Welcome to the first production of Cal Rep's 29th Season! I'm thrilled to launch this season with Associate Professor Ezra LeBank's fresh adaptation of the Lewis Carroll classic. It's based on a children's book, but it's a show for everyone. It's about the ways wonder can lead us on a "curiouser and curiouser" journey. It's about the ways imagination can allow us to believe – and do – "impossible things." And it's about the deep discovery of oneself through the power of art and storytelling. Matched with Ezra's propulsive physical theatre approach – this is an example of what we do best at Cal Rep: we take the classics, shake them up in dynamic ways and showcase the next generation of artists who will lead the American theatre.
