- M. Viola
- N. Violin
- O. Guitar
- P. Harp
- Q. Voice
- R. Bassoon
- S. Clarinet
- T. Flute
- U. Oboe
- V. Saxophone

### 240. Advanced Musicianship (2)

Prerequisites: MUS 141B and 142B or satisfactory score on theory placement test. Study of advanced skills in ear training and sight singing. Letter grade only (A-F). Course fee \$15.00.

### 241. Tonal Counterpoint (3)

Prerequisites: MUS 141B and 142B. Analysis and writing of canons, two-part inventions, and fugues.

### 271. Improvisation Techniques I (2)

Basic techniques in improvisation, beginning with simple question and answer phrases and progressing to extended solos. Detailed and applied knowledge of chord progressions. (1 hr lec, 2 hrs lab)

### 273A. Diction for Singers (2)

Prerequisite: Consent of Instructor. This course will focus primarily on mastering the IPA, International Phonetic Alphabet, and its application in the following two languages: English and Italian. In terms of repertoire, its content will focus on the correct pronunciation of art song, choral repertoire, and opera arias. Letter grade only (A-F).

### 273B. French Diction for Singers (1)

Prerequisite: MUS 273A. This course will focus primarily on mastering the application of the International Phonetic Alphabet with its phonetic transliteration skills to the French language. The content will focus on the correct pronunciation of art songs, choral repertoire, and opera arias. Letter grade only (A-F).

### 273C. German Diction for Singers (1)

Prerequisites: MUS 273A. This course will focus primarily on mastering the application of the International Phonetic Alphabet with its phonetic transliteration skills to the German language. Its content will focus on the correct pronunciation of art song, choral repertoire, and opera aria. Letter grade only (A-F).

### 277A. Keyboard Skills (2)

Open to Music majors only. Development of basic technical skills at the piano, including sight-reading, harmonization at the keyboard, chord and scale identification, score analysis, and beginning ensemble playing.

### 277B. Keyboard Skills (2)

Open to Music majors only. Development of basic technical skills at the piano, including sight-reading, harmonization at the keyboard, chord and scale identification, score analysis, and beginning ensemble playing.

### 286. Introduction to Music Education (3)

This course provides the philosophical and pedagogical theory required for the design and execution of appropriate music instructional programs at the general classroom, middle school, and secondary levels. The content includes discussion of rationales for music education, the current status of music education, general learning principles, music learning theories, classroom management, and research and resource materials in music education. A one-unit lab explores the use of MIDI, sequencing, and tutorial/managerial software in the music classroom/rehearsal setting. Letter grade only (A-F).

### 290. Popular Music in America (3)

Prerequisite: Completion of GE Foundation requirements. Artistic and socio-economic influences on popular music in America from 1840 to the present. Special consideration of the impact on "pop" music of various cultures and ethnic groups within the U.S. will be explored. Not open to Music majors.

## Upper Division

### 300. Major Performance Organization (1)

Prerequisite: Consent of instructor. May be repeated to a maximum of 8 units. (3-5 hrs reh)

- B. Symphonic Band
- C. Wind Symphony
- D. Women's Chorus
- E. Forty-Niner Chorus
- F. University Choir
- G. Chamber Singers
- J. Symphony Orchestra
- K. Performance

### 323. Junior Recital (1)

Prerequisite: MUS 241. Recital of the standard literature for solo instrument or voice in the performance option in the Bachelor of Music degree. Enrollment restricted to music majors passing the Qualifying Examination.

### 326. Conducting (2)

Prerequisites: Consent of instructor. Introduction to the principles and techniques of conducting and organization. Study and interpretation of instrumental and choral repertoire using the class as a laboratory ensemble. (1 hour lecture, 2 hours lab). Letter grade only (A-F).

### 327. Choral Organization and Rehearsal Techniques (2)

A course for the choral musician with emphasis upon the rehearsal and rehearsal techniques. Aspects of auditioning voices, choral tone, diction, and score preparation will be stressed. Methods of organization and management of the overall choral program will also be addressed.

### 329. Individual Instruction for Music Majors (1)

Prerequisite: Successful completion of the departmental upper division screening exam on the applied instrument or voice. Open to music majors only. Private lessons in the major performance medium. Application must be made to the Chair of the Department of Music during the semester prior to registration. Registration subject to departmental approval. May be repeated to a maximum of 10 units.

- A. Baritone/Tuba
- B. French Horn
- C. Trombone
- D. Trumpet
- E. Harpsichord
- F. Organ
- G. Piano
- J. Percussion
- K. Double Bass
- L. Cello
- M. Viola
- N. Violin
- O. Guitar
- P. Harp
- Q. Voice
- R. Bassoon
- S. Clarinet
- T. Flute
- U. Oboe
- V. Saxophone
- W. Conducting
- X. Composition
- Y. Jazz Writing/Arranging

### 330. Opera (1)

Prerequisites: Consent of instructor. Performance of excerpts and complete works for the lyric theatre: solo and ensemble coachings; intensive language and diction training; preparation and performance of entire role in original language; additional areas include stage management, scheduling, costuming, set construction. May be repeated to a maximum of 4 units, only 2 of which may count toward the degree. (3 hrs or more reh)

### 331. Music Theater (1)

Prerequisite: Consent of Instructor. Performance of musical theater works and operas. Additional areas include stage management, scheduling, costuming, and set construction. May be repeated to a maximum of 4 units. (2 hrs reh)

### 340A. Musical Analysis in Comparative Cultures (3)

Prerequisites: MUS 141B, 142B. An analysis of the musics of western, non-western, and popular cultures from the 14th Century to the present. The course examines the development of counterpoint, the historical development of musical forms, and the materials and techniques of 20th Century music. Students analyze musics from western and non-western cultures as well as popular culture. Letter grade only (A-F).

### 340B. Musical Analysis in Comparative Cultures (3)

Prerequisites: MUS 340A. An analysis of the musics of western, non-western, and popular cultures from the 14th Century to the present. The course examines the development of counterpoint, the historical development of musical forms, and the materials and techniques of 20th Century music. Students analyze musics from western and non-western cultures as well as popular culture. Letter grade only (A-F).

### 341. Musical Form and Analysis (3)

Prerequisites: MUS 241. Intensive analysis of the historical development of form in tonal music from the early Baroque through the early 20th century.

### 342. Materials of Modern Music (3)

Prerequisite: MUS 341. Continuation of intensive analysis of representative compositions of the 20th Century with emphasis on writing in selected 20th Century styles.

### 344. Composition (2)

Prerequisites: MUS 244A-B; Corequisite MUS 329X. Further exploration of contemporary techniques in composition, music aesthetics and contemporary literature. Letter grade only (A-F).

### 360. History of Music: Medieval/Renaissance (3)

Prerequisite: MUS 190, 160. Chronological survey of music and musical readings, recordings, and scores for in-depth study. Primarily for music majors and minors, but open to others who read music. Letter grade only (A-F).

### 363I. Music and the Visual Arts (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing, and one of the following courses: MUS 190 or ART 110. This course explores the interrelationships between the visual arts and music in Western culture by comparing the artistic methodologies employed by important visual artists, including painters, sculptors, architects, to those employed by the most important composers. The course will focus primarily on the great works of art music of the 18<sup>th</sup> through 20<sup>th</sup> Centuries and the works of visual artists that paralleled their development.

### 364I. Music and the Temporal Arts (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing, and one of the following courses: MUS 190, DANC 110, THEA 122, or ENGL 180. This course is a study of the interrelationships of the temporal arts (dance, theatre, literature and music) in Western culture by comparing the artistic methodologies employed by important artists, including poets, writers, choreographers, and playwrights to those employed by the most important composers. The course will focus primarily on the great works of art music of the 18<sup>th</sup> through 20<sup>th</sup> Centuries and the works of temporal artists that paralleled their development.

### 370. Introduction to Music Technology (3)

An introduction to principles of recording, production, sound reinforcement, MIDI, and electronic music.

### 371. Improvisation Techniques II (2)

Continuation of MUS 271. (1 hr lec, 2 hrs lab)

### 372. Jazz Harmony and Analysis (3)

Prerequisite: MUS 142B. Basic techniques of writing and analyzing jazz harmony.

### 374. History of Music: Nineteenth/Twentieth Centuries (3)

Prerequisite: MUS 160, 190. Chronological survey of music and musical styles from 1800 to the present, with selected readings, recordings, and scores for in-depth study. Primarily for music majors and minors, but open to others who read music. Letter grade only (A-F).

### 375. The Avant-Garde: Radical Change in Art and Music in the 20th Century (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. An examination of some of the major "modern" or avant-garde styles and movements in art and music in Europe and America from about 1900 to the present. The course aims not only to characterize these styles and their practitioners but to relate them to major changes to modern society.

### 382A. Instrumental Ensemble Lab (3)

Prerequisite: Three instrumental methods courses from MUS 125 series. Examination of organizational procedures for beginning/intermediate band and instructional techniques relating to Grade I-II music literature, investigation of contemporary music methodologies, and experience conducting ensemble class sessions. Performance on secondary instruments is required.

### 382B. Beginning Jazz Ensemble Lab (1)

Examination of organizational and instructional techniques relating to beginning jazz ensemble performance, as well as performance on secondary instruments and conducting ensemble class sessions. (2 hrs lab)

### 385. Children's Music (3)

Prerequisite: MUS 180. An introduction to general, vocal, and instrumental musical experiences appropriate for children in grades K-6. Includes participation in singing and listening activities and experience in the use of simple melodic, rhythmic, and harmonic instruments appropriate to the age and development of the child. This course is intended for liberal studies majors and others by consent of instructor.

### 393. Jazz, An American Music (3)

Prerequisite: Completion of 13 unit General Education Foundation requirement and upper division standing. This course of study presents the development of various musical styles, forms, improvisations, significant musical concepts and major figures in the past, present and future of jazz, an American music.

### 400. Chamber Music (1)

Prerequisite: Consent of instructor. May be repeated to a maximum of 8 units. (2 hrs rehearsal)

- A. Brass Ensemble
- B. New Music Ensemble
- C. String Ensemble
- D. University String Quartet
- E. University Wind Quintet
- F. University Brass Quintet
- G. Piano Ensemble
- K. Performance
- L. Brass Chamber Music
- M. Percussion Ensemble
- N. Steel Drum Orchestra
- O. Woodwind Chamber Music
- P. String Chamber Music
- R. Collegium-Vocal
- S. Collegium-Instrumental
- T. Saxophone Ensemble
- U. Directed Accompanying
- W. Varsity Band
- X. World Percussion Group
- Y. World/Traditional Music Performance
- Z. University Percussion Quartet

### 401. Jazz Ensemble (1)

Prerequisite: Consent of instructor. May be repeated for a maximum of 8 units with different topics in the same semester. (3 hours or more rehearsal)

- A. Jazz Ensemble I
- B. Jazz Ensemble II
- C. Jazz Combos
- D. Vocal Jazz Ensemble I
- E. Vocal Jazz Ensemble II

### 411./511. Film Scoring (3)

Prerequisites: MUS 372, 474, or consent of instructor. A course of study designed to review the development of various musical styles, forms, genres, and significant musical concepts and problems in creating music for films. Will include the study of film mechanics and the emotional and psychological requirements of music underscoring. Time will be spent creating original music for film cues. Letter grade only (A-F). May be repeated to a maximum of 6 units.

### 415./515. Advanced Concepts in Jazz Theory (3)

Prerequisites: MUS 372, 393, 474, or consent of instructor. A theory course designed to review the development of musical styles, forms, genres, and significant musical concepts and problems in jazz harmony. Theoretical work emphasizes detailed study of harmony, form, idioms, combination of idioms, and use of experimental materials. Study and detailed analysis of major modern jazz artists harmonic technique. Musicians to be studied include: Chick Corea, Keith Jarrett, Herbie Hancock, Joe Farrell, Miles Davis, Miles Davis, Freddie Hubbard, John Lewis, McCoy Tyner, Clare Fischer, Wayne Shorter, Gil Evans, and Bill Evans. Letter grade only (A-F).

### 416./516. Pedagogy of Improvisation (3)

Prerequisites: MUS 371, 372, 393, 474, or consent of instructor (students must demonstrate substantial skills in jazz improvisation). A course of study designed to survey the developments of literature and teaching methods dealing with individual instruments in Jazz Improvisation. These methods will provide important information regarding musical styles and significant musical concepts as applied to individual instruments and vocalists. Theoretical work emphasizes detailed study of methods dealing with technique, harmony, forms, digital patterns and scales, combination of idioms, use of experimental material, transcriptions, texts, and videos. Letter grade only (A-F).

### 417./517. Business of Music (3)

An overview of the business and artistic process of the music industry. Topics include popular music, music and media, operation of retail music stores, and film, theatrical, and concert music. Recent changes in digital recording, broadcasting technology, copyright laws, and legal issues are also addressed. Letter grade only (A-F).

### 419./519. Choral Master Class (1)

Prerequisites: Consent of instructor. Designed for the graduate conducting student, and undergraduate/graduate choral/vocal major. The lecture/practicum format allows each conductor the experience of conducting the laboratory choir (consisting of the enrolled singers and conductors) in a master class setting. Emphasis on advanced conducting, vocal, and rehearsal techniques as well as performance practices. Letter grade only (A-F). May be repeated to a maximum of 4 units.

### 422./522. Advanced Choral Conducting and Literature (2)

Prerequisites: MUS 326 and 327 or consent of instructor. Choral technique, style, and interpretation; choral schools and composers since the 16th century; contemporary secular and sacred choral compositions. Class used as laboratory group. (1 hr lec, 2 hr lab)

### 423A. Senior Recital (1)

Prerequisites: MUS 340A,B, 341, 342. Corequisites: Concurrent enrollment in MUS 329 or 429. An individual recital of the standard literature for solo instrument or voice. Enrollment restricted to Music majors passing the Qualifying Examination. Letter grade only (A-F).

### 423B. Senior Composition Recital (1)

Prerequisites: Senior standing and consent of instructor. An individual recital of original music written during composition studies while in the program. Enrollment restricted to Bachelor of Music composition majors passing the Qualifying Examination. Letter grade only (A-F).

### 423C. Senior Thesis (1)

Prerequisites: MUS 360, 374 and 496. An in-depth research paper representing a systematic study of a significant problem, style, or repertory. The finished product must show thorough command of the relevant literature, critical thinking and writing, and an original approach. A proposal (outline, abstract, and bibliography) must be submitted for topic approval. Letter grade only (A-F).

### 423D. Senior Project (1)

Prerequisites: Senior standing and consent of instructor. A final project or internship with a music or arts organization subject to approval of the supervising faculty member. Letter grade only (A-F).

### 425./525. Advanced Instrumental Conducting (2)

Prerequisite: MUS 326 or consent of instructor. Principles and techniques of instrumental conducting and organization. Study and interpretation of instrumental literature using the class as a laboratory. Students in 425 must take MUS 382A concurrently. (1 hr lec, 2 hrs lab)

### 426./526. Vocal Development (2)

Prerequisite: Consent of instructor. Theory and techniques of teaching voice.

### \*427. Piano Pedagogy (3)

Study of the philosophies, psychology, and piano teaching methods for children, as well as intermediate and advanced level students. Letter grade only (A-F). May be repeated to a maximum of 6 units.

**\*428. Seminar in Musical Styles (3)**

Prerequisites: MUS 160, 340A,B, 341, 360, 374. A study seminar designed to review the development of musical styles, forms, genres, and significant musical concepts and problems. For Music majors only.

**429. Individual Instruction for Music Majors (2)**

Prerequisite: Successful Completion of the Departmental Upper Division Screening Exam on the Applied Instrument or Voice. Private lessons in their major performance medium. Application must be made to the Chair of the Department of Music during the semester prior to registration. Registration is subject to departmental approval. May be repeated to a maximum of 10 units.

- A. Baritone/Tuba
- B. French Horn
- C. Trombone
- D. Trumpet
- E. Harpsichord
- F. Organ
- G. Piano
- J. Percussion
- K. Double Bass
- L. Cello
- M. Viola
- N. Violin
- O. Guitar
- P. Harp
- Q. Voice
- R. Bassoon
- S. Clarinet
- T. Flute
- U. Oboe
- V. Saxophone
- W. Conducting
- X. Composition

**434A./534A. German Song Repertoire (2)**

Prerequisites: MUS 273A, C. Preparation of German song literature for performance, with coaching in language, musical styles, as well as vocal and accompanying techniques. Letter grade only (A-F).

**434B./534B. French Song Repertoire (2)**

Prerequisites: MUS 273A, B. Preparation of French song literature for performance, with coaching in language, musical styles, as well as vocal and accompanying techniques. Letter grade only (A-F).

**436./536. Opera Repertoire (2)**

Prerequisites: MUS 273B,C or consent of instructor. Two years of voice study, completion of the Department of Music Foreign Language Proficiency Exam (may be waived upon successful completion of 101B level course in French, German, or Italian). Letter grade only (A-F). (4 hours laboratory.)

**\*441. Studies in Musical Analysis (3)**

Prerequisites: MUS 341, 342. Intensive individual and class analysis of representative compositions of various periods and styles.

**442. Orchestration (3)**

Prerequisite: MUS 241. Range, characteristics, and transpositions of all standard orchestral instruments by writing and/or transcribing music for them. Preparation and proofreading of scores and parts. Readings of student assignments will be included whenever possible.

**443./543. Advanced Orchestration (3)**

Prerequisite: MUS 442. Techniques of arranging, transcribing, and composing for standard chamber ensembles, chorus and orchestra. Readings of student orchestrations will be included whenever possible.

**444. Advanced Composition (2)**

Prerequisites: MUS 344, Corequisite: 329X. Advanced studies in music composition, music aesthetics, and listening methodologies. Letter grade only (A-F). May be repeated to a maximum of 4 units in different semesters.

**446. Advanced Topics in Listening and Analysis (3)**

Prerequisites: MUS 344 or consent of instructor. Study of traditional and contemporary music literature and analytical methods, from structural linear analysis to post-modern listening models. Course includes readings in music aesthetics, critical theory, and intensive score analysis. Letter grade only (A-F).

**447./547. Musical Systems of the World (3)**

Prerequisites: MUS 340A, B, 342 or consent of instructor. Open to music majors and minors. Open to music majors and minors. Study of theoretical systems (pitch, scales, rhythmic treatment, textures, forms) of selected musical cultures of the world. Letter grade only (A-F).

**454./554. School, Society, and Music Education (3)**

Beginning with the singing school movement and the Jeffersonian era, this course will provide the student with a historical, in-depth examination of the direction and influence of music education within America's general education curriculum as it has reflected and addressed the changing needs of schooling and society. Letter grade only (A-F).

**455./555. Computers and Sound (3)**

Introduces students to music software for sound synthesis, sequencing, digital audio, and sound processing. Listening and analysis of contemporary electronic music literature is also emphasized. The course culminates in a creative composition or research project. Letter grade only (A-F).

**456./556. Sound Design (3)**

Introduces students to principles of composition and analysis of electro-acoustic media through the application of music software, sampling, digital media, digital signal processing, and psychoacoustics. The course culminates in a creative project in which collaboration is encouraged (involving video, web, or live theater, for example). Letter grade only (A-F).

**457./557. Composition with Digital Media (3)**

Students will learn computer software allowing them to create projects that combine visual media (including web-based), and electronic music. The class includes listening and analysis of interdisciplinary and mixed media works from Wagner to Laurie Anderson, among others. Current collaborative work in the electronic arts and readings in critical theory and multimedia are also explored. Class culminates in a creative or research project in which collaboration is encouraged (involving computer graphics, text, animation, or web-related projects, for example). Letter grade only (A-F).

**460./566. Studies in Performance Practices (3)**

Prerequisites: MUS 160, 360 or consent of instructor. Surveys issues of historical performance in vocal and instrumental music, focusing on primary sources. Spans various genres and eras.

**467./576. Studies in Gender and Music (3)**

Prerequisite: MUS 374 or consent of instructor. Surveys issues surrounding women as musicians (performers and composers), comparative studies of the role men and women have played in music, and feminist criticism of music. Letter grade only (A-F).

**468I. Music and Film (3)**

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing, and one of the following courses—MUS 190, FEA 310, THEA 122, ENGL 180, or ART 110. Study of the interrelationships of dramatic, visual, and musical arts in film, with a special emphasis on the role of music.

**469./569. Music of the Theater (3)**

Prerequisites: MUS 374. History and development of music for the stage from 1600 to the present, its conventions and styles. Analysis of representative masterworks.

**471./571. Studies in Ethnomusicology (3)**

Prerequisites: MUS 374 or consent of instructor. Emphasis on theory and methodology of ethnomusicological study. Investigation of music of particular non-western or popular cultures. For music majors only. Letter grade only (A-F). May be repeated to a maximum of 6 units.

**473./573. Advanced Diction for Singers (2)**

Prerequisites: MUS 273A, 273B, or consent of instructor. Advanced principles of diction and International Phonetic Alphabet (IPA) applied to lyric Italian, French, German, and English repertoire; intended for the Senior and Graduate level vocalist and choral conductor. Special studies possible in other languages. Letter grade only (A-F).

**474./574. Commercial Arranging (3)**

Prerequisite: MUS 372 or consent of instructor. Arranging and scoring of the various types of commercial ensembles in the styles demanded by contemporary performance practices.

**477A-B./577A-B. Piano Accompanying (2-2)**

Prerequisite: MUS 277B or consent of instructor. Instruction and training in the art and the techniques of accompanying singers, instrumentalists, and ensembles. (Lecture 1 hr, activity 3 hrs)

**478./578. Musical Instruments of the World (3)**

Prerequisites: MUS 360 or consent of instructor. Open to music majors and minors. Study of the origins and history of musical instruments in the western and non-western world, with emphasis on cross-cultural influences, iconographical and organological issues, and scientific classification. Letter grade only (A-F).

**480./580. Marching Band Techniques (2)**

Marching fundamentals, charting formations, precision drills, parade techniques and half-time pageantry.

**482./582. Instrumental Rehearsal Techniques and Literature (3)**

Procedures for organization and development of instrumental programs and literature for performing groups.

**483A./583A. Choral Repertoire I (2)**

Examination of five genres of choral repertoire: Mass, motet, cantata, oratorio, and madrigal. Traditional and contemporary choral repertoire for public school teachers and church choir directors. Letter grade only (A-F).

**483B./583B. Choral Repertoire II (2)**

Survey of choral and choral/orchestral works from the Renaissance to the 20th century. Letter grade only (A-F).

**484. Choral Arranging (2)**

Prerequisites: MUS 142B, 241, or consent of instructor. Instruction in arranging music for ensemble of all sizes both vocal and instrumental. Primarily intended for music education majors. Letter grade only (A-F).

**485./585. Music for the Elementary Child (3)**

Prerequisites: MUS 340A, B, 341. A detailed examination of specific approaches to developing musical and aesthetic sensitivity in children. Students will be involved in creating vocal, instrumental, and listening experiences appropriate for use with children in grades K-6. This course is intended for music education and music therapy majors, and others by consent of instructor.

**487./587. Microcomputers and Music Learning (3)**

Prerequisites: MUS 125T or consent of instructor. Music education applications of microcomputers, including: existing instructional software and hardware, administrative applications, criteria for software and hardware selection, MIDI music composition, and contemporary issues and trends.

**490. Introduction to Music Cultures (3)**

Prerequisite: Completion of GE Foundation requirements. Introduction to the Music of a variety of cultures and ethnic groups representative of the diversity of the United States and of Native cultures found throughout the world. Attention will be focused on the functions that music serves, the social organization of music including age and gender roles, the distinctive characteristics of the music, the types of instruments used, and cultural performance standards.

**492A./592A. Studies in Keyboard Music (2)**

Prerequisite: MUS 360 or consent of instructor. Survey of the evolution of keyboard music including the clavichord, harpsichord, piano, and organ from the 13<sup>th</sup> century to Beethoven.

**492B./592B. Studies in Keyboard Music (2)**

Prerequisite: MUS 360 or consent of instructor. Survey of the evolution of keyboard music including the clavichord, harpsichord, piano, and organ from the Beethoven to the present.

**493./593. Studies in Instrumental Music (3)**

Prerequisite: MUS 374. A studies course in instrumental music spanning at least three epochs of music history and covering a minimum of two of four categories: solo sonata (excluding keyboard), chamber music, orchestral/symphonic, and orchestral/concerto. May be repeated to a maximum of 6 units. Letter grade only (A-F).

**494./594. Music Learning Theory (3)**

This course will investigate the research and resulting methodology developed by Dr. Edwin Gordon as to how children learn music, including the nature of music aptitude, the Music Learning Theory Curriculum, incorporating Music Learning Theory in the music classroom and rehearsal settings, and evaluation and assessment of student learning. Letter grade only (A-F).

**\*495. Special Topics in Music (3)**

Prerequisite: Consent of instructor. Topics of current interest in the various fields of music selected for special presentation and development. Topics will be announced in the *Schedule of Classes*. May be repeated to a maximum of 6 units.

**A. Kodaly Concept I: Methodology, Solfege and Conducting**

Corequisite: Consent of Instructor, MUS 495B must be taken concurrently. A detailed examination of the Kodaly Approach to music education with a particular emphasis on its relevance and application to an american music education. Special emphasis is given to the sequence of concepts for levels K-3. Solfege, folk song analysis and collection, conducting, games and movement will be integrated into the course.

**B. Kodaly Concept I: Methodology, Solfege and Conducting**

Corequisite: 495A. A detailed examination of the Kodaly Approach to music education with particular emphasis on its relevance, adaptability and application to an american music education. Special emphasis is given to the sequence of concepts for levels K-3. Solfege, folk song analysis and collection, conducting, games and movement will be integrated in this course.

**F. Music and Dance Collaboration (3)**

Corequisite: Consent of Instructor. A course that pairs music and dance students for exploration into creating new works for music and dance. Collaborations may take the form of improvisational, semi-improvisational, or through-composed creations developed by two dancers and two musicians working in a group setting.

**496./696. Research Methods (3)**

Principles of research and writing about music, thesis preparation, and citation/bibliographic format. Serves as an introduction to graduate study in music. Required of all MA and MM candidates in music.

**497. Special Topics in Music Composition (3)**

Prerequisite: Consent of instructor. Topics of current interest in the field of music composition selected for special presentation and development. Topics will be announced in the *Schedule of Classes*. Letter grade only (A-F).

**A. Songwriting and Analysis**

**B. Musical Theater Project**

**C. Advanced Film Scoring Project**

**D. Contemporary and Computer Music Notation**

**E. Composition with Interactive Technologies**

**\*499. Special Studies (1-3)**

Prerequisite: Consent of instructor. Individual research or group investigation of selected topics. May be repeated to a maximum of 6 units.

## Graduate Level

### 500. Major Performance Organization (1)

Prerequisite: Consent of instructor. May be repeated to a maximum of 8 units. Letter grade only (A-F). (3-5 hrs reh)

- B. Symphonic Band
- C. Wind Symphony
- D. Women's Chorus
- E. Forty-Niner Chorus
- F. University Choir
- G. Chamber Singers
- J. Symphony Orchestra
- K. Performance

### 510. Improvisation Styles and Literature (3)

Prerequisites: MUS 372, 393, 474, or consent of instructor. A course of study designed to review the development of various musical styles, forms, genres, and significant musical concepts in Jazz Improvisation. Theoretical work emphasizes detailed study of harmonic and linear forms, digital patterns and scales, combination of idioms, patterns, use of experimental material, transcriptions and historic implications. Letter grade only (A-F).

### 511./411. Film Scoring (3)

Prerequisites: MUS 372, 474, or consent of instructor. A course of study designed to review the development of various musical styles, forms, genres, and significant musical concepts and problems in creating music for films. Will include the study of film mechanics and the emotional and psychological requirements of music underscoring. Time will be spent creating original music for film cues. Letter grade only (A-F). May be repeated to a maximum of 6 units.

### 512. Advanced Techniques in Jazz Composition (3)

Prerequisites: MUS 372, 474, or consent of instructor. A course of study designed to review various composers, musical styles, forms, genres, and significant musical techniques and developments in contemporary jazz composition. Will include the study of major contemporary jazz works with writing assignments based on those styles. Composers who may be studied will include: Duke Ellington, George Russell, Gil Evans, John Lewis, Gunther Schuller, Oliver Nelson, Lalo Schiffrin, Gerald Wilson, Thad Jones, Bob Brookmeyer, Bob Mintzer, Herbie Hancock, and Chick Corea. May be repeated to a maximum of 6 units. Letter grade only (A-F).

### 513. History and Analysis of Jazz Styles (3)

Prerequisites: MUS 372, 393, or consent of instructor. A study seminar designed to review the development of various musical styles, forms, genres, and significant musical concepts and problems in Jazz History. Letter grade only (A-F).

### 515./415. Advanced Concepts in Jazz Theory (3)

Prerequisites: MUS 372, 393, 474, or consent of instructor. A theory course designed to review the development of musical styles, forms, genres, and significant musical concepts and problems in jazz harmony. Theoretical work emphasizes detailed study of harmony, form, idioms, combination of idioms, and use of experimental materials. Study and detailed analysis of major modern jazz artists harmonic technique. Musicians to be studied include: Chick Corea, Keith Jarrett, Herbie Hancock, Joe Farrell, Miles Farrell, Miles Davis, Freddie Hubbard, John Lewis, McCoy Tyner, Clare Fischer, Wayne Shorter, Gil Evans, and Bill Evans. Letter grade only (A-F).

### 516./416. Pedagogy of Improvisation (3)

Prerequisites: MUS 371, 372, 393, 474, or consent of instructor (students must demonstrate substantial skills in jazz improvisation). A course of study designed to survey the developments of literature and teaching methods dealing with individual instruments in Jazz Improvisation. These methods will provide important information regarding musical styles, and significant musical concepts as applied to individual instruments and vocalists. Theoretical work emphasizes detailed study of methods dealing with technique, harmony, forms, digital patterns and scales, combination of idioms, use of experimental material, transcriptions, texts, and videos. Letter grade only (A-F).

### 517./417. Business of Music (3)

An overview of the business and artistic process of the music industry. Topics include popular music, music and media, operation of retail music stores, and film, theatrical, and concert music. Recent changes in digital recording, broadcasting technology, copyright laws, and legal issues are also addressed. Letter grade only (A-F).

### 519./419. Choral Master Class (1)

Prerequisite: Consent of instructor. Designed for the graduate conducting student, and undergraduate/graduate choral/vocal major. The lecture/practicum format allows each conductor the experience of conducting the laboratory choir (consisting of the enrolled singers and conductors) in a master class setting. Emphasis on advanced conducting, vocal, and rehearsal techniques as well as performance practices. May be repeated to a maximum of 4 units. Letter grade only (A-F).

### 520. Graduate Conducting Seminar (3)

Prerequisite: Consent of instructor. Advanced baton technique, interpretation, securing proper sound, organizing routine, and program making. Letter grade only (A-F).

### 522./422. Advanced Choral Conducting and Literature (2)

Prerequisites: MUS 326 and 327 or consent of instructor. Choral technique, style, and interpretation; choral schools and composers since the 16th century; contemporary secular and sacred choral compositions. Class used as laboratory group. Letter grade only (A-F). (1 hr lec, 2 hrs lab)

### 525./425. Advanced Instrumental Conducting (2)

Prerequisite: MUS 326 or consent of instructor. Principles and techniques of instrumental conducting and organization. Study and interpretation of instrumental literature using the class as a laboratory. Students in 425 must take MUS 382A concurrently. (1 hr lec, 2 hrs lab)

### 526./426. Vocal Development (2)

Prerequisite: Consent of instructor. Theory and techniques of teaching voice. Letter grade only (A-F).

### 529. Individual Instruction for Music Majors (1)

Open to graduate students in music only. Private lessons in their major performance medium. Application must be made to the Graduate Advisor of the Department of Music during the semester prior to registration. Registration is subject to departmental approval. May be repeated to a maximum of 10 units.

- A. Baritone/Tuba
- B. French Horn
- C. Trombone
- D. Trumpet
- E. Harpsichord
- F. Organ
- G. Piano
- J. Percussion
- K. Double Bass
- L. Cello
- M. Viola
- N. Violin
- O. Guitar
- P. Harp
- Q. Voice
- R. Bassoon
- S. Clarinet
- T. Flute
- U. Oboe
- V. Saxophone
- W. Conducting
- X. Composition
- Y. Jazz Writing/Arranging

**530. Opera (1)**

Prerequisites: Consent of instructor. Performance of excerpts and complete works for the lyric theatre; solo and ensemble coachings; intensive language and diction training; preparation and performance of entire role in original language; additional areas include stage management, scheduling, costuming, set construction. (3 hrs or more reh) May be repeated to a maximum of 4 units. Letter grade only (A-F).

**531. Music Theater (1)**

Prerequisite: Consent of Instructor. Performance of musical theater works and operas. Additional areas include stage management, scheduling, costuming, and set construction. (2 hrs reh)

**534A./434A. German Song Repertoire (2)**

Prerequisites: MUS 273A, C. Preparation of German song literature for performance, with coaching in language, musical styles, as well as vocal and accompanying techniques. Letter grade only (A-F).

**534B./434B. French Song Repertoire (2)**

Prerequisites: MUS 273A, B. Preparation of French song literature for performance, with coaching in language, musical styles, as well as vocal and accompanying techniques. Letter grade only (A-F).

**536./436. Opera Repertoire (2)**

Prerequisites: MUS 273B,C or consent of instructor. Two years of voice study, completion of the Department of Music Foreign Language Proficiency Exam (may be waived upon successful completion of 101B level course in French, German, or Italian). Letter grade only (A-F). (4 hrs lab)

**540. Music Theory Pedagogy (3)**

Prerequisites: Placement in MUS 541 based on Graduate Theory Placement Exam, or successful completion of MUS 441. Survey of curricular options, analysis goals, written and aural-skills concerns, and general pedagogical philosophies in the teaching of music theory. Study of the role context-based goals and objectives play in determining teaching and assessment materials. Examination of the reciprocal relationship between thinking and listening. Letter grade only (A-F).

**541. Seminar in Musical Analysis (3)**

Analysis of the forms and techniques of musical compositions in various genres and styles. May be repeated to a maximum of 6 units.

**542. Seminar in Advanced Musical Analysis (3)**

Advanced analysis in variable topics of the forms and techniques of musical compositions. May be repeated to maximum of 6 units. Letter grade only (A-F).

**543./443. Advanced Orchestration (3)**

Prerequisite: MUS 442. Graduate level study in the techniques of arranging, transcribing and composing for standard chamber ensembles, chorus and orchestra. Readings of student orchestrations will be included whenever possible.

**544. Graduate Composition I (2)**

Corequisite: MUS 529X. Study of contemporary techniques in composition, music aesthetics, and contemporary literature. Letter grade only (A-F).

**545. Graduate Composition II (2)**

Prerequisite: MUS 544. Corequisite: MUS 529X. Advanced studies in musical composition, music aesthetics, and listening methodologies. Letter grade only (A-F). Course may be repeated to a maximum of four units in different semesters.

**547./447. Musical Systems of the World (3)**

Prerequisites: MUS 340A, B, 342 or consent of instructor. Open to music majors and minors. Study of theoretical systems (pitch, scales, rhythmic treatment, textures, forms) of selected musical cultures of the world. Letter grade only (A-F).

**554./454. School, Society, and Music Education (3)**

Beginning with the singing school movement and progressing to the present era, this course will provide the student with a historical, in-depth examination of the direction and influence of music education within America's general education curriculum as it has reflected and addressed the changing needs of schooling and society. Letter grade only (A-F).

**555./455. Computers and Sound (3)**

Introduces students to music software for sound synthesis, sequencing, digital audio, and sound processing. Listening and analysis of contemporary electronic music literature is also emphasized. The course culminates in a creative composition or research project. Letter grade only (A-F).

**556./456. Sound Design (3)**

Introduces students to principles of composition and analysis of electro-acoustic media through the application of music software, sampling, digital media, digital signal processing, and psychoacoustics. The course culminates in a creative project in which collaboration is encouraged (involving video, web, or live theater, for example). Letter grade only (A-F).

An intensive course concentrating on aspects of digital audio, sample editing and sound design using computers, samplers, and hard disk editors/recorders. This course will culminate in a creative project in which collaboration is encouraged (film, theater, media presentations, etc.) Letter grade only (A-F).

**557./457. Composition with Digital Media (3)**

Students will learn computer software allowing them to create projects that combine visual media (including web-based), and electronic music. The class includes listening and analysis of interdisciplinary and mixed media works from Wagner to Laurie Anderson, among others. Current collaborative work in the electronic arts and readings in critical theory and multimedia are also explored. Class culminates in a creative or research project in which collaboration is encouraged (involving computer graphics, text, animation, or web-related projects, for example). Letter grade only (A-F).

**561. Seminar in Medieval and Renaissance Music (3)**

Prerequisite: MUS 360, or consent of instructor. Topics in the development of musical styles and genres from Gregorian Chant through late sixteenth-century sacred and secular polyphony. May be repeated to a maximum of 6 units. Letter grade only (A-F).

**562. Seminar In Baroque Music (3)**

Prerequisites: MUS 341, 360, or consent of instructor. Stylistic analysis and inquiry into cultural background of composers and genres. May be repeated to a maximum of 6 units. Letter grade only (A-F).

**563. Seminar In Classical Music (3)**

Prerequisites: MUS 341, 360, or consent of instructor. Music from the Rococo to the end of the eighteenth century. Philosophical attitudes in relation to the musical styles. May be repeated to a maximum of 6 units. Letter grade only (A-F).

**564. Seminar in Romantic Music (3)**

Prerequisites: MUS 342, 374 or consent of instructor. Music from Beethoven to the end of the nineteenth century. May be repeated to a maximum of 6 units. Letter grade only (A-F).

**565. Seminar In 20th-Century Music (3)**

Prerequisites: MUS 342, 374, or consent of instructor. Stylistic analysis and music; aesthetic and socioeconomic problems of contemporary music; survey of new music. May be repeated to a maximum of 6 units. Letter grade only (A-F).

**566./460. Studies in Performance Practices (3)**

Prerequisites: MUS 160, 360 or consent of instructor. Surveys issues of historical performance in vocal and instrumental music, focusing on primary sources. Spans various genres and eras. Letter grade only (A-F).

**569./469. Music of the Theater (3)**

Prerequisites: MUS 374. History and development of music for the stage from 1600 to the present, its conventions and styles. Analysis of representative masterworks. Letter grade only (A-F).

**571./471. Studies in Ethnomusicology (3)**

Prerequisite: MUS 374 or consent of instructor. Emphasis on theory and methodology of ethnomusicological study. Investigation of music of particular non-western or popular cultures. For music majors only. Letter grade only (A-F). May be repeated to a maximum of 6 units.

**573./473. Advanced Diction for Singers (2)**

Prerequisites: MUS 273A, 273B, or consent of instructor. Advanced principles of diction and International Phonetic Alphabet (IPA) applied to lyric Italian, French, German, and English repertoire; intended for the Senior and Graduate level vocalist and choral conductor. Special studies possible in other languages. Letter grade only (A-F).

**574./474. Commercial Arranging (3)**

Prerequisite: MUS 372 or consent of instructor. Arranging and scoring for the various types of commercial ensembles in the styles demanded by contemporary performance practices. Letter grade only (A-F).

**575. Studies in Choral Music (3)**

Prerequisite: Consent of instructor. Studies in research techniques for the Choral Musician and exploration of Choral masterworks including score preparation, performance practice considerations, and historical investigation. Rehearsal techniques, principles and procedures necessary to effective choral teaching will also be examined. May be repeated to a maximum of 6 units. Letter grade only (A-F).

**576./467. Studies in Gender and Music (3)**

Prerequisites: MUS 374 or consent of instructor. Surveys issues surrounding women as musicians (performers and composers), comparative studies of the role men and women have played in music, and feminist criticism of music. Letter grade only (A-F).

**577A,B./477A,B. Piano Accompanying (2,2)**

Prerequisite: MUS 477B or consent of instructor. Piano major or consent of instructor. Instruction and training in the art and the techniques of accompanying for singers, instrumentalists, and ensembles. Letter grade only (A-F).

**578./478. Musical Instruments of the World (3)**

Prerequisites: MUS 360 or consent of instructor. Open to music majors and minors. Study of the origins and history of musical instruments in the western and non-western world, with emphasis on cross-cultural influences, iconographical and organological issues, and scientific classification. Letter grade only (A-F).

**580./480. Marching Band Techniques (2)**

Marching fundamentals, charting, formations, precision drills, parade techniques and half-time pageantry. Letter grade only (A-F).

**581. Foundations of Music Education (3)**

Open to graduate music majors only. A survey of contemporary aesthetic, philosophical, psychological and sociological trends in music education. Letter grade only (A-F).

**582./482. Instrumental Rehearsal Techniques and Literature (3)**

Procedures for organization and development of instrumental programs and literature for performing groups. Letter grade only (A-F).

**583A./483A. Choral Repertoire I (2)**

Examination of five genres of choral repertoire: Mass, motet, cantata, oratorio, and madrigal. Traditional and contemporary choral repertoire for public school teachers and church choir directors. Letter grade only (A-F).

**583B./483B. Choral Repertoire II (2)**

Survey of choral and choral/orchestral works from the Renaissance to the 20th century. Letter grade only (A-F).

**585./485. Music for the Elementary Child (3)**

Prerequisites: MUS 340A, B. A detailed examination of specific approaches to developing musical and aesthetic sensitivity in children. Students will be involved in creating vocal, instrumental, and listening experiences appropriate for use with children in grades K-6. This course is intended for Music Education and Music Therapy majors, and others by consent of instructor. Letter grade only (A-F).

**587./487. Microcomputers in Music Learning (3)**

Prerequisites: MUS 125T or consent of instructor. Music Education applications of microcomputers, including: existing instructional software and hardware, administrative applications, criteria for software and hardware selection, MIDI music composition, and contemporary issues and trends. Letter grade only (A-F).

**588. Quantitative Issues and Research in Music Education (3)**

Prerequisites: MUS 581. Assessment and curriculum development; appropriate techniques and existing tools for the measurement and evaluation of musical behavior; survey and critical analysis of research, especially quantitative, in areas relevant to music education. Design research project appropriate to field. Letter grade only (A-F).

**592A./492A. Studies in Keyboard Music (2)**

Prerequisite: MUS 360 or consent of instructor. Survey of the evolution of keyboard music including the clavichord, harpsichord, piano, and organ from the 13<sup>th</sup> century to Beethoven.

**592B./492B. Studies in Keyboard Music (2)**

Prerequisite: MUS 360 or consent of instructor. Survey of the evolution of keyboard music including the clavichord, harpsichord, piano, and organ from Beethoven to the present.

**593./493. Studies in Instrumental Music (3)**

Prerequisites: MUS 374. A studies course in instrumental music spanning at least three epochs of music history and covering a minimum of two of four categories: solo sonata (excluding keyboard), chamber music, orchestral/symphonic, and orchestral/concerto. Letter grade only (A-F).

**594./494. Music Learning Theory (3)**

This course will investigate the research and resulting methodology developed by Dr. Edwin Gordon as to how children learn music, including the nature of music aptitude, the Music Learning Theory curriculum, incorporating Music Learning Theory in the music classroom and rehearsal settings, and evaluation and assessment of student learning. Letter grade only (A-F).

**595. Special Topics in Music (1-3)**

Prerequisite: Consent of Graduate Advisor and instructor. Topics of current interest in various fields of music selected for special presentation and development. Topics will be announced in the *Schedule of Classes*. May be repeated to a maximum of 6 units.

**A. Kodaly Concept I: Methodology, Solfege and Conducting**

Corequisite: Consent of Instructor, MUS 595B must be taken concurrently. A detailed examination of the Kodaly Approach to music education with a particular emphasis on its relevance and application to an American music education. Special emphasis is given to the sequence of concepts for levels K-3. Solfege, folk song analysis and collection, conducting, games and movement will be integrated into the course.

**B. Kodaly Concept I: Methodology, Solfege and Conducting**

Corequisite: Consent of Instructor, MUS 595A must be taken concurrently. A detailed examination of the Kodaly Approach to music education with a particular emphasis on its relevance and application to an American music education. Special emphasis is given to the sequence of concepts for levels K-3. Solfege, folk song analysis and collection, conducting, games and movement will be integrated into the course.

#### F. Music and Dance Collaboration

Corequisite: Consent of Instructor. A course that pairs music and dance students for exploration into creating new works for music and dance. Collaborations may take the form of improvisational, semi-improvisational, or through-composed creations developed by two dancers and two musicians working in a group setting.

#### 597./497. Special Topics in Music Composition (3)

Prerequisite: Consent of Graduate Advisor and instructor. Topics of current interest in various fields of music selected for special presentation and development. Topics will be announced in the *Schedule of Classes*. Letter grade only (A-F).

- A. Songwriting and Analysis
- B. Musical Theater Project
- C. Advanced Film Scoring Project
- D. Contemporary and Computer Music Notation
- E. Internet Connectivity and Publishing
- F. Musical Interactivity

#### 598. Teaching Music in the University (1)

Prerequisite: position as TA or GA in Department of Music or consent of instructor. A seminar on teaching methods, goals, and objectives; covers regulations and responsibilities; preparation of course materials; assessment and evaluation tools; technology in the classroom. Required of first-term TAs and GAs with teaching responsibilities. Letter grade only (A-F). May be repeated to a maximum of 3 units.

#### 599. Special Studies (1-3)

Prerequisite: Consent of Graduate Advisor and instructor. Individual research or group investigation of selected topics. May be repeated to a maximum of 6 units of credit. Letter grade only (A-F).

#### 600. Chamber Music (1)

Prerequisite: Consent of instructor. May be repeated to a maximum of 8 units. Letter grade only (A-F). (2 hrs rehearsal)

- A. Brass Ensemble
- B. New Music Ensemble
- C. String Ensemble
- D. University String Quartet
- E. University Wind Quintet
- F. University Brass Quintet
- G. Piano Ensemble
- K. Performance
- L. Brass Chamber Music
- M. Percussion Ensemble
- N. Steel Drum Orchestra
- O. Woodwind Chamber Music
- P. String Chamber Music
- R. Collegium-Vocal
- S. Collegium-Instrumental
- T. Saxophone Ensemble
- U. Directed Accompanying
- W. Varsity Band
- X. World Percussion Group
- Y. World/Traditional Music Performance
- Z. University Percussion Quartet

#### 601. Jazz Ensemble (1)

Prerequisite: Consent of instructor. May be repeated for a maximum of eight units with different topics in the same semester. (3 hours or more rehearsal)

- A. Jazz Ensemble I
- B. Jazz Ensemble II
- C. Jazz Combos
- D. Vocal Jazz Ensemble I
- E. Vocal Jazz Ensemble II

#### 629. Individual Instruction for Music Majors (2)

Open to graduate students in music only. Private lessons in their major performance medium. Application must be made to the Graduate Advisor of the Department of Music during the semester prior to registration. Registration is subject to departmental approval. May be repeated to a maximum of 12 units credit. Letter grade only (A-F).

- A. Baritone/Tuba
- B. French Horn
- C. Trombone
- D. Trumpet
- E. Harpsichord
- F. Organ
- G. Piano
- J. Percussion
- K. Double Bass
- L. Cello
- M. Viola
- N. Violin
- O. Guitar
- P. Harp
- Q. Voice
- R. Bassoon
- S. Clarinet
- T. Flute
- U. Oboe
- V. Saxophone
- W. Conducting
- X. Composition

#### 640. Seminar in Music Theory (3)

Prerequisites: MUS 541 or 542 and consent of instructor. Intensive seminar focusing on analytical and theoretical issues in music. May center on an individual composer, a theoretical technique, or history of theory. May be repeated to a maximum of 6 units of degree credit. Letter grade only (A-F).

#### 645. Seminar in Advanced Composition (3)

Prerequisites: MUS 344A-B, 443, or equivalent. Free composition in the more extended forms for various combinations of instruments including full orchestra and band. Letter grade only (A-F).

#### 680. Seminar in Instrumental Music Teaching (3)

Prerequisite: Consent of instructor. Principles, procedures, and materials used in teaching instrumental music in the public schools. Special attention given to methods and materials used in instrument classes. Letter grade only (A-F).

#### 696./496. Research Methods (3)

Principles of research and writing about music, thesis preparation, and citation/bibliographic format. Serves as an introduction to graduate study in music. Required of all MA and MM candidates in music. Letter grade only (A-F).

#### 698. Thesis or Project (2-6)

Planning, preparation, research, and completion of recital/project report or thesis. Enrollment limited to graduate candidates who have passed the qualifying examination for their program and who have an approved project/thesis proposal. Letter grade only (A-F).

Students desiring information should contact the department office for dates of opening counseling sessions.

## Bachelor of Science in Nursing

The baccalaureate program offers courses that prepare the student to become a professional nurse. Two distinct categories of students are eligible for admission: The "basic student" who enters the University without having completed a first level nursing program and the "registered nurse student" who, having completed a course of study at the first level, desires further study to expand her or his nursing capabilities to the BSN professional level. Though each category of student enters at different levels, the terminal objectives of the nursing program are the same for both groups. The "basic student" upon completion of required nursing coursework, is eligible to take the examination for licensure to practice as a

registered nurse. All graduates are recommended for certification as a public health nurse in the State of California. The program is accredited by the California State Board of Registered Nursing, and the Commission on Collegiate Nursing Education (Commission on Collegiate Nursing Education, 1 Dupont Circle, NW, Suite 530, Washington, DC 20036-1120, phone: 202-887-6791).

The purpose of the bachelor of science program in nursing is to prepare graduates to function as professional nurses in a variety of settings. Graduates are expected to have acquired foundations for continuing professional development.

The curriculum is formulated to help the student develop understanding of self and others, stimulate intellectual curiosity and to develop an ability to work with colleagues to identify and resolve the health problems of individuals and families in a changing society. The professional nurse, while able to assess and intervene where health deviations exist, is committed to the role of maintaining health and preventing illness in self and others.

## Bachelor of Science in Nursing – Basic (code NRSGBS01) (135 units)

### Admission Under Impaction

Students must apply for admission to the University as an undeclared or pre-nursing major. The number of applicants to nursing exceeds the number that can be accepted. For this reason nursing applicants are subject to criteria in addition to those required for admission to the University. The "basic student" may apply as a new or transfer student. After the student is accepted in NRSGBS 200 the department submits a change of major to nursing for the student.

To be considered as a nursing major, basic students are required to do the following:

To be eligible for admission to the Nursing (Basic), applicants must demonstrate the following prior to the semester for which the application is submitted: Applicants must have met requirements for admission to the university as a freshman or transfer student. Applicants must have completed the following pre-requisite courses, each with a minimum grade of "C": BIOL 207 and 208; MICR 200; CHEM 202; PSY 100; and SOC 100. Applicants must submit a supplemental application to the department by February 1 for the fall semester or by September 15 for the spring semester. Applicants must complete a test that assesses ability for logical thinking and problem solving (offered by the department at the start of each semester) before their application will be considered. The number of applicants who can be admitted is limited by space availability. Eligible applicants will be selected for admission on a space-available basis according to the faculty's judgment of their ability to succeed in the program. Students provisionally admitted to the upper-division major on the basis of the provisions noted above must complete CHEM 302 (Survey of Organic Chemistry) with a passing grade no later than the end of their first semester in the major, or they will be dropped from the major.

Further information regarding admission to program courses is available at group counseling sessions held in the department.

NOTE: A one-time lab fee is charged for student supplies used throughout the pre-licensure courses (sophomore-junior years).

### Requirements

Prerequisite Courses: CHEM 202, 302, BIOL 207, 208, MICR 200, or equivalent.

Support Courses: BIOL 204, 304, FCS 339, PSY 100, SOC 100.

Nursing Courses: NRSRG 200, 200L, 202, 250, 250L, 260, 260L, 301, 310, 312, 312L, 331, 331L, 341, 341L, 353, 361, 361L, 371, 371L, 400, 402, 402L, 450, 451, 452A and 453L or 452B and 454L or 452D and 456L.

Criminal background check and malpractice insurance required for clinical coursework.

### Bachelor of Science in Nursing - Registered Nurse (code NRSGBS02) (131 units)

#### Admission Requirements

Registered Nurse Applicants are required to apply for admission to the University and do the following:

1. Hold a current license or be eligible for license to practice in California;
2. Graduation from an Accredited Associate Degree program or evaluation of diploma program for equivalency by an Accredited Associate Degree program;
3. Have 56 transferable units;
4. Maintain malpractice insurance throughout clinical coursework;
5. Attend a group counseling session for RN students and complete the RN application form;
6. Submit official transcripts of any previous college work to the Nursing Department;
7. The Graduation Writing Assessment Requirement (GWAR) must be fulfilled either prior to admission or within the first year in the program.

Graduates of diploma schools of nursing are urged to seek information/admission to a community college that offers the opportunity to earn academic credit for a diploma nursing program.

#### Requirements

Required Support Courses: CHEM 302, BIOL 304. One three unit course out of the following science courses: MICR 303, BIOL 309I, BIOL 401 and one three unit course out of the following counseling courses: SOC 336, PSY 351, FCS 312I; one three unit course out of the following communication courses: COMM 330, 410, 411, 432, ANTH 412I; one three unit course out of the following critical thinking or logic courses: COMM 331, PHIL 363, 381, 382.

Required Nursing Courses: NRSRG 309, 312, 312L, 400, 402, 402L, 450, 451 and one of the following: 452A and 453L or 452B and 454L or 452D and 456L.

### Course of Study

A specific combination of general education, prerequisites, nursing and elective courses totaling 136 units for the basic program and 131 units for the R.N. program are required for graduation. All nursing courses in the nursing program must be taken in sequence. In general, the number assigned to each nursing course indicates where it occurs in the sequence. Admission to the first course is by application which will be accepted upon successful attainment of the criteria listed above. The last date to file applications for each semester will be available in the Nursing Department. Progress in the nursing major requires that students maintain a cumulative 2.0 GPA on all units attempted and attain a minimum of a "C" grade in each of the nursing courses as well as all required support courses. The student who earns less than a grade of "C" must repeat that course prior to being admitted to the next course in the nursing course sequence. A nursing course may be repeated one time. The nursing sequence of courses requires a minimum of six semesters for the "basic student". A break in the sequence of nursing courses necessitates readmission on a space-available basis.

### Master of Science in Nursing

The master of science degree is available to qualified students who desire advanced preparation in a variety of clinical specialty areas. The program is approved by the Board of Registered Nursing, and accredited by the Commission on Collegiate Nursing Education (1 Dupont Circle, NW, Suite 530, Washington, DC, 20036-1120, phone: 202-887-6791).

The philosophy of graduate nurse education is that the practice of nursing is constantly changing as health needs and health delivery systems are altered. Integral to nursing is an ability to work effectively and cooperatively with other disciplines and community services to promote health.

The focal point in this curriculum is the nursing process with strong components of clinical medical knowledge complemented by behavioral science concepts. Courses are interdependent and have been structured to provide clinical depth in the area of student's choice.

The graduate will have the knowledge and skill to function as an advanced practice nurse in one of several specialty areas. Nursing research skills and the application of nursing theory to practice are major emphases of the curriculum. Each applicant should request a copy of the official transcript of all college course work be sent to the department graduate program of nursing in addition to the copies required by the Office of Admissions and Records.

#### Prerequisites

1. A bachelor's degree in nursing preferred: A bachelor's degree in a related field will be considered;
2. Current license to practice as a registered nurse in California; PHN Certificate needed for concurrent MSN/MPH program;
3. Admission to graduate standing in nursing at the University;
4. An upper division or graduate course in statistics;
5. A physical assessment course which includes clinical practice (all specialty areas except concurrent MSN/MPH and MSN/MSHCA);

- An upper division of graduate level course in pathophysiology (all specialty areas except concurrent MSN/MPH and MSN/MSHCA);
- An upper division public health nursing course;
- An overall GPA of 2.75 or better in the last 60 units of the undergraduate BSN Program.

#### Advancement to Candidacy

- Satisfy the general University requirements for advancement to candidacy;
- Completion of all undergraduate deficiencies;
- Fulfillment of the Graduation Writing Assessment Requirement (GWAR);
- Approval of the department graduate advisor and Director of Graduate Studies and Research, College of Health and Human Services.

The M.S. in Nursing requires completion of the required courses in one of the following specialty areas: Adult/Geriatric, Family, Pediatric, Psychiatric/Mental Health. A Nurse Practitioner Certificate is awarded to students who complete the required courses in one of the following Nurse Practitioner specialty areas:

#### Nurse Practitioner Certificate (code NRSRGCT01)

##### Family Nurse Practitioner

#### Requirements

Completion of NRSRG 510, 520, 530, 540, 550, 560, 682, 682 A&B, 683, 683 A&B.

##### Pediatric Nurse Practitioner

#### Requirements

Completion of NRSRG 510, 520, 530, 540, 550, 560, 684, 684 A&B, 685, 685 A&B.

##### Adult-Geriatric Nurse Practitioner

#### Requirements

Completion of NRSRG 510, 520, 530, 540, 550, 560, 686, 686 A&B, 687, 687 A&B.

##### Psychiatric-Mental Health Nurse Practitioner

#### Requirements

Completion of NRSRG 510, 520, 530, 540, 550, 560, 688, 688 A&B, 689, 689 A&B.

#### Health Services (School Nurse) Credential Program (code 600)

The Health Services (School Nurse) credential is required of registered nurses working in the California school system.

#### Admission

- Copies of transcripts of Baccalaureate in Nursing and Masters in Nursing (with a Pediatric Nurse practitioner specialty) degrees;
- Copy of State of California RN licensure and entitlement as a Nurse Practitioner;
- Three letters/checklists of reference;
- Completion of the Department of Nursing Graduate Program Application.

#### Requirements

Completion of the following course work with a grade of "B" or better;

- NRSRG 680C and 680L;
- H SC 430;
- CD 373.

#### Master of Science in Nursing (code NRSRGMS01)

#### Requirements

- Completion of a minimum of 37 units in approved upper division and graduate courses;
- For Family Nurse Practitioner, Pediatric Nurse Practitioner, Adult-Geriatric Nurse Practitioner and Psychiatric-Mental Health Nurse Practitioner Programs completion of NRSRG 510, 520, 530, 540, 550, 560, 596, Theories for Advance Practice Nursing I and II (682, 683, or 684, 685, or 686, 687, or 688, 689), Clinical Studies in Advance Practice Nursing I-IV (682A/B, 683A/B, or 684A/B, 685A/B, or 686A/B, 687A/B, or 688A/B, 689A/B) and 692 or 695 or 698. For Women's Health Care, completion of NRSRG 560, 596, 660B, 680A, B, C (at least 6 units), 680L series (at least 9 units) and 692 or 695 or 698;
- An overall GPA of 3.0 or better;
- Completion of an approved thesis, directed project or comprehensive examination.

#### Master of Science in Nursing/Master of Public Health (code NRSRGMN01)

The Departments of Nursing and Health Science offer a concurrent Master of Science and Master of Public Health degree available to qualified students who desire advanced preparation in the area of public health nursing with a practice focus of primary prevention, illness prevention, and health promotion. The concurrent program leading to both degrees represents the core accreditation requirements of each degree. Coursework is integrated between the two Departments in each semester in order to provide an intense learning experience. The Master of Science and Master of Public Health (Health Education Option) provides the opportunity for students to increase competence in designing, implementing, and evaluating behavior change programs in preparation for serving in various health agencies.

#### Health Education Option

#### Prerequisites

- An ethics course
- A cultural diversity course
- Graduate Record Examination (GRE) - verbal and quantitative scores.
- Current professional resume describing applicant's relevant experience.

#### Requirements

- A minimum of 57 units of approved Nursing and Health Science upper division and graduate level courses including: HSC 500 or MICR 429; HSC 503 or BIOL 565; HSC 508, 528, 535, 570, 581, 624, 625; NRSRG 560, 565, 670, 671, 680C, 670L, 671L, 680CL; NRSRG 596 or HSC 696; NRSRG 698 or HSC 697.
- An overall GPA of 3.0 or better in all courses

3. A thesis or a directed project (Department of Health Science only)
4. If a student after entering the concurrent MSN/MPH program returns to a single degree program, all requirements for the single degree program must be met.

### Master of Science in Nursing/Master of Science in Health Care Administration (code NRS GMC01)

The Department of Nursing and Health Care Administration Programs offer a concurrent Master of Science in Nursing and Master of Science in Health Care Administration dual degree available to qualified students who desire advanced preparation in the areas of nursing and health care administration with a practice focus as Advanced Practice Nurses in administration. The concurrent program leading to both degrees represents the core accreditation requirements of each degree. Coursework is integrated between the two degree programs each semester in order to provide an intense learning experience.

The philosophy of graduate nurse education is that the practice of nursing is constantly changing as health needs and health delivery systems are altered. Integral to nursing is an ability to work effectively and cooperatively with other disciplines. The joint Master of Science in Health Care Administration and the Master of Science in Nursing provides the opportunity for students to specialize as advanced practice nurses with emphasis in administration and increasing competence in designing, implementing, and evaluating programs in preparation for serving in various health agencies. An important career path for advanced practice nurses is as nurse executive in the variegated segments of the health care industry including entrepreneurial activities. Courses are interdependent and have been structured to provide clinical depth in the areas of nursing and administration.

Each applicant should request that a copy of official transcript of all college course work be sent to the Nursing Department Graduate Advisor and to the Office of Admissions and Records.

#### Prerequisites

1. Public Health Nurse Certificate, or eligibility for certificate in California.
2. An overall GPA of 3.0 or better; an upper division nursing GPA of 3.0 or better and a science GPA of 3.0 or better. Students who fall below these averages will be evaluated on an individual basis.
3. Submission of quantitative and verbal scores from the Graduate Record Examination (GRE) or the Graduate Management Admissions Test (GMAT).
4. Current professional resume describing the applicant's relevant experience.

#### Advancement to Candidacy

A joint committee, consisting of Nursing and Health Care Administration faculty involved in the program, will review files and make a determination to advance the candidate to graduate status.

#### Requirements for Completion

1. A minimum of 57 units of approved Nursing and Health Care Administration upper division and graduate level courses including:

The Program of Study: NRS G 559, 560, 596, 680A, 680B, 680C, 680AL, 680BL, 680CL, 698, HCA 502, 505, 510, 515, 524, 530, 535, 550, 698

2. An overall GPA of 3.0 or better in all courses.
3. Directed project or a thesis.
4. \*Graduate degrees obtained previously may be accepted toward meeting a portion of the unit requirements of the concurrent MSN/MSHCA degree program.
5. If a student after entering the concurrent MSN/MSHCA program returns to a single degree program, all requirements for the single degree program must be met.
  - \* 60% of units must be earned in residence

### Courses (NRS G)

#### Lower Division

#### 200. Introduction to Nursing Health Care (3)

Prerequisites: SOC 100; Admission to nursing program; Corequisites: NRS G 200L, 202, BIOL 204, FCS 339 or consent of instructor. Development of concepts of high level wellness and self care. Introduction to physical and social science principles which provide the basis for beginning level nursing theory and practice. Introduction to the nursing process and the framework for nursing practice. Letter grade only (A-F). (Lecture-Discussion, 3 hours)

#### 200L. Introduction to Nursing Health Care Clinical (3)

Prerequisites: SOC 100; Admission to nursing program; Corequisites: NRS G 200, 202, BIOL 204, FCS 339 or consent of instructor. Designed to provide guided utilization of beginning level theory and skill in a simulation laboratory. Opportunity is provided for the student to experience clinical practice based on the concepts of the nursing process and the framework for nursing practice. Course fee required for materials to be used throughout the pre-licensure program; non-refundable fee. May be repeated to a maximum of 6 units. Credit/No credit grading only. (Laboratory 9 hours)

#### 202. Health Care Communication (2)

Prerequisites: SOC 100; Admission to the nursing program, or consent of instructor. Corequisites: NRS G 200, 200L, FCS 339, BIOL 204, or consent of instructor. Primary focus is on communication theory, helping modes and communication with diverse people. Introduction to understanding the psycho-social and cultural factors which influence the responses to and on the health professional-client interaction. Clinically oriented simulated projects and activities provide opportunities for application of theory. Letter grade only (A-F). (Lecture-discussion, 2 hours)

#### 250. Intermediate Nursing Health Care (3)

Prerequisites: SOC 100; NRS G 200, 200L, 202, BIOL 204, FCS 339, or consent of instructor. Corequisites: PSY 100; NRS G 250L, 312, 312L, 260, 260L, BIOL 304; or consent of instructor. Exploration of the illness experiences and health deviations related to various medical and surgical etiologies and pathological states. The focus is on the independent and collaborative nursing practice utilizing the nursing process. Emphasis is on illness care and health restoration, illness prevention, and health promotion. Multi-cultural influences on health care are considered. Letter grade only (A-F). (Lecture-discussion 3 hours)

#### 250L. Intermediate Nursing Health Care Clinical Studies (3)

Prerequisites: SOC 100; NRS G 200, 200L, 202, BIOL 204, FCS 338, or consent of instructor. Corequisites: PSY 100; NRS G 250, 260, 260L, 312, 312L, BIOL 304, or consent of instructor. A clinical practicum focusing on the application of the nursing process and collaborative care to patients experiencing illness and health deviations due to various medical surgical etiologies and pathological states. Letter grade only (A-F). (Laboratory 9 hrs)

#### 260. Older Adult Health Care (2)

Prerequisites: SOC 100; NRS G 200, 200L, 202, FCS 339, BIOL 204 or consent of instructor. Corequisites: PSY 100; NRS G 260L, 250, 250L, 312, 312L, BIOL 304, or consent of instructor. A study of the delivery of optimum health care to the aging client within the

framework of the nursing process. Emphasis is on understanding the unique needs of the aging population, encouraging health promotion and self-care, identifying variable responses of elderly clients to pathological conditions, and maintaining a level of function that promotes quality of life. Letter grade only (A-F). (Lecture-Discussion)

### **260L. Older Adult Health Care Clinical Studies (2)**

Prerequisites: SOC 100; NRSNG 200, 200L, 202, FCS 339, BIOL 204, or consent of instructor. Corequisites: PSY 100; NRSNG 260, 250, 250L, 312, 312L, BIOL 304, or consent of instructor. This clinical course provides the student the experience of applying the nursing process to care of the aging client in a variety of settings. Letter grade only (A-F). (Laboratory 6 hours)

### **301. Psychological Aspects of Health Care (2)**

Prerequisites: PSY 100; NRSNG 250, 250L, 260, 260L, 312, 312L, BIOL 304, or consent of instructor. Corequisites: NRSNG 331, 331L, 341, 341L, or consent of instructor. Presents an exploration of psychosocial concepts, cultural and environmental factors relative to wellness/illness of individuals and family groups with special attention to physically ill individuals. Group interaction is directed toward development of self-awareness as well as development of the professional role. Letter grade only (A-F). (Lecture-Discussion). Not open to students with credit in NRSNG 300.

### **309. Dimensions of Professional Nursing (2)**

Prerequisite: Admission to the ADN to BSN program. An introduction to professional role transition as it relates to being a university student in a baccalaureate nursing program. Focus on analysis of roles as the learner moves from a technical to professional role in nursing. The dimensions of professional nursing and the responsibilities of the nursing profession as a social force will be explored. The course also will include skills training in a professional literature search, application of research in a written format, and an oral presentation. All RN to BSN students entering the program will be required to complete this course in the first semester. Letter grade only (A-F). (Lecture/Discussion).

### **310. Human Life Cycle for Nurses (3)**

Prerequisites: NRSNG 301, 331, 331L, 341, 341L. Corequisites: NRSNG 353, 361, 361L, 371, 371L. Presents the study and application to nursing of the physiological, social, cognitive, linguistic and emotional development of persons as individuals and as family members from conception through old age. The student will become competent in applying developmental theory to the assessment and intervention of patients and their families from infants to the elderly. Letter grade only (A-F). (Lecture-Discussion). Not open to students with credit in NRSNG 308 and NRSNG 358.

### **312. Health Assessment (2)**

Prerequisites: SOC 100; NRSNG 200, 200L, 202, BIOL 204, FCS 339, or consent of instructor. Corequisites: PSY 100; NRSNG 250, 250L, 260, 260L, 312L, BIOL 304, or consent of instructor. Covers the techniques of history taking and physical examination of healthy individuals. These techniques are used by the nurse in identification of patient problems. Letter grade only (A-F). (Lecture/Discussion).

### **312L. Physical Assessment for Nurses Lab (1)**

Prerequisites: SOC 100; NRSNG 200, 200L, 202, BIOL 204, FCS 339, or consent of instructor. Corequisites: PSY 100; NRSNG 250, 250L, 260, 260L, 312, BIOL 304, or consent of instructor. Provides the opportunity for the student to apply techniques of history taking and physical examination which are used by the nurse in identification of patient problems. Included demonstration and practice of physical assessment methodology. Letter grade only (A-F). (Technical activities and laboratory 2 hours)

### **331. Critical Care Nursing (2)**

Prerequisites: PSY 100; NRSNG 250, 250L, 260, 260L, 312, 312L, BIOL 304 or consent of instructor. Corequisites: NRSNG 301, 331L, 341, 341L, or consent of instructor. Advanced study of the critically ill or injured patient in various critical care settings. The course focuses on complex knowledge required to provide nursing care of patients in technologically sophisticated specialty areas. Additional emphasis and specific content will focus on

psychosocial and cultural concepts and issues as they related to patients in the critical care settings: Letter grade only (A-F). (Lecture-Discussion). Not open to students with credit in NRSNG 360.

### **331L. Critical Care Nursing Clinical Studies (3)**

Prerequisites: PSY 100; NRSNG 250, 250L, 260, 260L, 312, 312L, BIOL 304 or consent of instructor. Corequisites: NRSNG 301, 331, 341, 341L, or consent of instructor. Advanced study of the critically ill or injured patient in various critical care settings. The course focuses on complex knowledge required to provide nursing care of patients in technologically sophisticated specialty areas. Additional emphasis and specific content will focus on psychosocial and cultural concepts and issues as they related to patients in the critical care settings: Letter grade only (A-F). (Laboratory 9 Hours). Not open to students with credit in NRSNG 360L.

### **341. Psychiatric/Mental Health Nursing (2)**

Prerequisites: PSY 100; NRSNG 250, 250L, 260, 260L, 312, 312L, BIOL 304, or consent of instructor. Corequisites: NRSNG 301, 331, 331L, 341L, or consent of instructor. Presents the theory base for psychiatric/mental health delivery system. Cultural, ethical, economic and legal influences on mental health will be considered. Letter grade only (A-F). (Lecture-Discussion). Not open to students with credit in NRSNG 370.

### **341L. Psychiatric/Mental Health Nursing Clinical (3)**

Prerequisites: PSY 100; NRSNG 250, 250L, 260, 260L, 312, 312L, BIOL 304, or consent of instructor. Corequisites: NRSNG 301, 331, 331L, 341, or consent of instructor. Provides the clinical experiences for students to apply the theories learned in NRSNG 341. The student will utilize the nursing process to apply theories and implement care for clients with psychiatric and mental health issues. (Lecture-Discussion). Not open to students with credit in NRSNG 370L.

### **353. Legal Aspects of Health Care (2)**

Prerequisites: NRSNG 250, 250L, 260, 260L, 301, 312, 312L, 331, 331L, 341, 341L, BIOL 304, or consent of instructor. Corequisites: NRSNG 310, 361, 361L, 371, 371L, or consent of instructor. Presents the legal duties and responsibilities of nurses in the delivery of health care services. Professional licensure regulations, scope of nursing practice, and ethical issues related to nursing practice are emphasized. Letter grade only (A-F). (Lecture-Discussion). Not open to students with credit in NRSNG 351.

### **361. Child Health Care (2)**

Prerequisites: NRSNG 250, 250L, 260, 260L, 301, 312, 312L, 331, 331L, 341, 341L, BIOL 304, or consent of instructor. Corequisites: NRSNG 310, 353, 361L, 371, 371L, or consent of instructor. Theoretical base for pediatric nursing practice, including the care of the well and ill child from birth through adolescence. Pathophysiology of specific body systems and appropriate nursing interventions are described. Cultural and growth and development variations, psychological development, and family roles and structures are also considered. Letter grade only (A-F). (Lecture-Discussion). Not open to students with credit in NRSNG 340.

### **361L. Child Health Care Clinical (3)**

Prerequisites: NRSNG 250, 250L, 260, 260L, 301, 312, 312L, 331, 331L, 341, 341L, BIOL 304, or consent of instructor. Corequisites: NRSNG 310, 353, 361, 371, 371L, or consent of instructor. Opportunities for the student to apply theoretical concepts from NRSNG 361 in various clinical settings and to a variety of pediatric clients and their families. The student will assess the physical, psychological, and cultural status of the ill child. The student will plan, implement, and evaluate age appropriate nursing care for clients with common pediatric disorders. Letter grade only (A-F). (Laboratory 9 Hours). Not open to students with credit in NRSNG 340L.

### **371. Women's Health Care (2)**

Prerequisites: NRSNG 250, 250L, 260, 260L, 301, 312, 312L, 331, 331L, 341, 341L, or consent of instructor. Corequisites: NRSNG 310, 353, 361, 361L, 371L, or consent of instructor. Focus on the family during the childbearing period and common health problems of women. Includes assessment, intervention and evaluation of normal clients and those at risk of complications during pregnancy and/or childbirth and common gynecological problems of women, the childbearing period, gain (adding of family member) and family roles are addressed. Letter grade only (A-F). (Lecture-Discussion). Not open to students with credit in NRSNG 330.

### 371L. Women's Health Care Clinical (3)

Prerequisites: NRS 250, 250L, 260, 260L, 301, 312, 312L, 331, 331L, 341, 341L, BIOL 304, or consent of instructor. Corequisites: NRS 310, 353, 361L, 371, or consent of instructor. Provides the opportunity to apply theoretical concepts from NRS 371 in a supervised clinical setting. Supervised care is provided to the child-bearing family at all stages in the cycle-antepartum, intrapartum and postpartum-including the normal newborn and newborn requiring intensive care. Assessment of potential complications and variations from normal, and implementation and evaluation of care are the basis for application knowledge. Letter grade only (A-F). (Laboratory 9 Hours). Not open to students with credit in NRS 330L.

### 400. Health Care Delivery Systems (3)

Prerequisites: consent of instructor; for RNs: BIOL 304; or consent of instructor. Corequisites: NRS 402, 402L, or consent of instructor. Study of the health care delivery systems with emphasis on the role of nursing within these systems. Emphasis is upon less well defined problems and their causes, original and creative nursing interventions and in-depth study of the impact of political, economic and social issues of the health care delivery system. Letter grade only (A-F). (Lecture-Discussion)

### 402. Community Health Nursing (3)

Prerequisites: consent of instructor. Corequisites: NRS 402L, 400; or consent of instructor. Focuses on diversified and/or permanent interruptions in the health-illness continuum and associated nursing care for aggregates in non-acute institutions and community facilities. Content emphasizes the variety of life styles and diversified ethnic groups. Letter grade only (A-F). (Lecture-Discussion)

### 402L. Community Health Nursing Clinical Studies (4)

Prerequisites: consent of instructor; for RNs: BIOL 304, or consent of instructor. Corequisites: NRS 402, 400; or consent of instructor. Focuses on developing the expertise to work with diversified and/or permanent interruptions in the health-illness continuum and provides appropriate nursing interventions for aggregates in non-acute facilities. Experiences emphasize providing health care to groups with a variety of life styles and diversified ethnic groups. Letter grade only (A-F). (Laboratory 12 hours)

### 405./505. Holistic Nursing Interventions Across the Lifespan (3)

Prerequisites: Senior standing or graduate status. Will present therapeutic touch, meditation, and imagery as interventions grounded in a holistic nursing framework. Students will learn the basics of practicing modality which will enable them to begin incorporating the three modalities into their practice. Letter grade only (A-F).

### 420. Prepared Childbirth Teachers (7)

Prerequisites: Must be RN, MD, RPT, or other health professional with a bachelor's degree. Designed to prepare persons to educate expectant parents in the psychoprophylactic method of childbearing most commonly referred to as the "Lamaze" method of childbirth. Over a 6 month period, this intensive program will cover: childbirth preparation including pregnancy, labor and delivery as well as pain management and teaching strategies. In addition to the 72 classroom hrs (4 units), there are 135 lab hours which include a minimum of 10 labor and delivery observations and 2-3 hours per week observing classes and a student teaching experience. Successful completion of the course makes the participant eligible for certification from the American Society for Psycho-prophylaxis in Obstetrics.

### 450. Nursing Research (3)

Prerequisites: NRS 400, 402, 402L. Corequisites: NRS 451, 452A and 453L or 452B and 454L or 452D and 456L. Enables students to apply research theory to practice. Enables the student to identify a researchable problem, recognize and use research designs, validate a reliable research tool, understand ethics in nursing research, and analyze and critique research studies. In addition, the student will study the application of the nursing process using research methodology, teaching and learning theory in selected clinical settings. (Lecture-Discussion). Letter grade only (A-F).

### 451. Nursing Leadership and Management (2)

Prerequisites: NRS 400, 402, 402L. Corequisites: NRS 450, 452A and 453L or 452B and 454L or 452D and 456L. Principles of leadership and management as they apply to front line management positions in healthcare. Emphasis is on understanding the role and responsibilities of the professional nurse as leader and manager of patient care services within a variety of settings. Letter grade only (A-F). (Lecture-Discussion). Not open to students with credit in NRS 450L.

### 452A. Advanced Nursing in Critical Care (2)

Prerequisites: NRS 400, 402L, 402 or consent of instructor. Corequisites: NRS 452L-A, 450, 451; or consent of instructor. A study of critical care/emergency department health care delivery systems and theories of management and leadership with their application to selected settings. An emphasis will be placed on the utilization of critical care/emergency department nursing care and nursing management models that incorporate unique client problems in selected patient populations. The integration of critical care/emergency clinical and management knowledge as essential to role fulfillment will be investigated in selected settings. Letter grade only (A-F). (Clinical process)

### 452B. Advanced Maternal Child Health in Nursing (2)

Prerequisites: NRS 400, 402, 402L, or consent of instructor. Corequisites: NRS 452L-B, 450, 451; or consent of instructor. A study of advanced concepts in maternal-child nursing and of theories of management, leadership, and administration as they are applied to selected settings. An emphasis is placed on the utilization of maternal-child nursing care in in-patient and out-patient health care delivery settings and on nursing management models that incorporate unique client problems in selected patient populations. The integration of advanced maternal-child nursing concepts in clinical settings with management knowledge is investigated in selected settings. Letter grade only (A-F). (Clinical process)

### 452D. Advanced Nursing in Community Mental Health (2)

Prerequisites: NRS 400, 402, 402L, or consent of instructor. Corequisites: NRS 452L-D, 450, 451 or consent of instructor. A study of advanced concepts in the area of clinical specialization in community mental health nursing and of theories of management, leadership, and administration as they are applied to selected settings. An emphasis is placed on the utilization of community mental health nursing care and nursing management models that incorporate unique client problems in selected patient populations. The integration of community mental health care clinical and management knowledge essential to role fulfillment in selected settings is investigated. (Clinical process) Letter grade only (A-F).

### 453L. Advanced Nursing in Critical Care Clinical Studies (4)

Prerequisites: NRS 402, 402L, or consent of instructor. Corequisites: NRS 452A, 450, 451 or consent of instructor. Designed to provide clinical experiences in the critical care/emergency departments of health care delivery systems and application of theories of management and leadership. An emphasis will be placed on the utilization of critical care/emergency department nursing care and nursing management models that incorporate unique client problems in selected patient populations. The integration of critical care/emergency clinical and management knowledge as essential to role fulfillment will be investigated in selected settings. Letter grade only (A-F). (Laboratory 12 hours)

### 454L. Advanced Nursing in Maternal-Child Clinical Studies (4)

Prerequisites: NRS 400, 402, 402L, or consent of instructor. Corequisites: NRS 452B, 450, 451; or consent of instructor. Designed to provide clinical experiences in the application of advanced concepts in maternal-child nursing and the application of theories of management, leadership, and administration as they are applied to selected settings. An unique client problems in selected patient populations encountered in maternal-child nursing. Opportunity to integrate clinical and management knowledge in maternal-child clinical settings is provided. Letter grade only (A-F). (Laboratory 12 hours)

**456L. Advanced Nursing in Community Mental Health Clinical (4)**

Prerequisites: NRS 400, 402, 402L, or consent of instructor.  
Corequisites: NRS 452D, 450, 451 or consent of instructor. Designed to provide clinical application of advanced concepts in Community Mental Health and application of theories of management, leadership, and administration in selected settings. An emphasis is placed on the utilization of community mental health nursing care and nursing management models that incorporate unique client problems in selected patient populations. The integration of community mental health clinical and management knowledge essential to role fulfillment in selected settings investigated. Letter grade only (A-F). (Laboratory 12 hours)

**4811. Parenting (3)**

Prerequisites: ENGL 100 and upper division status. Effective parenting with emphasis on common parenting concerns and the developmental tasks of parents and children.

**\*482. Health Assessment of the Aging Client (3)**

Prerequisites: GERN 400I or equivalent and upper division standing or consent of instructor. Assessment of the physical, psychological and social status of the aging client as these factors affect health and well being. Course is designed to assist those working with the aging client in a variety of settings to identify actual or potential health related problems using a variety of tools and techniques. Same course as GERN \*482. (Lecture-discussion, 3 hours)

**490. Independent Study (1-3)**

Prerequisite: Consent of any nursing faculty. Students who have made prior arrangements with a faculty advisor for appropriate learning objectives may enroll. May be repeated to a maximum of 6 units.

**499./599. Special Topics in Nursing (1-3)**

Prerequisite: Consent of instructor. Topics consistent with contemporary nursing or curricular trends will be announced each semester. May be repeated to a maximum of 3 units with different topics.

**Graduate Level**

**502. Genetics in Nursing Practice (3)**

Prerequisites: Senior standing or graduate status or consent of instructor. Will provide an overview of the genetics implications for nurses as they provide health services to clients of all ages, diverse ethnic, cultural, life-style and geographic areas. Will explore the basic mechanisms of genetic inheritance and the impact that genetics has on health promotion and disease prevention. Students will examine the social, ethical, legal, cultural, policy, and professional implications of the integration of genetics into their health practice. Letter grade only (A-F).

**505./405. Holistic Nursing Interventions Across the Lifespan (3)**

Prerequisites: Senior standing or graduate status. Will present therapeutic touch, meditation, and imagery as interventions grounded in a holistic nursing framework. Students will learn the basics of practicing modality which will enable them to begin incorporating the three modalities into their practice. Letter grade only (A-F).

**510. Advanced Pathophysiology for Advanced Practice Nursing (2)**

Prerequisites: Admission to the graduate nursing program or consent of instructor. Presents the principles of human functional and homeostatic mechanisms, as well as underlying mechanisms operant during disturbance of human functional and homeostatic mechanisms. The course materials build upon the framework of understanding developed in the undergraduate upper-division pathophysiology course. Understanding of concepts of integration and communication between organs systems will be explored and will be applied to gain greater knowledge of disturbances at the cellular level which result in aberrant organ and system function. This course is prerequisite to the nursing 680 series courses. Letter grade only (A-F). (Lecture-Activity)

**520. Advanced Pharmacology for the Advanced Practice Nurse (3)**

Prerequisites: Admission to the graduate nursing program, must be taken concurrent with NRS 510 or consent of the instructor. Designed to meet the needs of students in the nurse practitioner program and practicing nurse practitioners for advanced knowledge about pharmacological agents useful in the management of a variety of common clinical situations. The course is also designed to meet the BRN pharmacology course requirement for the nurse practitioner to furnish drugs or devices pursuant to the Business and Professions Code, Section 2836.1. A theoretical framework establishing the importance of advanced pharmacological knowledge to the full implementation of the nurse practitioner role will be presented. Following a review of the basic science concepts essential to an understanding of drug pharmacokinetics, pharmacodynamics, and interactions, a physiological systems approach will be applied. This approach allows a greater understanding of the effect of common drugs utilized in primary care/family planning settings in the provision of perinatal care, family planning services and/or routine health care in essentially healthy persons. Ethical/legal issues, as well as a review of the California furnishing bill and standardized procedures will be covered. Is not designed to supersede or replace dosage and treatment protocols established within the nurse practitioner's setting for clinical practice. The course is prerequisite to the nursing 680 series courses. Letter grade only (A-F).

**530. Advanced Physical Assessment for Advanced Practice Nurses (2)**

Prerequisites: Admission to the graduate nursing program or consent of the instructor. This core course is designed to provide through classroom instruction and experiences, advanced knowledge and diagnostic skill development in physical assessment of client softener encountered by the advanced practice nurse. The assessment role of the nurse is further expanded to include client education and the cooperative synthesis of wellness strategies to optimize health. This course is prerequisite to the NRS 680 series courses. Letter grade only (A-F). (Technical activity and laboratory 4 hours)

**540. Health Care Economics, Policy, and Management for Advanced Practiced Nursing (2)**

Prerequisites: Admission to the graduate nursing program or consent of instructor. Examines the advanced practice nurse's relationship to policy formation, health care economics, and health care organizations. Analysis of the health care delivery system will include the increasing levels of public, governmental, and third party participation in policy formation. Emphasis will be analysis of health policy and its effect on the practice environment. The course explores the issues of health care organization, health care financing, and delivery within integrated care systems to include community and the organization of community based systems of care. Students are prepared to provide quality cost effective care, participate in the design and implementation of care in a variety of health systems, utilize computerized data bases, and assume a leadership role in managing human, fiscal, and physical health care resources. Included is the definition of primary health care by the World Health Organization which addresses the issues of poverty and public health, and the relationship of these issues to improving health care delivery and client outcomes. This course is prerequisite to the NRS 680 series courses. Letter grade only (A-F). (Lecture-Discussion)

**550. Human Diversity and Psychosocial Issues in Health Care for Advanced Practice Nursing (2)**

Prerequisites: Admission to the graduate nursing program or consent of instructor. Focuses on the cultural sensitive nursing principles of advanced practice nursing, selected strategies, and negotiations with patients. An emphasis is placed on complex psychosocial assessment, interdisciplinary approaches and special populations. This course is prerequisite to the NRS 680 series course. Letter grade only (A-F). (Lecture-Discussion)

**556A. Conditions of Learning and Instruction in Nursing (3)**

A systematic study of theories of learning and instruction as they apply to patient and/or student teaching-learning situations. Content covered includes conditions of learning, models of instruction, transfer of learning, behavior modification techniques, variables influencing learning and instruction, and evaluation of instruction. Letter grade only (A-F).

### 556B. Curriculum Development in Nursing (3)

A critical appraisal of patterns of nursing education as considered from the standpoint of the changing order. A systematic study of principles of curriculum development as they apply to different types of nursing programs. Focuses on the relationship between philosophy, objectives, the selection and organization of learning experiences and the evaluative process. Letter grade only (A-F).

### 556L. Theoretical Concepts Laboratory of Nursing Education (1-4)

Instructional skills and the application of theories of learning and instruction to the practice and teaching of nursing within a supervised practice-teaching situation. Reference to ways teaching skills relate to broader educational issues such as teaching/learning theory. May be repeated to a maximum of 4 units. Letter grade only (A-F).

### 559. Nursing Administration (3)

Theories, issues and application of techniques pertaining to management applicable to nurses in the clinical setting. Letter grade only (A-F).

### 560. Professional Foundations of Theoretical and Professional Roles in Advanced Nursing Practice (2)

Prerequisites: Admission to graduate nursing program or consent of instructor. The study of theoretical framework and professional roles influencing advanced practice nursing. Specifically, content will address the dynamic nature of the profession and its roles. Student will review and analyze the major theoretical frameworks for advanced practice from nursing and related fields. They will be introduced to the changing nature of role ambiguity, role boundaries in addition to the need to work in a collaborative relationship with other health professionals. This course is prerequisite to the NRS 680 series courses. Letter grade only (A-F). (Lecture-Discussion)

### 565. Theories of Community/Public Health Nursing (3)

Prerequisites: NRS 560 or consent of instructor. Analysis, synthesis, and application of conceptual frameworks from nursing science, public health science, leadership, and other related disciplines to community/public health nursing practice to include population-focused theory and the epidemiological process model. Focus on the provision of health promotion and prevention services to underserved populations and communities. (Seminar, 3 hours) Letter grade only (A-F).

### 590. Independent Study (1-3)

Prerequisite: Consent of a nursing faculty member. Independent research under the supervision of a nursing faculty member. Letter grade only (A-F).

### 596. Research Methods in Nursing (3)

Prerequisites: Admission to graduate program in nursing, upper division statistic course. Focus on the research process in nursing, including the use and testing of nursing theories, development of research proposals that includes conceptualization of the problem, literature search, study design, data collection, analysis and interpretation of findings. The legal and ethical aspects of research are stressed. This course is prerequisite to the nursing 680 series courses. Letter grade only (A-F). (Lecture-Discussion)

### 599./499. Special Topics in Nursing (1-3)

Prerequisite: Consent of instructor. Topics consistent with contemporary nursing or curricular trends will be announced each semester. Credit may be earned for course each time a new topic is offered. Letter grade only (A-F).

### 660B. Theoretical Base for Advanced Nursing Practice (3,3)

Prerequisites: Pathophysiology, Physical Assessment or consent of instructor. Study of the relationship of psycho-social theory to health care with an emphasis on the application of theory to clinical practice. Various sections will focus on different areas of clinical interest. Letter grade only (A-F).

### 670. Community Health Theories for Advanced Practice Nursing I (3)

Prerequisites: NRS 565 or consent of instructor. Corequisite: NRS 670L. Examines the C/PHN leadership roles in health program and policy planning for aggregates, populations, and communities. Theories of community assessment, health program

planning and health policy planning will be explored. The focus of the course will be the integration of nursing and public health theories in the assessment and development of health programs for underserved and ethnically diverse populations. (Seminar, 3 hours) Letter grade only (A-F).

### 670L. Advanced Community/Public Health Nursing Clinical I (3)

Prerequisites: NRS 565 or consent of instructor. Corequisite: NRS 670. A clinical course offering experience in applying concepts, issues, and principles of program and policy planning in selected settings to prepare the student for advanced nursing practice. Focuses on expanding skills of community assessment, program planning and policy development to meet the health care needs of culturally diverse and underserved populations. The clinical experience involves preceptored C/PHN community focused placement and completion of a health project for identified populations and/or communities. (Clinical, 9 hours) Letter grade only (A-F).

### 671. Community Health Theories for Advanced Practice Nursing II (3)

Prerequisites: NRS 670, 670L or consent of instructor. Corequisite: NRS 671L. Will examine the Community/Public Health Nursing (C/PHN) roles in health program and policy implementation for aggregates, populations, and communities. Theories of community health program and health policy implementation will be explored. The focus of the course will be the integration of nursing and public health theories in the utilization of intervention strategies in implementing health programs for underserved and ethnically diverse populations. (Seminar, 3 hours) Letter grade only (A-F).

### 671L. Advanced Community/Public Health Nursing Clinical II (3)

Prerequisites: NRS 670, 670L, or consent of instructor. Corequisite: NRS 671. A clinical course offering experience in applying concepts, issues, and principles of program and policy implementation in selected settings to prepare the student for advanced nursing practice. Focuses on expanding skills of community, program and policy implementation to meet the health care needs of culturally diverse and underserved populations. The clinical experience involves preceptored C/PHN community focused placement and completion of a health project for identified populations and/or communities. (Clinical, 9 hours) Letter grade only (A-F).

### 680A,B,C. Theories for Extended Nursing Practice (3,3,3)

Prerequisites: A physical assessment course (including 60 hours laboratory practice), BIOL 304 or consent of instructor. Normal and pathological conditions and the management theory base applicable for the advanced practice nurse in clinical areas of concentration. May be repeated to a maximum of 6 units in each suffix. Letter grade only (A-F).

### 680L. Clinical Studies in Nursing (3)

A laboratory course offering clinical experience in selected settings to prepare the student for advanced nursing practice. May be repeated to a maximum of 9 units with different topics.

### 682. Family Theories for Advance Practice Nursing I (3) F

Prerequisites: Admission to graduate nursing program, NRS 510, 520, 530, 550, 560, 506 or consent of instructor. Focus is diagnosis, treatment and management of common and pathological conditions by the family nurse practitioner. A management and family theory base applicable for the role of the family nurse practitioner is presented. Letter grade only (A-F).

### 682A. Family Clinical Studies for Advance Practice Nursing I (3) F

Prerequisites: Admission to graduate nursing program, NRS 510, 520, 530, 540, 550, 560, 596 or consent of instructor; clinical pretest; corequisite, NRS 682. This is the first of two courses designed to allow the student the opportunity to apply theoretical knowledge in supervised clinical practice in family practice. An emphasis is placed on socialization into the family nurse practitioner role. Clinical seminars assist the student to apply theoretical concepts and expand clinical knowledge. Credit/No Credit grading only. (Laboratory 9 hours)

**682B. Family Clinical Studies for Advance Practice Nursing II (3) F**

Prerequisites: Admission to graduate nursing program, NRSG 510, 520, 530, 540, 550, 560, 596 or consent of instructor; corequisite: NRSG 682. This is the second of two course designed to allow the student the opportunity to apply theoretical knowledge in supervised clinical practice in family practice. An emphasis is placed on socialization into the family nurse practitioner role. Clinical seminars assist the student to apply theoretical concepts and expand clinical knowledge. Credit/No Credit only. (Laboratory 9 hours)

**683. Family Theories for Advance Practice Nursing II (3) S**

Prerequisites: Admission to graduate nursing program, NRSG 510, 520, 530, 540, 550, 560, 596 or consent of instructor. Focus is diagnosis, treatment and management of common and pathological conditions by the family nurse practitioner. A management and family theory base applicable for the role of the family nurse practitioner is presented. Letter grade only (A-F).

**683A. Family Clinical Studies for Advance Practice Nursing III (3) S**

Prerequisites: Admission to graduate nursing program, NRSG 510, 520, 530, 540, 550, 560, 596 or consent of instructor, clinical pretest; corequisite: NRSG 683. This is first of two courses designed to allow the student additional opportunity to apply theoretical knowledge in supervised clinical practice in family practice. An emphasis is placed on further socialization into the family nurse practitioner role. Clinical seminars assist the student to apply theoretical concepts and expand clinical knowledge. Letter grade only (A-F). (Laboratory 9 hours)

**683B. Family Clinical Studies for Advance Practice Nursing IV (3) S**

Prerequisites: Admission to graduate nursing program, NRSG 510, 520, 530, 540, 550, 560, 596 or consent of instructor; corequisite: NRSG 683. This is second of two courses designed to allow the student additional opportunity to apply theoretical concepts and expand clinical knowledge. Letter grade only (A-F). (Laboratory 9 hours)

**684. Pediatric Theories for Advance Practice Nursing I (3) F**

Prerequisites: Admission to graduate nursing program and NRSG 510, 520, 540, 550, 560, 596 or consent of instructor. Presents the theory base for well child care applicable to the role of the pediatric nurse practitioner. Content focuses on preventive health care and well child management of children from infancy through adolescence. The specific topics covered are well child, anticipatory guidance, family theory, child and family response to stress, childhood maltreatment, violence and substance abuse, professional issues and related research. Letter grade only (A-F).

**684A. Pediatric Clinical Studies for Advance Practice Nursing I (3) F**

Prerequisites: Admission to graduate program and NRSG 510, 520, 530, 540, 550, 560, 596 or consent of instructor; corequisite: NRSG 684. The first of two clinical laboratory components of the pediatric specialty program. The student has the opportunity to demonstrate the application of theory from concurrent course work. Clinical experiences are available which will allow the student to give preventive health care, to manage the well child and to manage common pediatric problems. Credit/No Credit grading only. (Laboratory 9 hours)

**684B. Pediatric Clinical Studies for Advance Practice Nursing II (3) F**

Prerequisites: Admission to graduate program and NRSG 510, 520, 530, 540, 550, 560, 596 or consent of instructor; corequisite: NRSG 684. The second of two clinical laboratory components of the pediatric specialty program. The student has the opportunity to demonstrate the application of theory from concurrent course work. Clinical experiences are available which will allow the student to give preventive health care, to manage the well child, and to manage common pediatric problems. Credit/No Credit grading only. (Laboratory 9 hours)

**685. Pediatric Theories for Advance Practice Nursing II (3) S**

Prerequisites: Admission to graduate nursing program and NRSG 510, 520, 540, 550, 560, 596 or consent of instructor. Focus, at the advanced level, is diagnosis, treatment and management of com-

mon pediatric condition/disorders by the pediatric nurse practitioner. The specific topics covered are the management of common pediatric dermatological, ENT, ophthalmic conditions, allergy, respiratory, gastrointestinal, genitourinary, cardiovascular, neurological/learning disorders, infectious diseases, hematological, congenital anomalies/genetic disorders, endocrine, orthopedic and sport injuries. Letter grade only (A-F).

**685A. Pediatric Clinical Studies for Advance Practice Nursing III (3) S**

Prerequisites: Admission to graduate program and NRSG 510, 520, 530, 540, 550, 560, 596 or consent of instructor; corequisite: NRSG 685. This is the first of two clinical laboratory courses of the pediatric nurse practitioner program that provides experience for the management of common pediatric health care problems. The student has the opportunity to demonstrate, at an advanced level, the application of theory from previous and concurrent course work that deals with the assessment, diagnosis, treatment, management and prevention of common pediatric health care problems in the clinical setting. Letter grade only (A-F). (Laboratory 9 hours)

**685B. Pediatric Clinical Studies for Advance Practice Nursing IV (3) S**

Prerequisites: Admission to graduate program and NRSG 510, 520, 530, 540, 550, 560, 596 or consent of instructor; corequisite: NRSG 685. This is the second of two clinical laboratory courses of the pediatric nurse practitioner program that provides experience for the management of common pediatric health care problems. The student has the opportunity to demonstrate, at an advanced level, the application of theory from previous and concurrent course work that deals with the assessment, diagnosis, treatment, management and prevention of common pediatric health care problems in the clinical setting. Letter grade only (A-F). (Laboratory 9 hours)

**686. Adult/Geriatric Theories for Advance Practice Nursing I (3) F**

Prerequisites: Admission to graduate nursing program and NRSG 510, 520, 540, 550, 560, 596 or consent of instructor, clinical pretest. Presents the epidemiology, etiology, differential diagnosis, management and prevention of selected health problems of the adult/geriatric patient in primary, secondary, and tertiary settings and the role of the nurse practitioner in these settings. The course provides information regarding normal and pathological conditions and management theory base applicable for the role of the advanced practice nurse providing care to the adult in a changing environment of healthcare. Letter grade only (A-F).

**686A. Adult/Geriatric Clinical Studies in Advance Practice Nursing I (3) F**

Prerequisites: Admission to graduate program and NRSG 510, 520, 530, 540, 550, 560, 596 or consent of instructor, a clinical pretest; corequisite: NRSG 686. The first of two designed to allow the adult/geriatric nurse practitioner student the opportunity to apply theoretical knowledge in supervised clinical practice with adult and geriatric patients. An emphasis is placed on beginning socialization into the nurse practitioner role. Credit/No Credit grading only. (Laboratory 9 hours)

**686B. Adult/Geriatric Clinical Studies in Advance Practice Nursing II (3) F**

Prerequisites: Admission to graduate program and NRSG 510, 520, 530, 540, 550, 560, 596 or consent of instructor; a clinical pretest; corequisite NRSG 686. The second of two designed to allow the adult/geriatric nurse practitioner student the opportunity to apply theoretical knowledge in supervised clinical practice with adult and geriatric patients. An emphasis is placed on beginning socialization into the nurse practitioner role. Credit/No Credit grading only. (Laboratory 9 hours)

**687. Adult/Geriatric Theories for Advance Practice Nursing II (3) S**

Prerequisites: Admission to graduate nursing program and NRSG 510, 520, 540, 550, 560, 596 or consent of instructor, a clinical pretest. Presents continued epidemiology, etiology, differential diagnosis and management and prevention of additional selected health problems of the adult/geriatric patient in primary, secondary, and tertiary settings and a further delineation of the role of the nurse practitioner in these settings. The course provides information regarding normal and pathological conditions and the management theory base applicable for the role of the advanced practice nurse providing care to the adult in a changing environment of health care. Letter grade only (A-F).

**687A. Adult/Geriatric Clinical Studies in Advance Practice Nursing III (3) S**

Prerequisites: Admission to graduate program and NRS 510, 520, 530, 540, 550, 560, 596 or consent of instructor, a clinical pretest; corequisite: NRS 687. This clinical course is the first of two designed to allow the adult/geriatric nurse practitioner student the opportunity to apply theoretical knowledge in supervised clinical practice with adult and geriatric patients. An emphasis is placed on continuing to socialize into the nurse practitioner role. Letter grade only (A-F). (Laboratory 9 hours)

**687B. Adult/Geriatric Clinical Studies in Advance Practice Nursing IV (3) S**

Prerequisites: Admission to graduate program and NRS 510, 520, 530, 540, 550, 560, 596 or consent of instructor, a clinical pretest; corequisite: NRS 687. The second to two designed to allow the adult/geriatric nurse practitioner student the opportunity to apply theoretical knowledge in supervised clinical practice with adult and geriatric patients. An emphasis is placed on continuing to socialize into the nurse practitioner role. Letter grade only (A-F). (Laboratory 9 hours)

**688. Psychiatric/Mental Health Theories for Advance Practice Nursing I (3) F**

Prerequisites: Admission to graduate nursing program and NRS 510, 520, 540, 550, 560, 596 or consent of instructor. Study of the pathology, diagnostic methods, indications for referral, and management for nurse practitioner students of the medical, psychological, and social problems of clients of psychiatric facilities and community mental health agencies. Letter grade only (A-F).

**688A. Psychiatric – Mental Health Clinical Studies for Advance Practice Nursing I (3) F**

Prerequisites: Admission to graduate program and NRS 510, 520, 530, 540, 550, 560, 596 or consent of instructor; corequisite: NRS 688. The first of two supervised clinical practicums for nurse practitioner students which is focused on the application of mental health concepts. Theories from the prerequisite and concurrent nursing theory courses are applied and tested in the clinical setting. Credit/No Credit only. (Laboratory 9 hours)

**688B. Psychiatric – Mental Health Clinical Studies for Advance Practice Nursing II (3) F**

Prerequisites: Admission to graduate program and NRS 510, 520, 530, 540, 550, 560 or consent of instructor; corequisite: NRS 688. The second of two supervised clinical practicums for nurse practitioner students which is focused on the application of mental health concepts. Theories from the prerequisite and concurrent nursing theory courses are applied and tested in the clinical setting. Credit/No Credit grading only. (Laboratory 9 hours)

**689. Psychiatric – Mental Health Theories for Advance Practice Nursing II (3) S**

Prerequisites: Admission to graduate nursing program and NRS 510, 520, 530, 540, 550, 560, 596 or consent of instructor. The continued study at an advanced level of the pathology, diagnostic methods, indications for referral, and management for nurse practitioner students of the medical, psychological, and social problems of client of psychiatric facilities and community mental health agencies. Letter grade only (A-F).

**689A. Psychiatric – Mental Health Clinical Studies for Advance Practice Nursing III (3) S**

Prerequisites: Admission to graduate program and NRS 510, 520, 530, 540, 550, 560, 596 or consent of instructor; corequisite: NRS 689. The first of two supervised clinical practicums for nurse practitioner students focused on the application of complex mental health concepts. Theories from the prerequisite and concurrent nursing theory courses are applied and tested in the clinical setting. Letter grade only (A-F). (Laboratory 9 hours)

**689B. Psychiatric – Mental Health Clinical Studies for Advance Practice Nursing IV (3) S**

Prerequisites: Admission to graduate program and NRS 510, 520, 530, 540, 550, 560, 596 or consent of instructor; corequisite: NRS 689. The second of two supervised clinical practicums for nurse practitioner students focused on the application of complex mental health concepts. Theories from the prerequisite and con-

current nursing theory courses are applied and tested in the clinical setting. Letter grade only (A-F). (Laboratory 9 hours)

**692. Nursing Directed Project (1-4)**

Prerequisites: Admission to Graduate Nursing Program, advancement to candidacy, NRS 596 and consent of department graduate advisor. Planning, preparation and completion of a directed project appropriate to advanced practice nursing. May be repeated to a maximum of 4 units in different semesters. Letter grade only (A-F).

**695. Professional Literature (3)**

Prerequisites: NRS 596, consent of graduate and program advisors, advancement to candidacy. Critical analysis and synthesis by comparative review of professional literature in nursing practice, theory, and research. Not open to students taking NRS 698. Letter grade only (A-F).

**698. Thesis (1-4)**

Prerequisites: Admission to Graduate Nursing Program, advancement to candidacy, NRS 596, consent of department graduate advisor. Planning, preparation and completion of a thesis in clinical nursing. Letter grade only (A-F).

In a world where science plays an increasingly important role and where an understanding of the sciences is essential for a participating and informed citizenry, the College of Natural Sciences and Mathematics provides quality educational opportunities in the life, physical sciences, and mathematics. Students are provided a broad-based, fundamental education in the natural sciences and mathematics, and are challenged to think critically, analytically, and creatively. Alumni of the College demonstrate that science and mathematics graduates are well-prepared to enter graduate and professional schools or to assume responsible positions in industry or government. Employment opportunities for students with backgrounds in science and mathematics are traditionally excellent.

The College is dedicated to the concept that a university has a special responsibility toward academic excellence and the advancement of knowledge. The faculty and staff of the Departments of Biological Sciences (including the former departments of Anatomy and Physiology, Biology, and Microbiology), Chemistry/Biochemistry, Geological Sciences, Mathematics and Statistics, Physics/Astronomy, and Science Education are committed to providing an outstanding educational experience for all students.

The College takes its responsibilities in teacher preparation in the sciences and mathematics very seriously. It has recently embarked on several new projects that will provide a stronger, more rigorous, and more engaging set of teacher preparation programs at CSULB. With funding from the National Science Foundation, NASA, and the Knight Foundation, and in collaboration with Colleges of Education and Liberal Arts, Long Beach Unified School District, and Long Beach City College, science and mathematics faculty are working to enrich and align teacher preparation coursework and internship opportunities.

## *Degrees Offered*

Five departments within the College of Natural Sciences and Mathematics offer both the Bachelor of Science and Master of Science degrees. The Department of Science Education offers the Master of Science degree. The Departments of Chemistry/Biochemistry, and Physics/Astronomy also offer the Bachelor of Arts degree. Each degree has unique requirements and students should refer to the particular department's section of this *Catalog* to determine specific requirements. Ideally, all students participate in the Science Safari to Success (for first time freshmen) or EONS (Enrollment and Orientation in Natural Sciences and Mathematics for transfer students). Programs offered each June-July (for those entering in August) and January (for those entering in January). A department advisor will be available to assist in developing an appropriate academic plan consistent with career goals. During the semester, students may obtain academic advising by contacting the appropriate advisor(s) in the department offering the chosen degree program.

### *Student Research Opportunities*

Faculty in the College involve more than 200 students annually, both undergraduate and graduate, in a wide variety of research activities. Many of these students are supported by research grants, especially during the summer months. Each year many of these students present the results of their research at scientific conferences. It is not unusual for a student to co-author an article appearing in a major scientific journal.

The faculty's commitment to these students is based on the knowledge that involvement in scientific research makes the study of science more real and provides strong motivation for the student to pursue a career in science. Since the anticipated need for scientists far exceeds the enrollment of science majors, we are committed to meeting the short-fall by making the study of science at CSULB as "real world" as possible.

### *Jensen Student Access to Science and Mathematics (SAS) Center and Programs Offered*

A student center (FO5-109) adjacent to the Dean's office is dedicated to promoting success for students who pursue majors in the College and those who take courses in its departments. The Center also facilitates several externally funded programs including The National Institutes of Health (MARC, MSD, and Bridges to the Baccalaureate), and National Science Foundation (CRUI, AMP, and Noyce). The Center provides space for studying, tutoring, mentoring, computer access, and meeting sites for student-centered activities. The SAS Center also serves as the resource center for health profession advising, graduate school opportunities, and summer research opportunities and fellowships.

SAS coordinates and assures effective integration of all of our mentoring, enrichment, and outreach programs — including those based on undergraduate research. SAS is dependent on external funding for its success.

There are a host of activities and programs that strive to involve students and promote their success in science and mathematics. Several federally funded programs focus on underrepresented students and address the diversity of our campus. In addition to fostering involvement of students in science and mathematics, they feature an ethnic identity that provides a unique encouragement for 250 of our science majors.

MARC/MBRS Programs. The College hosts both programs funded by The National Institutes of General Medical Sciences: Minority Access to Research Careers (MARC) and Research Institute for Scientific Enhancement. Both programs have the goal of increasing the number and quality of students from historically underrepresented ethnic groups who pursue careers in scientific research. The 30 students supported by these programs carry out state-of-the-art biomedical research projects in conjunction with a member of the faculty. Virtually all of these students continue study toward advanced degrees in science. The MARC program is an honors program (GPA 3.0) for upper division students, while the MBRS-RISE program can support students as early as the freshman year and also upperdivision transfer students. As a result of their research activities, most students present papers at scientific conferences and often co-author publications appearing in leading scientific journals. In addition to

their research involvement, MARC/MBRS-RISE students are active in various outreach and mentoring activities.

Beckman Scholars Program. In 2003, CSULB was selected as one of 13 institutions nationwide to be the recipient of these prestigious Beckman Scholars Awards. The goal of the Beckman Scholars Program at CSULB is to advance the education, research training, and personal development of students who have the potential to achieve distinction in their academic field, as well as become outstanding leaders in their careers and professions. Support is provided for four students working toward bachelor's degrees in chemistry, biology, or physics in the form of student stipends, laboratory supplies and funds for travel to appropriate scientific meetings. Depending on the laboratory chosen for the research experience, students will receive rigorous training by faculty members in the use and applications of a variety of different techniques involved in nucleic acid research, protein biochemistry, biophysics, etc. The program will also provide counseling and career opportunities for entrance into higher degree programs in the sciences.

Bridges to the Baccalaureate Program. This program is funded by the National Institutes of General Medical Sciences and its goal is to provide historically underrepresented community college students with research opportunities in the biomedical sciences and to facilitate their seamless transition into baccalaureate granting institutions.

G-DEP Program. The Geoscience Diversity Enhancement Program (G-DEP) is an innovative, collaborative partnership between CSULB Departments of Geological Sciences, Geography, and Anthropology, and several community colleges and local high schools to improve the research and educational experiences of underrepresented students in geoscience (geologic, physical geographic, archaeological and environmental sciences disciplines). The goals of G-DEP are to (1) increase the number of underrepresented students who have a broad educational and research experience in the geosciences; (2) enhance the quantity and quality of Geoscience research and teaching by faculty members from the University, community colleges and high schools; (3) increase the awareness by community college and high school students of the field of geoscience, and related research careers and educational requirements; (4) create a seamless transition of underrepresented students from community colleges to study geosciences at the undergraduate level; and (5) increase the number of geoscience majors who are retained in their disciplines.

AMP Program. The College hosts the National Science Foundation's Alliance for Minority Participation (AMP) program. Its goal is to improve the mathematics and science preparation for historically underrepresented students majoring in the sciences, mathematics, and engineering and to enhance their opportunities for graduate studies.

Science Enrichment and Peer Mentor Programs. Peer mentoring provides our college students opportunities for tutoring to strengthen their academic and communication skills. This program is designed to provide first time freshmen in the College of Natural Sciences and Mathematics with the guidance and personal support that are vitally important to their success at CSULB. This program allows students to enroll in classes appropriate for their major and background, provides them with enriched learning experiences, and peer role models during their first academic year. The Science Enrichment Program

begins the week prior to the start of the fall semester. In order to be part of the program, students must be declared science or math majors and be enrolled in the presemester University 100 course.

**Honors in Biological Sciences.** This program was initiated by a grant from the Howard Hughes Medical Institute. Open to students with majors or career goals in the life sciences or related fields, it features an honors curriculum including courses in bioinformatics and research design as well as undergraduate research leading to a senior honors thesis and presentation at scientific conferences.

**Health Professions Advising Office (HPAO).** The Health Professions Advising Office (HPAO) provides a wide range of advising and support services designed to meet the needs of CSULB students as they navigate through the often-complex process of preparation and application to professional schools. The HPAO offers individual counseling, academic planning, application assistance, and many other resources designed specialty for students interested in medicine, dentistry, veterinary, pharmacy, optometry, podiatry, chiropractic, physician assistant, physical therapy, and graduate nursing.

### ***The Electron Microscopy Facility***

The study of the natural sciences requires observation of the macroscopic, microscopic, and sub-microscopic character of our universe. With this in mind, the College has established a modern Electron Microscope (EM) Facility which is used by several undergraduate courses in addition to undergraduate and graduate research projects. The pride of the EM Facility is the Joel-1200EXII transmission electron microscope (TEM), obtained through a National Science Foundation instrumentation grant. The Joel-1200EXII has a resolution of 0.14 nm and a magnification range of from 50 to 1,000,000 times. The EM Facility also houses additional TEMs and an AMR 1000 scanning electron microscope. The latter will be upgraded to include analytical capabilities.

### ***Student Organizations***

The College of Natural Sciences and Mathematics Student Council sponsors annual events including: a fall open house and spring picnic, Science Career Days, and the Nobel Laureate Speaker series. Six departmental associations plan various social and academic-related programs that offer peer support, as well as opportunities for students and faculty to interact outside of the classroom.

Four other student-led groups offer activities for students who are planning careers in one of the health professions (medicine, dentistry, etc.). The Organization of PreProfessional Students (T.O.P.P.S.) and Association of Pre-Dental Students (A.P.D.S.) have speaker series with representatives from professional schools; the group also holds social functions and provides a peer advising network. Chicanos/Latinos for Community Medicine (CCM) sponsors community outreach activities, an annual workshop on interviewing techniques, and an annual conference on applying to medical/professional schools.

### ***Southern California Marine Institute (SCMI)***

The Institute operates a number of research vessels, and provides the mechanism whereby students from CSU Ocean Studies Consortium campuses at Dominguez Hills, Fullerton, Long Beach, Los Angeles, Northridge, Pomona, San Diego,

and San Marcos, as well as Occidental College and the University of Southern California can share courses and degree programs. In addition, Institute staff conduct research and facilitate the research of CSU faculty. The major focus is on harbors and coastal areas, with emphasis on environmental issues.

### ***California Desert Studies Consortium***

CSULB participates in the California Desert Studies Consortium, which has a Desert Studies Center in the heart of the Mojave Desert at Soda Springs near the town of Baker. The surrounding area consists of typical Mojave Desert with dry lakes, sand dunes, and mountain ranges; it is the gateway to Death Valley and the Kelso Dunes. The Center has excellent facilities for teaching field classes and for research. California State Universities at Dominguez Hills, Fullerton, Long Beach, Los Angeles, Northridge, Pomona, and San Bernardino are the Consortia members.

## **Courses (NSCI)**

### **Lower Division**

#### **200. Introduction to Computer Methods in Science (2)**

Prerequisites: Major in the College of Natural Sciences and Mathematics; and MATH 119A or MATH 122 or consent of instructor. Introduction to computer methods used in collecting, analyzing, and presenting scientific data. Introduces word processing, spreadsheet analysis, and elementary programming. Credit/No Credit grading only. (Lecture 1 hr., discussion 1 hr.) Course fee may be required.

### **Upper Division**

#### **308. Community and Careers in the Health Professions (3) S**

Prerequisites: Completion of Foundation Courses, one or more Explorations Courses, upper division status, and 3 units of Natural Sciences coursework. This course is an upper division, service-learning, capstone course designed to develop students' abilities to critically think and analyze issues concerning health care in communities and the roles of professionals involved in the delivery of that care. Topics concerning biomedical ethics are also included. Students will be required to provide service in a community agency providing health care. In class, students will hear guest speakers, participate in discussions, analyze and reflect upon their volunteer experiences and how these experiences relate to in-class topics. This course will enhance oral and written communication skills, better define career goals, provide understanding of community needs and foster greater civic responsibility. Letter grade only (A-F). (Lecture 2 hrs., laboratory 3 hrs.)

#### **309I. Women in Science (3) F,S**

Prerequisites: Completion of the G.E. Foundation, six-units of general education science courses, upper-division standing, and permission of instructor. The purpose of this course is to increase awareness of the accomplishments of women in natural science, engineering, and mathematics in their socio-historical context; and the obstacles that have precluded easy access to careers for women in these areas. Specific topics include historical roles of women in science, contributions of celebrated women scientists, and women scientists who made significant contributions but were ignored or devalued by their scientific peers. Other key issues include stereotypes and images of women in science: cultural, societal, and institutional obstacles to the entry and success of women in science; and ways of overcoming these obstacles. Disciplines included in this course are science, history, and sociology. Letter grade only (A-F). Same course as W/ST 309I. (Lecture 3 hrs.)

### 333. Natural Science Field Studies (2)

Prerequisites: All with a grade of "C" or better: GEOL 106 or 102 and either 104 or 105; CHEM 100 or 105 or 111A; PHSC 112; BIOL 200; and upper-division standing. The purpose of this course is to provide students with field experience in observation, interpretation and recognition of natural processes and features in the varied natural environments of southern California. The course will be team-taught by a geologist and a biologist. In-class lectures and discussions will provide students with pertinent theoretical and practical knowledge prior to each field trip. Topics of discussion and study will focus on the geological and biological aspects of selected field sites, and on the underlying physical and chemical relationships involved at each site. Specific topics include the following: origin and recognition of faults; earthquake generation and hazards; geologic history of California; effect of mountain-building on climate, nearshore ocean processes, biology of nearshore, marine, estuarine and wetlands habitats; coastal, desert and mountain ecosystems; influence of rock/sediment on plant growth and diversity; geology and biology of lakes; and ground water and surface water flow, storage and contamination. Letter grade only (A-F). (Lecture 1 hr., laboratory and required field trips, 3 hrs.)

### 375I. Science and Society (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing; 3 units of general education natural science courses. The purpose of this course is to learn about the nature of science by studying major discoveries in the life and physical sciences that currently have an impact on our lives. In addition to the basic science that contributed to these technological advances, the historical, political, philosophical, and economic contexts of these events will be examined. Included will be discussions of what is science, how is it done, and is it beneficial or destructive? Traditional views of science will be challenged and the social/cultural aspects will be explored. Recent discoveries and the underlying basic science also will be critically evaluated. A special focus will be the demands placed on society by rapidly advancing technology. Letter grade only (A-F). (Lecture 3 hrs)

### 490. Special Topics in the Natural Sciences (1-3)

Prerequisites: At least upper division standing in the College of Natural Sciences and Mathematics and consent of instructor. Faculty and student discussions and analysis of a current topic in the natural sciences. May be repeated to a maximum of 6 units with different topics. Letter grade only (A-F). (Lecture 1-3 hrs.)

### 491. Special Topics Laboratory in Natural Science (1-2)

Prerequisites: Senior standing in the College of Natural Sciences and Mathematics and consent of instructor. Topics from selected areas of the natural sciences. Course content will vary from section to section. May be repeated to a maximum of 2 units toward any single degree. Letter grade only (A-F). (Laboratory 3-6 hrs.)

### 492. Internships In Natural Science (3)

Prerequisites: Major in the College of Natural Sciences and Mathematics, completion of 9 units of upper division science coursework, a 2.5 GPA overall or 2.75 GPA in the student's major, and consent of the instructor prior to registration. Students who qualify will be placed in a major or career-related assignment in private industry or at a public agency. Students may be placed in either a volunteer or paid work assignment. Teacher aide positions may be used for students interested in pursuing a career in science education in K-12 schools. Learning assignments will be arranged through the Career Development Center and the instructor. A final written report is required. Class attendance and internships to be arranged by the instructor. A minimum of 120 hours of field experience is required. Credit/No credit grading only.

### 496. Investigations in Natural Sciences and Mathematics (1-3)

Prerequisites: Consent of instructor. Supervised study of current topics in the natural sciences or mathematics by a faculty member in the College of Natural Sciences and Mathematics. Letter grade only (A-F).

# OCEAN STUDIES INSTITUTE

*College of Natural Sciences and Mathematics*

## Director

Richard Pieper

## Location

Fish Harbor

820 S. Seaside Ave.

Terminal Island, CA 90731

## Telephone

(310) 519-3172

## FAX

(310) 519-1054

## Website

<http://www.scmi.uw>

The Ocean Studies Institute was created in 1972 to coordinate teaching, research and community service in ocean studies on member campuses. Members include Dominguez Hills, Fullerton, Long Beach, Los Angeles, Northridge, Pomona, and San Marcos. The Institute does not offer degrees, but it serves as an administrative liaison to facilitate degree programs offered on member campuses.

The Institute operates a 76-foot research vessel for teaching and research purposes, obtains research grants and contracts, performs research, and is responsible for curriculum planning and facilities acquisition. Presently the Institute serves over 35 departments across eight campuses.

The courses and research in which the Institute is active reflect the broad applied approach of interdisciplinary, mission-oriented projects in harbors and the coastal zone.

## Courses (OSI)

### Upper Division

#### 313. Marine Invertebrate Zoology (4)

Prerequisite: BIOL 211A,B. Basic taxonomy, morphology, ecology, and distribution of invertebrates, excluding insects; emphasis on local marine forms. Letter grade only (A-F). (Lecture 2 hrs., laboratory and field 6 hrs.) Course fee may be required.

#### 345. Physiology of Marine Animals (4)

Prerequisite: BIOL 211A,B. Comparison of the fundamental physiological processes of the major marine phyla, both invertebrate and vertebrate. Laboratory and field investigations will be directed toward marine animals living in the local waters. Letter grade only (A-F). (Lecture 2 hrs., laboratory and field 6 hrs.) Course fee may be required.

#### 353. Marine Biological Processes (4)

Prerequisite: BIOL 211A,B. Study of pelagic and benthic marine ecosystems, including human influences. Letter grade only (A-F). (Lecture 2 hrs., laboratory and field 6 hrs.) Course fee may be required.

#### 417./517. Marine Benthic Invertebrates of Santa Catalina Island (4)

Prerequisite: OSI 313 or 353. (Undergraduates enroll in OSI 417; graduates enroll in OSI 517.) Topics include benthic community structure and function, benthic-pelagic coupling, animal-sediment relationships, animal interactions, and marine pollution ecology. Laboratory emphasis will be on identification of local forms. Letter grade only (A-F). (Lecture 2 hrs., laboratory and field 6 hrs.) Course fee may be required.

#### 419./519. Marine Ichthyology (4)

Prerequisite: OSI 353. (Undergraduates enroll in OSI 419; graduates enroll in OSI 519.) Taxonomy, morphology, physiology, and ecology of fishes. Emphasis on local marine fishes. Letter grade only (A-F). (Lecture 2 hrs., laboratory and field 6 hrs.) Course fee may be required.

#### 420./520. Ecology of Marine Fishes (4)

Prerequisite: OSI 419/519. (Undergraduates enroll in OSI 420; graduates enroll in OSI 520.) Fish species assemblages, general ecology, adaptations, and behavioral ecology of marine fishes. Emphasis on local marine fishes. Course fee may be required. Letter grade only (A-F). (Lecture 2 hrs., laboratory and field 6 hrs.)

#### 425./525. Marine Phycology (4)

Prerequisite: BIOL 211A, B. (Undergraduates enroll in OSI 425; graduates enroll in OSI 525.) Taxonomy, phylogeny, ecology, and physiology of marine algae; emphasis on local marine forms. Letter grade only (A-F). (Lecture 2 hrs., laboratory and field 6 hrs.) Course fee may be required.

#### 455./555. Marine Ecological Processes (4)

Prerequisite: OSI 353 or BIOL 350; statistics recommended. (Undergraduates enroll in OSI 455; graduates enroll in OSI 555.) Discussion of field studies on ecological principles related to marine communities. Includes an individual field research project and class projects. Letter grade only (A-F). (Lecture 2 hrs., field 6 hrs.) Course fee may be required.

#### 458./558. Ecology of Southern California Marine Plankton (4)

Prerequisite: OSI 353. (Undergraduates enroll in OSI 458; graduates in OSI 558.) Physiological ecology of marine phytoplankton and zooplankton as a basis for study of structure, dynamics, and modeling of plankton communities. Letter grade only (A-F). (Lecture 2 hrs., laboratory and field 6 hrs.) Course fee may be required.

#### 460./560. Oceanographic Techniques (4)

Prerequisite: Consent of instructor. (Undergraduates enroll in OSI 460; graduates enroll in OSI 560.) An interdisciplinary survey of techniques and procedures used in collection of oceanographic data in the fields of biology, chemistry, geology, and physics. Students become familiar with oceanographic equipment and methodologies that emphasize on-the-job training aboard ship and in the laboratory. Letter grade only (A-F). (Lecture 2 hrs.; laboratory and field 6 hrs.) Course fee may be required.

#### 490./590. Special Topics in Ocean Studies (1-3)

Prerequisite: Consent of instructor. (Undergraduates enroll in OSI 490; graduates enroll in OSI 590.) Topics from selected areas of Ocean Studies. Course content will vary from section to section. May be repeated to a maximum of 6 units with the consent of instructor. Maximum credit for OSI 490/590 and/or 490L/590L limited to 6 units. Topics to be announced in the *Schedule of Classes*. Letter grade only (A-F). (Lecture 1-3 hrs.) Course fee may be required.

#### 490L./590L. Laboratory in Special Topics in Ocean Studies (1-3)

Prerequisite: Consent of instructor. (Undergraduates enroll in OSI 490L; graduates enroll in OSI 590L.) Topics from selected areas of Ocean Studies. Course content will vary from section to section. May be repeated to a maximum of 6 units with the consent of instructor. Maximum credit for OSI 490/590 and/or 490L/590L limited to 6 units. Topics to be announced in the *Schedule of Classes*. Letter grade only (A-F). (Laboratory 3-9 hrs.) Course fee may be required.

#### 496. Undergraduate Directed Research (1-3)

Prerequisite: Consent of instructor. Not available to graduate students. Independent research to be conducted under the supervision of a Catalina Semester instructor. Students develop their ideas during the first 12 weeks of the semester, prepare a research proposal, complete their studies, and present their findings in a mini-symposium and a report. Letter grade only (A-F).

### Graduate Level

#### 517./417. Marine Benthic Invertebrates of Santa Catalina Island (4)

Prerequisite: OSI 313 or 353. (Undergraduates enroll in OSI 417; graduates enroll in OSI 517.) Topics include benthic community structure and function, benthic-pelagic coupling, animal-sediment relationships, animal interactions, and marine pollution ecology. Laboratory emphasis will be on identification of local forms. Letter grade only (A-F). (Lecture 2 hrs, laboratory and field 6 hrs.) Course fee may be required.

#### 519./419. Marine Ichthyology (4)

Prerequisite: OSI 353. (Undergraduates enroll in OSI 419; graduates enroll in OSI 519.) Taxonomy, morphology, physiology, and ecology of fishes. Emphasis on local marine fishes. Letter grade only (A-F). (Lecture 2 hrs., laboratory and field 6 hrs.) Course fee may be required.

#### 520./420. Ecology of Marine Fishes (4)

Prerequisite: OSI 519/419. (Undergraduates enroll in OSI 420; graduates enroll in OSI 520.) Fish species assemblages, general ecology, adaptations, and behavioral ecology of marine fishes. Emphasis on local marine fishes. Letter grade only (A-F). (Lecture 2 hrs., laboratory and field 6 hrs.) Course fee may be required.

#### 525./425. Marine Phycology (4)

Prerequisite: BIOL 211A, B. (Undergraduates enroll in OSI 425; graduates enroll in OSI 525.) Taxonomy, phylogeny, ecology, and physiology of marine algae; emphasis on local marine forms. Letter grade only (A-F). (Lecture 2 hrs., laboratory and field 6 hrs.) Course fee may be required.

#### 555./455. Marine Ecological Processes (4)

Prerequisite: OSI 353 or BIOL 350; statistics recommended. (Undergraduates enroll in OSI 455; graduates enroll in OSI 555.) Discussion of field studies on ecological principles related to marine communities. Includes an individual field research project and class projects. Letter grade only (A-F). (Lecture 2 hrs., laboratory and field 6 hrs.) Course fee may be required.

#### 558./458. Ecology of Southern California Marine Plankton (4)

Prerequisite: OSI 353. (Undergraduates enroll in OSI 458; graduates enroll in OSI 558.) Physiological ecology of marine phytoplankton and zooplankton as a basis for study of structure, dynamics, and modeling of plankton communities. Letter grade only (A-F). (Lecture 2 hrs., laboratory and field 6 hrs.) Course fee may be required.

#### 560./460. Oceanographic Techniques (4)

Prerequisite: Consent of instructor. (Undergraduates enroll in OSI 460; graduates enroll in OSI 560.) An interdisciplinary survey of techniques and procedures used in collection of oceanographic data in the fields of biology, chemistry, geology, and physics. Students become familiar with oceanographic equipment and methodologies that emphasize on-the-job training aboard ship and in the laboratory. Letter grade only (A-F). (Lecture 2 hrs.; laboratory and field 6 hrs.) Course fee may be required.

#### 590./490. Special Topics in Ocean Studies (1-3)

Prerequisite: Consent of instructor. (Undergraduates enroll in OSI 490; graduates enroll in OSI 590.) Topics from selected areas of Ocean Studies. Course content will vary from section to section. May be repeated to a maximum of 6 units with the consent of instructor. Maximum credit for OSI 490/590 and/or 490L/590L limited to 6 units. Topics to be announced in the *Schedule of Classes*. Letter grade only (A-F). (Lecture 1-3 hrs.) Course fee may be required.

#### 590L./490L. Laboratory in Special Topics in Ocean Studies (1-3)

Prerequisite: Consent of instructor. (Undergraduates enroll in OSI 490L; graduates enroll in OSI 590L.) Topics from selected areas of Ocean Studies. Course content will vary from section to section. May be repeated to a maximum of 6 units with the consent of instructor. Maximum credit for OSI 490/590 and/or 490L/590L limited to 6 units. Topics to be announced in the *Schedule of Classes*. Letter grade only (A-F). (Laboratory 3-9 hrs.) Course fee may be required.

#### 697. Directed Research (1-3)

Prerequisite: Consent of instructor and graduate standing. Independent research to be conducted under the supervision of a Catalina Semester instructor. Students develop their ideas during the first 12 weeks of the semester, prepare a research proposal, complete their studies, and present their findings in a mini-symposium and a report. Letter grade only (A-F).

Students desiring information should contact the department office for referral to one of the faculty advisors, Credential Analyst, Graduate Advisor, Undergraduate Advisor, Designated Subjects Credential Coordinator, or Distance Learning Administrator.

Occupational Studies is designed to enable persons to gain the competencies requisite for successful employment in secondary schools, community colleges and adult programs as teachers, coordinators and supervisors of vocational, occupational, career preparation, and related human resource development programs.

Instructional programs are offered on- and off-campus throughout California and out-of-state. Most off-campus instruction is offered via distance learning modes of video, Internet, integrated live instruction, and combinations of these three.

## Designated Subjects Credential (code 300)

This program of instruction identifies and develops on an individualized basis the teaching competencies requisite for successful employment in designated subjects programs, as required by the California Commission on Teacher Credentialing.

## Bachelor of Science in Occupational Studies

California State University, Long Beach (CSULB) offers a Bachelor of Science Degree in Occupational Studies. This degree is targeted primarily towards employed persons serving in business, industry, labor, government and occupational education teachers and counselors serving in the public, private and non-profit sectors. The BS program will help these people grow in level of professional participation in their various occupational subject areas, knowledge of the respective training and development methods, and problems of work-life education in an information and technological society. The primary goal of the program is to improve the competencies of human resource development personnel to instruct in technical subjects, to design curriculum, to advise learners, and to evaluate curriculum and learner performance.

The Bachelor of Science degree requires 124 units of college work. The major consists of 73 units comprised of (a) a unit core of 27 units, (b) foundation and occupational competency coursework (12 to 25 units depending on student's option), and (c) options of 25 to 34 units. The foundation and occupational competency courses, generally lower division, are elected from (a) the social and behavioral sciences, (b) occupationally based technical courses, or (c) a combination of both. Nine units of occupational competence may be granted for prior learning in the Bilingual, Corporate Training, Research and Evaluation, and Transitional Services options.

### Option in Corporate Training and Development (code OCSTBS02) (124 units)

The option in corporate training and development prepares students for human resource development positions as training specialists, training materials developers, and training systems analysts. These specialists serve as support personnel assisting in the analysis and interpretation of job analysis data and translating these data into training and development programs. They assist technical content experts in the design and delivery of instruction. The required courses for this option are: OCST 300, 330, 388I, 410, 411, 412, 417I, 418, 420, 421, 435, 456, 461, 485, 492, 494, 495; OCST 490 or an approved alternative from one of the following: ET 307, 309. This option requires 22 units of foundation and occupational competency coursework determined in consultation with an Occupational Studies department academic advisor.

### Option in Research and Evaluation (code OCSTBS03) (124 units)

The option in research and evaluation prepares students for careers as labor market analysts, training evaluation specialists, and evaluation research specialists in public postsecondary education, government employment development agencies, and private industry. These specialists develop evaluation guidelines, evaluate training and development programs including maintaining task lists and training program descriptions, determine the effectiveness and currency of instructional content and methods, and assess trainee performance in training and on-the-job. The required courses for this option are: OCST 300, 330, 410, 411, 412, 418, 420, 421, 422, 456, 480, 483, 485, 490; EDP 400, 419. This option requires 25 units of foundation and occupational competency coursework determined in consultation with an Occupational Studies department academic advisor.

### Option in Transition Services (code OCSTBS04) (124 units)

The option in transition services prepares students for professional positions in secondary and postsecondary occupational special education, rehabilitative services, and related adult services. Graduates develop competencies as educational and human resource development specialists in transition services for individuals with disabilities. The curriculum for this option was developed under research sponsored by the Office of Special Education and Rehabilitation Services, United States Department of Education. The required courses for this option are: OCST 300, 330 360, 410, 411, 412, 418, 420, 422, 456, 460, 463, 480, 485, 497, 499, 461; EDP 350, 405; REC 416 or an approved alternative from one of the following: FCS 413, 418; COUN 430; SW 350, 351. This option requires 12 units of foundation and occupational competency coursework determined in consultation with an Occupational Studies department academic advisor.

### Option in Vocational Arts (code OCSTBS05) (124 units)

This option is designed for teachers in employment-related educational programs that meet the requirements of the State Education Code, Sections 89220, 89221, 89222 and 89223. Specifically, candidates for this option must:

1. Teach or have taught at least 1,620 student contact hours in a full-time position or 1,000 student contact hours in a part-time position in an approved occupational education curriculum.
2. Hold a teaching credential authorizing service as a vocational teacher (community college instructors affected by AB 1725 are exempt from this requirement; however, they must demonstrate instructional competencies by completing prescribed teacher certification courses); and
3. Have worked at least seven years full-time or the equivalent in the field(s) named on the credential. Candidates, upon completion of these requirements and in consultation with their adviser, submit an application with documentation verifying occupational, managerial, teaching, and professional development experience. Upon approval of the application, the California State Board of Examiners for Vocational Teachers recommends advancement to degree candidacy. Advancement to candidacy includes the preparation of an individualized program emphasizing three areas of occupational studies: 1) the relation of education and work, 2) teaching learners with special needs, and 3) research and evaluation. The required courses for this option are: OCST 300, 330, 410, 411, 412, 413; OCST 420 or 421 or 422; OCST 456 or 460 or 461; OCST 418 or 485. This option requires foundation and occupational competency coursework as determined by the State Board of Examiners for Vocational Teachers and in consultation with an Occupational Studies department academic advisor.

### Master of Arts in Occupational Studies (code OCSTMA01)

The Master of Arts degree in Occupational Studies is available to qualified students preparing for professional careers in the fields of career, occupational, and vocational education. A major thrust is the development of qualified leadership personnel to serve occupational education programs in public and private education as well as related human resource development programs in California and the nation.

The graduate program in occupational studies consists of three parts. The first part is a 15 unit set of required or core coursework in the following areas:

- History and foundations of occupational education (OCST 501)
- Leadership development (OCST 502)
- Management skills (OCST 503)
- Research and evaluation (OCST 505 and 696)

The second part is an area of specialization which is selected by the student in consultation with an advisor. Examples of program specialization areas follow:

- Administrative studies – for persons interested in administration of occupational education in public or private sectors.
- Special populations – for persons planning to work with learners who are culturally different, handicapped, and/or limited English proficient in occupational education settings.
- Corporate training and development – for persons interested in development, implementation, and evaluation of training programs in a variety of business or industrial settings.
- Career guidance – for persons interested in counseling and guidance services in education and employment settings.

Research and evaluation – for persons planning to work in research and evaluation units in public and private agencies or to pursue advanced graduate studies.

Curriculum and instruction – for persons interested in developing occupational education courses and programs in public and proprietary institutions.

The third program part is the decision to conduct a major research study (the thesis option) or to complete a comprehensive examination near the end of the Master's program.

Each applicant must submit a copy of transcripts for all college work to the program office, in addition to the official copies required by the Office of Admissions and Records.

#### Prerequisites

1. A bachelor's degree in occupational studies, with a minimum of 24 upper division units in vocational education comparable to courses offered at this University; or
2. A bachelor's degree with a minimum of 24 upper division units comparable to courses offered at this University in the discipline in which the degree was awarded.
3. Successful completion of Departmental Writing Examination.

#### Advancement to Candidacy

1. Satisfaction of the general University requirements for advancement to candidacy, including successful completion of the Graduation Writing Assessment Requirement (GWAR);
2. Completion of all core courses;
3. Maintenance of B average (3.0 GPA) in all work completed in graduate program;
4. Approval of Occupational Studies Graduate faculty and Director of Graduate Studies and Research, College of Health and Human Services.

#### Requirements

1. Completion of OCST 501, 502, 503, 505, 696;
2. Completion of 30 units of approved upper division and graduate courses and a thesis (OCST 698) and an oral presentation of the thesis approved by Department Graduate Committee; or 36 units of approved upper division and graduate courses and a written comprehensive examination.

### Master of Science in Emergency Services Administration (code OCSTMS01)

The Master of Science (MS) in Emergency Services Administration is designed to provide students with the conceptual foundation and managerial communication and analytical skills required for designing, testing and implementing an effective response to workplace and community emergencies. Such emergencies may involve the potential loss of human life and property due to fire, explosion, the release of hazardous chemicals, structural failures, natural calamities, and terrorist acts. The program has two major purposes: 1) to provide an understanding of the administration and management of emergency services with an emphasis on the roles and job expectations of emergency managers, and 2) to prepare students for leadership roles in emergency and disaster administration by stressing independent research, communication and writing skills, exposure to experts, and practical experi-

ences of respected emergency services and disaster organizations. The intended audiences are practitioners from the public and private sectors who are engaged in the delivery or coordination of emergency services. The program is offered in the traditional classroom setting, and is enhanced with a careful blend of technology-assisted instruction.

#### Admission Criteria

1. Obtain admission to graduate standing by completing and forwarding the official CSULB graduate admission forms and fees to the University and the Graduate Advisor, Occupational Studies Department, CSULB. Each applicant for graduate standing shall have completed an appropriate baccalaureate degree from an accredited university.
2. Request that official transcripts from all colleges and universities attended be forwarded to the graduate advisor, Occupational Studies Department, CSULB.
3. Have at least a 2.50 grade-point average in the last 60 semester units attempted.  
Be accepted by the Occupational Studies program and the graduate advisor for admission to the graduate program.

#### Program Description

The Master of Science Degree in Emergency Services Administration is designed for individuals who work or wish to work as administrators in one of the areas of emergency administration. These areas include police and fire administration, public utilities, dispatch, and emergency (disaster) operations. The degree will equip students with a broad knowledge of the activities and the relationships of the emergency services to each other, to the community, and to other public and private entities that are affected by emergency services. Students may specialize in program development and evaluation, training, personnel, budgeting, or inter-agency relations.

#### Advancement to Candidacy

1. Satisfaction of the general University requirements for advancement to candidacy, including successful completion of the Graduation Writing Assessment Requirement (GWAR);
2. Completion of all core courses;
3. Maintenance of B average (3.0 GPA) in all work completed in graduate program;
4. Approval of Occupational Studies Graduate faculty and Director of Graduate Studies and Research, College of Health and Human Services.

#### Requirements

1. OCST 502, 505, 543, 650, 696, PPA 542 or 577.
2. Completion of 30 units of approved upper division and graduate courses and a thesis (OCST 698) and an oral presentation of the thesis approved by the Department Graduate Committee; or 36 units of approved upper division and graduate courses and a written comprehensive examination.

The graduate program consists of three parts. The first part is an 18-unit set of required core course work as indicated in (1) above. The second part is the elective component or area of specialization consisting of 18 units if the Comprehensive Examination option is chosen or 8 units for the Thesis option. Electives from the 400, 500, or 600 series are selected in consultation with a faculty advisor. The third part is to complete a thesis (OCST 698) or take a comprehensive examination.

## Courses (OCST)

### Upper Division

#### 300. Orientation to Occupational Studies (3)

Prerequisite: Qualified for admission to the baccalaureate degree program under California Education Code, Sections 89220, 89221, 89222, and 89223. Orientation to baccalaureate education and the five options of the Occupational Studies Bachelor of Science degree. Career opportunities, historical overview, and department structure of each option. Philosophy and development of comprehensive employment-related education in California, its present place and functions in the total system of education. Preparation of the "Swan Bill" application and individualized program of studies. Letter grade only (A-F).

#### 301. Community and Occupational Experiential Learning (1-9)

Prerequisite: OCST 300, upper division standing. Open only to majors in options 3-1051, 3-1052, 3-1053, or 3-1054 of the Bachelor of Science in Occupational Studies degree. Credit for supervised and documented field experience and professional development in an occupation. Students are responsible for completion and submittal to the department the work experience and professional development portions of the State Board of Examiners for Vocational Teachers application for credit. Credit/No credit grading only.

#### 330. Literacy for the Workplace (3)

Prerequisite: ENGL 100 or equivalent. Development of an understanding of what is needed/meant by workplace literacy and what can be done to improve basic skills and literacy for work of employees and students in occupational programs. Course content includes principles of effective writing and oral communication for education and the workplace, extensive practice in various forms of writing for education and the workplace, and case studies of education and workplace reports, negotiations, and oral presentations. Letter grade only (A-F).

#### 360. Foundation of Transition Services (3)

Prerequisites: Consent of instructor. An overview of the models, personnel roles, practices, and delivery systems of services for youth and adults with special needs in their transition from school to work and independent living. Letter grade only (A-F).

#### 388I. Technological Literacy (3)

Prerequisites: Completion of GE Foundation requirements, upper division standing, ENGL 100. Exploring technological concepts as they impact on humans, society and cultures. Emphasis will be placed on technology as a human adaptive system and its relationship to sociological and ideological systems. Letter grade only (A-F).

#### \*410. Curriculum Development for Designated Subjects (3)

Prerequisites: Enrollment in Designated Subjects Credential Program, BS or master's degree programs. Techniques of curriculum planning and development in occupational and adult education. Components include needs assessment strategies, course content, performance objectives, development of specific units of instruction, learner characteristics, and learning theories applicable to curriculum development. Letter grade only (A-F).

#### \*411. Instruction and Evaluation for Designated Subjects Teachers (3)

Prerequisites: OCST 410 or consent of instructor. Enrollment in Designated Subjects Credential Program, BS or master's degree. Techniques and evaluation of instruction in occupational and adult education. Components include motivation, presentation, application, and evaluation techniques necessary to teach all students in occupational and adult education. Letter grade only (A-F).

#### \*412. Advanced Program Development and Instruction (3)

Prerequisites-Enrollment in BS, master's or Designated Subjects Credential Program. Advanced techniques of teaching designated subjects. Components include curriculum, instruction, communication, program evaluation, classroom management, technology in the classroom, and the latest knowledge and practices for teaching all students in occupational and adult educa-

tion and for effecting their transition from school to work. Letter grade only (A-F).

#### \*413. Foundations of Designated Subjects Credential Programs (3)

Prerequisites-Enrollment in BS, master's or Designated Subjects Credential Program. An examination of the foundations and principles of occupational education with a specific focus on programs subsumed under designated subjects credentials. Letter grade only (A-F).

#### 417I. Technology, Ethics, and Society (3)

This course is designed to provide students with a framework for understanding the ways in which human societies transform themselves through technological innovation. New technologies enlarge society's options, thereby requiring consideration of ethical questions concerning the social effects of technological change.

#### \*418. The Marketplace for Occupational Education (3)

Studies of public and private agencies that serve persons who have the need to identify, prepare for and use occupational education; where such persons are placed, what they do, their successes and failures, and future trends and needs.

#### \*420. Program Evaluation (3)

Analysis of evaluation approaches for programs and systems. The major phases and steps involved in organizing, conducting, and reporting an evaluation will be examined. Students will be exposed to a variety of program evaluation systems currently in operation and will design a functional evaluation plan for a program in their respective professional fields. Letter grade only (A-F).

#### \*421. Research Design (3)

Study of research designs applicable in a variety of professional fields. Calculation of basic statistics, development of research proposals, use of minicomputers in occupational research. Letter grade only (A-F).

#### \*422. Grants and Contract Writing (3)

Study of process of contract and grant proposal writing for public-and private-funding agencies, including budget preparation. Letter grade only (A-F).

#### \*435. Principles of Adult Education (3)

Instruction on the scope and function of adult education including the local, state, and federal levels. Principles and practices of adult education, philosophical perspectives, and professional issues are discussed. Letter grade only (A-F).

#### \*456. Attitude Awareness in Education and the Workplace (3)

Introduction to and application of the principles of communication, human relations, understanding other people, attitude recognition and development, and mental steps to motivation. Contributions of the behavioral sciences to more effective teaching will be examined and plans for their implementation will be prepared. Letter grade only (A-F).

#### 457I. Working Around the World (3)

Prerequisites: Completion of GE Foundation requirements, one or more exploration courses, upper division standing. A study of the effects that religion, language and culture, political structure, economics, and physical environment have on the development of work and people's perceptions of work and occupations in the United States and other countries around the world. Letter grade only (A-F).

#### \*460. Instructional Methods for Learners with Special Needs (3)

Identification, assessment and instructional development strategies for students or employees with diverse needs. Letter grade only (A-F).

#### \*461. Instructional Methods for Teachers of Diverse Students (3)

Techniques of teaching sociologically, economically, and culturally diverse learners in occupational education. Emphasis on methods, motivation, counseling, and instructional organization. Letter grade only (A-F).

**463. Job Development (3)**

Prerequisites: Consent of instructor. An overview of techniques and strategies needed to successfully develop employment opportunities for people with special needs. Letter grade only (A-F).

**\*470. Seminar (3)**

Study of the major problems and issues confronting the educator and practitioner. Letter grade only (A-F).

**\*480. Internship (1-4)**

Internship in community, business, or school employment and training development programs which involve instruction, administration and research. Letter grade only (A-F).

**483. Senior Thesis or Project (1-3)**

Identification of, planning, preparation and completion of a project to solve or research problems particular to a business, educational or industrial setting. Written report required.

**\*485. Identifying Management Competencies (3)**

A lecture and discussion course focusing on the identification of competencies requisite for effective program management. These competencies are categorized in three domains, including, but not limited to: the interrelationships of concepts, things, and people. Letter grade only (A-F).

**\*490. Independent Study (1-3)**

Individual research and study under the direction of a faculty member in areas not an integral part of any regular course. Written report is required. May be repeated to a maximum of 3 units. Letter grade only (A-F).

**492./592. Training the Trainer (4)**

A comprehensive course for trainers, including needs assessment, instructional design, facilitation, evaluation, organization development (OD), succession planning and international and cross-cultural training. Not open to graduate students who have previously earned OCST 492 credit in this course. Letter grade only (A-F).

**494./594. Organization Development (3)**

Concepts, models, theories, and techniques for planning, facilitating, and evaluating organization development (OD) interventions, which includes a variety of industrial trainer support roles and strategies for internally and externally implementing OD activities. Not open to graduate students who have previously earned OCST 494 credit in this course. Letter grade only (A-F).

**495./595. Succession Planning for Organizations (2)**

Prepare students to ensure the effective performance of an organization by making provision for the development, training, and replacement of key people in work activities over time. Identification of replacement needs for critical positions, clarification of present and future work activities, and establishment of criteria to develop high performing workers. Not open to graduate students who have previously earned OCST 495 credit in this course. Letter grade only (A-F).

**\*497. Practicum (1-6)**

Action-oriented organized learning directed toward identifying the major problems and issues confronting education work and suggesting practical solutions for the practitioner.

**\*499. Special Topics (1-3)**

Topics of current interest will be selected for intensive group study. Topics will be announced in the *Schedule of Classes*. May be repeated to a maximum of 6 units.

**Graduate Level****501. Foundations of Occupational Education (3)**

Examination of history and development of occupational education in the United States. Particular attention is devoted to the multiple purposes and principles of occupational education, key federal legislation and contemporary issues and developments affecting occupational education. Letter grade only (A-F).

**502. Administrative Leadership (3)**

Concepts and techniques of personal and professional administrative leadership. Same course as PPA 502. Letter grade only (A-F).

**503. Program Management (3)**

Advanced principles and procedures of management emphasizing operations, and evaluation of employment and training related programs. Letter grade only (A-F).

**504. The Environments of Occupational Education (3)**

Interrelationships among occupational education, business, industry, government and society. Letter grade only (A-F).

**505. Critical Analysis of Issues and Problems in Education and the Workplace (3)**

Prerequisite: Completion of other degree-required core courses. In-depth analysis of major research reports and review of historical and contemporary issues and problems. Particular attention will be given to the various research methodologies used to examine issues and problems in the field. Same course as PPA 505. Letter grade only (A-F).

**508. Transition Services for Youth and Adults With Disabilities (3)**

Examination of various models for and approaches to providing education and employment-related services to disabled persons in transition from school to adult life. Letter grade only (A-F).

**510. Workforce Development Policy: Trends, Issues, and Analyses (3)**

Prerequisite: Graduate standing. This course prepares individuals to function in leadership roles in workforce development; to analyze policy issues, theory, and political implications; to engage in research and policy development; and to understand the role of organizational theory, economics, school law and labor negotiations, and educational administration and finance in postsecondary technical and community colleges. The course emphasizes techniques for evaluating policy and for understanding the administrator's central role as a connector between public schools and universities and between business, industry, and local communities, as well as the nature and context of postsecondary institution ideas and processes. Letter grade only (A-F).

**514. Municipal Law for Administrators (3)**

Examination of major laws and legal issues affecting local government today. Basic powers of cities including regulatory (police) powers, corporate (service) powers, taxation and eminent domain will be studied. Will develop problem solving abilities through legal analysis, and will explore new parameters and changing standards in litigious society looking for "deeper pockets," slower growth, and greater citizen involvement in local government. Selected areas of study will include the impact of recent U.S. Supreme Court cases on land use regulation; California Redevelopment Agency law; municipal tort liability and civil rights matters; public-private financial ventures and bond financing; city council meeting and hearing procedures; the "Brown Act", and public records; public works contracts and building code enforcement; and public labor law trends and developments. Same course as PPA 514. Letter grade only (A-F).

**535. Intergovernmental Relations (3)**

This course will present fundamental concepts and issues of intergovernmental relations in the United States. Topics covered include history of the field, intergovernmental revenues and expenditures, state and federal legislative processes, legislative advocacy, interorganizational management, and current issues. Same course as PPA 535. Letter grade only (A-F).

**542. Emergency Planning and Management (3)**

Students will study the planning and management processes and the issues involved in large-scale emergencies. The nature of natural and technological risk and emergency will be explored via case studies. The public sector roles in contingency planning and response will be assessed. Same course as PPA 542. Letter grade only (A-F).

**543. Legal, Economic, and Human Issues in Emergency Administration (3)**

This course provides an overview of the legal, strategic, political, economic, ethical, and human issues encountered in the management of disasters or major traumatic public events. This knowledge gives the emergency administrator a realistic view of the issues to expect in a disaster, how to plan accordingly, and how to manage resources and people more effectively in emergency situations. Letter grade only (A-F). (Discussion 3 hours.)

**555. Government Budgeting and Finance (3)**

This course focuses on the formulation phase in the budget cycle. The course presents the major concepts and skills associated with budget preparation for all levels of government. Topics include: budget processes and structures, fundamental processes of public finance, economic growth and fiscal impacts, basic principles of government accounting, budget formats, performance measurement, fiscal condition and stress, revenue sources and structures, estimation and forecasting, capital budgeting and evaluating public projects, and fiscal federalism. Same course as PPA 555. Letter grade only (A-F).

**577. Public Sector Human Resources Management (3)**

The historical development of the civil service/merit system and how this impacts public personnel systems; laws which affect the operation of a personnel system; analysis of the various components of a personnel system; impact of labor negotiations on personnel systems; importance of written policies and procedures; and role of the personnel system as a change agent. Same course as PPA 577. Letter grade only (A-F).

**591. Corporate Training Development (3)**

The selection and organization of corporate training curricula and development of courses of study to be used in public and private Occupational Education programs. Letter grade only (A-F).

**592./492. Training the Trainer (4)**

A comprehensive course for trainers, including needs assessment, instructional design, facilitation, evaluation, organization development (OD), succession planning and international and cross-cultural training. Not open to graduate students who have previously earned OCST 492 credit in this course. Letter grade only (A-F).

**593. Corporate Training Methods (3)**

Teaching techniques, philosophy, organization and planning in corporate training programs, public and private education. Letter grade only (A-F).

**594./494. Organization Development (3)**

Concepts, models, theories, and techniques for planning, facilitating, and evaluating organization development (OD) interventions, which includes a variety of industrial trainer support roles and strategies for internally and externally implementing OD activities. Not open to graduate students who have previously earned OCST 494 credit in this course. Letter grade only (A-F).

**595./495. Succession Planning for Organizations (2)**

Prepare students to ensure the effective performance of an organization by making provision for the development, training, and replacement of key people in work activities over time. Identification of replacement needs for critical positions, clarification of present and future work activities, and establishment of criteria to develop high performing workers. Not open to graduate students who have previously earned OCST 495 credit in this course. Letter grade only (A-F).

**650. Graduate Seminar (3)**

Study of selected topics in occupational education, including important legislation, industrial innovations, technical change, and contemporary problems. Topics will be announced in Schedule of Classes. May be repeated to a maximum of 6 units. Same course as PPA 651. Letter grade only (A-F).

**696. Research Methods (3)**

Prerequisite: OCST 421 or equivalent. Selecting, defining and presenting methods of research; demonstration of research theory to problem solution. Letter grade only (A-F).

**697. Directed Studies (1-3)**

Prerequisite: Advancement to candidacy. Research in an area of specialization under the direction of a faculty member. Letter grade only (A-F).

**698. Thesis (1-4)**

Prerequisite: Advancement to candidacy. Planning preparation and completion of a thesis. Letter grade only (A-F).

# ODYSSEY THEME YEAR PROJECT

## Odyssey 2005-2006 – The Lifespan: Mind, Body, and Health

### Odyssey Theme Year Project

During the 1996-97 academic year, CSULB inaugurated the first in a series of theme years. Each theme year involves the campus and the community in a year-long series of major speakers, conferences, performances, films, events, field trips, and classes (across campus and in the community) focused on a single intellectual issue of importance to our time.

The name "Odyssey" was chosen as the title for the theme year project because of its identification with Homer's epic tale of Odysseus. This mythical Greek hero's years of wandering have come to symbolize a voyage of discovery and adventure. Each year CSULB students have the unique opportunity to engage in their own "intellectual" voyage of discovery and adventure by taking courses which integrate in- and out-of-classroom experiences. Some students might choose to apply their courses to an interdisciplinary certificate program.

*Odyssey 1996-97: The City* was the first thematic year and was devoted to exploration of The City in Southern California, America and the globe at the turn of the millennium. *Odyssey 1997-98* focused on *The Earth: Origins, Evolution, and The Search for Meaning*. *Odyssey 1998-99* explored *The Self and Its Sources: Individuals and Community*. During 1999-2000, *The Community: Spatial, Cultural and Virtual* was examined. For 2000-2001, *The Future: Values and Technology in a Global Community* was studied and for 2001-2002, *The Citizen: Right, Roles, Responsibilities* was featured. The themes for the academic years 2002-2005 were *The World We Are Making*, *The Voyage of Discover*, and *The Creative Process: Revealed and Revealed*.

During the first year, guest speakers included author Walter Mosley (and a screening of *Devil in a Blue Dress*), Kevin Starr (California State Librarian), and the monumental artists Christo and Jeanne Claude as well as speakers from South Africa, Australia, Mexico, and Japan. In addition, there was a film series, a student initiated and implemented art and creative writing exhibition, three major conferences, and numerous field trips. During the second year, there were guest speakers on topics as diverse as the physics of Star Trek, plate tectonics, fossils, human mating, primate diets, visual intelligence, and the future of the universe. For 1998-99, there were fifty-three separate Odyssey guest speakers and events including Edward James Olmos, The Festival of the 5 Senses, photo and art exhibits, films, performances, and panel discussions. During 1999, with the theme of Community, we hosted guest speakers like Dr. Hunter "Patch" Adams, science fiction writer Octavia Butler, photographer Antony Gleaton, Father Greg Boyle, and Jean Houston. For 2000-2001, a look at "The Future" brought Ralph Nader, Erin Brockovich, and Julia "Butterfly" Hill to campus, in addition to stand-up comic Marga Gomez, radio personality Dr. Demento, computer artist/architect April Greiman, and scientists

from Cal Tech and JPL. The Odyssey continued in 2001-2002 with *The Citizen*. Guest speakers included Mike Farrell (of *M\*A\*S\*H* and *Providence* fame), environmentalist Jan Lundberg, TV critic Howard Rosenberg, education reformers Erin Gruwell and John and Stephen Goodlad, journalist Naomi Klein, and LA Supervisor Don Knabe as well as performances by Sweet Honey in the Rock and the Children of Uganda. For 2002-2003 the College of Liberal Arts hosted *The World We Are Making* with guest speakers like former U.S. Senator George Mitchell, authors Alicia Partnoy and Gioconda Belli, a Cambodian film series, a seminar series on "Evil in The World We Are Making," a graffiti artist, and representatives from UNICEF and Doctors Without Borders. In 2003-2004, *The Voyage of Discovery* hosted, Dr. Hunter "Patch" Adams, Lynn Margulis (Gaia Hypothesis), Elliott Sober (Philosophy of Evolutionary Biology), and Harold Morowitz (Origins of Life and the Complexity Theory) as well as performances (Beakman Live and Diavolo Dance Theater: Dream Catcher) and two conferences (Indus Valley Archeology and Oranganutan Conservation). The Creative Process brought The Arts to life with a mock trial on "Censorship and the Arts;" Red Nose Day events like Comedy Night in the Nugget; a Ska Band show; plays (*The Cider House Rules*, *Stand and Deliver*, *Medea*, *Migration*, and *Swimming in the Shallows*); exhibits (Ground Zero, Mungo Thomson's Sweet Nothings, Reveal/Reveal Collaborative); performances (Sandra Bernhard, Rennie Harris: Puremovement, Seasons of Migration); and various panel discussions.

The Odyssey Project will continue in 2005-2006 with *The Lifespan: Mind, Body, and Health*. The project's thematic focus on the lifespan (sponsored by the College of Health and Human Services) will seek to find connections among numerous viewpoints and disciplinary perspectives (e.g., the media, public policy, economics, sociology, natural sciences, arts, and philosophy as well as the health and human services disciplines). Throughout the year, we will examine such issues as consumer debt, identity theft, and consumerism; physical and mental disabilities; violence and fear in our culture, including the role of the media; peer pressure (HIV, smoking, alcohol, gangs); health and nutrition as they relate to addiction, rehabilitation, aging, alternative medicines, sports, humor, intentionality, childhood obesity and weight control, cancer research, and cardio-vascular disease.

These topics will be explored through: two team-taught interdisciplinary General Education courses on the theme (University 300I and 301I) will feature guest experts (from on and off campus); innovative multidisciplinary experiences; community projects and field trips; theatre/dance performances; exhibits; and collaborative programs with our local K-12 partners.

The Committee plans to invite guest speakers like Lance Armstrong (cancer research), Michael J. Fox (stem cell research), Marlo Thomas (children's cancer research), Marle Matlin (disabilities), and Victor DeNoble (former Phillip Morris researcher). There are also plans for panel discussions on topics like social violence, sexual assault, and Alzheimer's

Disease. In addition, there will be theatre performances on alcoholism and other relevant topics. Student groups are planning grocery store field trips to encourage wise nutritional consumerism and influence positive financial responsibility.

Students in each of the Odyssey courses will be encouraged/required to attend at least two theme-related activities each semester. In addition, faculty are creating new special topics courses and restructuring existing courses to provide opportunities for students to receive course credit for "creating" part of the Odyssey experience through cooperative learning activities.

**Fall 2005 and Spring 2006—The Lifespan (Theme Course)**

University 300I and University 301I

Possible topics:

- How can we improve our nutritional balance?
- How is obesity linked to diabetes?
- How effective is alternative medicine as a healing/curing tool?
- Progress of cancer research
- What does it mean to be disabled?
- What is addiction?
- What role does the media play in influencing individuals' perceptions of violence and fear in our culture?
- What are the implications (legal and otherwise) of identity theft?
- Peer pressure and the media
- Exploration of cultural "texts"

**Other Courses for Fall 2005 and Spring 2006 with Theme-Year Content**

CHLS 350	The Latino Population in the United States
CHLS 362	Chicanos and the Law
CHLS 415	Latina Women in the United States
CHLS 421	Street Gangs in Comparative Perspective

## Certificate Program in Peace Studies (code COLACT02)

The Certificate Program in Peace Studies is designed for students who are concerned about issues of peace, conflict, and justice in contemporary society; and who wish to develop skills to promote peace and constructive conflict management within their individual lives, families, communities, and social systems. Students will have the opportunity to explore past and present conflicts that inhibit the achievement of peace, and will have the opportunity to enlarge their understanding of global and human diversity problems and their solutions. Student also will be challenged to discover the processes that create peace among people, and to recognize that while the expression of conflict is natural and normal for

humans, it need not lead to destruction, violence, or war. Effective conflict management can generate productive, peaceful ends. Students will be empowered to believe they can make a difference. Overall, students will enhance their understanding of human beings, the causes of their conflicts with each other in a host of contexts, and past, present, and future methods of managing those conflicts.

This certificate can be earned in conjunction with any baccalaureate or graduate degree, can be earned through the General Education Pathway in Conflict & Peace Studies while simultaneously meeting all general education requirements, and should be especially useful for students preparing for careers in humanities, education, business, government, law, and social service.

## Requirements

Twenty-four (24) units in a program approved by the Director of Peace Studies, to include the following:

1. Core Theory Course (3 units): Take one of the following:  
I/ST 317I, POSC 371
2. Core Skills Course (3 units): Take one of the following:  
COMM 411, SW 491
3. Elective Courses (15 units): Take at least one course from each of the following groups, and then one additional course from any of the groups.  
Group A: Perspectives on Peace, Conflict, Violence, and War (3 units minimum):  
ANTH 305I; COMM 490; CRIM 101; HIST 304, 377, 495; I/ST 318, 355; POSC 220, 371, 455; PHIL 351; PSY 350I  
Group B: Laws, Rights, Responsibilities in Peace and Conflict (3 units minimum)  
COMM 441I; PHIL 352, 376; POSC 412  
Group C: Culture, Race, Gender Influences on Peace and Conflict (3 units minimum)  
ANTH 315, 311I; B/ST 325; COMM 330, 412; HIST 309I; LING 470; SOC 346; SPAN 493 or SPAN 593 or HIST 490F; W/ST 401, 430  
Group D: Empowerment and Peace-Building (3 units minimum)  
COMM 410, 421; FCS 309I or FIN 309I; EDP 434B; FEA 486I; HDEV 364; H SC 429; NRSRG 481I; PSY 336; SOC 427; SW 423
4. Peace Project (3 units, optional): Students in the Certificate program only should complete three units of an independent study project during their senior year with any Peace Studies faculty. Students who are simultaneously completing the General Education pathway in Conflict & Peace Studies need to take an additional 300- or 400-level GE course from groups A, B, C, or D above to complete the 24 required units in this Certificate.  
Exceptions or substitutions may be made only with the approval of the Director of the Peace Studies Program.

## Bachelor of Arts in Philosophy (code PHILBA01) (120 units)

The undergraduate Philosophy program challenges students to think rigorously about some of the most profound questions people consider: "What is most important in a human life?"; "What can I know?"; "Does God exist?"; "Do human beings have free will?"; "What are the guidelines for morality?"; "What is 'the soul?', or 'the mind'?" These and other questions are raised in courses in special areas of philosophical concern such as logic, theory of knowledge, ethics, metaphysics, philosophy of religion, philosophy of science, and aesthetics. They are also raised in their historical context in courses which focus on great philosophers such as Plato, Aristotle, Kant, the great "Rationalists" and the great "Empiricists." In addition, the Philosophy curriculum encourages students to examine our contemporary situation (with such courses as Existentialism, Phenomenology, Philosophy of Language, and Political Philosophy), and to extend their thinking with the philosophies of other cultures (such as those of China, Japan, and India).

In addition, the philosophy curriculum examines our contemporary situation and extends our thinking with the philosophies of other cultures.

The Philosophy Pre-law Program provides undergraduates with a course of study which emphasizes the development of skills in reasoning and argumentation, in linguistic and ethical analysis, and in clear and precise communication. The Department's Center for Applied Ethics brings guest speakers to the campus and sponsors conferences, research, and new courses in medical ethics and business ethics. The Department's Center for the Advancement of Philosophy in Schools (CAPS) places advanced philosophy students into area schools to promote philosophy for children. The Department is developing courses and other programs in cognitive science, bringing together the insights of epistemology, logic, psychology, and computer science. The MA program prepares students for teaching in the community colleges and for doctoral programs in philosophy.

## Requirements

A minimum of 36 units in philosophy divided as follows:

Lower Division: PHIL 203, 204, and 270.

Up to 12 lower-division units may be counted toward the major, including either PHIL 100/100W or 160/160W.

Upper Division: A minimum of 24 units in philosophy, including at least two courses (6 units) from each of the following groups:

*History of Philosophy:* PHIL 306, 413, 414, 416, 417, 418, 419, 421, 422, 423, 424, 425, 490, 491, 492

*Logic, Metaphysics, Epistemology:* PHIL 330, 342, 381, 382, 470, 482I, 483, 484, 493

*Values and Evaluation:* PHIL 302I, 351, 352I, 354, 360, 361, 362I, 363, 401, 403I, 405I (formerly 305), 451I, 452I, 455, 461I, 489, 496

The required 6 upper-division units remaining are to be selected from philosophy courses with the advice and consent of the student's departmental advisor, and may include PHIL 497H and 498H.

### Pre-Law Emphasis

The pre-law emphasis requires the same minimum 36 units required for the major. Prelaw students should include at least four of the following in their course of study: PHIL 351, 352I, 363, 451I, 452I, 489.

### FOUR YEAR PLAN TO COMPLETE THE B.A. DEGREE in PHILOSOPHY (PHILBA01)

### FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

### I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

### Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

### I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

**I didn't complete the exact list of courses shown. Can I still graduate on time?**

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

**If I follow the plan, will I have all requirements for graduation completed?**

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

## Honors in Philosophy

The Honors in Philosophy program provides qualified undergraduate philosophy majors with an opportunity to do independent research with a faculty member on a topic of interest to the student and to present the results of that study to other students in a seminar format. The Program has two curricular components:

1. a year-long, two-semester directed studies course (PHIL 498H: Undergraduate Honors Thesis) in which the student learns about advanced research techniques and writes an undergraduate thesis under the close supervision of a faculty member, and
2. a seminar (PHIL 497H: Undergraduate Honors Seminar) in which honors students meet weekly to discuss work in progress and present a final thesis. The Seminar is designed each year with readings, discussions, and critiques of student work around the themes of the honors student theses projects that year.

To be eligible for the program, students must:

1. have a 3.3 GPA in the philosophy major and a 3.0 GPA overall;
2. successfully complete all lower-division courses for the major (PHIL 203, 204, and 270);
3. successfully complete at least nine (9) units of upper-division philosophy courses (at least six [6] units at CSULB).
4. obtain written agreement from a philosophy faculty member to serve as the Honors Thesis Advisor

Students enroll in PHIL 498H (Undergraduate Honors Thesis) in Fall and Spring (3 units each semester), and in PHIL 497H (Undergraduate Honors Seminar) in Spring (3 units), for a total of 9 units in the program. Students who have been admitted to the honors program and have successfully completed these requirements, along with the regular requirements for the Major in Philosophy, will graduate with Honors in Philosophy.

## Minor in Philosophy (code PHILUM01)

The minor in philosophy provides a structured yet flexible program for the student majoring in a different discipline, but who is interested in philosophy either as an adjunct to the degree major or as a foundation for the student's future intellectual life.

The Minor in Philosophy is available to any non-Philosophy major.

### Requirements

A minimum of 18 units in philosophy, divided as follows:

Lower Division: PHIL 203, 204, and 270.

Upper Division: A minimum of 9 units in philosophy, including at least one course (3 units) from each of the following groups:

*History of Philosophy*: PHIL 306, 413, 414, 416, 417, 418, 419, 421, 422, 423, 424, 425, 490, 491, 492

*Logic, Metaphysics, Epistemology*: PHIL 303, 342, 381, 382, 470, 482I, 483, 484, 493

*Values and Evaluation*: PHIL 302I, 305, 351, 352I, 354, 360, 361, 362I, 363, 401, 403I, 405I, 451I, 452I, 455, 461I, 489, 496

## Master of Arts in Philosophy (code PHILMA01)

### Entrance Requirements

1. A bachelor's degree with a major in philosophy; or
2. A bachelor's degree with a minimum of 24 units of upper division philosophy courses. These courses must be comparable to those required for the B.A. in philosophy at this University. (Deficiencies will be determined by the Graduate Advisor after consultation with the student and after study of transcript records.) Students who do not meet these conditions may enter as provisional graduate students. Prospective students must see the Graduate Advisor for assessment and to plan a program. Departmental reader positions are sometimes available for qualified persons, as are Graduate Assistantships. A reader works closely with a member of the faculty, but is not responsible for instruction. Application for these positions can be made to the Chair of the Philosophy Department.

### Advancement to Candidacy

1. The graduate student will be expected to demonstrate proficiency in the areas of epistemology, metaphysics, ethics and symbolic logic. (A grade of "B" in a semester course in each of these areas is a standard way of demonstrating proficiency.)
2. The graduate student who expects to become a candidate for the Master of Arts degree in Philosophy will be required to pass a Basic Qualifying Examination (BOE). Normally, the student must complete this examination early in graduate study.
3. Students should attempt to be Advanced upon completion of 6 units (preferably no more than 9 units) in the Program. Fulfillment of the Graduation Writing Assessment Requirement (GWAR) is required for Advancement.

4. Although there is no formal language requirement, the Philosophy Department may require the student to demonstrate a foreign language proficiency whenever at the department's discretion a language proficiency is appropriate to the area of study.
5. The student's graduate program must be approved by the Graduate Advisor, the Department Chair, and the College Associate Dean of Graduate Studies.

### Requirements

1. The student's graduate program must consist of not less than 30 units of acceptable upper division and graduate courses, of which at least 24 units must be in philosophy. The remaining 6 units must be chosen in conference with the student's faculty advisor, and may be taken either in philosophy or in another field of study closely related to the candidate's educational objectives. The program must include a minimum of 18 units of graduate courses, with a minimum of 6 units from the 600 series. PHIL 697 and 698 may not count toward fulfillment of the 600 series minimum requirement.
2. A thesis and oral defense thereof or a set of three comprehensive examinations.

## Courses (PHIL)

### Lower Division

#### 100. Introduction to Philosophy (3)

Prerequisites/Corequisites: any course from GE Foundation categories A.1 (Written English), category A.2. (Oral Communication) or Category A.3. (Critical Thinking), which may be taken concurrently. Critical analysis of the history, methods, and major problems of philosophy. Same course as PHIL 100W. (CAN PHIL 2)

#### 100W. Introduction to Philosophy (4)

Prerequisites/Corequisites: any course from GE Foundation categories A.1 (Written English), category A.2. (Oral Communication) or Category A.3. (Critical Thinking), which may be taken concurrently. Critical analysis of the history, methods, and major problems of philosophy (Lecture 3 hours). Required Workshop (one hour): Planned exercises, activities, and discussion designed to develop oral and written critical thinking and analytic skills to complement lectures. Same course as PHIL 100. Not open to students with credit in PHIL 100. (CAN PHIL 2)

#### 160. Introductory Ethics (3)

Prerequisites/Corequisites: any course from GE Foundation categories A.1 (Written English), category A.2. (Oral Communication) or Category A.3. (Critical Thinking), which may be taken concurrently. Concepts of right and wrong, good and bad, and the application of moral principles to problems of everyday life. Not open to students with credit in PHIL 160W. (CAN PHIL 4)

#### 160W. Introduction to Ethics (4)

Prerequisite: Any course from GE Foundation Category A.1 (Written English), Category A.2 (Oral Communication), or Category A.3 (Critical Thinking), which may be taken concurrently. Concepts of right and wrong, good and bad, and the application of moral principles to problems of everyday life (Lecture 3 Hours). Planned exercises, activities, and discussion to develop oral and written critical thinking and analytical skills to complement lectures (Workshop 1 hour). (CAN PHIL 4)

#### 170. Critical Reasoning (3)

Prerequisite: Completion of GE Foundation requirements Category A.1 (Written English), which may be taken concurrently. Elements of clear, straight, orderly and valid thought, including deductive and inductive reasoning and the accurate use of language. This course explores practical applications of logic. (CAN PHIL 6)

#### 203. History of Early Western Philosophy (3)

Prerequisite: Completion of GE Foundation requirements. From Thales to the Renaissance including the systems of Socrates, Plato and Aristotle, and their influence on European philosophy through the medieval period.

#### 204. History of Modern Western Philosophy (3)

Prerequisite: Completion of GE Foundation requirements. Western philosophy from Descartes to Kant, including the development of modern scientific processes, and the philosophical systems of empiricism, rationalism, transcendental idealism, etc.

#### 270. Symbolic Logic I (3)

Introduction to the formal techniques of evaluating arguments.

#### 296. Methods of Philosophical Study (3)

Prerequisite: Three units in Philosophy. This course prepares the student for philosophical study through education in its research methods and technical vocabulary, by instructing students how to write a successful philosophical essay, and explaining the scope and nature of some of the central issues of philosophy.

### Upper Division

General Education Category A must be completed prior to taking any upper division course except upper division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

The philosophy upper division courses fall into several curricular sub-groups, as follows:

---

#### Early Philosophy

---

- 306. Philosophies of China and Japan
- 421./521. Plato
- 422./522. Aristotle
- 490./590. Special Topics – Early Philosophy

---

#### Modern Tradition

---

- 413./513. Continental Rationalism
- 414./514. British Empiricism
- 423./523. Kant
- 424./524. Hegel
- 425./525. Wittgenstein
- 491./591. Special Topics – The Modern Tradition

---

#### Twentieth Century Philosophy

---

- 416./516. Pragmatism
- 417./517. Phenomenology
- 418./518. Existentialism
- 419./519. Analytic Philosophy
- 492./592. Special Topics – Twentieth Century Philosophy

---

#### Metaphysical Studies

---

- 330. Philosophy of Religion
- 342. Metaphysics
- 483./583. Philosophical Psychology
- 493./593. Special Topics: Metaphysical Studies

---

#### Epistemological Studies

---

- 381. Philosophy of Science
- 382. Theory of Knowledge
- 482I. Introduction to Cognitive Science

---

#### Studies in Logic and Semantics

---

- 470. Symbolic Logic II
- 484. Philosophy of Language

---

## Studies in Value and Evaluation

---

- 351. Political Philosophy
- 352I. Philosophy of Law
- 361. Philosophy of Art and Beauty
- 362I. Ethics and Computer Technology
- 363. Ethical Theory
- 401. Philosophy in Education
- 403I. Medical Ethics
- 405I. Philosophy in Literature
- 451I. Liberty and Justice: Race, Ethnicity, and Gender in American Law
- 452I. Law, Philosophy, and the Humanities
- 455. Philosophical Perspectives on Sex and Love
- 461I. Diversity in Criticism and Analysis of the Arts
- 489. Philosophy Internship/Pre-Law
- 496./596. Special Topics – Value and Evaluation

## Upper Division

### 306. Philosophies of China and Japan (3)

Prerequisite: Completion of GE Foundation requirements. Historical and critical study of the philosophical thought of China and Japan.

### 330. Philosophy of Religion (3)

Prerequisite: Completion of GE Foundation requirements. Nature and function of religion and of fundamental religious concepts and ideals.

### 342. Metaphysics (3)

Prerequisite: 3 units of philosophy or consent of instructor. Problems of ontology and cosmology including such concepts as matter and energy, time and space, evolution and causality.

### 351. Political Philosophy (3)

Prerequisite: Completion of GE Foundation requirements. Analysis of fundamental political concepts such as the legitimacy of government, the relation of justice to coercive power, the morality of war, political obligation, and sovereignty; and/or a study of political ideologies such as socialism, classical liberalism, and conservatism.

### 352I. Philosophy of Law (3)

Prerequisite: Completion of GE Foundation requirements. Study of the historical development of the philosophy of law and examination of the problems in the field ranging from general theories to analysis of fundamental legal concepts and normative issues.

### 360. Environmental Ethics (3)

Philosophical look at ecological problems. Survey of a number of ethical positions held by the great philosophers will be made and current ecological problems will be looked at from the points of view of the ethical positions studied. Not open to students with credit in E/ST 360. Letter grade only (A-F).

### 361. Philosophy of Art and Beauty (3)

Prerequisite: Completion of GE Foundation requirements. Discussion of central problems in aesthetics, such as the possibility of objectivity in criticism, modern and traditional definitions of a work of art, truth and meaning in the fine arts, natural beauty and its relationship to excellence in music, architecture, etc.

### 362I. Ethics and Computer Technology (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Speculative and critical examination of moral dilemmas, legal issues, and social values pertaining to new developments in computer technology, with particular emphasis on how computer technology informs, and is informed by, human relationships and human needs.

### 363. Ethical Theory (3)

Prerequisite: 3 units of philosophy. In-depth discussion of such issues as obligation, responsibility, social justice, and personal ideals.

### 381. Philosophy of Science (3)

Prerequisite: Completion of GE Foundation requirements. Problems, methods and fundamental concepts of the sciences, including the relationships of the sciences to each other, to mathematics and to philosophy.

### 382. Theory of Knowledge (3)

Prerequisite: Three units of philosophy. Investigation of such concepts as knowledge, belief, certainty. Critical study of theories concerning such issues as our knowledge of the external world, the past, other minds.

### 400I. Business Ethics (3)

Prerequisites: Completion of the Foundation, at least one Explorations course. We will study the various types of ethical dilemmas that take place in business organizations and acquire the concepts and tools needed to manage these complex value conflicts for the well being of individuals, organizations, and society. Same course as CBA 400I. Letter grade only (A-F).

### 401. Philosophy in Education (3)

Prerequisites: Completion of the GE Foundation; at least six units of philosophy. Exploration of the intersection between philosophy and education. Students read and discuss selections from classical philosophical works on education, analyze historical and contemporary reasons for common exclusion of philosophy from K-12 curriculum, explore ways of integrating philosophy into curriculum for young students. Each student will be placed in a local school district classroom to lead weekly philosophy sessions with a teaching partner. Service-learning.

### 403I. Medical Ethics (3)

Prerequisites: Completion of the 13-unit Foundation; at least one Explorations course. Covers several of main areas of bioethics: reproductive rights and liberties, definitions of health, disease, and disability, end of life care, fair distribution of health care, goals of health care. Philosophical texts, journal articles from medical humanities, ethics, medicine, and case studies used to raise and examine issues.

### 405I. Philosophy in Literature (3)

Prerequisites: Completion of the 13-unit Foundation; at least one Exploration course in philosophy, literature, theater arts; upper-division standing required. Intensive exploration of philosophical ideas in selected literature with special attention to both philosophical and literary ways of reading and appreciating a text. Not open to students with credit in PHIL 305.

### 413./513. Continental Rationalism (3)

Prerequisites: Six units of philosophy to include PHIL 204, or consent of instructor. Close study of such major figures as Descartes, Spinoza and Leibniz.

### 414./514. British Empiricism (3)

Prerequisites: Six units of philosophy to include PHIL 204, or consent of instructor. Close study of such major figures as Locke, Berkeley, and Hume.

### 416./516. Pragmatism (3)

Prerequisite: Three units of philosophy or consent of instructor. Development of pragmatism as exemplified in the philosophies of Peirce, James, Dewey and Mead.

### 417./517. Phenomenology (3)

Prerequisites: Six units of philosophy or consent of instructor. Study of one of the major movements of contemporary philosophy. Themes treated may include knowledge, meaning, emotionality, embodiment, language, sociality, freedom and religion. Philosophers treated may include Husserl, Scheler, Heidegger, Merleau-Ponty and Ricoeur.

### 418./518. Existentialism (3)

Prerequisites: Three units of philosophy or consent of instructor. Intensive study of such issues as self-as-existence, freedom and responsibility in their ethical, religious, political and aesthetic dimensions. Philosophers treated may include Kierkegaard, Nietzsche, Marcel, Jaspers, Sartre and Camus.

**419./519. Analytic Philosophy (3)**

Prerequisites: Six units of philosophy to include PHIL 270, or consent of instructor. Critical analysis of major movements in the development of Anglo-American philosophy in the twentieth century, such as logical atomism, logical positivism and ordinary language philosophy. Intensive study of the contributions of such philosophers as Moore, Russell, Wittgenstein, Ayer, Ryle, Austin, Strawson, and Quine.

**421./521. Plato (3)**

Prerequisites: Six units of philosophy to include PHIL 203, or consent of instructor. Close study of Plato's thought, based primarily on readings from his works.

**422./522. Aristotle (3)**

Prerequisites: Six units of philosophy to include PHIL 203, or consent of instructor. Close study of Aristotle's thought, based primarily on readings from his works.

**423./523. Kant (3)**

Prerequisites: Six units of philosophy to include PHIL 204, or consent of instructor. Intensive study of Kant's *Critique of Pure Reason*.

**424./524. Hegel (3)**

Prerequisites: Six units of philosophy to include PHIL 204, or consent of instructor. Study of Hegel's Philosophy of Mind and Logic, and selected writings by Hegel and other topics.

**425./525. Wittgenstein (3)**

Prerequisites: Six units of philosophy to include PHIL 204, or consent of instructor. Close study of the later philosophy of Wittgenstein, centering on *Philosophical Investigations*.

**451I. Liberty and Justice: Race, Ethnicity, and Gender in American Law (3)**

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing; and 6 units of philosophy, or consent of instructor. Junior standing required; Senior standing recommended. Philosophical and legal analysis of how liberty and justice for different races, ethnic groups and genders have been treated in American law.

**452I. Law, Philosophy, and the Humanities (3)**

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing (junior standing required; senior standing recommended), six units of philosophy or consent of instructor. A comparison of how the law is considered by various disciplines; primary focus is on philosophical methods and legal methods, with some consideration of other humanities disciplines, such as literature.

**455./555. Philosophical Perspectives on Sex and Love (3)**

Prerequisite: 6 units of philosophy or consent of instructor. Philosophical perspectives on sex and love explores philosophical issues concerning sex, gender and love through readings and discussion of classical and contemporary philosophical sources. Topics such as sexual perversion, romantic love and gender discrimination are examined. Same course as W/ST 455.

**461I. Diversity in Criticism and Analysis of the Arts (3)**

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing (junior standing required; senior standing recommended). Philosophical and critical consideration of the arts by different races, ethnic groups, and genders in the United States.

**470./570. Symbolic Logic II (3)**

Prerequisites: PHIL 270, or consent of instructor. A philosophical consideration of deductive systems.

**482I. Introduction to Cognitive Science (3)**

Prerequisites: Completion of all Foundation courses; at least one Explorations course; upper-division standing; at least six units in two areas chosen from Computer Science, Linguistics, Philosophy, and Psychology. Introduction to cognitive science including historical development, foundational philosophical presuppositions, core topics, underlying theoretical framework, explanatory goals, different methodologies and theoretical contributions of its constitutive disciplines. Same course as PSY 382I.

**483./583. Philosophical Psychology (3)**

Prerequisites: Six units of philosophy or consent of instructor. Nature of the mind. Psychological concepts such as intention, consciousness, action, motive, imagination, belief and purpose.

**484./584. Philosophy of Language (3)**

Prerequisites: Six units of philosophy or consent of instructor. Philosophical thought about language and meaning.

**489. Philosophy Internship/Pre-Law (3-6)**

Prerequisites: Consent of Philosophy Department Chair; completion of a minimum of 15 upper-division units required for the Philosophy major. Internship with private organizations and governmental agencies with law-related focus. A CSU Summer Internship in Washington, D.C. also meets this requirement. Work done under the joint supervision of the program sponsor and CSULB Philosophy Pre-Law Advisor. A mid-term and final report and internship conferences are required.

**490./590. Special Topics: Early Philosophy (3)**

Prerequisites: Six units of philosophy or consent of instructor. Detailed and intensive study of figures, periods or issues in ancient or medieval philosophy. Specific issues, period or figures will be announced in the *Schedule of Classes*. Sample titles: Pre-Socratic Philosophy, Post-Aristotelian Philosophy, Medieval Philosophy. May be repeated to a maximum of 9 units with different topics.

**491./591. Special Topics: Modern Tradition (3)**

Prerequisites: Six units of philosophy or consent of instructor. Detailed and intensive study of a significant philosopher or of some issue or theme of the modern (1600-1900) philosophical era. Specific titles will be announced in the *Schedule of Classes*. Sample titles: Hobbes, German Idealism, Nietzsche. May be repeated to a maximum of 9 units with different topics.

**492./592. Special Topics: Twentieth Century Philosophy (3)**

Prerequisites: Six units of philosophy or consent of instructor. Detailed and intensive study of a significant philosopher or of a school or movement of the twentieth century. Specific title will be announced in the *Schedule of Classes*. Sample titles: Wittgenstein, Heidegger, Russell, Process Philosophy. May be repeated to a maximum of 9 units with different topics.

**493./593. Special Topics: Metaphysical Studies (3)**

Prerequisites: Six units of philosophy or consent of instructor. Seminar study of a selected metaphysical topic. Sample topics: Time, Personal Identity, Philosophical Theology, Philosophy of Action, Process Philosophy. Specific title will be announced in the *Schedule of Classes*. May be repeated to a maximum of 9 units with different topics.

**496./596. Special Topics: Value and Evaluation (3)**

Prerequisites: Six units of philosophy or consent of instructor. Seminar study of a selected topic in value or evaluation. Sample topics: Theories of Value, Freedom and Determinism. Specific topics will be announced in the *Schedule of Classes*. May be repeated to a maximum of 9 units with different topics.

**497H. Undergraduate Honors Seminar (3)**

Prerequisites: 1) Admission to the undergraduate Honors Program in Philosophy. 2) Undergraduate Honors Thesis (PHIL 498) or (with consent of instructor) taken concurrently. A capstone seminar designed to prepare exceptional undergraduate majors for graduate studies in philosophy and other disciplines. Complements Undergraduate Honors Thesis (PHIL 498). Letter grade only (A-F).

**498H. Undergraduate Honors Thesis (3)**

Prerequisites: Admission to the undergraduate Honors Program in Philosophy. A Directed Studies course on a topic chosen by the student in consultation with instructor. Complements, and usually taken before, PHIL 497, undergraduate Honors Seminar. May be repeated to a maximum of 6 units.

### 499. Directed Studies (1-3)

Prerequisite: Consent of instructor. Independent study of special topics under supervision of a faculty member. May be repeated to a maximum of 6 units.

## Graduate Level

### 513./413. Continental Rationalism (3)

Prerequisites: Six units of philosophy to include PHIL 204, or consent of instructor. Close study of such major figures as Descartes, Spinoza and Leibniz. Letter grade only (A-F).

### 514./414. British Empiricism (3)

Prerequisites: Six units of philosophy to include PHIL 204, or consent of instructor. Close study of such major figures as Locke, Berkeley, and Hume. Letter grade only (A-F).

### 516./416. Pragmatism (3)

Prerequisite: Three units of philosophy or consent of instructor. Development of pragmatism as exemplified in the philosophies of Peirce, James, Dewey and Mead. Letter grade only (A-F).

### 517./417. Phenomenology (3)

Prerequisites: Six units of philosophy or consent of instructor. Study of one of the major movements of contemporary philosophy. Themes treated may include knowledge, meaning, emotionality, embodiment, language, sociality, freedom and religion. Philosophers treated may include Husserl, Scheler, Heidegger, Merleau-Ponty and Ricoeur. Letter grade only (A-F).

### 518./418. Existentialism (3)

Prerequisites: Three units of philosophy or consent of instructor. Intensive study of such issues as self-as-existence, freedom and responsibility in their ethical, religious, political and aesthetic dimensions. Philosophers treated may include Kierkegaard, Nietzsche, Marcel, Jaspers, Sartre and Camus. Letter grade only (A-F).

### 519./419. Analytic Philosophy (3)

Prerequisites: Six units of philosophy to include PHIL 270, or consent of instructor. Critical analysis of major movements in the development of Anglo-American philosophy in the twentieth century, such as logical atomism, logical positivism and ordinary language philosophy. Intensive study of the contributions of such philosophers as Moore, Russell, Wittgenstein, Ayer, Ryle, Austin, Strawson, and Quine. Letter grade only (A-F).

### 521./421. Plato (3)

Prerequisites: Six units of philosophy to include PHIL 203, or consent of instructor. Close study of Plato's thought, based primarily on readings from his works. Letter grade only (A-F).

### 522./422. Aristotle (3)

Prerequisites: Six units of philosophy to include PHIL 203, or consent of instructor. Close study of Aristotle's thought, based primarily on readings from his works. Letter grade only (A-F).

### 523./423. Kant (3)

Prerequisites: Six units of philosophy to include PHIL 204, or consent of instructor. Intensive study of Kant's *Critique of Pure Reason*. Letter grade only (A-F).

### 524./424. Hegel (3)

Prerequisites: Six units of philosophy to include 204, or consent of instructor. Study of Hegel's *Philosophy of Mind and Logic*, and selected writings by Hegel and other topics. Letter grade only (A-F).

### 525./425. Wittgenstein (3)

Prerequisites: Six units of philosophy to include PHIL 204, or consent of instructor. Close study of the later philosophy of Wittgenstein, centering on Philosophical Investigations.

### 552. Advanced Studies in Law, Philosophy, and the Humanities (3)

Prerequisites: Graduate standing. Comparison of how the law is considered by various disciplines; primary focus is on philosophical methods and legal methods, with some consideration of other humanities disciplines, such as literature.

### 555./455. Philosophical Perspectives on Sex and Love (3)

Prerequisites: Six units of philosophy or consent of instructor. Philosophical perspectives on sex and love explores philosophical issues concerning sex, gender and love through readings and discussion of classical and contemporary philosophical sources. Topics such as sexual perversion, romantic love and gender discrimination are examined.

### 570./470. Symbolic Logic II (3)

Prerequisites: PHIL 270, consent of instructor. A philosophical consideration of deductive systems.

### 583./483. Philosophical Psychology (3)

Prerequisite: Six units of philosophy or consent of instructor. Nature of the mind. Psychological concepts such as intention, consciousness, action, motive, imagination, belief and purpose. Letter grade only (A-F).

### 584./484. Philosophy of Language (3)

Prerequisites: Six units of philosophy or consent of instructor. Philosophical thought about language and meaning. Letter grade only (A-F).

### 590./490. Special Topics Early Philosophy (3)

Prerequisites: Six units of philosophy or consent of instructor. Detailed and intensive study of figures, periods or issues in ancient or medieval philosophy. Specific issues, period or figures will be announced in the *Schedule of Classes*. Sample titles: Pre-Socratic Philosophy, Post-Aristotelian Philosophy, Medieval Philosophy. May be repeated to a maximum of 9 units with different topics. Letter grade only (A-F).

### 591./491. Special Topics Modern Tradition (3)

Prerequisites: Six units of philosophy or consent of instructor. Detailed and intensive study of a significant philosopher, or of some issue or theme of the modern (1600-1900) philosophical era. Specific titles will be announced in the *Schedule of Classes*. Sample titles: Hobbes, German Idealism, Nietzsche. May be repeated to a maximum of 9 units with different topics. Letter grade only (A-F).

### 592./492. Special Topics: Twentieth Century Philosophy (3)

Prerequisites: Six units of philosophy or consent of instructor. Detailed and intensive study of a significant philosopher or of a school or movement of the twentieth century. Specific title will be announced in the *Schedule of Classes*. Sample titles: Wittgenstein, Heidegger, Russell, Process Philosophy. May be repeated to a maximum of 9 units with different topics. Letter grade only (A-F).

### 593./493. Special Topics: Metaphysical Studies (3)

Prerequisites: Six units of philosophy or consent of instructor. Seminar study of a selected metaphysical topic. Sample topics: Time, Personal Identity, Philosophical Theology, Philosophy of Action, Process Philosophy. Specific title will be announced in the *Schedule of Classes*. May be repeated to a maximum of 9 units with different topics. Letter grade only (A-F).

### 596./496. Special Topics: Value and Evaluation (3)

Prerequisites: Six units of philosophy or consent of instructor. Seminar study of a selected topic in value or evaluation. Sample topics: Theories of Value, Freedom and Determinism. Specific topics will be announced in the *Schedule of Classes*. May be repeated to a maximum of 9 units with different topics. Letter grade only (A-F).

### 597. Teaching Philosophy (3)

Prerequisites: Six units of philosophy or consent of instructor. A practical and theoretical introduction to the aims, methods, responsibilities, and ethics of teaching in the college classroom, with an emphasis on the specific issues involved in teaching philosophy. Letter grade only (A-F).

### 599. Graduate Tutorial (1-3)

Prerequisite: Consent of the instructor. Supervised independent study. Seniors with a GPA of 3.0 or better may enroll with consent of Department. May be repeated to a maximum of 6 units. Letter grade only (A-F).

**620. Seminar in History of Philosophy (3)**

Prerequisite: Consent of instructor. Close study of selected subjects in the history of philosophy. The original language may be required. May be repeated to a maximum of 9 units with different topics. Letter grade only (A-F).

**630. Seminar in Philosophy of Religion (3)**

Prerequisite: PHIL 330 or consent of instructor. Critical examination of selected issues, figures and movements. May be repeated to a maximum of 6 units with different topics. Letter grade only (A-F).

**663. Seminar in Ethics (3)**

Prerequisite: PHIL 363 or consent of the instructor. Systematic examination of topics (such as human rights, pleasure) and theories (such as utilitarianism, contract theory) which are central to moral reasoning. May be repeated to a maximum of 6 units with different topics. Letter grade only (A-F).

**680. Seminar in Epistemology (3)**

Prerequisite: PHIL 382 or consent of instructor. May be repeated to a maximum of 6 units with different topics. Letter grade only (A-F).

**681. Seminar in the Philosophy of Science (3)**

Current issues in the philosophy of science. May be repeated to a maximum of 6 units with different topics. Letter grade only (A-F).

**690. Seminar in Selected Topics of Current Interest (3)**

Presentation, discussion and critical evaluation of advanced work (which may include original research of faculty and graduate students) in selected topics of current interest to professional philosophers. If demand for more than one subject exists, multiple sections may be given in any one semester. May be repeated to a maximum of 6 units with different topics. Letter grade only (A-F).

**697. Directed Research (1-3)**

Prerequisite: Consent of the student's advisor. Letter grade only (A-F).

**698. Thesis (1-6)**

Prerequisite: Consent of graduate advisor. Preparation and completion of a thesis in philosophy and oral defense thereof.

Students desiring information should contact the Department Office for referral to one of the faculty advisors.

The Department of Physics and Astronomy offers two bachelor's degrees and a master's degree; descriptions of these programs and the requirements for their completion are given below.

## *Degree Programs*

Each bachelor's degree offered by the Department is based on a strong, basic program. The Bachelor of Science (B.S.) degree is designed for students interested in immediate employment in industry as well as those who wish to continue on to a Master's or Ph.D. degree in physics or a related field. The Bachelor of Arts (B.A.) degree is appropriate for those preparing for teaching careers in the physical sciences at the secondary level as well as those whose goal is a liberal education with an emphasis on physics. The curriculum for these baccalaureate degrees provides a broadly-based exposure to theoretical and experimental physics. It also permits students to discuss fundamental concepts and their applications to grasp the discoveries at science's expanding frontiers, and to develop an appreciation for the amazing beauty of the physical universe.

The Department also offers graduate study leading to the Master of Science (M.S.) degree. The M.S. degree is available in both a general option and an option in applied physics. A student may choose the general option either with a thesis (Plan I) or, if the department graduate committee gives permission, with a comprehensive examination (Plan II); the option in applied physics requires a thesis. Active areas of research are: observational astronomy, applied optics, laser spectroscopy, materials research, particle physics, atomic physics, quantum gravity, muon catalyzed fusion, intermediate energy physics, acoustics, and condensed matter physics. A limited number of teaching associateships and graduate assistantships are available to students working on the master's degree. Work as a teaching associate (TA) is a valuable part of any degree program. Application should be made to the graduate advisor of the Department of Physics and Astronomy.

## *Concurrent and/or Summer Enrollment at Another College*

Students who wish to take course work at a community college or another college or university to meet curricular requirements while enrolled as undergraduates in the College of Natural Sciences and Mathematics must petition the appropriate Department for prior approval to earn credit for specific courses. This policy applies to concurrent enrollment or summer enrollment. Please see "Concurrent Enrollment" and "Transfer of Undergraduate Credit" in this *Catalog*. Courses not receiving prior approval will not be accepted for credit by the Department.

**Facilitated Enrollment into Classes**

All entering students who declare a major in a degree program offered by this Department should participate in the College of Natural Sciences and Mathematics' Science Safari to Success (for first-time freshmen) or EONS (Enrollment and Orientation in the Natural Sciences and Mathematics for transfer students) Program. These programs are held in June-July for those starting in the Fall Semester and in January for those starting in the Spring Semester. Department advisors will be available to provide an overview of the students' chosen baccalaureate degree program, to assist with academic advisement, to provide information on the many career opportunities available, and to aid students in enrolling in classes. Contact the Jensen Student Access to Sciences and Mathematics Center (FO5-109) or Department Office for additional information.

**Bachelor of Science in Physics (code PHYSBS01) (120 units)**

**Requirements**

Lower Division: PHYS 151, 152, 254, 255; MATH 122, 123, 224; CHEM 111A,B; BIOL 200 or 211A.

Upper Division: ENGL 317; MATH 370A or 364A, MATH 370B or 461; 33 units of upper division physics including PHYS 310, 320, 340A, 340B, 350, 360, 380, 450, and one laboratory course chosen from PHYS 330, 403, 445, 476 and 480. The remaining (6 to 8) units are to be chosen from any upper division physics courses.

**Grade Requirements**

Physics majors must have a "C" average in the major. Physics students must achieve a grade of "C" or better in each required course in the major. The following schedule is typical for an upper division major who is a full-time student.

Junior Year:

Fall: PHYS 310, 320, 360; MATH 370A or 364A (or MATH 370B or 461; it is recommended that MATH 370A or 364A be taken before PHYS 310, if possible).

Spring: PHYS 340A, 350, 380; MATH 370B or 461 (if not taken previously).

Senior Year:

Fall: PHYS 340B, 450.

Spring: Three upper division physics electives.

**FOUR YEAR PLAN TO COMPLETE THE B.S. IN PHYSICS (PHYSBS01)**

120 units required. Department of Physics and Astronomy

Semester 1		Semester 2	
University 100	1	Oral Communication or Comp	3
Comp or Oral Communication	3	MATH 123	4

TOTAL UNITS	9	TOTAL UNITS	4-7

### FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

#### I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

#### Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

#### I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

#### I didn't complete the exact list of courses shown. Can I still graduate on time?

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

### If I follow the plan, will I have all requirements for graduation completed?

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

## Bachelor of Arts in Physics (code PHYSBA01) (120 units)

This degree is designed for the student who expects to teach at the secondary level, or who seeks a high quality liberal education focusing on science. A minimum of 120 units is required for this degree.

### Requirements

Lower-Division: PHYS 151, 152, 254, 255; MATH 122, 123, 224; CHEM 111A,B; BIOL 200 or 211A.

Upper-Division: A minimum of 24 units of courses selected in consultation with the Physics Department Undergraduate Advisor, at least 18 units of which must be in physics; ENGL 317 or other suitable upper-division writing course from the Department of English, to be determined in consultation with the Physics Department Undergraduate Advisor (may be waived for students who achieved a standard score of 24 on the ACT English sub-test or who received an "A" or "B" grade in ENGL 100).

### Teaching Credential

#### Requirements Related to a Teaching Credential with a Physics Concentration

The Physics Concentration meets the subject matter competence requirement for the Single Subject Preliminary Credential in Physics (code 183). Prospective students should consult the Single Subject Science Education Advisor in the Department of Science Education early to plan their program.

In addition to meeting the subject matter competence requirement for the Preliminary Credential, prospective Physics teachers are also required to complete 44 units of professional preparation in the Single Subject Credential Program, including student teaching. Students may begin the professional preparation courses as early as the junior year. With careful planning, it is possible to complete many of the credential program courses, except for student teaching, as an undergraduate. Courses may also be started as post-baccalaureate student. Refer to the Single Subject Teacher Education section of this *Catalog* or the Single Subject Credential Program website ([www.ced.csulb.edu/single-subject](http://www.ced.csulb.edu/single-subject)) for a description of the professional preparation requirements, courses, and application procedures.

*The Physics Subject Matter Program is being revised to meet new state standards. When the revised program has been approved by the Commission on Teacher Credentialing, the new course requirements will be in effect and supersede current requirements.*

### Requirements

Lower-Division: PHYS 151, 152, 254, 255; MATH 122, 123, 224; ASTR 100; BIOL 211A,B; CHEM 111A,B; GEOL 102, 104, 160.

Upper-Division: MATH 364A or 370A; PHYS 310, 340A, either 320 or 422, either 330 or both 475 and 476, either 380 or 3 units of 496; SCED 403, 404; EDSS 300C, 450C; EDSE 435, 436, 457.

#### FOUR-YEAR PLAN TO COMPLETE THE B.A. IN PHYSICS (PHYSBA01)

**FAQ Concerning Road Maps for Completion of Undergraduate Degrees**

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

**I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?**

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

### Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

- 1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.
- 2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.
- 3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).
- 4) You must complete all requirements for admission to impacted majors within the first 60 units.

### I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

### I didn't complete the exact list of courses shown. Can I still graduate on time?

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

### If I follow the plan, will I have all requirements for graduation completed?

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

## Minor in Physics (code PHYSUM01)

### Requirements

The Minor in Physics is available to any non-Physics major. A minimum of 20 units which must include the following.

Lower Division: PHYS 151, 152, 254, 255.

Upper Division: A minimum of nine units in physics (PHYS 360 will not count toward these nine units).

## Master of Science in Physics (code PHYSMS01)

### Prerequisites

1. A bachelor's degree with a major in physics; or
2. A bachelor's degree with at least 24 units of upper division physics. (Students deficient in undergraduate preparation must take courses to remove these deficiencies without credit toward the degree at the discretion of the Department Graduate Advisor.)

## Requirements

1. Advancement to Candidacy
  - a. Students must fulfill the University requirements for advancement to candidacy.
  - b. A student must have a "B" average or better in six units of physics applicable toward the master's degree, of which at least three units are at the graduate level.
2. Recognizing that effective organization and verbal communication of physics are a necessary part of a successful graduate program, the Department of Physics and Astronomy normally requires that a graduate student serves at least one semester as a teaching associate or a graduate assistant as part of the M.S. program. Exceptions may be granted by the Graduate Advisor.

## Additional Requirements

### Plan I

1. A minimum of 30 units of upper division and graduate courses including PHYS 540A,B, 550A,B, 560A, and 695;
2. Completion of a written thesis, 6 units of PHYS 698, and an oral presentation of the thesis research. The members of the candidate's thesis committee must approve the thesis before the student may schedule the oral presentation.

Note: Students must be advanced to candidacy before enrolling in PHYS 698. As early as possible, a graduate student should choose a thesis chair who will help in selecting the student's thesis committee consisting of at least three members (including the thesis chair and at least one other member of the Department).

### Plan II

1. Permission of the Department Graduate Committee;
2. A minimum of 30 units of upper division and graduate courses including PHYS 510, 540A,B, 550A,B, 560A, and 695;
3. Passing a comprehensive examination.

The remaining required units, not more than 6 of which may be in related fields, are to be from courses selected in consultation with the Graduate Advisor.

## Option in Applied Physics (code PHYSMS02)

The Option in Applied Physics provides a master's degree program that emphasizes concepts and techniques particularly appropriate for applied physics. It is intended for students having a background in physics, engineering, or a related field.

### Prerequisites

1. A bachelor's degree with a major in physics, or
2. A bachelor's degree with a major in engineering with upper division physics substantially equivalent to PHYS 310, 340A,B, and 450, as determined by the Department Graduate Advisor, or
3. A bachelor's degree with upper division physics and mathematics courses essentially equivalent to PHYS 310, 340B, 450, and MATH 370A,B, as determined by the Department Graduate Advisor.

Students deficient in undergraduate preparation must take courses to remove these deficiencies as determined by the Department Graduate Advisor.

### Requirements

1. Advancement to Candidacy
  - a. Students must fulfill the University requirements for advancement to candidacy.
  - b. A student must have a "B" average or better in six units of physics applicable toward the master's degree, of which at least three units are at the graduate level.
2. Recognizing that effective organization and verbal communication of physics are a necessary part of a successful graduate program, the Department of Physics and Astronomy normally requires that a graduate student serve at least one semester as a teaching associate or a graduate assistant as part of the M.S. program. Exceptions may be granted by the Graduate Advisor.

### Additional Requirements

Thirty units of upper division and graduate courses as described below.

1. PHYS 540A, 550A, 560A, 569, and 695.
2. Two of the following courses or combinations of courses: PHYS 502/503, 545, 575/576, and 580.
3. Completion of a written thesis, 6 units of PHYS 698, and an oral presentation of the thesis research. The members of the candidate's thesis committee must approve the thesis before the student may schedule the oral presentation.  
Note: Students must be advanced to candidacy before enrolling in PHYS 698. As early as possible, a graduate student should choose a thesis chair who will help in selecting the student's thesis committee consisting of at least three members (including the thesis chair and at least one other member of the Department).
4. Courses selected in consultation with the Department Graduate Advisor and/or thesis chair to complete the remaining 2 to 3 units.

---

## Physics Courses (PHYS)

---

### Lower Division

#### 100A,B. General Physics (4,4) F,S

Prerequisites: MATH 112 or 117 or 119A or 120 or 122. PHYS 100A is a prerequisite for PHYS 100B. Year course in introductory physics. The first semester considers properties of matter, mechanics, wave motion and heat. The second semester considers electricity, light, and atomic and nuclear physics. Letter grade only (A-F). (Lecture 3 hrs, laboratory 3 hrs.) (100A: CAN PHYS 2; 100B: CAN PHYS 4)

#### 102. Introduction to Physics (3) F,S

Prerequisite: MATH 117 (which may be taken concurrently) or three-and-one-half years of high school mathematics including two years of algebra, one year of geometry and one-half year of trigonometry. This course is designed to assist students who need additional preparation before enrolling in PHYS 100A or 151. Basic problems and concepts in physics, particularly in mechanics. Credit/No Credit grading only. Course begins in the fourth week of the semester. (Lectures, problem sessions 4 hrs.)

#### 151. Mechanics and Heat (4) F,S

Prerequisite: MATH 122. Kinematics, Newton's Laws, rotational motion, fluid statics, laws of thermodynamics. Letter grade only (A-F). (Lecture 3 hrs., laboratory 3 hrs.)

#### 152. Electricity and Magnetism (4) F,S

Prerequisites: PHYS 151; MATH 123. Mechanical waves, Coulomb's law, electrostatics, electric circuits, introductory electronics, magnetic fields, induction and Maxwell's equations. Letter grade only (A-F). (Lecture 3 hrs., laboratory 3 hrs.)

#### 254. Applied Modern Physics (3) F,S

Prerequisites: PHYS 152 or EE 210; MATH 224. Geometrical and physical optics, models of atomic and condensed matter systems. Letter grade only (A-F). Not open to students with a "C" or better in PHYS 153 or PHYS 154. (Lecture 3 hrs.)

#### 255. Laboratory on Modern Physics (1)

Prerequisites: PHYS 254, which may be taken concurrently. Experimental work in optics and modern physics. Not open to students with a "C" or better in PHYS 153 or PHYS 155. PHYS 255 is equivalent to PHYS 155. Letter grade only (A-F). (Laboratory 3 hrs.)

### Upper Division

#### 310. Mechanics I (3) F

Prerequisites: PHYS 151. Prerequisite or Corequisite: MATH 370A or 364A. Kinematics and dynamics of mass points and systems of particles. Conservation laws. Harmonic motion. Central force problem. Noninertial frames of reference. Lagrangian and Hamiltonian formulation of the laws of mechanics. Letter grade only (A-F). (Lecture 3 hrs.)

#### 320. Classical and Statistical Thermodynamics (3) F

Prerequisite: PHYS 152. Prerequisite or co-requisite, PHYS 254. Laws of thermodynamics, thermodynamic potentials, kinetic theory methods, phase transitions, equilibrium ensembles and related formalism with applications to classical and quantum systems. (Lecture 3 hrs.)

#### 330. Experimental Optics and Spectroscopy (3) F

Prerequisites: PHYS 254, 255. Interference, diffraction, polarization and elementary spectroscopy. (Lecture 2 hrs., laboratory 3 hrs.)

#### 340A. Electricity and Magnetism I (3) S

Prerequisites: PHYS 152, 310. Prerequisite or Corequisite: MATH 370A or 364A. Vector calculus, electrostatics, and magnetostatics. Formulation of Maxwell's equations in vector analytic form. Letter grade only (A-F). (Lecture-discussion 3 hrs.)

**340B. Electricity and Magnetism II (3) F**

Prerequisite: PHYS 340A. Special relativity. Applications of Maxwell's equations: Plane electromagnetic waves, guided waves, radiation, interaction of electromagnetic waves and matter. (Lecture-discussion 3 hrs.)

**350. Modern Physics (3) S**

Prerequisites: PHYS 310; MATH 370A or 364A. Physical phenomena and models leading to the development of quantum mechanics. Schroedinger equation, one-dimensional quantum mechanical problems, uncertainty principle, one-electron atoms, elementary applications of quantum mechanics. (Lecture-discussion 3 hrs.)

**360. Computers in Physics (3) F**

Prerequisite: PHYS 152. Prerequisite or Corequisite: MATH 370A or 364A. Introduction to the use of the personal computer in physics calculations and analysis. Introduction to the Mathematica software. Introduction to interpolation and fitting of experimental data. Examples of symbolic (analytic) calculations, numerical solutions, and graphical display of results for a variety of physics problems. Introduction to programming in Mathematica. Letter grade only (A-F). (Lecture-discussion 3 hrs.)

**\*380. Electronics (4) S**

Prerequisite: PHYS 152. Network analysis and complex impedance, transistor circuits, operational amplifiers, active filters and oscillators, digital electronics, analog-digital interfacing, microprocessors. Letter grade only (A-F). (Lecture 3 hrs., laboratory 3 hrs.)

**402./502. Fourier Methods in Physics (3) F, odd years**

Prerequisites: PHYS 310; MATH 370B or 461. (Undergraduates enroll in PHYS 402; graduates enroll in PHYS 502.) Fourier transforms in time and space, convolution, generalized functions, impulse response and transfer function. Application of Fourier techniques to problems in classical acoustics and optics: oscillators, directional radiators, holography and imaging in general. Letter grade only (A-F). (Lec 3 hrs)

**403./503. Fourier Physics Laboratory (1) F, odd years**

Prerequisite: PHYS 402 which may be taken concurrently. (Undergraduates enroll in PHYS 403; graduates enroll in PHYS 503.) Selected experiments in acoustics and optics illustrating Fourier techniques in wave physics. Detailed study of the discrete Fourier transform and its application to experimental measurements and calculations. Letter grade only (A-F). (Laboratory 3 hrs.)

**410./515. Relativity (3) F, odd years**

Prerequisite: PHYS 340A. Prerequisite or Corequisite: MATH 370A or 364A. (Undergraduates enroll in PHYS 410; graduates enroll in PHYS 515.) The Lorentz transformation, relativistic kinematics and dynamics, 4-vectors and tensors, transformation of electric and magnetic fields, covariant form of Maxwell's equations, introduction to general relativity. Letter grade only (A-F). (Lecture-discussion 3 hrs.)

**422./522. Thermal Physics (3) F, even years**

Prerequisites: PHYS 310, 320, 350. (Undergraduates enroll in PHYS 422; graduates enroll in PHYS 522.) Entropy and temperature, Boltzmann distribution and Helmholtz free energy, thermal radiation, chemical potential, Gibbs distribution, ideal gas, Fermi and Bose gases, heat and work, Gibbs free energy and chemical reactions, phase transformations and kinetic theory. Letter grade only (A-F). (Lec-discussion 3 hrs)

**434./534. Astrophysics (3) F, even years**

Prerequisites: PHYS 310, 320, and 340A or consent of the instructor. (Undergraduates enroll in PHYS 434; graduates enroll in PHYS 534.) Selected topics in astrophysics. A particular semester schedule might include one or two topics from: stellar interiors and evolution, radiative transfer and stellar atmospheres, relativistic cosmology, galaxy formation, accretion disk physics and quasars. Letter grade only (A-F). (Lecture 3 hrs)

**444./544. Plasma Physics (3) S, odd years**

Prerequisites: PHYS 340A. (Undergraduates enroll in PHYS 444; graduates enroll in PHYS 544.) Characteristic behavior of high temperature plasma. Particle trajectories, two-fluid and hydro-magnetic models, waves, instabilities and transport processes. Applications to astrophysical, geophysical and laboratory plasmas. (Lecture 3 hrs.)

**445./545. Fundamentals and Techniques of Materials****Physics (3) S, odd years**

Prerequisites: PHYS 254; PHYS 450 or consent of instructor. (Undergraduates enroll in PHYS 445; graduates enroll in PHYS 545.) Fundamentals of materials physics and physical properties of matter, principles and operation of the scanning tunneling and scanning force microscopes, resistance and temperature measurements. Letter grade only (A-F). (Lecture 2 hrs., laboratory 3 hrs.)

**450. Quantum Physics I (3) F**

Prerequisites: PHYS 310, 340A, 350. Schroedinger equation, atomic physics, harmonic oscillator, scattering, perturbation theory, Heisenberg and Dirac representations, spin, symmetries (angular momentum, time reversal, and parity), applications. (Lec-discussion 3 hrs.)

**\*451. Quantum Physics II (3) S, even years**

Prerequisite: PHYS 450. Measurement processes, atomic physics, identical particles, quantum statistics, numerical methods, many-body systems, density matrix, applications. Letter grade only (A-F). (Lecture-discussion 3 hrs.)

**470./569. Introduction to Solid State Physics (3) S, odd years**

Prerequisite: PHYS 450. (Undergraduates enroll in PHYS 470; graduates enroll in PHYS 569.) Study of the properties of solids from a quantum theoretical viewpoint. Topics include lattice vibrations, elastic constants, and thermal, electric and magnetic properties. Letter grade only (A-F). (Lecture 3 hrs.)

**475./575. Modern Optics (3) F, even years**

Prerequisite: PHYS 340A. (Undergraduates enroll in PHYS 475; graduates enroll in PHYS 575.) Propagation of electromagnetic waves, optical resonators, laser spectroscopy and operation, optical phase conjugation, nonlinear optics and selected application. Letter grade only (A-F). (Lecture 3 hrs.)

**476./576. Modern Optics Laboratory (1) F, even years**

Prerequisites: PHYS 475/575 which may be taken concurrently. (Undergraduates enroll in PHYS 476; graduates enroll in PHYS 576.) Selected experiments illustrating principles and techniques of current interest in electro-optics and laser physics. Applications include optical methods in communications, atomic spectroscopy, and nonlinear optics. Letter grade only (A-F). (Laboratory 3 hrs.)

**480./580. Computer Interfacing in Experimental Physics (3) S, even years**

Prerequisite: PHYS 380 or consent of instructor. (Undergraduates enroll in PHYS 480; graduates enroll in PHYS 580.) Introduction to modern data acquisition and analysis methods using computer-based equipment and high level software. Selected physics experiments are performed with standard personal computers, research-quality data acquisition hardware, and programmable instruments. The use of the computer as a tool in the execution and interpretation of physics experiments is emphasized. Letter grade only (A-F). (Lecture 2 hrs., laboratory 3 hrs.)

**490./590. Special Topics in Physics (3)**

Prerequisite: Consent of instructor. (Undergraduates enroll in PHYS 490; graduates enroll in PHYS 590.) Topics of interest in physics selected from such areas as atomic and nuclear physics, astrophysics, physics of materials, low temperature physics, acoustics and theoretical physics. May be repeated to a maximum of 6 units. (Lecture 3 hrs.)

#### 496. Special Problems in Physics (1-3)

Prerequisites: Consent of instructor and senior standing. Problems in physics. Problems selected by instructor for considered and mature analysis. A written and 10-minute oral report are required.

#### Graduate Level

##### 500. Research Methods (1)

Prerequisite: Consent of instructor. Directed study of the literature about research methods in physics. May be repeated to a maximum of 2 units; only 1 unit may be applied to the Master of Science in Physics. Letter grade only (A-F).

##### 502./402. Fourier Methods in Physics (3) F, odd years

Prerequisites: PHYS 310; MATH 370B or 461. (Undergraduates enroll in PHYS 402; graduates enroll in PHYS 502.) Fourier transforms in time and space, convolution, generalized functions, impulse response and transfer function. Application of Fourier techniques to problems in classical acoustics and optics: oscillators, directional radiators, holography and imaging in general. Letter grade only (A-F). (Lecture 3 hrs.)

##### 503./403. Fourier Physics Laboratory (1) F, odd years

Prerequisite: PHYS 502 which may be taken concurrently. (Undergraduates enroll in PHYS 403; graduates enroll in PHYS 503.) Selected experiments in acoustics and optics illustrating Fourier techniques in wave physics. Detailed study of the discrete Fourier transform and its application to experimental measurements and calculations. Letter grade only (A-F). (Laboratory 3 hrs.)

##### 510. Graduate Mechanics (4) F

Prerequisite: PHYS 310. Variational principles, Lagrange's equations, Hamilton's equations, canonical transformations, Hamilton-Jacobi theory, relativistic mechanics and small oscillation theory. Letter grade only (A-F). (Lecture 4 hrs.)

##### 515./410. Relativity (3) F, odd years

Prerequisite: PHYS 340A. Prerequisite or Corequisite: MATH 370A or MATH 364A. (Undergraduates enroll in PHYS 410; graduates enroll in PHYS 515.) The Lorentz transformation, relativistic kinematics and dynamics, 4-vectors and tensors, transformation of electric and magnetic fields, covariant form of Maxwell's equations, introduction to general relativity. Letter grade only (A-F). (Lecture-discussion 3 hrs.)

##### 522./422. Thermal Physics (3) F, even years

Prerequisites: PHYS 310, 320, 350. (Undergraduates enroll in PHYS 422; graduates enroll in PHYS 522.) Entropy and temperature, Boltzmann distribution and Helmholtz free energy, thermal radiation, chemical potential, Gibbs distribution, ideal gas, Fermi and Bose gases, heat and work, Gibbs free energy and chemical reactions, phase transformations and kinetic theory. Letter grade only (A-F). (Lecture-discussion 3 hrs.)

##### 534./434. Astrophysics (3) F, even years

Prerequisites: PHYS 310, 320, and 340A or consent of the instructor. (Undergraduates enroll in PHYS 434; graduates enroll in PHYS 534.) Selected topics in astrophysics. A particular semester schedule might include one or two topics from: stellar interiors and evolution, radiative transfer and stellar atmospheres, relativistic cosmology, galaxy formation, accretion disk physics and quasars. Letter grade only (A-F). (Lecture 3 hrs.)

##### 540A. Graduate Electricity and Magnetism and Electrodynamics I (3) S

Prerequisite: PHYS 340B. Boundary-value problems, applications of special functions to electro/magnetostatics, Green's function techniques, multipole expansion of the electrostatic field, dielectric media, Maxwell's equations, electromagnetic waves. Letter grade only (A-F). (Lecture 3 hrs.)

##### 540B. Graduate Electricity and Magnetism and Electrodynamics II (3) F

Prerequisites: PHYS 540A. Covariant formalism, simple radiating systems, radiation by moving charges, and selected topics in electrodynamics chosen from the following: wave guides, magnetohydrodynamics, thermodynamics and electrodynamics of continuous media, and radiation reaction. Letter grade only (A-F). (Lecture 3 hrs.)

##### 544./444. Plasma Physics (3) S, odd years

Prerequisites: PHYS 340A. (Undergraduates enroll in PHYS 444; graduates enroll in PHYS 544.) Characteristic behavior of high temperature plasma. Particle trajectories, two-fluid and hydro-magnetic models, waves, instabilities and transport processes. Applications to astrophysical, geophysical and laboratory plasmas. Letter grade only (A-F). (Lecture 3 hrs.)

##### 545./445. Fundamentals and Techniques of Materials Physics (3) S, odd years

Prerequisites: PHYS 254; PHYS 450 or consent of instructor. (Undergraduates enroll in PHYS 445; graduates enroll in PHYS 545.) Fundamentals of materials physics and physical properties of matter, principles and operation of the scanning tunneling and scanning force microscopes, resistance and temperature measurements. Graduate students are required to perform additional assignments and/or examinations. Letter grade only (A-F). (Lecture 2 hrs., laboratory 3 hrs.)

##### 550A. Quantum Mechanics I (3) F

Prerequisite: PHYS 450. Mathematical and postulational basis of quantum mechanics, one-dimensional problems, two-level systems, angular momentum, central potentials, time independent and time dependent perturbation theory. Letter grade only (A-F). (Lecture 3 hrs.)

##### 550B. Quantum Mechanics II (3) S

Prerequisite: PHYS 550A. Scattering, rotation group and irreducible tensor operations, identical particles, semi-classical radiation theory, atoms, path integral formalism, and other selected topics. Letter grade only (A-F). (Lecture 3 hrs.)

##### 554. Nuclear Physics (3)

Prerequisite: PHYS 550A. Deuteron problem, nucleon-nucleon potential, shell model, nuclear models, nuclear reactions, elementary particles, weak interactions, strong interactions. Letter grade only (A-F). (Lecture 3 hrs.)

##### 555. Elementary Particle Physics (3) S, even years

Prerequisites: PHYS 310, 340B, 450. Feynman diagram language of scattering and decay, space-time symmetries, relativistic kinematics, hadron quantum numbers and quark models, QED, QCD and gluons, weak interactions. Letter grade only (A-F). (Lecture 3 hrs.)

##### 560A,B. Methods of Mathematical Physics (4,3)

Prerequisites: MATH 370A,B or equivalent. Linear vector spaces, eigen-value problem, functions of a complex variable, special functions, properties and methods of solving partial differential equations of physics, integral equations, tensor analysis and group theory. Letter grade only (A-F). (Lecture 4,3 hrs.)

##### 569./470. Introduction to Solid State Physics (3) S, odd years

Prerequisite: PHYS 450. (Undergraduates enroll in PHYS 470; graduates enroll in PHYS 569.) Study of the properties of solids from a quantum theoretical viewpoint. Topics include lattice vibrations, elastic constants, and thermal, electric and magnetic properties. Letter grade only (A-F). (Lecture 3 hrs.)

##### 570. Solid State Physics (3) F

Prerequisite: PHYS 450. The modern theory of solids from the standpoint of quantum mechanics. Binding in solids, energy bands, electrical thermal and magnetic properties, imperfections, and semiconductors. Letter grade only (A-F). (Lecture 3 hrs.)

##### 575./475. Modern Optics (3) F, even years

Prerequisite: PHYS 340A. (Undergraduates enroll in PHYS 475; graduates enroll in PHYS 575.) Propagation of electromagnetic waves, optical resonators, laser spectroscopy and operation, optical phase conjugation, nonlinear optics and selected applications. Letter grade only (A-F). (Lecture 3 hrs.)

##### 576./476. Modern Optics Laboratory (1) F, even years

Prerequisite: PHYS 475/575 which may be taken concurrently. (Undergraduates enroll in PHYS 476; graduates enroll in PHYS 576.) Selected experiments illustrating principles and techniques of current interest in electro-optics and laser physics. Applications include optical methods in communications, atomic spectroscopy, and nonlinear optics. Letter grade only (A-F). (Laboratory 3 hrs.)

**580./480. Computer Interfacing in Experimental Physics (3) S, even years**

Prerequisite: PHYS 380 or consent of instructor. (Undergraduates enroll in PHYS 480; graduates enroll in PHYS 580.) Introduction to modern data acquisition and analysis methods using computer-based equipment and high level software. Selected physics experiments are performed with standard personal computers, research-quality data acquisition hardware, and programmable instruments. The use of the computer as a tool in aiding the execution and interpretation of physics experiments is emphasized. Letter grade only (A-F). (Lecture 2 hrs., laboratory 3 hrs.)

**590./490. Special Topics in Physics (3)**

Prerequisite: Consent of instructor. (Undergraduates enroll in PHYS 490; graduates enroll in PHYS 590.) Topics of interest in physics selected for intensive development. Topics to be selected from such areas as atomic and nuclear physics, astrophysics, physics of materials, applied optics and laser spectroscopy, low temperature physics, acoustics and theoretical physics. May be repeated to a maximum of 6 units. Letter grade only (A-F). (Lecture 3 hrs.)

**599. Quantum Field Theory (3)**

Prerequisites: PHYS 550B or consent of instructor. Selected topics to be chosen from: Many-particle systems and field theory; interactions, bound states, and the S-matrix; gauge theories and Q.E.D.; path-integral picture. Selected applications from condensed matter physics, electro-weak interactions, Q.C.D., lattice gauge theory, conformal field theory, string theory. (Lecture 3 hrs.)

**691. Directed Study (1)**

Intensive study of advanced topics in physics. May be repeated to a maximum of 2 units. Letter grade only (A-F).

**694. Seminar in Special Topics (1)**

Prerequisite: Graduate standing. Study of research papers and research methods in selected topics. If demand for more than one subject exists, multiple sections may be given in any one semester. May be repeated to a maximum of 2 units; only 1 unit may be applied to the master's degree. Letter grade only (A-F). (Seminar 1 hr.)

**695. Colloquium (1)**

Prerequisites: Graduate standing. Weekly meetings for presentation and discussion of current research in physics even though only 1 unit is for the MS degree. All graduate students are expected to attend each semester they are enrolled in the University. Credit/No Credit grading only. (Seminar 1 hr.)

**697. Directed Research (1-3)**

Theoretical and experimental problems in physics requiring intensive analysis. Letter grade only (A-F).

**698. Thesis (1-6)**

Prerequisite: Advancement to candidacy for the M.S. in Physics. Planning, preparation, and completion of an acceptable thesis in partial fulfillment of the requirements for the master's degree. A half-hour seminar presenting and defending the results of the thesis is required. Credit to be obtained only upon formal acceptance of thesis.

---

**Astronomy Courses (ASTR)**

---

**Lower Division**

**100. Astronomy (3) F,S**

Prerequisite/Corequisite: One course from Category B.2 of the GE requirements. Introductory course in astronomy. The earth moon system and the planets, the stars and their constitution. Survey of the methods of astronomical observation. (Lecture 3 hrs.)

**100L. Introductory Astronomy Laboratory (1) F,S**

Prerequisites/Corequisites: One course from Category B.2 of the GE requirements; ASTR 100. Astronomical coordinates, star maps, magnitude, spectral classification, ages of stars, distance to star clusters. Not open to students with credit in ASTR 101. (Laboratory 3 hrs.)

**Upper Division**

**370I. Planetary Environments (3) F, S**

Prerequisites: Completion of the G.E. Foundation and the G.E. B.1.b Category; upper-division standing. Analysis of planets in our own solar system with particular emphasis on plate tectonics and the locally relevant subject of seismology. Also considered are the origin and evolution of terrestrial life, including the role of extinction events, and the probability of life elsewhere in the universe. May not be used by physics majors toward meeting GE requirements. (Lecture 3 hrs.)

---

**Physical Science Courses (PHSC)**

---

**Lower Division**

**112. Introduction to the Physical Sciences (3) F,S**

Prerequisite/Corequisite: One course from Category B.2 of the GE Foundation. Selected processes which illustrate some of the basic principles used by scientists to interpret modern ideas of matter and energy in the physical universe. Students with a full year course in high school physics or chemistry should elect some other lower division course in chemistry, geology or physics. Not open for credit to majors in any of the physical sciences. (Lecture 2 hrs., laboratory 3 hrs.)

**Upper Division**

**331. Light, Lasers and the Visual Image (3)**

Nonmathematical course that describes light, its behavior and applications. Emphasis on image formation, optical instruments, science of color, lasers, holography and analysis of light for elements, planets and stars. Colorful demonstrations using lasers and holograms including kinetic art. Recommended for art and other non-science majors. (Lecture-demonstration 3 hrs.)

# POLITICAL SCIENCE

#### Graduate Coordinator

Ronald J. Schmidt

#### Pre-Law Advisor

Renée Cramer

The political science major is designed to provide the student with a systematic knowledge of the nature and scope of political science. A student may elect to major in political science as a preparation for such fields as: (1) college or university teaching, (2) law, (3) government career service, (4) foreign career service, and (5) politics. In addition, a political science major is preparation for general education, good citizenship and participation in political life. Students interested in the fields mentioned above should consult with an advisor to secure aid in planning their programs.

### *Pre-Law Program and Preparation*

Political Science continues to be one of the more popular and successful roads to law school and careers in the legal field. Combining a broad exposure to liberal arts with an in-depth immersion in government studies and public law, plus opportunities to intern in legal settings, Political Science provides a rich preparation for those interested in pursuing careers in law. Students interested in our program should consult with the Pre-law advisor in Political Science both to plan a carefully thought out undergraduate course of study and to successfully prepare for admission to law schools.

### *General Education Requirements in Government*

The Education Code requires each college graduate to meet (1) a federal government requirement and (2) a California state and local government requirement. Both of these requirements can be met by POSC 100 (for lower division students) or POSC 391 (for upper division students). If the student has completed the federal government requirement, but not the California state and local government requirement, the student should take POSC 326. Students who have taken American federal, state or local government at another institution should check with the political science advisor before enrolling.

## Bachelor of Arts in Political Science (code POSCBA01) (120 units)

### Requirements

Required Courses: (6 units) POSC 100, 300

Breadth Requirement: (24 units)

Three upper division units from five of the following six areas:

International Relations, Comparative Politics, Political Theory, Public Law, American Government, Politics, Public Policy and Administration

Nine units of electives in Political Science courses, six of which may be in the lower division. Any upper division political science course may be used to fulfill this requirement. A maximum of 6 units of internship may be used to fulfill degree requirements.

Concentration Requirement: (9 units) Nine units from a sixth area, three units of which must be the senior seminar in that area (e.g., POSC 409, 419, 429, 449, 469, or 489)

Total Units: 39

## Honors in Political Science

Students with a major in Political Science may be admitted to the Political Science Department's honors program (option of the University Honor's Program) provided they have:

1. Junior standing, completed POSC 300 or 300A and at least two additional upper-division courses in Political Science;
2. A minimum of three semesters remaining before graduation;
3. A minimum cumulative GPA of 3.3, and 3.5 in Political Science courses;
4. Submitted to the Department Honors Committee two letters of recommendation from faculty members and an example of a research or analytical paper written for a previously taken course in Political Science;
5. Received admission approval from the Department Honors Committee.

In order to graduate with Honors in Political Science a student must:

1. Complete all regular requirements for the major in Political Science;
2. Complete 3 units of POSC 490H: Honors Seminar;
3. Complete 3 units of POSC 491H: Honors Research;
4. Complete 3 units of POSC 492H: Honors Thesis;
5. Have at the time of graduation a cumulative GPA of at least 3.3 and a GPA of at least 3.5 in Political Science courses.

### FOUR YEAR PLAN TO COMPLETE THE B.A. DEGREE in POLITICAL SCIENCE (POSCBA01)

120 Units Required

Department of Political Science

Semester 1		Semester 2	
University 100	1	Oral Comm or Composition	3
Composition or Oral Comm	3	GE Math or other GE Class	3-4
GE Math or other GE Class	3-4	Critical Thinking or other GE course	3
GE Class	3	POSC 100 (GE D1b)	3
GE Class	3	GE Class	3
Elective Class	1		
TOTAL UNITS	14-15	TOTAL UNITS	15-16
Semester 3		Semester 4	
Critical Thinking or other GE course	3	GE Class	3
GE Class	3	GE Class	3-4
GE Class	3-4	Elective Class	3
Elective Class	3	Elective Class	3
Elective Class	3	Elective Class	3
TOTAL UNITS	15-16	TOTAL UNITS	15-16
Semester 5		Semester 6	
POSC 300	3	Major Breadth Class	3
Major Breadth Class	3	Major Breadth Class	3
Major Breadth Class	3	Major Concentration Class	3
GE Capstone Class*	3	GE Capstone Class*	3
Elective Class	3	Elective Class	3
TOTAL UNITS	15	TOTAL UNITS	15

## Semester 7

## Semester 8

Major Breadth Class	3	Major Concentration Class	3
Major Breadth Class	3	Major Breadth Class	3
Major Concentration Class/		Major Breadth Class	3
Senior Seminar	3		
GE Capstone Class*	3	Elective Class	3
Elective Class	3	Elective Class	3
TOTAL UNITS	15	TOTAL UNITS	15

\*GE Interdisciplinary Capstone classes may be able to count in GE and the major - see advisor

Students can satisfy both upper division GE capstone requirements and POSC breadth and/or elective requirements by taking POSC 388I, POSC 395I, POSC 461I, and/or POSC 494I.

Students who do not take 200-level major electives in the second year may take these or upper division electives in their third or fourth years.

Students who need to meet the GE Human Diversity requirement may use POSC 323 to satisfy that requirement while using it as a POSC major elective or to meet the POSC breadth requirement, or concentration requirement (but not Senior Seminar).

Senior Seminar is offered only once a year. Students should take it the first semester in which it appears during their senior year.

### FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

#### I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

#### Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

**I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?**

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

**I didn't complete the exact list of courses shown. Can I still graduate on time?**

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

**If I follow the plan, will I have all requirements for graduation completed?**

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

## Minor in Political Science (code POSCUM01)

The Minor in Political Science is available to any non-Political Science major.

A minimum of 21 units which must include:

Required: POSC 100 or 391, 300

Upper Division: Five upper division courses (300/400 level) which may include one approved political science internship from 418, 447, 448, 496, or 498.

## Minor in Public Administration in Political Science (code POSCUM02)

The Minor in Public Administration in Political Science is available to any non-Political Science major.

A minimum of 21 units which must include: (a) POSC 430; (b) 9 units selected from POSC 431, 432, 433, 436, 438, 442, 449; (c) 6 units selected from POSC 300B, 322, 323, 326, 327, 328, 329, 420, 447, 448; (d) Three elective units from any area in political science chosen in consultation with an advisor.

## Master of Arts in Political Science (code POSCMA01)

The Department of Political Science offers graduate study leading to the master of arts degree. The student is urged to become acquainted with the general requirements of the University and the specific requirements of the department as stated in this *Catalog*. Important supplementary information about the steps leading to the master's degree in political science is contained in the Handbook for Graduate Students, which is available from the department upon request.

Before or soon after entering the program, the graduate student will normally consult with the department graduate advisor.

After beginning graduate study, the student is responsible for obtaining the consent of fulltime members of the department's graduate faculty to serve on her/his graduate committee: one of these committee members, the chair, will be drawn from the student's major field of concentration and will serve as the student's academic advisor. The student should seek to have established her/his committee prior to the completion of the first year or the first 18 units of work as a graduate student in political science unless an exception is granted by the Department Graduate Committee.

### Prerequisites

1. A bachelor's degree with a major in political science or a bachelor's degree with 24 upper division units in political science comparable to those required for a major in political science at this university.
2. Completion of a minimum of one upper-division political theory course equivalent to POSC 301 or POSC 303 at CSULB, with a grade of "B" or better.
3. Students whose undergraduate work is deficient in political science will be required to make up certain courses. Deficiencies will be determined by the Department's Graduate Committee after taking into account each student's background and goals. These courses will not count toward credit in the M.A.
4. A 3.0 ("B") GPA in political science courses taken as an undergraduate. (A student whose GPA is less than 3.0 may appeal to the Department's Graduate Committee for a possible waiver of this requirement.)
5. Three letters of recommendation (preferably from academic sources).

### Advancement to Candidacy

1. Satisfy the general requirements of the University for advancement to candidacy;
2. In order to be recommended for advancement to candidacy, students must obtain the written approval of their master's degree program of course work by their committee chair and graduate advisor.

## Requirements

1. A student's program is formulated in consultation with an advisor selected from the department's faculty. A minimum of 30 units of acceptable upper division and graduate courses is required. All students are required to take both POSC 500 and POSC 550. 21 units must be concentrated in three of the fields into which the department's curriculum is divided.
2. The graduate student must complete one of the following requirements: (a) A comprehensive examination in each of two fields of Political Science (b) A thesis;  
Students following the comprehensive examination option will earn 3 units of credit in POSC 697 and those writing a thesis will be granted three units of credit in POSC 698.

## Interdisciplinary Minor in Public Policy (code POSCUM03)

The purpose of this program is to enable persons majoring in fields related to public policy to gain a broader understanding of the substance of public policies, the underlying social, economic and political factors related to policy alternatives, the dynamics of the public policy decision-making process, the values implicit in these decisions, and methods by which these aspects of public policy may be analyzed.

The minor consists of 21 units including a core curriculum of 12 units and 9 units of electives. A maximum of 6 units may be taken in the student's major department, but no units may be counted in both the major and the minor.

## Requirements

1. Core Curriculum: (12 units required): Twelve units chosen from among the following courses: ECON 450, GEOG 466, POSC 328, PSY 375I, U/ST 301I.  
Note: It is strongly recommended that students take the core curriculum courses in sequence, the first two courses during the Junior year; the second two during the Senior year.
2. Electives: (9 units required): At least 6 units of the 9 elective units must be taken in one of the policy area concentrations outlined below. The remaining 3 units may be taken from among any of the elective courses approved for the minor. See program director or a member of the Faculty Advisory Committee for a student handbook that lists all courses approved as electives.

*Policy Area Concentrations:* Community Relations and Social Services, Health Care, Housing and Recreation, Education, Economic Regulation, Justice and Law, Land Use and Ecology, Computational Skills for Public Policy, Foreign Policy and International Relations, Values and Public Policy, Government Processes and Policy.

## Courses (POSC)

### Lower Division

#### 100. Introduction to American Government (3)

Prerequisite/Corequisite: Any GE Foundation course. Introductory survey of American Political Institutions, politics, and policy, including government and politics in California. Constitutional foundations and current controversies. Satisfies the general education requirement and the California teaching credential requirement. (CAN GOVT 2)

#### 105. Introduction to Critical Thinking (3)

Prerequisites/Corequisite: Completion/concurrent enrollment in ENGL 100 or equivalent. Introduces students to the discipline of critical thinking by studying examples of philosophical writing, political rhetoric, and political propaganda. Emphasis on developing an analytic distance on ideological issues by surveying texts in political theory that distinguish a fact from a value, inductive from deductive reasoning, and an emotional response from reasoned judgment. Explores the relationship between language and logic, the role of inference in the formulation of opinions and arguments, and the value of intellectual honesty.

#### 201. Introduction to Political Science (3)

Prerequisite: Completion of GE Foundation requirements and POSC 100. Introduction to the principles of political science. Major terms, concepts, functions, and institutions relating to the processes of politics.

#### 210. Issues of American Politics (3)

Prerequisite: Completion of GE Foundation requirements and POSC 100. Intensive study of issues associated with the concepts of democracy, limited government, federalism, separation of powers, judicial review, and preservation of individual rights.

#### 215. Issues of Comparative Politics (3)

Prerequisite: Completion of GE Foundation requirements and POSC 100. Intensive study of issues associated with selected foreign governments, modernization, revolution, political change and world ideological conflict.

#### 220. Issues in Global Politics (3)

Prerequisite: Completion of GE Foundation requirements and POSC 100. Divergences between nations as they affect political differences between states. The political significance of the encounter of individuals with those of different nationalities.

#### 225. Issues in Political Theory (3)

Prerequisite: Completion of GE Foundation requirements and POSC 100. Study and discussion of issues including revolution, power, justice, alienation, the nature of democracy, and other important political concepts. Views of theorists such as Plato, Hobbes, Rousseau, Mill, and Marx will be examined.

#### 230. Issues in Political Economy (3)

Prerequisite: Completion of GE Foundation requirements and POSC 100. The relationship between politics and economics in contemporary societies; theories of political economy; the development of economic and regulatory policies in advanced capitalist democracies.

The Political Science Department upper division courses fall into several curricular sub-groups, as follows:

---

### Political Theory

---

- 301. Classical Political Theory
- \*303. Modern Political Theory
- \*304. Recent Political Theory
- \*306. Contemporary Political Ideologies
- \*308. American Political Theory
- \*401. Women in Political Theory
- \*409. Senior Seminar in Political Theory

---

## Public Law

---

- \*311. Constitutional Law: Power
- \*312. Constitutional Law: Rights
- \*316. Administrative Justice and Law Making
- \*318. Modern Legal Systems
- 412. Law and Social Change
- \*414. Jurisprudence
- 417. Legal Practices: Moot Court
- 418. Legal/Judicial Apprenticeship
- \*419. Senior Seminar in Public Law

---

## American Government and Politics

---

- 321. The Media and American Politics
- 322. Political Parties
- 323. Racial and Ethnic Politics - U.S.
- 326. California Government in Comparative Perspective
- \*327. Urban Politics
- \*420. Voting, Campaigns and Elections
- \*422. Public Opinion
- \*423. The American Presidency
- \*424. The Legislative Process
- \*428. Political Behavior
- \*429. Senior Seminar in American Government and Politics

---

## Public Policy and Administration

---

- 328. Introduction to Public Policy
- \*329. The Policy Making Process
- 430. Fundamentals of Public Administration
- \*431. Public Policy Analysis
- \*432. Public Values and Public Policy
- \*433. Public Organization and Management
- \*436. Public Personnel Administration
- \*438. Comparative Public Administration
- \*442. Planning Cities and Urban Regions
- 447. Public Service Internship I
- 448. Public Service Internship II
- \*449. Senior Seminar in Public Policy and Administration

---

## Comparative Politics

---

- 353. Government and Politics of Western Europe
- \*356. Politics of the Soviet Union and its Successors
- 357. Politics of East-Central Europe
- \*358. Contemporary Latin American Politics
- \*359. Latin American Comparative Political Systems
- \*362. Society and National Politics of China
- \*363. Society and National Politics of Japan
- \*366. Governments and Politics of Southeast Asia
- \*367. Governments and Politics of the Middle East
- 450. Comparative Political Movements
- \*455. Comparative Revolutionary Change
- 4611. The Politics of Development
- \*463. Nationalism and National Identities
- \*469. Senior Seminar in Comparative Politics
- \*481. U.S. - Latin American Relations

---

## International Relations

---

- 371. Introduction to International Politics
- \*376. International Law
- \*378. International Organization and Administration
- 482. American Foreign Policy
- \*485. International Political Economy
- \*486. National Security Policies
- \*489. Senior Seminar in International Politics

---

## General

---

- 300. Scope/Methods Political Science
- 300A. Political Inquiry
- 300B. Quantitative Methods in Political Science
- 388I. Cyberspace Citizenship
- 391. American Government
- 395I. Politics Through Culture
- 490H. Honors Seminar
- 491H. Honors Research
- 492H. Honors Thesis
- \*493. Special Topics
- 494I. Politics of the Future
- 496. Washington Center Internship
- \*497. Special Topics
- \*498. Practicum in Politics
- \*499. Readings and Conference in Political Science

## Upper Division

General Education Category A must be completed prior to taking any upper division course.

### 300. Scope and Methods of Political Science (3)

Prerequisite: POSC 100. An examination of what political scientists do. Students learn about various techniques, both quantitative and qualitative, that political scientists employ to understand political phenomena. Examples will draw on all subfields from political science: American politics, comparative politics, international relations, political theory, public law and public policy. Letter grade only (A-F).

### 300A. Political Inquiry (3)

An examination of the key debates over what constitutes the proper methodological approach to the study of political and social phenomena. Topics include the philosophy of science and theoretical problems in Liberal, Marxist, and Post-Structuralist thought. (Lec 3 hrs)

### 300B. Quantitative Methods in Political Science (3)

Problems of data collection and analysis. Impact of research methods on findings. No prior knowledge of statistics is assumed. Only basic mathematical skills are needed for success in this course. (Lecture 3 hours)

### 301. Classical Political Theory (3)

Prerequisites: Completion of the GE Foundation; POSC 100. The roots of political inquiry in the works of ancient Greek and Roman political theorists such as Socrates and the Sophists, Plato, Aristotle, Cicero, Polybius, and the Stoics. Major themes will be the relationship between the individual citizen and the Polis, justice and equality, democracy and dictatorship, and the political culture of Mediterranean world.

### \*303. Modern Political Theory (3)

The emergence of modern political thought from the 17th through the 19th century in Western Europe in reaction to the English Civil War and Industrial and French Revolutions. Views of state and society expressed in the differing perspectives of John Locke, Thomas Hobbes, Jean Jacques Rousseau, John Stuart Mill, Edmund Burke, George Hegel, and Karl Marx.

### \*304. Recent Political Theory (3)

A critical study of major themes in political thought in industrial and post-industrial society, from the late 19th century until today. Recent thinkers who have made significant contributions to the understanding of the relationships among the individual, society, and politics will be examined.

### \*306. Contemporary Political Ideologies (3)

A critical examination of the nature and role of ideologies in contemporary politics. Among the major political belief systems studied will be important examples of conservatism, liberalism, socialism, communism and fascism in theory and practice.

**\*308. American Political Theory (3)**

Critical examination of theorists, concepts and forces which have shaped American political consciousness from Puritans to present.

**\*311. Constitutional Law: Power (3)**

Prerequisite: POSC 100 or 391 or equivalent. Judicial interpretation of the U.S. Constitution regarding judicial review; the power of the Presidency and the Congress; state governmental authority; nature of the American Federal System. Not open to students with credit in POSC 315.

**\*312. Constitutional Law: Rights (3)**

Prerequisite: POSC 100 or 391 or equivalent. Analysis of the rights and guarantees contained in the Bill of Rights and other constitutional and statutory provisions with leading cases. Not open to students with credit in POSC 314.

**\*316. Administrative Justice and Law Making (3)**

Process by which administrative agencies decide quasi-judicial cases involving private rights, and make rules and regulations of a quasi-legislative nature affecting private rights with reference to leading judicial decisions.

**\*318. Modern Legal Systems (3)**

Nature of law, public and private. Emphasis on cases and materials illustrating development of Anglo-American legal institutions and processes. Background for the professional study of law.

**321. The Media and American Politics (3)**

Prerequisites: Completion of GE Foundation requirements; POSC 100 or consent of instructor. Explore the role of print and electronic media in American politics and their relationship to politicians and the public. Assesses the media's impact on government, policy making, election campaigning, and the prospects for democratic deliberation. Special attention paid to the portrayal of political issues and political themes in popular culture, including film, television, and music.

**322. Political Parties (3)**

Prerequisites: Completion of GE Foundation requirements. Organization, functions and practices of political parties in the United States with special emphasis on California parties. Analysis of the part the political parties play in government and the importance of the two-party system in American government. Party responsibility in the United States in comparison with parties in other countries.

**323. Racial and Ethnic Politics - U.S. (3)**

Prerequisites: Completion of the GE Foundation; POSC 100. Examination of the political activities of racial and ethnic minority groups in the United States, including American Indians, African Americans, Latino Americans and Asian/Pacific Americans. Close attention to political debates over competing approaches, strategies and public policies promoting equality in the U.S.

**326. California Government in Comparative Perspective (3)**

Prerequisites: Completion of GE Foundation requirements. The government and politics of American States including intergovernmental relations. Special focus on political institutions, current issues, and public policies in California. May not be taken to fulfill G.E. credit except under category D.1.b.

**\*327. Urban Politics (3)**

The institutions and processes by which social conflicts in American urban areas are generated, articulated, and managed. Urban political culture, power structures, group development and activity, and governance and policy-making are emphasized. Special attention directed toward the evaluation of urban political problems and solutions.

**328. Introduction to Public Policy (3)**

Prerequisites: Completion of the GE Foundation; POSC 100. Analysis of major contemporary United States domestic policies including agriculture, income maintenance, economic regulations, worker training, conservation, crime control and revenue-sharing.

**\*329. The Policy Making Process (3)**

Prerequisites: Completion of GE Foundation, POSC 100, and POSC 328. Advanced examination of the policy process and the social, economic, and political forces and contexts that influence and are in turn conditioned by it. In depth study of substantive policy area currently on the national and/or state public agenda.

**353. Government and Politics of Western Europe (3)**

Prerequisites: Completion of the GE Foundation and POSC 100. Governments of representative European democracies, with emphasis on governmental structure, functions and political processes and their relationship to current problems.

**\*356. Politics of the Soviet Union and its Successors (3)**

Examination and analysis of the evolution and fall of the Soviet system, with particular emphasis on the crisis of one-party rule and the rise of new political institutions and forces.

**\*357. Politics of East-Central Europe (3)**

Comparative examination and analysis of the political evolution of the countries of East-Central Europe. Particular emphasis on the post-World War II period, the rise and fall of one-party systems, and the impact of Soviet domination.

**\*358. Contemporary Latin American Politics (3)**

Study of government and politics with emphasis on similarities and differences of the Latin American states. Major focus on principal groups and major issues in the political process. Conflicting explanations of the obstacles to development and other current problems will be examined.

**\*359. Latin American Comparative Political Systems (3)**

Comparative study of the political process and public policies of selected Latin American states. Includes an examination of major political, social, and economic issues and problems associated with modernization.

**\*362. Society and National Politics of China (3)**

Study of the People's Republic of China, including its origin, ideology, and organization. Contemporary social, economic, and political developments.

**\*363. Society and National Politics of Japan (3)**

Examination of Japan's political development since 1868 with special emphasis on the social and cultural bases of Japan's political system, party politics, governmental process, political economy, and foreign relations.

**\*366. Governments and Politics of Southeast Asia (3)**

Emergence and development of the contemporary political systems of Southeast Asia.

**\*367. Governments and Politics of the Middle East (3)**

Emergence and development of the contemporary political systems of the Middle East; the Arab-Israeli dispute; the role and importance of the region in international politics.

**371. Introduction to International Politics (3)**

Prerequisites: Completion of the GE Foundation; POSC 100. This course examines relations among nation-states, and explores why countries sometimes cooperate and sometimes go to war. Examines the roles of intergovernmental organizations like the UN, the WTO, and NATO, and non-governmental actors like Amnesty International and Al-Qaeda. Topics include war and peace, terrorism, international trade and finance, and diplomacy.

**\*376. International Law (3)**

Nature and historical development of international law. Determination of rules of international law. International community under law. Recognition of states and governments. Jurisdiction. Settlement of international disputes. War aggression and neutrality.

**\*378. Politics and Practice of the UN (3)**

Examination of historical development of international organization from the Concert of Europe to the United Nations. Analysis of contemporary international organization, its functions, problems and prospects in the context of the world situation. May be repeated to a maximum of 6 units in different semesters, but may only count once toward IR major concentration field requirement.

### 388I. Cyberspace Citizenship (3)

Prerequisites: Completion of GE Foundation requirements, one Explorations course, and upper-division standing. Study how people and institutions are migrating political, social, and economic functions to the Internet. Examine how the Internet is merging mass media, computer, and telecommunications into a new realm for human civilization: cyberspace. Survey of cyberspace landscapes being settled by "virtual" communities, online commerce centers, Web free speech fora, and evolving governmental institutions for managing property rights, Internet expansion and resolving cyberspace conflicts. Explore the multiple dimensions of participatory citizenship in cyberspace.

### 391. American Government (3)

Prerequisites: Completion of GE Foundation requirements. Survey of American government and politics, including attention to California government. Constitutional foundations and current controversies. Satisfies the general education requirement and the California teaching credential requirement. Not open to students with credit in POSC 100.

### 395I. Politics Through Culture (3)

Prerequisites: Completion of the GE Foundation, completion of one Explorations course, and upper division standing. This is a course that examines the interplay of politics and cultural studies. Students will employ a variety of theoretical perspectives in analyzing contemporary cultural artifacts such as art, film, music, and the media.

### \*401. Women in Political Theory (3)

Prerequisite: Students must have completed one course in either political science or women's studies. Differential treatment of women and men in western political theories, including femininity, power, rationality and the role of the women in the family. Classic and contemporary texts. Same course as W/ST 402.

### \*409. Senior Seminar in Political Theory (3)

Prerequisites: Six units in political theory courses or consent of instructor. Intensive study of selected conceptual and theoretical problems in political theory. Letter grade only (A-F).

### 412. Law and Social Change (3)

Prerequisites: Completion of the GE Foundation; POSC 100. Examines the legal strategies pursued by social movements seeking to remedy discrimination in the U.S. as well as legislative, administrative, and judicial responses. Topics may include gender equity, sexual harassment, voting rights, racial discrimination in employment and education, fair housing, labor standards, sexual orientation, environmental justice, and American Indian rights.

### \*414. Jurisprudence (3)

Fundamental legal philosophies, sources and classifications of law. Relationship of law to other disciplines and societal institutions.

### 417. Legal Practices: Moot Court (3)

Prerequisites: Completion of either: POSC 311 or 312, AND one of: POSC 318, 412, or 414; and upper division standing. Study and acquisition of the skills of lawyering, including legal research, reasoning, writing, and trial advocacy. Substantive study of civil liberties.

### 418. Legal/Judicial Apprenticeship (3)

Prerequisite: Consent of instructor. Courtroom, law office, public legal agency, and/or non-profit legal agency experience in conjunction with reading and research directed by a faculty member. May be repeated for a maximum of six units in different semesters. No more than three units of this internship course may apply toward the major in political science. A maximum of six units may be earned in 418, 447, 448, and 498 combined.

### \*419. Senior Seminar in Public Law (3)

Prerequisites: Six units in public law courses or consent of instructor. Intensive study of selected conceptual and theoretical problems in public law. Letter grade only (A-F).

### \*420. Voting, Campaigns and Elections (3)

Analysis of factors influencing citizen's voting choices; methods used by candidates seeking electoral support; changes and trends in American elections.

### \*422. Public Opinion (3)

Formation and development of public opinion; methods of measuring public opinion in the political system.

### \*423. The American Presidency (3)

The roles and powers of the American presidency with emphasis on major public policies of recent presidents.

### \*424. The Legislative Process (3)

Analysis of the origin, development, and behavior of U.S. legislative bodies. Leadership, organization and procedures, problems and principles of law-making. Legislative relations with the executive and other governmental agencies.

### \*428. Political Behavior (3)

Introduction to the socio-psychological basis of individual political behavior. Emphasis upon political socialization, political culture and personality as explanations of political participation, the development of political values and political action.

### \*429. Senior Seminar in American Government and Politics (3)

Prerequisites: Six units in American government and politics courses or consent of instructor. Intensive study of selected conceptual and theoretical problems in American government and politics. Letter grade only (A-F).

### 430. Fundamentals of Public Administration (3)

Principles and practices of federal, state and local administration. Not open to students with credit in POSC 331.

### \*431. Public Policy Analysis (3)

Examination of the meaning and use of concepts and methods employed in public policy decision analysis, including an overview of the decision process, sources and methods of handling policy-relevant data, and methods and techniques of program evaluation and policy analysis.

### \*432. Public Values and Public Policy (3)

Critical examination of selected value choices involving how and by whom public policy is to be made, and choices involving what should be the content and goals of public policy.

### \*433. Public Organization and Management (3)

Theories of organization and management with emphasis on their relation to administrative problems in civilian and military spheres of American government. Not open to students with credit in POSC 334.

### \*436. Public Personnel Administration (3)

Survey of public personnel administration, including the growth and development of the civil service, the personnel agency, recruitment procedures, position classifications, training programs, employee organization and retirement systems. Not open to students with credit in POSC 336.

### \*438. Comparative Public Administration (3)

Theories, models, structure and function of public administration in selected countries. Not open to students with credit in POSC 348.

### \*442. Planning Cities and Urban Regions (3)

Policymaking and the role of the planner in cities and urban regions. Activities of federal, state and local governments. Social and environmental consequences of land use, zoning, transportation and design. Historic preservation. New communities.

### 447. Public Service Internship I (3)

Prerequisite: Completion of the GE Foundation; POSC 100; consent of instructor. Internships in one of the various federal, state, or local governmental units in the immediate area. A maximum of six units may be earned in POSC 418, 447, 448, and 498 combined.

### 448. Public Service Internship II (3)

Prerequisite: Completion of the GE Foundation; POSC 100; consent of instructor. Internships in one of the various federal, state, or local governmental units in the immediate area. A maximum of six units may be earned in POSC 418, 447, 448, and 498 combined.

**\*449. Senior Seminar in Public Policy and Administration (3)**

Prerequisites: Six units in public policy and administration courses or consent of instructor. Intensive study of selected conceptual and theoretical problems in public policy and administration. Letter grade only (A-F).

**450. Comparative Political Movements (3)**

Prerequisites: Completion of the GE Foundation, completion of one Explorations course, and upper division standing. Comparative study of the causes, progression, and consequences of political movements.

**\*455. Comparative Revolutionary Change (3)**

Roots of revolution. Emphasis on the historical setting, ideology, socio-economic factors, political leadership, organization and nationalism. Analysis of revolutionary conditions, courses and tactics past and present.

**461I. The Politics of Development (3)**

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Problems of political development in the emergent nations of Asia, Africa and Latin America.

**\*463. Nationalism and National Identities (3)**

Prerequisites: POSC 100 and completion of GE Foundation requirements. Consideration of the impact of nationalism on contemporary world politics with special attention to the role of national identities in the rise of political violence, national liberation movements, and the struggle for democracy. Close investigation of multiple case studies, from different global contexts such as Israel, Palestine, the United States, Iraq, Russia, Chechnya, Rwanda, India, and Yugoslavia.

**\*469. Senior Seminar in Comparative Politics (3)**

Prerequisites: Six units in comparative politics courses or consent of instructor. Intensive study of selected conceptual and theoretical problems in comparative politics. Letter grade only (A-F).

**\*481. U.S. - Latin American Relations (3)**

Prerequisites: Completion of the GE Foundation, completion of one Explorations course, and upper division standing. Focuses on US policies toward Latin America and the Caribbean. Considers recent debates about these policies as well as their historical and global contexts. Surveys a variety of major issues, including US-Cuba policy, transnational crime/drug-trafficking, international finance, trade integration, and migration.

**482. American Foreign Policy (3)**

Prerequisites: Completion of GE Foundation; POSC 100. Concepts, strategies, and the shaping of American relations with other states, with special emphasis on the post-World War II period. National security, economic, and political-diplomatic concerns as they present new challenges to the United States.

**\*485. International Political Economy (3)**

Politics of global economic relations, including monetary and trade regimes, markets and multinational corporations. Emphasis on issues of confrontation and collaboration between countries regarding development strategies, services trade and technology transfer. Prospective students are strongly recommended to take POSC 371, 230, ECON 300 or the equivalent.

**\*486. National Security Policies (3)**

Analysis of strategic posture with emphasis on military, political and economic inter-relationships as they influence national security and international politics.

**\*489. Senior Seminar in International Relations (3)**

Prerequisites: Six units in international relations courses or consent of instructor. Intensive study of selected conceptual and theoretical problems in international relations. Letter grade only (A-F).

**490H. Honors Seminar (3)**

Prerequisites: Admission to the Honors Program in Political Science. The nature and development of political science and its relationship to other disciplines in the Social Sciences. Recent developments in conceptual analysis and theory are emphasized. (Seminar.) Course meets with POSC 500.

**491H. Honors Research (3)**

Prerequisite: Admission to the Honors Program in Political Science. Research for writing an Honors thesis under the direction of a faculty member. (Independent Study.)

**492H. Honors Thesis (3)**

Prerequisites: POSC 491H. Research and writing of an Honors thesis under the direction of a department faculty advisor. (Independent Study.)

**\*493. Special Topics (3)**

Prerequisite: Consent of instructor. Analysis of selected contemporary issues and problems. Topics to be announced in the *Schedule of Classes*.

**494I. Politics of the Future (3)**

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Study of present-day global problems: overpopulation, depletion of resources, environmental decay and their future political implications. Examination of alternative policies, future politics and institutional change. The technological revolutions and the totalitarian temptation.

**496. Washington Center Internship (3)**

Prerequisites: Upper division standing and consent of instructor. Students who are accepted by the Washington Center will be assisted in locating a 30-35 hr. per week career related internship in a federal, corporate or independent sector agency located in Washington D.C. All participants utilize a learning contract. A final written report is required. Students must enroll concurrently in an independent studies course to earn credit for participation in the Washington Center's seminar. Credit/No Credit grading only. May be repeated to a maximum of 9 units.

**\*497. Special Topics (3)**

Prerequisite: Consent of instructor. Analysis of selected contemporary issues and problems. May be repeated to a maximum of 6 units with different topics. Topics to be announced in the *Schedule of Classes*.

**\*498. Practicum in Politics (1-3)**

Prerequisite: Consent of instructor and department chair. Political or governmental experience supplemented by reading and research under the direction of a faculty member. May be repeated for a maximum of six units in the same semester. No more than three units may apply toward the major in political science. A maximum of six units may be earned in POSC 418, 447, 448, and 498 combined.

**\*499. Readings and Conference in Political Science (1-3)**

Prerequisite: Consent of instructor. Directed reading to permit independent pursuit by advanced students on topics of special interest. Hours to be arranged. Graduate students who have had this course as an undergraduate may repeat it.

## Graduate Level

**500. Foundations and Scope of Political Science (3)**

Prerequisite: Graduate status or consent of instructor. Approaches applied to the conceptual analysis of political phenomena. Substantive models of social and political order and change as well as methodological arguments about the nature of explanation in political science. Letter grade only (A-F).

**550. Research Methods in Political Science (3)**

Prerequisite: POSC 500. Methods of empirical research in political science including the formulation of hypotheses, problems and standards of measurement and observation, methods of data collection, research design and logic of data analysis. No prior knowledge of statistics is assumed. Only basic mathematical skills are needed for success in this course. Letter grade only (A-F).

**590. Advanced Study (3)**

Prerequisite: Consent of Graduate Coordinator and Instructor. Study under the supervision of a faculty member. Student must fulfill requirements of a selected upper division course plus additional work appropriate to graduate study as determined by the Instructor of the course. May be repeated to a maximum of 6 units with different topics.

**599. Graduate Studies (3)**

Prerequisites: Consent of Graduate Coordinator and instructor. Individual graduate level study and research of special topics under the supervision of a faculty member. Letter grade only (A-F). May be repeated to a maximum of 6 units.

**600. Seminar in International Politics (3)**

Prerequisite: POSC 371 or equivalent. Seminar is designed to examine in depth various aspects of International Politics, such as the role of power, multiple dimensions of national interest, collective security, world peace, nationalism, and imperialism. Different themes selected for a given seminar become the subject of discussion and exchange of ideas in every session. May be repeated to a maximum of 6 units. Letter grade only (A-F).

**610. Seminar in Comparative Government (3)**

Prerequisite: Three upper division units in comparative government. Comparative study of government and politics in selected foreign countries. Intensive study of the political institutions and policies of selected foreign governments. Emphasis on political parties and contemporary governmental policy. May be repeated to a maximum of 6 units. Letter grade only (A-F).

**620. Seminar in Political Theory (3)**

Prerequisite: POSC 301 or 303 or equivalent. Analytical and critical examination of the major concepts of political theory. May be repeated to a maximum of 6 units. Letter grade only (A-F).

**640. Seminar in American Government and Public Law (3)**

Prerequisite: Three upper division units in American Politics or Public Law. Intensive study of topics and problems in American government including issues in constitutional law and the judicial process. May be repeated to a maximum of 6 units. Letter grade only (A-F).

**645. Seminar in Public Policy (3)**

Prerequisites: Graduate standing or consent of instructor. Analysis of the policy making process and the political environment that shapes its activities, content, implementation, and impacts. Domestic and international policies will be integrated in the course to illustrate the structures, forces, and dynamics influencing the process. Letter grade only (A-F).

**670. Seminar on Special Topics in Political Science (3)**

Prerequisites: Graduate standing and consent of instructor. Research, discussion, and critical evaluation of selected topics and problems of current interest in political science. May be repeated to a maximum of 6 units with different topics. Letter grade only (A-F).

**695. College Teaching Practicum (3)**

Prerequisite: Consent of Graduate Director. Internship provides teaching experience in community college. No more than three units of this practicum may be applied to the Masters requirements in Political Science. Credit/No Credit grading only.

**697. Directed Research (1-6)**

Prerequisite: Consent of Department Chair. Individual research or intensive study under the guidance of a faculty member. Three units required of non-thesis students who have been advanced to candidacy for the master's degree in political science. A maximum of 3 units may be earned by students with credit in POSC 698. May be repeated to a maximum of 6 units. Letter grade only (A-F).

**698. Thesis (1-4)**

Planning, preparation and completion of thesis for the master's degree.

Public administrators today are becoming increasingly aware of the fact that government is, indeed, the people's business. They are challenged to be both effective and efficient. They believe that people tend to support what they help to create. Working with citizens, they have brought the practice of public management to its highest level without giving up the desire to constantly change and improve. The difference is that today's public servants are recognized and rewarded in personal and material ways, making the study of public policy and administration a highly desirable career option.

The Graduate Center for Public Policy and Administration offers the Master of Public Administration degree; Options in the degree program include Public Works Administration and Urban Affairs; and graduate certificate programs exist in Urban Executive Management, the Public Management Analyst, Employer-Employee Relations and Personnel Management, Public Sector Financial Management, and Transportation Policy and Planning. The Center's graduate level programs are designed with a professional emphasis and a recognized need to provide course work that will increase the student's competency in public administrative processes and analysis. The Center's curriculum also is designed to emphasize the student's ability to apply new knowledge, skills, and leadership techniques to the solution of public problems.

Admission applications are encouraged from persons with successful government service who wish to pursue, part-time or full-time, a graduate program designed to prepare them for new opportunities in public service or to expand or extend their capacities in a present position. The Center provides education in public policy and administration to professional persons in such fields as public works, social services, public health, community development, criminal justice, educational administration, recreation administration, finance, personnel, policy analysis, urban and regional planning, systems analysis and urban administration. The Center is accredited by the National Association of Schools of Public Affairs and Administration, Commission on Peer Review and Accreditation (NASPAA, 1120 G Street, NW, Suite 730, Washington, DC 20005, phone: 202-628-8965).

A detailed summary of requirements, current course offerings and procedures for the Master of Public Administration degree program, the Options in Public Works Administration and in Urban Affairs, and the graduate certificate programs, are contained in student handbooks available from the Graduate Center for Public Policy and Administration and their website at <http://www.csulb.edu/~beachmpa>.

## *Program Standards and Requirements*

### Admission

Students seeking admission to one of the Center's programs should have an undergraduate degree and a desire for graduate study in public administration. A student must have an undergraduate grade point average of 3.0 or better. A student whose overall grade point average is less than 3.0, but who presents acceptable evidence of professional potential shown through recent academic performance and experiential background, may be admitted by special action of the Center.

Students applying for admission to one of the Center's programs are required to submit:

1. A completed Center Application Form for the specific degree or certificate program.
2. Transcripts of all course work completed in undergraduate education.
3. Two letters of recommendation from members of the academic profession under whom the applicant has studied, or from persons in positions of administrative leadership with whom the applicant has worked.
4. A one or two page statement concerning the applicant's reasons and plans for pursuing a career in public administration.

Following admission to the University and acceptance in one of the graduate programs, each student should meet with a faculty advisor. The faculty advisor will provide advice to the student on program course requirements and elective opportunities, and counsel the student in the chosen elective area.

#### Advancement to Candidacy

The following are requirements for the degree and certificate programs:

1. Satisfaction of the general University requirements for advancement to candidacy;
2. Completion of all degree or program prerequisites;
3. Approval of the candidate's program by a faculty advisor and the Director of the Graduate Center for Public Policy and Administration;
4. Completion of six units of course work at this University toward the degree or program objective;
5. A minimum GPA of 3.0 in all graduate work completed at this University, or transferred from other sources, to meet degree or program requirements.
6. Fulfillment of the Graduation Writing Assessment Requirement (GWAR).

#### Transfer of Credit

Students who have completed a graduate certificate program in the Public Management Analyst, Employer-Employee Relations and Personnel Management, Public Sector Financial Management, or Transportation Policy and Planning, may transfer up to 15 units of credit earned in the certificate program to be applied to the Center's Master of Public Administration degree program. The student must apply to the Center for admission as a degree candidate.

Students who have completed the academic requirements for the Master of Public Administration degree, prior to applying for admission to a graduate certificate program in the Center, may apply up to 6 units of credit earned in the MPA program for the required or elective courses in a certificate program.

#### Master of Public Administration (code PPA\_MP01)

The Center offers an innovative professional graduate program of studies leading to the degree of Master of Public Administration. The 36-unit program is designed with a professional emphasis and a recognized need to provide students with an increased competency and perspective of the analytical and administrative processes of government. The

MPA degree is sufficiently flexible that students may select a program of elective courses oriented toward a generalist program of studies, place emphasis on a staff specialization such as personnel, or permit a focus on a specific public program field such as criminal justice administration. In all cases, a common grounding in the core areas of public policy and administration is required; but beyond this, considerable freedom of choice enables students to select subjects which fit their particular backgrounds or career objectives.

#### Requirements

1. A minimum of 36 course units in graduate course work, with a minimum of 21 units of 500/600 level courses in public policy and administration;
2. Satisfactory completion of PPA 500, 555, 577, 660, 670, and 696;
3. Completion of approved internship program (PPA 585) as required course work beyond the 36-unit minimum, or waiver of the internship requirement based on professional experience;
4. Additional elective course work in elective fields to meet the 36-unit minimum;
5. Successful completion of PPA 697 Directed Research and an approved Student Learning Portfolio.

#### University Courses Acceptable for the Master of Public Administration

A wide variety of graduate courses in other departments also are acceptable. Graduate course descriptions are found in the department listings in which they are offered. Consult with Center Faculty for more information.

#### Option in Urban Affairs (code PPA\_MP02)

The purpose of the Option in Urban Affairs within the Master of Public Administration degree is to provide students who have particular interests in urban problems and processes with the opportunity to expand their knowledge and awareness in the field. In this broadly based interdisciplinary program, students can develop an understanding of the systemic nature of the urban environment and the interrelatedness of many urban problems. The program is designed to provide urban managers with ideas and techniques for dealing with various urban situations. Emphasis is on state and local government issues and responses.

#### Admission

The general standards for admission are identical to those for the Master of Public Administration degree program. An applicant must demonstrate a background of related undergraduate course work of twelve units, or significant management and/or staff experience in public administration.

#### Requirements

1. A minimum of 36 course units in graduate course work, with a minimum of 24 units of 500/600 level courses in public policy and administration;
2. Satisfactory completion of PPA 500, 555, 577, 610, 660, and 670, and 696;
3. Completion of an approved internship program (PPA 585) as required course work beyond the 36-unit minimum, or waiver of the internship requirement based on professional experience;

4. Completion of 12 units of elective course work selected from: PPA 512, 517, 522, 523, 525, 527, 535, 540, 546, 547, 548, 549, 550, 567, 571, 575, 581, 590; CRIM 512, 581, 621, 623, 624, 630, 640, 641, 650; EDAD 541, 544; EDP 520, 536; GEOG 600, 650, 666; HIST 673; POSC 640; REC 521, 571.
5. Successful completion of PPA 697 Directed Research and an approved Student Learning Portfolio.

### Option in Public Works Administration (code PPA\_MP03)

This Option is designed to provide advanced knowledge to practitioners and pre-career students in the growing field of public works management. Course work prepares students in general public administration and specialized public works management activities, including appropriate technical subjects such as air and water pollution, water supply, waste disposal and management, energy, housing, and transportation.

#### Admission

The general standards for admission are identical to those for the Master of Public Administration degree program. An applicant must demonstrate a background of related undergraduate course work of twelve units, or significant management and/or staff experience in public administration. For this degree option, the experiential background would be targeted to the public works and infrastructure sector.

#### Requirements

1. A minimum of 36 course units in graduate course work, with a minimum of 27 units of 500/600 level courses in public policy and administration;
2. Satisfactory completion of PPA 500, 554, 555, 577, 660, 670 and 696;
3. Completion of an approved internship program (PPA 585) as required course work beyond the 36-unit minimum, or waiver of the internship requirement based on professional experience;
4. Completion of 9 units of elective course work selected from: PPA 515, 522, 527, 535, 540, 547, 549, 550, 552, 560, 575, 590; CE 520, 565;
5. Successful completion of PPA 697 or CE 697 Directed Research and an approved Student Learning Portfolio.

### Graduate Certificate in Urban Executive Management (code PPA\_CT01)

This program is designed to serve the post-graduate executive development needs of men and women in aspiring to top level positions in city and county governments. The goal of this program is to provide urban executives with a comprehensive knowledge of strategic planning processes; dynamics of human relations; strategies for implementing policies; consensus building techniques; and economic and financial forces impacting on local governments

#### Prerequisite

In addition to the general admission requirements, applicants for the graduate certificate in Urban Executive Management should have significant upper level management experience in Public Administration, and a minimum of 10 years of progressively responsible management experience in government.

#### Requirements

1. A minimum of 18 course units in graduate course work, including 3 required and 3 elective courses.
2. Satisfactory completion of PPA 542, 547, and 571;
3. Satisfactory completion of 3 elective courses selected from PPA 512, 525, 535, 550, 555, 560, 575, and 577.

### Graduate Certificate in Public Management Analyst (code PPA\_CT02)

This program is designed for men and women who work or desire to work in budgeting, policy formulation, financial management, or program evaluation offices of government agencies. The program prepares candidates with such skills as defining a problem; conducting cost benefit analysis; utilizing basic statistical techniques; conducting behavioral/political analysis; preparing and presenting reports; learning the ability to blend qualitative, behavioral, and political skills necessary for success as an analyst in government.

#### Prerequisite

In addition to the general admission requirements, students should be employed in public service or related activities, or have a goal of public service-related activities.

#### Requirements

1. A minimum of 18 course units in graduate course work, including 4 required and 2 elective courses.
2. Satisfactory completion of PPA 515, 517, 521, and 555;
3. Satisfactory completion of 2 elective courses selected from PPA 522, 523, 527, 540, and 560.

### Graduate Certificate in Public Sector Employer-Employee Relations and Personnel Management (code PPA\_CT03)

This program is designed for public sector managers and those aspiring to enter public service who need the knowledge, skills, and abilities required to deal effectively with the critical area of public sector employee relations and personnel management. The primary goal is to provide the necessary training for public managers to effectively utilize human resources to their greatest potential in conjunction with the needs of the public organization.

#### Requirements

1. A minimum of 18 course units in graduate course work, including 3 required and 3 elective courses.
2. Satisfactory completion of PPA 555, 575, and 577.
3. Satisfactory completion of 3 elective courses selected from PPA 527, 570, 571 and 581.

### Graduate Certificate in Public Sector Financial Management (code PPA\_CT04)

This Certificate Program is designed for public managers and others interested in obtaining an understanding of governmental financial management concepts, functions, techniques, and issues. The program is designed to familiarize students with financial management problems and the techniques available for solving them. An emphasis is placed on how to recognize, evaluate, and utilize financial information in decision-making.

Those most interested in pursuing the Certificate would likely fall into one of three categories. First, current private sector finance professionals who wish to develop an understanding of the financial management function and practices within the public sector. Second, current public sector financial managers who wish to further develop expertise in public sector financial management. Finally, in-service public sector employees who wish to start a career in government finance and who may use the courses for the Certificate as a guide for their course work towards the Master of Public Administration degree.

### Requirements

(18 units required)

PPA 555, 590T, 560, 567; ACCT 610; IS 601.

Note: Appropriate substitutes for the required courses may be allowed subject to permission of the Public Finance Specialization Faculty Advisor. Also, ACCT 610 and IS 601 have substantial prerequisites. Prospective students should refer to the University Catalog for details.

### Graduate Certificate in Transportation Policy and Planning (code PPA\_CT05)

The purpose of this certificate program is to provide instruction in the skills and knowledge appropriate to professional activity in transportation policy and planning for urban transportation. Key support areas include urban planning, policy analysis, environmental policy, intergovernmental policy, personnel policy, and grants administration.

### Requirements

1. A minimum of 18 course units in graduate course work, including 2 required and 4 elective courses.
2. Satisfactory completion of PPA 522, and 550.
3. Satisfactory completion of 4 elective courses selected from PPA 535, 540, 575, 670; CE 520; ECON 690.

### Courses (PPA)

#### 500. Foundations of Public Policy and Administration (3)

Concepts of the discipline; fundamentals of public organization theory, policy formulation and analysis, and administrative and management processes; management of the public interest; and ethics in government. Letter grade only (A-F).

#### 502. Administrative Leadership (3)

Prerequisites: OCST 485 or equivalent. Concepts and techniques of personal and professional administrative leadership. Same course as OCST 502. Letter grade only (A-F).

#### 505. Critical Analysis of Issues and Problems in Education and the Workplace (3)

Prerequisite: Completion of other degree-required core courses. In-depth analysis of major research reports and review of historical and contemporary issues and problems. Particular attention will be given to the various research methodologies used to examine issues and problems in the field. Same course as OCST 505. Letter grade only (A-F).

#### 510. Public Administrative/Management Processes (3)

Analysis of public administrative/management processes from perspective of public executive, public finance and budgeting, public personnel systems, standards of efficiency and effectiveness in conduct of the public's business, and role and use of organizations and administrative processes to achieve public objectives. Letter grade only (A-F).

#### 512. Urban Executive Management (3)

Students will be provided an overview of the various types of problems confronting today's urban administrator and the possible

means of solving some of these pressing problems. Subjects to be included are public policy in a changing society; new strategies for managing local government; new frontiers in planning and controlling financial resources; the dynamics of personnel and labor relations. Letter grade only (A-F).

#### 514. Municipal Law for Administrators (3)

Examination of major laws and legal issues affecting local government today. Basic powers of cities including regulatory (police) powers, corporate (service) powers, taxation and eminent domain will be studied. Will develop problem solving abilities through legal analysis, and will explore new parameters and changing standards in litigious society looking for "deeper pockets," slower growth, and greater citizen involvement in local government. Selected areas of study will include the impact of recent U.S. Supreme Court cases on land use regulation; California Redevelopment Agency law; municipal tort liability and civil rights matters; public-private financial ventures and bond financing; city council meeting and hearing procedures; the "Brown Act", and public records; public works contracts and building code enforcement; and public labor law trends and developments. Same course as OCST 514. Letter grade only (A-F).

#### 515. Administrative Report Writing (3)

Preparation of written documents required of public administrators. Letter grade only (A-F).

#### 517. Analytical Skills Development (3)

This course is designed to develop or improve the skills needed to perform analytical work in the public sector. There will be a dual emphasis wherein both quantitative and behavioral/ political aspects of analysis in government are explored. Cost-benefit analysis, and report preparation and presentation will be covered. Letter grade only (A-F).

#### 521. Microcomputer Management for Public Administrators (3)

A seminar for public administrators focusing on the design, development, and management of microcomputer systems and applications in public organizations. There is a dual emphasis in the course: analysis of critical concepts and issues relating to the management of micro-computer systems, and hands-on computer laboratory experience in the design, development and use of microcomputer applications. Letter grade only (A-F).

#### 522. Automating Government Administration (3)

An examination of the use of computers to assist government management, with special emphasis on automation of services such as finance, police and library departments. Will provide an introductory background in computers and their applications to government systems and files for non-computer specialists. Letter grade only (A-F).

#### 523. Urban Information Systems for Public Management (3)

The purpose of this course is to expose MPA students to the most significant information technologies impacting government management as we move to the 21st century: the World-Wide Web (Internet) and G.I.S. (Geographic Information Systems.) This course will introduce students to the tools and techniques used to construct Web pages and their appropriate usage. Students will also be exposed to the design, development and use of GIS in public organizations. This is a hands-on course which makes extensive use of computer technology, including Internet access to the World-Wide and e-mail.

#### 524. GIS Management and Applications for Public Managers (3)

Geographic Information Systems (GIS) are rapidly becoming a keystone of government operations. Public managers are finding it increasingly important to understand not only what GIS can do but also how to use GIS applications to solve problems. This course will introduce students to the management and applications of GIS in the Public Sector. The class will cover the requirements for designing, developing and managing GIS applications for solving public sector problems. This course will also provide students with hands-on use of GIS for applications development in a computer lab environment as well as analysis of real-world GIS case studies. Letter grade only (A-F).

### 525. Non-Profit Management (3)

Examination of the history, principal characteristics, scope, and unique management challenges confronting the nonprofit sector in the United States. While the sector as a whole, in all its variety, will be addressed, particular attention is given to the traditional and important role of nonprofits in the delivery of health and human services. Letter grade only (A-F).

### 527. Productivity and Performance Measurement (3)

This course will identify and develop concepts of productivity and performance measurement for the government executive. Recent approaches to management of organizations will be examined to determine their relationship to productivity and performance measurement. Finally, management techniques and methods will be reviewed through case studies, guest speakers, and a workshop format to provide some knowledge of substantive approaches to the measurement of government outcomes. Letter grade only (A-F).

### 533. Race, Inequality and Public Policy (3)

There has been considerable political debate over the problems of income inequality and poverty in the U.S. and the inability of public policies to remedy this situation. The Los Angeles "riots" renewed this debate. The purpose of this seminar is to critically examine this debate and guide students to an understanding of the multiple sources of inequality in American cities. Particular attention will be paid to ways in which race, ethnicity and gender play a role in structuring the urban environment in which inequality originates and operates. In this way, our discussion of racial inequality and social policy will serve as a springboard for a more elaborate and critical examination of the fundamental philosophical, political and socio-economic problems currently afflicting our post-industrial society. Letter grade only (A-F).

### 535. Intergovernmental Relations (3)

This course will present fundamental concepts and issues of intergovernmental relations in the United States. Topics covered include history of the field, intergovernmental revenues and expenditures, state and federal legislative processes, legislative advocacy, interorganizational management, and current issues. Same course as OCST 535. Letter grade only (A-F).

### 540. Grants Administration and Management (3)

Study of the various types of financial and technical assistance to local public and quasi-public agencies; the strategies for locating and obtaining grant programs support; and the development of effective project systems for externally funded projects. Letter grade only (A-F).

### 542. Emergency Planning and Management (3)

Students will study the planning and management processes and the issues involved in large-scale emergencies. The nature of natural and technological risk and emergency will be explored via case studies. The public sector roles in contingency planning and response will be assessed. Same course as OCST 542. Letter grade only (A-F).

### 546. The Urban Crisis and the Public Administrator (3)

A survey of the history of urbanization, the literature of urban power relations and decision-making, and the dynamics of race relations in the urban environment. Extensive interface with urban agency representatives will be a major focus of this course. Letter grade only (A-F).

### 547. Local Government Economic Development Processes (3)

A detailed discussion of the nature, goals and processes of locally based economic development programs. Definition of governmental incentives designed to maximize private investment. A thorough explanation of property-related revenues from both the public and private perspectives. Letter grade only (A-F).

### 548. Housing Problems and the Urban Administrator (3)

An overview of housing problems in contemporary urban society. This course will increase the public administrator's awareness of the interrelationships between local government administration and housing problems, and facilitate the public administrator's ability to deal with these problems. Letter grade only (A-F).

### 549. The Municipal Community Development Process (3)

Overview of the municipal community development process with particular emphasis on the integration of municipal planning, zoning, housing, social service, and redevelopment functions. The course will explore basic concepts of each function, their interrelationships and administrative practices. Emphasis will be given to the impact of federal community development block grants and the local process. Letter grade only (A-F).

### 550. Urban Transportation Policy and Planning (3)

Examines the status of urban transportation activities and needs today and discusses the near and long-term options for the future. Analyzes local, state, federal policy and inter-governmental system; Los Angeles urban transportation development, transit proposals and new policies and activities. Letter grade only (A-F).

### 554. Public Works Facilities and Urban Policy (3)

Provides a study of public infrastructure essential to urban communities, and an analysis of urban policies and impacts from the perspective of the urban administrator. Students will examine infrastructure maintenance and expansion needs assessment, and intergovernmental financing with concentration on water and wastewater, transportation, solid waste, and public facilities, including schools. Letter grade only (A-F).

### 555. Government Budgeting and Finance (3)

This course focuses on the formulation phase in the budget cycle. The course presents the major concepts and skills associated with budget preparation for all levels of government. Topics include: budget processes and structures, fundamental processes of public finance, economic growth and fiscal impacts, basic principles of government accounting, budget formats, performance measurement, fiscal condition and stress, revenue sources and structures, estimation and forecasting, capital budgeting and evaluating public projects, and fiscal federalism. Same course as OCST 555. Letter grade only (A-F).

### 560. Public Financial Management (3)

Focuses on the execution phase of the budget cycle, and thus, completes the full budget cycle. The course presents the major concepts and skills associated with budget administration for all levels of government. Topics include cash management and investment administration, debt management, purchasing, risk management, financial and managerial accounting, financial reporting, and auditing. Letter grade only (A-F).

### 567. Basic Governmental (Fund) Accounting (3)

Provides a basic introduction to the unique characteristics of governmental and commercial accounting. Differences between governmental and commercial accounting are explained. Governmental accounting terminology basics and principles are discussed. Information is provided on the structure and types of funds and methods of classifying and recording accounting information. Types of financial reports and interpretation of financial statements are discussed. Particular emphasis is focused on the relationship between accounting and budgeting, financial reporting, auditing and other financial management activities for governmental and non-profit agencies. Letter grade only (A-F).

### 570. Negotiating Dynamics: Strategies and Skills (3)

Examination of negotiating strategies and skills based on tested use of power and psychological principles in negotiations. Different strategies and skills examined for negotiating under varying levels of cooperation and conflict. Letter grade only (A-F).

### 571. Leadership Skills and Strategies in the Public Sector (3)

Increasingly, urban governments are being criticized for a "lack of leadership" and an inability to move their bureaucracies toward solutions to complex problems. This course examines the theories of administrative leadership and the strategic application of leadership skills in an urban government environment. Students also will review current approaches to organizational excellence and its applicability to urban government leadership.

### 575. Public Sector Employer-Employee Relations (3)

Analysis of prevailing practices and techniques of collective bargaining and its continuing ramification on the economic, political and organization structure in the public sector. Emphasis is placed on a review of the entire employee relations field including

the financial implications, costing techniques, impasse resolution including binding arbitration, job action and strike contingency planning, contract administration, worker compensation and public retirement systems. Instruction also provided on negotiation techniques through mock negotiation sessions. Letter grade only (A-F).

**577. Public Sector Human Resources Management (3)**

The historical development of the civil service/merit system and how this impacts public personnel systems; laws which affect the operations of a personnel system; analysis of the various components of a personnel system; impact of labor negotiations on personnel systems; importance of written policies and procedures; and role of the personnel system as a change agent. Same course as OCST 577. Letter grade only (A-F).

**581. Government/Community Relations (3)**

An investigation of the inter-relationship between governments and community based organizations and the communities in which they operate and serve. Particular attention is paid to strategies and tactics used in diagnosing problems and opportunities and prescribing courses of action in such diverse areas as public safety, planning and community development, arts and culture and health, education and welfare. Elective for graduate students in Master of Public Policy and Administration. Letter grade only (A-F).

**582. Citizen Advocacy and Public Policy Making (3)**

An in-depth analysis of citizen involvement and how it impacts upon policy formulation and public administration. The course involves classroom input from community leaders, action groups, legislators, public administrators, with interaction by the student. Letter grade only (A-F).

**585. Public Policy and Administration Internship (3-12)**

Prerequisite: Consent of the instructor. A learning experience designed to provide an exposure to and understanding of the governmental environment. Students seeking the MPA degree who do not have managerial experience in government are required to participate in the Internship program. May be repeated to a maximum of 12 units. Academic credit earned for the Internship program is beyond the 36 units required for the MPA degree. Letter grade only (A-F).

**590. Special Topics in Public Policy and Administration (3)**

An investigation of a special problem as defined by the instructor that is of current interest to the field of public policy and administration. May be repeated to a maximum of 9 units with different topics. Letter grade only (A-F).

**S. Small-Scale Survey Research for Public Administrators**

**T. State and Local Public Finance**

**597. Directed Studies (1-3)**

Prerequisite: Consent of instructor. Independent study in public policy and administration. Letter grade only (A-F).

**610. Seminar in Urban Affairs (3)**

An interdisciplinary course which will give students an opportunity to develop expanded awareness of the interrelationships between various urban problems in the urban systemic environment. Letter grade only (A-F).

**650. Seminar on Issues in Contemporary Public Administration (3)**

Survey of various issues and topics critical to effective public administration in the contemporary United States including the social and political context of contemporary public administration (e.g., increasing diversity of public demands of public agencies, increasing complexity of the intergovernmental network, etc.), responsibilities and obligations of public servants in contemporary governments and selected issues of public management. Letter grade only (A-F).

**651. Graduate Seminar (3)**

Prerequisite: Enrollment in MS or MPA degree program. Study of selected topics in occupational education, including important legislation, industrial innovations, technical change, and contemporary problems. Topics will be announced in Schedule of Classes. May be repeated to a maximum of 6 units. Same course as OCST 650. Letter grade only (A-F).

**660. Seminar in Organization Theory and Behavior (3)**

Organizational change, effectiveness and allocation processes in public agencies. Theoretical models of open systems, rationalist, conflict, coalition and decision-making theories will be investigated with the aim of presenting a unified set of propositions about organizations. Leadership and small group theory. Letter grade only (A-F).

**670. Policy Issue Analysis (3)**

This course introduces theories and approaches to policy analysis and a working knowledge of the skills involved in that practice. The core of the course follows the policy analysis cycle and includes: problem recognition, problem definition, development of alternative solutions, analysis of alternatives, selection of policy options, policy implementation and evaluation. Letter grade only (A-F).

**696. Research Methods in Public Administration (3)**

Application of relevant research techniques to problems in public sector management and analysis. This course focuses on the design, development, and implementation of public sector research projects. The course is centered around the tools and techniques of research and their application in the development of a formal research design. Topics covered include: theories of research strategy, research design development, hypothesis design and testing, qualitative and quantitative data acquisition methods, survey research, initial data analysis techniques, statistical analysis, research results reporting and presentation, and evaluation research applications. Note: It is suggested that students take PPA 696 early in their MPA program in order to accrue maximum benefit in subsequent courses. Letter grade only (A-F).

**697. Directed Research (3)**

Prerequisites: Advancement to candidacy, completion of required MPA courses, permission of instructor. Required capstone project. Individual research or intensive analysis of a public administration/public policy issue under the supervision of a full-time faculty member. Three (3) units required for graduation. May be repeated to a maximum of 6 units in different semesters. Letter grade only (A-F).

The Psychology Department maintains an advising and admission office in PSY-206, (562) 985-5680, website <http://www.csulb.edu/~psyugadv/>, for undergraduate students. Advisors are available during the Fall, Spring, and Summer terms to assist students with admission, registration, and degree requirements, as well as information about graduate study. An undergraduate handbook is available for purchase or on-line at the department's website.

Students desiring graduate information should access the department website.

## Bachelor of Arts in Psychology

The number of applicants to the major in psychology exceeds the number that can be accommodated by the department's resources. For this reason the undergraduate psychology major has been designated as impacted by California State University.

### Admission Under Impaction

To be eligible for admission to Psychology, applicants must demonstrate the following prior to the semester for which the application is submitted: Applicants must have met requirements for admission to the university as a freshman or transfer student. Applicants must have completed the following pre-requisite courses, each with a minimum grade of "C": PSY 100, 110, and 200. The number of applicants who can be admitted is limited by space availability. Eligible applicants will be selected for admission based on cumulative grade point average. Students provisionally admitted to the upper-division major must complete PSY 301 with a passing grade no later than the end of their first semester in the major, or they will be dropped from the major.

### Procedure for Admission to the Major

#### Freshman students:

Freshman applicants to the Bachelor of Arts in Psychology will be placed in the pre-major code for psychology. Acceptance into the pre-major category does not imply or assure subsequent acceptance into the major.

#### Continuing students:

Continuing students (including transfer applicants who were not admitted to the university as psychology majors) seeking admission to the major in psychology must submit a supplemental application to the department by February 18 for the fall semester or by September 24 for the spring semester. Students with less than 60 units may be designated as pre-majors.

#### Transfer students:

Transfer applicants must apply to the University during the initial filing period of October and November for the following fall semester. They must indicate their choice of major on the application. Admission will be conditional based upon submission of evidence that the requirements noted above will be satisfied by the start of the first semester on campus.

### Conditions for Remaining in the Major

Students provisionally admitted to the major on the basis of the requirements noted above must complete PSY 301 with a passing grade no later than the end of the first semester in the major. Failure to do so will result in the student being dropped from the major. Continuing students are encouraged to take PSY 301 at the earliest opportunity. It is preferable not to wait until after admission to the major.

Note: Students may apply for admission to the psychology major no more than twice.

### Bachelor of Arts in Psychology (code PSY\_BA01) (120 units)

Students who graduate with a major in psychology should have current knowledge of:

1. the major theories in psychology and their influences across subfields and time.
2. the major methodologies of psychological research and fundamental statistical concepts.
3. the biological processes underlying behavior.
4. sensation, perception, information processing and retention.
5. how behaviors develop and change throughout the life span.
6. how internal, environmental, and social factors influence behavior.
7. individual differences in behavior, including those related to gender, ethnicity, and culture.
8. different perspectives on the origin and treatment of abnormal behavior.
9. ethical issues in teaching, research, and the practice of professional psychology.

In the course of learning the above, students are expected to graduate with the ability to:

1. design and implement research, analyze data appropriately and judge the significance of findings.
2. critically evaluate psychological research as well as popular notions of human nature.
3. use the primary literature of the field and prepare a clear, organized summary of a topic.
4. use computers for the preparation of manuscripts, the analysis of data, and communication.
5. understand and work effectively with a diversity of individuals and groups.
6. apply theory and research to contemporary problems.
7. maintain currency in the field and utilize that knowledge in their lives.

The psychology curriculum is designed to provide undergraduate students with a broad background in the principles of Psychology.

### Requirements

Lower Division: (14 units) PSY 100, 110, 141, 200.

Upper Division:

1. 3 units – PSY 301;
2. 6 units – two courses from PSY 331, 332, 333, 336; 340 or 341 or 342;
3. 6 units – two courses from PSY 351, 356; 361 or 365;
4. 6 units – two courses from (not from the same group):
  - a. PSY 352, 354, 366, 368, 370;
  - b. PSY 310, 314, 315, 359;
  - c. PSY 339I, 346I, 373, 375I, 378, 381;
5. 6 units – 400 level PSY courses. No more than 3 units from 405, 406A or 406B may be counted in this category. PSY 499 cannot be counted to satisfy this requirement.
6. 6 units – any upper division psychology courses not used to satisfy the requirement of sections 2 through 5;
7. 6 units – upper division units in American Indian Studies, American Studies, Asian and Asian American Studies, Anthropology, Black Studies, Chicano and Latino Studies, Economics, Educational Psychology, Geography, History, Human Development, Political Science, Social Work, Sociology, Women's Studies. At least 3 units must have an emphasis in contemporary U.S. ethnic studies. A list of acceptable ethnic studies courses may be obtained from the Psychology Advising Office in PSY 206.

Students are advised to consult with the Psychology Advising Office for course choices most relevant to their individual goals.

### FOUR YEAR PLAN TO COMPLETE THE B.A. DEGREE IN PSYCHOLOGY (PSY\_BA01)

120 Units Required Department of Psychology

Semester 1		Semester 2	
University 100	1	Oral Comm or Composition	3
Composition or Oral Comm	3	GE Math or other GE Class3 (or 4)	
GE Math or other GE Class	3 (or 4)	Critical Thinking or other GE	3
PSY 100	3	PSY 110	4
GE Class	3	GE Class	3
Elective Class	1-3		
TOTAL UNITS	14-16	TOTAL UNITS	16-17
Semester 3		Semester 4	
Critical Thinking or other GE	3	PSY 141	3
PSY 200	4	GE Class	3 (or 4)
GE Class	3 (or 4)	GE Class	3
GE Class	3	GE Class	3
Elective Class	3	GE Class	3
TOTAL UNITS	16-17	TOTAL UNITS	15-16
Semester 5		Semester 6	
PSY 301	3	Major Elective - Group 2	3
Major Elective - Group 2	3	Major Elective - Group 3	3
Major Elective - Group 3	3	Major Elective - Group 4	3
GE Capstone Class*	3	Major Elective* - Group 7	3
Elective Class	3	GE Capstone Class*	3
TOTAL UNITS	15	TOTAL UNITS	15

Semester 7		Semester 8	
PSY 400 level (not 499) - Group 5	3	PSY 400 level (not 499) - Group 5	3
Major Elective - Group 4	3	Major Elective - Group 6	3
Major Elective - Group 6	3	Major Elective* - Group 7	3
GE Capstone Class*	3	Elective Class	3
Elective Class	3	Elective Class	3
TOTAL UNITS	15	TOTAL UNITS	15

\* GE Interdisciplinary Capstones and Major Electives in Group 7 may count for GE and major  
Group 2 - 6 units selected from: PSY 331, 332, 333, or 336; and 340 or 341 or 342.

Group 3 - 6 units selected from: PSY 351, 356; 361 or 365.

Group 4 —  
6 units (2 courses not from the same group):  
a. PSY 352, 354, 366, 368, 370  
b. PSY 310, 314, 315, 359  
c. PSY 339I, 346I, 373, 375I, 378, 381

Group 5- 6 units 400 level PSY courses. No more than 3 units from PSY 405, 406A or 406B. PSY 499 cannot be counted to satisfy this requirement.

Group 6- 6 units any upper-division psychology courses not used to satisfy Groups 2-5.

Group 7 - 6 units selected from approved list provided by the department

#### FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

#### I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

#### Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

#### I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

#### I didn't complete the exact list of courses shown. Can I still graduate on time?

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

#### If I follow the plan, will I have all requirements for graduation completed?

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

## Honors in Psychology

### Admission Requirements

1. Admitted to the major.
2. A 3.5 GPA in all Psychology courses.
3. At least a 3.25 overall GPA.
4. Letter of support from a psychology faculty member agreeing to serve as Honors Thesis Chair.
5. Submit honors application to the Psychology Honors Advisory Committee.

### Requirements

1. Complete all regular requirements for the psychology major.
2. Complete the following: PSY 310 (4 units), 490H (3 units), 496H (3 units), 498H (3 units).
3. Complete 3 units in any other 400-level psychology course exclusive of PSY 405, 406, or 499.

### Minor in Psychology (code PSY\_UM01)

The Minor in Psychology is available to any non-Psychology major.

A minimum of 23 units which must include: PSY 100, 110, 141, and 200, nine upper division psychology units including at least one course from PSY 331, 332, 333, 336, 340, 341, or 342; and at least one course from PSY 351, 356, 361, or 365; and one elective.

## Graduate Programs

Students desiring graduate information should contact the department office for referral to the Graduate Coordinator, or view information on the department website at <http://www.csulb.edu/~psych/>.

The department of Psychology offers graduate study leading to the Master of Arts degree with options in (1) Research or (2) Industrial and Organizational psychology, and the Master of Science in Psychology - Human Factors option. In each program a basic core, including a thesis, is required. There is opportunity for additional work in areas of special interest. The Master of Arts Research option program prepares students for doctoral study and provides a general background in psychology. Clinical electives are available in the Master of Arts Research option program. The Master of Arts Industrial and Organizational option prepares students for primarily professional work; although some graduates have continued graduate study in doctoral programs. The Master of Science Human Factors option program prepares students for careers in applied experimental psychology. Admission to all three programs is limited.

The Department has wide and varied course offerings and is housed in specially-designed facilities, including computer labs and laboratories in physiological, social-personality, human factors and other areas of psychology.

### Admission to Graduate Programs

An application for admission may be obtained on the Psychology department website ([www.csulb.edu/~psych/](http://www.csulb.edu/~psych/)) or by writing directly to the Psychology Graduate Office. Acceptance by the department is contingent upon (a) GPA based on last 60 semester units available at time of application; (b) Graduate Record Examination (GRE) scores on the verbal and quantitative sections; and (c) three letters of recommendation. For entry in the fall semester, all application materials, including complete transcripts, GRE scores and letters of recommendation, must be received by the department Graduate Coordinator by March 1 for the Master of Arts Research option and the Master of Science Human Factors option. Beginning with the Fall 2006 entry semester, the Master of Arts Industrial and Organizational option will have an application deadline of February 14.

### Financial Support

Students accepted into the graduate programs may apply for graduate assistantships (which provide monthly stipends) in Psychology or related departments on campus. Federal Work Study assignments are available in the Department, but must be applied for through the University Financial Aid Office one or two semesters prior to obtaining the assignment; other aid available includes the Graduate Equity Fellowship (GEF). One student from each Master of Arts program's entering class may be awarded a J. Robert Newman Scholarship. A Boeing University Relations Human Factors Graduate Scholarship is offered through the Master of Science program.

## Master of Arts in Psychology

### Option in General Research (code PSY\_MA01)

This 30-unit degree program provides graduate psychology training for further study leading toward a doctorate and careers requiring masters level training. Core courses include quantitative and research methods and courses in the basic content areas of Psychology. Students from our program who later enter doctoral programs consistently inform us that they find themselves very well prepared for doctoral study as compared to other students.

### Prerequisites

1. A bachelor's degree with a major in psychology that includes:
  - A. two courses from the following (not from the same group):
    - a. PSY 331, 332, 333
    - b. PSY 336
    - c. PSY 340, 341, 342
  - B. one of the following: PSY 351; 356; 361; 365
  - C. PSY 310 or
2. A bachelor's degree with a major other than psychology and 24 units of upper division psychology substantially equivalent to those required for the baccalaureate degree at this university, including:
  - A. two courses from the following (not from the same group):
    - a. PSY 331, 332, 333
    - b. PSY 336
    - c. PSY 340, 341, 342
  - B. one of the following: PSY 351; 356; 361; 365
  - C. PSY 310
3. Six units of college level work in chemistry, physics, biology or mathematics as approved by the graduate coordinator. No more than three of the six units may be in approved mathematics courses.

### Advancement to Candidacy

Advancement to Candidacy is the next step after achieving classified status and confers catalog rights to graduate students. Advancement to Candidacy also signifies approval of a plan of study by the graduate student's major, department, and college. The requirements to advancement are:

1. Application for Advancement to Candidacy must be completed prior to or concurrent with enrollment in PSY 698 (Thesis).
2. Classified status.
3. An approved program of studies for the Master of Arts, Research option degree.
4. Fulfillment of the Graduation Writing Assessment Requirement (GWAR).
5. A minimum 3.0 overall GPA and a 3.0 GPA in all units undertaken for the program (at least 6 graduate units).
6. Enrollment in regular session.

## Requirements

1. The student must complete, as a graduate student, 30 units of graduate coursework (501-698), 24 of which must be in Psychology (not including PSY 697) including:
  - a. either PSY 511 or 512 if 411 or 412 or equivalent not taken as an undergraduate;
  - b. one course chosen from PSY 518, 527, 533, 541, 551, 556, or 582, if corresponding 400-level course or equivalent not taken as an undergraduate;
  - c. PSY 696 (comprehensive exam required);
  - d. three courses chosen from PSY 631, 632, 633, 634, 637, 651, 656 or 661 (with comprehensive exams in two of the three courses); PSY 698 (6 units).
2. With the graduate coordinator's approval a maximum of six units from related areas may be used for six of the 30 units.
3. Attendance at six Department Colloquia, four of which must be completed prior to preliminary oral examination, all six must be completed prior to final oral examination.
4. Completion of all requirements as established by the M.A. Research Committee.
5. Comprehensive examinations taken in three of the four required graduate seminars, as outlined in 1c and 1d above.
6. A preliminary oral examination on the thesis proposal and a final oral examination in defense of the completed thesis.

### Option in Industrial and Organizational Psychology (code PSY\_MA02)

Students admitted to this 30-unit program prepare for business and industrial positions including personnel selection and organizational development, employee training, applicant and employee testing, etc. Graduates usually go directly into business and industry, through some enter Ph.D. programs.

#### Prerequisites

1. A bachelor's degree with a major in psychology or 24 upper division units of psychology.
2. PSY 200, 310, 314 or 315, 332 or 333 and 351 or 453/553. Students may be admitted to the MAIO program if they lack only one required course. The missing course must be completed within the first year of graduate study. However, PSY 314 or 315 AND 351 or 453/553 must be completed prior to MAIO program entry, as they are prerequisites for the first semester MAIO program coursework. Students missing more than one prerequisite course at the time of application may be offered provisional admission if they submit an approved plan to take the missing courses prior to admission to the program.

## Advancement to Candidacy

Advancement to Candidacy is the next step after achieving classified status and confers catalog rights to graduate students. Advancement to Candidacy also signifies approval of a plan of study by the graduate student's major, department, and college. The prerequisites to advancement are:

1. Application for Advancement to Candidacy must be completed prior to or concurrent with enrollment in PSY 698 (Thesis).
2. Classified status.
3. An approved program of studies for the Master of Arts, Industrial and Organizational option degree.
4. Fulfillment of the Graduation Writing Assessment Requirement (GWAR).
5. A minimum 3.0 overall GPA and a 3.0 GPA in all units undertaken for the program (at least 6 graduate units).
6. Be enrolled in regular session.

## Requirements

1. The student must complete a minimum of 30 units of graduate course work. The following courses are required: PSY 581, 585, either 511 or 512, one course chosen from 515 or 582 or 696, 590 (topic subject to Graduate Coordinator approval), 681, 683, 686, 688 and 698.
2. A preliminary oral examination on the thesis proposal and a final oral examination in defense of the completed thesis.
3. Students with credit in 411 or 412 as undergraduates may petition the MAIO Program Committee to substitute a maximum of 3 units from related areas towards the 30 unit program.

## Master of Science in Psychology Option in Human Factors (code PSY\_MS04)

The Option in Human Factors under the MS in Psychology is designed to prepare students to apply knowledge of psychology to the design of jobs, information systems, consumer products, workplaces and equipment in order to improve user performance, safety and comfort. Students in the program acquire a background in experimental psychology and research methods. They are trained in the application of the material through courses in human factors, computer applications and interface design. Special topics seminars, in areas such as large-scale simulation and usability testing, complement the core program of study. Finally, students complete a thesis in their chosen area of human factors.

This option is designed as a terminal degree, but also provides excellent preparation for advanced graduate work.

### Prerequisites

1. An undergraduate major in Psychology or in another field with 24 units of upper division psychology. A minimum grade point average of approximately 3.0 for the last 60 semester units (90 quarter units) and for all Psychology units.
2. The following psychology courses or their equivalents: PSY 310, 331, 332. Students lacking only 310 may be admitted to the program but must complete the course their first semester in attendance.

Recommended: CECS 174 or any course in computer programming; One of the following psychology courses or their equivalents: PSY 340, 341, 342.

### Advancement to Candidacy

Satisfy the general requirements of the university for advancement to candidacy.

### Requirements

1. A minimum of 36 units of upper division and graduate work including PSY 511, 518, 527, 533 or 634, 633; MAE 508; CECS 448; PSY 698 and 3 courses chosen from PSY 590H., 512, 696, 544; ET 401; ENGL 419.
2. A preliminary oral examination on the thesis proposal and a final oral examination in defense of the completed thesis.

## Courses (PSY)

### Lower Division

#### 100. General Psychology (3)

Prerequisite: Completion/concurrent enrollment in ENGL 100 or equivalent. Introduction to the scientific study of human behavior. Designed to provide the student with a basic background for further study and for practical application in everyday life. Topics include biological foundations of behavior, motivation, emotion, learning, memory and thought processes, personality, development, social behavior, abnormal behavior, and methods of therapy. (CAN PSY 2)

#### 110. Introductory Statistics (4)

Prerequisites: PSY 100, ENGL 100, and eligible to take a General Education Mathematics course. Calculation and meaning of statistical measures. Descriptive and inferential statistics. Not open to students with credit in PSY 210. (Lecture 3 hours, laboratory 2 hours.)

#### 130. Critical Thinking (3)

Prerequisite: Completion/concurrent enrollment in ENGL 100 or equivalent. The nature of critical thinking; models and strategies; common fallacies of reasoning; self-regulation in the thinking process; application of critical thinking to specific areas. Not Open to students with credit in PSY 230.

#### 141. Psychobiology (3)

Prerequisites: PSY 100 and ENGL 100 or equivalent. Introduction to the study of behavior from a biological point of view. Biological systems and processes underlying behavior, with emphasis on brain mechanisms, presented in the context of fundamental concepts and issues in psychology. Not Open to students with credit in PSY 241.

#### 150. Personality and Social Behavior (3)

Prerequisite: One of the Foundation courses (may be taken concurrently). Psychological principles pertinent to the understanding of personality and interpersonal dynamics. Discussion of research and theories of social motivation, conflict and anxiety, adjustment mechanisms and personality change.

#### 200. Research Methods (4)

Prerequisites: PSY 100, PSY 110 or equivalent and ENGL 100 or equivalent. Introduction to basic research methods in Psychology. Principles of experimentation, naturalistic observation, correlational studies. (Lecture 3 hours, laboratory and field 3 hours.)

### Upper Division

General Education Category A must be completed prior to taking any upper division course except upper division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

#### 300I. Mind Control or Freedom (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. How people control others using informational, manipulative and coercive approaches. Consideration of basic processes of persuasion, coercive persuasion and coercive control; sources of power in society; and the psychological and ethical implications of freedom and responsibility in coping with control attempts by friends, government, advertisers, cults, etc.

#### 301. Introduction to Psychology as a Discipline and Profession (3)

Prerequisite: PSY 100. The course will cover the scope and value of psychology as a field of study including its applications for the students seeking the BA, as well as those seeking advanced degrees. Preparation for graduate work and careers available at each degree level will be stressed. Skills essential for psychology majors such as Internet and library search techniques will be included. In addition, key ethical considerations and important historical concepts will be discussed. (6 hrs act.)

### 310. Intermediate Statistics (4)

Prerequisite: PSY 110 or introductory statistics course. Basic theoretical concepts of statistics and the use of these concepts in the selection and development of model testing, hypothesis testing and parameter estimation procedures. Both single measure (univariate) and correlation (bivariate) concepts are included. (Lecture 3 hours, laboratory 2 hours.)

### 314. Psychological Assessment (3)

Prerequisites: PSY 110 and 200. Principles of assessment applied to the measurement of individual behavior and to programs intended to affect behavior. Includes interviews, tests and other methods.

### 315. Principles of Psychological Testing (3)

Prerequisites: PSY 110 or one statistics course. Principles and practices of group and individual testing in the fields of intelligence, aptitude, achievement, personality and interest. Emphasis on the evaluation of tests as measuring devices, their applicability and limitations.

### 331. Sensation and Perception (3)

Prerequisites: PSY 141 and 200. An introduction to the scientific study of sensory processes and perceptual principles from a psychophysical and physiological perspective, and the methods used to investigate them. Topics may include vision, audition, psychophysics, and object and space perception.

### 332. Cognition (3)

Prerequisites: PSY 141 and 200. Study of higher-order processes basic to the acquisition of knowledge. Includes thinking, problem solving, creativity, information processing, decision making, judgment, concepts and imagination.

### 333. Psychology of Learning (3)

Prerequisites: PSY 141 and 200. Learning is a relatively permanent change in behavior as a result of experience. The course takes a general view of this process, emphasizing the interaction of biological preparation with environmental input in all behaving organisms. Topics include habituation, sensitization, Pavlovian conditioning, instrumental learning, animal cognition, and applications. Emphasis is on experimental techniques, general principles, and encompassing theories of learning in humans and non-human animals. Applications and practical examples are noted.

### 336. Psychology of Emotion (3)

Prerequisites: PSY 141 and 200. Discussion of research, theories, and coping mechanisms of human emotions. Topics include the evolution of emotions, neurophysiological mechanisms of emotion, development of emotions, expressions of emotions, and emotions in social relationships, with an emphasis on the emotions of anger, grief, happiness, jealousy, and love.

### 339I. Psychology of Sport Behavior and Athletic Performance (3)

Prerequisites: Completion of the GE Foundation, PSY 100 and upper division standing. Psychological dimensions of attitudes, behaviors, and performance in sport and exercise environments. Same course as KPE 339I.

### 340. Physiology of Behavior (3)

Prerequisite: PSY 141 and 200. An in-depth examination of central nervous system (CNS) components that underlie the major elements of our behavioral capabilities. Topics include the major structural and functional features of the neuron and of selected systems that are representative of the sensory, integrative, and motor capabilities of the CNS.

### 341. Neuropsychology (3)

Prerequisites: PSY 141 and 200. The major issue is localization of brain regions responsible for human capabilities as investigated in patients with damaged or diseased brains. The findings from patients are compared to research with normal humans and investigations with nonhuman species. Emphasis is placed on information gathered from abnormal human brains, how the abnormalities are assessed by techniques used in medicine and

psychology, and what we can learn that is applicable to the normal brain.

### 342. Psychopharmacology (3)

Prerequisites: PSY 141 and 200. This course offers a broad introduction to the effects of various medications on the central nervous system and behavior. This includes neurotransmitter functions, physiological and biochemical mechanisms of drug action with emphasis on the effect of psychiatric medications, common "street drugs" and those sold over the counter; their potential for abuse is also considered.

### 346I. Human Sociobiology (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Human social behavior as seen in context of evolutionary biology. Topics include the importance of kinship in human societies, altruism and reciprocity, human sexuality, parent-offspring relations, ethical and legal systems and religion.

### 350I. Psychology and Contemporary Social Issues (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Application of social psychological principles toward understanding major contemporary social issues. Each issue covered is presented in its historical context, and the economic, political, social and cultural aspects are examined. Topics may include: poverty and homelessness; hate crimes and domestic terrorism; violence in the media; discrimination (by class, race, gender, sexual orientation) in the media, criminal justice system, and workplace; juvenile and domestic violence; and child abuse.

### 351. Social Psychology (3)

Prerequisites: Completion of the GE Foundation and PSY 100. Study of individuals and groups as they are affected by social interactions. Includes such topics as social cognition and learning, attitudes and persuasion, social influence (conformity, obedience), interpersonal perception and attraction (liking and loving), anti- and pro- social behavior (aggression, violence, altruism), cooperation and competition, leadership, group dynamics, sexual behavior. Not open to students in SOC 335I.

### 352. Psychology of Male Roles (3)

Prerequisite: PSY 100. Exploration of male roles as they affect interactions between men and men, men and women, and men and children, as well as interactions related to work and play. Course is designed to enhance personal understanding through an examination of theory, research and experience.

### 354. Psychology of Women (3)

Prerequisite: PSY 100. Examination of women's roles throughout the lifespan including gender differences, body image, menstruation, pregnancy, sexuality, communication, relationships, motherhood, work, leadership, and physical and mental health. Attitudes toward women, including violence against women, may also be explored. This course is for both men and women.

### 356. Personality (3)

Prerequisites: Completion of the GE Foundation and PSY 100. Discussion of theories, methods, and research in personality. Strengths and weaknesses of the classical theories (which may include psychoanalytic, biological, behavioral, cognitive, and/or humanistic perspectives) are discussed along with their implications. In addition, current directions in personality theory and research are examined, which may include such topics as attributions, mood, and coping with stress.

### 359. Self-Observation and Self-Development (3)

Prerequisite: PSY 100. Examination of personal traits and behavior patterns as reflected by objective measures, group interactional procedures and video feedback. Development of self through systematic self-observation.

- 361. Psychology of Child and Adolescent Development (3)**  
Prerequisites: Completion of the GE Foundation and PSY 100. Theoretical and methodological approaches in the study of developmental change processes from prenatal development through adolescence. Emphasis on ethnic, gender, and social class differences in development combined with emphasis on the universal features of human development. Topical coverage includes physical-motor, social, physiological, and cognitive aspects of development.
- 365. Psychology of Adult Development and Aging (3)**  
Prerequisite: PSY 100. Methodological and theoretical problems and issues in the study of developmental change processes from young adulthood through old age. Topical coverage includes physical-motoric, social, physiological and intellectual aspects of behavioral functioning.
- 366. Fathers and Fathering: A Psychosocial View (3)**  
Prerequisites: PSY 100; SOC 100 or FCS 111. An overview of the psychological literature on parenting with an emphasis on fathers/fathering in the U.S. Focus on current literature and research regarding the perceived and changing roles of fathers, including ethnic fathers, in an effort to diminish stereotypes. (This course is for both men and women.) Same course as FCS 358.
- 368. Asian American Personality and Mental Health (3)**  
Prerequisites: Completion of PSY 100 and upper division standing. A survey of psychological issues facing Asian Americans, including the historical, sociopolitical, and cultural influences that shape personality and mental health of individuals in the diverse population group.
- 370. Abnormal Psychology (3)**  
Prerequisites: Completion of the GE Foundation and PSY 100. An overview of abnormal behavior as a portion of the continuum of human behavior. The course will cover the field's historical approaches, the range of psychological disorders, as well as the biological, psychological, social consequences, and treatment.
- 373. Introduction to Clinical Psychology (3)**  
Prerequisite: PSY 370. Survey of the field of clinical psychology including an introduction to its history, diagnostic procedures, therapeutic process, clinical training, research approaches, and ethical issues.
- 375I. Community Psychology (3)**  
Prerequisites: Completion of the GE Foundation, PSY 100, and upper division standing. Basic concepts and skills of community psychology, including community assessment, community intervention, program evaluation, and social policy analysis, relationships between social systems and individual behavior. Emphasis on economically disadvantaged, minorities, women, youth, and the aged.
- 378. Health Psychology (3)**  
Prerequisite: PSY 100. Research and theory regarding attitudes, beliefs, and behaviors related to health and illness. Individual difference variables will be examined. Analysis of applications of psychology to prevention, counseling, and treatment of major health problems.
- 381. The Psychology of Work Behavior (3)**  
Prerequisite: PSY 100. Introduction to theories, methods, findings, and applications of industrial-organizational (I-O) psychology. Topics covered include job analysis, employee recruitment and selection, performance appraisal, employee training and development, teams, job design, work stress, satisfaction, motivation, and leadership. Discussion focuses on application of psychological theory and research to improving employee and organizational outcomes and the quality of work life.
- 382I. Introduction to Cognitive Science (3)**  
Prerequisites: Completion of all Foundation courses; at least one Explorations course; upper-division standing; at least six units in two areas chosen from computer Science, Linguistics, Philosophy, and Psychology. Introduction to cognitive science including historical development, foundational philosophical presuppositions, core topics, underlying theoretical framework, explanatory goals, different methodologies and theoretical contributions of its constitutive disciplines. Same course as PHIL 482I.
- 390. Special Topics in Psychology (3)**  
Prerequisite: Consent of instructor. Topics of current interest in psychology selected for intensive development. May be repeated to a maximum of 9 units with different topics; no more than 6 units may be used for the major.
- 401./501. History of Psychology (3)**  
Prerequisite: Six upper division units in psychology, PSY 301. The historical background and development of psychology as a science. Contributions of major individuals and systems.
- 405. Field Work in Psychology (3)**  
Prerequisites: Psychology major, junior or senior standing (3.0 GPA), PSY 200, 110, 301, 12 upper division units in psychology, letters of recommendation, consent of instructor. Student works under the supervision of, or in association with, a professional having an advanced degree in a psychological discipline and who is engaged in the practice of some aspect of psychology in the surrounding community. Placements include schools, hospitals, clinics, and community mental health agencies. Nine hours of field work per week for a minimum of 13 weeks. May be repeated to a maximum of 6 units. Credit/No Credit grading only.
- 406A,B. Applications of Psychology (3)**  
Prerequisite: PSY 301, consent of instructor. Students are expected to take both 406A and 406B. Students apply for 406A-B during the semester before the courses are taken. Theoretical and laboratory training in the topic areas are followed by applied work with clients, schools, businesses, etc., as appropriate. Students are supervised by the course instructor.
- 407./507. Introduction to Family Therapy (3)**  
Prerequisites: PSY 301; PSY 200, 373, 475 or consent of the instructor. Survey of the field of family therapy including origins of differences in family structure, historical development of family therapy theory and practice.
- 411./511. Statistical Design and Analysis of Experiments (3)**  
Prerequisite: PSY 301; 310 or consent of instructor. Simple and complex designs. Statistical inference in economical experimentation and in scientific inference and prediction.
- 412./512. Multivariate Statistical Analysis (3)**  
Prerequisite: PSY 301; 310 or consent of instructor. Accuracy and cost of inference from multiple variables. Theoretical implications of inferred structures. Applications.
- 418./518. Computer Applications in Psychology (3)**  
Prerequisites: PSY 301, PSY 310 or equivalent or consent of instructor. Foundations of computer technology and its application to psychology. Emphasis on real-time control by digital computers in psychological research and applications. (Lecture 2 hours, laboratory 2 hours.)
- 427./527. Human Factors (3)**  
Prerequisites: PSY 301, 310 and two of the following: PSY 331, 332 or 333. Systematic application of psychological principles to the design of person-machine systems. Emphasis in the laboratory on the development of skills required of a human factors psychologist. These skills will include systems and analysis, cognitive task analysis, rapid prototyping and usability testing. (Lecture 2 hrs, laboratory 3 hours) Letter grade only (A-F).
- 433./533. Research in Cognition and Learning (3)**  
Prerequisites: PSY 200, 301, 310, and 331 or 332 or 333. Research methods in cognition, learning, and perception. Laboratory includes experiments on selected topics. (Lecture 2 hours, laboratory 3 hours.)
- 436./536. Psychology of Mood (3)**  
Prerequisites: PSY 301; PSY 100, 200, 310, or consent of instructor. Analyses of normal mood states, including survey of existing literature. Topics may include the relationship of mood to important antecedents and consequences such as sleep-wake cycles, exercise, nutrition, physical health, stress, and cognition. Self-applications for purposes of mood regulation also will be covered.
- 438./538. Psycholinguistics (3)**  
Prerequisites: PSY 301; six units of linguistics or upper division psychology. Psychological and linguistic approaches to the study of language. Theory and research in the production and understanding of language, language acquisition, memory for language, and use of language in its social context.

**439./539. Language Acquisition (3)**

Prerequisites: PSY 301; six units of linguistics or upper division psychology, or consent of instructor. Theory and Research on the acquisition of first and second languages in children and adults. Psycholinguistic perspectives on the development of phonological, syntactic, semantic, and pragmatic aspects of language. The interacting roles of developmental stages, cognitive processes, individual roles of developmental stages, cognitive processes, individual differences, social influences, and the cultural context will be stressed. (Seminar.) Letter grade only (A-F)

**441./541. Research in Physiological Psychology (3)**

Prerequisites: PSY 200, 301, 310, and 341. Research methods in psychobiology. Includes fundamentals of neuroanatomy, surgical procedures for stimulation, lesioning and recording, and pharmacological procedures used in neuropsychological research. (Lecture 2 hours, laboratory 3 hours.)

**444./544. Cognitive Neuroscience (3)**

Prerequisites: PSY 301, 332 and one of the following: PSY 340, 341, or 342. Explores brain systems responsible for cognitive processes in normal humans, integrating theory from texts and current research from original sources.

**451./551. Research in Social Psychology (3)**

Prerequisites: PSY 301; PSY 200, 310, 351, or consent of instructor. Research methods and problems in social psychology. (Lecture 2 hrs, lab 3 hrs)

**453./553. Principles of Group Dynamics (3)**

Prerequisite: PSY 301; PSY 110, 200, 351, or consent of instructor. Behavior in groups with attention to such factors as leadership, followership, interaction and influence including organization, management, morale, and efficiency. Problems, techniques and methods of investigation.

**456./556. Research in Personality (3)**

Prerequisites: PSY 301; PSY 100, 200, 310, 356, or consent of instructor. Examination of common research methods, especially as they may apply to particular theoretical personality paradigms. Research methods may include various types of correlational designs, experimental designs, and combinations of the two. Comparisons of naturalistic and laboratory studies may also be a prominent focus. Topics of study may include the use, strengths, and weaknesses of systematic self-report, including personality questionnaires and case studies. (Lecture 2 hours, laboratory 3 hours)

**457. Psychology of Sexuality (3)**

Prerequisites: PSY 301; PSY 351 or 356 or 370. Survey of topics in human sexuality with emphasis on developmental psychology of sexuality, attitudes and feelings related to sexuality, sexual variations and deviations, and sexual dysfunction and sex therapy. Letter grade only (A-F).

**458. Current Issues in Personality (3)**

Prerequisites: PSY 200, 301, 356. Current theoretical, philosophical and methodological issues in personality. Coverage may include the person-situation interaction, the role of genetics, aggression, altruism, stress/coping, and gender differences.

**463. Social and Personality Development (3)**

Prerequisites: PSY 100, 200, 301, 361. The development of social behavior and personality in children and adults. Coverage will include theoretical approaches and processes, as well as content areas including development of emotions, personality systems, aggression, morality, prosocial behavior, peer relations, and sex differences.

**475./575. Clinical Interviewing (3)**

Prerequisites: PSY 100, 200, 301, 314 and consent of instructor. Study and development of the clinical techniques of observation and the interview. Coverage will include a detailed exposure to Client-Centered and Gestalt counseling methods. Emphasis will be on understanding theory and acquisition of basic skills.

**477. Psychology of Addiction (3)**

Prerequisites: PSY 110, 200, 301, and 6 upper division units. An investigation of theory and research on psychological causes and effects of addiction, including analyses of individual differences on major demographic variables of gender, age, and ethnicity. Considerations of major approaches and methods to recovery from addictive behavior. Letter grade only (A-F).

**490. Advanced Topics in Psychology (3)**

Prerequisite: PSY 301; one 300-level course in the subject matter of the course. Advanced study of selected topics in one basic area of psychology, e.g., cognition and learning, emotion and motivation, physiological, social, personality or developmental. May be repeated to a maximum of 9 units with different topics. Topics will be announced in the *Schedule of Classes*.

**A. Applied Social Psychology****490H. Special Topics – Honors (3)**

Prerequisite: PSY 301, consent of the Psychology Honors Program Advisory Committee. Advanced study of selected topics in psychology. Topics will be announced in the *Schedule of Classes*. May be repeated to a maximum of 6 units with different topics. Letter grade only (A-F).

**495. Ethical and Legal Issues in Psychology (3)**

Prerequisites: PSY 200, 301, 370, and 6 upper division psychology units. Ethical principles in human and animal research and in applied areas of psychology. Emerging legal issues in the fields of forensic psychology, behavior modification, criminal justice, and clinical practice will be discussed.

**496H. Research Preparation – Honors (3)**

Prerequisite: PSY 301, consent of the Psychology Honors Program Advisory Committee. Development of a senior honors thesis proposal. Letter grade only (A-F).

**498H. Senior Thesis – Honors (3)**

Prerequisites: PSY 301, 310, 490H, 496H, and consent of the supervising faculty member. Final completion of an original research project with the product being both an oral and written presentation of the research. Letter grade only (A-F).

**499. Independent Study (1-3)**

Prerequisite: PSY 301, consent of department. Student will conduct independent laboratory or library research and write a report of the research. May be repeated to a maximum of 6 units.

**Graduate Level****501./401. History of Psychology (3)**

Prerequisite: Six upper division units in psychology. The historical background and development of psychology as a science. Contributions of major individuals and systems. Letter grade only (A-F).

**507./407. Introduction to Family Therapy (3)**

Prerequisites: PSY 200, 373, 475 or consent of the instructor. Survey of the field of family therapy including origins of differences in family structure, historical development of family therapy theory and practice. (Lecture/ Discussion.) Letter grade only (A-F).

**511./411. Statistical Design and Analysis of Experiments (3)**

Prerequisite: PSY 310 or consent of instructor. Simple and complex designs. Statistical inference in economical experimentation and in scientific inference and prediction. (Lec 3 hours.) Letter grade only (A-F).

**512./412. Multivariate Statistical Analysis (3)**

Prerequisite: PSY 310 or consent of instructor. Accuracy and cost of inference from multiple predictors. Discovering structural relationships among multiple variables. Theoretical implications of inferred structures. Applications. (Lecture 3 hours.) Letter grade only (A-F).

**515. Test Construction Theory and Practice (3)**

Prerequisites: PSY 314 or 315. Consideration of problems in the construction of tests for personnel selection, educational screening, personality assessment, aptitude estimating, and measurement of academic achievement. Practice in the development of tests. (Lecture 2 hrs, laboratory 2 hrs.) Letter grade only (A-F).

**518./418. Computer Applications in Psychology (3)**

Prerequisites: C/ST 200 or equivalent; PSY 310 or equivalent or consent of instructor. Foundations of computer technology and its application to psychology. Emphasis on real-time control by digital computers in psychological research and applications. (Lecture 2 hrs, laboratory 2 hrs.) Letter grade only (A-F).

**527./427. Human Factors (3)**

Prerequisites: PSY 310 and two of the following: PSY 331, 332 or 333. Systematic application of psychological principles to the design of person-machine systems. Emphasis in the laboratory on the development of skills required of a human factors psychologist. These skills will include systems analysis, cognitive task analysis, rapid prototyping and usability testing. (Lecture 2 hrs, laboratory 3 hours.) Letter grade only (A-F).

**533./433. Research in Cognition and Learning (3)**

Prerequisites: PSY 200, 310, and 331 or 332 or 333. Research methods in cognition, learning, and perception. Laboratory includes experiments on selected topics. (Lecture 2 hrs, lab 3 hrs.) Letter grade only (A-F).

**536./436. Psychology of Mood (3)**

Prerequisites: PSY 100, 200, 310, or consent of instructor. Analyses of normal mood states, including survey of existing literature. Topics may include the relationship of mood to important antecedents and consequences such as sleep-wake cycles, exercise, nutrition, physical health, stress, and cognition. Self-applications for purposes of mood regulation also will be covered.

**538./438. Psycholinguistics (3)**

Prerequisites: Six units of linguistics or upper division psychology. Psychological and linguistic approaches to study of language. Comparison of human language with communication in lower animals. Language development, disorders, symbolism and universals. (Lecture 3 hours.) Letter grade only (A-F).

**539./439. Language Acquisition (3)**

Prerequisites: Six units of linguistics or upper division psychology, or consent of instructor. Theory and Research on the acquisition of first and second languages in children and adults. Psycholinguistic perspectives on the development of phonological, syntactic, semantic, and pragmatic aspects of language. The interacting roles of developmental stages, cognitive processes, individual roles of developmental stages, cognitive processes, individual differences, social influences, and the cultural context will be stressed. Same course as LING 539. (Seminar.) Letter grade only (A-F)

**541./441. Research in Physiological Psychology (3)**

Prerequisites: PSY 200, 310, and 341. Research methods in psychobiology. Includes fundamentals of neuroanatomy, surgical procedures for stimulation, lesioning and recording, pharmacological procedures used in neuropsychological research. (Lecture 2 hours, laboratory 3 hours.) Letter grade only (A-F).

**544./444. Cognitive Neuroscience (3)**

Prerequisites: PSY 332 and one of the following: PSY 340, 341, or 342. Explores brain systems responsible for cognitive processes in normal humans, integrating theory from texts and current research from original sources. Letter grade only (A-F).

**551./451. Research in Social Psychology (3)**

Prerequisites: PSY 200, 310, 351, or consent of instructor. Research methods and problems in social psychology. (Lecture 2 hrs, laboratory 3 hrs.) Letter grade only (A-F).

**553./453. Principles of Group Dynamics (3)**

Prerequisites: PSY 110, 200, 351, or consent of instructor. Behavior in groups with attention to such factors as leadership, followership, interaction and influence including organization, management, morale, and efficiency. Problems, techniques and methods of investigation. (Lecture/Discussion.) Letter grade only (A-F).

**556./456. Research in Personality (3)**

Prerequisites: PSY 100, 200, 310, 356, or consent of instructor. Examination of common research methods, especially as they may apply to particular theoretical personality paradigms. Research methods may include various types of correlational designs, experimental designs, and combinations of the two. Comparisons of naturalistic and laboratory studies may also be a prominent focus. Topics of study may include the use, strengths, and weaknesses of systematic self-report, including personality questionnaires and case studies. (Lecture 2 hours, laboratory 3 hours.) Letter grade only (A-F).

**575./475. Clinical Interviewing (3)**

Prerequisites: PSY 100, 200, 314 and consent of instructor. Study and development of the clinical techniques of observation and the interview. Coverage will include a detailed exposure to Client-Centered and Gestalt counseling methods. Emphasis will be on understanding theory and acquisition of basic skills. Letter grade only (A-F).

**581. Organizational Psychology (3)**

Prerequisites: PSY 351 or 453/553. Analysis of organizational behavior and practices from a systems point of view. Consideration of employee motivation, power, leadership, communication, decision-making, and organizational change. Research methods for studying organizations. Letter grade only (A-F).

**582. Research in Industrial and Organizational Psychology (3)**

Prerequisites: PSY 200 and 310. Research methods and problems in industrial psychology. Includes direct observational, psychophysical, regression, survey, experimental, and quasi-experimental methods. (Lecture 2 hours, laboratory 3 hours.) Letter grade only (A-F).

**585. Proseminar in Personnel Psychology (3)**

Prerequisites: PSY 314 or 315. Advanced consideration of problems and procedures in personnel psychology. Includes both differentiation and synthesis of major areas within this field. Not open to students with credit in PSY 586. Letter grade only (A-F).

**589. Advanced Topics in Industrial and Organizational Psychology (1)**

Prerequisite: Acceptance in to the Master of Arts – Industrial and Organizational Psychology or consent of instructor. Exploration of selected advanced topics in Industrial/Organizational psychology. Not open to students with credit in same topic in 590. May be repeated to a maximum of six units with different topics in the same semester. Letter grade only (A-F).

**A. Large Group Intervention****B. SPSS-Data Analysis****C. Levels of Analysis****D. Introduction to Time Series Analyses****E. SAS (Statistical Analysis System)****F. Designing Effective Teams****G. Issues in Compensation****590. Advanced Topics in Psychology (1-3)**

Prerequisites: Consent of instructor. Topics of current interest in psychology selected for intensive development. May be repeated to a maximum of six units with different topics. Topics will be announced in the *Schedule of Classes*. Letter grade only (A-F).

**599. Independent Study (1-3)**

Prerequisite: Consent of department. Unclassified graduate student will conduct independent laboratory or library research and write a report of the research. May be repeated for a maximum of 6 units. Letter grade only (A-F).

**627. Research and Simulation in Aviation (3)**

Prerequisite: PSY 527 or consent of instructor. A graduate level course that will cover simulation methods and their use in human factors investigations, focusing on simulations of the National Airspace System and air traffic management principles, from both pilot and air traffic controller standpoints. Letter grade only (A-F).

**631. Seminar in Perception and Physiological Psychology (3)**

Prerequisite: PSY 331 or 340 or 341 or 342 or consent of instructor, consent of graduate coordinator. Critical examination of selected topics in perception, information processing and neurophysiological correlates of behavior. Student emphasis on either perception or physiological psychology. Letter grade only (A-F).

**632. Seminar in Learning (3)**

Prerequisites: PSY 333 or consent of instructor, consent of graduate coordinator. Advanced consideration of selected topics in learning. Letter grade only (A-F).

**633. Seminar in Perception and Attention (3)**

Prerequisites: PSY 331 or 332 or consent of instructor. An examination of methods, theories, and experimental evidence in selected topics from the areas of sensation, perception, and attention. Letter grade only (A-F).

**634. Seminar in Cognition (3)**

Prerequisites: PSY 333 or 332 or consent of instructor, consent of graduate coordinator. An examination of method, theory and experimental evidence in selected topics from the area of cognition. Letter grade only (A-F).

**637. Seminar in Emotion and Motivation (3)**

Prerequisites: PSY 336 or consent of instructor, consent of graduate coordinator. Advanced consideration of selected topics in animal and human motivation and emotion. Letter grade only (A-F).

**651. Seminar in Social Psychology (3)**

Prerequisites: PSY 351 or consent of instructor, consent of graduate coordinator. Critical examination of interpersonal relations, social influence, group membership and influence, and intergroup relations. Letter grade only (A-F).

**656. Seminar in Personality (3)**

Prerequisites: PSY 356 or consent of instructor, consent of graduate coordinator. Theories of personality structure, dynamics, and development. Critical examination of research deriving from different theoretical approaches. Letter grade only (A-F).

**661. Seminar in Developmental Psychology (3)**

Prerequisites: PSY 361 or consent of instructor, consent of graduate coordinator. Consideration of theoretical and methodological issues in life span developmental psychology. Critical examination of research on selected topics, including development of physiological function, intelligence, language, learning processes, sensory processes, perception, personality and social behavior. Letter grade only (A-F).

**681. Seminar in Applications of Psychology to Industry (3)**

Prerequisites: At least 12 units of graduate-level work within the MA/IO program including 511 or 512 and 582. Psychological applications to current problems of industry. Development of thesis proposal and pretest of thesis research techniques required. Letter grade only (A-F).

**683. Issues of Organizational Development (3)**

Prerequisites: PSY 581. An examination of the theory, research, techniques, and practices in the field of organizational development, the professional practice of managing change in organizations. The organizational development steps of diagnosis, contracting, data collection, intervention, and evaluation will be covered. Techniques, such as team building, systems analysis, process consultation, large-group interventions and survey feedback will be examined. Special attention will be paid to challenges of organizational development in diverse and international organizations. Letter grade only (A-F).

**686. Issues in Training (3)**

Prerequisites: PSY 332 or 333, and 585. This course is designed to provide students enrolled in the MA/IO program with advanced training in the area of training and development programs for organizations. The course will cover issues in the adult learning environment, needs assessment, training design and implementation, evaluation of training, executive and management development, special issues in training, and the learning organization. As the intent of the course is to prepare students to be competent developers and presenters of training programs, a major focus will be placed on providing students with experiential skill practice in the areas of needs assessment, design, and implementation. Letter grade only (A-F).

**688. Practicum in Industrial and Organizational Psychology (2)**

Prerequisites: At least 12 units of graduate-level coursework within the MA/IO program. Practice of industrial psychology or human factors in various industrial settings. Individual research and consultation with industrial or governmental organizations. Letter grade only (A-F).

**696. Research Methods (3)**

Prerequisites: PSY 411/511 or 412/512, consent of graduate coordinator. The nature and function of research in the behavioral sciences. Experimental, correlational and case study methods. Research design and analysis using multiple linear regression model, general probability models and Bayesian inference. This course is offered particularly for Master of Arts students and includes the required comprehensive examination for MA Research students. Letter grade only (A-F).

**697. Directed Research (1-3)**

Prerequisites: Consent of graduate coordinator and department. Theoretical and experimental problems in psychology requiring intensive analysis. Letter grade only (A-F).

**698. Thesis (1-6)**

Prerequisites: Advancement to candidacy, consent of advisor. MA/IO students: PSY 681 as prerequisite or corequisite. Planning, preparation, and completion of a thesis in psychology. Must be repeated for a total of 6 units of credit. Letter grade only (A-F).

## Master of Physical Therapy (code PT\_\_MT01)

The Master of Physical Therapy program is designed to provide entry-level professional preparation in physical therapy consistent with national trends. The proposed curriculum consists of 60 units of didactic course work followed by 12 units of postgraduate clinical internship for licensure to practice physical therapy in the State of California. The professional course work is preceded by appropriate prerequisite courses. This program will provide an opportunity for the student with a baccalaureate degree in physical therapy or in a related field of study, or who currently holds a license to practice physical therapy, to pursue a professional masters degree in physical therapy (not an advanced clinical speciality degree). Graduates will be prepared to assume responsible clinical administrative and consultative roles in a broad spectrum of physical therapy practice settings; and be responsive to changing expectations, the expanding body of knowledge, and the physical therapy practice environment.

### Requirements

The Master of Physical Therapy program requires completion of all prerequisite and professional course work described in the following:

#### Program Prerequisites

Natural Sciences: CHEM 111A, 111B, PHYS 100A, 100B

Biological Sciences: BIOL 208, 211A, 211B, 341, 441, HHS 401, 402, 403, 460, 471

Biostatistics: BIOL 260 (or equivalent)

Behavioral Sciences: PSY 100, HHS 374

Note: Computer literacy is expected.

#### MPT Core Requirements

Core: PT 501, 502, 503, 504, 505, 506, 507, 508, 509, 510, 511, 512, 513, 522, 523, 524, 604, 605, 606, 607, 620, 622, 696, 697 OR 698

Electives: PT 610-619

## Postgraduate Internship Certification (code PT\_\_CT01)

### Requirements

P T 525 (must be completed to be eligible to take the state examination for licensure)

### Admission to the Master of Physical Therapy Program

The physical therapy masters program is open to all college graduates with a Bachelor of Science degree in Physical Therapy, or other disciplines, who have met prerequisite requirements and demonstrate academic promise and the ability to perform at a satisfactory level during their graduate studies.

To be considered for acceptance into the graduate program, the applicant must:

1. Complete all prerequisite courses with a minimum of "C" (students admitted to graduate status must maintain a minimum 3.0 overall grade point average in all upper division prerequisite coursework);

2. Hold, or be eligible to hold, an acceptable baccalaureate degree from an institution accredited by a regional accrediting association or have completed equivalent academic preparation as determined by an appropriate campus authority;
3. Have attained a grade point average of at least 2.5 (A=4.0) in the last 60 semester (90 quarter) units attempted;
4. Submit results of the General Aptitude Section of the Graduate Record Examination (quantitative, verbal, and analytical), taken within the past 5 years;
5. Provide academic and personal references as required;
6. Provide documentation of personal experience in a variety of physical therapy settings; and
7. Be recommended by the physical therapy faculty.
8. All candidates whose preparatory education was principally in a language other than English must demonstrate competency in English. Refer to the CSULB Bulletin for requirements for completing the Test of English as a Foreign Language (TOEFL).

The master's degree program is a 60-unit, four semester plus one summer session full-time course of study. Graduates who have not met licensure eligibility requirements or who do not hold a valid physical therapy license (have not completed the BS degree in physical therapy) will be required to take a post-graduate internship (12 units). The course of study is most appropriate for graduates with degrees in related fields but does not exclude the person holding a baccalaureate degree in physical therapy. For graduates holding the BS degree in physical therapy, courses may be petitioned for the purpose of waving them providing a similar or like course has been completed which meets licensure standards. The emphases in the curriculum is to prepare graduates who desire to practice in a variety of clinical settings, e.g., private practice, acute care, rehabilitation, home health and extended care.

#### Advancement to Candidacy Requirements

1. Classified graduate student status.
2. Fulfillment of the Graduation Writing Assessment Requirement (GWAR).
3. A minimum 3.0 grade-point average in all program graduate work as well as a minimum overall 3.0 in all graduate work attempted.
4. Be recommended by a faculty sponsor.
5. Enrollment in regular session.
6. Satisfactory completion of at least one semester of the program.

#### Requirements for Admittance to Clinical Practice

1. Complete all requirements for the master's at the time of application to clinical practice.
2. Successfully complete either (a) a research thesis or project (PT 698) or (b) directed studies (PT 697) under the guidance of a faculty advisor.
3. If choice b (above) is selected (PT 697) the student must also successfully complete a program comprehensive examination.

## Courses (PT)

### 501. Musculoskeletal and Biomechanical Principles (3)

Prerequisites: HHS 401, 402, 403. Advanced study of joint mechanics and pathomechanics with application to therapeutic procedures, posture and movement of the limbs, temporomandibular joint, neck and trunk. Letter grade only (A-F). (Lecture/discussion 2 hours, laboratory 3 hours.)

### 502. Normal and Pathological Gait (2)

Prerequisites: PT 501. Kinetics and kinematics of normal and pathological gait with application to persons with gait disability. Emphasis on gait analysis and therapeutic procedures. Letter grade only (A-F). (Lecture/discussion 1 hour, laboratory 3 hours)

### 503. Management of Individuals with Musculoskeletal Disorders I (3)

Prerequisite: PT 501. The elements of patient/client management of musculoskeletal disorders provided by physical therapists including examination (history, systems review, tests and measures), evaluation, diagnosis, prognosis including anticipated goals, expected outcomes and criteria for discharge, and reexamination. Also includes primary prevention/risk factor reduction strategies for specific diagnostic groups. May include use of prosected materials and selected lectures by clinicians. Letter grade only (A-F). (Lecture/discussion 2 hours, laboratory 3 hours.)

### 504. Management of Individuals with Musculoskeletal Disorders II (4)

Prerequisites: PT 501, 503. The interventions for individuals with disorders of the musculoskeletal system including exercise prescription, strengthening regimens, effects of disuse, life sequence, wellness and prevention, theories of pain and pain management and selected preferred practice patterns provided by physical therapists. Letter grade only (A-F). (Lecture/discussion 3 hours, laboratory 3 hours.)

### 505. Management of Human Growth and Development (2)

Prerequisites: HHS 401, 460. Investigation and analysis of human development from birth to senescence with emphasis on concepts of motor, skeletal and neurological development processes necessary to prepare for evaluation and treatment intervention in musculoskeletal and neurological disabilities. Letter grade only (A-F). (Lecture/discussion 1 hour, laboratory 3 hours.)

### 506. Exercise Physiology for Physical Therapy (2)

Prerequisites: BIOL 341, 441; HHS 401, 460, 471. Study of control systems challenged by exercise and altered by chronic exercise that will be critical for patient management. Introduction to exercise measurement and clinical exercise related tools including basic metabolism, analysis of systems involved, exercise test design for different patient subjects, and the pharmacology of exercise. Study of pathology will always be preceded by study of the healthy individual. Letter grade only (A-F). (Lecture/discussion 1 hour, laboratory 3 hours.)

### 507. Management of Individuals with Neuromuscular Disorders (4)

Prerequisites: HHS 460, PT 502. The elements of patient/client management of neuromuscular disorders provided by physical therapists-examination (history, systems review, tests and measures), evaluation, diagnosis, prognosis, and intervention (with anticipated goals) including reexamination, outcomes, and criteria for discharge. Also includes primary prevention/risk factor reduction for specific diagnostic groups, the use of prosected materials and selected lectures by medical and physical therapy clinicians. Letter grade only (A-F). (Lecture/discussion 3 hours, laboratory 3 hours.)

### 508. Management of the Pediatric Population (2)

Prerequisites: PT 505, 507, admission to the physical therapy program. Management of the pediatric physical therapy patient with neuromusculoskeletal disorders. Includes the examination (history, systems review, tests and measures), evaluation, diagnosis, and prognosis to determine the extent of limitations. Also includes the pathophysiology and selection of appropriate intervention approaches and clinical decision making. May include lectures from medical and physical therapy practitioners. Letter grade only (A-F). (Lecture/discussion 1 hour, laboratory 3 hours.)

### 509. Management of the Cardiopulmonary System (3)

Prerequisites: BIOL 341, 441; PT 505, 506. The elements of patient/client management of cardiopulmonary disorders provided by physical therapists—examination (history, systems review, tests and measures), evaluation, diagnosis, prognosis, and intervention (with anticipated goals) including reexamination, outcomes, and criteria for discharge. Also includes primary prevention/risk factor reduction for specific diagnostic groups, circulatory disorders and selected lectures by medical and physical therapy clinicians. Letter grade only (A-F). (Lecture/discussion 2 hours, laboratory 3 hours.)

### 510. Patient Management and Functional Training (2)

Prerequisites: HHS 401, 402 and admittance to MPT program. Patient/client management with emphasis on assistive and adaptive devices and physical agents, self care and home management (including activities of daily living and instrumental activities of daily living) and wound management. May include lectures from medical and physical therapy practitioners on selected topics. Letter grade only (A-F). (Lecture/discussion 1 hour, laboratory 3 hours.)

### 511. Management of the Geriatric Population (3)

Prerequisites: PT 503, 504, 505, 507. The elements of patient/client management of the geriatric population provided by physical therapists—examination (history, systems review, tests and measures), evaluation, diagnosis, prognosis, and intervention (with anticipated goals) including reexamination, outcomes, and criteria for discharge. Also includes primary prevention/risk reduction strategies for specific diagnostic groups, and selected lectures by medical and physical therapy clinicians. Letter grade only (A-F). (Lecture/discussion 2 hours, laboratory 3 hours.)

### 512. Clinical Electrophysiology I (3)

Prerequisites: BIOL 341; HHS 402, 460. The investigation of the physiological and neurological basis for the selection of electromyographic assessment tools and for the selection of electrotherapeutic modalities for the management of neuromusculoskeletal disorders. Also includes specific interventions used in the management of the patient/client with neuromuscular disorders. Letter grade only (A-F). (Lecture/discussion 2 hours, laboratory 3 hours.)

### 513. Clinical Electrophysiology II (2)

Prerequisites: PT 512. Physiological considerations in the use of nerve stimulation studies and electromyography with the patient/client with neuromuscular disorders emphasizing the rationale for the selection of electrical stimulation techniques for physical therapy intervention as well as functional use of electrical stimulation systems. Letter grade only (A-F). (Lecture/discussion 1 hour, laboratory 3 hours.)

### 514. Prevention in Physical Therapy (1)

Prerequisites: PT 501, 506. Corequisites: PT 504, 507, 509. Application of the principles of primary, secondary and tertiary prevention to physical therapy. Letter grade only (A-F). (Laboratory 3 hours.)

### 522. Clinical Practice I (1)

Prerequisites: PT 501, 510; Corequisites: PT 502, 503, 506. Initial directed clinical practice in a variety of health care delivery systems emphasizing the development of patient interaction skills, evidence-based practice, and critical thinking. This course uses structured learning units and collaborative learning within the clinical setting. Credit/No Credit grading only. (Clinical practice 40 hours.)

### 523. Clinical Practice II (1)

Prerequisites: Completion of the first year of professional program. Supervised clinical practice in a variety of health care delivery systems emphasizing musculoskeletal and neuromuscular conditions. Credit/No Credit grading only. (Clinical practice 6 weeks)

### 524. Clinical Practice III (1)

Prerequisites: Completion of PT 523. Supervised clinical practice in a variety of health care delivery systems emphasizing single and multiple systems impairments but including the management of cardiopulmonary, prosthetic, and spinal/extremity mobilization conditions. Credit/No credit grading only. (Clinical practice 40 hours.)

### 525. Clinical Internship (1-12)

Prerequisites: Completion of all requirements for the MPT degree. Twenty-four weeks of supervised full-time clinical practice in a variety of health care delivery systems. Six weeks of clinical practice will be completed during the summer following the first year of the academic program and the culminating clinical experience will follow the completion of the second year of the academic program. Satisfactory completion of the internship is required for licensure to practice in the state of California. Must be repeated for a total of 12 units. Credit/No credit grading only. (Clinical practice 24 weeks.)

### 597. Independent Studies (1-3)

Prerequisites: Consent of instructor, and for human dissection, one general introductory anatomy course HHS 401, and HHS 402. Independent studies in any area of physical therapy. Human dissection is available as a special study. May be repeated to a maximum of 6 units. Letter grade only (A-F). (Independent studies.)

### 604. Health Care Issues I (2)

Prerequisite: Admittance to MPT program. Investigation of the health care delivery system including the regulatory, political, ethical, legal and promotional aspects of health care. Letter grade only (A-F). (Lecture/discussion 2 hours.)

### 605. Health Care Issues II (2)

Prerequisite: Admittance to MPT program. Investigation and discussion of the process of planned direction, organization, management, and economics of physical therapy and physical therapy delivery. Includes theories of disease prevention and health promotion. Letter grade only (A-F). (Lecture/discussion 2 hours.)

### 606. Professional Practice Issues (3)

Prerequisite: Admittance to MPT program. Professional practice issues such as interpersonal interactions, giving and receiving feedback, and the role of values and culture as determinants of behavior. Evidence-based practice, the critical analysis of professional literature and the objective summarization of professional literature using clear, concise, scientific writing. The course includes an introduction to the Guide to Physical Therapy Practice and its use in clinical problem solving. Also includes learning and teaching principles, and patient/family education with focus on health behavior change. Letter grade only (A-F). (Lecture/discussion 3 hours.)

### 607. Seminar in Clinical Decision Making II (2)

Prerequisites: PT 507, 509. Continuation of the investigation and synthesis of the data base for the management of the patient/client with disorders of the cardiopulmonary and neuromuscular systems. Includes examination of the psychosocial aspects of disability, community resources to meet the needs of the patient and family, social/cultural aspects, patient compliance and advocacy, and learning theories and principles. Letter grade only (A-F). (Seminar 2 hours.)

### 610. Advanced Study in Biomechanics and Kinesiology (2)

Prerequisites: PT 501, 502; MPT major or physical therapist. Advanced study in the biomechanical evaluation of pathological posture and movement with emphasis on gait. Letter grade only (A-F). (Lecture 1 hour, laboratory 3 hours.)

### 611. Advances in Orthopaedic Physical Therapy (2)

Prerequisites: PT 503, 504; MPT major or physical therapist. Exploration of advanced clinical orthopedic management strategies. Letter grade only (A-F). (Lecture 1 hour, laboratory 3 hours.)

### 612. Advanced Study in Clinical Electroneuromyography (2)

Prerequisites: PT 512, 513; MPT major or physical therapist. Advanced electroneuromyography assessment and electrical stimulation technology with an emphasis on objective documentation and improvement of neurological status, muscle performance, walking ability and functional capacity. Letter grade only (A-F). (Lecture/discussion 1 hour, laboratory 3 hours.)

### 613. Advances in the Management of the Geriatric Population (2)

Prerequisites: PT 505, 509, 511; MPT major or physical therapist. Exploration of the clinical management strategies and intervention in aging. Letter grade only (A-F). (Discussion 1 hour, laboratory 3 hours.)

**614. Advances in the Management of the Pediatric Population (2)**

Prerequisites: PT 505, concurrent enrollment in PT 507; MPT major or physical therapist. Exploration of advances in the management of the pediatric physical therapy patient with emphasis on various pathologies. Letter grade only (A-F). (Lecture 1 hour, laboratory 3 hours.)

**615. Advances in the Management of the Neurological Patient (2)**

Prerequisites: PT 506, 507, 508; MPT major or physical therapist. Exploration of special considerations in the patient with neurological impairment. Letter grade only (A-F). (Lecture/discussion 1 hour, laboratory 3 hours.)

**616. Advances in the Management of the Cardiopulmonary Patient (2)**

Prerequisites: PT 509; MPT major or physical therapist. Exploration in the special considerations in the management of the patient with cardiopulmonary and circulatory disability. Letter grade only (A-F). (Lecture/discussion 1 hour, laboratory 3 hours.)

**617. Management and Development of Independent Practice (2)**

Prerequisites: Admission to the professional program, PT 604, PT 605; MPT major or physical therapist. Exploration of the management and business strategies in independent practice. Letter grade only (A-F). (Lecture/discussion 2 hours.)

**618. Advanced Clinical Anatomy (2)**

Prerequisites: PT 501, 502, 503, 504; MPT major or physical therapist. Exploration of the advanced application of clinical anatomy. Dissection of specific areas of clinical relevance is an option. Letter grade only (A-F). (Lecture 1 hour, lab 3 hours.)

**619. Contemporary Issues in Physical Therapy (2)**

Prerequisites: PT 604; MPT major or physical therapist. Exploration of contemporary and emerging trends in physical therapy practice. Letter grade only (A-F). (Lecture/discussion 2 hours.)

**620. Management of Patients with Orthotic and Prosthetic Needs (2)**

Prerequisites: PT 502, 503. The prescription, application, and fabrication of devices and equipment (orthotic, prosthetic, supportive splinting, and taping). Letter grade only (A-F). (Lecture/discussion 1 hour, laboratory 3 hours.)

**622. Clinical Pathophysiology (3) F, S, SS**

Prerequisites: PT 504, 505, 507, 509, 510, 513, 606, 696. Corequisites: PT 508, 620. Pathophysiology of connective tissue in musculoskeletal, neuromuscular, cardiopulmonary and integumentary disorders as a basis for physical therapy evaluation, diagnosis, goal setting and conservative as well as pre and post-operative intervention in patients with multiple systemic disorders. (Letter grade only (A-F). (Lecture/discussion 3 hours.)

**696. Research Methods (2)**

Prerequisite: Admittance to MPT program. Scientific inquiry with emphasis on information searching. Epidemiology, research design (qualitative and quantitative), measurement theory, and applied statistics. Also includes critical inquiry and clinical decision-making guidelines, research ethics, and the development of a proposal on the validation of physical therapy practice. Letter grade only (A-F). (Lecture/discussion 2 hours.)

**697. Directed Research Studies (1-4)**

Prerequisites: PT 606, 696, advancement to candidacy and consent of instructor. Research in an area of specialization in physical therapy under the direction of a faculty sponsor. Letter grade only (A-F). Must be completed for a total of 4 units.

**698. Research Thesis/Project (1-4)**

Prerequisites: PT 606, 696, advancement to candidacy and consent of instructor. Planning, preparation, and completion of thesis or project in physical therapy. Letter grade only (A-F). Must be completed for a total of 4 units.

**T**he experience of leisure is a basic facet of life. It is an elemental experience, essential to the total well-being of every person; it is a reflection and expression of the cultural values of a society; it is an important treatment modality. Leisure and recreation services are also essential for healthy communities in terms of social climate, environmental quality, and economic stability. The provision of recreation services is one of the largest industries in the world, whether measured in dollars spent, persons served, hours of time devoted, or resources used. The study of leisure and recreation is a broad discipline, combining aspects of diverse fields of study and professional practice.

The Department of Recreation and Leisure Studies exists to promote a broader and deeper understanding of the role of leisure and recreation in the lives of all people, and to enhance the quality of experiences available to each person. This purpose is expressed in the four-fold mission of the Department of Recreation and Leisure Studies: (1) to offer a curriculum which leads the student to an increased understanding of the leisure phenomena; (2) to conduct basic research which contributes to the general body of knowledge; (3) to serve the community by conducting applied research and providing consultation and training to practitioners; and (4) to serve society by providing professional practitioners who are skilled, dedicated, and ethical stewards of the profession.

The Department is accredited by the Accreditation Council of the National Recreation and Park Association and American Association for Leisure and Recreation (National Recreation and Park Association, Council on Accreditation, 22377 Belmont Ridge Road, Ashburn, VA 20148, phone: 703-858-0784).

Students desiring information on undergraduate or graduate degrees or certificate programs in Therapeutic Recreation, Administration of Campus Recreation and Student Service Programs, Management of Nonprofit and Volunteer Services, Administration of Outdoor Recreation Resources, and Administration of Travel and Tourism should contact the department office for referral to one of the faculty advisors.

## Bachelor of Arts in Recreation (code REC\_BA01) (120 units)

### Academic Program

The curriculum is designed to prepare men and women for positions of supervision and administration in public recreation and parks, therapeutic recreation, outdoor education, voluntary youth and adult services, camp administration, special event planning and management, travel and tourism, commercial recreation, and armed forces recreation.

The curriculum includes courses selected to provide an understanding of human development, service management, and a variety of specialty areas within the leisure services profession.

### Departmental Policies

Each major student must maintain a cumulative 2.0 GPA on all units attempted and achieve a "C" or better in each course of the Recreation major to progress in the sequence of study. Students earning less than a "C" grade in a course required in the major must repeat that course.

Students wishing to substitute courses or deviate in any way from the Department requirements must submit a letter of request to the Department faculty. No more than six units of Recreation-prefix courses may be taken by contract. The Internship is "Letter grade only (A-F)." The Internship is taken the last semester before graduation. No other courses may be taken concurrently with the Internship.

### Requirements

Lower Division: REC 141, 225

Upper Division: REC 325, 341, 351, 421, 423, 425, 427, 431, 480, 498.

Additional Courses: Each major student is required to complete courses in the following groups: REC 100 or 300; Choose one from the following: HDEV 307I, 357I, or PSY 370; Choose 15 units from the following: REC 215, 321, 322, 324, 337, 340I, 371, 407, 410, 428, 430, 433, 451, 452, 454, 458, 462, 468, 469, 473, 490, 499. Choose 3 units from collaborative fields with advisor approval, such as FCS, KPE, EDP, CRIM, SW.

### FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

#### I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

#### Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

#### I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

#### I didn't complete the exact list of courses shown. Can I still graduate on time?

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

#### If I follow the plan, will I have all requirements for graduation completed?

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

### Minor In Recreation (code REC\_UM01)

A minimum of 21 units approved by the departmental minor advisor which must include: REC 141, 225, 321, 340I, 351 and two of the following: REC 220, 322, 324, 337, 371, 428, 430, 431, 433, 462, 473, or 490 with consent of the advisor.

### Certificate Programs

The certificate programs offered by the Department of Recreation and Leisure Studies are available to both undergraduate and graduate students, as well as students who already possess a baccalaureate degree and are enrolling in a certificate program, unless otherwise noted. Students pursuing an approved degree at CSULB may complete the certificate programs concurrently with their degree or subsequent to their degree by enrolling as a certificate student. Courses taken to meet the requirements of a certificate may also be used, where appropriate, to meet the General Education requirements or the degree requirements of cooperating departments. Extension and/or transfer credit may comprise no more than one-fourth of the course work used to meet baccalaureate certificate requirements. Students wishing to pursue a certificate should contact the department to schedule a meeting with the certificate advisor.

### **Certificate in Therapeutic Recreation (code REC\_CT01)**

Therapeutic recreation has been identified as one of the fastest growing fields of employment. Recreational therapists work in clinical and community settings using recreation as a tool to assist post-injury rehabilitation and to improve quality of life for people with disabilities. State and National Certification in therapeutic recreation is often required for employment in this field; the curriculum of this certificate program prepares students for the California Board of Recreation and Park Certification exam and for the National Council for Therapeutic Recreation Certification exam. A baccalaureate degree, which may be awarded concurrently, is required for completion of this certificate program.

Core requirements: REC 325, 351, 341, 451, 452, 454, 458, and 498.

Additional courses: 18 to 19 units, which must be taken with approval from the certificate advisor. This includes an anatomy/physiology course (3 - 4 units); abnormal psychology (3 units); a human growth and development across the lifespan course (3 units); and upper division support courses (9 units) from any of the following areas: sociology, psychology, educational psychology, health science, adapted physical education, anthropology, biology, communication studies, family and consumer sciences, gerontology, human development, kinesiology/physical education, occupational studies, social work, and special education

### **Certificate in Administration of Campus Recreation and Student Service Programs (code REC\_CT05)**

Campus Recreation and Student Services is a growing field in elementary, secondary and higher education, as it relates to the co-curricular programs offered in support of the educational program, both in public and private institutions. The Certificate enhances professional development in Student Services such as Student Activities, Student Leadership Development, Residential Life, Student Community Service Volunteer Programs, and Intramurals and Recreational Sports; and Campus Services such as Conferences, Scheduling, Event Planning, and Alumni Relations. For those looking to be Certified Recreation Sports Specialist through NIRSA the courses will prepare them for the certification examination.

Twenty-four (24) units of core requirements including: REC 321, 322, 324, 325, 421, 427, 485; and one (3 unit) evaluation course: REC 341 or equivalent. The remaining six (6) units are electives which must be taken with approval of the advisor of the certificate program. These may include REC, KPE, HDEV, or HRM courses.

### **Certificate in Management of Nonprofit and Volunteer Services (code REC\_CT02)**

Nonprofit organizations require trained professionals to meet the demanding need of managing effective organizations and programs. This certificate program prepares students for employment as managers of nonprofit organizations and volunteer services.

Core requirements: REC 325, 421, 425, 427/527, 428/528, 498.

Additional courses: 6 units of elective courses addressing youth development, communication skills, marketing, evaluation, or working with diverse populations which must be taken with approval of the advisor of the certificate program.

### **Certificate in Administration of Outdoor Recreation Resources (code REC\_CT03)**

Outdoor recreation includes both the provision of recreation programs in the outdoors and the management of the parks and public lands that serve as the settings for these recreation experiences. Recreation program management and land management are distinct fields that must work cooperatively. This certificate program prepares students for careers in these inter-related fields. The curriculum includes courses selected to provide an understanding of outdoor recreation behavior, outdoor education, resource management policies, and an introductory understanding of natural science.

Core Requirements: REC 427, 430, 431; REC 337 or SCED 401; REC 433, 485, or 499.

Additional courses: 9 units of elective courses from biology, geology, or geography which must be taken with approval of the advisor of the certificate program.

### **Certificate in Administration of Travel and Tourism (code REC\_CT04)**

Travel and tourism is a very large and growing field in which there are usually many opportunities for well-trained individuals. This certificate program provides instruction in the history and theoretical bases of tourism, including its economics, psychology, and sociology as well as the political and legal aspects. The fundamentals of business, food and food service technology, the performing arts, and resource management are themes throughout the program.

Core requirements: REC 462, 468; REC 485 or 498; FCS 270, GEOG 352.

Additional courses: 6 units of upper division courses listed in the University Catalog under the Regional category in the Department of Geography or 6 units of a foreign language; plus 3 additional upper division units selected in consultation with the advisor of the certificate program.

## Graduate Certificate in Leisure Counseling (code REC\_CT06)

Leisure and recreation experiences add quality and enjoyment to life. When individuals experience significant changes in their lives, often through retirement or disabling injuries, they may need counseling to identify and develop leisure skills appropriate to their new life situations. This certificate program prepares students to use counseling techniques to enhance quality of life through leisure.

**Admission/Prerequisite:** Persons holding a bachelor's or master's degree in Recreation or Therapeutic Recreation or a related allied health field (e.g. Occupational Therapy, Music Therapy, Gerontology, Psychology, Adapted Physical Education, Counseling); two years verified experience in counseling approved by the program advisor.

**Core requirements:** REC 454/554, 503, 590; EDP 532, 533.

**Additional courses:** 3 units which must be taken with approval of the advisor of the certificate program.

## Master of Science in Recreation Administration (code REC\_MS01)

The Department of Recreation and Leisure Studies offers a program of graduate studies leading to the Master of Science degree in Recreation Administration. The program helps prepare professional personnel who are competent managers of private and public agencies and programs, who can conduct research and evaluation of recreation services, and who can contribute to the development of a professional philosophy of leisure. Unusually fine opportunities exist in Long Beach and Southern California for interaction with recreation agencies of all kinds.

### Admission

Students seeking admission to the Department of Recreation and Leisure Studies Graduate Program should have an undergraduate degree and a desire for graduate study. Applicants must apply for admission to the Recreation and Leisure Studies Department in addition to being admitted by the Office of Admissions and Records.

The following items must be completed for admission:

1. Applicants must meet the criteria for acceptance by the University as a graduate student as outlined in the CSULB Catalog;
2. Every applicant (new or continuing) must apply to the Office of Admissions and Records to obtain admission to the University with graduate standing. Applications are available on line (<http://www.csumentor.edu/>);

3. Every applicant must also apply to the Department of Recreation and Leisure Studies, by sending the following to the Graduate Coordinator in the Department of Recreation and Leisure Studies:

- A. A copy of the graduate application sent to the Office of Admissions and Record;
- B. Official transcripts of all undergraduate course work;
- C. A copy of the applicant's current resume and a statement of professional goals;
- D. Three letters of recommendation from persons able to testify to the applicant's academic ability.

Admitted graduate students must contact the Department of Recreation and Leisure Studies Graduate Coordinator for advisement early in their first semester of enrollment in order to develop an approved program of study.

### Prerequisites

Graduate students must complete the following prerequisites before advancing to candidacy:

1. A bachelor's degree with a major in recreation; or,
2. A bachelor's degree with a minimum of 24 units of upper division courses comparable to those required in the undergraduate recreation major at this University. (Students deficient in undergraduate preparation must take courses approved by the department Graduate Coordinator to remove these deficiencies.)
3. Any deficiencies will be determined by the department graduate coordinator review of the student's transcript records, and consultation with the student's faculty advisor and the student.

### Advancement to Candidacy

The following are required for student to advance to candidacy:

1. Enrollment in the semester or summer session in which advancement takes place;
2. Completion of the general University requirements for advancement to candidacy, as specified in this bulletin.
3. Fulfillment of the Graduation Writing Assessment Requirement (GWAR);
4. Satisfactory completion of REC 521, 571, 591, 595, 696 with a minimum grade of "B" in each of the courses.
5. After consultation with the student's graduate advisor, determination of whether the student will complete the thesis option or project option.
6. Approval of the student's graduate program by the Department Graduate Advisor and Associate Dean for the College of Health and Human Services.

## Requirements

The core requirements for a masters of science in recreation administration are REC 521, 571, 591, 595, and 696. In addition to the core classes, students are required to complete elective units and thesis or project units. The thesis option requires one unit of REC 599 and four units of REC 698, plus 12 units of electives. The project option requires three units of REC 698 plus 20 units of electives. Elective courses are to be selected after consultation with the graduate advisor. A maximum of 6 units may be taken from 300 or 400-level courses in Recreation designated with a \* in *CSULB Catalog*. Undergraduate courses that are not designed with a \* may not be applied toward the master's degree. Up to six units of graduate work may be transferred from another accredited university or another department in CSULB. Transfer credit must be a "B" or better. All students must earn a grade of "A" or "B" for each required course. Students may not have more than 6 units of "C" grades apply toward the master's degree. Advancement to candidacy is necessary before REC 697 or 698 can be taken.

### Thesis or Project

The thesis or project is a supervised experience in the application of theory and analytical tools to an issue in recreation and leisure services.

The thesis should prepare students for further graduate work or research in the field. The project should provide an experience that is directly applicable to an occupation in recreation and leisure services. The thesis is a written product of the systematic study of a significant problem. It clearly identifies the problem, states the major assumptions, explains the significance of the undertaking, sets forth the sources for and methods of gathering information, analyzes the data, and offers a conclusion or recommendation. The finished product evidences originality, critical and independent thinking, appropriate organization and format, and thorough documentation. The thesis is supervised by a committee of three, including the Thesis Chair, who must be a full-time tenure-track or tenured faculty member in the Recreation and Leisure Studies Department, and two other faculty members.

The project is a significant undertaking appropriate to the professional field. It evidences originality and independent thinking, appropriate form and organization, and a rationale. It is described and summarized in a written report that includes the project's significance, a review of the literature, objectives, methodology, and a conclusion or recommendation. The finished product evidences originality, critical and independent thinking, appropriate organization and format, and thorough documentation. The coursework is supervised by a committee of three, including the Project Chair, who must be a full-time tenure-track or tenured faculty member in the Recreation and Leisure Studies Department, and two other faculty members.

## Courses (REC)

### Lower Division

#### 100./300. Orientation to the Recreation Major (3)

Orientation to the professional roles in the field of leisure services; the philosophy, academic requirements, standards, documentation, procedures of the Department of Recreation and Leisure Studies; and computer applications required of all majors. Letter grade only (A-F). (Discussion, 3 hours) Not open to students with credit in REC 300.

#### 141. Introduction to Leisure Services (3)

Prerequisite: One GE Foundation Course (may be taken concurrently). Survey of public, private and non-profit agencies engaged in leisure services. Examination of populations served. Organizing principles of the recreation and leisure services profession. Not open to students who have completed REC 241. (CAN REC 2)

#### 215. Management of Outdoor Field Trips (1)

Field experiences in unique outdoor recreation programs. Course content will include planning, logistics and leadership techniques involved in field trip organization. (Activity 2 hours.)

#### 220. Universality of Play (3)

Prerequisites: Completion of GE Foundation requirements. Exploration of the ethnic origins of play from an international perspective. Influence of play on creativity, drive and self image of society. Theory and practicum.

#### 225. Programming Recreation Activities (3)

Methods and materials used in planning and leading organized recreation programs in public and private agencies. Analysis of interpersonal and group skills necessary for effective leadership of recreation activities. Special emphasis on supervised programming field experiences. Letter grade only (A-F).

### Upper Division

#### 300./100. Orientation to the Recreation Major (3)

Orientation to the professional roles in the field of leisure services; the philosophy, academic requirements, standards, documentation, procedures of the Department of Recreation and Leisure Studies; and computer applications required of all majors. Letter grade only (A-F). (Discussion, 3 hours.) Not open to students with credit in REC 100.

#### 321. Leadership in Recreation and Leisure Studies (3)

Theory and application of leadership as it pertains to leisure service agencies. In depth analysis of interaction between leadership styles and group dynamics. Facilitation techniques necessary for effective group leadership.

#### 322. Recreational Sports Supervision (3)

Organization and supervision of recreational sports for community-wide participation. (Lecture 2 hours, Activity 2 hours.)

#### 324. Campus Recreation Services (3)

Prerequisites: Junior Standing. Principles and practices in provision of recreation services on college, secondary, and elementary school campuses.

#### 325. Advanced Program and Event Management (3)

Prerequisites: REC 100 or 300; 141, 225, or consent of instructor. Advanced management of recreation and leisure service programs with special emphasis on event planning and promotion. Includes interpretations of needs assessments and market analysis; analysis and selection of prospective client bases; program design, marketing, promotion, implementation and evaluation. Letter grade only (A-F).

#### 337. Environmental and Cultural Interpretation (3)

Principles and practices of environmental and cultural interpretation of outdoor recreation resources, including tours, brochures, slide shows and exhibits. (Discussion, 3 hours)

### 340I. Leisure in Contemporary Society (3)

Prerequisites: Completion of G.E. Foundations requirements; one or more explorations courses; upper division standing. Enhancing the understanding of leisure in contemporary society by examining beliefs, values, and social structures of one's own leisure and comparing and contrasting them with individual and social influences such as race/ethnicity, gender, sexuality, age, economic status, ability and religion.

### 341. Evaluation and Research in Leisure Services (3)

Prerequisites: REC 100 or 300, REC 141, 225, or consent of instructor. Foundations of current methods and practices of evaluation and research about leisure and leisure services. Includes the critical need for evaluation and research in leisure services; research and evaluation concepts, types, and designs; sampling; and information/data collection, analysis, interpretation, and presentation. Letter grade only (A-F).

### 351. Foundations of Therapeutic Recreation (3)

Prerequisites: REC 100 or 300, REC 141, 225, or consent of instructor. Philosophical and historical foundations of therapeutic recreation and principles of planning, implementing and evaluating leisure services for individuals with disabilities. (Lecture/Activity 3 hours.)

### 371. Human Services Programming in Urban Areas (3)

Prerequisites: Completion of the GE Foundation requirements. Exploration of the community diversity, social issues, and community resources of urban areas in relationship to the concerns of recreation and human service needs. Examination of planning, development, and agency collaborations required to insure recreation service development meets community needs.

### \*407. Starting a Recreation Business (1)

Examines the basic legal, financial, and practical concerns related to starting a recreation business in California.

### 410. Designing Effective Workshops and Conferences (1)

Course will enable a student to analyze elements of workshop and conference design, and provide the student with the knowledge and skills necessary to develop effective, participative group meetings.

### \*421. Supervisory and Administrative Practices (3)

Prerequisite: REC 100 or 300; 141, 225, or consent of instructor. Concepts and techniques of supervision and administration in recreation agencies; emphasis on recruitment, assignment, evaluation and in-service training of recreation personnel.

### \*423. Facility Design and Operations (3)

Prerequisites: REC 325 or consent of instructor. Theories and practical experience in the design, development, operation, maintenance and administration of various recreational facilities. Letter grade only (A-F).

### \*425. Financing Leisure Services (3)

Prerequisites: REC 325 or consent of instructor. Financing and budgeting in public and private sector leisure service agencies; management by objectives as related to fiscal elements.

### 427./527. Legal Aspects of Leisure Services (3)

Prerequisites: Upper Division Standing. Political, policy making, and legal aspects underlying the establishment, operation, and termination of public and private leisure services. Letter grade only (A-F). (Discussion, 3 hours.)

### 428./528. Principles of Nonprofit/Volunteer Management (3)

Survey of the principles of nonprofit and volunteer services management. The philosophical, historical and social context of the volunteer movement; funding, governance, organization and management of nonprofit organizations and volunteer services; trends and issues; professional development and employment.

### \*430. Recreation in the Ocean Environment (3)

Study of the skills and techniques of administration of an ocean-oriented recreational resource, including management and trip planning. Course content will be supplemented with a week long field trip to Santa Barbara Island. Course fee may be required.

### \*431. Recreation Resource Management (3)

Prerequisites: REC 100 or 300; 141, or consent of instructor. Review of the techniques of recreation resource management; the role of citizens, government and private agencies in acquisition and development of these resources; development of resource management policies.

### \*433. Management of Organized Camps (3)

Management of organized camps, with particular emphasis on the role and responsibility of the on-site director; practical experience in all phases of camping. Topics covered include camp philosophies, job responsibilities and staffing, staff dynamics, campers characteristics and needs, camp program development and camp facility management.

### \*451. Management of Therapeutic Recreation Services (3)

Prerequisites: REC 351, 452 or consent of instructor. Comprehensive therapeutic recreation program development, operation, and management. Advanced principles, issues, and trends in therapeutic recreation. Letter grade only (A-F).

### \*452. Therapeutic Recreation Treatment/Program Planning (3)

Prerequisites: REC 351 or consent of instructor. Development of individual treatment/program plans in therapeutic recreation. Includes assessment of leisure and social functioning, problem identification, development of measurable objectives, determination of program content and methods, documentation, and evaluation of the client's progress. (Lecture 2 hours, Activity 1 hour.)

### 454./554. Leisure Counseling (3)

Prerequisites: REC 351, 452, or consent of the instructor. Current practices and procedures in leisure counseling. Includes techniques of leisure needs assessment, leisure counseling and leisure education methods and techniques, and leisure counseling and leisure education content.

### 458./558. Therapeutic Recreation: Facilitating Leisure and Wellness (3)

Prerequisites: REC 100 or 300; 141, 225, or consent of the instructor. An overview of the role of leisure in wellness and wellness programs as it relates to therapeutic recreation. Examination of various therapeutic recreation facilitation techniques as a major component of promotion of wellness programs. Includes assessment of leisure functioning and development and implementation of therapeutic recreation programs and services. Letter grade only (A-F).

### \*462. Travel, Tourism, and Resort Recreation Management (3)

Prerequisites: REC 325 or consent of instructor. Current procedures and processes in managing travel, tourism and resort recreation organizations. Discussion includes the organization and management of human resources in the marketing of travel, tourism and resort recreation enterprises.

### \*468. Tourism Planning and Development (3)

Prerequisites: REC 462 or consent of instructor. Analysis of elements which are included in a community development plan. Assessment of the touristic potential of a region or site, enabling legislation, organization, and administration of a tourism development plan, identification of sources of resistance and support.

### 469./569. Disability, Culture and Society: Issues and Intervention (3)

Prerequisite: Senior or graduate status. This is a course using interdisciplinary work about disability as a social construct. Utilizing an oppressed group model, the course will examine society's policies and practices to understand the experience of disability. Includes historical and contemporary perspectives as well as future issues. Social and clinical intervention methods, and program and information resources are covered. Same course as GERN 469./569 and SW 469./569. Letter grade only (A-F).

**473./573. Aging and Leisure (3)**

Prerequisites: REC 325 or consent of instructor. Theories, concepts and influences on satisfaction with retirement focusing on leisure-related issues. Overview of the continuum of services, emphasizing leisure services available to older people.

**480. Philosophy of Recreation and Leisure (3)**

Prerequisites: REC 325, 341, one of the following: REC 421, 425, 427. Open to recreation majors only. Exploration of the philosophical and ethical basis for current practices in recreation and leisure service organizations. (Discussion, 3 hours.)

**483. Professionalism in Leisure Services (1)**

Corequisites: REC 498. Synthesis of experience gained from internship placement with theoretical and applied concepts learned in the academic setting. Preparation for the transition from academic to professional life. Letter grade only (A-F). (Sem, 1 hr.)

**485. Field Work (3)**

Prerequisites: Consent of the instructor. Supervised experience in recreation leadership, supervision or administration approved by faculty advisor or consent of the instructor. Credit/No credit grading only. May be repeated to a maximum of 6 units in different semesters.

**\*490. Special Studies in Recreation (1-3)**

Identification and critical analysis of current problems in selected areas of recreation. Topics to be announced in the *Schedule of Classes*. May be repeated to a maximum of 6 units with different topics in different semesters.

**\*498. Internship in Leisure Services (6-9)**

Prerequisites: Completion of all major requirements; 1000 hours of verified paid or volunteer leadership experience approved by faculty advisor, or 500 hours of experience and fluency in both English and a second language consistent with the CSULB Language Proficiency Requirements; and consent of the internship coordinator. This internship will involve 400 hours of supervised experience in an approved leisure service agency jointly supervised by university and agency personnel. Letter grade only (A-F). (Field work)

**499. Independent Study (1-3)**

Prerequisites: Consent of dept. and approval by department chairperson. Individual projects in areas of special interest. Independent study under the direct supervision of a faculty member. May be repeated to a maximum of 6 units in different semesters with consent of instructor.

**Graduate Level****521. Recreation Administration (3)**

Organizational theory; planning, staffing and budgeting of recreation programs in governmental and voluntary agencies. Letter grade only (A-F).

**527./427. Legal Aspects of Leisure Services (3)**

Prerequisites: Upper Division Standing. Political, policy making, and legal aspects underlying the establishment, operation, and termination of public and private leisure services. Letter grade only (A-F). (Discussion, 3 hours.)

**528./428. Principles of Nonprofit/Volunteer Management (3)**

Survey of the principles of nonprofit and volunteer services management. The philosophical, historical and social context of the volunteer movement; funding, governance, organization and management of nonprofit organizations and volunteer services; trends and issues; professional development and employment.

**554./454. Leisure Counseling (3)**

Prerequisites: REC 351, 452, or consent of the instructor. Current practices and procedures in leisure counseling. Includes techniques of leisure needs assessment, leisure counseling and leisure education methods and techniques, and leisure counseling and leisure education content.

**558./458 Therapeutic Recreation: Facilitating Leisure and Wellness (3)**

Prerequisites: REC 100 or 300; 141, 225, or consent of the instructor. An overview of the role of leisure in wellness and wellness programs as it relates to therapeutic recreation. Examination of various therapeutic recreation facilitation techniques as a major component of promotion of wellness programs. Includes assessment of leisure functioning and development and implementation of therapeutic recreation programs and services. Letter grade only (A-F).

**569./469. Disability, Culture and Society: Issues and Intervention (3)**

Prerequisite: Senior or graduate status. This is a course using interdisciplinary work about disability as a social construct. Utilizing an oppressed group model, the course will examine society's policies and practices to understand the experience of disability. Includes historical and contemporary perspectives as well as future issues. Social and clinical intervention methods, and program and information resources are covered. Same course as GERN 569./469 and SW 569./469. Letter grade only (A-F).

**571. Philosophy, Issues and Trends (3)**

Current philosophy, trends and issues in the field of recreation. Letter grade only (A-F).

**573./473. Aging and Leisure (3)**

Prerequisites: REC 325 or consent of instructor. Theories, concepts and influences on satisfaction with retirement focusing on leisure-related issues. Overview of the continuum of services, emphasizing leisure services available to older people.

**590. Special Topics in Recreation (1-3)**

Prerequisite: Consent of instructor. In-depth investigation of topics of current interest and concern to students experienced in recreation. May be repeated to a maximum of 6 units with different topics. Topics to be announced in the *Schedule of Classes*. Letter grade only (A-F). May be repeated to a maximum of 3 units with different topics in different semester

**591. Research Proposal Writing (1)**

Prerequisite: REC 696. Course is concerned with variations in research design and methodology. Completion of a thesis proposal is a requirement of this course. Letter grade only (A-F).

**595. Management Studies (3)**

Administrative studies and surveys; procedures for conducting appraisals of recreation programs and facilities. Letter grade only (A-F).

**599. Independent Study (1-3)**

Prerequisites: Consent of Graduate Advisor and Department Chair. Independent research under the supervision of a Recreation and Leisure Faculty member. May be repeated to a maximum of 6 units. Letter grade only (A-F).

**696. Research Methodology (3)**

Research methodology in recreation. To be completed within the first 12 units of the 500/600 series of courses. Letter grade only (A-F).

**697. Directed Studies (1-3)**

Prerequisites: REC 698, advancement to candidacy. Independent investigation of field research problems in recreation. Letter grade only (A-F). May be repeated to a maximum of 3 units in different semesters

**698. Thesis (1-4)**

Prerequisites: REC 591, 696, advancement to candidacy. Planning, preparation and completion of an approved thesis. May be repeated to a maximum of 4 units in different semesters.

Students desiring information should contact the department office for referral to one of the faculty advisors. Credential advisors, Undergraduate Advisor, Graduate Advisor.

The Department of Romance, German, Russian Languages and Literatures teaches the languages, literatures and cultures of the Spanish, French, German, Italian and Russian-speaking peoples to undergraduate and graduate students at California State University, Long Beach. The department recently began to offer courses in Arabic, Hebrew and Portuguese and plans to expand these language programs.

It is the mission of the Department to deliver the highest quality information in the various disciplines it represents to its students and to the extended University community through the application of the most current and innovative teaching methodologies and technologies. The Curriculum supports B.A. and M.A. programs in French, French Studies, German, Italian Studies, and Spanish and Minor programs in Italian, Spanish, Russian, German, French, and Liberal Studies; the Department also participates in the granting of the Single Subject Credential in French, German, Italian and Spanish. Our Department also supports programs that require our courses, such as International Studies and International Business. High standards are maintained through scholarly contributions and active service to the University, profession, and community.

Our commitment to scholarly and instructional excellence is manifest in the training the Department provides for prospective foreign language teachers and instructors K-16; Ph.D. students in French, Spanish, German, Romance Languages, Linguistics, Comparative Literature and Cultural Studies; language professionals in the fields of translation and interpreting, travel and technical disciplines. Considering the rapidly evolving fields of language-acquisition, pedagogy, cultural and literary studies and their interrelatedness, the Department promotes research activities of both a theoretical and applied nature.

The Department considers teaching and scholarship to be of primary and equal importance and places high value on activities that integrate the two. University service is also an essential component of a candidate's program.

Our world presents itself in many languages, and humanity indeed is blessed with enormous diversity. Whether you search for your own family roots or follow a concrete plan on a particular career path, we would be pleased to be of assistance. Students who miss the opportunities to study a foreign language close doors for themselves in more than one way. Without foreign language skills "international" in your career will amount to employment at the "International House of Pancakes."

Functional foreign language skills, an understanding of other cultures and critical reflection of what it means to be an American are attributes which are increasingly necessary for successful careers even in your neighborhood. Right here in Long Beach, a city of over 400,000, almost half of the residents speak a language other than English at home, according to the 2000 national census. The numbers of speakers of a foreign language in Los Angeles County are even higher, in Orange County lower only by a bit. Although without doubt, Spanish is the most often declared language, you will be amazed at the presence of sizable communities of Italian, French, German, Portuguese, Arabic and Russian speakers in our backyards! The newly created "Language Map" of the Modern Language Association ([www.mla.org](http://www.mla.org)) will inform you, right down to the zip code, about the wealth of languages spoken anywhere in the United States. Please take a look and draw your own conclusion what this might suggest for your career plans. The Modern Language Association advises:

Professionals who know other languages are called on to travel and exchange information with people in other countries throughout their careers. Knowing more than one language enhances opportunities in government, business, medicine and health care, law enforcement, teaching, technology, the military, communications, industry, social service, and marketing. An employer will see you as a bridge to new clients or customers if you know a second language.

When other universities and colleges throughout the United States shut down or reduced many of their FL programs, we expanded and added (Arabic, Hebrew, Portuguese, new BA in French Studies). RGRLL offers the first BA in Translation and Interpretation (Spanish) in the nation, and plans for further expansion are in progress. We will keep you posted.

Congress has declared 2005 The Year of Foreign Languages. Join in!

#### Teaching Assistantships in French, German, and Spanish

A limited number of Teaching Assistantships well as Research Assistantships are available for qualified students in the French, German and Spanish M.A. Program. New applicants for Teaching Assistantships must have been accepted into the M.A. Program and must present a letter of application, a resume, a complete set of transcripts, and arrange for three confidential letters of recommendation to be sent to the Graduate Coordinator. Teaching Assistants are required to enroll in SPAN 524 (Second Language Acquisition). New Teaching Assistants are normally assigned only one class to teach during their first semester and will receive training and supervision. Students are also encouraged to apply for financial assistance under the Federal Work-Study Program.

#### Scholarships Available in the Romance, German, Russian Languages and Literatures Department

For Spanish Students:

- Ducelia Cobb Contreras Scholarship — 1 for \$1,000
- RGRLL Scholarship for Spanish — 1 for \$500

For German Students:

- Amy S. Kimball Memorial Scholarship — 1 for \$1,000
- Prof. Dr. Wilm Pelters Memorial Scholarship — 1 for \$1,000

For Russian Students:

- Russian Scholarships — 4 for \$500 each

For any overseas language study:

- Frank Fata Scholarships for Language Studies Abroad — 2 for \$500 each

For Italian Students:

- Italian Scholarships — see the Italian Program Director, Dr. Teresa Fiore ext. 5-4621, for information about these scholarships.

For more information regarding the available scholarships, please contact Cindy McCarty, (562) 985-4318.

---

### Department Courses (RGR)

---

#### Upper Division

##### 314. Introduction to Contemporary Europe (3)

Prerequisite: Completion of the G.E. Foundation, one or more Exploration courses, and upper-division standing. An interdisciplinary introduction to contemporary European cultures and related issues through a combination of travel and study. Students will be introduced to some principles and methods useful for analyzing cultures and their own interactions with them. Same course as C/LA 314I.

##### 315. Contemporary European Society (3)

Prerequisite: Completion of the G.E. Foundation, one or more Exploration courses, and upper-division standing. An interdisciplinary approach to understanding cultural and political developments in contemporary European societies. Although the study of history serves as the foundation of the course, the perspectives and methodologies of several other social science disciplines are an important component of the course. Same course as C/LA 315I.

##### 346I. The European Cinema of Communism, Fascism and Resistance (3)

Prerequisites: Completion of the GE Foundation, one or more exploration courses, and upper division standing. This course will focus on European cinema of the twentieth century as a manifestation of totalitarian and ideological movements preceding, in-between, and following the two world wars. The ensuing and ongoing resistance movements will also be examined. Same course as HIST 346I.

##### 425./525. Romance Linguistics (3)

Prerequisites: FREN 424, or SPAN 423, or ITAL 414 or consent of program director. Comparative description of the constitution and development of Romance languages in all their aspects: phonetic, lexical and morphosyntactical. Taught in English.

##### 428./528. Romance Linguistics (3)

Prerequisites: FREN 424, or SPAN 423, or ITAL 414 or consent of program director. Comparative description of the constitution and development of Romance languages in all their aspects: phonetic, lexical and morphosyntactical. Taught in English.

##### 450I. Consequences of the Encounter: The Americas, Europe, and Africa (3)

Prerequisites: Completion of the GE Foundation requirement, completion of one or more Exploration courses and upper-division status. The study of the consequences of the encounter between Africa, Europe, and the Americas from the voyages of Columbus to contemporary times. Through several disciplines: Art, Literature, and the Social Sciences the course examines the complex results of the encounter in respect to the obliteration, suppression and creation of culture among the peoples of both the Old and New Worlds. Same course as CHLS 450I.

### 470./570. New Technologies in the Learning of Languages Other Than English (3)

Prerequisites: (A) Advanced communication skills in the target language. (B) Basic knowledge of computer use (LI 110 or ISTE competencies for K-12 students). (C) EDSS 300F, or concurrent enrollment, or consent of instructor. Introduction to computer-based technology in the teaching of Languages Other Than English (LOTE). Production of basic multimedia presentations and web-pages using authoring software. Legal, ethical, privacy and security issues. Meets the Single Subject Credential Program Level I computer proficiency requirement for LOTE students. Letter grade only (A-F).

### Graduate Level

#### 525./425. Romance Linguistics (3)

Prerequisites: FREN 424, or SPAN 423, or ITAL 414 or consent of program director. Comparative description of the constitution and development of Romance languages in all their aspects: phonetical, lexical and morphosyntactical. Taught in English.

#### 528./428. Romance Linguistics (3)

Prerequisites: FREN 424, or SPAN 423, or ITAL 414 or consent of program director. Comparative description of the constitution and development of Romance languages in all their aspects: phonetical, lexical and morphosyntactical. Taught in English.

### 570./470. New Technologies in the Learning of Languages Other Than English (3)

Prerequisites: (A) Advanced communication skills in the target language. (B) Basic knowledge of computer use (LI 110 or ISTE competencies for K-12 students). (C) EDSS 300F, or concurrent enrollment, or consent of instructor. Introduction to computer-based technology in the teaching of Languages Other Than English (LOTE). Production of basic multimedia presentations and web-pages using authoring software. Legal, ethical, privacy and security issues. Meets the Single Subject Credential Program Level I computer proficiency requirement for LOTE students. Letter grade only (A-F).

### 601. Teaching Methodology (3)

Prerequisite: Graduate level or consent of Program Director in French, German, or Spanish and instructor. This course should be taken prior to teaching in the RGRLL Department. With consent of the program director and the language coordinator, the course can be taken either concurrently with a teaching assignment or at the upper division level. Credit/No Credit grading only.

---

### Arabic Courses (ARAB)

---

#### 101A. Standard Modern Arabic I (4)

Prerequisite or corequisite: Any Foundation course. For those who are beginning the study of Arabic. Not open to native speakers and to Heritage speakers fluent in Arabic.

#### 101B. Standard Modern Arabic II (4)

Prerequisite or corequisite: Any Foundation course. ARAB 101A or consent of instructor. Continuation of the work in 101A in speaking, pronunciation, comprehension and writing. Not open to native speakers and to Heritage speakers fluent in Arabic.

---

### Hebrew Courses (HEBW)

---

#### 101A. Modern Hebrew (4)

Prerequisite or corequisite: Any Foundation course. This course is designed for non-native speakers. It introduces students to Hebrew and enables them to comprehend and communicate in Hebrew at increasingly complex levels.

#### 101B. Modern Hebrew (4)

Prerequisite or corequisite: HEBW 101A. Corequisite: Any Foundation Course. Continuation of HEBW 101A, this course is designed for non-native speakers. It introduces students to Hebrew and enables them to comprehend and communicate in Hebrew at increasingly complex levels.

## THE FRENCH PROGRAM

Program Director - Stephen Fleck

A degree in French places the world of international communication and culture at your fingertips. As one of the foremost languages of global diplomacy, relations, and scholarship, a degree in French makes careers in arts management, art history, international business, international relations, teaching, and travel possible. It is also a preferred language for academic pursuit in the social sciences and critical studies. The Francophone world only begins in France, stretching far beyond the Champs-Élysées into Africa, Quebec, the Caribbean, and Tahiti. Additionally, a double major or a minor in French enhances any other degree program, making the student doubly marketable upon graduation. Graduate study leading to the Master of Arts degree comprises another feature of the program. Students who complete the Master of Arts degree in French deepen their knowledge of the Francophone world. They pursue or continue professions in teaching, business, travel, and diplomacy, to name only a few, or proceed to doctoral programs at Ph.D. granting institutions. Teaching Assistantships are available.

Learning French makes you eligible for study and travel abroad in the International Programs of the California State University System. (We are happy to assist you in including a study abroad experience into your program of language and literary study.) Students are encouraged to participate in work/study abroad options.

### Bachelor of Arts in French (code RGR\_BA01) (120 units)

The major in French consists of 36 upper-division units in the 300-400 level courses indicated below. The number of lower-division units will depend on the amount of French studied previously in high school or college, since students with prior study of French may enter at advanced standing (usually second or third year). The major program satisfies the requirements for the Single-Subject teaching credential in French, but credential candidates must take FREN 414 (Phonetics). Major students should be mindful of the Department's second language requirement: two college years or equivalent of a second foreign language, other than English. The Department also recommends inclusion of specified history courses in the program of study. These courses offer additional enrichment to the cultural component of the student's course of study.

## Requirements

Lower Division: FREN 214. Students who have completed sufficient high school French may take upper-division courses as soon as lower-division requirements have been met.

Upper-Division: A minimum of 36 units of upper-division courses which must include FREN 312A, 312B, 314, 335, 336, 337, 411, 440, 480 and three of the following courses: 414, 456, 460, 462, 470, 471, 472, 474, 475, 477, 479, 490; one of the following courses may also be used in this category: RGR 346I, 450I. Candidates for the teaching credential must take FREN 414.

Department Requirement: Two years of a second foreign language at college level or equivalent is required of all majors.

Departmental Recommendation: Students specializing in French should include the following courses in their program of study: HIST 131, 132, and one or more of the following: HIST 335, 336, 337. A selection from the following courses would also be appropriate: HIST 332, 333, RGR, 346I, 450I.

### FOUR YEAR PLAN TO COMPLETE THE B.A. DEGREE in FRENCH (RGR\_BA01)

120 Units Required

Department of Romance, German, Russian Languages

Semester 1		Semester 2	
University 100	1	Oral Comm or Composition	3n
Composition or Oral Comm	3	GE Math or other GE Class3 (or 4)	
GE Math or other GE Class	3 (or 4)	Crit Thinking or other GE Class	3
GE Class	3	FREN 101B	4
FREN 101A	4	GE Class	3
Elective Class	1		
TOTAL UNITS	15-16	TOTAL UNITS	16-17

Semester 3		Semester 4	
Critical Thinking or other GE Class	3	FREN 201B	3
FREN 201A	4	FREN 214	4
GE Class	3 (or 4)	GE Class	3 (or 4)
GE Class	3	GE Class	3
Elective Class	3	Elective Class	3
TOTAL UNITS	16-17	TOTAL UNITS	16-17

Semester 5		Semester 6	
GE Capstone Class	3	GE Capstone Class	3
FREN 312A	3	FREN 312B	3
FREN 314	3	FREN 336	3
FREN 335	3	FREN 337	3
Second Language (GE C2c)	4	Second Language (GE C3)	4
TOTAL UNITS	16	TOTAL UNITS	16

Semester 7		Semester 8	
GE Capstone Class	3	FREN 480	3
FREN 411	3	Major Elective	3
FREN 440	3	Major Elective	3
Major Elective	3	Second Language Class	4
Second Language Class	4		
TOTAL UNITS	16	TOTAL UNITS	13

The three major elective courses are to be selected from:  
FREN 414, 456, 460, 462, 470, 471, 472, 474, 475, 477, 479, 490.  
One of the following may also be used as a major elective class:  
RGR 346I or 450I (which can also count for a GE capstone)  
Candidates for a teaching credential must take FREN 414.

## FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

### I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

### Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

- 1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.
- 2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.
- 3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).
- 4) You must complete all requirements for admission to impacted majors within the first 60 units.

### I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

### I didn't complete the exact list of courses shown. Can I still graduate on time?

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

### If I follow the plan, will I have all requirements for graduation completed?

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

## Bachelor of Arts in French Studies (code RGR\_BA08)

Director - David Shafer, Assistant Professor, History  
 Advisor - Stephen Fleck, Professor of French  
 Program Office F02-218, Telephone (562) 985-4612

The Bachelor of Arts in French Studies provides students with a thorough basis in the study of French Language, History, Literature and Culture within a global context. Students completing the B.A. in French Studies will acquire an interdisciplinary understanding of French history, culture, and society that will prepare them for a broad range of career options both at home and abroad. These include international law and business, teaching, government and foreign service. In addition, the solid background in French and Francophone history and literature provides a strong foundation for further study at the graduate level in a variety of M.A. and Ph.D. programs.

The French Studies Program situates California State University, Long Beach at the vanguard of scholastic innovation in the burgeoning field of cultural studies. The French Studies major provides a unique opportunity for students to address the cultural, economical, social, and political dimensions of Francophonie. This major reinforces California State University, Long Beach's established and recognized record as a leader in offering students a global pedagogical experience that can be transferred to the working world of the present and the future.

To meet new demands for professionals, French Studies combines courses from literature and history. French Studies will enable students to draw from a multifaceted disciplinary basis to interpret cultural phenomena and trends in a variety of global contexts. Students will receive training in historical, linguistic, and literary methods in the complementary areas of French and Francophone history and literature in this major. As the only public institution of higher education in California to approach French Studies at the undergraduate level from both global and cross-disciplinary perspectives, California State University, Long Beach recognizes the cooperative and symbiotic relationship connecting the disciplines of history and literature with respect to a comprehensive understanding of the Francophone World.

French Studies Majors are required to develop a program of study in consultation with the program advisor. In addition to assisting students in the development of the program planner and providing advice on post-graduate options, the program advisor and director maintain close contact with each student in the major. Courses for the program have been selected to foster synergistic growth in French language, literature, culture and history. Students begin the major at the third-year level, after they have completed two years of college French (or have acquired the equivalent competency) and after they have completed course work in world history. At the third year they will take advanced language and composition, survey courses in French literature, historical methods, and 300-level French History courses. During the senior year, students will take French Civilization, specialized courses in the literature and history of France and the Francophone world, and the French Capstone course. Furthermore, students majoring in French Studies will be encouraged to avail themselves of the opportunity to participate in a study abroad or internship program.

## Requirements

Upper Division: A minimum of forty-eight (48) units of upper division course work. Fifteen (15) units must come from the following History courses: HIST 334, 336, 337, 339 and 301. Twenty-one (21) units must come from the following French courses: FREN 312A, 312B, 335, 336, 337, 411 and 440. However, with the Program Director's consent, the requirement of FREN 312A and 312B may be waived. The remaining twelve (12) units can be selected from the following courses (subject to prior approval of the Program Director and based on course content): HIST 435, 498, FREN 456, 470, 471, 472, 474, 477, 479, 480, 490.

## Minor in French (code RGR\_UM01)

A minimum of 20 units which must include: FREN 312A, 312B, 314, 411 and at least one other upper-division course in French to make a minimum total of 15 upper-division units.

The Minor in French is available to any non-French major.

## Master of Arts in French (code RGR\_MA01)

### Prerequisites

1. A bachelor of arts degree in French, or:
2. A bachelor's degree with a minimum of 24 upper-division units in French, comparable to those required of a major in French at this University. Deficiencies will be determined by the advisor after consultation with the student and study of transcript records.

### Advancement to Candidacy

1. Approval of the graduate program by the graduate advisor, the faculty advisor and/or departmental committee, and the College of Liberal Arts Associate Dean of Graduate Studies.
2. The candidate should file for advancement upon completion of 6 units and preferably no more than 9 units on the program. A 3.0 GPA is required.
3. Fulfillment of the Graduation Writing Assessment Requirement (GWAR).

### Requirements

1. Completion of a minimum of 30 units of approved graduate-credit courses with at least 24 units in French distributed as follows:
  - a. 15 units of 600 series courses.
  - b. 9 units of 500 or 600 series courses in French.
  - c. 6 units of other acceptable graduate-credit courses.(NOTE: Courses taken outside the Department as subject to departmental approval.)
2. Two years of college-level study, or equivalent, of another language (e.g., German, Italian, Latin, Russian, or Spanish) with a minimum average grade of "B" or better. This requirement may also be met by passing the Graduate Studies Foreign Language Test (G.S.F.L.T.) in another language with a score of 500 or better. This requirement must be completed before taking the comprehensive examination.
3. A comprehensive examination.
4. Teaching Associates must take FREN 424, Language Acquisition, during the first year of the assistantship.

## Single Subject Teaching Credential, French (code 152)

Completion of the French major meets the subject matter competence requirement for the Single Subject Preliminary Credential in French (code 152). Prospective students should consult the undergraduate French Advisor and the Languages Other Than English (LOTE) Program Advisor early to plan their program.

In addition to meeting the subject matter competence requirement for the Preliminary Credential, prospective teachers of French are also required to complete 44 units of professional preparation in the Single Subject Credential Program, including student teaching. Students may begin the professional preparation courses as early as the junior year. With careful planning, it is possible to complete all of the credential program courses, except for student teaching, as an undergraduate. Courses may also be completed as post-baccalaureate student. Refer to the Single Subject Teacher Education section of this *Catalog* or the Single Subject Credential Program website ([www.ced.csulb.edu/single-subject](http://www.ced.csulb.edu/single-subject)) for a description of the professional preparation requirements, courses, and application procedures.

*The French Subject Matter Program is being revised to meet new state standards. When the revised program has been approved by the Commission on Teacher Credentialing, the new course requirements will be in effect and supersede current requirements.*

### Requirements

Same as for the major in French but including French Phonetics, FREN 414, as one of the 400-level courses.

---

## French Courses (FREN)

---

### Lower Division

#### 101A. Fundamentals of French (4)

Prerequisite or corequisite: Any Foundation course. Fundamental skills of speaking, comprehending, reading and writing. For those who are beginning the study of French or who have had one year of high school French or equivalent. (lecture 4 hrs.) (CAN FREN 2)

#### 101B. Fundamentals of French (4)

Prerequisite or corequisite: FREN 101A or two years of high school French or equivalent. Corequisite: Any Foundation course. Fundamental skills of speaking, comprehending, reading and writing. Continuation of FREN 101A. (lecture 4 hrs.) (CAN FREN 4)

#### 201A. Intermediate French (4)

Prerequisite: FREN 101B or three years of high school French or equivalent, and completion of the 13-unit Foundation requirement (or entering competency equivalent to FREN 101B and completion or concurrent enrollment in at least one Foundation course). Continued work in speaking, pronunciation, comprehension and writing. (Lecture 4 hrs.) (CAN FREN 8)

#### 201B. Intermediate French (4)

Prerequisite: FREN 201A or four years of high school French or equivalent, and completion of the 13-unit Foundation requirement (or entering competency equivalent to FREN 201A and completion or concurrent enrollment in at least one Foundation course.) Continued work in speaking, pronunciation, comprehension and writing, with some reading of modern writers. (lecture 4 hrs.) (CAN FREN 10)

### 214. Intermediate Conversation (3)

Prerequisite: FREN 101B. Should be taken concurrently with FREN 201A or 201B. Designed to develop basic conversational skills and to prepare for more advanced work in FREN 314. Letter grade only (A-F).

## Upper Division

General Education Category A must be completed prior to taking any upper division course except upper division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

### 312A. Advanced French I (3)

Prerequisite: Upper division standing in French or equivalent. Review of grammatical principles with regular exercises and composition work for the development of increased mastery of the written language.

### 312B. Advanced French II (3)

Prerequisite: Upper division standing in French or equivalent. Review of grammatical principles with regular exercises and composition work for the development of increased mastery of the written language.

### 314. Advanced Conversation (3)

Prerequisite: FREN 214 or consent of instructor. Continuation of FREN 214. Letter grade only (A-F).

### 335. Survey of French Literature I (3)

Prerequisite: Upper division standing in French. From the Middle Ages through the Seventeenth Century.

### 336. Survey of French Literature II (3)

Prerequisite: Upper division standing in French. Eighteenth to Twentieth Century.

### 337. Survey of French Literature III: Twentieth Century French and Francophone Literatures (3)

Prerequisites: Upper division standing in French. Survey of Twentieth-Century and Francophone literatures.

### 411. Advanced French Syntax and Composition (3)

Prerequisites: FREN 312A-B or equivalent. Special emphasis on the writing of short compositions and developing an awareness of French style, as well as advanced syntax.

### \*414. French Phonetics (3)

Prerequisites: FREN 312 A-B or consent of instructor. General concepts of linguistic science. Linguistics applied to the study and teaching of the French language. Articulatory phonetics as a means to form native French pronunciation habits with emphasis upon the difficulties encountered by speakers of American English.

### 423./523. Introduction to French Linguistics (3)

Prerequisites: Completion of FREN 312AB and 411. This course presents an overview of French linguistics in the three main areas: Phonology (the sound system and phonological processes), morphology (word formation and morphological units) and syntax (phrase structures, transformations, and syntactic diagrams). The course also focuses on the application of linguistic knowledge of French to the teaching of French at the high school level in the U.S.

### 440. French Civilization (3)

Prerequisites: FREN 312A-B (may be taken concurrently with FREN 335 or 336 or consent of instructor). Significant aspects of French art, culture and social institutions.

### 456. French Cinema (3)

Prerequisite: Senior standing or consent of instructor. Acquaint students with the art of the medium, particularly as it is realized through the work of the artist most responsible for its success or failure, in this case the director. Letter grade only (A-F). Same course as FEA 456.

### 460./560. The Art of Translation (3)

Prerequisites: Upper division or graduate status. Consent of instructor for third-year students. This course will cover the translation of French texts into English and of English texts into French. Theories of translation and their implications will be concretized in group translation activities. Translations may be published in The Translators' French Quarter, a journal of the RGRLL Department. May be repeated to a maximum of 6 units.

### 462./562. Reading French Women Writers (3)

Prerequisites: FREN 335, 336, and 337 (Surveys of French Literature I, II, and III) or consent of instructor. The course covers the literary production of women who wrote and write literature in France. French feminism, the question of "écriture féminine" and gender will also be discussed. The course does not cover Francophone women writers. May be repeated to a maximum of 6 units.

### 470./570. French Literature of the Middle Ages (3)

Prerequisites: FREN 335, 336 or consent of instructor. Study of representative drama, poetry and prose of the period. Texts in modern French.

### 471./571. French Literature of the Renaissance (3)

Prerequisites: FREN 335, 336 or consent of instructor. Study of representative drama, poetry and prose of the 16th Century.

### 472./572. French Literature of the Seventeenth Century (3)

Prerequisites: FREN 335, 336 or consent of instructor. Study of representative drama, poetry and prose of the century.

### 474./574. The Age of Enlightenment (3)

Prerequisites: FREN 335, 336 or consent of instructor. Study of representative writers and thinkers of the century. Drama, poetry and prose.

### 475./575. Seminar in Francophone Literature (3)

Prerequisites: FREN 337 or consent of instructor. May be repeated to a maximum of 15 units with different topics in the same semester.

- A. Africa
- B. Caribbean
- C. Maghreb
- D. Quebec
- E. Switzerland

### 476./576. French Comic Traditions (3)

Prerequisites: FREN 335, 336, 337 or permission of instructor. This seminar offers a historical overview of French comedic forms: close reading (and/or viewing) of selected works; and elements of comic theory. The course will begin with medieval farce, focus on Molière's different comic genres, and continue through Beaumarchais and Feydeau to absurdist dramatists such as Jarry and Ionesco, as well as film comedies. Letter grade only (A-F).

### 477./577. French Literature of the Nineteenth Century (3)

Prerequisites: FREN 335, 336 or consent of instructor. Study of representative writers of the century. Drama, poetry and prose.

### 479./579. French Literature of the Twentieth Century (3)

Prerequisites: FREN 335, 336 or consent of instructor. Study of representative writers of the century. Drama, poetry and prose.

### 480. Senior Seminar: Self and Society (3)

Prerequisites: FREN 335, 336 and two 400-level French courses, or consent of instructor. This capstone course is a senior seminar focusing on The Self and Society. The course will examine a wide variety of literary works, ranging from Medieval works such as *Tristan et Iseult* to twentieth-century Francophone classics such as *L'Enfant noir*; various historical, critical and philosophical works; and some films with a literary basis such as *Les Liaisons dangereuses* and *Madame Bovary*. Letter grade only (A-F).

### 490./590. Special Topics in French (1-3)

Study of a particular topic in French literature, language, or culture. Specific topics to be announced in the *Schedule of Classes*. May be repeated to a maximum of 12 units with different topics.

#### 494. Internship in French (1-3)

Prerequisites: Consent of instructor and department chair. Field work in French, supplemented by readings and tutorials under the direction of a faculty member. Internships, small group discussion/teaching, and other assignments directed by a supervising faculty member. May be repeated to a maximum of 6 units. No more than 3 units may be applied to the major in French.

#### 499. Directed Studies (1-3)

Prerequisites: Consent of instructor and department chair. Independent study undertaken under the supervision of a faculty member. May be repeated to 3 units provided the material is not the same. May be repeated to a maximum of 6 units with prior consent of department

### Graduate Level

#### 523./423. Introduction to French Linguistics

Prerequisites: Completion of FREN 312AB and 411. This course presents an overview of French linguistics in the three main areas: Phonology (the sound system and phonological processes), morphology (word formation and morphological units) and syntax (phrase structures, transformations, and syntactic diagrams). The course also focuses on the application of linguistic knowledge of French to the teaching of French at the high school level in the U.S.

#### 560./460. The Art of Translation (3)

Prerequisites: Upper division or graduate status. Consent of instructor for third-year students. This course will cover the translation of French texts into English and of English texts into French. Theories of translation and their implications will be concretized in group translation activities. Translations may be published in The Translators' French Quarter, a journal of the RGRLL Department.

#### 562./462. Reading French Women Writers (3)

Prerequisites: FREN 335, 336, and 337 (Surveys of French Literature I, II, and III) or consent of instructor. The course covers the literary production of women who wrote and write literature in France. French feminism, the question of "écriture féminine" and gender will also be discussed. The course does not cover Francophone women writers. May be repeated to a maximum of 6 units.

#### 570./470. French Literature of the Middle Ages (3)

Prerequisites: FREN 335, 336 or consent of instructor. Study of representative drama, poetry and prose of the period. Texts in modern French. Letter grade only (A-F).

#### 571./471. French Literature of the Renaissance (3)

Prerequisites: FREN 335, 336 or consent of instructor. Study of representative drama, poetry and prose of the 16th Century. Letter grade only (A-F).

#### 572./472. French Literature of the Seventeenth Century (3)

Prerequisites: FREN 335, 336 or consent of instructor. Study of representative drama, poetry and prose of the century. Letter grade only (A-F).

#### 574./474. The Age of Enlightenment (3)

Prerequisites: FREN 335, 336 or consent of instructor. Study of representative writers and thinkers of the century. Drama, poetry and prose. Letter grade only (A-F).

#### 575./475. Seminar in Francophone Literature (3)

Prerequisites: FREN 337 or consent of instructor. May be repeated to a maximum of 15 units with different topics in the same semester.

- A. Africa
- B. Caribbean
- C. Maghreb
- D. Quebec
- E. Switzerland

#### 576./476. French Comic Traditions (3)

Prerequisites: French 335-336-337 or permission of instructor. This seminar offers a historical overview of French comedic forms; close reading (and/or viewing) of selected works; and elements of comic theory. The course will begin with medieval farce, focus on Molière's different comic genres, and continue through Beaumarchais and Feydeau to absurdist dramatists such as Jarry and Ionesco, as well as film comedies. Letter grade only (A-F).

#### 577./477. French Literature of the Nineteenth Century (3)

Prerequisites: FREN 335, 336 or consent of instructor. Study of representative writers of the century. Drama, poetry and prose. Letter grade only (A-F).

#### 579./479. French Literature of the Twentieth Century (3)

Prerequisites: FREN 335, 336 or consent of instructor. Study of representative writers of the century. Drama, poetry and prose. Letter grade only (A-F).

#### 590./490. Special Topics in French (1-3)

Study of a particular topic in French literature, language, or culture. Specific topics to be announced in the *Schedule of Classes*. May be repeated to a maximum of 12 units with different topics.

#### 599. Directed Studies (1-3)

Graduate standing with baccalaureate degree or equivalent. Graduate-level in-depth study on selected topics under the supervision of a graduate faculty member. Topic and study outline of work undertaken to be on file in Department. Enrollment contingent upon approval of Department Chair and faculty member. May be repeated for a maximum of 6 units with different topics in the same semester. Letter grade only (A-F).

#### 604. Seminar in a Century of French Literature (3)

Prerequisite: Corresponding 400/500 level century survey course or consent of instructor. Intensive studies in one of the following topics. May be repeated to a maximum of 18 units with different topics in the same semester. Letter grade only (A-F).

- A. Seminar in Medieval Literature
- B. Seminar in 16<sup>th</sup> Century Literature
- C. 17<sup>th</sup> Century
- D. 18<sup>th</sup> Century
- G. Seminar in 19<sup>th</sup> Century Literature (3)
- H. 20<sup>th</sup> Century

#### 688. Seminar in French Literature or Culture (3)

Prerequisite: Graduate standing in French. Intensive study of a specific aspect of French literature or culture. Subjects to be announced in the *Schedule of Classes*. Letter grade only (A-F).

#### 696. Bibliographical Methods of Research (3)

Prerequisite: Graduate standing in French. Introduction to methods of research, scholarly writing. Letter grade only (A-F).

#### 697. Directed Research (1-3)

Prerequisite: Consent of department chair. Individual study under the guidance of a faculty member. May be repeated to a maximum of 3 units. Letter grade only (A-F).

#### 698. Thesis (2-6)

Planning, preparation, and completion of thesis in French for the master's degree. Optional.

## THE GERMAN PROGRAM

Program Director  
Jutta Birmele

The German program develops the student's language skills, and knowledge of current affairs in German-speaking countries, as well as cultural literacy, which are indispensable for foreign study and employment, business, government service, and careers in teaching, among others. In cooperation with the College of Engineering, the German Program promotes a double major of German and Engineering. In addition, the Program offers a BA in German Studies with a concentration/certificate in the Administration of Travel and Tourism. German Studies maintains exchange programs with the University of Bielefeld, Essen, and Oldenburg as well as Freiburg (Switzerland) and Salzburg (Austria). German students are also eligible to participate in the German-American Business Student Workshop with the Polytechnic University Hamburg, Germany.

### Bachelor of Arts in German (code RGR\_BA02) (120 units)

The German Studies Program promotes competency in the use of language and understanding of contemporary society in German-speaking countries. It is designed to meet the needs of students seeking a liberal-arts education with an emphasis on German language and culture; those intending to teach at the elementary, secondary, or the college level; and of those planning to use German in professional careers or in pursuit of graduate studies. Efforts are made to accommodate the special needs of students who simultaneously pursue a major in Business, Engineering or a certificate in Travel and Tourism.

#### Requirements

**Lower Division:** One year of intermediate German or equivalent. Students who have completed sufficient high-school German may take upper-division courses as soon as lower-division requirements have been met. Native speakers of German may not enroll for credit in 101A/B or 201A/B.

**Upper Division:** A minimum of 30 units of upper-division courses in German, which must include GERM 301, 302, 415, 416, six units of 401, and six units of 400-level literature and culture courses.

**Recommendations:** Courses should be selected in consultation with the major advisor. The department strongly recommends studies or an internship in a German-speaking country and will assist in such plans.

## FOUR YEAR PLAN TO COMPLETE THE B.A. DEGREE in GERMAN (RGR\_BA02)

120 Units Required

Department of Romance, German,  
Russian Languages

Semester 1		Semester 2	
University 100	1	Oral Comm or Composition	3
Composition or Oral Comm	3	GE Math or other GE Class	3-4
GE Math or other GE Class	3-4	Critical Thinking or other GE Class	3
GERM 101A	4	GERM 101B	4
GE Class	3	GE Class	3
Elective Class	1		
TOTAL UNITS	15-16	TOTAL UNITS	16-17

Semester 3		Semester 4	
Critical Thinking or other GE Class	3	GERM 201B	4
GERM 201A	4	GE Class	3-4
GE Class	3-4	GE Class	3
GE Class	3	GE Class	3
Elective Class	3	Elective Class	3
TOTAL UNITS	16-17	TOTAL UNITS	16-17

Semester 5		Semester 6	
GE Capstone Class	3	GERM 380I (GE Capstone C3 or D2)	3
GERM 301 or 302	3	GERM 302 or 301	3
Major Elective	3	GERM 400 level (Lit and Culture)	3
GE Class	3	Elective Class	3
Elective Class	3	Elective Class	3
TOTAL UNITS	15	TOTAL UNITS	15

Semester 7		Semester 8	
GE Capstone Class	3	GERM 416 or 415	3
GERM 401	3	GERM 401	3
GERM 415 or 416	3	Major Elective (if needed)	3
GERM 400 level (Lit and Culture)	3	Elective Class	3
Elective Class	3	Elective Class	3
TOTAL UNITS	15	TOTAL UNITS	15

Major courses should be selected in consultation with advisor.

The department strongly recommends studies or an internship in a German-speaking country.

## FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

### I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

### Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

- 1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.
- 2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.
- 3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).
- 4) You must complete all requirements for admission to impacted majors within the first 60 units.

### I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

### I didn't complete the exact list of courses shown. Can I still graduate on time?

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

### If I follow the plan, will I have all requirements for graduation completed?

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

## Single Subject Teaching Credential, German (code 153)

Completion of the German major (plus 6 additional units) meets the subject matter competence requirement for the Single Subject Preliminary Credential in German (code 153). Prospective students should consult the undergraduate German Advisor and the Languages Other Than English (LOTE) Program Advisor early to plan their program.

In addition to meeting the subject matter competence requirement for the Preliminary Credential, prospective teachers of German are also required to complete 44 units of professional preparation in the Single Subject Credential Program, including student teaching. Students may begin the professional preparation courses as early as the junior year. With careful planning, it is possible to complete all of the credential program courses, except for student teaching, as an undergraduate. Courses may also be completed as post-baccalaureate student. Refer to the Single Subject Teacher Education section of this *Catalog* or the Single Subject Credential Program website ([www.ced.csulb.edu/single-subject](http://www.ced.csulb.edu/single-subject)) for a description of the professional preparation requirements, courses, and application procedures.

*The German Subject Matter Program is being revised to meet new state standards. When the revised program has been approved by the Commission on Teacher Credentialing, the new course requirements will be in effect and supersede current requirements.*

### Requirements

The same as for the B.A. plus GERM 303 and 410:

### Minor in German (code RGR\_UM03)

A minimum of 20 upper division units, which must include: GERM 301, 302, 415, 416, and 401.

The Minor in German is available to any non-German major.

### Master of Arts in German (code RGR\_MA02)

The Master of Arts in German prepares students for academic and other professional careers. The Program is committed to support each graduate student in his or her career goals and works together with other programs and departments on campus to help formulate a meaningful and marketable study plan for each student. Many of our graduates go into teaching at the secondary and post-secondary level and are successful in competing for fully supported Ph.D. programs throughout the U.S. We encourage students to study in German-speaking universities and assist with overseas study plans.

### Prerequisites

1. A bachelor of arts degree in German or:
2. A bachelor's degree with a minimum of 24 units of upper-division courses in German. These courses must be comparable to those required of a major in German at the University. Deficiencies will be determined by the department.

## Advancement to Candidacy

Advancement to Candidacy should take place upon completion of at least six units, preferably no more than nine units applicable to the program, with at least a 3.0 GPA.

The candidate may file for advancement to candidacy only after she/he has filed a transcript of credits or a change-of-objective form, completed the prerequisites, and fulfillment of the Graduation Writing Assessment Requirement (GWAR).

The student graduate program must be approved by the graduate advisor, departmental committee, and the College of Liberal Arts Associate Dean of Graduate Studies. For graduate students interested in multimedia teaching technology, the program provides special projects and practical opportunities.

Teaching Assistantships are available.

## Requirements

1. Completion of a minimum of 30 units of approved upper-division and graduate courses with 24 units in German;
2. A minimum of 18 units in the 500 and 600 series in German which must include GERM 510.
3. A reading knowledge of French, Italian, Latin, Russian, or Spanish. Another language may be substituted only under special circumstance;
4. A comprehensive examination or a thesis.

---

## German Courses (GERM)

---

### Lower Division

#### 101A. Fundamentals of German (4)

Prerequisite or corequisite: Any Foundation course. For those who are just beginning the study of German. (lecture 4 hrs.)

#### 101B. Fundamentals of German (4)

Prerequisite or corequisite: Any Foundation course. Continuation of GERM 101A. (lecture 4 hrs.)

#### 201A. Intermediate German (4)

Prerequisite: GERM 101B and completion of the 13-unit Foundation requirement (or entering competency equivalent to GERM 101B and completion or concurrent enrollment in at least one Foundation course. German grammar review with further development of reading, writing, and conversational skills. (Lecture 4 hrs.)

#### 201B. Intermediate German (4)

Prerequisite: GERM 201A and completion of the 13-unit Foundation requirement (or entering competency equivalent to GERM 201A and completion or concurrent enrollment in at least one Foundation course. German grammar review with further development of reading, writing, and conversational skills. (Lecture 4 hrs.)

#### 204. German for Reading Knowledge (3)

Prerequisites: GERM 101A,B or equivalent or consent of instructor. Concentrates on essentials for translation and is designed chiefly for students in any field who are preparing for reading exams in German.

## Upper Division

General Education Category A must be completed prior to taking any upper division course except upper division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

#### 301. Fiction and Fact: Short Texts (3)

Prerequisite: GERM 201B or equivalent. Intensive practice and the consolidation of the basic language skills: reading comprehension, composition, and conversation. Emphasis on reading, comprehension, vocabulary building, and idiomatic usage.

#### 302. Language of the German Media (3)

Prerequisite: GERM 201B or equivalent. Intensive practice and the consolidation of basic skills: reading, comprehension, composition, and conversation. Emphasis on composition, oral reports, and discussion.

#### 303. German Phonetics (3)

Prerequisite: Upper-division standing in German or consent of instructor. General concepts of linguistic science. Linguistics applied to the study and teaching of the German language. Articulatory phonetics as a means to form native German pronunciation habits with emphasis upon the difficulties encountered by speakers of American English.

#### 305. Speak Along, Sprechen Sie Mit

Prerequisite: Upper-division standing in German. Intensive practice of spoken German with stress on vocabulary building, pronunciation, intonation, and oral comprehension. Credit/No Credit grading only. May be repeated to a maximum of 6 units.

#### 306. Translating German to English (3)

Prerequisite: Upper-division standing in German or consent of instructor. The preparation of translations from German texts of wide-ranging subject matter.

#### 309. Business German (3)

Prerequisites: GERM 101A,B or equivalent or consent of instructor. Advanced language course to acquaint students with the terminology of German business. Conversational and written approaches to business correspondence, forms of business and corporate organizations, transportation, banking, management, protection, marketing. (Not open to students with credit in GERM 307 or 308.)

#### 380I. Contemporary Germany, Society, and Culture (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. After the peaceful revolution of 1989/90, the united Germany today presents a different picture than at any time in its turbulent history. An important trading partner of the United States and close ally, it owes much of its democratic framework to U.S. influence during the immediate post-war period. The course examines the cultural heritage, the political and social reality, and the economic system through fictional and factual texts. Taught in English.

#### 398. Topics in German (3)

Prerequisite: Upper-division standing in German or consent of instructor. Exploration of topics in language, culture, and literature. Specific topics to be announced in the *Schedule of Classes*. May be repeated to a maximum of 6 units with different topics.

#### 401. Advanced German Syntax and Composition (3)

Prerequisites: GERM 301, 302. Practice in developing a style and vocabulary suitable for the writing of reports and essays on cultural and literary topics. May be repeated to a maximum of 6 units.

#### 410. History and Stories: German Civilization (3)

Prerequisite: Upper-division standing in German. Historical development of important German institutions, customs and thought.

#### 415. Under the Italian Spell: Survey of German Literature and Culture I (3)

Prerequisite: Upper-division standing in German. German literature from the Middle Ages to the time of Goethe as related to the other arts, to philosophy, and to the social and political institutions of the time.

**416. Toward Europe: Survey of German Literature and Culture II (3)**

Prerequisite: Upper-division standing in German. German literature from Romanticism to the present as related to the other arts, to philosophy, and to the social and political institutions of the time.

**430./530. Rhyme Scene Investigation: German Poetry (3)**

Prerequisite: Upper-division standing in German. German poetry from the Baroque to the present.

**440. German Novella in Context (3)**

Prerequisite: Upper-division standing in German. The German Novella as a separate literary genre, represented by Goethe, Tieck, Kleist, Keller, Meyer, Storm, Spielhagen, Hesse, Kafka, Thomas Mann, and others.

**450./550. Reason, Revolution, Reaction (3)**

Prerequisite: Upper-division standing in German. Literary trends of the 18th century, with emphasis on Lessing, Wieland, Klopstock, Herder, Goethe and Schiller and the authors from "Sturm und Drang" to Romanticism. Letter grade only (A-F).

**458. Road to Modernity (3)**

Prerequisite: Upper-division standing in German. Representative literary works of the "Biedermeier," "Junges Deutschland" and "Poetischer Realismus" against the back-ground of the historical, philosophical, and cultural movements of the times. Letter grade only (A-F).

**460./560. Two Perspectives: 1945 to 1990 (3)**

Prerequisite: Upper-division standing in German. Significant contemporary German writers of prose, drama, and poetry. Letter grade only (A-F).

**480. Between Berlin and Hollywood: German Cinema (3)**

Acquaint students with the art of the medium, particularly as it is realized through the work of the artist most responsible for its success or failure, in this case the director. Letter grade only (A-F). Same course as FEA 457.

**494. Internship in German (1-3)**

Prerequisites: Consent of instructor and department chair. Field work in German, supplemented by readings and tutorials under the direction of a faculty member. Internships, small group discussion/teaching, and other assignments directed by a supervising faculty member. May be repeated to a maximum of 6 units. No more than 3 units may be applied to the major in German.

**\*498. Topics in German (3)**

Prerequisite: Senior standing in German or consent of instructor. Exploration of topics in language, culture, and literature. Specific topics to be announced in the *Schedule of Classes*. May be repeated to a maximum of 6 units with different topics.

**499. Directed Studies (1-6)**

Prerequisite: Consent of instructor. Independent study undertaken under the supervision of a faculty member.

## Graduate Level

**510. The Faces of United Germany: Past, Present, and Future (3)**

Prerequisite: Admission to the Graduate Program in German or consent of Graduate Advisor in the German Studies. The course locates the present concentration of international research in the discipline and requires individual research, presentation of findings, and a substantive paper. Letter grade only (A-F).

**511. Selected Topics in German Culture and Civilization (3)**

Prerequisite: B.A. in German or equivalent. Intensive studies in special topics of the artistic, intellectual, social, religious, economic, and political development of the German-speaking countries, as announced in the *Schedule of Classes*. May be repeated to a maximum of 9 units with different topics. Letter grade only (A-F).

**530./430. Rhyme Scene Investigation: German Poetry (3)**

Prerequisite: Graduate standing in German. German poetry from the Baroque to the present. Letter grade only (A-F).

**541. German Novella (3)**

Prerequisite: Graduate standing in German. The German Novella as a separate literary genre, represented by Goethe, Tieck, Kleist, Keller, Meyer, Storm, Spielhagen, Hesse, Kafka, Thomas Mann, and others. Letter grade only (A-F).

**550./450. Reason, Revolution and Romantic Thought (3)**

Prerequisite: Upper-division standing in German. Literary trends of the 18th century, with emphasis on Lessing, Wieland, Klopstock, Herder, Goethe and Schiller and authors from "Sturm und Drang" to Romanticism. Letter grade only (A-F).

**558. Road to Modernity (3)**

Prerequisite: Upper-division standing in German. Representative literary works of the "Biedermeier," "Junges Deutschland" and "Poetischer Realismus" against the back-ground of the historical, philosophical, and cultural movements of the times. Letter grade only (A-F).

**560./460. Two Perspectives: 1945 to 1990 (3)**

Prerequisite: Graduate standing in German. Significant contemporary German writers of prose, drama, and poetry. Letter grade only (A-F).

**590. Theoretical Approaches (3)**

Prerequisite: B.A. in German or equivalent. Evaluation of various methods in interpreting a literary work of art; different levels of interpretation; concepts of literary movements; complexity of structure related to content; literary appreciation; introduction to bibliographical aids. May be repeated to a maximum of 9 units with different topics. Letter grade only (A-F).

**599. Directed Studies (1-3)**

Prerequisites: Graduate standing. Consent of instructor and chairperson or graduate advisor. Selected topics in German to be pursued in depth. May be repeated to a maximum of 6 units with different topics. Letter grade only (A-F).

**697. Directed Research (1-3)**

Prerequisite: Consent of graduate advisor. Required of all candidates for the master of arts in German who do not choose to write a thesis. Letter grade only (A-F).

**698. Thesis (1-4)**

Prerequisite: Consent of graduate advisor. Planning, preparation, and completion of a thesis. Does not count toward 30 units required for the M.A. degree.

## THE ITALIAN PROGRAM

Program Director  
Carlo Chiarenza

The George L. Graziadio Center for Italian Studies

The Italian Program exists thanks to an agreement between the Italian American community in the area and CSULB. This collaboration led to the establishment of the program itself as well as the Center for Italian Studies, named in honor of Mr. George Graziadio. In acknowledging his Italian origins, his founding gift speaks to his desire to foster Italian Studies in Southern California. Since 2001 the Center has promoted the diffusion of Italian language, culture, and civilization through a variety of cultural events (lectures, conferences, film screenings, etc.) related to Italian and Italian-American Studies. Additionally, the Center offers a number of scholarships to study in Italy and regularly organizes workshops on Italian teaching. Its program of events, which gives students the unique opportunity to be exposed to Italian language and culture in its various facets outside the classroom, is often shaped in collaboration with Italian and Italian American institutions and organizations in the area.

### Bachelor of Arts in Italian Studies (code RGR\_BA09) (120 units)

The BA in Italian Studies is a comprehensive program that provides students with a solid humanities-based grounding also applicable to professional fields outside of the humanities. Whereas Italian Studies continues to be a field of choice for students interested in Art, Art History, Music, History, and Comparative Literature, it is increasingly relevant for professions in Fashion, Design, and International Business. The Italian Studies BA Program connects Italy's traditional intellectual and artistic legacy with its dynamic development as a modern industrialized country renowned for combining taste and technological innovation. The job mobility and cultural exchange fostered by the European Community and fueled by the global economy at large have made Italian into a language with vast applicability: the currency of the Italian language worldwide is also reflected in its growth as a subject taught in the American school system. In light of this expansion, the Bachelor of Arts in Italian Studies is a wise choice for students who plan to pursue a teaching career that combines two foreign languages or one foreign language and another subject in the humanities.

In order to meet such diverse needs, the BA Program offers two concentrations: Italian Language and Culture and Interdisciplinary Italian Studies. Regular consultation with advisors is highly recommended to ensure the proper choice of courses in view of future professional careers or continuation of studies at the graduate level.

Students in the BA program are strongly encouraged to study abroad through the CSU International Programs: they can spend from an intensive summer to an entire academic year in Florence and study either at the CSU center and/or at local academic institutions. While expanding their linguistic and cultural knowledge through this full-immersion experience, they earn credits towards their degrees. In addition, the Italian BA Program at CSULB offers internship opportunities at Italian and Italian-American institutions in the area.

Once students have met the first- and second-year general language requirements, in the third year they take a common set of core courses in the target language (composition, grammar, conversation as well as literature, literacy analysis, and civilization). In the fourth year they choose between the two concentrations: students intending to earn the teaching credential select the first, Italian Language and Culture, and take all coursework in the Italian language; students interested in a more interdisciplinary approach may select courses from the variety of department offerings (Music, Political Science, Geography, Art and Comparative Literature) included in the second concentration, Interdisciplinary Italian Studies. Both tracks share a common core.

### Requirements

The student must complete a minimum of 49 units as approved by Italian Studies Advisors.

One year of a second foreign language is required for the first concentration (Italian Language and Culture).

#### Lower Division

Competency in the Italian Language (16 units of lower division Italian): ITAL 101A, B, and 201A, B are required.

Some of these courses may be waived for students who have completed sufficient high-school Italian or have proved intermediate-level proficiency. Native speakers of Italian may not enroll in ITAL 101A,B or 201 A,B.

#### Upper Division

A minimum of 33 upper division units selected as follows:  
Basic Core (24 units): ITAL 310, 312A, 312B, 314, 335, 336, 340, 482.

#### Concentration I (Italian Language and Culture):

Electives (9 units): ITAL 411, 414\*, 454, 462, 473, 490, 494, 499.

\* Candidates who intend to teach Italian language are required to take ITAL 414

#### Concentration II (Interdisciplinary Italian Studies)

Electives (9 units): ITAL 411, 414, 440, 454, 462, 473, 490, 494, 499; AH 423, 424; C/LA 314I, 315I; C/LT 330 A\*\*, B\*\*, 422I, 430, 432, , 449\*\*; HIST 332; MUS 436\*\*; RGR 346I.

\*\*Accepted only when syllabi include a good amount of Italian texts.

### Electives and Other Courses

Close work with the advisor will enable majors in Italian Studies to design a comprehensive study plan for their entire CSULB experience and for life-long learning. General Education courses and electives should be chosen carefully to coordinate with the major.

**FOUR YEAR PLAN TO COMPLETE THE B.A. in ITALIAN STUDIES (RGR\_BA09)**

120 Units Required

Department of Romance, German, Russian Languages

Semester 1		Semester 2	
University 100	1	Oral Comm or Composition	3
Composition or Oral Comm	3	GE Math or other GE Class	3 (or 4)
GE Math or other GE Class	3 (or 4)	Crit Thinking or other GE Class	3
ITAL 101A	4	ITAL 101B	4
GE Class	3	GE Class	3
Elective Class	1		
TOTAL UNITS	14-16	TOTAL UNITS	16-17

Semester 3		Semester 4	
Critical Thinking or other GE Class	3	ITAL 201B	4
ITAL 201A	4	ITAL 214	3
GE Class	3 (or 4)	GE Class	3 (or 4)
GE Class	3	GE Class	3
GE Class	3	GE Class	3
TOTAL UNITS	16-17	TOTAL UNITS	16-17

Semester 5		Semester 6	
GE Capstone Class*	3	GE Capstone Class*	3
ITAL 310	3	ITAL 312 B	3
ITAL 312 A	3	ITAL 314	3
ITAL 335	3	ITAL 336	3
Elective Class	3	Elective Class	3
TOTAL UNITS	15	TOTAL UNITS	15

Semester 7		Semester 8	
GE Capstone Class*	3	ITAL 482	3
ITAL 340	3	Major Concentration Class (if needed)	3
Major Concentration Class	3	Major Concentration Class (if needed)	3
Elective Class	3	Elective Class	3
Elective Class	3	Elective Class	3
TOTAL UNITS	15	TOTAL UNITS	15

\*Two of the three GE Interdisciplinary Capstone Classes may be able to count in GE and major concentration area - see advisor

Some of the lower division language courses may be waived for students who have completed sufficient high school intermediate-level proficiency. Native speakers of Italian may not enroll in ITAL 101A, 101B, 201A or 201B.

**FAQ Concerning Road Maps for Completion of Undergraduate Degrees**

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

**I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?**

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

**Must I take the courses in the semesters shown on the plan?**

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

**I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?**

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

**I didn't complete the exact list of courses shown. Can I still graduate on time?**

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

**If I follow the plan, will I have all requirements for graduation completed?**

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

## Minor in Italian (code RGR\_UM02)

The Italian minor can be taken in conjunction with any other major, and it is an excellent choice for students majoring in other Romance languages as well as in Art, Art History, International Business, Comparative Literature, Dance, English, History, Linguistics, Music or the Social Sciences. Besides grammar, composition and conversation classes, it offers courses in literature, civilization, cinema, and language history. The minor in Italian is open to any non-Italian major.

### Requirements

Consists of a minimum of 21 upper division units.

Required (9 units) ITAL 312A, 312B, 314

Electives (12 units) chosen from: ITAL 310, 335, 336, 340, 411, 414, 440, 454, 462, 482, 490, 494, 499.

---

## Italian Courses (ITAL)

---

### Lower Division

#### 101A. Fundamentals of Italian (4)

Prerequisite or corequisite: Any Foundation course. Practice in grammar, reading, pronunciation, writing, and conversation. For those who are just beginning the study of Italian or who have had one year of high school Italian. (lecture 4 hrs.)

#### 101B. Fundamentals of Italian (4)

Prerequisite or corequisite: Any Foundation course. Continuation of ITAL 101A. Practice in grammar, reading, pronunciation, writing and conversation. (lecture 4 hrs.)

#### 201A. Intermediate Italian (4)

Prerequisite: ITAL 101B and completion of the Foundation requirement (or entering competency equivalent to ITAL 101B and completion or concurrent enrollment in at least one Foundation course. (lecture 4 hrs.)

#### 201B. Intermediate Italian (4)

Prerequisite: ITAL 201A and completion of the Foundation requirement (or entering competency equivalent to ITAL 201A and completion or concurrent enrollment in at least one Foundation course. (lecture 4 hrs.)

#### 214. Intermediate Conversation (3)

Prerequisite: ITAL 101B. Can be taken concurrently with ITAL 201A or 201B. Designed to develop basic conversational skills and to prepare for more advanced work in ITAL 314.

### Upper Division

General Education Category A must be completed prior to taking any upper division course except upper division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

#### 310. Introduction to Analysis of Italian Literature (3)

Prerequisite: ITAL 201B. This course imparts literary terminology and the study of the primary genres in Italian literature through an analysis of exemplary texts. A brief overview of methodologies will also be introduced, i.e., deconstruction, sociological, gender studies, formalism and deconstruction.

#### 312A. Advanced Italian I (3)

Prerequisite: Upper division standing in Italian or equivalent. Review of grammatical principles with regular exercises and composition work for the development of increased mastery of the written language.

#### 312B. Advanced Italian II (3)

Prerequisite: Upper division standing in Italian or equivalent. Review of grammatical principles with regular exercises and composition work for the development of increased mastery of the written language.

#### 314. Advanced Conversation (3)

Prerequisite: ITAL 214 or consent of the instructor. Continuation of ITAL 214. More advanced use of spoken Italian to establish strong basis for correct and fluent proficiency in oral idiom.

#### 335. Survey of Italian Literature I: Middle Ages– Eighteenth Century (3)

Prerequisites: Upper division standing in Italian or consent of instructor. Introductory study of the most important Italian literary works, authors, and movements of Italian literature from the Middle Ages to the Eighteenth Century.

#### 336. Survey of Italian Literature I: Nineteenth and Twentieth Centuries (3)

Prerequisites: Upper division standing in Italian or consent of instructor. Introductory study of the most important Italian literary works, authors, and movements of Italian literature of the Nineteenth and Twentieth Centuries.

#### 340. Italian Civilization (3)

Prerequisite: Upper division standing in Italian or consent of instructor. A multidisciplinary study of Italian culture from the unification (1861) to the present, with special emphasis on the last thirty years. Crucial historical moments will be analyzed for their social and cultural impact on Italian, customs, and ways of thinking. This course is taught in Italian.

#### 411. Advanced Syntax, Grammar, and Stylistics (3)

Prerequisite: ITAL 312B. This course provides an in depth study of Italian syntax in order to improve skills for written Italian. Vocabulary development and analysis and imitation of writing styles and forms will be emphasized.

#### 414. History of the Italian Language (3)

Prerequisite: ITAL 312B. This course will examine the main developments in the transformation from Latin to Italian, the debates on what constitutes the Italian language (questione della lingua) 1200 – present, including the contributions of Dante Alighieri, Machiavelli, and Alessandro Manzoni. The influence of the media and immigrant populations on the linguistic situation in Italy today will also be addressed.

#### 440. Italian-American Culture (3)

Prerequisite: Upper division standing in Italian or consent of instructor. Interdisciplinary in nature, this course addresses issues of migration and related themes of cultural conflict and ethnic identity formation, in the specific context of the Italian American experience. The syllabus embraces fictional, non-fictional, musical, and visual texts that recount the experience of migration as seen through the eyes of Italian American authors themselves. Topics that will be explored include: labor exploitation, discrimination, political commitment, women's roles, interethnic relations, religion, Mafia, food, family, etc.

#### 454. Italian Cinema (3)

Prerequisite: Senior standing or consent of instructor. Acquaint students with the art of the medium, particularly as it is realized through the work of the artist most responsible for its success or failure, in this case the director. Letter grade only (A-F). Same course as FEA 454.

#### 462. Italian Women Writers (3)

Prerequisites: Upper division standing in Italian or consent of instructor. Study of the role of women writers within the history of Italian literature from the Middle Ages through the Renaissance to contemporary literature.

#### 473. Masterpieces of Italian Renaissance Literature (3)

Prerequisites: ITAL 310, 335, 336 or consent of instructor. Readings in Italian quattro and cinque cento thought to explore the revolution toward the "new learning" and the valorization of human ability, worldly matters, and secular culture.

#### 482 . The Building of the Italian Nation (3)

Prerequisites: ITAL 310, 335 and 336. This course will explore the literature that promoted the creation and building of the Italian nation from the Middle Ages to the present.

#### 490. Special Topics in Italian (3)

Prerequisite: Upper division standing in Italian or consent of instructor. Study of a particular topic or aspect of Italian literature, language or culture. Specific topics to be announced in the *Schedule of Classes*. May be repeated to a maximum of 12 units with different topics.

#### 494. Internship in Italian (1-3)

Prerequisites: Consent of Instructor and department chair. Field work in Italian, supplemented by readings and tutorials under the direction of a faculty member. Internships, small group discussion/teaching, and other assignments directed by a supervising faculty member. May be repeated to a maximum of 6 units. No more than 3 units may be applied to the major in Italian.

#### 499. Directed Studies (1-3)

Prerequisite: Consent of instructor and department chair. Independent study under the supervision of a faculty member. May be repeated to a maximum of 6 units.

### THE RUSSIAN PROGRAM

Program Director

Harold K. Schefski

#### Minor in Russian (code RGR\_UM04)

The purpose of the Minor in Russian is to provide interested students with a focused program of studies in the Russian language. The Minor in Russian is available to any non-Russian major.

#### Requirements

Prerequisites: RUSS 101A(4), 101B (4)

Twenty additional units, of which 12 units must be taken in upper-division course work: RUSS 201A (4), 201B (4), 310 (3), 312 (3), 314 (3), 410 (3).

---

### Russian Courses (RUSS)

---

#### Lower Division

##### 101A. Fundamentals of Russian (4)

Prerequisite or corequisite: Any Foundation course. For those who are beginning the study of Russian (CAN RUSS 2). Practice in grammar, reading, pronunciation, writing and conversation.

##### 101B. Fundamentals of Russian (4)

Prerequisite or corequisite: Any Foundation course. Continuation of RUSS 101A. (CAN RUSS 4). Practice in grammar, reading, pronunciation, writing and conversation.

##### 201A-B. Intermediate Russian (4,4)

Oral and written practice with grammar review.

*201A:* Prerequisite: RUSS 101B and completion of GE Foundation requirements (or entering competency equivalent to RUSS 101B and completion or concurrent enrollment in at least one Foundation course.

*201B:* Prerequisite: RUSS 101B and completion of GE Foundation requirements (or entering competency equivalent to RUSS 101B and completion or concurrent enrollment in at least one Foundation course.

#### Upper Division

General Education Category A must be completed prior to taking any upper division course except upper division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

##### 310. Russian Literature in English (3)

Prerequisites: ENGL 100 or equivalent and/or any course in literature or European history. Taught in English, this course examines the major themes of Russian life as seen through the literature of the nineteenth and twentieth centuries.

##### 312. Advanced Russian (3)

Required background or experience. Ability to read general material in Russian and to translate non-technical material into the language. Extensive reading of Russian writings, review of grammatical principles, and a general consolidation of the four language skills: reading, oral comprehension, composition, and conversation.

##### 314. Russian Conversation (3)

Prerequisite: Upper-division standing in Russian or consent of instructor. Intended to meet specific, everyday situations and to provide help to those who intend to use Russian for travel, work, or classroom instruction.

##### 399. Directed Studies in Russian Language (1-3)

A Directed Studies course designed to meet the individual needs of students.

##### 410I. Introduction to Russian Civilization (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. An examination of the characteristic features of Russian culture with special attention to the study of art, architecture, folklore, music, poetry and religion.

##### 428. Russian Cinema (3)

Prerequisite: Upper division standing. Will focus on the Socio-political and aesthetic aspects of Russian Cinema, delineating the following periods: Soviet Silent Cinema, Stalinist Cinema, Cinema under the Thaw, Cinema under Brezhnev, and Contemporary Cinema. Letter grade only (A-F). Same course as FEA 428.

##### 499. Directed Studies in Russian (1-3)

Prerequisites: Senior standing, consent of instructor. Readings in areas of mutual interest to student and instructor that are not a part of any regular course. A written report or project may be required.

## THE SPANISH PROGRAM

Program Director  
Claire E. Martin

Students desiring information should contact the department office for referral to one of the faculty advisors: Credential Advisor, Graduate Advisor, Undergraduate Advisor.

A major in Spanish is a treasured possession. A second major or a minor in Spanish opens many doors, but no matter what field a student plans to enter, be it health services, business, teaching, government, law, medicine, transportation, translation, engineering, or entertainment, a familiarity with Spanish will be invaluable. Bilingualism is almost an imperative in Southern California as well as in many other parts of our country.

In addition, the program provides preparation for those who plan to pursue doctoral work at other institutions. It also provides a liberal education for those who wish to expand their knowledge of the communication process and of Hispanic literature and cultures. The Spanish Program offers courses in language, linguistics, literature, culture and translation leading to the following degrees and certificates: Bachelor of Arts and Master of Arts degrees in Spanish, Single Subject Teaching Credential in Spanish. Concentration in Spanish for the Bachelor of Arts in Liberal Studies, minor in Spanish, Bilingual Concentration for B.A. in Liberal Studies, B.A. in Special Major and the M.A. in Interdisciplinary Studies.

### Bachelor of Arts in Translation and Interpretation Studies

#### Option English/Spanish (code RGR\_BA07) (120 units)

The pilot status of the degree in Translation and Interpretation Studies ends in 2006, after which the program should acquire regular status.

The degree in Translation and Interpretation Studies provides students proficient in both English and Spanish an opportunity to develop and perfect their linguistic skills and cultural knowledge to pursue a career in the field of translation and interpretation. The areas covered by the BA in Translation and Interpretation Studies include: technical vocabulary acquisition (legal, medical, business, technical, etc.), written translation, research methodology (including the identification and use of primary and secondary sources), sight translation, and consecutive and simultaneous interpretation.

The program consists of seven specialized courses in order to meet the professional needs of students preparing for a career in translation and interpretation techniques and methodologies. In addition, students take two three-unit concurrent courses in advanced grammar and composition (SPAN 300), and three courses in linguistics, civilization and literature selected from SPAN 310, 423, 427, and 445 for a total of 36 upper-division units.

### Prerequisite

SPAN 300 with a "B" or better. This course may be waived with instructor's consent.

### Requirements

SPAN 461, 462, 463, 464, 465, 466, 467. In addition, nine of the following twelve units: SPAN 310 or 445, and 423 or 427.

### Bachelor of Arts in Spanish

To prepare for a program of courses for the major in Spanish, the student is advised to keep in mind the upper-division options noted below as well as the Basic Core and Prerequisites for courses. The Spanish Program consists of a Basic Core (21 upper-division units) and an Option (9 upper-division units). Please note that all options will satisfy the single-subject credential requirements. However, the Linguistics/Language Acquisition Option is strongly recommended for students interested in the Single Subject Credential Program. For all options, at least one year of a second foreign language at the University level is required.

### Prerequisites

One year of intermediate Spanish at the university level, or equivalent. Students who have completed sufficient high school Spanish or equivalent may take upper division courses as soon as proficiency requirements have been met. Native speakers of Spanish who have never formally studied the language are urged to take SPAN 250 (6-unit GE course).

### Requirements

Students are required to take a minimum of 30 units of upper-division Spanish coursework, which must include: the Basic Core of 21 units as follows: SPAN 300, 310, 330, 341, 423, either 430 or 445; one of the following may be included in this category: RGR 346I or 450I. In addition to the Basic Core, the student must complete one of the following options:

#### Option in General Spanish (code RGR\_BA03) (120 units)

The option in General Spanish requires 9 upper-division units in addition to the Basic Core. The undergraduate advisor should be consulted to ascertain the appropriate courses for this option.

#### FOUR YEAR PLAN TO COMPLETE THE B.A. DEGREE in SPANISH -Options in General Spanish, Translation, Linguistics and Language, Lit and Cultural Studies (RGR\_BA03)

120 Units Required Department of Romance, German, Russian Languages

Semester 1		Semester 2	
University 100	1	Oral Comm or Composition	3
Composition or Oral Comm	3	GE Math or other GE Class	3-4
GE Math or other GE Class	3-4	Critical Thinking or other GE Class	3
GE Class	3	SPAN 101A/B (if needed) or GE Class	3 (or 8)
GE Class	3	GE Class (if not taking SPAN 101 A/B)	(3)
Elective Class	1		
TOTAL UNITS	14-15	TOTAL UNITS	15-18

Semester 3		Semester 4	
Critical Thinking or other GE Class	3	SPAN 201B	4
SPAN 201A	4	GE Class	3-4
GE Class	3-4	Second Foreign Language (GE C3)	4
Second Foreign Language (GE C2c)	4	Elective Class	3
Elective Class	3	Elective Class	3
TOTAL UNITS	17-18	TOTAL UNITS	17-18

Semester 5		Semester 6	
GE Capstone Class*	3	GE Capstone Class*	3
SPAN 300	6	SPAN 310	3
GE or Elective Class	3	SPAN 423	3
Elective Class	3	GE or Elective Class	3
		Elective Class	3
TOTAL UNITS	15	TOTAL UNITS	15

Semester 7		Semester 8	
GE Capstone Class*	3	SPAN 341	3
SPAN 330	3	Major Option Class (if needed)	3
SPAN 430 or 445	3	Major Option Class (if needed)	3
Major Option Class	3	Elective Class	3
Elective Class	3	Elective Class	3
TOTAL UNITS	12 (15)	TOTAL UNITS	12 (15)

\*Up to two of the three GE Interdisciplinary Capstone Classes may be able to count in GE and major - see advisor

\*\*For at least one of the major option choices, two additional courses may be able to count in the major and in GE - see advisor

All students must have at least one year of intermediate Spanish language at the university level or its equivalent.

Students with appropriate language proficiency may take upper-division courses. Native speakers who have never formally studied the language should take SPAN 250 (6 units) instead of SPAN 201 A and B.

#### FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

#### I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

#### Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

#### I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

#### I didn't complete the exact list of courses shown. Can I still graduate on time?

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

#### If I follow the plan, will I have all requirements for graduation completed?

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

#### Option in Linguistics and Language Acquisition (RGR\_BA04)

The option in Linguistics and Language Acquisition is especially designed for students who are interested in teaching at the secondary or post-secondary levels or who plan to continue graduate study in Linguistics. Nine upper-division units are required from the following courses: SPAN 322, 426, 427, 424 494, RGR 346I, 450I.

### Option in Literature and Cultural Studies (code RGR\_BA05) (120 units)

The option in Literature and Cultural Studies is designed for students who desire a thorough grounding in the literature and cultures of Spain and Latin America, particularly those students who are planning on graduate study in Spanish. Nine upper-division units are required from the following courses: SPAN 428, 429, 430, 441, 443, 445, 446, 447, 490, 491, 492, 493, 494; one of the following may be included in this category: RGR 346I, 450I.

### Option in Translation (code RGR\_BA06) (120 units)

The Translation Option introduces students to the challenges of translation per se and provides a practical grounding in various types of translation which are to be found in any work setting. In addition, it will be of value to students planning graduate work in many fields, including comparative literature and translation itself. 9 units are required, selected from the following courses: SPAN 461, 462, 463, 464, 465, 466, 467 and 494.

Additional Requirements: A minimum of one year of a second foreign language at the university level is required of all majors.

N.B.: No course being used to satisfy any requirement for the B.A. or minor in Spanish may be taken on a Credit/No Credit basis.

### Minor in Spanish (code RGR\_UM05)

#### Requirements

A minimum of 18 units in Spanish, at least 15 of which must be upper division and must include SPAN 300, and demonstration of oral fluency or 314. Students must file a Declaration of Minor and receive counseling from the undergraduate advisor. The minor in Spanish is available to any non-Spanish major.

### Single Subject Teaching Credential, Spanish (code 158)

Completion of the Spanish major meets the subject matter competence requirement for the Single Subject Preliminary Credential in Spanish (code 158). Prospective students should consult the undergraduate Spanish Advisor and the Languages Other Than English (LOTE) Program Advisor early to plan their program.

In addition to meeting the subject matter competence requirement for the Preliminary Credential, prospective teachers of Spanish are also required to complete 44 units of professional preparation in the Single Subject Credential Program, including student teaching. Students may begin the professional preparation courses as early as the junior year. With careful planning, it is possible to complete all of the credential program courses, except for student teaching, as an undergraduate. Courses may also be completed as post-baccalaureate student. Refer to the Single Subject Teacher Education section of this *Catalog* or the Single Subject Credential Program website ([www.ced.csulb.edu/single-subject](http://www.ced.csulb.edu/single-subject)) for a description of the professional preparation requirements, courses, and application procedures.

*The Spanish Subject Matter Program is being revised to meet new state standards. When the revised program has been approved by the Commission on Teacher Credentialing, the new course requirements will be in effect and supersede current requirements.*

#### Requirements

The same as for B.A. in Spanish.

### Master of Arts in Spanish (code RGR\_MA03)

#### Prerequisites

1. A Bachelor of Arts degree in Spanish; or
2. A Bachelor's degree with a minimum of 18 upper division units in Spanish equivalent to the Basic Core of the B.A. in Spanish at this University, with at least a "B" (3.0) average. Deficiencies will be determined by the Master's Degree Committee after consultation with the student and study of transcript records.

#### Advancement to Candidacy

1. Approval of a graduate program by the Graduate Advisor, the Department Chair, and the College Associate Dean of Graduate Studies.
2. Requirements: All deficiencies have been removed; the student has fulfilled the Graduation Writing Assessment Requirement (GWAR); the student has maintained at least a "B" (3.0) GPA in all work undertaken as a graduate student;
3. The candidate may file for advancement to Candidacy after filing an individualized Course Planner, completing prerequisites, and completing at least 6 units (preferably no more than nine units) on the M.A. program. The candidate must file not later than one semester or summer session prior to completion of course requirements.

## Requirements

1. Completion of a minimum of 30 units of approved upper division and graduate courses, with a minimum of 30 units in Spanish in the 500 and 600 series in Spanish;
2. Specifically required courses include: SPAN 524 and 650;
3. The student must take two years of one of the following languages: Italian, French, or German, or pass an examination at the intermediate level in one of those languages. A major or minor in a second foreign language may be used to fulfill this requirement, upon approval by the Department. Consult the Graduate Advisor;
4. The student must maintain a GPA of at least "B" (3.0);
5. All students must pass three-hour examinations on the Graduate Reading List in each of two areas to be selected by the student from the following: Spanish Literature, Spanish American Literature, Linguistics. (See the Graduate Advisor for the Graduate Reading List and to set up administration of the examinations. Students may take the examinations (both areas) in either April or November.)
6. No more than six units of transfer graduate credit are allowed, subject to approval by the Graduate Advisor. No more than six units of International Programs course work may be credited toward the 24-unit Spanish requirement for the M.A. at this University. International Programs units will be counted at the 400-level.

## Minor in Latin American Studies (code HISTUM03)

The Minor offers students majoring in any subject an opportunity to supplement their education with a focus on the interdisciplinary study of Latin America. The minor's flexible program of study is ideal for students interested either in intellectual enrichment or professional development in their major. Courses used to meet this minor requirement may be counted also, where applicable, toward the General Education requirements, and the major or minor requirements of the cooperating departments.

## Requirements

1. The following are the requirements for the Latin American Studies minor:
  - A. The successful completion of two college intermediate level courses in Spanish, Portuguese or any other language appropriate to the student's area of concentration of the equivalent fluency as determined by the program advisor.
  - B. Consultation with the program advisor, including formal declaration of the minor, and application for graduation.

2. Completion of 21 units distributed as follows:

A. Core (Required of all students) 6 units. Choose from two disciplines: ANTH 323, 324; GEOG 320I; HIST 362, 364; POSC 358, 359; SPAN 445.

B. Electives: 15 additional units from the following disciplines. Students cannot duplicate courses taken in the Core: ANTH 323, 324, 345, 490\*, 495\*, CHLS 352, 380, 395, 400, 420, 490\*, 499\*; CWL 440, 499\*, ECON 490\*, 499\*; FEA 392C; GEOG 320I; HIST 362, 364, 366, 461, 462, 463, 466A, 466B, 466C, 490\*, 495\*, 498\*; POSC 358, 359, 497\*, 499\*; SOC 341, 490\*, 499\*; SPAN 341; 441, 445, 492, 550, 490\*, 495\*

\* The Latin American Studies advisor must approve Special Topics and Directed Studies courses in the area of Latin American Studies.

---

## Spanish Courses (SPAN)

---

### Lower Division

#### 101A. Fundamentals of Spanish (4)

For those who are beginning the study of Spanish or who have had less than two years of high school Spanish or equivalent. Concentration on oral comprehension and speaking. (CAN SPAN 2)

#### 101B. Fundamentals of Spanish (4)

Prerequisite or corequisite: Any Foundation course. Continuation of SPAN 101A. Concentration on oral comprehension and speaking. (CAN SPAN 4)

#### 201A. Intermediate Spanish (4)

Prerequisite: SPAN 101B and completion of GE Foundation requirements (or entering competency equivalent to SPAN 101B and completion or concurrent enrollment in at least one Foundation course). Continued development of audio-lingual skills, reading and writing. (CAN SPAN 8)

#### 201B. Intermediate Spanish (4)

Prerequisite: SPAN 201A and the completion of GE Foundation requirements (or entering competency equivalent to SPAN 201A and completion or concurrent enrollment in at least one Foundation course). Continued development of oral skills, reading and writing. (CAN SPAN 10)

#### 250. Spanish for Bilinguals (6)

Prerequisite: Near native speaker oral skills and completion of GE Foundation requirements (or concurrent enrollment in at least one Foundation course). This course has been designed to address the particular needs of the bilingual student population. Its emphasis is on the acquisition of a solid grammatical base along with the development of writing and reading skills. Letter grade only (A-F).

### Upper Division

General Education Category A must be completed prior to taking any upper division course except upper division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

#### 300. Advanced Grammar and Composition (6)

Prerequisite: AP Exam with a score of 5 or SPAN 201B or equivalent for non-native speakers. SPAN 250 or equivalent for heritage speakers. Review of grammatical principles, general consolidation of the four language skills (reading, speaking, comprehension and writing) with special emphasis on writing papers and acquisition of cultural knowledge of the Hispanic world.

#### 310. Introduction to Literary Analysis (3)

Prerequisite: One 300-level course in Spanish or consent of instructor. Discovery of literature as a work of art. Different levels of interpretation; complexity of structure related to content; literary appreciation. Letter grade only (A-F).

### 314. Oral Communication (3)

Prerequisite: Upper division standing in Spanish, consent of instructor. Emphasis will be placed on small-group discussion to improve communication skills in Spanish. Intended for non-native speakers.

### 322. Bilingual Teacher (3)

Prerequisites: SPAN 300 or consent of instructor. Development and application of vocabulary for teaching elementary/secondary school subject matter in Spanish; application in actual teaching situations.

### 330. Literary Masterpieces: Spain (3)

Prerequisites: SPAN 310 or consent of Spanish Program Director; completion of GE Foundation requirements. Critical analysis of masterworks of Spanish literature. (Lecture 3 hours.)

### 335A. Business Spanish (3)

Prerequisites: SPAN 300 (6 units) or consent of instructor. Study of terminology and practices from the world of business, with a focus on business relating to the Spanish speaking world, including the Hispanic market in the United States. It focuses on commerce, management, banking, real estate, and labor relations. The course is recommended for students with the appropriate level of language skills majoring in Spanish, business and international studies, Chicano/Latino studies and Economics. Letter grade only (A-F).

### 335B. Business Spanish (3)

Prerequisites: SPAN 300 or consent of instructor. Study of terminology and practices from the world of business, with a focus on business relating to the Spanish speaking world, including the Hispanic market in the United States. It focuses on marketing, finance, import and export. The course is recommended for students with the appropriate level of language skills majoring in Spanish, business and international studies, Chicano/Latino studies and Economics. Letter grade only (A-F).

### 341. Literary Masterpieces: Spanish America (3)

Prerequisites: SPAN 310 or consent of Spanish Program Director. Critical analysis of masterworks of Spanish American literature. (Lecture 3 hours)

### 400./500. Don Quijote and the Critics (3)

Prerequisite: SPAN 310. This course is designed to guide students through a close reading of Cervantes's *Don Quijote* (1605 and 1615, respectively), with a special emphasis on various theoretical approaches to the text. The class will also provide a basic introduction to literary criticism as it has been applied to the novel. In order to realize these goals, we will examine a variety of critical articles as reactions to/readings of *Don Quijote* that have historically and culturally shaped the reception of Cervantes's text.

### 420./520. History of Spanish Language (3)

Prerequisite: One course in Spanish linguistics or consent of instructor. Analysis of written and spoken Spanish from its inception through its current use in the Hispanic world.

### 423./523. Introduction to Spanish Linguistics (3)

Prerequisites: SPAN 300 or consent of instructor. This course presents an overview of the main issues in Spanish Linguistics. Selected topics from the following areas will be the focus of study: the history of Spanish language, the grammatical systems of Spanish (Phonology, Morphology, Syntax), the sociolinguistics status of Spanish in the U.S. and the teaching of Spanish as a second language. Undergraduates register for 423; graduates register for 523.

### 424./524. Second Language Acquisition: Theory and Practice (3)

Study of the history of second language learning/teaching. Overview of current research in second language acquisition, with emphasis on its implications for teaching Spanish. Evaluation and development of methods, materials, and tests. Letter grade only (A-F). Undergraduates register in SPAN 424; graduates register in SPAN 524. (Seminar)

### 426./526. Spanish Morphology and Syntax (3)

Prerequisite: Consent of instructor. Morphemic and syntagmatics analysis of Spanish; introduction to transformational grammar. (Lecture 3 hours)

### 427./527. Contrastive Analysis of Spanish and English (3)

Prerequisite: Consent of instructor. Study of the known points of similarity and differences between the two languages.

### 428. Spanish Cinema (3)

Prerequisites: Upper division standing. Will focus on the socio-political and aesthetic aspects of Spanish Cinema, concentrating on the following periods. Early Francoism, Neo-Realism, The Barcelona School, the Transition Period, post Franco Years, and new trends in Spanish Cinema. Taught in English. Letter grade only (A-F). Same course as FEA 392E.

### 429./529. Studies in 19th and 20th Century Spanish Poetry (3)

Prerequisite: SPAN 330. The course will examine the salient poets from the last two centuries, including Rosalia de Castro, Gustavo Adolfo Bécquer, Antonio Machado, Juan Ramón Jiménez, Vicente Aleixandre, Federico Garcia Lorca, Gloria Fuertes, Jaime Gil de Biedma, and other more contemporary figures. (Undergraduates register in SPAN 429; graduates register in SPAN 529.) Letter grade only (A-F). (Seminar 3 hours)

### 430. Spanish Civilization (3)

Prerequisites: Upper division standing in Spanish or consent of instructor. Characteristic features of Spanish culture with special attention to the various institutions, economic, social and cultural configurations, and the ways of thinking.

### 438./538. Studies in Golden Age Literature (3)

Designed as a survey of Spanish Golden Age Literature (16<sup>th</sup> and 17<sup>th</sup> century), with an emphasis on the canonical works of the time. Will examine the three dominant literary genres of the time: prose, poetry and theater. Readings will focus on the literary masterpieces of the Renaissance and Baroque periods which help define the Early Modern Period. In order to fully understand the literary climate and its relation to the social, political, cultural and religious underpinnings in Spain during these centuries, students will also become familiar with terms such as the Inquisition, the picaresque novel, mysticism, culteranismo, conceptismo, honor/honra, converses and their associations with writers such as Góngora, Quevedo, Cervantes, Santa Teresa de Jesus, San Juan de la Cruz, Garcilaso de la Vega, and Calderon de la Barca. An array of critical articles, which may focus on topics that deal with race, class, and gender, will enhance the primary readings.

### 439./539. Modern Spanish Narrative (3)

Prerequisite: SPAN 330 or consent of instructor. Representative 19th and 20th century novelists. Undergraduates register in SPAN 439, graduates register in SPAN 539. (Seminar)

### 441./541. Studies in Nineteenth and Twentieth Century Spanish American Narrative (3)

Prerequisite: SPAN 341 or consent of instructor. Critical analysis of 19th and 20th century Spanish American prose fiction. Undergraduates register in SPAN 441, graduates register in SPAN 541. (Seminar 3 hours).

### 443./543. Studies in Nineteenth and Twentieth Century Spanish American Poetry (3)

Prerequisite: SPAN 341 or consent of instructor. Study of representative 19th and 20th century Spanish American poets. Undergraduates register in SPAN 443, graduates register in SPAN 543. Letter grade only (A-F). (Seminar)

### 445. Latin American Civilization (3)

Prerequisite: Upper division standing in Spanish or consent of instructor. Analysis of main currents in Latin American civilization.

**446./546. Studies in Spanish Culture (3)**

Prerequisite: SPAN 330. This course deals with some aspect of Spanish culture in an interdisciplinary fashion during a given period. Topics could include social, political, theoretical, and/or historical perspectives on the arts. Undergraduates register in SPAN 446; graduates register in SPAN 546. Seminar 3 hours. May be repeated to a maximum of 6 units. (Seminar 3 hours) Letter grade only (A-F).

**447./547. The Invention of Spain: Visions in Conflict (3)**

Prerequisites: SPAN 300, 310, 330. A social, historical and literary study of 19<sup>th</sup> Century Spain from 1808 through the beginning of the Spanish Civil War in 1936. Many groups struggle to impose their vision of Spain as it emerges from the War of Independence in 1808, transitioning from the Antiguo Régimen to nationhood. We will trace aspects of the struggle toward modernity as they culminate in the clash of the Spanish Civil War.

**450./550. Studies in Colonial Spanish American Literatures (3)**

Prerequisites: SPAN 310 and 341. This course is designed to introduce students to the canonical works from the Spanish-American Colonial period (1500-1800). The course begins with readings from pre-Columbian texts and segues to the discovery of the New World, the conquest, and finally, the later colonial period. The class will focus on a variety of topics, including European and Indigenous contact zones; the intellectual and sociocultural milieu of the era; as well as questions of authority, gender, race and ethnicity as representations of the colonial subject. We will cover a large selection of literary texts of the colonial period, including chronicles, relaciones, letters, diaries, poetry, autobiography, and travel literature. We will also analyze clips from several movies.

**455. Hispanic Cinema of the Americas (3)**

Will focus on the development of New Hispanic Cinema as it has affected films produced in the United States and Latin America. Focusing on fourteen directors and fourteen films, we will explore major themes and trends of the New Hispanic Cinema, among them: "Nueva Ola" in Argentina, "Cinema Novo", burgeoning Cuban revolutionary cinema, and "Magic Realism" in cinema of the Southwest United States. Apart from the historical and aesthetic context of these films, we will also look at the authenticity of the work in terms of depicting the cultural, political, and social phenomena of a particular region or country. Letter grade only (A-F). Same as FEA 392C.

**460./560. Studies Spanish American Culture (3)**

Prerequisite: SPAN 341. In-depth study of some of the essays which have dealt with the problem of what the Spanish American nations are, and what they should be during the republican era. The course includes the authors from both the nineteenth and twentieth centuries.

**461. Introduction to Translation and Interpretation (3)**

Prerequisites: SPAN 300 with a "B" or better or Spanish Program Director's consent. Designed to introduce the student to the basic techniques that are essential to terminology acquisition, concentration, written and sight translation and consecutive and simultaneous interpretation.

**462. Written and Sight Translation I: English/Spanish (3)**

Designed to train students in sight and written legal, financial, medical and technical translation, and to introduce the student to the basic techniques that are essential to terminology acquisition. (English into Spanish). Letter grade only (A-F).

**463. Written and Sight Translation II: Spanish/English (3)**

Prerequisites: SPAN 461 or consent of Spanish Program Director. Designed to train students in sight and written legal, financial, medical and technical translation, and to introduce the student to the basic techniques that are essential to terminology acquisition. (Spanish into English). Letter grade only (A-F).

**464. Consecutive Interpretation I (3)**

Prerequisites: SPAN 461 or consent of Spanish Program Director. Designed to train students in forensic consecutive interpretation. Letter grade only (A-F).

**465. Consecutive Interpretation II (3)**

Prerequisites: SPAN 461 or consent Spanish Program Director. Designed to train students in Medical, Civil Legal, Business, Technical and State Agencies consecutive interpretation, and to introduce students to the basic techniques that are essential to terminology acquisition and to the techniques relating to interpreting in the consecutive mode sentences of up to forty words in length. Letter grade only (A-F).

**466. Simultaneous Interpretation English/Spanish (3)**

Prerequisites: SPAN 461 or consent of Spanish Program Director. Designed to introduce the student to the techniques that are essential to the five simultaneous operations that form an integral part of simultaneous interpretation. (English into Spanish). Letter grade only (A-F).

**467. Simultaneous Interpretation Spanish/English (3)**

Prerequisites: SPAN 461 or consent of Spanish Program Director. Designed to introduce the student to the techniques that are essential to the five simultaneous operations that form an integral part of simultaneous interpretation. Spanish into English. Letter grade only (A-F).

**490. Special Topics (3)**

Study of a particular aspect of Spanish literature, language or culture. See *Schedule of Classes* for specific topics. May be repeated to a maximum of 9 units with different topics. Letter grade only (A-F).

**491./591. Nobel Poets and Others (3)**

Prerequisites: SPAN 330, 341, or consent of instructor. Critical analysis of representative works of Nobel Poets (Aleixandre, Jiménez, Mistral, Neruda and Paz) and other significant poets (Albértik, Bécquer, Darío, García Lorca, Garcilaso, Góngora, Guillén, Vallejo, etc.) Undergraduates register in SPAN 491, graduates register in SPAN 591. (Seminar 3 hours).

**492./592. Studies in Hispanic Theater (3)**

Prerequisites: SPAN 330 or 341, or consent of instructor. Representative Spanish and Spanish American plays. Undergraduates register in SPAN 492; graduates register in SPAN 592.

**493./593. Special Topics (3)**

Study of a particular aspect of Spanish literature, language or culture. See *Schedule of Classes* for specific topics. May be repeated to a maximum of 9 units with different topics. Letter grade only (A-F). Undergraduates register in 493; graduates register for 593. (Lecture)

**A. Women and War: Voices of Resistance**

An interdisciplinary course which studies the autobiographical testimonies of women who have experienced war and its aftermath and how their voices have been interpreted in recent years. Included are literary, historical, sociological and psychoanalytical considerations of the impact of war on women during World War I and II, the Spanish Civil War, and confrontations in Central and Latin America. Same topic as HIST 490F, W/ST 490K. (Lecture)

**494. Internship in Spanish (1-3)**

Prerequisites: Consent of instructor and department chair. Field work in Spanish, supplemented by readings and tutorials under the direction of a faculty member. Internships, small group discussion/teaching, and other assignments directed by a supervising faculty member. May be repeated to a maximum of 6 units. No more than 3 units may be applied to the major in Spanish.

**499. Independent Study (1-3)**

Prerequisites: Consent of instructor and department chair. Individual projects or directed readings with a professor of the student's choice. May be repeated to a maximum of 6 units. (Requires tutorial meetings and demonstrations of progress as defined in a written proposal.)

## Graduate Level

### 500./400. Don Quijote and the Critics (3)

Prerequisite: SPAN 310. Designed to guide students through a close reading of Cervantes's *Don Quijote* (1605 and 1615, respectively), with a special emphasis on various theoretical approaches to the text. The class will also provide a basic introduction to literary criticism as it has been applied to the novel. In order to realize these goals, we will examine a variety of critical articles as reactions to/readings of *Don Quijote* that have historically and culturally shaped the reception of Cervantes's text.

### 520./420. History of Spanish Language (3)

Prerequisite: One course in Spanish linguistics or consent of instructor. Analysis of written and spoken Spanish from its inception through its current use in the Hispanic world.

### 523./423. Introduction to Spanish Linguistics (3)

Prerequisites: SPAN 300 or consent of instructor. Presents an overview of the main issues in Spanish Linguistics. Selected topics from the following areas will be the focus of study: the history of Spanish language, the grammatical systems of Spanish (Phonology, Morphology, Syntax), the sociolinguistics status of Spanish in the U.S. and the teaching of Spanish as a second language. Undergraduates register for 423; graduates register for 523.

### 524./424. Second Language Acquisition: Theory and Practice (3)

Study of the history of second language learning/teaching. Overview of current research in second language acquisition, with emphasis on its implications for teaching Spanish. Evaluation and development of methods, materials, and tests. Undergraduates register in SPAN 424; graduates register in SPAN 524.

### 526./426. Spanish Morphology and Syntax (3)

Prerequisite: Consent of instructor. Morphemic and syntagmatics analysis of Spanish; introduction to transformational grammar. (Lecture 3 hours) Letter grade only (A-F).

### 527./427. Contrastive Analysis of Spanish and English (3)

Prerequisite: Consent of instructor. Study of the known points of similarity and differences between the two languages. Letter grade only (A-F).

### 529./429. Studies in 19th and 20th Century Spanish Poetry (3)

Prerequisite: SPAN 330. Will examine the salient poets from the last two centuries, including Rosalía de Castro, Gustavo Adolfo Bécquer, Antonio Machado, Juan Ramón Jiménez, Vicente Aleixandre, Federico García Lorca, Gloria Fuertes, Jaime Gil de Biedma, and other more contemporary figures. Undergraduates register in SPAN 429; graduates register in SPAN 529. Letter grade only (A-F). (Seminar 3 hours.)

### 538./438. Studies in Golden Age Literature (3)

Designed as a survey of Spanish Golden Age Literature (16<sup>th</sup> and 17<sup>th</sup> century), with an emphasis on the canonical works of the time. The course will examine the three dominant literary genres of the time: prose, poetry and theater. Readings will focus on the literary masterpieces of the Renaissance and Baroque periods which help define the Early Modern Period. In order to fully understand the literary climate and its relation to the social, political, cultural and religious underpinnings in Spain during these centuries, students will also become familiar with terms such as the Inquisition, the picaresque novel, mysticism, culteranismo, conceptismo, honor/honra, converses and their associations with writers such as Gongora, Quevedo, Cervantes, Santa Teresa de Jesus, San Juan de la Cruz, Garcilaso de la Vega, and Calderon de la Barca. An array of critical articles, which may focus on topics that deal with race, class, and gender, will enhance the primary readings.

### 539./439. Modern Spanish Narrative (3)

Prerequisite: SPAN 330 or consent of instructor. Representative 19th and 20th century novelists. Letter grade only (A-F). Undergraduates register in SPAN 439, graduates register in SPAN 539. (Seminar)

### 541./441. Studies in Nineteenth and Twentieth Century Spanish American Narrative (3)

Prerequisite: SPAN 341 or consent of instructor. Critical analysis of 19th and 20th century Spanish American prose fiction. Undergraduates register in SPAN 441, graduates register in SPAN 541. Letter grade only (A-F). (Seminar 3 hours).

### 543./443. Studies in Nineteenth and Twentieth Century Spanish American Poetry (3)

Prerequisite: SPAN 341 or consent of instructor. Study of representative 19th and 20th century Spanish American poets. Undergraduates register in SPAN 443, graduates register in SPAN 543. Letter grade only (A-F). (Seminar)

### 546./446. Studies in Spanish Culture (3)

Prerequisite: SPAN 330. Deals with some aspect of Spanish culture in an interdisciplinary fashion during a given period. Topics could include social, political, theoretical, and/or historical perspectives on the arts. Undergraduates register in SPAN 446; graduates register in SPAN 546. May be repeated to a maximum of 6 units. Letter grade only (A-F). (Seminar 3 hours)

### 547./447. The Invention of Spain: Visions in Conflict (3)

Prerequisites: SPAN 300, 310, 330. A social, historical and literary study of 19<sup>th</sup> Century Spain from 1808 through the beginning of the Spanish Civil War in 1936. Many groups struggle to impose their vision of Spain as it emerges from the War of Independence in 1808, transitioning from the Antiguo Régimen to nationhood. We will trace aspects of the struggle toward modernity as they culminate in the clash of the Spanish Civil War.

### 550./450. Studies in Colonial Spanish American Literature (3)

Prerequisites: SPAN 310 and 341. Designed to introduce students to the canonical works from the Spanish-American Colonial period (1500-1800). The course begins with readings from pre-Columbian texts and segues to the discovery of the New World, the conquest, and finally, the later colonial period. The class will focus on a variety of topics, including European and Indigenous contact zones; the intellectual and sociocultural milieu of the era; as well as questions of authority, gender, race and ethnicity as representations of the colonial subject. We will cover a large selection of literary texts of the colonial period, including chronicles, relaciones, letters, diaries, poetry, autobiography, and travel literature. Also analyze clips from several movies.

### 560./460. Studies in Spanish American Culture (3)

Prerequisite: SPAN 341. In-depth study of some of the essays which have dealt with the problem of what the Spanish American nations are, and what they should be during the republican era. The course includes the authors from both the nineteenth and twentieth centuries.

### 590. Special Topics (3)

Study of a particular aspect of Spanish literature, language or culture. See *Schedule of Classes* for specific topic. May be repeated to a maximum of 9 units with different topics. Letter grade only (A-F).

### 591./491. Nobel Poets and Others (3)

Prerequisites: SPAN 330, 341, or consent of instructor. Critical analysis of representative works of Nobel Poets (Aleixandre, Jiménez, Mistral, Neruda and Paz) and other significant poets (Albertik, Bécquer, Darío, García Lorca, Garcilaso, Góngora, Guillén, Vallejo, etc.) Undergraduates register in SPAN 491, graduates register in SPAN 591. (Seminar 3 hours).

### 592./492. Studies in Hispanic Theater (3)

Prerequisite: SPAN 330 or 341, or consent of instructor. Representative Spanish and Spanish American plays. Letter grade only (A-F). Undergraduates register in SPAN 492; graduates register in SPAN 592.

### 593./493. Special Topics (3)

Study of a particular aspect of Spanish literature, language or culture. See *Schedule of Classes* for specific topics. May be repeated to a maximum of 9 units with different topics. Letter grade only (A-F). Undergraduates register in 493; graduates register for 593. (Seminar).

#### A. Women and War: Voices of Resistance

An interdisciplinary course which studies the autobiographical testimonies of women who have experienced war and its aftermath and how their voices have been interpreted in recent years. Included are literary, historical, sociological and psychoanalytical considerations of the impact of war on women during World War I and II, the Spanish Civil War, and confrontations in Central and Latin America. (Lecture)

#### 599. Directed Studies (1-3)

Prerequisites: Graduate standing, advanced to candidacy, consent of the instructor and Chair or Graduate Advisor. Selected topics on Hispanic Studies to be pursued in-depth. May be repeated to a maximum of 6 units with different topics with consent of Graduate Advisor and Department Chair. Letter grade only (A-F).

#### 640. Seminar in Spanish American Literature (3)

Prerequisite: SPAN 341 or consent of instructor. Study of particular period, genre or author. See *Schedule of Classes* for specific topic. Letter grade only (A-F). (Seminar 3 hours.)

#### 650. Critical Theory (3)

Prerequisite: SPAN 310. Not an introduction to literary theory, but an introduction to critical theory, i.e., the discipline which in Western countries has replaced the previous one during the past twenty or more years. We will focus on some of its major developments, and also devote a few classes to the demonstration of the practical uses of the models of reading under consideration. (Seminar 3 hours). Letter grade only (A-F).

#### 691. Seminar in Spanish Literature-The Spanish Civil War and Its Artistic Repercussions (3)

Prerequisite: SPAN 330, 341 or consent of instructor. Will examine creative literature written during and after the Spanish Civil War (1936-39) that deals with the war theme. It will include both Spanish and some non-Spanish writers, including Arturo Barea, Constanza de la Mora, Cesar Vallejo, Pablo Neruda, Dolores Ibárruri ("La Pasionaria"), Ernest Hemingway, Juan Goytisolo, George Orwell, and Ana María Matute. The course will also include a discussion of the historical background of the war, and some of the art and films inspired by the war. (Seminar 3 hours) May be repeated to a maximum of 6 units. Letter grade only (A-F).

---

### Portuguese Courses (PORT)

---

#### 101A. Fundamentals of Portuguese (4)

Prerequisite or corequisite: Any Foundation course. Fundamental skills of speaking, comprehending, reading and writing. For those who are beginning the study of Portuguese or who have had one year of high school Portuguese or equivalent.

#### 101B. Fundamentals of Portuguese (4)

Prerequisite or corequisite: Any Foundation course. Fundamental skills of speaking, comprehending, reading and writing. Prerequisite: PORT 101A or two years of high school Portuguese or equivalent. Continuation of PORT 101A.

Jon R. Stone

## Bachelor of Arts in Religious Studies (code R/STBA01) (120 units)

The department of Religious Studies educates students in the scholarly interpretation of religion. Students develop a critical and appreciative understanding of the complexity of religions and their importance in human life; the academic study of religion thus makes an invaluable contribution to historical and cultural literacy. The elements and forms of religion – texts and institutions, stories, moral values, symbols, ritual, doctrine, etc. – are studied in their cultural and historical contexts with sensitivity and intellectual precision. Students are introduced to the major religious traditions and to religion in the modern world. Religious Studies is interdisciplinary, relating world religions and the religious dimension of human life to both the humanities and the social sciences. Students interested in a degree program should apply to the department chair.

### Requirements

A minimum of 36 units is required, distributed in the following way:

Core Courses: 15 units selected from the following: R/ST 100, 103, 202, 210, 301, 322, 331I, 425I, 482I, or PHIL 330.

Area courses: 15 additional upper division units from three of the following five categories:

1. *Jewish Studies*: R/ST 311, 312I, 314, 315, 375, 376I, 490\*;
2. *Christian Studies*: R/ST 312I, 322, 375, 376I, 383I, 471I, 472I, 490\*;
3. *Asian Studies*: R/ST 341I, 343, 344, 351, 352, 353I, 490\*, 495\*
4. *Biblical Studies*: R/ST 311, 312I, 322, 375, 376I, 490\*;
5. *Contemporary Religious Studies*: R/ST 302I, 308, 362I, 383I, 391I, 396\*, 425I, 485, 490\*, 495\*

\*When subject matter of special topics course is applicable, the course may be used.

Six additional units are to be selected from either religious studies courses, or AIS 335, CWL 342, PHIL 306. Six to eight units of Biblical Aramaic (R/ST 320A and 320B), Hebrew, Greek or Sanskrit may be substituted.

### FOUR YEAR PLAN TO COMPLETE THE B.A. DEGREE in RELIGIOUS STUDIES (R/STBA01)

120 units required

#### FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

#### I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

#### Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

- 1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.
- 2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.
- 3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).
- 4) You must complete all requirements for admission to impacted majors within the first 60 units.

#### I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

#### I didn't complete the exact list of courses shown. Can I still graduate on time?

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

#### If I follow the plan, will I have all requirements for graduation completed?

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

### Minor in Religious Studies (code R/STUM01)

The Minor in Religious Studies is available to any non-Religious Studies major.

A minimum of 21 units in religious studies courses or courses from other departments approved by the Religious Studies Department.

Lower Division: A minimum of six units selected from R/ST 100, 102, 103, 202, 210, or the equivalent.

Upper Division: A minimum of 15 units including three units from each of the following groups: (a) Western Religious Thought: R/ST 311, 312I, 314, 315, 322, 331I, 375, 376I, 425I, 471I, 472I; (b) Asian Religious Thought: R/ST 341I, 343, 344, 351, 353I. Remaining units are to be selected from Religious Studies courses and the following electives: AIS 335, B/ST 353, CWL 342, HIST 333, PHIL 330.

### Certificate in Religious Studies (code R/STCT01)

#### Requirements

A bachelor's degree with a major in a traditional discipline.

\*A minimum of 30 units in religious studies or courses offered in other departments approved by the Religious Studies Department.

Lower Division: A minimum of nine units selected from R/ST 100, 102, 103, 202 or 210.

Upper Division: A minimum of 21 units including one course from each of the following: (a) Biblical Studies: R/ST 311, 312I, 322, 375, 376I; (b) Western Religious Thought: R/ST 314, 315, 331I, 471I, 472I, 485; (c) Asian Religious Thought: R/ST 341I, 343, 344, 351, 353I. A minimum of twelve upper division units from the preceding courses and the following electives: R/ST 302I, 353I, 362I, 383I, 482I, 490, 499; AIS 335; ASAM 380; B/ST 353; CWL 342; HIST 333; PHIL 330.

## Master of Arts in Religious Studies (code R/STMA01)

### Admission

The primary criteria for admission are the same as those for University graduate admission. In addition, the applicant must have a Bachelor's degree in Religious Studies, or its equivalent, and have achieved a 3.0 GPA in the last 60 semester units attempted. Two letters of recommendation from instructors in the undergraduate major should be included.

### Program Requirements

1. Minimum total units: 30 units of upper division or graduate study, at least 24 of which must be in Religious Studies. The remaining six may be in Religious Studies or another field of study related to Religious Studies and/or the candidate's educational interests. Each student's program must include a minimum of 18 units of graduate courses, at least six of which must be in the 600 series (not including R/ST 697 and 698). All students must satisfactorily complete R/ST 501.
2. A thesis or comprehensive examination.
3. Proficiency in a modern research language (German or French) demonstrated by passing either the ETS examination with a score of 400 or better or two years of course work with an average grade of "B" or better. Proficiency in an appropriate ancient research language (Sanskrit, Biblical Aramaic, Hebrew, Chinese, etc.) replaces this requirement for students concentrating in Ancient Mediterranean and Near Eastern Religions or in Buddhist Studies. Exceptions to this requirement, especially for students not planning to pursue further graduate degrees, can be made at the discretion of the Graduate Studies Committee.
4. Advancement to Candidacy is a statement of how the student plans to complete all courses and requirements for the degree, including establishing a date and a committee for the thesis or comprehensive examination. It is best done as early as possible. Students taking a comprehensive examination must be advanced to candidacy no later than the semester preceding the examination. Students writing a thesis are advanced to candidacy at the time they begin their thesis work.

### Courses (R/ST)

#### Lower Division

##### 100. Introduction to Religion (3)

Prerequisite or corequisite: One GE Foundation course. Origin, nature, and function of religion in the individual and culture with emphasis upon and reference to outstanding personalities, sacred writings, and basic features of the world's leading religions.

##### 102. Introduction to World Religions I (Early and Western) (3)

Prerequisite/corequisite: One GE Foundation course. A survey of representative figures, themes, the schools in Western religious thought, including Judaism, Christianity and Islam.

##### 103. Introduction to World Religions II (Eastern) (3)

Prerequisite/corequisite: One GE Foundation course. A survey of Indian, Chinese and Japanese religious thought. Emphasis will be on original texts in translations.

##### 202. Religion and Society (3)

Prerequisite: Completion of GE Foundation requirements. Religious and secular views of the relation of persons and society with emphasis upon contemporary problems of personal and social ethics, political responsibility and social structure.

##### 210. Introduction to the Bible (3)

Prerequisite: Completion of GE Foundation requirements. An overview of the Sacred texts of Jews and Christians. Inspiration, Creation, Salvation, and other Biblical themes will be discussed, as well as key persons and events, such as Moses, Jesus, etc. Not available to students with credit in R/ST 101A.

##### 212. Introduction to the Qur' an (3)

Prerequisite: Completion of GE Foundation requirement. This course examines critically the Qur' an and analyzes major themes and ethico-religious concepts. It also examines Qur' anic exegeses. Sunni theologians, Shi' ite theologians, the Mu' tazilites, Sufis, and Islamic philosophers. This course offers a general introduction to the Qur' an and Islamic culture focusing on features that shape the subjective experience of Muslims.

##### 230. Hell and Heaven in Judaism (3)

In response to claims that Judaism has no notion of an afterlife this course explores the history and development of notions of the afterlife in Judaism. Jewish ideas about the experience of death and the fate of the person who has died will be studied in the context of broader reflection on ancient Mesopotamian, Egyptian, and Greek views of the afterlife, as well as brief considerations of Christian and Muslim views of the afterlife. Concepts to be explored include Hell, heaven, resurrection, reincarnation, martyrdom, the messianic age, reward and punishment, and justice.

##### 240. Love, Life, and the World (3)

Prerequisite: Completion of GE foundation requirements. This course examines love in life and the world. Students will explore the philosophical, religious-mystical, psychological, social, and natural historical dimensions of love and complete both practical and research projects that will lead them to a fuller understanding of a loving life.

### Upper Division

General Education Category A must be completed prior to taking any upper division course except upper division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

##### 301. Approaching Religion (3)

Prerequisite: Completion of GE Foundation requirements. Study of the methods of religious studies, including the history of religions, comparative and phenomenological study of religions, textual criticism, exegesis, research methods and techniques.

##### 302I. Religious and Social Ethical Dimensions of American Diversity (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. This course examines the religious and social ethical aspects of the adaptation of various American subcultures to the polyglot main-streams of American culture.

##### 308. Comparative Religious Ethics (3)

Prerequisite: Completion of GE Foundation requirements. A comparative introduction to some major ethical questions and modes of moral reasoning in different religious traditions. A basic theme for the course is the fundamental question of how and why ordinary people do good and evil actions. The main focus of the course is introducing the study of ethics within a global perspective, but it also serves as an introduction to each of the religions to be considered.

### 311. Religion and Literature in the Old Testament (3)

Prerequisites: Completion of the GE foundation requirement, completion of one or more Exploration courses, and upper division status. The Old Testament as a religious, historical and literary document with emphasis on the religion and culture of the early Hebrews. Selected books will be read each term, but prime emphasis will be put on Genesis, Exodus, the early prophets, Isaiah. The period of the conquest and the divided monarchies will be studied.

### 312I. Intertestament Literature, Palestine History, and Early Christianity (Dead Sea Scrolls) (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Historical development of Jewish religion and culture in the Second Temple period from the rise of the Maccabees to the beginnings of Christianity with emphasis on the rise of the Jewish State, the coming of the Romans and the beginnings of primitive Christianity (Essenism, Phariseism and Sadduceism).

### 314. Jewish Religion (3)

From the end of the Second Temple period to the close of the Middle Ages. Development from Hellenistic Judaism to Rabbinic Judaism to philosophical theology will be gone into in some detail. Readings from Saadya, Halevi and Maimonides, etc.

### 315. Modern Jewish Thought (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Will deal with the development of Jewish thought from the enlightenment and emancipation from ghettos, through attempts at assimilation, the Holocaust and the birth of the Jewish State. The development of conservative, reform and orthodox Judaism will also be discussed.

### 316. Jewish History (3)

Survey of Jewish history from early times to the present. Subjects such as the Babylonian Captivity, the fall of the Temple, the rise of Rabbinic Judaism, the Dispersion, impact of anti-Semitism, Jewish community and intellectual life in the Middle Ages, Emancipation from the Ghetto, political movements, the Holocaust, Israel.

### 317. Jewish Mysticism (3)

Prerequisite: Completion of GE foundation requirements. In this course students will explore some of the major trends and themes of the Jewish mystical and esoteric tradition. Trends that will be studied include various forms of Kabbalah and Hasidism. Themes to be discussed will include meditation and mysticism; explanations of and responses to evil; the nature of God and the relationship between human beings and the divine being; gender dynamics, and the power of ritual.

### 318. Biblical Hebrew I (3)

Biblical Hebrew I imparts the basic grammatical inflections, conjugations, and structures of elementary biblical Hebrew and starts the student on the path of mastering the specific vocabulary of biblical Hebrew. It introduces the history and particularity of this language as well as the standard reference tools employed in reading biblical Hebrew.

### 319. Biblical Hebrew II (3)

Prerequisite: R/ST 318. Biblical Hebrew II completes the instruction in the grammar of biblical Hebrew and introduces the student to the major syntactical constructions of this language. It further increases the student's biblical Hebrew vocabulary, hones skills in the use of reference books for biblical Hebrew, and allows an initial confrontation with selections from the Hebrew Old Testament itself.

### 320A. Biblical Aramaic I (3)

Prerequisite: Completion of GE Foundation requirements. Alphabets and grammar of Aramaic, the language of Jesus, will be taught. Exercises will be offered in the proper employment of dictionaries and reference tools. Reading will include: Aramaic sections of the bible, Dead Sea Scrolls, ancient Aramaic versions of the Bible, reconstructions of the Aramaic sayings of Jesus (e.g. the Lord's Prayer), and early Christian Aramaic writings. Cultural excursions survey history and development of the ancient international language Aramaic, the varieties of Aramaic script, the discovery of ancient Aramaic inscriptions and manuscripts, and modern studies of Aramaic and its role in understanding Jesus and the Judaism of his time. This unique course-offering is highly recommended for all students of the Bible, ancient Judaism, and early Christianity. Not open to students with credit in R/ST 220A.

### 320B. Biblical Aramaic II (3)

Prerequisite: Completion of GE Foundation requirements. Advanced grammar and reading in Aramaic, the language of Jesus and the international language of the Near East prior to the importation of Greek. Readings from the Aramaic portions of the Bible and related Old Aramaic documents, Dead Sea Scrolls, ancient Aramaic versions of the Bible (Targumin), reconstructions of the Aramaic saying of Jesus, rabbinic writings, and early Christian Aramaic. Select cultural excursions into the historical impact of Aramaic and special study of unpublished manuscripts. Not open to students with credit in R/ST 220B.

### 322. New Testament and Earliest Christian Literature (3)

Prerequisite: Completion of GE Foundation requirements. The emergent Christian community, seen through the missionary and pastoral letters, the synoptic gospels, the radical theologies of Paul and John and the dramatic visions of the Apocalypse.

### 331I. Islamic Religion and Culture (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. The Koran, Muhammad and the rise of Islam as a cosmopolitan faith. The development of Muslim civilization, including literature, theology, philosophy and Sufism (mysticism).

### 337. Sufism (3)

Prerequisite: Completion of GE Foundation, one or more Explorations courses and upper-division standing. The course is first of all a course in human thought and the history of ideas. It covers mainly Sufism and Shi'ism and their intimate relationship. It also examines the contribution of some great Sufis and Shi'ite thinkers to the development of the inner dimensions of Islam i.e. mysticism, esotericism, and spirituality. The course provides mainly an analysis of different extracts from primary sources. Letter grade only (A-F).

### 338I. Medieval Thought in Judaism, Christianity, and Islam (3)

Prerequisites: Completion of GE Foundation, one or more Explorations Courses and upper-division standing. The course is first of all a course in human thought and the history of ideas. It is a survey of the history of medieval Jewish, Christian, and Islamic thought. It examines the contribution of some great philosophers to the development of medieval thought. This course is highly intellectual dealing mainly with abstract concepts of metaphysics: God, creation, and theory of knowledge.

### 341I. Buddhism (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. The Buddha; early Buddhism; the great vehicle; and the vehicle of incantations. The transmission of Buddhism to China, Korea, Japan, Southeast Asia and Tibet. Emphasis on original texts in translations.

### 343. Religions of China (3)

Prerequisite: Completion of GE Foundation requirements. Ancient Chinese religious thought; the penetration of Indian Buddhism and Ch'an (Zen); popular religion and the religion of the scholar-official. Emphasis on original texts in translations.

#### 344. Religions of Japan (3)

Prerequisite: Completion of GE Foundation requirements. The transmission of continental civilization to Japan; shinto, Buddhism and Tokugawa Neo-Confucianism; Genroku culture; and the New Religions. Emphasis on original texts in translations.

#### 351. Hinduism (3)

Prerequisite: Completion of GE Foundation requirements. An introduction to the religious traditions of Hinduism. Emphasis on the historical and textual study of Hinduism through its various literatures (sacred, narrative, poetic, liturgical, and philosophical). Explores Vedic traditions of sacrifice, the speculative philosophy of the Upanishads, the religious epic and mythological literature, the main gods and goddesses, and the devotional poetry of the medieval poet-saints.

#### 352. Religions of India (3)

Prerequisite: Completion of GE Foundation requirements. A survey of Indian religions to the present. Emphasis will be on the ways that religions of historic India have developed and interacted.

#### 353I. Religions of Southeast Asia (3)

Prerequisites: Completion of the GE foundation requirement, completion of one or more Exploration courses, and upper division status. An introduction to the religions of Southeast Asia. Ancient religion, historical transmission and adaptation of Hindu and Buddhist traditions, and recent developments in modern Southeast Asia will be discussed. Emphasis on the religious culture of mainland Southeast Asia.

#### 362I. Religion and Psychology (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. This course examines the religious and psychological interpretation of both individual and community religious activity and experience. (Lecture 3 hours)

#### 375. The Historical Jesus (3)

Prerequisite: Completion of GE Foundation requirements. Historical reconstruction of the life and thought of the "Founder" of Christianity through examination of the preserved sources. Standard historical and religious-historical methods are introduced, practiced in exercises, and integrated into the reconstruction; generally applicable historical and analytical skills are learned. Tendencies of the ancient traditions are studied in the effort to establish what can be known historically about Jesus in his contemporary cultural and political environment.

#### 376I. Christian Origins (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Consideration of Christian origins in the first century and afterwards. In particular, consideration of the two factions in the early Church in Palestine, one following the Apostle to the Gentiles' and the other following the family line of Jesus in a native Palestinian messianic way. Faith vs works. Readings from primary sources like Book of Acts, Paul's letters, Eusebius, and apocryphal literature, and other new discoveries.

#### 383I. Christianity and Global Ethics (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. This course examines the interaction of Christianity with various secular socio-economic ideologies related to the process of globalization, as well as the response of Christianity to the various ethical issues raised by the globalization of capitalism, democracy, and technology. Appropriate responses to such global issues as population growth, environmental degradation, loss of cultural identity, consumerism, and the ambiguous impact of technology will be considered.

#### 391I. Religion and Science (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. This course examines the occasionally harmonious, often acrimonious relationship between religion and science. Using the methods of the history and phenomenology of religion and the history and philosophy of science, students examine, beyond the particulars of the course, the fundamental insights and claims of both religion and science, moving beyond the frequently sharp prejudices they initially bring to their study, to a more reasoned understanding of each alone and in relation to each other.

#### 401./501. Methods and Theories in the Study of Religion (3)

Prerequisite: Consent of Instructor. This course analyzes and compares methodologies used in the discipline of Religious Studies. Selected methods include: social scientific; phenomenology; structuralism; textual criticism and exegesis; personalist and normative approaches to the study of religion. Critical hermeneutics such as Marxist, Feminist, Freudian, and Post-Modern are also explored. Letter grade only (A-F).

#### 425I. Religion and Modern Literature (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. The role of the writer and poet in the secular modern world as religious thinker. The themes of alienation, anguish, absurdity, evil, hope, despair, mystic vision, and salvation will be among those treated.

#### 442./542. Buddhist Ethics (3)

A systematic exploration of the place of ethics and moral reasoning in Buddhist thought and practice. The scope of the course is wide, with examples drawn from the whole Buddhist world, but emphasis is on the particularity of different Buddhist visions of the ideal human life. Attention is given to the problems of the proper description of Buddhist ethics in a comparative perspective. Letter grade only (A-F).

#### 448./548. Theravada Buddhism (3)

A general introduction to Theravada Buddhism, a distinctive religious tradition developed in South and Southeast Asia. The primary aim of the course is to become acquainted with the main features of Theravada thought and practice, both historically and in contemporary Southeast Asian experience. We will explore what it means to be follow the "Way of the Elders," that is, to take refuge in the Triple-Gem of the Buddha, the Dhamma and the Sangha. Emphasis is given to the internal diversity and multiple voices of the tradition. No previous study of Buddhism is presupposed. Letter grade only (A-F).

#### 456./556. Introductory Sanskrit I (3)

This course supplies an introduction to the fundamentals of the Sanskrit language. Students will learn devanagari, the script most commonly used for Sanskrit, and the grammatical foundations of the language. Our primary focus will be on grammar, reading and translation, and exercises in composition. The course is also as an introduction to Indian culture through readings that tell the story of Ramayana, one of the most popular texts in Indian history. Letter grade only (A-F).

#### 457./557. Introductory Sanskrit II (3)

Prerequisite: R/ST 456/556. This course supplies an introduction to the fundamentals of the Sanskrit language. Students will learn devanagari, the script most commonly used for Sanskrit, and the grammatical foundations of the language. Our primary focus will be on grammar, reading and translation, and exercises in composition. The course is also as an introduction to Indian culture through readings that tell the story of Ramayana, one of the most popular texts in Indian history. Letter grade only (A-F).

#### 459./559. Medieval Islamic Thought (3)

Prerequisite: Upper division standing. This course is a survey of the history of medieval Islamic thought covering mainly theology and philosophy. It examines the contribution of great theologians and philosophers to the development of Islamic thought. This course examines the adoption of Greek philosophy into Islam and the ways in which Muslims reconciled philosophy and religion. Letter grade only (A-F).

**460./560. Jewish Christianity (3)**

Prerequisite: Consent of instructor. History and literature of ancient Jewish Christianity in its relationship to Gentile Christianity and Judaism, from the relatives of Jesus through the fourth century. Texts studied include the Gospel of the Ebionites, the Gospel of the Nazoraeans, Hegesippus, the Book of Elchasai, the Pseudo-Clementines, the Disdascalia, and remarks on the Jewish Christians in church writers and Jewish sources. Letter grade only (A-F).

**467. Religion in Latin America and the Caribbean (3)**

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and Upper-division standing. Students will explore the role of religion in the history, politics and culture of Latin America. Beginning with a survey of the Pre-Columbian religions of the Aztecs, Mayas, and Incas, examines the religious impact of the Columbian Encounter as well as the role of religion in the formation of national identities in the 17th, 18th, and 19th centuries and in indigenous resistance to Euro-American hegemony. Also examines recent developments such as the growth of Protestantism, and its impact on the politics of the region; the emergence of Liberation Theology; and the coming of age of such syncretic religions as Santería, Candomblé, and Umbanda. Letter grade only (A-F).

**471I. Early Christianity and Society (3)**

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Development of Christianity from the New Testament period to the Renaissance with emphases on the growth of doctrine, church institutions and the role of Christianity in ancient and medieval society.

**472I. Formation of Modern Christianity (3)**

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Restructuring and renewal of Christianity, from the Reformation through the dawn of modern consciousness to the challenge of 20th century secular life.

**482I. American Religious Experience (3)**

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Survey of major themes in the unique American religious experience. Topics of significance will include the adaptation of European Christianity to novel American circumstances, the proliferation of denominations and the varied religious response to a dynamic American society.

**485. Contemporary Religious Thought (3)**

Prerequisite: Completion of GE Foundation requirements. Critical examination of the current trends in religious understanding against a background of rapid social change. New movements and issues on the religious scene will be considered and a variety of authors representing both East and West will be studied in order to reveal the emerging patterns of religious thought.

**490. Special Topics in Religious Studies (1-3)**

Topics of current interest in religious studies selected for intensive development. A maximum of nine units with different topics may be used in the major. Topics will be announced in the *Schedule of Classes*.

**D. Zen****499. Directed Studies (1-3)**

Prerequisite: Consent of instructor. Directed studies to permit individual students to pursue topics of special research interest. May be repeated to a maximum of 6 units.

**Graduate Level****501./401. Methods/Theories of Religion (3)**

Prerequisite: Consent of Instructor. This course analyzes and compares methodologies used in the discipline of Religious Studies. Selected methods include: social scientific; phenomenology; structuralism; textual criticism and exegesis; personalist and normative approaches to the study of religion. Critical hermeneutics such as Marxist, Feminist, Freudian, and Post-Modern are also explored.

**542./442. Buddhist Ethics (3)**

A systematic exploration of the place of ethics and moral reasoning in Buddhist thought and practice. The scope of the course is wide, with examples drawn from the whole Buddhist world, but emphasis is on the particularity of different Buddhist visions of the ideal human life. Attention is given to the problems of the proper description of Buddhist ethics in a comparative perspective. Letter grade only (A-F).

**548./448. Theravada Buddhism (3)**

A general introduction to Theravada Buddhism, a distinctive religious tradition developed in South and Southeast Asia. The primary aim of the course is to become acquainted with the main features of Theravada thought and practice, both historically and in contemporary Southeast Asian experience. We will explore what it means to be follow the "Way of the Elders," that is, to take refuge in the Triple-Gem of the Buddha, the Dhamma and the Sangha. Emphasis is given to the internal diversity and multiple voices of the tradition. No previous study of Buddhism is presupposed. Letter grade only (A-F).

**556./456. Introductory Sanskrit I (3)**

This course supplies an introduction to the fundamentals of the Sanskrit language. Students will learn devanagari, the script most commonly used for Sanskrit, and the grammatical foundations of the language. Our primary focus will be on grammar, reading and translation, and exercises in composition. The course is also as an introduction to Indian culture through readings that tell the story of Ramayana, one of the most popular texts in Indian history. Letter grade only (A-F).

**557./457. Introductory Sanskrit II (3)**

Prerequisite: R/ST 456/556. This course supplies an introduction to the fundamentals of the Sanskrit language. Students will learn devanagari, the script most commonly used for Sanskrit, and the grammatical foundations of the language. Our primary focus will be on grammar, reading and translation, and exercises in composition. The course is also as an introduction to Indian culture through readings that tell the story of Ramayana, one of the most popular texts in Indian history. Letter grade only (A-F).

**559./459. Medieval Islamic Thought (3)**

Prerequisite: Upper division standing. This course is a survey of the history of medieval Islamic thought covering mainly theology and philosophy. It examines the contribution of great theologians and philosophers to the development of Islamic thought. This course examines the adoption of Greek philosophy into Islam and the ways in which Muslims reconciled philosophy and religion. Letter grade only (A-F).

**560./460. Jewish Christianity (3)**

Prerequisite: Consent of instructor. History and literature of ancient Jewish Christianity in its relationship to Gentile Christianity and Judaism, from the relatives of Jesus through the fourth century. Texts studied include the Gospel of the Ebionites, the Gospel of the Nazoraeans, Hegesippus, the Book of Elchasai, the Pseudo-Clementines, the Disdascalia, and remarks on the Jewish Christians in church writers and Jewish sources. Letter grade only (A-F).

**590. Special Topics in Religious Studies (3)**

Prerequisite: Consent of Instructor. Topics of current interest in Religious Studies selected by the faculty for intensive development. May be repeated to a maximum of 9 units with different topics. Letter grade only (A-F).

**595. Advanced Study (3)**

Prerequisite: Consent of instructor. Study under the supervision of a faculty member. Student must fulfill requirements of a selected upper division course plus additional work appropriate to graduate study as determined by the instructor of the course. May be repeated to a maximum of 9 units with different topics in the same semester. Letter grade only (A-F).

**599. Graduate Tutorial (1-3)**

Prerequisite: Consent of instructor. Supervised and independent study. May be repeated to a maximum of 6 units with different topics in the same semester. Letter grade only (A-F).

**604. Seminar in Religion in the Contemporary World (3)**

Prerequisite: Consent of Instructor. Advanced inquiry into aspects of religion in the contemporary World, including its ethical, cultural, historical or theoretical dimensions. May be repeated to a maximum of 9 units with different topics. Letter grade only (A-F)

**624. Seminar in Ancient Mediterranean Religion (3)**

Prerequisite: Consent of instructor. Advanced inquiry into the religions of the Ancient Mediterranean. Letter grade only (A-F). May be repeated to a maximum of 9 units with different topics.

**646. Seminar in Buddhist Studies (3)**

Prerequisite: Consent of instructor. Advanced inquiry into topics in Buddhist Studies. May be repeated to a maximum of 9 units with different topics. Letter grade only (A-F).

**651. Religion in an Age of Science (3)**

This graduate seminar examines modern opinion ranging from skeptical to hopeful on the possibilities for religious belief in our scientific age. Letter grade only (A-F)

**690. Special Topics in Religious Studies (3)**

Prerequisite: Consent of instructor. Topics of current interest in Religious Studies selected by the faculty for intensive development. May be repeated to a maximum of 9 units with different topics. Letter grade only (A-F).

**697. Directed Research (1-3)**

Prerequisite: Consent of instructor. Directed Studies to permit individual students to pursue topics of special research interest. May be repeated to a maximum of 9 units in the same semester. Letter grade only (A-F).

**698. Thesis (1-6)**

Prerequisites: Advancement to candidacy, consent of advisor. Planning, preparation and completion of thesis for the master's degree. May be repeated to a maximum of 6 units.

# RUSSIAN AND EAST EUROPEAN STUDIES

*College of Liberal Arts*

Director

Harold Schefski (Russian)

Department Office

McIntosh Humanities Building (MHB), Room 810

Telephone

(562) 985-8525 or 985-4317

Students desiring information should contact the department office for referral to one of the faculty advisors.

## Certificate in Russian and East European Studies (code RGR\_CT01)

Russian and East European Studies has an interdisciplinary program which offers students interested in this field the opportunity to pursue courses leading to a Certificate in Russian and East European Studies. Courses used to meet this certificate requirement may be counted also, where applicable toward the General Education requirement and the major and teaching minor requirements of the cooperating departments.

Interdisciplinary in concept, it covers the fields of anthropology, economics, geography, history, comparative literature, philosophy, political science and the Russian language.

The expanding opportunities for careers and public service in foreign policy administration, international organization, international business activities, education and information for intercultural understanding, make it useful to organize studies leading to a certificate in this ever important part of the world. This will tend to enhance the student's possibility for a career in business, education or government, and broaden the scope of understanding.

Interested students should apply to the Director, Russian and East European Studies, Dr. Harold Schefski, Department of Romance, German and Russian.

### Requirements

1. A bachelor's degree with an approved major. Certificate can also be earned concurrently with the bachelor's degree.
2. A minimum of two semesters of a Slavic language;
3. 18 units selected from four of the disciplines listed below chosen in consultation with the student's advisor.  
No more than six units of any one discipline shall apply toward the certificate;  
ANTH 331, 490\*; CWL 349, 428, 449; ECON 490\*; GEOG 318; HIST 341A, 341B, 441, 490\*, 495\*; PHIL 490\*; POSC 306, 356, 357, 484, 497; RUSS 101A-B, 201A, 201B, 310, 312, 314, 410;
4. Cumulative GPA of 2.75 in all courses in the student's approved certificate program.

\*May be taken only when course work is applicable to Russian and East European Studies. Consultation with director of the center is required.

# SPORTS, ATHLETICS AND RECREATION

## University Programs

Executive Director

Bill Shumard

Telephone

(562) 985-4655

The University sponsors a complete athletic program. The Department of Sports, Athletics, and Recreation is the administrative unit responsible for the supervision of intercollegiate athletic programs, the intramural program, the sport clubs, recreation clubs, and recreational fitness for students, faculty and staff.

The department sponsors a diverse program of intercollegiate athletics for men and women. Both programs compete under the rules of the National Collegiate Athletic Association and the Big West Conference, maintaining membership in both organizations. Women's varsity sports are basketball, golf, cross country, soccer, tennis, track and field, volleyball, water polo and softball. Men's varsity sports are basketball, baseball, track and field, cross country, water polo, volleyball, and golf. Students enrolling in intercollegiate athletic programs must meet all NCAA eligibility requirements. Information concerning athletic opportunities available to male and female students and the financial resources and personnel that CSULB dedicates to its men's and women's teams may be obtained from Cindy Masner, SAR, (562) 985-1904.

The intramural program offers all students the opportunity to play in a wide range of sports and activities. The program includes 25 different activities. To receive credit for this program students may enroll in SAR 200. Students must participate in a minimum of three (3) different intramural tournaments or leagues per semester. As an alternative to direct participation, students can earn class credit by officiating 15 intramural games per semester. Team activities are scheduled at varied times. League competition is available in 16 of the activities for men, women and co-educational participation. Students enrolled in the class must contact the Recreational Sports office to sign up for their activities. Upon completion of each activity, the student must notify the Recreational Sports office of their participation.

Students may participate in any of the club sports activities which are partially funded by the Associated Students, Inc., and administered through the SAR Department. These sports are: Aikido, alpine ski-snowboard, archery, bowling, crew, ice hockey, Karate Do, outdoor adventure, rugby, sailing, Shotokan Karate, soccer, surfing, Tae Kwon Do, triathlon, volleyball (men's), ultimate frisbee and water ski. Students registering for SAR 210 must attend regular practices and competitions, assist the club with fund raisers and adhere to the rules and regulations. For information on practice times and meeting locations, contact the individual club coach or president. Visit the Recreational Sports website ([recsports@csulb.edu](http://recsports@csulb.edu)) or visit the office at PE Bldg., room 20. In addition to participation in club sport activities, students may also receive credit for leadership training and service performed with any university sponsored program in which club sports is promoted.

Students may apply no more than four (4) semester units of lower-division SAR courses toward the baccalaureate degree within the 20-unit maximum on activity units generally, except that the combined total of lower-division SAR activity units must not exceed four (4) units and the total of lower-division KPE activity units must not exceed eight (8) units. Upper-division SAR courses, with the exception of SAR 325, may be taken one time only and not in conjunction with the lower division SAR courses. SAR 325 may be repeated to a maximum of 4 semester units and may be taken in conjunction with any other SAR course.

The California State University is committed to providing equal opportunities to men and women CSU students in all campus programs, including intercollegiate athletics.

## Courses (SAR)

### Lower Division

#### 200. Intramural Activities (1)

#### 210. Sport Clubs/Leadership (1)

Participation or competition in sport clubs as conducted under the respective club/team policy or leadership opportunities as outlined by the Recreation Director. Enrollment subject to approval by the coach of the sport or the Recreation Director. Athletes enrolled who fail to qualify for the squad must withdraw from the course. It is the responsibility of the student to contact the representative of each of these teams regarding practice times and eligibility requirements. These courses may be repeated to a maximum of 4 units. Credit/No Credit grading only.

- A. Archery
- B. Crew
- C. Cycling
- D. Ice Hockey
- E. Martial Arts
- F. Rugby
- G. Sailing
- H. Ski and Snowboard
- I. Soccer
- J. Water Ski
- K. Surfing
- L. Leadership
- M. Triathlon

#### 260-299. Intercollegiate Sports (1)

Competition in NCAA-regulated major and minor sports. Enrollment subject to approval of the coach of the sport. Athletes enrolled who fail to qualify for the squad must withdraw from the course. These courses may be repeated to a maximum of 4 units. Credit/No Credit grading only.

#### 261. Women's Softball (1)

#### 262. Men's Baseball (1)

#### 263. Women's Basketball (1)

#### 264. Men's Basketball (1)

#### 265. Women's Track and Field (1)

#### 266. Men's Track and Field (1)

#### 269. Women's Volleyball (1)

#### 270. Women's Water Polo (1)

- 271. Men's Water Polo (1)
- 272. Men's Volleyball (1)
- 275. Women's Golf (1)
- 276. Men's Golf (1)
- 277. Women's Tennis (1)
- 281. Women's Cross-Country (1)
- 282. Men's Cross-Country (1)
- 284. Women's Soccer (1)

#### Upper Division

- 319. Theory and Practice of Minor Intercollegiate Sports (2)  
Both grading options.
- 320. Theory and Practice of Major Intercollegiate Sports (2)  
Credit/No Credit grading only.
- 325. Student-Athlete Leadership Development and University Service (1)  
Prerequisites: Upper division standing., consent of instructor.  
Must be an official member of an NCAA (National Collegiate Athletic Association) Intercollegiate team at CSULB. This course is designed to help student-athlete juniors and seniors hone their communication and facilitation abilities to better function within groups, the community, and in their prospective careers. In addition to focusing on skills needed in any people dynamic and group process, information on academic, athletic, and social development of student-athletes, and how a peer mentor can positively impact that development will be featured. Heavy emphasis will be placed on the experiential component of learning. May be repeated to a maximum of 4 units and may be taken in conjunction with any other SAR course. Credit/No Credit grading only.

The Department of Science Education is strongly committed to the improvement of teaching and learning in science at all levels, Pre-Kindergarten through University. The activities of the Department are highly diversified, ranging from its roots in teacher preparation through science education projects of national significance. Faculty of the Department of Science Education play an important role in preparing and credentialing elementary and secondary school teachers for science teaching. Significant emphasis is also placed on providing experienced teachers with continuing opportunities to refine and raise the effectiveness of their science teaching. Science Education faculty similarly work with university science department teaching associates. In all its endeavors, the Department maintains close ties with the teachers and schools of the greater Long Beach area. The Department offers a Masters of Science in Science Education degree for the practicing teacher of science in elementary, middle and high schools.

The Department also undertakes projects aimed at pre-college students. The "Head Start on Science" project, one of only two such projects supported by the US Department of Health and Human Services, is developing a "sense of wonder" science component for 4-year old "Head Start" youngsters, their teachers and parents. Other recent projects of the Department have included: The Project to Improve Methods Courses in Elementary Science and the Minority Opportunities in Science Teaching Project (Project MOST), Long Beach Science and Math Teacher Education Partnership (LBESTEP), CSU/NASA Education Collaborative and Young Scientists' Camp. To complement their teaching activities, Science Education faculty members maintain an active program of research and are involved in a variety of local, state, and university organizations and projects to improve science and environmental science education.

The Department of Science Education houses a suite of instructional classrooms and a multimedia computer laboratory. The classrooms and lab are Internet-wired offering students interconnectivity and access to many web-based instructional materials. The Department is committed to meaningful integration of technology into the teaching and learning of science. All Science Education students are required to use multimedia tools and electronic probeware in and outside of class. The Department also maintains an extensive Science and Environmental Education Curriculum and Materials Resources Center that includes science teaching guides, textbooks, professional journals, and computer software. Students and local teachers are welcome to explore these resources during campus and daytime hours. The Department also sponsors a student chapter of the National Science Teachers Association (NSTA) known as the Association of Future Science Educators (AFSE).

## Master of Science in Science Education

The M. S. in Science Education is designed primarily for credentialed K-12 teachers interested in deepening their understanding of science, education, and the teaching and learning of science. The program includes a blend of courses from the Department of Science Education, the College of Natural Sciences and Mathematics, and the College of Education. The program introduces candidates to Science Education as a field of study, with its own journals, issues, and research areas.

### Option in Elementary Science Education (code SCEDMS01)

The option in Elementary Science Education is designed for teachers who are K-8 generalists. Although aimed at those with a Multiple Subject credential, the program may also be appropriate for Single Subject teachers interested in increasing the breadth of their scientific knowledge.

Students completing this option will be prepared to assume positions of greater science leadership at their schools or districts, or go on to further graduate study in science education.

### Admission to the Department

#### Prerequisites

In addition to the prerequisites for entrance into CSULB as a graduate student stated in this *Catalog* under Graduate Degrees and Post Baccalaureate Studies, the Department of Science Education requires:

- California Multiple Subject or science teaching credential (or the equivalent).
- GPA of at least 3.0 for the last 60 units of study completed.

Students are expected to exhibit high standards of writing proficiency. Students missing any admission criteria may only be admitted after receiving the approval of a department graduate faculty committee.

#### Application

Prospective graduate students in M.S. in Science Education, including CSULB graduates, must formally apply for admission to CSULB as described previously in this *Catalog* and must also apply directly to the Department of Science Education. All applicants must submit the following documents directly to the department office:

1. Completion of departmental application form, including personal statement. The application form is available in the Department of Science Education office and on the internet [<http://www.scienceteaching.org>, click on "Masters Info"].
2. Two confidential recommendation letters, sent under separate cover, including one from an administrator or supervisor at a school where the applicant is (or was) employed.
3. Transcripts (in addition to those required by the university; photocopies acceptable).

Prospective graduate students must also receive a positive recommendation following an interview with graduate faculty.

## Review by the Graduate Studies Committee

The Graduate Studies Committee will review all completed applications and recommend either accepting of the applicant as a Classified or Conditionally Classified graduate student, or denying admission. All accepted students should contact the Departmental Graduate Advisor before their first semester for advisement and orientation.

### Classified Graduate Student

The Department of Science Education will recommend for admission as a Classified graduate student any applicant who has met all prerequisites and been accepted by the Graduate Studies Committee as a Conditionally Classified student.

### Conditionally Classified Graduate Student

An applicant who fails to meet the criteria for Classified admission to the Department may be considered by the Graduate Studies Committee for admission as a Conditionally Classified graduate student. The Graduate Studies Committee will determine what deficiencies each applicant has and specify what the individual must do to make up those deficiencies. The applicant must make up all such deficiencies before attaining Classified status.

### The Program of Study

The Program of Study includes successful completion of:

1. 6 units from EDP 400, 419, 420, 519, 520, 595, or ETEC 623 (chosen in consultation with advisor)
2. Science Education core courses: SCED 550, 551, 552, 697
3. Science courses: SCED 500, 501, 502.
4. Thesis/Project: SCED 698

### Advancement to Candidacy

In addition to the general University requirements stated under Post-Baccalaureate and Graduate Degrees in this *Catalog*, the student must have completed satisfactorily the Science Education core courses (SCED 550, 551, and 552) and established a Thesis Committee before receiving Candidate status. Upon evidence of satisfactory academic progress, the Thesis Committee will recommend the student for advancement to candidacy by forwarding its recommendation to the Department Graduate Advisor. Upon approval by the Associate Dean for Graduation Accountability, the student will be advanced to candidacy.

### Option in Secondary Science Education (code SCEDMS02)

The Option in Secondary Science Education is aimed at teachers currently holding a Single Subject credential in Science. Graduate students enrolled in this option complete 9 units of graduate coursework in a Science discipline. The option is ideal for teachers interested in broadening their backgrounds in both Science and Science Education.

Students completing either option will be prepared to assume positions of greater science leadership at their schools or districts, or go on to further graduate study in science education.

## Requirements

The program of study includes successful completion of:

1. 6 units from EDP 400, 419, 420, 519, 520, 595, or ETEC 623 (chosen in consultation with advisor)
2. Science Education core courses: SCED 550, 551, 552, 697
3. Science courses: 9 units of graduate level Science (chosen in consultation with advisor)
4. Thesis/Project: SCED 698.

## Courses (SCED)

### Upper Division

#### 302. Elementary School Science Workshop (3)

Prerequisites: SCED 401. A practicum on the development and use of "hands-on" elementary school science teaching/learning activities, units and learning centers. Letter grade only (A-F). (Lecture 2 hrs., workshop 2 hrs.) Course fee may be required.

#### 401. A Process Approach to Science (3)

Prerequisites: BIOL 200; PHSC 112; GEOL 102, 104; all with a "C" or better grade. The processes of science as they relate to the life, earth, and physical sciences. Practical approaches to understanding how science works will be modeled and integrated throughout. Letter grade only (A-F). (Lecture 2 hrs., laboratory 3 hrs.) Course fee may be required.

#### 403. Integrated Science (3)

Prerequisite: Completion of all credential breadth requirements for the Single Subject Teaching Credential Program in Science, three-fourths of the credential specializations courses, and consent of instructor. Enrollment limited to students who intend to pursue a Single Subject Credential in Science. Requires presentations, discussions, critical evaluation by students on selected interdisciplinary topics in the sciences, and field work in integrated science classrooms. Letter grade only (A-F).

#### 404. The Nature of Science and Scientific Reasoning for Teachers (3)

Prerequisites: Completion of at least three-fourths of the credential specialization courses for Single Subject Teaching Credential in science and consent of instructor. Enrollment limited to students who intend to pursue a Single Subject Credential in Science. SCED 404 has three aims. The first aim is that students better understand the nature of science — its history, philosophy, psychology, and sociology. The second is that students better understand the methods of science and how to critically evaluate reports about scientific investigations. Finally, students learn how to apply these understandings to the 6-12 classroom. Letter grade only (A-F). (Lecture 3 hrs.)

#### 490. Special Topics in Science Education (1-3)

Prerequisites: Consent of instructor. Selected topics in Science Education. Course content will vary from section to section. May be repeated to a maximum of 3 units with different topics in different semesters with consent of instructor. Letter grade only (A-F).

#### 496. Directed Studies in Science Education (1-3)

Prerequisites: Consent of instructor. Supervised study of current topics in science education. May be repeated to a maximum of 3 units with different topics in different semesters. Letter grade only (A-F).

## Graduate Level

#### 500. Life Science Applications for K-8 Teachers (3)

Prerequisites: Admission to M.S. in Science Education program; BIOL 200. This course emphasizes major themes and processes in the life sciences, focusing both on deepening understanding of these concepts and on approaches to teaching this material in the K-8 classroom. Practical approaches to developing and teaching inquiry-based/experiential learning units in biology will be modeled and integrated throughout the course. Letter grade only (A-F). (Seminar, 3 hrs.)

#### 501. Earth Sciences Applications for K-8 Teachers (3)

Prerequisite: Admission to the M.S. in Science Education program and GEOL 102+104 or GEOL 106. This course investigates earth science topics with a focus on deepening the connections between earth science concepts and concepts of matter and energy cycling, as well as providing applications of earth science concepts and activities in K-8 classrooms and schools. Letter grade only (A-F). (Seminar, 3 hrs.)

#### 502. Physical Science Applications for K-8 Teachers (3)

Prerequisite: Admission to M.S. in Science Education program; PHSC 112. This course investigates physical science topics with a focus on deepening students' science understanding while showcasing applications of physical science for students' personal lives and their K-8 classrooms and schools. Letter grade only (A-F). (Seminar, 3 hrs.)

#### 550. Current Issues and Research in Science Education (3)

Prerequisite: Admission to M.S. in Science Education program. SCED 550 is a core course in the M. S. in Science Education. This survey course introduces students to the body of research and practical knowledge shared by the science education community. Course work includes studying and discussing articles chosen from the science education literature relevant to key issues in science education. Course requirements include attending local, state, or national science teachers conventions. Letter grade only (A-F). (Seminar, 3 hrs.)

#### 551. Science Teaching, Learning and Curriculum Models (3)

Prerequisite: Admission to M.S. in Science Education program and SCED 550. SCED 551 is a core course in the M. S. in Science Education. The course introduces students to the professional literature about science teaching and learning. The course also traces the historical development of elementary and secondary science curriculum models. Students will look at the role science and education organizations have played in reforming the science curriculum, and analyze curricula from a variety of teaching and learning perspectives. Letter grade only (A-F). (Seminar, 3 hrs.)

#### 552. Nature of Science (3)

Prerequisite: Admission to M.S. in Science Education program and SCED 550. This is a core course in the M.S. in Science Education. This course looks at science from historical, philosophical, psychological, and sociological perspectives. The course examines perceptions of science and scientists, especially views of science in different cultures and times. The course also discusses using these perspectives to teach students about the nature of science. Letter grade only (A-F). (Seminar, 3 hrs.)

#### 697. Directed Research (1-3)

Prerequisite: Consent of instructor and admission to M.S. in Science Education program. Independent investigation of a research problem or directed project, under the direction of a faculty member. Letter grade only (A-F).

#### 698. Thesis (1-3)

Prerequisite: Advancement to Candidacy for the M. S. in Science Education, 18 units of coursework required for M.S. Science Education completed, and consent of the chair of the thesis committee. Planning, preparation, and completion of the thesis project in Science Education. Letter grade only (A-F).

## Single Subject Credential Program (code 100)

The Single Subject Credential Program is a 44 unit program comprised of one prerequisite, four co-requisites, four core courses, and the capstone student teaching experience and student teaching seminar. EDSS 300, the prerequisite course, must be taken prior to other EDSS and EDSE courses. The co-requisites may be taken prior to or concurrent with EDSS 300, or concurrent with the core courses. All course work must be completed prior to student teaching, except for the student teaching seminar which is taken concurrent with student teaching. Student teaching is a full teaching day, Monday through Friday, for approximately 20 weeks under the guidance of one or more cooperating teachers and a university supervisor.

### Program Courses

Prerequisite: EDSS 300 (separate sections offered for each subject area)

Corequisites: EDP 301 or 302 or 305; HSC 411B; EDP 350; Level I technology course or state-approved exam

Core Courses: EDSE 435, 436, 457; EDSS 450

Capstone: EDSS 472 and 473 or 572 and 573

Candidates in the 10 subject area programs can meet the computer technology requirement through the following courses: Art (ART 305), English (ENGL 337), Home Economics (FCS 387), Health Science (ETEC 444), LOTE (RGR 470), Mathematics (MTED 301), Music (MUS 125T), KPE (KPE 354), Science (EDSS 300C, 450C, 472), Social Science (ETEC 444).

All professional coursework for the credential must be completed within seven years of admission to the program.

In addition to professional preparation, all credential candidates must demonstrate subject matter competence by one of the following: (a) completion of a Commission-approved subject matter program; (b) passing scores on the CSET or SSAT exam; (c) transcript review. Candidates should confer as early as possible with the Credential Advisor in their subject area to develop an efficient program plan.

### Admission to the Program

Before beginning the Single Subject Credential Program, students should be admitted to the university. Apply for admission if you are (a) a graduating senior at CSULB, (b) transferring from another institution, or (c) returning to the university after an absence of one or more semesters. Admission to the university does not constitute admission or acceptance in the SSCP. Application to the program is normally made as part of the course requirements for EDSS 300. Students may take the EDSS 300 course as early as the junior year with a minimum of 60 units.

### Program Admission Requirements

1. Complete the prerequisite course EDSS 300 in the appropriate subject area.
2. Perform satisfactorily in the 45 hour field work requirement in EDSS 300.

**A** teacher with a Single Subject Credential is authorized to teach the specific subjects named on the credential in departmentalized schools. This is commonly done in California high schools and in most California junior high and middle schools. However, a teacher authorized for single subject instruction may be assigned to teach any subject in his or her authorized fields at any grade level: pre-school, kindergarten and grades one through twelve; or in classes organized primarily for adults. The Single Subject Credential Program (SSCP) prepares university students to be credentialed in California for single subject instruction. At CSULB the program includes courses in the student's teaching subject area, in Secondary Education (EDSE), and in Single Subject Education (EDSS).

Students are able to receive information brochures by calling the Single Subject Teacher Education Program office at (562) 985-7622.

3. Attain a grade point average of at least 2.67 in all baccalaureate and post baccalaureate course work or a grade point average of at least 2.75 in the last 60 semester units or 90 quarter units attempted.
4. Complete a personal interview with program faculty.
5. Submit two letters of recommendation that speak to the candidate's potential for successful public school teaching.
6. Submit a written statement of professional goals and philosophy of education.
7. Submit an application for a Certificate of Clearance to the California Commission on Teacher Credentialing (CCTC), or provide evidence of recent fingerprint clearance.
8. Submit a tuberculosis skin test or chest x-ray taken within the previous three years. Tuberculosis clearance must be valid through student teaching.
9. Take the CBEST exam. You must take all three parts of the exam. (Passage of the exam is required to advance to student teaching.)
10. Demonstrate proficiency in reading and writing English by (1) attaining the minimum passing score of 37 on the reading portion of the CBEST exam or by (2) achieving a "C" grade or better in a course satisfying the General Education requirement in literature or philosophy and by (1) attaining the minimum passing score of 37 on the writing portion of the CBEST or by (2) fulfillment of the Graduation Writing Assessment Requirement (GWAR).
11. Demonstrate ability to communicate orally in English at the level required of public school teachers by demonstration of English production skills in the course EDSS 300 and through an oral interview with subject matter program faculty. In the case of candidates for a credential in teaching Languages Other Than English, there is a bilingual interview requirement in English and the target language.
12. Demonstrate personality and character traits that satisfy the standards of the teaching profession and suitable aptitude for teaching in public schools through the application documentation, the personal interview, and performance in the course EDSS 300.
13. Submit a completed program application to the EDSS 300 instructor.
14. Complete all requirements for admission to the program unique to the candidate's subject matter program.

### 5 Year Preliminary Credential

Successful completion of the Single Subject Credential Program leads to the Preliminary Credential, which is valid for five years.

#### Requirements

1. Hold a bachelor's degree from an accredited institution.
2. Satisfy the U. S. Constitution requirement (POSC 100 or 391 or exam or equivalent course from another institution).
3. Pass CBEST.
4. Hold a Certificate of Clearance (fingerprint check).
5. Demonstrate subject matter competence.
6. Complete all prerequisite, co-requisite, core and capstone courses with a "B" average and a minimum grade of "C". A minimum grade of "B" must be attained in EDSS 450.
7. Demonstrate Level I Computer proficiency.
8. Complete student teaching.

### Student Teaching

Student Teaching is a full day, full semester responsibility following the school district calendar. Students teach three classes which represent different aspects or levels of the single subject major. The other two periods are for preparation and observation. The university determines the specific student teaching assignment. There are a wide variety of schools and teaching situations available in the program service area representative of the diversity of the region.

Advancement to Student Teaching is based upon a second thorough assessment of the candidate's qualifications. The process involves an evaluation of the applicant's file and an interview with faculty in the Single Subject Program. The criteria for advancement are as follows:

1. Potential for success in teaching, as indicated by successful leadership, teaching experience, or work experience. Updated information regarding the candidate's most recent experience, including work in EDSS 450, forms the basis of this assessment.
2. Continuing motivation for and enthusiasm toward teaching, together with those personality traits believed essential for successful teaching. Evidence includes a strong recommendation from the instructor of the 450 class and further recommendations from faculty who have worked with or have interviewed the student since the time of admission to the credential program.
3. Academic competence, overall and in the teaching major. The level of academic achievement of candidates is expected to be above average.

#### Advancement to Student Teaching Requirements

1. Member in good standing of the Single Subject Credential Program.
2. A GPA of 2.75 in the last 60 units, or 2.67 overall.
3. Complete all program courses, except Student Teaching Seminar.
4. A minimum "B" grade point average in program courses, including prerequisites, corequisites and core courses, with no grade lower than "C." Completion of EDSS 450 with a minimum grade of "B."
5. TB clearance (clearance must be valid through completion of student teaching).
6. Pass the California Basic Educational Skills Test (CBEST) prior to the student teaching application deadline.
7. Satisfy the subject matter mastery requirement prior to the student teaching application deadline.
8. Attend a student teaching application meeting and submit a student teaching application by October 1 or March 1 of the semester prior to student teaching.

#### Student Teaching Application Process

1. Student Teaching applications are distributed at regularly held information meetings. Candidates for advancement to student teaching must attend a meeting. Meeting dates are posted outside the Single Subject Program office and are available on the website.
2. The application for Student Teaching is reviewed by the student's Single Subject major area. The Credential Center evaluates transcripts. The department then makes a recommendation to the University Single Subject Teacher

Education Committee which takes final action. When approved by this committee, the student registers for student teaching. A priority system is used if sufficient funding is not available to allow all qualified applicants to enroll in student teaching.

3. A Certificate of Clearance must be on file in the Credential Center prior to the beginning of Student Teaching.

### Professional Clear Credential

Beginning teachers have five years to obtain the Professional Clear Credential.

### Requirements

1. Hold the Preliminary Credential (see above).
2. Option 1: A Commission-accredited SB 2042 Professional Teacher Induction Program (if available in the district of employment).
3. Option 2: A Beginning Teacher Support and Assessment (BTSA) Program AND the four additional requirements of health education, teaching special populations using technology, and teaching English learners.
4. Option 3: A fifth year of university study AND the four additional requirements of advanced course work in health education, teaching special populations, using technology, and teaching English learners. Advanced courses must be taken after issuance of the Preliminary Credential

### Petition Process

Appeals to program decisions or requests for policy waivers are made by filing a written appeal to the Single Subject Program Petition Committee. The Petition Committee reviews the written statement and supporting evidence and interviews the candidate, if necessary. After the review, the Committee renders its final decision. Examples of petitionable policies are: the minimum grade point average required for program admission, completing all program courses prior to student teaching, and course equivalencies. Consult the program office for items not listed here. Students follow university policy to appeal a course final grade.

### Single Subject Credential Program Majors

The subject matter programs listed below have been approved by the California Commission on Teacher Credentialing. Completion of a program as an undergraduate major (or as a returning graduate student) meets the subject matter competence requirement for the teaching credential. With careful planning, it may be possible for undergraduates to complete the professional preparation (education) courses concurrent with the major, with the exception of student teaching (which may be done the first semester after graduation). Subject matter competence may also be demonstrated by passing the appropriate CSET or PRAXIS and/or SSAT exam. Candidates should consult the Credential Advisor in their area of interest to develop an efficient program plan.

#### Art Education (code 110)

Course requirements for demonstrating subject matter competence in Art are listed in the Art Department under Bachelor of Arts in Arts, Option in Art Education. Subject matter competence may be met through completion of 30 core units and 36 breadth and perspective units. Consult with the Single Subject Art Education Advisor for specific academic

advisement and program information. *The Art Subject Matter Program is being revised to meet new state standards. When the revised program has been approved by the Commission on Teacher Credentialing, the new course requirements will be in effect and supersede current requirements.*

#### English Education (code 120)

Course requirements for demonstrating subject matter competence in English are listed in the English Department under Bachelor of Arts in English, Option in English Education. Subject matter competence may be met through completion of 35 core units and 18 breadth and perspective units. Consult with the Single Subject English Education Advisor for specific academic advisement and program information. *The English Subject Matter Program is being revised to meet new state standards. When the revised program has been approved by the Commission on Teacher Credentialing, the new course requirements will be in effect and supersede current requirements.*

#### Languages Other Than English (LOTE) (French code 152, German code 153, Spanish code 158, Japanese code 155, Latin code 156)

Course requirements for demonstrating subject matter competence in individual Languages Other Than English are listed under the Bachelor of Arts requirements in the appropriate department (French, German, Spanish: Romance, German and Russian Languages Dept.; Japanese: Asian and Asian American Studies Dept.; Latin: Comparative World Literature and Classics Dept.). In each instance, the Bachelor of Arts degree leads to subject matter competence in the language. Consult with the Single Subject Languages Other than English Education Advisor for specific academic advisement and program information. *The LOTE Subject Matter Program is being revised to meet new state standards. When the revised program has been approved by the Commission on Teacher Credentialing, the new course requirements will be in effect and supersede current requirements.*

#### Health Science Education (code 130)

Course requirements for demonstrating subject matter competence in Health Science are listed in the Health Science Department under Bachelor of Science in Health Science, Option in School Health Education. Subject matter competence may be met through completion of 30 lower division units and 46 upper division units. Consult with the Single Subject Health Science Education Advisor for specific academic advisement and program information. *The Health Science Subject Matter Program is being revised to meet new state standards. When the revised program has been approved by the Commission on Teacher Credentialing, the new course requirements will be in effect and supersede current requirements.*

#### Home Economics Education (code 140)

Course requirements for demonstrating subject matter competence in Home Economics are listed in the Family and Consumer Sciences Department under Bachelor of Arts in Family and Consumer Sciences, Option in Communication. Subject matter competence may be met through completion of 35 lower division units and 38 upper division units. Consult with the Single Subject Family and Consumer Sciences Education Advisor for specific academic advisement and program information. *The Home Economics Subject Matter Program is being revised to meet new state standards. When the revised program has been*

approved by the Commission on Teacher Credentialing, the new course requirements will be in effect and supersede current requirements.

### Mathematics Education (code 165)

Course requirements for demonstrating subject matter competence in Mathematics are listed in the Mathematics and Statistics Department under Bachelor of Science in Mathematics, Option in Mathematics Education. Subject matter competence may be met through completion of 30 lower units and 36 upper division units. Consult with the Single Subject Mathematics Education Advisor for specific academic advisement and program information. *The Mathematics Subject Matter Program is being revised to meet new state standards. When the revised program has been approved by the Commission on Teacher Credentialing, the new course requirements will be in effect and supersede current requirements.*

### Music Education (code 170)

Course requirements for demonstrating subject matter competence in Music are listed in the Music Department under Bachelor of Music. Subject matter competence may be met through completion of 85 units for both choral/vocal and instrumental options. Consult with the Single Subject Music Education Advisor for specific academic advisement and program information. *The Music Subject Matter Program is being revised to meet new state standards. When the revised program has been approved by the Commission on Teacher Credentialing, the new course requirements will be in effect and supersede current requirements.*

### Physical Education (code 175)

Course requirements for demonstrating subject matter competence in Physical Education are listed in the Kinesiology Department under Bachelor of Arts in Kinesiology, Option in Elementary, Secondary, or Adapted Physical Education. Subject matter competence may be met through completion of 29 lower division units and 40 upper division units. Consult with the Single Subject Physical Education Advisor for specific academic advisement and program information.

*The Physical Education Subject Matter Program is being revised to meet new state standards. When the revised program has been approved by the Commission on Teacher Credentialing, the new course requirements will be in effect and supersede current requirements.*

### Science Education (Biological Sciences code 184, Chemistry code 181, Geosciences code 182, Physics code 183)

Course requirements for demonstrating subject matter competence in Science are listed in the Science Education Department under Subject Matter Competence for the Single Subject Credential. Breadth and specialization units vary for the four science areas. Consult with the Single Subject Science Education Advisor for specific academic advisement and program information.

*The Science Subject Matter Program is being revised to meet new state standards. When the revised program has been approved by the Commission on Teacher Credentialing, the new course requirements will be in effect and supersede current requirements.*

### Social Science Education (code 185)

The Social Science subject matter program is currently under revision. Consult the Social Science program advisor for new program requirements.

### Single Subject Teacher Internship

In cooperation with approved school districts, the Single Subject Program offers a Single Subject Intern Program. Since the Intern serves as the full-time teacher of record at a cooperating middle or high school, the program is limited to outstanding candidates who have exceptional skills for classroom teaching and who have demonstrated subject matter competence. Interns are generally assigned to teach full-time in a shortage field.

The intern academic program is the same as the regular Single Subject Program. Interns must complete the professional sequence prior to the culminating field experience. The culminating field experience substitutes for traditional student teaching. Interns register for EDSS 572A, B, and C (intern student teaching) and EDSS 573 (seminar) during the final intern semester. The program provides the Intern with university supervision through the EDSS 572 course. The cooperating school district provides site-based support for the Intern.

### Admission Criteria

Candidates submit applications for the Intern Program for review and action by the University Single Subject Teacher Education Committee. Upon acceptance into the Intern Program, candidates must submit the state application for an Intern Credential with supporting documents and fees to the CTC through the CSULB Credential Center.

### Requirements

1. Hold a baccalaureate degree from an accredited institution.
2. Be a member in good standing in the SSCP.
3. Be enrolled in at least one CSULB course.
4. Demonstrate subject matter competence.
5. Pass the California Basic Educational Skills Test (CBEST).
6. Meet the U. S. Constitution requirement.
7. Meet the program GPA requirement.
8. Have health clearance valid through the period of the internship.
9. Hold a Certificate of Clearance.
10. Have an offer of employment as an Intern from a participating school district.

---

### Single Subject Education Courses (EDSS)

---

#### 300A-S. Introduction to Teaching (3)

Prerequisite: Advanced sophomore or junior standing. This course introduces students to the profession of teaching in the state of California, with an emphasis on the specific subject area. It covers in an introductory fashion: the structure, organization, and culture of schools; curriculum, instruction, assessment, and classroom management primarily in secondary school settings (but in some cases, elementary settings); the history and current status of the subject area; becoming a reflective professional. Topics are contextualized in the cultural, linguistic, ethnic, and ability diversities represented in California classrooms. Prepares students for more in-depth study in subsequent courses. Submission of application to the Single Subject Credential Program (SSCP) is made during the course. Directed field work in a middle or high school (or in

some cases, elementary school) required. Required first course in the professional education sequence of the Single Subject Credential Program. Three hours lecture. Forty-five hour fieldwork requirement. "B" grade or better required for admission to the SSCP. Letter grade only (A-F).

- A. Art
- C. Science
- D. Health Science (F)
- F. LOTE: French, German, Japanese, Spanish
- G. English
- H. Home Economics (F)
- M. Mathematics
- N. Music (S)
- P. Physical Education
- S. Social Science

#### 450A. Curriculum and Methods in Teaching Art (3)

Prerequisite: EDSS 300A; admission to the Single Subject Credential Program or permission of the Single Subject Credential Program University Coordinator. Objectives, curriculum, materials, and instructional methods and strategies specific to teaching art to diverse student populations. Builds on prior Single Subject Credential Program courses. Situates content area instruction within the context of the total school program. Emphasizes reflective practice based on the California Standards for the Teaching Profession and state curriculum frameworks. Required prior to student teaching; recommended to be taken the semester immediately prior to student teaching. Course fee may be required. Fieldwork requirement. "B" grade or better required to advance to student teaching. Letter grade only (A-F). May be repeated to a maximum of 6 units.

#### 450C. Curriculum and Methods in Teaching Science (3)

Prerequisite: EDSS 300C; admission to the Single Subject Credential Program or permission of the Single Subject Credential Program University Coordinator. Objectives, curriculum, materials, and instructional methods and strategies specific to teaching science to diverse student populations. Builds on prior Single Subject Credential Program courses. Situates content area instruction within the context of the total school program. Emphasizes reflective practice based on the California Standards for the Teaching Profession and state curriculum frameworks. Required prior to student teaching; recommended to be taken the semester immediately prior to student teaching. Lecture 2 hours; laboratory 3 hours. Fieldwork requirement. "B" grade or better required to advance to student teaching. Letter grade only (A-F). May be repeated to a maximum of 6 units.

#### 450D. Curriculum and Methods in Teaching Health Science (3) S

Prerequisite: EDSS 300D; admission to the Single Subject Credential Program or permission of the Single Subject Credential Program University Coordinator. Objectives, curriculum, materials, and instructional methods and strategies specific to teaching health science to diverse student populations. Builds on prior Single Subject Credential Program courses. Situates content area instruction within the context of the total school program. Emphasizes reflective practice based on the California Standards for the Teaching Profession and state curriculum frameworks. Required prior to student teaching; recommended to be taken the semester immediately prior to student teaching. Fieldwork requirement. "B" grade or better required to advance to student teaching. Letter grade only (A-F). May be repeated to a maximum of 6 units.

#### 450F. Curriculum and Methods in Teaching Languages Other Than English (3)

Prerequisite: EDSS 300F; admission to the Single Subject Credential Program or permission of the Single Subject Credential Program University Coordinator. Objectives, curriculum, materials, and instructional methods and strategies specific to teaching languages other than English to diverse student populations. Builds on prior Single Subject Credential Program courses. Situates content area instruction within the context of the total school program. Emphasizes reflective practice based on the California Standards for the Teaching Profession and state curriculum frameworks. Re-

quired prior to student teaching; recommended to be taken the semester immediately prior to student teaching. Fieldwork requirement. "B" grade or better required to advance to student teaching. Letter grade only (A-F). May be repeated to a maximum of 6 units.

#### 450G. Curriculum and Methods in Teaching English (3)

Prerequisite: EDSS 300G; admission to the Single Subject Credential Program or permission of the Single Subject Credential Program University Coordinator. Objectives, curriculum, materials, and instructional methods and strategies specific to teaching language, literature, and composition to diverse student populations. Builds on prior Single Subject Credential Program courses. Situates content area instruction within the context of the total school program. Emphasizes reflective practice based on the California Standards for the Teaching Profession and state curriculum frameworks. Required prior to student teaching; recommended to be taken the semester immediately prior to student teaching. Fieldwork requirement. "B" grade or better required to advance to student teaching. Letter grade only (A-F). May be repeated to a maximum of 6 units.

#### 450H. Curriculum and Methods in Teaching Home Economics (3) S

Prerequisite EDSS 300H; admission to the Single Subject Credential Program or permission of the Single Subject Credential Program University Coordinator. Objectives, curriculum, materials, and instructional methods and strategies specific to teaching home economics to diverse student populations. Builds on prior Single Subject Credential Program courses. Situates content area instruction within the context of the total school program. Emphasizes reflective practice based on the California Standards for the Teaching Profession and state curriculum frameworks. Required prior to student teaching; recommended to be taken the semester immediately prior to student teaching. Fieldwork requirement. "B" grade or better required to advance to student teaching. Letter grade only (A-F). May be repeated to a maximum of 6 units.

#### 450M. Curriculum and Methods in Teaching Mathematics (3)

Prerequisite: EDSS 300M; admission to the Single Subject Credential Program or permission of the Single Subject Credential Program University Coordinator. Objectives, curriculum, materials, and instructional methods and strategies specific to teaching mathematics to diverse student populations. Builds on prior Single Subject Credential Program courses. Situates content area instruction within the context of the total school program. Emphasizes reflective practice based on the California Standards for the Teaching Profession and state curriculum frameworks. Required prior to student teaching; recommended to be taken the semester immediately prior to student teaching. Fieldwork requirement. "B" grade or better required to advance to student teaching. Letter grade only (A-F). May be repeated to a maximum of 6 units.

#### 450N. Curriculum and Methods in Teaching Music (3) F

Prerequisite: EDSS 300N; admission to the Single Subject Credential Program or permission of the Single Subject Credential Program University Coordinator. Objectives, curriculum, materials, and instructional methods and strategies specific to teaching music to diverse student populations. Builds on prior Single Subject Credential Program courses. Situates content area instruction within the context of the total school program. Emphasizes reflective practice based on the California Standards for the Teaching Profession and state curriculum frameworks. Required prior to student teaching; recommended to be taken the semester immediately prior to student teaching. Fieldwork requirement. "B" grade or better required to advance to student teaching. Letter grade only (A-F). May be repeated to a maximum of 6 units.

#### 450P. Curriculum and Methods in Teaching Physical Education (3)

Prerequisite: EDSS 300P; admission to the Single Subject Credential Program or permission of the Single Subject Credential Program University Coordinator; current standard first aid/CPR certification; completion of all skill performance proficiencies with an overall score of 3.5. Objectives, curriculum, materials, and instructional methods and strategies specific to teaching physical education to diverse student populations. Builds on prior Single Subject Credential Program courses. Situates content area instruction within the context of the total school program. Emphasizes reflective practice based on the California Standards for the Teaching Profession and state curriculum frameworks. Required prior to student teaching; recommended to be taken the semester immediately prior to student teaching. Fieldwork requirement. "B" grade or better required to advance to student teaching. Letter grade only (A-F). May be repeated to a maximum of 6 units.

---

## Single Subject Education Courses (EDSS)

---

**450S. Curriculum and Methods in Teaching Social Science (3)**  
Prerequisite: EDSS 300S; admission to the Single Subject Credential Program or permission of the Single Subject Credential Program University Coordinator. Objectives, curriculum, materials, and instructional methods and strategies specific to teaching social science to diverse student populations. Builds on prior Single Subject Credential Program courses. Situates content area instruction within the context of the total school program. Emphasizes reflective practice based on the California Standards for the Teaching Profession and state curriculum frameworks. Required prior to student teaching; recommended to be taken the semester immediately prior to student teaching. Fieldwork requirement. "B" grade or better required to advance to student teaching. Letter grade only (A-F). May be repeated to a maximum of 6 units.

### 472A,B,C. Student Teaching (5,5,5)

Prerequisite: EDSS 450 (A, C, D, F, G, H, M, N, P, or S) and admission to the Single Subject Credential Program, or permission of the University Coordinator; submission of application to student teach by the deadline (October 1 for Spring term; March 1 for Summer and Fall terms); passage of CBEST; character and identification clearance (fingerprint clearance); completion of all program course work; demonstration of subject matter competence; portfolio assessment in selected programs; approval for advancement to student teaching by the Credential Advisor and University Coordinator of the Single Subject Credential Program. Student teaching must be completed in the subject that will be authorized on the candidate's credential. Student teachers are assigned a minimum of five periods daily for the length of the placement school's semester (approximately 20 weeks). They teach three classes representing at least two different aspects or levels of the subject. Two additional periods are for preparation, observation, and consultation with the cooperating teacher and university supervisor. Student teachers must achieve a satisfactory evaluation on the Teaching Performance Assessment in order to be recommended for the credential. Students must enroll concurrently in EDSS 473: Student Teaching Seminar. ("A" or "B" quality work required for credit). Credit/No Credit grading only. May be repeated to a maximum of 10 units.

### 473A-S. Student Teaching Seminar (2)

Prerequisite/Corequisite: Admission to the Single Subject Credential Program, or permission of the Single Subject Credential Program University Coordinator; advanced to student teaching. Concurrent enrollment in EDSS 472 (Student Teaching). Links issues of theory and practice within the context of the California Standards for the Teaching Profession. Covers curriculum, instruction, assessment, classroom management, equity and access for all students. Looks forward to the induction phase of teaching and a career in the profession. Letter grade only (A-F). May be repeated to a maximum of 4 units.

- A. Art
- C. Science
- D. Health Science
- F. LOTE
- G. English
- H. Home Economics
- M. Math
- N. Music
- P. Physical Education
- S. Social Science

**\*490. Curriculum Topics in Selected Academic Subjects (1-3)**  
Prerequisite: Consent of instructor. A study of curriculum taught in the secondary schools. Academic subject to be covered will be announced in the *Schedule Of Classes*. May be repeated to a maximum of 6 units with different topics; but only 6 units with a letter grade may be applied toward advanced degrees.

### 497. Independent Study (1-3)

Prerequisites: Consent of instructor and Single Subject Program Coordinator. Independent study undertaken under the supervision of a faculty member. May be repeated to a maximum of 3 units.

## Graduate Level

### 572A,B,C. Intern Student Teaching (5,5,5)

Prerequisite: Admission to the Single Subject Intern Program; offer of intern teaching position from a cooperating school district; submission of application to student teach by the deadline (October 1 for Spring term; March 1 for Summer and Fall terms); passage of CBEST; character and identification clearance (fingerprint clearance); completion of all program course work; demonstration of subject matter competence; portfolio assessment required in selected programs; approval for advancement to intern student teaching by the Credential Advisor and University Coordinator of the Single Subject Credential Program. Intern student teaching must be done in the subject that is authorized on the intern's credential. Interns contract with cooperating school districts to assume full teacher of record responsibilities. Interns must achieve a satisfactory evaluation on the Teaching Performance Assessment in order to be recommended for the Preliminary Credential. Interns must enroll concurrently in EDSS 573: Intern Student Teaching Seminar. Normally completed in a single semester. ("A" or "B" quality work required for credit). Credit/No Credit grading only. May be repeated to a maximum of 10 units.

### 573. Internship Student Teaching Seminar

Prerequisite/Corequisite: Admission to the Single Subject Credential Program, or permission of the Single Subject Credential Program University Coordinator; advanced to student teaching. Concurrent enrollment in EDSS 572 (Intern Student Teaching). Links issues of theory and practice within the context of the California Standards for the Teaching Profession. Covers curriculum, instruction, assessment, classroom management, equity and access for all students. Looks forward to the induction phase of teaching and a career in the profession. Letter grade only (A-F). May be repeated to a maximum of 4 units.

- A. Art
- C. Science
- D. Health Science
- F. LOTE
- G. English
- H. Home Economics
- M. Math
- N. Music
- P. Physical Education
- S. Social Science

---

## Secondary Education Courses (EDSE)

---

### 435. United States Secondary Schools: Intercultural Education (3)

Prerequisite: EDSS 300 (A, C, D, F, G, H, M, N, P, or S); or admission in the Single Subject Credential Program; or permission of the University Coordinator of the Single Subject Credential Program. Required course in the Single Subject Credential Program. Provides students with foundational knowledge of education (historical, philosophical, sociological, political) grounded in contemporary society and schools. Key concepts include: socialization, culture, cultural contact, race, class, ethnicity, exceptionalism and other aspects of identity and their impact on schooling. Approved CLAD Certificate course (Domain 3). Fifteen hour fieldwork requirement. Letter grade only (A-F). May be repeated to a maximum of 6 units.

### 436. Curriculum, Instruction, Assessment and Classroom Management (3)

Prerequisite: EDSS 300 (A, C, D, F, G, H, M, N, P, or S); or admission in the Single Subject Credential Program; or permission of the University Coordinator of the Single Subject Credential Program. Required course in the Single Subject Credential Program. Explores systematic instruction, theories of learning, curriculum development, teaching strategies, assessment and evaluation of student progress, classroom management and discipline, and establishing successful learning environments for all students. Fifteen hour fieldwork requirement. Letter grade only (A-F). May be repeated to a maximum of 6 units.

#### 457. Reading and Writing in the Secondary School (3)

Prerequisite: EDSS 300 (A, C, D, F, G, H, M, N, P, or S); or admission in the Single Subject Credential Program; or permission of the University Coordinator of the Single Subject Credential Program. Required course in the Single Subject Credential Program. Emphasis on assessment and instruction of individuals and groups; textbook selection and evaluation; vocabulary development; comprehension strategies; content area reading and study skills; writing instruction; application of decoding skills to new and technical vocabulary and spelling patterns; transfer of primary language reading skills into English language skills; English usage in a variety of formal and informal settings; and the special reading needs of less prepared learners, accelerated learners, and English language learners. Addresses issues of diversity and equity within the context of teaching reading and writing in content areas. Includes individual/tutorial instruction of an adolescent. Minimum fifteen hours of field work required. Letter grade only (A-F). May be repeated to a maximum of 6 units.

### Undergraduate Advisor

Kristine M. Zentgraf

The major in sociology is intended to serve as preparation for careers in teaching, delivery and administration of social and health services, urban and environmental studies, law, government service at local, state and federal levels and related occupations. The major also provides training for advanced graduate work in sociology, social work and other social sciences. Sociology is also recommended as a second major or minor for students of all other social sciences; for business; for the humanities; especially literature and theatre arts; for ethnic and area studies; for journalism and other various applied arts and sciences.

Students interested in sociology may also wish to consider the liberal studies major with a concentration in sociology. The Liberal Studies program is discussed elsewhere in this *Catalog*. Detailed information about the concentration may be obtained from the Sociology Department Office.

Sociology courses are suitable for fulfilling general education or elective requirements for students of other majors.

However, lower division courses selected to fulfill the requirements of the major may not also be used to fulfill the requirements of any General Education category.

## Bachelor of Arts in Sociology (code SOC\_BA01) (120 units)

### Requirements

**Lower Division:** Twelve units of lower division are required. Students must have credit for SOC 100, 142, 200, and 250. It is recommended that students take Cultural Anthropology (ANTH 120) as an elective.

**Upper Division:** All majors are required to have a minimum of 31 upper division units in sociology. This must include (1) at least 16 units in core courses: SOC 335I or 354, 356, 420 or 427, 355, 456; and (2) nine units in one concentration and (3) six units of electives from other upper division courses in sociology. Total credit for courses numbered 490 through 499 may not exceed twelve units. Completion of at least 51 semester units of college work is required before students will be accepted into upper division courses.

The department strongly recommends that lower division courses be completed before upper division courses. Taking the courses in sequential order will allow students to gain maximum benefit from the curriculum. Experience has shown that students who take courses out of sequence do not perform as well academically. SOC 200, Introduction to Data Analysis, and SOC 250, Elementary Statistics, should be taken before SOC 355, Methods of Social Research. Required upper division courses also should be taken in sequential order consecutively. SOC 356, Developmental Sociological Theory, should be taken before SOC 456, Modern Sociological Theory.

### Concentrations

#### Deviance and Social Control

SOC 345, 354\*, 423, 440, 441I, 448, 463, 491, 495

#### Interaction and Group Relations

SOC 320, 325 (or W/ST 325), 335I\*, 336, 340 (or CHLS 350), 341, (or CHLS 352), 345, 346, 354\*, 423, 426, 464, 492, 495, W/ST 401I

#### Medical Sociology

\*GE Interdisciplinary Capstone Classes may be able to count in GE and for major - see advisor  
 Total credit for courses numbered 490 through 499 may not exceed 12 units

**FAQ Concerning Road Maps for Completion of Undergraduate Degrees**

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

**I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?**

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

**Must I take the courses in the semesters shown on the plan?**

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

**I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?**

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

**I didn't complete the exact list of courses shown. Can I still graduate on time?**

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

**If I follow the plan, will I have all requirements for graduation completed?**

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

## Minor in Sociology (code SOC\_UM01)

A minimum of 24 units which must include:

Lower Division: SOC 100, 142

Upper Division: SOC 3351 and a minimum of 15 units selected from other upper division courses in sociology. Total credit for courses numbered 490 through 499 may not exceed 6 units.

## Courses (SOC)

### Lower Division

#### 100. Principles of Sociology (3)

Prerequisite: Completion or concurrent enrollment in a general education foundation course. Introduction to basic concepts of sociology and sociological analysis, emphasis upon group, status, role, personality, socialization, social processes, institutions, social organization and sociocultural change. (CAN SOC 2)

#### 142. Social Trends and Problems (3)

Prerequisite: Completion of or current enrollment in ENGL 100 or PSY 130 or equivalent. Sociological principles applied to contemporary social trends and problems including family problems, health and illness, inequalities of age, gender and race, crime, drug abuse, urbanization and population growth, poverty, economic change, environmental pollution, and war and terrorism. Students are encouraged to view social problems in a larger socio-cultural context which is both historical and global. They are encouraged to think critically about the relevance of these problems to their own lives and the lives of their children. Open to non-majors for General Education credit in Category D.2.B.

#### 161. Introduction to Latin American Studies (3)

Prerequisite: Completion or concurrent enrollment in ENGL 100. This course offers an interdisciplinary overview of history, society, and culture in Latin America – Mexico, Central American, the Caribbean, and South America. It will examine the political, economic, social, and cultural conditions that have produced conflict, change, and continuity in Latin America over the last five hundred years. Same course as HIST 161. Letter grade only (A-F).

#### 200. Introduction to Data Analysis (3)

A beginning course in the use of computers for accessing and analyzing data. Topics covered include principles of scientific research, data coding, entry, editing, and analysis. Students will use the Statistical Package for the Social Sciences to analyze data, and such software programs as WordPerfect to prepare research documents, and Netscape Navigator to explore the resources available on the Internet.

#### 250. Elementary Statistics (4)

Prerequisite: Knowledge of mathematical procedures usually covered in elementary high school algebra as demonstrated on a screening examination, and SOC 200. Introduction to descriptive and inferential statistics and their applications in social and behavioral science research; performance of statistical exercises by interactive computer. Emphasis upon knowledge of which statistical tests to use and how to interpret their results. (Discussion, Lab) (Not open to students with credit in HDEV 250, C/LA 250, ANTH 202, SOC 210, MATH 180, or PSY 110.)

#### 255. Elementary Statistics (3)

Not open to students with credit in C/LA 250, HDEV 250, MATH 180, or PSY 210. Prerequisite: Knowledge of mathematical procedures usually covered in elementary high school algebra and SOC 200. Covers the Concepts and techniques of descriptive and inferential statistics and statistical reasoning as applied to social research. Focuses on the understanding of statistical measures and the assumptions underlying them. Includes use of interactive computers. Letter grade only (A-F).

### Upper Division

General Education Category A must be completed prior to taking any upper division course except upper division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

#### 317I. Problems in International Social Conflict (3)

Prerequisites: Completion of the GE Foundation, one Explorations course, and upper division standing. An interdisciplinary, social-scientific analysis of the causes, human costs, and possible remedies of social conflict in the world today. Topics may include ethnocentrism, nationalism, globalization, trade and aid, economic development, poverty and inequality, the environment, war and civil unrest, and ideological, ethnic, gender, and religious conflict. Special attention to the spread of democracy, the emergence of global social movements, and new forms of civil society and social solidarity. Letter grade only (A-F). Same course as I/ST 317I.

#### 318I. Cases in International Social Conflict (3)

Prerequisites: Completion of the GE Foundation, one Explorations course, and upper division standing. An interdisciplinary, social-scientific analysis of the causes, human costs, and possible remedies of social conflict in the world today. Case studies will consider factors such as globalization; technology; economic development; trade and aid; population growth; immigration; ideological, religious, ethnic and gender conflicts; war and civil unrest. Special attention to human rights, democratization, global citizenship, and environmental sustainability. Letter grade only (A-F). Same course as I/ST 318I.

#### 320. The Family (3)

Prerequisite: SOC 100 or consent of instructor. Family as a social institution in various cultures with stress on the American family systems. Analysis of forces producing change, organization and disorganization of family systems.

#### 325. Sociology of Women (3)

Socio-cultural position of women; a brief history of women's role and status; societal attitudes toward women's place in society. Open to both men and women. Same course as W/ST 325.

#### 335I. Social Psychology (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Examines social processes in personality development and the socialization process whereby the individual is integrated into social groups. Includes social influence of family, peers, reference groups and subcultures. Examines the impact of primary groups, social organizations and mass media on attitudes and behavior. Not available to students with credit in PSY 351.

#### 336. Sociology of Small Groups (3)

Prerequisite: SOC 100. Designed to give theoretical and practical understanding of sociological concepts and principles found in the dynamics of small groups, research and theory, the individual in a social situation, the group as a system of social interaction, leadership, methodology, and the small group approach to a problem.

#### 340. The Latino Population in the United States (3)

Survey of the most recent socio-economic information on "Hispanics", issues of immigration and settlement patterns, employment and income, family, language and culture will be examined. Particular attention will be paid to the changing points at which racism has intersected with factors of class and gender. This is a comparative course designed to highlight heterogeneity of the larger Latino aggregate population. Same course as CHLS 350.

#### 341. Central American and Caribbean Peoples in California (3)

Survey of the socioeconomic conditions and cultural life of the Central American and Spanish-speaking Caribbean communities of California: Salvadorans, Guatemalans, Puerto Ricans, Cubans, etc. Not all groups will necessarily be dealt with each time the course is offered. Similarities with and differences from the Mexican-American community will be examined. Same course as CHLS 352.

### 345. Juvenile Delinquency (3)

Juvenile delinquency as a recent social "invention;" extent and distribution; major explanatory theories ranging from classical to radical views; societal reaction; the juvenile justice system with emphasis on the contemporary trend toward diversion programs.

### 346. Race, Gender and Class (3)

Prerequisite: Completion of the G.E. Foundation. This course examines the experiences of gender, race and class in diverse groups and populations. An assessment is conducted of the institutionalized systems of sexism, racism and classism and of the economic and political structures and social processes which maintain these systems.

### 350. International Population Problems (3)

Presents the basic demographic variables (fertility, mortality and migration) and methods (vital statistics and census). Historical and current trends and problems in world population composition, growth and movement are examined with particular attention to social processes.

### 354. Qualitative Methods of Social Research (4)

Prerequisites: SOC 100, 250, and one upper division course in sociology. Review and critique of principles and essential features of classical and contemporary qualitative studies. Examination of the influence of symbolic interactionism and its derivatives. Topics covered: research design, including use of unobtrusive measures; modes of participant observation; interviewing techniques; limitations of "snowball" and other convenience sampling techniques; analysis and interpretation of qualitative data. Field assignments and an individual student research project are required. (Lecture 3 hours, laboratory 2 hours.)

### 355. Quantitative Methods of Social Research (4)

Prerequisites: SOC 100, 200, 250 and one upper division course in sociology. Topics that will be covered are: research design, including operationalization, measurement, scaling, reliability, validity and sampling; techniques of data collection and analysis; and report writing. Use of the computer and an individual student research project are required. (Lecture 3 hours, laboratory 2 hours) Letter grade only (A-F).

### 356. Development of Sociological Theory (3)

Prerequisite: SOC 100. Social thought and historical forces leading to the emergence of sociology, and an exploration of classical theories into the 1930s including such thinkers as Marx, Durkheim, Weber, Mead and Merton.

### 372I. Living in Space (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Human physical and social adaptations to living in space habitats in Low-Earth Orbit or at key transfer points (such as L5) elsewhere in the solar system. Analysis of psychological reactions to weightlessness and disruption of normal daily cycles and resulting changes in patterns of activities and communication. Effects of changing reference group identification from a nationality or ethnic group to humanity as a whole. The essentials of life support including the production of consumables and protection from space hazards are delineated. Also discussed are recruitment, management of space missions, and political organization of permanent space facilities. A special focus is given to cultural changes associated with spending all of one's time with the same people, such as more symbiotic and less exploitative patterns of interaction and enhanced gender and age equality.

### 374I. Solar System Habitation and Development (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Dynamics of settlements on the Moon, on Mars, in the asteroid belt, and on the largest satellites of Jupiter and Saturn. Expanding the resource base for humanity allows economy-of-scale sharing to supersede zero-sum economic competition. Discussion of the implications of the common-heritage-of-mankind principle embodied in space treaties and the declining significance of nation states for space settlers. Analysis of available propulsion systems and mission trajectories to determine probable structure of transportation vessels and limitations this imposes on initial settlements on various new worlds. Special attention to the enhanced feasibility of space missions utilizing lunar resources, the terraforming potential of Mars, and the type of society which may develop in these locations.

### 410I. Social Ecology (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Analysis of interdependencies of elements of populations, environment, technology and social organization. Examines socio-ecological relationships currently and in historical perspective, in simple and complex societies. Presentation and analysis of world and U.S. problems in social ecology. A field research project will be required.

### 420. Social Stratification (3)

Prerequisite: SOC 100. Characteristics and functions of social stratification especially in the United States. Different theoretical perspectives, how social class affects the opportunity structures, for income, upward mobility and various measures of "the good life" in America today.

### 423. Child Abuse and Prevention (3)

This course will examine child abuse as a social problem; its history and causal factors, including social change and changing family patterns. Intervention practices, including identification and investigation, social services and court intervention will be reviewed, especially the roles of health professionals, criminal justice and corrections personnel, social workers and educators. Finally, policy implications will be examined, including the role of concerned citizens and child advocates. (Discussion/Seminar) Same course as SW 423.

### 426. Sociology Sex Behavior (3)

The social context of human sexuality effects of socialization, social class, occupation and religion on sexual attitudes and behavior.

### 427. Social Order and Social Change (3)

Prerequisite: SOC 100 and upper division status. Introduction to classical and recent analysis of social order and social change. Study of institutions and organizational structure of social systems in the past and present and their effects on human life.

### 440. Sociology of Deviance (3)

Prerequisite: SOC 100. Sociological approaches to the study of deviance; a varied look at behaviors, beliefs, physical appearance, emotion, and medical, legal, media influences in defining deviance; central questions include: How do definitions of deviance change? What processes are involved in a person defining him/herself as a deviant? What role do the central institutions of society play in the perception and definition of deviance? (Lecture 3 hours.)

### 441I. Criminology (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Study of the major theoretical approaches to crime, e.g., sociological, psychological, psychiatric, biological. Emerging interdisciplinary approaches to crime. Responses to crime and criminals, e.g., prisons, jails, death penalty, self-help, psychotherapy, social reform, media. Types of criminal behavior. Victims of crime. (Lecture/Discussion.)

**448. Impersonality, Violence and Survival: An Analysis Through Film (3)**

Exploration through film of the societal conditions that facilitate impersonality, and alienation and ultimately violence in modern society. The study of the struggle of the individual to survive, both physically and psychologically, in modern society. Focus on attempts of individuals to transcend social barriers. Course does not include exploitation films but rather films that provide a serious commentary on the nature of modern society. Not open to students with credit in this subject under SOC 490. (Discussion)

**449I. Sociology of Political Rights (3)**

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Examination of the nexus between the political process and legal institutions with a focus on how the sociology of law provides a different perspective than the legal doctrines set forth in published judicial opinions. Emphasizes the development of analytical abilities which are useful to students anticipating a career in the law or other policy-making fields.

**450. Marxist Sociology (3)**

Analysis of human behavior, society and social change from a Marxist perspective.

**456. Modern Sociological Theory (3)**

Prerequisites: SOC 100, 356 and one other upper division course in sociology. Recommended: courses in the philosophy of science and research methods. A critical review of schools of sociological thought from the 1930's to the present. A minimum of three major schools such as functionalism, interactionism (dramaturgy, ethnomethodology, humanistic post-structuralism), conflict, exchange, and system theory will be covered in depth and considered in relation to the nature of theory construction. Intended primarily for majors in this field. Letter grade only (A-F).

**461I. Alcohol and Society (3)**

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Recommended: an elementary statistics course. Epidemiological and sociological approaches to the study of alcohol use and abuse; sociocultural correlates of alcohol use as disclosed by national and regional surveys; effects of alcohol use on physical and mental health; the role of government and other organizations in the prevention and treatment of alcohol abuse.

**462. Medical Sociology (3)**

Prerequisite: Completion of the G.E. Foundation. Epidemiological and sociological approaches to the study of health and illness; patterns of physical and mental disease; patient and physician perspectives on the development of disease; causes of stress and coping repertoires; types of adaptation of the chronically ill; health care delivery and utilization, particularly in the United States; and interaction of physician, nurse, therapist, health administrator, social worker, patient, and family members.

**463. Mental Illness and Society (3)**

Prerequisite: SOC 100. Epidemiological and sociological approaches to the study of mental health and illness; prevalence and incidence of mental disorders as disclosed by community and national surveys; effects of family history, work experience and life-change events on various facets of intellectual and affective functioning; the social and legal status of the mental patient; the role of government and other organizations in the prevention and treatment of mental illness.

**464. Aging and Society (3)**

Prerequisites: SOC 100 or 142. This course examines aging and the life course. It explores how the aging process is influenced and shaped by societal forces. The course emphasizes adult development and life course transitions. The social epidemiology of the aging process is covered through an examination of the relationship between age status and other variables, including gender, race, social class, marital status, and health status. Dimensions of age-based stratification and surrounding social policy issues are explored.

**466. AIDS and Society (3)**

Prerequisites: SOC 100 or 142 or PSY 100. Recommended: BIOL 100 or 200 or MICR 100 or 101. Places the contemporary disease, acquired immuno-deficiency syndrome (AIDS) in sociological perspective. Covers history, etiology and epidemiology of AIDS. Includes biomedical and sociological research on AIDS. Focuses on behavioral aspects and societal impact of the AIDS epidemic. Letter grade only (A-F).

**470. Science and Religion in Biography (3)**

Prerequisites: ENGL 100 and consent of instructor. Critical comparison of the theories, doctrines and methodologies of religions and quasi-religions in contrast to all the natural sciences including the social and behavioral sciences. Sources of bias in different methods of inquiry (scientific, humanistic and religious) will be examined through classical and contemporary case material, focusing on biographies, with a view toward illuminating the proximate objectives of each mode as well as its ultimate aims. Effectiveness of these alternative approaches to human understanding will be considered in relation to achieving self integration. Letter grade only (A-F).

**490. Special Topics in Sociology (1-3)**

Topics of special interest in sociology selected for intensive study. Topics will be announced in the *Schedule of Classes*. May be repeated to a maximum of 6 units with different topics.

**491. Special Topics in Deviance and Social Control (3)**

Topics of special interest in Deviance and Social Control selected for intensive study. Topics will be announced in the *Schedule of Classes*. May be repeated to a maximum of 6 units with different topics (Discussion.) Letter grade only (A-F).

**492. Special Topics in Interaction and Group Relations (3)**

Topics of special interest in Interaction and Group Relations selected for intensive study. Topics will be announced in the *Schedule of Classes*. May be repeated to a maximum of 6 units with different topics. (Discussion.) Letter grade only (A-F).

**493. Special Topics in Medical Sociology (3)**

Topics of special interest in Medical Sociology selected for intensive study. Topics will be announced in the *Schedule of Classes*. May be repeated to a maximum of 6 units with different topics. (Discussion.) Letter grade only (A-F).

**494. Special Topics in Social Change and Global Issues (3)**

Topics of special interest in Social Change and Global Issues selected for intensive study. Topics will be announced in the *Schedule of Classes*. May be repeated to a maximum of 6 units with different topics. (Discussion.) Letter grade only (A-F).

**A. Sociology of Migration and Immigration**

**495. Internship (1-4)**

Prerequisites: SOC 100, 142, 335I, junior or senior standing, consent of instructor. Supervised field experience in public and private agencies, relating sociological principles to community situations. Designed to provide career-related work experience in both research and applied fields. Students may enroll for 1-4 units depending on field assignment and time required. May be repeated to a maximum of 6 units. (6-10 hours per week field experience.)

**496. Field Practicum (1-3)**

Prerequisites: SOC 495. This course is a continuation of the Internship course (SOC 495.) Students who continue working at an agency in the community will conduct one or more special projects for that agency. Students in the practicum will meet as a group to discuss the progress of their projects and will submit papers which summarize their experiences in carrying out these projects. Students may enroll for 1-3 units depending on field assignment and time required. May be repeated to a maximum of 4 units.

### 497. Peer Facilitation in Sociology (3)

Prerequisites: A grade of at least a "B" earned in at least one upper division course related to the peer facilitation activity and consent of instructor. Conducting an optional discussion section, assisting an instructor in class exercises, projects or small group discussions, or tutoring individual students in special sessions. Peer facilitation activities will be guided by meetings with the supervising faculty members and supplemented by reading and writing assignments. May be repeated to a maximum of 6 units. Letter grade only (A-F).

### 499./599. Directed Studies (1-3)

Prerequisite: Consent of instructor. Independent study of special topics under supervision of a faculty member. May be repeated to a maximum of 4 units. In exceptional cases, may be repeated to a maximum of 6 units with consent of department.

## Graduate Level

### 599./499. Directed Studies (1-3)

Prerequisite: Consent of instructor. Independent study of special topics under supervision of a faculty member. May be repeated to a maximum of 4 units. In exceptional cases, may be repeated to a maximum of 6 units with consent of department. Undergraduates who have completed more than 3 units of SOC 499 may not enroll in SOC 599. Letter grade only (A-F).

# STUDENT SERVICES AND CAMPUS LIFE

## Academic Advising Center

The Academic Advising Center, located in Academic Services, room 124, serves students who seek information and advice concerning General Education requirements, electives, University rules and regulations, graduation requirements, academic probation, and disqualification and academic appeals. The Academic Advising Center is the "home base" for all undeclared students, including signature authority on all university-related documents. The Academic Advising Center also presents the Parent Orientation Program (POP) as well as the Strategies for Academic Success Program and the mandatory Advising Program for Freshmen.

Students are seen on an appointment basis. Some service as well as answers to quick questions are also available and is provided by staff and faculty.

The Academic Advising Center is located in Academic Services, room 124. The telephone number is (562) 985-4837. The Center is open for advising Monday - Thursday from 9:00 a.m. - noon and 1:00 p.m. - 5:00 p.m., and Friday from 9:00 a.m. - noon. Call for evening appointment availability. Hours may vary during the holidays and summer. For POP information, call 985-5458.

## Career Development Center

The Career Development Center provides services that prepare and assist students and alumni in their transition from the University to professional careers commensurate with their interests, abilities, aspirations and educational attainment.

Career Planning facilitates a student's definition of his/her personal career goals and objectives based on an understanding of one's self and the world of work. The program provides students the most current career data and information delivery systems.

### Career Planning and Job Search

Experienced counselors assist students in developing effective job seeking skills through one-to-one counseling and workshops in the areas of resume writing, interviewing techniques and job search techniques. Counselors also provide assistance with other facets of the job search process including such topics as networking, accepting or rejecting a job offer, and negotiating a salary.

The Career Development Center receives over 15,000 job listings every year for positions relating to majors in the Colleges of Business, Engineering, Liberal Arts, Natural Science and Mathematics, and the Arts. Current listings are maintained for student use in the Career Resource Center and available on-line. A 24-hour, on-line job listing service provides students with access to all of the part-time and full-time job vacancies received by the Center. Visit the Career Development Center for instructions or go to the Center's website at [www.careers.csulb.edu](http://www.careers.csulb.edu).

The Center also offers an On-Campus Interview Program for graduating seniors and graduate students. Through this

program more than 140 employers visit the campus each year to conduct interviews. The employment opportunities in this program are generally in the areas of accounting, banking, computer science, engineering, finance, government, general management training, insurance, retail management, sales and marketing.

Various campus-wide special events take place every year which offer an opportunity for students to meet employers on a face-to-face basis. For specific information on annual events such as Career Day, Accounting Recruiting Day, and Job Fair, go to the Career Development Center Website at [www.careers.csulb.edu](http://www.careers.csulb.edu).

The Center is open Monday through Thursday 8:00 a.m. to 8:00 p.m. and Friday 8:00 a.m. to 12:00 p.m. The Center is located in Brotman Hall 250, (562) 985-4151.

Teacher and school administration candidates receive assistance through the Educational Career Services Office in the College of Education. Call (562) 985-5772 for information on the services offered.

### Internship Program

The Internship Program offers students paid and volunteer internship experience in business, industry, government and the non-profit sector. This practical and professional work experience is directly related to a student's academic major or career goal. Students may alternate full-time work periods with full-time academic periods or they may work part-time while simultaneously attending the University. Upper-division Internship courses are available for up to 6 units of elective academic credit. Contact the Career Development Center at (562) 985-4151 for more information.

### Careers and Disabilities

Careers and Disabilities is a Career Development Center program designed to help students with disabilities meet the challenges of career planning and job placement. A student with a visual, hearing or speech impairment, a learning disability or limited mobility can learn strategies in this program that will help build bridges to meaningful employment. For information about Careers and Disabilities, call (562) 985-8468, log onto [www.careers.csulb.edu](http://www.careers.csulb.edu) or stop by Brotman Hall 250.

## Counseling and Psychological Services

Counseling and Psychological Services (CAPS) offers a strong array of services in direct support of helping students achieve a satisfactory and meaningful academic experience. Staff members of CAPS are trained in applied psychology and student development services delivery at the doctoral level. Staff members are skilled in assisting students to translate their individual personal development, career development, and previous educational experience into optimal academic achievement and collegiate life experience.

Students are seen at CAPS by an intake counselor. Psychologists are assigned to students based on the type of

problem expressed and/or identified in the initial review. Most individual counseling is short-term and lasts three to five sessions. The staff is also trained to address complex types of career and personal problems that may require more extensive counseling. Crisis intervention services are available on an immediate basis.

An extensive group counseling program exists for specific kinds of counseling issues such as shyness or interpersonal skill development. The mini-workshops offered on campus acquaint students with our focus on enhancing various life skills such as assertiveness and time management. The Center is especially dedicated to working with students from highly diverse backgrounds.

CAPS is open from 8:00 a.m. to 5:00 p.m. Monday through Friday and is located in Brotman Hall 226. The telephone number is (562) 985-4001.

## Disabled Student Services

Information regarding services available to students with disabilities may be obtained from Disabled Student Services (DSS), Brotman Hall 270, and (562) 985-5401.

DSS provides appropriate services for students with disabilities, including registration assistance, note-taking, sign-language interpreting, reading, test proctoring, academic advising and scholarship information. Other program components include the High Tech Computer Center for the Disabled, Stephen Benson Learning Disability Program and the WorkAbility IV Program. In conjunction with the Career Development Center, DSS/WorkAbility IV provides career planning, placement and job search assistance. Call (562) 985-8038 for more information.

Clients of the Department of Rehabilitation may call to verify the receipt of authorization for tuition and parking payment at this office. DSS also assists with disabled parking. Call (562) 985-5401 for more information.

It is recommended that students with disabilities attempt to modify their schedules, as necessary, to lessen the impact of a disability. However, students with disabilities may request to enroll in a unit load commensurate with their ability. Reduced unit load is defined as less than 12 units for undergraduates and less than 8 units for graduates. Such requests must be made to DSS prior to each semester affected. If approved, the student will be entitled to all benefits, services and activities governing by the University accorded to full-time students. Eligibility for benefits, services and activities outside the University's control will be governed by each separate external agency based upon actual unit load.

## Educational Equity Services

The Office of Educational Equity Services (EES) assists in the admission and retention of first generation college students and academically and economically disadvantaged students some of whom might not otherwise be enrolled in the University. Programs currently under EES include the College Assistance Migrant Program (CAMP), Educational Opportunity Program, Summer Bridge Program, and the federally sponsored TRIO programs, Educational Opportunity Center, Educational Information Services/Talent Search, Student Support Services Program, McNair Scholars Program and Upward Bound.

## College Assistance Migrant Program (CAMP)

The College Assistance Migrant Program (CAMP) is designed to serve students who themselves or whose parents are migrant or seasonal farm workers. Work may include production, transportation, packaging or canning of crops, dairy products, poultry, livestock, cultivation or harvesting of trees (nurseries), or fish farming. The goal of CAMP is to provide outreach and recruitment services to eligible students by assisting them in completing their admissions and financial aid applications. Also offered are parent workshops on motivating their children to enroll in and graduate from college.

The ultimate outcome of CAMP is to provide migrant students with the necessary support services to help them transition easily during the first year in college. The project provides a student-centered array of academic and personal support services geared toward enhancing each student's learning opportunities and quality of life. Also provided is tutoring, academic-skill building instruction, peer and faculty/staff mentoring, assistance with registration, a grant if eligible, exposure to cultural events, and academic programs not usually available to migrant youth. The CAMP office is located at Liberal Arts 3 room 202 and is open from 8:00 a.m. to 6:00 p.m., Monday through Thursday and 8:00 a.m. to 12:00 p.m. on Fridays. The telephone number is (562) 985-2006 or FAX (562) 985-2003.

## Educational Opportunity Center

The Educational Opportunity Center (EOC) is a federally funded program designed to identify and assist low income, first generation adult participants who want to enter, re-enter or continue in a program of postsecondary education. Adults enrolled or interested in enrolling in a high school diploma or GED program are encouraged to seek services.

The mission of the EOC is to assist program participants reach their educational and career goals by providing quality information, advisement and services. EOC provides free services to individuals who meet the program criteria.

Participants are required to be at least 19 years old; U.S. citizen, national or permanent resident; reside in one of the target communities: Artesia, Compton, Hawaiian Gardens, Long Beach, Lynwood, Norwalk, Paramount, Willowbrook and Wilmington; attend school or receive services from a site in the target area and have a need for one or more of the program services.

The EOC provides academic advisement, career advisement, financial aid information, postsecondary advisement, assistance in completing college admissions, testing and financial aid applications. The program also conducts college admission and financial aid workshops.

The EOC is located at the California State University, Long Beach Research Park, 1916 W. 19th Street, Long Beach, California 90810 (near the intersection of Pacific Coast Highway and Santa Fe Avenue). Office hours are 8:00 a.m. to 6:00 p.m. Monday through Thursday and 8:00 a.m. to 12:00 p.m. on Fridays. The telephone number is (562) 436-4342 and fax (562) 436-4345.

## Educational Information Services/Talent Search

Educational Information Services/Talent Search is a federally funded program housed at California State University, Long Beach. Its purpose is to identify, select, and assist low-income,

first generational individuals between the ages of 12 to 27 to continue in and graduate from secondary school and enroll in a postsecondary educational program. Services offered include postsecondary admission and application assistance, financial aid information and application assistance, academic advising, and career exploration and planning.

### **Educational Opportunity Program (EOP)**

The Educational Opportunity Program (EOP) is committed to increasing access to higher education for California residents who are historically low-income and first generation college students. An EOP student has the potential to perform satisfactorily in the CSU, but has not been able to realize this potential because of the lack of economic and educational resources. The Program's goal is to meet the educational needs of the students by providing admissions and enrollment assistance, financial support and academic and personal support services throughout their career at the university.

### **Student Support Services Program**

Student Support Services Program is a program designed to assist eligible students in achieving their maximum potential in higher education. The eligibility requirements for participation with the CSULB Student Support Services Program are U.S. citizen or permanent resident enrolled at CSULB, low income and/or first generation college students OR physically or learning disabled students and demonstration of an academic need. The Program provides learning skills workshops, academic advising, financial aid application assistance, tutorial services, career exploration, preparatory workshops for the Writing Proficiency Examination and personal and social counseling.

### **McNAIR Scholars Program**

The McNAIR Scholars Program provides academic support services, research opportunities and involvement in scholarly activities for 25 low-income, first-generation college students to increase their likelihood of enrollment and success in doctoral programs. The program consists of the Summer Research Internship, which concentrates on a research project to be conducted by the McNAIR Scholar with the guidance of his/her faculty mentor, and the Academic Year Scholarly Experience to provide continuation of the summer research project, academic support and assistance in seeking admission to graduate programs and assistance in obtaining graduate financial aid. The Scholars' papers are collected in a publication, the CSULB McNAIR Journal.

### **Summer Bridge Program**

The Summer Bridge Program provides an intensive five-week residential summer experience for selected first-time freshmen EOP students entering for the fall semester. The program provides English and mathematics instruction, tutoring, orientation to the campus, study skills workshops and enrichment activities to prepare students for the challenges of college. Participants are required to reside in campus housing for the full five weeks and must successfully complete the program to enroll at the university.

### **Upward Bound Program**

The Upward Bound Program is a federally funded college preparatory program designed to assist first generation, low-income high school students who have the potential to

pursue postsecondary education. The goal is to assist participants in their efforts to successfully complete high school and obtain a college education.

The program provides summer and weekend academic instruction, tutoring, academic, personal and career counseling, cultural activities and college application and admissions assistance.

## **Housing and Residential Life**

### **University Residence Halls**

The campus residence hall complex consists of 18 halls and accommodates 1,962 residents, including an International House complex which houses 86 students. All halls are coeducational and the majority of rooms are intended for double occupancy.

Residents may apply to reside in two-story halls utilizing suite designs or more traditional halls which have double rooms on either side of a long corridor. Halls are available with Regular Quiet Hours or Very Quiet Hours and residents may select 12 or 19 meals per week. A limited number of regular single rooms are available. The room and board rate is approximately \$6,600-\$7,000 depending on the accommodations and meal plans selected.

Applications for the academic year are accepted between January 1 and March 17 and applicants are then eligible to participate in a random housing lottery which is held in late March. Notification of lottery results are sent in mid-April. Applications received after March 14 will be accepted, but will not be part of the lottery and will only be accommodated if space is available after all lottery participants are offered space.

Applications are available by calling the Housing and Residential Life Office at 562-985-4187 or by visiting the website at [www.housing.csulb.edu](http://www.housing.csulb.edu).

### **Off-Campus Housing**

An off-campus housing website is available to provide the maximum amount of information on vacant rental properties in the surrounding community while minimizing the time required to do a search. The website features comprehensive rental information including photographs, virtual tours and driving instructions. Searching the database may be refined as needed — for example, by neighborhood or by price range — and is free to students, faculty and staff. Students also may use the site to list vacant rental property or to look for a roommate to share accommodations. The website is provided as a service to CSULB by My Ideal Home Network and may be viewed at: <http://housing.csulb.edu/offcampus>.

## **Isabel Patterson Child Development Center**

In January of 1975, the University and the Associated Students opened the Isabel Patterson Child Development Center to provide quality child care services to the University and community. The facility was made possible by the generous donation of Isabel Patterson, CSULB alumna. The services provided enable a student parent to attend classes at the University. The children of University staff, faculty, administration, alumni and then community are offered these services as space allows, following the registration of children of student parents.

Child care services are available for children six months to 2 1/2 years in the Infant/Toddler Program; 2 1/2 to five years in the Pre-school Program; and Kindergarten through second grade in the Schoolage Program.

The environment of the Center allows children to move freely and choose from a variety of activities that include but are not limited to reading, music, water and sand play, art, science, cognitive games and dramatic play. Some of the program's goals are to help children be responsible and able to solve their problems, to be inner-directed, to be aware of alternatives and able to make choices, and to be free from gender role and other stereotyping. The program includes a family-style breakfast, lunch and afternoon snack.

The Center employs child care and development professionals. The part-time teaching staff is composed of CSULB students who are required to participate in the Center's comprehensive training program. The Center is located on campus at 5700 Atherton Street. For information call (562) 985-5333 8:00 a.m. - 5:00 p.m.

## Learning Assistance Center

Located in Academic Services, room 12, the Learning Assistance Center is an all-university academic support service that helps individuals identify and develop effective and efficient learning strategies. The following services are available:

1. Learning Skills Services
2. Supplemental Instruction
3. Tutorial Services
4. ESL Support Services

### Learning Skills Services

Learning Skills Services includes a range of study skills and learning strategies. The Learning Assistance Center offers individual sessions (personal as well as media) and regularly scheduled workshops covering such topics as Reading Textbooks Critically, Listening and Notetaking Skills, Time Management, Test-Taking Strategies, Memory Techniques, Learning Styles, Preparing Research/Term Papers, and Preparing for Final Exams. These topics can be tailored to individual courses and presented in class at faculty request. Workshops are also scheduled by student organizations and other groups. Software is available to students who want to prepare for such standardized tests as the GMAT, GRE, and LSAT.

Additionally, Learning Skills staff maintain a collection of instructional materials in some of the more highly demanded areas. Faculty in the sciences, in business, and in math, for example, recommend that students use course-related materials housed in the LAC.

### Supplemental Instruction

Supplemental Instruction (S/I) 60 provides a one-unit non-baccalaureate adjunct to select general education courses found to be high risk (i.e., particularly difficult for students to complete successfully). Participants in S/I typically perform significantly better in the GE course than peers who attempt the course independently. Each section of SI 60 uses the content of the corresponding GE course for students to develop critical thinking and learning skills; the skills

emphasized are specifically applicable to this course and transferable to other university courses. Sections are taught by advanced students who know the discipline well and have mastered the associated skills needed for success.

### Tutorial Services

Tutorial Services offers scheduled group, drop-in, online, and individual appointment tutoring. Free weekly group sessions are led by a trained tutor for several of the more highly requested general education courses each semester. Individual tutoring is available to all students in nearly all disciplines on an hourly fee-support basis. Extensive drop-in tutoring requires a modest fee for unlimited use of any one subject. Each semester tutoring schedules are available online or at the Learning Assistance reception desk. Students in academic support programs such as EOP, SSSP, and DSS should contact program advisors regarding tutoring resources.

### ESL Support Services

For students whose primary language is not English, the International Students' Conversation Lab provides extensive opportunities to develop English fluency, work on academic language or course assignments and to discuss cultural experiences. Students needing to increase their English language skills to fulfill the Graduation Writing Assessment Requirement (GWAR) may meet weekly with ESL specialist tutors. The service is free to all students.

### Getting Started

Students who want to improve their skills may make appointments with the Learning Assistance Center receptionist (985-5350) for a particular service or with a staff professional who can help them determine what would benefit them most. Further information can also be obtained in person on the first floor of Academic Services.

## Multicultural Center

The mission of the Multicultural Center is to contribute to the creation of a campus environment which respects and supports cultural, ethnic, and racial diversity. The center is an educational resource center which serves as a vehicle for the expression of the needs and concerns of CSULB's increasing diverse campus community.

The objectives and activities of the center include its signature project S.T.A.R. (Students Talk About Race), which is offered every semester and trains students in cross-cultural communication and commits them to 8 weeks as facilitators at local middle and high school classrooms; diversity workshops, lectures, and forums; an extensive up-to-date library of journals, magazines, books, videos, some DVD's, and audio tapes; archived newspaper articles, an art gallery celebrating the center's theme of cultural diversity by well-known and student artists; and student internships opportunities. The center's resources are available for students, faculty, staff and community members. The center is open from 9:00-5:00, Monday through Friday. For further information, stop by the Multicultural Center in the (F03) Faculty Offices 3 Building, Room 003 or call (562) 985-8150. For more information, the center's website is [www.csulb.edu/centers/mcc](http://www.csulb.edu/centers/mcc). The center invites comments, ideas, and input to be sent to [mcc@csulb.edu](mailto:mcc@csulb.edu).

## Student Health Services

### Student Health Services

Student Health Services (SHS) is the campus health center providing medical services, preventive health and health education programs. A highly trained and experienced staff of physicians, nurses and other health care professionals are dedicated to student health and well being. The SHS is located on State University Drive and Merriam Way, between Brotman Hall and the residence halls. The SHS is accredited by the Association for Ambulatory Health Care, and is a member of the American College Health Association. Website: [www.csulb.edu/shs](http://www.csulb.edu/shs). Important phone numbers are the SHS Switchboard, (562) 985-4771, and Appointment Desk, (562) 985-1638. *Medical Emergencies arising on campus are directed to University Police 9-1-1.*

### Eligibility for Services

All regularly enrolled students registered for the current semester are eligible for services by paying the \$45 mandatory Health Fee at registration. Taking a semester off? Continuing students (after two consecutive semesters) can receive services by paying the Health Fee at Student Health Services, providing they are returning the following semester. Students enrolled in University College and Extension Services (UCES) can receive services for \$15.00 per visit while classes are in session.

### Clinical Services

Outpatient medical care is provided for acute injury and illness. Long term or overnight care is not provided. Services include Women's Health, Men's Health, and some specialties. Provisions are made for outside referrals for care beyond the scope of the SHS. X-ray, clinical laboratory, and pharmacy are available. Visits to the SHS, in house laboratory tests, and x-rays are provided without charge. Laboratory tests sent to outside reference labs and pharmacy medications are available at low cost. The SHS is open year round. Hours are 8:00 a.m. to 6:00 p.m. Monday, Tuesday and Thursday; 10:00 a.m. to 7:00 p.m. Wednesday; and 8:00 a.m. to 12:00 noon Friday.

### Health Resource Center

The Health Resource Center (HRC) is located in the Student Health Services (SHS) room 268. The HRC provides health education and support to students with a variety of programs and services. Programs include Alcohol, Tobacco & Drug Abuse Prevention Workshop, Nutrition Counseling, HIV Testing and Counseling, and Sexual Health Awareness Workshop. Services include computerized health resource service, Health Beat Newsletter, multi-media health information, and health promotion campus outreach activities. Volunteer and internship opportunities are available. For more information call (562) 985-4609 or visit the web site at [www.csulb.edu/hrc](http://www.csulb.edu/hrc).

### Immunization Requirement Clearance

Students enrolled in a California school for the seventh grade or higher on or after July 1, 1999 will have satisfied the requirements for Hepatitis B and Measles/Rubella. Hepatitis B: required of students who are 18 and younger on the first day of class. Measles/Rubella required of new students born after January 1, 1957. Clearance is obtained at the SHS by showing proof of immunity using medical records or by receiving immunizations (available at the SHS.) Medical and religious exemp-

tions are available. For more information see *Admission to the University, Immunization Requirements* section. You may also phone the SHS at (562) 985-4771, call the Immunization Hotline at (562) 985-5411, or visit the web site [www.csulb.edu/shs](http://www.csulb.edu/shs) and click on immunization information.

### Medical Insurance

Medical insurance is strongly recommended. The Associated Students Inc. sponsors an individual health insurance plan available to all enrolled students. For more information contact Associated Students Business Office, (562) 985-8311, or visit the plan site <http://www.chickering.com/schools/csulongbeach>

## Office of University Ombuds Services

The Office of University Ombuds is an available confidential resource for all students for the purpose of problem-solving, mediation, and expression of concerns related to campus issues. Students who wish to resolve issues informally may access the services of the Office of Ombuds before formally addressing their problems with the University. The Ombuds works independently as an objective advisor, keeps all matters confidential, and acts as a neutral party in order to ensure a process that is fair and equitable.

The Ombuds advocates for a process of resolving issues informally with integrity and dignity. The Ombuds will not address formal litigation issues, formal disciplinary actions, formal complaints, or grievance hearings. The services provided by the Office of University Ombuds do not compromise or replace university policies or procedures. Discussion with the University Ombuds does not constitute notice to the institution with regard to grievances and formal complaints.

The Office of University Ombuds is located in the Foundation Building, Suite 140. The telephone number is (562) 985-5983, and the office is open Monday through Friday, 8:00 a.m. to 12:00 noon and 1:00 p.m. to 5:00 p.m. However, special arrangements for another meeting time can be made upon request. Please feel free to email the University Ombuds ([ombuds@csulb.edu](mailto:ombuds@csulb.edu)) or visit our website ([www.csulb.edu/ombuds](http://www.csulb.edu/ombuds)).

## Student Life and Development

"If all you do is go to class at CSULB, you are not getting a complete education." – President Robert C. Maxson

### Our Mission

To develop and implement out-of-classroom programs and services that educate CSULB students about ethical leadership, cultural awareness, and positive social change.

The Office of Student Life and Development (SLD) can help students broaden their involvement on campus. Through the involvement in campus clubs and organizations and/or participation in activities sponsored by student groups, students are able to explore personal and academic interests, develop leadership skills, and gain information and contact information that will prepare them for future careers.

There are approximately 300 student-recognized organizations including academic associations, fraternities and sororities, cultural, religious and special interest student groups. Professional staff in Student Life and Development

provide leadership development and officer transition opportunities: advise student officers on program planning and development: assist groups with securing Associated Students' Government Grants: approve campus student programs: and facilitate accessing University resources. SLD also administers student academic travel funds, provides presentations on campus life for University 100 courses and Orientation to Campus Life programs, and coordinates transmission of emergency messages to students in the classroom.

## Programs and Activities

### American Indian Student Services

American Indian Student Services is devoted to the recruitment, retention and graduation of the indigenous peoples of North America. A coordinator of Student Life and Development provides academic and personal advising for American Indian students enrolled in the University; serves as the advisor to the American Indian Student Council; plans and implements outreach activities that assist in the identification and admission of prospective American Indian students; assists with financial aid and Bureau of Indian affairs grant applications for eligible Indian students; and serves as a liaison on American Indian concerns with campus offices. For further information, call (562) 985 8528.

### College Organizations

Many academic departments have a student departmental association composed of students in that discipline. In addition, there are other academically related organizations and discipline-based honorary societies. Representatives from each departmental association and, depending on constitutional provisions, other academically related organizations work together on a college student council for each of the 7 colleges. The organizations promote interaction between faculty and students, sponsoring speakers, seminars, social gatherings and other activities related to their disciplines. Students also have the opportunity to provide input regarding their educational experiences to their faculty and departmental chairs, as well as to their deans via the departmental associations and student councils, respectively. SLD staff members play a key role in coordinating major events such as Engineering Day, Health and Human Services Career Month, Awareness Festival, College of the Arts Week and the Nobel Laureate Lecture.

### Greek Life

Students have the opportunity to join national and local organizations with founding values based on community service, scholarship, campus involvement active social development. There are more than 30 fraternities and sororities which reflect a broad range of interests and historical traditions. There are groups with predominantly African-American, Asian American and Latino membership, as well as chapters with no ethno cultural affiliation.

In addition to their social and cultural programs, sororities and fraternities sponsor national and/or local philanthropies and engage in community service projects. Examples of such projects are providing tutorial assistance and positive role models for children in local schools, initiating food and clothing drives for those in need, raising money for scholarships, etc.

Most national Greek organization chapters are members of one of these coordinating councils: National Pan-Hellenic Council (historically African-American sororities and fraternities), Inter-fraternity Council (fraternities), Panhellenic Association (sororities) and Cultural Greek council (fraternities and sororities.)

### Leadership Academy

The Leadership Academy is a series of workshops focused on cultivating leadership excellence. Its purpose is to help students improve their leadership potential and to develop practical application to increase their understanding of leadership skills.

### Lois J. Swanson Leadership Resource Center

The vision of the Lois J. Swanson Leadership Resource Center (LRC) is to cultivate leadership excellence. Its purpose is to prepare CSULB students to be the world's best leaders and maximize leadership potential with a commitment to serve others. The LRC provides a leadership library, resources and a boardroom. The library holds books, videos, tapes and materials for icebreakers and interactive activities. Resources include a series of seminars to enhance leadership skills, increase self-confidence and develop teamwork. The LRC offers consultations for classroom facilitation, conferences and customized workshops. The LRC

"Board room" can be reserved for leadership-related meetings.

The LRC is located on the third floor of the University Student Union, room 313. To contact the LRC, call (562) 985-1936.

### Partners for Success

For a variety of reasons, many first-generation students—students with parents who do not possess a bachelors degree—find it challenging to complete their college education. In an effort to retain and graduate these students, a program co-sponsored by Academic Affairs and the Division of Student Services is being offered to pair students with faculty members who serve in the capacity of mentors. A mentor, in this case, is an experienced professor who acts as a friendly advisor, helping students become comfortable and successful in the university environment.

### Student Resource Centers

There are five student-run resource centers on campus where students may go for information and support.

- American Indian Student Study Center
- Asian Pacific Student Resource Center
- Black Student Cultural Center
- Chicano/Latino Student Resource Center (La Raza)
- Lesbian/Gay/Bisexual/Transgender Resource Center

Activities in the centers vary and may include small group meetings, planning for major cultural events, occasional pot-lucks, study hall, peer mentoring and dissemination of information on community resources/volunteer opportunities and scholarships. Some centers may also house selected reading material.

### Teamwork

A weekend retreat that allows students to interact, make new fr\*riends and cultivate leadership excellence.

## Student Transition and Retention Services (STARS/SOAR)

The educational experience presents new students with a myriad of challenges and pressures. The department of Student Transition and Retention Services directs its major efforts toward the orientation, advising and registration of students and the promotion of their persistence in college through graduation. Special efforts are directed toward advisor training, orientation and advising workshops, as well as research with regard to issues affecting student retention.

The Student Orientation, Advising and Registration (SOAR) program provides newly admitted freshmen and transfer students with initial academic advising, assistance with class selection, registration for the first semester and an orientation to student life and campus resources. These workshops take place in early January for Spring admits and throughout the summer months for Fall admits. There is also a two-day overnight SOAR program for students who would like a more extensive orientation program.

The office is located in the Foundation Building (suite 160) and the telephone number is (562) 985-5515. Information may also be obtained on the department's website at [www.csulb.edu/soar](http://www.csulb.edu/soar).

## Testing and Evaluation Services

Information regarding admissions placement and certification examinations may be obtained from the office of Testing and Evaluation Services. Test programs currently offered include the SAT and Achievement Tests, ACT, EPT/ELM, WPE, PRAXIS, and the Nelson-Denny Reading Test. Students are advised to refer to testing requirements described elsewhere in the Catalog, and in particular, the EPT, ELM, and WPE programs. Registration bulletins for the above-mentioned exams as well as the MCAT, LSAT, CSET, CBEST, GRE, RICA, and TOEFL exams are available in the information racks immediately outside the office.

The Testing Office also provides services to faculty, staff and administrators regarding research design, questionnaire construction and data analysis. The office is located in Brotman Hall 216; phone (562) 985-4007. FAX (562) 985-2415, or visit the Testing Office website at [www.csulb.edu/testing](http://www.csulb.edu/testing).

## University Interfaith Center

The University Interfaith Center (UIC) is an association of 12 faith traditions serving the education community of CSULB. Member groups represent individual faiths while respecting the diversity of religious traditions and the pluralistic nature of the university. Membership in the association is extended to faith groups who choose to work cooperatively, respecting the integrity of one another's religious traditions. All of the services of the University Interfaith Center are available to the entire campus community – students, faculty and staff.

The UIC aims to enhance the educational experience by encouraging students, faculty and staff in their pursuit of spiritual growth, community building, faith development

and personal values. It offers pastoral care/spiritual support, educational programs, student community worship services, service projects, conferences/retreats and referral information. It also provides a library on topics of religion and a comfortable lounge area where students can meet, share a meal or study.

The UIC is located in the University Student Union, room 103. For information on programs and resources call (562) 985-4369.

## University Outreach and School Relations

The Office of University Outreach and School Relations (UOSR) is the primary student recruitment and guest relations office for the university. The Office disseminates information on the CSU and CSULB Admissions and financial aid policies and procedures, CSULB's academic programs; and on student services to prospective students and counselors from high schools and community colleges in the CSULB service area and surrounding communities.

A major focus of OSUR is the implementation of outreach and recruitment programs and services to reach a diverse pool of talented high school and transfer students for whom CSULB is their

"University of Choice". The Office, under the direction of the President, also is responsible for recruitment of President's Scholars (California valedictorians and National Merit Finalists and Semi-Finalists).

In addition, UOSR administers pre-admissions and application workshops for prospective freshmen and transfer students; the Young Scholars Programs for qualified high school students; the Early Assessment Program (EAP); admission services for adult re-entry students; and educational awareness and academic enrichment services for elementary and middle school students.

UOSR offers guided campus tours by appointment. Those interested in visiting the campus should call (562) 985-5358. Specialized campus visits for

K-12 students, parents, counselors and other interested groups may also be arranged.

The Office of University Outreach and School Relations is located in Brotman Hall, Room 289. For more information, visit the UOSR website at [www.csulb.edu/outreach](http://www.csulb.edu/outreach).

## Veterans' Services

The Veterans' Services office coordinates all veterans' financial benefits including initiation of federal and state benefits, maintenance of veterans' status with the Veterans' Administration and continuation of benefits thought enrollment certification. The office is supervised by the Career Development Center and is located in Brotman Hall Room 250.

## Women's Resource Center

The mission of the Women's Resource Center (WRC) is to facilitate the educational, professional and personal growth of women on campus. The WRC houses a library of material on women's issues, offers women's support groups, and peer counseling. It provides referrals to campus and community services, scholarship information, and is a clearinghouse of current events of interests to women. The WRC also provides a comfortable lounge where students can study, chat with friends or hold meetings.

In addition, the Women's Resource Center sponsors educational events throughout the school year and networks extensively with other academic and student services programs. The

seminars, workshops and/or conferences range from the more current theoretical women's issues to practical concerns of university women. The WRC is open 9:00 a.m. to 5:00 p.m. Monday through Friday and two evenings until 6:30 p.m. The Women's Resource Center services are free and available to women and men, campus and community. The WRC is located in Liberal Arts - 105. For further information, call (562) 985-8687/8576.

## Writer's Resource Lab

The Writer's Resource Lab provides individualized instruction to help CSULB students develop their writing abilities. At the Writer's Resource Lab, you can consult with friendly, knowledgeable tutors in order to become more confident with the process of writing.

You do not need to be taking a writing course to use our services; they are available to any currently enrolled CSULB student. Our instructional activities include the following:

1. One-on-one tutoring appointments;
2. Personalized consultation for students preparing to take (or retake) CSULB's Writing Proficiency Exam;
3. Intensive language acquisition instruction tailored to the needs of students whose first language is not English.

In addition, students are welcome to drop by and use our library of writing reference materials. Other services provided by the Writer's Resource Lab include group tutorial sessions and workshops on various writing issues.

Visit our website at <http://www.csulb.edu/~wrl/>

For more information or to make a tutoring appointment, please stop by the Writer's Resource Lab in LAB-212 or call (562) 985-4329.

## CAMPUS LIFE

### Student Organizations

#### College of the Arts

College of the Arts Student Council, Art Education Student Association, Bachelors of Fine Arts Club, Ceramics Guild, CSULB Composers Guild, Design Student Association, Fiber Club, Percussive Students' Association, Students of Art History (SOAH), University Players, Visual Communications Design Association

#### College of Business Administration

Associated Business Students Organization Council (AB-SOC), American Marketing Association (AMA), Beta Alpha Psi / Accounting Society (BAP), Black Business Student Association (BBSA), Delta Sigma Pi (Honorary-Business Administration (DSP), Financial Management Association (FMA), Hispanic Students Business Association (HSBA), Human Resources Management Association (HRMA), Information Systems Student Association (ISSA), International Business Association (IBA), Masters of Business Administration Association (MBAA), Pacific Rim Association (PAC RIM), Society for the Advancement of Management (SAM)

#### College of Education

College of Education Student Assembly, Association for Future Educators (AFE), Association of Professionals in Student Affairs, Chi Sigma Iota

#### College of Engineering

Associated Engineering Student Body (AESB), American Indian Science & Engineering Society (AISES), American Institute of Aeronautics and Astronauts (AIAA), American Institute of Chemical Engineers (AIChE), American Society of Civil Engineers (ASCE), American Society for Quality Control, American Society of Civil Engineers (ASCE), American Society of Mechanical Engineers (ASME), Association of Computer Machinery (ACM), Chi Epsilon (Civil Engineering), CSULB Robotics, Institute of Electrical & Electronics Engineers (IEEE), Institute of Transportation Engineers (ITE), Mexican American Engineers and Scientists (MAES), Micro Mouse Robotics Team, National Society of Black Engineers (NSBE), Society of Automotive Engineers (SAE), Society of Hispanic Professional Engineers, Society of Petroleum Engineers, Society of Women Engineers, Tau Beta Pi (Honorary-Engineering)

#### College of Health and Human Services

College of Health & Human Services Student Council, Alpha Phi Sigma (Criminal Justice), Alpha Kappa Delta, American Association of Family and Consumer Sciences, Associated Students of Social Work, California Nursing Student Association, Child and Family Associated Students, Criminal Justice Student Association, Fitness Majors Club, Food Service and Hotel Management Association, Gerontology National Honor Society, Health Care Student Administration Forum, Health Science Student Association (HSSA), Jack Rose Major's Club, National Students for Speech, Hearing, & Language Association (NSSHLA), Physical Therapy Club, Recreation Society, Society of Consumer Affairs Professionals, Sports Medicine Club, Student Dietetic Association, Student Food Science Society, Students in Fashion

#### College of Liberal Arts

College of Liberal Arts Student Council, Alpha Kappa Delta, American Studies Student Association, Anthropology Student Association, Associated Students of Comparative Literature, Black Studies Student Association, Black Psychology Student Association, Chicano/Latino Studies Student Association, English Student Association, Eta Sigma Delta, Eta Sigma Phi (Friends of the Classics), French Club, Geography Student Association, German Club, Graduate Communication Association, History Student Association, Human Development Student Association, Learning Alliance Peer Mentors, Linguistic Student Association, Psi Chi (Honorary-Psychology), Psychology Peer Advisors, +Psychology Student Association, Public Relations Student Society of America, Religious Studies Student Association, Society of Professional Journalists, Sociology Student Association, Spanish Club, Student Communication Association, Student Philosophy Association, Women's Studies Student Association

#### College of Natural Sciences and Mathematics

College of Natural Sciences and Mathematics Student Council,

Association of Pre-Dental Students (APDS), Biology Student Association, CSULB Student Chapter of the American Society for Microbiology, Chicanos/Latinos for Community Medicine, Environmental Science and Policy Club, Geological Student Association of CSULB, Graduate Student Association of CNSM, Mathematics and Statistics Student Association, Minority Association of Pre-Health Students, Radiation Therapy

Student Association, Student Affiliates of the American Chemical Society (SAACS), Student Affiliates of the American Kinesiotherapy Association (SAAKA), The Organization of Pre-Professional Students (TOPPS), The Society of Physics Students of CSULB

### Cultural Clubs

African Student Union, American Indian Student Council, Armenian Student Association, Cambodian Student Society, Chinese American Student Association, Chinese Society, Club Italia, Eritrean Students Association, Global Association of Culture and Peace, Hermanas Unidas, Indian Student Association, International Student Association, Iranian Student Association, Japan Club, Korea Club, Korean American Student Association, La Raza Student Association, Latino Alliance, Latino Student Union, Nikkei Student Union, Pacific Islanders' Association, Pilipino American Coalition (PAC), Saudi Students Club, Thai Student Association, Turkish Student Association, United Migrant Student Association, Vietnamese Student Association

### Fraternities

Alpha Phi Alpha Fraternity, Delta Chi Fraternity, Delta Lambda Phi Fraternity, Delta Sigma Chi Fraternity (Co-ed), Iota Phi Theta Fraternity, Lambda Theta Phi Fraternity, Omega Psi Phi Fraternity, Order of Omega Fraternity, Phi Beta Sigma Fraternity, Phi Kappa Tau Fraternity, Sigma Alpha Epsilon Fraternity, Sigma Lambda Beta Fraternity, Sigma Phi Epsilon Fraternity, Sigma Pi Fraternity, Tau Kappa Epsilon Fraternity, Theta Chi Fraternity, Zeta Phi Rho Fraternity

### Greek Councils

Cultural Greek Council (CGC), Inter-Fraternity Council (IFC), National Pan-Hellenic Council (NPHC), Panhellenic Council (NPC)

### Honor Societies

Black Scholars Student Association, Golden Key International Honor Society, National Society of Collegiate Scholars, Phi Eta Sigma / Alpha Lambda Delta (Interdisciplinary Freshmen), University Honors Program Student Association

### Political/Social Action Clubs

Conservative Student Union, CSULB Campus Progressive Collectives, CSULB Students for Wesley Clark, CSULB Young Socialist Alliance, International Socialists Organization, Long Beach College Republicans, Long Beach State Democrats, Model United Nations, NAACP-College Chapter

### Religious Clubs

Asian American Christian Fellowship, Asian Baptist Student Koinonia, Beach Student Ministries, Campus Crusade for Christ, Catholic Newman Club, Chinese Christian Fellowship, Christian Students Unite, Christians on Campus, Cooperative Protestant Campus Ministry, Hillel, IMPACT, Korean Campus Crusade for Christ, Krishna Yoga Group, Latter-Day Saints Student Association, Methodist Wesley Foundation, Muslim Student Association, The Beach Coptic Orthodox Christian Club, The Navigators, University Bible Fellowship, Victory Campus Fellowship, Vietnamese Catholic Student Association, Walking Bibles

## Service Organizations

Alpha Phi Omega, Circle K International, In Hoc, The Red Cross Organization

### Sororities

Alpha Kappa Alpha Sorority, Alpha Kappa Delta Sorority, Alpha Omicron Pi Sorority, Alpha Phi Sorority, Chi Delta Theta Sorority, Delta Delta Delta Sorority, Delta Gamma Sorority, Delta Zeta Sorority, Gamma Phi Beta Sorority, Kappa Psi Epsilon Sorority, Lambda Sigma Gamma Sorority, Lambda Theta Alpha Latin Sorority Inc., Sigma Kappa Sorority, Sigma Lambda Gamma Sorority, Sigma Phi Omega Sorority, Zeta Phi Beta Sorority

### Special Interest Clubs

ANIME Club, Beach Balls, Boanerges, Campuses Organized and United for Good Health (COUGH), Career Connections, CSULB Brazilian Jiu-Jitsu Club, CSULB Chess Club/University Chess Association, CSULB Saxophone Club, Economics Today, Feminist Organization Reclaiming Consciousness and Equality (FORCE), Flying Forty-Niners, Grupo Folklorico Mexica, K Beach, LEGEND, Law Society, Long Beach Army ROTC, Long Beach State Forensics Team, META (Movimiento Estudiantil de Teatro y Artes), Multiethnic and Multicultural Association, Petra, Rainbow Alliance, Residence Hall Association (RHA), Social Dance Club, Society for Creative Anachronism, Soka Gakkai International, Student Alumni Association, Students Active in Community Health, The Dog Eared Book Club, The Premed Association, Town Hall CSULB, Yoga Meditation

### Sports Clubs

Alpine Ski & Snowboard Team, Bowling Club, CSULB Aikido Club, CSULB Archery Program, CSULB Beach Bowling, CSULB Men's Crew, CSULB Triathlon Team, CSULB Rugby Club, Long Beach State Forty-Niner Ice Hockey, Men's Long Beach State Soccer, Outdoor Adventure Club, Roller Hockey Club, Sailing Association, Shotokan Karate Club, Student Athlete Advisory Council, Surf Team, Tae Kwon Do Club, Ultimate Beach Frisbee Club, Water Ski Club/Team, Women's Club Soccer

### Student Resource Centers

There are five student-run resource centers on campus where students may go for information and support.

Activities in the centers vary and may include small group meetings, planning for major cultural events, occasional pot-lucks, study hall, peer mentoring, and dissemination of information on community resources/volunteer opportunities and scholarships. Some centers may also house selected reading material.

*American Indian Student Study Center*, FO4-282, (562) 985-4963

*Asian Pacific Student Resource Center*, FO4-277

*Black Student Cultural Center*, FO4-274, (562) 985-4502

*Raza Resource Center*, FO4-263, (562) 985-5223

*Lesbian/Gay/Bisexual/Transgender Resource Center (LGB-TRC)*

The LGBTRC is a center run by students for students with the mission of offering support, conducting outreach and providing information to the campus community regarding

lesbian, gay, bisexual and transgender (L/G/B/T) issues. The Center maintains a library of books and videos on L/G/B/T topics. Speakers Bureau volunteers are available for classroom or residence hall panel discussions. The Center has community posting boards for jobs, scholarships and events on- and off-campus. The LGBTRC also offers several rap/discussion groups and a lounge is available for students to study or hold meetings. Throughout the year, the LGBTRC sponsors various educational seminars and workshops designed to educate and increase visibility for L/G/B/T concerns.

LGBTRC services are open to any student, faculty or staff member interested in the lesbian/gay/bisexual/transgender community. The Center is located in FO4-165. For further information, including Center hours, call (562) 985-4585 (general information), (562) 985-4588 (event line) or e-mail [lgbtrc@hotmail.com](mailto:lgbtrc@hotmail.com).

### Fraternity and Sorority Housing

Some fraternities and sororities own or lease homes near the campus and provide lodging for their members. Students interested in affiliating with a sorority or fraternity should contact the Panhellenic Association (for sororities), the Interfraternity Council (for fraternities), or National Pan-Hellenic Council or Cultural Greek Council via Office of Student Life and Development, University Student Union.

### Student Government

The quality of student life at CSULB is largely determined by students themselves. The time-honored tradition of student self-governance affords students a remarkable level of autonomy and provides a wealth of opportunities for developing leadership and management skills that can be as valuable as any classroom learning experience. Through self-governance, students learn how to make good decisions, how to motivate others to work toward a common goal, and how to manage budgets and other critical resources.

Student government at The Beach is organized under the Associated Students, a California nonprofit corporation owned and operated by the students of CSULB. Every student becomes a member and "shareholder" of the Associated Students upon registration, and all are encouraged to get involved in Associated Student activities. In addition to student government, the Associated Students also operates and manages the University Student Union, the Isabel Patterson Child Development Center, the ASI Recycling Center, the Soroptimist House, the Beach Pride Center, K-Beach radio, the Long Beach Union newspaper, and the Gold Mine Yearbook.

Participation in student government, or any other aspect of Associated Students, provides an exceptional opportunity for students to take part in the political advocacy of student interests, the development, and execution of student programs and services, the shared governance of the University, and the self-governance of the student community's affairs.

The governance structure of the Associated Students includes legislative, executive, and judicial branches. Each year the student body elects students to approximately 28 positions in the executive and legislative branches of government. In addition, students are elected to policy-making bodies including the Child Development Center Board of

Directors, the University Student Union Board of Directors, the Student Media Board, the Forty-Niner Shops Board of Directors, and the Academic Senate. Participation in these programs and other campus activities has been a significant part of many students' University experience.

The executive branch of student government is comprised of the A.S. President, A.S. Vice President, A.S. Treasurer, and A.S. Administrator. The Associated Students President is also the chief executive officer of the Associated Students, Incorporated and acts as the official representative and host of the Associated Students to the University and the public. The President is responsible for executing Associated Students policies adopted by the A.S. Senate and for making all A.S. executive and judicial appointments. The President is an ex-officio member of all A.S. executive bodies.

The Associated Students Vice President chairs the A.S. Senate and is a voting member of that body. The Vice President is responsible for assembling the agenda for the Senate meetings and serves on several boards and committees. The Vice President assists the President with his or her duties and assumes the President's duties should the A.S. President leave office or become incapacitated.

The Associated Students Treasurer is responsible for the Associated Students' finances and enforcement of A.S. fiscal policy. The Treasurer prepares the Associated Students budget for submission to the Senate and chairs the A.S. Board of Control. The Treasurer approves all expenditures of A.S. monies and assists clubs and organizations with obtaining financial assistance from Associated Students.

The Associated Students Administrator is the senior programming officer of the Associated Students government. Appointed by the A.S. President each year, the Administrator is responsible for overseeing the A.S. Commissions. The Administrator also represents the Associated Students and the President on several campus committees.

The Associated Students Board of Control is a subsidiary board of the Senate and is chaired by the A.S. Treasurer. The Board acts in the areas of finance, personnel, and the administration of business affairs between the Associated Students and other parties. All groups requesting Associated Students funding must go before the Board of Control for approval prior to appearing before the Senate. The Board of Control makes recommendations regarding budget allocations to the Senate, which has final approval in all A.S. Board of Control financial actions.

The A.S. Senate is the legislative branch of student government and serves as the Board of Directors of the Associated Students, Incorporated. The Senate creates and revises the A.S. by-laws, approves the allocation of funds for programs, confirms presidential appointments, fills vacancies in elected offices between elections, and forms committees to study problems and proposals. The Senate also charters on-campus student groups (with the exception of fraternities and sororities), enabling these groups to request Associated Students funding, use Student Union facilities, and enjoy the benefits of the Associated Students' support and recognition. The Senate is comprised of 21 voting members, including the A.S. Vice President who serves as the Chair. There are two senators representing each of the seven colleges at CSULB and six Senators-at-large elected by the general student body.

The Associated Students Judiciary is responsible for interpreting the provisions of the A.S. bylaws and any other A.S. document when a dispute arises. The Associated Students Judiciary may take disciplinary action, including suspension or revocation of charter privileges against recognized student organizations. The Judiciary also renders final decisions in election disputes. The decisions of the A.S. Judiciary constitute the final authority in all Associated Students matters. A chief justice and six associate justices are appointed yearly by the A.S. President and confirmed by the A.S. Senate. The A.S. President also appoints an Attorney General and a Public Defender. This court allows students the opportunity to develop mediation and adjudication skills and to address any injustice or wrongdoing involving student government.

The Associated Students Government Offices are located in suite 311 of the University Student Union. For further information, call (562) 985-5241 or write to Associated Students Inc., 1212 Bellflower Blvd., Long Beach, CA 90815-4199.

### The University Student Union

In March 1965, the student body voted to assess a fee each semester to construct, maintain and operate a student union building. The University Student Union (USU) opened its doors in 1972 and has served the campus continuously since then. In March 1995, the student body approved a \$17 million improvement project. Completed in May 1998, the Project added a third floor and west wing to the building, providing space for a conference center, a Leadership Resource Center, student organization office space, a computer center, new meeting rooms, and a covered exterior escalator.

The University Student Union is located in the center of campus, bridging the north and south campuses. It occupies approximately 180,000 square feet. With large interior patios, flexible multipurpose and meeting rooms, comfortable lounges and food service facilities, the USU is the community center of campus and for many students, their "home away from home". The USU offers weekly entertainment activities and numerous opportunities for occupying students' recreation and leisure time. It is also home to several campus offices, including the Associated Students, the Beach Pride Center, the Alumni Association, and the Associate Vice President for Student Services/Dean of Students, the Community Service Officers Program, the Interfaith Center, K-Beach Radio, the Leadership Resource Center, the office of Student Life and Development, and the Long Beach Union Newspaper.

The Mall (ground floor) level of the USU caters to recreational and leisure-time activities. The Games Area offers bowling lanes, a video arcade, billiards, table tennis, a television lounge, and an outdoor swimming pool. The first level also houses Round Table Pizza, the Press Room Cafe, Beach Pride Center Alumni Association, and the Interfaith Center.

The Plaza (second) level features food vendors, student conveniences, and student service providers. The USU Food Court features nationally branded vendors such as Carl's Jr., Subway, Robek's Juice, Coffee Bean and Tea Leaf, and El Pollo Loco. The Photo/Ticket Booth offers photo developing and sells tickets for campus events and discount

tickets for area theme parks. The Candy Bar provides a quick place to grab a snack or a soft drink. The office of Student Life and Development provides advising for student organizations as well as mailboxes and organizational file space. The Event Planning Office is the central scheduling service for the USU and Soroptimist House. The ASI Business Office offers health insurance, money orders, notary public services, and banking services for student organizations. The Computer Center provides students with access to PC and Mac computers, while Planet Graph-X provides students with the latest in graphic design services. Other services on this level include Gary & Company Hair Salon, Music Listening Lounge, Union Newspaper, and Campus Police.

The Terrace (third) level houses the A.S. Government offices and offers students the opportunity to participate in campus governance activities. The Leadership Resource Center provides students with valuable resources to enhance their college experience. The Robert C. Maxson Student Organization Center houses 28 student organizations. The Greek Council Office and Office of Equity and Diversity are located on this level.

Throughout the USU, there are many facilities available to student organizations and other groups for scheduling events. The Long Beach Ballrooms, meeting rooms, Center Courtyard and the Beach Auditorium all provide a variety of amenities for meetings, conferences, speakers, films, concert, luncheons, and banquets.

### The Soroptimist House

Presented to the Associated Students in 1956 by the Soroptimist Club of Long Beach, the Soroptimist House provides a facility for parties, receptions, and informal meetings. It has a recently renovated, terraced patio for outdoor events, a carpeted lounge, a kitchen, and a dance floor. It is available for scheduling by campus organizations and departments, as well as individual students, faculty, and staff. The Soroptimist House provides a small, intimate, home-like setting and is commonly used for wedding receptions, graduation parties, and recognition ceremonies. Reservations may be made at the Event Planning Office in the University Student Union.

Students desiring information should contact the numbers listed above.

Program applications (BASW, MSW) are available on the department's website ([www.csulb.edu/depts/socialwk/](http://www.csulb.edu/depts/socialwk/)).

The mission of the profession of social work is to improve the quality of life for all people and to enhance human potential for full and productive participation in society. As such, social work has universal application to meet human needs arising from personal-societal interactions. Social Work, based on the history and philosophy of the profession, is committed to working with disenfranchised groups to alleviate poverty and oppression and to empower at risk including families and communities..

The social work method is a change-oriented process which helps individuals and social units of all sizes, structures and functions to discover, mobilize, develop and use their own and outside resources to change personal and social conditions which are barriers to meeting their needs. Change is accomplished through direct service, supervision, consultation, education, community organization, program development and evaluation, organizational and administrative advocacy, policy development, and social or political action.

Social workers are employed in varied settings, such as major societal institutions, health and mental health, child welfare, family services, government, corrections, aging services, recreation, and labor and industry. They work in many job classifications: direct service, community organization, supervision, consultation, management, administration, education and training, policy analysis and research.

The mission of the Department of Social Work is to prepare a diverse student population for Bachelor of Arts in Social Work (BASW) and Master in Social Work (MSW) degrees for professional social work practice. The graduates of these programs are able to:

- demonstrate competent and ethical practice with diverse and multicultural populations from a base that builds on advances in social work knowledge, values and skills;
- enhance the well-being, and address the needs of diverse and multicultural populations across the life span;
- and advocate for social justice and social change and for elimination of oppression and discrimination.

Additionally, the mission is to provide BASW and MSW education which is broadly accessible so that graduates can serve the needs of local, state and international communities in which they practice. In order to accomplish the mission, the Department draws on a diverse faculty who provides quality social work education and contributes to the community, the profession and the advancement of professional knowledge. The Departmental curriculum assists BASW and MSW students to gain professional knowledge and values and develop an understanding of, and skill in social work methods and techniques required to undertake quality practice within the full spectrum of professional tasks. These expectations are accomplished with the student through the integration of the information and theories of the classroom with supervised practical experience in a variety of social agencies.

The BASW and MSW programs are accredited by the Council on Social Work Education (Council on Social Work Education, Commission on Accreditation, 1725 Duke Street, Alexandria, VA 22314, phone number: 703-683-8080.

Departmental, University and Council on Social Work Education regulations do not permit the substitution of life or work experience for curriculum requirements and expectations.

The BASW and MSW programs are accredited by the Council on Social Work Education (Council on Social Work Education, Commission on Accreditation, 1725 Duke Street, Alexandria, VA 22314, phone number: 703-683-8080.

Departmental, University and Council on Social Work Education regulations do not permit the substitution of life or work experience for curriculum requirements and expectations.

### **Bachelor of Arts in Social Work (code SW\_\_BA01) (120 units)**

The Department of Social Work offers, in conjunction with the general education requirements, a professional program leading to a Bachelor of Arts in Social Work (BASW). The goals of the BASW program are to prepare students for entry level, professional, generalist social work practice and for graduate social work education, including advanced standing. Students learn to practice as professional social workers with persons and groups representing the range of human diversity and with all size systems (individuals, families, groups, communities and institutions).

Social Work majors should consider taking courses as electives or for fulfillment of general education requirements in the ethnic studies, women's studies and gerontology programs in the Colleges of Health and Human Services and Liberal Arts. The department can make recommendations concerning those courses which would be most useful to students interested in acquiring broader information closely allied to professional social work practice.

The field sequence has an integral role in the BASW curriculum providing an opportunity for the student to apply social work knowledge and practice skills in an agency based educationally focused field work placement. Students complete 450 hours of field placement (SW 495A/B) in their senior year for which they earn 14 academic units. Students complete 16 hours per week in an assigned agency placement. A variety of agencies in the surrounding communities are used, and the Department's field faculty select the most appropriate field placement site for students.

Students can contact the Department's admissions office for academic advising concerning the requirements for admission into the BASW program.

### **Admission Under Impaction**

The number of applicants to the Social Work program exceeds the number that can be accepted. For this reason, the Social Work Program has been designated as impacted by the California State University. Admission is on a competitive basis and is determined on the basis of meeting all of the following supplemental criteria. Applicants to the upper-division major must be able to demonstrate that they will meet the following requirements for admission prior to the semester for which the application is submitted:

1. To be eligible for admission to Social Work, applicants must demonstrate the following prior to the semester for which the application is submitted: Applicants must have met requirements for admission to the university as a freshman or transfer student. Applicants must have completed the following pre-requisite courses with a minimum grade point average of 2.50: BIOL 205, PSY 100, SOC 100, ANTH 120, and a course in elementary statistics such as HDEV 250, MATH 180, PSY 110, or SOC 250. Applicants must submit a supplemental application to the department by January 20 for the fall semester. The application includes statements of biographical and educational background and a description of community and/or social work experience. In addition, each applicant must submit 2 letters of reference, one academic and one professional. The number of applicants who can be admitted is limited by space availability. Eligible applicants will be selected for admission based on cumulative grade point average.
2. Submit by January 20 a Departmental application which includes statements of biographical and educational background, and community and/or social work experience.
3. Submit two letters of reference (one academic and one professional).

4. Submit transcripts of all previous college work at CSULB and elsewhere. In determining eligibility of an applicant for admission to the program, the admission committee will consider:

- A. All the information in the supplemental application;
- B. All college/university academic work completed with emphasis on the prerequisite courses;
- C. Documented exposure to the field of Social Work in a variety of settings such as work or volunteer experience;
- D. An interview of the applicant (at the discretion of the admission committee)

### Admission Under Impaction for Continuing Students

Students who indicate a Social Work major when they enter as freshmen will be assigned a pre-social work major code. Acceptance into the pre-major by the university does not imply or assure subsequent acceptance into the major by the Department. Students who are not accepted into the major cannot continue as pre-social work majors.

### Admission Under Impaction for Transfer Students

Students must be eligible for admission to the university as transfer students and must apply for admission to the university no later than November 30 for admission the following fall. Students who are not admitted to the major will not be admitted to the university unless they have listed a second choice of major on the application form.

### Additional Requirements

To be allowed to continue in the major, students must complete the following during the first two semesters in the major courses:

- A. Pass Abnormal Psychology
- B. Fulfill the Graduation Writing Assessment Requirement (GWAR)

### Sequence of Required Social Work Courses

Full-time students will take the following sequence of courses starting with:

- First Level (fall): SW 220, 221, 330, 350
- Second Level (spring): SW 331, 340, 341, 351
- Third Level (fall): SW 440, 442, 495A
- Fourth Level (spring): SW 441, 465, 495B

Parttime students will take the following sequence of courses

- First Level (fall): SW 220, 221
- Second Level (spring): SW 330, 350
- Third Level (fall): SW 331, 351
- Fourth Level (spring): SW 340, 341
- Fifth Level (fall): SW 440, 442, 495A
- Sixth Level (Spring): SW 441, 465, 495 B

All Social Work courses must be completed with a grade no lower than a "C" in classroom courses or a "CR" for practicum or field experience. If a student earns a grade lower than a "C" in a classroom course or a "NC" in a practicum or field experience course, the student must repeat the course and earn an acceptable grade before advancing to the next level of courses.

### FOUR YEAR PLAN TO COMPLETE THE B.A. IN SOCIAL WORK (SW\_BA01)

120 Units Required Department of Social Work

Semester 1		Semester 2	
University 100	1	Oral Communication or Comp	3
Comp or Oral Communication	3	Anth 120 (GE D.2)	3
GE Math or other GE class	3 (or 4)	GE class or GE Math	3
GE class	3	GE class	3
GE class	3	GE class	3
(KPE Activity class)	1

**FAQ Concerning Road Maps for Completion of Undergraduate Degrees**

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.  
While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.  
The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

**I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?**

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

**Must I take the courses in the semesters shown on the plan?**

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:  
1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.  
2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.  
3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).  
4) You must complete all requirements for admission to impacted majors within the first 60 units.

**I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?**

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.  
You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

**I didn't complete the exact list of courses shown. Can I still graduate on time?**

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

**If I follow the plan, will I have all requirements for graduation completed?**

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

## CalSWEC BASW Program

California Social Work Education Center (CalSWEC) is a unique partnership between social work education and the publicly supported child welfare agencies. A goal of the CalSWEC program is to recruit and prepare a diverse group of social workers for careers in public child welfare. CalSWEC provides financial support to BASW students in exchange for a commitment to work in a public child welfare agency after graduation. The intent of the program is to strengthen and enhance the quality of practice by professionally trained and educated public child welfare social workers.

The IV-E stipends provide support for full-time students enrolled in the BASW program. A CalSWEC reimbursement program is available for part-time students currently employed with the County Social Services department that provides child-welfare or assistance benefits eligibility functions. All part-time applicants must provide a letter of support from their agency administrator/director. Financial supports for awarded part-time students will include actual cost of full tuition and fees, book costs as well as a travel allowance. The travel allowance is determined based on the two-way commuting distance from the student's home or work to CSULB campus and/or their assigned field work site.

### Application Process

Students must first be admitted into the BASW program. Students are required to submit a CalSWEC application. The application is supplemented with various questions designed to ascertain their interest and level of commitment to a career in public child welfare. Once accepted into the program students must undergo pre-screening for county employment including fingerprinting and participation in the criminal clearance process. The student is required to sign a contract to secure full-time employment in a public child welfare agency after graduation.

Priority is given to applicants representing diverse population groups currently served by child welfare agencies in California. Fluency in a high demand language is also given priority. Years of service and other child welfare experience also weigh significantly into the selection process. Students in the program must be U.S. citizens or have a permanent visa.

An Awards Committee, made up of representatives of the CSULB Department of Social Work and representatives of public child welfare agencies from counties surrounding the University, will review and finalize selection of candidates to whom the award will be offered.

## Requirements

Students participating in the program must meet all the following criteria:

1. Successful BASW admission;
2. Maintain a B (3.0) average;
3. Attendance at mandatory seminars/trainings on specialized topics;
4. Have a valid driver's license and secure use of a car as required for fieldwork;
5. Undergo pre-screening for county employment;
6. Complete required health screenings;
7. Fulfill work commitment upon graduation; Students participating in the full time program sign a contract to render two years of continuous and satisfactory full-time employment in a public child welfare agency. Students in the part time program sign a contract to render one year of full time employment in their home agency for each year of IV-E education support;
8. Students must reimburse CalSWEC if they are unable to successfully complete any of the program requirements.

## Master of Social Work (code SW\_\_MW01)

The Department of Social Work offers a professional program culminating in a Master's degree in Social Work. Our goal is to prepare students to enter professional, multicultural social work practice. Students learn to practice as professional social workers with persons and groups representing the range of human diversity and with all size systems (individuals, families, groups, communities and institutions). In addition, students are prepared for advanced, specialized practice in concentrations representing Children, Youth and Families or Older Adults and Families.

The MSW program emphasizes ecological and systems perspectives which focus on the fit and interactions of a person or system in relation to the various environments likely to be encountered. Within these perspectives, knowledge, values, and skills are used in a change-oriented process within a multicultural context to help individuals and social systems achieve improved quality of life and social participation, including advocacy for just institutions and equitable access to opportunities and resources.

In addition to the mission noted above, the MSW program provides an educational experience which does the following:

1. Provides knowledge of and experience with ethnic diversity, teaches skill in ethnic-sensitive practice, and provides motivation and skill to combat oppressive policies and discrimination. As such, the program actively offers opportunity for graduate education to students of various ethnic, racial, and socio-economic backgrounds who have life experience in bridging cultural gaps;

2. Contributes to the quality of social services delivered in the adjacent community (Los Angeles, Ventura, San Bernardino, Riverside, and Orange Counties) by providing an opportunity for advanced education to students who are already employed in the social services. These students may concurrently maintain employment within the social services and participate in the program to develop advanced skills in their area. Quality of services is also enhanced through close collaboration between the Department of Social Work and community service agencies offering fieldwork experiences and through the labor force of MSW's educated in a program with multicultural emphasis and specializations which reflect the needs of our adjacent community as well as the needs of urban communities nationally;
3. Prepares social workers for leadership and specialized practice with a specific population group. The program maintains high standards and prepares social workers for the depth and complexity of generalist Social Work practice while being able to practice in a chosen area of concentration. Foundation knowledge, values, and skills required for intervention in a multicultural context are applied and developed through work within the area of specialization. Specialization consists of emphasis on a stage of the life cycle: either children, youth, and families or older adults and families. Specialized education is offered concurrently with basic foundation knowledge from entry into the program. Students are expected to have experience in the social services upon which to draw after entry into the program;
4. Teaches analytic skill necessary for reflective and autonomous practice and necessary for contribution to the advancement of knowledge. Social workers should be capable of integrating knowledge and practice, should be able to apply grounded, scientific principles to practice, should be capable of conceptualizing practice principles on the basis of their experience, and therefore should be able to contribute to the development of new knowledge;
5. Educates students to the values and ethics of the profession. The social worker is expected to be committed to the value that people should have equal access to resources, services, and opportunities. Social workers should be advocates of humane and responsive service, have regard for the worth and dignity of the individual, and conduct themselves in accordance with the professional code of ethics.

## Concentrations

The Master of Social Work degree offers opportunity for study in two areas of concentration: Older Adults and Families or Children, Youth and Families. The concentrations reflect two of the major areas of social concern and programs in our society. Child neglect and abuse, single parents, drugs and gangs illustrate the tremendous need for service to children and their families. Interestingly, the other end of the age range also reflects neglect and a need for service. The aged, the fastest growing population segment in our society, often lead healthy productive lives; however, many at risk individuals and their families will require services. For example, older adults in the uppermost age brackets are often frail and, therefore, may have a greater need for social services, income maintenance, housing, health and personal care services. The probability that older women will live longer than men and experience differences in social and economic conditions places many older adults at risk.

With both groups, the family is often the mediating source, and the social worker needs to be able to work with the family as well. Both groups are represented by large numbers in Southern California, and programs are developing to serve the need. Professional social workers have a vital part to play in seeing these services are adequate and sound.

### The Children, Youth and Families Concentration (CYF)

The Children, Youth and Families (CYF) concentration prepares students for practice in a variety of settings. Students are exposed to the full range of practice skills and have one year of direct practice experience and a second year of more intense direct practice or administrative practice experience.

Field work placements are available in a variety of agencies in the surrounding five-county area, including public, private and non-profit agencies. Typical settings include child welfare/protective services, health care, mental health, public social services, schools, community-based outpatient agencies, corrections/juvenile justice, residential treatment, programs for persons with developmental disabilities, substance abuse treatment and other specialized programs.

### Required Courses for CYF Concentration

SW 560 Direct Intervention with Individuals and Families:  
Focus on CYF

SW 660 Direct Intervention with Groups and Families: Focus  
on CYF

SW 670 Social Work Administration

SW 681 Advanced Policy and Political Action: CYF

SW 596 and SW 680 Field work placement in two different  
CYF agencies

SW 698/699 Master's Thesis

Two electives (any scheduled electives)

## Distance Education

The Children, Youth and Families Concentration is also offered at off-campus locations throughout the state. Courses are taught using face-to-face instruction, as well as interactive television and web-based instructional support. The distance education MSW is offered using a 3-year, part-time model. Students attend courses on Saturdays and complete fieldwork requirements during the second and third years of the program.

### Distance Education Model

#### Fall-Term 1

SW 505 Oppressed Groups  
SW 503A Human Behavior and Environment in Multicultural Perspectives: Focus on Prenatal Through Adolescence

#### Spring-Term 2

SW 503B Human Behavior and Environment in Multicultural Perspectives: Focus on Young Adulthood Through Old Age  
SW 592 Community Projects I

#### Summer-Term 3

SW 594A Research Methods I  
SW 693 Community Projects II

#### Fall-Term 4

SW 600 Elective  
SW 596A Field Instruction I  
SW 500 Foundations of Generalist Social Work Practice

#### Spring-Term 5

SW 594B Research Methods II  
SW 596B Field Instruction II  
SW 560 Direct Intervention; Focus on CYF

#### Summer-Term 6

SW 600 Elective  
SW 698A Thesis or Project I

#### Fall-Term 7

SW 660 Direct Intervention with Groups  
SW 680A Field Instruction III  
SW 699A Thesis or Project II

#### Spring-Term 8

SW 681 Advanced Policy  
SW 680B Field Instruction IV  
SW 670 Social Work Administration

### The Older Adults and Families Concentration (OAF)

The Older Adults and Families (OAF) concentration prepares students for practice in the delivery of social services to older adults and their families, in the planning and evaluation of social services and in administration of services and policy development. Students experience one year of placement in a direct practice setting and may select either a direct practice or administrative practice setting for their second year.

Field work placements are available in a variety of agencies in the surrounding five-county area including public and private nonprofit agencies. Typical settings include health care, adult protective services, mental health, community-based outpatient agencies, rehabilitation, programs for the developmentally disabled, substance abuse treatment, senior programs and other specialty services.

### Required Courses for OAF Concentration

SW 561 Direct Intervention with Individuals and Families:  
Focus on Older Adults

SW 661 Direct Intervention with Groups: Focus on Older Adults

SW 670 Social Work Administration

SW 682 Advanced Policy Seminar: Older Adults and Families

SW 596 and SW 680 Field work placement in two different Aging and Family agencies

SW 698/699 Master's Thesis

Two electives (any scheduled electives)

### Admission to MSW Advanced Standing Program

Students who have a 3.0 GPA and a BSW degree are conditionally admitted to the MSW Advanced Standing Program. Upon successful completion of an intensive Summer Bridge Module (see below), the core content from the 1<sup>st</sup> year of the traditional MSW program (or 30 units) will be waived and students will be Advanced to Candidacy to begin year two of the traditional MSW program curriculum.

### Admissions Criteria

In addition to the Department's basic admissions application procedures as well as University application procedures, the following are requirements for all Advanced Standing applicants:

- Graduation, within the last 5 years, from an undergraduate social work program that is accredited by the Council on Social Work Education at the time of the applicant's graduation.
- Applicants must have a cumulative 3.0 (on a 4.0 scale) grade point average for all undergraduate work.
- Provisional acceptance for persons currently enrolled in BASW/BSW programs is contingent on the successful completion of that program

plus submission of a reference letter from an undergraduate's current field instructor, as well as a reference letter from the applicant's program advisor or a professor who taught one of the required courses during the senior year.

- All acceptances to the Advanced Standing Program are conditional until University Enrollment Services admits a student and all Summer Bridge modules have been successfully completed.

## Admission to MSW Program

Students interested in full and part-time study are admitted to the MSW program for the fall or summer semester each year. Prospective students should apply directly to the Department of Social Work as well as to the University. International students must also apply to the Center for International Education (562) 985-5476. The Center begins accepting applications for the following fall term on November 1. Review of applications by the department begins the first week of September. Deadline for application is the second Friday of April by 5:00 p.m.

All students who apply to the Master of Social Work program must complete the following prerequisites prior to admission:

- Human Biology or Human Anatomy or Human Physiology
- Elementary Statistics

## Admission Requirements

To be admitted on a full or part-time basis to the Master of Social Work program, applicants must meet the following criteria:

1. Hold a Bachelor's degree from a university or college of recognized standing, that is grounded in liberal arts, and be eligible for admission to graduate standing at CSULB;
2. Demonstrate satisfactory academic achievement as evidenced by a cumulative undergraduate GPA of 2.50 or above on a 4.0 scale for the last 60 units of course work attempted and/or completed toward degree requirements.
3. Completion of the Department's application which requires inclusion of:
  - three reference letters (academic and professional)
  - a summary of volunteer experience, work experience, and educational background
  - a personal statement
  - results of the Graduate Record Examination (GRE) General Test taken within the past five years. This requirement is waived for applicants who have completed a masters degree within a 5 year period prior to the date of admission.
  - an official copy of all college/university transcriptsApplications that do not contain the above materials are considered to be incomplete, and will not be assessed for admissions decisions.
4. Preadmission interviews may be required by the Program faculty.

## Field Work

The field work sequence has an integral role in the MSW curriculum. The experience offers an opportunity for students to integrate and apply theoretical knowledge and social work practice and intervention skills in a community agency setting under the supervision of a qualified field instructor. A variety of agencies within the surrounding counties are utilized, reflecting the diverse settings in which social workers are employed. University field faculty select the most appropriate field placement site for students.

Each student has two field work placements and concurrent enrollment in practice courses during the course of study. Each placement involves 500 hours of field work in a community agency setting and attendance and participation in a field work seminar that meets weekly on campus. The field work sequence encompasses a total of 1000 hours, for which 12 units of academic credit are given. Academic year and summer block models of field work placement are available. The academic year schedule, begins in September and continues through mid May. Students take concurrent coursework and a field seminar while enrolled in field work and are currently in field work two days (16 hours) per week. This must include either two 8-hour week days or one 8-hour weekday and two 4-hour blocks. Some agencies include evening hours. The summer block model of field work occurs during the late spring and summer months, with students completing 36 hours per week in field work while concurrently taking coursework and a field seminar on the remaining work day.

Students who are employed in social service agencies may request that their agency be evaluated as a site for the second year field work only. The agency must be able to meet all criteria established by the Department of Social Work to insure the educational focus of field work and provide a significantly different experience. Evaluation of field work sites and approval to utilize an agency of employment as a field work site will be completed by the field work faculty.

The Department of Social Work will reject an applicant or disqualify an enrolled student whose record of academic achievement or performance in field instruction does not meet the minimum standards of the profession.

## Waiver of the First Year Core: Common Body of Knowledge

The Master's in Social Work degree is based upon a common body of knowledge. Students with a Bachelor's degree in social work from this University, or from other CSWE accredited undergraduate social work programs, within the last five years, will have met much of the First Year Core requirements. Students' transcripts are reviewed for completion of the necessary coursework for mastery of the common body of knowledge. A 3.0 GPA in the undergraduate social work courses, with no grades below a C, and 2.5 overall GPA are required to meet the criteria.

Waivers of the First Year Core (30 units) are based upon previous educational background at the undergraduate level and upon completion of summer bridge courses and field placement in this social work department. Summer bridge courses will include modules from each of the program sequences: research, practice, human behavior and social policy. Summer bridge field work placement will include 160 hours (16 hours per week). Students, therefore, have a provisional admission to the department until they have successfully completed the summer program. When they successfully complete the summer bridge courses and field placement, they receive the Waiver of the First Year Core and enter the second year of the MSW program in the Fall semester. Students are immediately Advanced to Candidacy upon receiving a Waiver of the First Year Core. The courses that are waived as the First Year Core are: SW 500, 503A, 505, 594B, 596A, 560 or 561, 592, 594A, 596B and 503B.

Students, for whom the First Year Core is waived, are not eligible for the Geriatric Social Work Education Consortium, Inter-University Consortium or CalSWEC programs.

## Geriatric Social Work Education Consortium

The John A. Hartford Foundation awarded a 3 year grant to support the development of geriatric field practicum sites. The grant funded an alliance of all of the social work graduate schools and four geriatric service providers in the greater Los Angeles area. This consortium was created and sponsored by the Partners in Care Foundation with the goal of enhancing the quality of life for seniors.

The program continues with new funding and stipends are provided to MSW students in the Older Adults and Families concentration. Information regarding this program is presented to students in the field orientation and applications are made available.

## Inter-University Consortium

The IUC (Inter-University Consortium) is one of the specialized training programs in public child welfare available in the MSW program. It is a collaborative partnership that includes the Los Angeles County Department of Children and Family Services (DCFS) and the Paramount Unified School District. The IUC program has been designed to give students exposure to public child welfare practice through assignment of DCFS cases, as well as experience working with groups of children in the school setting.

Title IV-E stipends are available for one (1) year for students enrolled in the full-time 2 year or part-time, other than summer block, model of the MSW program. Students may apply for either the first or second year of field placement. Students accepted into the program must:

- Be enrolled in the MSW program
  - Be enrolled in the Children, Youth and Families concentration
  - Complete one year of fieldwork in the IUC/DCFS placement
- Complete the designated specialty child welfare curriculum which includes:
- SW 643 - Social Work Practice within Child Welfare Services
  - SW 698B/699A - MSW Thesis (IUC students' theses must focus on a child welfare problem or issue)
  - Complete designated specialized training seminars

Students participating in the program must undergo pre-screening for county employment including fingerprinting and DCFS physical and psychological examinations. Students sign a contract committing themselves to one year of full-time paid employment following graduation with Los Angeles County Department of Children and Family Services. Students are responsible for payback of the stipend if they are unable to successfully complete any of the requirements of the program.

## CalSWEC MSW Program

California Social Work Education Center (CalSWEC) is a unique partnership between social work education and the publicly supported child welfare structure. The mission and goals of the Cal SWEC program are to reprofessionalize public child welfare. CalSWEC provides financial support to MSW students in exchange for a commitment to work in a public child welfare agency for a minimum of one year for every year of support received. The intent of the program is to strengthen and enhance the quality of practice by professionally trained and educated public child welfare social workers.

Students must first be admitted into the Children Youth and Family Concentration of the MSW program, after which they submit an application and answer various questions designed to ascertain their interest and level of commitment to a career in public child welfare.

Priority is given to applicants representing diverse population groups currently served by child welfare agencies in California. Fluency in a high demand language is also given priority. Years of service and other child welfare experience also weighs significantly into the selection process. Students in the program must be U.S. citizens or have a permanent visa.

An Awards Committee, made up of representatives of the CSULB Department of Social Work and representatives of public child welfare agencies from counties surrounding the University, will finalize selection of candidates to whom the award will be offered. Inter-University consortium students are not eligible for the CalSWEC program.

### Full-time CalSWEC Program

The IV-E stipends provide for two (2) years of support for students enrolled in the full-time 2 year model of the MSW program. The student signs a contract to secure full-time employment in a public child welfare agency for two (2) years (one year of employment for each year of support) but is expected to remain in public child welfare employment for longer than this minimum period.

Once accepted into the program students must undergo pre-screening for county employment including fingerprinting and participation in the criminal clearance process.

### Part-time CalSWEC Program

Students eligible to apply for the part-time CalSWEC reimbursement program must be employees of the County Social Services department that provides the child welfare or assistance benefits eligibility functions. All part-time applicants must provide a letter of support from their agency administrator/director. Financial supports for admitted students will include: full tuition and fees, book costs and a travel allowance. The student will receive the actual cost of tuition and fees based on the percentage of his/her enrollment up to full-time in the MSW program. Each student will receive the actual cost of required books up to \$500.00 per semester. The travel allowance will be determined based on the two-way commuting distance from the student's home or work to the campus and/or field work site and return to that location.

Students participating in the program sign a contract to render one year of continuous and satisfactory full-time employment in their home public child welfare agency for each year of IV-E education support.

## Requirements

Students participating in the program must meet all of the following criteria:

- Enroll in and successfully complete the Children, Youth and Families Concentration;
- Maintain a "B" (3.0) average;
- Successfully complete and receive a grade of credit in 1 year of fieldwork in a public child welfare agency;
- Successfully complete and receive a grade of credit in 1 year of fieldwork in a public agency (different from the first year) or a non-profit agency serving IV-E eligible children (in this case IV-E refers to clients who are TANF eligible).
- Have a valid drivers license, current automobile insurance, and secure the use of a car as required by fieldwork.
- Complete required specialized Child Welfare Curriculum including but not limited to:
  - SW 643 - Social Work Practice within Child Welfare Services;
  - SW 698/699 - Masters Thesis with a focus on Child Welfare population, issue area or service delivery systems;
  - Attendance at specialized training seminars;
  - Students must reimburse CalSWEC if they are unable to successfully complete any of the program requirements.

CALSWEC students are not eligible for the PPS credential.

### Pupil Personnel Services Credential with Specialization in School Social Work and Child Welfare and Attendance (code 803)

The California Commission on Teacher Credentialing issues the Pupil Personnel Services (PPS) Credential. The Department of Social Work, College of Health and Human Services, offers the combined School Social Work and Child Welfare and Attendance Specializations of the PPS Credential within the context of the Master of Social Work (MSW) degree.

The PPS Credential in School Social Work and Child Welfare and Attendance authorizes the holder to be employed in the State of California as a School Social Worker and/or a Child Welfare and Attendance Specialist. The credential covers pre-kindergarten through 12th grade service in public and other schools requiring the credential. Individuals with the credential in School Social Work and Child Welfare Attendance are pupil advocates, and provide prevention and intervention strategies that remove barriers to learning. These professionals, in partnership with other educators parents and the community maintain high expectations for all pupils, facilitate pupils reaching their highest potential, foster optimum teaching and learning conditions, and prevent school failure. School Social Work is defined as the application of social work principals and objectives to help fulfill the major purpose of the education system: to provide a setting for teaching and learning in which all children can prepare themselves for the world they now live in, and the world they will face in the future.

Child Welfare and Attendance specialists provide assessment and intervention around issues of attendance for pupils.

## Requirements

1. Successful completion of all of the requirements for the 60 unit Master of Social Work (MSW) degree within the Children, Youth and Families Concentration. Required coursework will be completed in the following sequence areas: Field Work, Human Behavior and the Social Environment, Social Work Policy, Social Work Practice, and Social Work Research;
2. Completion of SW 665, School Social Work as one of the required electives within the 60 unit MSW program, taken either prior to or concurrently with school social work field work placement;
3. Successful completion of required School Social Work Seminar series presenting specialized topics;
4. Demonstrated knowledge in the following areas of pupil personnel services, as defined in the Commission on Teacher Credentialing Standards: Knowledge of techniques for facilitating individual growth and development to achieve academic success; Knowledge of the wide variety of socio-cultural influences that affect pupils in a school setting; Knowledge of human assessment; Knowledge of problem prevention and early intervention; Knowledge of consultation services; Knowledge of learning theory and psychological education; Knowledge of coordination and development of services; Knowledge of legal enablements and constraints; Knowledge of referral and utilization of services; Knowledge of human assessment as direct services to pupils, Knowledge of social interventions; Knowledge of consultation coordination and development of services; Knowledge of referral, utilization, involvement and use of community resources; Knowledge of social research and services based on research; Knowledge of the code of professional ethics; Knowledge of attendance laws and the rights of minors; and Knowledge of skills using attendance laws and assessment skills.
5. Successful completion of 600 clock hours of field practice in the second year of field, demonstrating all of the required skills and knowledge areas, in an approved PPS site, under the supervision of an experienced MSW level practitioner and an individual who holds a PPS Credential. Supervised hours of field practice will include at least 100 hours in each of two settings (elementary, middle and/or high school), and experience in service delivery with populations representing ethnic diversity and will cover both school social work and child welfare and attendance competencies and standards.
6. Completion of required Application and forms from California Teachers Credentialing Division, including fingerprints, Certificate of Clearance and Character Reference form;
7. Completion of required health screenings;
8. Successful performance on C-BEST Examination;
9. Certification of program completion and demonstrated competence by the PPS Program Coordinator, Department of Social Work. The student may be required to complete additional course work, field work, or demonstrate specific competencies before approval.
10. Completion of all required forms and procedures of Credential Processing Center, CSULB.

## Advancement to Candidacy

A conditionally classified or fully classified student must maintain a minimum GPA of 3.0 on all courses taken subsequent to admission. In addition, a GPA of 3.0 must be maintained in all courses required for the degree. A student will be eligible for advancement to candidacy for the degree after successfully completing 12 units of graduate level courses in Social Work.

All students must demonstrate competency in writing skills. Students must attempt to fulfill the Graduation Writing Assessment Requirement (GWAR) in the first semester of residence in the MSW program or score at least a "4" on the GRE Writing Assessment. Either the GWAR or the GRE Writing Assessment must be passed to advance to candidacy.

## Course Load

The California State University, Long Beach requirement for full-time status as a graduate student is 8 weighted units. For part-time students pursuing the M.S.W. degree in the Department of Social Work, the residency requirement is one year of full-time work; therefore, part-time students pursuing the M.S.W. degree must take at least 2 semesters of at least 3 courses or 9 units. Students who wish to complete the M.S.W. degree in 2 years must take an overload of 6 units for 4 semesters or 15 units a semester.

## Requirements

The Master of Social Work program requires the completion of 60 semester units. Fifty-four units of required courses and 6 units of scheduled departmental electives must be taken to complete a concentration. In the CYF concentration, 57 units of required courses and 3 units of scheduled departmental electives must be taken by IUC, Cal SWEC and PPS credential students.

The program is taken in one of the four following sequences with the exception being the Advanced Standing Program Model.

### Plan A: (two years)

- Term 1 – SW 500, 503A, 505, 594A, 596A (Fall)
- Term 2 – SW 560 or 561, 592, 594B, 596B, 503B (Spring)
- Term 3 — SW 660 or 661, 680A, 693, 698A, 500/600 level elective; (Fall)
- Term 4 — SW 670, 680B, 681 or 682, 699A, 500/600 level elective; (Spring)

### Plan B: (four years)

- Term 1 — SW 503A, 505; (Fall)
- Term 2 – SW 503B, SW 594A (Spring)
- Term 3 — SW 500, 596A, 500/600 level elective; (Fall)
- Term 4 — SW 560 or 561, 592, 596B; (Spring)
- Term 5 — SW 660 or 661, 680A, 693; (Fall)
- Term 6 – SW 594B, 670, 680B (Spring)
- Term 7 — SW 698A, 500/600 level elective; (Fall)
- Term 8 — SW 681 or 682, 699A (Spring)

### Plan C: (three years) (Special Sessions)

- Term 1 — SW 503A, 505, 500/600 level elective; (Fall)
- Term 2 — SW 503B, 592; (Spring)
- Term 3 – SW 693, 594A, (Summer)
- Term 4 — SW 596A, 500; (Fall)
- Term 5 – SW 596B, 560 or 561, 594B (Spring)
- Term 6 — SW 698A, 500/600 level elective; (Summer)
- Term 7 — SW 680A, 660 or 661, 699A; (Fall)
- Term 8 — SW 680B, 670, 681 or 682. (Spring)

### Plan D: (Summer Block Model)

- Term 1 (Summer Session) — SW 503A, 505;
- Term 2 – SW 594A, 500/600 level elective (Fall)
- Term 3 — SW 503B, 592; (Spring)
- Term 4 (Summer Session) — SW 500, 560 or 561, 596C, 596D, 698B;
- Term 5 — SW 693, 500/600 level elective; (Fall)
- Term 6 – SW 681 or 682, 594B (Spring)
- Term 7 (Summer Session) — SW 660 or 661, 670, 680C, 680D, 699B.

Plans C (3 year) and D (Summer Block), which are done through Special and Summer Session Programs, are more expensive due to higher tuition costs.

## Advanced Standing MSW Program Requirements

### Summer Bridge Module

- Field Work – 16 hours per week for 10 weeks plus 2 hours of seminar per week.
- Field Work Internship – 160 hours total.
- Human Behavior – 32 hours
- Social Policy – 16 hours
- Research – 40 hours
- Practice – 48 hours
- Technology – 8 hours

## Second Year Coursework

### Fall

- SW 660/661 – Practice Individuals/Families
- SW 680A – Field Seminar III
- SW 693 – Community Projects II
- SW 698A – Thesis I
- SW 500/600 – Social Work Elective

### Spring

- SW 670 – Administrative Practice
- SW 680B – Field Seminar IV
- SW 682 – Advanced Policy
- SW 699A – Thesis II
- SW 500/600 – Social Work Elective

For other requirements of Master's degree programs, see the University's graduate degree requirements.

## Courses (S W)

### Lower Division

#### 220. Introduction to Social Welfare (3)

Prerequisite: Completion of GE Foundation requirements. This course offers students a general understanding of social welfare and social work. It provides an analysis of current functions and purposes of social welfare as an institution. The course examines historical and philosophical perspectives on social welfare within the context of cultural, economic, political, psychological and social forces. It also studies the consequences of national welfare in other countries. Introduced in this course are the knowledge, values, and skills that underpin social work practice.

#### 221. Introduction to Social Welfare Practicum (3)

Prerequisite: Consent of instructor; Corequisite: SW 220. Lecture classes and visiting and observing approved social service agencies and allied activities. Open to social work majors only. Credit/No Credit grading only.

### Upper Division

General Education Category A must be completed prior to taking any upper division course except upper division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

#### 330. Human Behavior and Social Environment: Birth through Adolescence (3)

Prerequisites: Completion of GE Foundation requirements. This course is designed to provide a multi-dimensional view of human development and human diversity from conception through adolescence. A variety of theoretical perspectives will be studied. Emphasis will be on the contexts of development, stressing the ways in which the social environment provides expectations, resources and barriers to human development. The influences of family, peers, institutions and culture will be explored. The effects of socioeconomic status, minority status, sexism and racism will be addressed. The course will offer a comparative treatment of predominant ethnic minority cultures as they interact and interrelate with mainstream society. Implications for social work practice will be discussed. Letter grade only (A-F).

#### 331. Human Behavior and Social Environment: Young Adulthood through Old Age (3)

Prerequisites: Completion of GE Foundation requirements. This course is designed to provide a multi-dimensional view of human diversity and development from late adolescence through death and dying. A variety of theoretical perspectives introduced in SW 330 will be expanded upon and applied to the latter end of the life-span. Emphasis will be on the contexts of development, stressing the ways in which the social environment provides expectations, resources and barriers to human development. The influences of family, peers, institutions and culture will be explored. The effects of socioeconomic status, minority status, sexism and racism will be addressed. The course will offer a comparative treatment of predominant ethnic minority cultures as they interact and interrelate with mainstream society. Implications for social work practice will be discussed. Letter grade only (A-F).

#### 340. Generalist Social Work Practice (3)

Prerequisites: SW 220, 221, 330, 350. Concurrent enrollment in SW 341. Social work practice as a helping process. Common elements for generalist social work practice with all size systems - knowledge, ethics, values, principles, professional relationships, interviewing and beginning assessment and intervention phases. The activities of the social worker in resolution of social, emotional and environmental problems. Open to social work majors only. Letter grade only (A-F).

#### 341. Social Work Practicum (3)

Corequisite: SW 331, 340, and 351. Minimum of 8 hours weekly experience in approved social service or allied setting. Social work field practice including interviewing, assessment, and intervention activities. Credit/No Credit grading only. Open to social work majors only. Not open to students with credit in SW 340A.

#### 350. Social Policy: Law and Court Decisions (3)

Prerequisite: Completion of GE Foundation requirements. Social policy as defined in legislation and judicial decisions affecting the rights of individual families, minorities, and the general welfare. Letter grade only (A-F).

#### 351. Social Policy: Formulation and Analysis (3)

Prerequisites: Completion of GE Foundation requirements. Policy formulation and analysis related to social welfare institutions and major social welfare policies and programs. Current values and issues in social welfare policy. Letter grade only (A-F).

#### 406A. Applications of Social Work with Older Adults (3)

Prerequisite: Consent of instructor and upper division status. This course provides an intergenerational service learning experience. In the classroom, the students learn about the bio-psycho-social dimensions of the aging process and basic theory and practice of group work with older adults. Students have the unique opportunity to apply this knowledge by co-facilitating weekly discussion/support groups for older adults in independent living communities. Letter grade only (A-F).

#### 406B. Applications of Social Work with Older Adults (3)

Prerequisite: Consent of instructor and upper division status. Different topics from 406A. This course can be a continuation of SW 406A or may be taken separately. Students who enroll in 406B only will be required to demonstrate knowledge of issues of concern to older adults and basic group work theory and skill. This course addresses advanced group work skills and increased focus on services for older adults. Students will co-facilitate weekly support groups for older adults in independent living communities. Letter grade only (A-F).

#### 423. Child Abuse and Prevention (3)

Examination of child abuse as a social problem; its history and causal factors, including social change and changing family patterns. Intervention practices, including identification and investigation, social services and court intervention will be reviewed, especially the roles of health professionals, criminal justice and corrections personnel, social workers and educators. Finally policy implications will be examined with a focus on policy as intervention, as well as the role of concerned citizens and child advocates. Letter grade only (A-F). Same course as SOC 423.

#### 440. Generalist Social Work Practice with Groups (3)

Prerequisites: SW 331, 340, 341. Concurrent enrollment in SW 495A. Adaptation of generalist frameworks of social work practice to generalist group approaches. Analysis of dynamics, theories, and principles underlying group practice. Programs, practice techniques, and roles involved with groups. Open to social work majors only. Letter grade only (A-F).

#### 441. Generalist Social Work Practice with Communities and Institutions (3)

Prerequisites: SW 331, 340, 341, 351. Concurrent enrollment in 495B. Adaptation of generalist frameworks of social work practice to generalist approaches to community and institutional applications. Analysis of theories and principles underlying community practice. Adaptation of theories and activities to organizational contexts. Techniques and activities applicable to communities and neighborhoods. Open to social work majors only. Letter grade only (A-F).

#### 442. Generalist Social Work Practice with Individuals and Families (3)

Prerequisites: SW 331, 340, 341. Concurrent enrollment in SW 495A. Adaptation of generalist frameworks of social work practice to generalist practice with individuals and families. Theories, techniques, activities, and role of social workers; differential approaches to study, assessment, intervention, and helping processes. Open to social work majors only. Letter grade only (A-F).

#### 465. Research Methods in Social Work (3)

Prerequisites: SW 440 and 442 and one course in elementary statistics. Concurrent enrollment in SW 441, 465 and 495B. This course is an introduction to research methods in social work with an emphasis on the evaluation of social work interventions and agency programs. Open to social work majors only. Letter grade only (A-F).

#### 469./569. Disability, Culture and Society: Issues and Intervention (3)

Prerequisites: Senior or graduate status. This is a course using interdisciplinary work about disability as a social construct. Utilizing an oppressed group model, the course will examine society's policies and practices to understand the experience of disability. Includes historical and contemporary perspectives as well as future issues. Social and clinical intervention methods, and program and information resources are covered. Same course as GERN 469./569 and REC 469./569. Letter grade only (A-F).

#### 480. Social Work with Families and Children (3)

Contemporary social welfare programs designed to meet the physical, psychological, and social needs of families and children. Basic principles and methods of providing services, including the role of the social worker. Letter grade only (A-F).

#### 481. Immigration Issues in Social Work (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Survey of major historical and contemporary issues regarding legal and illegal immigrant populations in California. Origins of the current immigrant flow and international and federal policies and mechanisms which facilitate immigrant entry into the U.S. Designed to assist social welfare services by examining the unique immigrant experience and focusing on select variables which present barriers to immigrant clients in accessing services. Letter grade only (A-F).

#### 484. International Perspectives in Social Welfare for the Elderly (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Critical analysis of aging problems in developed and developing countries, discussing demographic, socioeconomic and humanitarian issues from a social welfare perspective. Discussion of medical, financial and social service programs for the elderly to meet these needs in various countries. Letter grade only (A-F).

#### 490. Special Topics in Social Work (1-4)

Topics of special interest in social work for intensive study. Topics will be announced in the *Schedule of Classes*. May be repeated to a maximum of 4 units with different topics. Open to social work majors only. Letter grade only (A-F).

#### 491. Non-Violent Conflict Resolution: In Your Life, On the Job, With Your Clients and Around the Planet (3)

This course is designed to help the social work student examine conflict and violence, their own and others' responses to conflict situations on the intrapersonal, interpersonal and community levels, and to learn to utilize a set of tools to deal with conflict in a productive, non-violent manner. Letter grade only (A-F).

#### 495A. Field Experience in Social Work (7)

Prerequisites: SW 330, 331, 340, 341, 350, 351. Concurrent enrollment in both of the following: SW 440 and 442. Evidence of satisfactory malpractice liability insurance coverage. Open to seniors accepted for fieldwork. This class is the first semester of a two-semester class in which the student completes a year long internship together with a seminar. Supervised practice experience in social welfare agencies and allied settings. Two hours weekly of campus seminar and 16 hours minimum in agency placement. Credit/No Credit grading only. Open to Social Work majors only.

#### 495B. Field Experience in Social Work (7)

Prerequisites: SW 442 and 495A. Concurrent enrollment in two of the following: SW 440, 441, and 465. Evidence of satisfactory malpractice liability insurance coverage. Open to seniors accepted for field work. This class is the second semester of a two-semester class in which the student completes a year long internship together with a seminar. Supervised practice experience in social welfare agencies and allied settings. Two hours weekly of campus seminar and 16 hours minimum (usually Tuesday and Thursday) in agency placement. Credit/No Credit grading only. Open to Social Work majors only.

#### 499. Directed Studies (1-3)

Prerequisite: Consent of instructor. Independent study of special topics under supervision of a faculty member. Open to social work majors only. Letter grade only (A-F).

### Graduate Level

#### 500. Foundations for Generalist and Multicultural Social Work Practice (3)

Corequisites: SW 596A or 596C. This foundation practice course provides the basic knowledge and skills for generalist and multicultural practice with all size systems. The implementation of principles, ethics, values, professional relationships, interviewing/communication skills and the tasks of the initial, assessment and intervention phases, with attention to multicultural differences and expectations, is stressed. The roles of the social worker are addressed from the ecological systems perspective. Letter grade only (A-F).

#### 503A. Human Behavior and Environment in Multicultural Perspectives: Focus on Prenatal through Adolescence (3)

This course reviews key theoretical frameworks (including psychodynamic, bio-psycho-social, cognitive, systems, learning and role theories) for their clinical application to assessment, diagnosis and treatment of individuals and families. Focus is on the impact of poverty, group conflict and socio-cultural factors in prenatal to adolescent development. Letter grade only (A-F).

#### 503B. Human Behavior and Environment in Multicultural Perspectives: Focus on Young Adulthood Through Old Age (3)

Prerequisite: SW 503A. This course reviews key theoretical frameworks (including psychodynamic, bio-psycho-social, cognitive, systems, learning and role theories) for their clinical application to assessment, diagnosis and treatment of individuals and families. Focus is on the impact of poverty, group conflict and socio-cultural factors in development from young adulthood through old age. Letter grade only (A-F).

#### 505. Oppressed Groups: Social Policy Analysis (3)

This foundation course provides a framework for understanding and synthesizing a large and complex area of knowledge. The primary goal of the course is to develop an understanding of history, structure, and processes of the social welfare system in the United States, social work profession's perspectives on social and economic justices, and issues surrounding equity and fairness. The course will focus on policy practitioners' roles in problem analysis and policy analysis as they apply to oppressed groups. The student will recognize how societal values influence the formation, implementation, and evaluation of social welfare policies, programs, and services. The social, economic, and political context of policy making will be analyzed in order to understand the policy roots of economic and social injustices. Letter grade only (A-F).

#### 540. Social Work Practice in Health Care (3)

This course will cover direct practice issues in a variety of health care settings. Policy issues will also be discussed as they affect or dictate direct practice in various health care settings. Letter grade only (A-F).

**560. Direct Intervention with Individuals and Families: Focus on Children, Youth and Families (3)**

Prerequisites: SW 500, 596A, or 596C. Concurrent enrollment in SW 596B or 596D. This course focuses primarily on practice related to personality functioning in, and interpersonal interaction with children, youth, family and adults. Emphasis is on in-depth implementation of the psychosocial study, assessment and intervention. Cognitive-behavioral, family systems, psychosocial and crisis intervention/ brief therapy approaches are examined in relation to the ecological systems framework with special emphasis on additional multicultural perspectives. Letter grade only (A-F).

**561. Direct Intervention with Individuals and Families: Focus on Older Adults (3)**

Prerequisites: SW 500, 596A or 596C, and concurrent enrolment in SW 596B or 596D. Examination of varied practice strategies in depth. Behavioral, cognitive, humanistic, psychosocial and psychodynamic models viewed in relation to the ecological systems and multicultural perspectives. Focuses on assessment through termination phases of the helping process. Letter grade only (A-F).

**562. Social Work and AIDS (3)**

This seminar course covers all aspects of AIDS (Acquired Immune Deficiency Syndrome) and HIV (Human Immunodeficiency Virus) relevant to social work practice. The range of topics to be covered is as follows: child welfare, policy, psychosocial issues, counseling, alcohol and drug use, women, people of color, ethical issues, prevention, mental health, elderly, developmental disability, etc. By course end, students should have a solid working knowledge of the issues and concerns related to persons affected by AIDS and HIV. Letter grade only (A-F).

**569./469. Disability, Culture and Society: Issues and Intervention (3)**

Prerequisites: Senior or graduate status. This is a course using interdisciplinary work about disability as a social construct. Utilizing an oppressed group model, the course will examine society's policies and practices to understand the experience of disability. Includes historical and contemporary perspectives as well as future issues. Social and clinical intervention methods, and program and information resources are covered. Same course as GERN 569./469 and REC 569./469. Letter grade only (A-F).

**590. Special Topics (3)**

Prerequisite: Consent of instructor. Content may vary from semester to semester. Topics will be announced in the *Schedule of Classes*. May be repeated to a maximum of 6 units for majors and 9 units for non-majors with different topics. Letter grade only (A-F).

**591. Diagnosis and Treatment in Clinical Practice with Older Adults (3)**

Prerequisites: Graduate status. This course introduces the student to the theory and application of clinical interventions with older adults. Within the frameworks of the eco-systems and multicultural perspectives, emphasis is placed on understanding late-life problems and mental disorders, on developing skills in assessment and clinical diagnosis, and on formulating and implementing treatment plans. Letter grade only (A-F).

**592. Community Projects I (3)**

Community Projects is a two-semester course sequence that focuses on the acquisition and application of macro practice skills to community problems. The purpose of Community Projects I is to provide students with awareness of the values, concepts, frameworks, skills and techniques required to promote social action and planned change in community and other target systems. The course substantive content includes but is not limited to an exploration of macro practice history and methods, the relationship between professional values and ethical dimensions of community practice, socio-political determinants of community problems and preferred interventions, macro practice theory and models. Special emphasis will be devoted to select macro-practice intervention modalities and their implications for culturally diverse, impoverished communities. Letter grade only (A-F).

**593. Intergroup Dialogue Facilitation: Skills for Multicultural Social Work Practice (3)**

Prerequisites: Graduate student status. This course is designed to give students a foundation in the awareness, knowledge, understanding, and skills needed to effectively carry out multicultural social work practice with populations who are culturally diverse in terms of race, ethnicity, class, gender, religion, sexual orientation, age, ability status, and national origin. Students will gain skills in facilitating multicultural group interactions and in resolving conflicts that emerge due to cultural misunderstandings or oppressive dynamics. Letter grade only (A-F).

**594A. Research Methods in Social Work I (3)**

This is the first of a two-semester course. Its purpose is to provide an introduction to social work research methods and knowledge building, including the importance of conducting research in social work, conceptualization of research problems, conducting literature reviews, use of the Internet to locate information, ethical principles, qualitative and quantitative designs, sampling, measurement, and data collection methodologies. The emphases are on building knowledge and skills for carrying out independent, multiculturally focused research in social work and on the ability to evaluate research findings critically. Letter grade only (A-F).

**594B. Research Methods in Social Work II (3)**

Prerequisite: SW 594A. This is the second of a two-semester course. Its purpose is to provide additional information about the research process in social work, including grant writing, program evaluation, computer-based qualitative and quantitative data analysis procedures, interpretation of findings, and preparation of reports for dissemination of findings. There are continued emphases on the ability to carry out independent, multiculturally focused research and on the ability to evaluate research findings critically. Letter grade only (A-F).

**596A. Field Instruction I (3)**

Prerequisite: Concurrent enrollment in SW 500. Evidence of satisfactory malpractice liability insurance coverage. This class is the first semester of a two-semester class in which the student completes a year long internship together with a seminar. Supervised practice experience in a community social agency based upon students' learning needs, interest and area of concentration. Focus on development of foundation of generic interventive modalities in individuals, families, groups and communities with emphasis on cross-cultural practice. Two hours weekly field seminar and 16 hours in agency placement. Credit/No Credit grading only.

**596B. Field Instruction II (3)**

Prerequisite: SW 500, 596A, or 596C, and concurrent enrollment in SW 560 or 561. Evidence of satisfactory malpractice liability insurance coverage. This class is the second semester of a two-semester class in which the student completes a year long internship together with a seminar. Continuation of supervised practice experience in a community social agency on an advanced level of practice with individuals, groups and communities with emphasis on cross-cultural practice. Two hours weekly field seminar and 16 hours in agency placement. Credit/No Credit grading only.

**596C. Field Instruction I (3)**

Prerequisite: Concurrent enrollment in SW 500. Evidence of satisfactory malpractice liability insurance coverage. This class is the first semester of a two-semester class in which the student completes a year long internship together with a seminar. Supervised practice experience in a community social agency based upon students' learning needs, interest and area of concentration. Focus on development of foundation of generic interventive modalities in individuals, families, groups and communities with emphasis on cross-cultural practice. Two hours weekly field seminar and 36 hours in agency placement. Credit/No Credit grading only.

**596D. Field Instruction II (3)**

Prerequisite: SW 500, 596A, or 596C, and concurrent enrollment in SW 560 or 561. Evidence of satisfactory malpractice liability insurance coverage. This class is the second semester of a two-semester class in which the student completes a year long internship together with a seminar. Continuation of supervised practice experience in a community social agency on an advanced level of practice with individuals, groups and communities with emphasis on cross-cultural practice. Two hours weekly field seminar and 36 hours in agency placement. Credit/No Credit grading only.

**599. Independent Study (1-3)**

Prerequisites: Consent of Department and instructor. Independent study of special topics under supervision of a faculty member. May be repeated to a maximum of 6 units. Letter grade only (A-F).

**642. Mental Health and the Older Adult: A Multi-Cultural Perspective (3)**

The course will focus on a broad-based selection of demographic, psychological and social issues concerned with the older person and their families. Topics will be described and analyzed from preventive, clinical and cross-cultural perspectives. Letter grade only (A-F).

**643. Social Work Practice within Child Welfare Services (3)**

Prerequisite: SW 503. This course will assist the student in gaining an understanding of the broad field of social work practice commonly known as child welfare services. The content of the course focuses on needs of children for care and protection by society, and programs and services provided by the social welfare and social services delivery systems that are available and needed to insure their well being. Letter grade only (A-F).

**660. Direct Intervention with Groups: Focus on Children Youth and Families (3)**

Prerequisites: SW 560 and concurrent enrollment in SW 680A or SW 680C. Teaching of advanced specialized skills needed to work with groups, emphasizing work with children, youth, and families. Focuses on clinical work with groups with special emphasis on eco-systems and multi-cultural perspectives. Letter grade only (A-F).

**661. Direct Intervention with Groups: Focus on Older Adults (3)**

Prerequisites: SW 561 and concurrent enrollment in SW 680A. Teaching of advanced specialized skills needed to work with groups, emphasizing work with older adults and families. Focuses on clinical work with groups with special emphasis on eco-systems and multi-cultural perspectives. Letter grade only (A-F).

**662. Legal Issues in Social Work Practice (3)**

Examination of legal aspects concerning children, the family, and the aged, considering such issues as abortion, illegitimacy, right to treatment, mental health commitment procedures, rights of the elderly, children's rights, marriage, and divorce. Legal research methodology and classification of legal resources, principles of legal reasoning, understanding of federal and state court systems. Familiarity with legal assistance programs. Letter grade only (A-F).

**663. Assessment and Treatment of Alcoholism and Substance Abuse (3)**

Social work practice with individual alcoholics, their family systems, and their community network of collaterals. Awareness of prevalence of alcoholism and drug abuse and significance for clinical social work practice. Dynamics and treatment of disease. Special relationship issues, problems of cross-addictions and polydrug use, resource networks supporting substance abuse services, Fetal Alcohol Syndrome, and problems of special groups: women, minorities, youth and elderly. Letter grade only (A-F).

**665. School Social Work (3)**

Social work and the public school as a process in school-community-pupil relations. Attention to the school as a social institution and its organization. Social work services in schools as a specialized field of social work practice and its conceptual framework; models of practice; social work roles; and target groups of children to be served. Examination of major socio-legal policy issues. Letter grade only (A-F).

**666. Human Sexuality and Social Work (3)**

Introduces social work majors to discipline of human sexual behavior. Surveys a range of sexually related issues encountered in therapeutic relationships, as part of administrative duties, and at the social policy level. Presents knowledge base and requires student examination of own attitudes regarding various aspects of human sexuality. Letter grade only (A-F).

**667. Sex Roles and Gender Discrimination: Women's Issues in Social Work (3)**

This course will examine historical and contemporary causes of gender discrimination against women in order to illuminate the problems faced by women at risk in American society. The special focus of the course will be women at risk for mental health problems, violence and poverty along with other critical issues affecting women, such as substance abuse and eating disorders. Letter grade only (A-F).

**668. Social Work in Neighborhoods (3)**

Designed as an introduction to the concept of neighborhoods and prepares students to assume social work roles and functions in neighborhood settings. Emphasizes the necessity of understanding the culture, physical and social organization, and power relationships of modalities: planning and service delivery, development, and organization. Letter grade only (A-F).

**670. Social Work Administration (3)**

Prerequisites: SW 500; 560 or 561; 596A or C, 569B or D, 660 or 661, and concurrent enrollment in 680B or D. This course addresses the basic processes of management in public and voluntary social welfare and human services agencies. It examines the foundation for effective organizational leadership as well as problem solving, using theories of organizational behavior and management. The course offers frameworks for governance, planning, monitoring, information management, human resources, fiscal responsibility, quality assurance, and community relations. Attention is given to the external forces that affect agencies, including interorganizational relationships. Integrated into the course is content on human diversity, and how multiculturalism and gender issues influence the internal structure of agencies, the management of their workforce, and their provision of services. This course should be useful for students interested and/or involved in organizational change, and agency and program management. Letter grade only (A-F).

**672. Program Evaluation in Social Services (3)**

Introduction to prevailing types of problem evaluation and preparation for continual evaluation checks or self evaluations as conducted within service agencies. Conceptualization of service delivery system. Program planning evaluation, program monitoring, impact evaluation, and cost-benefit and cost-effectiveness analysis. Letter grade only (A-F).

**673. Supervision/Staff Development/Consultation (3)**

Prerequisites: SW 500; 560 or 561; 596A or C, 596B or D, 660 or 661, and concurrent enrollment in 680 B or D. This course reviews the philosophy, objectives, principles and methods of social work supervision, staff development, and consultation. Consideration is given to the similarities and differences in the roles, knowledge, and skills required, emphasizing the teaching-learning-evaluating components. Issues arising from organizational settings, changing legislation, and program provisions and professional standards are identified and examined. Letter grade only (A-F).

**674. Clinical Diagnosis and Therapeutic Communication (3)**

This course is designed to review the major theoretical approaches to social work treatment. It is designed to teach specific clinical interventions from various theoretical perspectives. The student will be trained to skillfully and therapeutically intervene with a variety of DSM-IV diagnostic categories. Psychotherapy outcome research will be surveyed with emphasis upon client, therapist, and treatment factors. Letter grade only (A-F).

**676. Family Centered Social Work Practice: An Introduction to Theory and Techniques of Family Therapy (3)**

This course is an advanced specialist overview of evolving viewpoints, perspectives, values, intervention techniques and goals of family therapy. The family is viewed as the unit of attention and target of intervention. The course will emphasize the development and enhancement of knowledge, skills, theories and values specific to family therapy and social work practice. Letter grade only (A-F).

**677. Social Work Practice in Mental Health (3)**

This course will review the changing roles of social work in mental health settings, the influence of new psychosocial and psychiatric theories on the care and treatment of mentally disordered clients. Focus on social, economic and cultural factors as they affect social work roles in mental health policies and programs and clinical practice. Letter grade only (A-F).

**680A. Field Instruction III (3)**

Prerequisites: SW 500, 560 or 561, 596A/C, 596B/D, and concurrent enrollment in SW 660 or 661. Evidence of satisfactory malpractice liability insurance coverage. This class is the first semester of a two-semester class in which the student completes a year long internship together with a seminar. Supervised social work practice in a community social agency with focus on advanced direct practice skills and administrative program development areas with emphasis on cross-cultural practice. Two hours bi-weekly in field seminar and 16 hours in agency placement. Credit/No Credit grading only.

**680B. Field Instruction IV (3)**

Prerequisites: SW 500, 560 or 561, 596A/C, 596B/D, 680A/C, 660 or 661 and concurrent enrollment in SW 670. Evidence of satisfactory malpractice liability insurance coverage. This class is the second semester of a two-semester class in which the student completes a year long internship together with a seminar. Continued supervised social work practice in a community social agency at an advanced level in both direct practice and administration within the student's area of concentration. Preparation for entering professional employment with emphasis on cross-cultural practice. Two hours bi-weekly in field seminar and 16 hours in agency placement. Credit/No Credit grading only.

**680C. Field Instruction III (3)**

Prerequisites: SW 500, 560 or 561, 596A/C, 596B/D, and concurrent enrollment in SW 660 or 661. Evidence of satisfactory malpractice liability insurance coverage. This class is the first semester of a two-semester class in which the student completes a year long internship together with a seminar. Supervised social work practice in a community social agency with focus on an advanced direct practice skills and administrative program development areas with emphasis on cross-cultural practice. Two hours bi-weekly field seminar and 36 hours in agency placement. Credit/No Credit grading only.

**680D. Field Instruction IV (3)**

Prerequisites: SW 500, 560 or 561, 596A or 596C, 596B or 596D, 680C, 660 or 661. Evidence of satisfactory malpractice liability insurance coverage. This class is the second semester of a two-semester class in which the student completes a year long internship together with a seminar. Continued supervised social work practice in a community social agency at an advanced level in both direct practice and administration within the student's area of concentration. Preparation for entering professional employment with emphasis on cross-cultural practice. Two hours bi-weekly in field seminar and 36 hours in agency placement. Credit/No Credit grading only.

**681. Advanced Policy and Political Action: Children, Youth and Families (3)**

Prerequisite: SW 505. This course is designed to provide students with an advanced understanding of key issues, concepts, and skills associated with policy analysis, the development of policy alternatives, and political action on behalf of families and children in contemporary American society. Letter grade only (A-F).

**682. Advanced Policy Seminar: Older Adults and Families (3)**

This course is designed to provide students with an advanced understanding of key issues, concepts, and skills associated with policy analysis, the development of policy alternatives, and political action on behalf of older adults and their families in contemporary American society. Letter grade only (A-F).

**683. Brief Treatment (3)**

Building on content in SW 500, SW 560-561, and other practice courses, this course covers the methodologies used in the basic forms of brief and/or time limited psychotherapy. In recent years brief interventions have become even more a part of the repertoire of the therapeutic community, primarily due to two factors: the empirical research which shows that brief treatment is effective in reducing or eliminating client problems in living and, secondly, insurance policies, managed healthcare and mental health programs will only pay for 20 or so sessions of mental health treatment per year. This course covers the major forms time-limited clinical treatment. By course end, students will have a working knowledge of the methods used in the models, the ethnic, gender and other-sensitivity of the forms of treatment, and the empirical research that supports their use. Letter grade only (A-F).

**690. Special Topics in Graduate Social Work (3)**

Prerequisites: Consent of Department. Topics of special interest in social work selected for intensive study. Topics will be announced in the *Schedule of Classes* each semester. Letter grade only (A-F). May be repeated to a maximum of 6 units with different topics.

**691. Non-Violent Conflict Resolution: In Your Life, On the Job, With Your Clients, and Around the Planet (3)**

This course is designed to help the social work students examine conflict and violence, their own and others' responses to conflict situations on the intrapersonal, interpersonal and community levels, and to learn to utilize a set of tools to deal with conflict in a productive, non-violent manner. Although the basic course material is similar for the undergraduate and graduate level, the readings, assignments, and expectations differ for these distinct student populations. Letter grade only (A-F).

**693. Community Projects II (3)**

Prerequisite: SW 592. Community Projects II is designed to integrate student's knowledge of cross-cultural practice, human behavior and research in the context of identifying solutions to social problems. This "hands on" course builds on the analysis of the neighborhood, community or organizational problem that the student task groups completed in Community Projects I. Utilizing planning, program development and program implementation skills/techniques; students are required to develop, implement and evaluate the impact of an intervention which they designed to control, alleviate and/or eradicate the causes or consequences of the problem for the affected population. Letter grade only (A-F).

**698A. Thesis or Project I (3)**

Prerequisites: SW 594A, 594B. Completion of 30 units in the MSW program at a minimum cumulative Grade Point Average of 3.0 or higher, and advancement to candidacy. Under the direction of a faculty Thesis/Project Adviser, the student completes a thesis/project proposal, instruments (if applicable), IRB protocol (if applicable), and draft literature review which meets university thesis/project requirements. Letter grade only (A-F).

**698B. Thesis or Project I (3)**

Prerequisites: SW 594A, 594B. Completion of 30 units in the MSW program at a minimum cumulative Grade Point Average of 3.0 or higher, and advancement to candidacy. Under the direction of a faculty Thesis/Project Adviser, the student completes a thesis/project proposal, instruments (if applicable), IRB protocol (if applicable), and draft literature review which meets university thesis/project requirements. Letter grade only (A-F).

**699A. Thesis or Project II (3)**

Prerequisites: Completion of SW 698A or 698B. Finalization of literature review and completion of remaining chapters (typically, introduction, methodology, results, discussion and implications) of thesis/project. Letter grade only (A-F).

**699B Thesis or Project II (3)**

Prerequisites: Completion of SW 698B. Finalization of literature review and completion of remaining chapters (typically, introduction, methodology, results, discussion and implications) of thesis/project. Letter grade only (A-F).

View the Field Programs (Student Teaching) website at [www.ced.csulb.edu/fpo](http://www.ced.csulb.edu/fpo)

The Department of Teacher Education offers coursework in credential, certificate, and Masters degree programs that include preliminary and advanced professional preparation. The department houses the Multiple Subject Credential Program, an advanced credential program in Early Childhood Education, a Reading Certificate program, a Reading and Language Arts Specialist credential program, and Masters degree programs in Early Childhood Education, Reading, and Curriculum and Instruction. Courses are offered at a variety of times, with most courses offered in the late afternoon and evening to accommodate working schedules.

### Multiple Subject Credential Program (code 200)

A teacher with a Multiple Subject Credential is authorized to teach grades pre-K through 12 in self-contained classrooms. The Multiple Subject Credential Program (MSCP) prepares students to be credentialed in the State of California for elementary and middle school instruction. The program allows for daytime field experiences in elementary classrooms and includes methodology courses and student teaching. The program can be completed in one summer and two semesters or three semesters, depending upon when prerequisites, and corequisites are taken, when the student begins the program, and whether a part-time or full-time schedule is followed. Program requirements must be met within seven years of the date of admission to the program.

The department has four Multiple Subject Credential Program (MSCP) tracks:

- 2042 Preliminary Multiple Subject Credential Program
- Bilingual Cross-Cultural Language and Academic Development (BCLAD) Emphasis (Spanish, Cambodian [Khmer], Chinese [Mandarin and Cantonese], Korean, Vietnamese)
- Multiple Subject Internship Program
- Integrated Teacher Education Program (ITEP)

For program information and advisement, contact the Elementary and Special Education Admissions and Advising Center (ED1-67; 562/985-9259) or visit the department website.

### 5 Year Preliminary Credential

Successful completion of the Multiple Subject Credential Program leads to the Preliminary Credential, which is valid for five years. Requirements for the Preliminary Credential are

1. Hold a bachelor's degree from an accredited institution.
2. Satisfy the U. S. Constitution requirement (POSC 100 or 391 or exam or equivalent course from another institution).
3. Pass CBEST (a test of basic reading, writing and math).

4. Hold a certificate of clearance (fingerprint background check).
5. Demonstrate Level I computer technology competence (embedded in program course work).
6. Demonstrate subject matter competence by passing the California Subject Examinations for Teachers: Multiple Subjects (CSET: Multiple Subjects).
7. Complete professional preparation courses (in the MSCP) with a grade point average of 3.0 in all subject specific pedagogy (methods) courses with no grade lower than "C."
8. Complete student teaching.
9. Pass the Reading Instruction Competence Assessment (RICA) exam.
10. For Bilingual Cross-Cultural Language and Academic Development (BCLAD) candidates only: Demonstrate competence in BCLAD Domains 4 (specialized pedagogy), 5 (target culture knowledge) and 6 (proficiency in the target language). Requirements may be met through course work or state-approved exams.

### Professional Clear Credential

Preliminary Credential holders must meet state requirements for the Professional Clear Credential within five years in order to continue teaching. There are currently three ways to earn the Professional Clear Credential:

1. *Option 1:* A Commission-accredited SB 2042 Professional Teacher Induction Program (if available in the district of employment).
2. *Option 2:* A Beginning Teacher Support and Assessment (BTSA) Program AND the four additional requirements of advanced study of health education, teaching special populations, using technology, and teaching English learners (if available through the district).
3. If neither an Induction nor a BTSA Program is available, a fifth year of university study (30 post-baccalaureate units), including the four additional requirements of advanced study course work in health education, teaching special populations, using technology, and teaching English learners. Students should be aware that the four advanced study courses must be taken after issuance of the Preliminary teaching credential.

### Admission to the University and Multiple Subject Credential Program

Admission to the university and the MSCP are two separate processes. Applications to the university are available in Enrollment Services or on-line through CSU Mentor ([www/csumentor.edu](http://www/csumentor.edu)). Applications to the program are distributed at regularly scheduled program information meetings. Meeting dates, times and locations are available on the department website. Matriculated students may be admitted to the program based on their current undergraduate or graduate status. Graduating seniors, transfer students, and returning students should apply for post-baccalaureate admission to the university with the objective of entering the credential program (Identify your program objective as Multiple Subject Credential and use code 200 on the application form). Admission to the university does not constitute admission to the program.

### Multiple Subject Credential Program Structure

The MSCP is a 40 unit program separated into three successive phases. Students must complete each phase before advancing to the next one.

- Phase One - Students complete program prerequisites (and any or all corequisites) and submit applications. Subject matter competence must be demonstrated at the time of application to the program by submission of passing score on all three sections of the California Subject Examinations for Teachers: Multiple Subjects (CSET: Multiple Subjects).
- Phase Two - Students complete corequisite courses and five subject specific pedagogy courses.
- Phase Three - Students complete student teaching.

### Program Admission

All candidates are required to comply with all program policies and procedures detailed in the MSCP Handbook which is available for purchase at the Campus Copy Center located in the bookstore. Pre-program advisement and brochure materials are available in the Elementary and Special Education Admissions and Advising Center (ED1-67). Prospective candidates should obtain a program application by attending one of the regularly scheduled group advisement meetings. At the time of application submission, you must:

1. Complete all prerequisite courses in one of the four MSCP tracks, with a minimum grade of "B" in EDEL 380.
2. Attain a grade point average of at least 2.67 in all baccalaureate and post baccalaureate course work or a grade point average of at least 2.75 in the last 60 semester or 90 quarter units attempted.
3. Complete a personal interview with a department faculty advisor.
4. Submit three letters of recommendation.
5. Submit a typed personal statement describing why you have chosen teaching as a career, what you hope to accomplish as a teacher, and how you view the role of the teacher.
6. Submit a negative tuberculosis skin test or chest X-ray taken within the last three years.
7. Submit one photocopy of all university and/or college transcripts.
8. Submit proof of having taken the California Basic Educational Skills Test (CBEST). Note: You must take all three parts of the test.
9. Submit proof of having demonstrated subject-matter competence by passing all three subtests of the California Subject Examination for Teachers: Multiple Subjects (CSET:Multiple Subjects)
10. Submit the application packet, including documentation, by the following deadlines:  
 March 1 — to begin pedagogy courses in Summer or Fall.  
 October 1 — to begin pedagogy courses in Winter or Spring.  
THE ABOVE DEADLINES ARE STRICTLY ENFORCED.

### Student Teaching

The final phase of the MSCP is student teaching. Student Teaching is a five days per week experience for the length of the university semester. All student teachers have one place-

ment in a K-2 classroom where they gain experience with early literacy instruction utilizing a balanced and comprehensive approach to reading. The other placement is in an intermediate classroom (grades 3-6) or in a middle school classroom (grades 6-8). One student teaching placement must be in a public school. There are several ways to complete student teaching: one regular semester, two consecutive summers, one entire summer, or one summer and part of one regular semester. Students should be aware that there is limited availability in the summer and all individuals may not necessarily be accommodated.

A separate application is required to advance to student teaching. Applications for student teaching must be submitted in person to the Field Programs Office one semester prior to the first assignment. Application packets are distributed at the Student Teaching Application meetings. Dates, times and locations are announced in methods courses, are posted throughout the ED-1 and ED-2 buildings, and appear on the department website well in advance of the actual meeting dates. Deadlines for submitting applications to student teach are:

March 1 — for Summer/Fall Student Teaching

October 1 — for Spring Student Teaching

- Students should note that these deadlines are firm. Late applications are not accepted.
- Students must meet the following requirements to advance to student teaching:
  1. Completion of all program prerequisite, corequisite and subject specific pedagogy requirements in Phases 1 and 2 of one of the MSCP tracks. Students must pass all five subject specific pedagogy (methods) courses with a 3.0 grade point average and no grade lower than "C." A grade of "D" or "F" in a methods course will result in being dropped from the program. The overall grade point average must continue to meet the program admission standard.
  2. Passage of the California Basic Educational Skills Test (CBEST).
  3. A negative tuberculosis skin test or chest x-ray valid through completion of student teaching.
  4. Proof of character clearance (Live Scan).
  5. BCLAD Emphasis students must meet all additional BCLAD program requirements.
  6. For students who wish to student teach at the kindergarten level: completion of EDEL 420 with a minimum grade of "C."
  7. Submission of a student teaching application by the appropriate deadline.

### Track One – 2042 Preliminary Multiple Subject Credential Program

The 2042 Preliminary Credential is the basic Multiple Subject Credential. The 2042 track is comprised of foundational and subject specific pedagogy course work followed by the student teaching semester.

#### Prerequisites

Must be taken concurrently.

EDEL 380 (3 units), EDP 303 (1 unit).

#### Corequisites

May be taken prior to or after admission to the MSCP.

EDEL 413 (2 units). Students can substitute this course with a combination of two courses from the following: one from CD 329, LING 329 or ED P454 and one from EDP 301, HDEV 307I, or PSY 361.

EDEL/EDP/LING 431 (3 units). Students can substitute this course with a combination of two courses from the following: EDP/LING 485 and one from ANTH 421, LING 425, AIS/ASAM/B/ST/CHLS/W/ST 319, EDEL 430 or EDP 432.

#### Subject Specific Pedagogy

Students must be officially admitted to the MSCP to take these courses. One course must be taken off-campus at an elementary school site during daytime school hours, and at least one must be taken on-campus: EDEL 442, 452 (3 units), 462, 472, 475. (Note: The off-campus course requirement is temporarily suspended for students who plan to student teach in 2005.)

#### Student Teaching

All requirements for advancement to student teaching must be met: EDEL 482 (16 units).

### Track Two – Bilingual Cross-Cultural Language and Academic Development (BCLAD) Emphasis in Spanish and Asian Languages

The Bilingual Cross-Cultural Language and Academic Development (BCLAD) Emphasis credential authorizes teachers to work in dual language classrooms or where a language other than English is required for instruction, support, and communication with parents and other professional communication. With appropriate substitutions and/or additional course work, the BCLAD Emphasis may be added to the basic 2042 credential. All BCLAD Emphasis candidates must demonstrate knowledge of the target culture, specific pedagogical skills, and fluency in speaking, listening, reading and writing in the target language. A BCLAD Certificate can be added to an existing credential by passing the appropriate CLAD and/or BCLAD exams.

The BCLAD Spanish Emphasis is offered on campus or through the BCLAD in Mexico program. The BCLAD in Mexico program leads to a Multiple Subject Preliminary Credential with Spanish BCLAD Emphasis during a year of study in Querétaro, México. CSULB and nine other CSU campuses statewide offer this credential in conjunction with the Office of International Programs.

To add the international BCLAD Spanish certificate to the basic 2042 credential the following courses are required: EDEL/EDSE 541, 542; SPAN 322, 445. (Note: EDEL/EDSE 541 and SPAN 322 must be taken in Mexico).

The BCLAD Asian Languages Emphasis is part of a six campus CSU consortium offering BCLAD preparation and certification in Cambodian (Khmer), Chinese (Mandarin or Cantonese), Korean, or Vietnamese. Courses are taken at CSULB and other area CSU participating campuses.

Undergraduates who wish to pursue a BCLAD Emphasis credential should complete the Liberal Studies baccalaureate program with an appropriate concentration. Spanish BCLAD Emphasis students should take the Bilingual Spanish-English concentration; Asian BCLAD Emphasis students should take the Languages Other than English or U.S. Multicultural Studies concentration.

## Spanish/English BCLAD Emphasis

The BCLAD Emphasis in Spanish prepares students for teaching in dual language and English Language Development settings where Spanish is required for instruction, support, and communication with parents and other professional communication. In addition to the 2042 credential requirements, BCLAD Emphasis in Spanish requirements include teaching pedagogy and practicum in a second language, culture of emphasis (by coursework or examination) and fluency in Spanish (by examination). The program requires 43 units of course work plus culture and language of emphasis proficiency through additional course work and/or examination. See the Spanish BCLAD advisor for program information.

### Prerequisites

Same (4 units) as for Track One in the 2042 basic credential program.

### Corequisites

Same (5 units) as for Track One in the 2042 basic credential program plus EDP/LING 485 or EDP/EDEL 439 (3 units).

### Subject Specific Pedagogy

Same (15 units) as for Track One in the 2042 basic credential program, with the following differences:

EDEL 442 Footnote # 53 section recommended

Substitute EDEL 452B for EDEL 452

EDEL 462, 472, and 475

Note 1: 150 documented hours as a teacher, assistant or volunteer in a multilingual setting is required in lieu of an off-campus daytime pedagogy course.

Note 2: It is recommended that EDEL 442 and 452B be taken concurrently.

### Additional Spanish BCLAD Requirements

These requirements (0-15 units) may be taken at any time, but must be completed before student teaching:

*Culture of Emphasis:* For undergraduates, the culture component for the Spanish BCLAD is fulfilled in the Liberal Studies Bilingual concentration. Students completing a non-Liberal Studies bachelor's degree can meet this requirement by taking CHLS 340 or CHLS 350 (3 units) or BCLAD Exam #5.

*Language of Emphasis:* All Spanish BCLAD candidates must pass BCLAD Exam #6 (speaking, listening, reading and writing) prior to completion of the program. Spanish 312, 313, and 322 are also recommended (9 units). In addition, LING 329 or EDP 454 are strongly advised for language acquisition background (3 units).

### Student Teaching

All requirements for advancement to student teaching must be met. EDEL 482B or 482C (16 units)

### Asian Languages/English BCLAD Emphasis

The BCLAD Emphasis in Asian Languages prepares students for teaching in dual language and English Language Development settings where Chinese, Cambodian, Korean or Vietnamese is required for instruction, support, and communication with parents and other professional communication. In addition to the 2042 credential requirements, BCLAD Em-

phasis in Asian Languages requirements include teaching pedagogy and practicum in a second language, culture of emphasis (by coursework or examination) and fluency in the target language (by examination). The program requires 46 units of course work plus culture and proficiency in the target language (BCLAD Exam #6). See the Asian Languages BCLAD advisor for program information.

### Prerequisites

Same (4 units) as for Track One in the 2042 basic credential program.

### Corequisites

Same (5 units) as for Track One in the 2042 basic credential program.

### Subject Specific Pedagogy

Same (15 units) as for Track One in the 2042 basic credential program.

### Additional Asian BCLAD Requirements (0-6 units)

Culture of Emphasis (one for each language program) (3 units):

*Chinese* (Cantonese & Mandarin) - EWS 301, Cal Poly Pomona

*Cambodian* - ASAM 334, CSU Long Beach

*Korean* - AAS 450, CSU Northridge or TED 495, CSU Dominguez Hills

*Vietnamese* - ASAM 333, CSU Long Beach

Bilingual Pedagogy (one for each language program) (3 units):

*Chinese* (Cantonese/Mandarin) - EDEL 400 (Cantonese/Mandarin), CSU Los Angeles or EDEL 452C (Cantonese/Mandarin), CSU Long Beach

*Cambodian* (Khmer) - EDEL 452 (Cambodian), CSU Long Beach

*Korean* - EED 520K (Korean), CSU Northridge or TED 515A (Korean), Cal Poly Pomona or TED 494S (Korean) CSU Dominguez Hills

*Vietnamese* - EDEL 452 (Vietnamese), CSU Long Beach or EDEL 448 (Vietnamese), CSU Fullerton

Note: Bilingual Pedagogy and culture of emphasis courses may be taken before admission to the MSCP Program.

### Language of Emphasis

Met by passage of appropriate BCLAD Examination 6. See program advisor for recommended courses as preparation for the exam.

### Student Teaching

All requirements for advancement to student teaching must be met. EDEL 482B or 482C (16 units).

### Track Three – Multiple Subject Internship

The intern program is for full-time teachers in districts with which CSULB has a contractual intern agreement. All students in this program must be employed by the district as the full-time teacher of record in a multiple subject classroom and have met all program and intern program admission requirements. The program requires 24 units of foundational and subject specific course work followed by 16 units of intern student teaching.

## Pre-Application Requirements

- Hold a Bachelor's degree from an accredited institution.
- Demonstrate subject matter competence by passing the California Subject Examinations for Teachers: Multiple Subjects (CSET: Multiple Subjects).
- Meet the U.S. Constitution requirement (by course work or exam).
- Pass the CBEST.
- Be assigned full-time to a self-contained K-8 multiple subject classroom in a partner school district.
- Meet the program grade point average requirement of 2.67 overall or 2.75 in the last 60 semester or 90 quarter units.
- Complete MSCP prerequisite courses.
- Have submitted an application to the MSCP program.
- Complete an interview with the Intern Program Director.

## Prerequisites

Same (4 units) as for Track One in the 2042 basic credential program.

## Corequisites (5 units)

Same (4 units) as for Track One in the 2042 basic credential program.

## Subject Specific Pedagogy

Same (15 units) as for Track One in the 2042 basic credential program.

## Student Teaching

All requirements for advancement to student teaching must be met. EDEL 572A and 572B (8 units each).

Note: Interns must attend a Student Teaching Application Meeting and apply to student teach by the October 1 deadline for spring and the March 1 deadline for summer and fall.

## Additional Requirements for BCLAD Interns

BCLAD Interns should refer to Track Two, above, for additional BCLAD Emphasis requirements.

## Track Four – Integrated Teacher Education Program

For the Integrated Teacher Education Program (ITEP) requirements, please refer to the Liberal Studies section of this catalog.

## Early Childhood Specialist Credential (code 430)

Note: discontinuance under consideration

This advanced credential program is integrated with various field experiences. Course requirements for the master's degree Elementary Education Option with a specialization in Early Childhood Education closely coincide with those of this advanced credential program. All courses in this program are applicable toward Child Development Permits.

## Admission Requirements

1. Admission to the University.
2. A minimum GPA of 2.85 in the last 60 semester units of course work.
3. Fulfillment of the Graduation Writing Assessment Requirement (GWAR) or CBEST.
4. Possess a valid basic teaching credential or be in the process of completing the Multiple Subject Credential Program.

5. Provide three letters of recommendation.
6. Verification of successful experiences with young children.
7. Submit a personal statement of teaching philosophy;
8. Complete a personal interview with the Director of the Graduate Program in ECE.
9. Complete a self-assessment of competency in Early Childhood Education.
10. File an approved individual program plan developed with an advisor.

## Prerequisite

ED P 301

## Requirements

1. All of the following courses (37 units): EDEL 420, 452 or 462, EDEC 421, 422, 522, 523, EDCI 530, EDEC 621, 682, and 526 or EDP 604.
2. Verification of two years of successful teaching experience, including a minimum of 90 hours in each of the following areas, is required of all candidates prior to completing the Specialist Credential program - a. preschool; b. kindergarten or the primary grades (1-3); c. multicultural settings.

## Reading Certificate (code 415)

*This certificate is granted by the California Commission on Teacher Credentialing (CCTC)*

The Reading Certificate provides classroom teachers with advanced preparation in reading/language arts assessment and instruction, as well as theory and research in teaching reading, grades K-12. Some candidates may wish to complete the 12-unit Reading Certificate program as a terminal objective, while others may wish to complete it as a prerequisite to the Reading/Language Arts Specialist Credential Program.

Before completion of requirements for the Reading Certificate, the candidate must provide verification of three years of full-time teaching experience in any grades preschool through adult, exclusive of student teaching, internship teaching, or teaching while holding an emergency credential or permit.

## Admission Requirements

1. Bachelors degree and Multiple Subject or Single Subject Credential, or equivalent; CLAD certification strongly recommended.
2. ENGL 481 or 482, or current equivalent course in children's or adolescent literature.
3. A minimum grade point average of 3.0 in the last 60 units of university course work.
4. Two letters of recommendation, at least one from a supervisor.
5. An autobiography and statement of intent.
6. Interview with program faculty.
7. For secondary teachers, EDEL 452 or equivalent is strongly recommended.
8. Separate program application is required.

## Requirements

EDRG 540, 551, 558, 559.

## Reading and Language Arts Specialist Credential (code 410)

The Reading/Language Arts Specialist Credential prepares teachers to become school and district literacy leaders and supervisors. The reading/language specialist's role is multifaceted, including diagnostician, teacher of intervention for children or youth with delayed literacy development, collaborator with other school and district specialists, provider of professional development for classroom teachers, and reading program coordinator or facilitator.

### Admission Requirements

Successful completion of the Reading Certificate program, or a valid Reading Certificate, or equivalent.

### Requirements

EDRG 543, 544, 554, 556, 651

Note: All courses required for the Reading/Language Arts Specialist Credential can be applied to the MA in Elementary or Secondary Education: Specialization in Reading. See Catalog program description and the faculty advisor in the Department of Teacher Education for more information.

## Master of Arts in Education

### Option in Elementary Education (code EDELMA01)

#### Requirements

A minimum of 30 units (33 units for Reading) is required with at least 21 units in the 500/600 level series at this University. In consultation with the Advisor of Curriculum and Instruction, Early Childhood Education, Reading and Language Arts, or Middle Level Education or designated faculty, students will select a comprehensive examination track, thesis track, or project track.

#### Curriculum and Instruction Specialization (30-36 units)

#### Admission

Submit a separate program application to the College of Education. (Applications are available in the College Graduate Studies Office, ED1-7).

#### Prerequisite

A valid multiple subject teaching credential or by permission.

#### Requirements

1. Methods of Social Science Inquiry (6 units): EDP 400 (3 units) and one of the following courses (3 units): EDP 520 or EDCI 533 (comprehensive exam track); or EDP 595 or EDP 696 (thesis track)
2. Core (15 units): EDCI 500, 505, 530, 615, and 625.
3. Concentration (9 units): Candidates select an area of concentration in consultation with the program advisor, tailored to their professional goals. Candidates are responsible for taking prerequisite courses if required.
  - A. Advanced Methods (9 units): EDRG 540; EDCI 560, 570; or
  - B. Advanced Coursework in Educational Technology: 9 units selected from the following courses: EDP 542; ETEC 523, 525, 530, 551, 553; or
  - C. 9 units of advanced coursework in a self-selected concentration chosen in consultation with an advisor.

4. Capstone: (Choose A or B option in consultation with advisor).

A. Comprehensive examination.

B. Thesis and EDCI 698 (6 units)

### Early Childhood Education Specialization (30-36 units)

#### Prerequisites

1. EDP 301 or HDEV 307I or PSY 361 or equivalent;
2. EDEL 420; and
3. EDEL 482 or one year of documented and approved teaching experience.

#### Program Requirements

1. Research Methods (6 units): EDP 400 and one of the following courses: EDP 520 (comprehensive exam track); or EDP 595 or 696 (thesis track).
2. Early Childhood Specialization Courses (21 units): EDEC 520, 521, 522, 523, 526, 621, 622.
3. One of the following chosen in consultation with the program advisor (3-6 units): EDEC 695 and Written Comprehensive Exam (3 units) or EDEC 698 Thesis (6 units).

#### Specialization Requirements

1. All of the following: EDEC 421, 422, 522, 621
2. Two of the following: EDEC 523, 526, 622, or EDP 604

### Reading and Language Arts Specialization (33-36 units)

#### Prerequisites

A valid multiple subject or elementary teaching credential; CLAD certification is strongly recommended. ENGL 481 or ENGL 482 or approved equivalent (can be taken concurrently with program requirements); submit a separate program application, transcripts showing posted degree and last 60 semester units or 90 quarter units; 2 letters of recommendation from educators, one of which is from a supervisor; and an autobiographical essay, and interview with program faculty

#### Program Requirements

1. All of the following (27 units): EDRG 540, 544, 551, 554, 556, 558, 559, 651, and EDP 595/LING 595 (Please contact advisor prior to beginning coursework)
2. One advisor-approved elective (3 units)
3. One of the following chosen in consultation with the program advisor (3-6 units): EDRG 695 and Written Comprehensive Examination (3 units) or EDRG 698 Thesis (6 units)

### Middle Level Education Specialization (30-36 units)

Note: discontinuance or suspension under consideration, selected courses will not be offered in 2005-06.

#### Admission

Submit a separate program application to the College Of Education. (Applications are available in the College Graduate Studies Office, ED1-7).

#### Prerequisites

A valid multiple or single subject or other valid California teaching credential; one year of middle level teaching experience or middle level student teaching; and one of the following: EDP 302 or equivalent.

## Requirements

1. Methods of Social Science Inquiry (6 units)
  - A. ED P 400 (3 units)
  - B. One of the following courses (3 units): ED P 520 or EDCI 533 (comprehensive exam track); or ED P/LING 595 (project track).
2. Core (24 units)
  - A. All of the following (9 units): EDCI 500, 505, and 530
  - B. All of the following (9 units): EDMS 582, 584, and 693.
  - C. One of the following (3 units): EDRG 540; EDCI 560, or 570
  - D. One advisor-approved elective (3 units)
3. Capstone (Choose A or B in consultation with advisor.)
  - A. Comprehensive examination
  - B. Project: EDMS 695 (6 units)

## Clear Conditional Admission

1. Completion of program prerequisites.
2. A GPA of 2.85 or higher in the last 60 semester units of coursework taken. Lower division and/or extension courses taken after obtaining the bachelor's degree are excluded from this calculation.
3. University master's degree policy requires students to attempt to fulfill the Graduation Writing Assessment Requirement (GWAR) during the first semester of residence. Students who have met this requirement during the baccalaureate degree program at CSULB or at another CSU campus are exempt.
4. To qualify for University admission in conditionally classified or classified graduate standing, a student must be accepted into a graduate degree program on a conditional basis or as clear conditional status.

NOTE: Prior to admission to the master's program, students may take up to, but no more than, 9 units of approved coursework which may apply to the master's program. There is no minimum number of units required for admission to the program.

In accordance with University policy of "Graduate Transfer Units by Extension", up to 6 units of approved extension/continuing education or transfer credit may be used on a graduate student's program. At the option of the college/school or department offering a graduate degree requiring a total of 30 units, this limit may be raised to 9 units of extension/continuing education credit if taken at CSULB or at another CSU campus.

Students must contact the advisor of Curriculum and Instruction, Early Childhood Education, Reading and Language Arts, or Middle Level Education Specialization once 6 units of course work has been completed to plan an official program.

Students interested in the Specialization in Reading Language Arts must contact the advisor of Graduate Reading in the Department of Teacher Education prior to enrolling in any classes.

## Advancement to Candidacy Requirements

1. All University requirements must be met;
2. Transcripts showing posted degree and the last 60 semester units or 90 quarter units;
3. Completion of all admission requirements for the Elementary Master's Program Option;

4. A minimum 3.0 overall grade-point average and a 3.0 grade point average in all units undertaken for the program (at least 6 units) with no incomplete grades;
5. Fulfillment of the Graduation Writing Assessment Requirement (GWAR);
6. Personal-Professional Attributes  
Applicants are required to submit a typed essay of not less than three pages, double spaced. The essay shall address the following: how the program will help them make a contribution to the profession; experience in the profession; and any other information relevant to their personal/professional plans. In addition, students will complete a structured interview with the designated program advisor;
7. An approved plan of study completed with the Curriculum and Instruction, Early Childhood Education, Reading and Language Arts, or Middle Level Education graduate advisor be on file in the Graduate Office;
8. A student must be enrolled in regular session or in the summer session in which advancement to candidacy takes place. Please refer to the "Graduate Degrees and Other Post Baccalaureate Studies" section of the catalog for University advancement-to-candidacy requirements.

## Option in Secondary Education (code EDSEMA01)

A minimum of 30 units for Curriculum and Instruction Secondary Specialization and a minimum of 33 units for Reading and Language Arts Specialization is required with at least 21 units in the 500/600 level series at this University. In consultation with the advisor of Curriculum and Instruction or Reading and Language Arts or designated faculty, students will select a comprehensive exam track or thesis track.

## Curriculum and Instruction Specialization (30-36 units)

### Admission

In addition to applying to the university for graduate standing, candidates must submit a program-specific application. Applications are available in the College of Education Graduate Studies office.

### Prerequisite

1. A valid secondary education or single subject teaching credential, or by permission.

### Requirements

1. Methods of Social Science Inquiry (6 units): EDP 400, 520
2. Core (15 units): EDCI 500, 505, 530, 615, 625
3. Concentration (9 units)

Candidates select an area of concentration, in consultation with the program advisor, tailored to their professional goals. A concentration must follow a pattern or theme; a disparate set of unrelated courses is not a concentration. Thesis candidates should shape their concentration around research methodology and content related to their thesis topic. Candidates must submit a written statement containing a coherent rationale for and description of the concentration sequence at the time of advancement to candidacy. Concentrations may follow one of the patterns listed below or may be

uniquely devised by the candidate. A concentration must have the approval of the program advisor. Candidates are responsible for taking prerequisite courses if required.

- A. Educational Technology (e.g., ETEC 523, 551, 553, 623).
  - B. Educational Foundations (e.g., EDP 573, 574, 575, 576).
  - C. Advanced course work in the candidate's teaching discipline.
  - D. Advanced course work toward a Supplementary Authorization.
  - E. Advanced course work toward the Professional Clear Credential.
  - F. Advanced course work toward CLAD certification.
  - G. Advanced course work in middle level education.
  - H. Research methods courses in preparation for the thesis (e.g., EDP 696, 595, 596; EDSE 533, 535).
  - I. Educational leadership (e.g., EDMS 693, ETEC 530).
4. Capstone Experience

Candidates select one of the following capstone experiences in consultation with the program advisor. Selection should be made at the time of advancement to candidacy in order to develop a program plan consistent with the selected capstone experience.

- A. Comprehensive Examination.
- B. Thesis. (Candidates take EDCI 698 for two semesters while writing the thesis, for a total of 6 units; candidates may need to take additional research methodology courses in order to prepare for thesis research and writing).

### Reading and Language Arts Specialization (33-36 units)

#### Prerequisites

A valid secondary education or single subject teaching credential; CLAD certification is strongly recommended. ENGL 482 or approved equivalent (can be taken concurrently with program requirements); submit a separate program application, transcripts showing posted degree and last 60 semester units or 90 quarter units; 2 letters of recommendation from educators, one of which is from a supervisor; and an autobiographical essay, and interview with program faculty.

#### Program Requirements

1. All of the following (27 units): EDRG 540, 544, 551, 554, 556, 558, 559, 651 and EDP 595/LING 595 (Please contact advisor prior to beginning coursework)
2. One advisor-approved elective (3 units)
3. One of the following chosen in consultation with the program advisor (3-6 units): EDRG 695 and Written Comprehensive Examination (3 units) or EDRG 698 Thesis (6 units)

#### Clear Conditional Admission

1. Completion of program prerequisites.
2. A GPA of 2.85 or higher in the last 60 semester units of coursework taken. Lower division and/or extension courses taken after obtaining the bachelor's degree are excluded from this calculation.

3. University master's degree policy requires students to attempt to fulfill the Graduation Writing Assessment Requirement (GWAR) during the first semester of residence. Students who have met this requirement during the baccalaureate degree program at CSULB or at another CSU campus are exempt.
4. To qualify for University admission in conditionally classified or classified graduate standing, a student must be accepted into a graduate degree program on a conditional basis or as clear conditional status.

#### Please Note:

Prior to admission to the master's program, students may take up to, but no more than, 9 units of coursework which may apply to the master's program. There is no minimum number of units required for admission to the program.

In accordance with University policy of "Graduate Transfer Units by Extension", up to 6 units of approved extension/continuing education or transfer credit may be used on a graduate student's program. At the option of the college/school or department offering a graduate degree requiring a total of 30 units, this limit may be raised to 9 units of extension/continuing education credit if taken at CSULB or at another CSU campus.

Students must contact the advisor of Curriculum and Instruction or Reading and Language Arts Specialization no later than completing 6 units to plan an official program.

Students interested in the Specialization in Reading Language Arts must contact the advisor of Graduate Reading in the Department of Teacher Education prior to enrolling in any classes.

#### Advancement to Candidacy Requirements

1. All University requirements must be met;
2. Transcripts showing posted degree and the last 60 semester units or 90 quarter units;
3. Completion of all admission requirements for the Secondary Master's Program Option;
4. A minimum 3.0 overall grade-point average and a 3.0 grade point average in all units undertaken for the program (at least 6 units) with no incomplete grades;
5. Fulfillment of the Graduation Writing Assessment Requirement (GWAR);
6. Personal-Professional Attributes: Applicants are required to submit a typed essay of not less than three pages, double spaced. The essay shall address the following: how the program will help them make a contribution to the profession; experience in the profession; and any other information relevant to their personal/professional plans. In addition, students will complete a structured interview with the designated program faculty advisor;
7. An approved plan of study completed with the Curriculum and Instruction or Reading and Language Arts graduate advisor must be on file in the Graduate Office;
8. A student must be enrolled in regular session or the in summer session in which advancement to candidacy takes place. Please refer to the "Graduate Degrees and Other Post Baccalaureate Studies" section of the catalog for University advancement-to-candidacy requirements.

---

## Elementary Education Courses (EDEL)

---

### (Lower Division)

#### 100. Introduction to Teaching and Learning in Diverse Contemporary Classrooms (1)

Prerequisite: Acceptance in the Integrated Teacher Education Program. This course will provide members of the Integrated Teacher Education Program (ITEP) with an introduction to teaching as a profession. The course will address the qualities of an effective teacher, components and purposes of an effective professional portfolio, and critical issues in diverse contemporary classrooms. In this course, students will initiate development of their ITEP Reflective Practitioner Workbook. Ten hours of field experience. Letter grade only (A-F).

#### 200. Introduction to the Teaching Profession (3)

Introduction to the concepts and issues related to K-8 education in a democratic society within a rapidly-changing, standards-based, technologically-infused environment. Students will develop personal knowledge and understanding of (1) the competing purposes and values of schools in society, (2) the nature of teaching/learning and the teaching profession, (3) the impact of local, state, and federal government policies on schools, and (4) contemporary educational issues in historical, social, philosophical, legal, and political contexts. A minimum of 45 hours of structured fieldwork in an approved elementary, self-contained classroom required. A grade of "B" or better required for admission to the Multiple Subject Credential Program. Letter grade only (A-F).

### Upper Division

#### 300. Equity and Justice in Diverse Schools (3)

Prerequisites: EDEL 100 and 200, or approved articulated course from non-ITEP credentialing pathways; admission to Multiple Subject Credential Program. Intended for ITEP students only. The course addresses social justice and educational equity, cultural and language diversity, bilingual education, and models of English language development in historical and contemporary contexts in U.S. and California schools. Letter grade only (A-F).

#### 340. Subject Matter Overview for Multiple Subjects (3)

Prerequisites: Baccalaureate degree and CBEST passed. Overview of content from seven areas: History and Social Studies, Human Development, Literature and Language Studies, Math, Physical Education, Science, Visual and Performing Arts. Analysis and practice in short essay writing and test-taking strategies. May be repeated to a maximum of 6 units.

#### 360. Mathematical Concepts of Numbers and Geometry (3)

Not open to students with credit in EDEL 361 or 362. Unifying concepts of mathematics for elementary teachers. Includes the development of concepts of number, number operations, number properties, problem solving, geometric configurations, constructions, relationships and applications with metric measures. Letter grade only (A-F).

#### 379. Sociolinguistics and Schooling (3)

Prerequisites: LING 329 or equivalent. Study of language variation as it connects to standard language development in society and individuals. Analysis of key sociolinguistic concepts, such as: dialect, speech event, linguistic repertoire, language community, prescriptive and descriptive grammar. Analysis of verbal and written classroom language. Connection between variation and development in speaking, reading and writing. Letter grade only (A-F). Same course as LING 379.

#### 380. Teaching and Learning in a Democratic Society (3)

Corequisite: EDP 303. This course introduces the concepts and issues related to K-8 education in the context of a rapidly-changing, standards-based, technologically-infused environment. Students will develop personal knowledge and understanding of: (1) the competing purposes and values of schools in society, (2) the nature of teaching/learning and the teaching profession, (3) the impact of local, state, and federal government policies on the schools, and (4) contemporary educational issues within historical, social, philosophical, legal, and political contexts. A minimum of 45 hours of structured fieldwork in an approved elementary, self-contained classroom

is required. This course is a prerequisite for admission to the Multiple Subject Credential Program. Letter grade only (A-F).

#### 380A. Introduction to Elementary Education for Interns (1-3)

Prerequisite: Employed as teacher of record in a regular self-contained classroom in a participating school district. Not open to students with credit for EDEL 380. Curriculum, instruction, assessment, classroom management, and professionalism in elementary teaching. Explore concepts and issues related to United States (California) elementary education including historical, philosophical, and legal implications of teaching in a culturally diverse society; the roles and functions of educators; implications of child development and learning; and the principle of educational equity. This field-based course is offered in one-unit modules. Content is spiraled with emphasis on the immediate needs of beginning teachers with intern credentials. May be repeated to a maximum of 3 units. Letter grade only (A-F).

#### 413. Developmentally Appropriate Teaching Practices (2)

Research-based theories and principles of human development, learning, and motivation; educating the "whole child"; developmental characteristics of the following age groups: 5-8 years, 9-11 years, and 12-14 years; developmentally appropriate teaching practices: subject-specific pedagogy in health and physical education; the child, the family, and the school; effects of family involvement on teaching, learning and academic achievement; effective communication with families; student health and safety; creating respectful, effective learning environments; using technology in the classroom (e.g., basic principles of operation, basic troubleshooting and Acceptable Use Policies). A minimum of ten hours of fieldwork in classrooms where at least 25% of the students are classified as English learners. Letter grade only (A-F).

#### \*420. Teaching and Learning in the Kindergarten and Primary Grades (3)

Teaching and learning in the kindergarten and primary grades with an emphasis on experiential approaches, multi-task classroom management, and an integrated curriculum. Discussion of the nature of the learning process, motivation, the value of error, and the use of portfolios for documenting student growth. Practical suggestions for implementing current research findings in curricular areas along with meeting the diverse needs of children in the classroom. Analysis of kindergarten and primary grade programs. Ten hours of field work required.

#### 429. Language, Learning, and the Developing Child: A Cross-Cultural Perspective (3)

Explores the communicative-linguistic, cognitive, physical, and socio-emotional development of the child from the prenatal to adolescent period across diverse cultures with an emphasis on language acquisition and the learning process. Letter grade only (A-F). Not open to students currently enrolled in the Liberal Studies program. Same course as LING 429, FCS 409, and EDP 428.

#### \*430. Social and Cultural Diversity in Educational Settings (3)

Experiential opportunity to examine personal attitudes toward distinct groups of persons, to develop multicultural competencies, and examine racism. Study of cultural, historical, social, and psychological factors that promote equal human worth. Same course as ED P 432.

#### 431. Cultural and Linguistic Diversity in Schools (3)

This course surveys the multiple forms of diversity present in schools, including issues surrounding culture ethnicity, race, linguistics, faith, special needs, gender, sexual orientation, and socio-economic status. Emphasis is on multicultural education, language minority education, and the promotion of learning for all students. The course addresses concepts of culture, educational equity, social justice, anti-bias and anti-racist curriculum, stereotyping, and cultural and linguistic contact. An overview is provided of the history, policy and practices regarding cultural and linguistic minorities in the United States and the impact on education. Special focus is placed on educational initiatives to address the rich ethnic diversity of California schools. Models of English language development and bilingual education are examined. Letter grade only (A-F). Same course as EDP 431 and LING 431.

**439. SDAIE: Specially Designed Academic Instruction in English (3)**

Theories of second language acquisition and practical application: methods of teaching content to English language learners, reading and writing strategies, and curriculum development with application to K-12. Letter grade only (A-F). Same course as ED P 439 and EDSE 439.

**\*442. Teaching and Learning Language Arts, K-8 (RICA) (3)**

Prerequisite: Admission to the Multiple Subject Credential Program. Content, methods, and assessment for teaching language arts and visual and performing arts to all students, including English Learners, speakers of non-mainstream English, and students with special needs in culturally diverse, literature- and technology-based classrooms: first and second language acquisition and English language development, relationships among reading, writing, and oral language, spelling instruction, and structure of English language. Completion of TPA Task 2 required as partial fulfillment of the course. Minimum ten hours of fieldwork in elementary classrooms in which at least 25% of the students are English Language Learners. Letter grade only (A-F).

**451B. Assessment of Literacy with Bilingual Students (3)**

Prerequisites: Speaking and reading competence in Spanish; consent of the instructor. Examination and evaluation of measures, strategies and materials used in the assessment of literacy development in English and Spanish with bilingual students in the U.S., with emphasis on the issues specific to the assessment, program placement, and instruction of English learners in dual language settings. EDEL 451B requires 10 hours of fieldwork utilizing assessments. EDRG 551B requires a diagnostic assessment/instruction plan. Participation by speakers of languages other than Spanish is possible as literacy assessments in diverse languages become available. Letter grade only (A-F).

**\*452. Teaching and Learning Reading, K-8 (RICA) (3)**

Prerequisite: Admission to the Multiple Subject Credential Program or Education Specialist Credential Program. Content, methods, and assessment for teaching reading to all students, including English language learners, speakers of non-mainstream English, and students with special needs, in culturally diverse, literature based classrooms: phonemic awareness, phonics, vocabulary development, comprehension, diagnosis, and the role of independent reading for proficient and delayed readers, the use of technology in literacy development. Minimum ten hours of fieldwork in elementary classrooms with at least 25% of students classified as English learners. Letter grade only (A-F).

**\*452B. Teaching Reading in Spanish and English, K-8 (BCLAD) (1-3)**

Prerequisite: Admission to the Multiple Subject Credential BCLAD (bilingual) Program. Theory, research, and instructional methodology for teaching reading in two languages and transfer of literacy skills from first to second language. Traditions in teaching reading in Spanish and English as primary languages and English as a second language. Relationships among: emergent literacy, phonic- and syllabically-based approaches, primary language literacy development, literature-based programs, reading across the curriculum, and other paradigms of literacy. Examination of teacher beliefs, assumptions, theories, instructional practices, assessment and evaluation of literacy development among language minority children; materials selection and microcomputers in reading instruction. Minimum of ten hours of field experience required in classrooms where a non-English primary language is used for instruction. Course is three units except in Track Four - Multiple Subject Teaching Internship Program (TIP) - CLAD/BCLAD, when it is one unit. Letter grade only (A-F).

**452C. Biliteracy: Teaching English and Chinese K-8 (3)**

Prerequisites: Admission to the Multiple Subject Credential Program or consent of instructor. Course Description: Content, methods, and assessment for teaching literacy in English and Chinese bilingual setting: comprehension, phonics, vocabulary and other decoding skills, and writing and related encoding skills including spelling, grammar, handwriting, etc. (in English and Chinese, where applicable). Ten hours of fieldwork in elementary bilingual and sheltered English/Chinese classroom. Course lectures, activities and assignments will be in English and Chinese. Letter grade only (A-F).

**452K. Biliteracy: Teaching Khmer and English, K-8 (3)**

Prerequisite: Admission to the Multiple Subject Credential Program or Education Specialist Program. Content, methods, and assessment for teaching literacy in English and Khmer bilingual settings: comprehension, phonics, vocabulary and other decoding skills, and writing and related encoding skills including spelling, grammar, handwriting, etc. (in English and Khmer, where applicable). Letter grade only (A-F).

**452V. Biliteracy: Teaching Vietnamese and English, K-8 (3)**

Prerequisite: Admission to the Multiple Subject Credential Program or Education Specialist Program. Content, methods, and assessment for teaching literacy in English and Vietnamese bilingual settings: comprehension, phonics, vocabulary and other decoding skills, and writing and related encoding skills including spelling, grammar, handwriting, etc. (in English and Vietnamese, where applicable). Letter grade only (A-F).

**453A. Developing Language and Literacy (2)**

Prerequisites: Admission to the Integrated Teacher Education Program; concurrent enrollment in LING 329 or consent of instructor. Theory, research, and practice of teaching reading/language arts to all students, including English language learners, speakers of non-mainstream English, and students with special needs; development of children's first and second language; print concepts; letter recognition; phonological awareness and other linguistic processes related to reading; phonics and other word identification strategies; spelling and writing development; vocabulary; and ongoing assessment. Minimum ten hours of directed fieldwork in elementary classrooms with at least 25% of students classified as LEP. Letter grade only (A-F).

**453B. Teaching Reading and Language Arts K-8 (2)**

Prerequisites: Admission to the Integrated Teacher Education Program or consent of the instructor; EDEL 453A. Concurrent enrollment in ENGL 481 or consent of the instructor. Current models of teaching reading/language arts to all students, including English language learners, speakers of non-mainstream English, students with special needs, proficient and delayed readers and writers; vocabulary, comprehension, and developing independent reading; spelling instruction and writing; text structure: content area literacy; study skills; ongoing assessment. Lesson and unit design using literature, literary response and analysis, instructional resources, and technology in the K-8 classroom. Minimum ten hours of directed fieldwork in elementary classrooms with at least 25% of students classified as LEP. Letter grade only (A-F).

**453C. Problems in Literacy Development: Diagnosis and Instruction (1)**

Prerequisites: Admission to the Integrated Teacher Education Program or consent of the instructor; EDEL 453A, B; concurrent enrollment in EDEL/C/LA 400. Teaching children with delayed literacy development; planning, organizing, and managing reading and writing instruction based on assessment, diagnosis, and evaluation of individual student needs. Includes ten hours of directed fieldwork and development of case study. Letter grade only (A-F).

**\*455. Teaching and Learning in the Culturally and Linguistically Diverse Middle School (3)**

Prerequisite: Admission to the MSCP Middle Level Emphasis Program, Middle Level Education master's degree program, or consent of the instructor. Course focuses on teaching in linguistically and culturally diverse middle schools (grades 6-8). Topics include history, philosophy, foundations of middle school education, middle school reform, the young adolescent, middle school curriculum, learning theories in practice, assessment, interdisciplinary teaching, team dynamics, classroom management and organization, the advisor/advisory role of teachers in the middle school, theories and models of second language acquisition including SDAIE, and technology. Letter grade only (A-F). Same course as EDMS 455.

**458. Newspaper in Education (1-3)**

Use of the daily newspaper as an instructional tool in the classroom. Newspaper articles, features and editorials as a means of providing current content and bases for improvement of reading skills, interests, critical thinking and problem-solving. Understanding mass media. Same course as EDSE 458.

---

## Elementary Education Courses (EDEL)

---

### \*462. Teaching and Learning Mathematics, K-8 (3)

Prerequisites: Admission to the Multiple Subject Credential Program. Learning theories, research, and instructional practices of teaching mathematics to all students, including English learners, speakers of non-mainstream English, and students with special needs in culturally and linguistically diverse classrooms. Emphasis on specially designed academic instruction in English for mathematics, characteristics of effective, equitable mathematics programs, multicultural mathematics materials, and alternatives to traditional assessment. A minimum of ten hours of fieldwork assignments in a classroom where at least 25% of students are classified as English learners. Letter grade only (A-F).

### 471. Teaching Social Studies in Diverse Classrooms (2)

Prerequisites: Admission to Methods Phase of the Integrated Teacher Education Program (ITEP). This course is a co-requisite with L/ST 471 and EDEL 473. Theory, research, content, and standards-based teaching for diverse students. Emphasis on integrating curriculum, inquiry learning, social participation and ethics/values in a democratic society with access to the core curriculum for all students. A minimum of ten hours of fieldwork in public school classrooms with at least 25% of the students classified as ELL/LEP. Letter grade only (A-F).

### \*472. Teaching and Learning History-Social Science, K-8 (3)

Prerequisites: Admission to the Multiple Subjects Credential Program. Theory, research, content, and standards-based history-social science teaching for diverse classrooms. Emphasis on integrating curriculum, inquiry learning, social participation and ethics/values in a democratic society with access to the core curriculum for all students. A minimum of ten hours of fieldwork in public school classrooms with at least 25% of the students classified as English learners. Letter grade only (A-F).

### 473. Content Area Teaching in Diverse Classrooms (1)

- A. ITEP
- B. Spanish
- C. Chinese
- D. Vietnamese
- E. Cambodian (Khmer)
- F. Korean

Prerequisite: Admission to any Multiple Subject Program pathway. Pre- or co-requisite: EDEL 452, 453A & B, 462, 472 or equivalent. Supplement to methods courses in CLAD/BCLAD programs. Theory, research and practice for teaching all content areas in multilingual and multicultural contexts. Specific vocabulary, bilingual and sheltered classroom discourse for bilingual education, pre-view/review, specially-designed academic instruction in English (SDAIE), sheltered instruction and English language development. Presentation of thematic, multi-disciplinary lessons in social science, mathematics, natural science, language arts and other subjects, specifically for English learners in culturally diverse settings. Supplement to methods courses in specific areas. Letter grade only (A-F). May be repeated to a maximum of 2 units with different topics.

### \*475. Teaching and Learning Science, K-8 (3)

Prerequisite: Admission to the Multiple Subject Credential Program. Objectives, strategies, materials and methods for teaching elementary school science. Development of sequenced lessons, integration across content areas, integrating technological tools; understanding of how children learn science, the development of inquiry- and experiential-based units which address the needs of all learners along with specially designed academic instruction for English learners and children with special needs. 60 contact hours, however, the actual contact will vary when the course is offered with an on-line distance component (see class schedule foot note). Completion of TPA Task 3 is partial fulfillment of this course. A minimum of 10 hours of fieldwork in classrooms where at least 25% of the students are classified as English learners, or concurrent enrollment in EDEL 482. Letter grade only (A-F). Course fee may be required.

### 482. Student Teaching in Diverse Classrooms (8)

Prerequisites: Admission to 2042 Multiple Subject Credential Student Teaching including successful completion of Teacher Performance Assessment (TPA) Tasks 1 and 2. Integrated student teaching assignment for one semester in a public school in grades K-8 with assignments at two of the following levels: K-2, 3-5, 6-8. Emphasis on teaching experiences in diverse, mainstreamed classrooms with English Learners including students with disabilities and those identified as gifted. Weekly seminar. Credit/No Credit grading only with an equivalent grade of "A" or "B" required for credit including passage of TPA Task 4. May be repeated to a maximum of 16 units.

### 482B. Student Teaching in Bilingual Classrooms (8)

Prerequisite: Admission to Multiple Subject Credential BCLAD Student Teaching. All day teaching assignment for one semester in a public school in grades K-6 with assignments at the primary and intermediate level, or one semester of teaching in a designated bilingual classroom (classroom must be within the supervision radius of CSULB). Emphasis on teaching experiences with children of limited English proficiency and on primary language instruction. Weekly seminar. Credit/No Credit grading only, with an equivalent grade of "A" or "B" required for credit. May be repeated to a maximum of 16 units in the same semester.

### 482C. Student Teaching in Bilingual Classrooms (8)

Prerequisite: Admission to Multiple Subject Credential BCLAD Student Teaching. All day teaching assignment for one semester in a public school in grades K-6 in a designated bilingual classroom under an emergency credential (classroom must be within the supervision radius of CSULB), with assignments at the primary and intermediate levels. Emphasis on teaching experiences with children of limited-English proficiency and on primary language instruction. Weekly seminar. Credit/No Credit grading only, with an equivalent grade of "A" or "B" required for credit. May be repeated to a maximum of 16 units in the same semester.

### 482D. Student Teaching in Diverse Classrooms (8)

Prerequisite: Admission to 2042 Multiple Subject Credential Student Teaching including successful completion of Teaching Performance Assessment Tasks 1 and 2. Integrated student teaching assignment for one semester in a public school in grades K-8 with assignments at two of the following levels: one at K-2 and one at either 3-5 or 6-8. Emphasis on teaching experiences in diverse, mainstreamed classrooms with English Language Learners. At least one assignment will include ELL students, students with disabilities, or students identified as gifted. Weekly seminar included. Credit/No Credit grading only with an equivalent grade of "A" or "B" required for credit including passage of TPA Task 4. May be repeated to a maximum of 16 units in different semesters.

### 482E. Student Teaching in Bilingual Classrooms-Asian Languages (8)

Prerequisite: Admission to Multiple Subject Asian BCLAD Credential Program Student Teaching. Integrated student teaching assignment for one semester in a public school in grades K-8 at two of the following levels: K-2, 3-5, 6-8; (one of the levels must be in an Asian bilingual setting). Emphasis on teaching experiences in diverse, mainstreamed classrooms with English Learners whose native language is one of the following Asian languages: Cantonese, Khmer, Korean, Mandarin or Vietnamese, in settings that may include students with disabilities or identified as gifted. Seminar included. Credit/No Credit grading only with an equivalent grade of "B" or better required for credit including passage of TPA Task 4. May be repeated to a maximum of 16 units in the same semester.

### 482F. Student Teaching in Spanish Dual Language Development Classrooms (8)

Prerequisite: Admission to Multiple Subject Credential Student Teaching. Integrated student teaching assignment for one semester in a public school in grades K-8 with assignments at two of the following levels: K-2 and either 3-5 or 6-8. Emphasis on teaching experiences in diverse classrooms with English Learners. Practicum in using Spanish for instruction. Spanish primary language management for explanation, clarification, and review. Seminar included. Credit/No Credit grading only with an equivalent grade of "B" or better required for credit including passage of TPA Task 4. May be repeated to a maximum of 16 units in the same semester.

lent grade of "B" or better required for credit including passage of TPA Task 4. May be repeated to a maximum of 16 units in the same semester.

**\*490. Special Topics in Elementary Education (1-3)**

Topics of current interest in elementary education selected for intensive study. May be repeated to a maximum of 6 units with different topics. Topics will be announced in the *Schedule of Classes*.

**\*497. Independent Study (1-3)**

Prerequisites: Consent of instructor and department chair. Independent study undertaken under the supervision of a faculty member. May be repeated to a maximum of 6 units but no more than 3 units applicable to credential or major requirement.

## Graduate Level

**572A. Multiple Subject Internship (8)**

Prerequisites: Admission to 2042 Multiple Subject Internship and advancement to Intern Student Teaching. The Intern is a full-time teacher in a public school district with which CSULB has a contractual intern agreement. Multiple Subject Intern Student Teaching is a one-semester culminating fieldwork experience. Weekly seminar. Credit/No Credit grading only with an equivalent grade of "A" or "B" required for credit including passage of TPA Task 4. May be repeated to a maximum of 16 units in different semesters.

**572B. Multiple Subject Internship (8)**

Prerequisites: Admission to 2042 Multiple Subject Internship and advancement to Intern Student Teaching. The Intern is a full-time teacher in a public school district with which CSULB has a contractual intern agreement. Multiple Subject Intern Student Teaching is a one-semester culminating fieldwork experience. Weekly seminar. Credit/No Credit grading only with an equivalent grade of "A" or "B" required for credit including passage of TPA Task 4. May be repeated to a maximum of 16 units in different semesters.

**572J. Multiple Subject Internship (1-8)**

Prerequisite: Admission to Track Four - Multiple Subject Teacher Internship Program (TIP) - CLAD/BCLAD or eligible for an Intern Credential and admitted to the Multiple Subject Credential Program. TIP students must take a minimum of 12 units, typically 3 units in each of two semesters to a maximum of 6 units per year for two years. All other interns take a maximum of 16 units. Total number of units will be determined by specific program. Credit/No Credit grading only.

**572K. Multiple Subject Internship (1-8)**

Prerequisite: Admission to Track Four - Multiple Subject Teacher Internship Program (TIP) - CLAD/BCLAD or eligible for an Intern Credential and admitted to the Multiple Subject Credential Program. TIP students must take a minimum of 12 units, typically 3 units in each of two semesters to a maximum of 6 units per year for two years. All other interns take a maximum of 16 units. Total number of units will be determined by specific program. Credit/No Credit grading only.

**599. Special Topics in Teacher Education (1-3)**

Study of a special topic in Teacher Education. See *Schedule of Classes* for specific topic. Students must be enrolled in a Masters or Advanced Credentials or Specialist Program. Course may be repeated for up to six units as long as topic is different, and, depending on the program requirements. Letter grade only (A-F). May be repeated to a maximum of 6 units with different topics.

**693. Developing Teacher Leadership in Middle Level Education (3)**

Prerequisite: Students must be enrolled in either a Teacher Education Masters Program, or the Tier II Professional Administrative Services Credential Program, or consent of instructor. Contemporary research on effective schools identifies teacher empowerment as critical to school improvement and success. This course will involve administrators and teachers in developing middle level teacher leadership. Students will learn and practice collaborative and action research models. Letter grade only (A-F). Same course as EDAD 693 and EDMS 693.

---

## Education Middle School Courses (EDMS)

---

**\*455. Teaching and Learning in the Culturally and Linguistically Diverse Middle School (3)**

Prerequisite: Admission to the MSCP Middle Level Emphasis Program, Middle Level Education master's degree program, or consent of the instructor. Course focuses on teaching in linguistically and culturally diverse middle schools (grades 6-8). Topics include history, philosophy, foundations of middle school education, middle school reform, the young adolescent, middle school curriculum, learning theories in practice, assessment, interdisciplinary teaching, team dynamics, classroom management and organization, the advisor/advisory role of teachers in the middle school, theories and models of second language acquisition including SDAIE, and technology. Letter grade only (A-F). Same course as EDEL 455.

**\*456A. Teaching Language Arts/Social Science in the Middle School (3)**

Prerequisite: Admission to the Middle Level Emphasis program, Middle Level Education master's degree program, or consent of the instructor. Focuses on content and methodology of teaching language arts and history-social science at the middle level including interdisciplinary teaching, reading in the content areas, and strategic reading. Includes an overview of elementary school content curricula in the two content areas. Curriculum development, standards and frameworks, content knowledge, SDAIE strategies, and appropriate middle school pedagogy are emphasized. A minimum of 10 hours of field work required. Letter grade only (A-F).

**\*456B. Teaching Science and Mathematics in the Middle School (3)**

Prerequisite: Admission to the Middle Level Emphasis program, Middle Level Education master's degree program, or consent of the instructor. Focuses on content and methodology of teaching mathematics and science at the middle level. Includes an overview of elementary school content curricula in these content areas. Curriculum development, standards and frameworks, content knowledge, SDAIE strategies, and appropriate middle school pedagogy are emphasized. A minimum of 10 hours of fieldwork required. Letter grade only (A-F).

**483A-B-C. Middle Level Student Teaching in Linguistically and Culturally Diverse Classrooms (4-4-4)**

Prerequisites: Admission to MSCP Middle Level/CLAD Emphasis Student Teaching; completion of all requirements for advancement to student teaching. Students teaching represents the culmination of the MSCP Middle Level Emphasis/CLAD Credential Program. Sections A and B consists of ten (10) weeks, full-days, spent in an approved middle school with a limited English proficient student population of at least 26%. Section C consists of an additional five (5) weeks of student teaching to be completed in an elementary school classroom also with a limited English proficient student population of at least 26%. Students must enroll in all sections (A-B-C) simultaneously, equating to 12 units of student teaching. Weekly seminars are required. Credit/No Credit grading only ("A" or "B" level work required for credit.)

## Graduate Level

**582. Concepts, Structures, and Programs for Middle Level Schools (3)**

Prerequisites: Middle level teaching experience, admission to an approved masters program, or consent of the instructor. Advanced exploration of the philosophical, historical, and societal foundations of middle level education. Study and evaluation of existing middle level programs, materials, curriculum, and future trends. Design of professional development for middle level teachers. Letter grade only (A-F).

**584. Issues in Middle Level Education (3)**

Prerequisites: Middle level teaching experience, admission to an approved masters program, or consent of the instructor. Intensive study of middle level education issues emphasizing research perspectives and factors that may influence the future direction of middle level education. Topics examined include: instructional strategies and assessment/evaluation methods and materials, the multiple aspects of human diversity in the middle level classroom, impact of current societal events, parental involvement, threats to students' health and safety, risk behaviors that affect the healthy development of young adolescents, and teacher professional development. Letter grade only (A-F).

---

## Education Middle School Courses (EDMS)

---

### 693. Developing Teacher Leadership in Middle Level Education (3)

Prerequisite: Students must be enrolled in either a Teacher Education Masters Program, or the Tier II Professional Administrative Services Credential Program, or consent of instructor. Contemporary research on effective schools identifies teacher empowerment as critical to school improvement and success. This course will involve administrators and teachers in developing middle level teacher leadership. Students will learn and practice collaborative and action research models. Letter grade only (A-F). Same course as EDAD 693 and EDEL 693.

### 695. Project in Middle Level Education (3)

Prerequisites: Advancement to candidacy, ED P/LING 595, approval by the program coordinator, department chair, and associate dean, and written application to the Graduate Office. Application for enrollment must be made by October 1 for the fall semester and summer session, or by October 1 for the spring semester. Study and analysis in the field of middle level education. Development of culminating masters project, which can take any of the following forms: 1) utilize action-based research to examine a classroom- or school-based issue or problem related to middle level education to explore, analyze, or offer resolution to the problem; OR 2) develop a position paper, issue paper, or policy recommendation. Seminar and individual meetings.

---

## Secondary Education Courses (EDSE)

---

### Lower Division

#### 157. Critical Thinking and Analytical Reading (3)

Prerequisite: ENGL 100 or equivalent (may be taken concurrently). Critical thinking and advanced reading comprehension. Includes laboratory experience and access to resource materials.

### Upper Division

#### 339. Linguistics for Crosscultural Language and Academic Development in Secondary School Settings (3)

Principles of language structure, variation and usage for educators. Educational aspects of first and second language acquisition theories. Social and psychological influences on linguistic behavior in middle and high schools. Cultural and political issues affecting language, attitudes, maintenance and shift. Letter grade only (A-F). Same course as LING 339.

#### 435. United States Secondary Schools: Intercultural Education (3)

Prerequisite: EDSS 300 (A, C, D, F, G, H, M, N, P, or S); or admission in the Single Subject Credential Program; or permission of University Coordinator of the Single Subject Credential Program. Required course in the Single Subject Credential Program. Provides students with foundational knowledge of education (historical, philosophical, sociological, political) grounded in contemporary society and schools. Key concepts include: socialization, culture, cultural contact, race, class, ethnicity, exceptionality and other aspects of identity and their impact on schooling. Approved CLAD Certificate course (Domain 3). Fifteen hour fieldwork requirement. Letter grade only (A-F). May be repeated to a maximum of 6 units.

#### 436. Curriculum, Instruction, Assessment and Classroom Management (3)

Prerequisite: EDSS 300 (A, C, D, F, G, H, M, N, P, or S); or admission in the Single Subject Credential Program; or permission of the University Coordinator of the Single Subject Credential Program. Required course in the Single Subject Credential Program. Explores systematic instruction, theories of learning, curriculum development, teaching strategies, assessment and evaluation of student progress, classroom management and discipline, and establishing successful learning environments for all students. Fifteen hour fieldwork requirement. Letter grade only (A-F). May be repeated to a maximum of 6 units.

#### 439. SDAIE: Specially Designed Academic Instruction in English (3)

Theories of second language acquisition and practical application: methods of teaching content to English language learners, reading and writing strategies, and curriculum development with application to K-12. Letter grade only (A-F). Same course as EDEL 439 and ED P 439.

#### 457. Reading and Writing in the Secondary School (3)

Prerequisite: EDSS 300 (A, C, D, F, G, H, M, N, P, or S); or admission in the Single Subject Credential Program; or permission of the University Coordinator of the Single Subject Credential Program. Required course in the Single Subject Credential Program. Emphasis on assessment and instruction of individuals and groups; textbook selection and evaluation; vocabulary development; comprehension strategies; content area reading and study skills; writing instruction; application of decoding skills to new and technical vocabulary and spelling patterns; transfer of primary language reading skills into English language skills; English usage in a variety of formal and informal settings; and the special reading needs of less prepared learners, accelerated learners, and English language learners. Addresses issues of diversity and equity within the context of teaching reading and writing in content areas. Includes individual/tutorial instruction of an adolescent. Minimum fifteen hours of field work required. Letter grade only (A-F). May be repeated to a maximum of 6 units.

#### 458. Newspaper in Education (1-3)

Use of the daily newspaper as an instructional tool in the classroom. Newspaper articles, features and editorials as a means of providing current content and bases for improvement of reading skills, interests, critical thinking and problem-solving. Understanding mass media. Same course as EDEL 458.

#### \*490. Special Topics in Secondary Education (1-3)

Prerequisite: Consent of instructor. Topics of current interest in secondary education selected for intensive study. May be repeated to a maximum of 6 units with different topics. Topics will be announced in the *Schedule of Classes*.

#### \*491. Special Topics in Teacher Education (3)

Prerequisite: Consent of instructor. Topics of current interest in teacher education selected for intensive study. A student may enroll for three units to a maximum of six units for certificate and degree purposes, subject to suitable change in course content. Topics will be announced in the *Schedule of Classes*. (Lecture 2 hours, laboratory 2 hours.)

#### \*497. Independent Study (1-3)

Prerequisites: Consent of instructor and department chair. Independent study undertaken under the supervision of a faculty member. May be repeated to a maximum of 6 units, but no more than 3 units applicable to credential or major requirement.

### Graduate Level

#### 541. Designing Curriculum and Instruction in Primary and Second Language Settings (3)

Prerequisites: A valid California CLAD teaching credential or equivalent. Principles of curriculum development, with a focus on primary language and second language teaching, learning and critical literacy. Candidates will analyze a variety of US and Mexican program sites to conduct research and create curricular programs. (Offered in both the US and Mexico. [new course; BCLAD Domain 4]; ten hours fieldwork) Letter grade only (A-F). Same as EDCI 541.

#### 542. Situated Learning in Bilingual Contexts (3)

Prerequisites: A valid California CLAD teaching credential or equivalent. Hands-on experiences in Spanish language and bilingual-bicultural settings in Mexican public, private and indigenous schools. Interaction with Mexican educators, students and families. Critical analysis of a wide variety of educational models with application to Latinos in US schools. (Offered in Mexico; [new course; BCLAD Domains 4, 5, 6] 15 hours of field experience). Letter grade only (A-F). Same course as EDCI 542.

### 599. Special Topics in Teacher Education (1-3)

Study of a special topic in Teacher Education. See *Schedule of Classes* for specific topic. Students must be enrolled in a Masters or Advanced Credentials or Specialist Program. Letter grade only (A-F). May be repeated to a maximum of 6 units with different topics (depending on program requirements).

---

## Curriculum and Instruction Courses (EDCI)

---

### 500. Studies in Curriculum and Instruction (3)

Prerequisite: Admission to the Curriculum and Instruction Master's Program or consent of instructor. This course must be taken during the first or second semester in the Master's Program. Provides an introduction to graduate study in curriculum and instruction, including overview of curriculum and instruction as a field of inquiry; critically reading and conducting educational research; using reflective strategies for analysis and improvement of professional practice. Letter grade only (A-F).

### 505. History of Education in the United States (3)

Prerequisites: Admission to an approved masters program or consent of the instructor. This course must be taken by Curriculum and Instruction students during the first or second semester of the Master's program. Advanced exploration of the major historical and philosophical paradigms of elementary and secondary education in the United States from which contemporary educational reform movements, curricula, and instructional practices have emerged. Letter grading only (A-F).

### 510. Supervision and Coaching in Educational Settings (3)

Utilizes historical, empirical, and theoretical frameworks to look at supervisory and coaching practice in educational settings. The course covers such topics as the development of the field of supervision, historical approaches to supervision, traditional and current models of supervision, supervisory behaviors and practices, and various supervisory and coaching roles in preservice student teaching, induction phase teaching, and inservice teaching. Will be of professional relevance to cooperating teachers, university supervisors, peer coaches, school administrators and others in coaching or supervisory roles. Participants should exit the course with a capacity to engage in context and role appropriate supervisory and coaching practice. Letter grade only (A-F).

### 530. Cross-cultural Education: US and Global Perspectives (3)

Prerequisite: Admission to an approved Master's program or consent of the instructor. Study to enhance teachers' cross-cultural competence through critical analyses of issues of cultural diversity, educational equity, and global interdependence. Students will investigate the current research literature in the field, reflectively apply research based knowledge to their educational practice, and infuse cross-cultural concepts, skills, and attitudes into the K-12 curriculum. Letter grade only (A-F).

### 532. Socialization of Literacy in More Than One Language (3)

Prerequisites: Admission to the Masters of Education program, Option in Elementary Education, Dual Language Specialization, or consent of the instructor. Literacy as a social product from a socio-cultural approach. The nature of literacy in historical perspective and with sociocultural applications. Course focuses on the micro social theoretical consideration of dual language development in family and community contexts. Examines the intricate relationships between language and text from early utterances to adult literacy processes. Students will understand the contexts and conditions that influence literacy development for first and second language learners. Ten hours fieldwork in schools or communities to connect the theoretical underpinnings to curricular planning. Letter grade only (A-F).

### 533. Action Research Methods: Teachers as Inquirers (3)

Prerequisite: Admission to the Curriculum and Instruction Master's Program or consent of instructor. This course must be taken during the first or second semester in the Master's Program. Provides an introduction to graduate study in curriculum and instruction, including overview of curriculum and instruction as a field of inquiry; critically reading and conducting educational research; using reflective strategies for analysis and improvement of professional practice. Letter grade only (A-F).

### 541. Designing Curriculum and Instruction in Primary and Second Language Settings (3)

Prerequisites: A valid California CLAD teaching credential or equivalent. Principles of curriculum development, with a focus on primary language and second language teaching, learning and critical literacy. Candidates will analyze a variety of US and Mexican program sites to conduct research and create curricular programs. (Offered in both the US and Mexico. [new course; BCLAD Domain 4]; 10 hours fieldwork) Letter grade only (A-F). Same as EDSE 541.

### 542. Situated Learning in Bilingual Contexts (3)

Prerequisites: A valid California CLAD teaching credential or equivalent. Hands-on experiences in Spanish language and bilingual-bicultural settings in Mexican public, private and indigenous schools. Interaction with Mexican educators, students and families. Critical analysis of a wide variety of educational models with application to Latinos in US schools. (Offered in Mexico: [new course; BCLAD Domains 4, 5, 6] 15 hours of field experience. Letter grade only (A-F). Same course as EDSE 542.

### 560. Advanced Study in Mathematics Education (3)

Prerequisites: EDCI 500 and admission to an approved masters program or consent of the instructor. Advanced study and research in elementary school mathematics with an emphasis on content, methods and materials. Includes individual research. This course is designed to provide an exploration and review of recent literature and research focusing on the challenges of teaching mathematics in the elementary school. Students are expected to participate in an investigation and appraisal of contemporary mathematical content, effective methods of teaching, appropriate materials, assessment, and enrichment facets of the elementary school mathematics program. Letter grade only (A-F).

### 570. Advanced Studies in Teaching History-Social Science (3)

Prerequisites: EDEL 472; EDP 400, EDP 520 or 696, or equivalent. Intensive study of selected topics related to teaching and learning with an emphasis on teaching history-social science. The course will engage students in a systematic inquiry into their own practice as they conduct a teacher research project. Letter grade only (A-F).

### 615. Contemporary Issues in Elementary and Secondary Education (3)

Prerequisite: EDCI 500 and admission to an approved masters program or consent of the instructor. Advanced analysis of current trends and issues in specific areas of elementary and secondary education. In-depth exploration of research perspectives and societal factors that influence the direction of elementary and secondary education in America. Letter grade only (A-F).

### 625. Analysis of Curriculum, Instruction, and Assessment (3)

Prerequisites: EDCI 500, 505, EDP 400; and one of the following EDP 520, 595, or 696 or EDCI 533; consent of the instructor. Advanced study of curriculum design, instructional processes, and student assessment through analysis of theory and research on teaching and learning. California K-12 Content Standards and the California Standards for the Teaching Profession are used to align curriculum, instruction, and assessment. Technological resources are evaluated for use in instructional planning. Letter grade only (A-F).

### 695. Seminar in Curriculum and Instruction (3)

Prerequisites: EDCI 500, 505, 515, 625 and advancement to candidacy, or by permission of instructor. Studies in curriculum and instruction. Course content will be determined by the instructor offering each section. Offered on an irregular basis; consult the *Schedule of Classes*. Letter grade only (A-F).

### 697. Directed Research in Curriculum and Instruction (1-3)

Prerequisites: Permission of instructor, department chair, and associate dean. Individual research or intensive study under the guidance of a faculty member. A student may enroll for one to three units to a maximum of six units for certificate and degree purposes, subject to a suitable change in course content. Application for enrollment must be made by October 1 for the spring semester or by March 1 for the fall semester or summer session. May be repeated to a maximum of 6 units in different semesters.

---

## Curriculum and Instruction Courses (EDCI)

---

### 698. Thesis Study in Curriculum and Instruction (3)

Prerequisites: Advancement to candidacy; approval of thesis advisor, department chair and associate dean. Planning, preparation, and completion of thesis under supervision of a thesis committee. Application for enrollment must be made in the Graduate Studies Office by October 1 for the spring semester or by March 1 for the fall semester or summer session. Credit/no credit grading only. May be taken for a maximum of 6 units in different semesters.

---

## Early Childhood Education Courses (EDEC)

---

### \*421. History and Philosophy of Early Childhood Education (3)

Historical, philosophical and psychological foundations of early childhood education and their relationships to current trends. Overview of the field of early childhood education. Analysis of various programs. Ten hours of fieldwork required.

### \*422. Curriculum for Young Children (3)

Theory and practice related to the education of preschool and kindergarten children. Emphasis on theoretical constructs of developmentally appropriate curriculum, child-initiated learning, emergent curriculum, anti-bias approaches, and the value of play in the learning process. Discussion of methods of child study, ongoing authentic assessment, selection of materials, and reflective practice. Ten hours of field work required.

### 520. Early Childhood Curriculum and Assessment: Critical Perspectives (3)

Examines the history of competing movements in American early childhood (children ages, 3-8) curriculum thinking, program models, and current debates. Explores fundamental dimensions of curriculum theories. Examines the principles and processes of curriculum development. Develops curriculum and assessment measures that integrate anti-bias, inclusive, and multicultural and global education into a unified approach. Ten hours of fieldwork required. Letter grade only (A-F).

### 521. Historical and Contemporary Perspectives in Early Childhood (3)

Historical and contemporary perspectives in Early Childhood Education (ECE) and their impact on ECE programs, practices, and policies. Role of national/global movements and organizations in institutionalizing, supporting, and promoting various ECE perspectives and images of childhood. Debates over perspectives. Federal government's involvement in ECE. Analysis of various ECE programs. Ten hours of field work required. Letter grade only (A-F).

### 522. Parent Education and Involvement in Educational Environments (3)

Analysis of trends, issues, programs and practices pertaining to parent education and involvement in educational settings. Emphasis on early childhood education in multicultural settings. Discussion of effective two-way communication between school and home, working with volunteers, involving parents as decision makers in school policies, and coordinating community support services for children and families. Analysis of federal and state programs which mandate parent involvement, parent education programs, and working with culturally diverse families. Ten hours of field work required. Letter grade only (A-F).

### 523. Leadership, Advocacy and Supervision of Early Childhood Programs (3)

Discussion of types of ECE programs, program development and implementation, different management approaches and leadership styles. Analysis of position statements and state documents pertaining to ECE programs. Discussion of promoting professionalism, the change process, and advocacy for young children and their families. Ten hours of field work required. Letter grade only (A-F).

### 526. Advanced Study of Infant and Toddler Programs (3)

Prerequisites: ED P 301, EDEC 422 or consent of instructor. Curriculum and teaching of infant and toddler programs. Analysis and application of current research on infant and toddler development to group learning settings. Ten hours of fieldwork required. Letter grade only (A-F).

### 621. Research Seminar in Early Childhood Education (3)

Prerequisites: ED P 400 and teaching experience. Discussion and analysis of research in the field of early childhood education. Emphasis on appropriate assessment of young children and qualitative research design. Ten hours of field work required. Letter grade only (A-F).

### 622. Seminar in Early Childhood Care and Education: International Perspectives (3)

Discussion of early childhood programs in various countries around the world. Analysis of social, political, and economic influences on policies related to the care and education of young children. Discussion of the role of international and national agencies providing support for child welfare and education. Letter grade only (A-F).

### 681. Advanced Field Experiences in Early Childhood (4)

Prerequisite: Approval by Early Childhood Education (ECE) area committee. Supervised field experiences required of candidates for the ECE specialist credential who do not have teaching experiences in (1) pre-school; and (2) kindergarten or primary grades; and (3) a multicultural setting. Applications should be made by October 1 for the spring semester, and by March 1 for the fall semester and summer session. May be repeated to a maximum of 8 units but only 4 units for credit toward a master's degree program. Credit/No Credit grading only.

### 682. Exit Assessment of Competencies in Early Childhood Education (4)

Prerequisite: Completion of all requirements for the Early Childhood Specialist Credential. During this advanced field work assignment, the candidate receives a final assessment of competencies demonstrated at the pre-school, kindergarten or primary levels. Applications should be made by October 1 for the spring semester, and by March 1 for the fall semester and summer session. Credit/No Credit grading only.

### 695. Seminar in Early Childhood Education (3)

Prerequisites: Advancement to candidacy, approval of the Early Childhood Education program advisor, and written application submitted to the Graduate Studies Office by March 1 for the fall semester or by October 1 for the spring semester. For qualified candidates preparing to take the comprehensive examination. Consideration of curriculum role of the school and topics related to the effectiveness and excellence in early childhood education. Letter grade only (A-F).

### 697. Directed Research in Early Childhood Education (1-3)

Prerequisites: Permission of instructor, department chair, and associate dean. Individual research or intensive study under the guidance of a faculty member. A student may enroll for one to three units to a maximum of six units for certificate and degree purposes, subject to suitable change in course content. Application for enrollment must be made by October 1 for the spring semester or by March 1 for the fall semester or summer session. May be repeated to a maximum of 6 units in different semesters.

### 698. Thesis Study in Early Childhood Education (3)

Prerequisites: Advancement to candidacy; approval of thesis advisor, department chair, and associate dean. Planning, preparation, and completion of thesis under supervision of a thesis committee. Application for enrollment must be made in the Graduate Studies Office by October 1 for the spring semester or by March 1 for the fall semester or summer session. Credit/no credit only. May be repeated to a maximum of 6 units in different semesters.

---

## Reading Education Courses (EDRG)

---

### 540. Advanced Studies in Literacy (3)

Prerequisite: A valid teaching credential or admission to an approved masters, certificate, or advanced credential program; or consent of instructor. Emphasizes advanced study of literacy research, theory, and practice. Includes research survey of issues of first and second language acquisition and development, language structure, and curriculum trends in reading and writing pedagogy. Letter grade only (A-F).

### 543. Integration of Technology in Reading/Language Arts (3)

Prerequisites: EDP 443 or ETEC 444 or equivalent; or a course approved by CTC, or a course approved by CCTC to meet the Level I technology requirement or approval of the instructor. Exploration of the impact of technology on reading and language arts; investigation and evaluation of software and media programs for reading/language arts. Includes current issues in technology and change strategies for staff development and integration of technology in the curriculum. Letter grade only (A-F).

### 544. Foundations of Literacy Research (3)

Prerequisite: California Reading Certificate or consent of instructor. Introduction to critical analysis of literacy research, with emphasis on classic and contemporary studies. Includes experimental designs, descriptive studies, case studies, correlational research, ethnographies, and the teacher-as researcher. Letter grade only (A-F).

### 545. Seminar: Current Issues, Trends, and Applied Theory in Reading/Language Arts Pedagogy (3)

Prerequisite: EDEL 452 or EDSE 457. Credentialed teaching experience or consent of the instructor. Current trends in the teaching of reading in K-12. Emphasis on applied theory to support important trends such as Early Intervention and Literacy Programs. Issues of Language and Cultural Diversity, Adolescent Reading, Adult Literacy, Family Literacy issues. Letter grade only (A-F).

### 551. Assessment and Instruction in Reading and Writing (3)

Prerequisites: Admission to Reading Certificate Program or consent of instructor. A comprehensive study of reading and writing assessment and instruction. Examination and evaluation of procedures, strategies and materials effective in designing appropriate reading and writing instruction with an emphasis on early detection and correction of reading difficulties. Fieldwork required. Letter grade only (A-F).

### 551B. Assessment of Literacy with Bilingual Students (3)

Prerequisites: Speaking and reading competence in Spanish; consent of the instructor. Examination and evaluation of measures, strategies and materials used in the assessment of literacy development in English and Spanish with bilingual students in the U.S., with emphasis on the issues specific to the assessment, program placement, and instruction of English learners in dual language settings. EDEL 451B requires 10 hours of fieldwork utilizing assessments. EDRG 551B requires a diagnostic assessment/instruction plan. Participation by speakers of languages other than Spanish is possible as literacy assessments in diverse languages become available. Letter grade only (A-F).

### 554. Reading/Language Arts Curriculum: Leadership and Supervision (3)

Prerequisite: California Reading Certificate or consent of instructor. Examines varied roles and responsibilities of the Reading/Language Arts Specialist including intervention, curriculum development, supervision, program development, and leadership. Letter grade only (A-F).

### 556. Theoretical Models and Processes of Reading (3)

Prerequisite: California Reading Certificate or consent of instructor. Exploration and analysis of current and historic theoretical models of the reading process, and examination of their influence on curriculum and instructional issues in reading and language arts. Letter grade only (A-F).

### 558. Language Study for Reading Teachers (3)

Prerequisites: EDRG 540 and admission to the Reading Certificate program or consent of instructor. The relationships among phonology, morphology, semantics, syntax, and pragmatics, and the teaching of reading. The focus is on developing phonemic awareness, phonics, decoding strategies, vocabulary, spelling, grammar skills, and comprehension in emergent and developing readers, including English language learners. Includes evaluation of instructional materials. Letter grade only (A-F).

### 559. Practicum in Teaching Reading/Language Arts (3)

Prerequisites: EDRG 551 and admission to the Reading Certificate program or consent of instructor. Includes methods and intervention approaches for meeting the needs of struggling readers at both early and intermediate level of reading acquisition, and the tutoring or small-group instruction of these students. Classroom field experience is required. Letter grade only (A-F).

### 651. Advanced Diagnosis and Intervention in Reading/Language Arts (3)

Prerequisites: EDRG 551 or equivalent; valid California Reading Certificate or consent of instructor. Includes clinical practicum and seminar on diagnosing and providing appropriate intervention for children with delayed literacy development. Letter grade only (A-F).

### 695. Seminar in Reading (3)

Prerequisites: Advancement to candidacy, approval of Reading Program advisor, and written application submitted to the Graduate Studies Office by October 1 for the spring semester; successful completion of all required course work for the Master of Arts in Education, Option in Elementary or Secondary Education, Specialization in Reading. Analysis of current trends, critical problems, and issues in reading education. For qualified candidates preparing to take the comprehensive examination. Letter grade only (A-F). May be repeated to a maximum of 6 units in different semesters.

### 697. Directed Research in Reading (1-3)

Prerequisites: Permission of instructor, department chair, and associate dean. Individual research or intensive study under the guidance of a faculty member. A student may enroll for 1-3 units to a maximum of 6 units for certificate and degree purposes, subject to suitable change in course content. Application for enrollment must be made by October 1 for the spring semester or by March 1 for the fall semester or summer session. May be repeated to a maximum of 6 units in different semesters.

### 698. Thesis Study in Reading (3)

Prerequisites: Advancement to candidacy; approval of thesis advisor, department chair, and associate dean. Planning, preparation, and completion of thesis under supervision of a thesis committee. Application for enrollment must be made in the Graduate Studies Office by October 1 for the spring semester or by March 1 for the fall semester or summer session. Credit/no credit only. May be repeated to a maximum of 6 units in different semesters.

The Department of Theatre Arts offers the bachelor of arts degree with opportunities for options in Performance (acting) and Technical Theatre (scenery/costume/lighting design). This flexibility of program has been organized to serve student needs in three principal areas: (1) Enrichment of the student's liberal arts background, (2) Development of interests and skills in the theory and practice of Theatre Arts, (3) Preparation for theatre professions in community theatre, recreational theatre, educational theatre, and professional theatre. Courses offered cover the full range of world drama from both the viewpoint of theatre and dramatic literature.

The W. David Sievers Memorial Scholarship in acting, named for the first faculty member of the theatre program, is awarded annually to new students who exhibit potential in the field of performance. This award consists of a modest sum and is determined through competitive audition judged by faculty. In addition, the Fine Arts Affiliates of the University and the Dramatic Allied Arts Guild of Long Beach provide for monetary awards to qualified students in all areas of theatre. For further information contact the Department of Theatre Arts.

The Department of Theatre Arts offers graduate study leading to the Master of Fine Arts degrees. The candidate is urged to observe the general requirements stated in this *Cat-*

*alog*, as well as the specific departmental requirements stated here and, more fully, in the Department Program Planners, available upon request from the department.

All majors are required to participate in the departmental production program. Furthermore, majors enrolled in any acting course are expected to audition and participate in departmental productions in that semester. The student is expected to accept any role in which he/she is cast. Majors are also expected to seek approval from their advisor before making any commitment to a theatre program which lies outside of the departmental academic atmosphere.

The Theatre Arts Department holds division II membership in the National Association of Schools of Theatre (National Association of Schools of Theatre, 11250 Roger Bacon Drive, Suite 21, Reston, VA 20190, phone: 703-437-0700). The Bachelor of Arts and the Master of Fine Arts degrees are accredited by the association. The department is also a member in good standing with the Theatre Communications Group and the International Theatre Institute of the United States.

## Bachelor of Arts in Theatre Arts (code THEABA01) (120 units)

The Bachelor of Arts in Theatre Arts provides the opportunity for the student to gain a broad exposure to the discipline. The curriculum requires study in Acting, Technical and Design Crafts, the History, Literature and Criticism of Theatre, and Directing. After completion of the lower division core students may choose to audition/interview for placement in the performance or design options

### Requirements

The Theatre Arts core is required for all majors regardless of option.

THEA 10 is required each semester of enrollment. These units are not included in the 120 for graduation.

Lower Division Core: THEA 101, 114A, 142, 146, 148, 201, 271.

Upper Division Core: THEA 321, 322, 324I, 374, 426.

And three (3) units of production from the following: THEA 310A, 310B, 340A, 340B, 410A, 410B, 440A, 440B.

Select 21 units from the following: THEA 112, 114B, 144, 214, 262, 316, 341, 352, 364, 375, 425, 427, 433, 442, 447, 449, 451, 462, 476, 498.

All performance majors will also fulfill four performance requirements to graduate. This requirement is met through acting, understudying, directing or assistant directing for a Mainstage or Second Stage production; acting or directing for a Showcase production; or by a special assignment approved by the performance faculty.

No more than eight units of Theatre Arts activity (cast and/or crew) will apply toward degree requirements. Crew requirements for all majors: One major running crew assignment in residence for each of the areas of costume, make up,

stage-craft and lighting to be satisfactorily completed. Students with transfer credit in those related courses must fulfill the same running crew requirements within the first three semesters of matriculation into the University.

At the beginning of the semester, all incoming students, including transfer students (including those who have been inactive for a year in our department), are required to audition (in the case of the performance option) or interview (in the case of all other options). Auditions and interviews are conducted by appropriate faculty/student groups. (These auditions are required for admittance to certain upper division classes and are therefore used for appropriate placement of students at their level of competency as determined by the faculty.)

### **Option in Performance: Acting/Directing (code THEABA02) (120 units)**

THEA 10 is required each semester of enrollment. These units are not included in the 120 for graduation.

Lower Division Core: THEA 101, 114A, 142, 146, 148, 201, 271.

Upper Division Core: THEA 321,322,324I, 374, 426.

In addition to the core courses take all of the following: THEA 112, 114B, 214, 262. Select nine (9) units from the following: THEA 144, 312, 316, 318, 375, 413, 414, 415, 462, 476, 498.

### **Option in Technical Theatre: Scenery/Costume/ Lighting Design (code THEABA03) (120 units)**

THEA 10 is required each semester of enrollment. These units are not included in the 120 for graduation.

Lower Division Core: THEA 101, 114A, 142, 146, 148, 201, 271.

Upper Division Core: THEA 321,322,324I, 374, 426.

In addition to the core courses take: All of the following: THEA 352, 433. Select 15 units from the following: THEA 144, 341, 342, 441, 442, 444, 446, 447, 448, 449, 451, 455, 476, 498.

## **Master of Fine Arts in Theatre Arts**

The Master of Fine Arts Degree in Theatre Arts is the terminal degree offering the minimum professional training deemed necessary by the major Theatre Arts Schools in the United States.

All students admitted to the MFA program are members of California Repertory Company and are subject to the operating procedures of the company. CalRep, the professional arm of the Theatre Arts Department, prepares and performs plays from the canon of international dramatic literature.

### **Criteria for Admission to the Program**

1. Students applying for the MFA program must have completed a bachelor's or master's degree in Theatre Arts from an accredited institution with a 3.0 GPA in upper-division theatre courses, meet University admission requirements, and submit evidence of creative ability and professional intent in one of the following areas: Acting, Technical Theatre/Design, Theatre Management;

2. When an undergraduate degree has been completed in a program having different requirements than those at CSULB or in some field other than Theatre Arts, additional preparation and time may be required before the student can be considered for classified status in the degree program. Units of credit from coursework in a graduate program may be acceptable after review by the faculty evaluation committee, and approval by the Dean;
3. Admission to the program in Acting requires audition and interview. Admission to the program in Technical Theatre/Design requires interview and/or submission of original work such as manuscripts, designs, renderings, slides, models and/or working drawings;
4. All students admitted into the MFA program will be admitted as conditionally classified. In order to obtain fully classified status, a committee from the Theatre Arts faculty must authorize continuation in the program after evaluating academic progress, individual skills development, and review of performance or portfolio at the end of the student's first full year of residence.

### **Advancement to Candidacy**

1. Attain fully classified status;
2. Remove all undergraduate deficiencies determined by the departmental evaluation and the Dean of the College;
3. Submit a program for approval by the department chair, the graduate advisor and the Dean of the College.

### **Requirements**

The MFA degree is a 60-unit degree requiring full time residency. Course requirements are arranged according to the following structure depending on the student's choice of option.

The options share a common core of courses, which offer study in aesthetics, conceptualization, history, theory, literature, and research. The remainder of the courses offers students the opportunity to further develop artistic skills in their particular area of option. The program culminates in a major creative project and written project report.

### **Option in Acting (code THEAMF01)**

The Acting option requires work in voice, movement, and process each semester. Process classes explore a wide range of acting styles. Ongoing performances in public presentations are required.

60 units: THEA 501 (1 unit), 517 (4 units), 518 (4units), 520A, 520B, 521A, 521B, 522A, 522B, 523, 524, 530A, 530B, 531A, 531B, 532A, 532B, 564A, 564B, 565A, 565B, 566A, 566B, 696, 699 (2 units).

### **Option in Technical Theatre/Design (code THEAMF02)**

The Technical Theatre/Design option requires work in a variety of skills development which emphasizes the technological as well as the artistic aspects of design and execution. Continuous advancing assignments in productions for public performances are required.

Core classes all concentrations: THEA 501, 541, 544, 550, 552, 699, 523, 524, 696, 517, 518, 519

### Costume Concentration

60 units: THEA 546A/B, 556A/B, 656A/B, 540, 542, 554, 583, 586, and 6 units of electives.

Electives, with advisors approval, can be taken from the University at large. Recommended electives include courses from Theatre Arts, Art, Art History, Music, and Design.

### Scenery Concentration

THEA 580A/B, 585A/B, 685A/B, 540, 545A, 545B, 547, 584, and 4 units of electives.

Electives, with advisors approval, can be taken from the University at large. Recommended electives include courses from Theatre Arts, Art, Art History, Music, and Design.

### Lighting Concentration

THEA 548A/B, 648A/B, 649A/B, 545A, 545B, 555, 581, 584, and 6 units of electives.

Electives, with advisors approval, can be taken from the University at large. Recommended electives include courses from Theatre Arts, Art, Art History, Music, and Design.

### Option in Theatre Management (code THEAMF03)

The option in Theatre Management requires work in a number of different areas including front of house, box office management, press relations, outreach, international development, contracts, and fundraising. Successful completion of different assignments in each area is necessary for advancement in the program.

60 units to include: THEA 501, 523, 524, 696, 517 (4 units), 518 (4 units), 519 (4 units), 550, 502, 503, 504, 507, 602 (6 units), 603, 699; MKTG 500; ACCT 500; and 3 units of electives. Electives, with advisor's approval, may be taken from the University at large.

### MFA Transfer and Residence Policy

Transfer credit allowable toward the MFA may not exceed 24 units. The Graduate Advisor must approve all transferred credit use in the MFA Program.

## Courses (THEA)

### Lower Division

#### 10. Theatre Arts Showcase (1)

Participation in weekly programs dealing with all aspects of Theatre Arts. Required of Theatre Arts majors each semester. These units do not count toward graduation.

#### 101. Fundamentals of Script Analysis (3)

A basic approach to the analysis of the play script, intended to provide theatre practitioners and generalists with the tools necessary to understand the literary text of a play, and its application to work in performance, design and critical/ historical studies. Letter grade only (A-F).

#### 110A,B. Theatre Arts Activity-Cast (1,1)

Participation in acting projects; open to students cast in University-sponsored productions. (60 hours minimum participation time or major crew assignment.) Letter grade only (A-F).

#### 112. Beginning Voice and Speech for the Actor (3)

Theory and practice in developing command of oral techniques for stage including breath support, resonance, free vocal re-

lease, and articulation. Letter grade only (A-F). (Lecture 2 hours, Activity 2 hours) (CAN DRAM 6)

#### 113. Introduction to Acting (3)

Prerequisite or Corequisite: A General Education Foundation course. Review of actors and acting, past and present; their work as artists; basic exercises in voice, diction, movement, and personality projection. Open only to non-Theatre Arts majors. Attendance at University sponsored productions required.

#### 114A. Fundamentals of Acting (3)

Development and preparation of the actor's instrument: voice, body, imagination. Exercises in relaxation, sensory work, motivations and relationships. Individual study of textual problems for actors. (Lecture 2 hours, Activity 2 hours)

#### 114B. Fundamentals of Acting (3)

Prerequisite: THEA 114A or equivalent. Development and preparation of the actor's instrument: voice, body, imagination. Exercises in relaxation, sensory work, motivations and relationships. Individual study of textual problems for actors. (6 hrs. lab.) Letter grade only (A-F)

#### 122. Appreciation of Theatre Arts (3)

Prerequisite or Corequisite: A General Education Foundation course. Appreciation and understanding of the arts of the theatre for the non-theatre major; standards for critical evaluation of the live theatre; lecture, discussion, written critiques and attendance at University sponsored productions required; not open to students with credit in THEA 124.

#### 124. Introduction to World Theatre and Drama (3)

Prerequisite or Corequisite: A General Education Foundation course. Introduction to all aspects of theatre including criticism, dramatic literature, movements, themes, historical background and theatrical production from different parts of the world.

#### 140A,B. Theatre Arts Activity — Crew (1,1)

Participation in technical play production projects; specific assignment determined through consultation with faculty or staff supervisors of Scenery, Lighting, Costume, Makeup, Tech Production, or Management areas. 60 hours minimum participation time or major crew assignment. Letter grade only A-F

#### 142. Elementary Stagecraft (3)

Basic physical equipment of the theatre, elementary scenic design, construction, rigging, painting and drafting. Practical lab assignments dealing with the preparation of scenery and props for University sponsored productions. Letter grade only (A-F). (3 hour lecture, 4 hours lab).

#### 144. Stage Makeup I (3)

Practical introduction to techniques of theatrical make-up. Students must be clean-shaven due to the nature of the course. Preparation of make-up material for University sponsored productions. May be taken concurrently with THEA 146. Letter grade only (A-F). (9 or more hrs lab.) (CAN DRAM 14)

#### 146. Costume Crafts (3)

Techniques of costume and accessory construction for the stage; use of fabrics, materials and equipment. Preparation of costumes and accessories for University sponsored productions. May be taken concurrently with THEA 144. Letter grade only (A-F). (9 or more hrs lab.)

#### 148. Stage Lighting (3)

Theory and practice of modern stage lighting; functions of light; design of lighting layout; properties of various instruments; practical experience in the hanging and focusing of lighting equipment for University sponsored productions. Letter grade only (A-F). (3 hour lecture, 4 hours lab)

#### 201. Writing for the Theatre Arts (3)

Prerequisite: ENGL 100. The study and application of rhetorical strategies of invention, arrangement, and style to write expository, analytic, and argumentative prose with special emphasis on particular features of writing in the Theatre Arts. Letter grade only (A-F).

**210A,B. Theatre Arts Activity — Cast (1,1)**

Participation in acting projects; open to students cast in University-sponsored productions. (60 hours minimum participation time or major crew assignment) Letter grade only (A-F)

**214. Intermediate Acting (3)**

Prerequisites: THEA 112, 114A and B. Should be taken directly following THEA 114B. Introduction to scene study. Application of techniques of body, voice and imagination to dramatic texts thereby stimulating an acting process for the development of a role. Letter grade only (A-F). (6 hours laboratory.)

**240A,B. Theatre Arts Activity — Crew (1,1)**

Participation in technical play production projects; specific assignment determined through consultation with faculty or staff supervisors of Scenery, Lighting, Costume, Makeup, Tech Production, or Management areas. (60 hours minimum participation time or major crew assignment). Letter grade only A-F.

**262. Beginning Movement for the Actor (3)**

Beginning movement training for the actor based on physical conditioning and non-verbal communication related to the beginning acting process. (Lecture 2 hours, activity 2 hours). Letter grade only A-F.

**271. Stage Management (3)**

Management skills required for the professional stage manager. Course examines responsibilities, and function of the stage manager in relation to the director, designers, and performers. Letter grade only (A-F). (6 hrs lab.)

**Upper Division****310A,B. Theatre Arts Activity — Cast (1,1)**

Participation in acting projects; open to students cast in University-sponsored productions (60 hours minimum participation time or major crew assignment). Letter grade only (A-F)

**312. Applied Voice and Speech for the Actor (3)**

Prerequisite: THEA 112 or equivalent. Further study of vocal techniques for the theatre, including variety of quality, force, tempo and pitch, scansion, and imagery. Application of basics learned in 112 to more complicated dramatic texts. (2 hrs. lecture, 2 hrs. activity). Letter grade only A-F.

**316. Rehearsal and Performance (3)**

Prerequisites: THEA 214. Performance based class focusing on the interrelationship of actor and director. Working with the director on the creative process, interpreting the demands of the director and combining these with the actor's creative process. Letter grade only (A-F). (6 hours laboratory.)

**318. Advanced Scene Study (3)**

Prerequisites: THEA 214, 316, and/or consent of instructor. Intensive scene study in modern dramatic texts. The class is designed to continue and strengthen the process of role development for the actor through scenic exercises. May be repeated to a maximum of 6 units. Letter grade only (A-F). (6 hours lab.)

**321. History of Theatre and Drama to 1660 (3)**

Prerequisite: THEA 101 or concurrent enrollment or consent of instructor. Development of Theatre Arts from primitive origins to the 17<sup>th</sup> Century. Letter grade only (A-F).

**322. History of Theatre and Drama Since 1660 (3)**

Prerequisite: THEA 321 or consent of instructor. Development of Theatre Arts from the 17<sup>th</sup> Century to the present. Letter grade only (A-F).

**324I. Theatre Today (3)**

Prerequisites: Completion of the G. E. Foundation, one or more Explorations courses, and upper-division standing. This course examines current trends, achievements and problems in contemporary western theatre and dramatic literature. Particular attention will be paid to multicultural expression in the theatre. Same course as CWL 324I.

**333. The Art of Visual Expression in the Theatre (3)**

The course will explore the history of visual expression in the theatre and introduce the student to the basic skills in stage design including spatial design, composition, and color theory. The

course will also cover the fundamentals of the process of designing for the theatre – developing the design from the initial script study through the collaborative process in rehearsal and into the theatre.

**340A,B. Theatre Arts Activity — Crew (1,1)**

Participation in technical play production projects; specific assignment determined through consultation with faculty or staff supervisors of Scenery, Lighting, Costume, Makeup, Tech Production, or Management areas. 60 hours minimum participation time or major crew assignment. Letter grade only (A-F).

**341. Presentation Techniques for Theatre (3)**

Develop an understanding of form, shape, line, and tone through exercises with various media. Explore approach to visualization and presentation techniques for theatre design. Letter grade only (A-F). (Lecture 2 hours, activity 2 hours). Letter grade only (A-F).

**\*342. Advanced Technical Theatre (3)**

Prerequisite: THEA 142 or consent of instructor. The investigation of the tools, materials, and procedures used in scenic construction and rigging. Supervised practical application of the techniques through scenic drafting and work on University sponsored productions. (Lecture 2 hours, activity 2 hours). Letter grade only A-F.

**352. Foundations of Visual Expression (3)**

Introduction to the basics of visual composition stressing a link to the arts of Theatre Design. Emphasizes the development of visual discipline, creative skills and the poetic and artistic nature of theatre design. (Lecture 2 hours, activity 2 hours). Letter grade only (A-F).

**364. Stage Combat (3)**

Prerequisite: THEA 262 or consent of instructor. A practical study of unarmed combat for the stage. Covers technique, safety, and application of combat skills to the acting process. (Lecture 2 hours, activity 2 hours.) Letter grade only (A-F).

**373. Directing for the Camera (3)**

Prerequisites: THEA 214 or consent of instructor. Study of script analysis, filmic space, creating mise-en-scene, decoupage, and working with the actor. Emphasis on a series of collaborative exercises between director and actor. Letter grade only (A-F).

**\*374. Fundamentals of Directing (3)**

Prerequisite: THEA 101 or consent of instructor. Introduction to script analysis, rehearsal techniques, director's prompt book and organization of stage space and time. Using contemporary realistic plays to develop actor/director communication skills. Intensive scene work.

**\*375. Intermediate Directing (3)**

Prerequisites: THEA 214, 316, 374, or consent of instructor. Intensive work using nonrealistic plays to develop director's concept, advanced script analysis and an approach to the challenges of style. Introduction to collaboration with set, lighting, costume, sound, and make up designers. Intensive scene work with student actors focusing on rehearsal techniques. (6 hrs lab.)

**\*380. Playwriting (3)**

Creative writing for the stage. Study of character, concept, theme, dialogue and structure.

**410A,B. Theatre Arts Activity — Cast (1,1)**

Participation in acting projects; open to students cast in University-sponsored productions. (60 hours minimum participation time or major crew assignment). Letter grade only (A-F).

**413. Film/Video Acting (3)**

Prerequisite: THEA 318 or consent of instructor. Acting techniques required for the stylistic range and variety of film and television scripts. Video recording and playback of scenes and filmic acting exercises to adjust acting skills to these media. Letter grade only (A-F). (Lecture 2 hours, activity 2 hours.) Letter grade only (A-F).

**414. Period Scene Study (3)**

Prerequisite: THEA 318 and/or consent of instructor. Scenes from period plays including Greek, Shakespeare, Comedy of Manners. Analysis of the play's structure in terms of language, background, human behavior. (Lecture 2 hours, activity 2 hours). Letter grade only (A-F).

#### 415. Audition Techniques (3)

Prerequisite: THEA 318 or consent of instructor. This course is designed to acquaint the actor with auditioning skills and practical business information necessary for acting professionally. Topics include: picture, resume, interview, audition, agent, casting, director, unions, contracts, job market and career strategies. (Lecture 2 hours, activity 2 hours). Letter grade only (A-F).

#### 425I. Theatre and Cinema (3)

Prerequisite: Completion of G.E. foundation, one or more Explorations courses, THEA 324I, and upper-division standing. Examines relationships between theatre and cinema both historically and within the problematics of realism, comedy and melodrama. Letter grade only (A-F).

#### \*426. Dramatic Theory and Criticism (3)

Prerequisite: THEA 101 or consent of instructor. Study of the major theories of dramatic literature and performance. Analysis of dramatic works from the standpoint of genre, style and structure.

#### \*427. Dramatic Construction (3)

Prerequisites: Completion of the Foundation; at least one Exploration course in Theatre Arts or in literature (an English literature course, a comparative world literature course, a foreign language literature course, or other literature course); and upper division standing. Examination of dramatic and literary theories that focus on narrative construction as applied to drama, film, storytelling and screenwriting. Letter grade only (A-F).

#### 433. Design for Theatre (3)

Prerequisites: THEA 142, 146, 148 or consent of instructor. Integration of the styles and methods of theatrical costume, make-up, scenery and lighting design. Letter grade only (A-F).

#### 440A,B. Theatre Arts Activity — Crew (1,1)

Participation in technical play production projects; specific assignment determined through consultation with faculty or staff supervisors of Scenery, Lighting, Costume, Makeup, Tech Production, or Management areas. (60 hours minimum participation time or major crew assignment). Letter grade only (A-F).

#### 441. Scenographic Techniques (3)

Prerequisite: THEA 142 or consent of instructor. A study of the drafting techniques used to translate the designer's vision to the finished set on stage. Includes both traditional and computer aided design and drafting tools. (2 hrs. lecture, 2 hrs. activity). Letter grade only (A-F).

#### 442. Scenic Technical Skills (3)

Prerequisite: THEA 142 or consent of instructor. The use of materials and construction methods in stage properties, set dressing and furniture. Painting techniques for scenery and properties. Supervision in the practical application of these elements in University sponsored productions. (2 hrs. lecture, 2 hrs. activity). Letter grade only (A-F).

#### 444. Scenic Design (3)

Prerequisite: THEA 101, 142, 433. Comprehensive study in the techniques and art of scenic design. The course includes practical hands-on instruction in design conceptual development and two and three dimensional visual expressions of ideas. (2 hours lecture, 2 hours laboratory) Letter grade only (A-F).

#### \*446. Costume Design (3)

Prerequisite: THEA 101, 146 or consent of instructor. Development of costume design through character and script analysis and understanding of line, space, color, and texture. Planning and presentation of the costume rendering. May be repeated for a maximum of 6 credits in different semesters. (Lecture 2 hours, activity 2 hours).

#### 447. Costume Technical Skills (3)

Prerequisite: THEA 101, 146, or consent of instructor. Analysis of the structure of costumes and accessories. Advanced technical projects using materials, patterning and construction methods in costume and accessories. Supervision in the practical application of these elements in University sponsored productions. Letter grade only (A-F). May be repeated for a maximum of 6 units in different semesters. (2 hrs. lecture, 2 hrs. activity).

#### \*448. Lighting Design (3)

Prerequisites: THEA 101, 148 or consent of instructor. Techniques of designing lighting for various stage forms; creative planning and projection of designs for specific productions. May be repeated to a maximum of 6 units. (Lecture 2 hours, activity 2 hours). Letter grade only (A-F).

#### \*449. Sound Design for the Theatre (3)

Introduction to the scope, tools, materials and practices of sound in the theatre today. Letter grade only (A-F).

#### \*451. Computer Applications for the Theatre (3)

The use of computers and general application software as used in theatrical design, management and technical production. Primary areas of focus include spreadsheets, database, presentation graphics and basic web page development. Letter grade only A-F.

#### 456. Virtual and Automated Lighting Design (3)

Comprehensive study in the techniques of virtual and automated lighting design. The course includes practical hands-on instruction in WYSIWYG virtual lighting software; Emphasis Control software and hardware; Vari\*Lite, Martin, and High End automated fixtures, and the Catalyst Media Server. (Lecture 2 hours, activity 2 hours) Letter grade only (A-F).

#### 462. Advanced Movement for the Actor (3)

Prerequisite: THEA 262 or consent of instructor. Kinesthetic approaches to theatrically utilizing heightened physical language to explore character, relationship and truth. (Laboratory 6 hours). Letter grade only (A-F).

#### \*466. Costuming for Media Productions (3)

Exploration of costume skills specific to recorded media including continuity, script break-down and project management. Letter grade only (A-F).

#### \*476. Theatre Management (3)

Examination of administration, management and promotion of a producing theatre organization. Practical application required in University-sponsored productions. (9 or more hrs lab.)

#### \*490. Special Topics in Theatre Arts (3)

Prerequisites: Senior standing in major or consent of instructor. Topics of current interest in Theatre Arts selected for intensive study. May be taken to maximum of 9 units. Topics will be announced in the *Schedule of Classes*. (Lecture 2 hours, activity 2 hours). Letter grade only A-F.

#### \*498. Special Studies in Theatre Arts (3)

Prerequisite: Senior standing in major or consent of instructor. Independent projects and research of advanced nature in the area of Theatre Arts under faculty supervision. Limited to 6 units in any one area. Area will be designated by letter at time of registration as (a) acting, (b) directing, (c) costume, (d) scenery, (e) properties, (f) playwriting, (j) theatre history, (k) theatre criticism, (l) movement, (m) makeup, (n) lighting, (o) voice, (p) stage management, (q) theatre management, (r) dance, (s) technical direction.

### Graduate Level

#### 501. Introduction to Graduate Studies (1)

Methodological issues involved in graduate theatre research; bibliographical studies and library research; study and critical evolution of research; methods in the development of research as relates to the theatre artist. Letter grade only (A-F).

#### 502. Seminar in Theatre Management I (3)

Prerequisites: Acceptance into the MFA Program. Study of contemporary principles of management processes specifically targeted to people pursuing professional Theatre Arts Management careers. The principles and practices of marketing, development, fund-raising, and publicity are analyzed and assessed through research and study. Letter grade only (A-F). May be repeated to a maximum of 6 units.

#### 503. Leadership and the Arts (3)

Prerequisites: Acceptance into the MFA Program or senior status and completion of THEA 476 or consent of instructor. Study of contemporary principles of leadership and leadership develop-

ment processes with special concern for application to people working in the arts. The context for leadership in arts organization is assessed and matched against students' personal leadership styles. Letter grade only (A-F).

#### **504. Managing the Not-For-Profit Arts Organization (3)**

Prerequisites: Acceptance into the MFA Program or senior status and completion of THEA 476 or consent of instructor. Study of the principles of organizational management as applied to not-for-profit arts organizations. Issues include strategic planning and analysis, organizing, staffing, leading and controlling. Also to be studied are the principles and practices of fundraising in the not-for-profit environment. Letter grade only (A-F).

#### **507. Entertainment Law (3)**

Prerequisite: Acceptance into the MFA Program. An overview of the legal aspects of the entertainment business, especially in the performing arts. Letter grade only (A-F).

#### **517. Repertory Theatre I (2)**

Prerequisites: Acceptance into the MFA Program. Design, preparation, rehearsals and performances of selected plays in California Repertory Company and University Players. Letter grade only (A-F). May be repeated to a maximum of 4 units (6 hrs lab.)

#### **518. Repertory Theatre II (2)**

Prerequisites: Acceptance into the MFA Program. Design, preparation, rehearsals and performances of selected plays in California Repertory Company and University Players. Letter grade only (A-F). May be repeated to a maximum of 4 units (6 hrs lab.)

#### **519. Repertory Theatre III (2)**

Prerequisites: Acceptance into the MFA Program. Design, preparation, rehearsals and performances of selected plays in California Repertory Company and University Players. Letter grade only (A-F). May be repeated to a maximum of 4 units. (6 hrs lab.)

#### **520A. Voice I (2)**

Prerequisite: Acceptance into the MFA Program. Laying the groundwork in Voice and Speech techniques for professional actors. (3 hrs. laboratory). Letter grade only (A-F).

#### **520B. Voice I (2)**

Prerequisites: Acceptance into MFA Program. Application of vocal technique into various styles of verse and prose for meaningful vocal expressiveness. (3 hrs. laboratory). Letter grade only (A-F).

#### **521A. Voice II (2)**

Prerequisites: Acceptance into MFA Program. Exploration of extensive vocal variety and expressiveness, using the four components of voice: quality, force, tempo, pitch. Expanding the boundaries. (3 hrs. laboratory) Letter grade only (A-F).

#### **521B. Voice II (2)**

Prerequisites: Acceptance into the MFA Program. Analysis and development of dialects and accents for performance. (3 hrs. laboratory). Letter grade only (A-F).

#### **522A. Voice III (2)**

Prerequisite: Acceptance into MFA Program. Advanced study of dialects. Coursework covers research, analysis, and performance of selected dialects in the context of a play. L(3 hrs. laboratory). Letter grade only (A-F).

#### **522B. Voice III (2)**

Prerequisite: Acceptance into MFA Program. Exploration of microphone techniques. Coursework covers stand-up, radio drama, dubbing, animation, and practice in the development of a demo-tape for professional voice-over work. (3 hrs. lab). Letter grade only (A-F).

#### **523. Theory and Practice of Contemporary Theatre (3)**

Critical exploration of the major schools of thought between 1980-present including styles, genres and both national and international trends. Contributions of theatre practitioners and theorists and the role of the audience in this period. Letter grade only (A-F).

#### **524. Dramaturgy (3)**

Prerequisite: Acceptance into the MFA Program. Dramaturgical approaches to textual analysis, dramatic structure and the theatrical event.

#### **530A. Acting in Repertory I (2)**

Prerequisite: Acceptance into the MFA program. Foundation and development of individual and ensemble acting techniques necessary for the repertory actor and company. Applicable and related to performance schedule. (3 hrs. laboratory). Letter grade only (A-F).

#### **530B. Acting in Repertory I (2)**

Prerequisite: Acceptance into the MFA program and THEA 530A. Variable modules of technique training in ensemble and interaction skills for the repertory actor. Dependent upon needs of individual actor, ensemble and/or performance schedule. (3 hrs. laboratory). Letter grade only (A-F).

#### **531A. Acting in Repertory II (2)**

Prerequisite: Acceptance into the MFA program. Development of a variety of acting techniques available to the actor for playing situation, character, style and theatricality. Applicable and related to the performance schedule. (3 hrs. laboratory). Letter grade only (A-F).

#### **531B. Acting in Repertory II (2)**

Prerequisite: Acceptance into the MFA program and THEA 531A. Variable technique modules in further development of repertory acting skills for playing situation, character, style and theatricality. Dependent upon needs of individual actor, ensemble and/or performance schedule. (3 hrs. laboratory). Letter grade only (A-F).

#### **532A. Acting in Repertory III (2)**

Prerequisite: Acceptance into the MFA program. Advanced and professional technique training of skill variety in the repertory actor. Applicable and related to the performance schedule. (3 hrs. laboratory). Letter grade only (A-F).

#### **532B. Acting in Repertory III (2)**

Prerequisite: Acceptance into the MFA program and THEA 532A. Variable advanced technique modules for expansion and enrichment of professional acting skills for the individual and ensemble. Dependent upon needs of individual actor, ensemble and/or performance schedule. (3 hrs. laboratory). Letter grade only (A-F).

#### **540. Non-traditional Material Use in the Theatre (2)**

Prerequisite: Consent of instructor. Creative use of non-traditional materials in the design and fabrication of props, accessories and set dressing. Exploration into decorative techniques and processes in the fabrication and finishing. (4 hrs lab)

#### **541. Portfolio Development (2)**

A study of the content and presentation forms of the designer's portfolio, resume and cover letter. Acquaints the designer/technician with interview skills and practical business information. Letter grade only (A-F). (4 hrs lab.)

#### **543. Character Costume Rendering (2)**

Exploration of the professional skills necessary for the Costume Designers visual communication of fully rendered costumed characters. Exploration will include the communication of proportion, movement, personality, fabrication, accessories, details, and adaptation of style or period, as applied through different types of illustration media. (Activity 4 hours) Letter grade only (A-F).

#### **544. Visual Concepts in Theatre Design (2)**

Foundations in visual conceptualization emphasizing the development of visual discipline, creative skills and the poetic nature of theatre design. Letter grade only (A-F). (4 hrs lab)

#### **545A. Computer Aided Design for the Theatre (2)**

The application of two and three dimensional computer aided design and drafting programs to problems in technical theatre and design. The course concentrates on the application of 2D CADD programs to common theatrical drafting problems. The course will also explore the use of 3D CADD programs as a tool for the designer in the exploration of the theatrical space. Letter grade only (A-F). (4 hrs lab.)

#### **545B. Computer Aided Design for the Theatre (2)**

Prerequisite: THEA 545A or consent of instructor. Advanced application of computer aided design for the theatrical lighting designer. Letter grade only (A-F). (4 hrs lab.)

#### **546A. Advanced Costume Design I (2)**

Development of costume design through character and script analysis, and understanding of line, space, color and texture. Letter grade only (A-F). (4 hrs lab.)

**546B. Advanced Costume Design I (2)**

Prerequisite: THEA 546A or consent of instructor. Exploration of the elements of design as demanded by a variety of scripts and styles. Letter grade only (A-F). (4 hrs lab.)

**548A. Advanced Lighting Design I (2)**

Prerequisite: Consent of instructor. Techniques of designing lighting for various stage forms. Letter grade only (A-F). (4 hrs lab.)

**548B. Advanced Lighting Design I (2)**

Prerequisite: THEA 548A or consent of instructor. Creative planning and development of lighting designs for specific productions. Letter grade only (A-F). (4 hrs lab.)

**550. Computer Graphics for Theatre (3)**

Prerequisite: THEA 451 or equivalent. This course is a comprehensive study of the tools and techniques incorporated in Adobe Photo-Shop and their application to theatre. Techniques in scanning, digital image manipulation and exporting to hard and soft copies are covered. Letter grade only (A-F).

**552. Collaborative Studies (2)**

Explores the aesthetic visions, directorial approaches, dramaturgical practices and performance styles that characterize the contour and magic of Theatre. The use of collaborative study and presentation will afford a greater expanse of creativity with the integration of methodologies as seen in the Professional arena. (Lecture 2 hrs., activity 2 hrs.) Letter grade only (A-F).

**554. Textile Applications in Theatre Design (2)**

Exploration and creative application of techniques of manipulating, painting and dyeing textiles for theatrical design. Letter grade only (A-F). (4 hrs lab.)

**555. Virtual and Automated Lighting Design (2)**

Comprehensive study in the techniques of virtual and automated lighting design. The course includes practical hands-on instruction in WYSIWYG virtual lighting software; Emphasis Control software and hardware; Vari\*Lite, Martin, and High End automated fixtures, and the Catalyst Media Server. (Activity 4 hours) Letter grade only (A-F).

**556A. Advanced Costume Design II (2)**

Development of skills in visual communication and style, including advanced rendering techniques and presentation. Letter grade only (A-F). (4 hrs lab.)

**556B. Advanced Costume Design II (2)**

Prerequisite: THEA 556A or consent of instructor. Development of skills in research, interpretation, conceptualization and integrating multiple sources in design. Letter grade only (A-F). (4 hrs lab.)

**564A. Movement I (2)**

Prerequisite: Acceptance into the MFA Program. Practical study in movement fundamentals, body mechanics, and non-verbal communication. Exploration of movement as actor's tool to aid in the acting process. (3 hrs. laboratory). Letter grade only (A-F).

**564B. Movement I (2)**

Prerequisite: Acceptance into the MFA Program. Analytical and practical exploration of movement principles of weight, space, time, and energy and their application to the acting process. (3 hrs. laboratory). Letter grade only (A-F).

**565A. Movement II (2)**

Prerequisite: Acceptance into the MFA Program. A practical study of unarmed combat for the stage. Coursework covers technique, safety, choreography, and application to the acting process, including the performance of scenes that include combat. (3 hrs. laboratory). Letter grade only (A-F).

**565B. Movement II (2)**

Prerequisite: Acceptance into MFA Program. A practical study of armed combat for the stage, including quarterstaves, broadswords, sabres, rapiers and daggers. Coursework covers technique, safety, choreography, and application to the acting process. (3 hrs. laboratory). Letter grade only (A-F).

**566A. Movement III (2)**

Prerequisites: Acceptance into the MFA Program. Historical and practical study of movement styles from selected theatrical periods through the eighteenth century. Coursework covers social dancing,

movement, manners, and the handling of period costumes, props, and accessories. (3 hrs. laboratory). Letter grade only (A-F).

**566B. Movement III (2)**

Prerequisite: Acceptance into MFA Program. Historical and practical study of movement styles of the nineteenth and twentieth centuries. Coursework covers social dancing, movement, manners, and the handling of period costumes, props, and accessories. (3 hrs. laboratory). Letter grade only (A-F).

**580A. Scene Design I (2)**

Development of scene design through script analysis and understanding of space, form, line, color, texture and mood. Planning and development of the scenic rendering and model. Letter grade only (A-F).

**580B. Scene Design I (2)**

Prerequisite: THEA 580A or consent of instructor. Exploration of the elements of scenic design as demanded by a variety of scripts and styles with specific challenges and complex production format. Letter grade only (A-F).

**581. Scenographic Techniques (2)**

A study of the drafting techniques used to translate the designer's vision to the finished set on stage. Includes both traditional and computer aided design and drafting tools. Letter grade only (A-F).

**583. Theatrical Patterning Methods (2)**

Exploration of fitting, advanced patterning and construction techniques. Projects in fitting problems, flat patterning, draping, under-structures and tailoring for the theatre. Letter grade only (A-F).

**584. Rendering and Painting for Theatre (2)**

Introduction to the basics of rendering and painting stressing a link to the arts of theatre design. Developing an ability to depict form and space. Emphasizes the development of visual discipline, drawing and rendering techniques used in the visual presentation of stage design and scenic painting. Letter grade only (A-F). (6 or more hours lab)

**585A. Scene Design II (2)**

Projects in scene design for the multi-set play. Consideration of stylistic unity, current trends and approaches as well as shifting problems. Development of advanced rendering techniques. Letter grade only (A-F). (4 hrs lab.)

**585B. Scene Design II (2)**

Prerequisite: THEA 585A or consent of instructor. Further development of skills in scene design for the multi-set play. Development of advanced model making techniques. Letter grade only (A-F). (4 hrs lab.)

**602. Seminar in Theatre Management II (3)**

Prerequisites: Acceptance into the MFA Program. Study of the application of contemporary principles of management processes specifically targeted to people pursuing professional Theatre Arts Management careers. The applications of the principles and practices of marketing, development, fund-raising, and publicity are analyzed and assessed through research and study. May be repeated to a maximum of 9 units. Letter grade only (A-F).

**603. Producing Commercial Theatre (3)**

Prerequisite: Acceptance into the MFA Program. An examination of all facets of professional theatre production including off-Broadway, Broadway, regional and stock operations.

**614. Advanced Period Scene Study (3)**

Prerequisite: Acceptance by audition into MFA program. Acting in Shakespeare and advanced scene study from selected theatrical periods and plays. Analysis and exercises include language, background, human behavior. Letter grade only (A-F).

**648A. Advanced Lighting Design II (2)**

The direct application of cueing and the structuring of the total lighting design within the time constraints of rehearsal and production. Letter grade only (A-F). (4 hrs lab.)

**648B. Advanced Lighting Design II (2)**

Prerequisites: THEA 648A or consent of instructor. Development of skills in the lighting design process for a variety of scripts and styles with specific challenges and complex production format. Letter grade only (A-F). (4 hrs lab.)

**649A. Advanced Lighting Design III (2)**

Development of skills in lighting for the musical, opera, and dance. Letter grade only (A-F).

**649B. Advanced Lighting Design III (2)**

Prerequisite: 649A or consent of instructor. Development of skills in lighting for other production venues. Letter grade only (A-F).

**656A. Advanced Costume Design III (2)**

Development of skills in costume design for the musical, opera, and dance. Letter grade only (A-F). (4 hrs lab.)

**656B. Advanced Costume Design III (2)**

Prerequisite: THEA 656A or consent of instructor. Development of skills in costume design for other production venues. Letter grade only (A-F). (4 hrs lab.)

**685A. Scene Design III (2)**

Development of skills in scene design for the musical, opera, and dance. Letter grade only (A-F). (4 hrs lab.)

**685B. Scene Design III (2)**

Prerequisites: THEA 685A or consent of instructor. Further development of skills in scene design for other production venues. Letter grade only (A-F). (4 hrs lab.)

**686. Theatrical Tailoring (2)**

Investigation of tailored garments and understructures in selected historical periods. Projects in traditional and contemporary hand machine tailoring techniques, and in specialized construction for undergarments. Supervision in the practical application of these elements in university sponsored productions. (4 hrs lab.) Letter grade only (A-F).

**690. Special Topics in Theatre Arts (1-3)**

Topics of current interest in Theatre Arts selected for intensive study. May be taken for maximum of nine units. Topics will be announced in the Schedule of Classes. Letter grade only (A-F).

**694. Advanced Studies in Theatre Arts (3)**

Advanced individual projects with faculty supervision in an area of Theatre Arts specialization. Limited to three units in any one area per semester and no more than six units in one semester with a total of nine units in any one area. Areas will be designated by letter at time of registration as (a) acting, (b) directing, (c) costumes, (d) scenery, (e) properties, (f) playwriting, (j) theatre history, (k) theatre criticism, (l) movement, (m) makeup, (n) lighting, (o) voice, (p) stage management, (q) theatre management, (s) technical direction. Letter grade only (A-F). May be repeated to a maximum of 9 units.

- A. Acting
- B. Directing
- C. Costumes
- D. Scenery
- E. Properties
- F. Playwriting
- J. Theatre History
- K. Theatre Criticism
- L. Movement
- M. Makeup
- N. Lighting
- O. Voice
- P. Stage Management
- Q. Theatre Management
- S. Technical Direction

**696. Aesthetic Theory and Conceptualization (3)**

A study of theoretical aesthetics as it applies to the creative act. Practical application of research and variable aesthetic elements in production style and conceptualization. Letter grade only (A-F).

**699. MFA Thesis (1-6)**

Prerequisite: Advancement to candidacy and consent of department chair. Planning, preparation and completion of thesis related to field of specialization. Letter grade only (A-F). May be repeated to a maximum of 6 units.

University College and Extension Services (UCES) is one of the eight academic colleges and the self-support community outreach branch of the university. The college provides additional access to CSULB's exceptional academic programs and educational resources by offering over 550 credit and professional development (non-credit) programs every semester. The programs are designed to meet the personal and professional development needs of more than 30,000 individuals each year. UCES identifies and addresses the educational and training needs most relevant to its customers. Its capabilities extend internationally.

## Why UCES Is Different - Access and Opportunity

University College and Extension Services is different from CSULB's other academic colleges because it is not focused on one specific subject area, such as arts or sciences. Its purpose, aligned with the CSU Cornerstones Report, is to "provide increased access to graduate education and continuing education in programs central to the mission of the university, to lifelong opportunities for our students, and to the continued health of California's community and economy." (CSU Cornerstone Principle 6a)

This means that UCES provides a variety of ways to bring people to the university, and to bring the university and its programs to the people, through the innovative delivery of many different types of courses and programs across diverse subject areas. UCES' unique position as both an academic college and a community outreach entity means that partnerships and collaboration - with the university, businesses, organizations, and community leadership - are an integral part of its operation. Fostering collaborative academic initiatives, both credit and professional development (noncredit) has always been one of the highest priorities of the UCES administrative leadership.

UCES programs do not receive state funding and are supported entirely by student fees.

## The University College Milestone

Many universities across the U.S. have been changing the name of their Extension divisions to a name that better describes campus-approved, high quality credit course offerings taught by resident faculty. At CSULB, University Extension Services became University College and Extension Services in 1994. CSULB is the first in the CSU system to have a University College and an advisory committee to provide for an open line of communication with the faculty, students, and administration. As an academic college, UCES makes it easier for the campus to offer credit courses and degree programs to expanded constituencies in our community and internationally.

When students enroll in a credit course through University College, they will know that it is taught by resident faculty with the same course of study and academic expectations associated with state supported courses.

## UCES Goal

To provide individuals, institutions, organizations, and the global community with access to cost-effective, quality educational opportunities by offering the best educational choices for the best value.

## Programs

UCES maintains a customer-focused market-driven approach to developing and delivering programs. As a result, the programs may change often to adapt to the training and educational needs of the marketplace. UCES offers both professional development (noncredit) and credit programs, in many different subject areas. Whether the program is credit-bearing, or not for university credit, UCES strives to provide the following features in every course:

- Quality curriculum
- Expert instructors
- Convenient days/times
- Affordable fees and payment plan options
- Fast, easy registration

In addition, UCES provides companies, organizations, and government agencies with customized professional development programs for employees at their work site or at CSULB.

For a free catalog of the latest comprehensive program listings and descriptions, call the UCES Customer Center 800/963-2250 or visit the web site <http://www.uces.csulb.edu>

Following is a just sampling of the many types of programs offered by UCES.

#### **Professional Development Certificate Programs Offered**

Entrepreneurship: New Business Creation  
 Leadership for Effective Management  
 Human Resource Management  
 Professional Coaching and Mentoring  
 Professional Meeting and Events Planning  
 Basic Applied Forensic Science and Crime Analysis  
 Cook, Chill, Rethermalization, and Service (CCRS)  
 Foodservice Hazard Analysis Critical Control Point (HACCP) Strategy  
 Engineering and Architectural AutoCAD  
 UNIX System and Networking  
 Windows 2000/.NET Network Specialist (MCSE/MCSA)  
 Oracle Internet Applications Developer Specialist  
 Writing Workshops

#### **Professional Designation Programs and Industry-Specific Exam Prep Programs**

Global Logistics Specialist  
 Computer Applications, including: A+, CISCO, Network+, UNIX, Windows 2000, etc.  
 The SHRM Learning System (PHR/SPHR exam prep)  
 Medical Coding (on-line)

#### **On-line Programs**

Business Finance and Budgeting for Managers  
 High Impact Business Writing  
 Project Management (PMBOK-aligned)  
 Strategic Marketing in Action  
 Global Logistics Specialist®  
 Medical Coding (on-line)  
 Grants Writing Workshop  
 Many courses for university credit can be taken on-line through UCES.

#### **Degrees Offered**

Degree programs offered by UCES are in partnership with other CSULB colleges.

- Master of Arts in Global Logistics
- Master of Arts in Kinesiology, Option: Sport Management
- Master of Arts in Kinesiology, Option: Pedagogy
- Master of Business Administration (Fully Employed MBA for Working Adults)
- Master of Public Administration
- Master of Science in Health Care Administration (MSHCA-DL)
- Master of Social Work
- Bachelor of Science in Occupational Studies
- Bachelor of Science in Business Administration, Option: Management
- Bachelor of Arts in Family and Consumer Sciences, Option: Child Development and Family Studies

#### **Credit Certificates Offered**

- BCLAD
- Aerospace Manufacturing Engineering

#### **The American Language Institute**

The American Language Institute provides English as a Second Language instruction to international students. ALI offerings include long-term and short-term programs, and credit and non-credit courses. Programs offered through the ALI include the Intensive English Program, a non-credit program offered year-round, 3 sessions per year, in which students are in class up to 25 hours per week.

#### **Open University**

Open University provides an opportunity for those people who are not currently admitted to and/or registered at CSULB to enroll in most courses offered by the university. Enrollment is on a space-available basis, and subject to approval of the instructor and department chair. Students receive Open University Special Sessions credit. For more information, call the UCES Customer Center at 800/963-2250.

#### **Centers/Consortiums**

- Center for International Trade and Transportation (CITT)
- Southern California Process Improvement Network (SPIN)

#### **College Facilities**

- Full service award-winning video and multimedia production facility located on campus, including a 2200 square-foot studio, featuring the leading computer animation software
- Computer labs both on and off campus, equipped with the latest hardware and software - UNIX, IBM-PC, Macintosh, Silicon Graphics, Windows 2000, GIS
- Executive conference and training rooms

#### **Continuing Education Units**

Continuing Education Units (CEUs) are a permanent record of attendance in professional development (noncredit) programs. They are awarded by The American Council on Education (ACE) and administered through UCES. CEUs can enhance ones resume and provide another opportunity to showcase a commitment to your own professional development. CEUs for specific professions are also available.

# UNIVERSITY HONORS PROGRAM

Advising Coordinator

Duan Jackson

The University Honors Program exists to provide a selected group of qualified students with a unique educational experience. It unites the committed student and faculty member in a learning relationship in which each has the highest expectations of the other. The Program seeks to accomplish these goals in two ways: first, it broadens students' intellectual horizons by encouraging them to explore areas of thought not closely related to their major fields of study; and second, it allows students to work in their major fields in greater depth than would be possible in a conventional course pattern. The work of the first two years satisfies, in part, the University's General Education Requirements and is directed toward the first objective. The work of the Junior and Senior years, which includes independent study experiences and a senior thesis, is directed toward the second objective.

The University Honors Program is designed so that students will not only master a substantial amount of knowledge, but will also develop the capacity for balanced intellectual judgment and the powers of abstraction and conceptualization. Students will be immersed in the learning process and therefore must have both the ability and willingness to do intense and often self-directed intellectual work as well as a desire to make the most of the opportunities available in the University.

Students who successfully complete the requirements of the University Honors Program will receive a Certificate and an annotation on their transcript which mark the graduate as a person of intellectual accomplishment, one who has demonstrated a disciplined curiosity and dedication to the pursuit of knowledge.

Available within the University Honors Program are three alternatives designed to meet the varying needs of students.

1. General Honors;
2. Honors in the Major;
3. A combination of the above for which both the course work prescribed for General Honors and the departmental requirements for Honors in the Major are successfully satisfied.

### *General Honors*

General Honors is a special approach to the General Education Requirements of the University which enhances and builds on them. It is a program of carefully selected courses and specially designed, multi-disciplinary seminars from which a student chooses a minimum of 30 units (a minimum of 18 units in the case of upper division transfers), most of which are applied toward the 51 units of General Education courses required for graduation of all students. Those courses designated for General Honors credit encourage student participation on an academic level not generally possible in the usual curricular offering.

### *Objectives*

- to provide highly motivated students an exceptional educational opportunity to challenge and expand their intellectual capacities, especially in terms of increased breadth and depth;
- to deepen the students' intellectual experiences by stimulating and guiding their own curiosity;
- to encourage freedom of initiative;
- to provide an academic and cultural environment that inspires creative activity through close working relationships with distinguished faculty;
- to advise students in their academic planning to meet the University's General Education requirements through a cohesive and unified program of study;
- to prepare students to write an Honors Thesis that is a preparation for advanced study, and a demonstration that the student has acquired the intellectual confidence and academic independence that are indicative of the maturely educated person.

### *Admission Requirements*

There are three ways a student may enter the University Honors Program:

- Incoming students are invited to apply to General Honors on the basis of high school class standings, ACT composite score, and/or SAT scores. Normally, students should be in the upper ten percent of their high school classes, and have a composite ACT score of at least 24, and/or a SAT score of at least 1100, and a GPA of 3.3 or better. However, if not all of these criteria are met, a combination of them may be evaluated in addition to a letter of recommendation and a personal interview with the Honors Program Director.
- Any student who maintains a 3.3 or better overall GPA at California State University, Long Beach in 12 or more units of coursework is eligible to participate in General Honors with a letter of recommendation from one of her/

his instructors and a personal interview with the Honors Program Director. Students with a GPA of 3.3 or above in 12 or more units at California State University, Long Beach normally will be granted automatic acceptance into the Program upon application.

- Students not meeting the designated criteria may petition for admission to General Honors. Students are required to submit letters of recommendation from two instructors familiar with their work. These exceptional cases will be reviewed by the Director and the University Honors Council. Students are encouraged to petition if they have a good explanation for not meeting the basic requirements and/or a strong motivation to participate in the Program.
- Transfer students may enter General Honors provided they have a minimum equivalent of a 3.3 average in all course work at the accredited institution from which they are transferring.

Qualified students may enter General Honors as late as the junior year. Where Honors transfer agreements have been negotiated with a community college (such as with Long Beach City College) up to 12 transfer units will be accepted as meeting the requirements of the CSULB University Honors Program. Otherwise a waiver of some of the required Honors credits (not more than 6) may be granted by the Director and the University Honors Council.

### **General Information**

Students who have failed to enroll in courses for Honors credit for two consecutive semesters will normally be withdrawn from the program;

A University Honors student who withdraws from the University during any semester will also be withdrawn from the program. A student may apply for readmission at the beginning of any semester in which he/she plans to enroll.

### **General Honors**

#### **Requirements**

Every student electing General Honors in the University Honors Program must complete all university-wide graduation requirements, and the requirements for a major. General Honors is itself not a major.

A student must maintain an overall GPA of 3.00 or better in Honors and in all University courses attempted.

General Honors Plan I (minimum of 30 units) is designed for entering freshmen and consists of a minimum of 21 units of lower-and upper-division General Education courses (which include UHP 100 and UHP 150), UHP 300 (a non-General Education course), and a culminating 6-unit senior thesis/project in the student's major (UHP 496, Research Participation, and UHP 498, Senior Thesis/Project).

General Honors Plan II (minimum of 18 units) is primarily for upper-division transfers from community colleges and consists of nine units of upper-division General Education courses, UHP 300 (a non-General Education course), and a culminating 6-unit senior thesis/project in the student's major (UHP 496, Research Participation, and UHP 498, Senior Thesis/Project).

### **Honors in the Major**

Honors in the Major (minimum of 9 units) is designed for students who elect not to take General Education courses as a part of the University Honors Program or who decide to enter the Honors Program too late to do so; Honors in the Major consists of a minimum of one upper-division Honors—specific course in the student's major department and a culminating 6-unit senior thesis/project (courses in the major department equivalent to UHP 496 and UHP 498). Students in General Honors whose major department offers an Honors in the Major Program may apply to participate in both programs, in which case the General Honors thesis requirement would be satisfied through the Honors in the Major option.

In consultation with a Departmental Honors in the major Faculty Advisor, a student can plan an enriched course of study in an academic major. This opportunity for program flexibility makes it possible for a student to elect the most relevant, exciting and enriched experiences offered by the department.

Although Honors in the major requirements may vary among departments; usually they entail independent study, seminar courses, high levels of performance, and senior projects or theses culminating in a broad knowledge of subject matter. Information concerning Honors in the Major is available in the University Honors Program Office and in participating departmental offices.

#### **Admission Requirements**

Please contact the department office or the University Honors Program Office for information regarding admission. Normally a student must be a declared major, usually with at least sophomore (30 units) standing.

#### **Requirements**

1. Completion of the requirements for the major. (The approval of the department chair and the Departmental Faculty Honors Advisor must be obtained to change any of the general major requirements);
2. Completion of a minimum of one upper-division Honors—specific course in the student's major department and a culminating 6-unit senior thesis/project (courses in the major department equivalent to UHP 496 and UHP 498).

### **Courses (UHP)**

#### **Lower Division**

##### **100. Angles of Vision — Honors (3)**

This course emphasizes the kind of analytical and critical approaches that lead to original and creative thinking. The course concentrates on the development of seminar skills: the open exchange of viewpoints in discussion, close reading of major texts, preparation of analytical essays and oral presentations, extensive examination of explicit models and techniques of reasoning, conceptualization of research problems, and writing a documented paper. The course will confer credit in GE Category A.3. Required of all UHP students.

##### **150. Exploring a Text — Honors (3)**

Prerequisites: ENGL 100. Close reading of a work (or works) of literature — fiction or non-fiction — exploring issues of personal identity, moral choice, freedom and commitment. May be repeated to a maximum of 6 units with different topics. The course will confer credit in GE Category E. Letter grade only (A-F).

## Upper Division

### 300. Junior Colloquium — Honors (3)

Studies of selected interdisciplinary topics, problems or issues with a view toward integration of the areas of study involved in lower-division courses. May be repeated to a maximum of 6 units with different topics. Letter grade only (A-F).

### 490. Special Topics — Honors (3)

Identification and critical analysis of current problems in selected areas. Topics to be announced in the *Schedule of Classes*. May be repeated to a maximum of 6 units with different topics. Letter grade only (A-F).

### 496. Research Participation — Honors (3)

Prerequisite: Permission of the Director of the Program and the supervising faculty member. Letter grade only (A-F).

### 497. Directed Studies — Honors (1-3)

Prerequisite: Permission of the Director of the Program and the supervising faculty member. Independent study under the supervision of a faculty member. May be repeated to a maximum of 6 units. Letter grade only (A-F).

### 498. Senior Thesis/Project — Honors (3)

Prerequisite: Permission of the Director of the Program and the supervising faculty member. Final completion of a thesis, or a project; or an exhibit or a performance. Letter grade only (A-F).

## Other

Special honors sections of regular GE courses in various departments as listed under "University Honors Program" to be found in the current *Schedule of Classes*.

# THE UNIVERSITY

## History

Los Angeles-Orange County State College opened its doors on September 28, 1949, to an entering group of 169 juniors and seniors. The *Schedule of Classes* listed 25 courses taught by thirteen faculty members in support of five undergraduate majors. The campus consisted of two converted apartment buildings at 5381 and 5401 Anaheim Road in Long Beach. Within two years the City of Long Beach purchased a permanent site for the fledgling institution and donated it to the state, construction began on the first permanent buildings, and the renamed Long Beach State College moved to its present location. Two decades later the rapidly growing institution had earned designation as a university and was the second largest in the California State University system. Today more than 33,000 undergraduate and graduate students are pursuing degrees and credentials under the direction of 1869 faculty members, supported by 1500 full-time and part-time staff.

The Legislature voted to establish a state college in the Long Beach area because it recognized that rapid suburban development would create a need for more trained teachers and business employees. Instead of limiting itself to those fields, however, California State University, Long Beach has evolved into one of the nation's leading urban comprehensive universities. In addition to Colleges of Education and Business Administration, CSULB developed a nationally renowned College of the Arts, a College of Engineering that attracts millions of dollars in government contracts and corporate donations, and a College of Health and Human Services that prepares a wide range of skilled personnel for the health care industry. The College of Liberal Arts and the College of Natural Science and Mathematics provide a solid foundation in general education for all CSULB undergraduates as well as majors ranging from anthropology to physics and from biochemistry to philosophy.

California State University, Long Beach has much to offer its students. It is located on and around a low hill less than two miles from the beaches of fashionable Belmont Shore. The beautifully landscaped 320-acre campus features many new and remodeled buildings. The faculty has made a commitment to excellence in both teaching and research. Most University classes are taught in small sections, so students have an opportunity for regular contact with their professors. Many undergraduate students become involved in original research and creative activities under faculty supervision, better preparing them for entry into graduate programs or the career fields of their choice. No wonder CSULB has attracted 350 California high school valedictorians and National Merit Finalists among its current undergraduate population. Whether students choose to live in University residence halls, in apartments off-campus, or at home, CSULB offers a wealth of cultural and recreational opportunities. There are live performances of plays, music, and dance in the University's seven theater facilities virtually every night of the week. The University Art Museum and

the student and faculty galleries in the Art and Design departments afford access to exciting innovations in the visual arts. Eighteen men's and women's sports compete in an NCAA Division I athletic program. The women's volleyball team has appeared in 8 Final Fours in the last 15 years, winning 3 national championships and finishing second in 2001. The athletic program also includes club or intramural competition in approximately 30 different sports. The Associated Students, Inc. and the Office of Student Life and Development sponsor nearly 200 additional campus organizations, ranging from fraternities and sororities to cultural associations, religious clubs, honor societies, political and social action clubs, and special interest clubs. As a result, students at CSULB are assured of a well-rounded collegiate experience if they take advantage of the opportunities that surround them.

## Setting

The hilltop portion on the 322-acre campus overlooks the Pacific Ocean. Eighty permanent buildings house the various colleges, 63 academic departments and programs, 24 centers, 4 institutes, and 4 clinics.

A newly enlarged and remodeled University Student Union is located at the crossroads of the campus, providing a focal point for the total campus community. A centralized student services and administration center in Brotman Hall, near the Union, adds needed services. Specialized facilities for Engineering Technology, Dance, Design, Music, and Nursing have been completed, as has the International House student residence hall and meeting complex.

A state-of-the-art building for the College of Business Administration, complete with decision-support laboratories, multi-media capability, and modern lecture halls, opened in 1991. The Department of Dance occupied its new quarters in the largest and best-equipped instructional dance facility in the nation in time for the spring 1994 semester.

A central feature of the landscape design is a planting of 3,200 Helen Borchert flowering peach trees donated by the citizens of Long Beach. Secluded landscape areas and buildings of appropriate scale help maintain a learning environment that encourages small group identification and personal privacy in the midst of 37,000 individuals sharing the same site, on what is essentially a large urban campus.

The campus has assumed a highly individual character. In 1965, the International Sculpture Symposium contributed 9 monumental pieces and designs to the University. These works received credits in 21 national and international publications, and in 1972 additional community funds in the form of a trust provided for the completion of the Carlson Memorial

Robert C. Maxson, President

Tower, designed by French sculptor Andre Bloc. The campus sculpture collection has continued to expand, with the addition of works by artists such as Guy Dill, Michael Davis, Robert Irwin, Bryan Hunt, and Woods Davy. These acquisitions were made possible by private donations and grants from the National Endowment for the Arts to the University Art Museum.

### Mission

California State University, Long Beach is a large urban comprehensive university in the California State University system. Its mission is high-quality education leading toward a broad range of baccalaureate and graduate degrees spanning the liberal arts and sciences and many applied and professional fields, with emphasis on instruction at the upper-division (junior and senior) and graduate levels, in accordance with the California Master Plan for Higher Education.

CSULB is committed to serving the people of California. To assure access and equity consistent with educational priorities, the University endeavors to serve students who can only attend in the evening as well as those who can attend during traditional daytime hours, those who must attend part time as well as those who attend full time, and those from population groups whose rates of enrollment historically have been lower than average as well as those from groups that have had historically higher rates of education. The University serves students who have graduated in the top third of the State's high school graduating class, students who have completed a community college program, and adults re-entering education.

The University's educational mission is to promote intellectual and personal development and to prepare students for lifelong learning as well as preparing them to succeed in a variety of professional endeavors and to function as informed, contributing members of the community. To these ends, the mission of the undergraduate curriculum is grounded in a strong general education program, emphasizing the acquisition of writing, critical thinking, and analytical skills and knowledge of cultural and artistic traditions, the analysis of human behavior and society in the past and present, and scientific modes of inquiry. The mission of all degree programs is to provide each student with the skills necessary to pursue knowledge and to integrate information from various sources, and also to provide depth in at least one area of specialization. The mission of the graduate programs is to prepare students to enter careers requiring training beyond the baccalaureate, to advance in their jobs, or to pursue advanced study. Doctoral programs are intended to provide both advanced knowledge and the skills needed to pursue independent research. Educational support programs and services for students emphasize the importance of personal, interpersonal, and societal development.

A fundamental goal of all of the University's programs is to prepare students to function effectively in a culturally diverse society, by developing an understanding of our diverse heritage, including the essential contributions of women and ethnic minorities. Instruction emphasizes the ethical and social dimensions of all disciplines, as well as

their applications to contemporary world issues. Building upon the culturally diverse region it serves and the international character of its faculty, the University emphasizes international education in its curriculum.

The University seeks to involve students in learning by offering most of the curriculum in small sections taught by fully qualified, professionally active faculty members, and by providing opportunities for undergraduate as well as graduate students to work with faculty members in independent study and research. CSULB serves the surrounding community through applied research, training and community service programs, and consulting for government agencies, non-profit organizations, and private industry.

### Accreditation

The University is accredited by the Western Association of Schools and Colleges (985 Atlantic Avenue, Suite 100, Alameda, CA 94501, 510-748-9001), the agency responsible for granting regional accreditation to colleges and universities in California, Hawaii, and Guam. It is accredited by the California State Board of Education and is on the list of approved institutions of the American Association of University Women. Additional information concerning University accreditation may be obtained from the Office of Academic Affairs. Additional information concerning departmental accreditation may be obtained from the department concerned or the Office of Academic Affairs.

## The Faculty

The faculty of California State University, Long Beach is a dedicated group of men and women. Each has been well-prepared for the work of providing instruction to undergraduate and graduate students. The faculty create an intellectual atmosphere that encourages students to develop a spirit of investigation which becomes a life-long approach to

issues and problems. It is the faculty's hope that students will gain respect for excellence of performance and take advantage of the wide range of educational opportunities available to them.

Faculty earn academic rank as they develop their course materials, research, academic and community service, and publications. The highest faculty rank is "Professor," sometimes called "full Professor." The intermediate rank is "Associate Professor." Most faculty begin their careers as "Assistant Professors."

The faculty are assigned to departments and programs within colleges of the University. The department chair is the academic leader of the department faculty.

A dean is the chief academic officer of a college. Deans are appointed by the Provost and Senior Vice President for Academic Affairs in consultation with the President and the college faculty. Most colleges have one or more associate deans to assist in the administration of college resources.

Elsewhere in this *Catalog* you will find the explicit policy of the University on grades and grading as well as policies on class attendance, withdrawal from courses, and cheating and plagiarism. These and other policies reflect the concerns of the faculty that students take seriously the opportunities made available to them. Beyond these rules and regulations the faculty expect student participation in education that may be different from or more active than what students have been used to in secondary schools. For every discipline the fund of knowledge to be absorbed, understood, and added to is expanding rapidly.

The role of the university professor is somewhat different from that of the high school teacher. University faculty are involved in the creation of knowledge as well as the dissemination of it. The expectation is that the students will not only use the 150 instructional days per year to the best possible advantage, but also by reflecting on the learning process, by thinking about how the professor came to understand and organize the knowledge presented, will learn how to take full advantage of the University's resources and those elsewhere, thus taking responsibility for the life-long process of personal education.

## Academic Organization of the University

During the regular session California State University, Long Beach is as large as a small city. More than 33,000 students, 861 tenured and tenure-track faculty, 1,008 full-time and part-time lecturers, and nearly 1,600 staff members study and work on campus each week. In order to operate, the campus has been organized into eight colleges and many academic departments and programs. The names of the colleges, departments, and programs and their current deans are shown at the beginning of this catalog.

Colleges are usually composed of academic areas with some common characteristics. Because of this, colleges themselves suggest a way to look at the enormous fund of knowledge that is this University. One function of a college is to provide a forum for the faculty and the students to express academic matters before a knowledgeable group of people. At the university level this is a very important aspect of the educational process.

For students who have just begun their life in the University, some of the departments will be unknown territory. Other departments and programs will turn out to be considerably different from first expectations or previous experiences with high school subjects of the same or similar names. For students who have begun to focus their academic interests, exploration of the departments and programs of a college beyond the favorite first contact area will often prove to be a valuable part of the process of choosing an academic major.

This catalog is organized alphabetically by college, department and program.

### Departments, Programs, and Studies

The elemental unit of academic organization at this University is the department. Departments are most often coincident with a discipline and usually share the same name. Faculty are members of departments. Thus the Department of Biological Sciences has many "programs," including degrees in Biology and Microbiology, a minor in Biology, and a certificate in Biomedical Art. You will also find in this catalog academic areas, like Gerontology, which are not part of any one department. Some of these areas are called "Studies," e.g., Women's Studies, Medieval Studies. This means that the field is essentially an interdisciplinary one and is the product of the activities of faculty from many departments.

### Academic Senate, Councils, and Committees 2003-2004 Academic Year

The faculty is subdivided into departments and programs. Normally these sub-divisions have committees to discuss curriculum and other matters. Since departments and programs are constituent parts of the colleges, they also send members to college-level committees and councils. These bodies serve to develop, refine, and review curriculum. At the University level faculty members from all of the colleges are elected to several councils and to the Academic Senate. These bodies concern themselves with campus-wide issues. Many of these councils, their subcommittees, and the Academic Senate have also provided for staff, student, and administration membership.

Chair of the Academic Senate — Margaret Merryfield  
(Chemistry and Biochemistry)

Chair of the Educational Policies Council — David G.  
Huckaby (Biological Sciences)

Chair of the Graduate Council — Praveen Soni (Marketing)

Chair of the Program Review and Academic Planning Council  
— Keith Freeseemann (Kinesiology and Physical Education)

Chair of the Financial Affairs Council — David Hood (History)

Chair of the Faculty Personnel Policies Council —  
Kelly Janousek (Library)

Chair of the Teacher Preparation Committee — Lesley  
Farmer (Teacher Education)

### The University Library

The mission of the University Library ([www.csulb.edu/library](http://www.csulb.edu/library)) is to connect students, faculty, staff, and members of the local community with the information resources they need for study, research, and recreation. The library contains substantial collections of books, journals, government documents, videos, maps, and other physical materials, all listed

in its online catalog, COAST (<http://coast.csulb.edu>). But these resources are enhanced, and even eclipsed, by the more than 5 million volumes available through the Link+ consortium ([http://www.csulb.edu/library/guide/mutual\\_use\\_statement.html](http://www.csulb.edu/library/guide/mutual_use_statement.html)), by the library's subscriptions to thousands of web-based reference sources and full-text journals, and by its rapidly growing collection of electronic books. Increasingly, the library is able to deliver needed information to the desktop at any time of the day or night.

The library's staff and faculty are committed to efficient, helpful service, whether it be at the circulation desk, the reference center, the interlibrary services desk, or any of its other departments. Librarians guide scholars through the process of identifying, retrieving, organizing, and evaluating sources of information appropriate to their educational needs or personal interests. A wide range of library instruction opportunities is available to the campus community, from a credit course designed to introduce new students to basic concepts of information literacy, to librarian workshops geared to the needs of a particular course, to in-depth consultation focusing on a specific research topic. The library provides adaptive devices to make its print and electronic resources accessible to the disabled and works closely with Disabled Student Services to insure that equipment, facilities, and collections are responsive to special needs. The University Library's Special Collections Department contains rare, significant, or unusual books, manuscripts, correspondence, art prints, and photographic prints; details can be found at <http://www.csulb.edu/library/guide/serv/special.html>.

### University Computing Resources

The University provides an extensive array of computing resources. Guidelines regarding the use of these resources can be found in the "Policy Governing Access to and Use of CSULB Computing Resources" document. The complete text of the document can be viewed on the CSULB website at <http://www.csulb.edu/~policy>.

#### Academic Computing Services

562-985-4505, <http://www.csulb.edu/acs>

Academic Computing Services (ACS) manages campus-wide computing resources including BeachBoard, CSULB's e-learning environment, Open Access Computer Labs, computer classrooms, the Development Lab and the Technology Help Desk. Learn more about these ACS resources below or visit the ACS website for more details.

#### BeachBoard, CSULB's E-learning Environment

<http://beachboard.csulb.edu>

BeachBoard, CSULB's e-learning environment, provides students with the opportunity to stay connected with their instructors and classmates. BeachBoard may be a component of some or all of a student's courses as either a supplement to the course, as an element of a hybrid course or as the structure for a completely online course. As a supplement to the course, BeachBoard may provide a method of receiving class material, and checking grades, as well as other features. In a hybrid course, a combination of a traditional face-to-face class and online class, BeachBoard may also provide online quizzes, a virtual chatroom and discussion boards. In a completely online course, BeachBoard will serve as the method for all of the course's faculty-student interactions.

Students, faculty and staff also have the ability to manage their organizations on BeachBoard. These organizations provide the same collaborative features that a course on BeachBoard has and may include email lists, posting of announcements, a virtual chatroom, and discussion boards.

To access BeachBoard, students need a CSULB Internet Account, available at <http://www.csulb.edu/namemaster>. For all questions regarding BeachBoard, please contact the Technology Help Desk at (562) 985-4959, [helpdesk@csulb.edu](mailto:helpdesk@csulb.edu), or visit the THD website at <http://helpdesk.csulb.edu>.

#### CSULB Internet Account

<http://helpdesk.csulb.edu/email.html>

Students can create their own CSULB Internet accounts at <http://www.csulb.edu/namemaster> or visit the Technology Help Desk Walk-In Service Center in the North Campus Center for personal assistance and service. A CSULB Internet account is required to access services including e-mail, web design, BeachBoard, library searches, software downloads, database specialty centers and remote access. Remote connectivity and Internet access is available from a home computer by dialing (562) 985-3500.

#### Development Lab

<http://www.csulb.edu/acs/devlab>

The ACS Development Lab, located in the North Campus Center, supports the use of interactive multimedia instructional materials for both classroom presentations and individual student learning. The lab offers training, consulting, and development expertise on a wide variety of media software applications and hardware, including digital audio and video editing. High quality color printing is also available in the Development Lab.

#### Open Access Computer Labs

<http://www.csulb.edu/acs/labs>

ACS Open Access labs are located in the North Campus Center. Six computer classrooms, including one wireless laptop classroom, are located in LA5. These high-speed Windows and Macintosh labs also provide laptop connections and support for wireless computers. Each of the seven colleges' have computer labs available to support specialized hardware and software programs required for their respective departments. Contact the individual college or department for more details. For more information on ACS lab reservations, current hours of operation, tours, and the use of a wireless cart, visit the ACS Computer Labs website or call (562) 985-2303.

#### Software

[http://www.csulb.edu/aux/bookstore/Computer\\_Store/index.html](http://www.csulb.edu/aux/bookstore/Computer_Store/index.html)

Students can purchase Microsoft products at the Forty-Niner Shops Bookstore under the CSU-Microsoft Enterprise Agreement. The agreement provides licenses for both current and future versions of Microsoft Office Professional, FrontPage, Visual Studio Professional, and Windows operating systems. The Bookstore also provides educational pricing for other software products and hardware.

#### Technology Help Desk

<http://helpdesk.csulb.edu>

562-985-4959

The Technology Help Desk (THD) Call Center is available to all students, faculty, and staff members with a current CSULB Internet account for all computer or technology related issues. The THD is the single point of contact for the university computing community and has professional support representatives available to assist with CSULB Internet accounts, email, BeachBoard, anti-virus, Internet and Browser configuration, application software, and much more.

The THD Walk-In Service Center in the main lobby of the North Campus Center is available to assist in the creation of CSULB Internet accounts, password resets, BeachBoard information, and more.

For current hours of operation and service information, visit the THD website or contact the THD Call Center.

#### Research Centers and Institutes

- Ackerman Center for commercial Deployment of Transportation Technologies – Stanley Wheatley, Director
- Bureau of Governmental Research and Services – William Moore, Director
- California Institute for the Preservation of Jazz – Richard Birkemeier, Director
- Center for Advanced Technology Support for Aerospace Industry – Hamid Hefazi, Director
- Center for the Advancement of Philosophy in the Schools – Debra Whittaker, Director
- Center for Asian Pacific American Studies – John Tsuchida, Director
- Center for Behavioral Research and Services – Dennis G. Fisher, Director
- Center for Career Studies – Paul Bott, Director
- Center for Collaboration in Education – Marquita Grenot-Scheyer, Interim Director
- Center for Criminal Justice Research and Training – Larry Woessner, Director
- Center for Disability Studies and Scholarship – Gail Farmer, Director
- Center for Educational Technology and Learning – Robert Berdan, Director
- Center for Electronic Design Automation – Sandra Cynar, Director
- Center for Energy and Environmental Research and Services – Hamid Rahai, Director
- Center for European Studies – Jutta Birmele, Director
- Center for Excellence in Construction – Tesfai Goitom, Director
- Center for First Amendment Studies – Craig Smith, Director
- Center for Health Care Innovation – Hal Hunter, Director
- Center for Humanities – Shirley Mangini, Director
- Center for Information Strategies and Technologies – H. Michael Chung, Director
- Center for Innovative Foodservice Technologies – Vala Stults, Director

- Center for International Trade and Transportation – Marianne Venieris, Director
- Center for Language – Minority Education and Research – Kim-Oanh Nguyen-Lam, Director
- Center for Latino Community Health, Evaluation and Leadership Training – Britt Rios-Ellis, Director
- Center for the Study of Southeast Asia – Arnold Kamin-sky, Director
- Center for Successful Aging – Barbara White, Director
- Center for Usability in Design and Assessment – Gerard L. Hanley, Director
- Graziadio Center for Italian Studies – Carlo Chiarenza, Director
- Hauth Center for Communication Skills – Pat Kearney and Terre Allen, Directors; Scott Allen, Technical Director
- Institute for Integrated Research in Materials, Environ-ments, and Society (IIRMES) – Director to be An-nounced
- Institute for the Study of Judeo-Christian Origins – Diana Steigerwald, Director
- Kinesiotherapy Center at Community Hospital of Long Beach – Dan Jones, Director
- Movement Science Laboratories – John Garhammer, Director
- Physical Therapy Assessment Center – Ray Morris, Director
- Senior University – Ron Vogel, Director

#### Fine Arts Public Performances and Exhibitions

The College of the Arts presents more than 400 perform-ing and visual arts events each year. Most are works by faculty and students presented by the individual depart-ments; others are performances and exhibitions by world renowned artists offered by the Richard and Karen Carpen-ter Performing Arts Center or the University Art Museum. The College of the Arts at CSULB is California's largest and most comprehensive publicly-funded school for the Arts.

The University features seven different performance halls seating close to 2,500 patrons: The University Theatre with a proscenium stage and seating for 400; the flexible Studio Theatre, which seats 230 in several different configurations, including theatre-in-the-round; the Players Theatre, with 86 seats; the Gerald R. Daniel Recital Hall, which seats 280; the 250-seat Martha B. Knoebel Dance Theater; and the Carpenter Performing Arts Center which can seat up to 1162. These venues combine with the University Art Muse-um and the student galleries in the Art and Design Depart-ments to welcome approximately 200,000 audience members and exhibit visitors to CSULB each year.

The Department of Art presents a weekly schedule of exhibitions – primarily student work – in its flexible five-gallery space. Annual events include the Winter Art Sale during the first week of December, the Student Art Exhibition in the University Art Museum each May, and an alumni Exhibition each June. Every other year the Art Department faculty takes part in a multi-genre show of their work in the University Art Museum.

The Department of Dance presents two major perfor-mances each year during November and May, featuring

works by guest choreographers and CSULB's highly ac-claimed dance faculty. The dances are performed by both students and faculty. Additional smaller concerts featuring choreography by CSULB students are presented each se-mester, and the Dance Department is a frequent host for regional high school and college dance festivals.

The Department of Design presents the Senior Design Show, an exhibition of outstanding projects by Interior and Industrial Design students each May in the Design Gallery. The Design Gallery features a variety of portfolio, project and collaborative exhibits throughout each semester.

The Department of Film and Electronic Arts presents sev-eral showcases of student work each year, including a spe-cial screening of the very best student work at the Directors Guild of America theatre in Hollywood. This screening is attended by the students, faculty, department alumni and a large number of film and entertainment industry profession-als.

The Department of Music presents over 150 concerts each year featuring more than two dozen performing groups includ-ing the Symphony Orchestra, Wind Symphony, University Choir, String Quartet, the Opera Institute, Forty-Niner Chorus, World Percussion Group, Vocal Jazz Ensemble, Studio One Jazz Ensemble, the Steel Drum Orchestra, Men's and Wom-ens Choruses, New Music Ensemble, Collegium Musicum and others. During the first week of December the Choral Studies Program presents the Annual Winter Festival Concert in Long Beach's historic First Congregational Church, and each spring the Music Department presents Celebrating Music – the department's major scholarship fundraiser – and a fully-produced Opera.

The Department of Theatre Arts presents eight to ten major productions each year, with four plays offered as part of the California Repertory Company (Cal Rep) season and four to six plays produced by the University Players, featuring the department's undergraduate students. Cal Rep is comprised of graduate students pursuing the MFA degree, department faculty and area professionals. Its performances take place in the 99-seat Edison Theatre on Broadway, in downtown Long Beach. CSULB is the only CSU to feature its own off-campus performance space.

Tickets for all CSULB performance events are sold through the CSULB Arts Ticket Office located in the Carpen-ter Center at 6200 Atherton Street. Tickets for a majority of CSULB performance events can also be purchased online at [www.carpenterarts.org](http://www.carpenterarts.org). Special faculty, staff and student rates are available for most performances. Visa, Mastercard and American Express are accepted for payment. For more information, please call (562) 985-7000.

#### University Art Museum

The University Art Museum, one of the units of the College of the Arts, provides the campus and surrounding communi-ties with quality exhibitions in the visual arts on a year-round basis and presents scholarly publications, guest lectures, and educational outreach programs designed to reach a broad general public. Programs that are an integral part of the museum include the Museum Studies Certificate Pro-gram, which trains students for careers in museum work; Art to the Schools, which brings educational projects in the visual arts into the classroom; the Summer Institute for Teachers,

which helps teachers utilize the resources of museums as part of their curriculum; and Get the Picture, a workshop to acquaint youth with the history and heritage of the City of Long Beach and surrounding regions.

In 1984, the University Art Museum was accredited by the American Association of Museums (American Association of Museums, Suite 200, 1225 Eye St., NW, Washington, DC 20005, phone: 202-289-1818) and thus ranks among the top ten percent of the nation's 6,000-plus museums. It is one of only two nationally accredited art museums in a public university in Southern California. Its exhibitions and collections, including the Monumental Sculpture Collection spread throughout the 322-acre campus, have brought the University and Long Beach area recognition from both the professional art community and an international public. The Museum has an active community membership program which offers special events, museum tours, and international travel opportunities planned exclusively for museum members. All students are invited to join ArtPartners, the student and young professional group affiliated with the University Art Museum. For information about University Art Museum activities, call (562) 985-5761.

### **The Earl Burns Miller Japanese Garden**

Beauty, simplicity, harmony, and peace are all expressed in a traditional Japanese garden. California State University, Long Beach and the community have been enriched by the Earl Burns Miller Japanese Garden, which provides a setting to experience these important qualities.

Mrs. Loraine Miller Collins' appreciation of Japanese culture is reflected in the planning for the garden. The detailed design was careful work of Long Beach landscape architect Edward R. Lovell, whose visits to Japan and a number of its gardens enhanced the project. The Japanese stone sculptures were personally selected by Mrs. Collins, as were the bonsai pines and the furnishings for the teahouse.

The natural effects of the garden design are an expression of the Japanese attitude of respect and love for all nature, a valuable heritage which has been continued. Everything in a Japanese garden has significance: the moss-covered rocks, the brilliant colors of the azaleas, the cascading water, the gracefulness of the forms of the trees, the movement of the colorful koi in the lake. Placement of plants and rocks are all based on asymmetry and rhythm. Every element is part of an overall composition which provides for a delightful sense of peace and harmony.

A unique aspect of the garden is that it has been designed to encourage access by the physically disabled.

### **The Forty-Niner Shops**

The Forty-Niner Shops, a non-profit auxiliary organization, enhances and supports the educational process of CSULB by providing goods and services at reasonable and competitive prices. Forty-Niner Shops, Inc. operates the university Bookstore, Art Store, Campus Copy Center, the University Dining Plaza, Residential Dining and a variety of food and refreshment stations across the campus. Forty-Niner Shops, Inc. is a nonprofit corporation which has faculty, student, staff and administrative representation on its Board of Directors.

All profits from the sale of goods and services after operating expenses go back into improving operations, services

and supporting University activities. Information regarding the Forty-Niner Shops, Inc. may be viewed online at [www.shopthebeach.com](http://www.shopthebeach.com).

The University Bookstore stocks textbooks, general and reference books, school and office supplies, clothing and gifts, computer hardware, software and small electronics. Services offered include ATM services, bus passes, debit cards, gift cards, money orders and stamps.

The Campus Copy Center offers copying (including color), duplicating, offset printing, book and report binding, transparencies, faxing and shipping. Self service copiers are available for your copying needs at the Main Library, horn Center, Bookstore and Student Union Convenience Stores, College of Business, University Dining Plaza, the Outpost and the Career Development Center.

The University Dining Services includes the Residence Dining Halls and the University Dining Plaza which includes Gold Rush Deli, Center Court, Beach Walk Café, the Nugget and the Chartroom featuring a wide variety of foods. Catering services are available for campus functions. Satellite food operations consist of the Beach Hut (located at the main campus library), the Hot Dog Carts, vending machines, the Outpost (located near the College of Engineering), and Pyramid Concessions.

### **President's Scholars Program**

Donations are sought to endow the President's Scholars Program. The President's Scholars Program at CSULB affords qualifying valedictorians and National Merit finalists from accredited California high schools an exceptional scholarship package. The elements of this package include full payment of the State University Fee and other student fees, an annual book allowance, paid housing in campus residence halls, priority registration, personalized academic advising, parking, and e-mail and internet access. The scholarship for valedictorians is valued at approximately \$25,000 over four years and for National Merit Scholars approximately \$35,000 over four years. The scholarship is renewable annually based on maintenance of satisfactory academic progress.

### **University Relations and Development**

The Division of University Relations and Development serves as the primary contact with the University's alumni, friends, and community supporters. Its mission is to support the University's position as a flagship institution for excellence in teaching, research, and service by developing private support from individuals, corporations, and foundations. The activities of University Relations and Development include alumni relations, corporate relations, college-based development, estate planning and gifts, KKJZ radio, major gifts, media relations, public affairs, and publications. Each year, millions of dollars are given to support and further the educational mission of the University.

### **Alumni Association**

The CSULB Alumni Association is the link between the University and its more than 165,000 alumni. The Association develops social, educational and recreational programs that bring alumni back to campus.

All former students who attended at least one semester at CSULB are considered alumni and are eligible to join the

Alumni Association. Graduates and credential recipients can join by completing an enrollment card and paying a one-time \$25.00 fee; non-graduates, including employees and friends of CSULB, may join as associate members for a yearly fee.

Alumni volunteers assist on Alumni Association committees helping to plan Homecoming festivities, commencement, hospitality center, the summer Concerts in the Grove series, and other events.

Members of the Alumni Association receive a benefit package that includes library privileges at all CSU institutions (there are restrictions on computer usage), on-campus assistance at the Learning Assistance Center at no extra charge, the Career Development Center for a yearly fee, an Association credit card, a hotel/motel discount program, and access to membership in health insurance programs. Also available to members are the semi-annual Alumni Calendar of Special Events; the CSULB Review publication; University Student Union privileges; and discounts on some CSULB theater performances, athletics events and local attractions.

For more information on Alumni Association services call the Alumni Relations Office at (562) 985-5252.

### **The Annual Fund**

Alumni actively and generously support the University through the Annual Fund. Over 55,000 alumni, parents, and friends are contacted annually to support University activities. The majority of donations are undesignated and are used to meet the most critical needs of the University. Some donors prefer to designate their gifts to their departments or colleges.

### **Parents' Fund**

The Parents' Fund was established to give parents the opportunity to support the University. Parents of currently enrolled and graduated students are contacted yearly by the Annual Fund. The willingness of parents to pledge financial support to the University is a confirmation that CSULB provides an excellent educational environment for the students it serves.

### **Senior Gift Campaign**

Every graduating senior is contacted near graduation to initiate a pledge in support of the campus. Seniors are asked to donate \$100 to purchase a brick to be permanently placed in the Alumni Brick Plaza. Gifts of \$99 or less are designated to the Annual Fund to be used for essential campus needs. Seniors have proven to be generous and loyal donors to the University.

### **Major Gifts and Deferred Giving**

The Office of University Relations and Development works with individual and corporate donors in securing current and deferred gifts. Major named gifts on campus include such legacies as the Isabel Patterson Child Development Center, the Earl Burns Miller Japanese Garden, the Carpenter Performing Arts Center, and the Martha B. Knoebel Dance Theater.

Endowed scholarships honoring individuals and families have been established in all areas of the University. Many individuals have included CSULB in their wills by providing for scholarships and faculty development. The University can also accept the transfer of securities, real property, personal

libraries, private collections, works of art, and musical instruments as gifts to enhance educational quality.

Major gifts may serve restricted purposes in accordance with the donor's designation, or their use may be left to the discretion of the President of the University.

### **The Academic Corporate Council**

The Academic Corporate Council consists of 25 corporate senior executives who provide counsel to the University in the creation of corporate partnerships and serve as advocates and supporters of the University in the community. Each company donates \$5,000 annually to support the President's Scholars Program.

### **The President's Associates**

The President's Associates is composed of more than 200 alumni, community leaders, parents, and friends whose financial support significantly enhances the quality of education at CSULB.

Each member contributes unrestricted tax deductible gifts of \$1,250 (or more) per year, which are pooled with other charitable donations to fund a wide range of top-priority projects such as the President's Scholars Program.

For additional information about donor opportunities contact the Vice President for University Relations and Development, (562) 985-5197.

### **KKJZ-FM 88 Public Radio**

FM88/KKJZ (88.1 on the FM dial), a noncommercial radio station, is licensed to the California State University, Long Beach Foundation. KKJZ's primary signal coverage is the southern portion of the Los Angeles basin with secondary coverage to most of Los Angeles and Orange Counties. It has a potential audience of 2,000,000.

The station is on the air 24 hours per day with a program format of jazz, information, and public affairs. KKJZ provides professional learning opportunities for CSULB students, including a unique opportunity for students in the Film and Electronic Arts and Journalism departments to gain experience in a full-time, professional radio station with direct supervision by faculty members and industry professionals. KKJZ provides additional learning experiences for students in marketing, graphic design, industrial design, and public relations. FM 88 is a listener-supported radio station, funded by a combination of institutional, governmental, corporate, foundation, and private contributions.

### **The Community Service Learning Center (CSLC)**

The Community Service Learning Center was established in January of 1998 to institutionalize service learning at CSULB. Service Learning is a teaching method that allows students to see and experience the relationship between theory and practice; integrates and enhances both community service and academic instruction; engages students in responsible and challenging community service; and emphasizes active learning in different environments. Its mission is to develop awareness, understanding, and commitment to service learning by creating a physical and virtual resource center that facilitates interactions between faculty, graduate and undergraduate students, student services staff, and community partners.

The CSLC works actively to serve educational institutions, government and non-governmental organizations, community agencies, and the CSULB campus community by organizing educational and training tools to aid the development and implementation of service learning activities across disciplines. The center works with faculty to support student learning objectives, as well as developing successful approaches to establish service learning teaching strategies through existing networks, mentors, and resources. The Center is a member of a growing national community that appreciates service learning as an academically effective and socially beneficial pedagogy and therefore supports exploration in service learning through student theses and faculty research. The CSLC actively participates in campus, system, statewide, and national movements to promote service learning as a means for social and intellectual development.

The CSLC's motto of "shared service, shared learning, shared vision, shared mission" reflects its intent of assisting in the development of a socially aware and advanced forum for intellectual growth. CSULB faculty, staff, students, and administration have shown their support for this intent by including service learning in each of the following university documents: the CSULB Strategic Plan, Cornerstones, the CSU Strategic Plan for Service Learning, and the General Education Revitalization Plan.

### University Foundation

The California State University, Long Beach Foundation is a non-profit, tax-exempt corporation organized to administer grants and contracts for research and other activities related to the University's programs. On behalf of the University, the Foundation also accepts donations, gifts, and bequests for University-related use, and provides tax-deductible advantage to the donor.

Research and other activities involving the Foundation are related directly to academic programs. They involve substantial interaction between faculty, staff, and students.

Donations, gifts, and bequests provide a significant addition to the accomplishments of the University. Public funds provide support for most of the instructional and instructional-related activities and facilities.

Counseling and consulting services regarding charitable donations are available to potential donors. Information can be secured from the Vice President for University Relations and Development (562) 985-5197, or by addressing a letter to the California State University, Long Beach Foundation, a 501(c)(3), non-profit corporation recognized by the Internal Revenue Service.

### Honor Societies

- Phi Beta Kappa – Founded at the College of William and Mary in 1776, it is the oldest and most prestigious honor society for students of the liberal arts and sciences. A chapter was established at California State University, Long Beach in 1977. Graduating seniors are elected to membership in Phi Beta Kappa on the basis of extraordinary scholarly performance at this University, after study of their records by faculty members who are themselves members of Phi Beta Kappa. No action on the part of the student is neces-

sary to initiate consideration. Inquiries should be directed to the President of the University chapter of Phi Beta Kappa, Dr. Harold Schefski, Department of Romance, German, and Russian Languages and Literatures.

Two additional societies which may elect students from all academic areas are:

- Mortar Board – Founded in 1918 as an honor society focusing on scholarship, leadership, and service. Mortar Board was the first national honor society founded by and for college senior women, and the membership expanded to include men in 1975. The California State University, Long Beach Cap and Gown Chapter was founded in 1972, and grew out of an honor club established here by seven women in 1963. The Cap and Gown Chapter is one of over 200 Mortar Board Chapters, with a total national membership of over 250,000 dedicated, active scholars.

Mortar Board's focus is on collaboration and balancing positive ideology with practical leadership building experiences. Mortar Board holds that both community service and dedication to academic excellence must remain constant in order to provide a full college career.

Membership is extended to service-oriented CSULB seniors who maintain a minimum 3.0 cumulative GPA.

- Phi Kappa Phi – Founded in 1897 at the University of Maine, it is the oldest and largest national honor society which recognizes and encourages superior scholarship in all academic disciplines. Chapter 86 was established at California State University, Long Beach, in 1963. Admission to Phi Kappa Phi is by invitation only and requires nomination and approval by the chapter and national society. Membership for juniors, seniors, and graduate students is based on integrity of character, one year residence in the University, and outstanding scholarship. Inquiries should be directed to the President of the University chapter of Phi Kappa Phi, Dr. C. J. Walter, c/o College of Business Administration.

Other societies may limit membership to particular academic areas. Among these organizations at California State University, Long Beach are the following:

- Beta Alpha Psi (Accounting) — National scholastic fraternity to give recognition to excellence in the field of accounting.
- Beta Gamma Sigma (Business Administration) — National honorary business society to recognize superior academic performance.
- Chi Epsilon (Civil Engineering) — National honor society open to Civil Engineering majors with a 2.9 GPA.
- Chi Sigma Iota (Counseling) — International honor society open to graduate students with a GPA of 3.5, scholars, and practitioners in the counseling profession.
- Eta Kappa Nu (Electrical Engineering) — National honor society furthering area interests and promoting scholarship. GPA requirements for seniors 2.8, for juniors 3.0.
- Kappa Delta Pi (National honor society for teachers) — encourages high professional, intellectual, and personal standards. Recognizes outstanding contributions to education.

- Kappa Tau Alpha — National honor society that recognizes academic excellence and promotes scholarship in journalism and mass communication.
- Omicron Nu (Family and Consumer Sciences) — National honor society recognizing superior scholarship and promoting leadership and research in the field of Family and Consumer Sciences.
- Phi Alpha (Social Work) — National honor society to improve the goals of social work on campus. GPA requirement 3.0.
- Phi Alpha Theta (History) — National honor society in history, founded to promote the study of history through the encouragement of research, good teaching, publication, and the exchange of learning and ideas among historians.
- Phi Beta Delta (International Education) — National society, founded at CSULB, recognizes students from all disciplines with high GPAs and extensive involvement in international education or international studies.
- Phi Delta Gamma (Scholarship) — National honor society which fosters academic achievement and professional preparation.
- Phi Delta Kappa (Education) — National organization which promotes service, research, and leadership in education. Members include both students and faculty.
- Phi Epsilon Kappa (Physical Education) — National society for recognition in sports and physical education. 3.0 GPA requirement and faculty recommendation.
- Phi Mu Alpha-Sinfonia (Music) — National organization for students in music. Promotes music in America, especially contemporary American music.
- Phi Alpha Alpha (Public Administration) — National society to encourage scholarship among students of public administration.
- Phi Sigma Tau (Philosophy) — National honor society for students with a strong undergraduate concentration in philosophy.
- Pi Kappa Lambda (Music) — National honor society for scholastic achievement in music.
- Pi Lambda Theta (Education) — National organization for undergraduate and graduate students. Purpose is to maintain high standards of scholarship and preparation for teaching.
- Pi Mu Epsilon (Mathematics) — National honor society recognizing distinction in mathematics.
- Pi Sigma Alpha (Political Science) — National honor society for political scientists. Open by invitation to upper-division and graduate students with a 3.0 GPA.
- Pi Tau Sigma (Mechanical Engineering) — National honorary fraternity encouraging and recognizing outstanding scholastic achievement of students in the field.
- Psi Chi (Psychology) — National honor society recognizing distinction in Psychology. Sponsors research and other participation in psychology.
- Sigma Alpha Iota (Music) — National organization for women in music. Aims to further the development of music in America through performance, study, and participation in both campus and community projects.
- Sigma Theta Tau (Nursing) — International honor society recognizing superior scholastic achievement, leadership, and community service in nursing.
- Sigma Tau Delta (English) — National honor society conferring distinction for high achievement in the study of English language and literature.
- Sigma Xi (Science) — National honor society.
- Tau Beta Pi (Engineering) — National honor society recognizing engineering students for academic achievement and participation in activities. Members are elected from top 20 percent of the senior and top 12 percent of the junior class.

Sharon Sievers (History)

Kristine Zentgraf (Sociology)

Women's Studies seeks to equip students with the knowledge, skills, and perception necessary to their realization of the fullest range of options available to them as human beings. We want to provide and encourage contexts conducive to academic excellence and sensitive to academic freedom that will assist students in 1) the reexamining of traditional ideas about women and men in cultures characterized by patterns of sex-role stereotyping; 2) acquiring an understanding of the history and contributions of women of varying social, racial, and ethnic backgrounds; 3) developing the analytical tools required to understand and appreciate the implications of the last three decades of feminist theory and research; and 4) preparing for a variety of vocations which increasingly demand knowledge about women's experience.

Women's Studies, in its own department and through courses in other departments and disciplines, offers the University the intellectual excitement inherent in the development of a new discipline, and a humanistic perspective from which to view the accumulated knowledge of other disciplines, particularly their assumptions about women, both as actors and subjects. Women's Studies encourages the development of research and curriculum related to women in other disciplines and departments throughout the University. We also provide information and advising for students and other members of the University community on the subject of women and women's issues.

The Women's Studies Department offers a major and minor. Students may also graduate with a B.A. in Inter-disciplinary Studies that has Women's Studies as one of its disciplines. CSULB also offers a Special Major at the graduate level through which students may design a major combining Women's Studies with another discipline. Designated Women's Studies courses may be used to fulfill the Social Science (Category II) and other General Education requirements, as well as I.C. and H.D. requirements. For additional information and advice relative to these programs, or ways in which to combine Women's Studies with another Major or Concentration, please consult the Department Office or the Undergraduate Advisor.

**I**t is the goal of the Women's Studies Department to provide for students, the University, and the community an intellectual context from which it is possible to study the experience of women. By definition, this enterprise crosses disciplinary and cultural lines; it means that we are in the University not only to fill in gaps and to facilitate the development of coherent bodies of knowledge about women in established disciplines, but that we represent a core of emerging knowledge that is growing into a new discipline.

## Bachelor of Arts in Women's Studies (code W/STBA01) (120 units)

### Requirements

A total of 45 units will be required for the Women's Studies major. Courses cannot be counted for more than one category within the major. Requirements include 6 lower division units to include W/ST 101 and W/ST 102; 39 upper division units distributed among the following categories:

### Core Requirements

*Theory and Methodology* - total 12 units.

Six units to include: W/ST 300 and 415;

One of the following for three units: W/ST 340 or 392;

One of the following for three units: W/ST 314, 365I or 382.

*U.S. and Global Ethnic/Gender Diversity* - total 6 units:

W/ST 318I and 401I

*Women's History* - total 3 units: W/ST 485A (HIST) or 485B (HIST)

*Senior Capstone Seminar* - total 3 units: W/ST 495

### Electives (15 units)

To include 9 units from one of the following clusters and a total of 6 units from one or both of the other clusters.

### Clusters

#### Feminist Aesthetics and Cultural Studies

This cluster focuses on the study of art and culture both as sites of women's theoretical and political work and as sources of the construction and representation of women's identities.

The courses in this cluster examine forms of women's own self-expression, such as literature, philosophy, theory, and cinema, as well as placed in culture - such as language, art, popular culture, religion or urban space - through which societal ideas about women have historically been created and maintained.

W/ST 314, 315, 316 (FEA 317), 319 (AIS, ASAM, B/ST, CHLS), 320 (CHLS 415), 340, 356, 365I, 381 (ASAM, HIST), 382 (ENGL), 384 (HIST 338), 402 (POSC 401), 406 (A/ST, HIST), 406A (A/ST, HIST), 406B (A/ST, HIST), 410, 420, 425, 432, 441 (ENGL), 442 (ENGL), 455 (PHIL), 475 (ANTH 475, LING 470), W/ST 490 (depending on topic and with prior approval of the Women's Studies advisor), 494; ENGL 384.

#### Social Change and Social Policy

The courses in this cluster address the role of women within the legal, economic and political structures of our society. Whether they are social policy makers or the ones affected by the distribution of power, women have always played a central role in all of the institutions and practices that make up our society. This cluster examines women's historical and contemporary place within religion; law; science; labor; economics; environmentalism; health care; cities; families; structures of race, class, and sexuality; and political activism.

W/ST 307I, 308, 309I (NSCI), 314, 315, 319 (AIS, ASAM, B/ST, CHLS), 325 (SOC), 338I, 340, 350, 356, 381 (ASAM, HIST), 384 (HIST 338), 402 (POSC 401), 406 (A/ST, HIST), 406A (A/ST, HIST), 406B (A/ST, HIST), 410, 420, 424, 425, 430, 432, 440, 485A (HIST), 485B (HIST); W/ST 490 (depending on topic and with prior approval of the Women's Studies advisor), 494; ANTH 351; COMM 412; HDEV 320; PSY 110, 200, 354; SOC 200, 250, 346, 354, 355; SW 491.

#### U.S. and Global Ethnic/Gender Diversity

This cluster focuses on the experience of women internationally and among diverse communities and cultures in the United States. Recognizing that women's experiences are defined as much by their positioning within global political, social, and economic systems as by their individual racial, ethnic, religious, class, or sexual identity, this cluster offers a comparative look at both the individual and the global aspects of women's lives. The courses in this cluster study the diversity of histories, experiences, and cultures within the United States as well as their historical and political connections to women around the globe.

W/ST 307I, 315, 319 (AIS, ASAM, B/ST, CHLS), 320 (CHLS 415), 340, 356, 381 (ASAM, HIST), 384 (HIST 338), 394 (HIST), 406 (A/ST, HIST), 406A (A/ST, HIST), 406B (A/ST, HIST), 424, 449, W/ST 490 (depending on topic and with prior approval of the Women's Studies advisor); I/ST 451, SOC 346.

Note: Courses cross listed with any of the above courses are accepted as substitutes.

### FOUR YEAR PLAN TO COMPLETE THE B.A. DEGREE in WOMEN'S STUDIES (W/STBA01)

120 Units Required Department of Women's Studies

Semester 1		Semester 2	
University 100	1	Oral Comm or Composition	3
Composition or Oral Comm	3	GE Math or other GE Class	3-4
GE Math or other GE Class	3-4	Critical Thinking or other GE Class	3
GE Class	3	GE Class	3
GE Class	3	GE Class	3
Elective Class	1		
TOTAL UNITS	14-15	TOTAL UNITS	15-16

Semester 3		Semester 4	
Critical Thinking or other GE Class	3	GE Class	3
W/ST 101 or 102	3	GE Class	3-4
GE Class	3-4	Elective Class	3
GE Class	3	Elective Class	3
Elective Class	3	Elective Class	3
TOTAL UNITS	15-16	TOTAL UNITS	15-16

Semester 5		Semester 6	
W/ST 300	3	W/ST 401I (GE Capstone D2)	3
W/ST 314, 365I (GE Capstone C3 or D2), or 382	3	W/ST 340 or 392	3
W/ST 318I (GE Capstone C2a or D2)	3	Major Elective Cluster	3
Elective Class	3	Major Elective Cluster	3
Elective Class	3	Elective Class	3
TOTAL UNITS	15	TOTAL UNITS	15

Semester 7		Semester 8	
GE Capstone* (if needed) or Elective	3	W/ST 495	3
W/ST 485A or Major Elective Cluster	3	Major Elective Cluster or W/ST 485B	3
W/ST 415	3	Major Elective Cluster (if needed)	3
Major Elective Cluster	3	Elective Class	3
Elective Class	3	Elective Class	3
TOTAL UNITS	15	TOTAL UNITS	15

\*GE Interdisciplinary Capstones may be able to count in the major and GE

Students must take either W/ST 465 A or B

### FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

#### I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

#### Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

- 1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.
- 2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.
- 3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).
- 4) You must complete all requirements for admission to impacted majors within the first 60 units.

#### I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

#### I didn't complete the exact list of courses shown. Can I still graduate on time?

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

#### If I follow the plan, will I have all requirements for graduation completed?

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

### Minor in Women's Studies (code W/STUM01)

#### Requirements

A minimum of 21 units are required for the Women's Studies minor, to be selected with approval of a Women's Studies advisor. Courses cannot be counted for more than one category within the minor and must be selected from among the following categories:

Lower Division - 3 units: W/ST 101 or 102

Upper Division - 18 units:

Take each of the following for three units each: W/ST 300, 318I, 401I

Take one of the following for three units: W/ST 340 or 392

Take one of the following for three units: W/ST 485A or 485B

Take three additional units from any cluster.

### Courses (W/ST)

#### Lower Division

##### 101. Women and Their Bodies (3)

Prerequisite or Corequisite: One GE Foundation course. An introduction to the rapidly expanding body of literature and ideas related to the biology and sexuality of women.

##### 102. Women In Contemporary Society (3)

Prerequisite or Corequisite: One GE Foundation course. An introduction to some of the basic questions raised by the contemporary feminist movement relating to the social, political, and economic status of women.

## Upper Division

General Education Category A must be completed prior to taking any upper division course except upper division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

### 300. Principles of Feminism (3)

Prerequisites: ENGL 100 and upper division status or consent of instructor. An introduction to principles of feminist history, thought, theory, methodology, and current issues that emphasizes but is not limited to the United States. Letter grade only (A-F).

### 307I. U.S. Women and the Economy: Money, Sex, and Power (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. This course is an interdisciplinary examination of assumptions about the economic roles of women; analysis of the sexual division of labor, domestic work, and its ideology; women as wage workers; women and development, U.S. women and the economy. Special focus will be on the origin, migration, settlement, and economic patterns of, problems facing, and attitudes about women from major ethnic and racial groups in the United States.

### 308. Women and the Law (3)

History of women's experience under the law; constitutional law; 19th amendment and ERA; equal protection issues; discrimination in employment; marriage and family law.

### 309I. Women in Science (3)

Prerequisites: Completion of the G.E. Foundation, upper division standing, six units of General Education science courses and consent of instructor. The purpose of this course is to increase awareness of the accomplishments of women in natural science, engineering, and mathematics in their socio-historical context and the obstacles that have precluded easy access to careers for women in these areas. Specific topics encompass the historical roles of women in science, contributions of celebrated women scientists, and women scientists who made significant contributions but were ignored or devalued by their scientific peers, and the nature of the research problems they pursued including methodology and outcomes. Other key issues include stereotypes and images of women in science; cultural, societal, and institutional obstacles to the entry and success of women in science; and ways of overcoming these obstacles. Disciplines included in this course are science, history, and sociology. Letter grade only (A-F). Same course as NSCI 309I. (Lec 3 hrs.)

### 312. Women in the Ancient and Medieval West (3)

Prerequisite: ENGL 100. An examination of the roles and experiences of women in Western Europe from prehistory to the sixteenth century. Students will be introduced to some of the basic problems and methodologies of women's history, and will be encouraged to question the interaction of "women's history" with "mainstream history." Themes to be covered include (but are not limited to): historical construction of gender roles, the relation of symbols of women with women's reality, the interaction of private and public life, women's access to power/opportunity, and the possibility of a "women's culture" during various historical periods. Same course as HIST 319.

### 314. Women Narrate Their Lives (3)

Study of the lives of a cross-section of Women in the U.S. from colonial era to the present based on biographical and autobiographical sources.

### 315. Black Women in America (3)

Prerequisites: ENGL 100 and upper division status or consent of instructor. An examination of American black women from the eighteenth century to the present. Taught from an interdisciplinary perspective and presented in their own voices. Letter grade only (A-F).

### 316. Women in the History of U.S. Film (3)

History of women as they are represented, presented as images, or constructed in the development of U.S. film. Theory and analysis of film from a feminist perspective. Same course as FEA 317.

### 318I. U.S. Women of Color (3)

Prerequisites: ENGL 100 and upper division standing or consent of instructor. Examines the condition and position, the experiences and accomplishments of women of color in the United States. Explores the social construction of race and gender as they intertwine within the institutional structures of the US, implications of the interactions between and among women of color, both within and across distinct ethnic/cultural groups and the effect of "whiteness" upon communities of color. Covers historical and contemporary issues using theoretical essays, personal narratives, historical documents, literature, and media images.

### 319. The Ethnic Experience in the U.S. (3)

An examination of the dynamics of the development of our multi-cultural society, emphasizing study of the four distinct ethnic strands of American society (Asian American, Black American, Mexican American, and American Indian) and their role in the maintenance of cultural diversity in the United States. (Lecture/Discussion.) Same course as AIS 319, ASAM 319, B/ST 319, CHLS 319.

### 320. Latina Women in the United States (3)

Prerequisite: Junior standing or consent of instructor. This course will examine the cultural, political, economic, and sexual forces that mold Latina women. The first section of the course will focus on cultural stereotypes and responses to these stereotypes by Latina women scholars. The second section of the course will focus on Latina class differences and the politics of race. This will provide an overview of the contemporary public policy issues affecting Latinas and the broader Latino community. The contradictions that are identified in this course segment will be juxtaposed against selected African American perspectives to identify areas of symmetry as well as areas of divergence in the domain of political strategizing for political reform and Latina empowerment. The last section of the course will address issues of gender identity and sexuality that challenge, undermine, and strengthen the position of Latina women in the greater society. Same Course as CHLS 415.

### 325. Sociology of Women (3)

Socio-cultural position of women; a brief history of women's role and status; societal attitudes toward women's place in society. Same course as SOC 325.

### 338I. Women in Sport (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Survey of women's historical and contemporary involvement with sport. The social, cultural and developmental implications of sports participation for women. Same course as KPE 338I.

### 340. Community Service Learning in Women's Issues (3)

Prerequisites: Upper division standing and two prior women's studies courses, or consent of instructor. This course will allow students the opportunity to practice the theories and knowledge they have gained as a result of studying women's issues. Students will work in the community with agencies addressing women's issues.

### 350. Feminist Issues in Mental Health (3)

Introduces issues related to the mental health of women, from historical, anthropological, sociological and psychological perspectives. Emphasis is on the relationship of power, sexism, sex role socialization and gender stereotypes to mental health.

### 356. Women and Sexual Orientation: Lesbianism (3)

Examination of lesbianism from psychological and historical perspectives; includes discussions of lesbianism in literature, representations of lesbianism in various media; the place of lesbianism in the politics of the women's movement and in gay liberation, and the development of "queer theory".

### 3651. Images of Women in Popular Culture (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Analyzes the construction of images of women in popular culture. Discussion of theories of culture, gender and ideology. Analysis of film, advertising, magazines and popular fiction.

### 381. Asian American Women (3)

This course will explore the largely unwritten history of Asian American women. Using an inter-disciplinary perspective, we will look at not only secondary sources but also autobiographical, literary, and journalistic writings; oral histories, diaries, anthropological studies, psychological/clinical reports, and film to reconstruct the lives of Asian American women. We will examine how having been burdened by the triple oppression of gender, race, and class, Asian American women have been actively pursuing equality and dignity. Same course as ASAM 381 and HIST 381.

### 382. Women and Literature (3)

Prerequisites: Completion of Foundation requirements. Survey of literature by women authors writing in English, across a range of historical periods; examination of works in various genres that present the complexity of women's lives and the challenges of female authorship; exploration of feminist critical approaches. Same course as ENGL 382.

### 384. Modern European Women's History (3)

European Women's History is an upper division course which investigates how European history has impacted on women and how women and women's issues have shaped historical events. Issues that the course will address include: the nature, methodology and approaches of women's history; the significance of the Enlightenment and French Revolution for women and the role women played in these events; the work women of all classes did, and how industrialization affected the position of women; women's role in and their relationship to 19th and 20th century wars and revolutions; women's health and sexuality; the role of the women in the family; women's socialization and education; the "Women Question" and attempts to remedy women's position; recent feminist theory; and a speculative look at the future of European women. Same course as HIST 338.

### 392. Feminist Pedagogy: Peer Facilitation (3)

Prerequisite: Previous or concurrent WST class and consent of instructor. Peer facilitation of small group discussion, teaching assistance and other assignments directed by a supervising faculty member, supplemented by seminar, reading and journal writing. May be repeated to a maximum of 6 units. Letter grade only (A-F).

### 394. Middle Eastern Women (3)

Prerequisites: Upper division status. In this course we will explore a wide range of roles played by Middle Eastern women throughout history and seek to understand the multi-faceted thoughts and activities of women. By studying many different kinds of sources, both secondary and primary, including memoirs, biographies, traveler accounts, poetry, and film, we will look at women from different geographical and class backgrounds and discuss the most important issues related to women and gender in Middle Eastern history. This course will proceed in chronological order but will also have a strong thematic approach. While the focus of this course is on Muslim women, who are the majority in the region, the experience of minority women will also be addressed. Same as HIST 394.

### 4011. Women in Global Perspective (3)

Prerequisites: completion of Foundation courses, one or more Explorations course, and upper-division standing. Comparison of how different social and cultural systems have affected gender ideologies and gender practices and how women's social, cultural, economic, and political roles have changed over time. The emphasis is on pre-industrial and contemporary Third World societies where the majority of the world's female population lives. Draws on recent anthropological, sociological, historical, political science and women's studies research to understand factors related to gender inequality and women's empowerment.

### 402. Women in Political Theory (3)

Prerequisite: Students must have completed one course in either political science or women's studies. Differential treatment of women and men in western political theories, including femininity, power, rationality and the role of the women in the family. Classic and contemporary texts. Same course as POSC 401.

### 406. Asian Women (3)

Historical experience of women in Asia, with emphasis on Chinese and Japanese societies; links with the experience of Asian-American women.

### 406A. Asian Women: East and Northeast Asia (3)

Prerequisite: Upper division status. In this course, we will explore the diverse experiences of women in China, Japan, and Korea. By studying different kinds of sources, including memoirs, biographies, literature, film, as well as scholarly works by or about North and Northeast Asian women, we will examine how gender was historically constructed and discuss about women's various forms of resistance in this area. This course will proceed both chronologically and thematically. Major issues to be addressed include the discrepancy between gender norms and reality, women's agency in social change, women and the state, and the complex relationship between feminism and nationalism. Asian American women's experiences will also be discussed at relevant places throughout the course. At the end of the course, students are encouraged to critically reflect on some theoretical issues that have been discussed in the scholarship on women's history in general and North and Northeast Asian women's history in particular. Same courses as A/ST 406A and HIST 406A.

### 406B Asian Women: South and Southeast Asia (3)

An introductory course on the experiences of women in two of the most ethnically, culturally, and politically diverse regions of the world: South and Southeast Asia. This course explores the diversity of women's experience in these two regions during the colonial and post-colonial periods. Using different kinds of sources, including memoirs, biography, literature, and film, as well as monographs or about South and Southeast Asian women, we will examine how gender is historically constructed in the two regions, and how women have exercised agency throughout history. This course will proceed both chronologically and thematically. Major issues to be discussed include women's agency in social change; gender as a contentious site of political discourse; the impact of colonization on women, and women's various forms of resistance. Letter grade only (A-F). Same course as A/ST 406B and HIST406B.

### 410. Women, Religion, and Spirituality (3)

Prerequisites: ENGL 100 and upper division status, or consent of instructor. A study of the socio-religious construction of the "nature of woman" from prehistory to present day. Analysis of women in traditional religions and new religious movements, in women's religions around the world, and the rise of fundamentalisms.

### 415. Feminist Theory (3)

Prerequisites: W/ST 300 or consent of instructor. Examines contemporary feminist theoretical perspectives. Discussion of primary sources from a number of positions, including liberal, socialist, poststructural, "third world", postmodernist and postcolonial feminisms. Issues include gender and sexuality, race, ethnicity, class and nationality. Focus on discussion of current debates which cross disciplinary boundaries. Active student participation required. Letter grade only (A-F).

### 420. Mothers and Daughters (3)

Analyzes how mothering is "reproduced" in daughters, and why/how patriarchal culture regulates the mother/daughter bond. Readings are primarily literary texts, with theoretical materials drawn from an interdisciplinary framework. Special emphasis is given to the shaping of the mother/daughter relationship in a range of historical, racial, class and sexual contexts.

#### 424. Women and Environmental Justice (3)

Prerequisites: Completion of Foundation curriculum and upper division status. This class examines environmental justice by exploring the complex relationship between women and nature and how both of these have been treated through 1) socio-religious ideologies, 2) the socio-economic underpinnings and environmental impact of international development, 3) the consequences to and reactions of women to environmental pollution around the world, and 4) the practical meaning of environmental consumption and waste in industrialized nations. The global approach highlights leading Third World ecofeminists, who are changing the terms of the discourse on the environment and offer a critique of the gendered division of labor in both the production and reproduction processes that differs dramatically from other perspectives on the environment.

#### 425. Women and Power (3)

Prerequisites: A previous W/ST class (101, 102, or 300) and upper division status or consent of instructor. Examination of the ways power has been defined, obtained, shaped and maintained, and the effect this has historically had on women. Applies theory to contemporary issues affecting women and explores strategies for empowerment.

#### 430. Women and Violence (3)

Women as victims and survivors of physical, psychological, and philosophical violence. Problems of rape, woman battering, incest, pornography and sexual harassment; examination of legal, religious and philosophical issues and alternatives for change.

#### 432. Women in the City (3)

Examines the way women respond to the urban environment, both literally and imaginatively. Special attention paid to the sexual division of space, particular needs of immigrant and third world women, and utopian cities of sisterhood. Readings feature literary texts, augmented by an interdisciplinary range of theoretical and empirical studies of cities.

#### 440. Issues in Women's Health (3)

Prerequisites: Upper division status; ENGL 100; and W/ST 101, BIOL 205, BIOL 207, or BIOL 211B. The purpose of this course is to help women attain and/or maintain an optimum state of health and to become discerning consumers of the health care industry. Fundamentals of normal physiology and natural defense mechanisms will be covered in order to promote understanding of the cause, prevention and treatment of various conditions or disorders, including reproductive organ dysfunction, menstrual disorders, sexually-transmitted disease, infertility, complications of pregnancy, osteoporosis, cancer, and cardiovascular disease. The importance of lifestyle habits (diet, exercise, stress, etc.) will be emphasized throughout. Other topics will include gender differences in health and mortality, the history and current status of research on women's health issues, and the current political climate regarding women's reproductive rights.

#### 441. Women Writers of the Harlem Renaissance (3)

Prerequisites: ENGL 100 and upper division status or consent of instructor. Explores the literature and lives of women authors of the American Harlem Renaissance Period of the 1920s. Examines the critical reception, relative obscurity, and current re-discovery of these writers. Utilizes theoretical essays, biographical narratives, historical documents, and media images. Same course as ENGL 441.

#### 442. Sexing Chicana Literature (3)

Prerequisites: ENGL 100 and upper division status or consent of instructor. Studies how Chicana authors explore intersecting issues of race, class, and gender. Focuses on the use of sexuality in Chicana writing, particularly with regard to cultural and literary stereotypes vs. experience and aesthetic practice. Themes will include desire, identity, empowerment through "traditional" roles, violence and the body, and other issues framed by historic and symbolic representations in Chicana literature. Same as ENGL 442.

#### 447. Women, Feminism, and Christian Theology (3)

Prerequisite: Completion of GE Foundation. A theoretical examination of (4) four Christian-based feminist liberation theological traditions. Examines the history of feminist theology, the role of racism, sexism, and classism in North American theology, and the importance of related theological developments among African-American, Latina-Chicana, and Asian American women. Letter grade only (A-F).

#### 449. Feminism and International Human Rights (3)

Prerequisite: Upper division status or consent of instructor. Reviews feminist debates on racism and colonialism, with specific reference to contemporary international human rights. Topics to be discussed include: colonialism and knowledge; liberalism and modernity; feminism and international relations; international women's rights movements; discourses of 'traditional practices'; hegemonic feminism and power. We will consider current international women's rights issues and critiques of the ways in which veiling, genital surgeries, gender-based persecution, violence against women in war, sati, dowry murders, migration and trafficking, AIDS and women, and other related topics have been taken up by western feminists.

#### 455. Philosophical Perspectives on Sex and Love (3)

Prerequisite: 6 units of philosophy or consent of instructor. Philosophical perspectives on sex and love explores philosophical issues concerning sex, gender and love through readings and discussion of classical and contemporary philosophical sources. Topics such as sexual perversion, romantic love and gender discrimination are examined. Same course as PHIL 455.

#### 475. Language and Gender in Cross-Cultural Perspective (3)

Analysis of men's and women's communication in its social and cultural context; role of gender in interpreting conversational interactions in the U.S. and elsewhere; acquisition of gender differences; cultural dimensions or perceptions and stereotypes and their effect on communication. Same course as ANTH 475 and LING 470. Letter grade only (A-F).

#### 485A. History of Women in the U.S. Early Period (3)

Provides a survey of the roles and activities of American women from colonial period to 1850; variety of female life experiences; slavery, immigration; relationships to the family, economy and political movements. (Lecture) Same course as HIST 485A.

#### 485B. History of Women in the U.S. Since 1850 (3)

Changing roles and status of women in economic and social change; suffrage movement; women in union movement and WW II; the decade of the sixties and the "second wave" of feminism. (Lecture) Same course as HIST 485B.

#### 490. Special Topics (1-3)

Topics of current interest in women's studies, selected for intensive study. May be repeated to a maximum of 6 units with different topics. Same course as AIS 490.

#### 490K. Women and War: Voices of Resistance

Same topic as SPAN 493A, HIST 490F.

#### 491. Special Topics (1-3)

#### 492. Special Topics (1-3)

Topics of current interest in women's studies, selected for intensive study. May be repeated to a maximum of 6 units with different topics.

#### 495. Senior Capstone Seminar (3)

Prerequisites: Open to W/ST majors and minors, or consent of instructor. Capstone course intended to integrate the multidisciplinary body of knowledge accumulated in the major or minor.

#### 498. Field Work (1-3)

Consent of instructor. Practical experience in campus or community organizations concerned with women's issues. May be repeated to a maximum of 6 units.

#### 499./599. Directed Studies (1-3)

Consent of instructor. Independent work in areas of special interest to student and instructor. May be repeated to a maximum of 6 units.

## Graduate Level

### 599./499. Directed Studies (1-3)

Prerequisite: Consent of instructor. Independent work in areas of special interest to student and instructor. May be repeated to a maximum of 6 units.

# GENERAL REGULATIONS AND PROCEDURES

## Changes in Rules and Policies

Although every effort has been made to assure the accuracy of the information in this catalog, students and others who use this catalog should note that laws, rules, and policies change from time to time and that these changes may alter the information contained in this publication. Changes may come in the form of statutes enacted by the Legislature, rules and policies adopted by the Board of Trustees of the California State University, by the Chancellor or designee of the California State University, or by the President or CSULB designee. It is not possible in a publication of this size to include all of the rules, policies and other information that pertain to students, the institution, and the California State University. More current or complete information may be obtained from the appropriate department, college, or administrative office.

Nothing in this catalog will be construed as, operate as, or have the effect of an abridgment or a limitation of any rights, powers, or privileges of the Board of Trustees of the California State University, the Chancellor of the California State University, or the President of the campus. The Trustees, the Chancellor, and the President are authorized by law to adopt, amend, or repeal rules and policies which apply to students. This catalog does not constitute a contract or the terms and conditions of a contract between the student and CSULB or the California State University. The relationship of the student to the institution is one governed by statute, rules, and policy adopted by the Legislature, the Trustees, the Chancellor, the President, and their duly authorized designees. Information concerning grievance procedures for students who feel aggrieved in their relationships with the university, its policies, practices, and procedures, or its faculty and staff, may be obtained from Leslie Nix-Baker, Director of Employee Relations, Brotman Hall (BH) 303, (562) 985-1742, or from Steve Katz, Director of Judicial Affairs, BH 377, (562) 985-5270.

The Federal Military Selective Service Act (the "Act") requires most males residing in the United States to present themselves for registration with the Selective Service System within thirty days of their eighteenth birthday. Most males between the ages of 18 and 25 must be registered. Males born after December 31, 1959, may be required to submit a statement of compliance with the Act and regulations in order to receive any grant, loan, or work assistance under specified provisions of existing federal law. In California, students subject to the Act who fail to register are also ineligible to receive any need-based student grants funded by the state or a public postsecondary institution.

Selective Service registration forms are available at any U.S. Post Office, and many high schools have a staff member or teacher appointed as a Selective Service Registrar. Applicants for financial aid can also request that information provided on the Free Application for Federal Student Aid (FAFSA) be used to register them with the Selective Service. Information on the Selective Service System is available and the registration process may be initiated online at <http://www.sss.gov>.

Information concerning the academic programs of CSULB may be obtained from the Academic Vice President, BH 303, at (562) 985-4128 and may include:

1. the current degree programs and other educational and training programs;
2. the instructional, laboratory, and other physical plant facilities which relate to the academic program;
3. the faculty and other instructional personnel;
4. data regarding student retention at CSULB and, if available, the number and percentage of students completing the program in which the student is enrolled or has expressed interest; and
5. the names of associations, agencies, or governmental bodies which accredit, approve, or license the institution and its programs, and the procedures under which any current or prospective student may obtain or review upon request a copy of the documents describing the institution's accreditation, approval, or licensing.

## Election of Regulations for Degree Requirements

Undergraduate students acquire "catalog rights" with respect to the requirements for a degree program by maintaining "attendance" continuously. This means that, if continuous attendance is maintained and the degree objective is not changed, students may choose to graduate under the requirements for the degree in effect 1) at the time they began the study in a California community college or another campus of The California State University, 2) at the time they entered CSULB, or 3) at the time of graduation from CSULB. Substitutions for discontinued courses may be authorized or required by the Dean of the cognizant College. Students who change their major, including changing from "undeclared" status to a defined degree objective or from one option to another option under the same degree, are governed by the degree major requirements in effect at the time of the change or declaration of major. Students who change majors are advised that some courses counted for General Education or double counted for General Education and a major may become unacceptable for General Education in connection with a new major. These students should check with the Academic Advising Center.

The term "attendance" means, literally, attendance in a course for at least one semester (or quarter) unit credit in at least one semester (or two quarters) in a calendar year, culminating in a record of enrollment on the student's official transcript. For the purpose of establishing catalog rights, the course must be at the baccalaureate or graduate level in a California community college, a California State University, or a University of California campus. Enrollment resulting in a withdrawal (the grading symbols W or WU) does not count as attendance in a course, and so does not preserve "catalog rights."

Once "catalog rights" are established, absence related to an approved medical, military or academic leave or for attendance at another accredited institution of higher education will not be considered an interruption of attendance, provid-

ed that the absence does not exceed two years. Please see Educational Leave later in this section.

For all students, disqualification or a failure to remain in continuous attendance will mean that the student must meet the regulations current at the time of resuming the degree program or those applicable at the time of graduation. In addition, for graduate students, a failure to maintain continuous attendance means the automatic revocation of "candidacy" for the degree (advancement to candidacy) and of "catalog rights."

### Academic Calendar

California State University, Long Beach operates on a semester system, which is supplemented by a state-supported summer term and a fee-supported winter session. Normally, fall semester classes begin in late August or early September. The last day of instruction usually comes midway in December; this allows for a week of final examinations prior to the winter recess, which begins about December 20. The spring semester usually begins in the last week of January and ends in mid-May, in time for a week of final examinations and the week of commencement exercises just before or after Memorial Day. The summer term, consisting of three overlapping six-week sessions, runs throughout June and July and into late August.

### Special Sessions Programs

There are many Special Sessions programs and courses that are administered by University College and Extension Services. Courses and programs are offered throughout the year in various formats, including Open University and Special Sessions, on- and off-campus, and through distance learning technologies. Some instructional offerings are graduate and undergraduate accelerated degree programs, while numerous individual credit courses are offered for professional development purposes on-campus and at corporate and industry sites. The three-week Winter Session is a concentrated three-week session beginning in early January. It is entirely fee-supported.

### Student Load

#### I. Maximum Student Load during the Fall and Spring Semesters.

An undergraduate student carrying 12 or more units during the fall or spring semester is classified as a full-time student. A graduate or post-baccalaureate student carrying 9 or more units during the fall or spring semester is also classified as a full-time student. An undergraduate student carrying fewer than 12 units or a graduate or post-baccalaureate student carrying fewer than 9 units is classified as a part-time student. These definitions derive from federal financial aid regulations and have no bearing on the definitions used by the State of California to determine a student's liability for the State University Fee.

The maximum number of units a student may take during the fall or spring semester is normally 18 for undergraduate, graduate, or post-baccalaureate students.

Exceptions to this limit will be made only on the basis of proven academic ability, the feasibility of a student's proposed schedule, and the evidence that it is necessary to enroll for an overload in order to complete the student's cho-

sen academic program in a timely manner. Permission must be obtained from the office of the Division of Academic Affairs prior to registration.

#### II. Maximum Student Load during the Summer Term.

The maximum number of units a student may take during the summer term is one unit per week, plus one additional unit. Thus, the maximum number of units is normally 7 for one 6-week session, 10 for two overlapping sessions, and 14 for an entire summer.

Exceptions to this limit will be made only on the basis of proven academic ability, the feasibility of a student's proposed schedule, and the evidence that the extra units will enable the student to graduate in that or the immediately subsequent term. Permission must be obtained from the office of the Division of Academic Affairs prior to registration.

#### III. Maximum Student Load during the Winter Session.

The maximum number of units a student may take during the winter session is one unit per week, plus one additional unit. Thus, the maximum number of units is normally 4.

Exceptions to this limit will be made only on the basis of proven academic ability, the feasibility of a student's proposed schedule, and the evidence that the extra units will enable the student to graduate in that or the immediately subsequent term. Permission must be obtained prior to registration from the Associate Dean of the college of the student's major department.

#### Student Levels

Freshman .....	0.1 to 29.9 units
Sophomore .....	30.0 to 59.9 units
Junior .....	60.0 to 89.9 units
Senior .....	90.0 or more units
Postbaccalaureate .....	holding a baccalaureate or equivalent degree

The faculty recognizes that it is frequently necessary for students to hold part-time positions while attending the University. It advises that good judgment be demonstrated by students enrolling under these conditions. Students whose outside employment could be expected to interfere with the normal unit load should reduce their academic program accordingly. It is suggested that students plan their schedules based on spending three hours time per week for each unit taken. This may be considered sufficient time to enable a student to do satisfactory work. Students who desire to achieve "A" or "B" grades may wish to spend proportionately more time in their studies. A student's employment and college time combined should not exceed 60 hours weekly. Students who make no allowances for their employment and outside obligations in planning their college programs will bear full responsibility for the resulting level of scholarship.

Veterans should inquire at the Veteran's Affairs Office (BH 226) about unit load requirements for state and federal benefits.

For more information about graduate student load, see regulations governing Master's Degrees in this *Catalog*.

Undergraduate international students on non-immigrant visas must carry and complete a minimum of 12 units per semester unless a reduced load is authorized by the student's advisor and the Center for International Education. Reduced unit loads may be granted for substantial academic

reason or compelling personal reasons beyond the control of the student. Failure to secure such authorization results in violation of student status under Immigration and Naturalization Service (INS) and State Department regulations, warranting discontinuance of enrollment.

It is recommended that students with disabilities attempt to modify their schedules, as necessary, to lessen the impact of a disability. However, students with disabilities may request to enroll in a unit load which is commensurate with their ability. Reduced unit load is defined as less than 12 units for undergraduates and less than 9 units for graduates. Such requests must be made to Disabled Student Services prior to each semester affected. If approved, the student will be entitled to all benefits, services, and activities governed by the University which are accorded to full-time students. Eligibility for benefits, services, and activities outside the University's control will be governed by each separate external agency based upon actual unit load.

### Class Attendance

Students are expected to attend classes regularly. Classroom participation is often one of the necessary and important means of learning and in many classes is essential to the educational objectives of the course.

Faculty members must include their guidelines for assigning grades in the syllabus (as required by Policy Statement 02-12, Grades and Grading Procedures). The syllabus must make clear whether any portion of the grade is based on attendance and/or participation. It is the students' responsibility to make themselves aware of each faculty member's guidelines by carefully reading the syllabus.

Faculty members may drop students who fail to attend class during the first week of the semester. However, students should not presume that they will be dropped by the faculty member. Students who have registered for a class, but never attended, should verify whether or not they are officially enrolled. It is the student's responsibility to withdraw officially from the class.

It is essential that all students have access to the basic information about the courses in which they are enrolled. Therefore, in every course, the instructor(s) must provide the students with a syllabus. The syllabus must either be provided in paper copy or be made available in electronic form. If the syllabus is only distributed electronically, the instructor must provide detailed instructions on how to access the syllabus. Unless circumstances dictate otherwise, the syllabus must be provided on or before the time of the second class meeting. In the case of distance-learning classes that do not meet in person in the same physical setting, the enrolled students shall be provided with the electronic address, access instructions, and required information specified in the previous paragraph via either mail or e-mail.

Students may have a valid reason to miss a class. When any of the following reasons directly conflict with class meeting times, students are responsible for informing faculty members of the reason for the absence and for arranging to make up missed assignments, tests, quizzes, and class work insofar as this is possible. Excused absences include, but are not limited to:

1. Illness or injury to the student
2. Death, injury, or serious illness of an immediate family member or the like
3. Religious reasons (California Education Code section 89320)
4. Jury duty or government obligation
5. University sanctioned or approved activities (examples include: artistic performances, forensics presentations, participation in research conferences, intercollegiate athletic activities, student government, required class field trips, etc.)

Faculty members are not obligated to consider other absences as excused. Faculty members may require students to provide documentation for excused absences.

There are numerous classes offered on campus where attendance is crucial since student participation is essential. Absence from these courses may impact upon the work and participation of other students. Students who anticipate extended or multiple absences during a particular semester should consult with their advisor and the faculty member before enrolling in any class to determine whether it will be possible to complete the requirements for the course. Students who realize after enrollment that they will have extended or multiple absences should consult with the faculty member to see whether it will be possible to complete the course requirements.

The earliest possible notification is preferred. In some circumstances, it may be possible for the student to notify the faculty member of anticipated absences (e.g. for religious reasons or for scheduled athletic events) during the first week of enrollment. Advance notification (minimally one week in advance) is required for the following absences:

1. Jury duty and other government obligation
2. Religious reasons
3. University sanctioned or approved activities

The California Education Code (section 89320) requires "each state university, in administering any test or examination, to permit any student who is eligible to undergo the test or examination to do so, without penalty, at a time when that activity would not violate the student's religious creed. This requirement shall not apply in the event that administering the test or examination at an alternate time would impose an undue hardship which could not reasonably have been avoided. In any court proceeding in which the existence of an undue hardship which could not reasonably have been avoided is an issue, the burden of proof shall be upon the institution."

It is the responsibility of the student to make advance notification, contact the faculty member to make arrangements to make up any academic work that may be missed, submit assignments on time, and to make arrangements regarding activities, tests, quizzes, or exams that may be scheduled during the absences.

If a student does not notify the faculty member one week in advance of the date of absences for these reasons (jury duty, governmental service, religious observances, or University sanctioned activities), the instructor is not required to adjust the class schedule or to allow for make up activities, tests, or exams. However, students shall not be penalized for excused absences when circumstances make it impossible

to provide advance notice (e.g. student is engaged in a University sanctioned event such as a performance, tournament, or playoff which cannot be anticipated).

Students who expect to be absent from the University for any valid reason, and who have found it difficult to inform their instructors, should notify the academic department office. The department office shall notify the student's instructors of the nature and duration of the absence. It remains the responsibility of the student to arrange with instructors to make up any academic work missed.

In circumstances where an actual assignment, some specific class work, an activity, a quiz, or an exam cannot reasonably be made up, it is the instructor's option to assign alternative work.

### Faculty Office Hours

The purpose of office hours is to provide opportunities for student-faculty interaction outside the classroom. Each instructional faculty member will hold one office hour for every class taught, up to a maximum of four hours. Faculty may account for up to one hour of this expectation through alternative forms of access such as availability by appointment or through e-mail. The faculty member's office hours, phone number, and email contact will be posted by the door and announced in the syllabus.

### Visitors to Classes

Only students registered for the class either as regular students or as auditors, the instructor, and invited guests of the instructor may attend classes at CSULB. Persons wishing to become guests of the instructor should seek the instructor's permission prior to the scheduled beginning of the class session.

### Course Listings

Courses are listed in this catalog by department, the departments and programs being arranged alphabetically. Each listing gives the course number, title, semester units in parentheses, semester or session offered, and the course description, which includes prerequisites and other restrictions.

An asterisk (\*) preceding the course number indicates that the course is acceptable as elective credit for the master's degree.

### Course Numbers

Any course numbers less than 100 do not count toward any degree program. However, for purposes of qualifying for financial aid, the unit value assigned to those courses will count for the semester in which those courses were taken. Lower-division courses are numbered from 100 through 299. These courses are designed primarily for Freshmen and Sophomores. They provide breadth of understanding and the foundation for the more specialized work in upper-division, advanced courses. Approved General Education courses are listed in the *Schedule of Classes* and are offered at both the lower-division and upper-division levels; no upper-division General Education course may be used in a graduate degree program. Lower-division courses are open to Junior, Senior, and Graduate students; however, lower-division courses may not be applied to any graduate degree program.

Upper-division courses are numbered from 300 through 499. These courses are open to students who have completed the prerequisites to the course, if any, stated in the course description and other departmental regulations given in this catalog. A "Prerequisite" is a completed course or other measure of academic preparation which provides a foundation for the more advanced course.

Freshmen and Sophomores wishing to enroll in upper-division courses which indicate no prerequisites should consult with the course instructor or other knowledgeable advisor prior to enrollment. These courses are presented to meet the expectations of academically advanced students. Freshmen and Sophomores should not attempt courses with numbers preceded by an asterisk.

Certain 400-level courses are double-numbered with 500-level courses. In these courses the expectations of graduate students, who must enroll in the 500-level course, are greater than the expectations of undergraduates. Grading scales are different for the 500-level course and additional work is required of graduate students. A student may not earn credit for both the 400- and 500-level versions of a course.

Graduate-level courses are numbered from 500 to 799. Courses numbered 500-599 may be opened to senior students upon favorable petition. Courses numbered from 600 to 799 are open only to graduate students.

Included with some of the course numbers is a supplementary letter, or suffix, such as L for "laboratory" or A and B for a year-long sequence. "A-B" means that the courses must be taken in alphabetical sequence; "A,B" designates related courses which need not be taken in sequence. The student is given degree credit for each part of the sequence satisfactorily completed, whether or not the remaining part of the sequence is completed. The "semester or session offered" information is presented as a long-range planning guide. Funding, student demand, and instructor availability may require that a course be offered in a different semester or session or be postponed until a later academic year. F indicates Fall Semester, S indicates Spring Semester, W indicates Winter Session, and SS indicates Summer Session. The *Schedule of Classes* appropriate to the semester or session in question should be consulted for actual course scheduling information. Courses offered only in alternate years are so designated. Many of the courses offered during the fall and spring semesters are also offered during the summer session.

The University reserves the right to make changes in course offerings without notice.

Courses offered through Extended Education conferring Continuing Education Unit credit (CEU) carry no degree credit.

## Course Subject Abbreviations

The following course subject abbreviations (course prefixes) are employed in the *CSULB Catalog*, the *Schedule of Classes*, student study lists, academic planning guides, evaluation materials, and transcripts.

<b>Abbreviation</b>	<b>Definition</b>
ACCT	Accountancy
AH	Art History
AIS	American Indian Studies
ALI	American Language Institute
ALP	American Language Program
AMST	American Studies
ANTH	Anthropology
ART	Art
ARAB	Arabic
ASAM	Asian American Studies
A/ST	Asian Studies
ASTR	Astronomy
BIOL	Biology
B/ST	Black Studies
CBA	College of Business Administration
C D	Communicative Disorders
C E	Civil Engineering
CECS	Computer Engineering and Computer Science
CEM	Construction Engineering Management
CH E	Chemical Engineering
CHEM	Chemistry
CHIN	Chinese
CHLS	Chicano and Latino Studies
C/LA	College of Liberal Arts
CLSC	Classics
COMM	Communication Studies
COTA	College of the Arts
COUN	Counseling
CRIM	Criminal Justice
C/ST	Computer Studies
CWL	Comparative World Literature
DANC	Dance
DESN	Design
ECON	Economics
EDAD	Educational Administration
EDCI	Curriculum and Instruction
EDEC	Early Childhood Education
EDEL	Elementary Education
EDMS	Education Middle School
ED P	Educational Psychology
EDRG	Reading Education
EDSE	Secondary Education
EDSS	Single-Subject Education
E E	Electrical Engineering
ENGL	English
ENGR	Engineering
EOP	Educational Opportunity Program
ES P	Environmental Science and Policy
E/ST	Environmental Studies
E T	Engineering Technology
ETEC	Educational Technology
FCS	Family and Consumer Sciences
FEA	Film and Electronic Arts
FIN	Finance, Real Estate and Law
FREN	French
GBA	Graduate Business Administration
GEOG	Geography

GEOL	Geology
GERM	German
GERN	Gerontology
GK	Greek
GS	Graduate Studies
HCA	Health Care Administration
HEBW	Hebrew
HDEV	Human Development
HHS	Health and Human Services

S W	Social Work
THEA	Theatre Arts
UNIV	University
UHP	University Honors Program
U/ST	Urban Studies
WPE	Preparation for Writing Proficiency Exam
W/ST	Women's Studies

## Academic Credit

### Course Credit Units

Each course has a specific credit unit value which is indicated in parentheses following the course title. In typical lecture and discussion classes, the number of course credit units is equal to the number of class hours per week. Thus, in a typical fifteen-week semester a one-unit class meets for a total of fifteen hours during the fifteen weeks while a three unit class will meet forty-five hours during the same period. A typical lecture class may be scheduled to meet once, twice, or three times a week. Any course numbers below 100 do not count toward any degree program. However, for purposes of qualifying for financial aid, the unit value assigned to those courses will count for the semester in which those courses were taken.

In other types of instruction, principally laboratories and activities of other kinds, the number of class hours per week is greater than the number of course credit units, depending on the mode of instruction. Courses with variant or mixed modes of instruction are noted in the course description and the *Schedule of Classes*. Summer Session classes require the same total amount of class time, compressed into a six week session.

The instructional "hour" is fifty minutes long, allowing for transit between classes and rest breaks within multi-hour classes. In most classes the student is expected to allow two hours per week of study time beyond class time for each unit of credit. Thus, a three-unit lecture-discussion course normally demands a commitment of nine hours per week averaged over the semester.

### Credit for Activity Courses

Activity courses provide practice in such areas as music, dance, physical education and Sports, Athletics, and Recreation. Except as required by a student's major, students may apply to the degree no more than eight units each of activity course credit in music, dance, or physical education and no more than four units of activity course credit in SAR, up to a total of no more than 20 units in all areas.

### Independent Study Courses

Each student enrolled in a supervised independent study, research, or reading course (excluding thesis courses) must have an agreement on file in the department office where the course is offered. The agreement is to be made between the student and the instructor at the beginning of the course and must include the following: a description of the work to be accomplished, specific information on the tasks required, the nature of the final report, and the basis for determining the final grade. The agreement must be signed by both the instructor and the student.

### Credit for Cross-Listed Courses

Certain interdisciplinary courses are listed in this catalog under more than one department. Normally, students will receive credit for such a cross-listed course in the department under which they register for it. They may, however, have Enrollment Services indicate that this course may be credited to a different department which also lists it, provided that they make this request no later than the end of the semester preceding anticipated graduation.

### Repetition of Courses for Satisfactory Grade (Repeat and Delete)

Undergraduate students and postbaccalaureate students who are pursuing a second (or subsequent) baccalaureate degree may repeat, for the purpose of excluding the grade from grade-point determination, an undergraduate course taken at California State University, Long Beach in which a grade of D, F, U, or WU was received. Postbaccalaureate students pursuing credential programs, certificate programs, or master's degrees are not eligible for the Repeat and Delete policy.

Eligible students may repeat a course once for the purpose of deleting a grade, without prior departmental approval, if the course was taken both times at CSULB. The deletion is automatically calculated at the end of the semester in which the course was repeated. Although the first grade will remain on the permanent record, the grade and grade points of the repeated course on the second attempt will be those used in determining the grade-point average and units earned, provided the second grade was C or better.

Students are not prohibited from continuing to repeat a course in which the grade is unsatisfactory (D, F, U, WU), but all grades earned subsequent to the first repeat will remain in the grade-point determination, and the units earned in the course will be applied to the degree only once. While there is no time limit for repeating a course, the student's permanent record may not be altered after a degree has been granted.

If students wish to exclude from grade-point determination a grade of D, F, U, or WU in a course taken at another institution, they may do so by enrolling in an equivalent course at CSULB. A "Notice of Intent to Repeat a Transfer Course" form must be filed with Enrollment Services. The department in which the course is taught must indicate on the form which particular course may be repeated to delete the previous grade. An official transcript from the institution where the original course was taken must accompany the form. Only one repeat is allowed for the purpose of deleting a grade, and the repeated grade and grade points will be used in the overall grade-point determination, provided the second grade was C or better.

A grade received in a course taken at another institution may not be used to delete a grade in an equivalent course taken at CSULB.

### Repeating Courses

In most cases a student may not take or receive unit credit for a course for which the student has already received a CR or a grade of C or better. This principle applies whether the course was initially taken at CSULB, at a high school, or at another college or university. The only exceptions to this rule are: (1) when a course has been specifically designated as repeatable for credit up to a specific maximum number of units (there may also be other limitations, such as a requirement that each repetition be with a different instructor and/or on a different topic); (2) activity courses; (3) upper-division courses in an undergraduate student's major completed more than ten years prior to the student's graduation; and (4) courses on a graduate student's program of study taken more than seven years prior to graduation.

Except as noted in the section immediately below, students may not repeat or receive unit credit for courses in which they have already received a CR or a grade of "C" or better.

## Transfer Credit

Students who were in good standing at another accredited institution may, within maximums, transfer credit for baccalaureate or graduate degree course work. Course equivalency for major requirements must be determined; students are cautioned that the University is under no obligation to accept transferred courses for subject credit in addition to unit credit for admission. Normally, however, there is a probability that courses in the accepted core of a discipline will be exchangeable between universities. Policy regarding transfer of courses from California community colleges differs in some respects.

### Transfer of Undergraduate Credit From Accredited Community Colleges

A maximum of 70 semester units earned in a community college may be applied toward the baccalaureate degree, with the following limitations and stipulations:

1. No upper-division credit may be allowed for courses taken in a community college;
2. No more than six semester units in education courses taken in a community college may be applied toward the baccalaureate degree or the professional preparation requirements of a teacher education basic credential program;
3. Individual program regulations for specific transfer limitations should be consulted.
4. Students who transfer general education certification are still required to complete at least 9 units of upper-division courses at the campus conferring the degree.
5. Any course taken at community colleges can substitute for general education breadth requirements and lower-division requirements, if the course is approved as equivalent to the appropriate CSULB course. Students with more than 70 transferrable units from community colleges will get subject matter credit for all such courses, but no more than 70 units will count toward graduation.
6. All transferrable units taken at community colleges will count toward computation of the overall grade-point average. All transferrable units in the major taken at community colleges will count toward computation of the overall major grade-point average.

### Extension Credit

A maximum of 24 semester units of Extension Credit may be accepted toward a baccalaureate degree. At the option of the appropriate college and department, up to six units of Extension Credit may be applied to a graduate degree. This limit may be increased to nine units in some instances. Extension credit may not be used to fulfill the minimum 30-unit residence requirement.

### Open University/Special Session

The Open University program allows enrollment in regular university credit courses from those people who are not currently admitted to and/or registered at CSULB. Enrollment is on a "space available" basis, subject to the approval of the instructor and the department chair concerned.

No more than 24 units of special session course credit earned through Open University or UCES Special Sessions course offerings at CSULB in non-matriculated status may count toward any undergraduate degree requirement. Students are considered in non-matriculated status in terms prior to the

term of official admission in the degree granting program and during terms of disqualification from the degree granting program. There is no limit on UCES Special Sessions course credit, including Winter session, applicable to the degree if taken while you are in matriculated status in the degree program.

At the option of the appropriate college and department, up to six units of Open University Special Sessions credit may be applied to a graduate degree. This limit may be increased to nine units in some instances. All units that are applied to a degree are classified as residence credit.

### International Program Credit

Course credits earned in universities abroad may be accepted for degree credit at CSULB subject to evaluation by the cognizant department or program upon admission of the student to the University. CSULB students who desire, subsequently, to take courses at a foreign university for degree credit must have each such course approved in advance in writing by the Chair of the appropriate department or program.

The Center for International Education administers many international education and exchange programs. Students fully accepted into one of these programs may, in most cases, continue CSULB residency while studying in the approved foreign institution. Some courses taken through these programs do not have to be approved in advance.

### Acceleration of University Studies

The University provides several means by which students may accelerate their studies; these are discussed below. Each of the following options may be subject to restrictions and regulations within individual academic programs. Therefore, students interested in any of these options should consult with the Chair of the concerned department.

### Advanced Placement

California State University, Long Beach grants credit toward its undergraduate degrees for successful completion of examinations of the Advanced Placement Program of the College Board. Students who present scores of three or better will be granted up to six semester units (nine quarter units) of college credit for each AP course.

Applicants to CSULB who wish to obtain lower-division course credit for completed International Baccalaureate Higher Level examinations must submit an official IB transcript. Course equivalency for Higher Level examinations completed with a grade of 5 or higher is determined by the faculty of the appropriate department subsequent to careful review of course syllabi.

For questions or information, please call Enrollment Services at (562) 985-5471 or consult your department.

### International Baccalaureate

Students with scores of 5 or higher in International Baccalaureate Higher Level courses will be awarded baccalaureate credit of 4 to 10 units, depending on course equivalency. Departments will be responsible for determining which, if any, courses within their own programs are equivalent to International Baccalaureate courses, as well as the number of units to be awarded. Departments shall be provided with information about the program and with syllabi for IB courses, to be used in making this determination.

## Unit Credit by Examination

California State University, Long Beach grants unit credit to those students who pass examinations that have been approved for credit system-wide. These are: the CSU English Equivalency Examination; the College Level Entrance Program (CLEP) examinations in College Algebra - Trigonometry, Calculus/Elementary Functions, French, General Chemistry, German, and Spanish; the College Entrance Examination Board (C.E.E.B.) Advanced Placement examinations; and the American Chemical Society Cooperative Examination.

Students may also challenge some courses by taking examinations developed at the campus. Credit will be awarded to those who pass them successfully. Credits earned in this manner will be recorded as test credit on the student's transcript and will be counted toward the total number of units required for the degree although they will not be included in calculation of the grade-point average. Credit by examination may not be used to fulfill the minimum residence requirement.

Students must be enrolled in the University and in the course for which they wish to receive credit by examination. Enrollment is by permission of the department and is only available during the academic semester in which the course is being offered. Students must secure a signed and dated approval form from the department prior to enrolling in the course. Students must provide the instructor with a copy of the signed and dated approval form at the first class meeting. The instructor will ensure that the examination is conducted, scored, and the results reported prior to the end of the third week of classes. Students who pass the examination will receive test credit. Students who do not pass the examination have two options:

1. continue in the course as a regular student; or
2. withdraw from the course.

The University sets no maximum on the number of credits a student may receive by examination. However, not all courses are available for credit by examination. Information about courses for which credit by examination is not permitted is available in the Department Office, in the College Office, and the Office of Enrollment Services. A student may not receive credit by examination:

1. for an activity course;
2. for any course which is a prerequisite to one for which credit has already been received (see department for possibility of course waiver);
3. to remove a grade of "F," "U," "NC," or "WU";
4. to satisfy the courses required for a master's degree;
5. for any course in which the content or methodology is such that an examination does not appropriately measure competence.

Application forms to apply for credit by examination are available in the Office of Enrollment Services. Procedures and criteria for requesting unit credit by examination in a given course are available in the appropriate department office.

## Substitution of Courses

Students who believe that a course they have taken (or intend to take) may be appropriate to their program and that this course could substitute for a specified course requirement may request that a substitution of courses be indicated on the departmental program planning guide, filed prior to graduation.

Course substitutions are normally limited to cases where the required course cannot be offered or where the student has taken a similar but not identical course elsewhere.

## Waiver of Course Requirement

In addition, students who believe that previous training has sufficiently prepared them in a certain area may request a waiver of a specific course requirement (subject credit only). The student will be required to justify the request in a way acceptable to the department. A waiver of specific course requirements does not reduce the total number of credits required for the major or the degree.

## Graduate Credit Earned as a Senior

Graduate credit usually may not be earned in advance of the baccalaureate degree. However, based upon faculty recommendation, academic performance (in general a grade-point average of 3.0 (B) in the major), and promise of academic achievement in post-graduate study, seniors may be granted approval to earn a maximum of 12 units of course work in the 400 and 500 levels designated as acceptable for graduate credit and taken at this university towards their prospective graduate programs. Approval is subject to the following conditions: (a) the course work must be in addition to that required for the undergraduate major; and (b) the undergraduate student must have a "Petition to Earn Graduate Credit in the Senior Year" approved by the departmental graduate advisor and the department chair prior to enrollment.

In those areas in which graduate credit is for a credential only, the petition must be submitted to the appropriate department in the College of Education. Petitions submitted after completion of course(s) will not be approved.

## Senior Enrollment in Graduate Courses for Undergraduate Credit

Under special conditions, seniors who have a 3.0 grade-point average or better in their major and who have adequate undergraduate preparation in the subject may enroll in up to 12 units in the 500-599 series to fulfill the elective requirements of the bachelor's degree. The course work may not be applied to the units of 500-600 level course work required by the department or college for the master's degree. The student must have a "Petition to Earn Credit Toward a Bachelor's Degree for a 500-Level Course Taken in the Senior Year" approved by the instructor and department chair before registration in the class(es) is permitted.

## Grades and Grading Procedures

### Definitions

The following definitions apply to grades assigned in all undergraduate and graduate courses.

"A" – Performance of the student has been at the highest level, showing sustained excellence in meeting all course requirements and exhibiting an unusual degree of intellectual initiative.

"B" – Performance of the student has been at a high level, showing consistent and effective achievement in meeting course requirements.

"C" – Performance of the student has been at an adequate level, meeting the basic requirements of the course.

"D" – Performance of the student has been less than adequate, meeting only the minimum course requirements.

"F" – Performance of the student has been such that minimal course requirements have not been met.

In addition to the standard grades, the University permits students to select evaluation on a "Credit" or "No Credit" basis. These grades are defined as follows:

"CR/NC" – A "CR" is equivalent to an "A", "B", or "C", and "NC" is equivalent to a "D", "F", or "WU". In two circumstances a grade of "CR" reflects work at the level of "B" or better, and a grade of "NC" reflects work at the level of "C", "D", "F", or "WU". Those two circumstances are 1) in certain professional preparation courses, providing that the students are notified of such a policy both in class materials and in the catalog course description; and 2) for graduate students in all courses at the 300, 400, 500, and 600 levels.

There are special regulations and procedures governing the "CR/NC" grading system described later in this policy statement.

The following definitions apply to administrative grading symbols assigned in all undergraduate and graduate courses.

"AU" – Audit. Enrollment as an auditor is subject to permission of the instructor; provided that enrollment in a course as an auditor shall be permitted only after students otherwise eligible to enroll on a credit basis have had an opportunity to do so. Auditors are subject to the same fee structure as credit students and regular class attendance is expected. It is the responsibility of the student to request from the instructor what is meant by regular class attendance. The symbol "AU" is posted to the student's permanent academic record unless the student fails to attend a sufficient number of class meetings. In these cases, the instructor will request that the student be administratively withdrawn from the course. Once enrolled as an auditor, a student may not change to credit status unless such a change is requested prior to the last day to add classes. A student who is enrolled for credit may not change to audit after the last day to add classes.

"I" – Incomplete. The symbol "I" indicates that a portion of required course work (normally not more than one third) has not been completed and evaluated in the prescribed time period due to unforeseen, but fully justified, reasons and that there is still a possibility of earning credit. It is the responsibility of the student to bring pertinent information to the attention of the instructor and to determine from the instructor the remaining course requirements which must be satisfied to remove the Incomplete. A final grade is assigned when that work has been completed and evaluated.

An "I" must normally be made up within one calendar year immediately following the end of the term during which it was assigned. This limitation prevails whether or not the student maintains continuous enrollment. Failure to complete the assigned work will result in an "I" being converted to an "F," except as noted in item 3), below.

An extension of time may be granted for contingencies such as military service or documented, serious health or personal problems.

The conditions for removal of the incomplete shall be reduced to writing by the instructor on a "Requirements for Assigning an Incomplete Grade" form. This form shall include a statement of:

1. all work completed in the course, the grades assigned for that work, and the percentages of the final grade accounted for by each item;

2. the work not completed and the percentage that each uncompleted assignment will count toward the final grade; and

3. the final grade the instructor will assign if the course requirements are not completed within one calendar year, or a shorter period as specified on the form, immediately following the term in which the "I" was assigned, without respect to continuous enrollment of the student during this period.

A copy of the agreement is to be given to the student, a copy is to be retained in the department office, and a copy is to be filed with the Office of Enrollment Services at the time final grades are submitted. Normally, the student should sign the "Incomplete form." If the student is eligible for an Incomplete, a faculty member may assign an "I" even when the student cannot be present to sign the form. In such a case, the instructor will forward to the student a copy of the form via the department office. When the work agreed upon has been completed and evaluated, a final grade will be assigned by an instructor. If an incomplete is assigned without an incomplete contract attached, or with a contract which is not filled in acceptably, the symbol of "WU" will be assigned to the student. The "Requirements for Assigning an Incomplete Grade" form will be considered unacceptable if:

- A. more than one third of the work remains to be completed, and no justification has been provided;
- B. the work required to complete the course has not been specified;
- C. the faculty member failed to sign the form; or
- D. the percentage fields have not been filled in.

Notice of the missing form, or a copy of the unacceptable form will be sent to the department chair with the request that the chair work with the faculty member to provide the information necessary to assign the grade of incomplete.

If an instructor fails to report a grade for an individual student, the Registrar will assume that an "I" could not be assigned and so will enter a symbol "WU," discussed below.

"RP" – Report in Progress. The "RP" symbol is used in connection with courses requiring multiple enrollment, i.e., that extend beyond one academic term. It indicates that work is in progress but that assignment of a final grade must await completion of additional work. Re-enrollment is permitted prior to assignment of a final grade provided the cumulative units attempted do not exceed the total number applicable to the student's educational objective. Work is to be completed within one calendar year immediately following the end of the term during which it was assigned except for graduate degree theses. If the "RP" symbol is not replaced by a terminal grade within the specified time period or prior to the student's declared graduation date, it will be changed to a "W". An "RP" symbol cannot be replaced by an "I" (Incomplete) symbol; an "I" is not a terminal grade.

"W" – The symbol "W" indicates that the student was permitted to drop a course after the second week of instruction with the approval of the instructor and appropriate campus official. It carries no connotation of quality of student performance and is not used in calculating grade point average.

Students are held responsible for completion of every course in which they register OR FOR WITHDRAWING DURING THE FIRST TWO WEEKS OF CLASSES FROM COURSES WHICH THEY DO NOT INTEND TO COMPLETE. Application for withdrawal from the University or from a class must be officially filed by the student at the Office of Enrollment Services whether the student has ever attended the class or not; otherwise, the student will receive a grade of "WU" (unauthorized withdrawal) in the course. Application for withdrawal is made at the Office of Enrollment Services.

"WU" – Unauthorized Withdrawal. The symbol "WU" indicates that an enrolled student did not complete course requirements but did not withdraw from the course. It is used when, in the opinion of the instructor, completed assignments or course activities or both were insufficient to make normal evaluation of academic performance possible (letter grades "A"-"F" or an Incomplete). For purposes of grade point average this symbol is equivalent to an "F." A student who receives a "WU" cannot complete additional work and have the "WU" changed to a letter grade. In courses which are graded Credit/No Credit or in cases where the student has elected Credit/No Credit evaluation, use of the symbol "WU" is inappropriate and "NC" will be used instead. Students who receive "WU"s in their first semester of enrollment at CSULB will have those "WU"s automatically changed to "W"s. In such cases the student will be notified that this policy applies for that first semester at CSULB only.

Regulations governing the refund of student fees in the California State University system are prescribed by the CSU Board of Trustees; see *California Code of Regulations*, Title 5, Education, Section 41802.

1. Withdrawal during the first two weeks of instruction:

Students may withdraw during this period and the course will not appear on their permanent records.

2. Withdrawal after the second week of instruction and prior to the final three weeks of instruction:

Withdrawal during this period is permissible only for serious and compelling reasons. Approval signatures of the instructor and department chairperson are required. The request and approvals shall state the reasons for the withdrawal. Students should be aware that the definition of "serious and compelling reasons" as applied by faculty and administrators may become narrower as the semester progresses. Copies of such approvals are kept on file in the Office of Enrollment Services.

3. Withdrawal during the final three weeks of instruction:

Withdrawal during the final three weeks of instruction are not permitted except in cases such as accident or serious illness where the circumstances causing the withdrawal are clearly beyond the student's control and the assignment of an Incomplete is not practical. Ordinarily, withdrawal in this category will involve total withdrawal from the campus except that a Credit/No Credit grade or an Incomplete may be assigned for courses in which sufficient work has been completed to permit an evaluation to be made. Request for permission to withdraw under these circumstances must be made in writing on forms available in the Office of Enrollment Services. The requests and approvals shall state the reasons for the withdrawal. These requests

must be approved by the instructor, department chairperson and dean of the school. Copies of such approvals are kept on file in the Office of Enrollment Services.

4. Medical Withdrawal:

*Complete Medical Withdrawal:*

The University may allow a student to withdraw without academic penalty from all classes if the following criteria are met:

- A. A completed Medical Withdrawal Form, including any required documentation, is submitted to Enrollment Services before the end of the semester, and
- B. The student presents evidence to demonstrate that a severe medical or debilitating psychological condition prevented the student from attending and/or doing the required work of the courses to the extent that it was impossible to complete the courses.

The Provost (or designee) will review the evidence presented and, in consultation with appropriate medical or psychological professionals as needed, determine whether the request for a medical withdrawal should be granted.

*Repeat Complete Medical Withdrawal:*

If the student has been granted a complete medical withdrawal in the immediately preceding term, then additional medical withdrawal requests must consider the question of whether or not the student can complete appropriate educational objectives, and must be reviewed on a case-by-case basis. After a repeat medical withdrawal is granted, the student may be required to obtain a clearance from an appropriate medical or psychological professional that states the student is well enough to return to classes with the full expectation that the student will be able to complete the semester and intended educational objectives.

*Partial Medical Withdrawal:*

Students seeking withdrawal from part of their enrollment for any reason, including medical or psychological reasons, are subject to the normal withdrawal policy and process.

5. Instructor Withdrawal:

Faculty members may drop students who fail to attend class during the first week of the semester. However, students should not presume that they will be dropped by the faculty member. Students who have registered for a class, but never attended, should verify whether or not they are officially enrolled. It is the student's responsibility to withdraw officially from the class.

An instructor may also withdraw a student who has enrolled in a course requiring "permission of the instructor" or completion of prerequisites if the student has not properly secured this permission or satisfactorily completed the prerequisites before enrolling.

### Cancellation of Registration or Withdrawal From Institution

Students who find it necessary to cancel their registration or to withdraw from all classes after enrolling for any academic term are required to follow the university's official withdrawal procedures. Failure to follow formal university procedures may result in an obligation to pay fees as well as the assignment of failing grades in all courses and the need to apply for readmission before being permitted to enroll in another academic term. Information on canceling registration and withdrawal procedures is available from the Office of Enrollment Services, Brotman Hall 123, 562-985-5471.

Students who receive financial aid funds must consult with the Financial Aid Office prior to withdrawing from the university regarding any required return or repayment of grant or loan assistance received for that academic term or payment period. If a recipient of student financial aid funds withdraws from the institution during an academic term or a payment period, the amount of grant or loan assistance received may be subject to return and/or repayment provisions.

### Course Grading Option Policy

The faculty determine in advance which courses may be taken for letter grade only (A-F), "CR/NC" only, or either. When a course is designated for "CR/NC" grading only or for letter grade only, mention of this fact shall be incorporated in the catalog course description. Any undergraduate course may be designated for or closed to the option of "CR/NC" grading whether or not the course be a requirement for an undergraduate degree major, minor, certificate, credential, or concentration.

No course in which a grade of "CR" has been assigned may be used to fulfill the requirements for a master's degree, except that the grade of "CR" may be permitted for master's theses or projects (to a maximum of six units) when the individual department has specifically designated "CR/NC" grading for the thesis/project course in the department, and for fieldwork, practicum, and/or internship courses (also to a maximum of six units). The option of "CR/NC" grading for graduate students in undergraduate courses is subject to specific regulations of the individual departments regarding their graduate students and regarding the authorization for this option intrinsic to the approved course. Otherwise, no limitation exists as to the number of courses taken by graduate students under this policy.

An undergraduate student may elect "CR/NC" grading in no more than a total of 24 units, of which no more than 12 may be upper division units. No more than eight units per semester may be taken for "CR/NC" grades. Exemptions from these limitations are: (1) courses graded "CR/NC" taken at another institution, (2) course credit earned by examination, and (3) courses in which "CR/NC" grading is the only form of grading.

The decision to elect the "CR/NC" grading option for a course must be made by the last day to add classes. To elect "CR/NC" grading, the student must obtain the signature of the student's major advisor and a stamp from the department/program in which the course is offered on the appropriate form. The student must then file the signed form with the Office of Enrollment Services. The decision to register for a course on a "CR/NC" basis remains in effect unless a change is requested prior to or on the last day to add classes.

The only exception to this rule is for students who declare new majors after the final day to add classes. If the newly declared major requires letter grading for the course in question and the student has elected "CR/NC" grading, then the student may request that letter grading be used. Such a change must be requested no later than the last day of instruction. The grading option may not be changed after the end of the semester.

### Final Examinations

It is the policy in most courses to have several examinations during the semester and a final examination. Final examinations are required in all courses for all students, except in certain activity courses or when the Dean of the College authorizes an exception. The schedule of final examinations is given in the

*Schedule of Classes*. Permission to take a final examination at a time other than that regularly scheduled must be secured from the instructor at least one week in advance of any change. The instructor may not change the scheduled time for the final examination without authorization from the Dean of the College.

### Final Grades

Grades will be available via "MyCSULB" approximately three weeks after the end of each semester or session.

### Student Grade Record

A record is kept and grade or administrative symbol notations are indicated for all enrollments beyond the second week of instruction. The Registrar will eradicate originally awarded grades from official transcripts but note that there was a grade adjustment made when the following grade changes are made:

1. Grade change due to a clerical error on the part of the instructor of record;
2. Grade change due to a favorable grade appeal;

The Registrar will not eradicate original grades from student transcripts when the following situations occur:

1. Resolution (make-up) of an incomplete;
2. Repetition of a course.

The Registrar will indicate some grade or administrative symbol for any student enrolled in a course beyond the second week.

### Assignment and Change of Grades

#### General

1. The faculty member of record in a course section (i.e., the faculty member officially assigned to teach that section) has the exclusive responsibility and authority to assign grades to all students in that section, subject only to the following exceptions:
  - A. Should the faculty member of record be unable or unwilling to complete this task because of death, disability, separation of employment, or prolonged absence from campus during a regular academic term, the department chair or program director, following notification of the faculty member of record where appropriate and with the approval of the college dean, may appoint another faculty member with the most appropriate available disciplinary qualifications to complete the assignment of grades; or
  - B. In the event of a successful grade appeal (see section on Change of Grade, below.)
2. University policy requires that final grades shall be based on at least three, and preferably four or more, demonstrations of competence by the student.
3. In no case shall the grade on the final examination count for more than one-third of the course grade.
4. At the start of the course, instructors shall provide to their students in writing the grading policies and practices to be employed in the class and the rules that will apply to withdrawals.
5. Instructors shall keep a record of students' scores on each of the demonstrations of competence on which the final grade is based.

**CALIFORNIA STATE UNIVERSITY, LONG BEACH GRADUATION RATES**

For CSULB the following statistics apply:

**TABLE 1**

One-Year Continuation Rates for Fall 2001, 2002 and 2003 Regularly Admitted First-Time Freshmen  
Who Attempted At Least 12 Units in Their First Term of Enrollment

Fall Term	Enrolled	Re-Enrolled One Year Later	Continuation Rate
2001	4,195	3,333	79.5%
2002	2,807	2,437	86.8%
2003	3,516	2,985	84.9%

**TABLE 2**

Six-Year Graduation and Persistence Rates for Fall 1998 Regularly Admitted First-Time Freshmen  
Who Attempted At Least 12 Units in Their First Term of Enrollment

Fall Term	Graduation by Summer 2004	Persistence/Enrollment in Fall 2004	Projected Graduation Rate*
1998	48.5%	18.7%	67.1%

**TABLE 3**

Eight-Year Graduation Rates and Persistence Rates for Fall 1996 Regularly Admitted First-Time Freshmen  
Who Attempted At Least 12 Units in Their First Term of Enrollment

Fall Term	Graduation by Summer 2004	Persistence/Enrollment in Fall 2004	Projected Graduation Rate*
1996	52.5%	10.3%	62.8%

\*Assuming that all students enrolled in Fall 1998 (6-year) and Fall 1996 (8-year) will eventually graduate.

6. Instructors are expected to provide students with an opportunity for demonstration of competence, relevant to the determination of their final grade in the course, as early as is reasonable and no later than the mid-point of the term.
  7. Students have a right to be informed promptly of their scores and to review each of their demonstrations of competence with their instructors.
  8. If materials submitted for a demonstration of competence are not returned, these materials will be retained for one semester by the instructor. Should the instructor be absent during that term, the materials shall be retained in the department office. In the absence of the original instructor, a qualified instructor may be appointed by the chair to review the demonstration of competence with the student.
  9. Grades reported to the Office of Enrollment Services are considered to be official and final grades.
- B. Original grades are replaced only when (1) the change is due to an error, or (2) the grade change is the result of a grade appeal. Original grades are not replaced when the change of grade is the result of (1) the resolution of an Incomplete or (2) the repetition of a course. Grades or administrative grading symbols must be recorded for all enrollments beyond the census date.
  - C. Except for changes of grades resulting from grade appeals, all changes of grades must be filed within one year from the date of the filing of the first grade, without respect to continuous enrollment of the student. Only as the result of a grade appeal will a grade be changed after the award of a degree or credential or certificate.
  - D. All requests for change of a final course grade shall carry the recommendation of the instructor (except as provided for in the Grade Appeals Procedures), the department chair, and the approval of the dean of the college.

Conditions and Procedures for Change of Grade:

- A. Changes to grades or grading symbols can be made only on the basis of:
  - 1) an error,
  - 2) a successful grade appeal. (See the separate policy statement on Grade Appeals.), or
  - 3) resolution of an Incomplete ("I"). A grade or grading symbol shall not be changed on the basis of additional work submitted, except where an "I" was recorded.

**Grade Appeals**

Students have the right to formally appeal the final grade, but only the final grade, in a course. Appeals are limited to situations in which the student believes the grade was "prejudicially," "capriciously," or "arbitrarily" assigned. The appeal must be initiated within the first regular semester after assignment of the grade. It must first be directed to the instructor of the course, orally or in writing. If further action is necessary, the student should appeal in writing to the department chair. If further action is necessary, the department chair will forward the appeal in writing to the Department Grade Appeals Com-

mittee. If the issue continues to remain unresolved, the written appeal can be directed to the Grade Appeals Committee of the college in which the course was taken. Information about college grade appeals committees and the University policy (P.S. 99-16) can be obtained from the office of the college dean.

### Academic Appeals

Students may petition for exception to academic policy. Typically, exception requests involve issues such as record errors, General Education substitutions or waivers, exceptions to the repeat/delete policy, and academic renewal.

Students can obtain the "Petition for Exception to Academic Policy" forms from the Office of Enrollment Services, Brotman Hall Room 101, or the Academic Advising Center, Academic Services, room 125. This written appeal will be directed to the Academic Appeals Committee. Petitions must be filed with Enrollment Services, BH-101.

### Educational Leave

Any registered student, undergraduate or graduate, in good academic standing may request an Educational Leave. Students requesting an Educational Leave must complete an Educational Leave Form, in advance, including an explanation of their reasons for seeking the leave and a statement of when they intend to resume academic work. The completed form is to be submitted for approval to the student's department chair (undergraduate) or graduate advisor.

The minimum initial leave will be one full semester; the maximum will be one calendar year. A student may submit, in advance, a new educational leave request form for an extension of leave. Under no circumstances will the total number of approved educational leaves exceed two, nor will the duration of approved educational leaves extend beyond two calendar years.

Students returning from an approved educational leave are not required to submit an application for readmission to the university. Students returning from an absence for which an educational leave was appropriate but not approved in advance must reapply for admission and pay the reapplication fee.

Graduate students who plan to enroll for credit at another institution of higher education during the leave period must obtain prior approval for the transfer of course credit to the student's program from the department graduate advisor, department chair, and the College Dean or designee.

The period of an educational leave is counted in the calculation of elapsed time under the regulations governing the maximum period for completion of degree and remediation requirements. (See Baccalaureate and Graduate sections of this *Catalog*).

For the period of an educational leave the student's rights under the "Election of Regulations" rule are preserved, maintaining the right of the student to elect regulations as if he or she had maintained continuous attendance.

An educational leave presupposes no expenditure of University resources or faculty and staff time in behalf of the student during the period of the leave. In addition, no computer facilities, no library privileges, and no student services are available to a student on educational leave.

### Change of Major or Other Objective

Undergraduate students declaring a major for the first time or changing from one degree program or degree option program to another must complete and submit an approved Change of Major/Declaration form. These are available in most department offices and in the Office of Enrollment Services.

Students who are candidates for a certificate or credential program must also file a Request to Graduate. (Please see Election of Regulations in this section of the *Catalog*.)

The evaluation of credits transferred to the University is based in part upon the objective indicated on the application for admission. Students should be aware, therefore, that under some circumstances transfer courses accepted for one purpose may not be acceptable for other purposes. Graduation checks needing to be redone may carry a special fee.

### Graduation Check

All coursework must have a course grade recorded prior to the granting of a degree, credential, or certificate.

Seniors and graduate students who expect to receive degrees at the end of any semester, winter or summer session must complete the Request to Graduate form and/or Certificate form well in advance. The appropriate request for Spring or Summer candidates must be filed by the preceding October 15; and for Fall or Winter candidates, by the preceding March 1, at the Office of Enrollment Services. The names of Candidates who file within these deadlines will appear in the Commencement Program published each Spring. Credential students should apply in the Credential Processing Office, located in the Graduate School of Education, or the Office of Enrollment Services by February 1 for December completion and by October 1 for Spring and Summer sessions.

### Graduation with Honors

The following grade-point average criteria are used to identify undergraduate students eligible for the honors specified:

1. 3.95 to 4.00 graduated Summa Cum Laude
2. 3.80 through 3.94 graduated Magna Cum Laude
3. 3.50 through 3.79 graduated Cum Laude

An undergraduate student may be considered eligible for honors at graduation provided that a minimum of 45 units are earned at California State University, Long Beach. For the first baccalaureate degree, the GPA will be determined from units earned at CSULB plus transferred units. For the second baccalaureate degree, the GPA will be determined only by courses taken after the first degree was awarded that are also required by the second degree.

With the approval of the Dean of the College, departments may elect to award departmental honors to their graduates based on GPA and/or other criteria determined by the department. The number of honors awarded by a department will be limited to three students or five percent of graduates, whichever is larger.

University honors will be noted on the diploma and transcript. Departmental honors will be noted on the transcript only.

## Honor Lists

Undergraduate students exhibiting outstanding scholastic achievement are honored by being included on the President's or Dean's List. A certificate will be issued for each semester in which the student receives this honor.

### President's List

Students will be placed on the President's List to honor them for academic achievement each semester in which they complete 12 or more graded course units with a semester GPA of 3.75 - 4.0. Students earning fewer than 12 graded course units per semester will be placed on the President's List in the Spring semester of the academic year in which they accumulate 12 or more graded course units with an academic year GPA of 3.75 - 4.0.

### Deans' List

Students will be placed on the Deans' List to honor them for academic achievement each semester in which they complete 12 or more graded course units with a semester GPA of 3.5 - 3.74. Students earning fewer than 12 graded course units per semester will be placed on the Deans' List in the Spring semester of the academic year in which they accumulate 12 or more graded course units with an academic year GPA of 3.5 - 3.74.

## Graduation Rates

CSULB's core academic purpose is to graduate students with highly valued degrees. Graduation rates for CSULB students have increased dramatically over the past seven years and the length of time it takes students to complete degrees has decreased. The key improvements that the campus made to improve graduation rates were to ensure the availability of needed classes and to provide much richer support for entering freshmen in the form of advising and learning communities. These improvements were key reasons why CSULB was named one of "America's Best Colleges and Universities" by U.S. News and World Report.

CSULB has an obligation, under the federal Student Right-To-Know law, to provide information regarding graduation rates to prospective and current students. There are several ways of expressing graduation rates. The most widely used is the "six-year freshman cohort graduation rate." This indicator expresses the percentage of students who began as freshmen and who complete their degrees within six years at the same campus where they began studies. This percentage does not provide complete information for the following reasons. While most students who complete baccalaureate degrees finish in six years or less, others take longer. Some students do not begin at a four-year institution as freshmen but come as transfer students. Some attend several undergraduate institutions before receiving baccalaureate degrees. In the California State University system, a small percentage of students begin at one CSU campus, transfer to another CSU campus, and complete their degrees.

Following is information about CSULB six year freshman cohort graduation rates, four year transfer rates, total eventual graduation rates, and time to degree for freshmen and transfer students<sup>1</sup>.

The most recent six year freshman graduation rate for CSULB is based on the cohort entering in 1998 and stands at

46.2%. This represents an increase from the prior cohort which was at 41.6%. For regularly admitted students<sup>2</sup>, graduation rates were higher: 48.5% (1998 cohort) and 44.2% (1997). These graduation rates cap a seven year increase of about 17% for CSULB. Eventually even more students will graduate. The CSU has estimated that about 11% more students will complete after six years or transfer to another campus and graduate.

### Freshman Graduation Rates

Cohort beginning in fall:	Six Year Graduation Rate <sup>3</sup>		Estimated eventually will graduate <sup>4</sup>
	All students	Regularly admitted students	Regularly admitted students
1998	46.2%	48.5%	NA <sup>5</sup>
1997	41.6%	44.2%	55.6%
1996	38.8%	43.1%	55.7%
1995	32.9%	37.7%	50.1%
1994	30.6%	36.7%	49.0%

The most recent time to degree information indicates that students who began as freshmen at CSULB graduated in an average of 5.01 years (for the cohort whose degrees were awarded in the college year 2003-2004). This represents a decrease of about one-half year or about 10% compared to the cohort whose degrees were awarded in the college year 1999-2000. Regularly admitted students graduated in 4.82 years (2003-2004), an improvement from 5.37 years for the cohort whose degrees were awarded in 1999-2000.

The most recent four year transfer student graduation rate for CSULB is based on the cohort entering in 2000 and stands at 60.9%. This represents an increase from the prior cohort which was at 58.5%. For regularly admitted transfer students, graduation rates were higher: 66.2% (2000 cohort) and 65.5% (1999). Transfer student graduation rates have improved 12% over five years. Eventually even more transfer students will graduate. The CSU has estimated that about 8% more students who began as transfers will complete after four years or transfer to another campus and graduate.

On average, students who began as junior transfers graduated in 3.01 years (for the cohort whose degrees were awarded in the college year 2003-2004). This represents a decrease of over one-fifth year compared to the cohort whose degrees were awarded in the college year 1999-2000. Regularly admitted students graduated in 2.6 years (2003-2004), an improvement from 2.69 years for the cohort whose degrees were awarded in 1999-2000.

### Transfer Graduation Rates

Cohort beginning in fall:	Four Year Graduation Rate <sup>6</sup>		Estimated eventually will graduate <sup>7</sup>
	All students	Regularly admitted students	Regularly admitted students
2000	60.9%	66.2%	73.9%
1999	58.5%	65.5%	75.9%
1998	54.8%	62.7%	71.9%
1997	51.7%	59.9%	70.1%
1996	49.1%	58.4%	67.5%

Since it takes several years to complete a college degree, currently reported graduation rates are indicative of CSULB at the time these cohorts entered, 1998 and before for freshmen and 2000 and before for transfers. Since 1998, CSULB has continued to work to raise graduation rates by improving class availability, advising, curriculum, and other student support services. CSULB's currently reported graduation rates are similar to other public, comprehensive universities. However, the CSULB's rate of improvement has been rapid and the campus is on a trajectory to continue raise graduation rates and to reduce time to degree. These are currently top priorities for the campus.

Completing the degree in a reasonable period of time is an important goal for students (and their parents). The number of courses (and course units) that must be completed to earn a degree varies, depending on the degree. The least number of course units required for a baccalaureate degree is 120. This would be equivalent to 40 three-unit courses (although courses can equate to one, two, three, four or more units). At CSULB, degrees in engineering, sciences and the arts generally require the largest number of courses (and units).

Earning a degree requiring the fewest number of course units (120) would require full time attendance (15 units per semester) for four years. Full time attendance really means "full time," as fifteen course units equates to 45 hours per week attending class and studying. Completing a degree with a higher unit requirement in a reasonable time requires attending winter session, summer session and/or attending longer than four years.

---

<sup>1</sup> More detailed data can be found at the CSULB Institutional Research web site (<http://daf.csulb.edu/offices/ima/institutionalresearch/>).

<sup>2</sup> CSULB is authorized to admit a small number of students with special talents who do not quite meet regular academic admission standards.

<sup>3</sup> From the CSULB Institutional Research web site <http://daf.csulb.edu/offices/ima/institutionalresearch/>. These data differ slightly from and are believed to be more complete than those available in CSU accountability data (Campus Reports, The Committee on Educational Policy of the California State University, Nov. 17, 2004) because they include graduates in the summer of the respective college years.

<sup>4</sup> These figures are based on Campus Reports, The Committee on Educational Policy of The California State University, Nov. 17, 2004. They may slightly understate rates because they omit summer graduates of the respective college years but they are the only source for the total eventual graduation rate figures.

<sup>5</sup> 1998 cohort data are not yet available.

## Scholastic Probation and Disqualification

### Academic Probation

Undergraduate students are placed on academic probation if at any time their cumulative grade-point average in all college work attempted or their cumulative GPA at California State University, Long Beach falls below 2.0 (C). Graduate students are placed on academic probation when their cumulative grade-point average or grade-point average on all courses applicable to the degree falls below 3.0. Other post-baccalaureate students are placed on academic probation when their cumulative grade-point average falls below 2.5.

Undergraduate students will be removed from academic probation when their cumulative grade-point average in all college work attempted and their cumulative grade-point average at California State University, Long Beach is 2.0 (C) or higher. Students who remain on academic probation for more than two consecutive semesters are subject to academic disqualification. Students actively participating in an intervention program may request an extension of time to achieve a 2.0 GPA. Such extension will be granted if, and only if, the student is making progress toward the degree.

Graduate students will be removed from academic probation when their overall grade-point average and grade-point average on all courses applicable to the degree are 3.0 (B) or higher.

Other post-baccalaureate students will be removed from academic probation when their overall grade-point average is 2.5 or higher.

Graduate and post-baccalaureate students are subject to disqualification if while on probation they fail to earn grades of sufficient quality to remove themselves from probationary status. Disqualification will bar such students from any further enrollment at the campus.

### Administrative — Academic Probation

An undergraduate or graduate student may be placed on administrative-academic probation by action of appropriate campus officials for any of the following reasons:

1. Withdrawal from all or a substantial portion of a program of studies in two successive semesters or in any three semesters;
2. Repeated failure to progress toward the stated degree objective or other program objective (when such failure appears to be due to circumstances within the control of the student);
3. Failure to comply, after due notice, with an academic requirement or regulation which is routine for all students or a defined group of students (example: failure to take placement tests, failure to complete a required practicum).

### Academic Disqualification

Undergraduate students on academic probation are subject to academic disqualification:

1. As freshmen (fewer than 30 semester-hours of college work completed), if their grade-point average falls below 1.5 on all units attempted or on all units attempted at California State University, Long Beach;
2. As sophomores (fewer than 59 semester-hours of college work completed), if their grade-point average falls below 1.7 on all units attempted or on all units attempted at California State University, Long Beach;
3. As juniors (60 to 89 semester-hours of college work completed), if their grade-point average falls below 1.85 on all units attempted or on all units attempted at California State University, Long Beach;
4. As seniors (90 or more semester-hours of college work completed), if their grade-point average falls below 1.95 on all units attempted or on all units attempted at California State University, Long Beach; and

5. At any time, if the student remains on academic probation for more than 2 consecutive semesters (i.e., the cumulative GPA remains below 2.0 at the end of 2 consecutive semesters).

In addition to the above disqualification standards applicable to students on probation, individuals not on probation may be disqualified when the following circumstances exist:

1. At the end of any semester, if the student has a cumulative grade-point average below 1.0; and
2. The cumulative grade-point average is so low that in view of the student's overall educational record it seems unlikely that the deficiency will be removed within a reasonable period.

### Disqualification From Impacted Programs

Students who fail to maintain an overall GPA of 2.0 will be immediately removed from an impacted major and placed in the undeclared category (Major Code 0000) or in a general category appropriate to the discipline. To be reinstated as majors in the impacted program, they must reapply at the time when change-of-major requests are normally accepted.

### Administrative—Academic Disqualification

Students who have been placed on administrative-academic probation may be disqualified from further attendance if:

1. The conditions for removal of administrative-academic probation are not met within the period specified;
2. The students become subject to academic probation while on administrative-academic probation;
3. The students become subject to administrative-academic probation for the same or similar reason for which they have been placed on administrative-academic probation previously, although not currently in such status.

For students who subsequently become eligible for Reinstatement (see below), disqualification under the provisions of the preceding paragraphs constitutes a break in "continuous enrollment" within a degree major program; therefore, students disqualified may not elect regulations in effect prior to disqualification.

### Reinstatement

In order to be considered for reinstatement to the University, a disqualified student must demonstrate progress toward the degree. This demonstration can be achieved by:

1. Completing courses through University College and Extension Services at CSULB; or
2. Completing classes at other regionally accredited academic institutions.

All classes considered for reinstatement in the student's petition must be applicable for degree credit and toward the student's General Education or major requirements.

Progress toward meeting the GPA requirement can be demonstrated by reducing the deficiency in grade-point average by one-half at CSULB or by making equivalent grades in courses taken at other regionally accredited academic institutions. Grades earned at other regionally accredited academic institutions will not reduce the deficiency in the CSULB grade-point deficiency. Grades earned elsewhere are only indicators of academic ability.

After reducing the deficiency in the CSULB grade-point average and/or demonstrating academic ability at other regionally accredited academic institutions, the student may petition the Academic Appeals Committee for reinstatement. The petition must present evidence that the student is likely to achieve a satisfactory grade-point average and to complete requirements for the degree. The Academic Appeals Committee will only consider the petition for reinstatement of students who have remained outside of the university for at least one regular (fall or spring) semester after their dismissal. Disqualification from the University constitutes a break in residency and results in the loss of "catalog rights"; reinstatement does not automatically restore those rights under the election of regulations.

Petition forms are available at the Office of Enrollment Services and must be filed by December 1 for the spring semester or August 1 for the fall semester. Petitions received after that date will be returned to the student to be submitted for consideration for a future semester.

### Academic Renewal

A student may petition to have all grades and units received during one or two semesters of undergraduate work disregarded in the computation of GPA and academic standing. The work so disregarded may have been taken at any collegiate-level institution but no work taken during the disregarded terms, even if satisfactory, may apply toward baccalaureate requirements. All grades and units attempted will remain on record. At least 5 calendar years must have elapsed since the work in question was completed and the student must have subsequently completed 15 semester units with a 3.0 GPA (or 30 semester units with a 2.5 or 45 semester units with a 2.0) at this University before filing a request for disregarding the course work.

Petitions for disregarding course work must be submitted to the Office of Enrollment Services. Final determination will be made by the Vice President for Academic Affairs in consultation with the University Academic Appeals Committee. The petitioning student must certify that the work to be disregarded was not reflective of his or her present level of academic performance. This certification must include a statement explaining the extenuating circumstances causing the substandard performance during the term in question. The student must also provide evidence that it would be necessary to complete additional units and enroll for one or more additional semesters in order to qualify for the baccalaureate degree if the request were not approved.

### Student Grievance

The California State University, Long Beach Student Grievance Procedure is designed to give the campus community a grievance structure in those instances where no other policy or procedure exists. (This policy does not cover grade appeals, prohibited discrimination, etc. where there are existing policies).

The Office of the Vice President for Student Services has staff to help students understand the details of the Grievance Procedure and may be called on for assistance.

### What are Student Grievance Procedures?

Student Grievance Procedures at California State University, Long Beach are intended to provide a formal, standardized means for students to seek redress concerning actions of the faculty, administrators, or staff of the University. Further, the

purpose is to establish standardized procedures and safeguards which shall be followed by the University in the adjudication of grievances.

### What is a Grievance?

A grievance is a formal complaint by a student arising out of an alleged action of the faculty, administrators, or staff of the University. The person or entity against whom the complaint is made is referred to in this document as the "respondent." Such action is alleged by the student to be an unauthorized or unjustified action which adversely affects the status, rights, or privileges of the student.

Students are reminded that the Grievance Procedure is not designed to replace the open communication and understanding that are vital to the academic process. The student may withdraw the grievance at any stage and the process will immediately terminate. During all stages of the grievance, the burden of proof will be on the student.

### What is a Statement of Grievance?

The statement of grievance is a clear, simple statement according to the student's understanding of what happened. It should provide enough information to give the committee a complete understanding of the situation and the nature of the remedy sought from the student's perspective. The following steps are designed to assist in the preparation of a Grievance Statement.

### How does one Grieve?

#### Informal Procedure

##### Step 1:

Informal discussion between the concerned parties is always the place to start. If attempts to resolve the problem at this level fail, or if the person alleged to have aggrieved the student cannot be reached by reasonable effort, or if the nature of the grievance is such that an informal communication with the respondent is not feasible, the student must meet informally with the employee's department Chair, or the program's Director.

Note: In the event that the respondent is at the level of a Dean or higher, the complaint should be directed to the responsible person at the next administrative level. For non-academic matters, throughout these procedures, the term "Dean" refers to the responsible individual of comparable level, e.g., typically an Associate Vice President, or Vice President.

##### Step 2:

If after ten instructional days beyond the informal meeting a satisfactory solution is not found, the department Chair or program Director will meet with the student.

Within 15 instructional days of the receipt by the Chair or program Director of the student's complaint, the Chair or program Director will investigate the allegations and reach a conclusion. The Chair or program Director shall promptly communicate the decision to the student and the respondent. If either the student or the respondent disagrees with the chair's or program director's findings, recommendations, or decision, that person may appeal under step three.

##### Step 3:

If the student or respondent is not satisfied with the results of step two, or if the grievance is against the Chair of a department or Director of a program, the student may consult with the appropriate college Dean (academic) or responsible person at the next administrative level (non-academic).

#### Formal Procedure

##### Step 1:

In the event the informal process does not bring satisfactory resolution to the complaining student or the respondent, then either party may initiate the formal procedures by writing a letter of complaint and submitting it to the appropriate department Chair or program Director. The Chair or Director then submits a copy of the letter of complaint to the dean<sup>1</sup> and the responding party. The responding party will reply in writing, normally within 10 instructional days, to the Chair or Director. The Chair or Director submits a copy of the reply to the other party and the Dean.

##### Step 2:

The Dean may then: (1) Normally within 10 instructional days after reviewing the letter of complaint and the response, the Dean may seek additional information from the parties or witnesses, and (2) review the matter and render a decision or (3) form a hearing committee which will make a recommendation to the Dean as follows:

- A. The hearing committee in academic matters will consist of two faculty members, two student members and one staff member. The two students and the two faculty shall both be within the college, with one student and one faculty within the department and one student and one faculty outside the department of the respondent. The staff member shall be from within the college.
- B. The hearing shall normally be held within 10 instructional days after the hearing committee is formed unless the letter of complaint is withdrawn or there occurs an earlier settlement of the matter. Internal hearing procedures regarding the conduct of the hearing shall be developed by each college and be made available to both parties. Each party may have one representative at the hearing who may be anyone other than legal counsel.
- C. In matters outside an academic department in which no other policy or procedures apply, the responsible person one level above the employee's supervisor shall have the option of establishing an all-University hearing committee consisting of three other employees, two of whom must be from outside the respondent's program, and two students selected in consultation with the A.S.I. President.
- D. The charge of the committee will be to investigate, and recommend a proposed resolution to the Dean. After receiving the recommendation, the Dean shall notify both parties of the decision. In the absence of an appeal, the decision of the Dean is final.

##### Step 3:

If either party wishes to appeal the decision of the Dean, the appeal, in writing, may be made to the Provost (academic) or appropriate Vice President (non-academic). The appeal must be made within 10 instructional days of the decision (Step 2). The Provost or Vice President will notify both parties of the appeal, review all written documentation and may investigate further or refer back to the Dean for further findings. The Provost or Vice President will then notify both parties of her/his decision.

## Cheating and Plagiarism

### Definition of Plagiarism

Plagiarism is defined as the act of using the ideas or work of another person or persons as if they were one's own, without giving credit to the source. Such an act is not plagiarism if it is ascertained that the ideas were arrived at through independent reasoning or logic or where the thought or idea is common knowledge.

Acknowledgment of an original author or source must be made through appropriate references, i.e., quotation marks, footnotes, or commentary. Examples of plagiarism include, but are not limited to, the following: the submission of a work, either in part or in whole, completed by another; failure to give credit for ideas, statements, facts or conclusions which rightfully belong to another; in written work, failure to use quotation marks when quoting directly from another, whether it be a paragraph, a sentence, or even a part thereof; or close and lengthy paraphrasing of another's writing or programming. A student who is in doubt about the extent of acceptable paraphrasing should consult the instructor.

Students are cautioned that, in conducting their research, they should prepare their notes by (a) either quoting material exactly (using quotation marks) at the time they take notes from a source; or (b) departing completely from the language used in the source, putting the material into their own words. In this way, when the material is used in the paper or project, the student can avoid plagiarism resulting from verbatim use of notes. Both quoted and paraphrased materials must be given proper citations.

### Definition of Cheating

Cheating is defined as the act of obtaining or attempting to obtain or aiding another to obtain academic credit for work by the use of any dishonest, deceptive or fraudulent means. Examples of cheating during an examination include, but are not limited to the following: copying, either in part or in whole, from another's test or examination; discussion of answers or ideas relating to the answers on an examination or test unless such discussion is specifically authorized by the instructor; giving or receiving copies of an examination without the permission of the instructor; using or displaying notes, "cheat sheets," or other information or devices inappropriate to the prescribed test conditions, as when the test of competence includes a test of unassisted recall of information, skill, or procedure; or allowing someone other than the officially enrolled student to represent the same. Also included are plagiarism as defined and altering or interfering with the grading procedures.

It is often appropriate for students to study together or to work in teams on projects. However, such students should be careful to avoid the use of unauthorized assistance, and to avoid any implication of cheating, by such means as sitting apart from one another in examinations, presenting the work in a manner which clearly indicates the effort of each individual, or such other method as is appropriate to the particular course.

### Faculty Responsibilities

In cases where a student is suspected of cheating or plagiarism, the faculty member should arrange for an informal office conference with the student as soon as possible. The

purpose of the informal conference is to bring the persons involved together to discuss the issues informally and to discuss courses of action. At the conference the student will be notified by the faculty member of the charge and supporting evidence. For an incident which occurs during or as a part of a final examination, see below for administration of an Incomplete grade.

In cases where there is more than one individual suspected of cheating or plagiarism, the faculty member may decide to call the students to confer jointly as a group, or as individuals, or both. If the faculty member should decide to confer with the students as a group, the students will have the option to also confer with the instructor separately as individuals.

The faculty member will inform the student(s) that both students and faculty have the right to submit a request to the Academic Integrity Committee (discussed below) for a written opinion on whether the accusation is supported by the evidence. All notes and discussions between the student and the faculty member are confidential, except as may be relevant to the Academic Integrity Committee or in subsequent campus disciplinary proceedings. Neither the faculty member nor the student should discuss a specific charge of cheating or plagiarism or any violations with reference to individuals in the classroom before other members of the class.

When the student cannot be contacted and therefore the informal conference cannot be held, as is sometimes the case after final examinations, a grade of "I" (Incomplete) may be assigned, but only if the instructor wishes an additional test of competence. The instructor will have the agreement form for assigning an "Incomplete" sent to the last known address of the student. The agreement form will state the following in the format indicated:

"Under the provisions of the CSULB Policy Statement on Cheating and Plagiarism, an additional test of competency related to the [syllabus name of suspect demonstration, e.g., Final Examination] is requested. [Explain what additional test of competency.] You may decline to do so. Please contact the instructor, the department office, or the Office of Judicial Affairs for information regarding the University policy on cheating and plagiarism."

The instructor will indicate on the agreement form the grade which will be assigned, normally 120 calendar days following mailing of the Incomplete Agreement, if the student does not respond or, responding, the student does not agree to an additional test of competence.

Charges of cheating or plagiarism cannot be brought against a student more than 120 calendar days after discovery that the work in question may have been plagiarized or that cheating may have taken place.

Notes and evidence will be kept by the department chair or program director for a minimum of five years after the case is settled.

### Academic Integrity Committee

The Chair of the Academic Senate and the Vice President for Academic Affairs jointly appoint an Academic Integrity Committee for the University. This Committee consists of one member from the student body, chosen by the Associated Students Government for a one-year term of office; three members of the full-time, tenured or tenure-track faculty, and one member of the Office of Academic Affairs, who will be Chair, voting only in case of ties.

The primary charge of the Committee is to receive the requests of students accused of cheating or plagiarism or the requests of faculty accusing specified student(s) of cheating or plagiarism. Following its review of the evidence, the Committee will report its opinion to the student(s) and to the faculty member involved on whether the accusation is supported by the evidence. This opinion may not be appealed. However, when new evidence appears to so warrant, a faculty member or student may ask, in writing, the Vice President for Academic Affairs or the Chair of the Academic Senate to request the Committee to reconsider a case.

The Academic Integrity Committee has readily available the rules and procedures governing its operations.

In all cases, a Report of the Committee is advisory to the student, with whom rests the presumption of innocence, and the faculty member, to whom the decision on the evidence and academic action is reserved.

A faculty member or student who requests a review of the evidence in a case of alleged cheating or plagiarism must make such a request to the Academic Integrity Committee in writing no later than 14 calendar days following the date of first notification of the student by the faculty member of the allegation. Except under extenuating circumstances, the student and faculty member will have no more than 14 additional calendar days to provide evidence to the Committee.

To preserve the rights of privacy, the Committee meetings are closed. The Committee may request additional information as may be appropriate to the development of its Report. The Committee is to provide a final Report within 21 calendar days of the submission of a request to it. Should additional time be required, the reasons are communicated to the Vice President for Academic Affairs and the Chair of the Academic Senate as well as the student(s) and faculty members involved.

### Student Academic Honors Pledge

The Student Academic Honors Pledge was approved by the Academic Senate and Associated Student Senate in 2004. The pledge states:

*I pledge on my honor that I have not given or received any unauthorized assistance on this assignment/examination.*

Faculty may utilize the pledge as an educational tool with students in the classroom and on syllabi. Students may elect to sign the pledge as a symbol of their commitment to personal ethics and academic integrity.

### Academic Actions

One or more of the following academic actions are available to the faculty member who finds a student has been cheating or plagiarizing. These options may be taken by the faculty member to the extent that the faculty member considers the cheating or plagiarism to manifest the student's lack of scholarship or to reflect on the student's lack of academic performance in the course. These actions may be taken without a request for, or before the receipt of, a Report from the Academic Integrity Committee.

1. Review but no action;
2. An oral reprimand with emphasis on counseling toward prevention of further occurrences;
3. A requirement that the work be repeated;

4. Assignment of a score of zero (0) for the specific demonstration of competence, resulting in the proportional reduction of final course grade;
5. Assignment of a failing final grade;
6. Referral to the Office of Judicial Affairs for possible probation, suspension, or expulsion.

A student may appeal a final course grade, the computation of which included an examination or other test of competence in which a score of zero was assigned for cheating or plagiarism, but only on the grounds permitted in the University Policy Statement on Grade Appeals.

An appeal of the final grade may include as written testimony the Report of the Academic Integrity Committee.

### Policy for a Smoke-Free Campus Environment

California State University, Long Beach has a responsibility to provide employees and students with a safe working and learning environment. Given the fact that smoking is the most significant cause of premature and preventable death in the United States today, California State University, Long Beach is declared to be a "smoke-free" campus in accordance with the Governor's Executive Order D-62-87, Government Code Section 19262.

This "smoke-free" policy will apply to all state-owned and University-operated facilities regardless of location. This policy does not include public performances in which smoking is an integral and necessary part of those performances. Smoking is prohibited in all indoor areas, including but not limited to: administrative offices, private offices, laboratories, classrooms, conference rooms, auditoria, lounges, theatres, lobbies, hallways, stairwells, restrooms, libraries, clinics, waiting rooms, reception areas, university vehicles, machine shops, elevators, and food service areas. Where outdoor seating is provided adjacent to indoor food service facilities, non-smoking sections must be designated and posted.

For those employees and students who wish to stop smoking, California State University, Long Beach supports and assists their efforts by providing referrals to cessation programs. The Employee Assistance Program at the Student Health Center may be contacted for information and assistance. The Employee Assistance Coordinator may be reached by calling (562) 985-4771.

### Student Discipline

Inappropriate conduct by students or by applicants for admission is subject to discipline as provided in Sections 41301 through 41304 of Title 5, California Code of Regulations. These sections are as follows:

#### 41301. Expulsion, Suspension and Probation of Students

Following procedures consonant with due process established pursuant to Section 41304, any student of a campus may be expelled, suspended, placed on probation or given a lesser sanction for one or more of the following causes which must be campus-related:

- (a) Cheating or plagiarism in connection with an academic program at a campus;
- (b) Forgery, alteration or misuse of campus documents, records, or identification or knowingly furnishing false information to a campus;

- (c) Misrepresentation of oneself or of an organization to be an agent of a campus;
- (d) Willful, material and substantial obstruction or disruption, on or off university property, of the campus educational process, administrative process, or other campus function;
- (e) Physical abuse on or off campus property of the person or property of any member of the campus community or of members of his or her family or the threat of such physical abuse;
- (f) Theft of, or non-accidental damage to, campus property; or property in the possession of, or owned by, a member of the campus community;
- (g) Unauthorized entry into, unauthorized use of, or misuse of campus property;
- (h) On campus property, the sale or knowing possession of dangerous drugs, restricted dangerous drugs, or narcotics as those terms are used in California statutes, except when lawfully prescribed pursuant to medical or dental care, or when lawfully permitted for the purpose of research, instruction or analysis;
- (i) Knowing possession or use of explosives, dangerous chemicals or deadly weapons on campus property or at a campus function without prior authorization of the campus president;
- (j) Engaging in lewd, indecent, or obscene behavior on campus property or at a campus function;
- (k) Abusive behavior directed toward, or hazing of, a member of the campus community;
- (l) Violation of any order of a campus president, notice of which had been given prior to such violation and during the academic term in which the violation occurs, either by publication in the campus newspaper, or by posting on an official bulletin board designated for this purpose, and which order is not inconsistent with any of the other provisions of this Section;
- (m) Soliciting or assisting another to do any act which would subject a student to expulsion, suspension or probation pursuant to this Section;
- (n) Unauthorized recording, dissemination, and publication of academic presentations for commercial purposes. This prohibition applies to a recording made in any medium, including, but not limited to, handwritten or typewritten class notes.
  - (1) The term "academic presentation" means any lecture, speech, performance, exhibition, or other form of academic or aesthetic presentation, made by an instructor of record as part of an authorized course of instruction that is not fixed in a tangible medium of expression.
  - (2) The term "commercial purpose" means any purpose that has financial or economic gain as an objective.
  - (3) The term "Instructor of record" means any teacher or staff member employed to teach courses and authorize credit for the successful completion of courses.
- (o) For purposes of this Article, the following terms are defined:
  - (1) The term "member of the campus community" is defined as meaning California State University Trustees, academic, nonacademic and administrative personnel, students, and other persons while such other persons are on campus property or at a campus function;
  - (2) The term "campus property" includes: (A) real or personal property in the possession of, or under the control of, the Board of Trustees of The California State University, and (B) all campus feeding, retail, or residence facilities whether operated by a campus or by a campus auxiliary organization.
  - (3) The term "deadly weapons" includes any instrument or weapon of the kind commonly known as a blackjack, sling shot, billy, sand-club, sandbag, metal knuckles, any dirk, dagger, switchblade knife, pistol, revolver, or any other firearm, any knife having a blade longer than five inches, any razor with an unguarded blade, and any metal pipe or bar used or intended to be used as a club;
  - (4) The term "behavior" includes conduct and expression;
  - (5) The term "hazing" means any method of initiation into a student organization or any pastime or amusement engaged in with regard to such an organization which causes, or is likely to cause, bodily danger, or physical or emotional harm, to any member of the campus community; but the term "hazing" does not include customary athletic events or other similar contests or competitions.
  - (6) The causes for discipline in this section shall, as appropriate, include computer-related crimes as provided in Section 502 of the Penal Code.
- (p) This Section is not adopted pursuant to Education Code Section 89031;
- (q) Notwithstanding any amendment or repeal pursuant to the resolution by which any provision of this Article is amended, all acts and omissions occurring prior to that effective date will be subject to the provisions of this Article as in effect immediately prior to such effective date.

#### **41302. Disposition of Fees; Campus Emergency; Interim Suspension**

The President of the campus may place on probation, suspend or expel students for one or more of the causes enumerated in Section 41301. No fees or tuition paid by or for such students for the semester, quarter, or summer in which they are suspended or expelled will be refunded. If the students are readmitted before the close of the quarter, or summer session in which they are suspended, no additional tuition or fees will be required on account of the suspension.

During periods of campus emergency, as determined by the President of the individual campus, the President may, after consultation with the Chancellor, place into immediate effect emergency regulations, procedures, or measures deemed necessary or appropriate to meet the emergency, to safeguard persons and property, and to maintain educational activities.

The President may immediately impose an interim suspension in all cases in which there is reasonable cause to believe that such an immediate suspension is required in order to protect lives or property and to insure the maintenance of order. A student so placed on interim suspension will be given prompt notice of charges and the opportunity for a hearing within ten days of the imposition of interim suspension. During the period of interim suspension, the student will not, without prior written permission of the President or designated representative, enter any campus of The California State University other than to attend the hearing. Violation of any condition of interim suspension will be grounds for expulsion.

### 41303. Conduct by Applicants for Admission

Notwithstanding any provision to the contrary, admission or readmission may be qualified or denied to any persons who, while not enrolled as students, commit acts which, were they enrolled as students, would be the basis for disciplinary proceedings pursuant to Sections 41301 or 41302. Admission or readmission may be qualified or denied to any persons who, while students, commit acts which are subject to disciplinary action pursuant to Section 41301 or Section 41302. Qualified admission or denial of admission in such cases will be determined under procedures adopted pursuant to Section 41304.

### 41304. Student Disciplinary Procedures for The California State University

The Chancellor will prescribe, and may from time to time revise, a code of student disciplinary procedures for The California State University. Subject to other applicable law, this code will provide for determinations of fact and sanctions to be applied for conduct which is a ground of discipline under Sections 41301 or 41302, and for qualified admissions or denial of admission under Section 41303; the authority of the campus President in such matters; conduct-related determinations on financial aid eligibility and termination; alternative kinds of proceedings, including proceedings conducted by a Hearing Officer; time limitations; notice; conduct of hearings, including provisions governing evidence, a record, and review; and such other related matters as may be appropriate. The Chancellor will report to the Board actions taken under this section.

The current University regulation on alcoholic beverages is stated in the CSULB Policies, Information and Regulations Handbook published by the Office of Student Affairs.

Additional detailed information relating to student discipline is available in the Office of Student Affairs, and from the Office of the Vice President for Student Services.

### Administrative Action

Procedures and sanctions of the Office of Judicial Affairs are under the administration of the Vice President for Student Services and are conducted pursuant to the authority provided in Section 41301 of Title 5 of the California Code of Regulations. Copies of Section 41301 of Title 5 may be found in the *University Catalog* and the Campus Regulations available in the Office of Judicial Affairs. Copies of Chancellor's Executive Order 628, "Student Disciplinary Procedures for the California State University" are also available upon request.

The Vice President for Student Services will report annually to the President and the Chair of the Academic Senate a summary of the charges concerning cheating and plagiarism brought before the Office of Judicial Affairs.

### Judicial Affairs

The Office of Judicial Affairs (Brotman Hall - 377) provides assistance with the interpretation and enforcement of campus regulations. Complete copies of the CSULB Policies, Information and Regulations Handbook, including a listing of infractions which may result in student disciplinary action under Title 5, Section 41301, of the California Code of Regulations, "Probation, Suspension and Expulsion of Students," are available in this office; also available are copies of Executive Order 628, "Student Disciplinary Procedures for The California State University." General assistance and aid in directing individuals to

the proper procedures, departments and personnel may be obtained in this office.

Alleged violations are investigated primarily through informal office conferences with the involved students. The conferences which are held as a result of impending disciplinary action are:

1. to clarify the referral, the charges, or the circumstances involved;
2. to prevent the incidence of, or further occurrences of, violations; and
3. to educate as a preventive experience and to indicate the possible consequences as a result of committing a violation. Discussion is centered on the cause-and-effect relationship of various courses of action and, when possible, alternate paths or solutions are explored.

### The Federal Drug-Free Schools and Communities Act

Each student and employee of California State University, Long Beach needs to be aware of the requirements of the Drug-Free Schools and Communities Act Amendments of 1989 (PL 101-226). These requirements include the notification to each student and employee of campus standards of conduct regarding the use of alcohol and illicit drugs, the legal sanctions which apply, possible health risks, and available counseling and assistance programs. This law, like others the federal government has passed in the last two decades, is tied to eligibility for federal financial assistance. Thus, because California State University, Long Beach receives federal funds such as "federally funded or guaranteed student loans," the law applies to the University and we must comply with its provisions. Under PL 101-226 the Secretary of Education can terminate federal funding for failure to comply and the University has the burden of appealing that decision to an administrative law judge. The law became effective October 1, 1990.

Any questions regarding this law should be directed to the Director of Student Administrative Services at (562) 985-5587.

California State University, Long Beach is dedicated to the elimination of the use of illicit drugs and alcohol abuse. The University makes every effort to create an environment that promotes and reinforces good health. This includes responsible living, respect for community and campus standards and regulations, individual responsibility within the community, and the intellectual, social, emotional, ethical, and physical well being of all members of the campus community. To facilitate this process, the University provides a Student Assistance Program and an Employee Assistance Program.

California State University, Long Beach complies with the requirements of the Drug Free Schools and Communities Act Amendments of 1989 by implementing the following:

1. The annual distribution in writing to each student, regardless of the length of the student's program of study, and to each employee of:
  - A. standards of conduct that clearly prohibit, at a minimum, the unlawful possession, use, or distribution of illicit drugs and alcohol by students and employees on its property or as part of any of its activities;
  - B. a description of the applicable legal sanctions under local, State, or Federal law for the unlawful possession or distribution of illicit drugs and alcohol;

- C. a description of the health risks associated with the use of illicit drugs and abuse of alcohol; and,
  - D. a clear statement that the institution will impose disciplinary sanctions on students and employees (consistent with local, State and Federal law), and a description of those sanctions, up to and including expulsion or termination of employment and referral for prosecution, for violations of the standards of conduct. A disciplinary sanction may include the completion of an appropriate rehabilitation program.
2. Conducting a biennial review of the campus drug and alcohol abuse prevention program to:
- A. determine its effectiveness and implement changes to the program if they are needed; and
  - B. ensure that its disciplinary sanctions are consistently enforced.

The review is conducted by a panel consisting of: the Provost/Senior Vice President of Academic Affairs; the Vice President of Student Services; the Vice President of Administration and Finance; the Chair of Student Affairs Committee; the Chair of Academic Senate; and the President of Associated Students Incorporated.

The review is conducted during the month of October in each even-numbered year. The report of the review panel is submitted to the President by December 1 following the October review period.

### Campus Standards of Conduct

Both productivity at work and the learning process are significantly impaired by alcohol abuse and the use of illicit drugs. Substance abuse among college students inhibits their educational development and is of serious nationwide concern.

California State University, Long Beach is dedicated to the elimination of the use of illicit drugs and alcohol abuse. The University is making every effort to create an environment that promotes and reinforces good health. This includes responsible living, respect for community and campus standards and regulations, individual responsibility within the community, and the intellectual, social, emotional, ethical, and physical well-being of all members of the campus community.

On campus property, the solicitation, sale, use or knowing possession of dangerous drugs, restricted dangerous drugs, or narcotics, as those terms are used in California statutes, are prohibited.

Consumption of alcohol is prohibited in individual offices, classrooms, laboratories, or generally accessible public or open areas, such as the quad and athletic fields.

Information regarding campus policies on the consumption of alcohol may be obtained by calling the Office of Student Life and Development at 985-8668.

Pursuant to Title 5 of the California Code of Regulations, violations by students of the above regulations, when campus related, may, after due process, result in the student being placed on probation, being suspended, or being expelled. Additionally, violations of laws committed on campus property, or at a campus event, will also be subject to referral and prosecution through off-campus authorities. Penalties by enforcement agencies for violations of the law may include imprisonment, fines, or both; these are in addition to administrative sanctions imposed by the University.

More detailed descriptions of student regulations concerning drugs, or alcohol, may be found elsewhere in the *CSULB Catalog*, or in the Residence Hall Calendar and Handbook, or the Regulations for Campus Activities, Organizations and the University Community.

Pursuant to Education Code Section 89535, employees may be disciplined, up to and including termination, for the following causes:

1. Conviction of criminal offenses involving the illegal use of drugs.
2. Appearing for work impaired by the use of alcohol and/or controlled substances.
3. Addiction to the use of controlled substances.

More detailed descriptions of employee regulations concerning drugs, or alcohol, may be found in the *Administrative Policies and Procedures Handbook* and the *Faculty and Staff Handbooks*.

### Don't Put Your Health at Risk

To become dependent upon chemicals such as illicit drugs and/or alcohol is to put your health at risk. Chemical dependency is a condition in which the use of mood altering substances such as drugs or alcohol is associated with problems in any area of life on a more or less continuing basis.

One does not, however, have to be addicted or chemically dependent to suffer health risks from the use of illicit drugs or alcohol.

Alcohol and illicit drugs (in all the many forms) may, and often do, impair physical coordination and judgement, diminish control over impulsive behavior, and cause many short- and long-term health consequences.

Alcohol-related illnesses now represent the third leading cause of death in the United States exceeded only by cancer and heart disease, and medical research has established very strong evidence that alcohol abuse contributes significantly to cancer and heart disease. There is clear evidence of serious negative effects on babies due to use of illicit drugs and alcohol by the mother during pregnancy.

### If You Have a Problem, We Want to Help

The California State University, Long Beach Health Center offers substance abuse programs for students, faculty and staff. These include: a Student Assistance Program for students; and Employee Assistance Program for faculty and staff; and an Athletic Assistance Program for student athletes (offered as a separate program due to NCAA testing and eligibility requirements and conference affiliation rules for competition).

An experienced and specially trained therapist under the supervision of the Medical Director serves as the coordinator and counselor for these programs, and medical doctors, other health professionals, and counseling psychologists are available for consultation. All contacts with the Health Center and professional personnel are confidential.

Information concerning the prevention of drug and alcohol abuse and rehabilitation programs may be obtained from Shifra Teitelbaum, Student Health Center, (562) 985-4609.

The California State University, Long Beach Health Center is located at the corner of State University Drive and Merriam Drive. The telephone number is (562) 985-4771.

## CSULB Statement on Civility and Acts of Violence

California State University, Long Beach, takes pride in its tradition of maintaining a civil and non-violent learning, working, and social environment. Civility and mutual respect toward all members of the University community are intrinsic to the establishment of excellence in teaching and learning. They also contribute to the maintenance of a safe and productive workplace and overall healthy campus climate.

The University espouses and practices zero tolerance for violence against any member of the University community (i.e., students, faculty, staff, administrators, and visitors). Violence and threats of violence not only disrupt the campus environment, they also negatively impact the University's ability to foster open dialogue and a free exchange of ideas among all campus constituencies.

To fulfill this policy, the University strives: 1) to prevent violence from occurring; and 2) to enforce local, state, and federal laws, as well as University regulations, regarding such conduct. The University also has established procedures for resolving and/or adjudicating circumstances involving violence, as well as threats of violence. A threat of violence is an expression of intention that implies impending physical injury, abuse, or damage to an individual or his/her belongings. All allegations of such incidents (i.e., acts and threats) will be aggressively investigated. Allegations that are sustained may result in disciplinary action up to and including dismissal from employment, expulsion from the University, and/or civil and criminal prosecution.

Members of the campus community are encouraged to promptly report any acts of violence, threats of violence, or other behavior which by intent, act, or outcome harm themselves or others. (Approved October 1997.)

### Equal Access and Opportunity

California State University, Long Beach affirms the equal worth of every individual and of distinctive groups of people, and fosters fair and equal treatment and access for all members of the university community. Therefore, the University is committed to the principles of equal opportunity in education and employment, to policies and practices that ensure equal opportunity and consideration, and to the protection of civil rights.

It is the policy of California State University, Long Beach to provide programs, services, and benefits, including employment, without regard to race, religion, color, ancestry, ethnicity, gender, marital status, pregnancy, national origin, age, mental or physical disability, sexual orientation, special disabled veterans' status, Vietnam-Era or other covered veteran status.

Reasonable accommodation to disability is considered a means of establishing equal opportunity.

### Freedom From Discrimination, Harassment and Retaliation

California State University, Long Beach affirms that students, employees, volunteers, members of the public, and recipients of services and/or benefits provided by CSULB have the right to a University free from discrimination and harassment, including hostile environment, on the basis of: Race, color, ancestry national origin, ethnicity, gender, religion, sexual orientation, marital status, disability, age, pregnancy, Veteran status-Vietnam-era/Special Disabled and Other Covered\* (\*<http://www.opm.gov/veterans/html/vgmedal2.htm>)

Retaliation for exercising one's right to protection from discrimination and/or harassment or for participating in the investigation of a complaint will not be tolerated.

This policy applies to all California State University, Long Beach programs and activities, including, but not limited to: Educational, cultural, recreational, and social and/or athletics programs and activities provided, sponsored, administered, or assisted, by CSULB; CSULB academic programs and/or activities; CSULB-sponsored off-campus programs; housing supplied or regulated by CSULB; the administration of educational policies, admission policies, and employment policies; employment actions, including but not limited to recruitment, hiring, education, upgrading, promotion, transfer, demotion, layoff, recall, termination, rates of pay or other forms of compensation, and selection for training, including apprenticeship; choice of contractors and suppliers of good and services; provision of services and benefits to CSULB students, employees, volunteers, or the public; receipt of CSULB services and benefits provided by CSULB contractors or vendors.

Federally-required Affirmative Action Plans are available for inspection in the University Library, Reserve Book Room during normal business hours.

### NONDISCRIMINATION POLICY

#### Race, Color, and National Origin

The California State University complies with the requirements of Title VI and Title VII of the Civil Rights Act of 1964, as well as other applicable federal and state laws prohibiting discrimination. No person shall, on the basis of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination in any program of the California State University.

#### Disability

The California State University does not discriminate on the basis of disability in admission or access to, or treatment or employment in, its programs and activities. Sections 504 and 508 of the Rehabilitation Act of 1973, the Americans with Disabilities Act of 1990, and various state laws prohibit such discrimination. Perrin Reid, Esq., Director, Equity and Diversity, has been designated to coordinate the efforts of CSULB to comply with all relevant disability laws. Inquiries concerning compliance may be addressed to this person at USU-301, (562) 985-8256.

#### Sex/Gender

The California State University does not discriminate on the basis of sex or gender in the educational programs or activities it conducts. Title IX of the Education Amendments of 1972 and certain other federal and state laws prohibit discrimination on the basis of sex in education programs and activities operated by CSU, Long Beach. Such programs and activities include admission of students and employment. Inquiries concerning the application these laws to programs and activities of CSULB may be referred to Perrin Reid, Esq., the campus officer(s) assigned the administrative responsibility of reviewing such matters or to the Regional Director of the Office of Civil Rights, Region IX, 50 United Nations Plaza, Room 239, San Francisco, California 94102.

The California State University is committed to providing equal opportunities to male and female CSU students in all campus programs, including intercollegiate athletics.

### Sexual Orientation

By CSU Board of Trustees policy, the California State University does not discriminate on the basis of sexual orientation.

### Confidentiality

The University is committed to maintaining a safe environment in which individuals can be unafraid to discuss concerns. Any member of the University community may seek general information and guidance about discrimination, harassment, and retaliation issues in confidence and anonymously.

However, the University's obligation is to take appropriate action to stop prohibited behavior and to prevent retaliation. This may preempt any request for anonymity or confidentiality.

### Complaint Resolution Procedures

Resolution of discrimination, harassment, and retaliation complaints is available to all members of the University community. The procedures vary but are all intended to resolve complaints in a timely and responsive manner at the earliest possible stage.

For employees represented by a collective bargaining unit, the collective bargaining agreement outlines procedures, process and timelines. Information is available from your campus union representative, or online at: [http://www.calstate.edu/LaborRel/Contracts\\_HTML/contracts.shtml](http://www.calstate.edu/LaborRel/Contracts_HTML/contracts.shtml)

For employees not eligible to file a complaint or grievance under a collective bargaining agreement or whose collective bargaining agreement incorporates CSU systemwide complaint procedure, the complaint procedure is outlined in CSU Executive Order 928. It is available online at: <http://www.calstate.edu/eo/EO-928.html>

For students or other members of the campus community, guests, visitors, affiliates, and associates, the Campus Complaint Resolution Procedure will apply. Discrimination complaint forms are available in the Office of Equity & Diversity, USU 301.

### Campus Complaint Procedure - Informal

The Informal Discrimination Complaint Resolution Procedure is initiated by speaking with one of the following persons of your choice: Immediate Supervisor; Program/Office Director; Department Chairperson/Director; Dean/Associate Dean; Designated Resource Person (list available from the Office of Equity & Diversity or on-line at <http://www.csulb.edu/depts/oed/resources/res-r3-2.htm>); Director of Equity & Diversity.

These individuals are expected to: Provide information about University policy and procedures, ensure the safety and security of the complainant in the immediate environment, ensure the due process of the individual(s) charged, ensure confidentiality to the extent possible by and with all parties, report the complaint to the Director of Equity & Diversity within five (5) working days from receipt of the complaint, consult with the Director of Equity & Diversity at least once per week until the complaint is resolved, an outcome is reached, or the complaint is referred to the Director of Equity & Diversity for

review and consideration, maintain notes of the complaint and log of all contacts made, report monthly to the Director of Equity and Diversity of the number, nature, and outcome of the complaints. The outcome of all Informal complaints must be reported to the Director of Equity & Diversity. If the proposed remedy is unsatisfactory to the complainant, or if the complaint is not resolved in the Informal process, the complaint may proceed to the Formal level.

### Campus Complaint Procedure - Formal

An allegation becomes a formal complaint only when it is filed in writing on an official University Discrimination Complaint Resolution form and is signed, or when the Director of Equity & Diversity files the complaint. The form is available from the Office of Equity & Diversity and the office website.

Within 5 working days from receipt or initiation, the alleged offender will be notified of the complaint by the Director of Equity & Diversity.

Within 10 working days from receipt, the alleged offender is required to respond in writing. A copy of the response shall be provided to the complainant.

If agreement is reached, the Director of Equity & Diversity shall provide all concerned parties with a written statement of the resolution.

If agreement is not reached, the Director of Equity & Diversity will proceed to evaluate the applicability of University policy prohibiting discrimination, harassment, and retaliation to the alleged behavior.

The Director of Equity & Diversity is authorized to interview anyone deemed necessary to the investigation. The investigation will normally be completed within thirty (30) working days.

Time limits may be extended or waived by the President upon request of the Director of Equity & Diversity.

Within five (5) working days of the conclusion of the investigation, the Director of Equity & Diversity will: submit a report of the complaint, investigation, and findings to the appropriate division executive and, notify the complainant and party charged of the finding.

Within twenty (20) working days from receipt of the report of the investigation the division executive will notify the Director of Equity & Diversity of resulting action.

Within five (5) working days of receiving notification of the resulting action, the Director of Equity & Diversity will notify the parties to the extent allowed of the action taken or proposed by the division executive.

### The Principles

California State University, Long Beach is a comprehensive, urban university. The University has a professional, cultural, and ethical commitment to provide a climate that enables each individual to realize his/her potential for excellence and that nurtures academic growth and professional development.

Diversity is both an ideal and an imperative. California State University, Long Beach takes pride in the diversity of its student body and employees, and affirms that this diversity enriches the work and learning environment of the campus. For this reason the recognition of diversity in our University community extends beyond the limits established by federal or state laws or regulations.

In addition to fully meeting its obligations of nondiscrimination under federal and state law, California State University,

Long Beach is committed to creating a community in which a diverse population can learn, live, and work in an atmosphere of tolerance, civility, and respect for the rights and sensibilities of each individual, without regard to professional rank, employment status, economic status, ethnic background, political views, or other personal characteristics or beliefs.

California State University, Long Beach takes seriously its tradition of maintaining civility and mutual respect toward all members of the University community. These qualities are intrinsic to the establishment of excellence in teaching and learning. They also contribute to the maintenance of a productive workplace and an overall positive campus climate. Civility and mutual respect only thrive when equal opportunity and access exist, and when retaliation for exercising rights, privileges and obligations is not feared. [Policy 03-09]

Perrin Reid, Esq., Director of Equity and Diversity, is the designated campus coordinator for Equal Employment Opportunity, Affirmative Action, and Civil Rights under Executive Order 11246, the Vietnam-Era Veterans' Readjustment Assistance Act, the Americans with Disabilities Act, the Rehabilitation Act, and Title IX.

### Policy on Sexual Assault

Students, faculty, and staff who are victims of sexual assault committed at or upon the grounds of the University, or upon off-campus grounds or facilities maintained by affiliated student organizations, are required by law to be advised of specified information, to include treatment, related campus procedures, referral options, and other assistance which may be available [California Education Code, Section 67385]. This policy is designed to provide the written procedures and information required.

Rape, including acquaintance rape, or any other form of sexual assault, will not be tolerated by California State University, Long Beach. Where there is evidence that campus-related sexual assault has been committed, severe campus disciplinary action will be initiated. Such campus disciplinary action may include, after due process, the possibility of dismissal, suspension or disenrollment. Additionally, where the victim initiates criminal action, the perpetrator is subject to criminal penalties which may include fines and imprisonment.

### Sexual Assault

The term "sexual assault" includes, but is not limited to, rape, acquaintance rape, sexual battery, forced sodomy, forced oral copulation, rape by a foreign object, or threat of sexual assault [California Education Code, Section 67385(d)].

Rape is a criminal offense. "Rape" is defined as an act of sexual intercourse accomplished with a person not the spouse of the perpetrator, under specified circumstances. For example, it may involve the use or threat of force, violence, retaliation, or fear of or actual immediate and unlawful bodily injury. Rape also occurs when the victim is incapable of giving legal consent, for example, when: a) the victim has a mental disorder, or is developmentally or physically disabled; or b) the victim is prevented from resisting the assault due to intoxicating substances (e.g. alcohol or drugs); or c) the victim is unconscious of the nature of the act, and such condition was known or reasonably should have been known to the accused (Reference: California Penal Code, Section 261, and the following sections).

"Acquaintance Rape" is forced sexual intercourse undertaken by someone the victim knows, against the will of the victim or as a result of threats, force or fear.

"Sexual Battery" is defined as the touching of an intimate part of another person, if the person is unlawfully restrained and if the touching is against the will of the person touched, for the purpose of sexual arousal, sexual gratification, or sexual abuse (Reference: California Penal Code, Section 243.4).

"Assault with intent to commit a sexual battery" is defined as an unlawful attempt, coupled with the present ability, to commit a violent injury (e.g., rape) or sexual battery on the person of another. (Reference: California Penal Code, Section 220; 240; 261; and following sections).

"Consent" is defined as positive cooperation in an act or attitude pursuant to an exercise of free will. The person must act freely and voluntarily and have knowledge of the nature of the act or transaction involved [Reference: California Penal Code, Section 261.6; 266(c)].

"Unlawful Sexual Intercourse with a minor" is an act of sexual intercourse accomplished with a person not the spouse of the perpetrator, where the person is under the age of 18 years (California Penal Code, Section 261.5).

Any person who willfully and lewdly commits any lewd or lascivious act upon or with the body or any part of a child under the age of 14 years with the intent of arousing, appealing to, or gratifying the sexual desires or passions of either the child or defendant is guilty of a felony. Any person who commits any act in the previous sentence with a person 14 or 15 years old, and the defendant is at least 10 years older than the child is guilty of a public offense (California Penal Code, Section 288). Any person who intentionally gives, transports, provides, persuades or makes available to another a child under age 16 for lewd or lascivious acts is guilty of a felony, punishable by fine and imprisonment [California Penal Code, Section 266(j)]. Every person who annoys or molests any child under the age of 18 is punishable by fine and imprisonment (California Penal Code, Section 647.6).

### University Jurisdiction

California State University, Long Beach views seriously its obligation to uphold the laws of the larger community of which it is a part. An association with the University does not exempt a person from local, state, or federal laws, but rather imposes the additional obligation to abide by all of the rules and regulations of the California State University.

A student charged with a sexual abuse or sexual assault or sexual battery violation which is campus-related may be subject to prosecution under appropriate California criminal statutes, as well as being subject to student discipline under the Student Disciplinary Procedures for the California State University (Reference: Chancellor's Executive Order 628, "Student Disciplinary Procedures for the California State University"; and Title V, California Code of Regulations, Section 41301-41304, "Student Discipline").

Employees charged with a sexual abuse violation which is campus-related may be subject to prosecution under appropriate California criminal statutes, as well as being subject to discipline under the California Education Code, Sections 89535-89540. Such campus disciplinary action for employees may include demotion, suspension, or dismissal.

## Campus Reporting Procedures

Persons involved in, or possessing knowledge of, a campus-related abuse violation are strongly encouraged to notify University Police immediately. University Police may be contacted by:

- using any of the blue lighted telephones
- by depressing the red button on all public pay telephones
- simply dialing 985-4101 or 9-1-1

An officer will be dispatched and will assist the victim to a medical facility for medical care and collection of evidence. An officer will assist the victim with a police report should the victim desire to make one. An officer will remain available to the victim until a friend or relative can be located. When requested, a female investigator trained in sexually related violations will be available.

University Police shall contact one or more of the following by telephone, memorandum or both. Alternatively, the victim may contact any of the following personnel or departments.

1. Associate Vice President for Student Services (562) 985-5587, Brotman Hall 377
2. Director, University Counseling Center (562) 985-4001, Brotman Hall 226
3. Director, Student Health Center (562) 985-4771, Health Center
4. Director, Staff Personnel Services (562) 985-4031, Brotman Hall 335
5. Director, Equity and Diversity (562) 985-8256, Student Union, Rm 301
6. Director, Judicial Affairs (562) 985-5270, Brotman Hall 377
7. Director, Women's Resource Center (562) 985-8575, Liberal Arts 3-105
8. Director, Housing and Residential Life (562) 985-4187, Parkside Commons

The respective units or persons contacted will be responsible for reports, as may be required by law, to be filed for their respective unit, e.g., violations under the Child Abuse Reporting Law, Jeanne Clery Act or Megan's Law.

Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act

Access crime statistics for CSULB. These are mandated statistics known as the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act. Hard copies of this brochure may be obtained at either our main police department, our substation, by calling our main telephone line (562) 985-4101 or by downloading it in PDF format. Both are located on this campus; the main station is located at 1250 Bellflower Blvd., the most eastern boundary of CSULB and our substation is located at the Student Union outside courtyard in the center of the CSULB. This report is prepared in cooperation with the Police agencies surrounding our main campus and our alternate sites, Housing and Residential Services, the Judicial Affairs Office and the Division of Student Affairs. Each entity provides updated information on their educational efforts and programs to comply with the Act.

The following are among the options available to a victim and more than one option may be exercised:

1. Criminal Prosecution: University Police - (562) 985-4101  
Emergency: 9-1-1
2. Civil Action: Consult an attorney.
3. University Disciplinary Process, where accused is:
  - A. Faculty or Staff: Employee Relations Administrator (562) 985-4128; BH 300
  - B. Student: Director, Judicial Affairs (562) 985-5270; BH 377
4. Informal Mediation: Office of the University Ombuds (562) 985-5983.
5. Alternative Campus Housing Assignments: Director, Housing (562) 985-4187; Housing Office
6. Academic Assistance:
  - A. University Counseling Center (562) 985-4001; BH 226
  - B. Women's Resource Center (562) 985-5466; LA3-105
  - C. Academic Advising Center (562) 985-4837; Academic Services, room 125

In the event there are requests for information from the press, concerned students, parents, and others, prudence will be exercised, and when required by law, confidentiality will be maintained. When appropriate, only the Department Director (for matters strictly within the Director's purview), or the University Director of Public Affairs (for inquiries by the media), will respond.

Victims are advised that there could likely be a need to identify both the victim and the assailant in the course of investigation and hearings under University student disciplinary proceedings, as well as under employee disciplinary proceedings, or criminal prosecutions. In the case of student disciplinary actions against an assailant, the victim is required to be promptly notified by the Director, Judicial Affairs of the status of the proceedings, and the general terms of the disposition.

Persons are reminded of the importance of preserving such evidence as may be necessary to the proof of criminal sexual assault. With respect to sexual assault involving student discipline, both the accused and the accuser are entitled to have an advisor present during a campus disciplinary proceeding, and to be informed of the outcome of the campus student disciplinary proceeding. Student victims of sexual assault may request changes in academic and living arrangements precipitated by the offense where such changes are reasonably available.

## Support Services

Sexual assault violations often result in physical harm, psychological harm, or both. Even if the victim decides not to report the incident to authorities, it is urged that the victim seek medical and counseling assistance for potential emotional trauma and the possibility of sexually transmitted diseases.

- The University Counseling Center provides crisis counseling as well as ongoing assistance to students who have experienced sexual assault; (562) 985-4001.
- The University Student Health Center offers routine medical examinations, including pregnancy tests and tests for sexually transmitted diseases; (562) 985-4771.
- The University Women's Resource Center provides video tapes, books, and brochures for both men and women, and referrals to community services are also provided; (562) 985-5466.

- S.A.R.T (Sexual Assault Response Team) The University Police is an active participant of the Long Beach S.A.R.T. process. This process offers individual forensic exams to victims of sexual assault and child molestation. Coordination is with University Police, Long Beach Police Department, District Attorney's office, a forensic nurse and a rape crisis counselor. The police dispatcher activates the S.A.R.T process after the officers have connected with the victim. (562) 986-4101 or 9-1-1. S.A.R.T. is located at Long Beach Community Hospital. A victim may be driven to Long Beach Community Hospital, 1720 Termino, Long Beach for the S.A.R.T. services. The emergency room staff will contact S.A.R.T. directly.

Additionally, referrals may be made to the Rape Crisis Hotline - Long Beach area (562) 597-2002 or to the Sexual Assault Crisis Agency, (562) 433-1287 which offers a 24-hour crisis hotline:

- A. The Rape Crisis Hotline - South Bay area, (310) 545-2111;
- B. The Rape Crisis Hotline - Orange County, (714) 831-9110;
- C. Rape Treatment Center - Santa Monica Hospital (310) 319-4000;
- D. The Victim Witness Assistance Hotline, (714) 957-2737;
- E. Safe At Home Confidential Address Program 877-322-5227, [www.ss.ca.gov/safeathome/](http://www.ss.ca.gov/safeathome/).

Also, the University Counseling Center and the Career Development Center maintain lists of referrals within the community which deal with the issues of rape and sexual assault crisis, including legal, medical, and therapeutic support services. The phone number for the University Counseling Center is (562) 985-4001. The Career Development Center can be reached at (562) 985-4152.

### Victims of Violent Crime Statute

A person who has sustained physical injury as a direct result of a crime of violence, or is legally dependent for support upon a person who has sustained physical injury or death as a direct result of a crime of violence (or, in the event of a death caused by a crime of violence, has legally assumed or voluntarily paid the medical or burial expenses incurred as a direct result thereof) may qualify for indemnification by the State of California for the out-of-pocket wages, medical and/or burial expenses incurred as a result of the crime (California Government Code, Section 13959, et seq.). Claims must be filed with the State Board of Control for the State of California. The Statute provides that, absent certain extenuating circumstances, a claimant has one year from the date of the crime to file his or her claim with the State Board of Control. For further information regarding this program, contact:

University Police CSU, Long Beach 1250 Bellflower Blvd. OR Long Beach, CA 90840 Telephone: (562) 985-4101	Victims of Violent Crime Program State Board of Control State Office Bldg. No. 1, Rm. 102 Sacramento, CA 95814 Telephone: (916) 445-1540
---	--

### Privacy Rights of Students in Education Records

The federal Family Educational Rights and Privacy Act of 1974 (20 U.S.C. 1232 g) and regulations adopted thereunder (34 C.F.R. 99) set out requirements designed to protect students' privacy in their records maintained by the campus. The statute and regulations govern access to student records maintained by the campus and the release of such records.

The law provides that the campus must give students access to records directly related to the student, and must also provide opportunity for a hearing to challenge the records if the student claims they are inaccurate, misleading, or otherwise inappropriate. The right to a hearing under this law does not include any right to challenge the appropriateness of a grade determined by the instructor. The law generally requires the institution to receive a student's written consent before releasing personally identifiable data about the student. The institution has adopted a set of policies and procedures governing implementation of the statutes and the regulations. Copies of these policies and procedures may be obtained at the Office of Enrollment Services or the Office of Judicial Affairs. Among the types of information included in the campus statement of policies and procedures are: (1) the types of student records maintained and the information they contain; (2) the official responsible for maintaining each type of record; (3) the location of access lists indicating persons requesting or receiving information from the record; (4) policies for reviewing and expunging records; (5) student access rights to their records; (6) the procedures for challenging the content of student records; (7) the cost to be charged for reproducing copies of records; and (8) the right of the student to file a complaint with the Department of Education. The Department of education has established an office and review board to investigate complaints and adjudicate violations. The designated office is: Family Policy Compliance Office, U.S. Department of Education, Washington, D.C. 20202-4605.

The campus is authorized under the Act to release "directory information" concerning students. CSULB designates the following items authorized by FERPA as Directory Information: student's name, address (see below for conditions), telephone number (see below for conditions), major field of study, dates of attendance, grade level, enrollment status, degrees, honors, and awards received, and e-mail address. Addresses and telephone numbers for currently enrolled students will be released to CSULB personnel and units solely for the purpose of conducting legitimate University business. They may not be shared with individuals or organizations outside the University except in accordance with the following provisions. Addresses and telephone numbers may be released for non-commercial use by individuals or organizations outside the University provided the requests for such information have been reviewed and approved by the appropriate University personnel. Requests from the academic offices of accredited educational institutions shall be reviewed by the Provost and Senior Vice President for Academic Affairs or designee. All other requests shall be reviewed by the Vice President for Student Services or designee. Otherwise, the University may disclose any of the items designated as "directory information" above without prior written consent, unless the student provides a request that certain information not be released (non-disclosure). Requests for non-disclosure may be made directly by the student utilizing their self-service account in the student system via the Internet. If the student does not have access to the Internet, their request for non-disclosure must be requested on the "Authorization to Withhold Student Information" form, available in the Office of Enrollment Services. Specifying items as directory information allows the University to disclose this information without prior written consent. It does not require that the University release the information except under court direction. In addition to the above, the Director of Athletics

may provide information concerning participation of students in athletic events, including the height and weight of athletes.

The campus is authorized to provide access to student records to campus officials and employees who have legitimate educational interests in such access. These persons have responsibilities in campus' academic, administrative, or service functions and have reason for using student records associated with their campus or other related academic responsibilities. Student records may also be disclosed to other persons or organizations under certain conditions (e.g., as part of accreditation or program evaluation; in response to a court order or subpoena; in connection with financial aid; or to other institutions to which the student is transferring).

### Career Placement Information

The Career Development Center office may furnish, upon request, information about the employment of students who graduate from programs or courses of study preparing students for a particular career field. This information includes data concerning the average starting salary and the percentage of previously enrolled students who obtained employment. The information may include data collected from either graduates of the campus or graduates of all campuses in the California State University system.

### Use of Social Security Number

Applicants are required to include their correct social security numbers in designated places on applications for admission pursuant to the authority contained in Section 41201, Title 5, California Code of Regulations, and Section 6109 of the Internal Revenue Code (26 U.S.C. 6109). The University uses the social security number to identify students and their records including identification for purposes of financial aid eligibility and disbursement and the repayment of financial aid and other debts payable to the institution. Also, the Internal Revenue Service requires the University to file information returns that include the student's social security number and other information such as the amount paid for qualified tuition, related expenses, and interest on educational loans. That information is used by the IRS to help determine whether a student, or a person claiming a student as a dependent, may take a credit or deduction to reduce federal income taxes.

Taxpayers who claim Hope Scholarship or Lifetime Learning tax credit will be required to provide the campus with their name, address, and Taxpayer Identification Number to the campus.

## Security on Campus

### Campus Security Act

California State University, Long Beach University Police, obtains its powers to arrest from the California Penal Code and the California Education Code.

### Reporting Emergencies on Campus

The on-campus emergency phone number is 9-1-1. The non-emergency phone number is (562) 985-4101. Any problems concerning behavior of members of the campus community, thefts, vandalism, fire, and all related matters should immediately be brought to the attention of the University Police.

## Procedures for Reporting Crimes on Campus

Whenever students or employees become victims of a crime while on the campus of CSULB, or whenever they have witnessed a crime or feel that there is a possibility that a crime is about to occur, they should notify University Police as soon as possible. There are numerous emergency phones located throughout the campus and parking lots, which are direct lines to the University Police dispatcher. Contact University Police by simply locating the nearest emergency phone or by using the emergency phone that is located in all elevators. Individuals may also contact the mobile police units that patrol the campus on a 24-hour schedule. Parking enforcement officers also patrol the parking lots and have direct radio contact with the police dispatcher and the mobile police units. The University Police is located at the far east end of campus, between parking lot "11" and parking lot "9" on Palo Verde Avenue. The Department is open 24 hours a day to respond to any call for service or to any emergency.

### Opening Classrooms

Custodians are responsible for unlocking all outside doors and classrooms which do not contain equipment (audiovisual, computers, etc.) at 7:00 am. University Police personnel are responsible for opening buildings on weekends and holidays. Persons requesting a door opened must have proper authorization. Questions of interpretation and special access matters should be directed to University Police.

### Security of Buildings

It is the responsibility of the person assigned to an office to ensure that the door is locked at the conclusion of work. Further, it is the responsibility of the last instructor teaching in a classroom to ensure that the door is secure and the lights are turned off when the class is concluded. In areas where equipment technicians are employed, it will be their responsibility to secure all doors at the end of the working day. University Police will ensure that all buildings are secured every night. An individual desiring to remain in a building after normal closing hours is required to notify University Police.

Personnel who require access to buildings and rooms must request keys with appropriate departmental approval. Individuals granted special access to rooms and buildings must assume personal responsibility for facilities and equipment during the time they are using these facilities and equipment. Should a faculty or staff member require access to a particular building or room after normal instructional or working hours, presentation of identification to University Police is required. Failure to present proper identification to University Police is grounds to deny the request for access to the building. Graduate Assistants and other students who require entrance to a building during other than normal hours must have proper identification and prior approval in writing from the appropriate administrator. This authorization must be on file with University Police.

Anyone who has difficulty in gaining authorized access to an area or who needs assistance in securing a building or room should contact University Police.

### Policy Concerning Law Enforcement on Campus

California State University Police Officers are sworn Law Enforcement Officers under California Penal Code, Section 830.2, and in compliance with State Statute meet the peace

officer standards and training requirements mandatory for all California law enforcement officers. In addition, California State University Police Officers undergo training specially designed to meet the needs and problems of a contemporary university community.

The primary responsibility of the University Police is the preservation of the public peace and the protection of life and property against all unlawful acts. The department will take all possible measures to prevent crime and accidents, investigate thoroughly all suspicious and criminal activity, and apprehend offenders quickly in all cases where crimes are committed.

#### Type and Frequency of Programs to Inform Campus Personnel About Security Procedures and Practices

University Police actively invites fraternities and sororities, as well as sports groups and clubs on campus, to participate in the "Acquaintance/Date Rape" lectures. These classes are scheduled flexibly at no charge to meet the group's needs. The University Police also conducts new employee, new student, and special groups orientations. Officers routinely address residence hall students on a variety of topics, such as drug and alcohol abuse, and the problem of sexual assaults.

#### Programs Designed to Prevent Crime

University Police offers an evening escort service for all students and employees. They are picked up and escorted to their vehicles or to the residence halls.

University Police provides employees with information about California law and how to avoid being a victim. Advice is also provided about securing valuables and protecting vehicles.

#### Statistics on Major Crimes

University Police reports statistics on major crimes monthly to the Office of the President, to the Chancellor's Office, and to the Department of Justice.

Information concerning CSULB policies, procedures, and facilities for students and others to report criminal actions or other emergencies occurring on campus may be obtained from University Police, (562) 985-4101.

Information concerning CSULB annual crime statistics reports may be obtained from University Police, (562) 985-4101.

#### Firearms on Campus

Any person who brings or possesses a firearm on the grounds of the University, without the prior written permission of the Chief of University Police, or as otherwise provided by law, is in violation of State law (California Penal Code, Section 626.9), and University Regulations, and is punishable by imprisonment. Any person who brings or possesses a device that expels a metallic projectile, such as a B-B or pellet, through the force of air pressure, CO2 pressure, or spring action, or a spot-marker gun, on the grounds of the University, without the permission of the University Police, is in violation of University Regulations; such action may result in University or legal sanctions.

#### Off-Campus Monitoring of Criminal Activity at Campus Events

The University Police Department has a close working relationship with the City of Long Beach Police Department. The meetings are on a monthly basis and discuss areas of possible problems. Reports are exchanged with LBPD, LASO, and other police departments.

#### Policy for the Use of Alcohol and Drugs on Campus

Alcoholic beverages generally may not be consumed on campus except at sponsored events and with specific approval of the Director of Student Life and Development.

Alcoholic beverages may only be consumed on University premises that have been licensed by the Department of Alcoholic Beverage Control or on other University premises at "approved group sponsored events." Sponsors of such events must obtain prior written approval from the office of Student Life and Development. Approval normally will be limited to events in such areas as the University Student Union, the Soroptimist House, or the Chart Room.

The solicitation, sale, use or knowing possession of dangerous drugs, restricted dangerous drugs, or narcotics, as those terms are used in California statutes, is prohibited on campus property. Excepted are drugs which are lawfully prescribed or lawfully permitted for the purpose of bona fide research, instruction or analysis.

CSULB is dedicated to the elimination of the use of illicit drugs and alcohol abuse. The CSULB Student Health Center offers substance-abuse consultation programs for students, faculty and staff who may need assistance in overcoming the personal problems associated with alcohol or drug abuse. These programs include a Student Assistance Program for students, an Employee Assistance Program for faculty and staff, and an Athletic Assistance Program for student athletes (offered as a separate program due to NCAA requirements). All contacts with the Health Center and its personnel are confidential.

More detailed descriptions of campus regulations concerning alcohol and drugs may be found in the current editions of the *CSULB Catalog*, the *CSULB Schedule of Classes*, *Regulations for Campus Activities*, *Organizations*, and the *University Community*, and the *Faculty, Staff and Student Handbooks*.
