

## **JENNIFER MUNIVE**

### **JUNIOR RESEARCH ASSISTANT**

My name is Jennifer Munive, I am a senior majoring in Psychology with minor in Child Development. I find the study of language at the Cohabit PsyLing Lab exciting as it is the source of communication, and I believe that it is the root of survival in humanity.

My hobbies include reading, from Shakespeare to Stephen King, and listening to true crime shows and podcasts and anything supernatural. I am a mother of a two-year-old who is my inspiration for studying child development and finishing school. Glad to help others and listening to anyone who needs it.
