About the Annual Report	The purpose of the Annual Report is to follow a program's current progress towards learning outcome assessment. This is a requirement to maintain accreditation. Submitting an Annual Progress Report provides statistics for the previous academic year, specifying improvements made, reporting any significant changes and reporting on status of the 1.0 series standards and standards 2.05.05, 3.06, 3.07, and the 7.0 series. Institutions with multiple accredited programs will be required to report on the 7.0 series for each individually accredited program. Each accredited program requires its own separate annual report. For example if your institution has two accredited programs e.g. Therapeutic Recreation and Recreation Management you will complete two separate annual reports. The purpose of the Annual Report is to provide a snapshot of your student learning outcome data collection for the previous calendar year. (January - December) Posting requirements for the program's website include student learning outcome aggregate data from the most recent spring and fall academic year.
